

Haider Abdul-Lateef Mousa MB ChB, MSc, Lecturer

Specialist physician of Internal Medicine and Infectious Diseases

College of Medicine, University of Basrah, Iraq

E-Mail: haideramoua@hotmail.com

Phone 009647808595467

Mailing address: PO Box 601, Post code 42001, Ashar, Basrah, Iraq.

Qualifications

- **M.B., Ch.B.** (Medicine Bachelor): from 1981 to 1987, obtained on July 11, 1987, from College of Medicine, University of Basrah, Iraq. **Accomplishment:** My rank of graduation is within the top ten out of the 138 graduated students (passed students) of the Medical College. Therefore, my employment was transferred from Ministry of Health to Ministry of Higher Education and Scientific Research according to a country decree that involved the top ten graduated students of the Medical Colleges, Iraq.
- **M.Sc.** (Master) degree in Infectious Diseases & Medical Microbiology; from 1991 to 1993, obtained on January 31, 1994, from College of Medicine, University of Basrah, Iraq.
- Title of the thesis: *Microbiological Evaluation of Acute and Chronic Osteomyelitis.*
- **Accomplishment:** My MSc thesis research work was rewarded grade: *very good.*
- **Currently studying a 'Postgraduate PhD degree in Occupational Medicine' with The Universiti Putra Malaysia (UPM), Malaysia.**

Research interest

- Infectious Diseases
- Internal Medicine
- Medical Microbiology
- Tuberculosis
- Anaerobic bacterial infections
- Fungal infections
- Epidemiology
- Burns
- Orthopaedic and bone Infections
- Spine Infections
- Occupational Medicine
- Environmental Health

Treatment and prevention of viral infections by natural means

- Respiratory viruses are a major cause of influenza-like illness (ILI) symptoms in children and adults, leading to substantial morbidity and mortality each year. Several herbal therapies were used for prevention and treatment viral respiratory illnesses. There is scientific evidence about several complementary health practices for colds. Probiotics were found better than placebo in reducing the number of participants experiencing episodes of acute URTIs. Diarrhea associated with rotavirus is one of the major gastrointestinal problems faced by human infants. The protective effectiveness of probiotic feeding against naturally acquired diarrhea is also under investigation. Alkalinization of blood by diet or naturally may prevent or cure influenza. Disintegration of influenza A, B and C virion appeared to depend on pH level of the medium. Diet and drinking water play important role in the pH level of blood. In a slightly alkaline environment viruses might be weakened or do not multiply efficiently. Immune function may work better in alkaline medium as well. Earthing or grounding is another natural anti-inflammatory and antioxidant source for human body. It is now accepted that an overwhelming inflammatory response is the cause of human deaths from avian H5N1 influenza infection. Earthing accelerated immune response following vaccination, as demonstrated by increases of gamma globulin concentration.

Researcher Links

- **ResearcherID: B-5162-2013**
- **ResearcherID Link:** <http://www.researcherid.com/rid/B-5162-2013>
- **Google scholar h-index: 9. Accomplishment:** My published articles were cited in 261 articles, scientific researches, books, and thesis,. (<http://scholar.google.com/citations?user=qJ8Pw74AAAAJ>)
- **Orcid:** <http://orcid.org/0000-0002-2437-263X> , **Orcid ID: 0000-0002-2437-263X**
- **ResearchGate total impact factor: 14.65. Accomplishment:** My score is higher than 55% of ResearchGate members. (https://www.researchgate.net/profile/Haider_Mousa3/)

Posts held since graduation

- ***Internship / House Officer (Resident doctor)*** at Babylon Teaching Hospitals, Ministry of Health, Iraq, during the period of August 29, 1987 to November, 30/ 1988. Three months at each branch of Medicine, Surgery, Gynecology and Obstetrics, Pediatrics, and orthopedics; Babylon, Ministry of Health, Iraq. Duty: medical management of in-patients and out-patients who attend to teaching hospitals. Scheduled duties in the emergency departments of surgery, medicine, pediatrics, gynecology and orthopedics. **Accomplishment:** Thanks and appreciation from Babylon Teaching Hospital Manager for my distinguished, fruitful, and charitable efforts in the service of patients admitted to the Hospital.

On December 1, 1988, the employment was transferred from Ministry of Health to Ministry of Higher Education and Scientific Research according to a country decree that involved the top ten graduated students of the Medical Colleges, Iraq.

General Physician and Demonstrator at the College of
Medicine, University of Basrah, and Basrah University Teaching
Hospital, Ministry of Higher Education and Scientific Research,
Iraq, from December 1, 1988 to October 20, 1991, Basrah, Iraq.
Duty: demonstrator; teaching and undergraduate medical college
students and participating in research activities.

Assistant Lecturer, from March 31, 1994 to February 21, 1997, College of Medicine, University of Basrah, Ministry of Higher Education and Scientific Research, Iraq. Duty: Teaching of undergraduate and postgraduate medical college students, and performing researches in the field of medical microbiology and infectious diseases.

Lecturer, for the academic year 1989-1990, Basrah Technical Institute-Medical Division, Basrah, Ministry of Higher Education and Scientific Research, Iraq. Duty: Theoretical and practical teaching of Basrah Medical Technical Institute students of the following subjects: Medical Microbiology, First Aids, and Medical Ethics.

Lecturer, from February 22, 1997 to February 19, 1998, College of Medicine, University of Basrah, Ministry of Higher Education and Scientific Research, Iraq. Duty: Teaching of undergraduate and postgraduate medical college students, and performing researches in the field of medical microbiology and infectious diseases.

Accomplishment: I published many researches in several respected international medical journals, which had boosted the reputation of College of Medicine, University of Basrah.

Specialist physician of Internal Medicine and

Infectious Diseases, at Medical Center, Ministry of Health,

Tripoli, Libya, from April 23, 1998 to September 29, 1999.

Duty: Medical management of out-patients and in-patients

who attend to medical center.

Specialist physician of Internal Medicine and Infectious Diseases, at Libyan Red Crescent, Tripoli Branch, Tripoli, Libya, from February 1, 1999 to February 27, 2000. Duty: Medical management of out-patients who attend to Libyan Red Crescent Clinic.

Specialist physician of Internal Medicine and Infectious Diseases, at Waha Oil Company, National Oil Corporation (N.O.C.), Tripoli, Libya, from February 28, 2000 till now. Duty: management of in-patients and out-patients, and medical and surgical emergencies attending to Waha Oil Company Clinics.

Trainings, Skills, and Certificates

- Two courses in Computer Science were studied in Computer Unit, College of Medicine, University of Basrah, Iraq.
- Two courses in Methods of Teaching set by Department of Psychology, College of Education, University of Basrah, Iraq.
- A course entitled the proper way of performing a scientific research, set by Department of Community Medicine, College of Medicine, University of Basrah, Iraq.
- Having good experience to operate on computer (Word, Excel, PowerPoint).
- Certificate for Basic Health, Safety, and Environment (HSE) NORM Awareness Program a training course on radiation and contamination in oil fields set by Craddock Inc. on March 10, 2013.
- Proficiency with statistical package SPSS.

Membership of societies

- Member of ***Iraqi Medical Association***, Registration No. 14752 on August 18, 1987.
- Member of ***Pan-Arab Society of Trauma & Emergency Medicine***, Membership No. 302 on July 11, 2004.
- Member of the ***International Society for Infectious Diseases***, April 17, 2013.
- Member of the ***Society of Asian Scientists and Engineers (SASE)***.
- Member of ***Index Copernicus Scientists***, September 6, 2013. 6. Member of ***The Science Advisory Board***. October 16, 2013. Address: The Science Advisory Board, 2111 Wilson Boulevard, Suite 250, Arlington, VA 22201.
- Member of ***International Society of Iraqi Scientists***. Metropolitan Detroit, Michigan, United States of America. May 28, 2014.
- Member of ***Genetics Society of Malaysia***. Malaysia, April, 2014.

Certificates of Thanks and Appreciation from

- Babylon Teaching Hospital Manager, 1988, Babylon, Iraq: for efficient medical job in the departments of emergency medicine and hospital.
- For participation with postgraduate student in performing research for Master degree in Medical Microbiology project “Chronic otitis media bacteriology”, 1989-1990, College of Medicine, University of Basrah, Iraq.
- Basrah University Chancellor which numbered 7/35/5272 on April 8, 1990, Iraq: for surveillance, follow up, and health assessment of Basrah University restaurants and dormitories.
- Dean, College of Medicine, University of Basrah on May 21, 1991, Iraq: For investigation of emergence of viral hepatitis among student in Basrah University dormitories.
- Abdul Hameed Shoman Foundation for Young Arab Researchers, Amman, Jordan. Appreciation from the Scientific Judging Committee for my significant researches and publications for 2001 Award.
- Chairman Management Committee, Waha oil Company, Tripoli, Libya, 2006: for five successive year’s efficient medical job.
- IBN ALNAFIS HERBS Inc. / CANADA, on September 11, 2011, Ontario, Canada: for efficient role in the development of medical herbal products.
- Chairman Management Committee, Waha oil Company, Tripoli, Libya, June 11, 2011: for ten successive year’s efficient medical job.
- Chief Editor, Basic Research Journals of Medicine and Clinical Sciences, Dr. Okechukwu Samuel Oge. **Letter of Attestation:** for my immense contribution to the growth of the journal by reviewing of the articles submitted for publication. July 5, 2014.

OMICS Group Open Access Membership

OMICS publishing Group Open Access Membership enables academic and research institutions, funders and corporations to actively encourage open access in scholarly communication and the dissemination of research published by their authors.

For more details and benefits, click on the link below:

<http://omicsonline.org/membership.php>

OMICS Journals are welcoming Submissions

OMICS Group welcomes submissions that are original and technically so as to serve both the developing world and developed countries in the best possible way.

OMICS Journals are poised in excellence by publishing high quality research.

OMICS Group follows an Editorial Manager® System peer review process and boasts of a strong and active editorial board.

Editors and reviewers are experts in their field and provide anonymous, unbiased and detailed reviews of all submissions.

The journal gives the options of multiple language translations for all the articles and all archived articles are available in HTML, XML, PDF and audio formats. Also, all the published articles are archived in repositories and indexing services like DOAJ, CAS, Google Scholar, Scientific Commons, Index Copernicus, EBSCO, HINARI and GALE.

For more details please visit our website:
