This course is the second in a required sequence of core quantitative analysis in the full-time MBA curriculum that provides an introduction to statistical and probabilistic analysis with a focus on practical decisions and risk analysis using quantitative models and Microsoft Excel. The topics covered in this course and QA 701 include descriptive and graphical statistical methods, sampling and sampling distribution, estimation, hypothesis testing, analysis of variance, regression, decision modeling and simulation. This course assumes prior basic knowledge of Excel. The third required course in this sequence is QA 703. Prereq: 22QA701. Credit Level: G. Credit Hrs: 2.00

22QA703**Optimization Models for Managers**

Overview of linear, integer and nonlinear optimization models in business, focusing on modeling, solution and interpretation of results. Substantial use of spreadsheet modeling and analysis. This course is the third in a required sequence of core quantitative analysis courses in the full-time MBA curriculum that provide an introduction to statistical and probabilistic analysis with a focus on practical decisions and risk analysis using quantitative models and Microsoft Excel. The first two courses in the sequence are QA 701 and QA 702. Prereq: 22QA701, 22QA702. Credit Level: G. Credit Hrs: 2.00

22QA711**Statistics and Decision Models for Managers**

Introduction to statistical and probabilistic analysis with focus on practical decisions and risk using quantitative models and Microsoft Excel. Topics include descriptive and graphical statistical methods, sampling and sampling distributions, estimation, hypothesis testing, analysis of variance, regression, decision modeling, and simulation. Assumes prior basic knowledge of Excel. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Quantitative Analysis**22QA711****Statistics and Decision Models for Managers**

Introduction to statistical and probabilistic analysis with focus on practical decisions and risk using quantitative models and Microsoft Excel. Topics include descriptive and graphical statistical methods, sampling and sampling distributions, estimation, hypothesis testing, analysis of variance, regression, decision modeling, and simulation. Assumes prior basic knowledge of Excel. Credit Level: G. Credit Hrs: 4.00

22QA712**Optimization Models for Managers**

Overview of linear, integer, and nonlinear optimization models in business, focusing on modeling, solution, and interpretation of results. Substantial use of spreadsheet modeling and analysis. Prereq: 22QA711. Credit Level: G. Credit Hrs: 2.00

22QA721**Methods of Statistics**

A survey of statistical methodologies useful for research in a variety of disciplines. Estimation, significance testing, regression, ANOVA and computer applications. Credit Level: G. Credit Hrs: 4.00

22QA722**Regression Analysis**

Estimation and inference making using regression models; method of least squares, formal methods of inference, model diagnostics based on analysis of residuals, use of dummy variables, variable selection and model building. Introduction to logistic models. Prereq: 22QA721. Credit Level: G. Credit Hrs: 4.00

22QA723**Sample Survey**

Statistical aspects of sample survey. Survey designs; simple random, stratified, cluster, multi-stage, and probability proportional to size sampling. Estimation methods for means, totals, ratios, and proportions. Planning and implementing surveys. Prereq: 22QA721. Credit Level: G. Credit Hrs: 4.00

22QA724**Multivariate Methods**

Multivariate normal distribution, its parameters and model diagnostics. Statistical analyses involving multivariate means, covariance and correlation matrices; Special multivariate techniques; principle components, canonical, discriminant, and factor analyses. Prereq: 22QA722, 22QA731. Credit Level: G. Credit Hrs: 4.00

22QA725**Forecasting and Time Series Analysis**

Univariate Box-Jenkins time series modeling for stationary and nonstationary processes. Forecasting seasonal and nonseasonal time series. Special forecasting techniques such as transfer function modeling, and intervention analysis. Prereq: 22QA721. Credit Level: G. Credit Hrs: 4.00

22QA726**Design of Experiments**

Basic concepts of experimental design. Linear statistical models; analysis of variance and estimation for completely randomized and various blocked designs; analysis of covariance; analysis of unbalanced data; random and mixed models; repeated measures, split-plot, and nested designs. Prereq: 22QA722. Credit Level: G. Credit Hrs: 4.00

22QA727**Data Mining**

Hands-on data analysis experiences on real world data with varying topics from year to year using major statistical software, such as SAS and Splu. Case studies involving data management and model fitting; model interpretation and diagnostics. Model approaches including exploratory data analysis; linear models; generalized linear models; classification and regression trees; kernel, splines, and additive models. Prereq: 22QA722. Credit Level: G. Credit Hrs: 4.00

Quantitative Analysis**22QA731****Probability**

A solid conceptual foundation for students who require a moderately rigorous treatment of probability. Random variables, stochastic independence, probability distributions, moments, functions of random variables, asymptotic statistics. Credit Level: G. Credit Hrs: 4.00

22QA732**Fundamentals of Statistical Inference**

Foundations in statistical estimation and hypothesis testing from frequentist and Bayesian perspectives; sufficiency, efficiency, minimum variance unbiased estimation, maximum likelihood estimation, likelihood ratio testing. Prereq: 22QA731. Credit Level: G. Credit Hrs: 4.00

22QA733**Statistical Decision Theory and Bayesian Analysis**

Elements of the basic decision theoretic paradigm from the Bayesian and frequentist view point. Introduction to game theory, utility theory, and subjective probability. Bayesian statistical methods. Prereq: 22QA731, 22QA732. Credit Level: G. Credit Hrs: 4.00

22QA750**Optimization Modeling**

Model formulation, graphical analysis, computer solution and application, for linear, nonlinear, continuous, integer, deterministic, and probabilistic mathematical optimization models. Required projects in modeling and solving applications. Prereq: 22QA712. Credit Level: G. Credit Hrs: 4.00

22QA751**Optimization Analysis**

Solution techniques and analyses for linear, non-linear, network and integer optimization models including: optimization criteria, simplex routines, duality, sensitivity; Lagrangian duality, gradient, and penalty methods for constrained and unconstrained nonlinear models; and branch-and-bound and cutting plane methods for integer models. Prereq: 22QA750. Credit Level: G. Credit Hrs: 4.00

22QA752**Advanced Topics in Optimization**

Solution techniques and analyses for linear, non-linear, network and integer optimization models including: optimization criteria, simplex routines, duality, sensitivity; Lagrangian duality, gradient, and penalty methods for constrained and unconstrained nonlinear models; and branch-and-bound and cutting plane methods for integer models. Prereq: 22QA751. Credit Level: G. Credit Hrs: 4.00

22QA760**Stochastic Modeling**

Formulation and analysis of discrete and continuous Markov chains, Poisson process, and birth-death processes. Application in queuing, inventory, and reliability. Required project in modeling and solving applications. Prereq: 15MATH264, 22QA731. Credit Level: G. Credit Hrs: 4.00

22QA761**Advanced Topics in Stochastic Modeling**

Construction and application of stochastic models including Markov processes, birth and death processes, branching and queuing processes; Poisson process, Gaussian process, Brownian motion; introduction to stochastic calculus. Prereq: 22QA760. Credit Level: G. Credit Hrs: 4.00

22QA770**Risk Modeling**

Static simulation models using Monte Carlo simulation to assess risk with applications in the functional areas of business. Prereq: 22QA712. Credit Level: G. Credit Hrs: 2.00

22QA771**Simulation Modeling**

Building simulation models of complex dynamic, stochastic, discrete-event systems using high level simulation software. Topics include modeling, input and output analysis and managing simulation projects.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Quantitative Analysis**22QA771****Simulation Modeling**

Prereq: 22QA711. Credit Level: G. Credit Hrs: 4.00

22QA772**Simulation Analysis**

Probabilistic and statistical underpinnings of simulation modeling.

Topics include random number generators, generating random variates and processes, design and analysis of simulation experiments, variance reduction techniques, gradient estimation and simulation optimization.

Prereq: 22QA771. Credit Level: G. Credit Hrs: 4.00

22QA781**Individual Study**

Individual study under the direction of a faculty member. Credit Level:

G. Credit Hrs: 1.00-4.00

22QA782**Special Topics in QA**

In-depth study of special topics in Quantitative Analysis. Credit Level:

G. Credit Hrs: 1.00-4.00

22QA785**Applications Development Using VBA**

The use of visual basic for applications for the development of applications of management science models for planning and decision support in a spreadsheet environment. Prereq: 22QA750. Credit Level: G. Credit Hrs: 4.00

22QA786**Case Studies in Management Science**

Cases and applications of group-oriented operations research for real-world management applications. Prereq: 22QA750. Credit Level: G. Credit Hrs: 4.00

22QA895**Seminar in Quantitative Analysis**

Recent journal articles dealing with the state-of-the-art development will be covered. Variable cr. Credit Level: G. Credit Hrs: 1.00-6.00

22QA971**Research in Quantitative Analysis**

Variable cr. Credit Level: G. Credit Hrs: 1.00-15.00

22QA981**MS Thesis Research**

Variable cr. Credit Level: G. Credit Hrs: 1.00-9.00

22QA991**PhD Dissertation Research**

Variable cr. Credit Level: G. Credit Hrs: 1.00-15.00

Real Estate**22RE391****Principles of Real Estate**

Survey of real estate industry. Emphasis on housing market analysis, city growth; valuation and finance. Methods of determining land use and evaluation. Prereq: 22FIN352, 22QA375, 22MKTG377, 22OM385, 22INTB390. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22RE395**Real Estate Finance**

This course focuses on the technical skills required to value, finance and structure real estate transactions. Topics include basic mortgage calculation and analysis using FRM and ARM examples; investment analysis for existing income properties (Proforma cash flow projections, financial ratios, alternative debt and equity structures and risk analysis); ownership, taxation, and financial structures; financing of real estate development; and the securitization of debt and equity interests in real estate (REITs and CMBS). Prereq: 22RE391. BoK: NA. Credit Level: U. Credit Hrs: 4.00

Real Estate**22RE400****Property and Asset Management**

The course is designed to introduce the student to the field of real estate property management by reviewing the basic functions, roles and responsibilities of the property manager and the differing property types managed. Within the scope & responsibilities of the property manager, we shall also study tenant, asset manager and owner relations, landlord/tenant laws, lease forms, building maintenance and capital replacement issues, and gain on-site insights of key property cost centers such as roofs, paving, mechanical systems and property tax appeals. Prereq: 22RE391. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22RE492**Real Estate Valuation**

This course develops the theory and application of methods to value real property. Specifically, the course examines systematic methods to value residential and income producing property, influences upon market value, and trends in the appraisal industry. Prereq: 22RE391. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22RE497**Real Estate Law**

Nature of ownership rights; sale of land; broker-agency relationship; real estate finance; landlord-tenant relationship, control of land use; commercial development; succession of estates. Prereq: 22BLAW271, 22RE391. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22RE593**Special Topics in Real Estate**

Usually offered as a research and writing class with each student selecting their own topics to research. Emphasis on research and writing skills. BoK: NA. Credit Level: U. Credit Hrs: 1.00-4.00

22RE596**Guided Study in Real Estate**

Individual study under the direction of a faculty member. Variable cr. Offered ea. qtr. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22RE598**Real Estate Development**

The purpose of this course is to review property trends and market analysis techniques, as well as the general process of development from a business perspective. The emphasis is upon market and feasibility analysis methods as applied to real estate. In addition, the purpose of this course is to explore different negotiation strategies and models within the context of well prepared real estate and development projects, and use whatever methodologies are appropriate in preparation for the negotiation cases. Prereq: 22RE395, 22RE391. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22RE731**Real Estate Analysis**

This is the introductory real estate course. It focuses on urban economics and real estate market analysis. Topics include the determination of land use, rents, and values and the impact of transportation costs on these. An introduction to valuation, financing and investment methods is also provided. Prereq: 22FIN711. Credit Level: G. Credit Hrs: 4.00

22RE742**Real Estate Finance and Investment**

This course combines two courses in five-week modules, real estate finance and real estate investment. It focuses upon technical skills required to analyze and finance income producing property. Proforma cash flow projections, financial ratios, debt financing sources and structures are covered including the CMBS market. Real estate investment risk analysis portfolio theory, as well as REITs and current real estate capital market trends are also examined. Prereq: 22FIN711. Credit Level: G. Credit Hrs: 4.00

22RE750**Real Estate Cases, Development and Negotiation**

This course covers real estate feasibility analysis, development,

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Real Estate**22RE750****Real Estate Cases, Development and Negotiation**

leasing, and negotiation within a case study framework. Teams may engage in negotiation exercises using real life cases. Special projects and speakers are also brought into this course. Prereq: 22FIN711. Credit Level: G. Credit Hrs: 4.00

22RE781**Individual Study**

Individual study under the direction of a faculty member Credit Level: G. Credit Hrs: 1.00-4.00

22RE851**Real Estate Management Strategies, Negotiations, & Case Analysis**

Management of development, leasing, negotiation, & marketing activities in a real estate firm. Case practices. Prereq: 22FIN811. Credit Level: G. Credit Hrs: 3.00

COLLEGE-CONSERVATORY OF MUSIC

COURSE DESCRIPTIONS

(16) College-Conservatory of Music

2008 - 2009

College-Conservatory of Music 1

Arts Administration

16AADM560

Independent Study

Practicum covers the basic operations of performing arts institutions by assigning students to specific tasks with practicing arts organizations or in research study related to same. Students work as assigned in the areas of publicity, concert management, marketing, grant and funding projects, tour arrangements, etc. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16AADM630

Special Topics

Topics established every quarter by Department/Division. Permission of instructor and division. BoK: NA. Credit Level: U, G. Credit Hrs: 0.00-3.00

16AADM660

Arts Administration for Non-Majors

A survey of the structure, governance, and management problems of Arts Institutions, including finance management, fund raising, marketing, and legal issues. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

16AADM760

Computer Skills in the Arts

Basic computer skills necessary to operate spreadsheet and database software for nonprofit organization management. Area majors only. Credit Level: G. Credit Hrs: 1.00

16AADM771

Introduction to Arts Administration

An overview of the problems and issues involved in managing a nonprofit cultural organization in America. Credit Level: G. Credit Hrs: 3.00

16AADM781

Funding and Grants

Studies methods of securing funds from private and public sector sources. Grants research and writing included. Credit Level: G. Credit Hrs: 3.00

16AADM788

Marketing the Arts

Survey of marketing theories and practices as they apply to arts products and services. Emphasis placed upon applying marketing principles in the strategic planning process. Credit Level: G. Credit Hrs: 3.00

16AADM798

Performing Arts Production Management

Survey of concepts and management practices as they apply to venue and production management, including the legal and operational aspects of performing arts institutions. Credit Level: G. Credit Hrs: 3.00

16AADM799

Museum Management

An introduction to the basic principles, concerns, and functions of museum management including problems of collections, exhibits, conservation, and education. Credit Level: G. Credit Hrs: 3.00

16AADM801

Financial and Strategic Management

Survey of financial and strategic management principles, theories, and practices as they apply to arts organizations. Emphasis placed upon the development of budgets and financial reporting and control procedures. Credit Level: G. Credit Hrs: 3.00

16AADM802

Organization Structure and Staffing

An application of the principles of organizational management for arts administration, with particular focus on board of trustees, relationships

Arts Administration

16AADM802

Organization Structure and Staffing

with artistic staff, and volunteers, and the legal aspects of HR management and contracts. Prereq: 16AADM801. Credit Level: G. Credit Hrs: 3.00

16AADM803

Public Policy and the Arts

A study of the public policies and public agencies which affect the nonprofit cultural organizations in America including tax policies, censorship, federal-state conflicts and cooperative programs, advocacy and political action, and the impact of funding agency programs. Credit Level: G. Credit Hrs: 3.00

16AADM811

Public Relations and Communications

Through a series of exercises in written and oral communication, the course enhances a student's ability to express themselves clearly and efficiently and to successfully manage a public relations program for an arts organization. Credit Level: G. Credit Hrs: 3.00

16AADM812

Arts and Education

Survey of current education programs and practices in professional arts organizations as they relate to the role of the arts in elementary and secondary schools. Emphasis placed upon cooperative programs among arts organizations, schools, and school systems to integrate the arts into the general curriculum. Credit Level: G. Credit Hrs: 3.00

16AADM813

Internet Marketing and PR for the Arts

Covers best practices of arts marketing, public relations, and other arts administration concentration as they relate to using the internet and database management. Prereq: 16AADM788. Credit Level: G. Credit Hrs: 3.00

16AADM840

Internship

Field experience in a given arts field with a producing organization. Credit Level: G. Credit Hrs: 1.00-18.00

16AADM860

Independent Study

In-depth study of a topic in arts administration selected by the student in consultation with a member of the faculty. Credit Level: G. Credit Hrs: 1.00-9.00

16AADM870

Current Issues Forum

Weekly roundtable discussion of current issues in arts management led by faculty in the program and guest speakers. Credit Level: G. Credit Hrs: 0.00-1.00

16AADM872

Legal Aspects of Arts Administration

The legal problems of managing a nonprofit cultural organization. A basic introduction to copyright law, contracts, employment issues, tax structures, and other legal and business concerns of the Arts Manager. Credit Level: G. Credit Hrs: 4.00

16AADM880

Research Problems in the Arts

Each student is asked to examine, independently, research and develop an arts-related topic based on internship experiences. The study is used as the basis of the graduate student's oral examination. Credit Level: G. Credit Hrs: 1.00-9.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Arts Administration**16AADM899****Master's Candidacy**

Retention of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

Bassoon**16BSN100****Bassoon Major Study**

Selected studies for the refinement of basic techniques; development of facility in middle and upper range and in tenor clef; refinement of vibrato; extension of phrasing concepts; study of major and minor scales in two octaves. Reed-making. Weissenborn, 50 Studies; Valet, 20 Studies; Oubradous, Enseignement I; Telemann, Sonata in f; Stevens, 3 Pieces; Phillips, Concert-piece; Vivaldi, Concerti F #1, #5, #7. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16BSN110**Bassoon Concentration**

First year study for bassoon students in the B.A. program in music. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16BSN120**Bassoon Secondary**

First-year secondary study in bassoon as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16BSN200**Bassoon Major Study**

Selected studies for increased facility in upper range; all scales at increased speeds; tonic arpeggios in all keys. Independent reed-making required. Orchestral studies. Milde, Concert Studies I; Orefici, Melodic Studies; Jancourt, 26 Melodic Studies; Oubradous, Enseignement II; Hindemith, Sonata; Mozart, Concerto; Vivaldi, Concerti F. #13, #17; Fasch, Sonata; David, Concertino. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16BSN210**Bassoon Concentration**

Second-year study for bassoon students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16BSN220**Bassoon Secondary**

Second-year secondary study in bassoon as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16BSN300**Bassoon Major Study**

Selected studies for increased facility in extreme ranges; concentration on musical and stylistic concepts; integration of previously studied skills; all scales and arpeggios with increased range and speed of articulation; major scales in thirds; extension of upper range. Orchestral studies and chamber music excerpts. Milde, Concert Studies I and II; Gambaro, 18 Studies; Oubradous, Enseignement III; Weber, Andante and Hungarian Fantasy; Osborne, Rhapsody; Etler, Sonata. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16BSN310**Bassoon Concentration**

Third-year study for bassoon students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16BSN320**Bassoon Secondary**

Third-year secondary study in bassoon as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16BSN400**Bassoon Major Study**

Selected studies for concentration on musical and stylistic concepts; beginning study of double tonguing; all scales and arpeggios at increased speeds; Orefici, Bravura Studies; Giampieri, Daily Studies for

Bassoon**16BSN400****Bassoon Major Study**

Perfection; Orchestral studies; Jacob, Concerto; Bozza, Fantaisie; Tansman, Sonatine; Weber, Concerto; Mozart, Duo Sonata; Bach, Unaccompanied Cello Suites; Hummel, Concerto. Preparation of Senior Recital. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16BSN410**Bassoon Concentration**

Fourth-year study for bassoon students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16BSN420**Bassoon Secondary**

Fourth-year secondary study in bassoon as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16BSN500**Bassoon Major**

Additional study for undergraduate bassoon majors who have completed the basic degree requirements; offered for undergraduate and graduate bassoon majors during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16BSN510**Bassoon Concentration**

Additional study in bassoon for undergraduate students at the concentration level who have completed the basic degree requirements; offered to all concentration-level bassoon students during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16BSN530**Bassoon Elective**

Nonrequired private study in bassoon; requires permission of the department and the college. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-2.00

16BSN560**Independent Study**

In-depth study of a topic related to the bassoon, selected by the student in consultation with a member of the faculty. Permission of instructor and division. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16BSN680**Bassoon Master Class**

Forum for performance and discussion of topics related to bassoon performance. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16BSN800**Bassoon Graduate Major Study**

Selected studies for continued refinement of previous skills. Memorized solos from orchestral and chamber music works. Bozza, Etudes Journalieres; Orefici, Bravura Studies; Piard, Etudes sur le Style; Giampieri, Daily Studies for Perfection; Mozart, Concerto; Bach, Unaccompanied Cello Suites; Villa-Lobos, Ciranda das Sete Notas; Jolivet, Concerto. Credit Level: G. Credit Hrs: 4.00

16BSN810**Bassoon Concentration**

Master's level study for students accepted for a cognate in bassoon performance. Credit Level: G. Credit Hrs: 2.00

16BSN820**Bassoon Secondary**

Secondary study in bassoon for master's-degree students. Credit Level: G. Credit Hrs: 1.00

16BSN850**Artist Diploma in Bassoon**

First-year major study in bassoon for students accepted into the artist diploma program. Credit Level: G. Credit Hrs: 6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Bassoon**16BSN855****Artist Diploma Recital**

Public performance by an artist diploma student in bassoon of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 2.00

16BSN880**Master Recital**

Public performance by a master's degree student in bassoon of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 1.00-2.00

16BSN895**Practicum**

Practical experience in the professional world. Credit Level: G. Credit Hrs: 1.00

16BSN899**Master's Candidacy**

Retention of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

16BSN900**Bassoon Doctoral Major Study**

Selected studies for continued refinement of previous skills. Repertoire similar to listing under Graduate Major Study above. Credit Level: G. Credit Hrs: 4.00

16BSN910**Bassoon Concentration**

Doctoral-level study for students accepted for a cognate in bassoon performance. Credit Level: G. Credit Hrs: 2.00

16BSN920**Bassoon Secondary**

Secondary study in bassoon for doctoral-level students. Credit Level: G. Credit Hrs: 1.00

16BSN930**Bassoon Elective**

Nonrequired private study in bassoon for doctoral students; requires permission of the department and the college. Credit Level: G. Credit Hrs: 1.00-2.00

16BSN950**Artist Diploma in Bassoon**

Second-year major study in bassoon for students accepted into the artist diploma program. Credit Level: G. Credit Hrs: 6.00

16BSN960**Bassoon Concerto**

Public performance of a concerto with one of the major performing ensembles. Credit Level: G. Credit Hrs: 2.00

16BSN970**Doctoral Recital**

Public performance by a doctoral student in bassoon of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16BSN980**Lecture Recital**

Combined public lecture and performance of a selected topic in the bassoon repertoire; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16BSN990**DMA Document**

Research and preparation of the final written project for the DMA degree in bassoon; topic to be approved and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-15.00

ClarinetClarinet**16CLAR100****Clarinet Major Study**

Technical requirements: development of the embouchure, articulations, hand and finger positions, breath support, reed preparation, tone studies, scales and intervals. Studies by Rose, KlosÖ, Lazarus, Rode or Perier. Selected repertoire: von Weber -- Concertino or Concerto in F Minor, Karl Stamitz -- Concerto in B-Flat, Tartini-Jacob -- Concertino, Guilhaud -- First Concertino, Rossini -- Theme and Variations, Hindemith -- Pflner Musiktag. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16CLAR110**Clarinet Concentration**

First-year study for clarinet students in the B.A. program in music. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16CLAR120**Clarinet Secondary**

First-year secondary study in clarinet as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16CLAR200**Clarinet Major Study**

Technical requirements: continued emphasis on tone production, phrasing, transposition, and intonation; refinement of articulation. Studies by Capelle, KlosÖ, Stark, and Uhl; introduction to orchestral repertoire. Selected repertoire von Weber -- Concerto. In E-Flat, Schumann -- Fantasy-Pieces, Bernstein -- Sonata, Spohr -- Concerti Nos. I and III, Milhaud -- Trio, Solos de Concours by Messenger, Rabaud, or works of similar difficulty. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16CLAR210**Clarinet Concentration**

Second-year study for clarinet students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16CLAR220**Clarinet Secondary**

Second-year secondary study in clarinet as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16CLAR300**Clarinet Major Study**

Continued concentration on fundamentals of technique. Orchestral repertoire of all periods; style in orchestral playing. Studies by Jean-Jean and Lazarus. Selected repertoire. Mozart -- Trio, Symphonie Concertante; Hindemith -- Sonata for Clarinet, Quartet; Beethoven -- Clarinet Trio; Brahms -- Sonata in F Minor; Debussy -- Rhapsody. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16CLAR310**Clarinet Concentration**

Third-year study for clarinet students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16CLAR320**Clarinet Secondary**

Third-year secondary study in clarinet as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16CLAR400**Clarinet Major Study**

Study of orchestral repertoire; specialized technique of orchestral playing; audition preparation. Selected repertoire: Mozart -- Concerto in A Major, K. 622, Clarinet Quintet; Brahms -- Sonata in E-Flat Major, Quintet in B Minor; Stravinsky -- Three Pieces, L'Historie du Soldat; Bartók -- Contrasts; Dahl -- Concerto a TrÖ. Preparation of Senior Recital. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16CLAR410**Clarinet Concentration**

Fourth-year study for clarinet students in the B.A. program in music or

H=University Honors course.

Clarinet**16CLAR410****Clarinet Concentration**

in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16CLAR420**Clarinet Secondary**

Fourth-year secondary study in clarinet as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16CLAR500**Clarinet Major**

Additional study for undergraduate clarinet majors who have completed the basic degree requirements; offered for undergraduate and graduate clarinet majors during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16CLAR510**Clarinet Concentration**

Additional study in clarinet for undergraduate students at the concentration level who have completed the basic degree requirements; offered to all concentration-level clarinet students during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16CLAR530**Clarinet Elective**

Nonrequired private study in clarinet; requires permission of the department and the college. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-2.00

16CLAR560**Independent Study**

In-depth study of a topic related to the clarinet, selected by the student in consultation with a member of the faculty. Permission of instructor and division. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16CLAR670**Clarinet Studio Class**

Survey and study of repertoire and pedagogical methods for the clarinet. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16CLAR800**Clarinet Graduate Major Study**

Preparation of two recital programs, one to be performed in public. Graduate repertoire to be selected from works of advanced technical difficulty as approved by the department. Orchestral studies. Credit Level: G. Credit Hrs: 4.00

16CLAR810**Clarinet Concentration**

Master's-level study for students accepted for a cognate in clarinet performance. Credit Level: G. Credit Hrs: 2.00

16CLAR820**Clarinet Secondary**

Secondary study in clarinet for master's-degree students. Credit Level: G. Credit Hrs: 1.00

16CLAR850**Artist Diploma in Clarinet**

First-year major study in clarinet for students accepted into the artist diploma program. Credit Level: G. Credit Hrs: 6.00

16CLAR855**Artist Diploma Recital**

Public performance by an artist diploma student in clarinet of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 2.00

16CLAR880**Master Recital**

Public performance by a master's degree student in clarinet of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 1.00-2.00

Clarinet**16CLAR895****Practicum**

Practical experience in the professional world. Credit Level: G. Credit Hrs: 1.00

16CLAR899**Master's Candidacy**

Retainment of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

16CLAR900**Clarinet Doctoral Major Study**

Selected studies for continued refinement of previous skills. Repertoire to be selected from works of advanced technical difficulty. Preparation of required doctoral recitals. Credit Level: G. Credit Hrs: 4.00

16CLAR910**Clarinet Concentration**

Doctoral-level study for students accepted for a cognate in clarinet performance. Credit Level: G. Credit Hrs: 2.00

16CLAR920**Clarinet Secondary**

Secondary study in clarinet for doctoral-level students. Credit Level: G. Credit Hrs: 1.00

16CLAR930**Clarinet Elective**

Nonrequired private study in clarinet for doctoral students; requires permission of the department and the college. Credit Level: G. Credit Hrs: 1.00-2.00

16CLAR950**Artist Diploma in Clarinet**

Second-year major study in clarinet for students accepted into the artist diploma program. Credit Level: G. Credit Hrs: 6.00

16CLAR960**Clarinet Concerto**

Public performance of a concerto with one of the major performing ensembles. Credit Level: G. Credit Hrs: 2.00

16CLAR970**Doctoral Recital**

Public performance by a doctoral student in clarinet of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16CLAR980**Lecture Recital**

Combined public lecture and performance of a selected topic in the clarinet repertoire; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16CLAR990**DMA Document**

Research and preparation of the final written project for the DMA degree in clarinet; topic to be approved and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-15.00

Coaching**16COAC511****Workshops in Orchestral Auditions and Repertoire for Violin and Viola**

Survey and study of audition material and repertoire for violin and viola. Perm. of instr. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16COAC512**Workshops in Orchestral Auditions and Repertoire for Violin and Viola**

Survey and study of audition material and repertoire for violin and viola. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Coaching**16COAC513****Workshops in Orchestral Auditions and Repertoire for Violin and Viola**

Survey and study of audition material and repertoire for violin and viola. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16COAC514**Orchestral Audition and Repertoire (Cello)**

Survey and study of audition material and repertoire for violoncello. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16COAC560**Independent Study and Coaching**

In-depth study of a topic related to coaching of individuals and musical groups, selected by the student in consultation with a member of the faculty. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16COAC671**Orchestral Repertoire: Woodwinds**

Coaching in standard repertoire in the usual orchestral wind sectional concept. Prereq.: By audition. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16COAC672**Brass and Woodwind Orchestral Repertoire**

Reading and study of standard orchestral repertoire. Class limited to symphonic instrumentation. Admission by audition and/or recommendation of instructor. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16COAC673**Chamber Music Ensemble**

Coaching in representative repertoire for all instrumental combinations, including keyboard. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-2.00

16COAC674**Second Chamber Music Ensemble**

Coaching in representative repertoire for all instrumental combinations, including keyboard. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16COAC679**Chamber Music Master Class**

Weekly master class taught by the Eminent Scholar in Chamber Music. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16COAC850**Chamber Music Major Study**

Regular coaching of chamber music groups enrolled in the Chamber Music track of the Artist Diploma degree program. Credit Level: G. Credit Hrs: 4.00

16COAC950**Chamber Music Major Study**

Regular coaching of chamber music groups enrolled in the Chamber Music track of the Artist Diploma degree program. Credit Level: G. Credit Hrs: 4.00

16COAC960**Artist Diploma Chamber Recital**

A 60-minute recital performed by chamber music groups enrolled in the Chamber Music track of the Artist Diploma degree program. Credit Level: G. Credit Hrs: 2.00

Conducting**16COND171****Introduction to Conducting**

Fundamentals of conducting technique; laboratory experience in conducting choral and instrumental works; scorereading and terminology. BoK: NA. Credit Level: U. Credit Hrs: 1.00

16COND300**Major Study for Orchestral Conducting Majors**

Private study for undergraduate students accepted into the instrumental conducting program. BoK: FA. Credit Level: U. Credit Hrs: 4.00

Conducting**16COND400****Major Study for Orchestral Conducting Majors**

Private study for undergraduate students accepted into the instrumental conducting program. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16COND470**Directed Readings in Conducting**

Specialized study on a conducting topic selected by the student in consultation with a member of the faculty. BoK: FA. Credit Level: U. Credit Hrs: 1.00-3.00

16COND500**Major Study for Orchestral Conducting Majors**

Private study for undergraduate students accepted into the instrumental conducting program. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16COND511**Instrumental Conducting**

Development of verbal and nonverbal conducting techniques, stressing baton technique, score reading and analysis, and rehearsal techniques. Emphasis on laboratory conducting experiences. Prereq: 16COND171. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

16COND512**Instrumental Conducting**

Development of verbal and nonverbal conducting techniques, stressing baton technique, score reading and analysis, and rehearsal techniques. Emphasis on laboratory conducting experiences. Prereq: 16COND511. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

16COND513**Instrumental Conducting**

Development of verbal and nonverbal conducting techniques, stressing baton technique, score reading and analysis, and rehearsal techniques. Emphasis on laboratory conducting experiences. Prereq: 16COND512. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

16COND521**Choral Conducting**

Conducting and rehearsal techniques appropriate for various styles of choral music. Prereq: 16COND171. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

16COND522**Choral Conducting**

Conducting and rehearsal techniques appropriate for various styles of choral music. Prereq: 16COND521. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

16COND523**Choral Conducting**

Conducting and rehearsal techniques appropriate for various styles of choral music. Prereq: 16COND522. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

16COND550**Choral Conducting Workshop**

Specialized workshop with a guest clinician offered during the summer session for choral conductors. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-3.00

16COND560**Independent Study**

In-depth study of a topic related to conducting, selected by the student in consultation with a member of the faculty. Perm. of instr. and div. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16COND600**Lucca: Techniques in Opera Conducting**

Teaching aspiring conductors skills specific to opera conducting and rehearsing. Study of opera orchestral scores, text, traditions, and conducting technique. BoK: FA. Credit Level: U, G. Credit Hrs: 7.00

Conducting**16COND630****Special Topics**

Topics established every quarter by Department/Division. BoK: FA.
Credit Level: U, G. Credit Hrs: 0.00-3.00

16COND660**Special Topics**

Topics established every quarter by Department/Division. BoK: FA.
Credit Level: U, G. Credit Hrs: 0.00-6.00

16COND800**Applied Major Study-Conducting**

Hourly private lessons for conducting majors in the master's degree program. Credit Level: G. Credit Hrs: 3.00

16COND811**Instrumental Conducting**

Editing and marking orchestral string parts; fingering, bowing, and string pedagogy; application to short works for string orchestra. Credit Level: G. Credit Hrs: 3.00

16COND812**Instrumental Conducting**

Preparing full orchestra scores; transposition and wind and percussion pedagogy; application to symphonic works. Prereq: 16COND811. Credit Level: G. Credit Hrs: 3.00

16COND813**Instrumental Conducting**

Refinement of verbal and nonverbal conducting techniques; stressing score study and preparation of orchestral and wind works. Emphasis on laboratory conducting experiences. Credit Level: G. Credit Hrs: 3.00

16COND814**Instrumental Conducting**

Second-year core conducting class for orchestral conducting majors. Covers all aspects of conducting techniques and preparation required of conductors. Credit Level: G. Credit Hrs: 3.00

16COND815**Instrumental Conducting**

Second-year core conducting class for orchestral conducting majors. Covers all aspects of conducting techniques and preparation required of conductors. Second quarter of three quarter sequence. Credit Level: G. Credit Hrs: 3.00

16COND816**Instrumental Conducting**

Second-year core conducting class for orchestral conducting majors. Covers all aspects of conducting techniques and preparation required of conductors. Third quarter of three quarter sequence. Credit Level: G. Credit Hrs: 3.00

16COND821**Choral Conducting Techniques**

Refinement of conducting and rehearsal techniques; emphasis on score preparation and tone-gesture relationship. Credit Level: G. Credit Hrs: 3.00

16COND822**Choral Conducting Techniques**

Refinement of conducting and rehearsal techniques; emphasis on score preparation and tone-gesture relationship. Credit Level: G. Credit Hrs: 3.00

16COND823**Choral Conducting Techniques**

Refinement of conducting and rehearsal techniques; emphasis on score preparation and tone-gesture relationship. Credit Level: G. Credit Hrs: 3.00

16COND895**Practicum**

Practical experience in the professional world. Credit Level: G. Credit Hrs: 1.00

Conducting**16COND899****Master's Candidacy**

Retainment of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

16COND900**Applied Major Study-Conducting**

Hourly private lessons for conducting majors in the doctoral degree program. Credit Level: G. Credit Hrs: 3.00

16COND960**Conducting Performance**

Public performance of selected repertoire with an ensemble appropriate to the specific degree program; approved and graded by the faculty. Credit Level: G. Credit Hrs: 1.00-6.00

16COND980**Lecture Recital**

Combined public lecture and performance of a selected topic in the appropriate ensemble repertoire; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16COND981**Seminar in Conducting**

Selected readings and discussion of various topics and repertoire in the appropriate conducting field. Credit Level: G. Credit Hrs: 2.00-4.00

16COND990**DMA Document**

Research and preparation of the final written project for the DMA degree in conducting; topic to be approved and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-15.00

Double Bass**16DBBS100****Double Bass Major Study**

Major and minor scales and arpeggios. Technical studies for the instrument and orchestral repertoire. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16DBBS110**Double Bass Concentration**

First-year study for double bass students in the B.A. program in music. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DBBS120**Double Bass Secondary**

First-year secondary study in double bass as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16DBBS200**Double Bass Major Study**

Further advanced technical studies and compositions for the instrument covering different styles and orchestral repertoire. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16DBBS210**Double Bass Concentration**

Second-year study for double bass students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DBBS220**Double Bass Secondary**

Second-year secondary study in double bass as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16DBBS300**Double Bass Major Study**

Further advanced technical studies and compositions for the instrument covering different styles and orchestral repertoire. BoK: FA. Credit Level: U. Credit Hrs: 4.00

H=University Honors course.

Double Bass

16DBBS990

DMA Document

Research and preparation of the final written project for the DMA degree in double bass; topic to be approved and supervised by faculty. Credit Level: G. Credit Hrs: 1.00-15.00

Dance

16DNCE100

Ballet Technique

Advanced study in classical ballet, pointe, male female variations. Women: Sec. 001-level one; Sec. 002-level two; Sec. 003-level three; Men: Sec. 004-level one; Sec. 005-level two; Sec. 006-level three. First-year dance majors only. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16DNCE101

Musical Theater Dance: Ballet

Basic dance training for musical theater major with studies in basic ballet, character, and musical theater dance forms. Musical theater majors only. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16DNCE102

Musical Theater Dance: Ballet

Basic dance training for the musical theater major with studies in basic ballet, character, and musical theater dance forms. Musical theater majors only. Prereq.: 16-DNCE-102. Prereq.: 16DNCE101. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16DNCE103

Musical Theater Dance: Ballet

Basic dance training for the musical theater major with studies in basic ballet, character, and musical theater dance forms. Musical theater majors only. Prereq.: 16-DNCE-103. Prereq.: 16DNCE102. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16DNCE110

Modern Dance Technique

First-year dance majors only. Intermediate modern dance expanding on fundamental movement principles emphasizing development of technical, improvisational, and performance skills. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16DNCE111

Ballet Basics

A one-quarter, non-repeating course for non-dance majors, providing an introduction to ballet techniques and vocabulary. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DNCE115

Beginning Ballet Technique

First quarter of a three-quarter sequence of courses for nondance majors providing an introduction to ballet technique and vocabulary. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DNCE116

Intermediate Beginning Ballet Technique

Second quarter of a three-quarter sequence for non-dance majors providing continuation of ballet technique skills and vocabulary at a more accelerated level. Prereq.: 16-DNCE-115 or perm. of instructor. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DNCE117

Advanced Beginning Ballet Technique

Third quarter of a three-quarter sequence for non-dance majors providing continuation of ballet technique skills and vocabulary at a more accelerated level. Prereq.: 16-DNCE-116 or perm. of instructor. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DNCE121

Modern Dance Basics

A one-quarter, non-repeating course for non-dance majors providing an introduction to techniques of contemporary dance. BoK: FA. Credit Level: U. Credit Hrs: 2.00

Dance

16DNCE125

Beginning Modern Dance Technique

First quarter of a three-quarter sequence for nondance majors providing an introduction to techniques of contemporary dance. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DNCE126

Intermediate Beginning Modern Dance Technique

Second quarter of a three-quarter sequence for nondance majors providing continuation of movement skills and technique at a more accelerated level. Prereq.: 16-DNCE-125 or perm. of instructor. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DNCE127

Advanced Beginning Modern Dance Technique

Third quarter of a three-quarter sequence for nondance majors providing continuation of dance movement skill and modern technique at a more accelerated level. Prereq.: 16-DNCE-127 or perm. of instructor. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DNCE130

Dance Conditioning

Involves the teaching of cross-training modalities in order to develop fit, tone, strong yet flexible dancers. Cardiovascular training, barre work in the pool, yoga, ideokinesis, Pilates reformer and spring work, etc. will be utilized toward this end. Dance majors only. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DNCE131

Somatic Studies for Dance

First quarter of a three-quarter sequence. Mind/body systems including the Alexander Technique, The Pilates Method, Ideokinesis mind/body centering will be introduced and explored to bring about re-education and change in habitual ways of dancing and moving. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DNCE132

Somatic Studies for Dance

Second-quarter of a three-quarter sequence. A continuation from the first quarter. Pilates spring work introduced. Prereq.: 16DNCE131. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DNCE133

Somatic Studies for Dance

Third-quarter of a three-quarter sequence. A continuation from the first quarter. Feldenkrais method is introduced. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DNCE200

Ballet Technique

Advanced study in classical ballet, pointe, male and female variations. Women: Sec. 001-level one; Sec. 002-level two; Sec. 003-level three; Men: 004-level one; Sec. 005-level two; Sec. 006-level three. Second-year dance majors only. Prereq.: 16-DNCE-100. Prereq.: 16DNCE100. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16DNCE201

Musical Theater Dance: Modern

First-quarter of a three-quarter sequence. Dance class for musical theater majors, with an emphasis on modern dance. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16DNCE202

Musical Theater Dance: Modern

Second-quarter of a three-quarter sequence. Dance class for musical theater majors, with an emphasis on modern dance. Prereq.: 16-DNCE-201. Prereq.: 16DNCE201. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16DNCE203

Musical Theater Dance: Modern

Third-quarter of a three-quarter sequence. Dance class for musical theater majors, with an emphasis on modern dance. Prereq.: 16-DNCE-202. Prereq.: 16DNCE202. BoK: FA. Credit Level: U. Credit Hrs: 1.00

H=University Honors course.

Dance**16DNCE210****Modern Dance Technique**

Second-year dance majors only. Intermediate/ Advanced modern dance class to further develop and refine technical, improvisational and performance skills/artistry. Prereq.: 16-DNCE-110. Prereq: 16DNCE110. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16DNCE215**Intermediate Ballet**

Intermediate-level study of classical ballet. Repeatable for credit. Prereq.: perm. of instr. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DNCE217**Advanced Intermediate Ballet Technique**

Advanced-intermediate level study of ballet technique. Repeatable for credit. Prereq.: perm. of instr. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DNCE221**Partnering**

First-quarter of a three-quarter sequence. Beginning partnering skills in the classical ballet idiom are taught for both men and women. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16DNCE222**Partnering**

Second quarter of a three-quarter sequence. Continuation from first quarter. Intermediate to advanced beginning partnering skills in the classical ballet idiom are developed. Prereq.: 16-DNCE-221. Prereq: 16DNCE221. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16DNCE223**Partnering**

Third quarter of a three-quarter sequence. Continuation from second quarter. Advanced beginning to intermediate classical ballet partnering is explored and refined. Prereq.: 16-DNCE-222. Prereq: 16DNCE222. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16DNCE241**Character Dance**

Basic ethnic and national dance styles of Eastern European origin within the context of ballet performance. Flamenco dance is introduced as well. Prereq.: Dance majors only. BoK: NA. Credit Level: U. Credit Hrs: 1.00

16DNCE251**Dance History**

A general survey course tracing the major forms of theatrical dance from indigenous cultures to contemporary classical dance in the Western hemisphere. BoK: FA., HP. Credit Level: U. Credit Hrs: 3.00

16DNCE271**Basic Modern Dance II**

Intermediate level study of modern dance technique. Repeatable for credit. Prereq.: perm. of instr. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DNCE300**Ballet Technique**

Advanced study in classical ballet, pointe, male and female variations. Women: Sec. 001-level; Sec. 002-level two; Sec. 003-level three; Men: Sec. 004-level one; Sec. 005-level two; Sec. 006- level three. Prereq.: 16-DNCE-200. Prereq: 16DNCE200. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16DNCE301**Musical Theater Dance: Ballet III**

A second course in ballet for musical theater and opera majors, with emphasis on more advanced techniques. Prereq.: 16-DNCE-203. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16DNCE302**Musical Theater Dance: Ballet III**

A second course in ballet for musical theater and opera majors, with emphasis on more advanced techniques. Prereq.: 16-DNCE-203. Prereq: 16DNCE301. BoK: FA. Credit Level: U. Credit Hrs: 1.00

Dance**16DNCE303****Musical Theater Dance: Ballet III**

A second course in ballet for musical theater and opera majors, with emphasis on more advanced techniques. Prereq.: 16-DNCE-203. Prereq: 16DNCE302. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16DNCE310**Modern Dance Technique**

Third-year dance majors only. Intermediate/ Advanced modern dance class to further develop and refine technical, improvisational, and performance skills/artistry. Prereq.: 16-DNCE-210. Prereq: 16DNCE210. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16DNCE321**Pas de Deux**

Designed to further develop partnering skills, including lifts and more technically challenging movement sequences. Prereq.: 16-DNCE-223. Prereq: 16DNCE223. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16DNCE351**Ballet History**

An intensive study of ballet history from its origin in the 16th century through the 21st century including the development of ballet in America. BoK: FA., HP. Credit Level: U. Credit Hrs: 3.00

16DNCE371**Choreography I**

First-quarter of a six-quarter sequence. Basic elements of choreography which include energy, space, and time with attention to various aspects of the choreographic process and the choreographer's role and responsibilities. BoK: FA., QR. Credit Level: U. Credit Hrs: 2.00

16DNCE372**Choreography II**

Second quarter of a six-quarter sequence. Continuation of Choreography I with emphasis on nurturing creativity through the introduction of improvisation and exploration with studies in motivation and gesture, music and use of props. Prereq.: 16-DNCE-371. Prereq: 16DNCE371. BoK: FA, QR. Credit Level: U. Credit Hrs: 2.00

16DNCE373**Choreography III**

Third quarter of a six-quarter sequence. Continuation of Choreography II focusing on the exploration of movement to express the emotions with attention to aesthetic awareness. Creation of a solo work is required. Prereq.: 16-DNCE-372 Prereq: 16DNCE372. BoK: FA, QR. Credit Level: U. Credit Hrs: 2.00

16DNCE381**Anatomy for Dancers**

Introduction to the function of the skeletal and muscular systems in reference to their support of human dance movement. Prereq.: Dance majors only. BoK: FA., NS. Credit Level: U. Credit Hrs: 3.00

16DNCE382**Dance Injuries and Prevention**

Introduction to the analysis of biomechanical dance-related injuries and the factors involved in preventing such injuries. Prereq.: 16-DNCE-381. Prereq: 16DNCE381. BoK: FA, NS. Credit Level: U. Credit Hrs: 3.00

16DNCE385**Introduction to the Alexander Technique**

Examination of the teachings of F.M. Alexander: a mind/body self-study into personal awareness and discovery. BoK: NA. Credit Level: U. Credit Hrs: 2.00

16DNCE400**Ballet Technique**

Advanced study in classical ballet, pointe, male and female variations. Women: Sec. 001-level one; Sec. 002-level two; Sec. 003-level three; Men: Sec. 004-level one; Sec. 005-level two; Sec. 006- level three. Fourth year dance majors only. Prereq.: 16-DNCE-300. Prereq: 16DNCE300. BoK: FA. Credit Level: U. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Dance**16DNCE401****Musical Theater Dance: Styles**

A course in period dance, partnering and combinations and the rudiments of tap and jazz. Prereq.: Musical Theater Majors only. Prereq: 16DNCE302. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16DNCE402**Musical Theater Dance: Styles**

A course in period dance, partnering and combinations, and the rudiments of tap and jazz. Prereq: Musical Theater Majors only, 16-DNCE-401. Prereq: 16DNCE401. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16DNCE403**Musical Theater Dance: Styles**

A course in period dance, partnering and combinations, and the rudiments of tap and jazz. Prereq: Musical Theater Majors only, 16-DNCE-402. Prereq: 16DNCE402. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16DNCE410**Modern Dance Technique**

Fourth-year dance majors only. Intermediate/ Advanced modern dance class to further develop and refine technical, improvisational, and performance skills/artistry. Prereq.: 16-DNCE-310. Prereq: 16DNCE310. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16DNCE440**Repertoire**

Historical understanding of ballet through the learning of classical repertoire with emphasis on technique and style. Prereq: 16-DNCE-100. BoK: FA., HP. Credit Level: U. Credit Hrs: 1.00

16DNCE471**Choreography IV**

Fourth-quarter of a six-quarter sequence. Continuation of Choreography III with emphasis on form, style and content. Experimentation will focus on composition for two dancers. Analysis and critique of students' work. Prereq.: 16-DNCE-373. BoK: FA., QR. Credit Level: U. Credit Hrs: 3.00

16DNCE472**Choreography V**

Fifth quarter of a six-quarter sequence. Continuation of Choreography IV focusing on abstraction and other stylistic approaches. g Choreographnic experience broadened by working with three or more dancers to create a group piece. Analysis and written critiques of noted choreographed works. Analysis and critique of students' works. Prereq.: 16-DNCE-471. Prereq: 16DNCE471. BoK: FA, QR. Credit Level: U. Credit Hrs: 3.00

16DNCE473**Choreography VI**

Sixth quarter of a six-quarter sequence. Continuation of Choreography V with emphasis on other choreographnic approaches which may include Dance and Video technology. Analysis and critique of students' works. Prereq.: 16-DNCE-472. Prereq: 16DNCE472. BoK: FA, QR. Credit Level: U. Credit Hrs: 3.00

16DNCE531**Techniques of Ballet Instruction**

Restricted to Dance majors. Observations, readings, discussions and practical experience with problems in teaching classical ballet at all levels. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 3.00

16DNCE560**Independent Study**

In-depth study of a topic related to dance, selected by the student in consultation with a member of the faculty. Perm. of instr. and div. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16DNCE600**Ballet Technique**

See 16-DNCE-100. For dance majors performing with the Cincinnati

Dance**16DNCE600****Ballet Technique**

Ballet COmpany or other regional professional dance companies. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16DNCE630**Special Topics**

Topics established every quarter by Department/Division. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-3.00

16DNCE650**Performing Ensemble**

Restricted to Dance majors who qualify through audition. BoK: FA. Credit Level: U. Credit Hrs: 1.00-3.00

16DNCE811**Theater Dance**

Graduate-level course number for musical theater majors taking one of the specialized courses for musical theater dance. Credit Level: G. Credit Hrs: 2.00

16DNCE812**Theater Dance**

Graduate-level course number for musical theater majors taking one of the specialized courses for musical theater dance. Credit Level: G. Credit Hrs: 2.00

Dramatic Performance**16DRPF101****Voice Production I**

Basic study in the concepts of relaxation, alignment, breathing, articulation, and tone production as related to speech for the stage. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DRPF102**Voice Production I**

The notation of the sounds of Italian, German, and French in singing, using the International Phonetic Alphabet. Written and oral presentation. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DRPF103**Voice Production I**

The notation of the sounds of Italian, German, and French in singing, using the International Phonetic Alphabet. Written and oral presentation. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DRPF111**Acting I**

Beginning investigation of the aspects of the actor's craft; to include improvisation, motivational analysis, sensitivity and imagination as a function of technique. Area majors only. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16DRPF112**Acting I**

Beginning investigation of the aspects of the actor's craft; to include improvisation, motivational analysis, sensitivity and imagination as a function of technique. Area majors only. Prereq: 16DRPF111. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16DRPF113**Acting I**

Beginning investigation of the aspects of the actor's craft; to include improvisation, motivational analysis, sensitivity and imagination as a function of technique. Area majors only. Prereq: 16DRPF112. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16DRPF114**Acting II**

Sequential continuation of Acting I involving the actor with the examination of the dramatic text as a blueprint for the organic gesture and emotional and physical imagination. BoK: FA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Dramatic Performance**16DRPF115****Acting II**

Sequential continuation of Acting I involving the actor with the examination of dramatic text as a blueprint for the organic gesture and emotional and physical imagination. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16DRPF116**Acting II**

Sequential continuation of Acting I involving the actor with the examination of the dramatic text as a blueprint for the organic gesture and emotional and physical imagination. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16DRPF175**First Year Performance Project**

Selection, creation, rehearsal and presentation of a performance project by all first-year dramatic performance majors. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16DRPF201**Voice Production II**

A sequential continuation of Voice Production I, with greater emphasis placed upon individual vocal diagnosis. Special attention is paid to theater "speech" training and effort is made to assist students with strong regionalisms. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DRPF202**Voice Production II**

A sequential continuation of Voice Production I, with greater emphasis placed upon individual vocal diagnosis. Special attention is paid to theater "speech" training and effort is made to assist students with strong regionalisms. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DRPF203**Voice Production II**

A sequential continuation of Voice Production I, with greater emphasis placed upon individual vocal diagnosis. Special attention is paid to theater "speech" training and effort is made to assist students with strong regionalisms. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DRPF221**Voice and Speech**

Fundamentals of basic voice production techniques and principles of stage speech for the musical theater performer. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16DRPF222**Voice and Speech**

Continuation of 16 DRPF 221. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16DRPF223**Voice and Speech**

Continuation of 16 DRPF 222. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16DRPF271**Acting for Nonmajors**

An introductory course in the craft of acting designed primarily for CCM students who are not acting majors. Students will work on scripted and unscripted material; will study the history of the development of the "Method"; and will learn basic actor vocabulary common to all styles of performance. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16DRPF272**Acting Workshop: Techniques of Acting**

Advanced consideration of character projection and defined stage movement; character study from improvisation; vocal projection through mental and muscular involvement. BoK: FA. Credit Level: U. Credit Hrs: 3.00

Dramatic Performance**16DRPF273****Acting Workshop: Theory of Ensemble Acting**

The actor within the complete theater piece. One acts and others prepared and presented; development of ability to analyze, prepare and present characters. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16DRPF301**Voice Production III**

Continue advanced techniques of vocal production with applications in the stage dialects of General American, Stage Standard, and heightened text. Prereq: 16DRPF203. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DRPF302**Voice Production III**

Continue advanced techniques of vocal production with applications in the stage dialects of General American, Stage Standard, and heightened text. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DRPF303**Voice Production III**

Continue advanced techniques of vocal production with applications in the stage dialects of General American, Stage Standard, and heightened text. Prereq: 16DRPF302. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DRPF311**Acting III**

Continuation of Acting II (sequential). Investigation of the problems of style in the classical drama; scenework centering on the Elizabethan, Jacobean, Classical Greek, Restoration and Russian repertoire. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16DRPF312**Acting III**

Continuation of Acting II (sequential). Investigation of the problems of style in the classical drama; scenework centering on the Elizabethan, Jacobean, Classic Greek, Restoration and Russian repertoire. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16DRPF313**Acting III**

Continuation of Acting II (sequential). Investigation of the problems of style in the classical drama; scenework centering on the Elizabethan, Jacobean, Classical Greek, Restoration and Russian repertoire. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16DRPF395**Improvisation for Playwrights**

Improvisation for Playwrights is designed to fill a niche between the literary art of play writing and the performance savvy that stems from the on-stage experience of the art of acting. By experiencing the guidelines of improvisation, as detailed by Viola Spolin's theater games, writers will discover through experience what makes a scene live and breathe or flounder and die. Prereq: 30ENGL389. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16DRPF401**Voice Production IV**

Continue advanced techniques of vocal production with applications in dialects and accents. Prereq: 16DRPF303. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DRPF402**Voice Production IV**

Continue advanced techniques of vocal production with applications in dialects and accents. Prereq: 16DRPF401. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16DRPF403**Voice Production IV**

Continue advanced techniques of vocal production with applications in dialects and accents. Prereq: 16DRPF402. BoK: FA. Credit Level: U. Credit Hrs: 2.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Dramatic Performance**16DRPF411****Acting IV**

Work involving advanced students in ensemble techniques producing works of the Modern World Theater; includes styles work beginning with the Greeks. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16DRPF412**Acting IV**

Work involving advanced students in ensemble techniques producing works of the Modern World Theater; includes styles work beginning with the Greeks. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16DRPF413**Acting IV**

Work involving advanced students in ensemble techniques producing works of the Modern World Theater; includes styles work beginning with the Greeks. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16DRPF420**Rehearsal and Performance for the Dramatic Actor**

Rehearsal and performance of repertoire assigned by faculty to be presented in the various performance spaces. BoK: FA., DC. Credit Level: U. Credit Hrs: 1.00-3.00

16DRPF434**Drama Workshop**

Lab course focusing on the practical approach to production. Extension of work of the performance classes (Acting I,II,III,IV) into performance for audiences. Assignment to roles in several workshop projects. Assignment to roles in productions on the basis of audition. BoK: FA., DC. Credit Level: U. Credit Hrs: 1.00-3.00

16DRPF435**Drama Workshop**

Lab course focusing on the practical approach to production. Extension of work of the performance classes (Acting I, II, III, IV) into performance for audiences. Assignment to roles in several workshop projects. Assignment to roles in productions on the basis of audition. BoK: FA., DC. Credit Level: U. Credit Hrs: 1.00-3.00

16DRPF436**Drama Workshop**

Lab course focusing on the practical approach to production. Extension of work of the performance classes (Acting I, II, III, IV) into performance for audiences. Assignment to roles in several workshop projects. Assignment to roles in productions on the basis of audition. BoK: FA., DC. Credit Level: U. Credit Hrs: 1.00-3.00

16DRPF475**Senior Showcase**

Selection, creation, rehearsal, and presentation of showcase to industry professionals by senior dramatic performance majors. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16DRPF500**Audition Techniques for the Dramatic Actor**

Techniques of monologue preparation and delivery; also covers "cold readings" of scripts. Student should complete the course with 5-10 fully prepared monologues. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

16DRPF513**Acting for the Camera**

Survey of and practice in audition and acting techniques. Senior MUST & DRPF majors only! BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

16DRPF531**Theatre Movement I**

Designed to help actors develop a keener kinesthetic awareness via a variety of movement techniques. Special emphasis will be given to work in alignment and spatial relationships. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

Dramatic Performance**16DRPF532****Theatre Movement I**

Designed to help actors develop a keener kinesthetic awareness via a variety of movement techniques. Special emphasis will be given to work in alignment and spatial relationships. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16DRPF533**Theatre Movement I**

Designed to help actors develop a keener kinesthetic awareness via a variety of movement techniques. Special emphasis will be given to work in alignment and spatial relationships. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16DRPF541**Theatre Movement II**

Additional training in specialized movement skills for the actor, includes primitive full-face mask work and Laban based work. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16DRPF542**Theatre Movement II**

Additional training in specialized movement skills for the actor, includes primitive full-face mask work and Laban based work. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16DRPF543**Theatre Movement II**

Additional training in specialized movement skills for the actor, includes primitive full-face mask work and Laban based work. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16DRPF544**Theatre Movement III**

Additional training in specialized movement skills for the actor. Focus on stage combat. Prereq: 16DRPF543. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16DRPF545**Theatre Movement III**

Additional training in specialized movement skills for the actor. Focus on stage combat. Prereq: 16DRPF544. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16DRPF546**Theatre Movement III**

Additional training in specialized movement skills for the actor. Focus on stage combat. Prereq: 16DRPF545. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16DRPF547**Theatre Movement IV**

Additional training in specialized movement skills for the actor. Focus on stage combat. Prereq: 16DRPF546. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16DRPF548**Theatre Movement IV**

Additional training in specialized movement skills for the actor. Focus on stage combat. Prereq: 16DRPF547. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16DRPF549**Theatre Movement IV**

Additional training in specialized movement skills for the actor. Focus on stage combat. Prereq: 16DRPF548. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16DRPF551**Introduction to Dramaturgy**

Workshop and practicum in the art of dramaturgy. Lecture/Demonstration format; will meet in conjunction with productions (from pre-production to wrap sessions). BoK: LT., DC. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Dramatic Performance**16DRPF560****Independent Study**

In-depth study of a topic related to dramatic performance, selected by the student in consultation with a member of the faculty. Perm. of instr. and div. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16DRPF600**Business Skills for the Actor**

Making and updating resumes; getting headshots; audition follow-up; economic matters such as budgeting, bookkeeping, and taxes; professional manners and deportment. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

16DRPF630**Special Topics in Dramatic Performance**

Developed yearly according to specialty being offered. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-3.00

16DRPF660**Special Topics**

Topics established every quarter by Department/Division. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-6.00

16DRPF701**Voice Production I**

Basic study in the concepts of relaxation, alignment, breathing, articulation, and tone production, as related to speech for the stage. Credit Level: G. Credit Hrs: 2.00

16DRPF702**Voice Production I**

Basic study in the concepts of relaxation, alignment, breathing, articulation, and tone production, as related to speech for the stage. Prereq: 16DRPF701. Credit Level: G. Credit Hrs: 2.00

16DRPF703**Voice Production I**

Basic study in the concepts of relaxation, alignment, breathing, articulation, and tone production, as related to speech for the stage. Prereq: 16DRPF702. Credit Level: G. Credit Hrs: 2.00

16DRPF704**Voice Production II**

A sequential continuation of Voice Production I, with greater emphasis placed upon individual vocal diagnosis. Special attention is paid to theater "speech" training and effort is made to assist students with strong regionalisms. Credit Level: G. Credit Hrs: 2.00

16DRPF705**Voice Production II**

A sequential continuation of Voice Production I, with greater emphasis placed upon individual vocal diagnosis. Special attention is paid to theater "speech" training and effort is made to assist students with strong regionalisms. Credit Level: G. Credit Hrs: 2.00

16DRPF706**Voice Production II**

A sequential continuation of Voice Production I, with greater emphasis placed upon individual vocal diagnosis. Special attention is paid to theater "speech" training and effort is made to assist students with strong regionalisms. Credit Level: G. Credit Hrs: 2.00

16DRPF711**Acting I**

Beginning investigation of the aspects of the actor's craft; to include improvisation of the dramatic text as a blueprint for the organic gesture and emotional and physical imagination. Credit Level: G. Credit Hrs: 3.00

16DRPF712**Acting I**

Beginning investigation of the aspects of the actor's craft; to include improvisation, motivational analysis, sensitivity and imagination as a function of technique. Credit Level: G. Credit Hrs: 3.00

Dramatic Performance**16DRPF713****Acting I**

Beginning investigation of the aspects of the actor's craft; to include improvisation, motivational analysis, sensitivity and imagination as a function of technique. Credit Level: G. Credit Hrs: 3.00

16DRPF714**Acting II**

Sequential continuation of Acting I involving the actor with the examination of the dramatic text as a blueprint for the organic gesture and emotional and physical imagination. Credit Level: G. Credit Hrs: 3.00

16DRPF715**Acting II**

Sequential continuation of Acting I involving the actor with the examination of the dramatic text as a blueprint for the organic gesture and emotional and physical imagination. Credit Level: G. Credit Hrs: 3.00

16DRPF716**Acting II**

Sequential continuation of Acting I involving the actor with the examination of the dramatic text as a blueprint for the organic gesture and emotional and physical imagination. Credit Level: G. Credit Hrs: 3.00

16DRPF801**Graduate Acting I**

Continuation of Acting II (sequential). Investigation of the problems of style in the classical drama; scenework centering on the Elizabethan, Jacobean, Classical Greek, Restoration and Russian repertoire. Credit Level: G. Credit Hrs: 3.00

16DRPF802**Graduate Acting I**

Continuation of Acting II (sequential). Investigation of the problems of style in the classical drama; scenework centering on the Elizabethan, Jacobean, Classical Greek, Restoration and Russian repertoire. Credit Level: G. Credit Hrs: 3.00

16DRPF803**Graduate Acting I**

Continuation of Acting I (sequential). Investigation of the problems of style in the classical drama; scenework centering on the Elizabethan, Jacobean, Classical Greek, Restoration and Russian repertoire. Credit Level: G. Credit Hrs: 3.00

16DRPF811**Graduate Acting II**

Work involving advanced students in ensemble techniques producing works of the Modern World Theater; includes styles work beginning with the Greeks. Credit Level: G. Credit Hrs: 3.00

16DRPF812**Graduate Acting II**

Work involving advanced students in ensemble techniques producing works of the Modern World Theater; includes styles work beginning with the Greeks. Credit Level: G. Credit Hrs: 3.00

16DRPF813**Graduate Acting II**

Work involving advanced students in ensemble techniques producing works of the Modern World Theater; includes styles work beginning with the Greeks. Credit Level: G. Credit Hrs: 3.00

16DRPF820**Rehearsal and Performance for the Dramatic Actor**

Rehearsal and performance of repertoire assigned by faculty to be presented in the various performance spaces. By assignment or audition. Credit Level: G. Credit Hrs: 1.00-3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Dramatic Performance**16DRPF821****Voice Production III**

Continue advanced techniques of vocal production with applications in the stage dialects of General American, Stage Standard, and heightened text. Perm of Instructor. Credit Level: G. Credit Hrs: 2.00

16DRPF822**Voice Production III**

Continuation of 16DRPF821. Prereq: 16DRPF821. Credit Level: G. Credit Hrs: 2.00

16DRPF823**Voice Production III**

Continuation of 16DRPF821 and 822. Prereq: 16DRPF822. Credit Level: G. Credit Hrs: 2.00

16DRPF831**Voice Production IV**

Continue advanced techniques of vocal production with application in dialects and accents. Perm of Instructor. Credit Level: G. Credit Hrs: 2.00

16DRPF832**Voice Production IV**

Continuation of 16DRPF831. Prereq: 16DRPF831. Credit Level: G. Credit Hrs: 2.00

16DRPF833**Voice Production IV**

Continuation of 16DRPF831 and 832. Prereq: 16DRPF832. Credit Level: G. Credit Hrs: 2.00

16DRPF834**Drama Workshop**

Lab course focusing on the practical approach to production. Extension of work of the performance classes (Acting I, II, III, IV) into performance for audiences. Assignment to roles in several workshop projects. Assignment to roles in productions on the basis of audition. Credit Level: G. Credit Hrs: 1.00-3.00

16DRPF835**Drama Workshop**

Lab course focusing on the practical approach to production. Extension of work of the performance classes (Acting I, II, III, IV) into performance for audiences. Assignment to roles in several workshop projects. Assignment to roles in productions on the basis of audition. Credit Level: G. Credit Hrs: 1.00-3.00

16DRPF836**Drama Workshop**

Lab course focusing on the practical approach to production. Extension of work of the performance classes (Acting I, II, III, IV) into performance for audiences. Assignment to roles in several workshop projects. Assignment to roles in productions on the basis of audition. Credit Level: G. Credit Hrs: 1.00-3.00

16DRPF880**Graduate Acting Seminar**

Prereq.: Perm. of instr. Credit Level: G. Credit Hrs: 6.00

16DRPF890**Professional Acting Internship**

Prereq.: Perm. of instr. Credit Level: G. Credit Hrs: 6.00

16DRPF899**Master's Candidacy**

Retainment of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

Directing**16DRTG210****The Artist in Society**

The relationship of contemporary aesthetic and social theory to theater practice; aiming to define performance both in its aesthetic dimension

Directing**16DRTG210****The Artist in Society**

and in the dimension of ritual public ceremony, and "life events." Source materials should include Suzanne Langer and Susan Sontag, etc. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

16DRTG231**History of the Theater**

Introduction to the history of the theater, with emphasis on its most notable periods in western civilization. Focus on the integrated contribution of the performer, designer, and writer to the theatrical event and on the interests and perspectives of their audience. BoK: FA., HP. Credit Level: U. Credit Hrs: 3.00

16DRTG232**History of the Theater**

Introduction to the history of the theater, with emphasis on its most notable periods in western civilization. Focus on the integrated contribution of the performer, designer, and writer to the theatrical event and on the interests and perspectives of their audience. Prereq: 16DRTG231. BoK: FA, HP. Credit Level: U. Credit Hrs: 3.00

16DRTG233**History of the Theater**

Introduction to the history of the theater, with emphasis on its most notable periods in western civilization. Focus on the integrated contribution of the performer, designer, and writer to the theatrical event and on the interests and perspectives of their audience. Prereq: 16DRTG232. BoK: FA, HP. Credit Level: U. Credit Hrs: 3.00

16DRTG311**Script Analysis**

Focuses on structural elements that go into making plays. Emphasis is placed on realistic drama and selected examples of the historical avant-garde. The intention of the course is not necessarily to expose the student to "new" plays, but rather to an analytical methodology that can be applied to understanding any play one comes in contact with as an actor, director/designer. BoK: FA., LT. Credit Level: U. Credit Hrs: 3.00

16DRTG312**Script Analysis**

Focuses on structural elements that go into making plays. Emphasis is placed on realistic drama and selected examples of the historical avant-garde. The intention of the course is not necessarily to expose the student to "new" plays, but rather to an analytical methodology that can be applied to understanding any play one comes in contact with as an actor, director/designer. Prereq: 16DRTG311. BoK: FA, LT. Credit Level: U. Credit Hrs: 3.00

16DRTG313**Advanced Script Analysis**

Discussion and practical guidance in techniques of script analysis used by various disciplines in theater arts to prepare for production of plays or musicals. Includes theoretical readings, lecture/discussions, guest lecturer/demonstrations, and practice sessions. Prereq: 16DRTG312. BoK: FA, LT. Credit Level: U. Credit Hrs: 3.00

16DRTG321**Directing Lab for Actors**

Actors will have the opportunity to work with a variety of directing candidates in a variety of styles, using a variety of techniques, on scene preparation. Perm of Instructor. BoK: FA. Credit Level: U. Credit Hrs: 0.00-1.00

16DRTG501**Fundamentals of Directing**

Basic aspects of the director's craft from play selection through opening night. Includes an historical overview of techniques used by the acknowledged modern masters, including George II, Harold Clurman, and Konstantin Stanislavsky, put to use on a directorial analysis of a play of the student's choosing. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Directing**16DRTG560****Independent Study**

In-depth study of a topic related to the directing area, selected by the student in consultation with a member of the faculty. Perm. of instr. and div. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16DRTG571**History and Theory of Stage Direction**

A history of stage direction from George II to the present, with particular emphasis on Reinhardt, Stanislavski, Copeau, Brecht, Grolowski, and Chaikin. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 3.00

16DRTG572**History and Theory of Stage Direction**

A history of stage direction from George II to the present, with particular emphasis on Reinhardt, Stanislavski, Copeau, Brecht, Grotowski, and Chaikin. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 3.00

16DRTG701**Directing I**

First-year study for MFA candidates in directing. Directed readings and discussion of relevant issues. Practical applications in various settings. Credit Level: G. Credit Hrs: 3.00

16DRTG702**Directing I**

Continuation of 16DRTG701. Prereq: 16DRTG701. Credit Level: G. Credit Hrs: 3.00

16DRTG703**Directing I**

Continuation of 16DRTG702 and preparation for more advanced study in Directing II. Prereq: 16DRTG702. Credit Level: G. Credit Hrs: 3.00

16DRTG710**The Artist in Society**

The relationship of contemporary aesthetic and social theory to theater practice; aiming to define performance both in its aesthetic dimension and in the dimension of ritual public ceremony, and "life events." Source materials should include Suzanne Langer and Susan Sontag, etc. Credit Level: G. Credit Hrs: 3.00

16DRTG750**Assistant Director Practicum**

Analysis and discussion of different kinds of performance structure; action (psychological and physical), information structure, thematic structure, logical structures (including patterning), etc. Most of the work is on written material--scripts and descriptions. Coursework will also include work with the actor in the process of rehearsal on assigned scripts to be produced in the experimental workshop setting. Credit Level: G. Credit Hrs: 3.00

16DRTG800**Aesthetics**

A course in the study of aesthetics for graduate actors, directors, and designers. Credit Level: G. Credit Hrs: 3.00

16DRTG801**Directing I**

Analysis and concept: training students in a system of text analysis for directors and honing skills to develop a unified production concept. Emphasis will be placed on the director's voice and on developing the articulation of each student's unique ideas and responses to material. Credit Level: G. Credit Hrs: 2.00

16DRTG802**Directing II**

The Director/Actor process: explores various approaches to working with actors. methods to include actioning techniques, improvisation, and character development. Prereq: 16DRTG801. Credit Level: G. Credit Hrs: 2.00

Directing**16DRTG803****Directing III**

Stage, space, and composition: developing the visual tools necessary to stage a production -- visualization, composition, picturization, and the challenges unique to different venues (proscenium, three-quarter, the round, found space). Prereq: 16DRTG802. Credit Level: G. Credit Hrs: 2.00

16DRTG804**Directing IV**

Verse Drama: provides students with approaches to directing verse drama, including the Greeks and Shakespeare. Emphasis will be given to period style, with experimentation in realistic and non- realistic approaches. Prereq: 16DRTG803. Credit Level: G. Credit Hrs: 2.00

16DRTG805**Directing V**

Comic styles: builds upon the styles work covered in Directing IV, with emphasis place on comic styles from various periods, including the Greeks, Moliere, Restoration, and Noel Howard. Prereq: 16DRTG804. Credit Level: G. Credit Hrs: 2.00

16DRTG806**Directing VI**

Alternative Forms: students explore their creative imagination and create alternative forms of theatre performance. While the works of contemporary theatre groups and performance artists will be referenced, it is expected that each student explore his/her own interests and impulses to create something that is potentially new and cutting edge. Prereq: 16DRTG805. Credit Level: G. Credit Hrs: 2.00

16DRTG810**Research Methods for Directors**

Acquaints students with the research process and materials necessary for directors to achieve a fully realized concept for production. Emphasis will be placed on defining the cultural, social, and historical context--or worldview-- of the play and production. Credit Level: G. Credit Hrs: 1.00

16DRTG811**Script Analysis**

Focuses on structural elements that go into making plays. Emphasis is placed on realistic drama and selected examples of the historical avant-garde. The intention of the course is not necessarily to expose the student to "new" plays, but rather to an analytical methodology that can be applied to understanding any play one comes in contact with as an actor, director/designer. Credit Level: G. Credit Hrs: 3.00

16DRTG812**Script Analysis**

Focuses on structural elements that go into making plays. Emphasis is placed on realistic drama and selected examples of the historical avant-garde. The intention of the course is not necessarily to expose the student to "new" plays, but rather to an analytical methodology that can be applied to understanding any play one comes in contact with as an actor, director/designer. Prereq: 16DRTG811. Credit Level: G. Credit Hrs: 3.00

16DRTG813**Advanced Script Analysis**

Discussion and practical guidance in techniques of script analysis used by various disciplines in theater arts to prepare for production of plays or musicals. Includes theoretical readings, lecture/discussions, guest lecture/demonstrations, and practice sessions. Prereq: 16DRTG812. Credit Level: G. Credit Hrs: 3.00

16DRTG820**Career Planning Seminar**

Acquaints students with the business aspects of the directing profession and helps them to strategize career goals; resumes contacts and follow-up, agents, unions, working abroad, personal finances, and investing in their future. Credit Level: G. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Directing**16DRTG821****Directing I Lab**

Practicum for Directing I; includes a final performance project. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00

16DRTG822**Directing II Lab**

Practicum for Directing II; includes a final performance project. Prereq: 16DRTG821. Credit Level: G. Credit Hrs: 1.00

16DRTG823**Directing III Lab**

Practicum for Directing III; includes a final performance project. Prereq: 16DRTG822. Credit Level: G. Credit Hrs: 1.00

16DRTG824**Directing IV Lab**

Practicum for Directing IV; includes a final performance project. Prereq: 16DRTG823. Credit Level: G. Credit Hrs: 1.00

16DRTG825**Directing V Lab**

Practicum for Directing V; includes a final performance project. Prereq: 16DRTG824. Credit Level: G. Credit Hrs: 1.00

16DRTG826**Directing VI Lab**

Practicum for Directing VI; includes a final performance project. Prereq: 16DRTG825. Credit Level: G. Credit Hrs: 1.00

16DRTG831**History of the Theater**

Introduction to the history of the theater, with emphasis on its most notable periods in western civilization. Focus on the integrated contribution of the performer, designer, and writer to the theatrical event and on the interests and perspectives of their audience. Credit Level: G. Credit Hrs: 3.00

16DRTG832**History of the Theater**

Introduction to the history of the theater, with emphasis on its most notable periods in western civilization. Focus on the integrated contribution of the performer, designer, and writer to the theatrical event and on the interests and perspectives of their audience. Credit Level: G. Credit Hrs: 3.00

16DRTG833**History of the Theater**

Introduction to the history of the theater, with emphasis on its most notable periods in western civilization. Focus on the integrated contribution of the performer, designer, and writer to the theatrical event and on the interests and perspectives of their audience. Credit Level: G. Credit Hrs: 3.00

16DRTG841**Directing Project I**

Workshop or studio theater production. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

16DRTG842**Directing Project II**

Workshop or studio theater production. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

16DRTG870**Approaches to Production**

A graduate seminar on the topic of theatrical collaboration. Credit Level: G. Credit Hrs: 3.00

16DRTG880**Graduate Directing Seminar**

Prereq.: Perm. of instr. Credit Level: G. Credit Hrs: 6.00

Directing**16DRTG881****Advanced Directing Practicum**

Fully directed classroom production independent of the Lab component of the Core Directing sequence. Classroom production in advanced topics, such as, but not limited to, period styles, alternative forms, or a production outside each student's area of specialization. May be repeated for credit. Credit Level: G. Credit Hrs: 1.00-3.00

16DRTG882**Thesis Tutorial**

To be taken during the quarter of the director's thesis production. Student and faculty advisor will meet in tutorial fashion to discuss the progress of the student's thesis production and written thesis. Credit Level: G. Credit Hrs: 3.00

16DRTG883**Thesis Production**

Design, collaboration, rehearsal, and performance of thesis production. Credit Level: G. Credit Hrs: 3.00

16DRTG890**Professional Directing Internship**

Prereq.: Perm. of instr. Credit Level: G. Credit Hrs: 6.00

16DRTG899**Master's Candidacy**

Retainment of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

Electronic Media**16EMED100****Introduction to the E-Media Division**

An introduction for new majors to the Electronic Media Division with guidelines for successfully completing the program course of study. Required for all new Electronic Media students. BoK: NA. Credit Level: U. Credit Hrs: 1.00

16EMED101**UCast/TV51**

A practicum for students involved in the management and operations of UCAST/TV51, University of Cincinnati All Student Television. Students will contribute in various capacities and at different levels of involvement in the production and dissemination of television programming content for the University's only student-run television channel. Open to non-majors. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

16EMED102**Bearcast**

Provides students hands-on experience in the day-to-day operations of Bearcast, the Electronic Media Division's student-run internet radio station. Students will focus their work within a particular area of Bearcast operations, involving, one or more of the following: programming, news/ sports, music, production, promotion, web design, or sales. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

16EMED105**History of Electronic Media**

Historical survey from 1900 to present. Emphasis on social, political, economic, and cultural influences of electronic media on society. Major areas covered: advertising, programming, noncommercial, law, cable. BoK: HP. Credit Level: U. Credit Hrs: 3.00

16EMED109**Digital Core I**

Required of all incoming freshman and transfer students as part of the first-year digital experience. This introductory E-Media course focuses on the areas of acquisition, editing, exporting of digital images, digital audio and digital video, while offering students a comprehensive hands-on experience with Mac-OS X. All course work will be completed via the iLife '06 creative suit pre-installed on all new Apple computers. This software suite includes iPhoto, iWeb, iMovie HD, iDVD and iMovie. The use of these introductory digital tools at an early age will enable students a smooth transition to the Pro Applications later in

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Electronic Media**16EMED109****Digital Core I**

their college career. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED110**Digital Core II**

Required of all incoming Freshman and transfer students as part of the first-year digital experience. This introductory E-Media course focuses on the areas of acquisition, editing, exporting of digital images, digital audio and digital video, while offering students a comprehensive hands-on experience with MAC OS X. All course work will be completed via the iLife '06 creative suit pre-installed on all new Apple computers. This software suit includes iPhoto, iWeb, iMovie HD, iDVD and Garageband. The use of these introductory digital tools at an early age will enable students a smooth transition to the Pro Applications later in their college career. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED115**Sight, Sound and Motion**

A study of applied media aesthetics based upon an analysis of fundamental image elements -- light, space, time-motion, and sound. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED175**Survey of Film**

Evolution of the motion picture as a unique and significant form of expression. Investigation into film style and structure, distribution and consumption. Development of aesthetic criteria for critical examination. Viewing of representative films. Open to nonmajors. BoK: HP. Credit Level: U. Credit Hrs: 3.00

16EMED200**Media Research and Resources**

Introduction to methods, research strategies, electronic resources, and applications of contemporary scholastic and practical research in the media arts. Surveys, bibliographical material, archival resources, media organizations and associations, and proper research paper formats. Required of Elec. Media majors. Successful completion of this course with a grade of "C" or better, before permission is granted to enroll in any upper E-Media class. Prereq: 16EMED105, 15ENGL103. BoK: QR. Credit Level: U. Credit Hrs: 3.00

16EMED205**Introduction to Broadcast Performance**

Basic skills, terminology, and demands of acting. Performance in pantomime, monologues, 2-person scenes, and radio/TV commercials. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED210**Survey of Media Technologies**

History and contemporary role of communication delivery, storage and playback systems, including cable, VCRs, CDs, Pay TV, satellite distribution, etc. Their effect on over-the-air broadcasting, the public, and communication policy will be studied. Prereq: 16EMED105. BoK: HP. Credit Level: U. Credit Hrs: 3.00

16EMED220**Introduction to Electronic Media Writing**

A course stressing writing for the broadcast media and the differences between broadcast and print. Students will write newscasts, commercials and scripts for radio and TV. Successful completion of this course with a grade of "C" or better, before permission is granted to enroll in any upper division E-Media production class. Prereq: 16EMED105, 15ENGL103. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED221**News Writing**

A writing lab, newsroom atmosphere. Students will write news stories for radio, television, and online journalism. Prerequisite: 16EMED100, 105 and Freshman English. Prereq: 16EMED230. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Electronic Media**16EMED225****Introduction to E-Media Performance**

Basic skills, terminology, and demands of acting. Performance in pantomime, monologues, 2-person scenes, and radio/TV commercials. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED230**Survey of Electronic Journalism**

This course encourages students to become better citizens by keeping up with the news and thereby increasing their understanding of the serious issues that confront our community, nation and world. Course also covers the role of the journalist and the news media in our society. Prereq: 16EMED105. BoK: HP. Credit Level: U. Credit Hrs: 3.00

16EMED240**Digital Audio Production**

An in-depth study of audio recording systems, components, and philosophies. Emphasis will be on internet radio production including viable radio program format creation, proper voice recording, loop music reation, digital audio editing and mixing. Adobe Audition is the featured software for this course. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED250**Studio TV Production**

Introduction to multiple-camera studio television production in the switched-feed tradition. Provides training in the use of various technologies and equipment and orients students to duties and crew positions of studio television. Prereq: 16EMED115. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED251**Digital Sight, Sound and Motion**

Application of media aesthetic theory, process and technique in communicating ideas to a specified audience via the digital video production process. During the quarter, each student is required to write, produce, shoot and edit several projects using digital video cameras, working in a digital nonlinear editing environment and delivering their content on interactive DVDs. Prereq: 16EMED115. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED310**Survey of Mass Media Technologies**

Analysis and contemporary role of electronic mass media. Emphasis will be placed on acquiring foundation knowledge, including the Radio Frequency Spectrum. Coaxial Cable, Fiber Optics, Digitalization and Compression Techniques and components of the internet before engaging in an analysis of contemporary electronic mass media convergence, assessing change, challenges, and opportunities faced by electronic media industries, their regulatory agencies and the public. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED321**News Writing**

A writing lab, newsroom atmosphere. Students will write news stories for radio, television, and online journalism. Prerequisite: 16EMED100, 105 and Freshman English. Prereq: 16EMED230, 15ENGL103, 16EMED100, 16EMED105. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED322**Writing for the Web**

Students will learn the steps in developing a web project from the writer/producer's point of view, analyzing the target audience, determining the message to be conveyed, and presenting the content in readable, user-friendly manner. Photography and graphics preparation in addition to text. Opportunities for online journalism and development of promotional/educational material will be presented. Students will supply content for university-based websites. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED330**Survey of Electronic Media Advertising**

Methods and techniques of advertising as they relate to the marketing

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Electronic Media**16EMED330****Survey of Electronic Media Advertising**

cycle, media, and the communication and behavioral fields. Topics include: marketing, positioning, creating strategies, media planning and buying, creativity, and regulations. Required of Electronic Media majors. Open to nonmajors. Prereq: 16EMED105, 15ENGL103. BoK: SE. Credit Level: U. Credit Hrs: 3.00

16EMED340**Commercial Audio Production**

An in-depth study of commercial audio production for "real world" clients. Emphasis will be on the creative aspects of brain storming advertising, marketing, copy writing, recording voice talent, and digital audio post-production techniques. Adobe Audition is the featured software for this course. Prereq: 16EMED240. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED350**TV Production II**

More advanced studio production disciplines, introducing/ incorporating single camera field production and video editing techniques. Required of Electronic Media majors. Prereq: 16EMED250. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED351**Producing**

Students will produce individual and challenging production assignments, and work in various capacities in fellow students' productions. Prereq: 16EMED350. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED352**Documentary Production**

Basic principles, procedures and techniques applicable to nonfiction production. Through lecture and written analysis, students contextualize documentary form and narrative structure, cinema verite/direct cinema and reflexive/transparent directorial approaches, subjective and objective camera and issues of voice, p.o.v. and verisimilitude. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED354**Postproduction I**

This course examines the mechanics, aesthetics and theory involved in the juxtaposition and sequencing of images and sounds that develop over time in a coherent narrative manner to evoke a desired viewer response. During the quarter, each student will learn to deconstruct and analyze video and film sequences while also spending a minimum of 50 hours of hands-on time editing assignments on a state-of-the-art Avid Adrenaline digital editing system. By quarter's end, each student will work with producers from the Producing for Single-Camera Production class in taking a professional project through the entire off-line and on-line postproduction process- logging footage, using the Avid Media Log, digitization, preparing a rough cut, importing graphics and animation, audio sweetening and final cut. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED355**Producing for Single-Camera Productions**

This course explores the theory, technique and aesthetics involved in producing professional single-camera productions. Through hands-on applications in the field, students will learn the professional practices involved in acquiring images and sounds that evoke a desired viewer response. During the quarter, students work in groups to conceptualize, write and produce a professional quality production that incorporates aspects of the preproduction, production, and in-collaboration with the Postproduction I class-postproduction processes. Prereq: 16EMED251. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED356**Videographics**

Introduction to the creation of electronically generated graphics. Graphic images and texts, created from scratch or from other existing images. Techniques include free-hand drawing with a variety of brush

Electronic Media**16EMED356****Videographics**

strokes, sizes, and shapes. Control of picture creation and coloration is achieved on a pixel-by-pixel basis. Linear and curvilinear motion is also explored by further digitizing the video, experimenting with flips, tumbles, zooms, and variable positions. Prereq: 16EMED350. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED357**Uptown -- CCM/TV**

Students assume all roles in producing "Uptown"-- a campus-oriented news featured program. When interest warrants students also produce a sports-oriented television program. Both are aired on the University's closed circuit Channel 51. Prereq: 16EMED250, 16EMED251. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED360**Multitrack Music Production I**

An in-depth study of studio music production in a multitrack recording format. Emphasis will be on the production process including, studio recording techniques, recording session processes and final production mix down. Pro Tools is the featured software for this course. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED361**Multitrack Music Production II**

Advanced level audio production course dealing exclusively with multitrack applications in audio music recording. Extensive intermediate and advanced techniques will be explained such as automated mixing. CCM ensembles and local bands will provide challenging real world recording experiences. Projects will provide opportunity for demo reel materials. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED370**Sound for Picture**

An in-depth study of commercial audio production for sound for picture applications. Emphasis will be on the production process of generating timing information, meeting clients' needs, loop music creation and post-production techniques. Sound Track Pro and Pro Tools are the featured software for this course. Prereq: 16EMED361. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED372**Postproduction II**

This course builds upon the theory and techniques introduced in the Postproduction I class to apply advanced editing techniques for various electronic media genre. During the quarter, each student will produce a number of shot-by-shot analysis for various continuity, montage, and non-fiction sequences. By quarter's end, students will learn to use the components, techniques and processes involved in the advanced operation of the Avid Adrenaline and Final Cut Pro editing systems including effect editing, compositing, media management and various compression/decompression algorithms for delivery of their programs for a variety of media. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED380**New Media Studio I**

An introduction to the fundamental skills and tools employed by industry professionals to create effective web-based digital content. During this fast-paced ten-week digital experience, students will explore both the technical and creative aspects of web-based content creation. Students will develop online content using traditional hand-coding techniques, popular professional WYS/WYG tools, and industry standard image acquisition and editing application Adobe Photoshop. Students will gain familiarity with the Mac OS X operating system and basic web terminology. Prereq: 16EMED109, 16EMED110. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED381**New Media Studio II**

An introduction to time-based interactive content creation with industry standard animation and authoring environment Macromedia Flash.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Electronic Media**16EMED381****New Media Studio II**

During the ten-week quarter, students will produce a range aesthetically pleasing rich media projects containing text, animation, sound and video. Students should be familiar with Max OS X, file management and basic web terminology. Prereq: 16EMED380. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED382**New Media Studio III**

During this advanced ten-week experience students will explore the world of motion graphics creation and visual effects for film, broadcast, DVD and the web using Adobe After Effects. All work created in this motion graphics class will be authored to DVD using DVD Studio Pro. Students should be familiar with MAC S X, Adobe Photoshop, Final Cut Pro and Quicktime. Prereq: 16EMED381. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED400**E-Media Programming**

Explores the strategic thinking involved in the development, production, marketing and distribution of electronic media content. Some key areas of emphasis for this course include interpreting and applying audience research, exploration of traditional and contemporary programming theory, and assessing the impact of new media technology on programming decisions. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED440**E-Media Sales**

A practical investigation of the procedures used in the selling of electronic media advertising. Emphasizes contemporary sales theory, the assessment of business marketing needs, interpersonal communication skills and hands on selling experience BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED470**BearCast Management**

Available only to those students appointed as student directors of BearCast, the Electronic Media Division's student-run, Internet radio station. The course is designed to provide students with practical media management experience. An emphasis will be placed on the application of management theory, personnel management, time management and project management. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED471**UCast Management**

Available only to those students appointed as student directors of UCast, the Electronic Media Division's student-run cable television station. The course is designed to provide students with practical media management experience. An emphasis will be placed on the application of management theory, personnel management, time management and project management. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED475**Global E-Media Communication**

The course will expose students to selected countries and their respective internal and external broadcasting systems. Understanding geographic locations, cultural and historical developments will prepare the students to appreciate differences among foreign broadcasting systems. Moreover, global and international organizations and policy groups, and satellite and satellite service providers will be highlighted, aiming for an understanding of supranational satellite/television/multimedia/telecommunication developments and businesses. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED476**E-Media Criticism**

Critical study of electronic media, with detailed examination of programs, cultural relationships, and essential characteristics of electronic media. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Electronic Media**16EMED480****Electronic Media Law**

Legal aspects of the broadcasting industry examined in the historical and current perspectives. Case studies focus on specific areas of electronic media practices and problems. BoK: SE. Credit Level: U. Credit Hrs: 3.00

16EMED485**Ethics of Mass Media**

Development of a strong ethical structure for media as an industry, and for the media professional as an individual and as part of a collective body. BoK: SE. Credit Level: U. Credit Hrs: 3.00

16EMED495**Internship**

On-the-job training in broadcasting and allied fields. Enrollment by faculty invitation only. Interviewing required. Six credit hours required; in addition, six credit hours can count as Applied or General E-Media electives. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

16EMED498**Senior Project**

This course will provide electronic media seniors with the opportunity to fuse all elements of the electronic media curriculum into a capstone experience - a single digital video project. This class will be comprised of three to four production teams made up of some combination of writer/producer, director, director of photography and editor. By the end of the quarter, each production team will be responsible for successfully completing the preproduction, production, postproduction and distribution aspects of an original digital video program. During the course of the quarter, students will also be required to present and discuss postgraduate plans, resumes, cover letters and demo reels. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16EMED499**Capstone Experience Seminar**

This experience is designed to help Electronic Media Division B.F.A. candidates prepare for a presentation to Divisional faculty that encompasses each student's overall development during their academic experience at the University of Cincinnati in those baccalaureate competencies of the General Education Breadth of Knowledge areas for the Fine Arts and Humanities: critical thinking, effective communication, social responsibility and knowledge integration. BoK: NA. Credit Level: U. Credit Hrs: 0.00-3.00

16EMED550**Directed Research**

Prereq.: Perm. of Div. Head. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

16EMED560**Independent Study**

Prereq.: Perm. of Div. Head. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16EMED598**Special Topics on Broadcasting**

Topic is determined by student interest and faculty expertise. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

16EMED630**Special Topics in Electronic Media**

This course is designed to fill in temporary gaps in electronic media offerings. This particular topic is determined by student interest and expertise. Specialized talents of visiting faculty and professional are used. BoK: NA. Credit Level: U. Credit Hrs: 3.00

English Horn**16ENHN680****English Horn Master Class**

A weekly seminar in English Horn performance covering English Horn and reed-making techniques, etudes, Bach arias, sonatas and concerti, orchestral excerpts. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Ensemble**16ENSM171****Bearcat Marching Band**

Ensemble which presents pre-game, half-time, and post-game entertainment at all home football games. Class includes Pre-school Camp and required performances. BoK: FA. Credit Level: U. Credit Hrs: 0.00-1.00

16ENSM175**Bearcat Varsity Band**

Required performances at basketball games and various events. Brass, woodwind, percussion and jazz ensembles meet at various times. BoK: FA. Credit Level: U. Credit Hrs: 0.00-1.00

16ENSM181**UC Men's Chorus**

A 50-voice ensemble performing classical and popular choral literature on campus, locally, and on national tours. BoK: FA. Credit Level: U. Credit Hrs: 0.00-1.00

16ENSM185**UC Women's Chorus**

A 50-voice ensemble performing classical and popular choral literature on campus, locally, and on annual national tours. BoK: FA. Credit Level: U. Credit Hrs: 0.00-1.00

16ENSM191**University of Cincinnati Symphony Orchestra**

This orchestra is specifically for nonmusic majors and is designed to provide students with an opportunity to rehearse and perform orchestral repertoire. It is open to qualified instrumentalists as determined by audition. BoK: FA. Credit Level: U. Credit Hrs: 0.00-1.00

16ENSM550**Lucca Festival Ensemble**

Preparation and presentation of orchestral programs and chamber music concerts. BoK: FA. Credit Level: U, G. Credit Hrs: 7.00

16ENSM570**Chamber Orchestra**

An orchestral experience exposing students to music of the 17th through 20th centuries for chamber orchestra. By audition only. Perm of Instructor. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16ENSM571**Brass Choir**

A small virtuoso organization for brass and percussion players, performing standard brass literature in various styles and from all historical periods. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16ENSM572**Jazz Lab Band**

An 18-member ensemble which performs a wide range of historical and contemporary literature, including swing era, bebop, mainstream, latin, jazz/rock fusion, and avant-garde. Student compositions and arrangements are frequently performed. By audition only. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16ENSM573**Jazz Ensemble**

An 18-member ensemble which performs a wide range of historical and contemporary literature, including swing era, bebop, mainstream, latin, jazz/rock fusion, and avant-garde. Student compositions and arrangements are frequently performed. By audition only. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16ENSM575**Concert Orchestra**

A full symphony orchestra performing symphonic literature of all periods. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16ENSM576**Contemporary Music Ensemble**

An ensemble/repertoire course devoted to the study and performance of representative and experimental works of the twentieth century. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

Ensemble**16ENSM576****Contemporary Music Ensemble**

An ensemble/repertoire course devoted to the study and performance of representative and experimental works of the twentieth century. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16ENSM577**Repertory Orchestra**

An orchestral experience exposing instrumentalists to a broad orchestral repertory and providing training for conducting majors. By audition only. Perm of Instructor. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16ENSM579**Philharmonia Orchestra**

A full symphony orchestra which prepares concert and opera performances, and produces recordings on a regular basis. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16ENSM581**Wind Ensemble**

A select ensemble of wind and percussion instrumentation which performs traditional and contemporary literature of the highest quality. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16ENSM582**Wind Symphony**

A highly select ensemble of wind and percussion students dedicated to studying, performing, and recording the finest repertoire from all musical periods. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16ENSM585**Chamber Winds**

A select group which promotes the advancement of wind music of artistic and historical significance through one-on-a-part performances in a chamber setting. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16ENSM666**Ensemble**

Autumn Quarter registration for primary ensembles and assignments to major ensembles; registration is subsequently changed to reflect actual participation. BoK: NA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16ENSM667**Ensemble**

Autumn Quarter registration for secondary ensembles prior to auditions and assignments; registration is subsequently changed to reflect actual participation. BoK: NA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16ENSM671**Chamber Choir**

A select vocal ensemble specializing in vocal literature from the Baroque era to the present. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16ENSM672**Chamber Singers**

A group of 55 vocalists concentrating in the definitive performance of vocal chamber music of all periods. The lab chorus for graduate choral conducting majors. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16ENSM673**Chorale**

A 80-voice ensemble of performers which performs vocal compositions from the Middle Ages to the twentieth century. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16ENSM674**Renaissance Consort**

A chamber ensemble specializing in the performance of music of the late Middle Ages, the Renaissance, and early Baroque. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

H=University Honors course.

Euphonium**16EUPH100****Euphonium Major Study**

Technical requirements: study of major and minor scales; selected studies for the refinement of basic techniques. Band repertoire. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16EUPH110**Euphonium Concentration**

First-year study for euphonium students in the B.A. program in music. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16EUPH120**Euphonium Secondary**

First-year secondary study in euphonium as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16EUPH200**Euphonium Major Study**

Further advanced technical studies and compositions for the instrument covering different styles. Continuation of band repertoire. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16EUPH210**Euphonium Concentration**

Second-year study for euphonium students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16EUPH220**Euphonium Secondary**

Second-year secondary study in euphonium as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16EUPH300**Euphonium Major Study**

Continuation of 16EUPH200. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16EUPH310**Euphonium Concentration**

third-year study for euphonium students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16EUPH320**Euphonium Secondary**

Third-year secondary study in euphonium as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16EUPH400**Euphonium Major Study**

Advanced technical studies. Continuation of band repertoire. Preparation of Senior Recital including compositions of different styles. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16EUPH410**Euphonium Concentration**

Fourth-year study for euphonium students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16EUPH420**Euphonium Secondary**

Fourth-year secondary study in euphonium as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16EUPH500**Euphonium Major**

Additional study for undergraduate euphonium majors who have completed the basic degree requirements; offered for undergraduate and graduate euphonium majors during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16EUPH510**Euphonium Concentration**

Additional study in euphonium for undergraduate students at the

Euphonium**16EUPH510****Euphonium Concentration**

concentration level who have completed the basic degree requirements; offered to all concentration-level euphonium students during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16EUPH530**Euphonium Elective**

Nonrequired private study in euphonium; requires permission of the department and the college. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-2.00

16EUPH560**Independent Study**

In-depth study of a topic related to the euphonium, selected by the student in consultation with a member of the faculty. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16EUPH800**Euphonium Graduate Major Study**

Selected studies for continued refinement of previous skills. Preparation of two recital programs including repertoire of a high level of difficulty suited to the needs of the individual student. Band and orchestral repertoire. Credit Level: G. Credit Hrs: 4.00

16EUPH810**Euphonium Concentration**

Master's-level study for students accepted for a cognate in euphonium performance. Credit Level: G. Credit Hrs: 2.00

16EUPH820**Euphonium Secondary**

Secondary study in euphonium for master's degree students. Credit Level: G. Credit Hrs: 1.00

16EUPH850**Artist Certificate Euphonium**

First-year major study in euphonium for students accepted into the artist diploma program. NOTE: The Artist Diploma degree program in euphonium is not currently available. Credit Level: G. Credit Hrs: 6.00

16EUPH895**Practicum**

Practical experience in the professional world. Credit Level: G. Credit Hrs: 1.00

16EUPH899**Master's Candidacy**

Retainment of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

16EUPH900**Euphonium Major**

Doctoral-level study for euphonium performance majors. Credit Level: G. Credit Hrs: 4.00

16EUPH910**Euphonium Concentration**

Doctoral-level study for students accepted for a cognate in euphonium performance. Credit Level: G. Credit Hrs: 2.00

16EUPH920**Euphonium Secondary**

Secondary study in euphonium for doctoral-level students. Credit Level: G. Credit Hrs: 1.00

16EUPH930**Euphonium Elective**

Nonrequired private study in euphonium for doctoral students; requires permission of the department and the college. Credit Level: G. Credit Hrs: 1.00-2.00

16EUPH950**Artist Certification Euphonium**

Second-year major study in euphonium for students accepted into the artist diploma program. NOTE: The Artist Diploma program in

H=University Honors course.

Continuation of 30FMA192. Special lectures, outside readings, and in-depth discussions of major trends in American popular music culture in the Cincinnati area. Outside concerts are required. Tickets for the concerts are separate from fees, and must be purchased by each student in addition to tuition for the course. Offered alt. yrs. BoK: FA., DC. Credit Level: U. Credit Hrs: 3.00

16FAM194**The Folk-Rock-Jazz Culture - Part III**

Continuation of 30FAM193. Offered alt. yrs. BoK: FA., DC. Credit Level: U. Credit Hrs: 3.00

16FAM201**Music Appreciation I**

The common components and procedures in the music of Western culture. Lectures, visiting concert groups, and prepared listening tapes. For nonmusic majors. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16FAM202**Music Appreciation II**

Instruments, instrumental combinations, and instrumental forms in the music of Western culture. Lectures, visiting concert groups, and prepared listening tapes. For nonmusic majors. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16FAM203**Music Appreciation III**

Voices, choral combinations, choral forms, and the musical stage in Western culture. Lectures, visiting concert groups, and prepared listening tapes. For nonmusic majors. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16FAM221**Introduction to Arts Appreciation I**

Provides the general university student with a grounding in names, dates, examples, and stylistic characteristics from the normally accepted periods in the history of the arts. An entry-level offering for the general student and for those seeking a survey course to fulfill a Fine Arts requirement. This course covers Hellenic Greece through the Renaissance. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16FAM222**Introduction to Arts Appreciation II**

See 16FAM221. This course covers Baroque through Contemporary Arts. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16FAM251**Jazz Appreciation: Origins**

Origins of jazz: ragtime, blues, minstrals, spirituals, and brass bands. BoK: FA., DC. Credit Level: U. Credit Hrs: 3.00

16FAM252**Jazz Appreciation: The Swing Era**

Covers the period in which jazz was America's popular music, and the continuation into Bebop, Cool, Hard Bop and Free Jazz. BoK: FA., DC. Credit Level: U. Credit Hrs: 3.00

16FAM253**Jazz Appreciation: Fusion to the Present**

Final segment of the sequence focuses on fusion of styles (e.g. jazz and rock, jazz and hiphop) as well as revivals of earlier styles and contemporary developments. BoK: FA., DC. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Fine Arts - Music**16FAM315****Music in the French Baroque and Pre-Classical Periods**

A survey of music in France from the reign of Louis XIV to Louis XVI. The course will include the study of French National Operas of Lully and Rameau, opera-ballet, the opera seria reforms of Gluck, liturgical works, lute and keyboard music, chamber works and symphonic works against the background of the luxuriant royal society that fostered the arts. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16FAM316**French Music in the Classic and Romantic Periods**

During the nineteenth century, Paris was regarded by all countries as the musical capital of the world. This course is intended to cover the music of France from the time of the French Revolution up to the end of the nineteenth century. It will focus on important trends in opera, symphonic works, piano literature, choral works, and chamber literature during the Classic and Romantic periods. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16FAM317**Modern Music in France**

This course will focus on the most important musical trends in France from Debussy and Stravinsky up to the present. During the twentieth century, France was the center of musical culture and art. It was the hotbed of Neo-Classicism and experimentation in electronic music. This course will introduce new musical genres, illustrate the influences of art on music and introduce new sound materials outside functional tonality. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16FAM321**Introduction to Bach, Beethoven, and Brahms: Major Compositions**

The course is a presentation of the best musical works of Johann Sebastian Bach, Ludwig van Beethoven and Johannes Brahms, the three Bs of music. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16FAM331**History of Rock and Roll/Pop Music: 1954-1969**

History of Rock and Roll/Pop Music from 1954 to 1969 is to be the first in a series of three classes. This first course will be a sociological and musical survey of the origins of the genre and will cover the different cultural elements that brought it about and will include a wide variety of recording artists and their greatest hits. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16FAM332**History of Rock and Roll/Pop Music: 1969-1983.**

History of Rock and Roll/Pop Music from 1969 to 1983 is the second course in a three-part series. It will cover sociological events as they relate to music and cover a wide variety of musical styles that evolved after the Beatles broke up and will lead the class up to the multimedia explosion of music on MTV. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16FAM333**History of Rock and Roll/Pop Music: 1983-2001**

History of Rock and Roll/Pop from 1983 to 2001, the third in the series of proposed rock/pop classes, is intended to explore the new generation of music and the music industry from sociological, technological and musical points of view. It will cover the multimedia effects of MTV and the new stars of rock and popular music; it will show how artists explored different styles outside of their own areas of specialization, drawing on many other influences which destroyed the distinction of styles within particular groups and led to a questionable outcome for the future of Rock and Roll/Pop Music. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16FAM342H**Rock Music Workshop: Creative Impulse in the American Working Class**

A study, in a weekly workshop format, of the creative process using rock music as the medium. Teams of students shall create new songs in selected rock music styles by duplicating the language, rhythm and form of each style under consideration. No musical training or

Fine Arts - Music**16FAM342H****Rock Music Workshop: Creative Impulse in the American Working Class**

knowledge of songwriting is required. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16FAM395H**Music, Art, and Thought in Medici Florence, ca. 1430-1600**

An Honors Special Topics Course: From c1430- 1600, Florence witnessed a remarkable synergy of music, art, and thought financed by the Medici dynasty. Inhabited by such renowned artists as Leonardo da Vinci and Michaelangelo, musicians Guillaume DuFay and Heinrich Isaac, and writers Angelo Poliziano and Niccolo Machiavelli, Florence was a vortex of Renaissance humanism. The city also witnessed religious fanaticism and French invasions ravage it for two decades beginning in 1492. In this interdisciplinary course we will culminate with a one-week study tour of the city, where modern viewers can witness and experience first-hand an abundance of Medici era art and architecture in situ. BoK: FA., HP. Credit Level: U. Credit Hrs: 3.00-4.00

16FAM396**Opera: Its Divas, Queens, and Enchantresses**

Honors Course - This class will aim to grasp how gender and sexuality have affected the way musicians, authors, filmmakers, and others - from the 17th Century to the present-have understood and created their images of opera. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16FAM396H**Opera: Its Divas, Queens, and Enchantresses**

Honors Course - This class will aim to grasp how gender and sexuality have affected the way musicians, authors, filmmakers, and others - from the 17th Century to the present-have understood and created their images of opera. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16FAM397**Broadway Opera**

An introduction to the American musical theater and the burgeoning group of American music scholars who study Broadway musicals for Honors Scholars. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16FAM397H**Music and Architecture: Correlation and Comparison**

An introduction to the spatiotemporal correlation that is common to both music and architecture. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16FAM398H**Translations and Transformations: The Art and Aesthetics of Musical Transcriptions**

In western music, performers and composers sometimes transcribe works originally composed for one type of ensemble into works for others. Compositions can simply be "translated" to the new medium or they can be radically transformed in the process. In this course, we will explore this continuum of transcriptions and related aesthetic issues (e.g., authenticity versus "added value," the role of virtuosity, etc.), while developing active listening skills and creating a framework for life-long appreciation of music. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16FAM399H**The Meaning of Music**

Examination of the ways that music, especially absolute music, denotes meanings and expresses emotions. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16FAM511**Theory-Composition**

Basic knowledge and skills in music theory and music composition for nonmusic majors. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 2.00

16FAM512**Theory-Composition**

Continuation of 16FAM511. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 2.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Fine Arts - Music**16FAM513****Theory-Composition**

Continuation of 16FAM512. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 2.00

16FAM520**Multicultural Expressions Through the Arts**

Designed to introduce the general university student to the musical and artistic contributions of African-Americans, Asians, Hispanics, and Native Americans. BoK: FA., DC. Credit Level: U, G. Credit Hrs: 3.00

16FAM521**The Fine Arts Experience**

Using literature, poetry, drama, music and movement to explore the arts as communication in a variety of cultures, students will become knowledgeable about, perform, and create artistic works in multiple media formats and bring aesthetic criticism to bear on their work. BoK: FA., DC. Credit Level: U, G. Credit Hrs: 3.00

16FAM530**Lucca: Italian Culture**

Immersion in the daily life and language of Italy through a five-week residency in Lucca. Field trips to major cultural centers with exposure to Italian history, art, architecture, and music. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00-3.00

16FAM630**Special Topics**

Topics established every quarter by Department/Division. BoK: NA. Credit Level: U, G. Credit Hrs: 0.00-6.00

Flute**16FLUT100****Flute Major Study**

Technical requirements: studies for the development of tone quality; major and minor scales. Cavally -- Melodious and Progressive Studies, Books I and II (Anderson, Gariboldi, Kochler-Terschak, Kummer, etc.). Solo pieces selected from 24 Concert Pieces (Cavally), Handel -- Sonatas, Bournonville -- Danse pour Katia, Mouquet -- Five Short Pieces, and works of comparable difficulty. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16FLUT110**Flute Concentration**

First-year study for flute students in the B.A. program in music. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16FLUT120**Flute Secondary**

First-year secondary study in flute as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16FLUT200**Flute Major Study**

Technical requirements: continuation of tone studies, application and study of vibrato, major and minor scales, triad and dominant seventh chord arpeggios. Cavally -- Melodious and Progressive Studies, Books II and III, Handel -- Sonatas, Mouquet -- The Flute of Pan, Mozart -- Concerti, J.S. Bach -- Suite in B Minor, Camus -- Chanson et Badinerie, and works of comparable difficulty. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16FLUT210**Flute Concentration**

Second-year study for flute students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16FLUT220**Flute Secondary**

Second-year secondary study in flute as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

Flute**16FLUT300****Flute Major Study**

Technical requirements: further tone and vibrato studies, more difficult scales and arpeggios with increased facility, velocity studies -- all from memory. Famous Flute Studies (Anderson), Op. 15, Op. 30 and Op. 63. Passages from the orchestral repertoire and sight-reading. J. S. Bach -- Sonatas, Hindemith -- Sonata, HuÛ -- Fantasia, Casella -- Sicilienne and Burlesque, Karg-Elert -- Sonata Appassionata, Griffes -- Poeme, and works of comparable difficulty. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16FLUT310**Flute Concentration**

Third-year study for flute students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16FLUT320**Flute Secondary**

Third-year secondary study in flute as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16FLUT400**Flute Major Study**

Advanced technical studies: preparation of Senior Recital. Orchestral studies and sight-reading. Karg-Elert -- Twenty-four Caprices, Anderson -- Virtuoso Etudes, Jean-Jean -- Etudes Moderne. Solos of the difficulty of Dutilleux -- Sonantine, Ibert -- Concerto for Flute, Piston -- Sonata, Pendleton -- Concerto al pestre. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16FLUT410**Flute Concentration**

Fourth-year study for flute students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16FLUT420**Flute Secondary**

Fourth-year secondary study in flute as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16FLUT500**Flute Major**

Additional study for undergraduate flute majors who have completed the basic degree requirements; offered for undergraduate and graduate flute majors during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16FLUT510**Flute Concentration**

Additional study in flute for undergraduate students at the concentration level who have completed the basic degree requirements; offered to all concentration-level flute students during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16FLUT530**Flute Elective**

Nonrequired private study in flute; requires permission of the department and the college. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-2.00

16FLUT560**Independent Study**

In-depth study of a topic related to the flute, selected by the student in consultation with a member of the faculty. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16FLUT630**Special Topics**

Topics established by the area faculty on an as needed basis. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Flute**16FLUT680****Piccolo Master Class**

Forum for performance and discussion of topics related to the piccolo.
BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-2.00

16FLUT800**Flute Graduate Major Study**

Preparation of two recital programs, one to be performed in public.
Advanced technical studies, solo pieces, and orchestral studies
emphasizing skill in phrasing and solo technique will be adapted to the
needs of the individual student. Credit Level: G. Credit Hrs: 4.00

16FLUT810**Flute Concentration**

Master's-level study for students accepted for a cognate in flute
performance. Credit Level: G. Credit Hrs: 2.00

16FLUT820**Flute Secondary**

Secondary study in flute for master's degree students. Credit Level: G.
Credit Hrs: 1.00

16FLUT850**Artist Diploma in Flute**

First-year major study in flute for students accepted into the artist
diploma program. Credit Level: G. Credit Hrs: 6.00

16FLUT855**Artist Diploma Recital**

Public performance by an artist diploma student in flute of selection
compositions; approved and graded by the faculty. Credit Level: G.
Credit Hrs: 2.00

16FLUT880**Master Recital**

Public performance by a master's degree student in flute of selected
compositions; approved and graded by the faculty. Credit Level: G.
Credit Hrs: 1.00-2.00

16FLUT895**Practicum**

Practical experience in the professional world. Credit Level: G. Credit
Hrs: 1.00

16FLUT899**Master's Candidacy**

Retainment of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

16FLUT900**Flute Doctoral Major Study**

Selected studies for continued refinement of previous skills. Repertoire
to be selected from works of advanced technical difficulty. Preparation
of required doctoral recitals. Credit Level: G. Credit Hrs: 4.00

16FLUT910**Flute Concentration**

Doctoral-level study for students accepted for a cognate in flute
performance. Credit Level: G. Credit Hrs: 2.00

16FLUT920**Flute Secondary**

Secondary study in flute for doctoral-level students. Credit Level: G.
Credit Hrs: 1.00-2.00

16FLUT930**Flute Elective**

Nonrequired private study in flute for doctoral students; requires
permission of the department and the college. Credit Level: G. Credit
Hrs: 1.00-2.00

16FLUT950**Artist Diploma in Flute**

Second-year major study in flute for students accepted into the artist
diploma program. Credit Level: G. Credit Hrs: 6.00

Flute**16FLUT960****Flute Concerto**

Public performance of a concerto with one of the major performing
ensembles. Credit Level: G. Credit Hrs: 2.00

16FLUT970**Doctoral Recital**

Public performance by a doctoral student in flute of selected
compositions; approved and graded by the faculty. Credit Level: G.
Credit Hrs: 3.00

16FLUT980**Lecture Recital**

Combined public lecture and performance of a selected topic in the flute
repertoire; approved and graded by the faculty. Credit Level: G. Credit
Hrs: 3.00

16FLUT990**DMA Document**

Research and preparation of the final written project for the DMA
degree in flute; topic to be approved and supervised by the faculty.
Credit Level: G. Credit Hrs: 1.00-15.00

Classical Guitar**16GTAR100****Classical Guitar Major Study**

Technical facility in scales, arpeggios, and guitar studies. Solo
repertoire including selections from Sor-Segovia, Twenty Studies, etude
collections of Giuliani, Carcassi, Aguado and Coste, Villa-Lobos
Preludes. Ensemble literature for two and three guitars. Chamber music
literature. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16GTAR110**Classical Guitar-Concentration**

First-year study for classical guitar students in the B.A. program in
music. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16GTAR120**Classical Guitar Secondary**

First-year secondary study in classical guitar as required for specific
majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16GTAR200**Classical Guitar Major Study**

Continuation of the above. Additional works including selections from
DeVisee suites, Dowland lute pieces, Bach preludes, Milan pavares,
Sor Twenty Studies. Ensemble literature. Chamber music literature.
BoK: FA. Credit Level: U. Credit Hrs: 4.00

16GTAR210**Classical Guitar-Concentration**

Second-year study for classical guitar students in the B.A. program in
music or in the music education program. BoK: FA. Credit Level: U.
Credit Hrs: 2.00

16GTAR220**Classical Guitar Secondary**

Second-year secondary study in classical guitar as required for specific
majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16GTAR300**Classical Guitar Major Study**

Continuation of the above. Additional works include selections from
Bach lute suites, solo works of Corbetta, Scarlatti, Sor, Tarrega,
Albeniz, Ponce. Study of the Spanish vihuelists Fuenllana, Milan,
Mudarra, Narvaez, transcription and edition procedures. Ensemble
literature. Chamber music literature. Preparation of joint recital. BoK:
FA. Credit Level: U. Credit Hrs: 4.00

16GTAR310**Classical Guitar-Concentration**

Third-year study for classical guitar students in the B.A. program in
music or in the music education program. BoK: FA. Credit Level: U.
Credit Hrs: 2.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.
LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Classical Guitar**16GTAR320****Classical Guitar Secondary**

Third-year secondary study in classical guitar as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16GTAR400**Classical Guitar Major Study**

Continuation of the above. Additional works including selections from Bach lute suites and fugues, solo works of Sor, Giuliani, Tarrega, Albeniz, de Falla, Turina, Britten, Berkeley, Brindle, Rodrigo, Villa-Lobos, Lauro, H.W. Henze. Study of Castelnuovo-Tedesco, Palau, and Rodrigo concertos among others. Ensemble literature. Chamber music literature. Preparation of Senior Recital. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16GTAR410**Classical Guitar-Concentration**

Fourth-year study for classical guitar students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16GTAR420**Classical Guitar Secondary**

Fourth-year secondary study in classical guitar as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16GTAR500**Guitar Major**

Additional study for undergraduate classical guitar majors who have completed the basic degree requirements; offered for undergraduate and graduate classical guitar majors during the Summer Session, depending on faculty availability. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16GTAR510**Guitar Concentration**

Additional study in classical guitar for undergraduate students at the concentration level who have completed the basic degree requirements. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16GTAR530**Classical Guitar Elective**

Nonrequired private study in classical guitar; requires permission of the department and the college. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-2.00

16GTAR531**Classical Guitar Repertoire**

A survey of literature for the classical guitar beginning with music for the 16th-century vihuela, continuing through the 20th-century repertoire. Lute music, tablatures, transcription procedures integrally covered. Given in alternate years. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16GTAR532**Classical Guitar Repertoire**

A survey of literature for the classical guitar beginning with music for the 16th-century vihuela, continuing through the 20th-century repertoire. Lute music, tablatures, transcription procedures integrally covered. Given in alternative years. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16GTAR533**Classical Guitar Repertoire**

A survey of literature for the classical guitar beginning with music for the 16th-century vihuela, continuing through the 20th-century repertoire. Lute music, tablatures, transcription procedures integrally covered. Given in alternative years. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16GTAR550**Classical Guitar Chamber Music**

Preparation and performance of representative chamber music literature. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-3.00

Classical Guitar**16GTAR551****Classical Guitar Pedagogy**

A survey of methods and materials for private and classroom teaching. Historical and contemporary tutors examined. Consideration of organizational and communicative teaching techniques. Evaluation of aims and results. Given in alternate years. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16GTAR552**Classical Guitar Pedagogy**

A survey of methods and materials for private and classroom teaching. Historical and contemporary tutors examined. Consideration of organizational and communicative teaching techniques. Evaluation of aims and results. Given in alternate years. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16GTAR553**Classical Guitar Pedagogy**

A survey of methods and materials for private and classroom teaching. Historical and contemporary tutors examined. Consideration of organizational and communicative teaching techniques. Evaluation of aims and results. Given in alternative years. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16GTAR560**Independent Study**

In-depth study of a topic related to classical guitar selected by the student in consultation with a member of the faculty. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16GTAR575**Classical Guitar Class**

Applied course in basic guitar skills. Emphasis on playing classical and folk styles. Review of current published methods and materials. Open to non-CCM students. Course repeats each qtr. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16GTAR630**Special Topics in Classical Guitar**

Topics established as needed to cover new issues in the discipline. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-3.00

16GTAR660**Special Topics**

Topics established every quarter by Department/Division. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-6.00

16GTAR670**Classical Guitar Ensemble**

Four years participation required of all classical guitar majors. Preparation and performance of representative literature for two, three, four guitars; chamber music for guitar and voice, guitar and other instruments. For guitar majors and assisting vocalists and instrumentalists only. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16GTAR800**Classical Guitar Major Study**

Preparation of two recital programs to be performed in public. Repertoire of advanced difficulty suited to the needs of the individual student. Credit Level: G. Credit Hrs: 4.00

16GTAR821**Performance Practicum**

Discussion and performance of major classical guitar repertoire. Emphasis on refinement of performance skills. Each student will perform at least one substantial example of each of the following: baroque suite, contemporary work. Area majors. Credit Level: G. Credit Hrs: 2.00

16GTAR822**Performance Practicum**

Discussion and performance of major classical guitar repertoire. Emphasis on refinement of performance skills. Each student will perform at least one substantial example of each of the following:

H=University Honors course.

16GTAR823**Performance Practicum**

Discussion and performance of major classical guitar repertoire. Emphasis on refinement of performance skills. Each student will perform at least one substantial example of each of the following: baroque suite, contemporary work. Area majors. Credit Level: G. Credit Hrs: 2.00

16GTAR824**Seminar in Classical Guitar Repertoire**

Study and analysis of significant works and composers in each stylistic period. Music of 16th-17th centuries, 18th-19th centuries, and 20th Century. Area majors. Credit Level: G. Credit Hrs: 2.00

16GTAR825**Seminar in Classical Guitar Repertoire**

Study and analysis of significant works and composers in each stylistic period. Music of 16th-17th centuries, 18th-19th centuries, and 20th century. Area majors. Credit Level: G. Credit Hrs: 2.00

16GTAR826**Seminar in Classical Guitar Repertoire**

Study and analysis of significant works and composers in each stylistic period. Music of 16th-17th centuries, 18th-19th centuries, and 20th century. Area majors. Credit Level: G. Credit Hrs: 2.00

16GTAR880**Masters Recital**

Public performance by a master's degree student in classical guitar of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 1.00-2.00

16GTAR895**Practicum**

Practical experience in the professional world. Credit Level: G. Credit Hrs: 1.00

16GTAR899**Master's Candidacy**

In-depth study of a topic related to the classical guitar, selected by the student in consultation with a member of the faculty. Credit Level: G. Credit Hrs: 1.00

Harp**16HARP100****Harp Major Study**

Technical studies such as Holy -- Studies, Vol. I, Bochs-Martenot -- Etudes, Op. 318, Nos. 1-20, Pozzoli -- Studies. Marcel Grandjany -- Two French Folk Songs; Louise David Album, Vols. I and II (selected solo pieces). BoK: FA. Credit Level: U. Credit Hrs: 3.00

16HARP110**Harp Concentration**

First-year study for harp students in the B.A. program in music. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16HARP120**Harp Secondary**

First-year secondary study in harp as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16HARP200**Harp Major Study**

Studies include Holy -- Studies, Vol. I, Bochs-Martenot -- Etudes, Op. 318, Nos. 21-40, Dizi -- Studies, Vol. I, Naderman-Hasselmans -- Seven Progressive Sonatinas, Dussek -- Sonatinas, Louise David Album, Vols. I and II. Haydn -- Theme and Variations. BoK: FA. Credit Level: U. Credit Hrs: 4.00

Harp**16HARP210****Harp Concentration**

Second-year study for harp students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16HARP220**Harp Secondary**

Second-year secondary study in harp as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16HARP300**Harp Major Study**

Continuation of Dizi and Bochs-Martenot studies. J. S. Bach-Grandjany -- Largo from the Fifth Violin Sonata, Prokofiev -- Prelude in C, Handel-Salzedo -- The Harmonious Blacksmith, Maderman -- Sonatinas. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16HARP310**Harp Concentration**

Third-year study for harp students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16HARP320**Harp Secondary**

Third-year secondary study in harp as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16HARP400**Harp Major Study**

Dizi -- Studies, Vol. II, continuation of Bochs-Martenot Etudes. Solo pieces of the difficulty of Pescetti -- Salzedo -- Sonata in C Minor, Dussek-Zabaleta -- Sonata, Tournier-Feerie (Prelude and Dance). Passages from the orchestral repertoire. Preparation of Senior Recital. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16HARP410**Harp Concentration**

Fourth-year study for harp students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16HARP420**Harp Secondary**

Fourth-year secondary study in harp as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16HARP500**Harp Major**

Additional study for undergraduate harp majors who have completed the basic degree requirements; offered for undergraduate and graduate harp majors during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16HARP510**Harp Concentration**

Additional study in harp for undergraduate students at the concentration level who have completed the basic degree requirements; offered to all concentration-level harp students during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16HARP530**Harp Elective**

Nonrequired private study in harp; requires permission of the department and the college. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-2.00

16HARP531**Harp Seminar**

Two quarters of harp pedagogy theory, one quarter of applied supervised teaching in preparation for future teaching opportunities. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Harp**16HARP532****Harp Seminar**

16HARP850**Artist Diploma in Harp**

First-year major study in harp for students accepted into the artist diploma program. Credit Level: G. Credit Hrs: 6.00

16HARP855**Artist Diploma Recital**

Public performance by an artist diploma student in harp for selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 2.00

Harp**16HARP880****Master Recital**

Public performance by a master's degree student in harp of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 1.00-2.00

16HARP895**Practicum**

Practical experience in the professional world. Credit Level: G. Credit Hrs: 1.00

16HARP899**Master's Candidacy**

Retention of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

16HARP900**Harp Major**

Selected studies for continued refinement of previous skills. Repertoire to be selected from works of advanced technical difficulty. Preparation of required doctoral recitals. Credit Level: G. Credit Hrs: 4.00

16HARP910**Harp Concentration**

Doctoral-level study for students accepted for a cognate in harp performance. Credit Level: G. Credit Hrs: 2.00

16HARP920**Harp Secondary**

Secondary study in harp for doctoral-level students. Credit Level: G. Credit Hrs: 1.00

16HARP930**Harp Elective**

Nonrequired private study in harp for doctoral students; requires permission of the department and the college. Credit Level: G. Credit Hrs: 1.00-2.00

16HARP950**Artist Diploma in Harp**

Second-year major study in harp for students accepted into the artist diploma program. Credit Level: G. Credit Hrs: 6.00

16HARP960**Harp Concerto**

Public performance of a concerto with one of the major performing ensembles. Credit Level: G. Credit Hrs: 2.00

16HARP970**Doctoral Recital**

Public performance by a doctoral student in harp of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16HARP980**Lecture Recital**

Combined public lecture and performance of a selected topic in the harp repertoire; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16HARP990**DMA Document**

Research and preparation of the final written project for the DMA degree in harp; topic to be approved and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-15.00

Music History and Literature**16HILT111****Music History and Literature I**

The history of Western music in the Medieval, Renaissance and Baroque eras. Non-CCM students must obtain instructor's permission; fluency in reading music is assumed. Transfer Module. BoK: FA, HP. Credit Level: U. Credit Hrs: 2.00

Music History and Literature**16HILT112****Music History and Literature I**

The history of Western music in the Medieval, Renaissance, and Baroque eras. Non-CCM students must obtain instructor's permission; fluency in reading music is assumed. Transfer Module. BoK: FA, HP. Credit Level: U. Credit Hrs: 2.00

16HILT113**Music History and Literature I**

The history of Western music in the Medieval, Renaissance, and Baroque eras. Non-CCM students must obtain instructor's permission; fluency in reading music assumed. Transfer Module. BoK: FA, HP. Credit Level: U. Credit Hrs: 2.00

16HILT211**Music History and Literature II**

Music in Western Civilization traced from 1750 to the present, a continuation of Music History and Literature 16HILT113. Transfer Module. BoK: FA, HP. Credit Level: U. Credit Hrs: 2.00

16HILT212**Music History and Literature II**

Music in Western Civilization traced from 1750 to the present, a continuation of Music History and Literature 16HILT113. Transfer Module. BoK: FA, HP. Credit Level: U. Credit Hrs: 2.00

16HILT213**Music History and Literature II**

Music in Western Civilization traced from 1750 to the present, a continuation of Music History and Literature 16HILT113. Transfer Module. BoK: FA, HP. Credit Level: U. Credit Hrs: 2.00

16HILT390H**Impressions As Muse: The First Impressionistic Composer?**

A study of Mussorgsky's "Pictures At An Exhibition" and The Changing Influences in Musical Composition in Fin-De-Siecle Russia. BoK: HP., FA. Credit Level: U. Credit Hrs: 3.00

16HILT480**Senior Research**

Bibliography, writing and research techniques first quarter. Research projects second and third quarters. BoK: NA. Credit Level: U. Credit Hrs: 2.00

16HILT501**Jazz Appreciation: Origins**

Origins of jazz: ragtime, blues, minstrals, spirituals and brass bands. BoK: FA., DC. Credit Level: U, G. Credit Hrs: 3.00

16HILT502**Jazz Appreciation: The Swing Era**

Covers the period in which jazz was America's popular music and the continuation into Bebop, Cool, Hard Bop and Free Jazz. BoK: FA., DC. Credit Level: U, G. Credit Hrs: 3.00

16HILT503**Jazz Appreciation: Fusion to the Present**

Final segment of the sequence focuses on fusion of styles (e.g. jazz and rock, jazz and hip-hop) as well as revivals of earlier styles and contemporary developments. BoK: FA., DC. Credit Level: U, G. Credit Hrs: 3.00

16HILT511**History of Opera**

Historical development of the opera from ca. 1600 through the twentieth century. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 3.00

16HILT512**History of Opera**

Historical development of the opera from ca. 1600 through the twentieth century. Prereq: 16HILT511. BoK: FA, HP. Credit Level: U, G. Credit Hrs: 3.00

Music History and Literature**16HILT513****History of Opera**

Historical development of the opera from ca. 1600 through the twentieth century. Prereq: 16HILT512. BoK: FA, HP. Credit Level: U, G. Credit Hrs: 3.00

16HILT515**Symphonic Literature**

The symphony and concert from Corelli to the present; emphasis on formal structure and history of style; analysis of selected compositions. Prereq: 16MTHC342. BoK: FA, HP. Credit Level: U, G. Credit Hrs: 3.00

16HILT516**Symphonic Literature**

The symphony and concert from Corelli to the present; emphasis on formal structure and history of style; analysis of selected compositions. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 3.00

16HILT517**Symphonic Literature**

The symphony and concert from Corelli to the present; emphasis on formal structure and history of style; analysis of selected compositions. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16HILT521**Queen of the West: Cincinnati's Music History**

Traverses Cincinnati's musical past, from its eighteenth century frontier beginnings through its rise in the middle of the nineteenth century, to the defining decade of the 1870s and beyond. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 3.00

16HILT525**Survey of Chamber Music Literature**

A historical survey of chamber music from c. 1600-1800 with emphasis on string literature. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 3.00

16HILT526**Survey of Chamber Music Literature**

Continuation of 16HILT525; 1800-1890. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 3.00

16HILT531**Interpretation and Performance of Baroque Music**

Performance practice and stylistic understanding of Baroque music for various instruments. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

16HILT532**Interpretation and Performance of Baroque Music**

Performance practice and stylistic understanding of Baroque music for various instruments. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

16HILT533**Interpretation and Performance of Baroque Music**

Performance practice and stylistic understanding of Baroque music for various instruments. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

16HILT540**Survey of Twentieth-Century Percussion Literature I**

The social, aesthetic, and technical development of solo, ensemble, chamber music, and orchestral literature for percussion from 1900 to the present. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16HILT541**Survey of Twentieth-Century Percussion Literature II**

The social, aesthetic, and technical development solo, ensemble, chamber music, and orchestral literature for percussion from 1900 to the present. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16HILT542**Survey of Twentieth-Century Percussion Literature III**

The social, aesthetic, and technical development of solo, ensemble, chamber music, and orchestral literature for percussion from 1900 to the present. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Music History and Literature**16HILT544****Jazz History**

A discussion/analysis course covering the evolution of jazz in America through the various periods and styles, including New Orleans, Swing, Bebop, Cool, Hard-bop, Post-bop, and Avant-garde. Pivotal figures such as Louis Armstrong, Charlie Parker, Miles Davis, and John Coltrane are examined through a study of their music, emphasizing detailed harmonic analysis of transcribed solos, and the historical position of their music in an evolutionary context. Selected reading and listening assignments are given. BoK: FA., DC. Credit Level: U, G. Credit Hrs: 2.00

16HILT545**Jazz History**

A discussion/analysis course covering the evolution of jazz in America through the various periods and styles, including New Orleans, Swing, Bebop, Cool, Hard-bop, Post-bop, and Avant-garde. Pivotal figures such as Louis Armstrong, Charles Parker, Miles Davis, and John Coltrane are examined through a study of their music, emphasizing detailed harmonic analysis of transcribed solos, and the historical position of their music in an evolutionary context. Selected reading and listening assignments are given. Prereq: 16HILT544. BoK: FA, DC. Credit Level: U, G. Credit Hrs: 2.00

16HILT546**Jazz History**

A discussion/analysis course covering the evolution of jazz in America through the various periods and styles, including New Orleans, Swing, Bebop, Cool, Hard-bop, Post-bop, and Avant-garde. Pivotal figures such as Louis Armstrong, Charlie Parker, Miles Davis, and John Coltrane are examined through a study of their music, emphasizing detailed harmonic analysis of transcribed solos, and the historical position of their music in an evolutionary context. Selected reading and listening assignments are given. Prereq: 16HILT545. BoK: FA, DC. Credit Level: U, G. Credit Hrs: 2.00

16HILT560**Independent Study in Music**

In-depth study of a topic in music history and literature, selected by the student in consultation with a member of the faculty. By permission of the Division Head. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16HILT571**Early Music Lab**

Hands-on exploration of Medieval, Renaissance, and early Baroque repertoires for instruments and voices. Historical instruments are provided. Sec. 001: Reeds and Brass (experience on reeds or brass required) Sec. 002: Recorders and Crumhorns (beginners welcome) Sec. 003: Advanced Viola da Gamba (perm of instr) Sec. 004: Voices (majors and non majors welcome) Sec. 005: Beginning Viola da Gamba (string experience highly recommended) BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16HILT581**World Music Performance Labs**

Students learn to play Andean panpipes and tarkas (vertical duet flutes), Afro-Bolivian saya, and African karimbas and mbira of the Shona people of Zimbabwe. BoK: FA., DC. Credit Level: U, G. Credit Hrs: 0.00-1.00

16HILT582**World Music Performance Labs**

Students learn to play Andean panpipes and tarkas (vertical duet flutes), Afro-Bolivian saya, and African karimbas and mbira of the Shona people of Zimbabwe. BoK: FA., DC. Credit Level: U, G. Credit Hrs: 0.00-1.00

16HILT583**World Music Performance Labs**

Students learn to play Andean panpipes and tarkas (vertical duet flutes), Afro-Bolivian saya, and African karimbas and mbira of the Shona people of Zimbabwe. BoK: FA., DC. Credit Level: U, G. Credit Hrs: 0.00-1.00

Music History and Literature**16HILT583****World Music Performance Labs**

Students learn to play Andean panpipes and tarkas (vertical duet flutes), Afro-Bolivian saya, and African karimbas and mbira of the Shona people of Zimbabwe. BoK: FA., DC. Credit Level: U, G. Credit Hrs: 0.00-1.00

16HILT610**Women in Music**

History of women's activities in Western music from the time of the ancient Greeks to the present. BoK: FA., DC. Credit Level: U, G. Credit Hrs: 3.00

16HILT611**Music of the Twentieth Century**

Historical perspective; survey of composers and styles; study of selected works by American and European composers. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 3.00

16HILT612**Music of the Twentieth Century**

Historical perspective; survey of composers and styles; study of selected works by American and European composers. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 3.00

16HILT613**Music of the Twentieth Century**

Historical perspective; survey of composers and styles; study of selected works by American and European composers. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 3.00

16HILT620**Chamber Music Literature with Piano**

A survey of major works of chamber music literature which include the piano: Baroque through 20th century. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 3.00

16HILT621**Survey of Song Literature: German Lied until 1850**

Evolution of the German Lied in the eighteenth century until the death of Schumann. Emphasis on solo vocal literature, interpretation of texts, poets significant to particular composers. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16HILT622**Survey of Song Literature: German Lied from 1850 to late 20th Century**

Solo vocal repertoire from Liszt to Henze. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16HILT623**Survey of Song Literature: Scandinavian and Slavic Song**

Includes Mussorgsky, Chaikovsky, Rachmaninoff, Prokofiev, Dvorak, Szymanowski, Grieg, Rangstrom, Stenhammer et al. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16HILT625**Survey of Song Literature: French m^olodie until Debussy**

Includes Berlioz, Duparc, Faure, Debussy. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16HILT626**Survey of Song Literature: 20th Century French me lodie, Spanish, Italian Song.**

Includes Ravel, Poulenc, Falla, Turina, Granados, Respighi et al. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16HILT627**Survey of Song Literature: British and American Art-Song**

Survey of the art songs by various British and American composers. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16HILT630**Special Topics**

Topics established every quarter by Department/Division. BoK: FA.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Music History and Literature**16HILT630****Special Topics**

Credit Level: U, G. Credit Hrs: 0.00-3.00

16HILT631**Survey of Choral Literature**

Pre-Renaissance; Renaissance Sacred Polyphony. Stylistic traits, types of compositions, and aesthetic considerations. Juniors, seniors, graduate students only. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16HILT632**Survey of Choral Literature**

Renaissance secular forms to Monteverdi; early and middle Baroque and sacred developments. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16HILT633**Survey of Choral Literature**

The period of Bach and Handel. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16HILT634**Survey of Choral Literature**

Pre-Classical; Classical through Beethoven. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16HILT635**Survey of Choral Literature**

The 19th century after Beethoven. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16HILT636**Survey of Choral Literature**

The 20th century. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16HILT641**Romanticism in Music**

Music in the 19th century from Beethoven through the mid-century; major composers, schools, styles, trends. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 3.00

16HILT642**Romanticism in Music**

Music at the second half of the 19th century. Mainstream Europeans as well as national schools; composers, styles, trends. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 3.00

16HILT643**Survey of Wind Literature**

Music for six or more instruments; Middle Ages to early 20th century. A survey of the literature for ensemble performance utilizing combinations of wind and percussion instruments. Emphasis is on style, instrumentation, form and relation to cultural backgrounds of the several eras. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16HILT644**Survey of Wind Literature**

Music for six or more instruments: Middle and late 20th century. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16HILT645**Survey of Wind Literature**

Music for two to five instruments: Middle Ages to 20th century. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16HILT647**Survey of Wind Chamber Music**

Survey of wind chamber music repertoire from the Baroque period to the present. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16HILT648**Survey of Wind Chamber Music**

Continuation of 16-HILT-647. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

Music History and Literature**16HILT649****Survey of Wind Chamber Music**

Continuation of 16-HILT-648. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16HILT651**World Music I: Native American, African, African-American, Eastern European**

Survey of music from Native American, African, African-American, and Eastern European cultures and study of ethnomusicological issues. BoK: FA., DC. Credit Level: U, G. Credit Hrs: 3.00

16HILT652**World Music II: South Indian, Indonesian, Japanese, South American**

Survey of music from South Indian, Indonesian, Japanese, and South American cultures and study of ethnomusicological issues. Afield-work project. BoK: FA., DC. Credit Level: U, G. Credit Hrs: 3.00

16HILT653**Music of Latin America**

An ethnomusicological survey of the music of South America and the Caribbean, covering mestizo and indigenous traditions of Brazil, Colombia, Cuba, Bolivia, and others. Prereq: 16HILT651, 16HILT652. BoK: FA, DC. Credit Level: U, G. Credit Hrs: 3.00

16HILT660**Special Topics**

Various topics offered as needed on specialized issues in the field of music history and literature. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-6.00

16HILT661**Composer Topics**

Variable topics focusing on the music of a specific composer. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

16HILT662**Genre Topics**

Variable topics focusing on the music within a specific genre. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

16HILT663**Music in Culture Topics**

Variable topics on musical culture issues. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

16HILT664**Composer Topics**

Variable topics focusing on the music of a specific composer. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

16HILT665**Genre Topics**

Variable topics focusing on the music within a specific genre. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

16HILT666**Music in Culture Topics**

Variable topics in musical culture issues. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

16HILT671**Liturgies of the Western Church**

Traces liturgical practices of the Western Church (Roman Catholic, Lutheran, Anglican, etc.) from their beginnings to the present. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00

16HILT672**Hymnody in the Western World**

Traces the evolution and practices of hymnody in the Western Church to the present. BoK: FA., HU. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

Music History and Literature**16HILT601****Graduate Music History Review**

Medieval and Renaissance eras; emphasis on composers styles in relation to cultural backgrounds. Credit Level: G. Credit Hrs: 3.00

16HILT602**Graduate Music History Review**

Continuation of 16HILT601; Baroque and Classic eras. Credit Level: G. Credit Hrs: 3.00

16HILT603**Graduate Music History Review**

Continuation of 16HILT602; 19th and 20th centuries. Credit Level: G. Credit Hrs: 3.00

16HILT721**Survey of Piano Literature**

From J.S. Bach through Beethoven. Music for the piano, emphasizing style, form, and performance styles. Credit Level: G. Credit Hrs: 2.00

16HILT722**Survey of Piano Literature**

Mendelssohn through Brahms. Credit Level: G. Credit Hrs: 2.00

16HILT723**Survey of Piano Literature**

1900 to the present. Credit Level: G. Credit Hrs: 2.00

16HILT801**Graduate History and Style I**

A sampling of historical concepts, significant stylistic developments, social, cultural, and historiographical contexts, and issues in performance practice from antiquity through the sixteenth century. Credit Level: G. Credit Hrs: 3.00

16HILT802**Graduate History and Style II**

A sampling of historical concepts, significant stylistic developments, social, cultural, and historiographical contexts, and issues in performance practice within the seventeenth and eighteenth centuries. Credit Level: G. Credit Hrs: 3.00

16HILT803**Graduate History and Style III**

A sampling of historical concepts, significant stylistic developments, social, cultural, and historiographical contexts, and issues in performance practice from the nineteenth century to the present. Credit Level: G. Credit Hrs: 3.00

16HILT811**Notation of Polyphonic Music**

Historical study of white mensural ensemble notation of the Renaissance. Credit Level: G. Credit Hrs: 3.00

16HILT812**Notation of Polyphonic Music**

Historical study of Renaissance soloist notation: scores, partituras, and tablatures for keyboard and lute. Credit Level: G. Credit Hrs: 3.00

16HILT821**Graduate Research and Writing**

Music bibliography, writing, and research techniques in music. Credit Level: G. Credit Hrs: 3.00

16HILT832**Renaissance in England, Sacred Music**

Traces developments from 1485 to 1625. Credit Level: G. Credit Hrs: 3.00

16HILT840**Advanced Topics**

Specialized topics for advanced students in MM, DMA, and PHD programs. Credit Level: G. Credit Hrs: 3.00-4.00

Music History and Literature**16HILT841****Medieval Advanced Topics**

Specialized topics on music of the medieval period. Emphasis on scholarship as well as repertoire; research paper required. Credit Level: G. Credit Hrs: 3.00

16HILT842**Renaissance Advanced Topics**

Specialized topics on music of the renaissance. Emphasis on scholarship as well as repertoire; research paper required. Credit Level: G. Credit Hrs: 3.00

16HILT843**Seventeenth-Century Advanced Topics**

Specialized topics on music of the seventeenth century. Emphasis on scholarship as well as repertoire; research paper required. Credit Level: G. Credit Hrs: 3.00

16HILT844**Eighteenth-Century Advanced Topics**

Specialized topics on music of the eighteenth century. Emphasis on scholarship as well as repertoire; research paper required. Credit Level: G. Credit Hrs: 3.00

16HILT845**Nineteenth-Century Advanced Topics**

Specialized topics on music of the nineteenth century. Emphasis on scholarship as well as repertoire; research paper is required. Credit Level: G. Credit Hrs: 3.00

16HILT846**Twentieth-Century Advanced Topics**

Specialized topics on music of the twentieth century. Emphasis on scholarship as well as repertoire; research paper required. Credit Level: G. Credit Hrs: 3.00

16HILT847**American Music Advanced Topics**

Specialized topics on American music. Emphasis on scholarship as well as repertoire; research paper required. Credit Level: G. Credit Hrs: 3.00

16HILT848**Music in Culture Advanced Topics**

Specialized topics on musical culture issues. Emphasis on scholarship as well as repertoire; research paper required. Credit Level: G. Credit Hrs: 3.00

16HILT850**Proseminar in Musicology**

Selected readings in musicology; subject or era different each quarter. Credit Level: G. Credit Hrs: 3.00

16HILT854**Eighteenth Century Advanced Topics**

Specialized topics on music of the eighteenth century. Emphasis on scholarship as well as repertoire; research paper required. Credit Level: G. Credit Hrs: 3.00

16HILT855**Nineteenth Century Advanced Topics**

Specialized topics on music of the nineteenth century. Emphasis on scholarship as well as repertoire; research paper is required. Credit Level: G. Credit Hrs: 3.00

16HILT856**Twentieth Century Advanced Topics**

Specialized topics on music of the twentieth century. Emphasis on scholarship as well as repertoire; research paper required. Credit Level: G. Credit Hrs: 3.00

16HILT860**Musicology Colloquium**

A forum for students and faculty to interact regarding the study of music. While the format of individual meetings will change, the focus

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Music History and Literature**16HILT860****Musicology Colloquium**

will be on reading and discussing relevant literature and discussing current issues and methodologies. Career issues will also be considered. Credit Level: G. Credit Hrs: 1.00

16HILT870**Directed Readings**

Prereq.: Perm. of instr. Credit Level: G. Credit Hrs: 1.00-3.00

16HILT871**Music of the Middle Ages**

Musical forms, practices, and thought of the era and their social and cultural context. Credit Level: G. Credit Hrs: 3.00

16HILT872**Music of the Ars Nova and Early Renaissance**

Musical forms, practices, and thought of the era and their social and cultural context. Credit Level: G. Credit Hrs: 3.00

16HILT873**Music of the High Renaissance**

Musical forms, practices, and thought of the era and their social and cultural context. Credit Level: G. Credit Hrs: 3.00

16HILT874**Music of the Early and Middle Baroque**

Survey of music in both theory and practice from c. 1580-1680. The national styles of Italy, Germany, and France are studied through a canon of works. Credit Level: G. Credit Hrs: 3.00

16HILT875**Music of the Late Baroque**

Survey of music in both theory and practice from c. 1680-1750. The "international style" is studied through a canon of works, culminating with the music of Bach and Handel. Credit Level: G. Credit Hrs: 3.00

16HILT876**Music of the Classical Period**

Stylistic changes in European music from mid-century through Haydn and Mozart; schools, styles, genres, trends. Credit Level: G. Credit Hrs: 3.00

16HILT884**American Music I: From Colonization to Civil War**

Survey of both cultivated and vernacular music in the New World c. 1600-1865. Topics include Native American music, psalmody, ballads, African slave music, the First New England School, Stephen Foster, shape-note hymnody, and marches. Credit Level: G. Credit Hrs: 3.00

16HILT885**American Music II: From Reconstruction to Cold War**

Survey of both cultivated and vernacular music in the United States 1865-c.1950. Study of musical forms, practices, and repertoire in their cultural context. Topics include the Second New England School, Charles Ives, Tin Pan Alley, blues, early jazz, country-western, composers of the inter-war period, and American musical theater. Credit Level: G. Credit Hrs: 3.00

16HILT890**Thesis -- M.M. Music History**

Research and preparation of the final written project for the MM degree in music history; topic to be approved and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-9.00

16HILT899**Master's Candidacy**

Retention of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

16HILT980**Research in Musicology**

Individual investigation into a specific topic in the field of musicology; approved and supervised by a member of the faculty. Credit Level: G. Credit Hrs: 1.00-3.00

Music History and Literature**16HILT981****Seminar in Choral Literature**

Focuses on the performance problems of various works within the general body of choral literature; offered during the Summer Session. Credit Level: G. Credit Hrs: 3.00

16HILT982**Seminar Musicology**

Readings and discussion of selected topics in musicology; topic varies each quarter. Credit Level: G. Credit Hrs: 4.00

16HILT983**Seminar in Organ Literature**

Focuses on the performance problems of selected repertoire in the general body of organ literature. Credit Level: G. Credit Hrs: 3.00

16HILT984**Seminar in Performance Practices**

Focuses on performance problems in music from the Medieval to Early Baroque periods. Credit Level: G. Credit Hrs: 3.00

16HILT988**Seminar in Musicology**

Readings and discussion of selected topics in musicology; topic varies each quarter. Credit Level: G. Credit Hrs: 4.00

16HILT989**Seminar in Musicology**

Readings and discussion of selected topics in musicology; topic varies each quarter. Credit Level: G. Credit Hrs: 4.00

16HILT990**Dissertation -- PhD**

Research and preparation of the final written document for the Ph.D. degree in musicology; topic to be approved and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-15.00

French Horn**16HORN100****French Horn Major Study**

Technical requirements: all major and minor scales, study of the transpositions commonly used for horn. Etudes of Kopprasch and Gallay. Solo material of the difficulty of Mozart Concerto No. 3. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16HORN110**French Horn Concentration**

First-year study for horn students in the B.A. program in music. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16HORN120**French Horn Secondary**

First-year secondary study in horn as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16HORN200**French Horn Major Study**

Continuation of transpositions: orchestral excerpts. Etudes of Kopprasch, Gallay, and Maxime-Alphonse. Solo material of the difficulty of Mozart Concerto No. 2 and Strauss Concerto No. 1. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16HORN210**French Horn Concentration**

Second-year study for horn students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16HORN220**French Horn Secondary**

Second-year secondary study in horn as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

French Horn**16HORN300****French Horn Major Study**

Continuation of orchestral studies: advanced etude work; solo works of the difficulty of Hindemith Sonate, Beethoven Sonata, and Haydn Concerti. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16HORN310**French Horn Concentration**

Third-year study for horn students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16HORN320**French Horn Secondary**

Third-year secondary study in horn as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16HORN400**French Horn Major Study**

Continuation of orchestral studies; advanced etude work. Solos of the difficulty of Mozart Concerto No. 4; R. Strauss Concerto No. 2; Gliere Concerto. Preparation of Senior Recital. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16HORN410**French Horn Concentration**

Fourth-year study for horn students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16HORN420**French Horn Secondary**

Fourth-year secondary study in horn as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16HORN500**French Horn Major**

Additional study for undergraduate horn majors who have completed the basic degree requirements; offered for undergraduate and graduate horn majors during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16HORN510**French Horn Concentration**

Additional study in horn for undergraduate students at the concentration level who have completed the basic degree requirements; offered to all concentration-level horn students during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16HORN530**French Horn Elective**

Nonrequired private study in horn; requires permission of the department and the college. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-2.00

16HORN560**Independent Study**

In-depth study of a topic related to the horn, selected by the student in consultation with a member of the faculty. Permission of instructor and division head. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16HORN670**Horn Studio Class**

Weekly master class covering aspects of performance and audition preparation, literature, history of the horn, and ensemble skills. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16HORN675**Seminar in Horn**

In-depth study of varied topics related to the horn. Readings, listening and performing assignments, term papers and class presentations may be required relating to the designated subject matter. Topics may be in the areas of history, literature, or performance. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

French Horn**16HORN679****Horn Excerpt Class**

Detailed study and performance of professional audition repertoire. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-2.00

16HORN680**Horn Choir**

Study and preparation of a wide repertoire of music for horn choir, emphasizing balance, intonation, phrasing, uniformity of note length, flexibility to colleagues, and stylistic differences. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16HORN800**French Horn Graduate Major Study**

Preparation of two recital programs, one to be performed in public. Repertoire of advanced technical difficulty adapted to the needs of the individual student. Emphasis on orchestral studies. Credit Level: G. Credit Hrs: 4.00

16HORN810**French Horn Concentration**

Master's level study for students accepted for a cognate in horn performance. Credit Level: G. Credit Hrs: 2.00

16HORN820**French Horn Secondary**

Secondary study in horn for master's degree students. Credit Level: G. Credit Hrs: 1.00

16HORN850**Artist Diploma in French Horn**

First-year major study in horn for students accepted into the artist diplomas program. Credit Level: G. Credit Hrs: 6.00

16HORN855**Artist Diploma Recital**

Public performance by an artist diploma student in horn of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 2.00

16HORN880**Master Recital**

Public performance by a master's degree student in horn of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 1.00-2.00

16HORN895**Practicum**

Practical experience in the professional world. Credit Level: G. Credit Hrs: 1.00

16HORN899**Master's Candidacy**

Retainment of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

16HORN900**French Horn Doctoral Major Study**

Selected studies for continued refinement of previous skills. Repertoire to be selected from works of advanced technical difficulty. Preparation of required doctoral recitals. Credit Level: G. Credit Hrs: 4.00

16HORN910**French Horn Concentration**

Doctoral level study for students accepted for a cognate in horn performance. Credit Level: G. Credit Hrs: 2.00

16HORN920**French Horn Secondary**

Secondary study in horn for doctoral level students. Credit Level: G. Credit Hrs: 1.00

16HORN930**French Horn Elective**

Nonrequired private study in horn for doctoral students; requires permission of the department and the college. Credit Level: G. Credit Hrs: 1.00

H=University Honors course.

French Horn

16HORN930
French Horn Elective
 Hrs: 1.00-2.00

16HORN950
Artist Diploma in French Horn
 Second-year major study in horn for students accepted into the artist diploma program. Credit Level: G. Credit Hrs: 6.00

16HORN960
French Horn Concerto
 Public performance of a concerto with one of the major performing ensembles. Credit Level: G. Credit Hrs: 2.00

16HORN970
Doctoral Recital
 Public performance by a doctoral student in horn of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16HORN980
Lecture Recital
 Combined public lecture and performance of a selected topic in the horn repertoire; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16HORN990
DMA Document
 Research and preparation of the final written project for the DMA degree in horn; topic to be approved and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-15.00

Harpsichord

16HSC100
Harpsichord Major Study
 Technical requirements: facility in major and minor scales, arpeggios, etc. and special exercises designed and guided by the teacher. Works by J.S. Bach (Two- and Three-Part Inventions, W.T.C. Book I, French Suites, etc.), F. Couperin, D. Scarlatti, etc. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16HSC110
Harpsichord Concentration
 First-year study for harpsichord students in the B.A. program in music. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16HSC120
Harpsichord Secondary
 First-year study for harpsichord students in harpsichord as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16HSC200
Harpsichord Major Study
 Continuation of the above and strengthening of the technical skill. Also familiarization with various stylistic aspects of current performance. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16HSC210
Harpsichord Concentration
 Second-year study for harpsichord students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16HSC220
Harpsichord Secondary
 Second-year secondary study in harpsichord as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16HSC300
Harpsichord Major Study
 Broad expansion of 17th, 18th and 20th century keyboard repertoire. Active participation in chamber music playing (both continuo and obligato parts). BoK: FA. Credit Level: U. Credit Hrs: 4.00

Harpsichord

16HSC310
Harpsichord Concentration
 Third-year study for harpsichord students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16HSC320
Harpsichord Secondary
 Third-year secondary study in harpsichord as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16HSC400
Harpsichord Major Study
 Preparation for a solo recital. Acquiring the skill of figured bass playing from unrealized parts. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16HSC410
Harpsichord Concentration
 Fourth-year study for harpsichord students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16HSC420
Harpsichord Secondary
 Fourth-year secondary study in harpsichord as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16HSC500
Harpsichord Major
 Additional study for undergraduate harpsichord majors who have completed the basic degree requirements; offered for undergraduate and graduate harpsichord majors during the Summer Session, depending on faculty availability. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16HSC510
Harpsichord Concentration
 Additional study in harpsichord for undergraduate students at the concentration level who have completed the basic degree requirements; offered to all concentration level harpsichord students during the Summer Session, depending on faculty availability. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16HSC530
Harpsichord Elective
 Nonrequired private study in harpsichord; requires permission of the department and the college. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-2.00

16HSC560
Independent Study
 In-depth study of a topic related to the harpsichord, selected by the student in consultation with a member of the faculty. Permission of instructor and Division. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16HSC570
Introduction to Harpsichord
 An introductory course in basic facets of harpsichord playing encompassing technique, interpretation of ornaments, phrasing and articulation, etc. This course is designed primarily for piano or organ majors. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16HSC800
Harpsichord Graduate Major Study
 Preparation of two recital programs, one to be performed in public. In performance, the student should demonstrate not only highly polished technical skill, but also musical maturity and stylistic comprehension of the works. In the course of study the student is also expected to become familiar with most of the keyboard works written before 1770. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

Harpsichord**16HSC810****Harpsichord Concentration**

Master's level study for students accepted for a cognate in harpsichord performance. Credit Level: G. Credit Hrs: 2.00

16HSC820**Harpsichord Secondary**

Secondary study in harpsichord for master's degree students. Credit Level: G. Credit Hrs: 1.00

16HSC850**Artist Diploma in Harpsichord**

Similar to 16HSC800 with more emphasis on performance (total of four recitals). First-year major study in harpsichord for students accepted into the artist diploma program. Credit Level: G. Credit Hrs: 6.00

16HSC855**Artist Diploma Recital**

Public performance by an artist diploma student in harpsichord of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 2.00

16HSC880**Master Recital**

Public performance by a master's degree student in harpsichord of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 1.00-2.00

16HSC899**Master's Candidacy**

Retention of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

16HSC900**Harpsichord Doctoral Major Study**

Selected studies for continued refinement of previous skills. Repertoire to be selected from works of advanced technical difficulty. Preparation of required doctoral recitals. Credit Level: G. Credit Hrs: 4.00

16HSC910**Harpsichord Concentration**

Doctoral level study for students accepted for a cognate in harpsichord performance. Credit Level: G. Credit Hrs: 2.00

16HSC920**Harpsichord Secondary**

Secondary study in harpsichord for doctoral-level students. Credit Level: G. Credit Hrs: 1.00

16HSC930**Harpsichord Elective**

Nonrequired private study in harpsichord for doctoral students; requires permission of the department and the college. Credit Level: G. Credit Hrs: 1.00-2.00

16HSC950**Artist Diploma in Harpsichord**

Similar to 16HSC800 with more emphasis on performance (total of four recitals). Second-year major study in harpsichord for students accepted into the artist diploma program. Credit Level: G. Credit Hrs: 6.00

16HSC960**Harpsichord Concerto**

Public performance of a concerto with one of the major performing ensembles. Credit Level: G. Credit Hrs: 2.00

16HSC970**Doctoral Recital**

Public performance by a doctoral student in harpsichord of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16HSC980**Lecture Recital**

Combined public lecture and performance of a selected topic in the harpsichord repertoire; approved and graded by the faculty. Credit

Harpsichord**16HSC980****Lecture Recital**

Level: G. Credit Hrs: 3.00

16HSC990**DMA Document**

Research and preparation of the final written project for the degree in harpsichord; topic to be approved and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-15.00

Interdisciplinary**16INTR500****Lucca: Italian Language Study**

Italian language study designed to improve the students' oral and written proficiencies in vocabulary and grammar. Three levels are available based upon the student's previous studies. BoK: HU. Credit Level: U, G. Credit Hrs: 5.00

16INTR550**Study Abroad for Undergraduate Students**

Study abroad for undergraduate students. BoK: NA. Credit Level: U. Credit Hrs: 0.00-18.00

16INTR610**Managing a Professional Career**

Examination of practical career management issues in the professional performance arena, including resumes, marketing and promotion, taxes and unions. Aimed primarily at instrumental and voice students contemplating professional performance careers. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

16INTR630**Special Topics**

Topics established every quarter by Department/Division. BoK: NA. Credit Level: U, G. Credit Hrs: 0.00-6.00

16INTR600**Study Abroad for Graduate Students**

Study abroad for graduate students. Credit Level: G. Credit Hrs: 0.00-18.00

Jazz Double Bass**16JZDB100****Jazz Double Bass Major Study**

First-year applied music lessons in jazz double bass for B.M. students. BoK: FA. Credit Level: U. Credit Hrs: 3.00

Jazz Percussion**16JZPR100****Jazz Percussion Major**

First-year applied music lessons in jazz percussion for B.M. students. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16JZPR110**Jazz Percussion Concentration**

First-year study for jazz percussion students in the B.A. program in music. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16JZPR120**Jazz Percussion Secondary**

First-year secondary study in jazz percussion as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16JZPR200**Jazz Percussion Major**

Second-year applied music lessons for jazz percussion majors. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16JZPR210**Jazz Percussion Concentration**

Second-year study for jazz percussion students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16JZPR220**Jazz Percussion Secondary**

Second-year secondary study in jazz percussion as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Jazz Percussion**16JZPR300****Jazz Percussion Major**

Third-year applied music lessons for jazz percussion majors. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16JZPR310**Jazz Percussion Concentration**

Third-year study for jazz percussion students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16JZPR320**Jazz Percussion Secondary**

Third-year secondary study in jazz percussion as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16JZPR400**Jazz Percussion Major**

Fourth-year applied music lessons for jazz percussion majors. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16JZPR410**Jazz Percussion Concentration**

Fourth-year study for jazz percussion students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16JZPR420**Jazz Percussion Secondary**

Fourth-year secondary study in jazz percussion as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16JZPR500**Jazz Percussion Major**

Additional study for undergraduate jazz percussion majors who have completed the basic degree requirements. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16JZPR510**Jazz Percussion Concentration**

Additional study in jazz percussion for undergraduate students at the concentration level who have completed the basic degree requirements. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16JZPR530**Jazz Percussion Elective**

Nonrequired private study in jazz percussion; requires permission of the department and the college. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-2.00

16JZPR560**Independent Study**

In-depth study of a topic related to jazz percussion, selected by the student in consultation with a member of the faculty. Permission of instructor and Division. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16JZPR800**Jazz Percussion Major Study**

Graduate-level applied music lessons for jazz percussion majors. Study and preparation of material suitable for the public recital program. Credit Level: G. Credit Hrs: 4.00

16JZPR895**Practicum**

Practical experience in the professional world. Credit Level: G. Credit Hrs: 1.00

Jazz Studies**16JZST501****Jazz Improvisation**

Instruction in small group jazz performance with emphasis on the practical application of chord/scale theory, the development of the ear through transcription of recorded solos, and the principles of successful

Jazz Studies**16JZST501****Jazz Improvisation**

small group interaction. Repertoire includes modal tunes, basic blues forms, and standard tunes of the 1930s-1960s. Students receive individual attention within a small combo format. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16JZST502**Jazz Improvisation**

Instruction in small group jazz performance with emphasis on the practical application of chord/scale theory, the development of the ear through transcription of recorded solos, and the principles of successful small group interaction. Repertoire includes modal tunes, basic blues forms, and standard tunes of the 1930s-1960s. Students receive individual attention within a small combo format. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16JZST503**Jazz Improvisation**

Instruction in small group jazz performance with emphasis on the practical application of chord/scale theory, the development of the ear through transcription of recorded solos, and the principles of successful small group interaction. Repertoire includes modal tunes, basic forms, and standard tunes of the 1930s-1960s. Students receive individual attention within a small combo format. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16JZST504**Advanced Jazz Improvisation**

An advanced course focusing on tunes from the classic and contemporary jazz repertoire. Emphasis on more complex harmonies, altered chords, chord/scale relationships, bitonality, and stylistic considerations. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

16JZST505**Advanced Jazz Improvisation**

An advanced course focusing on tunes from the classic and contemporary jazz repertoire. Emphasis on more complex harmonies, altered chords, chord/scale relationships, bitonality, and stylistic considerations. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

16JZST506**Advanced Jazz Improvisation**

An advanced course focusing on tunes from the classic and contemporary jazz repertoire. Emphasis on more complex harmonies, altered chords, chord/scale relationships, bitonality, and stylistic considerations. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

16JZST511**Jazz Keyboard Skills**

Development of jazz chord voicings, harmonization techniques, and basic idiomatic jazz piano styles. The course provides the ability to "comp" for soloists, and develops ear training skills essential for improvisation, composition, and arranging. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16JZST512**Jazz Keyboard Skills**

Development of jazz chord voicings, harmonization techniques, and basic idiomatic jazz piano styles. The course provides the ability to "comp" for soloists, and develops ear training skills essential for improvisation, composition, and arranging. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16JZST513**Jazz Keyboard Skills**

Development of jazz chord voicings, harmonization techniques, and basic idiomatic jazz piano styles. The course provides the ability to "comp" for soloists, and develops ear training skills essential for improvisation, composition, and arranging. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Jazz Studies**16JZST514****Jazz Theory I**

Basic chord construction, extended chords, nomenclature, appropriate spacing, and voice leading. Ear-training exercises. Recording of student arrangements. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 2.00

16JZST515**Jazz Theory II**

Chord/scale relationships, melodic analysis, approach notes, harmonic analysis, chord substitutions, and extensive tune study. Ear-training exercises. Recording and discussion of student compositions for 5-piece combo. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 2.00

16JZST516**Jazz Arranging for Small Ensemble**

Arranging techniques for up to five horns. Mechanical and nonmechanical voicings, approach harmonies, linear techniques, ranges and transpositions, rhythm section writing, and score study. Recording and discussion of student arrangements. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 2.00

16JZST521**Jazz Composing/Arranging for Large Ensemble I**

In-depth score study of Nestico, Ellington, and others. Mechanical and nonmechanical voicings, with emphasis on section writing. Recording and discussion of student big band charts. Perm of Instructor. BoK: FA, QR. Credit Level: U, G. Credit Hrs: 3.00

16JZST522**Jazz Composing/Arranging for Large Ensemble II**

In-depth score study of Thad Jones, Bob Brookmeyer, Bob Mintzer, and others. More advanced voicings, approach techniques, and substitute chords. Writing for woodwinds and percussion. Recording and discussion of student big band charts. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 3.00

16JZST523**Advanced Jazz Composition and Arranging**

A flexible seminar based on student interests. Possible topics include advanced compositional techniques, contemporary harmonic trends, writing for strings, studio orchestra, unusual instrumentation, and instrumental backgrounds for vocalists. Recording and discussion of diverse student projects. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 3.00

16JZST525**Jazz Combo**

Small combos focusing on the preparation and memorization of a large selection of standard tunes, jazz classics, and contemporary music. Aesthetic considerations as well as practical "on-the-job" guidelines. May be repeated for credit. Perm of Instructor. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-2.00

16JZST526**Second Jazz Combo**

Small combos focusing on the preparation and memorization of a large selection of standard tunes, jazz classics, and contemporary music. Aesthetic considerations as well as practical "on-the-job" guidelines. May be repeated for credit. Perm of Instructor. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16JZST534**Jazz Guitar Ensemble**

Performance, arrangement, and composition of literature for 2-6 guitars. Development of single line techniques and "comping" skills. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16JZST535**Jazz Guitar Ensemble**

Performance, arrangement, and composition of literature for 2-6 guitars. Development of single line techniques and "comping" skills. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

Jazz Studies**16JZST536****Jazz Guitar Ensemble**

Performance, arrangement, and composition of literature for 2-6 guitars. Development of single line techniques and "comping" skills. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16JZST541**Sound Reinforcement and Recording Techniques**

An introduction to audio equipment and its application in sound reinforcement and recording. Topics include basic acoustics, audio electronics, and the set-up and operation of live sound and analog and digital studio recording equipment. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

16JZST542**Digital Recording and Editing**

The application of multi-track recording techniques using digital formats; includes hands-on experience recording jazz and other performing groups. An introduction to editing using Protools software. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

16JZST551**The Business of Music**

Provides information about the entrepreneurial skills required of today's musician as well as an overview of music and music related career possibilities. Topics include promoting your career auditions/interviews, CD production, copyright and performance rights societies, contracts, the musicians union, grants and performers etiquette. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

16JZST560**Independent Study**

In-depth study of a topic related to jazz selected by the student in consultation with a member of the faculty. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16JZST630**Special Topics: Jazz Studies**

Topics established every quarter by department or division. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-3.00

16JZST801**Jazz Styles and Analysis**

History, theory, and performance practice of jazz from its beginning through the swing period. Scholarly study is combined with practical experience through a simultaneous exploration of history and literature, theory and ear training, and the recreation of authentic performance styles. Assignments include extensive listening, historical readings, analysis, transcriptions, and class performances on the student's instrument. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

16JZST802**Jazz Styles and Analysis**

Continuation of 16JZST801. Period of study includes bebop era through the 1950's. Prereq: 16JZST801. Credit Level: G. Credit Hrs: 3.00

16JZST803**Jazz Styles and Analysis**

Continuation of 16JZST801 and 802. Period of study includes the 1960's through the present. Prereq: 16JZST802. Credit Level: G. Credit Hrs: 3.00

16JZST804**Seminar in Jazz Pedagogy**

An overview of jazz ensemble directing and program administration at the University and high school levels. Topics include conducting techniques, rehearsal strategies, programming, and auditions. Perm of Instructor. Credit Level: G. Credit Hrs: 2.00

16JZST805**Seminar in Jazz Pedagogy**

Continuation of 16JZST804. Topics include concert logistics, jazz festivals, guest artists, and course content for jazz improvisation and

theory classes. Credit Level: G. Credit Hrs: 2.00

16JZST806**Seminar in Jazz Pedagogy**

Continuation of 16JZST804 and 805. Topics include rhythm section techniques, private lesson curriculum, prenotation of workshops, course content for jazz arranging and composition classes, and developing college jazz curriculum. Credit Level: G. Credit Hrs: 2.00

Jazz Saxophone**16JZSX100****Jazz Saxophone Major**

First-year applied music lessons in jazz saxophone for B.M. students. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16JZSX110**Jazz Saxophone Concentration**

First-year study for jazz saxophone students in the B.A. program in music. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16JZSX120**Jazz Saxophone Secondary**

First-year secondary study in jazz saxophone as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16JZSX200**Jazz Saxophone Major**

Second-year applied music lessons for jazz saxophone majors. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16JZSX210**Jazz Saxophone Concentration**

Second-year study for jazz saxophone students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16JZSX220**Jazz Saxophone Secondary**

Second-year secondary study in jazz saxophone as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16JZSX300**Jazz Saxophone Major**

Third-year applied music lessons for jazz saxophone majors. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16JZSX310**Jazz Saxophone Concentration**

Third-year study for jazz saxophone students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16JZSX320**Jazz Saxophone Secondary**

Third-year secondary study in jazz saxophone as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16JZSX400**Jazz Saxophone Major**

Fourth-year applied music lessons for jazz saxophone majors. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16JZSX410**Jazz Saxophone Concentration**

Fourth-year study for jazz saxophone students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16JZSX420**Jazz Saxophone Secondary**

Fourth-year secondary study in jazz saxophone as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

Jazz Saxophone**16JZSX500****Jazz Saxophone Major**

Additional study for undergraduate jazz saxophone majors who have completed the basic degree requirements. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16JZSX510**Jazz Saxophone Concentration**

Additional study in jazz saxophone for undergraduate students at the concentration level who have completed the basic degree requirements. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16JZSX530**Jazz Saxophone Elective**

Nonrequired private study in jazz saxophone; requires permission of the department and the college. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-2.00

16JZSX560**Independent Study**

In-depth study of a topic related to jazz saxophone selected by the student in consultation with a member of the faculty. Permission of instructor and Division. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16JZSX800**Jazz Saxophone Major Study**

Elements of music; notation; aural and sight reading skills. Harmony and melody; lead sheets. Primarily musical theater repertoire. Musical Theater majors only. BoK: FA., QR. Credit Level: U. Credit Hrs: 3.00

16MTHC105**Sight Singing**

Development of sight singing skills for musical theater majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Music Theory and Composition**16MTHC106****Sight Singing**

Development of sight singing skills for musical theater majors. BoK: FA.
Credit Level: U. Credit Hrs: 1.00

16MTHC107**Sight Singing**

Development of sight singing skills for musical theater majors. BoK: FA.
Credit Level: U. Credit Hrs: 1.00

16MTHC109**Undergraduate Theory Review**

Review of material covered in first and second quarters of Theory I
Musicianship I: notation, scales and intervals, triads and seventh
chords, cadences, and diatonic harmony and counterpoint. BoK: NA.
Credit Level: U. Credit Hrs: 3.00

16MTHC110**Composition Concentration**

See 16MTHC100. For music students who are not composition majors.
BoK: FA. Credit Level: U. Credit Hrs: 2.00

16MTHC111**Theory I**

Scales, intervals, key relations, consonance and dissonance, root-
position triads, melodic diminutions, the harmonic series, aspects of
rhythm and meter. Music majors only. BoK: FA., QR. Credit Level: U.
Credit Hrs: 2.00

16MTHC112**Theory I**

Species counterpoint (cantus firmus, first and second species), sixth
chords, harmonic progression, seventh chords, part writing, composing
a soprano, harmonizing a soprano, music analysis. BoK: FA., QR.
Credit Level: U. Credit Hrs: 2.00

16MTHC113**Theory I**

Third, fourth, and fifth species, modulation, suspensions, diatonic linear
chords, musical form, more part writing and musical analysis. BoK: FA.,
QR. Credit Level: U. Credit Hrs: 2.00

16MTHC115**Musicianship I**

Ear training, sight singing, and keyboard harmony. BoK: FA., QR. Credit
Level: U. Credit Hrs: 2.00

16MTHC116**Musicianship I**

Ear training, sight singing, and keyboard harmony. BoK: FA., QR. Credit
Level: U. Credit Hrs: 2.00

16MTHC117**Musicianship I**

Ear training, sight singing, and keyboard harmony. BoK: FA., QR. Credit
Level: U. Credit Hrs: 2.00

16MTHC171**Introduction to Music Technology**

Develops necessary computer skills for using various music software
package. BoK: NA. Credit Level: U. Credit Hrs: 1.00

16MTHC200**Composition Major Study**

Continuation of first year composition with emphasis on larger forms
and more freedom of content. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16MTHC210**Composition Concentration**

Second-year study for music students who are not composition majors.
BoK: FA. Credit Level: U. Credit Hrs: 2.00

16MTHC211**Theory II**

Chromatic harmony (part writing and analysis); common practice period
form. Emphasis on Schenkerian procedures. Integrated sight reading,

Music Theory and Composition**16MTHC211****Theory II**

ear training, and keyboard applications. Music majors only. Prereq:
16MTHC113. BoK: FA, QR. Credit Level: U. Credit Hrs: 2.00

16MTHC212**Theory II**

Extended tertian harmony. History of theory. Nonfunctional harmony
and late 19th century procedures. Prereq: 16MTHC211. BoK: FA, QR.
Credit Level: U. Credit Hrs: 2.00

16MTHC213**Theory II**

Twentieth-century techniques. Prereq: 16MTHC212. BoK: FA, QR.
Credit Level: U. Credit Hrs: 2.00

16MTHC215**Musicianship II**

Continuation of the development of musicianship skills, sign reading,
dictation and other aural training, keyboard application of writing
problems. Prereq: 16MTHC113, 16MTHC117. BoK: FA, QR. Credit
Level: U. Credit Hrs: 2.00

16MTHC216**Musicianship II**

Continuation of 16MTHC215. Prereq: 16MTHC211, 16MTHC215. BoK:
FA, QR. Credit Level: U. Credit Hrs: 2.00

16MTHC217**Musicianship II**

Continuation of 16MTHC216. Prereq: 16MTHC212, 16MTHC216. BoK:
FA, QR. Credit Level: U. Credit Hrs: 2.00

16MTHC251**Honors Theory**

Accelerated sequence of Theory I, Musicianship I, and Theory II. BoK:
FA., QR. Credit Level: U. Credit Hrs: 2.00

16MTHC252**Honors Theory**

Accelerated sequence of Theory I, Musicianship I, and Theory II.
Prereq: 16MTHC251. BoK: FA, QR. Credit Level: U. Credit Hrs: 2.00

16MTHC253**Honors Theory**

Accelerated sequence of Theory I, Musicianship I, and Theory II.
Prereq: 16MTHC252. BoK: FA, QR. Credit Level: U. Credit Hrs: 2.00

16MTHC254**Honors Theory**

Accelerated sequence of Theory I, Musicianship I, and Theory I. Prereq:
16MTHC253. BoK: FA, QR. Credit Level: U. Credit Hrs: 2.00

16MTHC255**Honors Musicianship**

Aural skills including sightreading, dictations, identification of sonorities,
and keyboard activity. Corequisite: 16MTHC251. Coreq: 16MTHC255.
BoK: NA. Credit Level: U. Credit Hrs: 2.00

16MTHC256**Honors Musicianship**

Continuation of 16MTHC255. Corequisite: 16MTHC252 Coreq:
16MTHC252. BoK: NA. Credit Level: U. Credit Hrs: 2.00

16MTHC257**Honors Musicianship**

Continuation of 16MTHC256. Corequisite: 16MTHC253 Coreq:
16MTHC253. BoK: NA. Credit Level: U. Credit Hrs: 2.00

16MTHC258**Honors Musicianship**

Continuation of 16MTHC257. Corequisite: 16MTHC254 Coreq:
16MTHC254. BoK: NA. Credit Level: U. Credit Hrs: 2.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.
LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Music Theory and Composition**16MTHC300****Composition Major Study**

Continuation of second-year composition lessons. Permission of instructor. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16MTHC310**Composition Concentration**

Third-year study for music students who are not composition majors. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16MTHC311**Theory III**

Style, vocabulary, and musical procedures of 20th- and 21st-century music: writing, analysis, aural skills, and model composition. Prereq: 16MTHC213, 16MTHC217. BoK: FA, QR. Credit Level: U. Credit Hrs: 3.00

16MTHC312**Theory III**

Style, vocabulary, and musical procedures of 20th- and 21st-century music: writing, analysis, aural skills and model composition. Prereq: 16MTHC311. BoK: FA, QR. Credit Level: U. Credit Hrs: 3.00

16MTHC351**Orchestration**

Study of orchestral and band instruments, range, timbre, scoring for small and large ensembles. BoK: FA., QR. Credit Level: U. Credit Hrs: 2.00

16MTHC352**Orchestration**

Study of orchestral and band instruments, range, timbre, scoring for small and large ensembles. Prereq: 16MTHC351. BoK: FA, QR. Credit Level: U. Credit Hrs: 2.00

16MTHC353**Orchestration**

Orchestration for standard chamber ensembles and for unique or uncommonly instrumented ensembles. Prereq: 16MTHC351. BoK: NA. Credit Level: U. Credit Hrs: 2.00

16MTHC400**Composition Major Study**

Continuation of third-year composition lessons. Permission of instructor. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16MTHC410**Composition Concentration**

Fourth-year study for music students who are not composition majors. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16MTHC480**Senior Research**

Individual analysis and theoretical research. BoK: FA., QR. Credit Level: U. Credit Hrs: 1.00-3.00

16MTHC485**Symposium in Composition**

Weekly seminar for all undergraduate composition majors to discuss and review important trends and events in contemporary music. Occasional guest lecturers. BoK: FA. Credit Level: U. Credit Hrs: 0.00-1.00

16MTHC500**Composition Major Study**

Additional study for undergraduate composition majors who have completed the basic degree requirements; offered for undergraduate and graduate composition majors during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16MTHC501**Sixteenth Century Counterpoint**

Review of species counterpoint, historical perspective, modal usage, analysis of plainsong melodies and two-part modal counterpoint employing historically appropriate technical features. BoK: FA., HP.

Music Theory and Composition**16MTHC501****Sixteenth Century Counterpoint**

Credit Level: U, G. Credit Hrs: 3.00

16MTHC502**Sixteenth Century Counterpoint**

Continuation of imitative writing in three voices, study of text setting, analysis of representative works. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 3.00

16MTHC505**Eighteenth Century Counterpoint**

Analysis of melodic lines, study of stylistic considerations, composition and analysis of two-voice inventions. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 3.00

16MTHC506**Eighteenth Century Counterpoint**

This is the second quarter of a two-quarter sequence. The term will be devoted to the study and composition of small- to medium-size compositions in two and three voices, including solo (i.e., single-line)_instrument movements, minuets (binary dance forms), sonatas for solo instrument and continuo, canons, inventions, rounds and catches, passacaglias, trio sonatas and fugues. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 3.00

16MTHC510**Composition Concentration**

Additional study in composition for undergraduate students at the concentration level who have completed the basic degree requirements; offered to all concentration-level composition students during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16MTHC511**Advanced Orchestration**

Analysis of the orchestral techniques of Ravel, Bartok, Schoenberg, Stravinsky, and other significant composers; practical work in contemporary orchestration. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 3.00

16MTHC512**Advanced Orchestration**

Continuation of 16-MTHC-511. Analysis and style composition and orchestration. Large-scale and complex works, particularly post-1950. Prereq: 16MTHC511. BoK: FA, QR. Credit Level: U, G. Credit Hrs: 3.00

16MTHC515**Figured Bass Playing and Improvisation**

Study and practice of figured bass. Historical study of figured bass from various treatises of the period. Improvisation based on figured bass. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 2.00

16MTHC516**Figured Bass Playing and Improvisation**

Study and practice of figured bass. Historical study of figured bass from various treatises of the period. Improvisation based on figured bass. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 2.00

16MTHC517**Figured Bass Playing and Improvisation**

Study and practice of figured bass. Historical study of figured bass from various treatises of the period. Improvisation based on figured bass. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 2.00

16MTHC521**Score Reading**

Principles of keyboard sightreading, study at all seven clefs, score reading of two-voice literature. Some piano proficiency necessary. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 1.00

16MTHC522**Score Reading**

Principles of transposition, score reading of three-voice literature. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Music Theory and Composition**16MTHC523****Score Reading**

Score reading of chamber, choral, and orchestral scores. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 1.00

16MTHC530**Composition Elective**

Nonrequired private study in composition; requires permission of the department. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-2.00

16MTHC560**Independent Study**

Permission of Instructor and Division. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16MTHC570**MIDI for Musicians**

Musical Instrument Digital Interface and music technology applications. Emphasis on synthesizers, drum machines, computers, and digital technology as they relate to live performance and the recording studio. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 3.00

16MTHC571**Introduction to Electronic Music**

An introduction to the techniques, concepts, and historical perspective of composing, performing, and listening to electro-acoustic music. Topics covered include: acoustics, psychoacoustics, MIDI, computer music, and live electronic music. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 3.00

16MTHC572**Introduction to Electronic Music**

An introduction to the techniques, concepts, and historical perspective of composing, performing, and listening to electro-acoustic music. Topics covered include: acoustics, psychoacoustics, MIDI, computer music, and live electronic music. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 3.00

16MTHC573**Introduction to Electronic Music**

An introduction to the techniques, concepts, and historical perspective of composing, performing and listening to electro-acoustic music. Topics covered include: acoustics, psychoacoustics, MIDI, computer music, and live electronic music. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 3.00

16MTHC575**Computer Music Composition**

Computer music composition on NeXTstep and Silicon Graphics platforms with recorded acoustic sound and synthesis. Digital signal processing and micro- to macro-level algorithms. Introduction to music programming and interfaces. Aesthetics and performance contexts of tape and live electronic music. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 3.00

16MTHC576**Computer Music Composition**

Computer music composition on NeXTstep and Silicon Graphics platforms with recorded acoustic sound and synthesis. Digital signal processing and micro- to macro-level algorithms. Introduction to music programming and interfaces. Aesthetics and performance contexts of tape and live electronic music. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 3.00

16MTHC577**Computer Music Composition**

Computer music composition on NeXTstep and Silicon Graphics platforms with recorded acoustic sound and synthesis. Digital signal processing and micro-to macro-level algorithms. Introduction to music programming and interfaces. Aesthetics and performance contexts of tape and live electronic music. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 3.00

Music Theory and Composition**16MTHC581****Live Electronic Music**

Composition and performance of live electronic music emphasizing real-time processing of acoustic instrumental performance. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

16MTHC582**Computer Music Programming**

Explores programming for composition including designing sound by instrument building in C and algorithmic processes such as fractals. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 3.00

16MTHC583**Advanced Computer Music Programming**

Object-oriented programming for music composition including algorithms and sound design. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 3.00

16MTHC584**Timbre Studies**

Investigates recent music and research concerning timbre in acoustic and electronic music. Perm of Instructor. BoK: FA, QR. Credit Level: U, G. Credit Hrs: 3.00

16MTHC585**Sound and Animation Composition**

Composition of multimedia art, exploring relationships between visual and aural components with computer music and animation. Perm of Instructor. BoK: FA, QR. Credit Level: U, G. Credit Hrs: 3.00

16MTHC590**Music and Technology Seminar**

Topics in computer and electroacoustic music including composition issues, performance strategies, programming, technique, analysis, and informal sessions for playing works in progress. Prereq: 16MTHC573. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

16MTHC591**Intermedia**

Creation of multimedia works involving music and visual arts, digital and acoustic, fixed and web based. Team taught by CCM composition faculty and DAAP faculty. Prereq: 16MTHC573. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

16MTHC592**Intermedia**

Continuation of 16MTHC591. Prereq: 16MTHC591. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

16MTHC593**Intermedia**

Continuation of 16MTHC591, 592. Prereq: 16MTHC592. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

16MTHC600**Composition Practicum**

The objective of this course is to develop skills in composition, emphasizing (but not limited to) instrumentation and orchestration, notation, and preparation of performance materials. To this end, students complete several composition projects throughout the quarter, according to a prearranged schedule. These projects are read and/or performed at class meetings by a participating ensemble, providing an opportunity to engage in an active dialogue with performers, peers, and faculty, that will lead the composition student in the process of refining his/her work. Pertinent analysis projects or in-class presentations may be part of the course, according to the goals of the instructor. No fixed bibliography is relevant. Scores and recordings may be assigned at the instructor's discretion. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-3.00

16MTHC605**Intermediate Aural Training**

A comprehensive approach designed to review, reinforce, and expand aural capabilities and skills, and to develop a fine sense of aural

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Music Theory and Composition**16MTHC605****Intermediate Aural Training**

discrimination. Class size limited to 5. BoK: FA., QR. Credit Level: U, G. Credit Hrs: 2.00

16MTHC606**Intermediate Aural Training**

A comprehensive approach designed to review, reinforce, and expand aural capabilities and skills, and to develop a fine sense of aural discrimination. Class size limited to 5. Prereq: 16MTHC605. BoK: FA, QR. Credit Level: U, G. Credit Hrs: 2.00

16MTHC607**Intermediate Aural Training**

A comprehensive approach designed to review, reinforce, and expand aural capabilities and skills, and to develop a fine sense of aural discrimination. Class size limited to 5. Prereq: 16MTHC606. BoK: FA, QR. Credit Level: U, G. Credit Hrs: 2.00

16MTHC611**Advanced Topics in Post-1890 Analysis**

Analysis of seminar works or sets of works composed after 1890. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

16MTHC620**Species Counterpoint**

Systematic study of the principles governing an effective cantus firmus and the five species of counterpoint in two voices. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

16MTHC631**Continuo Playing**

Realization of figured bass, attention to national styles and idioms, ensemble voicing. Prereq: 16MTHC213, 16MTHC803. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

16MTHC632**Continuo Playing**

Continuation of 16MTHC631. Prereq: 16MTHC631. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

16MTHC633**Continuo Playing**

Continuation of 16MTHC631, 632. Prereq: 16MTHC632. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

16MTHC650**Rhythm and Eurhythmics**

A one-quarter course providing practical work in detailed rhythmic exercises and drills combined with Tai Chi and Dalcroze Eurhythmic techniques (use of physical gesture and body movement). For CCM music and dance majors only. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16MTHC651**Intermediate Rhythm and Eurythmics**

A one-quarter course providing practical work in detailed rhythmic exercises and drills combined with Tai Chi and Dalcroze Eurhythmic techniques (use of physical gesture and body movement). For CCM music and dance majors only. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16MTHC660**Special Topics**

Topics established every quarter by Department/Division. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-6.00

16MTHC670**Proseminar in Music Theory**

Introduction to professional writing in the field of music theory through critical reading of current and classic literature. Analysis of theoretical issues and their methods of presentation. Exercise in writing abstracts, proposals, responses, and complete papers. Area majors. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

Music Theory and Composition**16MTHC680****Introduction to the Neuroscience of Music**

The purpose is to enable students to read critically the scientific literature of music and neuroscience. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

16MTHC601**Graduate Music Theory Review**

Review of rudiments of music and essential vocabulary and skills in tonal harmony and analysis. Specific subjects include voice-leading principles and procedures, imitative counterpoint, and figured bass realization. Credit Level: G. Credit Hrs: 3.00

16MTHC602**Graduate Music Theory Review**

Review of modes and other scales, and review of basic set theoretical skills and vocabulary. Specific subjects, include modal counterpoint and styles, atonality and serialism, nontraditional notation, and new tonalities. Credit Level: G. Credit Hrs: 3.00

16MTHC701**Pedagogy of Theory I**

Comprehensive survey of texts and materials for undergraduate theory and analysis courses, course planning, content and objectives. Practice teaching and observation. Pedagogical methodologies and techniques. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

16MTHC702**Pedagogy of Theory II**

Continuation of 16-MTHC-702. Comprehensive survey of texts and materials for undergraduate theory and analysis courses, course planning, content and objectives. Practice teaching and observation. Pedagogical methodologies and techniques. Credit Level: G. Credit Hrs: 3.00

16MTHC800**Composition for Majors**

Master's level private lessons for composition majors. Credit Level: G. Credit Hrs: 4.00

16MTHC801**Graduate Theory and Analysis**

Analysis of Music Credit Level: G. Credit Hrs: 3.00

16MTHC802**Graduate Theory and Analysis**

Analysis of Music Credit Level: G. Credit Hrs: 3.00

16MTHC803**Graduate Theory and Analysis**

Analysis of Music. Credit Level: G. Credit Hrs: 3.00

16MTHC810**Composition Concentration**

Master's-level study for music students who are not composition majors. Credit Level: G. Credit Hrs: 2.00

16MTHC811**Advanced Topics in Analysis: Rhythm and Meter**

This course is conceived as an advanced section of Graduate Theory and Analysis, for students ready for more than a basic treatment. Each class will aim for advanced analytical work in the given topic. Prereq: 16MTHC801, 16MTHC802, 16MTHC803. Credit Level: G. Credit Hrs: 3.00

16MTHC815**Introduction to Aesthetics**

Examination of well-developed critical aesthetic thinking via speculation and analysis. Development of appreciation for the various parameters of the discipline. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Music Theory and Composition**16MTHC816****Set Theory I**

A systematic approach to the concepts of set theory and their application to atonal and twelve-tone music. Prepares students to use the concepts and skills for analysis and/or composition. Credit Level: G. Credit Hrs: 3.00

16MTHC817**Set Theory II**

Advanced theoretical notions (e.g., pitch-class set symmetry and segmental invariance in the twelve-tone system); emphasis on analysis of atonal and twelve-tone music; relevance of set-theoretical concepts to speculative music-theoretical research; readings of classical works in the set-theoretical literature. Prereq: 16MTHC816. Credit Level: G. Credit Hrs: 3.00

16MTHC818**Schenkerian Analysis I**

Introduction to Schenkerian-analytical concepts and graphic notation. An understanding of the organic nature of the underlying theory and its relation to both analysis and aural experiences developed gradually through extensive analytical examples and exercises. Credit Level: G. Credit Hrs: 3.00

16MTHC819**Schenkerian Analysis II**

See 16-700-818. Analytical examples and exercises consist primarily of complete tonal works of small to moderate dimension. Prereq: 16MTHC818. Credit Level: G. Credit Hrs: 3.00

16MTHC821**History of Theory: Antiquity and Early Ages**

Facts, concepts, procedures of music theory from Pythagoras to mid-15th century. Interpretation of seminal texts. Credit Level: G. Credit Hrs: 3.00

16MTHC822**History of Theory: Renaissance and Baroque**

Facts, concepts, procedures of music theory from mid-15th century to 1750. Interpretation of seminal texts. Credit Level: G. Credit Hrs: 3.00

16MTHC823**History of Theory: Common Practice and Modern Eras**

Facts, concepts, and procedures of music theory from 1750 to the present. Interpretation of seminal texts. Credit Level: G. Credit Hrs: 3.00

16MTHC870**Music Theory Colloquium**

Discussion of current theoretical literature; visiting lecture series of professional theorists. Area majors Credit Level: G. Credit Hrs: 1.00

16MTHC880**Readings in Music Theory and Analysis**

Close readings of seminal texts and cursory eradin erading of others under the supervision of the music theory faculty. Credit Level: G. Credit Hrs: 3.00

16MTHC881**Seminar in Theory**

A special topics course dealing with theoretical issues of current interest. Credit Level: G. Credit Hrs: 4.00

16MTHC882**Seminar in Analysis**

In-depth analysis of selected works. Credit Level: G. Credit Hrs: 3.00

16MTHC885**Symposium in Composition**

Weekly seminar for all graduate composition majors to discuss and review important trends and events in contemporary music. Occasional guest lecturers. Credit Level: G. Credit Hrs: 0.00-1.00

Music Theory and Composition**16MTHC890****Thesis -- M.M. Theory**

Research and preparation of the final written project for the MM degree in music theory; topic to be approved and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-9.00

16MTHC899**Master's Candidacy**

Retention of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

16MTHC900**Composition Major Study**

Private lessons at the doctoral level for composition majors. Credit Level: G. Credit Hrs: 4.00

16MTHC910**Composition Concentration**

Doctoral level study for students accepted for a cognate in composition. Credit Level: G. Credit Hrs: 2.00

16MTHC980**Research in Theory**

Individual analysis and theatrical research. Permission of instructor. Credit Level: G. Credit Hrs: 1.00-3.00

16MTHC990**Dissertation**

Research and preparation of the final written project for the DMA degree in composition or the Ph.D. degree in music theory; topic to be approved and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-15.00

Music Education**16MUED101****Undergraduate Music Education Colloquium**

Weekly forum intended to orient new music education students to the many dimensions of the music education program ranging from the various requirements of the program to professional opportunities outside of prescribed coursework as well as subsequent to program completion. Area majors only. BoK: NA. Credit Level: U. Credit Hrs: 0.00-1.00

16MUED102**Undergraduate Music Education Colloquium**

Weekly forum intended to orient new music education students to the many dimensions of the music education program ranging from the various requirements of the program to professional opportunities outside of prescribed coursework as well as subsequent to program completion. Area majors only. BoK: NA. Credit Level: U. Credit Hrs: 0.00-1.00

16MUED103**Undergraduate Music Education Colloquium**

Weekly forum intended to orient new music education students to the many dimensions of the music education program ranging from the various requirements of the program to professional opportunities outside of prescribed coursework as well as subsequent to program completion. BoK: NA. Credit Level: U. Credit Hrs: 0.00-1.00

16MUED241**Introduction to Music Education**

Objectives and structure of a balanced program of music education; principles of music learning; directed observations of music classes in local schools; readings and discussions of current issues in music education. BoK: FA., DC. Credit Level: U. Credit Hrs: 2.00

16MUED242**Introduction to Music Teaching**

General introduction to techniques, materials, and musical skills needed in music teaching pre-K through high school. Attention is given to integration across the curriculum including the teaching and learning of reading and phonics. Field study and practice conducted in local preschool, elementary school, and high school. BoK: FA., DC. Credit

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Music Education**16MUED242****Introduction to Music Teaching**

Level: U. Credit Hrs: 2.00

16MUED243**Voice Class I**

Introductory course in vocal technique, designed particularly for music education students; problems of the unchanged, changing, and mature voice. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16MUED244**Voice Class II**

Continuation of Voice Class I. Development and application of methods, materials, and vocal techniques for use in K-12 music programs. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16MUED245**String Class I**

Beginning string class techniques on all orchestral string instruments. Maintenance of instruments, evaluation of methods and materials, elementary orchestral organization, micro-teaching. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16MUED246**String Class II**

Intermediate string class techniques on all orchestral string instruments. Maintenance of instruments, evaluation of methods and materials, elementary orchestral organization, micro teaching, and score marking. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16MUED251**Music in Childhood Education**

Rudiments of music, ear-training, sight-reading, and singing. Methods and principles of elementary school music, selection and study of materials for listening, rhythmic activities, and singing. For College of Education students only. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16MUED271**Instrumental Teaching Lab**

In addition to performance experience in band and orchestral playing utilizing functional performance skills developed in instrumental technique classes, the course includes the use of a broad repertoire applicable in elementary, middle, and high school instruction for building of curricular lessons and to develop skills in management and presentation. BoK: FA., SE. Credit Level: U. Credit Hrs: 3.00

16MUED272**Brass Class**

Tone production, playing, and teaching techniques of all brass instruments, as well as care of instruments and study of materials. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16MUED273**Woodwind Class**

Instruction on all woodwind instruments; techniques, materials, care of the instruments, basic instrument repair, and curriculum planning. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16MUED274**Percussion Class**

Fundamental techniques on the most frequently used percussion instruments, both of definite and of indefinite pitch; conventions of notation, care of instruments, the teaching of percussion. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16MUED341**Elementary General Music Methods I**

Objectives, methods, and materials for elementary school with particular emphasis on guided observation and teaching experiences at a local elementary (pre-K-6) school. Attention is given to integration across the curriculum including the teaching and learning of reading and phonics. Elaboration upon learning theory (e.g. Piaget Bruner) introduced in 16MUED242. Investigation of Orff-Sckulwerk, Kodaly, and Dalcroze eurhythmics in view of the total span of child development.

Music Education**16MUED341****Elementary General Music Methods I**

BoK: FA., DC. Credit Level: U. Credit Hrs: 4.00

16MUED342**Elementary General Music Methods II**

In-depth study of methods and materials for kindergarten through grade six with application of these methods (Kodaly, Orff, Gordon, and Dalcroze) in local elementary schools. Prereq: 16MUED341. BoK: FA, DC. Credit Level: U. Credit Hrs: 4.00

16MUED351**Choral Literature and Arranging**

Literature drawn from the global music repertoire for upper elementary and secondary choral organizations. Styles and techniques of arranging including revoicing and arranging for various combinations. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16MUED371**Instrumental Methods**

Methods and materials for the teaching of instrumental music in the elementary and secondary schools; organization and administration of program; development of specialized groups; strategies for developing a philosophy; research bases for support and advocacy; recruitment and retention of students; relations with the instrument manufacturing industry; auditioning/seating/evaluating students; selection of printed materials; copyright law; participation in contests, festivals, and enrichment activities; travel; public relations; budget; facilities; curriculum; professionalism. BoK: FA., SE. Credit Level: U. Credit Hrs: 2.00-4.00

16MUED372**Choral Methods**

Methods and materials for training of public school choral organizations. Planning and development, rehearsal techniques, tone and diction, concert material; observation of choral organizations. BoK: FA., DC. Credit Level: U. Credit Hrs: 4.00

16MUED373**Secondary General Music Methods**

Objectives, philosophies, methods and materials for the Junior-Senior High School general music classes. Students prepare (technology) and present lessons in global music and learn approaches to nonmusical arts; they manipulate classroom instruments in creative ways. BoK: FA., DC. Credit Level: U. Credit Hrs: 4.00

16MUED440**Senior Music Education Seminar**

This weekly meeting is a forum for discussing issues central to the teaching and learning of music prompted by readings and other shared activities but nested within the context of your own experiences prior to CCM and as related to the host schools in which you are a student teaching. BoK: NA. Credit Level: U. Credit Hrs: 0.00-1.00

16MUED450**Music Student Teaching Seminar**

A bi-weekly meeting of all music student teachers during the student teaching quarter. Objectives of the seminar are to coordinate in-school assignments, monitor student teaching activities, and complete certification, graduation, and placement tasks. BoK: NA. Credit Level: U. Credit Hrs: 1.00

16MUED451**Student Teaching**

A bi-weekly meeting of all music student teachers during the student teaching quarter. Objectives of the seminar are to coordinate in-school assignments, monitor student teaching activities, and complete certification, graduation, and placement tasks. BoK: FA., SE. Credit Level: U. Credit Hrs: 6.00

16MUED452**Student Teaching**

A bi-weekly meeting of all music student teachers during the student

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Music Education**16MUED452****Student Teaching**

teaching quarter. Objectives of the seminar are to coordinate in-school assignments, monitor student teaching activities, and complete certification, graduation, and placement tasks. BoK: FA., SE. Credit Level: U. Credit Hrs: 6.00

16MUED461**Technology for Music Teaching**

Introduction to software packages used by music teachers; notation programs for arranging, databasing for organizing inventory and personnel, computer-assisted instruction for music fundamentals and drill-and-practice software, webpage design for marketing and communication, sequencing instruction, grant-writing exercises to help meet funding needs. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16MUED470**Urban Music Education**

Focus on issues affecting music education programs in urban areas. Approaches to managing a music program more effectively through the use of creatively designed methods and pedagogical techniques will be shared as well as discussions about cultural differences that make inner city teaching uniquely challenging. Perm of Instructor. BoK: FA, SE. Credit Level: U. Credit Hrs: 3.00

16MUED481**Contemporary Topics I**

Two five-week modules with the first exploring the current K-12 educational landscape and the second focused on learning theories and their application to music education. Perm of Instructor. BoK: FA, SE. Credit Level: U. Credit Hrs: 2.00

16MUED482**Contemporary Topics II**

Two five-week modules with the first on curriculum design and the second on assessment and accountability. Perm of Instructor. BoK: FA, SE. Credit Level: U. Credit Hrs: 2.00

16MUED500**Music Teaching Internship**

Individually arranged and faculty supervised teaching practice in area schools and community music organizations. Perm of Department. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-6.00

16MUED521**Literature for School Bands**

Review band literature for all grade levels, discuss performance concerns, address specific rehearsal techniques, establish musical concepts for each selection, develop criteria for quality literature, develop comprehensive curriculum units for classroom use. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

16MUED560**Independent Study in Music Education**

Special project in music teaching to be approved in advance by the Music Education faculty. Variable credit. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16MUED571**Advanced Instrumental Music Education Methods**

Develop skills for teaching/coaching instrumentalists at all levels. Become familiar with specific playing and teaching techniques on an instrument of choice. Practice error detection and score study techniques. Become familiar with best practices in instrumental music education, and learn about alternative instrumental music education ensembles. Design a 6-week curriculum in instrumental music for the implementation of conceptual teaching. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

16MUED575**Music and the Humanities**

A general survey of the fine arts from Hellenic Greece to present day. Emphasis on music and the visual arts. Stress is on relationships

Music Education**16MUED575****Music and the Humanities**

among the arts and the convergence/divergence evident period to period. Teaching strategies are discussed. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00

16MUED581**Marching Band Techniques**

Learn basic skills in marching band drill design and teaching techniques for working with marching bands. Design a suitable marching program for a school-based ensemble using computer-based charting application. Plan for budgetary, operational, parental and administrative concerns associated with a marching band program. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

16MUED601**Orff Teacher Certification: Level I**

Basic philosophy and pedagogy of the Orff Schulwerk process. Movement, body percussion, speech, rhythmic and melodic ensembles, voice, and soprano recorder are combined to develop the capabilities of class members and to present materials appropriate for the child. Arranging and composition for the Orff instrumentarium are emphasized, along with lesson planning and curriculum development at the elementary level. BoK: FA., DC. Credit Level: U, G. Credit Hrs: 3.00

16MUED602**Orff Teacher Certification: Level II**

Continuation of 16MTHC601. Materials and activities appropriate to upper elementary, middle, and junior high school levels, designed to further the personal growth of participants. Alto recorder and expansion of soprano recorder skills. Prereq: 16MUED601. BoK: FA, DC. Credit Level: U, G. Credit Hrs: 3.00

16MUED603**Orff Teacher Certification: Level III**

Continuation of 16MTHC602. Materials, techniques, and activities for the advanced Orff-Schulwerk student. Emphasis on student's ability to create, orchestrate, and perform compositions using the entire Orff instrumentarium. Continuation of advanced soprano and alto recorder techniques; study on tenor-bass and soprano recorders. Prereq: 16MUED602. BoK: FA, DC. Credit Level: U, G. Credit Hrs: 3.00

16MUED630**Special Topics in Music Education**

Additional courses related to special areas of study offered on an irregular schedule, including the following: Developments and Trends in Elementary Music Education, Developments and Trends in Instrumental Music Education, Developments and Trends in Junior-Senior High School General Music, Developments and Trends in Secondary Vocal Music Education, Marching Band Techniques, Music for the Pre-School Child, Related Arts in the Classroom, Seminar in Music Curriculum. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-3.00

16MUED660**Special Topics**

Topics established every quarter by Department/Division. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-6.00

16MUED751**Music in Childhood Education**

Rudiments of music, ear-training, sight-reading, and singing. Methods and principles of elementary school music, selection and study of materials for listening, rhythmic activities, and singing. For College of Education students only. Credit Level: G. Credit Hrs: 3.00

16MUED851**Supervision of Music Teaching**

Develop systematic observation skills for the music classroom or ensemble rehearsal, become familiar with observational software and traditional forms, learn a variety of strategies for communicating observation results to preservice and inservice teachers, practice self-observation of teaching behaviors along with strategies for improvement. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Music Education**16MUED861****Technology for Music Teaching**

Introduction to software packages used by music teachers; notation programs for arranging, databasing for organizing inventory and personnel, computer-assisted instruction for music fundamentals and drill-and-practice software, webpage design for marketing and communication, sequencing instruction, grant-writing exercises to help meet funding needs. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

16MUED870**Urban Music Education**

Focus on issues affecting music education programs in urban areas. Approaches to managing a music program more effectively through the use of creatively designed methods and pedagogical techniques will be shared as well as discussions about cultural differences that make inner city teaching uniquely challenging. Credit Level: G. Credit Hrs: 3.00

16MUED871**History and Philosophy of Music Education**

Historical roots and philosophical foundations of music education in the United States; European background and cultural influences; current philosophical issues in music education. Credit Level: G. Credit Hrs: 3.00

16MUED872**Psychological Foundations of Music Education**

Psychological principles of psycho-motor learning and of aural and nonverbal perception; learning theories and their applications to the teaching-learning process in music. Credit Level: G. Credit Hrs: 3.00

16MUED879**Introduction to Research in Music Education**

Research techniques appropriate to research in music education; principles of research design; organization of the research report; critical examination of representative research studies in music education. Emphasis on developing knowledgeable and discriminating readers and interpreters of completed research. Credit Level: G. Credit Hrs: 3.00

16MUED881**Contemporary Topics I**

Two five-week modules with the first exploring the current K-12 educational landscape and the second focused on learning theories and their application to music education. Credit Level: G. Credit Hrs: 2.00

16MUED882**Contemporary Topics II**

Two five-week modules with the first on curriculum design and the second on assessment and accountability. Credit Level: G. Credit Hrs: 2.00

16MUED890**Master's Project in Music Education**

Intensive study and preparation of the final major project for the Master of Music degree in music education. Credit Level: G. Credit Hrs: 3.00

16MUED899**Master's Candidacy**

Retainment of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

16MUED911**Graduate Colloquium in Music Education**

A forum for the investigation of issues and ideas as they relate to graduate study in music education: readings, discussion, guest presentations. Credit Level: G. Credit Hrs: 1.00

16MUED960**Independent Research in Music Education**

In-depth study of a specialized research topic in music education, selected by the student in consultation with a member of the faculty. Credit Level: G. Credit Hrs: 1.00-3.00

Music Education**16MUED976****Seminar in Measurement and Evaluation**

Roles and processes of evaluation in the music setting. Test and nontest means of assessment. Creating tests and instructional evaluation plans. Credit Level: G. Credit Hrs: 3.00

16MUED980**DME Advanced Research Seminar**

Required seminar for all students enrolled in the DME program. Each student's research work will depend upon his/her stage in the completion of the degree. Credit Level: G. Credit Hrs: 3.00

16MUED990**Dissertation Music Education**

Research and preparation of the final written project for the DME degree; topic to be approved and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-15.00

Musical Theater**16MUST140****Musical Theater Vocal Coaching**

Study and performance of selections from the musical theater repertoire. Examination of musical theater styles. For Musical Theater majors only. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16MUST175**Freshman Showcase**

Performance experience for freshman in musical theater. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16MUST201**Musical Theater Performance Group**

Building performance skills and repertoire, through rehearsal and performance of selections from the standard musical theater repertoire, under the guidance of a director, conductor, and choreographer. Musical Theater Majors only. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16MUST202**Musical Theater Performance Group**

Building performance skills and repertoire, through rehearsal and performance of selections from the standard musical theater repertoire, under the guidance of a director, conductor, and choreographer. Musical Theater Majors only. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16MUST203**Musical Theater Performance Group**

Building performance skills and repertoire, through rehearsal and performance of selections from the standard musical theater repertoire, under the guidance of a director, conductor, and choreographer. Musical Theater Majors only. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16MUST221**Pilates Mat Class - Beginning**

A beginning level exercise class in the Pilates Method of Body Conditioning in mat work. BoK: NA. Credit Level: U. Credit Hrs: 1.00

16MUST240**Musical Theater Vocal Coaching**

Study and performance of selections from the musical theater repertoire. Examination of musical theater styles. For Musical Theater majors only. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16MUST300**Audition Techniques**

Selection and preparation of audition materials in various styles, resume preparation, the job market, etc. Materials range from Shakespeare to contemporary drama and musical theater. Musical Theater Majors only. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16MUST301**Advanced Audition Techniques**

Continuation of Audition Techniques with emphasis on style, musical theater auditions, and cold readings. BoK: FA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Musical Theater**16MUST310****Musical Theater History and Literature**

Survey of the historical evolution of the musical theater from its beginnings in Colonial America to the present. Part One: "The Black Crook" to Rodgers and Hart. BoK: FA., HP. Credit Level: U. Credit Hrs: 3.00

16MUST311**Musical Theater History and Literature**

See 16MUST310. Part Two: Rodgers and Hammerstein to Stephen Sondheim. Prereq: 16MUST310. BoK: FA, HP. Credit Level: U. Credit Hrs: 3.00

16MUST340**Musical Theater Vocal Coaching**

For Musical Theater majors only. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16MUST440**Musical Theater Vocal Coaching**

For Musical Theater majors only. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16MUST521**Musical Theater Dance: Beginning Tap I**

Rudiments of tap dancing. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16MUST522**Musical Theater Dance: Beginning Tap II**

Continuation of instruction in beginning tap. Prereq: 16MUST521. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16MUST523**Musical Theater Dance: Intermediate Tap**

Instruction in tap dancing at the intermediate level. Prereq: 16MUST522. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16MUST524**Musical Theater Dance: Advanced Tap**

Instruction in tap dancing at the advanced level. Prereq: 16MUST523. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16MUST525**Choreography for Musical Theater**

Develop understanding of choreography for musical theater through the study of prominent Broadway choreographers and their styles. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16MUST560**Independent Study**

Prereq.: Perm. of inst. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-6.00

16MUST575**New York Showcase**

Creation of a showcase performed for casting agents in New York. BoK: FA., DC. Credit Level: U, G. Credit Hrs: 3.00

16MUST600**Musical Theater Orchestra**

By audition or assignment. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16MUST630**Special Topics in Musical Theater**

By perm. of division. By audition or assignment. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-3.00

16MUST660**Rehearsal and Performance**

Rehearsal and public performance of a mainstage or workshop production drawn from the standard musical theater repertoire. Assigned by divisional faculty following auditions. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-3.00

Musical Theater**16MUST800****Audition Techniques**

Selection and preparation of audition materials in various styles; resume preparation and the job market. Credit Level: G. Credit Hrs: 3.00

16MUST801**Advanced Audition Techniques**

Continuation of Audition Techniques with emphasis on style, musical theater auditions and cold readings. Prereq: 16MUST800. Credit Level: G. Credit Hrs: 3.00

16MUST805**Characterization and Repertoire**

Study of major roles from the standard musical theater repertoire from the viewpoints of vocal demands, physical characterization and creative acting. Credit Level: G. Credit Hrs: 2.00

16MUST807**Cabaret Techniques**

Study of techniques used in one-person performances in intimate spaces. Creation of an "act" suited to cabaret performances. Credit Level: G. Credit Hrs: 3.00

16MUST810**Musical Theater History and Literature**

Survey of the historical evolution of the musical theater from its beginnings in Colonial America to the present. Part One: "The Black Crook" to Rodgers and Hart. Credit Level: G. Credit Hrs: 3.00

16MUST811**Musical Theater History and Literature**

Survey of the historical evolution of the musical theater from its beginnings in Colonial America to the present. Part Two: Rodgers and Hammerstein to Stephen Sondheim. Prereq: 16MUST810. Credit Level: G. Credit Hrs: 3.00

16MUST875**Graduate Workshop**

Intensive acting instruction for graduate students in musical theater. Credit Level: G. Credit Hrs: 3.00

Oboe**16OBOE100****Oboe Major Study**

Principles of basic musicianship. Technical requirements: proper command of posture, breath support, embouchure, tongue position and movement, resonance, natural vibrato, jaw techniques for dynamics, detache, register change, and phrasing. Basic cane preparation and reed design and construction. Scales, several compositions including a Baroque work and one of contrasting style. Attendance at weekly oboe seminar required. English Horn Sem. by perm. only. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16OBOE110**Oboe Concentration**

First-year study for oboe students in the B.A. program in music. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16OBOE120**Oboe Secondary**

First-year secondary study in oboe as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16OBOE200**Oboe Major Study**

Continuation of development of musicianship and techniques, reed-making, Selner studies, scales and thirds, sonatas such as Saint-Saens, Hindemith, a Baroque concerto, major orchestral solos. Attendance at weekly oboe seminar and chamber music ensemble required; English Horn recital suggested; English Horn Sem. by perm. only. BoK: FA. Credit Level: U. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Oboe**16OBOE210****Oboe Concentration**

Second-year study for oboe students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16OBOE220**Oboe Secondary**

Second-year secondary study in oboe as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16OBOE300**Oboe Major Study**

Continuation of musical and technical development, reed-making, Selner studies, scales and thirds, compositions of the Classical and Romantic periods, major orchestral solos. Attendance at weekly oboe seminar and chamber music ensemble required; half to full informal oboe recital suggested; English Horn Sem. by perm. only. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16OBOE310**Oboe Concentration**

Third-year study for oboe students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16OBOE320**Oboe Secondary**

Third-year secondary study in oboe as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16OBOE400**Oboe Major Study**

Continuation of musical and technical development, reed-making, etudes, scales and thirds, addition of works by contemporary composers, larger concerti, major orchestral solos. Preparation of a recital. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16OBOE410**Oboe Concentration**

Fourth-year study for oboe students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16OBOE420**Oboe Secondary**

Fourth-year secondary study in oboe as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16OBOE500**Oboe Major**

Additional study for undergraduate oboe majors who have completed the basic degree requirements; offered for undergraduate and graduate oboe majors during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16OBOE510**Oboe Concentration**

Additional study in oboe for undergraduate students at the concentration level who have completed the basic degree requirements; offered to all concentration-level oboe students during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16OBOE530**Oboe Elective**

Nonrequired private study in oboe; requires permission of the department and the college. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-2.00

16OBOE560**Independent Study**

Projects such as the study of the letters of the Mozart family, cadenza writing, original ornamentation of Baroque works, etc. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

Oboe**16OBOE630****Special Topics**

Topics established by the area faculty on an as needed basis. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-3.00

16OBOE680**Oboe Master Class**

A weekly seminar in oboe performance covering oboe and reed making techniques, orchestral excerpts, specific editions of major works, audition techniques, literature and pedagogy. Frequent guest lecturers. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16OBOE800**Oboe Graduate Major Study**

Continuation of musical and technical development, reed-making, etudes, scales and thirds, compositions ranging from Baroque to contemporary. Preparation of required recital programs and orchestral audition material. Credit Level: G. Credit Hrs: 4.00

16OBOE810**Oboe Concentration**

Master's level study for students accepted for a cognate in oboe performance. Credit Level: G. Credit Hrs: 2.00

16OBOE820**Oboe Secondary**

Secondary study in oboe for master's degree students. Credit Level: G. Credit Hrs: 1.00

16OBOE850**Artist Diploma in Oboe**

All preparations necessary leading to a career in performance. Credit Level: G. Credit Hrs: 6.00

16OBOE855**Artist Diploma Recital**

Public performance by an artist diploma student in oboe of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 2.00

16OBOE880**Master Recital**

Public performance by a master's degree student in oboe of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 1.00-2.00

16OBOE895**Practicum**

Practical experience in the professional world. Credit Level: G. Credit Hrs: 1.00

16OBOE899**Master's Candidacy**

Retainment of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

16OBOE900**Oboe Doctoral Major Study**

All preparations necessary leading to a career combining performance and college/university teaching. Credit Level: G. Credit Hrs: 4.00

16OBOE910**Oboe Concentration**

Doctoral level study for students accepted for a cognate in oboe performance. Credit Level: G. Credit Hrs: 2.00

16OBOE920**Oboe Secondary**

Secondary study in oboe for doctoral level students. Credit Level: G. Credit Hrs: 1.00

16OBOE930**Oboe Elective**

Nonrequired private study in oboe for doctoral students; requires permission of the department and the college. Credit Level: G. Credit Hrs: 1.00-2.00

H=University Honors course.

Oboe**16OBOE950****Artist Diploma in Oboe**

All preparations necessary leading to a career in performance. Credit Level: G. Credit Hrs: 6.00

16OBOE960**Oboe Concerto**

Public performance of a concerto with one of the major performing ensembles. Credit Level: G. Credit Hrs: 2.00

16OBOE970**Doctoral Recital**

Public performance by a doctoral student in oboe of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16OBOE980**Lecture Recital**

Combined public lecture and performance of a selected topic in the oboe repertoire; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16OBOE990**DMA Document**

Research and preparation of the final written project for the DMA degree in oboe; topic to be approved and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-15.00

Opera**16OPRA560****Independent Study**

In-depth study of a topic related to opera, selected by the student in consultation with a member of the faculty. Permission of instructor and Division. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-6.00

16OPRA585**Lucca: Techniques in Opera Direction**

Development and education of the opera stage director. BoK: FA. Credit Level: U, G. Credit Hrs: 7.00

16OPRA600**Opera Orchestra**

Participation in the opera orchestra; by audition or assignment. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16OPRA620**Lucca: Techniques in Opera Coaching**

Teaching pianists and accompanists skills specific to opera coaching and opera rehearsal playing. Study of recitative, bel canto style, score reduction, and general repertoire, focusing on Italian opera. BoK: FA. Credit Level: U, G. Credit Hrs: 7.00

16OPRA630**Special Topics in Opera**

Offering of selected topics on an as needed basis. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-3.00

16OPRA660**Special Topics**

Topics established every quarter by Department/Division. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-6.00

16OPRA673**Opera Workshop**

Basic techniques of stage movement, operatic style and related aspects of opera production. Comprehensive musical and dramatic study of operatic scenes in classroom and public performance. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

16OPRA675**Opera Studio**

Advanced techniques of characterization, ensemble, and all other aspects of opera production. Emphasis on practical experience in public performances. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-3.00

Opera**16OPRA677****Opera Theater Coaching**

Musical preparation of the CCM mainstage productions. Enrollment by casting. Variable 0-3 ug. or gr., depending on the size of the role to be performed. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-3.00

16OPRA678**Opera Theater Production**

Rehearsal and performance of operas in full productions with orchestra. Enrollment by casting audition. Variable credit depending upon length of role. Prereq: 16OPRA677. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-3.00

16OPRA750**Professional Development**

Student presentation of audition repertoire/ playing in mock auditions for constructive criticism in the areas of presentation, style, dramatic effectiveness, language skills, and other audition techniques. Autumn Quarter only. Credit Level: G. Credit Hrs: 3.00

16OPRA751**Professional Development**

Focus on professional tools, legalities, and employment opportunities in the USA and abroad, along with other relevant information for the individual performer. Credit Level: G. Credit Hrs: 3.00

16OPRA780**Opera Characterization: Principles and Techniques**

Supervised demonstrations and critical analyses of the fundamental principles and techniques of operatic characterization. Credit Level: G. Credit Hrs: 3.00

16OPRA781**Seminar in Opera Stage Directing**

Analytical and communicative techniques of the opera stage director, as illustrated by labwork in class, and opportunity to assist in Opera Workshop, Studio and Theater project. Credit Level: G. Credit Hrs: 3.00

16OPRA782**Seminar in Opera Directing Lab**

Work as instructor or director with undergraduate performance projects or special topics project using materials and information gained in Seminar in Opera Stage Directing. Prereq: 16OPRA781. Credit Level: G. Credit Hrs: 2.00

16OPRA790**Opera Laboratory Ensemble**

Course will focus on advanced synthesis of singing, acting and movement skills (for singers) and directing and coaching (for directors and coaches) through preparation and performance of scenes from the standard operatic repertoire, contemporary repertoire and straight theater. Prereq: 16OPRA673, 16OPRA780. Credit Level: G. Credit Hrs: 2.00

16OPRA791**Opera Laboratory Ensemble**

Course will focus on advanced synthesis of singing, acting and movement skills (for singers) and directing and coaching (for directors and coaches) through preparation and performance of scenes from the standard operatic repertoire, contemporary repertoire and straight theater. Prereq: 16OPRA673, 16OPRA780. Credit Level: G. Credit Hrs: 2.00

16OPRA792**Opera Laboratory Ensemble**

Course will focus on advanced synthesis of singing, acting and movement skills (for singers) and directing and coaching (for directors and coaches) through preparation and performance of scenes from the standard operatic repertoire, contemporary repertoire and straight theater. Prereq: 16OPRA673, 16OPRA780. Credit Level: G. Credit Hrs: 2.00

H=University Honors course.

Opera**16OPRA815****Opera Recitative**

Performance practice in the various methods and styles of opera recitative. Credit Level: G. Credit Hrs: 2.00

16OPRA820**Seminar in Opera Coaching**

Analysis of operatic literature, principles of vocal coaching and fundamentals of opera conducting techniques. Credit Level: G. Credit Hrs: 2.00

16OPRA850**Opera Coaching**

(Open only to Opera Diploma majors.) One one-hour lesson per week each quarter, the content of which enables the student to prepare for performances and auditions and to expand and build a repertoire of operatic literature. Emphasis on musicianship, style and presentation. Required of Artist Diploma in Opera Majors each quarter. Credit Level: G. Credit Hrs: 2.00

16OPRA860**Opera Performance Preparation**

Elective for Artist Diploma in Opera majors and D.M.A. students in voice. Permission of instructor only. One one-hour coaching session per week provided to help the student in learning operatic roles for repertoire or for professional engagements outside the College-Conservatory. To be used for specific special projects apart from activities in Opera Theatre. Variable credit. Credit Level: G. Credit Hrs: 0.00-9.00

16OPRA885**Applied Study in Opera Stage Direction**

First-year study for students accepted into the artist diploma degree program in directing. Permission of instructor. Credit Level: G. Credit Hrs: 4.00

16OPRA900**Applied Opera Coaching**

A private one-hour lesson per week for A.D. Opera students in the opera coaching track. Credit Level: G. Credit Hrs: 4.00

16OPRA950**Applied Opera Coaching**

A private one-hour lesson per week for A.D. Opera students in the opera coaching track. Credit Level: G. Credit Hrs: 4.00

16OPRA985**Applied Study in Opera Stage Direction**

Second-year study for students accepted into the artist diploma degree program in directing. Credit Level: G. Credit Hrs: 4.00

Organ**16ORGN100****Organ Major Study**

Technical requirements: manual and pedal studies by Gleason, Ritchie, and Stauffer. Baroque compositions equivalent in difficulty to J.S. Bach -- "Little" G Minor Fugue, easy pieces by Mendelssohn, Dupr , Vierne, Walcha, and others. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16ORGN110**Organ Concentration**

First-year study for organ students in the B.A. program in music. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16ORGN120**Organ Secondary**

First-year secondary study in organ as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16ORGN200**Organ Major Study**

Technical requirements: continuation of above, sight-reading and transposition. Baroque compositions equivalent in difficulty to the A Major Prelude and Fugue of J.S. Bach, chorale preludes by Buxtehude,

Organ**16ORGN200****Organ Major Study**

Pachelbel, Bach, and Brahms; easier pieces of Franck, Hindemith, Messiaen, etc. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16ORGN210**Organ Concentration**

Second-year study for organ students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16ORGN220**Organ Secondary**

Second-year secondary study in organ as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16ORGN300**Organ Major Study**

Technical requirements: continuation of above, sight-reading and transposition. Baroque compositions equivalent in difficulty to Buxtehude -- Prelude and Fugue in G Minor, a sonata by Mendelssohn, a suite by Langlais or comparable contemporary compositions. Preparation of junior recital. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16ORGN310**Organ Concentration**

Third-year study for organ students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16ORGN320**Organ Secondary**

Third-year secondary study in organ as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16ORGN400**Organ Major Study**

Technical requirements: continuation of above. Preparation of senior recital. Major works by J.S. Bach and his predecessors, 19th century works; Franck -- Chorales; contemporary composition of advanced difficulty. For the final examination the student will prepare a given piece in fifteen days without the aid of the teacher. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16ORGN410**Organ Concentration**

Fourth-year study for organ students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16ORGN420**Organ Secondary**

Fourth-year secondary study in organ as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16ORGN500**Organ Major**

Additional study for undergraduate organ majors who have completed the basic degree requirements; offered for undergraduate and graduate organ majors during the Summer Session, depending on faculty availability. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16ORGN510**Organ Concentration**

Additional study in organ for undergraduate students at the concentration level who have completed the basic degree requirements; offered to all concentration level organ students during the Summer Session, depending on faculty availability. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16ORGN511**Keyboard Harmony for Organists**

Emphasis on modulation, transposition, and beginning improvisation. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Organ**16ORGN512****Keyboard Harmony for Organists**

Emphasis on modulation, transposition, and beginning improvisation.

BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16ORGN513**Keyboard Harmony for Organists**

Emphasis on modulation, transposition, and beginning improvisation.

BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16ORGN521**Liturgical Organ Playing**

Advanced hymn-playing skills, solo and anthem accompaniment, adapting piano and orchestral accompaniments to the organ, improvisation, and conducting from the console. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16ORGN522**Liturgical Organ Playing**

Advanced hymn-playing skills, solo and anthem accompaniment, adapting piano and orchestral accompaniments to the organ, improvisation, and conducting from the console. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16ORGN523**Liturgical Organ Playing**

Advanced hymn-playing skills, solo and anthem accompaniment, adapting piano and orchestral accompaniments to the organ, improvisation, and conducting from the console. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16ORGN530**Organ Elective**

Nonrequired private study in organ; requires permission of the department and the college. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-2.00

16ORGN531**Organ Repertoire**

A survey of organ literature from the medieval period to the avant-garde of the present, with emphasis on significant works of each period as well as on instruments for which they were intended. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16ORGN532**Organ Repertoire**

A survey of organ literature from the medieval period to the avant-garde of the present, with emphasis on significant works of each period as well as on instruments for which they were intended. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16ORGN533**Organ Repertoire**

A survey of organ literature from the medieval period to the avant-garde of the present, with emphasis on significant works of each period as well as on instruments for which they were intended. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16ORGN535**Organ Pedagogy**

Teaching materials and studio practice; supervised teaching. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16ORGN536**Organ Pedagogy**

Teaching materials and studio practice; supervised teaching. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16ORGN537**Organ Pedagogy**

Teaching materials and studio practice; supervised teaching. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

Organ**16ORGN541****Organ Repertoire**

A survey of organ literature from the medieval period to the avant-garde of the present, with emphasis on significant works of each period as well as on instruments for which they were intended. BoK: FA., HP. Credit Level: U, G. Credit Hrs: 2.00

16ORGN542**Organ Repertoire**

A survey of organ literature from the medieval period to the avant-garde of the present, with emphasis on significant works of each period as well as on instruments for which they were intended. Prereq: 16ORGN541. BoK: FA, HP. Credit Level: U, G. Credit Hrs: 2.00

16ORGN543**Organ Repertoire**

A survey of organ literature from the medieval period to the avant-garde of the present, with emphasis on significant works of each period as well as on instruments for which they were intended. Prereq: 16ORGN542. BoK: FA, HP. Credit Level: U, G. Credit Hrs: 2.00

16ORGN560**Independent Study**

In-depth study of a topic related to the organ, selected by the student in consultation with a member of the faculty. Permission of instructor and Division. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16ORGN570**Introduction to the Organ**

An introductory course in basic facets of organ playing designed primarily as a basis for further elective study. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16ORGN800**Organ Graduate Major Study**

Preparation of two recital programs, one to be performed in public. J.S. Bach -- works such as Prelude and Fugue in E-Flat; extended 19th century works such as Fantasy and Fugue on Ad nos by Liszt or Sonata by Reubke; 20th Century compositions by Dupr , Hindemith, Sowerby, Distler, Messiaen, Albright, and others. Credit Level: G. Credit Hrs: 4.00

16ORGN810**Organ Concentration**

Master's level study for students accepted for a cognate in organ performance. Credit Level: G. Credit Hrs: 2.00

16ORGN820**Organ Secondary**

Secondary study in organ for master's degree students. Credit Level: G. Credit Hrs: 1.00

16ORGN880**Master Recital**

Public performance by a master's degree student in organ of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 1.00-2.00

16ORGN895**Practicum**

Practical experience in the professional world. Credit Level: G. Credit Hrs: 1.00

16ORGN899**Master's Candidacy**

Retention of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

16ORGN900**Organ Doctoral Major Study**

Selected studies for continued refinement of previous skills. Repertoire to be selected from works of advanced technical difficulty. Preparation of required doctoral recitals. Credit Level: G. Credit Hrs: 4.00

Organ**16ORGN910****Organ Concentration**

Doctoral level study for students accepted for a cognate in organ performance. Credit Level: G. Credit Hrs: 2.00

16ORGN920**Organ Secondary**

Secondary study in organ for doctoral level students. Credit Level: G. Credit Hrs: 1.00

16ORGN930**Organ Elective**

Nonrequired private study in organ for doctoral students; requires permission of the department and the college. Credit Level: G. Credit Hrs: 1.00-2.00

16ORGN960**Organ Concerto**

Public performance of a concerto with one of the major performing ensembles. Credit Level: G. Credit Hrs: 2.00

16ORGN970**Doctoral Recital**

Public performance by a doctoral student in organ of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16ORGN980**Lecture Recital**

Combined public lecture and performance of a selected topic in the organ repertoire; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16ORGN990**DMA Document**

Research and preparation of the final written project for the DMA degree in organ; topic to be approved and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-15.00

Percussion**16PERC100****Percussion Major Study**

Development of technical facility on snare drum, mallet percussion instruments and timpani. Texts by Goldenberg, Albright, Cirone, Payson, Kraus, Bergamo, Friedman, Burton, Green, Stout, Goodman, Firth, Hinger, and Hochrainer. Review of small percussion instrument techniques. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16PERC110**Percussion Concentration**

First-year study for percussion students in the B.A. program in music. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16PERC120**Percussion Secondary**

First-year secondary study in percussion as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16PERC200**Percussion Major Study**

Continued technical studies. Orchestral repertoire on all percussion instruments. Solo and small chamber works drawn from the traditional and contemporary repertoire. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16PERC210**Percussion Concentration**

Second-year study for percussion students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16PERC220**Percussion Secondary**

Second-year secondary study in percussion as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

Percussion**16PERC300****Percussion Major Study**

Continued work on the fundamentals of orchestral, solo, and chamber performance techniques. Development of contemporary techniques. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16PERC310**Percussion Concentration**

Third-year study for percussion students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16PERC320**Percussion Secondary**

Third-year secondary study in percussion as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16PERC400**Percussion Major Study**

Mastery of concert performance techniques on all percussion instruments. Preparation of Senior Recital including representative works on all major instruments. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16PERC410**Percussion Concentration**

Fourth-year study for percussion students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16PERC420**Percussion Secondary**

Fourth-year secondary study in percussion as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16PERC500**Percussion Major**

Additional study for undergraduate percussion majors who have completed the basic degree requirements; offered for undergraduate and graduate percussion majors during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16PERC510**Percussion Concentration**

Additional study in percussion for undergraduate students at the concentration level who have completed the basic degree requirements; offered to all concentration level percussion students during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16PERC530**Percussion Elective**

Nonrequired private study in percussion; requires permission of the department and the college. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-2.00

16PERC560**Independent Study**

In-depth study of a topic related to percussion, selected by the student in consultation with a member of the faculty. Permission of instructor and Division. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16PERC581**Improvisation and MIDI for Percussion**

Covers improvisation and MIDI technology for percussionists. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16PERC582**Improvisation and MIDI for Percussion**

Continuation of 16PERC581. Prereq: 16PERC581. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16PERC670**Percussion Ensemble**

An organization reading and performing works for large percussion ensemble and smaller percussion chamber ensembles drawing upon

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Percussion**16PERC670****Percussion Ensemble**

works of the classical and contemporary repertoire. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16PERC800**Percussion Major Study**

Preparation of one recital program to be performed in public. Including major advanced works from the percussion repertoire, or possibly works employing instrument design and construction, percussion with electronics or other experimental percussion projects. Advanced study of the passages from the orchestral repertoire available. Credit Level: G. Credit Hrs: 4.00

16PERC810**Percussion Concentration**

Master's level study for students accepted for a cognate in percussion performance. Credit Level: G. Credit Hrs: 2.00

16PERC820**Percussion Secondary**

Secondary study in percussion for master's degree students. Credit Level: G. Credit Hrs: 1.00

16PERC850**Artist Diploma in Percussion**

First-year major study in percussion for students accepted into the artist diploma program. Credit Level: G. Credit Hrs: 6.00

16PERC855**Artist Diploma Recital**

Public performance by an artist diploma student in percussion of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 2.00

16PERC880**Master Recital**

Public performance by a master's degree student in percussion of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 1.00-2.00

16PERC895**Practicum**

Practical experience in the professional world. Credit Level: G. Credit Hrs: 1.00

16PERC899**Master's Candidacy**

Retention of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

16PERC900**Percussion Doctoral Major Study**

Selected studies for continued refinement of previous skills. Repertoire to be selected from works of advanced technical difficulty. Preparation of required doctoral recitals. Credit Level: G. Credit Hrs: 4.00

16PERC910**Percussion Concentration**

Doctoral level study for students accepted for a cognate in percussion performance. Credit Level: G. Credit Hrs: 2.00

16PERC920**Percussion Secondary**

Secondary study in percussion for doctoral level students. Credit Level: G. Credit Hrs: 1.00

16PERC930**Percussion Elective**

Nonrequired private study in percussion for doctoral students; requires permission of the department and the college. Credit Level: G. Credit Hrs: 1.00-2.00

16PERC950**Artist Diploma in Percussion**

Second-year major study in percussion for students accepted into the

Percussion**16PERC950****Artist Diploma in Percussion**

artist diploma program. Credit Level: G. Credit Hrs: 6.00

16PERC960**Percussion Concerto**

Public performance of a concerto with one of the major performing ensembles. Credit Level: G. Credit Hrs: 2.00

16PERC970**Doctoral Recital**

Public performance by a doctoral student in percussion of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16PERC980**Lecture Recital**

Combined public lecture and performance of a selected topic in the percussion repertoire; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16PERC990**DMA Document**

Research and preparation of the final written project for the DMA degree in percussion; topic to be approved and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-15.00

Piano**16PIAN100****Piano Major Study**

Technical requirements: all major and minor scales, four octaves, in parallel motion; arpeggios, triads, dominant and diminished seventh chords, four octaves. Works from Baroque, Classic, and Romantic periods and twentieth century. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16PIAN110**Piano Concentration**

First-year study for piano students in the B.A. program in music. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16PIAN120**Piano Secondary**

First-year secondary study in piano as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16PIAN130**Keyboard Skills for Freshman Honors**

Group piano for those with extensive piano background, yet lack the skills for passing the entrance examination. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 2.00

16PIAN131**Piano Forum I**

An introductory discussion of issues and development of skills related to a career as a pianist. BoK: FA., HP. Credit Level: U. Credit Hrs: 1.00

16PIAN132**Piano Forum I**

An introductory discussion of issues and development of skills related to a career as a pianist. BoK: FA., HP. Credit Level: U. Credit Hrs: 1.00

16PIAN133**Piano Forum I**

An introductory discussion of issues and development of skills related to a career as a pianist. BoK: FA., HP. Credit Level: U. Credit Hrs: 1.00

16PIAN140**Studio Piano for Freshman Honors**

Private lessons for those with superb piano background, yet lack the skills for passing the entrance examination. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 2.00

H=University Honors course.

Piano**16PIAN200****Piano Major Study**

Scales in thirds, sixths, and tenths in parallel and contrary motion, triad and seventh-chord arpeggios in all inversions. J.S. Bach, "Three-Part Inventions and Preludes" and "Fugues" from the W.T.C. Classical sonatas of the difficulty of Beethoven, "Sonata in C Major, Op. 2, No. 3." Nineteenth-century compositions comparable in difficulty to Schumann's "Papillons." BoK: FA. Credit Level: U. Credit Hrs: 4.00

16PIAN210**Piano Concentration**

Second-year study for piano students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16PIAN211**Keyboard Skills**

Specialized training in keyboard skills that lead to well rounded musicianship. The class includes: Sight-reading, harmonization of melodies, score reading, transposition, modal and whole tone scales and harmony, score and accompaniment reductions, and pop/jazz realizations. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16PIAN212**Keyboard Skills**

Specialized training in keyboard skills that lead to well rounded musicianship. The class includes: Sight-reading, harmonization of melodies, score reading, transposition, modal and whole tone scales and harmony, score and accompaniment reductions, and pop/jazz realizations. Prereq: 16PIAN211. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16PIAN213**Keyboard Skills**

Specialized training in keyboard skills that lead to well rounded musicianship. The class includes: Sight-reading, harmonization of melodies, score reading, transposition, modal and whole tone scales and harmony, score and accompaniment reductions, and pop/jazz realizations. Prereq: 16PIAN212. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16PIAN220**Piano Secondary**

Second-year secondary study in piano as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16PIAN221**Collaborative Piano I**

Classes devoted to the pianist's role in both vocal and chamber music repertoire. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16PIAN222**Collaborative Piano I**

Continuation of 16 PIAN 221. Prereq: 16PIAN221. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16PIAN223**Collaborative Piano I**

Continuation of 16 PIAN 222. Prereq: 16PIAN222. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16PIAN231**Piano Forum II**

Continuation of Piano Forum I for second year piano majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16PIAN232**Piano Forum II**

Continuation of Piano Forum I for second year piano majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16PIAN233**Piano Forum II**

Continuation of Piano Forum I for second-year piano majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

Piano**16PIAN233****Piano Forum II**

Continuation of Piano Forum I for second-year piano majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16PIAN300**Piano Major Study**

Technical requirements: continuation of above with improved technical facility. J.S. Bach Preludes and Fugues from the W.T.C. and the Partitas, Chopin Etudes, Beethoven Sonata, Op. 26, Brahms Intermezzi, Op. 118, Prokofiev Sonata No. 3, or works of comparable difficulty. Preparation and performance of junior recital. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16PIAN310**Piano Concentration**

Third-year study for piano students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16PIAN320**Piano Secondary**

Third-year secondary study in piano as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16PIAN321**Collaborative Piano II**

Classes devoted to the pianists role in both vocal and chamber music repertoires. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16PIAN322**Collaborative Piano II**

Continuation of 16 PIAN 321. Prereq: 16PIAN321. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16PIAN323**Collaborative Piano II**

Continuation of 16 PIAN 322. Prereq: 16PIAN322. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16PIAN331**Piano Repertoire**

Specified repertoire from the performing, interpretive, historical and analytic points of view. BoK: FA., HP. Credit Level: U. Credit Hrs: 2.00

16PIAN332**Piano Repertoire**

Specified repertoire from the performing, interpretive, historical and analytic points of view. Prereq: 16PIAN331. BoK: FA, HP. Credit Level: U. Credit Hrs: 2.00

16PIAN333**Piano Repertoire**

Specified repertoire from the performing, interpretive, historical and analytic points of view. Prereq: 16PIAN332. BoK: FA, HP. Credit Level: U. Credit Hrs: 2.00

16PIAN400**Piano Major Study**

Advanced technical studies; preparation and performance of Senior Recital. Works comparable in difficulty to J. S. Bach -- Italian Concerto, Mozart -- Sonata in A Minor, K. 310, Debussy -- Preludes, Copland -- Passacaglia. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16PIAN410**Piano Concentration**

Fourth-year study for piano students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16PIAN420**Piano Secondary**

Fourth-year secondary study in piano as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Piano**16PIAN421****Collaborative Piano III**

Classes devoted to the pianists role in both vocal and chamber music repertoire. Prereq: 16PIAN323. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16PIAN422**Collaborative Piano III**

Continuation of 16 PIAN 421. Prereq: 16PIAN421. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16PIAN423**Collaborative Piano III**

Continuation of 16 PIAN 422. Prereq: 16PIAN422. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16PIAN431**Introduction to Piano Pedagogy**

Beginning to intermediate teaching, both in private and group situations; children through adult. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16PIAN432**Introduction to Piano Pedagogy**

Continuation of 16 PIAN 431. Prereq: 16PIAN431. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16PIAN433**Introduction to Piano Pedagogy**

Continuation of 16 PIAN 432. Prereq: 16PIAN432. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16PIAN500**Piano Major**

Additional study for undergraduate piano majors who have completed the basic degree requirements; offered for undergraduate and graduate piano majors during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16PIAN501**Group Piano for Nonmusic Majors**

Designed for those with little or no piano experience; teaches the fundamentals of reading music, playing by ear, using chord charts, and improving finger flexibility. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16PIAN502**Group Piano for Nonmusic Majors, Level 2**

Designed for those with little or no piano experience; teaches the fundamentals of reading music, playing by ear, using chord charts, and improving finger flexibility. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16PIAN510**Piano Concentration**

Additional study in piano for undergraduate students at the concentration level who have completed the basic degree requirements; offered to all concentration level piano students during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16PIAN520**Secondary Piano**

Additional study in secondary piano for undergraduate students who have completed the basic degree requirements. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16PIAN521**Piano Pedagogy**

Emphasis on materials and techniques used in early piano study. Assignments and lectures include: piano method book evaluations, observations of children, instruction on beginning piano teaching, the business aspect of teaching, review of magazines available to pianists and piano teachers, and review of supplemental music that can correlate with piano method books. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

Piano**16PIAN522****Piano Pedagogy**

Emphasis on materials and techniques employed when teaching intermediate and advanced students. Assignments and lectures include: evaluation and leveling of intermediate and advanced repertoire, observations of intermediate and advanced students, technique repertoire and famous technicians with their philosophies, master class teaching techniques. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16PIAN523**Piano Pedagogy**

Emphasis on group teaching repertoire and techniques. Assignments and lectures include: Evaluation of group piano texts, sequencing group piano concepts, observation and teaching of a group piano class, discussions and readings of select topics associated with the field of Piano Pedagogy. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16PIAN530**Piano Elective**

Nonrequired private study in piano; requires permission of the department and the college. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-2.00

16PIAN531**Master Class in Piano Performance**

A weekly master class taught on a rotating basis by the various members of the major piano faculty, with occasional guest presentations. Each student is expected to play in class at least once each quarter. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16PIAN532**Master Class in Piano Performance**

A weekly master class taught on a rotating basis by the various members of the major piano faculty, with occasional guest presentations. Each student is expected to play in class at least once each quarter. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16PIAN533**Master Class in Piano Performance**

A weekly master class taught on a rotating basis by the various members of the major piano faculty, with occasional guest presentations. Each student is expected to play in class at least once each quarter. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16PIAN560**Independent Study**

In-depth study of a topic related to the piano, selected by the student in consultation with a member of the faculty. Permission of instructor and Division. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16PIAN570**Introduction to Electronic Keyboards**

Basic course designed to familiarize pianists with various types and uses of electronic keyboards. Select topics will be presented using technology available to the instructor. Assignments and lectures will include basic information on MIDI, synthesizers, and sequencing. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16PIAN581**Collaborative Piano Seminar**

Performance seminars devoted to specific areas of voice and keyboard repertoire. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16PIAN590**PianoFest Cincinnati**

An highly specialized summer workshop/festival for pianists. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

16PIAN611**Two-Piano Four-Hand Repertoire**

A study of the repertoire for two pianos and one piano four hands. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Piano**16PIAN612****Two-Piano Four-Hand Repertoire**

A study of the repertoire for two pianos and one piano four hands. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16PIAN613**Two-Piano Four-Hand Repertoire**

A study of the repertoire for two pianos and one piano four hands. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16PIAN621**Piano Technology for Pianists**

Development of the knowledge and skills necessary for the tuning of pianos, including understanding and usage of appropriate technology. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16PIAN630**Special Topics**

Topics established every quarter by Department/Division. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-3.00

16PIAN671**Two-Piano Four-Hand Coaching**

Coaching in the repertoire for two pianos and one piano four hands. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16PIAN672**Two-Piano Four-Hand Coaching**

Coaching in the repertoire for two pianos and one piano four hands. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16PIAN673**Two-Piano Four-Hand Coaching**

Coaching in the repertoire for two pianos and one piano four hands. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16PIAN800**Piano Graduate Major Study**

Preparation of two recital programs, both to be performed in public. The selection of compositions should reflect mature musicianship, knowledge of different styles, and advanced keyboard facility. A composition written since 1920 is required. Credit Level: G. Credit Hrs: 4.00

16PIAN810**Piano Concentration**

Master's level study for accompanying majors and for other students accepted for a cognate in piano performance. Credit Level: G. Credit Hrs: 2.00

16PIAN820**Secondary (Class) Piano**

Basic keyboard skills, elementary and intermediate repertoire and technique for graduate students with limited keyboard facility. Successful completion of course (one year) with an average of B or better satisfies graduate piano proficiency requirement. Credit Level: G. Credit Hrs: 1.00

16PIAN831**Piano Literature for the Intermediate Student**

Focus on method books available to traditional intermediate students. Review collected literature for intermediate students, working on leveling of material. Review 20th-century pedagogical composers, and investigate technical materials and methods. Credit Level: G. Credit Hrs: 2.00

16PIAN832**Career Skills for Piano Teachers**

Focus on judging, masterclassing, and group teaching. Learn to teach "Clavinoca Connections," adult recreational piano courses, and children's classes. Group teaching techniques. Prereq: 16PIAN831. Credit Level: G. Credit Hrs: 2.00

Piano**16PIAN833****Group Piano Internship**

Group teaching of a nonmusic major piano class. Team taught with supervising professor. Prereq: 16PIAN832. Credit Level: G. Credit Hrs: 2.00

16PIAN840**Seminar in Piano Literature**

A series of special-topic seminars in piano literature. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

16PIAN841**Major Concerti**

Class focuses on performance issues related to the playing of orchestral reductions in the standard concerto repertoire. Credit Level: G. Credit Hrs: 2.00

16PIAN842**Survey of Sonatas for Piano and Strings**

Specified repertoire; learning how to collaborate from an interpretive and performing view. Credit Level: G. Credit Hrs: 2.00

16PIAN843**Survey of Sonatas for Piano and Winds**

Specified repertoire; learning how to collaborate from an interpretive and performing view. Credit Level: G. Credit Hrs: 2.00

16PIAN850**Artist Diploma in Piano**

First-year major study in piano for students accepted into the artist diploma program. Credit Level: G. Credit Hrs: 6.00

16PIAN855**Artist Diploma Recital**

Public performance by an artist diploma student in piano of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 2.00

16PIAN860**Master Chamber Recital**

Public performance by a master's degree student in piano with a small ensemble. Credit Level: G. Credit Hrs: 1.00-2.00

16PIAN870**Collaborative Piano Recital**

Public performance by a master's degree student in accompanying of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 1.00

16PIAN880**Master Piano Recital**

Public performance by a master's degree student in piano of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 1.00-2.00

16PIAN890**Recital Coaching**

Available to MM accompanying majors and DMA accompanying cognates only. Credit Level: G. Credit Hrs: 1.00

16PIAN895**Practicum**

Practical experience in the professional world. Credit Level: G. Credit Hrs: 1.00

16PIAN899**Master's Candidacy**

Retainment of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

16PIAN900**Piano Doctoral Major Study**

Selected studies for continued refinement of previous skills. Repertoire to be selected from works of advanced technical difficulty. Preparation of required doctoral recitals. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Piano**16PIAN910****Piano Concentration**

Doctoral-level study for students accepted for a cognate in piano performance. Credit Level: G. Credit Hrs: 2.00

16PIAN920**Piano Secondary**

Secondary study of piano at the doctoral level. Credit Level: G. Credit Hrs: 1.00

16PIAN921**Early Keyboard**

Seminar in the keyboard literature prior to the classical era. Credit Level: G. Credit Hrs: 3.00

16PIAN922**Early Keyboard**

Seminar in the keyboard literature prior to the classical era. Credit Level: G. Credit Hrs: 3.00

16PIAN923**Early Keyboard**

Seminar in the keyboard literature prior to the classical era. Credit Level: G. Credit Hrs: 3.00

16PIAN924**Classicism**

Seminar in piano literature of the era. Credit Level: G. Credit Hrs: 3.00

16PIAN925**Classicism**

Seminar in the piano literature of the era. Credit Level: G. Credit Hrs: 3.00

16PIAN926**Classicism**

Seminar in the piano literature of the era. Credit Level: G. Credit Hrs: 3.00

16PIAN927**Romanticism**

Seminar in the piano literature of the era. Credit Level: G. Credit Hrs: 3.00

16PIAN928**Romanticism**

Seminar in the piano literature of the era. Credit Level: G. Credit Hrs: 3.00

16PIAN929**Romanticism**

Seminar in the piano literature of the era. Credit Level: G. Credit Hrs: 3.00

16PIAN930**Piano Elective**

Nonrequired private study in piano for doctoral students; requires permission of the department and the college. Credit Level: G. Credit Hrs: 1.00-2.00

16PIAN931**20th Century**

Seminar in the piano literature of the era. Credit Level: G. Credit Hrs: 3.00

16PIAN932**20th Century**

Seminar in the piano literature of the era. Credit Level: G. Credit Hrs: 3.00

16PIAN933**20th Century**

Seminar in the piano literature of the era. Credit Level: G. Credit Hrs: 3.00

Piano**16PIAN941****Seminar in Piano Pedagogy**

Proseminar concentrating on learning theory, piano technique, issues concerning piano pedagogy and famous pedagogues. Includes preparation for job interviews and curriculum development. Prereq.: Piano Pedagogy cognates Credit Level: G. Credit Hrs: 3.00

16PIAN942**Seminar in Piano Pedagogy**

Technology centered, with an in-depth look into MIDI applications, current computer programs available for teaching piano, and sequencing/notation software. Credit Level: G. Credit Hrs: 3.00

16PIAN943**Seminar in Piano Pedagogy**

Focus on individual research projects designed and executed by participants. Resulting projects will be suitable for publication in journals or for presentation at professional conventions and workshops. Credit Level: G. Credit Hrs: 3.00

16PIAN950**Artist Diploma Piano Study**

Second-year major study in piano for students accepted into the artist diploma program. Credit Level: G. Credit Hrs: 6.00

16PIAN951**Supervised Piano Teaching**

Teach piano lessons under the supervision of one or more teachers, as selected by the cognate advisor in consultation with the Head of the Keyboard Division and Chair of the Piano Department. May be repeated for additional credit with perm. of cognate adviser. Credit Level: G. Credit Hrs: 1.00

16PIAN952**Supervised Piano Teaching**

Teach piano lessons under the supervision of one or more teachers, as selected by the cognate advisor in consultation with the Head of the Keyboard Division and Chair of the Piano Department. May be repeated for additional credit with permission of cognate advisor. Credit Level: G. Credit Hrs: 1.00

16PIAN953**Supervised Piano Teaching**

Teach piano lessons under the supervision of one or more teachers, as selected by the cognate advisor in consultation with the Head of the Keyboard Division and Chair of the Piano Department. May be repeated for additional credit with permission of cognate advisor. Credit Level: G. Credit Hrs: 1.00

16PIAN960**Doctoral Piano Concerto**

Public performance of a concerto with one of the major performing ensembles. Credit Level: G. Credit Hrs: 2.00

16PIAN970**Doctoral Solo Recital**

Public performance by a doctoral student in piano of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 1.00-3.00

16PIAN971**Doctoral Chamber Recital**

Public performance by a doctoral student in piano of selected works from the chamber music repertoire; approved and graded by the faculty. Credit Level: G. Credit Hrs: 2.00

16PIAN980**Doctoral Lecture Recital**

Combined public lecture and performance of a selected topic in the piano repertoire; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Piano**16PIAN990****DMA Document**

Research and preparation of the final written project for the DMA degree in piano; topic to be approved and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-15.00

Saxophone**16SAX100****Saxophone Major Study**

Technical requirements: development of embouchure and fingering; all major and minor scales; proper breath support, articulations and vibrato. Teal --Saxophonist's Workbook, Salvani-Iasilli -- Exercises, Mule -- Scales and Arpeggios Book 1, Mule -- Etudes after Berbiguier, Ibert -- Histoires, Bozza -- Aria, Lecail -- Fantasie Concertante, Bach-Mule -- Fourth Sonata (Flute), Gee -- Ballade or works of comparable difficulty. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16SAX110**Saxophone Concentration**

First-year study for saxophone students in the B.A. program in music. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16SAX120**Saxophone Secondary**

First-year secondary study in saxophone as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16SAX200**Saxophone Major Study**

Mule -- Etudes after Terschak, Scales and Arpeggios Book 2, Blömant -- Twenty Melodic Studies, Rascher -- Scale Studies, Gatti-Lasilli -- Twenty-seven Virtuoso Studies, Ferling -- Forty-eight Studies, Handel-Mule -- Fourth or Sixth Sonata (Violin), Whitney -- Introduction and Samba, Tuthill -- Sonata, Op. 20, Hindemith -- Sonata. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16SAX210**Saxophone Concentration**

Second-year study for saxophone students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16SAX220**Saxophone Secondary**

Second-year secondary study in saxophone as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16SAX300**Saxophone Major Study**

Gabucci-Allard -- Sixty Varied Etudes, Mule -- Scales and Arpeggios Book 3, Labanchi -- Concert Etudes, Rascher -- Top Tones for Saxophone, Glazounov-Petiot -- Concerto in E-Flat, Moritz -- Sonata, Op. 96, Handel-Mule -- Fourth Sonata (Flute), Ibert -- Concertino da Camera, Maurice -- Tableaux de Provence and others. Orchestral excerpts. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16SAX310**Saxophone Concentration**

Third-year study for saxophone students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16SAX320**Saxophone Secondary**

Third-year secondary study in saxophone as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16SAX400**Saxophone Major Study**

Mule -- Etudes VarieWes, Massis -- Etudes, Bozza -- Twelve Etudes Caprices, Mule-Soussmann -- Thirty Grand Exercises, Nash -- Studies in High Harmonics, Creston -- Sonata, Bonneau -- Caprice en Forme du Valse, Couf -- Introduction Dance and Furioso, Reuff -- Concertino.

Saxophone**16SAX400****Saxophone Major Study**

Preparation of Senior Recital. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16SAX410**Saxophone Concentration**

Fourth-year study for saxophone students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16SAX420**Saxophone Secondary**

Fourth-year secondary study in saxophone as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16SAX500**Saxophone Major**

Additional study for undergraduate saxophone majors who have completed the basic degree requirements; offered for undergraduate and graduate saxophone majors during the Summer Session, depending on faculty availability. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16SAX510**Saxophone Concentration**

Additional study in saxophone for undergraduate students at the concentration level who have completed the basic degree requirements; offered to all concentration level saxophone students during the Summer Session, depending on faculty availability. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16SAX530**Saxophone Elective**

Nonrequired private study in saxophone; requires permission of the department and the college. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-2.00

16SAX560**Independent Study**

In-depth study of a topic related to the saxophone, selected by the student in consultation with a member of the faculty. Permission of instructor and Division. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16SAX670**Saxophone Ensemble**

Rehearsal/coaching of saxophone ensembles. BoK: NA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16SAX680**Saxophone Studio Class**

Weekly master class for saxophone students. BoK: NA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16SAX800**Saxophone Graduate Major Study**

Preparation of two recital programs, one to be performed in public. Repertoire of a high level of difficulty suited to the needs of the individual student. Credit Level: G. Credit Hrs: 4.00

16SAX810**Saxophone Concentration**

Master's level study for students accepted for a cognate in saxophone performance. Credit Level: G. Credit Hrs: 2.00

16SAX820**Saxophone Secondary**

Secondary study in saxophone for master's degree students. Credit Level: G. Credit Hrs: 1.00

16SAX850**Artist Diploma in Saxophone**

First-year major study in saxophone for students accepted into the artist diploma program. NOTE: The Artist Diploma degree program in saxophone is not currently available. Credit Level: G. Credit Hrs: 6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

Saxophone**16SAX850****Artist Diploma in Saxophone**

First-year major study in saxophone for students accepted into the artist diploma program. NOTE: The Artist Diploma degree program in saxophone is not currently available. Credit Level: G. Credit Hrs: 6.00

16SAX855**Artist Diploma Recital**

Public performance by an artist diploma student in saxophone of selected compositions; approved and graded by the faculty. NOTE: The Artist Diploma degree program in saxophone is not currently available. Credit Level: G. Credit Hrs: 2.00

16SAX880**Master Recital**

Public performance by a master's degree student in saxophone of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 1.00-2.00

16SAX895**Practicum**

Practical experience in the professional world. Credit Level: G. Credit Hrs: 1.00

16SAX899**Master's Candidacy**

Retention of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

16SAX900**Saxophone Major**

Doctoral-level study for saxophone performance majors. Credit Level: G. Credit Hrs: 4.00

16SAX910**Saxophone Concentration**

Doctoral-level study for students accepted for a cognate in saxophone performance. Credit Level: G. Credit Hrs: 2.00

16SAX920**Saxophone Secondary**

Secondary study in saxophone for doctoral-level students. Credit Level: G. Credit Hrs: 1.00

16SAX930**Saxophone Elective**

Nonrequired private study in saxophone for doctoral students; requires permission of the department and the college. Credit Level: G. Credit Hrs: 1.00-2.00

16SAX950**Artist Diploma in Saxophone**

Second-year major study in saxophone for students accepted into the artist diploma program. NOTE: The Artist Diploma program in saxophone is not currently available. Credit Level: G. Credit Hrs: 6.00

16SAX960**Saxophone Concerto**

Public performance of a concerto with one of the major performing ensembles. Credit Level: G. Credit Hrs: 2.00

16SAX970**Doctoral Recital**

Public performance by a doctoral student in saxophone of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16SAX980**Lecture Recital**

Combined public lecture and performance of a selected topic in the saxophone repertoire; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16SAX990**DMA Document**

Research and preparation of the final written project for the DMA

Saxophone**16SAX990****DMA Document**

degree in saxophone; topic to be approved and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-15.00

Theater Production**16THPR100****Introduction to Costuming**

An introduction to the process of costume design from the playscript to the production. Critiques and discussions of live performances. Lab and crew requirements. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR101**Fundamentals of Costume Design**

A study of design elements, including line, shape, volume, scale, color, texture, etc., as used by costume designers. The study of textiles and costume materials, costume design process, procedures and paperwork. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR102**Character Figure Drawing**

A study of human body as it relates to theatrical characterization including age, size, proportion, movement, emotion, etc. Prerequisite: Fundamentals of Costume Design. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR103**Costume Rendering**

A study of media and its application as used in costume rendering. Beginning rendering projects in color, texture, fabric/color matching, layout and design of costume plates, etc. Prerequisite: Fundamentals of costume Design, Character Figure Drawing. Prereq: 16THPR101, 16THPR102. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR110**Introduction to Makeup**

A one-quarter course for the nonperformer (theatrical designers, directors, stage managers, etc.) oriented toward the study of basic makeup techniques. Classes will cover the following topics: facial anatomy, modeling with paint, corrective makeup, age makeup, three dimensional makeup, and facial expressions. Prereq.: Perm. of instr. Lab and Crew is a requirement for the class. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR120**Introduction to Stage Lighting**

A basic survey of the materials, techniques, and strategies employed in the lighting of a stage production. Practical experience on lighting crews for departmental productions is required. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR130**Introduction to Theater Sound Technology**

Introduction to the technical processes of theater sound production. Acoustics, basic physics of sound equipment use and terminology and TD&P majors must register for Theatre Sound Lab and Crew to complete their requirement (2 credits). Prereq: 16THPR150. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR131**Basic Score Interpretation**

Fundamental/rudimentary music skills to enable the theatrical designer and stage manager to follow opera and musical theater scores. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR150**Introduction to Stagecraft**

Introduction to the art and craft of technical theater, its tools, construction methods, and rigging techniques. BoK: FA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Theater Production**16THPR151****Introduction to Stagecraft Lab and Crew**

Practicum in construction of stage scenery and assignment to running crews for major productions. BoK: FA. Credit Level: U. Credit Hrs: 0.00-3.00

16THPR160**Survey of Theatrical Design**

Introduction to the principles and goals of set, costume and makeup, lighting, and sound design for the stage. Lecture format with use of slides and other visual aids. Guest lectures from CCM design and directing faculty. BoK: FA., HP. Credit Level: U. Credit Hrs: 3.00

16THPR201**Introduction to Costume Construction**

An introduction to the study and practice of core costume construction skills. Topics include proper machine use and maintenance, basic machine and hand-sewing techniques, seams and seam finishes, zippers, pockets and other foundation skills of costume construction. Pre/Co-requisite for all costume design and technology courses. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR202**Costume Construction**

A continuation of costume construction core skill- building. Topics include research and construction of period corsets, 18th century breeches, and 16th to 18th century bodices and skirts. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR203**Costume Shop Management**

A course designed to develop the costume student's ability to organize, plan and execute all information pertinent to producing costumes for a realized production. Communication and planning skills for both preliminary and production phases are emphasized. Material and labor cost estimates, production calendars, out-sourcing, spreadsheets and season planning will be discussed. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR204**Makeup I**

A full-year course for performers, undergraduate makeup majors, costume designers. Covers: bone structure, corrective makeup, age makeup, three dimensional makeup, facial hair, racial makeup, special effects, nonrealistic makeup. Makeup Lab and Crew required for makeup and costume majors. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR205**Makeup I**

A full-year course for performers, undergraduate makeup majors, costume designers. Covers: bone structure, corrective makeup, age makeup, three dimensional makeup, facial hair, racial makeup, special effects, nonrealistic makeup. Makeup Lab and Crew required for makeup and costume majors. Prereq: 16THPR204. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR206**Makeup I**

A full-year course for performers, undergraduate makeup majors, costume designers. Covers: bone structure, corrective makeup, age makeup, three dimensional makeup, facial hair, racial makeup, special effects, nonrealistic makeup. Makeup Lab and Crew required for makeup and costume majors. Prereq: 16THPR205. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR207**Stage Lighting I**

A study of basic electricity and theatrical lighting equipment. Emphasis on the technical aspects of stage lighting, with an introduction to the principles of lighting design. Classes are accompanied by crew assignments. BoK: FA. Credit Level: U. Credit Hrs: 3.00

Theater Production**16THPR208****Stage Lighting I**

A study of basic electricity and theatrical lighting equipment. Emphasis on the technical aspects of stage lighting, with an introduction to the principles of lighting design. Classes are accompanied by crew assignments. Prereq: 16THPR207. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR209**Stage Lighting I**

A study of basic electricity and theatrical lighting equipment. Emphasis on the technical aspects of stage lighting, with an introduction to the principles of lighting design. Classes are accompanied by crew assignments. Prereq: 16THPR208. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR210**Introduction to Rendering for Stage Design**

Introduction to basic color, rendering and design techniques culminating in simple explorative set designs for dance, drama, and lyric theater. Demonstrations, discussion, assigned projects, field trips, and attendance at live performances. Prereq: 16THPR150. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR211**Technical Production I**

Introduction to technical theater, its tools, construction methods, and rigging techniques. Primarily for undergraduate technical production majors. Theoretical classwork supplemented by actual construction of scenery and crew work for theater production. BoK: FA., QR. Credit Level: U. Credit Hrs: 3.00

16THPR212**Technical Production I**

Introduction to technical theater, its tools, construction methods, and rigging techniques. Primarily for undergraduate technical production majors. Theoretical classwork supplemented by actual construction of scenery and crew work for theater production. Prereq: 16THPR211. BoK: FA, QR. Credit Level: U. Credit Hrs: 3.00

16THPR213**Technical Production I**

Introduction to technical theater, its tools, construction methods, and rigging techniques. Primarily for undergraduate technical production majors. Theoretical classwork supplemented by actual construction of scenery and crew work for theater production. Prereq: 16THPR212. BoK: FA, QR. Credit Level: U. Credit Hrs: 3.00

16THPR214**Rendering for Stage Designers**

Introduction to basic color, rendering and design techniques culminating in simple explorative set designs for dance, drama, and lyric theater. Demonstrations, discussion, assigned projects, field trips, and attendance at live performances. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR215**Rendering for Stage Designers**

Introduction to basic color, rendering and design techniques culminating in simple explorative set designs for dance, drama, and lyric theater. Demonstrations, discussion, assigned projects, field trips, and attendance at live performances. Prereq: 16THPR214. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR216**Rendering for Stage Designers**

Introduction to basic color, rendering and design techniques culminating in simple explorative set designs for dance, drama, and lyric theater. Demonstrations, discussion, assigned projects, field trips, and attendance at live performances. Prereq: 16THPR215. BoK: FA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Theater Production**16THPR218****Drafting for the Theater I**

Introduction to basic board drafting techniques: line conventions, orthographic and isometric projections, sectioning, floorplan, elevations, and details. Class demonstrations followed by hands-on studio drafting. Drafting homework projects executed outside of class. BoK: FA., QR. Credit Level: U. Credit Hrs: 2.00

16THPR219**Drafting for the Theater I**

Introduction to basic board drafting techniques: line conventions, orthographic and isometric projections, sectioning, floorplan, elevations, and details. Class demonstrations followed by hands-on studio drafting. Drafting homework projects executed outside of class. Prereq: 16THPR218. BoK: FA, QR. Credit Level: U. Credit Hrs: 2.00

16THPR221**Theater Sound Technology**

Introduction to the technical processes of theater sound production. Acoustics, basic physics of sound equipment use and terminology and TD&P majors must register for Theatre Sound Lab and Crew to complete their requirement (2 credits). BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR222**Theater Sound Technology Lab and Crew**

Supervised laboratory and production crew assignment. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16THPR240**Assistant Stage Management**

One quarter introductory course in stage management for drama, opera, and musical theater. Emphasis on basic assistant stage management skills, including assembling a prompt book, costume & prop tracking, scenic shift plots, deck crew paperwork, and professional etiquette. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR241**Stage Management I**

Emphasis on practical aspects of organizing auditions, scheduling, running rehearsals, tech, and performances, assembling a working prompt script, taking blocking notation, cueing, conducting production meetings and calling the show. Prerequisite: 16 THPR 240; must be taken in sequence. Majors only. BoK: FA. Credit Level: U. Credit Hrs: 3.00-6.00

16THPR242**Stage Management I**

Continuation of 16 THPR 241. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR243**Stage Management I**

Continuation of 16 THPR 242. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR254**History of Costume and Pattern Development**

A study of the evolution and development of dress (costume) and personal adornment from pre-history to contemporary time including an examination of the development of patterning, cutting and construction techniques throughout. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR255**History of Costume and Pattern Development**

Continuation of 16 THPR 254. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR256**History of Costume and Pattern Development**

Continuation of 16 THPR 255. BoK: FA. Credit Level: U. Credit Hrs: 3.00

Theater Production**16THPR270****Scene Painting I**

A one quarter course in the basic materials, methods, and techniques of the scenic artist. Scenic layout and the rendering of various textures and surfaces is explored through demonstrations and studio practice. Paint clothes required. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16THPR271**Digital Audio Systems**

Overview of digital audio systems as applied to the performing arts. Topics will include script analysis for the designer, developing a concept, music research, translating emotions and visual materials into sound and basic paperwork. (Prereq: Theatre Sound Technology & Digital Audio or permission). BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR272**Introduction to Sound Design**

An introduction to the principles of sound design in live drama production. Topics will include script analysis for the designer, developing a concept, music research, translating emotions and visual materials into sound and basic paperwork. (Prereq: Theatre Sound Technology & Digital Audio or permission) BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR273**Sound Production Practicum**

Continuing production credit for students electively serving as a sound running crew or as sound operator for OMDA production. BoK: FA. Credit Level: U. Credit Hrs: 1.00-4.00

16THPR280**Scene Painting II**

A one quarter course in the painting of intermediate level projects from scaled elevations. Rendering of mouldings, paneling, drapery, three dimensional objects, foliage, and landscapes in studio. Paint clothes required. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16THPR301**Pattern Drafting I**

An introductory level course intended to develop the students understanding of basic pattern drafting. The core work will include drafting garments for each quadrant of the body, creating mock-ups and testing for fit. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR302**Draping I**

Draping I is designed to further the student's understanding of pattern making through the exploration the three dimensional techniques of draping. The core work will include the elements of sculpture through draping, understanding fabrics, creating mock-ups and testing for fit. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR303**Tailoring I**

Tailoring I is an introductory course designed to develop the students skills in the sewing techniques of tailoring. The core work will include a variety of projects that will explore several tailoring techniques both historical and contemporary. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR307**Makeup II**

A full year course in practical application of makeup for makeup majors, costume designers, performers. Includes making wigs and facial hair, styling wigs. Makeup assistance for current productions. Lab and Crew also required. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR308**Makeup II**

A full year course in practical application of makeup for makeup majors, costume designers, performers. Includes making wigs and facial hair, styling wigs. Makeup assistance for current productions. Lab and Crew also required. Prereq: 16THPR307. BoK: FA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Theater Production**16THPR309****Makeup II**

A full year course in practical application of makeup for makeup majors, costume designers, performers. Includes making wigs and facial hair, styling wigs. Makeup assistance for current productions. Lab and Crew also required. Prereq: 16THPR308. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR314**Stage Lighting II**

An introduction to the principles and techniques of stage lighting design for drama, opera, and musical theater productions. Emphasis on developing a design concept for a show, and on mastering basic design skills, including the choice of lighting angles and equipment, layout of area lighting, and selection of color for a show. Simple theoretical light plots augmented by lab work and design assignments for workshop and blackbox productions. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR315**Stage Lighting II**

An introduction to the principles and techniques of stage lighting design for drama, opera, and musical theater productions. Emphasis on developing a design concept for a show, and on mastering basic design skills, including the choice of lighting angles and equipment, layout of area lighting, and selection of color for a show. Simple theoretical light plots augmented by lab work and design assignments for workshop and black box productions. Prereq: 16THPR314. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR316**Stage Lighting II**

An introduction to the principles and techniques of stage lighting design for drama, opera, and musical theater productions. Emphasis on developing design concept for a show, and on mastering basic design skills, including the choice of lighting angles and equipment, layout of area lighting, and selection of color for a show. Simple theoretical light plots augmented by lab work and design assignments for workshop and black box productions. Prereq: 16THPR315. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR317**Stage Lighting III**

Advanced design course for MFA students majoring in theatrical lighting design. Concentration on theoretical and practical design projects design projects for complex drama, opera, and musical theater productions. Weekly tutorial sessions and large scale departmental productions. Prereq: 16THPR316. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR318**Stage Lighting III**

Advanced design course for MFA students majoring in theatrical lighting design. Concentration on theoretical and practical design projects for complex drama, opera, and musical theater productions. Weekly tutorial sessions and large scale departmental productions. Prereq: 16THPR317. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR319**Stage Lighting III**

Advanced design course for BFA students majoring in theatrical lighting design. Concentration on theoretical and practical design projects for complex drama, opera, and musical theater productions. Weekly tutorial sessions and large scale departmental productions. Prereq: 16THPR318. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR324**Stage Management II**

Roundtable discussion of problems facing the lead stage manager on a production. Alternate perspectives to be offered by guest stage managers, directors, designers, and other theatre professionals. Additional study of Actors Equity Association (musicals and dramas) and American Guild of Musical Artists (operas and dance) rulebooks as pertains to running rehearsals and performances. BoK: FA. Credit Level:

Theater Production**16THPR324****Stage Management II**

U. Credit Hrs: 3.00-6.00

16THPR325**Stage Management II**

Continuation of 16 THPR 324. Prereq: 16THPR324. BoK: FA. Credit Level: U. Credit Hrs: 3.00-6.00

16THPR326**Stage Management II**

Continuation of 16 THPR 325. Prereq: 16THPR325. BoK: FA. Credit Level: U. Credit Hrs: 3.00-6.00

16THPR327**Structural Design for the Stage**

This course will provide the theater technician with the foundation in structural design allowing an intuitive understanding of "why sets stand up." It introduces the basics of statics and the strength of materials as they apply to typical scenery. Prereq: 16THPR213. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16THPR328**Structural Design for the Stage**

Continuation of 16THPR327. Prereq: 16THPR213. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16THPR329**Structural Design for the Stage**

Continuation of 16THPR 327, 328. Prereq: 16THPR328. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16THPR331**Technical Production II**

Problem-solving for the theater technician. Specialized construction and rigging techniques, technical production management, cost and time estimates, inventory control, theater safety. BoK: FA., QR. Credit Level: U. Credit Hrs: 3.00

16THPR332**Technical Production II**

Problem-solving for the theater technician. Specialized construction and rigging techniques, technical production management, cost and time estimates, inventory control, theater safety. Prereq: 16THPR331. BoK: FA, QR. Credit Level: U. Credit Hrs: 3.00

16THPR333**Technical Production II**

Problem-solving for the theater technician. Specialized construction and rigging techniques, technical production management, cost and time estimates, inventory control, theater safety. Prereq: 16THPR332. BoK: FA, QR. Credit Level: U. Credit Hrs: 3.00

16THPR339**Sound Design Practicum**

Supervised sound design and assistant assignments for OMDA productions. BoK: FA. Credit Level: U. Credit Hrs: 1.00-4.00

16THPR341**Stage Design I**

Beginning projects explore dramatic space, form, image and theme. Intermediate projects script analysis, period research, and dramatic themes working with sketches, renderings, ground plans, and models. Styles range from simple realism to expressive symbolism. Play, opera, and film scripts are assigned. Guest directors participate. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR342**Stage Design I**

Beginning projects explore dramatic space, form, image and theme. Intermediate projects script analysis, period research, and dramatic themes working with sketches, renderings, ground plans, and models. Styles range from simple realism to expressive symbolism. Play, opera, and film scripts are assigned. Guest directors participate. Prereq:

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Theater Production**16THPR342
Stage Design I**

16THPR341. BoK: FA. Credit Level: U. Credit Hrs: 3.00

**16THPR343
Stage Design I**

Beginning projects explore dramatic space, form, image and theme. Intermediate projects script analysis, period research, and dramatic themes working with sketches, renderings, ground plans, and models. Styles range from simple realism to expressive symbolism. Play, opera, and film scripts are assigned. Guest directors participate. Prereq: 16THPR342. BoK: FA. Credit Level: U. Credit Hrs: 3.00

**16THPR347
Drafting for the Theater II**

Advanced board drafting projects assigned in accordance with student's prior drafting experience and skill level. Group and individual lessons. Actual production drafting projects assigned where feasible. BoK: FA., QR. Credit Level: U. Credit Hrs: 2.00

**16THPR348
Drafting for the Theater II**

Advanced board drafting projects assigned in accordance with student's prior drafting experience and skill level. Group and individual lessons. Actual production drafting projects assigned where feasible. BoK: FA., QR. Credit Level: U. Credit Hrs: 2.00

**16THPR364
Sound Design I**

Sound design course focused on dramatic production including advanced work in script analysis, sound score development, sound effects editing, listening skills, designer documentation and communication skills. Perm of Instructor. BoK: FA. Credit Level: U. Credit Hrs: 3.00

**16THPR365
Sound Design I**

A continuation of training for the sound designer with a focus on reinforcement, musical theatre and recording. Projects will include paper designs with emphasis on clear communication through paperwork, conceptual development of reinforcement systems and practical recording projects. Operation of wireless mic systems and orchestra micing will also be covered along with continued training in critical listening. Prereq: 16THPR364. BoK: FA. Credit Level: U. Credit Hrs: 3.00

**16THPR366
Sound Design I**

A continuation of Sound Design 1a with the emphasis on full length works including American classics and Shakespeare. Designs will be more fully developed with complete paperwork required and practical projects. Advanced work in multi-track playback and digital editing will be included along with continued training in critical listening. Prereq: 16THPR365. BoK: FA. Credit Level: U. Credit Hrs: 3.00

**16THPR374
Pneumatics and Hydraulics**

The study and practical application of mechanical systems for use on stage. This will include the physics behind the designing of stage machinery and the ultimate automation and show control. Prereq: 16THPR213. BoK: FA, QR. Credit Level: U. Credit Hrs: 3.00

**16THPR375
Electrics and Electronics**

Continuation of 16THPR374. Prereq: 16THPR374. BoK: FA, QR. Credit Level: U. Credit Hrs: 3.00

**16THPR376
Motors and Automation**

Continuation of 16THPR374, 375. Prereq: 16THPR375. BoK: FA, QR. Credit Level: U. Credit Hrs: 3.00

Theater Production**16THPR404
PATTERN DRAFTING II**

Pattern Drafting II is a course that is intended to further the student's basic patterning skill set by drafting patterns for bias garments, stretch knit garments and historical garments. Both modern drafting and historical drafting techniques will be introduced. The students will create mock-ups and test fit on both the form and a model. BoK: FA. Credit Level: U. Credit Hrs: 3.00

**16THPR405
Draping II**

Draping II continues exploration of pattern making as sculpture. At this level the student will also be introduced to reading and interpreting renderings, researching historical garments, creating mock-ups and test fit on both the form and a model. BoK: FA. Credit Level: U. Credit Hrs: 3.00

**16THPR406
Tailoring II**

Tailoring II expands both the students construction and patterning skills. The core work will include and in depth study of men's historical patterns and tailoring historical patterns. Pattern development will include mock-ups, test fitting, cutting and tailoring a minimum of one complete men's historical garment. Prerequisites: Tailoring I, Pattern Drafting I, Draping I, Advanced Costume Construction or Permission of Instructor. BoK: FA. Credit Level: U. Credit Hrs: 3.00

**16THPR411
Makeup III**

Advanced study in all aspects of makeup. Approach to rendering. Producing foam latex appliances. Assisting for major productions and possible design of major productions. Lab and Crew. BoK: FA. Credit Level: U. Credit Hrs: 3.00

**16THPR412
Makeup III**

Advanced study in all aspects of makeup. Approach to rendering. Producing foam latex appliances. Assisting for major productions and possible design of major productions. Lab and Crew. BoK: FA. Credit Level: U. Credit Hrs: 3.00

**16THPR413
Makeup III**

Advanced study in all aspects of makeup. Approach to rendering. Producing foam latex appliances. Assisting for major productions and possible design of major productions. Lab and Crew. Prereq: 16THPR412. BoK: FA. Credit Level: U. Credit Hrs: 3.00

**16THPR427
Stage Management III**

Emphasis on communication and management functions of the stage manager during production process, and investigation of Production Stage Manager's responsibilities, including scheduling and budget layout. Pre-requisite: 16 THPR 326; must be taken in sequence. Majors only. BFA by permission only. BoK: FA. Credit Level: U. Credit Hrs: 3.00-6.00

**16THPR428
Stage Management III**

Continuation of 16 THPR 427. BoK: FA. Credit Level: U. Credit Hrs: 3.00-6.00

**16THPR429
Stage Management III**

Continuation of 16 THPR 429. BoK: FA. Credit Level: U. Credit Hrs: 3.00-6.00

**16THPR434
Technical Production III**

Project oriented class for advanced BFA students in Technical Production. Projects may be theoretical research in the areas of new materials and technologies or may be assignments or major responsibility on actual productions. All projects to be accompanied with appropriate documentation. BoK: FA., QR. Credit Level: U. Credit Hrs:

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Theater Production**16THPR434****Technical Production III**

3.00

16THPR435**Technical Production III**

Project oriented class for advanced BFA students in Technical Production. Projects may be theoretical research in the areas of new materials and technologies or may be assignments or major responsibility on actual productions. All projects to be accompanied with appropriate documentation. BoK: FA., QR. Credit Level: U. Credit Hrs: 3.00

16THPR436**Technical Production III**

Project oriented class for advanced BFA students in Technical production. Projects may be theoretical research in the areas of new materials and technologies or may be assignments or major responsibility on actual productions. All projects to be accompanied with appropriate documentation. BoK: FA., QR. Credit Level: U. Credit Hrs: 3.00

16THPR444**Stage Design II**

Advanced stage design projects for opera, musicals, drama, dance, and special presentations. Design of multiple sets explored. Special design assignments of studio or major productions. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR445**Stage Design II**

Advanced stage design projects for opera, musicals, drama, dance, and special presentations. Design of multiple sets explored. Special design assignments of studio or major productions. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR446**Stage Design II**

Advanced stage design projects for opera, musicals, drama, dance, and special presentations. Design of multiple sets explored. Special design assignments of studio or major productions. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR451**Makeup IV**

Continuing advancement in all aspects of makeup. Project on producing foam latex appliances. Design and execution of major productions. Assisting for major productions. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16THPR452**Makeup IV**

Continuing advancement in all aspects of makeup. Project on producing foam latex appliances. Design and execution of major productions. Assisting for major productions. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16THPR453**Makeup IV**

Continuing advancement in all aspects of makeup. Project on producing foam latex appliances. Design and execution of major productions. Assisting for major productions. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16THPR461**Costume Design I**

Emphasis on script and character analysis, research, and production processes as they relate to costume design for contemporary and period plays. Project designing of plays with continued emphasis on figure drawing and rendering techniques. Possible costume design assisting as part of the class. BoK: FA. Credit Level: U. Credit Hrs: 3.00

Theater Production**16THPR462****Costume Design I**

Continuation of 16 THPR 461. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR463**Costume Design I**

Continuation of 16 THPR 463. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR464**Costume Design II**

Project designing for drama, musical theatre, opera and dance with emphasis on character development through costume. Production processes, intermediate rendering techniques, design assisting. Possible design assignments of studio productions may be apart of course work. Production book development, Portfolio Preparation. Prereq: 16THPR463. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR465**Costume Design II**

Continuation of 16 THPR 464. Prereq: 16THPR464. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR466**Costume Design II**

Continuation of 16 THPR 465. Prereq: 16THPR465. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR467**Theater Music Production/Composing for the Theater**

Intended for Sound Design students with a background in music who wish to compose original scores and produce music. Focus on composing and realizing music for the theater, with an emphasis on MIDI systems. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR468**Sound Design II**

This course provides supervision and weekly roundtable discussions of current OMDA production designers and assistant designers. Required for sound majors, this course will focus on the actual realization of designs. Successful completion of this course requires attendance at all production meetings, effective communication with the design/production team and leadership, production of an effective show design and proper documentation. Enrollment is coordinated with production assignments. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR474**Costume Design III**

Advanced projects in designing costumes for drama, opera, musical theatre and dance with emphasis on developing and working within production concepts. Advanced rendering techniques. Possible design assisting. Possible design assignments of studio and/or mainstage productions. Production book development. Portfolio Preparation. Prerequisite: Permission of Instructor. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR475**Costume Design III**

Continuation of 16 THPR 475. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR476**Costume Design III**

Continuation of 16 THPR 475. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16THPR487**Millinery**

Traditional and non-traditional methods of hat making are explored. Lecture/Demonstration format with individual projects. Production assignments as part of class are possible. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Theater Production**16THPR488****Fabric Modification**

The study of fabric modification for the Theatre including painting, dyeing, printing, distressing, color matching, etc. Lecture/Demonstration format with individual projects. Production assignments as part of class are possible. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16THPR489**Masks and Jewelry**

Mask and jewelry making for the Theatre including traditional and non-traditional methods. Lecture/ Demonstration format with individual projects. Production assignments as part of class are possible. BoK: NA. Credit Level: U. Credit Hrs: 3.00

16THPR500**Workshop Practicum**

Practical application of design and technology for workshop productions. May be repeated for credit. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-4.00

16THPR501**Introduction to Sound Design Lab and Crew**

Co-requisite lab and crew for Introduction to Sound Design. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

16THPR508**Stage Design Lab and Crew**

Practical production crew work in the layout, painting, set decoration, and dressing of major opera, musical, and dramatic productions. May be repeated for credit. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16THPR509**Stage Design Lab and Crew**

Practical production crew work in the layout, painting, set decoration, and dressing of major opera, musical, and dramatic productions. May be repeated for credit. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16THPR510**Stage Design Lab and Crew**

Practical production crew work in the layout, painting, set decoration, and dressing of major opera, musical, and dramatic productions. May be repeated for credit. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16THPR511**Digital Audio Lab and Crew**

Co-requisite lab for Digital Audio. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

16THPR518**Stage Lighting Lab and Crew**

Practical production crew work in the execution of the lighting design for major opera, musical theatre, and dramatic productions. May be repeated for credit. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16THPR519**Stage Lighting Lab and Crew**

Practical production crew work in the execution of the lighting design for major opera, musical theatre, and dramatic productions. May be repeated for credit. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16THPR520**Stage Lighting Lab and Crew**

Practical production crew work in the execution of the lighting design for major opera, musical theatre, and dramatic productions. May be repeated for credit. Prereq: 16THPR519. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16THPR521**Theater Lighting Technology I**

In-depth exploration of lighting technology, with emphasis on current static equipment, dimming, power distribution and trouble-shooting in a theatrical environment. Theatrical rigging, special effects, data distribution and low voltage wiring are also presented. Basic theatrical lighting console operation is also offered. Class requires permission of

Theater Production**16THPR521****Theater Lighting Technology I**

instructor. Perm of Instructor. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

16THPR522**Moving Light Programming I**

Training in analogue and digital data, advanced data distribution, an introduction to typical features found in modern intelligent lighting and extensive guided programming time on high-end theatrical lighting consoles. Class requires 16THPR521 and permission of instructor. Perm of Instructor. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

16THPR523**Moving Light Programming II**

Advanced self-guided programming exercises on multiple high-end theatrical lighting consoles. Students will demonstrate a working knowledge and creative approach to using lighting technology in various applications. Class requires 16THPR522 and permission of instructor. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

16THPR531**Vector Works for the Theater**

Basic exploration of CAD (Computer-aided drafting) software with emphasis on current use of basic functions, doing weekly projects requiring exploration and usage of all functions of the program. Topics include basic commands and concepts such as drawing and editing commands, geometric construction, and 2-D drawings. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

16THPR532**Vector Works Advanced**

Advanced exploration of CAD (Computer-aided drafting) with emphasis on traditional theater graphics for lighting and sound. Expanded use of functions; weekly projects requiring exploration and usage of all program functions. Advanced 2D and 3B explorations will be studied, with application for stage light plots. CCM theater facilities will be the basis for projects. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

16THPR533**Digital Portfolios**

A visually-oriented course with emphasis on digital theater portfolios for designers and technicians. Usage of PhotoShop, PowerPoint, Adobe Suite 2, Dream Weaver and web presentational techniques and functions. Basic weekly projects requiring exploration and usage of all functions of the programs. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

16THPR544**Costuming Lab and Crew**

Practical production crew work in the execution of costumes and accessories for major opera, musical theatre and drama productions. May be repeated for credit. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16THPR545**Costuming Lab and Crew**

Continuation of 16 THPR 545. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16THPR546**Costuming Lab and Crew**

Continuation of 16 THPR 545. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16THPR550**Stage Properties**

Assignment as propmaster on major opera, musical, or dramatic production. Construction and painting/decorating of properties from scaled drawings and/or research. Extensive hands-on lab production requirement. Frequent weekly organizational meetings dealing with procedures and organization for borrowing, buying, building, painting, and running of properties. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Theater Production**16THPR551****Technical Production Lab and Crew**

Practicum in construction of stage scenery and assignment to running crews for OMDA productions. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16THPR552**Technical Production Lab and Crew**

Practicum in construction of stage scenery and assignment to running crews for OMDA productions. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16THPR553**Technical Production Lab and Crew**

Practicum in construction of stage scenery and assignment to running crews for OMDA productions. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16THPR560**Independent Study**

In-depth study of a topic related to one of the areas of theatre production, selected by the student in consultation with a member of the faculty. Permission of instructor and Division. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16THPR561**Makeup Lab and Crew**

Training in building and running productions. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16THPR562**Makeup Lab and Crew**

Training in building and running productions. Prereq: 16THPR561. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16THPR563**Makeup Lab and Crew**

Training in building and running productions. Prereq: 16THPR562. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16THPR580**Introduction to Stage Design**

An elementary introduction to the process of set design. Hands-on, project-oriented class. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

16THPR600**Lucca: Workshop Practicum in Theatrical Production**

Technical and artistic creation, preparation, and performance of full-scale productions of two operas from the Italian repertoire. Students will train and execute under an international staff of design, technical, and craft artisans in the areas of scenic, costume, wig/makeup, lighting and production. BoK: FA. Credit Level: U, G. Credit Hrs: 7.00

16THPR660**Special Topics**

Topics established by the area faculty on an as-needed basis. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-6.00

16THPR610**Introduction to Rendering for Stage Design**

Introduction to basic color, rendering and design techniques culminating in simple explorative set designs for dance, drama, and lyric theater. Demonstrations, discussion, assigned projects, field trips, and attendance at live performances. Prereq: 16THPR750. Credit Level: G. Credit Hrs: 3.00

16THPR700**Introduction to Costuming**

An introduction to the process of costume design from the playscript to the production. Critiques and discussions of live performances. Lab and crew requirements. Credit Level: G. Credit Hrs: 3.00

16THPR701**Costume Technology I**

An introduction to millinery, fabric painting/ dyeing, mask and jewelry

Theater Production**16THPR701****Costume Technology I**

making for the stage. Lecture/demonstration format with use of slides and other visual aids. Individual projects with production assignments possible. Credit Level: G. Credit Hrs: 4.00

16THPR702**Costume Construction**

A continuation of costume construction core skill-building. Topics include research and construction of period corsets, 18th century breeches, and 16th to 18th century bodices and skirts. Credit Level: G. Credit Hrs: 4.00

16THPR703**Graduate Costume Shop Management**

This course is designed to develop the Graduate costume student's ability to organize, plan for, and execute all of the information it takes to produce a realized production. Communication and planning skills will be emphasized in both the preliminary and production phase of two contrasting productions through a series of projects designed to develop a skill set that will serve the student as a future professional costume shop manager. Credit Level: G. Credit Hrs: 4.00

16THPR704**Makeup I**

A full-year course for performers, undergraduate makeup majors, costume designers. Covers: bone structure, corrective makeup, age makeup, three dimensional makeup, facial hair, racial makeup, special effects, nonrealistic makeup. Makeup Lab and Crew required for makeup and costume majors. Credit Level: G. Credit Hrs: 3.00

16THPR705**Makeup I**

A full-year course for performers, undergraduate makeup majors, costume designers. Covers: bone structure, corrective makeup, age makeup, three dimensional makeup, facial hair, racial makeup, special effects, nonrealistic makeup. Makeup Lab and Crew required for makeup and costume majors. Credit Level: G. Credit Hrs: 3.00

16THPR706**Makeup I**

A full-year course for performers, undergraduate makeup majors, costume designers. Covers: bone structure, corrective makeup, age makeup, three dimensional makeup, facial hair, racial makeup, special effects, nonrealistic makeup. Makeup Lab and Crew required for makeup and costume majors. Credit Level: G. Credit Hrs: 3.00

16THPR707**Stage Lighting I**

A study of basic electricity and theatrical lighting equipment. Emphasis on the technical aspects of stage lighting, with an introduction to the principles of lighting design. Classes are accompanied by crew assignments. Credit Level: G. Credit Hrs: 3.00

16THPR708**Stage Lighting I**

A study of basic electricity and theatrical lighting equipment. Emphasis on the technical aspects of stage lighting, with an introduction to the principles of lighting design. Classes are accompanied by crew assignments. Credit Level: G. Credit Hrs: 3.00

16THPR709**Stage Lighting I**

A study of basic electricity and theatrical lighting equipment. Emphasis on the technical aspects of stage lighting, with an introduction to the principles of lighting design. Classes are accompanied by crew assignments. Credit Level: G. Credit Hrs: 3.00

16THPR710**Introduction to Makeup**

A one-quarter course for the nonperformer (theatrical designers, directors, stage managers, etc.) oriented toward the study of basic makeup techniques. Classes will cover the following topics: facial anatomy, modeling with paint, corrective makeup, age makeup, three

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Theater Production**16THPR710****Introduction to Makeup**

dimensional makeup, and facial expressions. Credit Level: G. Credit Hrs: 3.00

16THPR711**Technical Production I**

Introduction to technical theater, its tools, construction methods, and rigging techniques. Theoretical classwork supplemented by actual construction of scenery and crew work for theater production. Credit Level: G. Credit Hrs: 3.00

16THPR712**Technical Production I**

Introduction to technical theater, its tools, construction methods, and rigging techniques. Theoretical classwork supplemented by actual construction of scenery and crew work for theater production. Credit Level: G. Credit Hrs: 3.00

16THPR713**Technical Production I**

Introduction to technical theater, its tools, construction methods, and rigging techniques. Theoretical classwork supplemented by actual construction of scenery and crew work for theater production. Credit Level: G. Credit Hrs: 3.00

16THPR714**Rendering for Stage Designers**

Introduction to basic color, rendering and design techniques culminating in simple explorative set designs for dance, drama, and lyric theater. Demonstrations, discussion, assigned projects, field trips, and attendance at live performances. Credit Level: G. Credit Hrs: 3.00

16THPR715**Rendering for Stage Designers**

Introduction to basic color, rendering and design techniques culminating in simple explorative set designs for dance, drama, and lyric theater. Demonstrations, discussion, assigned projects, field trips, and attendance at live performances. Credit Level: G. Credit Hrs: 3.00

16THPR716**Rendering for Stage Designers**

Introduction to basic color, rendering and design techniques culminating in simple explorative set designs for dance, drama, and lyric theater. Demonstrations, discussion, assigned projects, field trips, and attendance at live performances. Credit Level: G. Credit Hrs: 3.00

16THPR718**Drafting Theater I**

Introduction to basic board drafting techniques: line conventions, orthographic and isometric projections, sectioning, floorplan, elevations, and details. Class demonstrations followed by hands-on studio drafting. Drafting homework projects executed outside of class. Credit Level: G. Credit Hrs: 2.00

16THPR719**Drafting Theater I**

Introduction to basic board drafting techniques: line conventions, orthographic and isometric projections, sectioning, floorplan, elevations, and details. Class demonstrations followed by hands-on studio drafting. Drafting homework projects executed outside of class. Credit Level: G. Credit Hrs: 2.00

16THPR720**Introduction to Stage Lighting**

A basic survey of the materials, techniques, and strategies employed in the lighting of a stage production. Practical experience on lighting crews for departmental productions is required. Credit Level: G. Credit Hrs: 3.00

16THPR721**Theater Sound Technology**

Introduction to the technical processes of theater sound production. Acoustics, basic physics of sound, equipment use and terminology will

Theater Production**16THPR721****Theater Sound Technology**

be discussed. Credit Level: G. Credit Hrs: 3.00

16THPR722**Theater Sound Technology Lab and Crew**

Supervised laboratory and production crews assignment. Concurrent registration in 16THPR721. Credit Level: G. Credit Hrs: 2.00

16THPR727**Structural Design for the Stage**

This course will provide the theater technician with the foundation in structural design allowing an intuitive understanding of "why sets stand up." It introduces the basics of statics and the strength of materials as they apply to typical scenery. Prereq: 16THPR713. Credit Level: G. Credit Hrs: 3.00

16THPR728**Structural Design for the Stage**

Continuation of 16THPR 727. Prereq: 16THPR727. Credit Level: G. Credit Hrs: 3.00

16THPR729**Structural Design for the Stage**

Continuation of 16THPR727, 728. Prereq: 16THPR728. Credit Level: G. Credit Hrs: 3.00

16THPR730**Introduction to Theater Sound Technology**

Introduction to the technical processes of theater sound production. Acoustics, basic physics of sound, equipment use and terminology will be discussed. Prereq: 16THPR750. Credit Level: G. Credit Hrs: 3.00

16THPR731**Basic Score Interpretation**

Intended for sound designers, stage managers and lighting designers, this class will teach fundamental/rudimentary musical skills which will enable the theatre practitioner to follow operatic and musical theatre scores. The course will provide basic skills to support cueing and timing of such shows and in communicating with directors and music directors using musical terms. Credit Level: G. Credit Hrs: 3.00

16THPR740**Assistant Stage Management**

One quarter introductory course in stage management for drama, opera, and musical theater. Emphasis on basic assistant stage management skills, including assembling a prompt book, costume & prop tracking, scenic shift plots, deck crew paperwork and professional etiquette. Credit Level: G. Credit Hrs: 3.00

16THPR741**Stage Management I**

Emphasis on practical aspects of organizing auditions, scheduling, running rehearsals, tech, and performances, assembling a working prompt script, taking blocking notation, cueing, conducting production meetings, and calling the show. Prerequisite: 16 THPR 740; must be taken in sequence. Majors only. Credit Level: G. Credit Hrs: 3.00

16THPR742**Stage Management I**

Continuation of 16 THPR 741. Credit Level: G. Credit Hrs: 3.00

16THPR743**Stage Management I**

Continuation of 16 THPR 742. Credit Level: G. Credit Hrs: 3.00

16THPR750**Introduction to Stagecraft**

Introduction to the art and craft of technical theater, its tools, construction methods, and rigging techniques. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Theater Production**16THPR751****Introduction to Stagecraft Lab and Crew**

Practicum in construction of stage scenery and assignment to running crews for major productions. Credit Level: G. Credit Hrs: 0.00-3.00

16THPR754**History of Costume and Pattern Development**

A study of the evolution and development of dress (costume and personal adornment) from pre-history to contemporary time including an examination of the development of patterning, cutting and construction techniques throughout. Credit Level: G. Credit Hrs: 4.00

16THPR755**History of Costume and Pattern Development**

Continuation of 16 THPR 754. Credit Level: G. Credit Hrs: 4.00

16THPR756**History of Costume and Pattern Development**

Continuation of 16 THPR 755. Credit Level: G. Credit Hrs: 4.00

16THPR764**Sound Design I**

Sound design course focused on dramatic production including advanced work in script analysis, sound score development, sound effects editing, listening skills, designers documentation and communication skills. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

16THPR765**Sound Design I**

A continuation of training for the sound designer with a focus on reinforcement, musical theatre and recording. Projects will include paper designs with emphasis on clear communication through paperwork, conceptual development of reinforcement systems and practical recording projects. Operation of wireless mic systems and orchestra micing will also be covered along with continued work in critical listening skills. Prereq: 16THPR764. Credit Level: G. Credit Hrs: 3.00

16THPR766**Sound Design I**

A continuation of Sound Design Ia with emphasis on full length works including American classics and Shakespeare. Designs will be more fully developed with complete paperwork required and practical projects. Advanced work in multi-track playback and digital editing will be included along with continued training in critical listening. Prereq: 16THPR765. Credit Level: G. Credit Hrs: 3.00

16THPR767**Theater Music Production/Composing for the Theater**

Intended for sound design students with a background in music who wish to compose original scores and produce music. Focus on composing and realizing music for the theater, with an emphasis on MIDI systems. Credit Level: G. Credit Hrs: 3.00

16THPR768**Sound Design II**

This course provides supervision and weekly roundtable discussions of current OMDA production designers and assistant designers. Required for sound majors, the course will focus on the actual realization of designs. Successful completion of this course requires attendance at all production meetings, effective communication with the design/production team and leadership, production of an Credit Level: G. Credit Hrs: 3.00

16THPR770**Scene Painting I**

A one quarter course in the basic materials, methods, and techniques of the scenic artist. Scenic layout and the rendering of various textures and surfaces explored through demonstrations and studio practice. Paint clothes required. Credit Level: G. Credit Hrs: 2.00

Theater Production**16THPR771****Digital Audio Systems**

Overview of digital audio systems as applied to the performing arts. Topics covered will include: computer workstations, ProTools software, digital multi-tracks recorders, basic MIDI, minidisc, DAT and compact disc operations. Multimedia production and SFX software may be covered if time permits. Credit Level: G. Credit Hrs: 3.00

16THPR772**Introduction to Sound Design**

An introduction to the principles of sound design in live drama production. Topics will include script analysis for the designer, developing a concept, music research, translating emotions and visual materials into sound and basic paperwork. Credit Level: G. Credit Hrs: 3.00

16THPR773**Sound Production Practicum**

Continuing production credit for students electively serving as sound running crew or as sound operator for OMDA productions. Credit Level: G. Credit Hrs: 1.00-4.00

16THPR774**Pneumatics and Hydraulics**

This study and practical application of mechanical systems for use on stage. This will include the physics behind the designing of state machinery and the ultimate automation and show control. Prereq: 16THPR713. Credit Level: G. Credit Hrs: 3.00

16THPR775**Electrics and Electronics**

Continuation of 16THPR774. Credit Level: G. Credit Hrs: 3.00

16THPR776**Motors and Automation**

Continuation of 16THPR774, 775. Prereq: 16THPR775. Credit Level: G. Credit Hrs: 3.00

16THPR780**Survey of Theatrical Design**

Introduction to the principles and goals of set, costume and makeup, lighting, and sound design for the stage. Lecture format with use of slides and other visual aids. Guest lectures from CCM design and directing faculty. Credit Level: G. Credit Hrs: 3.00

16THPR781**Advanced Character Figure Drawing**

Advanced study of the human body as it relates to characterization, including but not limited to: age, size, proportion, emotion, etc. May be repeated. Permission of instructor. Credit Level: G. Credit Hrs: 4.00

16THPR782**Advanced Costume Rendering**

A further study of media and its application as used in costume rendering. Advanced rendering projects in color texture, fabric/color matching, layout and design of costume plates, etc. May be repeated. Permission of instructor. Credit Level: G. Credit Hrs: 4.00

16THPR801**Pattern Drafting I**

An introductory level course intended to develop the student's understanding of basic pattern drafting. The core work will include drafting garments for each quadrant of the body, creating mock-ups and testing for fit. Prerequisites: Intro to Costume Construction, Costume Construction, Tailoring I or by permission of instructor. Credit Level: G. Credit Hrs: 4.00

16THPR802**Draping I**

Draping I is designed to further the student's understanding of pattern making through the exploration of three-dimensional techniques of draping. The core work will include elements of sculpture through draping, understanding fabrics creating mock-ups and testing for fit. Prereqs: Intro to Costume Construction, Costume Construction, Pattern

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Theater Production**16THPR802****Draping I**

Drafting I or Permission of Instructor. Credit Level: G. Credit Hrs: 4.00

16THPR803**Tailoring I**

Tailoring I is an introductory course designed to develop the students skills in the sewing techniques of tailoring. The core work will include a variety of projects that will explore several tailoring techniques both historical and contemporary. Prerequisites: Intro to Costume Construction, Costume Construction or permission of instructor. Credit Level: G. Credit Hrs: 4.00

16THPR804**Pattern Drafting II**

Pattern drafting II is a course that is intended to further the students' basic pattern skill set by drafting patterns for bias garments, stretch knit garments and historical garments. Both modern drafting techniques will be introduced. The students will create mock-ups and test fit on both the form and a model. Prerequisites: Pattern Drafting I, Costume Construction, or permission of instructor. Credit Level: G. Credit Hrs: 4.00

16THPR805**Draping II**

Draping II continues exploration of pattern making as sculpture. At this level the student will also be introduced to reading and interpreting, rendering, researching historical garments, creating mock-ups and test fit on both the form and a model. Prerequisites: Draping I, Pattern Drafting I or Permission of Instructor. Credit Level: G. Credit Hrs: 4.00

16THPR806**Tailoring II**

Tailoring II expands both the students construction and pattern skills. The core work will include an in depth study of men's historical patterns. Pattern development will include mock-ups, test fitting, cutting and tailoring a minimum of one complete men's historical garment. Prerequisites: Tailoring I, Pattern Drafting I, Draping I, Advanced Costume Construction or permission of instructor. Credit Level: G. Credit Hrs: 4.00

16THPR807**Makeup II**

A full year course in practical application of makeup for makeup majors, costume designers, performers. Includes making wigs and facial hair, styling wigs. Makeup assistance for current productions. Lab and Crew also required. Credit Level: G. Credit Hrs: 4.00

16THPR808**Makeup II**

A full year course in practical application of makeup majors, costume designers, performers. Includes making wigs and facial hair, styling wigs. Makeup assistance for current productions. Lab and Crew also required. Credit Level: G. Credit Hrs: 4.00

16THPR809**Makeup II**

A full year course in practical application of makeup for makeup majors, costume designers, performers. Includes making wigs and facial hair, styling wigs. Makeup assistance for current productions. Lab and Crew also required. Credit Level: G. Credit Hrs: 4.00

16THPR810**Design/Research Project: Stage Costume**

(MFA Thesis) Culmination of graduate student study resulting in a final major design or technology effort with associated research paper and oral defense of project before a selected faculty committee. Credit Level: G. Credit Hrs: 3.00-6.00

16THPR811**Makeup III**

A full year course for Makeup majors, stressing advanced practice in all aspects of makeup. Practical experience in the design and execution of

Theater Production**16THPR811****Makeup III**

makeup and wigs under production circumstances. Credit Level: G. Credit Hrs: 4.00

16THPR812**Makeup III**

A full year course for Makeup majors, stressing advanced practice in all aspects of makeup. Practical experience in the design and execution of makeup and wigs under production circumstances. Credit Level: G. Credit Hrs: 4.00

16THPR813**Makeup III**

A full year course for Makeup majors, stressing advanced practice in all aspects of makeup. Practical experience in the design and execution of makeup and wigs under production circumstances. Credit Level: G. Credit Hrs: 4.00

16THPR814**Stage Lighting II**

An introduction to the principles and techniques of stage lighting design for drama, opera, and musical theater productions. Emphasis on developing design concept for a show, and on mastering basic design skills, including the choice of lighting angles and equipment, layout of area lighting, and selection of color for a show. Simple theoretical light plots augmented by lab work and design assignments for workshop and black box productions. Credit Level: G. Credit Hrs: 3.00

16THPR815**Stage Lighting II**

An introduction to the principles and techniques of stage lighting design for drama, opera, and musical theater productions. Emphasis on developing a design concept for a show, and on mastering basic design skills, including the choice of lighting angles and equipment, layout of area lighting, and selection of color for a show. Simple theoretical light plots augmented by lab work and design assignments for workshop and black box productions. Credit Level: G. Credit Hrs: 3.00

16THPR816**Stage Lighting II**

An introduction to the principles and techniques of stage lighting design for drama, opera, and musical theater productions. Emphasis on developing a design concept for a show, and on mastering basic design skills, including the choice of lighting angles and equipment, layout of area lighting, and selection of color for a show. Simple theoretical light plots augmented by lab work and design assignments for workshop and black box productions. Credit Level: G. Credit Hrs: 3.00

16THPR817**Technical Production Lab and Crew**

Practical production crew work in the execution of designs for opera, musical theater, drama, or dance. May be repeated for credit. Prereq.: Grad. standing. Credit Level: G. Credit Hrs: 3.00

16THPR818**Technical Production Lab and Crew**

Practical production crew work in the execution of designs for opera, musical theater, drama, or dance. May be repeated for credit. Credit Level: G. Credit Hrs: 3.00

16THPR819**Technical Production Lab and crew**

Practical production crew work in the execution of designs for opera, musical theater, drama, or dance. May be repeated for credit. Credit Level: G. Credit Hrs: 3.00

16THPR820**Design/Research Project: Makeup**

Culmination of student study resulting in makeup design for major production, with associated research paper and sketches, and oral presentation and defense of project before selected faculty committee. Credit Level: G. Credit Hrs: 3.00-6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Theater Production**16THPR821****Stage Lighting III**

Advanced design course for MFA students majoring in theatrical lighting design. Concentration on theoretical and practical design projects for complex drama, opera, and musical theater productions. Weekly tutorial sessions and large scale departmental productions. Credit Level: G. Credit Hrs: 6.00

16THPR822**Stage Lighting III**

Advanced design course for MFA students majoring in theatrical lighting design. Concentration on theoretical and practical design projects for complex drama, opera, and musical theater productions. Weekly tutorial sessions and large scale departmental productions. Credit Level: G. Credit Hrs: 6.00

16THPR823**Stage Lighting III**

Advanced design course for MFA students majoring in theatrical lighting design. Concentration on theoretical and practical design projects for complex drama, opera, and musical theater productions. Weekly tutorial sessions and large scale departmental productions. Credit Level: G. Credit Hrs: 6.00

16THPR824**Stage Management II**

Roundtable discussion of problems facing the lead stage manager on a production. Alternate perspectives to be offered by guest stage managers, directors, designers and other theatre professionals. Additional study of Actors Equity Association (musicals and dramas) and American Guild of Musical Artists (operas and dance) rulebooks as pertains to running rehearsals and performances. Credit Level: G. Credit Hrs: 3.00-6.00

16THPR825**Stage Management II**

Continuation of 16 THPR 824. Credit Level: G. Credit Hrs: 3.00-6.00

16THPR826**Stage Management II**

Full year course for MFA students majoring in stage management. Emphasis on practical aspects of organizing auditions, running technical and dress rehearsals, and conducting production meetings, and maintaining a show during a long performance run. Investigation of stage manager's function in touring a show, working on an original script, or in dealing with other theatrical unions. Assignments throughout year as stage manager for small or medium scale departmental productions. Credit Level: G. Credit Hrs: 3.00-6.00

16THPR827**Stage Management III**

Emphasis on communication and management functions of the stage manager during production process, and investigation of Production Stage Manager's responsibilities, including scheduling and budget layout. Pre-requisite of 16 THPR 826; must be taken in sequence. Majors only. BFA by permission only. Credit Level: G. Credit Hrs: 3.00-6.00

16THPR828**Stage Management III**

Continuation of 16 THPR 827. Credit Level: G. Credit Hrs: 3.00-6.00

16THPR829**Stage Management III**

Continuation of 16 THPR 828. Credit Level: G. Credit Hrs: 3.00-6.00

16THPR830**Design/Research Project: Stage Lighting**

Culmination of MFA study resulting in actual lighting design for major theatrical production, as well as documentation of all research and a portfolio presentation of all associated paperwork, including written script analysis, design concept, cue synopsis, instrument schedules, hook-up and repatch sheets, stage lighting section, and front-of-house

Theater Production**16THPR830****Design/Research Project: Stage Lighting**

and backstage lighting plots. Final oral presentation and defense of the design concept and execution. Credit Level: G. Credit Hrs: 3.00-6.00

16THPR831**Technical Production II**

Problem-solving for the theater technician. Specialized construction and rigging techniques, technical production management, cost and time estimates, inventory control, theater safety. Credit Level: G. Credit Hrs: 3.00

16THPR832**Technical Production II**

Problem-solving for the theater technician. Specialized construction and rigging techniques, technical production management, cost and time estimates, inventory control, theater safety. Credit Level: G. Credit Hrs: 3.00

16THPR833**Technical Production II**

Problem-solving for the theater technician. Specialized construction and rigging techniques, technical production management, cost and time estimates, inventory control, theater safety. Credit Level: G. Credit Hrs: 3.00

16THPR834**Technical Production III**

Project oriented class for second year MFA candidates in Technical Production. Projects may be theoretical research in the areas of new materials and technologies or may be assignments of major responsibility on actual productions. All projects to be accompanied with appropriate documentation. Credit Level: G. Credit Hrs: 3.00

16THPR835**Technical Production III**

Project oriented class for second year MFA candidates in Technical Production. Projects may be theoretical research in the areas of new materials and technologies or may be assignments of major responsibility on actual productions. All projects to be accompanied with appropriate documentation. Prereq: 16THPR834. Credit Level: G. Credit Hrs: 3.00

16THPR836**Technical Production III**

Project oriented class for second year MFA candidates in Technical Production. Projects may be theoretical research in the areas of new materials and technologies or may be assignments of major responsibility on actual productions. All projects to be accompanied with appropriate documentation. Credit Level: G. Credit Hrs: 3.00

16THPR838**Stage Lighting IV**

Course designed for the second year MFA lighting design student with an emphasis on large scaled theatrical productions as well as on union exam preparation. Credit Level: G. Credit Hrs: 6.00

16THPR839**Sound Design Practicum**

Supervised sound design and assistant assignments for OMDA productions. Credit Level: G. Credit Hrs: 1.00-4.00

16THPR840**Production Research Project: Stage Management**

Culmination of study for MFA candidate in Stage Management. Project includes production assignments Stage Manager to large scale opera or musical theater production, along with all associated paperwork, a production journal, a working prompt book during the show, and a finished production book after the fact. Work will culminate with an oral presentation and defense of the organizational and administrative techniques used in the production. Credit Level: G. Credit Hrs: 3.00-6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Theater Production**16THPR841****Stage Design I**

Beginning projects explore dramatic space, form, image and theme. Intermediate projects script analysis, period research, and dramatic themes working with sketches, renderings, ground plans, and models. Styles range from simple realism to expressive symbolism. Play, opera, and film scripts are assigned. Guest directors participate. Credit Level: G. Credit Hrs: 3.00

16THPR842**Stage Design I**

Beginning projects explore dramatic space, form, image and theme. Intermediate projects script analysis, period research, and dramatic themes working with sketches, renderings, ground plans, and models. Styles range from simple realism to expressive symbolism. Play, opera, and film scripts are assigned. Guest directors participate. Credit Level: G. Credit Hrs: 3.00

16THPR843**Stage Design I**

Beginning projects explore dramatic space, form, image and theme. Intermediate projects script analysis, period research, and dramatic themes working with sketches, renderings, ground plans, and models. Styles range from simple realism to expressive symbolism. Play, opera, and film scripts are assigned. Guest directors participate. Credit Level: G. Credit Hrs: 3.00

16THPR844**Stage Design II**

Advanced stage design projects for opera, musicals, drama, dance, and special presentations. Design of multiple sets explored. Special design assignments of studio or major productions. Credit Level: G. Credit Hrs: 3.00

16THPR845**Stage Design II**

Advanced stage design projects for opera, musicals, drama, dance, and special presentations. Design of multiple sets explored. Special design assignments of studio or major productions. Credit Level: G. Credit Hrs: 3.00

16THPR846**Stage Design II**

Advanced stage design projects for opera, musicals, drama, dance, and special presentations. Design of multiple sets explored. Special design assignments of studio or major productions. Credit Level: G. Credit Hrs: 3.00

16THPR847**Drafting for the Theater II**

Advanced board drafting projects assigned in accordance with student's prior drafting experience and skill level. Group and individual lessons. Actual production drafting projects assigned where feasible. Credit Level: G. Credit Hrs: 2.00

16THPR848**Drafting for the Theater II**

Advanced board drafting projects assigned in accordance with student's prior drafting experience and skill level. Group and individual lessons. Actual production drafting projects assigned where feasible. Credit Level: G. Credit Hrs: 2.00

16THPR849**Drafting for the Theater III**

Advanced drafting projects assigned per individual student needs and current production assignments. Prereq: 16THPR848. Credit Level: G. Credit Hrs: 2.00

16THPR850**Drafting Theater III**

Advanced drafting projects assigned per individual student needs and current production assignments. Prereq: 16THPR849. Credit Level: G. Credit Hrs: 2.00

Theater Production**16THPR851****Makeup IV**

Continuing advancement in all aspects of makeup. Project on producing foam latex appliances. Design and execution of major productions. Assisting for major productions. Credit Level: G. Credit Hrs: 4.00

16THPR852**Makeup IV**

Continuing advancement in all aspects of makeup. Project on producing foam latex appliances. Design and execution of major productions. Assisting for major productions. Credit Level: G. Credit Hrs: 4.00

16THPR853**Makeup IV**

Continuing advancement in all aspects of makeup. Project on producing foam latex appliances. Design and execution of major productions. Assisting for major productions. Credit Level: G. Credit Hrs: 4.00

16THPR854**Graduate Sound Seminar I**

Graduate level course involving weekly updates on design/production issues, operation of the sound department and presentation on equipment or special techniques. Designs will be presented and critiqued. Load ins, strikes and troubleshooting of systems for all main stage productions will provide practical experience with sound system operations. Guest artists will be invited to meet with students whenever possible and onsite visits will be arranged to provide professional contacts and experience. Credit Level: G. Credit Hrs: 3.00

16THPR855**Graduate Sound Seminar I**

A continuation of 16THPR854. Credit Level: G. Credit Hrs: 3.00

16THPR856**Graduate Sound Seminar I**

A continuation of 16THPR855. Credit Level: G. Credit Hrs: 3.00

16THPR857**Graduate Sound Seminar II**

A continuation of 16THPR856. Credit Level: G. Credit Hrs: 3.00

16THPR858**Graduate Sound Seminar II**

A continuation of 16THPR857. Credit Level: G. Credit Hrs: 3.00

16THPR859**Graduate Sound Seminar II**

A continuation of 16THPR858. Credit Level: G. Credit Hrs: 3.00

16THPR860**Production/Research Project: Technical Production**

Culmination of student study resulting in technical direction of a major production with associated portfolio of construction drawings and other appropriate documentation. An oral presentation and defense of the methods, techniques, and materials used will be presented to a committee of selected faculty. Credit Level: G. Credit Hrs: 3.00-6.00

16THPR861**Costume Design I**

History of costume from prehistoric times to contemporary society integrated with selected period costume design projects from dramatic literature. Emphasis on research, design basics, figure drawing, and beginning rendering. Credit Level: G. Credit Hrs: 4.00

16THPR862**Costume Design I**

Continuation of 16 THPR 861. Credit Level: G. Credit Hrs: 4.00

16THPR863**Costume Design I**

Continuation of 16 THPR 862. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Theater Production**16THPR864****Costume Design II**

Project designing for drama, musical theatre, opera and dance with emphasis on character development through costume. Production processes, intermediate rendering techniques, design assisting. Possible design assignments of studio productions may be apart of course work. Production book development. Portfolio Preparation Credit Level: G. Credit Hrs: 4.00

16THPR865**Costume Design II**

Continuation of 16 THPR 864. Prereq: 16THPR864. Credit Level: G. Credit Hrs: 4.00

16THPR866**Costume Design II**

Continuation of 16 THPR 865. Credit Level: G. Credit Hrs: 4.00

16THPR867**Costume Design III**

Advanced projects in designing costumes for drama, opera, musical theater, and dance with emphasis on developing production concepts. Advanced rendering techniques, design assisting. Possible design assignments. Credit Level: G. Credit Hrs: 4.00

16THPR868**Costume Design III**

Advanced projects in designing costumes for drama, opera, musical theater, and dance with emphasis on developing production concepts. Advanced rendering techniques, design assisting. Possible design assignments. Credit Level: G. Credit Hrs: 4.00

16THPR869**Costume Design III**

Advanced projects in designing costumes for drama, opera, musical theater, and dance with emphasis on developing production concepts. Advanced rendering techniques, design assisting. Credit Level: G. Credit Hrs: 4.00

16THPR870**Stage Design for Directors**

Directors will interact from their perspective with advanced design projects created by design majors -- a necessary area of understanding for both. Credit Level: G. Credit Hrs: 3.00

16THPR871**Stage Design Lab and Crew**

Practical production crew work in the layout, painting, set decoration, and dressing of major opera, musical, and dramatic productions. May be repeated for credit. Credit Level: G. Credit Hrs: 2.00

16THPR872**Stage Design Lab and Crew**

Practical production crew work in the layout, painting, set decoration, and dressing of major opera, musical and dramatic productions. May be repeated for credit. Credit Level: G. Credit Hrs: 2.00

16THPR873**Stage Design Lab and Crew**

Practical production crew work in the layout, painting, set decoration, and dressing of major opera, musical, and dramatic productions. May be repeated for credit. Credit Level: G. Credit Hrs: 2.00

16THPR874**Design/Research Project in Sound Design**

Design and implementation of a fully realized main stage OMDA production including a monograph detailing the process. Credit Level: G. Credit Hrs: 6.00

16THPR877**Makeup V**

Emphasis on advanced design of major production. Advanced rendering techniques. Portfolio preparation. Design/Research Project. Credit Level: G. Credit Hrs: 4.00

Theater Production**16THPR878****Makeup V**

Emphasis on advanced design of major production. Advanced rendering techniques. Portfolio preparation. Design/Research Project. Credit Level: G. Credit Hrs: 4.00

16THPR879**Makeup V**

Emphasis on advanced design of major production. Advanced rendering techniques. Portfolio preparation. Design/Research Project. Credit Level: G. Credit Hrs: 4.00

16THPR880**Scene Painting II**

A one quarter course in the painting of intermediate level projects from scaled elevations. Rendering of mouldings, paneling, drapery, three dimensional objects, foliage, and landscapes in studio. Paint clothes required. Credit Level: G. Credit Hrs: 2.00

16THPR881**Design Research Project: Stage Design**

The culminating research, design, and execution in project form (for actual production assignment) of all necessary sketches, renderings, models, working drawings, and paint elevations, plus property sketches or drawings, fabric and upholstery samples, for an opera, musical, or drama of sufficient aesthetic value and weight as determined by instructor. Project shall be accompanied by a written argument of the conceptualization approach. Project will be Credit Level: G. Credit Hrs: 3.00-6.00

16THPR882**Advanced Costume Crafts**

Advanced studies and projects in costume crafts. Topics may include millinery, fabric modification, masks, jewelry, fabric manipulation, etc. Non- traditional materials and techniques may be investigated. Production assignments as part of class may be possible. Offered every quarter. May be repeated. Permission of instructor. Credit Level: G. Credit Hrs: 4.00

16THPR883**Draping III**

Draping III is an advanced patterning course designed to introduce the student to the leadership skills that are required of a professional draper. The student draper will be assigned an appropriate collection of garments to create patterns for one or more realized productions during that quarter. The student draper will be expected to create patterns, organize and lead an assigned team of assistants through the production of the assigned garments from start to finish. Prerequisites: Draping II, Pattern Draping II. Pre/Co-requisite: Advanced Costume Construction or permission of instructor. Credit Level: G. Credit Hrs: 4.00

16THPR884**Pattern Drafting III**

Pattern Drafting III is an advanced patterning course designed to further the student's skills by introducing the element of full realized production deadlines. The advanced student will be assigned an appropriate collection of garments to pattern and construct for one or more realized productions during that quarter. Prerequisites: Pattern Drafting II, Draping II, Tailoring II. Pre/Co-requisite: Advanced Costume Construction or permission of instructor. Credit Level: G. Credit Hrs: 4.00

16THPR885**Tailoring III**

The core work will include an in depth study of men's historical coats and vest, creating historical patterns and tailoring historical patterns. Pattern development will include mock- ups, test fitting, cutting and tailoring a minimum of one complete men's historical garment. Prerequisites: tailoring II, Pattern Drafting II, Draping II, Advanced Costume Construction or Permission of Instructor. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Theater Production**16THPR886****Advanced Costume Construction**

Advanced Costume Construction is a continuation of core construction techniques including cutting and fabric preparation. Topics will include historical garments, specialty garments, and non-traditional garments as production requirements allow. This course will include realized production projects as well as class study. May be repeated. Permission of instructor. Prerequisites: Costume construction or by permission of instructor. Credit Level: G. Credit Hrs: 4.00

16THPR887**Millinery**

Traditional and non-traditional methods of hat making are explored. Lecture/Demonstration format with individual projects. Production assignments as part of class are possible. Credit Level: G. Credit Hrs: 4.00

16THPR888**Fabric Modification**

The study of fabric modification for the Theatre including painting, dyeing, printing, distressing, color matching, etc. Lecture/Demonstration format with individual projects. Production assignments as a part of the class are possible. Credit Level: G. Credit Hrs: 4.00

16THPR889**Masks and Jewelry**

Mask and jewelry making for the Theatre including traditional and non-traditional methods. Lecture/ Demonstration format with individual projects. Production assignments as part of class are possible. Credit Level: G. Credit Hrs: 4.00

16THPR890**Theater Design and Production Co-op**

A professional internship for graduate students working with professional regional theater, ballet, operas, entertainment production facilities and architectural companies for advanced experience. The experience will vary depending on abilities of the candidate and length of involvement and must be supervised by a member of the TD&P faculty. Credit Level: G. Credit Hrs: 1.00-12.00

16THPR891**Costume Design IV**

Realized production design for Operas, Musicals or Plays. Permission of Instructor. Credit Level: G. Credit Hrs: 4.00

16THPR892**Costume Design IV**

Continuation of 16 THPR 891. Credit Level: G. Credit Hrs: 4.00

16THPR893**Costume Design IV**

Continuation of 16 THPR 892. Credit Level: G. Credit Hrs: 4.00

16THPR899**Master's Candidacy**

Retention of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

Trombone**16TRB100****Trombone Major Study**

Technical requirements: development of embouchure, breathing, staccato and legato tonguing; tenor clef reading. Arban and Cornette methods; Bordogni-Rochut Melodious Etudes, Vol. I., Mantia The Trombone Virtuoso. Paris Conservatoire solo material by Barat, de la Nux, Busser, Croce-Spinelli, and others of comparable difficulty. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16TRB110**Trombone Concentration**

First-year study for trombone students in the B.A. program in music. BoK: FA. Credit Level: U. Credit Hrs: 2.00

Trombone**16TRB120****Trombone Secondary**

First-year secondary study in trombone as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16TRB200**Trombone Major Study**

Technical requirements: continuation of tenor clef and introduction of alto clef reading. Continuation of Bordogni-Rochut and Mantia studies; clef studies by Blazevitch, Stefaniszin; LaFosse -- School for Sight-Reading, Vol. A-B, Kopprasch -- Selected Studies, Vol. I. Solo material from Solo Book No. 1 (E. Glover), Paris Conservatoire solos by Busser, Pfeiffer, and Saint-Saens; Galliard -- Six Sonatas, Blazevitch -- Concert Piece No. 5 and works of comparable difficulty. Passages from the orchestral repertoire. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16TRB210**Trombone Concentration**

Second-year study for trombone students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16TRB220**Trombone Secondary**

Second-year secondary study in trombone as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16TRB300**Trombone Major Study**

Continuation of clef studies; LaFosse, Vol. C-E, Bordogni-Rochut -- Melodious Etudes, Vol. II, Kopprasch -- Selected Studies, Vol. II, Vobaron -- 34 Etudes, Aaron Harris -- Method, Vol. II, Kreutzer-Schaefer -- 10 Etudes. Solo material from Solo Book No. 2 (E. Glover), solos by Guilment, Gaubert, Bozza, Boutry, and other French composers; Marcello -- Cello Sonatas, Handel-LaFosse -- Concerto in F Minor, Hindemith -- Sonata, and works of comparable difficulty. Passages from the orchestral repertoire. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16TRB310**Trombone Concentration**

Third-year study for trombone students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16TRB320**Trombone Secondary**

Third-year secondary study in trombone as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16TRB400**Trombone Major Study**

LaFosse -- Advanced Method, Vol. II, Bordogni-Rochut -- Melodious Etudes, Vol. III, Blazevitch -- Sequences. Etudes by Bitsch, Bozza, Boutry, and Pichaureau. Bach-LaFosse -- Suites for Unaccompanied Violoncello; solos by Defay, Berghmams, Salzedo, and Tomasi. Creston -- Fantasy, Bloch -- Symphony, Takacs Sonata, Martin -- Ballade, Corelli-Gibson -- Sonata in D Minor, and works of comparable difficulty. Passages from the orchestral repertoire. Preparation of Senior Recital. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16TRB410**Trombone Concentration**

Fourth-year study for trombone students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16TRB420**Trombone Secondary**

Fourth-year secondary study in trombone as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Trombone**16TRB500****Trombone Major**

Additional study for undergraduate trombone majors who have completed the basic degree requirements; offered for undergraduate and graduate trombone majors during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16TRB510**Trombone Concentration**

Additional study in trombone for undergraduate students at the concentration level who have completed the basic degree requirements; offered to all concentration level trombone students during the Summer Session, depending on faculty availability. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16TRB530**Trombone Elective**

Nonrequired private study in trombone; requires permission of the department and the college. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-2.00

16TRB531**Trombone Pedagogy**

A study of the techniques involved in teaching applied trombone lessons. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16TRB560**Independent Study**

In-depth study of a topic related to the trombone, selected by the student in consultation with a member of the faculty. Permission of instructor and Division. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16TRB570**Trombone Orchestral Repertoire**

Survey of prominent excerpts for trombone. Students play excerpts in a section format and discuss issues such as style, articulation, and intonation. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16TRB680**Trombone Choir**

A homogeneous ensemble of trombones designed to prepare and perform literature for eight or more players. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16TRB800**Trombone Graduate Major Study**

Preparation of two recital programs, one to be performed in public. Repertoire of a high level of difficulty suited to the needs of the individual student. Passages from the orchestral repertoire. Credit Level: G. Credit Hrs: 4.00

16TRB810**Trombone Concentration**

Master's level study for students accepted for a cognate in trombone performance. Credit Level: G. Credit Hrs: 2.00

16TRB820**Trombone Secondary**

Secondary study in trombone for master's degree students. Credit Level: G. Credit Hrs: 1.00

16TRB850**Artist Diploma in Trombone**

First-year major study in trombone for students accepted into the artist diploma program. Credit Level: G. Credit Hrs: 6.00

16TRB855**Artist Diploma Recital**

Public performance by an artist diploma student in trombone of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 2.00

Trombone**16TRB880****Master Recital**

Public performance by a master's degree student in trombone of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 1.00-2.00

16TRB895**Practicum**

Practical experience in the professional world. Credit Level: G. Credit Hrs: 1.00

16TRB899**Master's Candidacy**

Retainment of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

16TRB900**Trombone Doctoral Major Study**

Selected studies for continued refinement of previous skills. Repertoire to be selected from works of advanced technical difficulty. Preparation of required doctoral recitals. Credit Level: G. Credit Hrs: 4.00

16TRB910**Trombone Concentration**

Doctoral level study for students accepted for a cognate in trombone performance. Credit Level: G. Credit Hrs: 2.00

16TRB920**Trombone Secondary**

Secondary study in trombone for doctoral level students. Credit Level: G. Credit Hrs: 1.00

16TRB930**Trombone Elective**

Nonrequired private study in trombone for doctoral students; requires permission of the department and the college. Credit Level: G. Credit Hrs: 1.00-2.00

16TRB950**Artist Diploma in Trombone**

Second-year major study in trombone for students accepted into the artist diploma program. Credit Level: G. Credit Hrs: 6.00

16TRB960**Trombone Concerto**

Public performance of a concerto with one of the major performing ensembles. Credit Level: G. Credit Hrs: 2.00

16TRB970**Doctoral Recital**

Public performance by a doctoral student in trombone of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16TRB980**Lecture Recital**

Combined public lecture and performance of a selected topic in the trombone repertoire; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16TRB990**DMA Document**

Research and preparation of the final written project for the DMA degree in trombone; topic to be approved and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-15.00

Trumpet**16TRP100****Trumpet Major Study**

Technical material: selected studies from Arban -- Conservatory Method, studies by Clarke, Hering, Schlossberg; transposition studies by Williams and Sachse. Passages from the orchestral repertoire; solos by Balay, Barat, Goeyens, Ropartz, and others. BoK: FA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Trumpet**16TRP110****Trumpet Concentration**

First-year study for trumpet students in the B.A. program in music. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16TRP120**Trumpet Secondary**

First-year secondary study in trumpet as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16TRP200**Trumpet Major Study**

Continuation of studies from Arban -- Conservatory Method, studies by Brandt, Balay, Laurent, and Maxime-Alphonse, transposition studies by Williams, Sachse, and Bordogni. Passages from the orchestral repertoire; solos by Bozza, Dallier, Goedicke, HuŌ, and others. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16TRP210**Trumpet Concentration**

Second-year study for trumpet students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16TRP220**Trumpet Secondary**

Second-year secondary study in trumpet as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16TRP300**Trumpet Major Study**

Continuation of transposition studies and orchestral passages. Etudes by Chaliŕ; solo material by Latham, Kennan, Riisager, Hindemith, Stevens and others. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16TRP310**Trumpet Concentration**

Third-year study for trumpet students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16TRP320**Trumpet Secondary**

Third-year secondary study in trumpet as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16TRP400**Trumpet Major Study**

Continuation of orchestral excerpts. Etudes by Bitsch, Bozza, and Tomasi; solo material by Casterade, Wal-Berg, Bohrnstedt, Telemann, Honegger, and others. Preparation of Senior Recital. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16TRP410**Trumpet Concentration**

Fourth-year study for trumpet students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16TRP420**Trumpet Secondary**

Fourth-year secondary study in trumpet as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16TRP500**Trumpet Major**

Additional study for undergraduate trumpet majors who have completed the basic degree requirements; offered for undergraduate and graduate trumpet majors during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16TRP510**Trumpet Concentration**

Additional study in trumpet for undergraduate students at the concentration level who have completed the basic degree requirements;

Trumpet**16TRP510****Trumpet Concentration**

offered to all concentration level trumpet students during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16TRP530**Trumpet Elective**

Nonrequired private study in trumpet; requires permission of the department and the college. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-2.00

16TRP560**Independent Study**

In-depth study of a topic related to the trumpet, selected by the student in consultation with a member of the faculty. Permission of instructor and Division. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16TRP570**Trumpet Orchestral Excerpt Class**

Prepares students for a career as an orchestral musician through the study of major orchestral repertoire for trumpet. Style, blend, and ensemble are stressed, along with listening and score study. Mock auditions are integral to the class. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16TRP670**Trumpet Ensembles**

Intense study of trumpet chamber music and orchestral repertoire in a small group setting. Periodically, groups combine to perform larger pieces. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-1.00

16TRP800**Trumpet Graduate Major Study**

Requirements are: One public recital of advanced difficulty, accompanied Solo Board Exam, and Board Exam of 30 Orchestral Excerpts. Credit Level: G. Credit Hrs: 4.00

16TRP810**Trumpet Concentration**

Master's level study for students accepted for a cognate in trumpet performance. Credit Level: G. Credit Hrs: 2.00

16TRP820**Trumpet Secondary**

Secondary study in trumpet for master's degree students. Credit Level: G. Credit Hrs: 1.00

16TRP831**Trumpet Repertoire and Pedagogy I**

A chronological survey of the trumpet, its history and methodology; class projects include research, notebook compilation and presentations for studio class. Credit Level: G. Credit Hrs: 2.00

16TRP832**Trumpet Repertoire and Pedagogy II**

Trumpet Repertoire and Pedagogy II. Continuation of 16-724-831. Prereq: 16TRP831. Credit Level: G. Credit Hrs: 2.00

16TRP850**Artist Diploma in Trumpet**

First-year major study in trumpet for students accepted into the artist diploma program. Credit Level: G. Credit Hrs: 6.00

16TRP855**Artist Diploma Recital**

Public performance by an artist diploma student in trumpet of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 2.00

16TRP880**Master Recital**

Public performance by a master's degree student in trumpet of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 1.00-2.00

H=University Honors course.

Trumpet**16TRP895****Practicum**

Practical experience in the professional world. Credit Level: G. Credit Hrs: 1.00

16TRP899**Master's Candidacy**

Retainment of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

16TRP900**Trumpet Doctoral Major Study**

Selected studies for continued refinement of previous skills. Repertoire to be selected from works of advanced technical difficulty. Preparation of required doctoral recitals. Credit Level: G. Credit Hrs: 4.00

16TRP910**Trumpet Concentration**

Doctoral level study for students accepted for a cognate in trumpet performance. Credit Level: G. Credit Hrs: 2.00

16TRP920**Trumpet Secondary**

Secondary study in trumpet for doctoral level students. Credit Level: G. Credit Hrs: 1.00

16TRP930**Trumpet Elective**

Nonrequired private study in trumpet for doctoral students; requires permission of the department and the college. Credit Level: G. Credit Hrs: 1.00-2.00

16TRP950**Artist Diploma in Trumpet**

Second-year major study in trumpet for students accepted into the artist diploma program. Credit Level: G. Credit Hrs: 6.00

16TRP960**Trumpet Concerto**

Public performance of a concerto with one of the major performing ensembles. Credit Level: G. Credit Hrs: 2.00

16TRP970**Doctoral Recital**

Public performance by a doctoral student in trumpet of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16TRP980**Lecture Recital**

Combined public lecture and performance of a selected topic in the trumpet repertoire; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16TRP990**DMA Document**

Research and preparation of the final written project for the DMA degree in trumpet; topic to be approved and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-15.00

Tuba**16TUBA100****Tuba Major Study**

Technical requirements: study of major and minor scales; selected studies for the refinement of basic techniques. Orchestral and band repertoire. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16TUBA110**Tuba Concentration**

First-year study for tuba students in the B.A. program in music. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16TUBA120**Tuba Secondary**

First-year secondary study in tuba as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

Tuba**16TUBA120****Tuba Secondary**

First-year secondary study in tuba as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16TUBA200**Tuba Major Study**

Further advanced technical studies and compositions for the instrument covering different styles. Continuation of orchestral and band repertoire. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16TUBA210**Tuba Concentration**

Second-year study for tuba students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16TUBA220**Tuba Secondary**

Second-year secondary study in tuba as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16TUBA300**Tuba Major Study**

Continuation of 16TUBA200. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16TUBA310**Tuba Concentration**

Third-year study for tuba students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16TUBA320**Tuba Secondary**

Third-year secondary study in tuba as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16TUBA400**Tuba Major Study**

Advanced technical studies. Continuation of orchestral and band repertoire. Preparation of Senior Recital including compositions of different styles. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16TUBA410**Tuba Concentration**

Fourth-year study for tuba students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16TUBA420**Tuba Secondary**

Fourth-year secondary study in tuba as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16TUBA500**Tuba Major**

Additional study for undergraduate tuba majors who have completed the basic degree requirements; offered for undergraduate and graduate tuba majors during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16TUBA510**Tuba Concentration**

Additional study in tuba for undergraduate students at the concentration level who have completed the basic degree requirements; offered to all concentration level tuba students during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

Public performance by a doctoral student in viola of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16VLA980**Lecture Recital**

Combined public lecture and performance of a selected topic in the viola repertoire; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16VLA990**DMA Document**

Research and preparation of the final written project for the DMA degree in viola; topic to be approved and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-15.00

Violin**16VLN100****Violin Major Study**

Technical facility in scales, arpeggios, and violin studies. Sonatas and concerti of the Baroque, Classical, or Romantic repertoire. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16VLN110**Violin Concentration**

First-year study for violin students in the B.A. program in music. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16VLN120**Violin Secondary**

First-year secondary study in violin as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16VLN200**Violin Major Study**

Violin studies. Baroque, Classical, and Romantic concerti and sonatas, and other compositions for the instrument. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16VLN210**Violin Concentration**

Second-year study for violin students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

Violin**16VLN220****Violin Secondary**

Second-year secondary study in violin as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16VLN300**Violin Major Study**

Violin studies, Baroque, Classical, and Romantic concerti, sonatas, and other compositions for the instrument. Contemporary music and pieces from the Chamber Music Literature. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16VLN310**Violin Concentration**

Third-year study for violin students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16VLN320**Violin Secondary**

Third-year secondary study in violin as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16VLN400**Violin Major Study**

Advanced technical studies. Preparation of Senior Recital including compositions of all major styles. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16VLN410**Violin Concentration**

Fourth-year study for violin students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16VLN420**Violin Secondary**

Fourth-year secondary study in violin as required for specific majors. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16VLN500**Violin Major**

Additional study for undergraduate violin majors who have completed the basic degree requirements; offered for undergraduate and graduate violin majors during the Summer Session, depending on faculty availability. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16VLN510**Violin Concentration**

Additional study in violin for undergraduate students at the concentration level who have completed the basic degree requirements; offered to all concentration level violin students during the Summer Session, depending on faculty availability. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16VLN530**Violin Elective**

Nonrequired private study in violin; requires permission of the department and the college. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-2.00

16VLN531**String Pedagogy**

Basic principles of string pedagogy, including standard etude literature. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16VLN532**String Pedagogy**

Basic principles of string pedagogy, including standard etude literature. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16VLN533**String Pedagogy**

Basic principles of string pedagogy, including standard etude literature. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Violin**16VLN541****String Repertoire**

Survey of basic solo string repertoire. Area majors only. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16VLN542**String Repertoire**

Survey of the basic solo string repertoire. Area majors only. Prereq: 16VLN541. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16VLN543**String Repertoire**

Survey of basic solo string repertoire. Area majors only. Prereq: 16VLN542. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16VLN560**Independent Study**

In-depth study of a topic related to the violin, selected by the student in consultation with a member of the faculty. Permission of instructor and Division. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16VLN800**Violin Graduate Major Study**

Preparation of two recital programs, one to be performed in public. Graduate repertoire includes the major violin literature in all major styles and some chamber music. Credit Level: G. Credit Hrs: 4.00

16VLN810**Violin Concentration**

Master's level study for students accepted for a cognate in violin performance. Credit Level: G. Credit Hrs: 2.00

16VLN820**Violin Secondary**

Secondary study in violin for master's degree students. Credit Level: G. Credit Hrs: 1.00

16VLN850**Artist Diploma in Violin**

First-year major study in violin for students accepted into the artist diploma program. Credit Level: G. Credit Hrs: 6.00

16VLN855**Artist Diploma Recital**

Public performance by an artist diploma student in violin of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 2.00

16VLN880**Master Recital**

Public performance by a master's degree student in violin of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 1.00-2.00

16VLN895**Practicum**

Practical experience in the professional world. Credit Level: G. Credit Hrs: 1.00

16VLN899**Master's Candidacy**

Retainment of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

16VLN900**Violin Doctoral Major Study**

Selected studies for continued refinement of previous skills. Repertoire to be selected from works of advanced technical difficulty. Preparation of required doctoral recitals. Credit Level: G. Credit Hrs: 4.00

16VLN910**Violin Concentration**

Doctoral level study for students accepted for a cognate in violin performance. Credit Level: G. Credit Hrs: 2.00

Violin**16VLN920****Violin Secondary**

Secondary study in violin for doctoral level students. Credit Level: G. Credit Hrs: 1.00

16VLN930**Violin Elective**

Nonrequired private study in violin for doctoral students; requires permission of the department and the college. Credit Level: G. Credit Hrs: 1.00-2.00

16VLN950**Artist Diploma in Violin**

Second-year major study in violin for students accepted into the artist diploma program. Credit Level: G. Credit Hrs: 6.00

16VLN960**Violin Concerto**

Public performance of a concerto with one of the major performing ensembles. Credit Level: G. Credit Hrs: 2.00

16VLN970**Doctoral Recital**

Public performance by a doctoral student in violin of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16VLN980**Lecture Recital**

Combined public lecture and performance of a selected topic in the violin repertoire; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16VLN990**DMA Document**

Research and preparation of the final written project for the DMA degree in violin; topic to be approved and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-15.00

Voice**16VOIC100****Voice Major Study**

Technical requirements: proper command of posture, carriage, and breathing; improved ability in diction, resonance, and variety of dynamics. Vocalises by Marzocchi, Spickard, Vaccai, and others. At least ten new songs, five to be sung from memory; at least one song in English and one in Italian. Folk songs, old Italian arie, simple oratorio arias, German Lieder. BoK: FA. Credit Level: U. Credit Hrs: 3.00

16VOIC101**Language Orientation for Singers**

The notation of the sounds of Italian, German and French in singing, using the International Phonetic Alphabet. Written and oral presentation. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16VOIC102**Language Orientation for Singers**

The notation of the sounds of Italian, German, and French in singing, using the International Phonetic Alphabet. Written and oral presentation. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16VOIC103**Language Orientation for Singers**

The notation of the sounds of Italian, German, and French in singing, using the International Phonetic Alphabet. Written and oral presentation. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16VOIC110**Voice Concentration**

First-year study for voice students in the B.A. program in music. BoK: FA. Credit Level: U. Credit Hrs: 2.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Voice**16VOIC120****Voice Secondary**

First-year secondary student in voice as required for specific majors.
BoK: FA. Credit Level: U. Credit Hrs: 1.00

16VOIC140**Musical Theater Vocal Study**

First-year applied music lessons in voice for musical theater majors.
BoK: FA. Credit Level: U. Credit Hrs: 2.00

16VOIC200**Voice Major Study**

Technical requirements: continuation of above, improvement in dynamics and range, studies in colorature. German Lieder and French art songs; simple operatic arias; continued study of English songs. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16VOIC201**Sophomore Seminar**

A continuation of the skills and information of the International Phonetic Alphabet (IPA) from the freshman-level Language Orientation; application of these tools and concepts to the music along with harmonic and textual analysis. Prereq: 16VOIC103. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16VOIC202**Sophomore Seminar**

Continuation of 201. Prereq: 16VOIC201. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16VOIC203**Sophomore Seminar**

Continuation of 16 VOIC 201, 202. Prereq: 16VOIC202. BoK: FA. Credit Level: U. Credit Hrs: 1.00

16VOIC210**Voice Concentration**

Second-year study for voice students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16VOIC220**Voice Secondary**

Second-year secondary study in voice as required for specific majors.
BoK: FA. Credit Level: U. Credit Hrs: 1.00

16VOIC240**Musical Theater Vocal Study**

Second-year applied music lessons in voice for musical theater majors.
BoK: FA. Credit Level: U. Credit Hrs: 2.00

16VOIC300**Voice Major Study**

Technical requirements: stability and consistent quality in the upper and lower vocal registers. Continuation of more advanced German Lieder and French art songs; appropriate operatic arias; contemporary songs; preparation of an Italian secco recitative. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16VOIC310**Voice Concentration**

Third-year study for voice students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16VOIC320**Voice Secondary**

Third-year secondary study in voice as required for specific majors.
BoK: FA. Credit Level: U. Credit Hrs: 1.00

16VOIC331**Vocal Repertoire**

Solo song repertoire of European countries, Russia, and the United States from the sixteenth century to the present. Interpretation, style, and program building. Emphasis on performance. BoK: FA. Credit

Voice**16VOIC331****Vocal Repertoire**

Level: U. Credit Hrs: 2.00

16VOIC332**Vocal Repertoire**

Solo song repertoire of European countries, Russia, and the United States from the sixteenth century to the present. Interpretation, style, and program building. Emphasis on performance. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16VOIC333**Vocal Repertoire**

Solo song repertoire of European countries, Russian and the United States from the sixteenth century to the present. Interpretation, style, and program building. Emphasis on performance. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16VOIC340**Musical Theater Vocal Study**

Third-year applied music lessons in voice for musical theater majors.
BoK: FA. Credit Level: U. Credit Hrs: 2.00

16VOIC400**Voice Major Study**

Advanced technical studies; preparation of senior recital. Recital should include representative works from major eras of song literature arranged in approximate chronological order. The senior must also prepare thirty minutes from the following: cantatas, motets and oratorios. BoK: FA. Credit Level: U. Credit Hrs: 4.00

16VOIC410**Voice Concentration**

Fourth-year study for voice students in the B.A. program in music or in the music education program. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16VOIC420**Voice Secondary**

Fourth-year secondary study in voice as required for specific majors.
BoK: FA. Credit Level: U. Credit Hrs: 1.00

16VOIC430**Undergraduate Vocal Coaching**

Individual vocal coaching for undergraduate voice majors with members of the opera/accompanying faculty. BoK: NA. Credit Level: U. Credit Hrs: 1.00-2.00

16VOIC431**Introduction to Opera: Performance Basics**

This class is a prerequisite for 16 VOIC 432 and 433. It is recommended that it be taken in the freshman or sophomore year. The class consists of basic warm-up exercises, movement exercises, gesture, stage basics, master classes, and attention to performance department. The final exam will be an informal class performance. Course can be repeated. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16VOIC432**Introduction to Opera: Opera Production**

Admission to this class is by audition or invitation only. Students selected will perform, prepare, or coordinate the performance for the undergraduate opera project. This course can be repeated. Prereq: 16VOIC431. BoK: FA. Credit Level: U. Credit Hrs: 2.00

16VOIC433**Introduction to Opera: Mainstage Opera Chorus**

Admission to this course is by audition or invitation only. Members will prepare and perform the designated chorus roles in either the Winter or Spring mainstage opera. Students must be available for all technical and performance dates during the quarter in which they are performing as a chorister. This course can be repeated. Prereq: 16VOIC432. BoK: FA. Credit Level: U. Credit Hrs: 2.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Voice**16VOIC440****Musical Theater Vocal Study**

Fourth-year applied music lessons in voice for musical theater majors.

BoK: FA. Credit Level: U. Credit Hrs: 1.00-2.00

16VOIC500**Voice Major**

Additional study for undergraduate voice majors who have completed the basic degree requirements; offered for undergraduate and graduate voice majors during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

16VOIC510**Voice Concentration**

Additional study in voice for undergraduate students at the concentration level who have completed the basic degree requirements; offered to all concentration level voice students during the Summer Session. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16VOIC530**Voice Elective**

Nonrequired private study in voice; requires permission of the department and the college. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-2.00

16VOIC531**Vocal Pedagogy**

A study of the anatomy and physiology of the vocal organ and its function. Analysis of teaching methods and corrective techniques. Materials for teaching voice. Practice teaching experience. Professional aspects of voice teaching, includes preparation of a dossier. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16VOIC532**Vocal Pedagogy**

A study of the anatomy and physiology of the vocal organ and its function. An analysis of teaching methods and corrective techniques. Materials for teaching voice. Practice teaching experience. Professional aspects of voice teaching, includes preparation of a dossier. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16VOIC533**Vocal Pedagogy**

A study of the anatomy and physiology of the vocal organ and its function. An analysis of teaching methods and corrective techniques. Materials for teaching voice. Practice teaching experience. Professional aspects of voice teaching, includes preparation of a dossier. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16VOIC540**Music Theater Voice Study**

Additional study in voice for undergraduate musical theater majors.

BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16VOIC541**Oratorio**

A study of style and performance practices of oratorio and cantata. Emphasis on Renaissance and Baroque. Examples from Machaut, Carissimi, Scarlatti, Schutz, Bach, and Handel. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16VOIC542**Oratorio**

A study of style and performance practices of oratorio and cantata. Continuation of Baroque, Late Baroque and Romantic. Examples from Haydn, Brahms, Mendelssohn, and Berlioz. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16VOIC543**Oratorio**

A study of style and performance practices of oratorio and cantata. Continuation of Romantic and Modern. Examples from Verdi, Honegger, Walton, Orff, and Britten. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

Voice**16VOIC551****Russian Diction Singers**

Instruction in pronunciation of the Russian language through the Cyrillic alphabet and the International Phonetic Alphabet. BoK: FA. Credit Level: U, G. Credit Hrs: 2.00

16VOIC560**Independent Study**

In-depth study of a topic related to the voice or vocal repertoire, selected by the student in consultation with a number of the faculty. Permission of instructor and Division. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-12.00

16VOIC600**Lucca: Applied Voice**

Private vocal instruction for the five weeks of the festival in Lucca. A weekly master class is included along with the private voice lesson. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

16VOIC630**Special Topics Voice**

Topics established every quarter by Department/Division. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-3.00

16VOIC631**Graduate Italian Diction**

Explanation of the rules governing the proper diction of Italian, with use of the International Phonetic Alphabet. Practical application of diction will be stressed through frequent oral drill. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16VOIC632**Graduate German Diction**

Explanation of the rules governing proper diction of German, with use of the International Phonetic Alphabet. Practical application of diction will be stressed through frequent oral drill. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16VOIC633**Graduate French Diction**

Explanation of the rules governing the proper diction of French, with use of the International Phonetic Alphabet. Practical application of diction will be stressed through frequent oral drill. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00

16VOIC640**Lucca: Vocal and Dramatic Coaching for Singers**

Instruction and development in vocal/musical style and dramatic presentation through participation in daily coaching, staging, and vocal rehearsals for opera/opera scenes and art song literature/art song presentation for concert performances. BoK: FA. Credit Level: U, G. Credit Hrs: 5.00

16VOIC660**Special Topics in Voice**

Topics established every quarter by Department/Division. BoK: FA. Credit Level: U, G. Credit Hrs: 0.00-6.00

16VOIC800**Voice Graduate Major Study**

For admission, evidence of public performance of a recital equivalent to the senior recital as described above shall be presented. Five representative selections from this recital must be performed with musical accuracy, intelligible diction, and interpretive skill. The voice should be free from strain and technical weakness and demonstrate dynamic variety, flexibility, and purity of vowels. Some speaking ability in Italian, German, or French should be supplemented by dictional skill in the other two. One public recital of varied periods and language, 50-60 minutes in length. Credit Level: G. Credit Hrs: 4.00

16VOIC810**Voice Concentration**

Master's level study for students accepted for a cognate in voice performance. Credit Level: G. Credit Hrs: 2.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Voice**16VOIC820****Voice Secondary**

Secondary study in voice for master's degree students. Credit Level: G.
Credit Hrs: 1.00

16VOIC831**Voice Pedagogy**

Advanced study of pedagogical methods and practices. Credit Level: G.
Credit Hrs: 2.00

16VOIC832**Voice Pedagogy**

Advanced study of pedagogical methods and practices. Credit Level: G.
Credit Hrs: 2.00

16VOIC833**Voice Pedagogy**

Advanced study of pedagogical methods and practices. Credit Level: G.
Credit Hrs: 2.00

16VOIC840**Vocal Coaching**

Individualized coaching in repertoire and languages for master's degree students in voice and artist diploma students in opera. Credit Level: G.
Credit Hrs: 1.00-3.00

16VOIC850**Artist Diploma in Voice**

First-year major study in voice for students accepted into the artist diploma program in opera or voice. Credit Level: G. Credit Hrs: 4.00

16VOIC855**Artist Diploma Recital**

Public performance by an artist diploma student in voice of selected compositions; approved and graded by the faculty. Credit Level: G.
Credit Hrs: 2.00

16VOIC880**Master Recital**

Public performance by a master's degree student in voice of selected compositions; approved and graded by the faculty. Credit Level: G.
Credit Hrs: 1.00-2.00

16VOIC895**Practicum**

Practical experience in the professional world. Credit Level: G. Credit Hrs: 1.00

16VOIC899**Master's Candidacy**

Retention of eligibility for graduation. Credit Level: G. Credit Hrs: 1.00

16VOIC900**Voice Doctoral Major Study**

Private study for doctoral students in voice. Preparation of required recitals. Credit Level: G. Credit Hrs: 4.00

16VOIC910**Voice Concentration**

Doctoral-level study for students accepted for a cognate in voice performance. Credit Level: G. Credit Hrs: 2.00

16VOIC920**Voice Secondary**

Secondary study in voice for doctoral level students. Credit Level: G.
Credit Hrs: 1.00

16VOIC930**Voice Elective**

Nonrequired private study in voice for doctoral students; requires permission of the department and the college. Credit Level: G. Credit Hrs: 1.00-2.00

Voice**16VOIC931****Seminar in Vocal Pedagogy**

An extension of Graduate Vocal Pedagogy with in-depth readings from the literature of vocal pedagogy leading to term papers based on the readings. Prereq: 16VOIC831, 16VOIC832, 16VOIC833. Credit Level: G. Credit Hrs: 2.00

16VOIC932**Seminar in Vocal Pedagogy**

An extension of Graduate Vocal Pedagogy with in-depth readings from the literature of vocal pedagogy leading to term papers based on the readings. Prereq: 16VOIC831, 16VOIC832, 16VOIC833. Credit Level: G. Credit Hrs: 2.00

16VOIC933**Seminar in Vocal Pedagogy**

An extension of Graduate Vocal Pedagogy with in-depth readings from the literature of vocal pedagogy leading to term papers based on the readings. Prereq: 16VOIC831, 16VOIC832, 16VOIC833. Credit Level: G. Credit Hrs: 2.00

16VOIC940**Vocal Coaching**

Individualized coaching in repertoire and languages for doctoral students in voice. Credit Level: G. Credit Hrs: 1.00-3.00

16VOIC950**Artist Diploma in Voice**

Second-year major study in voice for students accepted into the artist diploma program in opera or voice. Credit Level: G. Credit Hrs: 4.00

16VOIC960**Opera Performance**

Public performance of a opera role in a main stage production. Credit Level: G. Credit Hrs: 1.00-3.00

16VOIC970**Doctoral Recital**

Public performance by a doctoral student in voice of selected compositions; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16VOIC980**Lecture Recital**

Combined public lecture and performance of a selected topic in the voice repertoire; approved and graded by the faculty. Credit Level: G. Credit Hrs: 3.00

16VOIC990**DMA Document**

Research and preparation of the final written project for the DMA degree in voice; topic to be approved and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-15.00

COLLEGE OF DESIGN, ARCHITECTURE, ART, AND PLANNING
COURSE DESCRIPTIONS

(23) College of Design, Architecture, Art and Planning

2008 - 2009

College of Design, Architecture, Art and Planning 1

Architecture

23ARCH202

Architecture Studio 2

Continuing investigation of a variety of architectural design methodologies through a series of design exercises. Prereq: 23SAID201. BoK: FA, SS. Credit Level: U. Credit Hrs: 6.00

23ARCH217

Social Context of Architecture

Assumptions, principles, and applications of social theory in the analysis of architecture. BoK: DC. Credit Level: U. Credit Hrs: 3.00

23ARCH277

Structures Lecture I

Introduction to statically determinant structural systems, structural materials and loads. BoK: QR. Credit Level: U. Credit Hrs: 3.00

23ARCH278

Structures Lecture 2

Analysis and design of beams and frames, introduction to lateral loads and statically indeterminate structures. Prereq: 23ARCH277. BoK: QR. Credit Level: U. Credit Hrs: 3.00

23ARCH301

Architecture Studio 3

This studio exercises fundamental architectural skills and knowledge through the design of a medium-size building. The studio aims to engage students in all aspects of building design, from site reconnaissance and analysis to the formal integration of structural and mechanical considerations. Prereq: 23ARCH202. BoK: FA. Credit Level: U. Credit Hrs: 6.00

23ARCH307

Computer Theory

Exploration of the impact of computer technology on architecture, including exposure to various computer programs. Prereq: 23SAID294. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23ARCH311

Architecture Theory Studio -- Rhythm

This studio is focused on the exploration of a number of formal variables which are frequently manipulated in architectural expression, particularly rhythm, sequence, and scale. Prereq: 23ARCH301. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23ARCH312

Architecture Theory Studio -- Symbols

An exploration into the potential for symbolic expression of architectural form. Prereq: 23ARCH301. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23ARCH313

Architecture Theory Studio -- Geometry

The study of various geometric aspects as they influence architectural form. Prereq: 23ARCH301. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23ARCH314

Architecture Theory Seminar -- Formalism

The history and theory of formal concepts; exploration of the history of theories, techniques and works of architecture which have as their primary concern the production of visually pleasing and/or significant form. BoK: HU. Credit Level: U. Credit Hrs: 3.00

23ARCH315

Theory Lab Seminar: Geometry

The study of various geometric aspects as they influence architectural form. BoK: HU. Credit Level: U. Credit Hrs: 3.00

23ARCH316

Architecture Theory Seminar -- Utopia

Exploration of the literature and philosophy of utopian concepts and the development of models for their analysis and comparison. BoK: HU.

Architecture

23ARCH316

Architecture Theory Seminar -- Utopia

Credit Level: U. Credit Hrs: 3.00

23ARCH317

History/Theory/Criticism: Beginnings of Modern Architectural Theory

A critical interpretation of the foundations of modern architectural theory from a European perspective through direct encounters with primary theoretical texts. Prereq: 23ARCH217. BoK: HU. Credit Level: U. Credit Hrs: 3.00

23ARCH317H

History/Theory/Criticism: Beginnings of Modern Architectural Theory

A critical interpretation of the foundations of modern architectural theory from a European perspective through direct encounters with primary theoretical texts. Prereq: 23ARCH217. BoK: HU. Credit Level: U. Credit Hrs: 3.00

23ARCH318

Architecture Theory Lecture: Architecture and Philosophy

Examination of architecture from the points of view of the traditional disciplines of philosophy: ethics, aesthetics, epistemology, ontology, etc. BoK: HU. Credit Level: U. Credit Hrs: 3.00

23ARCH321

Architectural History Studio: Preservation

Application of theory and methodology of historic preservation to adaptive use of historic buildings. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23ARCH322

Architectural History Studio: Restoration

Application of theory and methodology of historic preservation to the restoration of historic buildings. Prereq: 23ARCH202. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23ARCH323

Architectural History Studio: Detail

This studio takes up the detail as the locus of architectural production and tests the extent to which the seams of construction give rise to ornamental possibilities. Prereq: 23ARCH202. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23ARCH324

Architectural History Seminar: Ornament

This seminar investigates the status of detail and ornament in contemporary practices through the study of selected topics in art, architecture, and literature. The course takes up the detail as the site of ornamental possibilities and explores it as the locus of architectural production. BoK: HU. Credit Level: U. Credit Hrs: 3.00

23ARCH325

Architectural History Seminar: Precedents

An investigation into the means by which previous works of architecture can be selected, interpreted, and transformed as part of the design process. BoK: HU. Credit Level: U. Credit Hrs: 3.00

23ARCH326

Architectural History Seminar: Palladio, Writing the Villa

Investigation of Palladio's theory of architecture, with particular emphasis on the domestic life of the villa. BoK: HU. Credit Level: U. Credit Hrs: 3.00

23ARCH327

History/Theory/Criticism: Critiques of Modern Architecture

Historical analysis of developments in American, European, and Japanese architecture since the cultural upheavals of the 1960s.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Architecture**23ARCH327****History/Theory/Criticism: Critiques of Modern Architecture**

Emphasis is given to individuals, ideas, movements, and works within their cultural, political, and artistic contexts. BoK: HP. Credit Level: U. Credit Hrs: 3.00

23ARCH327H**History/Theory/Criticism: Critiques of Modern Architecture**

Historical analysis of developments in American, European, and Japanese architecture since the cultural upheavals of the 1960s. Emphasis is given to individuals, ideas, movements, and works within their cultural, political, and artistic contexts. BoK: HP. Credit Level: U. Credit Hrs: 3.00

23ARCH328**Architectural History Seminar: Mannerism**

An exploration of the primary themes of sixteenth century Italian architecture and their importance to the contemporary scene. BoK: HU. Credit Level: U. Credit Hrs: 3.00

23ARCH331**Professional Practice Design Lab**

The exploration of selected architectural issues through the design of a building. Prereq: 23ARCH202. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23ARCH332**Professional Role Studio: Client**

Individual participation in architectural problem-solving situation dealing with constraints of building design, site, and client. Prereq: 23ARCH202. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23ARCH333**Competition Studio: Lyceum**

This studio aims to use design to create and sustain a critical dialogue that vigorously questions the premises of one or two competition programs. Prereq: 23ARCH301. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23ARCH338**Professional Role Seminar**

Specific topics on the management of an architectural practice. Emphasis on working with architectural firms and their clients. Prereq: 23ARCH202. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23ARCH347**Urban and Cultural Landscapes in America**

This course surveys and interprets the evolution of America's everyday rural and urban landscapes: settlements, highways, farms, factories, stores, cemeteries, city districts and entertainment areas. It encourages students to read the landscape as a record of planning proposals, a reflection of past and present social needs, and technological interventions, all of which have left their imprint on the site. Prereq: 23ARCH202. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23ARCH351**Landscape Studio: Site Design**

Problems emphasizing ways the natural landscape patterns influence proposed building programs: design, development, and detail in circulation, layout, grading-drainage, lighting, and site furnishing. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23ARCH352**Landscape Studio: Ecology**

The exploration of issues of site and building ecology and land use through the design of an architectural project. Prereq: 23ARCH202. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23ARCH354**Landscape Lecture: Site Systems**

Study of natural and artificial systems which influence site planning, design, and development: landforms, earthwork, circulation, universal design, and landscape materials including plants, pavement, water, and site furnishings. BoK: QR. Credit Level: U. Credit Hrs: 3.00

Architecture**23ARCH355****Landscape Seminar: Land Development**

An overview of the land development process, including feasibility and site analysis studies, phases of design and development, traditional and regenerative land uses, land use zoning, regulations, and ordinances, public participation, and design team collaboration. BoK: SE. Credit Level: U. Credit Hrs: 3.00

23ARCH356**Landscape Seminar: Sustainable Development**

This seminar explores the relationship between global environmental issues and the theory and practice of architecture to provide a better understanding of what is architectural about sustainable development. The emphasis is on establishing a basis for effective decision-making in both the design and construction phases of development that is responsive to an ecologically based value system, is consistent with sustainable development, and generates value. BoK: SE., SS. Credit Level: U. Credit Hrs: 3.00

23ARCH357**Site Systems**

An overview of land systems, including stormwater management, vehicular and pedestrian circulation, and sustainable strategies for land development. Prereq: 23ARCH202. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23ARCH371**Structures Studio: Wood Detailing**

Design implications of wood as a structural system. Prereq: 23ARCH301. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23ARCH372**Structures Studio: Analysis**

Individual design problems involving unusual structural problems and/or systems. Prereq: 23ARCH202. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23ARCH377**Structures Lecture 3**

Indeterminate structures, reinforced concrete structural systems, planar structures, wind and seismic loads. Prereq: 23ARCH278. BoK: QR. Credit Level: U. Credit Hrs: 3.00

23ARCH381**Construction Studio: Digital**

This studio uses sophisticated computer-aided design tools to investigate and propose design solutions. Prereq: 23ARCH202. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23ARCH384**Construction Seminar -- Skyscraper**

Investigation of specific issues in high-rise construction practice. Prereq: 23SAID268. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23ARCH385**Construction Seminar -- Digital Investigations**

The development and use of sophisticated computer-aided design tools and the Component-Based Paradigm (a product-level approach) for building design and construction. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23ARCH387**Environmental Technology 3**

Introduction to communication systems, electrical systems, plumbing systems, movement systems, and fire and health safety used to service the built environment. Prereq: 23SAID288. BoK: NS. Credit Level: U. Credit Hrs: 3.00

23ARCH390**Independent Studies**

Individual study in collaboration with a faculty member on a subject or in a manner beyond that which is available within the curriculum. Prereq.: 2.5 cumulative GPA; instructor's approval, adviser's approval, and the Department Student Advisory Committee's approval of a written

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Architecture**23ARCH390****Independent Studies**

proposal submitted the quarter before beginning of the intended quarter of study. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23ARCH406**Computer Seminar -- Computer-Aided Design**

Development of computer capabilities for use in architecture. BoK: NS. Credit Level: U. Credit Hrs: 3.00

23ARCH411**Architecture Theory Studio -- Value**

Concern for the possibility of value in architecture; investigation of cultural traditions, architectural values and modes of value evocation. Prereq: 23ARCH202. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23ARCH412**Architecture Theory Studio -- Visiting Professor**

An investigation of architectural design focusing on the unique theoretical perspectives of a Visiting Professor. Prereq: 23ARCH202. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23ARCH413**Architecture Design Studio**

Advanced studies in Basic Design. Prereq: 23ARCH202. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23ARCH417**History/Theory/Criticism: Beginnings of Modern Architectural Theory**

A critical interpretation of the foundations of modern architectural theory from a European perspective through direct encounters with primary theoretical texts. Prereq: 23ARCH217. BoK: HU. Credit Level: U. Credit Hrs: 3.00

23ARCH417H**History/Theory/Criticism: Beginnings of Modern Architectural Theory**

A critical interpretation of the foundations of modern architectural theory from a European perspective through direct encounters with primary theoretical texts. Prereq: 23ARCH217. BoK: HU. Credit Level: U. Credit Hrs: 3.00

23ARCH422**Architectural History Studio: Typology**

The selection of precedents according to type, place, or principle; the role of influence and transformation in the design process, and the prospects for a connective or rooted architecture in our times. Prereq: 23ARCH202. BoK: FA, HP. Credit Level: U. Credit Hrs: 4.00

23ARCH427**History of the Skyscraper**

Historical survey of the evolution of the American skyscraper from the Civil War to the present. BoK: FA., HP. Credit Level: U. Credit Hrs: 3.00

23ARCH427H**History/Theory/Criticism: Critiques of Modern Architecture**

Historical analysis of developments in American, European, and Japanese architecture since the cultural upheavals of the 1960s. Emphasis is given to individuals, ideas, movements, and works within their cultural, political, and artistic contexts. Prereq: 23SAID229. BoK: HP. Credit Level: U. Credit Hrs: 3.00

23ARCH434**Professional Role Seminar: Real Estate**

The examination of the role of the architect and the creation of economic value in an uncertain environment in the context of real estate development projects. BoK: QR. Credit Level: U. Credit Hrs: 3.00

23ARCH453**Urban Design Studio**

Consideration of urban design issues on the development of architecture. Prereq: 23ARCH202. BoK: FA, SS. Credit Level: U. Credit Hrs: 4.00

Architecture**23ARCH456****Urban Design Seminar**

Analysis of elements that contribute to the urban form of a specific town or city. Introduction to various methods of urban analysis, 3-D modeling of elements relevant to morphological and social changes in a limited study area over time using a Macintosh/Modelshop creation of an urban simulation. BoK: SE., SS. Credit Level: U. Credit Hrs: 3.00

23ARCH463**Environmental Technology Studio -- Lighting**

Exploration of the influence of interior and exterior lighting on architectural design. Prereq: 23ARCH202. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23ARCH465**Environmental Technology Seminar -- ECS**

Engineering design of the environmental systems of small buildings. Hands-on experience in heat loss, heat gain, plumbing, lighting/electric power distribution of single family dwelling. Includes duct and pipe sizing, diffuser selections, calculation of furnace/fan/pump sizes. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23ARCH466**Environmental Technology Seminar -- Lighting**

Study of natural and artificial, interior and exterior lighting in architecture. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23ARCH467**Construction 3**

Construction process: structure of the industry; construction economies; systems and industrialization; contractual and delivery strategies; construction sequence. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23ARCH471**Structures Studio -- Advanced Structures**

Individual design problems involving unusual structural problems and/or systems. Prereq: 23ARCH202. BoK: FA, QR. Credit Level: U. Credit Hrs: 4.00

23ARCH475**Structures Seminar -- Structural Basis of Architecture**

Investigation of structural principles through the detailed analysis of a historic structure. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23ARCH484**Structures Seminar -- Building Envelope Durability**

This course develops students' understanding of how building walls function and fail. BoK: NS. Credit Level: U. Credit Hrs: 3.00

23ARCH490**Independent Studies**

Individual study in collaboration with a faculty member on a subject or in a manner beyond that which is available within the curriculum. Written proposals should be submitted the quarter before the beginning of the intended quarter of study. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23ARCH507**Post-Baccalaureate Accelerated Studio**

This rigorous, daylong immersion studio introduces students new to the study of architecture to its basic principles, techniques, and critical vocabulary. Students proceed from fundamental two- and three-dimensional composition to complex building design and representation. BoK: FA. Credit Level: U. Credit Hrs: 9.00

23ARCH508**Post-Baccalaureate Accelerated Skills**

This lab, which supplements the Post-Baccalaureate Accelerated Studio, introduces students new to the study of architecture to principles of graphic representation including, but not limited to, line weight and contour, figure/ground analysis, diagramming, sketch notation, ideation, rendering, orthographic drawings, basic principles of light and color, spatial rendering, and perspective delineation. BoK: FA. Credit Level: U. Credit Hrs: 6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Architecture**23ARCH516****Architectural Theory Seminar -- Understanding Pueblo Architecture**

This interdisciplinary seminar focuses on the ways of studying the history, forms, and current situations of Pueblo settlements in the southwestern United States. BoK: DC. Credit Level: U. Credit Hrs: 3.00

23ARCH534**Professional Role Seminar -- Case Studies**

Investigation through case studies of architectural development, professional practice, and legal responsibility. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

23ARCH541**Portsmouth Exchange**

Course for students from Portsmouth Polytechnic in England and/or Potsdam University on campus as participants in exchange program. BoK: DC. Credit Level: U. Credit Hrs: 15.00

23ARCH542**Portsmouth Exchange**

Course for students from Portsmouth Polytechnic and/or Potsdam University on campus as participants in exchange programs. BoK: DC. Credit Level: U. Credit Hrs: 15.00

23ARCH543**Portsmouth Exchange**

Course for students from Portsmouth Polytechnic in England and/or Potsdam University in Germany on campus as participants of exchange program. BoK: DC. Credit Level: U. Credit Hrs: 15.00

23ARCH544**Cultural Approaches to Architecture**

This interdisciplinary seminar course will explore research findings in cultural history, ethnography, cultural geography, and cultural and applied anthropology which touch and illuminate architecture. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

23ARCH546**Architecture Theory Seminar: Place and Dwelling**

This interdisciplinary seminar focuses on the complex relationships between the activities and psychological dimensions of dwelling and the physical spaces and representational images which serve them. Prereq: 23SAID201. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

23ARCH547**Universal Design**

Universal design is inclusive, non-discriminatory design of products, rooms, buildings, public spaces and transportation systems which can be used by all people. Literature assessments, experiential learning, and field research-based research methods form the core of the course. Perm of Instructor. BoK: SS, SE. Credit Level: U, G. Credit Hrs: 3.00

23ARCH548**Building Evaluation**

To provide an overview of building evaluation approaches, especially post-occupancy evaluation and design review; to conduct a detailed building evaluation project on a major building with a real client. Open to nonmajors with perm. of instr. BoK: SE., SS. Credit Level: U, G. Credit Hrs: 3.00

23ARCH590**Independent Studies**

Individual study in collaboration with a faculty member on a subject or in a manner beyond that which is available within the curriculum. Written proposals should be submitted the quarter before the beginning of the intended quarter of study. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

23ARCH601**Structure/Environment/Construction Studio One**

The first half of a two-quarter design studio experience that integrates structures, environmental technology, and construction in a comprehensive architectural design project. BoK: NA. Credit Level: U,

Architecture**23ARCH601****Structure/Environment/Construction Studio One**

G. Credit Hrs: 6.00

23ARCH602**Structure/Environment/Construction Studio Two**

The second half of a two-quarter design studio experience that integrates structures, environmental technology, and construction in a comprehensive architectural design project. Prereq: 23ARCH601. BoK: NA. Credit Level: U, G. Credit Hrs: 6.00

23ARCH604**Environmental Studies Seminar -- Senior Mentor**

Further investigations of the relationship between the physical environment and humankind through discussions and leading of field trips and seminars for freshman students. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

23ARCH605**Environmental Studies Seminar -- Senior Mentor**

Further investigations of man-environment relation through discussions and leading of seminars for freshman students. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

23ARCH614**Senior Seminar I**

Analysis of personal prejudice, theory, precept, philosophy of significant architects, Richardson to contemporary architects. Study of personalities and their individual contributions, noting influences exerted by other architects and circumstances peculiar to their times. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

23ARCH615**Senior Seminar II**

Analysis of personal prejudice, theory, precept, philosophy of significant architects--Richardson to contemporary architects--through the use of field trips to nearby buildings in the tri-state. Prereq: 23ARCH614. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

23ARCH617**History/Theory/Criticism: Beginnings of Modern Architectural Theory**

A critical interpretation of the foundations of modern architectural theory from a European perspective through direct encounters with primary theoretical texts. Prereq: 23ARCH217. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00

23ARCH625**Techniques of Historic Preservation**

Historic research methodology, historic resource survey techniques, and historic structures restoration practices. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

23ARCH627**History/Theory/Criticism: Critiques of Modern Architecture**

Historical analysis of developments in American, European, and Japanese architecture since the cultural upheavals of the 1960s. Emphasis is given to individuals, ideas, movements, and works within their cultural, political, and artistic contexts. Prereq: 23ARCH301. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

23ARCH628**Historic Preservation Lecture**

The philosophy and methodology of historic preservation: architectural, historic, economic, social and political dimensions. The impact of preservation on the community. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

23ARCH637**Professional Practice Lecture**

Professional and business factors relating to the practice of architecture. Prereq: 23ARCH301. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Architecture**23ARCH667****Structure/Environment/Construction Technology 1**

In-depth study of issues pertaining to structures, environmental systems, and construction as they relate to the sequence in SEC Studio 1. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

23ARCH668**Structure/Environment/Construction Technology 2**

In-depth study of issues pertaining to structures, environmental systems, and construction as they relate to the sequence of SEC Studio 2. Prereq: 23ARCH601, 23ARCH667. Coreq: 23ARCH602. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

23ARCH677**Structures 4**

Analysis and design of wood, steel, and masonry structural systems. Prereq: 23ARCH377. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

23ARCH690**Independent Study**

A graduate and/or undergraduate level pass/fail independent study course. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

23ARCH701**Studies in Architecture**

Independent studies in architectural or related research. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-9.00

23ARCH702**Studies in Architecture**

Independent studies in architectural or related research. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-9.00

23ARCH703**Studies in Architecture**

Independent studies in architectural or related research. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-9.00

23ARCH705**Seminar in Theory of Architecture**

Introduction to the theoretical discourse of architecture. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

23ARCH706**Seminar in Theory of Architecture**

Consideration of architectural understanding through the investigation of philosophical thinking and processes. Prereq: 23ARCH705. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

23ARCH710**Thesis Research**

Introduction to thesis research methods, including literature analysis and the writing of abstracts, research proposals, and reports. Introduction to applied research methods commonly used in studying the interaction between the designed/built environment and the users of that environment to prepare Master of Architecture students for E-coop research projects and case studies. Perm of Department. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

23ARCH715**Introduction to Research Methods**

Introduction to various models of research methods with application to architectural and related research. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

23ARCH501**Pre-Texts for Architecture**

This foundation design lab exposes students to architecture's pre-texts that include literary narratives, film, ritual and cultural contexts as a bridge between diverse intellectual territories and architecture. This course introduces a selection of seminal modern and contemporary architectural buildings and their intellectual and formal situation/context as pre-texts and design paradigms. This course will cultivate connections between diverse bodies of information, and the ability to posit consequential relationships for the production of architecture. This

Architecture**23ARCH501****Pre-Texts for Architecture**

course seeks to cultivate a vision for architecture that sponsors operative links between the discipline of architecture and disciplines outside of architecture. Lectures, research, are followed with graphic communication to posit and test the efficacy of ideas and information. Credit Level: G. Credit Hrs: 4.00

23ARCH502**Graduate Studio: Order and Tectonics in Architecture**

This foundation studio marries organizational logics to tectonic culture as the starting point for architectural form vocabulary. The tectonic is proposed as an organizational order that stems directly from construction to include material, structural, and technical principles. This will be addressed on several scales, and in a conceptual manner. Selected texts and discussion accompany and inform the design work. This studio is structured for collaboration with the skills and history courses Prereq: 23ARCH501. Coreq: 23ARCH512, 23ARCH527. Credit Level: G. Credit Hrs: 6.00

23ARCH503**Graduate Studio: The Civic Realm and the Context of Public Space**

In this discipline-focused studio, students gain experience with the architecture of buildings and the traditional core competencies including the instruments of proportion, organization, programming, structure and tectonics. The complexity of an institution's program (20-60,000 sf) is tempered and focused by spatial structures (architectural promenade), the development of a good interior public room, technological imperatives, culture and context. Structural and environmental technologies play a significant role. This studio is structured for collaboration with the history and technology classes, thus creating an integrative studio experience. Prereq: 23ARCH502. Coreq: 23ARCH528, 23ARCH268, 23ARCH277. Credit Level: G. Credit Hrs: 6.00

23ARCH504**Graduate Studio: Housing and Community**

In this discipline-focused studio students gain experience with the architecture of buildings and the traditional core competencies including the instruments of proportion, organization, programming, structure and tectonics. The socio-cultural context is an essential pre-text to housing and has defined the rich and varied history of housing developments in America and Europe. The studio will consider multiple-unit housing on an urban site that responds to a strong cultural context. Research and analysis will form a basis for the studio. This studio is structured for collaboration with the history and technology classes, thus creating an integrative studio experience. Prereq: 23ARCH503. Credit Level: G. Credit Hrs: 6.00

23ARCH511**Architecture Design Communication**

This foundation design lab introduces two-dimensional and three-dimensional representation skills that facilitate the exploration and generation of design intention. Digital and analog drawings and models are tools for the conception and development of design, and not just an illustration or confirmation of a design conclusion. Students are introduced to the dynamics of, and differences between diagramming, iteration, indexing, and collage as instrumental processes of design intelligence. This course introduces adobe illustrator, and photoshop and other digital applications that support the activities of the summer. This course collaborates with the Pre-tests course and the Tectonics course. Credit Level: G. Credit Hrs: 4.00

23ARCH512**Graduate Representation Skills and Composition**

This course will explore the methods, techniques, tools, and critical principles of graphic representation in architecture and interior design, with special emphasis on drawing, diagramming, modeling, and one- and two-point perspective, developed and applied in the context of varied graphic media and digital software. The course is structured to work in close collaboration with the studio. Prereq: 23ARCH501. Credit

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Architecture**23ARCH512****Graduate Representation Skills and Composition**

Level: G. Credit Hrs: 3.00

23ARCH527**History/Theory/Criticism: Architecture and Its History**

An introduction to works of architecture and their role in establishing formal-spatial order and social-cultural meaning, and to the enduring capacity of past works (precedents) to influence later generations, later designers, and the discipline as a whole. Works and places from antiquity and the middle ages, worldwide, are featured, along with a selection of exemplary contemporary designs illustrating current movements. Credit Level: G. Credit Hrs: 3.00

23ARCH528**History/Theory/Criticism: The Classical Tradition and Its Legacies**

A review of key, influential architectural movements, works, and texts, from the Renaissance through the nineteenth century. Emphasis is given to the formal, social, and urbanistic implications of design, the understanding of architecture and a disciplined "language" that structures ideas at all levels from the city to the detail. Credit Level: G. Credit Hrs: 3.00

23ARCH529**History/Theory/Criticism: Modern Architecture**

A review of key, influential architectural movements, works, and texts from the mid-19th century to the 1960s. Emphasis is given to the mainstream of the Modern movement and its relationship to the changing social, cultural, and political context of the industrializing West. Credit Level: G. Credit Hrs: 3.00

23ARCH567**Introduction to Issues in Technology**

A study of issues pertaining to the phenomena of, and potent dependent relationships among, climate, construction, structures and environmental systems in architecture. Case-study research and site visits, along with class lectures characterize this course. Perm of Department. Credit Level: G. Credit Hrs: 3.00

23ARCH591**Graduate Accelerated Computer Skills**

This lab focuses on digital applications and the skills needed to facilitate the exploration and generation of design intention. Digital applications are tools for the conception and development of design, and not just illustration and confirmation of a design conclusion. Students will use the Adobe suite as well as three-dimensional modeling when appropriate. This course is structured to work in close collaboration with the studio. Coreq: 23ARCH501, 23ARCH511. Credit Level: G. Credit Hrs: 3.00

23ARCH704**Seminar in Theory of Architecture**

Introduction to the theoretical discourse of architecture. Credit Level: G. Credit Hrs: 3.00

23ARCH707**Graduate Accelerated Studio**

This rigorous, daylong immersion studio introduces students new to the study of architecture to its basic principles, techniques, and critical vocabulary. Students proceed from fundamental two- and three-dimensional composition to complex building design and representation. Credit Level: G. Credit Hrs: 9.00

23ARCH708**Graduate Accelerated Skills**

This lab, which supplements to Graduate Accelerated Studio, introduces students new to the study of architecture to principles of graphic representation including, but not limited to, line weight and contour, figure/ground analysis, diagramming, sketch notation, ideation, rendering orthographic drawings, basic principles of light and color, spatial rendering, and perspective delineation. Coreq: 23ARCH707. Credit Level: G. Credit Hrs: 6.00

Architecture**23ARCH713****Graduate Elective Studio**

This elective studio will offer an intense exploration of issues related to particular areas of concentration within the graduate curriculum. Students will undertake projects related to buildings and technology, interior environments, building economics and professional practice, urban environments, preservation, and combinations of these. Credit Level: G. Credit Hrs: 6.00

23ARCH714**Postmodern Aesthetics**

This seminar introduces Heidegger's deconstruction of the aesthetic tradition as a point of departure in the formulation of a non-frivolous account of postmodern culture, with particular regard to art and architecture. Credit Level: G. Credit Hrs: 3.00

23ARCH716**Contemporary Architectural Theory**

Advanced, critical review of the basic issues in architectural discourse, with emphasis on the aims, methods, and contexts of theoretical understanding in general and in our disciplines. Such fundamental notions as historicity, analogy, ethics, aesthetics, artistic engagement, urbanism, utility, and the life-world are introduced through critical readings of leading theoretical scholars of the past quarter century. Perm of Department. Credit Level: G. Credit Hrs: 3.00

23ARCH717**Pre-thesis Research**

Analysis of literary sources as a means to architectural research and interpretation. Credit Level: G. Credit Hrs: 3.00

23ARCH718**Special Topics in Architectural Theory**

This elective seminar will offer selected readings related to special topics in architectural theory. Students will undertake the production of writing and research related to the course topic. Credit Level: G. Credit Hrs: 3.00

23ARCH719**Special Topics in Architectural Representation**

This elective seminar will offer selected readings related to architectural representation. Students will undertake the production of writing and research related to the course topic. Perm of Department. Credit Level: G. Credit Hrs: 3.00

23ARCH723**Graduate Elective Studio**

This elective studio will offer an intense exploration of issues related to particular areas of concentration within the graduate curriculum. Students will undertake projects related to buildings and technology, interior environments, building economics and professional practice, urban environments, preservation, and combinations of these. Credit Level: G. Credit Hrs: 6.00

23ARCH725**Graduate Topic Seminar**

This elective course will offer selected readings related to particular areas of concentration within the graduate curriculum. Students will undertake the production of writing and research related to buildings and technology, interior environments, building economics and professional practice, urban environments, preservation, and combinations of these. Credit Level: G. Credit Hrs: 3.00

23ARCH727**History/Theory/Criticism: Contemporary Theory and History**

A review of the continuation of the modern movement in the last forty years, and of the critiques of the same. The diverse strands of architectural production of the last two generations are examined in light of the prevailing post-modern cultural mindset and challenging social, economic, and environmental conditions. Perm of Department. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Architecture**23ARCH728****Mannerism Seminar**

An exploration of the primary themes of sixteenth century Italian architecture and their importance to the contemporary scene. Credit Level: G. Credit Hrs: 3.00

23ARCH734**eCoop Seminar 1**

This course introduces the case study research method as a form of critical engagement with issues in professional practice. Students use historical examples to develop their own research itineraries in advance of their two-quarter graduate co-op placements. In consultation with academic and professional practice faculty, students formulate projects that situate their research within the general requirements and activities of particular firms and practices. Credit Level: G. Credit Hrs: 3.00

23ARCH735**eCoop Seminar 2**

Students returning from their two-quarter graduate co-op experiences present and discuss the results of research projects developed in cooperation with faculty advisors, professional practice faculty, and employers. Students then produce final research documents for inclusion in the case study library of the Center for the Study of Practice. Credit Level: G. Credit Hrs: 3.00

23ARCH736**Special Topics in Professional Practice**

This elective seminar will offer selected readings related to professional practice. Students will undertake the production of writing and research related to the course topic. Credit Level: G. Credit Hrs: 3.00

23ARCH738**Introduction to Programming**

Introduction to the methods used for programming as a part of the pre-design process phase of any design project. This course will support the development of thesis projects. Perm of Department. Credit Level: G. Credit Hrs: 3.00

23ARCH739**Special Topics in Interior Design**

This elective seminar will offer selected readings related to special topics in interior design. Students will undertake the production of writing and research related to the course topic. Perm of Department. Credit Level: G. Credit Hrs: 3.00

23ARCH743**Graduate Elective Studio**

This elective studio will offer an intense exploration of issues related to particular areas of concentration within the graduate curriculum. Students will undertake projects related to buildings and technology, interior environments, building economics and professional practice, urban environments, preservation, and combinations of these. Credit Level: G. Credit Hrs: 6.00

23ARCH744**Special Topics in Urban Design**

This elective seminar will offer selected readings related to urban design. Students will undertake the production of writing and research related to the course topic. Credit Level: G. Credit Hrs: 3.00

23ARCH745**Graduate Topic Seminar**

This elective course will offer selected readings related to particular areas of concentration within the graduate curriculum. Students will undertake the production of writing and research related to buildings and technology, interior environments, building economics and professional practice, urban environments, preservation, and combinations of these. Credit Level: G. Credit Hrs: 3.00

23ARCH749**House and Home**

This interdisciplinary course focuses on the complex relationships between the activities and psychological dimensions of dwelling and the physical spaces and representational images which serve them. Credit

23ARCH753**Graduate Elective Studio**

This elective studio will offer an intense exploration of issues related to particular areas of concentration within the graduate curriculum. Students will undertake projects related to buildings and technology, interior environments, building economics and professional practice, urban environments, preservation, and combinations of these. Credit Level: G. Credit Hrs: 6.00

23ARCH754**Special Topics in Landscape Architecture**

This elective seminar will offer selected readings related to landscape architecture. Students will undertake the production of writing and research related to the course topic. Credit Level: G. Credit Hrs: 3.00

23ARCH755**Graduate Topic Seminar**

This elective seminar will offer selected readings related to particular areas of concentration within the graduate curriculum. Students will undertake the production of writing and research related to buildings and technology, interior environments, building economics and professional practice, urban environments, preservation, and combinations of these. Credit Level: G. Credit Hrs: 3.00

23ARCH763**Graduate Elective Studio**

This elective studio will offer an intense exploration of issues related to particular areas of concentration within the graduate curriculum. Students will undertake projects related to buildings and technology, interior environments, building economics and professional practice, urban environments, preservation, and combinations of these. Credit Level: G. Credit Hrs: 6.00

23ARCH764**Special Topics in Building Construction**

This elective seminar will offer selected readings related to building construction and details. Students will undertake the production of writing and research related to the course topic. Credit Level: G. Credit Hrs: 3.00

23ARCH767**Contemporary Construction**

This lecture course undertakes the comprehensive study of issues related to the design and production of the building enclosure. Students will examine the interdependency among aesthetic, technical, material, and economic aspects of a given design condition. Special attention is given to case study presentations of failures in varieties of building envelope systems and their causes. Credit Level: G. Credit Hrs: 3.00

23ARCH773**Graduate Elective Studio**

This elective studio will offer an intense exploration of issues related to particular areas of concentration within the graduate curriculum. Students will undertake projects related to buildings and technology, interior environments, building economics and professional practice, urban environments, preservation, and combinations of these. Credit Level: G. Credit Hrs: 6.00

23ARCH774**Special Topics in Architectural Structures**

This elective seminar will offer selected readings related to structural systems and architectural engineering. Students will undertake the production of writing and research related to the course topic. Credit Level: G. Credit Hrs: 3.00

23ARCH784**Special Topics in Environmental Technology**

This elective seminar will offer selected readings related to environmental technology. Students will undertake the production of

Architecture**23ARCH784****Special Topics in Environmental Technology**

writing and research related to the course topic. Credit Level: G. Credit Hrs: 3.00

23ARCH787**Contemporary Environmental Technologies**

This course undertakes the comprehensive study of issues related to the design of buildings in relation to environmental systems. Students will examine the interdependency among the economic, aesthetic, technical, material, and energy aspects of a given design situation. Perm of Department. Credit Level: G. Credit Hrs: 3.00

23ARCH790**Independent Study**

Individual study in collaboration with a faculty member on a subject or in a manner beyond that which is available within the curriculum. Perm of Department. Credit Level: G. Credit Hrs: 1.00-5.00

23ARCH791**Accelerated Computer Skills**

Introductory course in computer graphics for Master of Architecture students entering with a non-design undergraduate degree. Topics include graphic layout, two- and three-dimensional representation, and web design. Credit Level: G. Credit Hrs: 3.00

23ARCH794**Special Topics in Digital Media**

This elective seminar will offer selected readings related to computer applications and advanced digital media. Students will undertake the production of writing and research related to the course topic. Credit Level: G. Credit Hrs: 3.00

23ARCH800**Graduate Option Quarter**

A non-credit, pass/fail course used for tracking graduate students who are off campus on during the required Option Quarter. Credit Level: G. Credit Hrs: 0.00

23ARCH805**Design Theory Seminar**

Close readings of the major treatises of architectural theory of the modern period. Credit Level: G. Credit Hrs: 3.00

23ARCH806**Design Theory Seminar**

Consideration of issues of form, method, technology, and design since 1960. Credit Level: G. Credit Hrs: 3.00

23ARCH814**Thesis Colloquium**

The thesis colloquium provides a disciplined setting for the formal presentation and discussion of works in progress by members of the thesis studio, with special emphasis on the theoretical and critical context of the work. Weekly, public presentations, in conformance with criteria for presentation established by the graduate faculty, will be followed by questions and discussion aimed at supporting the development and progress of individual projects. Coreq: 23ARCH801. Credit Level: G. Credit Hrs: 3.00

23ARCH815**Thesis Colloquium**

The thesis colloquium provides a disciplined setting for the formal presentation and discussion of works in progress by members of the thesis studio, with special emphasis on the theoretical and critical context of the work. Weekly, public presentations, in conformance with criteria for presentation established by the graduate faculty, will be followed by questions and discussion aimed at supporting the development and progress of individual projects. Coreq: 23ARCH802. Credit Level: G. Credit Hrs: 3.00

23ARCH816**Thesis Colloquium**

The Thesis Colloquium provides a disciplined setting for informal

Architecture**23ARCH816****Thesis Colloquium**

presentations and peer discussions of students' thesis ideas and their development. The colloquium, integrated with thesis studio work, also features presentations by faculty members, group discussions of shared topic areas, field trips, and individual conferences with thesis faculty. Prereq: 23ARCH815. Credit Level: G. Credit Hrs: 3.00

23ARCH888**Master of Science in Architecture Thesis**

Thesis research and writing. Credit Level: G. Credit Hrs: 1.00-9.00

23ARCH889**Master of Science in Architecture Thesis**

Thesis research and writing. Credit Level: G. Credit Hrs: 1.00-9.00

23ARCH890**Independent Study**

Individual study in collaboration with a faculty member on a subject or in a manner beyond that which is available within the curriculum. Credit Level: G. Credit Hrs: 1.00-5.00

23ARCH891**Teaching and Research Colloquium**

Investigation of methods and topics of research and teaching in architecture. Credit Level: G. Credit Hrs: 3.00

23ARCH892**Teaching and Research Colloquium**

Further investigation of methods and topics of research and teaching in architecture. Credit Level: G. Credit Hrs: 3.00

23ARCH893**Teaching and Research Colloquium**

Investigation of methods and topics of research and teaching in architecture. Credit Level: G. Credit Hrs: 3.00

23ARCH894**Teaching and Research Colloquium**

Investigation of methods and topics of research and teaching in architecture. Credit Level: G. Credit Hrs: 3.00

23ARCH895**Teaching and Research Colloquium**

Investigation of methods and topics of research and teaching in architecture. Credit Level: G. Credit Hrs: 3.00

23ARCH896**Teaching and Research Colloquium**

Investigation of methods and topics of research and teaching in architecture. Credit Level: G. Credit Hrs: 3.00

23ARCH901**Thesis Studio**

The thesis is a major project of research and/or creative work that extends professional knowledge and awareness surrounding the design and production of cities, buildings, and interior environments. Designed as a three-quarter sequence, students explore historical, theoretical, and technical issues related to a specific area of inquiry, leading to the development and production of a program of research or design, including the presentation of preliminary documents, contextual analyses and findings on which students will base future work. Students document these findings in conformance with criteria established by the graduate faculty, then develop and produce projects in accordance with previously identified topics and themes. Finally, students refine and complete these projects, in conformance with criteria for presentation established by the graduate faculty. Thesis Studio 23ARCH901 is the multi-quarter course name and number; grading is assigned as SP or UP, satisfactory progress or unsatisfactory progress, until the final quarter of completion. Credit Level: G. Credit Hrs: 6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Architecture**23ARCH912****Thesis Precedents and Process**

This course works in tandem with the 23ARCH901 Thesis Studio and focuses on the significant research efforts related to exploring and defining the student's inquiry and process of creative work. Research may include analysis of typology and precedent; programming; site analysis; social, cultural and economic contexts; literature searches; and digital experimentation. Significant to this effort is the documentation, manifestation and representation of the research and the conclusions drawn. Credit Level: G. Credit Hrs: 3.00

23ARCH913**Thesis Presentation**

This course works in tandem with 23ARCH901 Thesis Studio and focuses on the significant effort related to the configuring and assembling of the final presentation of the thesis project work. It is well understood that thesis arguments are made through the work itself, and the graphic and verbal manner in which the student presents this content is a significant enterprise. Credit Level: G. Credit Hrs: 3.00

Art Appreciation**23ARTA101****Ascendancy of 20th Century American Paintings**

Ascendancy of 20th Century American Paintings Survey of 20th century American paintings in conjunction with basic art vocabulary and a structured guide to art interpretation. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23ARTA105**Family as Represented in Art**

Family as Represented in Art Survey of images, 16th - 20th century from Europe, America, and Africa, depicting representation of family in conjunction with basic art vocabulary and a structured guide to art interpretation. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23ARTA109**Women Painters, 12th-20th Centuries**

Women Painters, 12th - 20th Centuries Survey of European and American women painters 12th - 20th centuries in conjunction with basic art vocabulary and a structured guide to art interpretation. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23ARTA201**Drawing I**

Observation and interpretation of varied subject matter: still life landscape and living forms. Charcoal, pencil, and chalk; other media. Perspective is introduced. BoK: FA. Credit Level: U. Credit Hrs: 1.00

23ARTA202**Drawing I**

Continuation of 30FAA201. This class is designed to teach students with no prior drawing experience as well as the advanced student. The basic drawing techniques using line, shape, value, perspective, and composition will be explored. Learning "to see" is the objective of this class. BoK: FA. Credit Level: U. Credit Hrs: 1.00

23ARTA203**Drawing I**

Continuation of 30FAA202. Observation and interpretation of varied subject matter: still life landscape and living forms. Charcoal, pencil, and chalk; other media. Perspective is introduced. BoK: FA. Credit Level: U. Credit Hrs: 1.00

23ARTA211**Painting I**

Study of various techniques. Structure and color application. Varied subject matter. Oil and/or water soluble media. BoK: FA. Credit Level: U. Credit Hrs: 1.00

23ARTA212**Painting I**

Continuation of 30FAA211. Study of various techniques. Structure and color application. Varied subject matter. Oil and/or water soluble media.

Art Appreciation**23ARTA212****Painting I**

BoK: FA. Credit Level: U. Credit Hrs: 1.00

23ARTA213**Painting I**

Continuation of 30FAA212. Designed to provide both aesthetic and practical use of water based techniques and skills to beginners and advanced students as well. The precept that art is an essential tool to the student's emotional growth and stresses the importance of studio courses of art imagery and techniques. BoK: FA. Credit Level: U. Credit Hrs: 1.00

23ARTA227**Life Drawing**

A study of human anatomy and the figure using a variety of drawing media in the context of fine art. BoK: FA. Credit Level: U. Credit Hrs: 1.00

23ARTA228**Life Drawing**

Continuation of 30FAA227. A study of human anatomy and the figure using a variety of drawing media in the context of fine art. BoK: FA. Credit Level: U. Credit Hrs: 1.00

23ARTA229**Life Drawing**

Continuation of 30FAA228. A study of human anatomy and the figure using a variety of drawing media in the context of fine art. BoK: FA. Credit Level: U. Credit Hrs: 1.00

23ARTA251**Archival Materials For the Artist**

This is an introductory class for the working artist, student or collector who wants to know more about the range of materials used in making artwork and what constitutes archival quality. Pass/Fail. BoK: NA. Credit Level: U. Credit Hrs: 1.00

23ARTA252**Collage as an Art Form**

This course will explore a variety of techniques and materials used in collage. BoK: NA. Credit Level: U. Credit Hrs: 1.00

23ARTA286**American Art: 1776-1900**

Painting, sculpture, and architecture in the United States from the Revolution to 1890. Transfer Module. BoK: FA, HP. Credit Level: U. Credit Hrs: 3.00

23ARTA287**American Art: 1900-1945**

From Ashcan School through abstract expressionism. Transfer Module. BoK: FA, HP. Credit Level: U. Credit Hrs: 3.00

23ARTA288**Contemporary Art**

Study of art forms which have emerged since 1945. Transfer Module. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23ARTA289**Symbolist Movement in Art**

Themes and theories of Symbolism. Emphasis on leading turn-of-the-century artists such as Gauguin, Hodler, Munch, Ensor, Redon, Moreau, Klimt, and others. Transfer Module. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23ARTA290**Current Art Scene**

Fourth Street and beyond. The ideas, issues, and aesthetics behind the arts on view in Cincinnati galleries, museums, and studios. Course will include some visits to galleries or studios, and meeting with practicing artists, curators, and critics. BoK: FA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Art Appreciation**23ARTA348****Myth and Symbolism in Religious Art**

A discussion of religious artworks and their meaning from many religions and time periods. This course will show a commonality between the visual iconography of various religious groups and illustrate how art and religion are closely linked both as ceremonial tools and demonstrations of one's devoutness. Prereq: 30RELG101. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23ARTA379**Sculpture Foundry**

A course dealing with the basic techniques of casting art objects in aluminum or bronze. BoK: NA. Credit Level: U. Credit Hrs: 2.00

23ARTA497**Independent Study**

Please complete and submit an Independent Study Application Form which is available from the College Registration Office. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23ARTA498**Independent Study**

Please complete and submit an Independent Application Form available from the college office. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23ARTA499**Independent Study**

Please complete and submit an Independent Application Form available from the college office. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23ARTA532**Art Interpretation**

Literal and metaphoric interpretation of 20th century American paintings. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

23ARTA577**Thinking: Visual Component**

Brain research and cognitive studies provide the background for studying the two different ways the brain processes information and for studying ways to improve visualizing capability in art-related or in non-art related endeavors. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23ARTA580**Socialization of Values: The Visual Component**

The role of beliefs and values in the socialization process as they relate to the created visual environment. Major characteristics of high and popular culture, their publics and creators will be explored in light of social forces politics, economics, and the subliminal power of media. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

23ARTA776**Generic Research Methods**

Introductory course in thinking about research: purposes, problems, research questions, hypotheses, and conjectures, kinds of research methods available, and underlying philosophies. Credit Level: G. Credit Hrs: 3.00

Art Education**23ARTE287****Independent Studies**

Individual project in collaboration with a faculty member on subject of mutual interest; based on written proposal. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23ARTE289**Independent Studies**

Individual project in collaboration with a faculty member on subject of mutual interest; based on written proposal. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23ARTE387**Independent Studies**

Individual project in collaboration with a faculty member on subject of mutual interest; based on written proposal. BoK: NA. Credit

Art Education**23ARTE387****Independent Studies**

Level: U. Credit Hrs: 1.00-3.00

23ARTE389**Independent Studies**

Individual project in collaboration with a faculty member on a subject of mutual interest; based on written proposal. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23ARTE487**Independent Studies**

Individual project in collaboration with a faculty member on subject of mutual interest; based on written proposal. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23ARTE489**Independent Studies**

Individual project in collaboration with a faculty member on a subject of mutual interest; based on written proposal. Prereq: as free elective: instructor and advisor's perm; as overload: 2.5 cumulative average and instr and advisor's approval. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23ARTE530**Field Experience with Saturday School**

First-hand experience teaching children and adolescents that includes Saturday mornings during the last six weeks of the term. This course is taught in conjunction with Content I. May include museums and other educational settings "outside school walls." Coreq: 23ARTE710. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

23ARTE531**Field Experience**

First-hand experience teaching children and adolescents in public and/or private schools. This course is taught in conjunction with Content II during the winter term. Coreq: 23ARTE711. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

23ARTE532**Field Experience**

First-hand experience teaching children and adolescents in public and/or private schools. This course is taught in conjunction with Content III during the spring term. Coreq: 23ARTE712. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

23ARTE541**Student Teaching and Seminar**

Weekly seminar supports student teaching through sharing of experiences related to art curriculum and instruction, classroom management and student discipline, intra and interpersonal issues with school personal. Visiting speakers and guidance in writing resumes, interviewing for jobs, and preparing paperwork for licensure. Prereq: 23ARTE712, 23ARTE532. BoK: DC, SS. Credit Level: U, G. Credit Hrs: 1.00

23ARTE542**Student Teaching and Seminar**

Weekly seminar supports student teaching through sharing of experiences related to art curriculum and instruction, classroom management and student discipline, intra and interpersonal issues with school personal. Visiting speakers and guidance in writing resumes, interviewing for jobs, and preparing paperwork for licensure. Prereq: 23ARTE712, 23ARTE532. BoK: DC, SS. Credit Level: U, G. Credit Hrs: 1.00

23ARTE546**Community-Based Environmental Art**

"Service learning," interdisciplinary, lecture- studio course that integrates fine art, design, urban planning and art education. Students team with urban/rural youth to design public/ environmental art that mitigates blight, builds community, and helps improve prospects of the youth. Optional summer course is offered to implement the works

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Art Education**23ARTE546****Community-Based Environmental Art**

designed. BoK: FA., SE. Credit Level: U, G. Credit Hrs: 4.00

23ARTE548**Global Art**

Students explore the impact of the system of globalization in art and education with an emphasis on cultural awareness and dialogue. BoK: FA., DC. Credit Level: U, G. Credit Hrs: 3.00

23ARTE550**Museum Internship**

Provides students opportunities to experience art education programs offered in the museum first hand. Students work as "interns", assisting museum educators to implement programs designed specifically to engage children and adolescents with original works of art. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

23ARTE560**Student Teaching**

Observation, participation, teaching (internship) under supervision of a cooperating classroom teacher (mentor) and university supervisor. Minimum of 18 clock hours actual teaching required for each hour of credit given. Prereq: 23ARTE712, 23ARTE532. BoK: NA. Credit Level: U, G. Credit Hrs: 7.00-14.00

23ARTE561**Student Teaching**

Observation, participation, teaching (internship) under supervision of a cooperating classroom teacher (mentor) and university supervisor. Minimum of 18 clock hours actual teaching required for each hour of credit given. Prereq: 23ARTE712, 23ARTE532. BoK: NA. Credit Level: U, G. Credit Hrs: 7.00-14.00

23ARTE600**Teaching Art in an Age of Technology**

Explores basic and advanced computer literacy skills applied in teaching art K-12. Students survey current issues in computer technology while learning to use contemporary digital equipment and programs. Students examine Internet resources for art curriculum writing, presentation, and web design BoK: SS. Credit Level: G, U. Credit Hrs: 3.00

23ARTE650**Portfolio Development**

Instruction to help students prepare an art education portfolio that synthesizes knowledge, skills, and dispositions in art and pedagogy developed through the art education curriculum. A successful review of the completed portfolio, for which this course provides preparatory instruction, is now required for licensure to be granted. BoK: NA. Credit Level: G, U. Credit Hrs: 2.00

23ARTE651**Portfolio Presentation**

Presentation of art education portfolio that synthesizes knowledge, skills, and dispositions in art and pedagogy developed through the art education curriculum. A successful review of the completed portfolio is required for licensure to be granted. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00

23ARTE774**History of Art Education**

The development of art education in American schools, related to changes in culture, education and art. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

23ARTE710**Art Education Content I**

Introduction to the dynamics of teaching and learning about pluralistic forms and processes of art making. Students examine how learning about objects and artifacts relates to children and adolescents' perception, cognition, and interpretation processes. Credit Level: G. Credit Hrs: 4.00

Art Education**23ARTE711****Art Education Content II**

Critical and historical inquiry into art; relationship to creating and to philosophical inquiry; multi-cultural approaches; contextual criticism; inquiry skills; questioning techniques; historiography; resources; discussions; motivation; integration of other subjects. Prereq: 23ARTE710. Credit Level: G. Credit Hrs: 4.00

23ARTE712**Art Education Content III**

This course focuses on the nature of philosophical inquiry and cross-cultural aesthetics. Students reflect on their own aesthetic beliefs and values and explore methods for introducing aesthetics in educational settings. Prereq: 23ARTE711. Credit Level: G. Credit Hrs: 4.00

23ARTE720**Multicultural Art Education**

Students will examine theories, goals, and objectives of multicultural, intercultural, intracultural, and pluralistic art education in the United States. Key concepts like race, ethnicity, class, and gender will be examined through an inquiry-based approach. Identity, representation, and relationships between knowledge and power will be explored. Students will look at and analyze curricula and resources for teaching art from a multicultural perspective, and write a paper that focuses on a current, key topic in multicultural art education. Credit Level: G. Credit Hrs: 3.00

23ARTE788**Graduate Seminar in Art Education**

Examination of current issues in art education. Study of various philosophies to generate different views on how art education should proceed. Critical analysis of literature advocating the different views. Credit Level: G. Credit Hrs: 3.00

23ARTE789**Curriculum and Program Development in Art Education**

Issues, options and techniques for comprehensive curriculum design and development. Credit Level: G. Credit Hrs: 3.00

23ARTE790**Culminating Project**

"Capstone experience" of M.A. program. The project takes the form of a paper that demonstrates student's ability to synthesize and apply knowledge and cognitive skills acquired in the program. Credit Level: G. Credit Hrs: 3.00

23ARTE804**Directed Readings**

Selected readings related to student's research focus. Written contract required before qtr begins. Credit Level: G. Credit Hrs: 1.00-6.00

23ARTE806**Directed Readings**

Selected readings related to student's research focus. Written contract required before quarter begins. Credit Level: G. Credit Hrs: 1.00-15.00

23ARTE835**Art and Social Responsibility**

Graduate seminar that examines art in contemporary societies and its impact on art education. Course focuses on art and culture as affected by, for example, gender, social class, sexual orientation, disability, and ethnicity within a framework of social justice Credit Level: G. Credit Hrs: 3.00

23ARTE872**Individual Study in Art Education**

Individual work on a problem in art education. (Primarily for advanced students.) Credit Level: G. Credit Hrs: 1.00-6.00

23ARTE971**Doctoral Dissertation Research**

Research directed toward topic development and completion of doctoral dissertation (Ed.D.) as it specifically pertains to art education.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Art Education**23ARTE971****Doctoral Dissertation Research**

Written contract required before quarter begins. Offered each quarter.

Credit Level: G. Credit Hrs: 1.00-15.00

Art History**23ARTH111****History of Art I: Ancient-Early Medieval**

Survey of art and architecture in the ancient world and medieval Europe until about A.D. 1100. Transfer Module. BoK: DC, HP. Credit Level: U.

Credit Hrs: 3.00

23ARTH111H**History of Art I: Ancient-Early Medieval**

Survey of art and architecture in the ancient world and medieval Europe until about A.D. 1100. Transfer Module. BoK: DC, HP. Credit Level: U.

Credit Hrs: 3.00

23ARTH112**History of Art II: Romanesque-Renaissance**

Survey of European art and architecture from about 1100 to 1600.

Transfer Module. BoK: DC, HP. Credit Level: U. Credit Hrs: 3.00

23ARTH112H**History of Art II: Romanesque-Renaissance**

Survey of European art and architecture from about 1100 to 1600.

Transfer Module. BoK: DC, HP. Credit Level: U. Credit Hrs: 3.00

23ARTH113**History of Art III: Seventeenth-Twentieth Centuries**

Survey of European and American art and architecture from 1600 to the present. Transfer Module. BoK: DC, HP. Credit Level: U. Credit Hrs:

3.00

23ARTH113H**History of Art III: Seventeenth-Twentieth Centuries**

Survey of European and American art and architecture from 1600 to the present. Transfer Module. BoK: DC, HP. Credit Level: U. Credit Hrs:

3.00

23ARTH140**Survey of East Asian Art**

This introductory course covers the major monuments of Indian, Chinese, and Japanese art from the prehistoric period to the present. It is designed to offer a broad overview of the visual and spiritual traditions of East Asia with special focus on Buddhist art and later developments in secular art. Lectures will be supplemented by videos, demonstrations, and visits to the Cincinnati Art Museum. BoK: HP., DC. Credit Level: U. Credit Hrs: 3.00

23ARTH191**Modern Painting and Sculpture**

Survey of the major artists and monuments from Post-Impressionism to the present, including works by Picasso, Matisse, Kandinsky, Moore, Pollock, De Kooning. Transfer Module. BoK: HP. Credit Level: U. Credit

Hrs: 3.00

23ARTH223**Medieval Art II**

European art and architecture from the beginning of the Romanesque period until the end of the Middle Ages. BoK: HP. Credit Level: U. Credit

Hrs: 3.00

23ARTH224**Early Medieval Architecture**

Churches, places and fortifications in Europe from the beginning of the fourth century to the year 1000. BoK: HP. Credit Level: U. Credit Hrs:

3.00

23ARTH247**Study Abroad Seminar**

Selected topics and travel experience designed to introduce students to the nature of university life, to globalization issues, and to several disciplines and/or professions through an experience abroad. Perm of

Art History**23ARTH247****Study Abroad Seminar**

Instructor. BoK: FA, HP. Credit Level: U. Credit Hrs: 4.00

23ARTH270**Asian Art I: China**

This intermediate undergraduate course offers a survey of Chinese architecture, sculpture, and painting from the prehistoric era to the present. Through lectures, class discussions, and videos, students will gain basic understanding of major artistic styles and visual principles in Chinese art. BoK: HP., DC. Credit Level: U. Credit Hrs: 3.00

23ARTH271**Asian Art II: Japan**

Introduction to the art of Japan. BoK: HP., DC. Credit Level: U. Credit Hrs: 3.00

23ARTH314**Approaches to Art History**

Introduction to the aims, history, and methods of art historical research. Emphasis on analytical techniques, various approaches, key scholars, and the ways Art History is practiced. BoK: HP. Credit Level: U. Credit Hrs: 3.00

23ARTH355**History of European Baroque Art I: The Art and Architecture of Italy, France, England, & Germany**

One of two courses designed to provide a solid overview of the Baroque period and culture, by introducing and focusing on the principles and characteristics of Baroque art and architecture, and then by exploring in detail how the Baroque took shape in the context of the various countries of Europe. Part one focuses on Baroque art in Italy, France, England, and Germany, while Part two covers Flemish, Dutch, and Spanish Baroque art. Prereq: 23ARTH113. BoK: DC. Credit Level: U. Credit Hrs: 3.00

23ARTH356**History of European Baroque Art II: Flemish, Dutch and Spanish Art**

One of two courses designed to provide a solid overview of the Baroque period and culture, by introducing and focusing on the principles and characteristics of Baroque art and architecture, and then by exploring in detail how the Baroque took shape in the context of the various countries of Europe. Part one focuses on Baroque art in Italy, France, England, and Germany, while Part two covers Flemish, Dutch, and Spanish Baroque art. Prereq: 23ARTH113. BoK: DC. Credit Level: U. Credit Hrs: 3.00

23ARTH371**Nineteenth Century Art to 1850**

Neoclassicism and Romanticism in European and American painting and sculpture, with emphasis on works by David, Ingres, Goya, Delacroix, Geraint, Constable, and Turner. BoK: HP. Credit Level: U. Credit Hrs: 3.00

23ARTH372**Nineteenth Century Art: 1850 to 1900**

Realism, Impressionism, Post-Impressionism, Symbolism, and Early Expressionism in European and American painting and sculpture, with emphasis on Courbet, Monet, Renoir, Gauguin, Van Gogh, and Munch. BoK: HP. Credit Level: U. Credit Hrs: 3.00

23ARTH384**Two Hundred Years of American Art: 1776-1976**

Painting, sculpture, and architecture in the United States from the Revolution to the present. BoK: HP. Credit Level: U. Credit Hrs: 3.00

23ARTH387**Independent Study**

Individual projects in collaboration with a faculty member on subjects of mutual interest, based on written proposal. Prereq: As a free elective, instructor's and adviser's approval; as overload, 2.5 cumulative average and instructor's and adviser's approval. Perm of Instructor. BoK: NA.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Art History**23ARTH387****Independent Study**

Credit Level: U. Credit Hrs: 1.00-3.00

23ARTH397**Public Art and Funding in the US**

To familiarize students with key issues involving public art and public funding in the U.S. by examining selected topics. BoK: HP. Credit Level: U. Credit Hrs: 3.00

23ARTH481**Seminar in Art History**

Required course for Art History majors only. Survey of history of field, with emphasis on contemporary method logics. BoK: HP. Credit Level: U. Credit Hrs: 3.00

23ARTH510**Philosophy and Performance**

This upper-level undergraduate and graduate course (500-level) explores philosophical thinking about performance, art, politics, and identity from a range of historical and cultural perspectives. Theoretical work is rigorous, and students will engage texts, media presentations, and live performance (as both spectators and performers). In addition to written assignments, projects, and possible field trips, students are required to participate in solo and ensemble performances. BoK: DC., SE. Credit Level: U, G. Credit Hrs: 3.00-4.00

23ARTH533**Northern Painting I**

A study of painting in the Netherlands, c. 1400-1600 with emphasis on Rubens, Weyden, Bosch, and Bruegel. Rembrandt, portrait, landscape, and genre painting. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00-4.00

23ARTH535**Northern Painting II**

A study of 17th century Netherlandish painting with emphasis on Rubens, Rembrandt, portrait, landscape, and genre painting. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00-4.00

23ARTH550**History of Japanese Prints I**

This dual-level course is the first half of a two-quarter survey of Japanese woodblock prints. Prints from the eighteenth and nineteenth centuries will be the focus of this course. In addition to stylistic development of the prints, special attention will also be paid to the cultural milieu in which woodblock prints arose and flourished -- especially the literary circle, the world of theatre, and the pleasure quarters in the city of Edo. The course will include visits to the Cincinnati Art Museum. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00-4.00

23ARTH551**History of Japanese Prints II**

This is the second part of the two-quarter course on the history of Japanese prints. It will cover the prints from the second half of the nineteenth century to the present. Modern and contemporary Japanese painting and prints have been increasing- increasingly attracting the attention of scholars and collectors in the last few decades. In the first few meetings, students will be given an overview of Edo period prints. They will also be introduced to various currents in modern Japanese art including painting in both Japanese and Western styles. The rest of the quarter will be devoted to investigations of the revival of wood block prints from the nineteenth and early twentieth centuries and the subsequent cross- pollination between Japanese prints and contemporary European woodcuts. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00-4.00

23ARTH562**African American Art, 1945-present**

African-American painting, sculpture, prints, photography, performances, installations, environments, videos, and street art from 1945 to present. Issues include civil rights, antiwar, and women's movements. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00-4.00

Art History**23ARTH562****African American Art, 1945-present**

African-American painting, sculpture, prints, photography, performances, installations, environments, videos, and street art from 1945 to present. Issues include civil rights, antiwar, and women's movements. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00-4.00

23ARTH564**History of Photography**

Traces the development of photography in the Western world from early experiments and inventions in the 18th century to the latest technology in the 1940s. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00-4.00

23ARTH567**Video Art**

Survey of recent work in Video Art. Each week the class will look at video, interactivity, politics, or responses to broadcast media. Each week the class will screen and discuss original examples of video art, from a variety of decades, all dealing with aspects of that week's topic. In addition to these screenings, each week several students will be tasked to do short presentations on contemporary artists working in other media, whose work connects to the theme. Weekly reading assignments will prepare students for work to be presented and discussed in the following week. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

23ARTH581**Spatial Politics**

This course provides an overview of art and architecture from the 1950s to today in relation to understandings of place and spatiality that have dominated critical debates in recent decades. Focus in this course falls to contemporary cultural works and terminology. BoK: HU., DC. Credit Level: U, G. Credit Hrs: 3.00-4.00

23ARTH584**Elective Studies in Art History**

Selected special topics in art historical studies. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00-4.00

23ARTH585**Twentieth Century Art I**

Development of new forms and ideas in the art of Matisse, Kandinsky, Mondrian, and the Futurists. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00-4.00

23ARTH586**Twentieth Century Art II**

Dada-Surrealist painting, performance, writings. Abstract expressionist painting in America. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00-4.00

23ARTH587**Twentieth Century Art III**

Art of the 60s and current trends; varieties of expression and a study of the criticism. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00-4.00

23ARTH588**Contemporary Art and Theory**

a survey of art of the past two decades with special attention to key issues informing artistic practice in the visual arts today BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

23ARTH730**Folk/Outsider/Self-Taught Art**

The class will consider ways in which modern American identity is formed & maintained, the defining of marginalized social groups as "other" & the collecting of their artifacts as art. We'll examine aesthetic works displayed in galleries, by collectors, & analyzed by art critics & historians. Credit Level: G. Credit Hrs: 4.00

23ARTH750**Historiography**

This seminar examines the history of Art History from its inception to the present, highlighting significant methodologies and specific art historians. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Art History**23ARTH751****Research Seminar**

Required of all first-year graduate students. Discussion of art historical methods and use of research tools, followed by a survey of major contemporary schools of art-historical research. Credit Level: G. Credit Hrs: 4.00

23ARTH752**Thesis Colloquium**

Thesis Colloquium and Professional Practices Seminar. Designed to guide students through the thesis process by getting the proposal approved and writing the introduction and a chapter, and familiarize them with current practices in the field regarding professional organizations, conferences, and publications. Required of all students. Prereq: 23ARTH751. Credit Level: G. Credit Hrs: 4.00

23ARTH791**Independent Study**

An individual project in collaboration with a faculty member on a subject of mutual interest. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-4.00

23ARTH802**Rembrandt**

An examination of the life, paintings, and graphic works of Rembrandt, and a study of the place of the artist in 17th-century art. Credit Level: G. Credit Hrs: 4.00

23ARTH804**Collection Management: Registration and Conservation**

In depth examination of principles and practices of managing collections in museums. Also includes a section on the study of the treatment and materials used by conservators to protect and restore museum objects. Credit Level: G. Credit Hrs: 4.00

23ARTH805**Colonialism, Postcolonialism, Globalism, and Exhibition**

A seminar dealing with contemporary postcolonial theory and criticism in relation to the history of exhibitions of the 19th and 20th Centuries, spanning the spectacular display of so-called primitive arts and peoples to now-contemporary state-sponsored biennials. Credit Level: G. Credit Hrs: 4.00

23ARTH806**Curating Architecture**

Addresses the increasing extent to which artists, galleries and museums are exhibiting or are incorporating innovative forms of interior design in installation work as display strategies. Credit Level: G. Credit Hrs: 4.00

23ARTH807**Dissolving The White Cube**

A course on the evaluation of contemporary curating from the debates in the 1960s around the concept of the gallery as white cube to the post-studio practices of the present. Credit Level: G. Credit Hrs: 4.00

23ARTH808**Exhibition Planning and Design**

Study of the exhibition planning & design process, label writing, design & display methods, lighting, publications, public programming and outreach. Special consideration will be given to the challenges museums face in presenting material from other cultures. Credit Level: G. Credit Hrs: 4.00

23ARTH809**Museum Education**

A comprehensive study of developments in museum educational initiatives of the last 30 years with a particular emphasis on recent attempts by museums to expand their reach into more diverse ethnic and economic communities. Evaluation of the effectiveness of technology in applied Museum Ed. Credit Level: G. Credit Hrs: 4.00

Art History**23ARTH838****Japanese Aesthetics**

This course specifically deals with various aspects of the aesthetic sensibilities that characterized Japanese art from the eleventh century to the seventeenth century. The period between the 1000s and the 1600s was the time when most of the artistic, religious, and literary concepts that characterize Japanese painting came into being. Students will study those major concepts by examining primary and secondary sources by artists, art historians, and authors. Credit Level: G. Credit Hrs: 4.00

23ARTH839**Modern Japanese Art, 1850-1940**

This is a seminar on Japanese art of the 19th century and the first half of the 20th century, a time of tremendous cultural turmoil. In this class students will investigate the rise of bipartisan-ship in the world of painting-Japanese style and Western style- with a view to the intellectual and sociopolitical backgrounds. They will also examine recent scholarship on other media, such as wood- block prints, graphic design, and photography, to gain a deeper understanding of the complexity of modern Japanese visual culture. Credit Level: G. Credit Hrs: 4.00

23ARTH845**Northern Baroque Painting: Rubens**

An in-depth study of Peter Paul Rubens and his place in Flemish art during the seventeenth century. Credit Level: G. Credit Hrs: 4.00

23ARTH848**Dutch History/Genre Painting**

A study of 17th century Dutch history and/or genre painting. Credit Level: G. Credit Hrs: 4.00

23ARTH865**Museum Management**

Introduction to the theory and practice of museum operations. Topics include: collection care; exhibition and education program development; ethics; tax and legal issues; fund raising; budgeting; strategic planning; audience facilities; board and staff roles and responsibilities. Credit Level: G. Credit Hrs: 4.00

23ARTH870**Collection Management**

In-depth examination of principles and practices of managing collections in museums, including: accessing, cataloging, documentation, storage, loans, insurance, computerization, etc Credit Level: G. Credit Hrs: 4.00

23ARTH871**Interpretation of Collections**

Comprehensive study of the ways in which museums use their collections to provide educational experiences for visitors. Prereq: 23ARTH865. Credit Level: G. Credit Hrs: 4.00

23ARTH872**Problems in Museum Administration**

Investigation of current issues in the museum field considered within a comprehensive context; the conceptualization, definition, and development of a museum organization from mission statement to facility. Prereq: 23ARTH865. Credit Level: G. Credit Hrs: 4.00

23ARTH873**Conservation Methods**

Study of the treatment methods and materials used to restore museum objects, as well as preventative measures used to reduce deterioration. Prereq: 23ARTH865. Credit Level: G. Credit Hrs: 4.00

23ARTH874**Technology in Museums**

Examination of the role of computers in museum- specific applications, such as collections, exhibitions, fund raising, internet, educational programming, etc. Prereq: 23ARTH865. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Art History**23ARTH875****Graduate Museum Internship**

200-hour placement at a museum in which students gain practical experience in museum operations, geared toward career goals of individual students. Placement is arranged through certificate program director, with supervision and evaluation by student, museum supervisor, and program director. Prereq: 23ARTH865. Credit Level: G. Credit Hrs: 2.00-4.00

23ARTH879**Topical Graduate Seminar**

Selected graduate topics in art history studies. Credit Level: G. Credit Hrs: 4.00

23ARTH890**Directed Research**

This course allows graduate students to conduct advanced research for faculty who are working on specific, substantial projects such as books or exhibitions. Students have the unusual opportunity to gain in-depth knowledge about a particular area of study, such as a period in art history, an individual artist, or a style, by conducting research using primary source materials in local and regional archives, libraries, and museums. Credit Level: G. Credit Hrs: 4.00

23ARTH891**Thesis**

Research and writing of the Master's thesis. Credit Level: G. Credit Hrs: 1.00-12.00

23ARTH892**Thesis**

Research and writing of the Master's thesis. Credit Level: G. Credit Hrs: 1.00-12.00

23ARTH893**Thesis**

Research and writing of the Master's thesis. Credit Level: G. Credit Hrs: 1.00-12.00

23ARTH898**Art of Collecting**

This course examines the history of collecting art, and other cultural material, by individuals and institutions. We will study patterns of intention and behavior among the great art collectors/philanthropists in the West. We'll analyze of international, national and local acclaim. Credit Level: G. Credit Hrs: 4.00

Digital Design**23DGTL201****Digital Design I**

Studio course. Study of formal visual principles and visual systems design strategies using vector based and interactive tools to develop interactive aesthetics. Prereq: 23FDST101, 23FDST102, 23FDST103. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DGTL202**Digital Design I**

Studio course. Integration of various digital visual forms: drawn, image capture (digital scanning and photography), visual systems, and letterform with concept communication. Prereq: 23DGTL201. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DGTL203**Digital Design I**

Studio course. Exploration of formal visual principles of motion and aesthetics using a vector time-based system. Prereq: 23DGTL202. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DGTL211**Design Ideation I**

Studio course. Exploration of hand and digitally drawn representational image making. Iconic and symbolic systems, interaction, and meaning. Prereq: 23FDST103, 23FDST102, 23FDST101. BoK: FA. Credit Level:

Digital Design**23DGTL211****Design Ideation I**

U. Credit Hrs: 3.00

23DGTL212**Design Ideation I**

Studio course. Exploration of interface design concepts. Strategies for the design of interface, development of information architecture, and information design. Prereq: 23DGTL211. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DGTL213**Design Ideation I**

Studio course. Polygonal and surface form generation. Emphasis on aesthetics topics: form, counter form, surface attributes, composition and lighting. Prereq: 23DGTL212. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DGTL221**Digital Image Design I**

Studio course. Fundamentals of photographic technique, technical considerations of digital photography and scanned images. Exploration of the aesthetics of digital image making and manipulation. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DGTL222**Digital Image Design I**

Studio course. Integration of meaning with layered, acquired images. Exploration of degrees of representation and impact on meaning and aesthetics. Prereq: 23DGTL221. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DGTL231**Design Technology I**

Survey of the internet, its history, culture, technology and legal issues. Students are introduced to basic web design and techniques through exercises. Prereq: 23FDST131, 23FDST132, 23FDST133. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23DGTL232**Design Technology I**

Survey and exploration of computers and programming as digital design tools. Students develop a foundational understanding of programming as a formal process through practical exercises. Prereq: 23DGTL231. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23DGTL241**Visible Language Design I**

Studio course. Exploration of the visualization of language in the digital environment. Technical and readability issues. Emphasis on aesthetics and typographic systems. Prereq: 23FDST101, 23FDST102, 23FDST103. BoK: FA, SS. Credit Level: U. Credit Hrs: 3.00

23DGTL242**Visible Language Design I**

Studio course. Exploration of motion and interaction in typography. Emphasis on aesthetics of motion and interaction and their impact on meaning in typographic systems. Prereq: 23DGTL241. BoK: FA, SS. Credit Level: U. Credit Hrs: 3.00

23DGTL251**Audio Design I**

Project based survey of technical considerations of audio recording and digital manipulation and layering. Exploration of audio concepts and theories of meaning. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DGTL270**History of Digital Design**

Historical perspectives of the development of digital media and digitally mediated environments. Survey of the history of information processing hardware, communication systems and networks, aesthetics and information pragmatics, information theory, programming and software. Lecture course. Prereq: 23FDST270. BoK: HP. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Digital Design**23DGTL270****History of Digital Design**

Historical perspectives of the development of digital media and digitally mediated environments. Survey of the history of information processing hardware, communication systems and networks, aesthetics and information pragmatics, information theory, programming and software. Lecture course. Prereq: 23FDST270. BoK: HP. Credit Level: U. Credit Hrs: 3.00

23DGTL271**Digital Design Seminar I**

Research-oriented complement to concurrent studio focusing on consideration of the logical, philosophical, metaphysical, ethical and conceptual underpinnings of design leading toward the formation of a personal design philosophy. BoK: NA. Credit Level: U. Credit Hrs: 2.00

23DGTL272**Digital Design Seminar II**

Seminar course. Research-oriented complement to concurrent studio focusing on consideration of communication concepts: semiotics, linguistics, media types, information types and verbal visual characteristics. Prereq: 23DGTL271. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23DGTL273**Digital Design Seminar III**

Research-oriented complement to concurrent studio focusing on theoretical considerations related to media influence on message. Context considerations, content malleability, mass media, individual user experience, broadcast communication, two-way communication. Prereq: 23DGTL272. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23DGTL280**Multimedia for E-Media**

Principles of interactive multimedia design for Electronic Media majors. Exploration of interactive interface design issues. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23DGTL281**Core Topics**

Issues in various design topics as determined by faculty. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23DGTL282**Core Topics**

Issues in various design topics as determined by faculty. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23DGTL283**Core Topics**

Issues in various design topics as determined by faculty. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23DGTL301**Digital Design II**

Studio course. Exploration of Design and programming of applications for emerging platforms, including embedded and networked environments. Prereq: 23DGTL203. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DGTL302**Digital Design II**

Studio course. Design and programming of interactive real-time 3D. Students examine key technical and aesthetic issues through projects and exercises. Prereq: 23DGTL301. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DGTL311**Design Ideation II**

Studio course. Exploration of visual principals in 3D modeling and ideation. Low polygon as well as production level creation. Prereq: 23DGTL213. BoK: FA. Credit Level: U. Credit Hrs: 3.00

Digital Design**23DGTL312****Design Ideation II**

Studio course. Exploration of 3D animation and ideation. Motion studies and basic character animation. Prereq: 23DGTL311. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DGTL321**Motion Design I**

Studio course. Introduction to visual storytelling using the medium of 2D animation. Digital Storytelling and animatic. Prereq: 23DGTL222. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DGTL322**Motion Design I**

Studio course. Exploration of interactive motion typography with emphasis on dynamic meaning transformation using vector based interactive tools. Prereq: 23DGTL321. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DGTL371**Digital Design Seminar IV**

Research-oriented complement to concurrent studio with focus on issues in narrative structure and the process of storytelling. Prereq: 23DGTL272. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23DGTL372**Digital Design Seminar V**

Research-oriented complement to concurrent studio course, exploring various issues surrounding design for interactive 3D technology and communication. Prereq: 23DGTL371. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23DGTL373**User/Learner Centered Design: Seminar**

Introduction to cognition, learning theory and Usability testing. Time and motion perception. Creation of on-line documentation. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23DGTL388**Independent Studies**

Individual project in collaboration with a faculty member on subject of mutual interest; based on written proposal BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23DGTL401**Digital Design III**

Studio course. Introduction to interactive spaces and environments: advanced interface design. Prereq: 23DGTL302. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DGTL402**Digital Design III**

Studio course. Introduction to interactive narrative. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DGTL411**Design Ideation III**

Studio course. Investigation of advanced 2D and 3D visualization on collaboration projects. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DGTL412**Design Ideation III**

Studio course. Interdisciplinary projects in advanced visualization. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DGTL421**Motion Design II**

Integration of meaning with motion imagery/digital video. Study of aesthetics of motion. Exploration of degrees of representation of motion imagery and impact on meaning and aesthetics. Studio course. Prereq: 23DGTL322. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DGTL422**Motion Design II**

Integration of meaning with layered motion imagery/digital video. Study

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Digital Design**23DGTL422****Motion Design II**

of aesthetics of motion. Exploration of meaning. Studio course. Prereq: 23DGTL421. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DGTL471**Digital Design Seminar VI**

Research-oriented complement to concurrent studio focusing on exploration into Film/Video narrative concepts. Exploration of techniques and concepts behind modern videography and motion design. Prereq: 23DGTL372. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23DGTL472**Digital Design Seminar VII**

Research-oriented complement to concurrent studio focusing on issues pertinent to the professional world. Prereq: 23DGTL471. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23DGTL488**Independent Studies**

Individual project in collaboration with a faculty member on subject of mutual interest; based on written proposal. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23DGTL501**Digital Design IV**

Studio course. Experimentation with and development of novel cross-disciplinary design applications in informatics or global services within a team based problem solving structure. Prereq: 23DGTL402. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DGTL502**Digital Design IV**

Studio course. Extension of 23DGTL501 with alternative pathways. Prereq: 23DGTL501. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DGTL511**Digital Design Methodology**

Studio course. Research, analysis and concept development for required senior capstone project. Prereq: 23DGTL412. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23DGTL512**Digital Design Methodology**

Studio course. Further concept development, modeling, and usability testing for required senior capstone project. Prereq: 23DGTL511. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23DGTL571**Digital Design Seminar VIII**

Research-oriented complement to concurrent studio focusing on research theory and conceptualization in digitally mediated environments. Prereq: 23DGTL472. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23DGTL572**Digital Design Seminar IX**

Research-oriented complement to concurrent studio focusing on research theory, analysis, and design of interactive environment display systems. Prereq: 23DGTL571. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Design**23DSGN100****Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23DSGN172**Photography**

Introductory lectures only, presenting basic principles of camera work in black and white and color photographic techniques. Emphasis on content and composition of photography. BoK: FA. Credit Level: U.

Design**23DSGN172****Photography**

Credit Hrs: 3.00

23DSGN173**Photography II**

A continuation of aesthetic and technical skills. Course study focuses on use of color film, artificial and existing light, and advanced metering technique. Individual investigation for greater personal expression will be encouraged. Students must have a 35mm SLR camera. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN200**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23DSGN201**Visual Literacy**

An introduction to the physiology, psychology and dynamics of visual communication. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN204**Principles of Digital Design I**

Elements and principles of digital design that underline all spacial arts. A hands-on course in digital design using Adobe Illustrator. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN205**Principles of Digital Design II**

Continuation of 23DSGN204. A hands-on course using Adobe Illustrator. Prereq: 23DSGN204. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN219**Digital Video I**

An overview of the basic steps involved in video production process: pre-production, production, post-production. This entails a discussion of the principles of conceptualization, planning, scheduling, budgeting, organization and visualization involved in the pre-production stage of creating a video program. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23DSGN220**Digital Video II**

The course will explore the various theoretical, technical, and aesthetic tasks and decisions involved in digital desktop video editing. Through demonstrations and hands-on sessions, students will become familiar with the processes involved in editing in the digital realm, specifically using the Adobe Premiere. Prereq: 23DSGN219. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23DSGN270**History of Visual Communication**

Chronological survey of visual communication from prehistoric origins to the present digital era. The course will study those pivotal events, achievements, individuals and pioneers that influenced and contributed towards the discipline's visual communication evolution. Presented in an interdisciplinary context, students will learn how visual communication has always been a vital component of cultural periods and human history. They will discover how it constantly responded to (and affected) the cultural, socioeconomic, scientific, political and technology developments. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23DSGN279**Introduction to Computers and Digital Publishing**

A hands-on course in digital publishing. Intended for students who wish to learn the basics of a desktop publishing software program. Features such as style sheets, document importation, drawing and writing tools, and printing will be introduced. Course is part of Applications cluster. Prereq: 23DSGN201. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Design**23DSGN281****International Travel**

International travel to observe universal trends, fashion trends, universal and cultural symbology. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN282**International Travel**

International travel to observe universal trends, fashion trends, universal and cultural symbology. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN283**Digital Illustrating**

Offering an expanded knowledge of graphic design using draw programs this course allows students to enhance their digital publishing skills by becoming proficient in the vector environment. Drawing short-cuts and transformation methods are stressed, along with the building process for object-oriented rendering. Course is part of Applications cluster. Prereq: 23DSGN279. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN288**Digital Painting I**

This class will introduce students to a unique computer program that allows the user to generate traditional mediums like charcoal, oil and water color paints, crayon, pencil, pen and ink, airbrush and much more. Prereq: 23DSGN283. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN289**Digital Painting II**

This class will utilize the Painter 5 program in a unique but traditional setting. Students will sketch and develop illustrations and paintings while working from live models and still lifes while learning traditional rendering skills. Prereq: 23DSGN288. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN300**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23DSGN307**Interactive Animation and Design**

This program has opened many doors for e interactive animation and design static web pages become doorways to movies, audio sounds and more. This program has captured 80% of the Web and is growing every day. Students will have an opportunity to participate and play with vector graphic animation that is easily assembled into scenes for Web animations and interactive CDs. Prereq: 23DSGN283. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN310**Digital Image Editing**

This intensive, hands-on course explores the vast capabilities of Adobe Photoshop, focusing on advanced manipulation techniques for photos and graphics. Participants learn to scan and enhance digital images, use layers, work with channels, and create impressive special effects using filters. Course is part of the Applications cluster. Prereq: 23DSGN283. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN311**Design Visualization**

Two-dimensional visual presentation of design concepts for today's technology using mixed media, emphasizing efficient execution and quality of content. Exercises explore techniques appropriate for various levels of design development, from thumbnail sketches to finished renderings; visual dynamics of function and context and organization. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN312**Design Visualization**

Continuation of 23DSGN311. Advanced exercises similar to 311. Emphasis is on more complex composition and color visualization skills.

Design**23DSGN312****Design Visualization**

BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN313**Design Visualization**

Continuation of 23DSGN312. Emphasis on organization of complete professional design presentations. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN314**Digital 3-D and Animation**

This class will allow students to create frames and render them in 3-D while allowing them to move freely through space in a very visual manner. Prereq: 23DSGN289, 23DSGN310, 30IT289, 30IT310. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN318**Advanced Digital Illustrating and Photo Editing**

Class covers some advanced capabilities of Photoshop and Illustrator not covered in preceding classes. Tips and tricks of both programs help students to understand some step-by-step, hands-on learning that brings the program's more expert functions into a practical, everyday use. Prereq: 23DSGN283, 23DSGN310, 30IT283, 30IT310. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN321**Brand Identity**

A graphic design course focusing on Typography and Logo Signature Marks in the corporate and brand identity arena. The background history, hands-on development and deepened understanding will benefit any designer Prereq: 23DSGN283. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23DSGN351**Intermediate Photography I**

(Formerly Photography for Designers.) Lectures and exercises in photographic lighting to explore both technical and aesthetic effects. Individuals select personal projects to demonstrate their mastery of the lecture material. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN352**Intermediate Photography II**

Continuation of 23DSGN351. Photography in both studio and on-site settings, with emphasis on lighting, staging and composition appropriate to illustrating form and demonstrating features of 3-dimensional objects. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN361**Digital Photography**

An introduction to digital photography offering students an opportunity to integrate photography and art. The skills learned in this class can complement many college majors. This course is one of the requirements in the Applied Design Certificate Program. Prereq: 23DSGN283, 23DSGN310, 30IT283, 30IT310. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN381**International Travel**

International travel to observe universal trends, fashion trends, universal and cultural symbology. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN382**International Travel**

International travel to observe universal trends, fashion trends, universal and cultural symbology. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN400**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Design**23DSGN400****Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23DSGN410**Web Graphic Design**

Web design from a graphic artist/designer perspective. Students will learn to design web pages with design criteria and to implement their designs in html format. Prereq: 23DSGN283, 23DSGN310, 30APDS310, 30IT310. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN419**Programming for Graphic Designers**

This course deals with the programming needs of graphic designers as they work on the WWW. Prereq: 23DSGN205, 23DSGN307, 30IT307. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23DSGN421**Senior Digital Design Project**

This course allows students to integrate all of their course work into one final project. This is intended as a culmination of the program. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN481**International Travel**

International travel to observe universal trends, fashion trends, universal and cultural symbology. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN482**International Travel**

International travel to observe universal trends, fashion trends, universal and cultural symbology. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN499**Independent Study in Design**

Please complete and submit an Independent Study Application form available from the college office. BoK: FA. Credit Level: U. Credit Hrs: 1.00-12.00

23DSGN500**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23DSGN581**International Travel**

International travel to observe universal trends, fashion trends, universal and cultural symbology. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN582**International Travel**

International travel to observe universal trends, fashion trends, universal and cultural symbology. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23DSGN600**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. Credit Level: G. Credit Hrs: 1.00-12.00

23DSGN700**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. Credit Level: G. Credit Hrs: 1.00-12.00

Design**23DSGN701****Studio: Visual Studies I Color Systems**

Introduction to advanced visual studies. Students will examine color systems as parameters and variables leading to an understanding of principles governing the making and use of color as an essential component of visual language used for the embodiment of content. Credit Level: G. Credit Hrs: 3.00

23DSGN702**Studio: Visual Studies II Form Systems**

Students will explore form systems as parameters and variables leading to an understanding of principles governing the making and use of form: dot, line, shape, an essential component of visual language used for the embodiment of content. Credit Level: G. Credit Hrs: 3.00

23DSGN703**Studio: Visual Studies III Multiples Systems**

Students will explore computer encoded form generating systems of parameters and variables that generate multiples leading to an understanding of principles governing the making and use of multiples and the implications for the embodiment of content. Credit Level: G. Credit Hrs: 3.00

23DSGN711**Design Strategy, Theory & Practice**

Introduction to Design as a Strategic problem solving process. Students will explore methods of design thinking that apply to all design disciplines including design thinking, integrated product development, strategy development, translational research and other methods of design practice that apply across disciplines. Principles of collaboration: importance of cross- functional teams, methods for making group decisions and the role of the individual in the design process will be experienced and discussed. Credit Level: G. Credit Hrs: 3.00

23DSGN712**Interaction Design Theory & Practice**

Introduction to Interaction Design. Students will explore the principles of Interaction as a means to embody processes, often with physical products, and measure the effectiveness of the result. Exploration will occur in the context of cross-disciplinary collaboration. Principles of collaboration: importance of relationship, dealing with differences in vocabulary, proper governance styles and shared purpose will be experienced and discussed. Credit Level: G. Credit Hrs: 3.00

23DSGN713**Visualization Design Theory & Practice**

Introduction to Visualization Design. Students will explore the principles of Visualization as a means to embody data and measure the effectiveness of the result. Exploration will occur in the context of cross-disciplinary collaboration with scientific researchers on shared project. Principles of collaboration: importance of relationship, dealing with differences in vocabulary, proper governance styles and shared purpose will be experienced and discussed. Credit Level: G. Credit Hrs: 3.00

23DSGN717**Teaching Practicum**

Supervised experience in curriculum development and classroom teaching, in lecture, seminar, lab, or studio courses. Credit Level: G. Credit Hrs: 1.00-9.00

23DSGN721**CDRI/Consortium Projects**

Exploration of Translational Design Research. Students will explore professional Design Research in the context of a sponsored project related to government or industry. Credit Level: G. Credit Hrs: 3.00

23DSGN722**CDRI/Consortium Projects**

Exploration of Translational Design Research. Students will explore professional Design Research in the context of a sponsored project related to government or industry. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Design**23DSGN723****CDRI/Consortium Projects**

Exploration of Translational Design Research. Students will explore professional Design Research in the context of a sponsored project related to government or industry. Credit Level: G. Credit Hrs: 3.00

23DSGN724**Summer CDRI/Consortium/Professional Projects**

Exploration of Translational Design Research. Students will explore professional Design Research in the context of a Summer-long sponsored project with a client or for government or industry. Credit Level: G. Credit Hrs: 3.00

23DSGN731**Technique Workshop: 3D Modeling & Prototyping**

Introduction to techniques for computationally based 3D modeling. Learning will occur in the context of the Rapid Prototyping Lab. Credit Level: G. Credit Hrs: 1.00

23DSGN732**Technique Workshop: Programming**

Introduction to the basic principles and techniques of Computer Programming. Learning will occur in Processing software environment. Credit Level: G. Credit Hrs: 1.00

23DSGN733**Design Graduate Studies**

Independent study, advanced studio/lab, or thesis- related research in interdisciplinary design. Credit Level: G. Credit Hrs: 1.00-5.00

23DSGN734**Design Graduate Studies**

Independent study, advanced studio/lab, or thesis- related research in interdisciplinary design. Credit Level: G. Credit Hrs: 1.00-5.00

23DSGN741**Digital Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Digital Design. Credit Level: G. Credit Hrs: 1.00-5.00

23DSGN742**Digital Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Digital Design. Credit Level: G. Credit Hrs: 1.00-5.00

23DSGN743**Digital Design Graduate Studies**

Graduate Studies in advanced studio/lab, or thesis-related research in Digital Design. Credit Level: G. Credit Hrs: 1.00-5.00

23DSGN751**Research Methods 1: Exploratory & Constructive**

Introduction to the subject matter of design research: form and people, followed by an overview of Exploratory Research approaches designed to identify new problems and structure a domain. Students will explore qualitative and quantitative research methods including: Interviews, Surveys, Needs Analysis, Card Sorting, Task Analysis, Focus Groups, Ethnographic Field Studies and Action Research. Credit Level: G. Credit Hrs: 3.00

23DSGN752**Research Methods 2: Empirical & Analysis**

Overview of Empirical Research methods designed to test feasibility and measure effectiveness of proposed design solutions. Students will explore principles of experiment design, statistical analysis, probability and hypothesis testing. Credit Level: G. Credit Hrs: 3.00

23DSGN753**Seminar: Applied Research - Thesis Preparation**

Introduction to the requirements and expectations of the graduate Design thesis project. Credit Level: G. Credit Hrs: 3.00

23DSGN754**Seminar: Design Business**

Introduction to the role of design in business. Students will explore

Design**23DSGN754****Seminar: Design Business**

design thinking and design research and their relationship to traditional business thinking and research. Particular attention will be devoted to the role of design in business innovation. Credit Level: G. Credit Hrs: 3.00

23DSGN755**Seminar: Beauty, Design & Business**

Introduction to the role of aesthetics in design and business. Students will explore aesthetic theory from a practical perspective including the place of beauty in the cognitive and emotive dimensions of individual and societal behavior. Credit Level: G. Credit Hrs: 3.00

23DSGN761**Seminar: Basic Design Research - Perception**

Introduction to Perception for Design. Students will understand and appreciate the role of Perception and Cognition in design. Learning will occur in the context of both readings and experimental studies of the parameters of visual form including preattentively processed visual form. Credit Level: G. Credit Hrs: 3.00

23DSGN762**Graduate Design Research Studio I**

Advanced research-oriented studio. Focus may be discipline-based or interdisciplinary. Credit Level: G. Credit Hrs: 4.00

23DSGN763**Graduate Design Research Studio I**

Advanced research-oriented studio. Focus may be discipline-based or interdisciplinary. Credit Level: G. Credit Hrs: 4.00

23DSGN781**Colloquium: Collaboration & Faculty Research Foci**

Introduction to Design Theory. Students will understand key Design Theories, the importance of both Product - design making, and Process - design thinking, and design criteria such as Sustainability and Usability. Students will understand and cultivate a commitment to excellence in the context of an introduction to the School of Design faculty. Credit Level: G. Credit Hrs: 3.00

23DSGN791**Master Class: Visualization**

Exploration of Visualization Design. Students will explore an advanced project involving Visualization Design in the context of a focused week-long experience with a visiting master faculty. Credit Level: G. Credit Hrs: 1.00

23DSGN792**Master Class: Interaction**

Exploration of Interaction Design. Students will explore an advanced project involving interaction Design in the context of a focused week-long experience with a visiting master faculty. Credit Level: G. Credit Hrs: 1.00

23DSGN793**Master Class: Interdisciplinary**

Exploration of Interdisciplinary Design. Students will explore an advanced project involving Interdisciplinary design in the context of a focused week-long experience with a visiting master faculty. Credit Level: G. Credit Hrs: 1.00

23DSGN801**Studio: Visual Studies IV Time Systems**

Students will explore chrono graphic systems of parameters and variables leading to an understanding of principles governing the making and use of time and the implications of time as a means for the embodiment of content. Credit Level: G. Credit Hrs: 3.00

23DSGN802**Graduate Design Seminar II**

Advanced seminar topics on design, technology, society, and environment. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Design**23DSGN803****Graduate Design Seminar II**

Advanced seminar topics on design, technology, society, and environment. Credit Level: G. Credit Hrs: 4.00

23DSGN811**Design Thesis I**

Guidance on individual thesis projects. Credit Level: G. Credit Hrs: 1.00-6.00

23DSGN812**Design Thesis 2**

Guidance on individual thesis projects. Credit Level: G. Credit Hrs: 1.00-6.00

23DSGN813**Design Thesis 3**

Guidance on individual thesis projects. Credit Level: G. Credit Hrs: 1.00-6.00

23DSGN817**Teaching Practicum**

Supervised experience in classroom teaching, in lecture, seminar, lab, or studio courses. Credit Level: G. Credit Hrs: 1.00-9.00

23DSGN821**CDRI/Consortium Projects**

Exploration of Translational Design Research. Students will explore professional Design Research, in the context of a sponsored project related government or industry. Credit Level: G. Credit Hrs: 3.00

23DSGN822**CDRI/Consortium Projects**

Exploration of Translational Design Research. Students will explore professional Design Research, in the context of a sponsored project to government or industry. Credit Level: G. Credit Hrs: 3.00

23DSGN823**CDRI/Consortium Projects**

Exploration of Translational Design Research. Students will explore professional Design Research, in the context of a sponsored project related to government or industry. Credit Level: G. Credit Hrs: 3.00

23DSGN831**Design Graduate Studies**

Independent study, advanced studio/lab, or thesis- related research in interdisciplinary design. Credit Level: G. Credit Hrs: 1.00-5.00

23DSGN832**Design Graduate Studies**

Independent study, advanced studio/lab, or thesis- related research in interdisciplinary design. Credit Level: G. Credit Hrs: 1.00-5.00

23DSGN833**Design Graduate Studies**

Independent study, advanced studio/lab, or thesis- related research in interdisciplinary design. Credit Level: G. Credit Hrs: 1.00-5.00

23DSGN834**Design Graduate Studies**

Independent study, advanced studio/lab, or thesis- related research in interdisciplinary. Credit Level: G. Credit Hrs: 1.00-5.00

23DSGN841**Digital Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Digital Design. Credit Level: G. Credit Hrs: 1.00-5.00

23DSGN842**Digital Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Digital Design. Credit Level: G. Credit Hrs: 1.00-5.00

23DSGN843**Digital Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in

Design**23DSGN843****Digital Design Graduate Studies**

Digital Design. Credit Level: G. Credit Hrs: 1.00-5.00

23DSGN851**Thesis Preparation & Coordination**

Guidance on individual thesis projects with emphasis on the thesis preparation and defense. Credit Level: G. Credit Hrs: 3.00

23DSGN861**Graduate Design Research Studio II**

Advanced research-oriented studio. Focus may be discipline-based or interdisciplinary. Credit Level: G. Credit Hrs: 4.00

23DSGN862**Graduate Design Research Studio II**

Advanced research-oriented studio. Focus may be discipline-based or interdisciplinary. Credit Level: G. Credit Hrs: 4.00

23DSGN863**Graduate Design Research Studio II**

Advanced research-oriented studio. Focus may be discipline-based or interdisciplinary. Credit Level: G. Credit Hrs: 4.00

23DSGN881**Colloquium: Knowledge Theory & Generation**

Exploration of the roles of research in design. Students will review Exploratory/Basic Research, Constructive/Translational research and Empirical /Evaluative research and evaluate their roles in knowledge generation. Students will understand how to formulate Theory from Research Findings. Study will occur in the context of forming a theory and reporting findings. Credit Level: G. Credit Hrs: 3.00

23DSGN882**Colloquium: Knowledge Building & Scholarship**

Students will reflect and review the graduate experience from the viewpoint of Scholarship and the generation of new Knowledge. Students will understand academic writing and the Peer Review Process, develop skill in writing and presenting. Study will occur in the context of reporting thesis findings. Credit Level: G. Credit Hrs: 3.00

23DSGN891**Master Class: Visualization**

Exploration of Visualization Design. Students will explore an advanced project involving Visualization Design in the context of a focused week-long experience with a visiting master faculty. Credit Level: G. Credit Hrs: 1.00

23DSGN892**Master Class: Interaction**

Exploration of Interaction Design. Students will explore an advanced project involving Interaction Design in the context of a focused week-long experience with a visiting master faculty. Credit Level: G. Credit Hrs: 1.00

23DSGN893**Master Class: Interdisciplinary**

Exploration of Interdisciplinary Design. Students will explore an advanced project involving Interdisciplinary Design in the context of a focused week-long experience with a visiting master faculty. Credit Level: G. Credit Hrs: 1.00

Fine Arts - Art**23FAA101****Methods and Concepts I**

Basic principles for visual communication with an emphasis on visual perception as it relates to art. Introduction to 2D and 3D materials. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA102**Methods and Concepts II**

Basic principles of color, covering theory and application. Prereq: 23FAA101. BoK: FA. Credit Level: U. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Fine Arts - Art**23FAA103****Methods and Concepts III**

Exercises introducing diverse functions and meanings of art and design, with an emphasis on basic compositional principles. Prereq: 23FAA102. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA105**Digital Foundations I**

A three-quarter sequence of two credit courses that will focus on the theoretical and practical application of computers while building general skills and exposing the student to a wide array of software. The course will progress from general computing concepts to 2-D graphical representation then culminating in a 3-D animation and video production. Students will learn general concepts during a lecture portion of the class then apply these concepts utilizing specific software in a lab component of the class. BoK: NA. Credit Level: U. Credit Hrs: 2.00

23FAA106**Digital Foundations II**

A three-quarter sequence of two credit courses that will focus on the theoretical and practical application of computers while building general skills and exposing the student to a wide array of software. The course will progress from general computing concepts to 2-D graphical representation then culminating in a 3-D animation and video production. Students will learn general concepts during a lecture portion of the class then apply these concepts utilizing specific software in a lab component of the class. BoK: NA. Credit Level: U. Credit Hrs: 2.00

23FAA107**Digital Foundations III**

A three-quarter sequence of two credit courses that will focus on the theoretical and practical application of computers while building general skills and exposing the student to a wide array of software. The course will progress from general computing concepts to 2-D graphical representation then culminating in a 3-D animation and video production. Students will learn general concepts during a lecture portion of the class then apply these concepts utilizing specific software in a lab component of the class. BoK: NA. Credit Level: U. Credit Hrs: 2.00

23FAA222**Current Arts Forum**

Discussion and analysis of artists' work and ideas to assist in understanding the nature of art and art making. BoK: FA. Credit Level: U. Credit Hrs: 2.00

23FAA241**Basic Drawing I**

An intensive drawing course. Basic problems in the observation and interpretation of form with concern for space, line, volume, shape, and composition. Varied subject matter and media. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA242**Basic Drawing II**

Continuation of Basic Drawing I. Basic problems in the observation and interpretation of form, with the added study of basic color principles. Varied subject matter and media. Prereq: 23FAA241. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA243**Basic Drawing III**

Continuation of Basic Drawing II. Basic problems in the observation and interpretation of form, with added emphasis on stylistic approaches. Varied subject matter and media. Prereq: 23FAA242. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA311**Introductory Ceramics: Handbuilding**

Introduction of basic properties and techniques of clay. Course includes all basic handbuilding techniques as well as glaze application.

Fine Arts - Art**23FAA311****Introductory Ceramics: Handbuilding**

Prereq: 23FAA243, 23FAA103. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA312**Introductory Ceramics: Handbuilding**

Introduction of basic properties and techniques of clay. Course includes all basic handbuilding techniques as well as glaze application. Prereq: 23FAA243, 23FAA103. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA321**Life Drawing I**

Intensive study of human anatomy. The human figure as a vehicle for drawn images. Prereq: 23FAA243, 23FAA103. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA322**Life Drawing II**

Continuing study of the human anatomy. The human figure as a vehicle for drawn images. Prereq: 23FAA321, 23FAA103, 23FAA243. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA324**Introduction to Animation Art**

Introductory work in the use of animation as a medium for artistic expression. Studio course in which students create works of art and study the practice of professional artists working in this field. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA325**Introduction to Game Art**

Introductory work in the use of computer games as a medium for artistic expression. Studio course in which students create works of art and study the practice of professional artists working in this field. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA326**Introduction to Internet Art**

Introductory work in the use of the Internet as a platform for artistic expression. Studio course in which students create works of art and study the practice of professional artists working in this field. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA327**Introduction to Programming for Artists**

Introductory work in the use of computer programming as a medium for artistic expression. Studio course in which students create works of art and study the practice of professional artists working in this field. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA328**Introduction to Sound Art**

Introductory work in the use of sound as a medium for artistic expression. Studio course in which students create works of art and study the practice of professional artists working in this field. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA329**Introduction to Video for Artists**

Introductory work in the use of video as a medium of artistic expression. Studio course in which students create works of art and study the practice of professional artists working in this field. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA330**Intermediate Drawing**

Exploration in drawing through a broad range of media, processes, and individualized problem solving. Prereq: 23FAA243, 23FAA103. BoK: FA. Credit Level: U. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Fine Arts - Art**23FAA331****Introduction to Interactive Art**

Introductory work in the design of interactive artwork and the use of the interface as a medium of artistic expression. Studio course in which students create works of art and study the practices of professional artists working in this field. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA334**Introduction to New Media**

Introductory work in the use of new media as a medium of artistic expression. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA335**Computer Animation I**

Introduction to 2D and 3D computer animation techniques. Prereq: 23FAA243, 23FAA103. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA336**Computer Animation II**

Continuing work in Computer Animation. Prereq: 23FAA243, 23FAA103, 23FAA335. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA341**Introductory Painting**

Intensive one-quarter introduction to painting. Varied subject matter and media. Prereq: 23FAA243, 23FAA103. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA342**Introductory Painting**

Continued intensive one-quarter introduction to painting. Varied subject matter and media. Prereq: 23FAA243, 23FAA103, 23FAA341. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA343**Introductory Painting**

Intensive one-quarter introduction to painting. Varied subject matter. Prereq: 23FAA243, 23FAA103, 23FAA342. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA351**Introductory Relief Printmaking**

Beginning relief printing experience. Primarily black and white. Prereq: 23FAA243, 23FAA103. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA352**Introductory Relief Printmaking**

Continuing relief printing experience. Primarily color. Prereq: 23FAA243, 23FAA103. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA354**Introductory Litho Printmaking**

Introduction to the art and technique of hand lithography in a variety of media on stones and metal plates. Prereq: 23FAA103, 23FAA243. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA355**Introductory Litho Printmaking**

Introduction to the art and techniques of hand lithography in a variety of media on stones and metal plates. Prereq: 23FAA103, 23FAA243. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA357**Introductory Intaglio Printmaking**

Beginning experiences in etching, engraving and drypoint on metal plates. Prereq: 23FAA103, 23FAA243. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA358**Introductory Intaglio Printmaking**

Beginning experiences in etching, engraving and drypoint on metal plates. Prereq: 23FAA103, 23FAA243. BoK: FA. Credit Level: U. Credit Hrs: 4.00

Fine Arts - Art**23FAA361****Introductory Sculpture**

A beginning studio course which explores the concepts, techniques, and tools involved in the creation of sculpture. Prereq: 23FAA103, 23FAA243. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA362**Introductory Sculpture**

A beginning studio course which explores the concepts, techniques, and tools involved in the creation of sculpture. Prereq: 23FAA103, 23FAA243. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA371**Introductory Photography**

Lectures and exercises in basic photographic technology and aesthetics. Prereq: 23FAA103, 23FAA243. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA372**Introductory Photography**

Lectures and exercises in basic digital photographic technology and aesthetics. A digital single lens reflex camera with manual control capability is a requirement for this class. Prereq: 23FAA101, 23FAA102, 23FAA103, 23FAA243. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA376**Intermediate Photography**

Exploration of large format cameras, fine printing processes and related traditional photographic practices. Prereq: 23FAA104, 23FAA371, 23FAA372. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA377**Intermediate Photography II**

Exploration of traditional and digital color photographic technologies. Prereq: 23FAA104, 23FAA371, 23FAA372. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA378**Digital Still Photography**

Exploration of digital still photography in relation to PhotoShop, image capture, color management and digital output possibilities. Prereq: 23FAA103, 23FAA371, 23FAA372. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA381**Video for Artists I**

Introduction to basic tools and concepts of video art including camerawork, lighting, sound recording, non-linear editing, and DVD authoring. Students complete several short video projects. Prereq: 23FAA107. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA382**Video for Artists II**

Intermediate level course in techniques and concepts of video art. The class focuses on building image-sound relationships, developing camera and editing skills, and DVD authoring. Prereq: 23FAA381. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA384**Introduction to Media Art**

Students are exposed to the possibilities of art making in a range of new media forms including digital stills, interactive art and web design. Prereq: 23FAA107. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA385**Introduction to Media Art II**

Students are exposed to the possibilities of art making in a range of new media forms including digital stills, interactive art and web design. Prereq: 23FAA384. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA411**Independent Study**

Special art projects for advanced Fine Arts majors only. Subject to acceptance of written proposal, prior to registration, by both instructor and department chair. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Fine Arts - Art**23FAA411****Independent Study**

Special art projects for advanced Fine Arts majors only. Subject to acceptance of written proposal, prior to registration, by both instructor and department chair. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

23FAA412**Independent Study**

Special art projects for Fine Arts majors only. Subject to acceptance of written proposal, prior to registration, by both instructor and department chairperson. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

23FAA413**Independent Study**

Special art projects by advanced Fine Arts majors only. Subject to acceptance of written proposal, prior to registration, by both instructor and department chair. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

23FAA414**Independent Study**

Special art projects for advanced fine arts majors only. Subject to acceptance by written proposal, prior to registration, by instructor and department chairperson. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

23FAA416**Advanced Ceramics**

Handbuilding, glaze calculation and firing techniques. Increased emphasis on conceptualization. Prereq: 23FAA311, 23FAA312, 23FAA330. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA417**Advanced Ceramics**

Handbuilding, glaze calculation and firing techniques. Increased emphasis on conceptualization. Prereq: 23FAA311, 23FAA312. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA418**Advanced Ceramics**

Handbuilding, glaze calculation and firing techniques. Increased emphasis on conceptualization. Prereq: 23FAA311, 23FAA312. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA421**Advanced Drawing**

Problems in drawing as a major medium of expression with an increased emphasis on conceptualization. Prereq: 23FAA321, 23FAA322, 23FAA330. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA422**Advanced Drawing**

Problems in drawing as a major medium of expression with an increased emphasis on conceptualization. Prereq: 23FAA243. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA431**Advanced Electronic Arts**

Advanced coursework in electronic media with an emphasis on concept development, the effective expression of ideas, and refining technical skills BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA432**Advanced Electronic Arts**

Advanced coursework in electronic media with an emphasis on concept development, the effective expression of ideas, and refining technical skills BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA433**Advanced Electronic Arts**

Advanced coursework in electronic media with an emphasis on concept development, the effective expression of ideas, and refining technical skills BoK: FA. Credit Level: U. Credit Hrs: 4.00

Fine Arts - Art**23FAA434****New Media**

Advanced production course emphasizing electronic media as an art form, developing and directing projects, and creative uses of new media. Students may explore work in a wide range of new media, including digital stills, computer animation, video, installation, sound art, interactive art, and other forms. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA441**Advanced Painting**

Personal development, invention, freedom of expression in all painting media. Prereq: 23FAA341, 23FAA330. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA442**Advanced Painting**

Personal development, invention, freedom of expression in all painting media. Prereq: 23FAA341. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA443**Advanced Painting**

Personal development, invention, freedom of expression in all painting media. Prereq: 23FAA341, 23FAA644. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA451**Advanced Printmaking**

Personal development and experimentation using various print media with an increased emphasis on concept. Prereq: 23FAA103, 23FAA243, 23FAA351, 23FAA354, 23FAA357. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA452**Advanced Printmaking**

Personal development and experimentation using various print media with an increased emphasis on concept. Prereq: 23FAA103, 23FAA243, 23FAA357, 23FAA354. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA453**Advanced Printmaking**

Personal development and experimentation using various print media with an increased emphasis on concept. Prereq: 23FAA103, 23FAA243, 23FAA351, 23FAA354, 23FAA357. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA461**Advanced Sculpture**

In-depth studio course for exploring the creation of sculpture form for students with prior experience in sculpture. Prereq: 23FAA361, 23FAA362, 23FAA330. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA462**Advanced Sculpture**

In-depth studio course for exploring the creation of sculpture form for students with prior experience in sculpture. Prereq: 23FAA361, 23FAA362. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA463**Advanced Sculpture**

In-depth studio course for exploring the creation of sculpture form for students with prior experience in sculpture. Prereq: 23FAA361, 23FAA362. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA471**Advanced Photography**

Intensive study in specialized areas of the photo processes, with increased emphasis on conceptualization. Prereq: 23FAA376, 23FAA377, 23FAA378. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA472**Advanced Photography**

Intensive study in specialized areas of the photo processes, with increased emphasis on conceptualization. Prereq: 23FAA376,

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Fine Arts - Art**23FAA472****Advanced Photography**

23FAA377, 23FAA378. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA473**Advanced Photography**

Intensive study in specialized areas of the photo processes, with increased emphasis on conceptualization. Prereq: 23FAA376, 23FAA377, 23FAA378. BoK: FA. Credit Level: U. Credit Hrs: 4.00

23FAA520**Senior Thesis Project**

This course is for the development of a "Thesis Project" in the visual arts, which culminates in exhibition for DAAPWorks. An IP (In Progress) grade will be given at the end of the autumn with a final grade to be determined at the end of the spring quarter. BoK: FA. Credit Level: U. Credit Hrs: 2.00

23FAA521**Senior Thesis Colloquy**

Review and study of contemporary artistic theory combined with intense analysis of student's creative research, resulting in original thesis statement. Restricted to seniors in Fine Arts who, during the academic year the course is taken, are planning to participate in DAAPWorks. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FAA524**Advanced Animation Art**

Advanced work in the use of animation as a medium for artistic expression. Studio course in which students create works of art and study the practice of professional artists working in this field. Prereq: 23FAA324. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-10.00

23FAA525**Advanced Game Art**

Advanced work in the use of computer games as a medium for artistic expression. Studio course in which students create works of art and study the practice of professional artists working in this field. Prereq: 23FAA325. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-10.00

23FAA526**Advanced Internet Art**

Advanced work in the use of the Internet as a platform for artistic expression. Studio course in which students create works of art and study the practice of professional artists working in this field. Prereq: 23FAA326. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-10.00

23FAA527**Advanced Programming for Artists**

Advanced work in the use of computer programming as a medium for artistic expression. Studio course in which students create works of art and study the practice of professional artists working in this field. Prereq: 23FAA327. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-10.00

23FAA528**Advanced Sound Art**

Advanced work in the use of sound as a medium for artistic expression. Studio course in which students create works of art and study the practice of professional artists working in this field. Prereq: 23FAA328. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-10.00

23FAA529**Advanced Video for Artists**

Advanced work in the use of video as a medium of artistic expression. Studio course in which students create works of art and study the practice of professional artists working in this field. Prereq: 23FAA329. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-10.00

23FAA531**Advanced Interactive Art**

Advanced work in the design of interactive artwork and the use of the interface as a medium of artistic expression. Studio course in which students create works of art and study the practices of professional artists working in this field. Prereq: 23FAA331. BoK: FA. Credit Level:

Fine Arts - Art**23FAA531****Advanced Interactive Art**

U, G. Credit Hrs: 1.00-10.00

23FAA534**Advanced New Media**

Advanced work in the use of new media as a medium of artistic expression. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-10.00

23FAA540**Special Studio**

A studio that concentrates on a specific conceptually-based strategy for making art, emphasizing intra-disciplinary creative environment within which to explore art. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

23FAA541**Special Studio**

A studio that concentrates on a specific conceptually-based strategy for making art, emphasizing intra-disciplinary creative environment within which to explore art. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

23FAA542**Special Studio**

A studio that concentrates on a specific conceptually-based strategy for making art, emphasizing intra-disciplinary creative environment within which to explore art. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

23FAA543**Special Studio**

A studio that concentrates on a specific conceptually-based strategy for making art, emphasizing intra-disciplinary creative environment within which to explore art. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

23FAA544**Special Studio**

A studio that concentrates on a specific conceptually-based strategy for making art, emphasizing intra-disciplinary creative environment within which to explore art. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

23FAA545**Special Studio**

A studio that concentrates on a specific conceptually-based strategy for making art, emphasizing intra-disciplinary creative environment within which to explore art. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

23FAA550**Installation Art**

This course will provide students with an interdisciplinary experience that enables them to explore concepts of site-specific, non-traditional and multimedia art. It provides an introduction to the practice of Installation Art, allowing students to experiment with constructing space while investigating issues of scale, repetition, color, line and content within a defined physical space using a variety of media. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

23FAA571**Practicum**

The application of professional practice skills for fine artists. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FAA644**Life Painting**

Advanced problem solving and individual work in oil paint using the human form as a reference. Prereq: 23FAA321, 23FAA322, 23FAA341, 23FAA342. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

23FAA664**Figure Modeling**

Modeling the human form for sculpture from observation. Prereq: 23FAA321, 23FAA361, 23FAA330. BoK: FA. Credit Level: U, G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Fine Arts - Art**23FAA665****Sculpture Foundry**

A course in the basic techniques of casting art objects in aluminum or bronze. Prereq: 23FAA361, 23FAA362. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

23FAA680**Studio Research Assistantship**

Students will conduct research for Fine Arts faculty who are working on specific, substantial studio art research projects. Students will gain indepth knowledge about the work that goes into a long term project, the business aspects of being a working artist, exhibition preparation, and marketing and promotion of art work. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-4.00

23FAA681**Professional Internship**

This course provides constructive learning experiences in support of the visual arts through supervised activity within the studio of a professional art-related organization such as a gallery, museum, studio, or production facility. If working with a professional artist, students will have the opportunity to gain in depth knowledge about the work that goes into a long term project, the business aspects of being a working artist, exhibition preparation, and marketing and promotion of art work. If working for an organization, students will gain experience in practices and requirements and how they interface either with other departments or with other businesses. The student will gain an understanding of day to day operations and the interactions of colleagues within the organization ** students must pick up the guidelines for this internship in the School of Art office prior to registration of the class.** Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-4.00

23FAA683**Gallery Internship**

Supervised work in professional gallery. 9 hours each week to assist in gallery preparation, installation, lighting, packing, openings, etc. Perm of Instructor. BoK: FA. Credit Level: U, G. Credit Hrs: 1.00-4.00

23FAA717**Post-Baccalaureate Advanced Ceramics**

Handbuilding, glaze calculation and firing techniques. Increased emphasis on conceptualization. Credit Level: G. Credit Hrs: 1.00-8.00

23FAA727**Post-Baccalaureate Advanced Drawing**

Problems in drawing as a medium of expression with an increased emphasis on conceptualization. Credit Level: G. Credit Hrs: 1.00-8.00

23FAA737**Post-Baccalaureate Advanced Electronic Media**

Development and preproduction of a film or video project, live action, computer, or drawn animation, including script writing and budgeting. Credit Level: G. Credit Hrs: 1.00-8.00

23FAA747**Post-Baccalaureate Advanced Painting**

Personal development, invention, freedom of expression in all painting media. Credit Level: G. Credit Hrs: 1.00-8.00

23FAA757**Post-Baccalaureate Advanced Printmaking**

Personal development and experimentation using various print media with an increased emphasis on conceptualization. Credit Level: G. Credit Hrs: 1.00-8.00

23FAA767**Post-Baccalaureate Advanced Sculpture**

In-depth exploration in an area of stylistic and philosophical interest in sculpture. Credit Level: G. Credit Hrs: 1.00-8.00

23FAA804**Critical History of Museums and Curating**

This course consider the changes in museum and collecting practices since the start of the Great Exhibitions & the founding of the

Fine Arts - Art**23FAA804****Critical History of Museums and Curating**

national museums in the 19th century. Also addresses the growth in the last 30 years of artists' curating practices & impact on exhibition content & design. Credit Level: G. Credit Hrs: 4.00

23FAA805**Curating New Media**

Reviews the challenges faced by museums and galleries when exhibiting new media like video & digital art, as well as applications of technology in museum display. Credit Level: G. Credit Hrs: 4.00

23FAA806**Graduate Installation Art**

Students from all disciplines develop & mount installation art works. Projects are often site- specific, collaborative, temporal, or multi-disciplinary. In addition to studio work, students view & discuss works by established artists & materials relevant to the subject. Credit Level: G. Credit Hrs: 4.00

23FAA821**Graduate Drawing**

Individual research and experimentation through projects employing a variety of drawing media. Credit Level: G. Credit Hrs: 1.00-10.00

23FAA822**Graduate Drawing**

Individual research and experimentation through projects employing a variety of drawing media. Credit Level: G. Credit Hrs: 1.00-10.00

23FAA823**Graduate Drawing**

Individual research and experimentation through projects employing a variety of drawing media. Credit Level: G. Credit Hrs: 1.00-10.00

23FAA828**Graduate 3D Studio**

An interdisciplinary graduate critique and independent studio experience. Credit Level: G. Credit Hrs: 1.00-10.00

23FAA829**Graduate 3D Studio**

An interdisciplinary graduate critique and independent studio experience. Credit Level: G. Credit Hrs: 1.00-10.00

23FAA830**Graduate 3D Studio**

An interdisciplinary graduate critique and independent studio experience. Credit Level: G. Credit Hrs: 1.00-10.00

23FAA831**Graduate Electronic Arts**

Graduate level work in electronic media, with an emphasis on concept development, the effective expression of ideas, and refining technical skills Credit Level: G. Credit Hrs: 1.00-10.00

23FAA832**Graduate Electronic Arts**

Graduate level work in electronic media, with an emphasis on concept development, the effective expression of ideas, and refining technical skills Credit Level: G. Credit Hrs: 1.00-10.00

23FAA833**Graduate Electronic Arts**

Graduate level work in electronic media, with an emphasis on concept development, the effective expression of ideas, and refining technical skills Credit Level: G. Credit Hrs: 1.00-10.00

23FAA834**Graduate New Media**

Graduate level work in advanced production, emphasizing electronic media as an art form, developing and directing projects, and creative uses of new media. Students may explore work in a wide range of new media, including digital stills computer animation, video, installation, sound art interactive art, and other forms. Credit Level: G. Credit Hrs:

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Fine Arts - Art**23FAA834****Graduate New Media**

1.00-10.00

23FAA841**Graduate Painting**

Individual research and experimentation through objects employing a variety of painting media. Credit Level: G. Credit Hrs: 1.00-10.00

23FAA842**Graduate Painting**

Individual research and experimentation through projects employing a variety of painting media. Credit Level: G. Credit Hrs: 1.00-10.00

23FAA843**Graduate Painting**

Individual research and experimentation through projects employing a variety of painting media. Credit Level: G. Credit Hrs: 1.00-10.00

23FAA851**Graduate Printmaking**

Individual research and experimentation through projects employing a variety of printmaking media. Credit Level: G. Credit Hrs: 1.00-10.00

23FAA852**Graduate Printmaking**

Individual research and experimentation through projects employing a variety of printmaking media. Credit Level: G. Credit Hrs: 1.00-10.00

23FAA853**Graduate Printmaking**

Individual research and experimentation through projects employing a variety of printmaking media. Credit Level: G. Credit Hrs: 1.00-10.00

23FAA871**Graduate Photography**

Individual research and experimentation through projects employing a variety of photographic media. Credit Level: G. Credit Hrs: 1.00-10.00

23FAA872**Graduate Photography**

Individual research and experimentation through projects employing a variety of photographic media. Credit Level: G. Credit Hrs: 1.00-10.00

23FAA873**Graduate Photography**

Individual research and experimentation through projects employing a variety of photographic media. Credit Level: G. Credit Hrs: 1.00-10.00

23FAA875**Graduate Fine Arts Thesis**

Work towards thesis exhibition, thesis paper, and oral defense. Credit Level: G. Credit Hrs: 4.00

23FAA888**Special Topic Graduate Seminar**

Seminar in a specific topic of current relevance to graduate students in Fine Arts. Credit Level: G. Credit Hrs: 3.00

23FAA891**Independent Graduate Study**

Independent study for Fine Arts graduate students. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-10.00

23FAA892**Independent Graduate Study**

Independent study for Fine Arts graduate students. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-10.00

23FAA893**Independent Graduate Study**

Independent student for Fine Arts graduate students. Credit Level: G. Credit Hrs: 1.00-10.00

Fine Arts - Art**23FAA894****Independent Graduate Study**

Independent study for Fine Arts graduate students. Credit Level: G. Credit Hrs: 1.00-18.00

23FAA895**Teaching Workshop**

Discussion of teaching methodologies and approaches to the presentation of subjects in studio, seminar, and lecture Credit Level: G. Credit Hrs: 3.00

Fashion Design**23FASH191****Fashion Show Production**

Aspects of fashion show production such as: fitting professional models, selection of music, themes, staging, audio-visual preparation, lineup. Final product is professional show. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FASH204**Design Construction**

Principles in processes, methods, materials of clothing construction. Coreq: 23FASH221. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FASH205**Design Construction**

Principles in processes, methods, materials of clothing construction. Prereq: 23FASH204. Coreq: 23FASH222. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FASH206**Fashion Design I**

Introduction course in exploration of apparel design and construction process. Prereq: 23FASH205, 23FASH222, 23FASH223. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FASH211**Design Communication I**

Fundamental principles of drawing the figure and apparel. Experimentation with variety of media and techniques. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FASH212**Design Communication I**

Fundamental principles of drawing the figure and apparel. Experimentation with variety of media and techniques. Prereq: 23FASH211. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FASH213**Design Communication I**

Fundamental principles of drawing the figure and apparel. Experimentation with variety of media and techniques. Prereq: 23FASH212. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FASH221**Design Technology I**

Fundamental principles of pattern-making. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FASH222**Design Technology I**

Fundamental principles of pattern-making. Prereq: 23FASH221. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FASH223**Design Technology I**

Fundamental principles of pattern making. Prereq: 23FASH222. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FASH232**History of Fashion I**

History of costume from primitive ornamentation to present. Evaluation of style, role of the designer, sociological, psychological aspect of clothing in society. Open to all majors. BoK: HP., SE. Credit Level: U.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Fashion Design**23FASH232****History of Fashion I**

Credit Hrs: 3.00

23FASH233**History of Fashion II**

History of costume from primitive ornamentation to present. Evaluation of style, role of the designer, sociological, psychological aspect of clothing in society. Open to all majors. Prereq: 23FASH232. BoK: HP, SE. Credit Level: U. Credit Hrs: 3.00

23FASH234**Textiles**

The history, development, marketing, uses of natural and man-made fibers. BoK: NS. Credit Level: U. Credit Hrs: 3.00

23FASH235**Textiles**

Comprehensive study of fibers, yarn, fabrics and finishes, their development, use and serviceability. Prereq: 23FASH234. BoK: NS. Credit Level: U. Credit Hrs: 3.00

23FASH261**Introduction to CAD**

Computer Aided Design development for the Fashion Industry. Presentation skill development. BoK: NS. Credit Level: U. Credit Hrs: 3.00

23FASH291**Fashion Show Production**

Aspects of fashion show production such as: fitting professional models, selection of music, themes, staging, audio-visual preparation, lineup. Final product is professional show. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FASH350**Fashion Design II**

Exploration of apparel design and construction process. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FASH351**Fashion Design II**

Exploration of apparel design and construction process. Prereq: 23FASH350. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FASH354**Introduction to Fashion Design**

Design principles and theory as they apply to fashion design. Concentrates on the design process in use of various 2D media in design presentation. Prereq: 23FASH213. BoK: SS. Credit Level: U. Credit Hrs: 3.00

23FASH355**Design Communication II**

Design principles and theory as they apply to fashion design in visual communication. Concentrates on croquis and on use of various media in design presentation. Prereq: 23FASH213. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FASH364**Introduction to Portfolio**

Introduction to 2-dimensional design methods. Concentration is on developing co-op portfolio and typographics for resume. BoK: NA. Credit Level: U. Credit Hrs: 1.00

23FASH365**Design Technology II**

Fundamental techniques of draping three-dimensional pattern making. Prereq: 23FASH223, 23FASH206. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FASH366**Design Technology II**

A continuation of draping three-dimensional pattern making. Develops a higher degree of skill in handling more complex draping projects.

Fashion Design**23FASH366****Design Technology II**

Prereq: 23FASH365. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FASH388**Independent Studies**

Individual project in collaboration with a faculty member on a subject of mutual interest; based on a written proposal. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23FASH389**Independent Studies**

Individual project in collaboration with a faculty member on a subject of mutual interest; based on a written proposal. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23FASH391**Fashion Show Production**

Aspects of fashion show production such as: fitting professional models, selection of music, themes, staging, audio-visual preparation, lineup. Final product is professional show. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FASH423**Fashion Photography I**

Lectures and experience with photographic studio procedures and techniques: lighting, figure as subject, using natural and studio situations. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FASH441**Fashion Design III**

Exploration of apparel design and construction process. Concentration on nonwovens. Prereq: 23FASH351. BoK: FA. Credit Level: U. Credit Hrs: 6.00

23FASH447**Fashion Design III**

Exploration of apparel design and construction process. Concentration on tailoring. Prereq: 23FASH351. BoK: FA. Credit Level: U. Credit Hrs: 6.00

23FASH451**Fashion Design Seminar**

Seminar with special topics in fashion design. Perm of Instructor. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FASH452**Fashion Design III**

Exploration of apparel design and construction process with emphasis on non-wovens. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FASH453**Design Research**

Collaborative research into a specific, industry-driven problem. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FASH461**Design Communication III**

Introduction to watercolor techniques used in Fashion Illustration. Prereq: 23FASH213. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FASH465**Portfolio**

Development of a professional portfolio. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FASH471**Product Development Seminar**

Seminar with special topics in Product Development. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FASH472**Product Development Seminar**

Seminar with special topics in Product Development. BoK: FA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

Fashion Design**23FASH488****Independent Studies**

Individual project in collaboration with a faculty member on a subject of mutual interest; based on a written proposal. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23FASH489**Independent Studies**

Individual project in collaboration with a faculty member on a subject of mutual interest; based on a written proposal. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23FASH491**Fashion Show Production**

Aspects of fashion show production such as: fitting professional models, selection of music, themes, staging, audio visual preparation, lineup. Final product is professional show. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FASH541**Fashion Design IV**

Concept, design, sketches, pattern development, construction and presentation of a minicollection of garments. BoK: FA. Credit Level: U, G. Credit Hrs: 6.00

23FASH542**Fashion Design IV**

Exploration of apparel design and construction process and presentation of a mini collection of garments. Prereq: 23FASH541. BoK: NA. Credit Level: U, G. Credit Hrs: 6.00

23FASH553**Product Development II**

Concept design, sketches, presentation boards, prototype development and presentation of a product line for retail sales. BoK: SS. Credit Level: U. Credit Hrs: 6.00

23FASH588**Independent Studies**

Individual project in collaboration with a faculty member on a subject of mutual interest; based on a written proposal. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

23FASH589**Independent Studies**

Individual project in collaboration with a faculty member on a subject of mutual interest; based on a written proposal. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

23FASH591**Fashion Show Production**

Aspects of fashion show production such as: fitting professional models, selection of music, themes, staging, audio-visual preparation, lineup. Final product is professional show. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FASH762**Product Development II**

Concept, design, sketches, presentation boards, prototype development and presentation of a product line for retail sale. Prereq: 23FASH761. BoK: NA. Credit Level: U. Credit Hrs: 6.00

23FASH731**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Fashion Design. Credit Level: G. Credit Hrs: 1.00-5.00

23FASH732**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Fashion Design. Credit Level: G. Credit Hrs: 1.00-5.00

23FASH733**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in

Fashion Design**23FASH733****Design Graduate Studies**

Fashion Design. Credit Level: G. Credit Hrs: 1.00-5.00

23FASH751**Advanced History of Fashion I**

History of costume from primitive ornamentation to present. Evaluation of style, role of the designer, sociological, psychological aspect of clothing in society. Credit Level: G. Credit Hrs: 4.00

23FASH752**Advanced History of Fashion 2**

History of costume from primitive ornamentation to present. Evaluation of style, role of the designer, sociological, psychological aspect of clothing in society. Credit Level: G. Credit Hrs: 4.00

23FASH761**Product Development I**

Study of the process of product development as it pertains to retail. Researching, planning, developing, and presenting a product line for an identified target market with regard to styling, timing, and prices. Production options are studied and evaluated with regard to specification and quality development. Credit Level: G. Credit Hrs: 6.00

23FASH763**Seminar in Merchandising**

Current trends and issues are researched and discussed as they relate to manufacturing and merchandising. Case study analysis in buying and merchandising. Credit Level: G. Credit Hrs: 3.00

23FASH831**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Fashion Design. Credit Level: G. Credit Hrs: 1.00-5.00

23FASH832**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Fashion Design. Credit Level: G. Credit Hrs: 1.00-5.00

23FASH833**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Fashion Design. Credit Level: G. Credit Hrs: 1.00-5.00

Fashion Design Product Development**23FDPD204****Product Construction**

Principles in processes, methods, and execution of soft goods for the fashion marketplace. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDPD205**Product Construction**

Principles in processes, methods, and execution of soft goods for the fashion marketplace. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDPD211**Design Communication I**

Fundamental principles of drawing the figure and apparel. Experimentation with variety of media and techniques. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDPD212**Design Communication I**

Fundamental principles of drawing the figure and apparel. Experimentation with variety of media and techniques. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDPD213**Design Communication I**

Fundamental principles of drawing the figure and apparel. Experimentation with variety of media techniques. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Fashion Design Product Development**23FDPD221****Product Technology I**

Fundamental principles of pattern-making. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDPD222**Product Technology I**

Fundamental principles of pattern-making. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDPD261**Introduction to CAD**

Computer-aided design development for the Fashion Industry with emphasis on computer and presentation skills. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDPD271**Industry Theory and Practice**

Comprehensive study of fashion as a business; from design theory and process, to manufacturing, to retailer and ultimately the consumer. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDPD272**Industry Theory and Practice**

Comprehensive study of fashion as a business; from design theory and process, to manufacturing, to the retailer and ultimately the consumer. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDPD352**Fashion Buying**

A study of retail store buying, planning, merchandising and promotion. Merchandising mathematics are emphasized in relation to profit. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDPD353**Introduction to Product Development**

Fundamental principles of the product development process and introduction to marketing and product research, concept fashion development, trends research and design-driven product development. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDPD356**CAD Communication**

Introductory course in computer-aided fabric design, color and pattern development and digital printing for fabric development. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDPD453**Product Development I**

Study of the process of product development including trend analysis, brand analysis, design, merchandising and marketing. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDPD454**Product Development II**

Study of the process of product development including product design, prototype development and technical specifications for developing a product. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDPD455**Trend Forecasting**

Study of the theories and methodology in the field of trend forecasting and its impact on product development. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDPD465**Portfolio**

Developing and branding a fashion product development portfolio. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDPD552**Merchandising Seminar**

Current trends and issues are researched and discussed as they relate to fashion product development. Emphasis on the line selection process, line merchandising and visual merchandising. BoK: NA. Credit

Fashion Design Product Development**23FDPD552****Merchandising Seminar**

Level: U. Credit Hrs: 3.00

23FDPD553**Product Development III**

Design research methods and their impact on product development are explored and tested. A design research path is determined for a senior thesis project and the research is completed for a self-driven product development thesis project. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDPD554**Product Development IV**

Design and development and presentation of a branded fashion product line for a specified target market. The project is a self-directed thesis project presented for final evaluation to a jury of industry professionals. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDPD575**Global Design Issues**

Study and research into global design issues with respect to the fashion design and product development industry. Issues include global trade, culture and cultural impact on business, global ethics, universal design and sustainability. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Foundation Studies**23FDST101****Foundation Studio -- Color**

The rudiments of visual perception using color; encompassing its theory and interaction. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FDST102**Foundation Studio -- Form**

The rudiments of visual perception and the anatomy of a visual message in 2-dimensional spatial dynamics. Prereq: 23FDST101. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FDST103**Foundation Studio -- Space**

The rudiments of 3-dimensional spatial dynamics; articulating form and space. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FDST121**Foundation Studio -- Design Drawing**

Basic exercises in the observation, structure and articulation of form in space. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FDST122**Foundation Studio -- Design Drawing**

Basic exercises in the observation, structure and articulation of form in space. Prereq: 23FDST121. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FDST123**Foundation Studio -- Design Drawing**

Basic exercises in the observation, structure and articulation of form in space. Prereq: 23FDST122. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23FDST131**Digital Design Fundamentals**

Rudiments of basic computer operation encompassing raster and vector graphic-based applications, page layout, and networked communications. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDST132**Digital Design Fundamentals**

Rudiments of basic computer operation encompassing raster and vector graphic-based applications, page layout, and networked communications. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDST133**Digital Design Fundamentals**

Rudiments of basic computer operation encompassing raster and vector graphic-based applications, page-layout, and networked communications. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Foundation Studies**23FDST270****Sources of Modern Design**

The course will focus on the relationship between design and society during the past two-and-a-half centuries. The industrial and political revolutions of the eighteenth century will serve as a pivotal historic reference for the ways in which design has responded to the fundamental ideas of the modern era. Prereq: 23ARTH113. BoK: HP, SE. Credit Level: U. Credit Hrs: 3.00

23FDST280**Core Topics**

Core offering that is integral to or of equal professional and educational interest and relevancy for all disciplines. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDST370**Sources of Modern Design: University Honors Scholars Section**

Design, technology and society in the 19th and 20th centuries. BoK: HP., SE. Credit Level: U. Credit Hrs: 4.00

23FDST380**Core Topics**

Issues in various design topics as determined by faculty. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDST480**Core Topics**

Issues in various design topics as determined by faculty. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDST531**Technical Instruction Practicum**

The intent of this course is to provide technical assistance and support for first year students in Design. BoK: NA. Credit Level: U. Credit Hrs: 1.00-4.00

23FDST532**Technical Instruction Practicum**

The intent of this course is to provide technical assistance and support for first year students in Design. BoK: NA. Credit Level: U. Credit Hrs: 1.00-4.00

23FDST533**Technical Instruction Practicum**

The intent of this course is to provide technical assistance and support for first year students in Design. BoK: NA. Credit Level: U. Credit Hrs: 1.00-4.00

23FDST580**Design Topics**

Issues in various design topics as determined by faculty. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23FDST731**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Basic Design and Drawing. Credit Level: G. Credit Hrs: 1.00-5.00

23FDST732**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Basic Design and Drawing. Credit Level: G. Credit Hrs: 1.00-5.00

23FDST733**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Basic Design and Drawing. Credit Level: G. Credit Hrs: 1.00-5.00

23FDST770**Sources of Modern Design**

The course will focus on the relationship between design and society during the past two-and-a-half centuries. The industrial and political revolutions of the eighteenth century will serve as a pivotal historic reference for the ways in which design has responded to the

fundamental ideas of the modern era. Credit Level: G. Credit Hrs: 3.00-4.00

23FDST831**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Basic Design and Drawing. Credit Level: G. Credit Hrs: 1.00-5.00

23FDST832**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Basic Design and Drawing. Credit Level: G. Credit Hrs: 1.00-5.00

23FDST833**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Basic Design and Drawing. Credit Level: G. Credit Hrs: 1.00-5.00

Graphic Design**23GRPH201****Design Aesthetics I: Studio**

Explores understanding, development and communication of visual form. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23GRPH202**Design Aesthetics II: Studio**

Explores understanding, development and communication of visual form. Prereq: 23GRPH201. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23GRPH211**Photo Design I**

Technical aspects of equipment, materials, processing. Emphasis on aesthetic analysis. Some special equipment expense required. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23GRPH212**Photo Design II**

Technical aspects of equipment, materials, processing. Emphasis on aesthetic analysis. Some special equipment expense required. Prereq: 23GRPH211. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23GRPH213**Photo Design III**

Technical aspects of equipment, materials, processing. Emphasis on aesthetic analysis. Some special equipment expense required. Prereq: 23GRPH212. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23GRPH221**Type Design**

Introduction to history and process of calligraphic and typographic symbology. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23GRPH222**Text Design**

Electronic manipulation of text exploring the potential for variations. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23GRPH223**Type/Text Design I**

Study of letterforms and designing with type. Aesthetics of typography. BoK: FA., SS. Credit Level: U. Credit Hrs: 3.00

23GRPH231**Drawn Design I**

Disciplined free hand drawing. Representational and aesthetic concern. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23GRPH271**Graphic Design Seminar I: Skills**

Explanation of printing, paper, typesetting, pre-press, and production methods. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Graphic Design**23GRPH272****Graphic Design Seminar II: Form**

Seminar addresses issues and information related to the curricular level, social context, and form investigations. Prereq: 23GRPH271. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23GRPH301**Design Aesthetics III**

Explores understanding, development, and communication of visual form. Prereq: 23GRPH202. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23GRPH311**Photo Design IV**

Integration of photodesign techniques with typography, symbology, and dimension. Prereq: 23GRPH213. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23GRPH321**Type/Text Design II**

Legibility, multiple and sequential experiences. Interrelationships of text, heading, format, grids, and design elements. Prereq: 23GRPH223. BoK: FA, SS. Credit Level: U. Credit Hrs: 3.00

23GRPH322**Type/Text Design III**

Legibility, multiple and sequential experiences. Interrelationships of text, heading, format, grids, and design elements. Prereq: 23GRPH321. BoK: FA, SS. Credit Level: U. Credit Hrs: 3.00

23GRPH331**Drawn Design II**

Representational image-making. Object, nature, and concept rendering. Prereq: 23GRPH231. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23GRPH332**Drawn Design III**

Representational image-making. Object, nature, and concept rendering. Prereq: 23GRPH331. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23GRPH341**Communication Design I**

Consideration of levels of communication, symbology, development of concept, environment, and audience. Prereq: 23GRPH202. BoK: FA, SS. Credit Level: U. Credit Hrs: 3.00

23GRPH342**Communication Design II**

Consideration of levels of communication, symbology, development of concept, environment, and audience. Prereq: 23GRPH341. BoK: FA, SS. Credit Level: U. Credit Hrs: 3.00

23GRPH371**Graphic Design Seminar III**

Seminar addresses issues and information related to the curricular level, social context, and content investigations. Prereq: 23GRPH272. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23GRPH372**Graphic Design Seminar IV**

Seminar addresses issues and information related to the level, social context, and content investigations. Prereq: 23GRPH371. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23GRPH388**Independent Studies**

Individual project in collaboration with a faculty member on subject of mutual interest; based on written proposal. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23GRPH389**Independent Studies**

Individual project in collaboration with a faculty member on subject of mutual interest; based on written proposal. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

Graphic Design**23GRPH441****Communication Design III**

Special attention to the problem-solving process and inclusive methods of visual communication. Prereq: 23GRPH342. BoK: FA, SS. Credit Level: U. Credit Hrs: 3.00

23GRPH442**Communication Design IV**

Special attention to the problem-solving process and inclusive methods of visual communication. Prereq: 23GRPH441. BoK: FA, SS. Credit Level: U. Credit Hrs: 3.00

23GRPH451**Design Systems I**

Development of visual programs for sequential viewing. Experimentation with slide presentation, video tape, film, and multi-media systems. Prereq: 23GRPH301. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23GRPH452**Design Systems II**

Development of visual programs for sequential viewing. Experimentation with slide presentation, video tape, film, and multi-media systems. Prereq: 23GRPH451. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23GRPH471**Graphic Design Seminar V: Concept**

Seminar addresses issues and information related to curricular level, social context, and concept investigations. Prereq: 23GRPH372. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23GRPH472**Graphic Design Seminar VI: Concept**

Seminar addresses issues and information related to curricular level, social context, and concept investigation. Prereq: 23GRPH471. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23GRPH488**Independent Studies**

Individual project in collaboration with a faculty member on subject of mutual interest; based on written proposal. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23GRPH489**Independent Studies**

Individual project in collaboration with a faculty member on subject of mutual interest; based on written proposal. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23GRPH551**Design Systems III**

Communication design problems requiring research, analysis, execution, and evaluation. Prereq: 23GRPH452. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23GRPH552**Design Systems IV**

Communication design problems requiring research, analysis, execution, and evaluation. Prereq: 23GRPH551. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23GRPH561**Design Methodology: Studio**

Research, procedure and social analysis in relationship to communication theory and practice. Prereq: 23GRPH452. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23GRPH562**Design Methodology: Studio**

Research, procedure and social analysis in relationship to communication theory and practice. Prereq: 23GRPH561. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Graphic Design**23GRPH571****Graphic Design Seminar VII: Synthesis**

Seminar addresses issues and information related to curricular level, social context, and competency synthesis. Prereq: 23GRPH472. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23GRPH572**Graphic Design Seminar VIII: History**

Traces the development of human graphic communication from prehistoric man to the present. Student team projects produce in-depth visual and verbal examination of specific topics. Prereq: 23GRPH571. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

23GRPH588**Independent Studies**

Individual project in collaboration with a faculty member on subject of mutual interest; based on written proposal. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

23GRPH731**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Graphic Design. Credit Level: G. Credit Hrs: 1.00-5.00

23GRPH732**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Graphic Design. Credit Level: G. Credit Hrs: 1.00-5.00

23GRPH733**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Graphic Design. Credit Level: G. Credit Hrs: 1.00-5.00

23GRPH751**History of Graphic Design**

Review of Graphic Design history from the 1890s to 1990s. Credit Level: G. Credit Hrs: 4.00

23GRPH752**History of Graphic Design 2**

Review of Graphic Design history from the 1890s to 1990s. Credit Level: G. Credit Hrs: 4.00

23GRPH831**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Graphic Design. Credit Level: G. Credit Hrs: 1.00-5.00

23GRPH832**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Graphic Design. Credit Level: G. Credit Hrs: 1.00-5.00

23GRPH833**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Graphic Design. Credit Level: G. Credit Hrs: 1.00-5.00

Industrial Design: Transportation**23IDTR203****Transportation Design Studio**

Students are challenged with problems that establish the relationships among aesthetic fundamentals, including considerations of structure, function, materials and processes. Prereq: 23INDL202. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23IDTR213**Transportation Design Communications**

This studio is an introduction to techniques, which stresses freehand sketching and rendering. Emphasis is placed on proportion, perspective, and use of color. Prereq: 23INDL212. BoK: FA. Credit Level: U. Credit Hrs: 3.00

Industrial Design: Transportation**23IDTR223****Design Technology Transportation**

This studio includes computer based three-dimensional design techniques used in the vehicle design process. Prereq: 23INDL222. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23IDTR263**Seminar: The Making of Things III**

Introduction to materials, production, fabrication, and assembly methods for modeling and prototyping of proposed designs with transportation focus. Course content includes lecture, discussion, demonstrations, field trips, hands-on shop experience and certification in the use of specific shop tools. Prereq: 23INDL262. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23IDTR300**Figure Drawing ID**

Students learn traditional and contemporary figure drawing techniques. Emphasis is on practical application of the figure within product sketches and renderings that will enhance student's ability to more effectively communicate design proposals. (Directed Studio Elective) BoK: FA. Credit Level: U. Credit Hrs: 3.00

23IDTR301**Transportation Design Studio**

This studio further develops and refines the design skills and knowledge through problem solving activities with transportation products. Prereq: 23IDTR203. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23IDTR302**Transportation Design Studio**

Studio applies previous design experiences to problems of greater scope and closer association with current social needs. Prereq: 23IDTR301. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23IDTR311**Transportation Design Communications**

Studio exploring advanced visual communications in sketching and rendering techniques and the introduction of two-dimensional computer rendering techniques. Prereq: 23IDTR213. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23IDTR312**Transportation Design Communications**

This course continues to explore advanced visual communications in sketching and rendering techniques and the introduction of two-dimensional computer rendering techniques. Prereq: 23IDTR311. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23IDTR321**Design Technology Transportation**

Advanced use of computer based three-dimensional design techniques in the vehicle design process. Prereq: 23IDTR223. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23IDTR331**Seminar: Theory of Transportation Design I**

Lecture-seminar introducing principles and theories of design, transportation design, systematic design process, problem solving and creativity. Perm of Instructor. BoK: SS. Credit Level: U. Credit Hrs: 3.00

23IDTR332**Seminar: Theory of Transportation Design II**

Lecture-seminar in systematic design process, design research methods, and design issues in social responsibility. BoK: SS. Credit Level: U. Credit Hrs: 3.00

23IDTR341**Topical Studio III**

Transportation Design Studio focused on specific topic in a collaborative, multi-disciplinary format, most frequently with a corporate partner. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Industrial Design: Transportation**23IDTR342****Topical Studio III**

Transportation Design Studio focused on specific topic in a collaborative, multi-disciplinary format, most frequently with a corporate partner. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23IDTR401**Transportation Design Studio**

Transportation design students develop solutions to problems that are varied in scope and nature. Emphasis is placed on contextual analysis, design process, and systems. Prereq: 23IDTR302. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23IDTR402**Transportation Design Studio**

Advanced transportation design students continue to research and develop solutions to problems that are varied in scope and nature. Emphasis is placed on contextual analysis, design process, technology, systems and marketing Prereq: 23IDTR401. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23IDTR411**Design Communications for Transportation**

Advanced exploration of sketching and rendering techniques in various media. Prereq: 23IDTR312. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23IDTR412**Design Communications for Transportation**

Continued advanced exploration of sketching and rendering techniques in various media. Prereq: 23IDTR411. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23IDTR441**Topical Studio IV**

Transportation Design Studio focused on specific topic in a collaborative, multi-disciplinary format, most frequently with a corporate partner. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23IDTR442**Topical Design IV**

Transportation Design Studio focused on specific topic in a collaborative, multi-disciplinary format, most frequently with a corporate partner. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23IDTR461**Materials and Processes for Transportation**

Vehicle packaging introduces students to requirements that must be incorporated and adhered to in transportation design. Prereq: 23INDL361. BoK: NS. Credit Level: U. Credit Hrs: 3.00

23IDTR462**Materials and Processes for Transportation**

Lecture course exploring materials and manufacturing processes used in the transportation industry. Prereq: 23INDL461. BoK: NS. Credit Level: U. Credit Hrs: 3.00

23IDTR471**Human Factors in Transportation Design**

Human physical, psychological, and sociological properties, as the basis for transportation design. BoK: HP., SE. Credit Level: U. Credit Hrs: 3.00

23IDTR472**Human Factors for Transportation**

Human physical, psychological, and sociological, properties as the basis for transportation design. Prereq: 23INDL471. BoK: NS, SE. Credit Level: U. Credit Hrs: 3.00

23IDTR501**Transportation Capstone Studio**

Senior capstone thesis research and ideation development. Prereq: 23IDTR402. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Industrial Design: Transportation**23IDTR502****Transportation Capstone Studio**

Conceptual and design development of senior capstone thesis. Prereq: 23IDTR501. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23IDTR503**Transportation Capstone Studio**

Advanced conceptual design development of senior capstone thesis. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23IDTR511**Transportation Design Communications**

Studio of advanced techniques in visual communications meeting professional standards, to include portfolio compilation and presentation and use of computer techniques and applications. Prereq: 23IDTR412. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23IDTR512**Transportation Design Communications**

Studio of advanced techniques in visual communications meeting professional standards, with emphasis on portfolio compilation and presentation and the use of computer techniques and applications. Prereq: 23IDTR511. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23IDTR513**Transportation Design Communications**

Advanced studio techniques in visual communications meeting professional standards, with emphasis on portfolio compilation and presentation, in addition to the use of advanced computer techniques and applications. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23IDTR531**Seminar: Social Issues in Design**

An elective lecture/seminar or studio based on special topics related to social, economic, and environmental issues in transportation design. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23IDTR541**Topical Studio V**

Transportation Design Studio focused on specific topic in a collaborative, multi-disciplinary format, most frequently with a corporate partner. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23IDTR542**Topical Studio V**

Transportation Design Studio focused on specific topic in a collaborative, multi-disciplinary format, most frequently with a corporate partner. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23IDTR582**Career Design and Professional Development**

Information about career planning and job-seeking, including the development of cover letters, resumes, portfolios and the interview process. Practicing design professionals may serve as guest speakers to address topics relevant to the practice of Transportation Design and Industrial Design. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23IDTR583**Professional Mentorship**

This course is a series of lectures and presentations from a broad range of professional experts within the field of transportation design. These professionals expose students to different areas of expertise within the field including career planning, job seeking and portfolio packaging. Prereq: 23IDTR501. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Industrial Design**23INDL201****Industrial Design**

Problems establishing relationships among aesthetic fundamentals, including considerations of structure, function, materials, process. Prereq: 23FDST101, 23FDST102, 23FDST103. BoK: FA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Industrial Design**23INDL202****Industrial Design**

Problems establishing relationships among aesthetic fundamentals, including considerations of structure, function, materials, process. Prereq: 23INDL201, 23FDST103. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23INDL203**Industrial Design**

Problems establishing relationships among aesthetic fundamentals, including considerations of structure, function, materials, process. Prereq: 23INDL202, 23FDST103. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23INDL211**Design Communications**

In Design Communications students learn to express their design ideas in a concise, compelling and efficient way. Emphasis is on dry media such as pastels, marker and colored pencils. Some of the papers used include vellum, bond paper and half-tone paper. Students are also instructed to complete assignments digitally, the importance of accurate perspective and clear rendering of form is stressed. This course covers industrial design 2D visualization techniques for sophomore-level students. Prereq: 23FDST123. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23INDL212**Design Communications**

This Design Communication course covers many traditional industrial design visualization techniques. Emphasis is on developing the ability to efficiently communicate design ideas in a convincing manner using perspective, color, value and lighting to define form. Students are introduced to the importance of research, advanced technologies and benchmarking. Prereq: 23INDL211, 23FDST103. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL213**Design Communications**

Advanced Sophomore Design Communication courses are designed to strengthen the product design student's electronic drawing and rendering skills to a professional level while at the same time fostering conceptual thinking. Projects of two or four week durations are undertaken covering a wide range of subjects from components to a complete product. Prereq: 23INDL212. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23INDL221**Design Technology**

Introduction to computer based three dimensional graphics techniques. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL222**Design Technology**

This course covers many traditional industrial design visualization techniques. Emphasis is on developing the ability to efficiently communicate design ideas in a convincing manner using perspective, color, value and lighting to define form. Students are introduced to the importance of research, advanced technologies and benchmarking. Prereq: 23INDL221. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL223**Design Technology**

This course covers many traditional industrial design visualization techniques. Emphasis is on developing the ability to efficiently communicate design ideas in a convincing manner using perspective, color, value and lighting to define form. Students are introduced to the importance Prereq: 23INDL222. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL251**History of Industrial Design**

Factors influencing the form and technology of man-made objects from pre-industrial revolution period to twentieth century with emphasis on

Industrial Design**23INDL251****History of Industrial Design**

evolution of practice of industrial design. BoK: HP., SE. Credit Level: U. Credit Hrs: 3.00

23INDL252**History of Industrial Design**

Factors influencing the form and technology of man-made objects from pre-industrial revolution period to twentieth century with emphasis on evolution of practice of industrial design. Prereq: 23INDL251. BoK: HP, SE. Credit Level: U. Credit Hrs: 3.00

23INDL261**Seminar: The Making of Things I**

Introduction to materials, production, fabrication, and assembly methods for modeling and prototyping of proposed product designs. Course content includes lecture, discussion, demonstrations, field trips, hands-on shop experience and certification in the use of specific shop tools. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL262**Seminar: The Making of Things II**

Introduction to materials, production, fabrication, and assembly methods for modeling and prototyping of proposed product designs. Course content includes lecture, discussion, demonstrations, field trips, hands-on shop experience and certification in the use of specific shop tools. Prereq: 23INDL261. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL263**Seminar: The Making of Things III**

Introduction to materials, production, fabrication, and assembly methods for modeling and prototyping of proposed product designs. Course content includes lecture, discussion, demonstrations, field trips, hands-on shop experience and certification in the use of specific shop tools. Prereq: 23INDL262. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL301**Industrial Design Studio**

Further development and refinement of design knowledge and skills through problem-solving activities associated with typical consumer products. Prereq: 23INDL203. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23INDL302**Industrial Design Studio**

Application of previous design experience to problems of greater scope and closer association with current social needs and production methods. Prereq: 23INDL301. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23INDL311**Design Communication**

Advanced studio work in the science and art of objective visual communication using sketching and rendering techniques. Prereq: 23INDL223. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23INDL312**Design Communications**

Advanced studio work in the science and art of objective visual communication using sketching and rendering techniques. Prereq: 23INDL311. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23INDL321**Design Technology**

Advanced Alias modeling with integration of industrial design studio problems. Prereq: 23INDL382. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL331**Seminar: Theory of Industrial Design**

Lecture-seminar introducing principles and theories of design, industrial design, systematic design process, problem solving and creativity. Perm of Instructor. BoK: SS. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Industrial Design**23INDL332****Seminar: Theory of Industrial Design II**

Lecture-seminar in systematic design process, design research methods, and design issues in social responsibility. Prereq: 23INDL331. BoK: SS. Credit Level: U. Credit Hrs: 3.00

23INDL341**Topical Studio III**

Industrial Design Studio focused on specific topic in a collaborative, multi-disciplinary format, most frequently with a corporate partner. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL342**Topical Studio III**

Industrial Design Studio focused on specific topic in a collaborative, multi-disciplinary format, most frequently with a corporate partner. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL351**History of Industrial Design**

Factors influencing the form and technology of man-made objects from pre-industrial revolution period to twenty-first century with emphasis on evolution of the practice of industrial design. Perm of Instructor. BoK: HP, SE. Credit Level: U. Credit Hrs: 3.00

23INDL352**Theory of Industrial Design**

Lecture-seminar in systematic design process, problem solving and creativity. Prereq: 23INDL351. BoK: SS. Credit Level: U. Credit Hrs: 3.00

23INDL362**Materials and Processes**

Survey of materials, production, and assembly methods utilized in the mass production of plastic parts. Design considerations used to select appropriate technology. Lecture, discussion, shop experience, inspection trips. Prereq: 23INDL361. BoK: NS. Credit Level: U. Credit Hrs: 3.00

23INDL391**Independent Studies**

Individual project in collaboration with a faculty member on a subject of mutual interest; based on written proposal. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23INDL392**Independent Studies**

Individual project in collaboration with a faculty member on a subject of mutual interest; based on written proposal. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23INDL401**Industrial Design**

Complex problems in industrial design, varied in scope and nature, emphasizing contextual analysis, design process, systems, and professional competence. Prereq: 23INDL302. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23INDL402**Industrial Design**

Complex problems in industrial design, varied in scope and nature, emphasizing contextual analysis, design process, systems, and professional competence. Prereq: 23INDL401. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23INDL411**Design Communications**

Continued exploration of sketching and rendering techniques and media. Prereq: 23INDL312. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23INDL412**Design Communications**

Continued exploration of sketching and rendering techniques and media. Prereq: 23INDL312. BoK: FA. Credit Level: U. Credit Hrs: 3.00

Industrial Design**23INDL431****Design Seminar**

An elective lecture or studio based on special topics developed by faculty or students. Prereq: 23INDL203. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23INDL432**Design Seminar**

An elective lecture or studio based on special topics developed by faculty or students. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23INDL441**Topical Studio IV**

Industrial Design Studio focused on specific topic in a collaborative, multi-disciplinary format, most frequently with a corporate partner. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL442**Topical Studio IV**

Industrial Design Studio focused on specific topic in a collaborative, multi-disciplinary format, most frequently with a corporate partner. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL461**Materials and Processes**

Survey of materials, production, and assembly methods utilized in the mass production of metal parts. Design considerations used to select appropriate technology. Lecture, discussion, shop experience, inspection trips. Prereq: 23INDL361, 23INDL362. BoK: NS. Credit Level: U. Credit Hrs: 3.00

23INDL462**Materials and Processes**

Survey of materials, production, and assembly methods utilized in the mass production of metal parts. Design considerations used to select appropriate technology. Lecture, discussion, shop experience, inspection trips. Prereq: 23INDL461. BoK: NS. Credit Level: U. Credit Hrs: 3.00

23INDL471**Human Factors in Industrial Design**

Problem oriented course covering concepts of human factors, science, systems and analysis as applied to consumer products. BoK: NS., SE. Credit Level: U. Credit Hrs: 3.00

23INDL472**Human Factors in Design**

Human physical, psychological, and sociological properties as the basis for design. BoK: NS., SE. Credit Level: U. Credit Hrs: 3.00

23INDL473**Theory of Industrial Design II**

Lecture-Seminar exploring methods and procedures pertaining to current studio work. Prereq: 23INDL352. BoK: SS. Credit Level: U. Credit Hrs: 2.00

23INDL474**Theory of Industrial Design II**

Lecture-Seminar exploring methods and procedures pertaining to current studio work. Prereq: 23INDL352. BoK: SS. Credit Level: U. Credit Hrs: 2.00

23INDL484**Design Technology III**

Basic computer graphics and problem solving techniques using departmental and college computer facilities. Prereq: 23INDL383. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL491**Independent Studies**

Individual project in collaboration with a faculty member on a subject of mutual interest; based on written proposal. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Industrial Design**23INDL492****Independent Studies**

Individual project in collaboration with a faculty member on a subject of mutual interest; based on written proposal. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23INDL501**Industrial Design**

Undergraduate design thesis supplemented by a variety of short problems. Prereq: 23INDL402. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL502**Industrial Design**

Undergraduate design thesis supplemented by a variety of short problems. Prereq: 23INDL501. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL511**Design Communications**

Projects combining advanced techniques in visual communication, advanced portfolio compilation and presentation. Prereq: 23INDL412. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL512**Design Communications**

Projects combining advanced techniques in visual communication, advanced portfolio compilation and presentation. Prereq: 23INDL511. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL531**Design Seminar**

An elective lecture or studio based on special topics developed by faculty or students. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL532**Design Seminar**

An elective lecture or studio based on special topics developed by faculty or students. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23INDL541**Topical Studio V**

Industrial Design Studio focused on specific topic in a collaborative, multi-disciplinary format, most frequently with a corporate partner. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL542**Topical Studio V**

Industrial Design Studio focused on specific topic in a collaborative, multi-disciplinary format, most frequently with a corporate partner. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL581**Career Design and Professional Development**

Information about career planning and job- seeking, including the development of cover letters, resumes, portfolios and the interview process. Practicing design professionals serve as guest speakers to address topics relevant to the practice of Industrial Design. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL582**Career Design and Professional Development**

Information about career planning and job- seeking, including the development of cover letters, resumes, portfolios and the interview process. Practicing design professionals serve as guest speakers to address topics relevant to the practice of Industrial Design. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INDL591**Independent Studies**

Individual project in collaboration with a faculty member on a subject of mutual interest; based on written proposal. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

Industrial Design**23INDL592****Independent Studies**

Individual project in collaboration with a faculty member on a subject of mutual interest; based on written proposal. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23INDL675**Human Factors in Design**

Human physical, psychological, and sociological properties as the basis for design. BoK: NS., SE. Credit Level: U, G. Credit Hrs: 3.00

23INDL623**Design Technology**

Experimental projects including computer simulation, intermediate computer graphics, and approaches to automated design. Credit Level: G. Credit Hrs: 1.00-3.00

23INDL731**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Industrial Design. Credit Level: G. Credit Hrs: 1.00-5.00

23INDL732**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Industrial Design. Credit Level: G. Credit Hrs: 1.00-5.00

23INDL733**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Industrial Design. Credit Level: G. Credit Hrs: 1.00-5.00

23INDL751**Advanced History of Industrial Design**

Factors influencing the form and technology of man-made objects from pre-industrial revolution period to twentieth century with emphasis on evolution of practice of industrial design. Credit Level: G. Credit Hrs: 1.00-4.00

23INDL752**Advanced History of Industrial Design**

Factors influencing the form and technology of man-made objects from pre-industrial revolution period to twentieth century with emphasis on evolution of practice of industrial design. Credit Level: G. Credit Hrs: 1.00-4.00

23INDL775**Human Factors in Design**

Human physical, psychological, and sociological properties as the basis for design. Credit Level: G. Credit Hrs: 4.00

23INDL831**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Industrial Design. Credit Level: G. Credit Hrs: 1.00-5.00

23INDL832**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Industrial Design. Credit Level: G. Credit Hrs: 1.00-5.00

23INDL833**Design Graduate Studies**

Graduate studies in advanced studio/lab, or thesis-related research in Industrial Design. Credit Level: G. Credit Hrs: 1.00-5.00

Interior Design**23INTD202****Interior Design Studio 2**

Application of design fundamentals to elementary problems of interior design. Applied graphic communication and exploration of problem-solving processes. Prereq: 23SAID201. BoK: FA, SS. Credit Level: U. Credit Hrs: 6.00

Interior Design**23INTD203****Interior Content Studio**

Creative problems of medium scale space planning and design, stressing programming as well as space planning techniques. Prereq: 23INTD202. BoK: FA, QR. Credit Level: U. Credit Hrs: 6.00

23INTD205**Communication Skills**

Fundamentals of accurate delineation through exercises in mechanical perspective and freehand sketching in limited media. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INTD217**Place and Dwelling**

This interdisciplinary course focuses on the complex relationships between the activities and psychological dimensions of home place and the physical spaces and representational images which serve them. Prereq: 23SAID201. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

23INTD223**Communication Skills II**

Introduction of rendering techniques for interior space. Prereq: 23INTD202. BoK: FA. Credit Level: U. Credit Hrs: 2.00

23INTD225**Introduction to Computer Graphics**

Continuation of computer graphics 23SAID193. BoK: NA. Credit Level: U. Credit Hrs: 2.00

23INTD269**Interior Design Materials and Construction**

Specific applications related to interior construction, materials, and detailing. Prereq: 23SAID201. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INTD301**Interior Design Studio 3: Hospitality Design**

Design problems involving hospitality design in restaurants and hotels, and other public interiors such as resorts, convention centers, and other facilities for entertainment. Emphasis is placed on space planning, sequencing of spaces, fixture design and details, signage and logo design, materials and texture, and furnishings and equipment within nonresidential, public interiors oriented to the establishment of comfort, pleasure and entertaining. Project design assignments include a broad range of spatial and theme types from hotels, restaurants, and spas, to historic interiors for specialized clientele. Prereq: 23INTD203. BoK: FA, QR. Credit Level: U. Credit Hrs: 6.00

23INTD304**Graphic Representation 3**

Advanced projects combining several rendering techniques in a variety of media applied to delineating interior space. Prereq: 23INTD202. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INTD327**History of Interior Design 1**

Beginnings of a comparative analysis of history and architecture as related to interior environments. BoK: HP. Credit Level: U. Credit Hrs: 3.00

23INTD328**History of Interior Design 2**

Continuation of comparative analysis of history and architecture as related to interior environments. BoK: HP. Credit Level: U. Credit Hrs: 3.00

23INTD342**Interior Design Content Studio**

Creative problems of a larger scope with special emphasis on architectural considerations. Prereq: 23INTD301. BoK: FA, QR. Credit Level: U. Credit Hrs: 6.00

Interior Design**23INTD364****Millwork**

Studies related to the joining of dissimilar materials; exercises to develop proficiency in casework and millwork design. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INTD366**Interior Design Fiber Base Materials**

The uses of natural and man-made fiber base materials. Analysis, construction, usage, and specifications related to textiles and fabric materials applied to interior design. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INTD388**Independent Studies**

Individual project in collaboration with a faculty member on a subject of mutual interest based on fully detailed written proposal. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23INTD389**Independent Studies**

Individual project in collaboration with a faculty member on a subject of mutual interest based on a fully detailed written proposal. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23INTD401**Interior Design Studio 4: Retail Design**

Design problems involving commercial retail design and issues of store planning in commercial retail environments. Particular emphasis is placed on space planning, sequencing of spaces, fixture design and details, lighting, signage and logo design, materials and texture, and furnishings and equipment within nonresidential, public interiors devoted to the retailing of commercial products. Project design assignments of retail spaces where a range of appeal and service may be utilized as a subject type for commercial contract design services and solutions are required. A broad range of commercial retail, from specialty to large chain retail and showrooms are offered. Prereq: 23INTD301. BoK: FA, QR. Credit Level: U. Credit Hrs: 6.00

23INTD414**Furniture Design Seminar**

World views into the marketing and production of furniture with focus on the technologies and material processes employed throughout world markets, formulating cross-cultural connections between design products and economic forces and resources in the production of contemporary furniture using the case-study format. BoK: SE. Credit Level: U. Credit Hrs: 3.00

23INTD439**Interior Design Programming and Research**

Programming: Introduction to planning procedures and program development for interior design. Design Research: Individual study and research directed toward development of a program for the terminal senior design project. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INTD442**Interior Design Content Studio**

Problems involving design of commercial and institutional interiors with emphasis on space analysis and planning and coordination of furnishings and equipment. Prereq: 23INTD401. BoK: FA, QR. Credit Level: U. Credit Hrs: 6.00

23INTD455**Interior Design Theory IV**

Directed elective from university, college and department offerings. Examines interior design and design theories; intellectual contributions as well as cultural, social, and historical events which contribute to the development and definition of interior design and interior space. BoK: HU., QR. Credit Level: U. Credit Hrs: 3.00

23INTD487**Lighting**

Principles and techniques of power distribution, lighting, and luminaire design with emphasis on lighting effects and methods. BoK: NA. Credit

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Interior Design**23INTD487****Lighting**

Level: U. Credit Hrs: 3.00

23INTD488**Independent Studies**

Individual project in collaboration with a faculty member on a subject of mutual interest based on a fully detailed written proposal. BoK: NA.

Credit Level: U. Credit Hrs: 1.00-3.00

23INTD489**Independent Studies**

Individual project in collaboration with a faculty member on a subject of mutual interest based on a fully detailed written proposal. BoK: NA.

Credit Level: U. Credit Hrs: 1.00-3.00

23INTD501**Interior Design Senior Project Studio 1**

Comprehensive project summarizing principles and techniques of design applied to the student's chosen project developed from design research. Prereq: 23INTD401. BoK: NA. Credit Level: U. Credit Hrs: 6.00

23INTD502**Interior Design Senior Project Studio 2**

Summarization of principles and techniques of design applied to a major problem of the student's own choosing. Prereq: 23INTD501.

BoK: NA. Credit Level: U. Credit Hrs: 6.00

23INTD523**Communication Skills V**

Study of exhibition systems and environmental graphics as applied to the exhibit of senior project studio work. BoK: FA. Credit Level: U.

Credit Hrs: 2.00

23INTD537**Professional Practice 2**

Professional aspects of interior design practice, including business law, trade relations, office procedures and estimating. Prereq: 23INTD401.

BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INTD565**Interior Specifications**

Introduction to the principles and methods of interior design specifications and their relationship to contract documents. Prereq: 23INTD202. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23INTD588**Independent Studies**

Individual project in collaboration with a faculty member on a subject of mutual interest based on a fully detailed written proposal. BoK: NA.

Credit Level: U, G. Credit Hrs: 1.00-3.00

23INTD589**Independent Studies**

Individual project in collaboration with a faculty member on a subject of mutual interest based on a fully detailed written proposal or for use by senior students participating in mentoring program with first-year students. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

Planning**23PLAN111****Principles of Planning Design Graphic****Communication I**

Skills development in the use of drafting equipment, letter forms, basic photography, color conceptual diagrams, and report graphics BoK: NA. Credit Level: U. Credit Hrs: 5.00

23PLAN112**Principles of Planning Design Graphic****Communication II**

Skills development in flowcharts, axonometric, and perspective drawings, freehand sketching, model making, audio, film, video, and multi media techniques BoK: NA. Credit Level: U. Credit Hrs: 5.00

Planning**23PLAN113****Principles of Planning Design Graphic****Communication III**

Skills development in preparation of a series of analytical planning drawings, and maps including base maps, land use, building conditions, movement systems, community facilities, figure ground, image, redesign, and development BoK: NA. Credit Level: U. Credit Hrs: 5.00

23PLAN151**Introduction to Urban Planning**

Survey of factors influencing development of cities. Introduction to planning goals, philosophy, concepts, processes, administration, literature, and history. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

23PLAN203**Principles of Planning Design III/Lecture**

Lecture portion of man-environment relationships, emphasis on environmental structure, social structure, decision process. Coreq: 23PLAN213. Prereq.: 23PLAN112. BoK: NA. Credit Level: U. Credit Hrs: 2.00

23PLAN207**Land Use Controls**

The theory, practice and impacts of zoning, growth management, and other techniques of land use control. Methods and legal constraints to developing land use plans and land use development ordinances. BoK: SS. Credit Level: U. Credit Hrs: 3.00

23PLAN211**Site Analysis, Site Planning and Design**

Investigation of two- and three-dimensional basic design principles; color; human physiological constraints, basic man-environment relationships. Studio/Seminar. Prereq: 23PLAN111. BoK: FA, SS. Credit Level: U. Credit Hrs: 5.00

23PLAN212**Planning Design Studio:Neighborhood/District**

Consideration of function requirements; emphasis on a problem solving and analytical procedures. Prereq: 23PLAN112. BoK: FA, SS. Credit Level: U. Credit Hrs: 5.00

23PLAN213**Principles of Planning Design III**

Man-environment relationships, emphasis on environmental structure, social structure, decision process. Studio/Seminar. Prereq: 23PLAN203. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23PLAN247**Planning Study Abroad Seminar**

Selected topics and travel experience designed to introduce students to the nature of university life to globalization issues, and to several disciplines and/or professions through an abroad experience. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 4.00

23PLAN251**Site Planning**

Factors influencing site development and site analysis. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23PLAN254**Introduction to GIS Applications in Planning**

An introduction to geographic information systems and applications in planning. A hands-on laboratory is included (priority given to planning students. Any slots left available will be filled on a first come first served basis) BoK: NA. Credit Level: U. Credit Hrs: 3.00

23PLAN255**Computer Graphics in Planning**

This course uses CAD to create three-dimensional models and a presentation graphics program to prepare for professional setting presentations of CAD models. Prereq: 23PLAN254. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Planning**23PLAN301****Local Planning Resources I**

Mentor program to familiarize new urban planning students with planning resources in the region. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-2.00

23PLAN302**Local Planning Resources II**

Mentor program to familiarize new urban planning students with planning resources in the region. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-2.00

23PLAN303**Planning Applications of Economic Concepts**

Provide an overview of basic economic concepts and their application to selected urban and regional planning issues. Students will have a basic knowledge of macro and micro economic concepts and will be able to apply them to important urban issues. Prereq: 15ECON101, 15ECON102. BoK: QR. Credit Level: U. Credit Hrs: 3.00

23PLAN331**Planning Design Studio: Comprehensive/Region**

Variable content associated with studio problems Prereq: 23PLAN211. BoK: FA, SS. Credit Level: U. Credit Hrs: 5.00

23PLAN341**Planning IIIa/Studio**

Student team activity on a particular planning problem. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23PLAN345**Planning Statistics I**

A computer-based course that covers basic research methods related to statistics, measurement principles, descriptive statistics, and elementary inductive statistics. BoK: QR. Credit Level: U. Credit Hrs: 3.00

23PLAN346**Planning Statistics II**

A continuation of Statistics I that covers basic tests of significance for multiple samples using nominal, ordinal, and ratio scale data. Coreq: 23PLAN345. BoK: QR. Credit Level: U. Credit Hrs: 3.00

23PLAN351**Understanding the Urban Environment**

Lecture and field trips using the Cincinnati region to demonstrate and explain how cities are designed. BoK: SS. Credit Level: U. Credit Hrs: 3.00

23PLAN352**Understanding the Urban Environment**

Lecture and field trips using the Cincinnati region to explain the organizational aspects of the city. BoK: SS. Credit Level: U. Credit Hrs: 3.00

23PLAN375**Organization Theory**

Introduction to the structures and dynamics of formal organizations; organizational theories and contexts in which organizations operate. A service learning course BoK: SS., SE. Credit

23PLAN397**Film and the Global Village: Studies of Development in Africa, Asia, and Latin America**

Introduction to urban problems in the Third World, which uses documentary videos to provide students with a vivid image of the places and issues of urban Africa, Asia and Latin America BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

23PLAN431**Planning IVa/Seminar**

Variable content associated with studio problem. BoK: NA. Credit Level: U. Credit Hrs: 2.00

Planning**23PLAN441****Planning Design Studio: Topical**

Student team activity on a particular planning problem Prereq: 23PLAN331. BoK: FA, SS. Credit Level: U. Credit Hrs: 5.00

23PLAN511**Independent Study in Community Planning**

Subject outlined by student and accepted for guidance by a member of the planning faculty BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23PLAN512**Independent Study in Community Planning**

Subject outlined by student and accepted for guidance by a member of the planning faculty. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23PLAN513**Independent Study in Community Planning**

Subject outlined by student and accepted for guidance by a member of the planning faculty BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23PLAN514**Independent Study in Community Planning**

Subject outlined by student and accepted for guidance by a member of the planning faculty BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

23PLAN528**Introduction to Historic Preservation**

Introduction to the processes of historic preservation, relationships to cultural and economic factors and planning and design processes. BoK: HP., SS. Credit Level: U, G. Credit Hrs: 3.00

23PLAN545**Methods of Research I for Planners**

Logic of social research methods, survey research, ethics of research and methods of evaluation research Prereq: 23PLAN345, 23PLAN346. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23PLAN546**Methods of Research II for Planners**

Research methods related to planning and human services delivery, including demographic analysis, economic analysis and use analysis, and transportation analysis Prereq: 23PLAN545. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23PLAN549**Planning Abroad Studio**

Individual and group studio project to address a planning issues in a foreign setting BoK: NA. Credit Level: U. Credit Hrs: 0.00-18.00

23PLAN550**Exchange Study**

Special program of study abroad. Open only on selected students. Requires approval of School Director BoK: NA. Credit Level: U. Credit Hrs: 1.00-18.00

23PLAN553**Urban Planning Law**

Survey of the legal, constitutional, legislative, and administrative concepts, controls, regulations, and procedures basic to urban planning. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23PLAN563**Theory of Planning**

Survey of planning theory; examines planning theory and intellectual contributions to planning principles and implementation; studies the generic nature of planning BoK: SS. Credit Level: U. Credit Hrs: 3.00

23PLAN577**Ethical Issues in Planning**

This applied ethics course provides a set of general ethical tools that can be used to analyze ethical issues faced by citizens and by planners. Case studies and ethic codes of the American Institute of Certified Planners will be discussed BoK: SE. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Planning**23PLAN578****Senior Problem Proposal**

Guidance in the preparation of acceptable proposal for the Senior Problem. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00

23PLAN579**Social Justice and the City**

Nature of city life. Examination of different perspectives on the meaning and value of the city; living good life, responsibilities of political leadership, poverty, and social and economic equality. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

23PLAN580**Introduction to Geographic Information Systems.**

Fundamental understanding of GIS, software availability, hardware configurations, database management, GIS project implementation, and a wide variety of issues associated with application of GIS. Included is a hands-on laboratory. Prereq: 23PLAN255. BoK: NA. Credit Level: U. Credit Hrs: 4.00

23PLAN581**GIS Planning Applications**

Advanced GIS concepts and skills and their applications to planning issues that require geographic data analysis. Student projects will be produced using advanced GIS analytical function Prereq: 23PLAN254, 23PLAN580. BoK: NA. Credit Level: U. Credit Hrs: 4.00

23PLAN584**Finance and Budgeting for Planners**

Public budgeting and finance for the urban planner. Prereq: 15ECON101, 15ECON102, 23PLAN303. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23PLAN588**Senior Planning Problem Research/Lecture**

Problem verification and goal setting leading to solution alternative selection Prereq: 23PLAN578. Coreq: 23PLAN598. BoK: NA. Credit Level: U. Credit Hrs: 2.00

23PLAN589**Senior Planning Problem Synthesis/Lecture**

Development of implementation plan for the selected alternative of the research phase. Prereq: 23PLAN578. Coreq: 23PLAN599. BoK: NA. Credit Level: U. Credit Hrs: 2.00

23PLAN591**Independent Study in Urban Planning**

Subject outlined by student and accepted for guidance by a member of the planning faculty BoK: NA. Credit Level: U. Credit Hrs: 1.00-5.00

23PLAN592**Mediation Skills**

Introduction to the theories and practice of conflict intervention. Focus on mediation of different kinds of disputes. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

23PLAN598**Senior Planning Problem Research/Studio**

Problem verification and goal setting leading to solution alternative selection Prereq: 23PLAN578, 23PLAN588. Coreq: 23PLAN598. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23PLAN599**Senior Planning Problem Synthesis/Studio**

Development of implementation plan for the selected alternative of the research phase. Prereq: 23PLAN578, 23PLAN598. Coreq: 23PLAN589. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23PLAN603**Environmental Resource Analysis**

Concepts, issues, and processes within the context of policy development for land use planning and resource management at federal, state, and local levels. BoK: NS., SS. Credit Level: U, G. Credit Hrs: 3.00

Planning**23PLAN604****Principles of Urban Design**

Concepts, methods, analytical techniques, and processes fundamental to the practice of urban design. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

23PLAN605**Workshop in Land Use/Urban Design/Environmental Planning**

Application of generic and physical planning methods to a physical planning problem, based with real clients BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-5.00

23PLAN606**Environmental Processes and Programs**

Analysis of environmental processes and various local, regional, state, national, and international programs to address environmental problems. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

23PLAN608**Seminar:**

Review and discussion of literature from ancient through contemporary periods, dealing with issues critical to modern practice. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

23PLAN609**Environmental Planning and Policy**

Public decision-making framework for environmental problems and major land, air and water management programs in the United States. Emphasis on planning strategies and management techniques. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

23PLAN610**Comprehensive Planning**

A thorough review of the major steps involved in the production of a municipal comprehensive plan. Also intended to give students a better understanding of the practical and political dimensions involved in the master planning process BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

23PLAN612**Planning and Implementation of Planned Communities**

The course presents the history, social characteristics, economic foundations and physical forms of planned communities, especially in the Midwest. It starts with 18th and 19th century religious and utopian communities established by European communities and then concentrates on planned town experiments by benevolent capitalists, the federal government, and private developers. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

23PLAN620**Special Topics in Planning**

A study of priority issues in planning, processes, planning administration, implementation, or evaluation BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

23PLAN621**Special Topics in Planning**

Study of priority issues in planning processes, planning administration, implementation or evaluation BoK: SS. Credit Level: U, G. Credit Hrs: 2.00-4.00

23PLAN622**Special Topics in Planning**

Study of priority issues in planning processes, planning administration, implementation or evaluation BoK: SS. Credit Level: U, G. Credit Hrs: 2.00-4.00

23PLAN623**Special Topics in Planning**

Study of priority issues in planning processes, planning administration, implementation or evaluation. BoK: SS. Credit Level: U, G. Credit Hrs: 2.00-4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Planning**23PLAN624****Special Topics in Planning**

Study of priority issues in planning processes, planning administration, implementation or evaluation. BoK: SS. Credit Level: U, G. Credit Hrs: 2.00-4.00

23PLAN625**Special Topics Workshop**

Overview of selected planning/policy topics. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

23PLAN628**Introduction to Historic Preservation**

Introduction to the processes of historic preservation, relationships to cultural and economic factors and planning design processes. BoK: HP, SS. Credit Level: U, G. Credit Hrs: 3.00

23PLAN630**Housing Systems**

Housing viewed as social and economic, as market commodity and public provision, to be planned in relation to land use and public facilities. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

23PLAN641**Urban Lobbying I: Issues**

Guest seminars; lobbying for community and human services needs, influencing legislation, allocation of resources, media techniques. BoK: SS, DC. Credit Level: U, G. Credit Hrs: 3.00

23PLAN642**Urban Lobbying II: Communications**

Communicating community problems and human services needs; field experiences, public media critiques, teaching, consulting. BoK: SS, DC. Credit Level: U, G. Credit Hrs: 3.00

23PLAN643**Urban Lobbying III: Advocacy**

Student-led presentations, projects on urban issues, community communication techniques. BoK: SS, DC. Credit Level: U, G. Credit Hrs: 3.00

23PLAN651**Urban Spatial Structure**

Investigation of political, social and economic determinants of the use of urban land. Different theories are discussed and the contributions of various disciplines to a variety of general themes on spatial structure are explored. Prereq: 23PLAN303. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

23PLAN655**Politics of Implementation**

Examination of problems for implementation of urban plans. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

23PLAN656**Land Use and Environmental Dispute Resolution**

Examination of the relationship among land use, planning, public policy, and the environmental agenda. Focus on environmental justice and the ways in which environmental dispute can be lessened or resolved. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

23PLAN658**Transportation Planning**

Course presents the significance that transportation plays in the development of urban areas, its historical context, its constituent and necessary interconnected parts, its current problems, its future as mandated by U.S. federal regulations and the role the urban planner should play in the future of transportation planning. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

23PLAN659**Transportation Demand Forecasting I**

Fundamental concepts and theories of travel demand forecasting process; aggregate travel demand models; trip generation, trip distribution, model split network assignment. BoK: QR. Credit Level: U,

Planning**23PLAN659****Transportation Demand Forecasting I**

G. Credit Hrs: 3.00

23PLAN660**Transportation Demand Forecasting II**

Fundamental concepts and theories of travel demand forecasting process; aggregate travel demand models; trip generation, trip distribution, model split network assignment. Prereq: 23PLAN659. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

23PLAN661**History of Urban Spatial Environment**

Examines the history of urban spaces/places as results of cultural patterning. Utilizes cross-sectional analysis. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

23PLAN662**History of Urban Form**

Examines specific examples of urban form through history. Uses developmental analysis. BoK: FA. Credit Level: U, G. Credit Hrs: 3.00

23PLAN664**Highway Engineering**

Overview from programming through design to construction. Coverage of design controls and standards alignment and grade line, typical sections, geometric design, design with COGO, surveying, and mapping intersections and channelization, cross sections, and earthwork, drainage, and right of way, safety criteria maintenance of traffic, contract documents, legal, and environmental considerations. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

23PLAN665**Traffic Engineering**

Operation of transportation systems; traffic surveys, and studies; laws and ordinances; traffic control devices, including signs, pavement marking and traffic signals; speed capacity analysis. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

23PLAN667**Computer Methods in Transportation**

Use of computers to analyze traffic data and interpret models, use of current microcomputer software for capacity analysis and signal timing and traffic signals; signal systems, speed, and capacity analysis. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

23PLAN670**Planning Issues in Developing Nations**

Overview of issues of urban and regional development in developing nations, with readings from various disciplines topics include theories of development, processes of urbanization, immigration, housing, urban services, environment, regional development, and planning and policy responses. BoK: DC, SE. Credit Level: U, G. Credit Hrs: 3.00

23PLAN673**Methods in International Development Planning II**

Issues and techniques relevant to conducting field research in a foreign setting. Emphasis on the collection of primary data. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

23PLAN678**Historic Preservation in Planning**

The course focuses on historical preservation through the planning and design process. Topical subjects include: historical district delineation, zoning and historical preservation, legal and economic issues of historical preservation, and historical preservation guidelines for design. BoK: NA. Credit Level: G, U. Credit Hrs: 3.00

23PLAN679**International Development Planning Policy**

Survey of plans and policies used in urban and regional planning in developing nations. Covers the post-WWII era and focuses on different agencies and actors involved policy and plan development and implementation. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Planning**23PLAN679****International Development Planning Policy**

Survey of plans and policies used in urban and regional planning in developing nations. Covers the post-WWII era and focuses on different agencies and actors involved policy and plan development and implementation. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

23PLAN681**GIS Planning Applications**

Advanced GIS concepts and skills and their applications to planning issues that require geographic data analysis. Student projects will be produced using advanced GIS analytical functions Prereq: 23PLAN254. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

23PLAN700**Introduction to Graduate Research**

Preparation of the proposal for graduate project which demonstrates the ability to conduct independent research Credit Level: G. Credit Hrs: 4.00

23PLAN701**Concepts and Issues in Planning Practice**

Comprehensive introduction to societal, metropolitan, and community issues and to the main ideas and approaches utilized in the practice of planning. Credit Level: G. Credit Hrs: 4.00

23PLAN702**Social Science Research for Planners**

Introduction to the research process and selected qualitative and quantitative research methods commonly used in planning. Credit Level: G. Credit Hrs: 4.00

23PLAN703**Planning Theory**

Systematic presentation and analysis of theoretical foundations and specific theories of planning. Credit Level: G. Credit Hrs: 4.00

23PLAN704**Economic Analysis for Planners**

From the perspective of economic theory and reasoning, this course covers such basic planning related issues as the role of planning in markets, the relationship between efficiency and equity, and the use and limits of cost-benefit analysis to plans and policies. This course also prepares students for other planning courses that require a basic knowledge of the scope and limits of economic theory. Credit Level: G. Credit Hrs: 4.00

23PLAN705**Methods of Physical Analysis**

Introduction to planning graphics and mapping, physical data selection and recording, physical analysis including the mapping and analysis of environmental data, typography, land use, zoning, social and political characteristics, transportation, infrastructure and buildings. Introduction to photography, report graphics and presentation methods used in urban planning. Credit Level: G. Credit Hrs: 4.00

23PLAN706**Organizational Theory and Behavior in Planning**

Examination of the structure, functioning, and change within organizations in relation to planning and its professional practice. Credit Level: G. Credit Hrs: 4.00

23PLAN707**Workshop in Urban Design II**

Advanced urban design studio. Credit Level: G. Credit Hrs: 4.00

23PLAN709**Comprehensive Planning Workshop**

Planning and policy implications of one significant urban or metropolitan issue, one section emphasizing primarily quantitative analysis and modeling, the other qualitative social and aesthetic issues. Credit Level: G. Credit Hrs: 5.00

Planning**23PLAN710****Issues in Economic Development Planning**

Review and analysis of the causes of economic decline in inner cities, the ways in which urban poverty is perceived, the structural problems of local economics, and strategies for their mitigation. Introduction to the process and techniques of economic development and planning for communities and urban areas. Credit Level: G. Credit Hrs: 4.00

23PLAN711**Planning Law and Administration**

Exploration of the legal foundation of planning practice and organizational environments and administrative practices characterizing planning practice. Credit Level: G. Credit Hrs: 4.00

23PLAN712**Planning Methods and Techniques**

Introduction to quantitative methods commonly employed by planners, including linear regression, population, and employment projections, cohort survival, time series, and index numbers, economic base, and others. Extensive use of US Census. Credit Level: G. Credit Hrs: 4.00

23PLAN713**Economic Development Planning Methods I**

Survey and implementation of basic techniques used for economic development. The course covers economic base and employment multipliers, shift-share analysis, input-output analysis, and structural multipliers, gravity models and retail location analysis and real estate development analysis. Credit Level: G. Credit Hrs: 4.00

23PLAN714**Finance and Budgeting for Planners**

Fiscal and budgetary issues and methods in local and state governments, especially as related to urban and regional planning issues shaped by broader economic policies and ingovernmental transfer. Credit Level: G. Credit Hrs: 4.00

23PLAN715**Economic Development Planning Methods II**

Micro-level techniques used to plan, implement, and evaluate specific economic development proposals and actions. Credit Level: G. Credit Hrs: 4.00

23PLAN716**Structure and Dynamics of Human Settlements**

Survey of the economic, social, political, and environmental forces shaping cities and metropolitan regions influencing their spatial structure and internal functions. The course reviews the evolution of urbanization in the U.S., especially after WWII, analyzes market and social/ political forces affecting the patterns of growth and decline, and examines the political economy of urban systems, their land use regimes, their infrastructure and their efforts at reinventing and revitalizing their old cores and the structure of their economies. Credit Level: G. Credit Hrs: 4.00

23PLAN717**Land Use Control**

The theory, practice and impacts of zoning, growth management, and other techniques of land use control. Methods and legal constraints to developing land use plans and land use development ordinances. Credit Level: G. Credit Hrs: 4.00

23PLAN718**Community Planning Practicum - HUD Students**

Seminar sessions on the problems facing participating planners in various settings, organizations and communities. Studies of professional role relationships to clients, public officials, private sector and community groups. Credit Level: G. Credit Hrs: 1.00

23PLAN719**Policy Planning for Economic Development**

This seminar course explores the role of the state in economic development, examines the history and evolution of economic development policy and its institutions after the Second World War, and evaluates policies and strategies employed by federal, states, and local

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Planning**23PLAN719****Policy Planning for Economic Development**

governments to position them competitively as entrepreneurial entities in an increasingly globalized world economy. Credit Level: G. Credit Hrs: 4.00

23PLAN720**Site Planning**

Advanced discussion of factors influencing site analysis and development. Credit Level: G. Credit Hrs: 4.00

23PLAN721**Graduate Project Preparation**

This is the first of the four courses offered to support MCP students completing the required thesis research or project. Credit Level: G. Credit Hrs: 3.00

23PLAN723**Graduate Project in Planning I**

Graduate project focusing on problem articulation research, analysis and presentation of alternative solutions. Credit Level: G. Credit Hrs: 4.00

23PLAN724**Graduate Project in Planning II**

Graduate project focusing on the evaluation of alternatives, selection, evaluation of solution construction of the manner of the implementation including specifications of human, material and institutional resources required. Credit Level: G. Credit Hrs: 2.00

23PLAN725**Special Planning Topics**

Overview of selected planning/policy topics. Credit Level: G. Credit Hrs: 4.00

23PLAN726**Summer Planning Internship Seminar I**

Introduction to the selection of performance standards and evaluation of the required summer professional internship. Credit Level: G. Credit Hrs: 1.00

23PLAN727**Summer Planning Internship II**

Assessment and evaluation of required full time summer internship for all graduate students in the school of planning. Credit Level: G. Credit Hrs: 2.00

23PLAN728**American Political Institutions**

An introduction for international planning students to the governmental institutions and political processes that shape the profession of urban planning. Credit Level: G. Credit Hrs: 1.00

23PLAN731**Political and Ethical Issues in Planning**

Examination of political and ethical issues in planning practice linking current and projected large-scale national and urban problems and professional, knowledge, and growth. Credit Level: G. Credit Hrs: 4.00

23PLAN736**Environmental Processes and Issues**

Provides context of environmental processes and issues related to urban systems and urban growth. The introduction to actors in environmental planning. Credit Level: G. Credit Hrs: 4.00

23PLAN740**Independent Research in Community Planning**

According to the amount of research elected each quarter. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-15.00

23PLAN741**Independent Research in Community Planning**

According to the amount of research elected each quarter. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-15.00

Planning**23PLAN742****Independent Research in Community Planning**

According to the amount of research elected each quarter. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-15.00

23PLAN743**Independent Research in Community Planning**

According to the amount of research elected each quarter. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-15.00

23PLAN749**Graduate Planning Abroad Studio**

Individual and group studio project to address a planning issue in a foreign setting. Credit Level: G. Credit Hrs: 0.00-15.00

23PLAN750**Graduate Exchange Study**

Special program of study abroad. Open only to selected students. Requires approval of School Director. Credit Level: G. Credit Hrs: 1.00-15.00

23PLAN751**Directed Readings in Planning**

Systematic and thorough examination of a specific substantive topic, functional area or process in planning. Credit Level: G. Credit Hrs: 4.00-6.00

23PLAN753**Statistics for Planners**

The computer-based course prepares planning students to utilize sample data to prepare, implement, and evaluate policy and planning decisions. The course covers research methods related to statistics, measurement principles, descriptive statistics, tests of significance for a single and multiple samples, and an introduction to regression analysis. Credit Level: G. Credit Hrs: 4.00

23PLAN754**Computer Graphics for Planners**

Basic skills in presentation graphics, mapping, image manipulation and photography, desktop, and web design and publishing. ArcView, Photoshop PowerPoint, PageMaker, Excel, Netscape Composer. Credit Level: G. Credit Hrs: 4.00

23PLAN755**Computer Graphics in Planning**

This course uses CAD to create three-dimensional models and a presentation graphics program to prepare for professional setting presentations of CAD models. Prereq: 23PLAN754. Credit Level: G. Credit Hrs: 3.00

23PLAN767**Social Planning**

A study of the sociological factors generating, supporting altering planning, development processes, and the professional role of the planner. Credit Level: G. Credit Hrs: 4.00

23PLAN770**Planning Issues in Developing Nations**

Overview of issues of urban and regional development in developing nations, with readings from various disciplines. Topics include theories of development, processes of urbanization, immigration, housing, urban services, environment, employment, regional development, and planning and policy responses. Credit Level: G. Credit Hrs: 4.00

23PLAN773**Social Factors in Environmental Design**

This seminar is an experimental attempt to study, appreciate, and analyze the relationship (both one-way and reciprocal) between human behavior and other social factors on the one hand, and the man made and designed environment on the other. A good deal of attention will be paid to current and recent empirical research as well as published theoretical and conceptual ideas. Emphasis will be placed on reading, thinking, and exchanging ideas. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Planning**23PLAN776****Peace Corps Practicum I**

Seminar sessions and independent study based on experience gained on assignment through the SOP Peace Corps programs. Addresses issues of community development work as a professional planner; including reflection on how returned volunteers use the knowledge and skills they developed during their overseas service to improve people's lives here at home. Credit Level: G. Credit Hrs: 0.00-4.00

23PLAN777**Peace Corps Practicum II**

Seminar sessions and independent study based on experience gained on assignment through the SOP Peace Corp programs. Addresses issues of community development work as a professional planner, including reflection on how returned volunteers use the knowledge and skills they developed during their overseas service to improve people's lives here at home. Credit Level: G. Credit Hrs: 0.00-4.00

23PLAN778**Peace Corp Master's International Guided Study**

Independent study based on hands-on experience while on assignment through the Peace Corps Master's International program. Covers issues of international development work as a professional, including methods of research and planning; cross- cultural relations; local, regional, or national planning efforts; and specific technical areas related to the student's assignment. Perm of Department. Credit Level: G. Credit Hrs: 0.00-15.00

23PLAN779**International Development Planning Policy**

Study of specific policies and programs their impacts, and policy evaluation. Credit Level: G. Credit Hrs: 4.00

23PLAN780**Introduction to Geographic Information Systems for Planners**

Fundamental understanding of GIS, software availability, hardware configurations, database management, GIS project implementation and a wide variety of issues. Includes a hands on lab. Credit Level: G. Credit Hrs: 4.00

23PLAN781**GIS Planning Applications**

Advanced GIS concepts and skills and their application to planning issue that require geographic data analysis. Student projects will be produced using advanced GIS analytical functions Credit Level: G. Credit Hrs: 4.00

23PLAN782**GIS Project Formulation and Management**

This is the third in a three course sequence of GIS courses. Students will design and carry out a GIS project that requires spatial analysis in analyzing a real world urban and/or regional issue such as land use, housing, environment, transportation and economic development. Credit Level: G. Credit Hrs: 4.00

23PLAN791**Independent Study in Urban Design**

Study proposal prepared by student and accepted for guidance by a member of the urban planning faculty. Credit Level: G. Credit Hrs: 1.00-6.00

23PLAN792**Mediation Skills in Urban Settings**

A systematic examination of concepts and processes related to the resolution of disputes within urban settings. Credit Level: G. Credit Hrs: 4.00

23PLAN793**Independent Study in Urban Design**

Study proposal prepared by student and accepted for guidance by a member of the urban planning faculty. Credit Level: G. Credit Hrs: 1.00-6.00

Planning**23PLAN794****Independent Study in Urban Design**

Study proposal prepared by student and accepted for guidance by a member of urban planning faculty. Credit Level: G. Credit Hrs: 1.00-6.00

23PLAN801**Metropolitan and Regional Structure and Dynamics**

Examines the economic social, political and environmental factors, which help shape the structure and the spatial configurations of regions. At the metropolitan level, it examines the dynamics of multiple political jurisdictions, the phenomena of suburbanization, sprawl and urban suburban polarization and the efforts of metropolitan regions to impose growth management schemes via political or planning devices and tools. Credit Level: G. Credit Hrs: 4.00

23PLAN802**Theories and Models of Regional and Development at the Global Level**

Review of theories of regional organization, the relationships among regions at various hierarchical levels, as well as growth and development as interpreted by several schools of thought. Emphasis given to the economic shaped by global forces in the industrialized world through market treaties and in the developing world through information and industrial technology. Labor mobility and outsourcing. Credit Level: G. Credit Hrs: 4.00

23PLAN803**Economy Environment and Sustainable Development**

Considers the economic development aspects of environmental policies, the literature and politics of cost/benefit and other methods of analysis of environmental implications, the global dimensions of environmental problems and the economic growth, environmental protection and conservation synergy promoted by the principles and objectives of sustainable development. Credit Level: G. Credit Hrs: 4.00

23PLAN804**Policy Analysis for Regional Development Planning**

Examines and evaluates the analytical tools used in regional development program and policy assessment while stressing Ohio and American models. Credit Level: G. Credit Hrs: 4.00

23PLAN805**Regional Political Economy**

Provides an overview of theories and approaches to political economy and their application to selected urban and regional planning and policy issues. This course examines major social science paradigms for analyzing relations among state, economy, and society. Provides a broad understanding of the structure and functions of subnational governments, nature of urban and regional economies and their relationship. Perm of Department. Credit Level: G. Credit Hrs: 4.00

23PLAN850**Seminar on the Implementation of and Management of Regional Development Plans and Programs**

Focuses on implementation aspects of regional development plans and programs. Beginning with the examination of regional development policies and their implementation, the seminar proceeds to review the institutional, budgetary and political sides of the implementation efforts at the regional level. Credit Level: G. Credit Hrs: 4.00

23PLAN901**Graduate Project Preparation**

Seminar designed to help students choose and define a topic for the Graduate Project. Credit Level: G. Credit Hrs: 1.00

23PLAN902**Community Planning Practicum**

Seminar sessions on the problems facing practicing planners in various settings, organizations, and communities. Studies of professional role relationships to clients, public officials, private sector, and community groups. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Planning**23PLAN904****Summer Planning Internship Seminar I**

Introduction to the selection, performance standards, and evaluation of the required summer professional internship. Credit Level: G. Credit Hrs: 1.00

23PLAN905**Summer Planning Seminar II**

Assessment and evaluation of required full-time summer internship for all graduate students in the School of Planning. Credit Level: G. Credit Hrs: 2.00

23PLAN910**Graduate Project in Planning I**

Graduate Project focusing upon problem articulation research, analysis and presentation of alternative solution. Credit Level: G. Credit Hrs: 4.00

23PLAN911**Individual Research in Planning**

According to amount of research elected. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-15.00

23PLAN912**Individual Research in Planning**

According to amount of research elected. Credit Level: G. Credit Hrs: 1.00-15.00

23PLAN913**Individual Research in Planning**

According to amount of research elected. Credit Level: G. Credit Hrs: 1.00-15.00

23PLAN914**Individual Research in Planning**

According to amount of research elected. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-15.00

23PLAN920**Graduate Project in Planning II**

Graduate project focusing upon evaluation of alternatives, selection and evaluation of solution, construction of the manner of implementation including specification of human, material, and institutional recourses required. Credit Level: G. Credit Hrs: 4.00

23PLAN931**Theory Construction and Research Design for Planners**

Study of grounding principles/processes for theory construction and research design; formulation of full research proposals. Credit Level: G. Credit Hrs: 4.00

23PLAN932**Research Execution and Evaluation for Planners**

Administration for research projects; evaluation of research effort for rigor, precision, validity, reliability, and relevance. Credit Level: G. Credit Hrs: 5.00-15.00

23PLAN933**Policy Formation and Evaluation for Planners**

Synthesis of theory and research to form policy for applications to specific contexts; comparative examinations of consequences. Credit Level: G. Credit Hrs: 4.00

23PLAN950**Doctoral Seminar in Research Design and Proposal**

Enables students to develop comprehensive dissertation proposal prior to the comprehensive examinations for admission to candidacy at the end of the second year of doctoral study. Credit Level: G. Credit Hrs: 4.00

23PLAN951**Directed Readings in Planning**

Systematic and thorough examination of a specific substantive topic, functional area, or process in planning. May be repeated but not to exceed 12 gr. cr. Credit Level: G. Credit Hrs: 4.00-6.00

Planning**23PLAN952****Seminar On Doctoral Dissertation Research**

Requires doctoral students in the dissertation writing phase to present their work in progress to their peers and the faculty for comment and criticism Credit Level: G. Credit Hrs: 4.00-6.00

23PLAN953**Directed Readings in Health Planning**

Systematic and thorough examination of specific planning processes and/or management models within health care settings. Credit Level: G. Credit Hrs: 4.00-6.00

23PLAN960**Doctoral Colloquium**

Colloquium for doctoral students and faculty to discuss and critique their current research Perm of Department. Credit Level: G. Credit Hrs: 0.00-2.00

23PLAN997**Doctoral Research in Planning**

Research of an advanced theoretical or empirical nature which advances the theory and method of planning and/or gives support to development of professional practice. Credit Level: G. Credit Hrs: 1.00-15.00

Architecture and Interior Design**23SAID001****Design Studio I-Trailer**

Accelerated version of 23SAID101,2,3 combined. BoK: FA. Credit Level: U. Credit Hrs: 9.00

23SAID002**Skills I-Trailer**

Intensified studio exercises introducing architectural drafting, including orthographic and paraline perspective; shade and shadow; freehand drawing; observation of form in the man-made environment and natural surroundings; graphics and ideation drawing. BoK: FA. Credit Level: U. Credit Hrs: 6.00

23SAID100**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23SAID101**Design Lab 1: Inquiry and Disassembly**

This studio provides an introduction to design fundamentals through: inquiry, by the examination of complex relationships between form, space, perception, culture, conduct, and social activity; and disassembly, by the critical analysis and dismantling, both physically and graphically, of a complex object into its essential components and by the design and fabrication of an object that reuses these components for a different purpose. BoK: FA. Credit Level: U. Credit Hrs: 6.00

23SAID102**Design Lab 2: Body and Composition**

This studio explores the analogical relationship between the human body and the built environment, and the concepts of order and proportion in two- and three-dimensional composition. These explorations serve as a basis for a series of exercises that strengthen both design vocabulary and basic compositional skills. BoK: FA. Credit Level: U. Credit Hrs: 6.00

23SAID103**Design Lab 3: Transformation**

This studio focuses on design development achieved through transformation of various items including the generating idea, the spatial configuration, and especially spatial treatment in terms of light, color, texture, and materials. The studio applies principles and techniques of transformation through three-dimensional computer modeling programs, drawing, and physical models. Students undertake a series of exercises

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

Architecture and Interior Design**23SAID103****Design Lab 3: Transformation**

that explore progressive incremental change through the design and fabrication of occupiable space. BoK: FA. Credit Level: U. Credit Hrs: 6.00

23SAID104**Documentation Lab 1**

This is the first of three courses that introduce students to a variety of communication and representational skills, including: freehand drawing, expressive sketching, analytical and diagrammatic drawing, and model making. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23SAID105**Documentation Lab 2**

This is the second of three courses that introduce students to a variety of communication and representational skills, including: freehand drawing, expressive sketching, analytical and diagrammatic drawing, and model making. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23SAID106**Documentation Lab 3**

This is the third of three courses that introduce students to a variety of communication and representational skills, including: freehand drawing, expressive sketching, analytical and diagrammatic drawing, and model making. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23SAID114**Environmental Studies Seminar**

This course is designed to reinforce and complement the content in 23SAID101 and 102 with discussion and field trips. Group discussions and field trips are in the company of a graduate student, who functions as a mentor for a small group of first-year students. BoK: NA. Credit Level: U. Credit Hrs: 1.00

23SAID115**Environmental Studies Seminar**

This course is designed to reinforce and complement the content in 23SAID 103 and 104 with discussion and field trips. Group discussions and field trips are in the company of a graduate student, who functions as a mentor for a small group of first-year students. Prereq: 23SAID114. BoK: NA. Credit Level: U. Credit Hrs: 1.00

23SAID116**Environmental Studies Seminar**

This course is designed to reinforce and complement the content in 23SAID105 and 106 with discussion and field trips. Group discussions and field trips are in the company of a graduate student, who functions as a mentor for a small group of first-year students. Prereq: 23SAID115. BoK: NA. Credit Level: U. Credit Hrs: 1.00

23SAID117**Introduction to Environmental Design I: Theory and Practice**

An introductory theoretical discussion of the social, technical, and aesthetic issues that must be considered in the design of culturally responsible environments. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23SAID118**Introduction to Environmental Design II: Design and Behavior**

The purpose of this course is to create awareness of and an introduction to issues in environmental design in general. Perm. of dept. Prereq: 23SAID117. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23SAID124**Principles of Design 1**

Elements and principles of design that underline all spatial arts. A studio course accompanied by lectures to develop an appreciation of design. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23SAID125**Principles of Design 2**

Continuation of 23SAID124 covering the elements and principles of design that underlie all spatial arts, with emphasis on black and white visual form through drawing exercises. A studio course accompanied

Architecture and Interior Design**23SAID125****Principles of Design 2**

by lectures to develop appreciation of design. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23SAID126**Principles of Design 3**

Continuation of 23SAID125 covering the elements and principles of design that underlie all spatial arts, with emphasis on the study of form organization combining previous quarters' experiences in more complex exercises. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23SAID127**Arts and Society: Arts, Crafts, and Design**

Introduction to an understanding and appreciation of architecture as part of a broad continuum of cultural expression; a reflective engagement with artifacts ranging in scale and media, as situated in their cultural worlds, as also reflected in literature, music, or broad social and intellectual themes. General focus on methods of production, the place of the artist in society, relation to power and money, cultural world view, political and philosophical contexts, and aesthetics. Includes student projects of prescriptive analysis of images (paintings, artifacts) from local museums, and Web-posted presentation/discussion venues. BoK: FA., DC. Credit Level: U. Credit Hrs: 3.00

23SAID127H**Arts and Society: Arts, Crafts, and Design**

Introduction to an understanding and appreciation of architecture as part of a broad continuum of cultural expression; a reflective engagement with artifacts ranging in scale and media, as situated in their cultural worlds, as also reflected in literature, music, or broad social and intellectual themes. General focus on methods of production, the place of the artist in society, relation to power and money, cultural world view, political and philosophical contexts, and aesthetics. Includes student projects of prescriptive analysis of images (paintings, artifacts) from local museums, and Web-posted presentation/discussion venues. BoK: FA., DC. Credit Level: U. Credit Hrs: 3.00

23SAID128**Arts and Society: Cities, Streets, and Dwellings**

Introduction to an understanding and appreciation of cultural expression through cities and their unique personalities; how that character is manifested in the forms, materials, and life-ways of streets and public spaces; how social and political life take place; dwellings and institutions as expressions of social structures and geographic conditions. Includes student projects and prescriptive analysis of settings (building, locations) in Cincinnati and the SW Ohio region, and Web-posted presentation/discussion venues. BoK: FA., DC. Credit Level: U. Credit Hrs: 3.00

23SAID128H**Arts and Society: Cities, Streets, and Dwellings**

Introduction to an understanding and appreciation of cultural expression through cities and their unique personalities; how that character is manifested in the forms, materials, and life-ways of streets and public spaces; how social and political life take place; dwellings and institutions as expressions of social structures and geographic conditions. Includes student projects and prescriptive analysis of settings (building, locations) in Cincinnati and the SW Ohio region, and Web-posted presentation/discussion venues. BoK: FA., DC. Credit Level: U. Credit Hrs: 3.00

23SAID129**Arts and Society: Monumental Expression**

Introduction to common and divergent formal themes with different cultural meanings around the world; monuments and their relationship to the natural order, such as life cycles, geographic settings, astronomical awareness, and religious or philosophical descriptions of the cosmos. Teaches familiarity with Western classical and medieval monuments, as well as sites from Asia, Africa, and Native America.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Architecture and Interior Design**23SAID129****Arts and Society: Monumental Expression**

Emphasis on beginnings, archetypes, and architecture as a mode of socio-cultural understanding. BoK: FA., DC. Credit Level: U. Credit Hrs: 3.00

23SAID129H**Arts and Society: Monumental Expression**

Introduction to common and divergent formal themes with different cultural meanings around the world; monuments and their relationship to the natural order, such as life cycles, geographic settings, astronomical awareness, and religious or philosophical descriptions of the cosmos. Teaches familiarity with Western classical and medieval monuments, as well as sites from Asia, Africa, and Native America. Emphasis on beginnings, archetypes, and architecture as a mode of socio-cultural understanding. BoK: FA., DC. Credit Level: U. Credit Hrs: 3.00

23SAID167**Introduction to Building I**

Introduction to construction materials, physical systems, and processes and their effect on the making of architectural form. BoK: NS. Credit Level: U. Credit Hrs: 3.00

23SAID168**Introduction to Building II**

Continuation of Introduction to Building I with a deeper focus on structure and surfaces for building. BoK: NS. Credit Level: U. Credit Hrs: 3.00

23SAID191**Computer Skills 1**

This is the first of three courses that introduce students to electronic media and presentation. Students are also introduced to theoretical as well as practical applications of the computer. BoK: NS. Credit Level: U. Credit Hrs: 3.00

23SAID192**Computer Skills 2**

This is the second of three courses that introduce students to electronic media and presentation. Students are also introduced to theoretical as well as practical applications of the computer. Prereq: 23SAID191. BoK: NS. Credit Level: U. Credit Hrs: 3.00

23SAID193**Computer Skills 3**

This is the third of three courses that introduce students to electronic media and presentation. Students are also introduced to theoretical as well as practical applications of the computer. Prereq: 23SAID192. BoK: NS. Credit Level: U. Credit Hrs: 3.00

23SAID199**Accelerated Computer Skills**

Introductory course in computer graphics for Master of Architecture students entering with a non-design undergraduate degree. Topics include graphic layout, two- and three-dimensional representation, and web design. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23SAID200**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23SAID201**Immersion Studio**

This comprehensive, multidisciplinary studio introduces students of architecture and interior design to the methods and techniques of problem solving in building production at multiple scales of design intervention, emphasizing site considerations, building systems, structures, and interior environments. For one quarter, this studio serves as the hub for all academic work in the School's two undergraduate programs, including Skills, Construction 1, ET 1, History, and Professional Practice. A single syllabus and program,

Architecture and Interior Design**23SAID201****Immersion Studio**

developed by an interdisciplinary staff, constellates these topics around the particularities of a strategically developed design problem, such as housing, and then uses design to animate the relationship of these topics to appropriate forms and functions. Perm of Department. BoK: FA. Credit Level: U. Credit Hrs: 6.00

23SAID204**Representation Skills**

This course will explore the methods, techniques, tools, and critical principles of graphic representation in architecture and interior design, with special emphasis on drawing, diagramming, modeling, and one- and two-point perspective, developed and applied in the context of varied graphic media and digital software. Perm of Department. BoK: FA. Credit Level: U. Credit Hrs: 3.00

23SAID217**Architecture through the Ages**

The history of Western and Near Eastern architecture from prehistoric times through antiquity; the architecture of non-Western cultures in Asia and Africa. Transfer Module. BoK: FA, HP. Credit Level: U. Credit Hrs: 3.00

23SAID218**Architecture through the Ages**

The history of architecture from the early Christian and Byzantine through the Medieval and Renaissance periods. Transfer Module. BoK: FA, HP. Credit Level: U. Credit Hrs: 3.00

23SAID219**Architecture through the Ages**

The history of architecture from the Baroque through the 18th and 19th centuries to the present, including the Modernism and Post-Modernism. Transfer Module. BoK: FA, HP. Credit Level: U. Credit Hrs: 3.00

23SAID227**History/Theory/Criticism: Precedent and Invention**

Survey and application of the techniques and processes of selection, analysis, and critical/ intentional transformation of prior works, an understanding of the dynamics of influence, and of the roles of tradition and change both in the socio-cultural reception of the built world, and in the cultural and ethical legitimacy of other learned professions. Prereq: 23SAID103. BoK: HP. Credit Level: U. Credit Hrs: 2.00

23SAID227H**History/Theory/Criticism: Precedent and Invention**

Survey and application of the techniques and processes of selection, analysis, and critical/ intentional transformation of prior works, an understanding of the dynamics of influence, and of the roles of tradition and change in both the socio-cultural reception of the built world, and in the cultural and ethical legitimacy of other learned professions. BoK: HP. Credit Level: U. Credit Hrs: 2.00

23SAID228**History/Theory/Criticism: The Classical Tradition**

A presentation of the body of classical ideals and the classical world, the origins and meanings of the Orders, as a basis for understanding Renaissance, Baroque, and Neoclassical architecture. Key works, ideas, texts, and theoretical and critical topics from antiquity, plus the fifteenth through early nineteenth centuries. Prereq: 23SAID227. BoK: HP. Credit Level: U. Credit Hrs: 3.00

23SAID228H**History/Theory/Criticism: The Classical Tradition**

A presentation of the body of classical ideals and the classical world, the origins and meanings of the Orders, as a basis for understanding Renaissance, Baroque, and Neoclassical architecture. Key works, ideas, texts, and theoretical and critical topics from antiquity, plus the fifteenth through early nineteenth centuries. BoK: HP. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Architecture and Interior Design**23SAID229****History/Theory/Criticism: The Rise of Modern Architecture**

Introduction to ideological developments, major technical innovations, social and political circumstances through which European and American architecture and urbanism in the 20th century can be interpreted. Prereq: 23SAID228. BoK: HP. Credit Level: U. Credit Hrs: 3.00

23SAID229H**History/Theory/Criticism: The Rise of Modern Architecture**

Introduction to ideological developments, major technical innovations, social and political circumstances through with ropean and American architecture and urbanism in the 20th century can be interpreted. Prereq: 23SAID228. BoK: HP. Credit Level: U. Credit Hrs: 3.00

23SAID237**Interior Technology**

Introduction to interior design issues, materials, systems, and processes and their effect on the design of buildings. Coreq: 23SAID201. BoK: NS. Credit Level: U. Credit Hrs: 2.00

23SAID267**Construction 1**

Introduction to construction materials, physical systems and processes and their effect on the making of architectural form. Coreq: 23SAID201. BoK: NS. Credit Level: U. Credit Hrs: 2.00

23SAID268**Construction 2**

Continuation of Construction 1 with a deeper focus on structure and surfaces for building. Perm of Department. BoK: NS. Credit Level: U. Credit Hrs: 3.00

23SAID287**Environmental Technology 1**

The investigation of the thermal aspects of the environment, including consideration of physiology, climatology, natural adaptation, and thermal conditions. Prereq: 23SAID103. BoK: NS. Credit Level: U. Credit Hrs: 2.00

23SAID288**Environmental Technology 2**

The investigation of the thermal aspects of the environment, including consideration of physiology, climatology, natural adaptation, and thermal calculations. Perm of Department. BoK: NS. Credit Level: U. Credit Hrs: 3.00

23SAID294**Computer Skills**

An introduction to computer-aided design using AutoCAD software. Students will digitally reproduce an existing building in preparation for their first cooperative education experience. Prereq: 23SAID193. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23SAID300**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23SAID312**Elective Studio**

This elective studio will offer an exploration of issues related to particular areas of concentration within the undergraduate School of Architecture and Interior Design curricula. Prereq: 23ARCH202, 23INTD203. BoK: NA. Credit Level: U. Credit Hrs: 6.00

23SAID322**Elective Studio**

This elective studio will offer an exploration of issues related to particular areas of concentration within the undergraduate School of Architecture and Interior Design curricula. BoK: NA. Credit Level: U. Credit Hrs: 6.00

Architecture and Interior Design**23SAID327****American Architecture I: Colonialism and Early Republican**

The architecture and town-planning of the Prehistoric (Native American/Indian), Colonial, and Early Republican eras to about 1820; British Colonial developments including vernacular Late Medieval and Georgian influences on builder architects; concluding with careers of gentlemen architects Thomas Jefferson, Charles Bulfinch, and B. H. Latrobe. Weekend field trips will be available. Transfer Module. BoK: FA, HP. Credit Level: U. Credit Hrs: 3.00

23SAID328**American Architecture II: Victorian and Early Modern**

"Victorian" American architecture, structural technology and urban development from the War of 1812 to World War I; 19th century historical eclecticism, Greek and Gothic Revivals of the antebellum period; their later variants in the Gilded Age after the Civil War; turn-of-the-century American Renaissance, and the origins of modernism in works of Richardson, Sullivan and Frank Lloyd Wright. Field trips will be available. Transfer Module. BoK: FA, HP. Credit Level: U. Credit Hrs: 3.00

23SAID329**American Architecture III: Modern, Traditional, and Post-Modern**

The continuity of traditional historicist styles presented in contrast to the American Arts and Crafts Movement and the impact of the International Style (Bauhaus) and its Art Deco counterpart between the world wars; American modern architecture, technology, and urbanism after World War II in the context of the recent reaction known as Post-Modernism, an attempt to integrate the traditional and modern attitudes. Field trips will be available. Transfer Module. BoK: FA, HP. Credit Level: U. Credit Hrs: 3.00

23SAID332**Elective Studio**

This elective studio will offer an exploration of issues related to particular areas of concentration within the undergraduate School of Architecture and Interior Design curricula. Prereq: 23ARCH202, 23ARCH203. BoK: NA. Credit Level: U. Credit Hrs: 6.00

23SAID342**Elective Studio**

This elective studio will offer an exploration of issues related to particular areas of concentration within the undergraduate School of Architecture and Interior Design curricula. Prereq: 23ARCH202, 23INTD203. BoK: NA. Credit Level: U. Credit Hrs: 6.00

23SAID352**Elective Studio**

This elective studio will offer an exploration of issues related to particular areas of concentration within the undergraduate School of Architecture and Interior Design curricula. Prereq: 23ARCH202, 23INTD203. BoK: NA. Credit Level: U. Credit Hrs: 6.00

23SAID362**Elective Studio**

This elective studio will offer an exploration of issues related to particular areas of concentration within the undergraduate School of Architecture and Interior Design curricula. Prereq: 23ARCH202, 23INTD203. BoK: NA. Credit Level: U. Credit Hrs: 6.00

23SAID372**Elective Studio**

This elective studio will offer an exploration of issues related to particular areas of concentration within the undergraduate School of Architecture and Interior Design curricula. Prereq: 23ARCH202, 23ARCH203. BoK: NA. Credit Level: U. Credit Hrs: 6.00

23SAID382**Elective Studio**

This elective studio will offer an exploration of issues related to particular areas of concentration within the undergraduate School of Architecture and Interior Design curricula. Prereq: 23ARCH202, 23INTD203. BoK: NA. Credit Level: U. Credit Hrs: 6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Architecture and Interior Design**23SAID387****Environmental Technology 1**

The investigation of the thermal aspects of the environment, including consideration of physiology, climatology, natural adaptation, and thermal calculations. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

23SAID388**Environmental Technology 2**

Introduction to environmental control systems used to control the thermal environment. Prereq: 23SAID387. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

23SAID392**Elective Studio**

This elective studio will offer an exploration of issues related to particular areas of concentration within the undergraduate School of Architecture and Interior Design curricula. Prereq: 23ARCH202, 23INTD203. BoK: NA. Credit Level: U. Credit Hrs: 6.00

23SAID399H**Paris: Reading the City**

In this course we will study texts by authors whose observations about the city of Paris and its systems (of transportation, commerce, social relations, hygiene, etc.) complement the traditional view of the city as a formal, visual construction. At the core of this investigation is the notion of the city as an organism or body, animated by patterns that relate to but ultimately transcend the brick and mortar city. This class will culminate in a 1-2 week visit to Paris during the vacation following the quarter in which the course is offered. BoK: FA., HP. Credit Level: U. Credit Hrs: 3.00

23SAID400**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23SAID427**Architecture of Cincinnati**

The history of Greater Cincinnati's man-made environment, from the 1700s until World War II. How have architects responded to our unique topography, social, cultural, and ethnic factors? BoK: FA., HP. Credit Level: U. Credit Hrs: 3.00

23SAID428**Cincinnati Architecture Seminar I**

Covering a range of possible topics from Gothic Cathedrals to Art Nouveau to Louis Sullivan, this seminar allows students the opportunity for original research. BoK: FA., HP. Credit Level: U. Credit Hrs: 3.00

23SAID429**Cincinnati Architecture Seminar II**

Conducted in informal seminar sessions, with some lectures as well as group discussion and the opportunity for students to contribute original research on topics related to the historic architecture of the Greater Cincinnati Area. BoK: FA., HP. Credit Level: U. Credit Hrs: 3.00

23SAID438**Introduction to Programming**

Introduction to the methods used for programming as a part of the pre-design phase of any design project. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23SAID491**Foreign Study Design Lab**

A design lab for students who have been approved for organized study abroad. BoK: FA., DC. Credit Level: U. Credit Hrs: 6.00

23SAID494**Foreign Study Seminar**

A seminar for students who have been approved for organized study abroad. BoK: DC. Credit Level: U. Credit Hrs: 3.00

Architecture and Interior Design**23SAID497****Foreign Study Lecture**

A lecture for students who have been approved for organized study abroad. BoK: DC. Credit Level: U. Credit Hrs: 3.00

23SAID500**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23SAID600**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. Credit Level: G. Credit Hrs: 1.00-12.00

23SAID700**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. Credit Level: G. Credit Hrs: 1.00-12.00

Art, Art History and Art Education**23SOA100****Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23SOA200**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23SOA300**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23SOA400**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23SOA500**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23SOA600**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. Credit Level: G. Credit Hrs: 1.00-12.00

23SOA700**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. Credit Level: G. Credit Hrs: 1.00-12.00

Planning and Urban Studies**23SOP100****Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Planning and Urban Studies**23SOP200****Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23SOP300**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23SOP400**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23SOP500**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23SOP600**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. Credit Level: G. Credit Hrs: 1.00-12.00

23SOP700**Interdisciplinary Topics**

Interdisciplinary course for programs and/or faculty jointly teaching a cross-disciplinary studio, lecture, lab, or seminar. Perm of Department. Credit Level: G. Credit Hrs: 1.00-12.00

Urban Administration and Urban Studies**23URBN405****Internship**

Full-time internship in urban studies for integration of academic work and field experience. BoK: NA. Credit Level: U. Credit Hrs: 3.00-15.00

23URBN406**Cultural Pluralism in the American City**

The implications of cultural differences. Designed to help professionals in social work, health, education, and law enforcement understand the difficulties and possibilities of working with minority subcultures. Offered alt. yrs. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

23URBN407**Appalachians as an Urban Ethnic Group**

An introduction to the history, culture, and social structure of the Appalachian subculture with emphasis on the group's experience as urban migrants. Practice oriented for students interested in health, education, social work, community organization, or criminal justice work with cultural minorities. Offered alt. yrs. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

23URBN408**Black Americans in the City**

The values and social institutions of the African-American subculture as a factor in the delivery of social welfare (health, education, social work, community organizing, criminal justice, etc.) services. Draws upon sociology, anthropology, and social welfare theory. Offered alt. yrs. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

23URBN409**Old Age and the Community**

The crisis of a rapidly expanding aged population doomed to marginal life styles because of prejudices and lack of community planning. An assessment of economic, social, health, and psychological needs of the aged. Prereq: 15ENGL103. BoK: SS, SE. Credit Level: U. Credit Hrs: 3.00

Urban Administration and Urban Studies**23URBN473****Directed Studies**

Directed readings and tutorial conferences related to specific areas of Urban Studies. Prereq.: BoK: NA. Credit Level: U. Credit Hrs: 1.00-5.00

23URBN474**Independent Study in Urban Studies**

Please complete and submit an Independent Application form available from the college office. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

23URBN479**Social Justice and the City**

General Education-approved course that examines experiences of differences in cities and their implications for ideas for social justice. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

23URBN578**Senior Problem Proposal in Urban Studies**

Preparation of the full proposal for senior year study. Prereq: 23PLAN546. BoK: NA. Credit Level: U. Credit Hrs: 3.00

23URBN587**Urban Studies Thesis**

Terminal requirement for Urban Studies majors; research preparation and presentation of specific urban topic. Prereq: 23URBN578. BoK: NA. Credit Level: U. Credit Hrs: 6.00

23URBN591**Seminar in Urban Topics**

Overview of selected urban topics. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00-6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

COLLEGE OF EDUCATION, CRIMINAL JUSTICE, AND HUMAN SERVICES
COURSE DESCRIPTIONS

(18) College of Education, Criminal Justice, and Human Services

2008 - 2009

Addictions

18ADDC202

Basic Pharmacology

How tolerance, cross-tolerance, synergism, and withdrawal lead to addiction. How the route of administration alters pharmacodynamics. How the liver and the kidneys change body chemical metabolism. The primary and secondary side effects of narcotic drugs. BoK: NS. Credit Level: U. Credit Hrs: 3.00

18ADDC203

Substance Abuse and Chemical Dependency in the Older Adult

The purpose of this course is to provide students with an understanding of the effect of mood altering substances in older adults, and of the specific treatment needs of this special population. The course will examine causes of substance abuse with this population, special clinical skills needed, and intervention strategies. Cultural prejudices toward older adults will also be a focus. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

18ADDC205

Foundations in ATOD Prevention I

The purpose of this course is to introduce students to a comprehensive overview of the prevention discipline. The student will examine significant historical developments, populations served and their needs, and current research and practice, and will learn about resources available in the field. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC209

Alcoholism

This course presents a multidimensional approach to the "disease" of alcoholism. It presents the sociological, psychological, physiological, moral, and behavioral factors and effects associated with the disorder, as well as a review of diagnostic and therapeutic tools currently in use. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC211

Drugs and Behavior

In addition to basic information about the problems associated with substance abuse and identifying various drugs of abuse, the course also provides a review of the causes and correlational models associated with chemical dependency. The biochemical and predispositional variables of chemical dependency are also explored, as well as the psychological and behavioral effects on the dependent person and his family. Primary therapeutic and relapse interventions are presented, as well as the program modality referral process. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC221

Assessment and Diagnosis in Addictions

Introduces the student to the clinical assessment and diagnostic process in addictions. The student will learn the key elements of making good assessments, and will become familiar with the diagnostic and statistical manuals and multidimensional paradigms. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC231

Introduction to Counseling

An eclectic overview of various counseling theories, including some counseling perspectives more commonly used in the field of addiction treatment. Builds the foundation for development of a personal counseling approach. Fundamentals of the counseling process, basic requirements in a therapeutic relationship, and ethical considerations will be emphasized. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC301

Addiction: Impact on the Family

Discusses the significant impact of addiction on family systems, including roles, dynamics, and symptoms that are commonly identified in both family members and the addicted person. The course also

College of Education, Criminal Justice, and Human Services

Addictions

18ADDC301

Addiction: Impact on the Family

explores co-dependency, sexuality, and transgenerational issues, as well as domestic violence and abuse. Assessment and intervention strategies will also be explored. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC302

Neurobiology and Neuroendocrinology of Addiction

The physiology of the neuron and synapse. Sensory and motor nerve tracts in the spinal chord and brain. Brain formations which subserve pain, pleasure, and motor skills. How neurotransmitters, endorphins, and narcotics impinge on their function. BoK: NS. Credit Level: U. Credit Hrs: 3.00

18ADDC305

Nicotine Addiction and Treatment

This course will examine the use of tobacco products, focusing on the effects of nicotine addiction on the individual and society. The history of tobacco use and the politics and economics of the tobacco industry will also be explored. Students will be presented with the latest diagnostic, prevention, and treatment strategies used in nicotine addiction. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC308

Sexual Addiction

A detailed introduction to the development, maintenance, and consequences of sexual addiction. Diagnosis and treatment modalities will be discussed, as well as the interaction of the addict with family dynamics, societal values, and the criminal justice system. Prereq: 18ADDC211. BoK: SE. Credit Level: U. Credit Hrs: 3.00

18ADDC309

Women and Addictions

Provides an exploration of specific issues relevant to women with a number of addictions. These include gender differences in usage patterns, cultural issues, physiological complications, psychological repercussions, and recovery concerns. Biases in therapeutic intervention are also reviewed. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

18ADDC313

Eating Disorders: Women and Their Bodies

This course provides an in-depth study of the primary eating disorders of anorexia nervosa, bulimia nervosa, and binge eating. Gender issues, psycho-social issues, medical complications, treatment strategies, and prevention are also presented. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC319

Substance Abuse in the Gay and Lesbian Community

This course focuses on some of the factors that lead to high rates of substance abuse among the gay and lesbian communities: homophobia, grief and loss, and community enabling. Also addressed are treatment issues, family issues, and health concerns related to this population, as well as unaddressed life issues and under-addressed treatment issues related to the gay and lesbian populations. Other related issues that are discussed are life transition issues, self-perception, coming out, communicable diseases, and co-dependency. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

18ADDC321

Dual Diagnosis

Designed to provide a basic understanding of the nature and dynamic of the dually diagnosed person. The course covers the symptomatology of persons with both chemical addiction and a mental health problem. Included are the specific treatment needs of this population and the benefits of a "SA/MI" treatment module. Included are various clinical

H=University Honors course.

Addictions**18ADDC321****Dual Diagnosis**

definitions according to the DSM-IV, progression of psychiatric disorders, traditional versus specific treatment, medication and medical management, multi-disciplined treatment approaches, and more. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC329**Holistic Assessment Processes in Addictive Disorders**

Designed to provide students with opportunities to master chemical dependency assessment skills. Students will learn theories related to: the nature of addiction, common effects of the addictive process on the addicts and the people in committed relationships with addicts, pre-post use symptoms of addiction. In addition, students will learn and practice skills related to: paper and pencil measures of addiction, interview techniques, and third party information gathering techniques. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC330**Fundamentals of Cultural Competence**

Addresses the critical role culture plays in the development of and the recovery from chemical dependency. Specific cultures (African-American, Appalachian, Native American, and Hispanic) are among those examined in relation to their implications for addiction. The course also presents culture-specific factors associated with various assessment, diagnostic, and treatment strategies, as well as treatment implications. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

18ADDC332**Individual Counseling Skills in Addictions**

This class will review four common theories of psychotherapy and their application in the addiction treatment setting. The class will be experiential and didactic with role play training sessions in major techniques from each theory. Student evaluations will be based on a paper, class participation, and a final multiple choice exam. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC333**Introduction to Group Process**

An introduction to group theories, issues, and key concepts of group process. Students will learn how to apply these concepts in working with a variety of groups with a focus on addictions. The course provides a basic understanding of group theories, dynamics, processes, and development, with the focus on addiction therapy. Students will identify and experience group member roles and behaviors, and study group leadership characteristics, styles, and approaches. Various types of group work, including task, therapy, counseling, and psycho-educational modes, will be studied. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC351**Substance Abuse and the Law**

An in-depth look at municipal, state, and federal laws related to substance abuse and trafficking. Course educates students about funding of drug trafficking, sale of controlled substances, illegal dispensing of drug samples, counterfeit controlled substances, criminal and civil forfeiture, probation, commitments for treatment, and many more legal problems for the substance abuse population. Course will give the student a better understanding of the legal implications and consequences of illegal drug activity and behavior. It may better prepare a counselor to work with the criminal justice system. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC361**HIV/AIDS in Addictions and Social Service Practice**

The student will participate in discussions about AIDS origin (theories) and the salient societal features which permitted HIV to gain a foothold in this society. The student will learn the three stages of the disease progression and the mechanisms by which HIV impacts the immune system. HIV testing methodology, drugs as treatment, and prophylaxis will be discussed, along with payment sources for different drug companies. Students will also assess specific drugs and discuss them

Addictions**18ADDC361****HIV/AIDS in Addictions and Social Service Practice**

in terms of cost, drug company affiliations, use dosages, side effects, complications, contraindications, trials, and local availability. BoK: NS., SS. Credit Level: U. Credit Hrs: 3.00

18ADDC362**Adolescent Chemical Dependency**

This course focuses on the developmental tasks of adolescents, including physiological and psychological changes, independence, moral development, social and coping skills, and the psycho-social variables that impact adolescent growth and maladaptive behaviors, such as substance abuse. The course also discusses family issues, dynamics, and the behavioral impact of adolescent CD in various settings. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC401**Group Leadership Skills in Addictions**

This course is recommended to those students who have completed Introduction to Group Process. The course focuses on techniques, clinical skills, ethical issues, screening, goal setting, group development, advanced counseling skills, experimental activities, and time-limited group process. The student should be prepared to be involved with role playing, group leadership exercises, and skill development. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC402**Grantwriting and Fiscal Management in Addiction Prevention**

The purpose of this course is to introduce the student to the principles of program planning with a focus on proposal writing. The student will learn key elements of grantwriting, development of evaluation plans, and fiscal responsibilities, and will become familiar with essential elements of grantsmanship as applied in a framework specific to prevention. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ADDC403**Supervision of Prevention Professionals and Volunteers**

The purpose of this course is to introduce students to the principles of organizational behavior and leadership models. The student will learn strategies and techniques, based in theory and practice, essential in supervising prevention professionals and community volunteers. The student will become familiar with employee motivation, conflict management, and team-oriented groups. Guidelines, roles, and responsibilities for Preceptorship in prevention certification will be discussed and will satisfy the Ohio Credentialing Board Preceptor training requirement. Prereq: 18ADDC205, 18ADDC211, 18ADDC304, 15ENGL103. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC404**Anger and Addiction**

Explores the complex relationship between anger behavior and addiction. An experiential class designed to address the treatment of destructive anger patterns in addiction recovery. Includes aspects of treatment for self-destructive and family anger. Special emphasis is placed on the students' discovery of their own anger patterns and professional anger management issues. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC405**Family Counseling Skills**

Course is designed for understanding the systemic deterioration of the family due to addiction: the family dynamic, family roles, and overall dysfunctioning process. It also teaches intervention strategies, therapeutic techniques to work with the "chemically dependent family," family relapse prevention, issues of sexuality in recovery, and a number of counseling styles that have been effective in family therapy. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC409**Opiate Addiction and Treatment**

Students will be completely educated about addiction to the opiate drugs. The course is designed to help the treatment professional

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Addictions**18ADDC409****Opiate Addiction and Treatment**

understand the interrelationship between the physiological and psychological dynamics of opiate addiction. This will include scientific research on opiate addiction, methadone treatment, and other successful therapeutic strategies, as well as opiate addiction and criminal behavior, psychiatric co-morbidity, and many other correlational issues. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC410**Legalized Gambling and Society**

Government is increasingly turning to lotteries, casino gambling, and other legalized gambling operations to secure revenue. Some statistical evidence suggests that there is a positive correlation between this increase and the number of problem gamblers in our society. This course will examine the impact of this phenomena and the distal consequences on communities which have chosen gambling as a revenue-generating support system. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC411**Treatment of Gambling Addiction**

Designed to help students become more knowledgeable about compulsive gambling by studying the behavioral, psychological, and sociological correlates as well as assessment and diagnostic tools used to establish a clinical presentation. Students will also be exposed to therapeutic interventions and participate in role playing and practicum to assist them in learning clinical techniques. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC421**Crisis Management in Therapy**

The student will learn to recognize crisis situations in therapy and develop skills and strategies to help the person in clinical crisis. Included features are: assessment of mental status, characteristics of behavior and speech, risk prediction variables, external and internal triggers, escalation, debriefing, and post-crisis depression. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC422**Recovery and Relapse**

The student will learn the relapse and recovery process, including: the phases of recovery; how to recognize a healthy recovery from addiction; understanding relapse, the causes of relapse, triggers associated with relapse; manifestations of relapse; how to prevent relapse; and special problems of relapse associated with special populations and needs such as gender and cultural differences. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC423**Spirituality and Recovery**

The examination and evaluation of the impact of active addiction on spirituality and the need for spiritual reformation and application for a successful recovery. The meaning and role of spirituality in a person's life and its therapeutic implications for recovery from addictions are major areas of focus. Specific cultural populations and spirituality, as well as relationships and spirituality, will also be studied. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC432**Education and Prevention in Addictions**

Topics included are: addictions prevention planning and needs assessments along with review of addictions prevention programs that work and why; implementation issues such as funding, program management, building community support, and legal/ethical/public policy issues. Evaluation of addictions prevention program outcomes and impact are also included. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC433**Creating Drug-Free Schools**

This course provides a framework for addictions prevention education for K-12 grades. It provides the basics for drug prevention, including what kids need to succeed, information about drugs, background on

Addictions**18ADDC433****Creating Drug-Free Schools**

children's developmental learning stages, specific lesson plans, and suggestions for working with parents, communities, and policy makers. A model national prevention curriculum from the U.S. Department of Education is presented. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC434**Developing Community Prevention Programs**

Prepares the student for the process of developing prevention leadership skills. Very limited time and available resources will be used to achieve the best outcome of the course. This will make the participants cognizant of the realities of similar scarceness within the community. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC435**Prevention Education and Training**

The purpose of this course is to introduce students to the elements and practice of leading and presenting to groups. The student will learn the "process" of training/education for imparting prevention-related knowledge, information, and skills to others in a variety of settings (formal and informal). Communication and facilitation skills for the student are emphasized. The course also presents culture-specific factors associated with prevention training assessment, design, delivery, and evaluation. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC451**Ethics in Chemical Dependency Counseling**

An in-depth examination of the codes of ethics in addictions and human services. Emphasis is placed on the NAADAC code of ethics for addictions treatment providers. Experiential exercises and role playing to identify and resolve ethical issues and dilemmas will be used. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18ADDC461**Administration of Addiction Programs**

An overview of challenges that confront administrators of addiction programs and the skills and knowledge needed for successful management. The course includes profit versus nonprofit agencies, free-standing versus affiliated agencies, purview and authority, aspects of business, approaches to management, and leadership skills. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC499**Independent Study in Addiction**

Please complete and submit an Independent Application form available from the College Office. BoK: SS. Credit Level: U. Credit Hrs: 1.00-12.00

18ADDC510**Clinical Supervision of Chemical Dependency Counselors**

This course is designed to introduce helping professionals to current perspectives on clinical supervision for substance abuse/dependency counselors. It is designed for counselors with some advanced skills and experiences who anticipate supervisory responsibilities, and for those professionals who are already doing some clinical supervision and would like an opportunity to expand their understanding and practice of supervising other professionals in the field of addictions. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC519**Managed Care of Behavioral Medicine**

This course provides students with the skills to design a mental health or substance abuse clinic and to sell managed care contracts to large corporations. Included in the course of study will be understanding contract negotiation, HMO and PPO capitation formulas, and their outcome studies. Students will be given an opportunity to understand information-based health care data processing and become well versed in managed care terminology. BoK: SS. Credit Level: U. Credit Hrs: 3.00

Addictions**18ADDC521****Drug Abuse and Public Policy**

This course examines public policy relative to drug abuse; and examines the confusing and often contradictory array of facts, rhetoric, and myth that influence policy and public opinion. The course will review the history and current state of government and community efforts to regulate drug problems. Some of the areas studied are: the war on drugs, cultural driving policy, local community efforts, federal dollars, political leadership, and current research. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC522**Addictions Casework Seminar**

This class provides skill development in doing casework with the addicted populations. A review of client admission, intake, assessment, and treatment planning as it relates to developing casework plans and the referral process will be a primary focus of the course. The course also explores developing appropriate case plans with special populations, including women, AIDS/HIV infected persons, dually diagnosed individuals, adolescents, and some culturally-specific populations. Students will develop case plans based upon the initial treatment planning. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC531**Student Internship Program**

The Addictions Studies Internship program is designed to assist students gain practical experience in the field of addictions. While the main focus of the student Internship is to provide a clinically supervised practicum, an ancillary feature will be to allow students to network with treatment, correctional, and social service agencies, thereby gaining valuable knowledge of support systems available in the community. Student Internships do count as "work experience" by the Ohio Credentialing Board and may be extended by agreement with the receiving agency. Students must have a 2.5 average to qualify for an Internship, be accepted by the host agency, and have the approval of the Director of the Addictions Studies program. Students who do not qualify will substitute an additional elective to meet baccalaureate graduation requirements. Internships are primarily for baccalaureate students, but some certificate students may qualify for an Internship with the approval of the Director of the Addictions program. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ADDC532**Student Internship II**

The Addictions Studies Student Internship II is designed to allow students to gain practical experience and to meet licensure requirements. Prereq: 18ADDC531. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC540**The Therapeutic Community in Addictions Treatment**

Course will examine the history, evolution, and current use of the therapeutic community as a modality for addictions treatment and the characteristics of the individual most amenable to this modality. The specifics (i.e., hierarchy, client roles and responsibilities, practitioner role, integration, and participation) will be identified and examined. The course will have a research component to it that will be integrated into the preparation for the student's capstone experience. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ADDC541**Capstone Experience in Addiction Studies**

This course or experience will introduce the student to the treatment process by actually allowing him or her to participate in a therapeutic encounter. It is designed to give the student a better understanding of the emotional experiences that accompany various levels and types of treatment modes and modalities and to promote greater empathy and objectivity when working with the addictions populations. Experiences will vary from group encounters in a therapeutic community to individual experiences in different treatment settings. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Curriculum and Instruction**18CI247****Computer Tools for Teachers**

This course teaches both the basic and advanced levels of the Microsoft Office Suite of programs for educators. The emphasis is on how to use these tools to improve classroom instruction and management. BoK: NA. Credit Level: U. Credit Hrs: 4.00

18CI400**Teaching and Learning in Diverse Classrooms**

This course exposes students to the problems, issues, and experiences of students from under-represented groups based on race, ethnicity, language, socio-economic status, and sexual identity. BoK: SE. Credit Level: U. Credit Hrs: 3.00

18CI523**Field Experiences Practicum**

This course allows students to participate in a special practical experience working in a K-12 classroom. Permission from the Director of Field Experiences must be obtained before registering for this class. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18CI572**Individual Study**

Individual research on a problem related to major field of study. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18CI684**Global Education: Cross-Cultural Studies and Communication**

Analysis of current trends and programs on global/international education; focus on cross-cultural studies and communication as they affect teachers and students representing different world regions. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00-6.00

18CI685**Global Education: Problems and Issues**

Developmental education approach to the in-depth study of selected issues and problems, how they affect the global state of affairs, and the development of a global community. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00

18CI710**Math as an Interdisciplinary Topic**

This course will teach activities to help illustrate the connection between mathematics and other subject areas including music, art, social studies, science, and literacy. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18CI660**Universal Design for Learning with Technology**

This course will explore recent advances critical for developing curriculum and resources to meet the needs of students with a wide range of abilities and disabilities. Cutting-edge research on the neuroscience of learning will provide a framework for understanding our individual differences. Based on this framework, this course will also cover how technology can be used to design instruction for a wide range of learning needs. Credit Level: G. Credit Hrs: 3.00

18CI670P**The Development of Mathematical Thinking**

This course is a requirement for the PreK-6 Mathematics Specialist Endorsement and examines theory and research that informs our understanding of the development of mathematical thinking in children. Credit Level: G. Credit Hrs: 3.00

18CI671P**Teaching and Learning of Pre K-6 Geometry and Measurement**

This course is a requirement for the pre K-6 mathematics specialist endorsement and examines theory and research that informs our understanding of the development of mathematical thinking in children. Credit Level: G. Credit Hrs: 3.00

18CI701**Masters Research Seminar: Curriculum and Instruction**

Research and bibliographic methods in curriculum and instruction;

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Curriculum and Instruction

18CI701

Masters Research Seminar: Curriculum and Instruction

analytic, evaluative writing about research; use of research facilities.

Credit Level: G. Credit Hrs: 3.00

18CI702

Inquiry Into Teaching and Learning

Explores various modes, formal and informal, for posing and pursuing questions about teaching and learning. Emphasizes the individual pursuit of research relevant to one's professional interests. Credit Level: G. Credit Hrs: 3.00

18CI703

The Role of Teachers in a Democratic Society

Builds on the theoretical, philosophical, and practical foundations of what it means to be a teacher in a democratic society, with applications to students' personal and professional lives as teachers. Credit Level: G. Credit Hrs: 3.00

18CI704

Forces Shaping the School Curriculum

Examines philosophical, historical, political/ legislative, and socio-cultural forces shaping school curricula, past and present. Provides multiple perspectives for identifying and evaluating the consequences of curricular choices. Credit Level: G. Credit Hrs: 3.00

18CI705

Addressing Diversity in the Classroom

Focuses on the nature of diversity, both in society and in the classroom, and its relationship to what is studied and how it is taught. Addresses nature and use of culturally responsive pedagogy to enhance learning and the classroom experience. Credit Level: G. Credit Hrs: 3.00

18CI711

Developing Number Sense

Designed to help classroom teachers develop skills and techniques for the teaching of number sense. Credit Level: G. Credit Hrs: 3.00

18CI716

Research Into Middle Childhood Education

This course examines the research base that addresses how middle schools function, how curriculum in middle schools is arranged, and how learning in middle schools is fostered and assessed. Credit Level: G. Credit Hrs: 3.00

18CI718

History and Philosophy of Science for Science Educators

This course deals with the interface of science and the philosophy of science during various historical time periods. Explores how historical context shapes what is accepted as science and scientific knowledge, the purpose of scientific investigation, and how scientific knowledge is validated. Credit Level: G. Credit Hrs: 3.00

18CI719

Research in Science Learning

This course examines empirical research in science education, including instructional practices, curriculum materials, student thinking and achievement, technology integration, and teacher decision making. Focuses on a variety of methods used and how researcher purposes influence methodology. Credit Level: G. Credit Hrs: 3.00

18CI720

Scientific Investigations within Environmental Education

An emphasis on integrating environmental education into the K-12 curriculum using scientific investigations as the foundation for the course. Credit Level: G. Credit Hrs: 3.00

18CI721

Using Literature in Social Studies

Explores ways of using literature to enrich the teaching of history and social studies in grades 4 through 12. Credit Level: G. Credit Hrs: 3.00

College of Education, Criminal Justice, and Human Services

Curriculum and Instruction

18CI722

Current Issues in History Education

Introduces students to current theory, research, and policy debates in history education. Credit Level: G. Credit Hrs: 3.00

18CI723

Nature of Social Studies Education

Examines the nature and purposes of social studies in American schools from both historical and contemporary perspectives. Credit Level: G. Credit Hrs: 3.00

18CI724

Research in Social Studies Education

Introduces students to recent empirical research in social studies education. Credit Level: G. Credit Hrs: 3.00

18CI740

Topical Seminar in Mathematics Education

Study of various topics related to recent developments in the learning and teaching of mathematics in elementary and secondary schools. Recommended for inservice teachers and others interested in math education. Credit Level: G. Credit Hrs: 1.00-3.00

18CI745

Assessment in the Mathematics Classroom: K-12

An exploration of alternative and traditional assessments and their impact upon student learning in the mathematics classroom. Credit Level: G. Credit Hrs: 3.00

18CI746

Practicum in Higher Education

Observation and supervised experiences in a university or college setting. Credit Level: G. Credit Hrs: 1.00-6.00

18CI749

Design of On-line Learning Environments

An introduction to the design of on-line learning environments. This course explores current research on on-line learning while covering administration, facilitation, course development, and strategies to encourage reflection and interaction in on-line learning environments. How technologies can change traditional teaching, the way people work, and learning in schools. Credit Level: G. Credit Hrs: 3.00

18CI750

The Teaching and Learning of Algebra

Ways to provide opportunities for students of all ages to study algebraic concepts. Credit Level: G. Credit Hrs: 3.00

18CI751

Teaching/Learning Data Analysis

This course is designed to enable mathematics teachers of any grade level (K-12) to better understand data analysis and how to incorporate it into their classroom teaching. We also look at some of the research on teaching data analysis. Credit Level: G. Credit Hrs: 3.00

18CI752

Calculators and Computers as Tools in the Teaching of Mathematics

Participants explore uses of calculators and computers for the teaching of mathematics in grades K-12 and examine research on the impact of these tools on children's learning. Credit Level: G. Credit Hrs: 3.00

18CI754

Mathematics Education in the Early Elementary Grades

An in-depth exploration of students' invented strategies for mathematical problem solving across all mathematics curricular areas. Credit Level: G. Credit Hrs: 3.00

18CI760P

Family and Community Outreach

This course is part of National Board preparation whereby participants address family and community outreach options. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

Curriculum and Instruction

18CI761P

Connecting Content Knowledge to National Board Standards

This course is part of National Board preparation whereby participants will address how content knowledge is connected to the NB standards. Credit Level: G. Credit Hrs: 3.00

18CI762P

Learning Environments and Instructional Resources

This course is part of National Board preparation whereby participants will address learning environments and instructional resources to NB standards. Credit Level: G. Credit Hrs: 3.00

18CI763P

Assess Student Growth and Understanding

This course is part of National Board preparation whereby participants will address student assessment as it pertains to the NB standards. Credit Level: G. Credit Hrs: 3.00

18CI764P

Professional Writing for National Board Certification

This course is part of National Board preparation whereby participants will learn the genre of professional writing for the NB standards. Credit Level: G. Credit Hrs: 3.00

18CI774

Education Technology: Social, Ethical, Legal, and Human Issues

Critical examination of technology and its impact on society and individuals from an ethical, legal, and social perspective. Credit Level: G. Credit Hrs: 3.00

18CI775

Technology Internship

Technology Internship is a 3 credit field experience for a master's or doctoral student in the Instructional Design and Technology strand in Curriculum and Instruction. The Intern works in a school, non-profit organization, or corporation to gain real-world experience in the field of Instructional Design and Technology. 75 Internship hours required. Perm of Advisor. Credit Level: G. Credit Hrs: 3.00

18CI776

Applying Technology in the Classroom for Effective Learning

This course provides an overview of the increasingly complex array of technology-based media and hardware available for use in the classroom. Some of the topics covered are learning theories and integration models for technology-enhanced instruction, integrating digital technologies and software tools into the classroom, distance learning, and national and state educational technology standards for teachers and students. Credit Level: G. Credit Hrs: 3.00

18CI782

Classroom Management

Emphasizes relationship between instruction and discipline. Stresses skills necessary to implement humanistic, interactive, and behavioral models of classroom management. Credit Level: G. Credit Hrs: 1.00-3.00

18CI785

Improving Instructional Effectiveness

Study of teacher behaviors that influence the academic achievement of students. Credit Level: G. Credit Hrs: 3.00

18CI786

Math Problem Solving

Mathematical problem solving should be the primary emphasis of mathematics instruction at all levels. Methods for teaching and evaluating problem solving in grades K-12 are the focus of this course. Credit Level: G. Credit Hrs: 3.00

18CI787

Middle School Math Methods

Mathematics in the middle school/junior high school has often been little more than a repeat of topics from the elementary grades. Changes in the mathematics curriculum are having a significant impact on both curriculum and instruction. This course will examine current practices in

College of Education, Criminal Justice, and Human Services

Curriculum and Instruction

18CI787

Middle School Math Methods

teaching mathematics at this level. Credit Level: G. Credit Hrs: 3.00

18CI789

Effective Instruction in the Middle Level School

Study of instructional practices in effective schools. Includes models of teaching, classroom management, teaching methods for young adolescents, and methods to increase engaged learning time. Credit Level: G. Credit Hrs: 3.00

18CI791

Labs and Demonstrations in the Science Classroom

Science demonstrations and laboratory experiences will be developed and applied to various areas of science teaching. Management and safety procedures will be examined. Credit Level: G. Credit Hrs: 3.00

18CI792

Internship in Higher Education

Supervised learning experiences in various on-site locations. Periodic seminars for analysis of experiences. Credit Level: G. Credit Hrs: 1.00-6.00

18CI795

Technology Administration in Education

Study of problems, issues, and concerns in administering technology in educational settings. Focus on possible resolutions. Credit Level: G. Credit Hrs: 3.00

18CI801

Topical Seminar in Curriculum and Instruction

Special focus on selected topics in curriculum and instruction-related areas. Credit Level: G. Credit Hrs: 1.00-6.00

18CI811

Seminar in Higher Education

A study of current issues and projected trends in higher education. Focuses on the development of student capacities for judgment, fact-gathering, analysis, synthesis, and evaluation. Foci include continuing education and adult education. Credit Level: G. Credit Hrs: 3.00

18CI814

The Community/Junior College

The philosophy, history, functions, organization, curriculum, and trends in post-secondary, non-baccalaureate institutions. Credit Level: G. Credit Hrs: 3.00

18CI818

Seminar in the Community/Junior College

Analysis of current problems and issues in junior and community colleges. Foci include adult education. Credit Level: G. Credit Hrs: 3.00

18CI820

Instructional Technology Techniques in Higher Education

Psychology of adult learning plus examination of instructional strategies from developing concepts to establishing objectives to evaluating student and teacher performance. Instructional techniques focus on media and technology-based solutions as well as more traditional lectures, seminars, and discussion groups. Credit Level: G. Credit Hrs: 3.00

18CI832

Multimedia Studio I

Students learn a variety of tools for multimedia. Students work independently or in groups. Class functions as a guided studio where students participate in workshops, share their work, collaborate with peers, and obtain feedback/assistance from the instructor. Credit Level: G. Credit Hrs: 3.00

18CI833

Multimedia Studio II

Students learn a variety of tools for multimedia. Students work independently or in groups. Class functions as a guided studio where students participate in workshops, share their work, collaborate with

H=University Honors course.

Curriculum and Instruction

18CI833

Multimedia Studio II

peers, and obtain feedback/assistance from the instructor. Credit Level: G. Credit Hrs: 3.00

18CI834

Multimedia Studio III

Students pursue individually defined projects or develop "real" instructional design projects for clients. Students work independently or in groups. Class functions as a studio where students participate in workshops, share their work, collaborate with peers, and obtain assistance from the instructor. Prereq: 18CI832, 18CI833. Credit Level: G. Credit Hrs: 3.00

18CI841

Issues in Mathematics Education I

Addresses curricular background, significant reforms, specific content topics, and models of learning related to mathematics education in elementary and secondary schools. Credit Level: G. Credit Hrs: 3.00

18CI842

Issues in Mathematics Education II

Focuses on pedagogical and sociological topics related to the teaching and learning of school mathematics; designed for experienced educators. Prereq: 18CI841. Credit Level: G. Credit Hrs: 3.00

18CI849

Organization and Administration in Higher Education

Overview of various organizational structures (academic and administrative), intra- and inter-institutional governance, accountability, and responsibilities of major officers. Credit Level: G. Credit Hrs: 3.00

18CI850

Program Development in Higher Education

Designing appropriate learning experiences utilizing needs assessment, specification of objectives, staffing, content selection, and evaluation. Credit Level: G. Credit Hrs: 3.00

18CI871

Individual Study in Curriculum and Instruction

Cr. and hrs. to be arranged. Credit Level: G. Credit Hrs: 1.00-6.00

18CI872

Readings in Curriculum and Instruction

Cr. and hrs. to be arranged. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-6.00

18CI873

Individual Master's Thesis: Curriculum and Instruction

Research and writing on an approved topic; consultation with adviser; in lieu of Master's Comprehensive Examination. Credit Level: G. Credit Hrs: 1.00-9.00

18CI874

Individual Master's Project: Curriculum and Instruction

Writing and obtaining master committee's approval of master's project proposal and doing the research and writing for the final master's project. Credit Level: G. Credit Hrs: 1.00-6.00

18CI881

Learning Sciences and Technology

This course provides a fundamental understanding of learning sciences, an interdisciplinary field dedicated to studying learning and how learning may be facilitated in designed environments. Students will design a technology-based learning environment and conduct an evaluation of the embedded theories in an existing environment of their choice, such as digital media, games, or other innovative technologies. Credit Level: G. Credit Hrs: 3.00

18CI884

Instructional Design

This course is designed to address how to create interactive learning environments for multimedia instruction. The course introduces instructional design models and covers analyzing the problem/learner,

College of Education, Criminal Justice, and Human Services

Curriculum and Instruction

18CI884

Instructional Design

designing instruction, assessment, and evaluation. Credit Level: G. Credit Hrs: 3.00

18CI885

Attitude Formation and Change

Examines theories of attitude formation and change and their application in classroom settings, and presents tools and strategies for assessing student attitudes. Credit Level: G. Credit Hrs: 3.00

18CI910

Science Education Research I: Teacher Preparation

Examines the current science education research on teacher preparation for major trends and findings; appropriate for doctoral students. Credit Level: G. Credit Hrs: 3.00-6.00

18CI921

Mentored Research in Curriculum and Instruction

Experience in educational research in the field of curriculum and instruction under the direction of an assigned Research Mentor. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-9.00

18CI936

IDT Doctoral Seminar I

This is the first of three sequential modules in the IDT Doctoral Seminar Series. This seminar series is designed to prepare doctoral students to become researchers in the field of instructional technology. Students will be oriented to the field, analyze the literature, and learn about design-based research methods. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

18CI937

IDT Doctoral Seminar II

This is the second of three sequential modules in the IDT Doctoral Seminar Series. This seminar series is designed to prepare doctoral students to become researchers in the field of instructional technology. Students will be oriented to the field, analyze the literature, and learn about design-based research methods. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

18CI938

IDT Doctoral Seminar III

This is the third of three sequential modules in the IDT Doctoral Seminar Series. This seminar series is designed to prepare doctoral students to become researchers in the field of instructional technology. Students will be oriented to the field, analyze the literature, and learn about design-based research methods. Credit Level: G. Credit Hrs: 3.00

18CI944

Theory, Ethics, Application of Research in Teaching

Study of ethical and value dimensions in teaching and research, diverse stakeholders, relationship of knowledge to improvement of professional practice in teaching, and teacher education research. Credit Level: G. Credit Hrs: 3.00

18CI951

Professional Seminar in Teacher Education I: Application of Theories of Teaching and Learning

Seminar in the application of theories of teaching and learning, to issues and problems in the field of teacher education. Credit Level: G. Credit Hrs: 3.00

18CI973

Individual Dissertation Guidance

Conferences with adviser and dissertation committee. Required in doctoral program. Credit Level: G. Credit Hrs: 1.00-15.00

18CI975

Teacher Education and Professional Development

This course is a seminar in the Teaching and Learning focus of the Curriculum and Instruction doctoral program. The content of the course centers on the theory and research on the education and professional development of teachers, including the topics of teacher socialization,

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

Curriculum and Instruction**18CI975****Teacher Education and Professional Development**

teacher knowledge and beliefs, and teacher decision-making in the contexts of schooling. Although the course reading and organization offer students a sampling of the range of issues and research approaches to the empirical study of teacher education and teacher development, students are expected to supplement the reading with their own review of related literature. Credit Level: G. Credit Hrs: 3.00

18CI976**Policy Issues in Teaching and Learning**

This course is a seminar in the Teaching and Learning focus of the Curriculum and Instruction doctoral program. The content of the course centers on local, state, and national policy issues that influence teaching, learning, and teacher education, including the standards and accountability movement, professionalization and accreditation, multiculturalism, and other current social and political movements. Credit Level: G. Credit Hrs: 3.00

18CI977**Curriculum Theory**

This course is a seminar in the Teaching and Learning focus of the Curriculum and Instruction doctoral program. Includes curriculum theory and curriculum development as a reflection of current theory mirroring and following other political, ideological, and social theories in the history of education. This course looks at trends in curriculum theory in order to understand and critique their transactions with other educational themes such as standardized testing, urban reform, critical pedagogies, a just society, and political involvement with education. Credit Level: G. Credit Hrs: 3.00

Criminal Justice**18CJ101****Introduction to Criminal Justice**

Examines agencies and processes involved in administering justice: the legislature, the police, the prosecutor, the courts, and correctional systems. Focus is on the formal crime control process in the United States. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18CJ102**Introduction to Criminology**

An introductory survey course that covers the major theoretical explanations for crime and delinquency. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18CJ103**Introduction to Policing**

The development of U.S. policing, stressing the relationship of police to local politics and the effects of civil service, reform movements, and technological change. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18CJ104**Introduction to Corrections**

Familiarizes the student with the history, current practices, and future directions of corrections. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18CJ105**Introduction to Courts**

Dynamic analysis of the American courts with special emphasis on political and economic contexts within which the courts work. Includes survey of recent research on the American legal system. Prereq: 18CJ101. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ250**Criminal Justice Interviewing**

Develops a basic skill level in interviewing, interrogating, and testifying. Contrasts these three distinct verbal skills. Includes role playing to practice and reinforce techniques. BoK: SS. Credit Level: U. Credit Hrs: 3.00

Criminal Justice**18CJ252****Basic Police Photography**

Introduces students to the use of both 35mm and Polaroid cameras in police work, with emphasis placed on crime scene, traffic accident, and surveillance photography. Includes case law regarding the value of photographs as evidence. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ253**Practical Police Applications**

Introduces the student to the basic techniques of police patrol, with emphasis on a proactive patrol model, to prevent crime and apprehend violators. Discusses the power of observation, field interrogations, and the development of an informant network, as well as arrest techniques and prisoner handling procedures. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ273**Domestic Violence**

Application of crisis intervention theory to domestic disputes, with emphasis on student role-playing. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18CJ274**Managing Conflict and Assaultive Behavior**

Adapts and applies crisis intervention theory to the development and practice of control techniques for specific incidents of impending potential aggression and/or violence. Requires physical participation in simulations. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18CJ284**Legal Issues in Corrections**

Details the most relevant law and recent court decisions regarding the areas of corrections. Provides an understanding of both the rights of prisoners as well as the rights and liabilities of correctional personnel. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

18CJ290**Criminal Justice in Film**

This is a course built around the genre of the Trial Movie, which presents a pleasurable forum for examining several different aspects of law and courtroom procedure, as well as providing the venue for debating the cornerstones of our society, law, justice, morality, and the social conventions that hold us together. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ302**Survey of Criminology**

An examination of the nature of crime and delinquency in American society. Special focus on the development of criminological theory. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ303**Survey of Policing**

The development of U.S. policing, stressing the relationship of police to local politics and the effects of civil service, reform movements, and technological change. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18CJ305**Survey of Courts**

Dynamic analysis of the American courts with special emphasis on political and economic contexts within which the courts work. Includes survey or recent research on the American legal system. Prereq: 18CJ101. BoK: SS, SE. Credit Level: U. Credit Hrs: 3.00

18CJ321**Serial Criminals**

The course will review historical explanations of serial criminals, as well as current biophysical theories and correlating psychosocial explanations. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18CJ322**Gangs and Violent Youth**

Historical and contemporary perspectives on gangs and gang subcultures; focus on gangs and other violent youthful offenders and

Criminal Justice

18CJ322

Gangs and Violent Youth

exploration of available treatment modes in the juvenile justice system. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18CJ324

Ethics in Criminal Justice

Examines ethical issues involved in the operation of the criminal justice system. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ332

White Collar Crime

Examines the nature, causes, costs, and control of corporate and white-collar crime. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ341

Correctional Rehabilitation

An overview of case management and counseling strategies in correctional settings. Includes development of treatment plans, counseling theory, components of helping process, principles of confidentiality, correctional classification, and characteristics of program effectiveness. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18CJ343

Community Corrections

Definition of probation and parole, treatment philosophies, and strategies for supervision. Practice in use of pre-sentence investigation and examination of innovations in community-based correctional alternatives. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ344

Philosophy of Punishment

Analyzes the process of punishment including the history, purposes, and types of criminal penalties. In addition to sentencing, such topics as corporal and capital punishment are explored. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

18CJ346

Institutional Corrections

Institutional correctional facilities are examined in-depth, including an assessment of the history, functions, operations, and contemporary issues of prisons and jails. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ348

Police Organization and Management

Principles of organization and management as applied to law enforcement agencies; introduction to concepts of organizational behavior. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ350

Criminal Investigation

Principles of investigation including theory building; crime scene procedures; collection and preservation of evidence; developing leads; familiarity with criminalistics; and reconstruction of crime. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ351

Prevention and Control of Workplace Violence

The course will review the types of workplace violence; risk factors; environmental prevention; organizational policy development as a prevention strategy; the phenomena of "spill-over" violence; strategies for responding to violence in progress; hostage situations at the workplace; and dealing with the aftermath of violent incidents including debriefing strategy. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18CJ352

Police and the Community

This course examines changing crime patterns across different communities over time and those police strategies that have been implemented to deal with different crime problems. Community and problem-oriented policing strategies are explored as well as the role of the community in controlling crime problems. BoK: SS. Credit Level: U. Credit Hrs: 3.00

Criminal Justice

18CJ353

Police Effectiveness

Examines which police practices reduce crime and disorder, and which do not. Topics include response time, patrolling, detective work, domestic violence, problem-oriented policing, community policing, and drug enforcement. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ361

Hostage/Crisis Negotiations

Hostage/crisis negotiation is handled contrary to traditional police response. This course will cover the history of hostage/crisis negotiation, the two models which developed, an in-depth look at the team response, and methods used to successfully negotiate with people in these situations. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18CJ372

Constitutional Issues & Procedures

Familiarizes the student with certain basic legal, philosophical, and historical concepts pertinent to the criminal justice system. BoK: HP., SE. Credit Level: U. Credit Hrs: 3.00

18CJ373

Politics of Criminal Justice

An examination of the political influences on criminal justice practice and policies. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ383

Terrorism

Impact of modernization on propensity, preference, and opportunity for violence. Course provides historical information on terrorism, objectives of terror, modern terrorism, group movements, classification, and the tools of terror. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18CJ386

Race, Class, and Crime

A critical survey of the impact of racism and classism on the development and implementation of justice in the U.S. Includes a historical analysis and an examination of radical and Marxist criminology. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ387

Drugs and Crime

This course examines issues regarding the relationship between drugs and crime to include theoretical, measurement, and policy-related issues. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ388

Women and Crime

An examination of women and girls as victims and offenders, and women professionals in the criminal justice system. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

18CJ404

Life-Course Criminology

This course examines the nature, both empirical and theoretical, of crime from a developmental perspective. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ405

Juvenile Delinquency

Examines various dimensions of the juvenile offender to include a discussion of the measurements, the correlates, the theories, and the parameters of juvenile offending. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ406

Contemporary Crime Theory

Examines recent theoretical developments in the explanation of criminal behavior. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ407

Crime Prevention

This course will examine crime prevention and the latest strategies used by police agencies to reduce crime. BoK: SS. Credit Level: U.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Criminal Justice

18CJ407

Crime Prevention

Credit Hrs: 3.00

18CJ408

Biosocial Criminology

This class introduces undergraduate and graduate students to the growing literature linking biology to social development in general and to criminal behavior specifically. Special attention is paid to behavioral genetics and the heritability of traits, brain functioning and growth, and the functions of neurotransmitters. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ410

Psychology of Criminal Behavior

Principles of psychology as applied to crime causation and criminal justice system processing. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ420

Criminal Procedures

Constitutional aspects of criminal procedures, to include: investigations, arrests, search and seizures, pre-trial processes, trial rights, sentencing, and appeals. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ421

Criminal Law

Substantive criminal law. Major areas to be covered include: basic principles of criminal law, an analysis of various offenses, parties to crime, and defenses. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ473

Directed Studies

Directed readings and conferences related to specific areas of criminal justice. BoK: NA. Credit Level: U. Credit Hrs: 1.00-5.00

18CJ475

Advanced Criminal Justice Field Placement

Full-time placement in a criminal justice agency for integration of classroom learning with field experience. BoK: NA. Credit Level: U. Credit Hrs: 10.00

18CJ484

Juvenile Justice System

Processing of the juvenile offender from the delinquent act through treatment; the complexity in defining juvenile delinquency. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18CJ490

Criminal Justice Research Methods

Logic of social research methods, survey research, methods of evaluation research, sampling, and the contrast between quantitative and qualitative research. BoK: QR. Credit Level: U. Credit Hrs: 3.00

18CJ491

Criminal Justice Statistics

Basic introduction to research and statistics in a criminal justice setting. Emphasis on measurement, descriptive, and inferential statistical methods. BoK: QR. Credit Level: U. Credit Hrs: 3.00

18CJ495

Criminal Justice Field Intern

Agency placement, field observation, trainee programs, and seminar for discussion and supervision. To be planned by agency, supervisor, and student. Includes professional development seminar. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18CJ496

Criminal Justice Field Placement

Agency placement, field observation, trainee programs, and seminar for discussion and supervision. To be planned by agency, supervisor, and student. Includes professional development seminar. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Criminal Justice

18CJ610

Intervention, Relapse, and Recovery

This class is designed to help the advanced student understand the process of avoidance in recovery from addictions, mental health disorders, and behavioral illnesses. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

18CJ660

Early Intervention in Criminal Justice

The early origins of criminality, the programs demonstrated to be effective in intervening with youngsters at risk for or involved in criminal behavior, and the prospects for early intervention as a correctional policy agenda. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

18CJ700

Seminar in Criminal Justice

This course provides an overview of the theory and research on the criminal justice system, including police, courts, prosecution, and corrections. Special attention is given to the structural, organizational, and micro-level aspects of the criminal justice system and their interactions. Credit Level: G. Credit Hrs: 3.00

18CJ701

Pro-Seminar in Law and Social Control

This course provides an overview of the theory and research on the nature of law, legal institutions, and related mechanisms of social control. Credit Level: G. Credit Hrs: 3.00

18CJ702

Criminal Justice Management

Theory and research on complex organizations are applied in criminal justice settings. A contingency framework is developed through which alternative organizational goals, structures, staffing patterns, management styles, and planning strategies can be examined. Credit Level: G. Credit Hrs: 3.00

18CJ703

Criminal Justice Policy Analysis

This course is an overview of policy implementation and effectiveness in the criminal justice system. Policies are evaluated on an informal and formal levels in the area of policing, courts, and corrections. Credit Level: G. Credit Hrs: 3.00

18CJ720

Seminar in Criminology

This course presents an overview of the nature of crime in American society. Special focus is given to methods of measuring crime (official data, victimization data, and self-reports) and the major theoretical approaches to crime and crime control. Credit Level: G. Credit Hrs: 3.00

18CJ741

Basic Research Methods in Criminal Justice

An introduction to research design as applied to crime and criminal justice research. Includes an introduction to the scientific method, sampling, and basic research designs. Credit Level: G. Credit Hrs: 3.00

18CJ742

Applied Criminal Justice Research

This course examines issues concerning the conduct of research in criminal justice settings. Primary concern is with evaluation research. The course also includes research planning strategies, procedures for computer data analysis, and presentation of research findings. Credit Level: G. Credit Hrs: 3.00

18CJ749

Applied Statistics in Criminal Justice

The focus of this course is on data analysis. Topics include univariate descriptive statistics, inductive statistics, and the general linear model. Special attention will be paid to applying these statistics to data analysis in policing and corrections for the purpose of writing research reports. Credit Level: G. Credit Hrs: 3.00

Criminal Justice**18CJ750****Basic Statistics in Criminal Justice**

The purpose of this course is to provide an understanding of univariate descriptive statistics, probability theory, inductive statistics, and bivariate statistics through analysis of variance. Credit Level: G. Credit Hrs: 3.00

18CJ760**Theory and Philosophy of Corrections**

This course explores the major justifications for corrections: rehabilitation, retribution, deterrence, and incapacitation. Each theory's central principles, empirical adequacy, and policy implications are examined. Special consideration is given to the political ideology in forming debates on the purpose of corrections and to the difficulties of implementing correctional theories. Credit Level: G. Credit Hrs: 3.00

18CJ773**Directed Studies**

Directed readings and conferences related to specific areas of criminal justice. Credit Level: G. Credit Hrs: 1.00-5.00

18CJ775**Field Experience**

Agency placement, field observation, trainee programs, and seminar for discussion and supervision. To be planned by agency, supervisor, and student. Includes professional development seminar. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-9.00

18CJ780**Theory and Practice of Law Enforcement**

This course examines the development and functions of policing in contemporary American society. The impact of social, economic, and political forces on the structure and definition of contemporary police agencies are employed through a review of classical and contemporary literature on policing. Contemporary problems and issues in law enforcement are analyzed within the context of recent research. Credit Level: G. Credit Hrs: 3.00

18CJ783**Special Topics in Crime Prevention**

This course is a seminar on selected victimization and crime prevention issues. Credit Level: G. Credit Hrs: 3.00

18CJ784**Special Topics in Policing**

This course is a seminar on selected issues of policing. Credit Level: G. Credit Hrs: 3.00

18CJ790**Individual Work in Criminal Justice**

Supervised readings or research in criminal justice. Credit Level: G. Credit Hrs: 1.00-15.00

18CJ791**Special Topics in Criminal Justice**

Seminar on selected issues in criminal justice. Credit Level: G. Credit Hrs: 3.00

18CJ798**Demonstration Project Research I**

A two-quarter sequence in which students work with their Advisory Committees to demonstrate knowledge and skills of research in individual projects. Credit Level: G. Credit Hrs: 3.00

18CJ799**Demonstration Project Research II**

See 18CJ798. Credit Level: G. Credit Hrs: 3.00

18CJ800**Juvenile Justice System**

This course covers the systematic application of the juvenile justice system from arrest to detention and sentencing. Related issues covering diversion and programmatic treatment will be covered. Credit Level: G. Credit Hrs: 3.00

Criminal Justice**18CJ801****Seminar in Legal Issues in Criminal Justice**

This course examines law and legal change through a review of legal issues in criminal justice including search and seizure, rights of the accused, standards of evidence, and penal law. The course also familiarizes students with techniques of legal research and the use of computerized legal data bases. Specific topics and areas of emphasis may vary from year to year. Credit Level: G. Credit Hrs: 3.00

18CJ802**Seminar in Criminal Courts**

This course describes and analyzes the development and functions of criminal courts as a component of the criminal justice process. Drawing upon available research and literature, attention is directed at the roles and activities of the various courtroom actors, and the adjudication and sentencing process. Credit Level: G. Credit Hrs: 3.00

18CJ804**Seminar in Critical Perspectives on Criminal Justice**

This course examines critical and Marxist perspectives on crime. The course will focus on how the criminal justice system defines crime and how offenders are processed by the criminal justice system. In particular, racism and classism in the criminal justice system will be analyzed. Credit Level: G. Credit Hrs: 3.00

18CJ805**Seminar on Victimology**

This course discusses the role of the victim across perspectives of crime causation, the criminal justice system, societal responsiveness, and measurement of victimization. Credit Level: G. Credit Hrs: 3.00

18CJ806**Gender and Crime**

This course examines the role of gender and crime, including patterns of male and female crime as well as criminological explanations. Credit Level: G. Credit Hrs: 3.00

18CJ810**Seminar in Criminal Justice Theory**

This course is an advanced doctoral seminar in criminal justice theory. Students will define theory and explore the process of theory construction. The class will identify theories of criminal justice practices and examine the implications of those theories for research into criminal justice practices and operations. Credit Level: G. Credit Hrs: 3.00

18CJ811**Seminar in Criminal Justice Process**

This is an advanced doctoral seminar in the criminal justice process. This course is a substantive and methodological review of research on decision-making across the criminal justice system. The objective of the course is to tie together research on the criminal justice system and better prepare students to undertake research projects that have a systems perspective. Credit Level: G. Credit Hrs: 3.00

18CJ812**Seminar in Criminal Justice Program and Policy Evaluation**

This course examines the important role that evaluation plays in furthering knowledge about criminal justice phenomena and the efficacy of social action undertaken to address them. Credit Level: G. Credit Hrs: 3.00

18CJ820**Structural Theories of Crime**

This course reviews the major structural explanations of criminal behavior. Attention is given to each theory's historical origin, central principles, conceptual rigor, empirical status, and policy implications. Credit Level: G. Credit Hrs: 3.00

18CJ821**Individual Theories of Crime**

This course examines major individual-level theories of crime causation, including neurological, biochemical, developmental, psychodynamic, learning, cognitive, and social-psychological perspectives. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Criminal Justice

18CJ821

Individual Theories of Crime

This course examines major individual-level theories of crime causation, including neurological, biochemical, developmental, psychodynamic, learning, cognitive, and social-psychological perspectives. Credit Level: G. Credit Hrs: 3.00

18CJ824

Criminal Offender

This course examines the individual criminal offender. Genetic, biological, psychological, and environmental factors are understood within a developmental paradigm. A special area of focus involves understanding behavior within and across contexts and time periods. Credit Level: G. Credit Hrs: 3.00

18CJ825

Seminar in White-Collar Crime

This course examines the etiology, types, explanations, costs, and control of white-collar crime. Special attention is paid to corporate crime and to the use of the criminal law in the control of this form of white-collar crime. Credit Level: G. Credit Hrs: 3.00

18CJ827

Seminar in Drugs and Crime

Examines the measurement of drug-involved behavior as well as the complex relationships between drugs and crime. The seminar also includes the examination of policy efforts toward controlling drug problems in the U.S. Credit Level: G. Credit Hrs: 3.00

18CJ828

Crime and the Lifecourse

This course examines issues and theories related to crime and the lifecourse. Credit Level: G. Credit Hrs: 3.00

18CJ829

Macro-Level Theories of Crime

This course will focus on macro-levels of approaches to crime and crime control. Credit Level: G. Credit Hrs: 3.00

18CJ830

Communities and Crime

This course explores community-level theory and research within criminology. Included is an explanation of theoretical and methodological issues such as: conceptualization and measurement of community, conceptualization and measurement of social disorganization, structural versus cultural effects in community models, social versus physical environmental effects, the role of community disorder in community crime models, the role of fear in community crime models, macro-level interactions within community-level models of crime, and use of theoretical and multi-level models in community crime research. Credit Level: G. Credit Hrs: 3.00

18CJ839

Fundamentals of Research Methods

An introduction to research design as applied to crime and criminal justice research. Includes an introduction to the scientific method and basic research designs. Credit Level: G. Credit Hrs: 3.00

18CJ840

Intermediate Research Methods in Criminal Justice

This course explores intermediate research methods in criminal justice. Credit Level: G. Credit Hrs: 3.00

18CJ841

Advanced Research Methods in Criminal Justice

This course examines the philosophy of social sciences issues as they apply to criminal justice and criminological constructs, measurement of change, and meta-methodological issues in criminological research. Credit Level: G. Credit Hrs: 3.00

18CJ850

Intermediate Statistics in Criminal Justice

This course provides an understanding of all theory, logic, and mathematics underlying the general linear model. Credit Level: G.

Criminal Justice

18CJ850

Intermediate Statistics in Criminal Justice

Credit Hrs: 3.00

18CJ851

Advanced Statistics in Criminal Justice

This course is designed to provide an understanding of least squares estimation in matrix notation, methods to correct heteroskedasticity, and techniques to examine discrete dependent variables. Credit Level: G. Credit Hrs: 3.00

18CJ860

Seminar in Correctional Rehabilitation

This course examines theories, techniques, and policies of correctional treatment from applied, planning, and evaluation perspectives. Credit Level: G. Credit Hrs: 3.00

18CJ861

Seminar in Institutional Corrections

This course examines the origins, evolution, and current status of correctional institutions. Special attention is given to classic studies of prisons and to the empirical research on life inside the prisons for inmates and for correctional personnel. Major policy issues are also studied. Credit Level: G. Credit Hrs: 3.00

18CJ862

Seminar in Community Corrections

This course is designed to provide an overview of various criminal justice programs found under the term "community corrections." Emphasis will be placed on developing theoretical models to distinguish what constitutes community corrections, and how various program types have been evaluated for effectiveness. Credit Level: G. Credit Hrs: 3.00

18CJ863

Seminar in Juvenile Corrections

This seminar examines the various components of the juvenile correctional system. Areas of interest include community-based detention, community treatment, wilderness programs, and traditional secure facilities. Credit Level: G. Credit Hrs: 3.00

18CJ865

Applied Corrections

This course introduces students to the application of evidence-based practices in corrections, including assessments, treatment manuals, and quality assurance protocols. Credit Level: G. Credit Hrs: 3.00

18CJ866

Minorities in Corrections

This course is a broad examination of racial/ethnic issues in corrections, including various issues surrounding the nexus between racial minorities and correctional policy and processing. Credit Level: G. Credit Hrs: 3.00

18CJ871

Applied Crime Prevention

The course teaches students how to apply crime prevention theory and research methods to the analysis of crime problems, development of prevention interventions, and evaluation of outcomes in real world settings. Credit Level: G. Credit Hrs: 3.00

18CJ872

Theory and Practice of Crime Prevention

This course is designed to provide an exploration of crime patterns and community-based approaches to reducing opportunity for crime, thus disrupting such patterns. Credit Level: G. Credit Hrs: 3.00

18CJ875

Demonstration Project

A continuation of 18CJ798 and 18CJ799. Credit Level: G. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Criminal Justice

18CJ880

Policing in Context

This course examines historical and contemporary views of police organization and management. The principal concern is with alternative conceptions of the police organizational goal and implications of these alternatives for police organization and management. Credit Level: G. Credit Hrs: 3.00

18CJ881

Police Decision-Making

The course begins with an examination of the relationship between communities and crime, drawing from the ecology of crime research tradition. The class then examines the role of the police in controlling crime in different types of communities, focusing on community policing and the role of communities in controlling crime. Credit Level: G. Credit Hrs: 3.00

18CJ882

Seminar in Police Effectiveness

This course examines alternative criteria by which the effectiveness of police can be assessed, and critically reviews empirical studies of police effectiveness. Principal emphasis is placed on contemporary police innovations. Credit Level: G. Credit Hrs: 3.00

18CJ890

Advanced Individual Work in Criminal Justice

Supervised readings of research on advanced topics in criminal justice. Credit Level: G. Credit Hrs: 1.00-15.00

18CJ891

Advanced Special Topics in Criminal Justice

Seminar on selected advanced issues in criminal justice. Credit Level: G. Credit Hrs: 3.00

18CJ900

Criminal Justice Research Practicum I

This course will focus on the nature of the publication process within the field of criminal justice. Topics will include a review of the components of a publishable article, how to prepare an article for submission to a journal, how to select a scholarly outlet for a manuscript, and how journals evaluate article submissions. Students also will be shown how to review an article for a journal and how to present research at a professional meeting. Credit Level: G. Credit Hrs: 3.00

18CJ901

Advanced Data Analysis

This course provides an understanding of reading, manipulating, and analyzing data in SPSS for Windows. The logic of computer programming in SPSS is a major focus. Specific methods of data analysis include all of the statistical methods covered in the three doctoral statistics courses in addition to factor analysis, two-stage least squares, and event history (survival) analysis. Credit Level: G. Credit Hrs: 3.00

18CJ902

Criminal Justice Research Tool: Longitudinal Data Analysis

This course is designed to teach students how to analyze longitudinal data using time series analysis and other statistical techniques. Credit Level: G. Credit Hrs: 3.00

18CJ903

Criminal Justice Research Tool Sampling

This course will provide students with an understanding of sampling and sampling techniques as related to social science research. Credit Level: G. Credit Hrs: 3.00

18CJ905

Criminal Justice Research Tool: Multi-Level Modeling

This course focuses on the analysis of multi-level models of analysis. Credit Level: G. Credit Hrs: 3.00

18CJ906

Criminal Justice Research Tool: Structural Equations

This course will provide students with an understanding of structural

Criminal Justice

18CJ906

Criminal Justice Research Tool: Structural Equations

equations and their use and application to social science research. Credit Level: G. Credit Hrs: 3.00

18CJ908

Meta Analysis in Criminal Justice

This course introduces students to the theory and application of meta analysis in criminal justice. Students will learn how to conduct a meta analysis and how to interpret results. Prereq: 18CJ741, 18CJ750. Credit Level: G. Credit Hrs: 3.00

18CJ910

Criminal Justice Teaching Practicum I

The purpose of this course is to prepare students to teach criminal justice courses. It acquaints students with research on teaching, helping students design courses, develop assignments, and prepare lectures. Credit Level: G. Credit Hrs: 3.00

18CJ920

Advanced Crime Prevention

This course provides an understanding of the theoretical foundations of various crime prevention efforts. The focus is on understanding criminal opportunity within the environment. Specific theories which will inform our understanding of criminal opportunity include routine activities theory, crime pattern theory, defensible space theory, social disorganization theory, situational crime prevention, and rational choice theory. Credit Level: G. Credit Hrs: 3.00

18CJ990

Doctoral Dissertation Research

Individual guidance in doctoral dissertation research. Credit Level: G. Credit Hrs: 1.00-15.00

Counseling

18CNLSL301

SPECIAL TOPICS: HELPING TECHNIQUES

Special topics in counseling-related areas (e.g., personal development, interpersonal skills, leadership training, career development, life planning, concerns of special populations). BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

18CNLSL302

18CNSL773 Counseling Program Development and Evaluation

Methods of planning and evaluating short- and long-term counseling interventions and programs. Credit Level: G. Credit Hrs: 3.00

18CNSL775 Career Development

Basic theoretical concepts involved with career development. Credit Level: G. Credit Hrs: 3.00

18CNSL781 Professional Orientation to Counseling

Introduction to and survey of the counseling profession, including roles, settings, functions, ethics, and theories. Credit Level: G. Credit Hrs: 3.00

18CNSL783 Tests in Counseling

Study of testing and measurement techniques in counseling individuals and groups. Credit Level: G. Credit Hrs: 3.00

18CNSL784 Counseling Theories

The study of classical and modern theories guiding counseling interventions, with emphasis placed on integration of the various theories into a personalized therapeutic approach; the clarification of skills used in fitting clients with serious mental disorders and substance abuse disorders; and justification of clinical decisions within theoretical frameworks. Credit Level: G. Credit Hrs: 3.00

18CNSL787 Group Theory and Process

This course provides students with core knowledge and skill in group work. Students will be exposed to classical types of groups, the skills necessary to function effectively as a member, leader, and observer, best practices in group work including multicultural competence in groups. Through didactic instruction and within class practice, participants will become skillful participants in and leaders of small groups. Students will also learn how to design, facilitate, and co-facilitate time-limited, theme-oriented psychoeducational groups. Credit Level: G. Credit Hrs: 3.00

18CNSL809 Abnormal Human Behavior

The study of the causes, etiology, treatment, and prognosis of mental and emotional disorders including clinical disorders, substance use disorders, and disorders of personality; implications for counseling in school and community settings. Credit Level: G. Credit Hrs: 3.00

18CNSL819 Preventive Counseling

Conceptual knowledge and practical applications of prevention to assist late adolescent and adult clients in averting educational and psychological problems. Credit Level: G. Credit Hrs: 3.00

18CNSL831 Counseling Institute-A

Summer Institute course of varying length, focused on a contemporary counseling issue of special interest that is not ordinarily addressed in the regular Counseling curriculum. See Division for details. Credit Level: G. Credit Hrs: 1.00-4.00

College of Education, Criminal Justice, and Human Services

Counseling

18CNSL832 Counseling Institute-B

Summer Institute course of varying length, focused on a contemporary counseling issue of special interest that is not ordinarily addressed in the regular Counseling curriculum. See Division for details. Credit Level: G. Credit Hrs: 1.00-4.00

18CNSL833 Counseling Institute-C

Summer Institute course of varying length, focused on a contemporary counseling issue of special interest that is not ordinarily addressed in the regular Counseling curriculum. See Division for details. Credit Level: G. Credit Hrs: 1.00-4.00

18CNSL834 Counseling Institute-D

Summer Institute course of varying length, focused on a contemporary counseling issue of special interest that is not ordinarily addressed in the regular Counseling curriculum. See Division for details. Credit Level: G. Credit Hrs: 1.00-4.00

18CNSL835 Counseling Institute-E

Summer Institute course of varying length, focused on a contemporary counseling issue of special interest that is not ordinarily addressed in the regular Counseling curriculum. See Division for details. Credit Level: G. Credit Hrs: 1.00-4.00

18CNSL836 Counseling Institute-F

Summer Institute course of varying length, focused on a contemporary counseling issue of special interest that is not ordinarily addressed in the regular Counseling curriculum. See Division for details. Credit Level: G. Credit Hrs: 1.00-4.00

18CNSL841 Family Counseling I

Introduction to theories and practices of family and marital counseling with a variety of clients. Credit Level: G. Credit Hrs: 3.00

18CNSL842 Family Counseling II

Continuation of the theory and practice of family and marital counseling including practice using different counseling skills. Prereq: 18CNSL841. Credit Level: G. Credit Hrs: 3.00

18CNSL851 CRRNT ISS SCH COUN

CRRNT ISS SCH COUN Credit Level: G. Credit Hrs: 3.00

18CNSL852 Counseling in the Schools

This course provides an overview of the roles and responsibilities of school counselors, scope of services, and school counseling programs in K-12 school settings. Students will review the historical background and current issues related to the school counseling profession and K-12 students. Credit Level: G. Credit Hrs: 3.00

18CNSL855 Community Counseling in Mental Health Settings

This course explores community counseling in mental health settings. Prereq: 18CNSL781. Credit Level: G. Credit Hrs: 3.00

18CNSL861 Chemical Dependency I

Explores the various methods of treatment for persons with chemical dependency, as well as issues influencing the field. Credit Level: G. Credit Hrs: 3.00

18CNSL862 Chemical Dependency II

Analyzes the various theories and methods and their relevance to counseling individuals and their families with problems of substance abuse. Prereq: 18CNSL861. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

Counseling

18CNSL871

Individual Study

Individual research on a problem in guidance and counseling. For advanced students. Cr. and hrs. to be arranged. Credit Level: G. Credit Hrs: 1.00-6.00

18CNSL872

Readings

Selected readings in guidance and counseling. Written analyses required. For advanced students. Cr. and hrs. to be arranged. Credit Level: G. Credit Hrs: 1.00-6.00

18CNSL876

Special Topics

Individual and group work in concentrated areas of skill development and/or readings. Cr. and hrs. to be arranged. Credit Level: G. Credit Hrs: 1.00-15.00

18CNSL884

Counseling Pre-Practicum

Supervised experiences and critiques of taped materials to learn opening, closing, and reflective techniques in counseling. Normally taken with 18CNSL784. Credit Level: G. Credit Hrs: 3.00

18CNSL885

Leading Groups

Advanced group process; application of theory to leading a structured, theme-oriented group under supervision. Credit Level: G. Credit Hrs: 3.00

18CNSL886

Advanced Counseling Skills

Supervised experience in counseling through role-playing, recorded interviews, observation analysis, and evaluation of interviewing techniques. Credit Level: G. Credit Hrs: 3.00

18CNSL887

Field Practicum

Continuation of 18CNSL886. Supervised experience in counseling through role playing, recorded interviews, observation analysis, evaluation of interviewing techniques. Prereq: 18CNSL886. Credit Level: G. Credit Hrs: 3.00

18CNSL888

Master's Counseling Internship

Supervised counseling experience. Credit Level: G. Credit Hrs: 1.00-12.00

18CNSL889

Advanced Master's Counseling Internship

Advanced master's supervised counseling experience. Prereq: 18CNSL888. Credit Level: G. Credit Hrs: 1.00-9.00

18CNSL890

Child Counseling

Practicum focusing on counseling children. Credit Level: G. Credit Hrs: 3.00

18CNSL891P

Management in Human Services

Introduction of components necessary in managing a human service agency or similar type of organizations. Credit Level: G. Credit Hrs: 3.00

18CNSL895

Introduction to Problem Identification and Diagnosis in Counseling

The study of multidimensional assessment of, diagnosis of, and documentation of the necessity for and conduct of treatment for mental disorders and substance use disorders. On completion of this course, the student will be able to conduct and document a biopsychosocial diagnostic assessment, a multi-axial diagnosis of mental disorders and substance use disorders using the current edition of the DSM, prepare a comprehensive treatment plan, and prepare progress notes for a client's chart. Credit Level: G. Credit Hrs: 3.00

Counseling

18CNSL896

Counseling Management

Focus on components necessary to manage a counseling behavioral health unit. Credit Level: G. Credit Hrs: 3.00

18CNSL897

Leadership and Emotional Intelligence in Counseling

Introduction to leadership styles for supervising counselors. Credit Level: G. Credit Hrs: 3.00

18CNSL901

Advanced Counseling Internship

Advanced field application of counseling skills with on-site supervision. For doctoral and advanced students only. Credit Level: G. Credit Hrs: 1.00-12.00

18CNSL932

Advanced Research Seminar

Investigation into counseling/psychological research. Review of literature and planning research. Credit Level: G. Credit Hrs: 3.00

18CNSL933

Advanced Research Seminar

See 18CNSL932. Credit Level: G. Credit Hrs: 3.00

18CNSL961

Supervision of Counselors

Supervision of counselors in a lab setting. Offered in conjunction with 18CNSL884, 18CNSL886, or 18CNSL887. Credit Level: G. Credit Hrs: 1.00-6.00

18CNSL962

Supervision Practicum

Supervision of counselors in a laboratory setting. Offered in conjunction with 18CNSL884, 18CNSL886, or 18CNSL887. Prereq: 18CNSL961. Credit Level: G. Credit Hrs: 1.00-6.00

18CNSL963

Multicultural Counseling

This course provides students with an introduction to multiculturalism, cultural competence, and multicultural counseling. The course will challenge and encourage the student toward self-examination and new insights. Activities and assignments will facilitate objective critical/analytical thinking as a basis for developing interpersonal skills and competencies necessary for rendering culturally appropriate counseling services to diverse populations in school, mental health, and chemical addictions service settings. Credit Level: G. Credit Hrs: 3.00

18CNSL973

Individual Dissertation Guidance

Conferences with adviser and reading committee (required in doctoral program). Cr. and hrs. to be arranged. May be repeated for a total of 45 cr. hrs. Credit Level: G. Credit Hrs: 1.00-15.00

18CNSL981

Ethical, Professional, and Legal Issues in Counseling

Group discussion of ethical conduct, professional practice, licensure and legal issues, and values conflicts in counseling. Credit Level: G. Credit Hrs: 3.00

18CNSL984

Advanced Practicum in Counseling

Advanced Practicum in teaching and supervising counselors; includes an experimental requirement. Credit Level: G. Credit Hrs: 3.00

18CNSL985

Testing and Assessment

The use of testing and assessment techniques in assessing mental and emotional disorders, substance use disorders, and treatment outcomes in school and community settings. Credit Level: G. Credit Hrs: 3.00

18CNSL986

Counseling ProSeminar I: Individuals and Families

Updates knowledge of current concepts and trends in individual and family issues pertinent to ecological counseling. Perm of Instructor.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

Counseling

18CNSL986

Counseling ProSeminar I: Individuals and Families

Credit Level: G. Credit Hrs: 3.00

18CNSL987

Counseling ProSeminar II: Groups and Organizations

ProSeminar II addresses the group and organizational level of ecological foundations. Conceptual material will be presented and discussed via a small seminar format to investigate group and organizational vehicles for growth and change. Prereq: 18CNSL986. Credit Level: G. Credit Hrs: 3.00

18CNSL988

Counseling ProSeminar III: Institutions and Social Systems

Updates knowledge of current concepts and trends in institutions and social systems pertinent to ecological counseling. Prereq: 18CNSL987. Credit Level: G. Credit Hrs: 3.00

18CNSL989

Ecological Counseling Seminar I: Individuals and Families

Extends conceptual material of ProSeminar I through integration, synthesis, and application by using problem-based learning methods. Prereq: 18CNSL987. Credit Level: G. Credit Hrs: 3.00

18CNSL990

Ecological Counseling Seminar II: Groups and Organizations

Ecological Counseling Seminar II extends conceptual material of ProSeminar II through integration, synthesis, and appreciation of using problem-based learning methods. Prereq: 18CNSL989. Credit Level: G. Credit Hrs: 3.00

18CNSL991

Ecological Counseling Seminar III: Institutions and Social Systems

Extends conceptual material of ProSeminar III through integration, synthesis, and application by using problem-based learning methods. Prereq: 18CNSL987. Credit Level: G. Credit Hrs: 3.00

Early Childhood Education

18ECE191

Orientation to Professional Practice in Early Childhood

Designed to introduce students to problems and procedures related to schools and centers. Prearranged visits are part of the course. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE231

Classroom Organization and Management

Methods for guiding children in preschool settings with emphasis on positive discipline strategies and communication skills. Recommended prerequisite: Child Development I and Orientation to Professional Practice. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE234

Math and Science in Early Childhood Education

Methods of teaching math and science within a developmentally appropriate, integrated, early childhood setting. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE235

Language Arts and Literature I

Discussion of early language development and early reading and writing; methods of literacy learning; survey and use of literature. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE236

Language Arts and Literature II

Development of young children from early reading and writing to fluent reading and writing; integrating literature into the early childhood curriculum. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE242

Preschool Student Teaching

Supervised student teaching experience in a developmentally appropriate preschool setting. Placements are half days M-F. By

application. AS degree Cohort only. Coreq: 18ECE235. BoK: NA. Credit Level: U. Credit Hrs: 2.00-6.00

18ECE243

Preschool Internship

Extension of Preschool Student Teaching with additional responsibilities. By application only. Placements are half days M-F. BoK: NA. Credit Level: U. Credit Hrs: 6.00

18ECE244

Early Childhood Education Internship for Family Child Care

The FCC Internship is the culminating experience in the Early Care and Education Associate of Arts degree program. Candidates participate in their own family child care homes with a mixed age group of children from birth through age 12 under the supervision of a UC instructor. Candidates are expected to assume and manage the full range of teaching/caregiving responsibilities for the group of children in order to fulfill course requirements. BoK: NA. Credit Level: U. Credit Hrs: 6.00

18ECE251

Infant/Toddler Programs

Design and implementation of developmentally appropriate programs for infants and toddlers. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE252

Practicum Seminar in Early Childhood I

In this seminar, students will be provided with opportunities to analyze experiences gained in an approved early childhood education program, reviewing theory, teaching skills, team teaching, classroom management, lesson planning, and evaluation. Prereq: 18ECE231. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18ECE253

Practicum Seminar in Early Childhood II

In this seminar, students will be provided with opportunities to analyze experiences gained in an approved early childhood education program, reviewing theory, teaching skills, team teaching, classroom management, lesson planning, and evaluation. Coreq: 18ECE243. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18ECE256

Creative Arts in Early Childhood Education

An examination of art, music, movement, and dramatic play curriculum content as well as strategies and techniques for involving young children in aesthetic experiences. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE257

Integrated Preschool Curriculum

Investigate preschool curriculum with respect to Ohio early education learning standards and content integration. AS degree Cohort only. Prereq: 18ECE256. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE261

Families and Culture in Early Childhood Education

Educational considerations in working with young children from a variety of cultural and ethnic backgrounds. Specific issues related to establishing culturally appropriate, family centered programs will be discussed. AS degree Cohort only. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

18ECE262

Observation, Assessment, and Planning in Early Childhood

Presentation of techniques for observing, recording, and assessing the behavior of young children. Discussion of strategies for data collection and use of data for long- and short-term planning. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE264

Administration of Early Childhood Programs

Overview of administrative duties required in managing a variety of early childhood programs. Discussion of licensing standards, funding

18ECE264

Administration of Early Childhood Programs

issues, operating budgets, staff recruitment and retention, policies and procedures, and staff development. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE266

School Age Care

This course is intended for those who will be providing school age care in schools, centers, or family child care homes. Designed to help students understand and meet the unique needs of school age children through appropriate environments, activities, and guidance. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE268

Special Topics in Early Childhood Education

In-depth study of selected topics in early childhood education. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE271

Mentoring Adults in Early Childhood Programs

Overview of methods and principles of supervising preservice and/or new teachers in the field of early childhood education. Designed for experienced classroom teachers who have demonstrated strong skills in providing a developmentally appropriate early childhood program. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

18ECE276

Child Development I

Prenatal and early growth and development through age 6. Prereq: 15PSYC101. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ECE277

Child Development II

Growth and development of children in the school age and adolescent periods. Observation in schools and community groups. Prereq: 18ECE276. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18ECE278

Health, Safety, and Nutrition in Early Childhood Education

Discussion of health, safety, and nutrition issues in early childhood settings. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE290

Early Childhood Social Development and Self Regulation

Investigation of the building blocks for fostering mentally, emotionally, and socially healthy children ages birth to five. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE292

Introduction to Inclusive Practices

Introduction to teaching practices and services for children with developmental delays, ages birth to five. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE400

Developmental Concerns

Issues related to preschool, kindergarten, and primary grade children (who are at risk, demonstrate developmental delays, are gifted/creative/talented, or have identified disabilities) and their families, including the identification/placement process, IEP's, parents' rights, etc. BoK: DC. Credit Level: U. Credit Hrs: 3.00

18ECE401

Accommodations and Adaptations in Early Childhood Education

In this course, designing appropriate family and child assessment-based Individualized Education Plans (IEP's) and Individual Family Service Plans (IFSP's) will be addressed. Also, collaborative problem solving, accommodations, classroom management, interventions, related services, etc. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE402

Families in Early Childhood Special Education

Study of family centered practices in working with families who have children with disabilities or other special needs. Cohort only. BoK: NA.

Early Childhood Education

18ECE402

Families in Early Childhood Special Education

Credit Level: U. Credit Hrs: 3.00

18ECE406

Collaboration and Case Management in Early Childhood Education

Study of the complexities of working with related service personnel in early childhood programs. Skill development is emphasized for serving as early intervention case managers. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE408

Early Childhood Education: Field Work

Field work experiences in early childhood education. Course offered to Art Education majors. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

18ECE411

Play and Development

This course focuses on child development as it specifically relates to young children's play. Topics include: play and its connection to learning; play and how it relates to development; and the teacher's role in facilitating play, development, and learning in the early childhood classroom. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE412

Selfhood in Infants and Toddlers

Study of selfhood in young children and its implications for theoretical and philosophical nurturing practices. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE415

Foundations of Literacy

This course is designed to assist students in the development of understanding of the reading and writing process for young children. Focus is on emergent literacy and methods for preschool literacy-rich environments. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE430

Classroom Management

Development of skills and competencies necessary for effective functioning in a setting with children ages 3-8. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE450

Infant Practicum

This field experience will provide the student with onsite observation and interaction with infants. Infants are defined as birth to 18 months. Prereq: 18ECE251, 18ECE412. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE451

Toddler Practicum

This field experience will provide the student with onsite observation and interaction with toddlers. Toddlers are defined as 18 to 36 months. Prereq: 18ECE251, 18ECE412. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE460

Language Development in Early Childhood Special Education

This course is an introduction to typical and atypical language development in early childhood education with a focus on young children ages birth to age five. Implications of ethnic, linguistic, psychological, and cultural differences for language learning are examined. The role of the teacher in enhancing language development in young children is discussed. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE468

Early Childhood Education Phonics I

This course will investigate research-based and historical-cultural contexts for phonics instruction in early childhood education. Cohort only. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Early Childhood Education

18ECE470

Early Childhood Education Phonics II

This is a methods course about the teaching and learning of phonetics, phonics, word study, and spelling in relation to developing learners and a total reading program. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE480

Teaching Reading Through Children's Literature

Through an investigation into developmentally and culturally appropriate reading materials for young children, students learn about literature genres, the path to fluent reading and writing, and common reading problems. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE490

Math/Science for Young Children

Methods of teaching math/science in preschool within an integrated curriculum and contexts that have contributed to current practices in educating young children in math and science. Focus is on pre-K through grade 1. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE495

Stories of Teaching

An introductory course on the principles of developmentally appropriate practice and the history of early childhood education. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE498

Projects and Documentation in Early Childhood Education

Capstone course for the Early Childhood Education Birth to Five option. Explore early childhood environments as a context for documenting children's work and reflecting on its meaning. Coreq: 18ECE408. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE500

PreSchool Practicum

Supervised observation and participation in preschool settings. Half days, M-F. By application only. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18ECE501

Teaching Reading and Writing I

Facilitating the development of reading and writing skills in kindergarten and grade 1. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18ECE502

Teaching Reading and Writing II

Facilitating the development of reading and writing skills in primary grades. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18ECE504

Kindergarten Practicum

Supervised observation and participation two or more half-days per week in an approved kindergarten. Times for participation and seminars to be arranged. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18ECE505

Art Education Practicum

Practicum for Art Education majors at the Arlitt Child Development Center. Students observe early childhood education practice, create lesson plans, and implement plans under supervision. BoK: NA. Credit Level: U. Credit Hrs: 2.00

18ECE506

Assessment and Evaluation in Early Childhood Education

In-depth study of assessment of children ages birth to eight and early childhood education program evaluation. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE515

Practitioner Research in Early Childhood Education

Action research methods are implemented to study and improve practice in early childhood environments. Generally taken with

Early Childhood Education

18ECE515

Practitioner Research in Early Childhood Education

18ECE408, Fieldwork. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE525

Leadership in Early Childhood Education

Develop leadership skills including advocacy, supervision, accessing funding, and networking. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE530

Challenging Behaviors in Early Childhood Education

This course focuses on strategies and techniques to use data-driven decision making to intervene with children who challenge program integrity. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ECE540

Integrating Art, Music, Creativity in ECE

Art, drama, music, and movement curriculum content as well as strategies and techniques for involving children in aesthetic experiences. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18ECE551

Integrating Math

Mathematics content and methods study for primary grades. Includes strategies for creating learning environments and experiences for optimal mathematics learning. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18ECE560

Integrating Social Studies in ECE

Social Studies content and methods study for kindergarten and primary grades. Includes strategies for creating a social studies-rich learning environment. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18ECE570

Integrating Science in ECE

Science content and methods study for primary grades. Includes strategies for creating learning environments and experiences for optimal learning of science content and the scientific process. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18ECE572

Independent Study in Early Childhood Education

Independent work for Early Childhood Education majors. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-6.00

18ECE575

Opening School Experience

Beginning field placement in the primary grades. Full days M-F, August and September. By application only. BoK: DC. Credit Level: U. Credit Hrs: 2.00

18ECE576

Primary Practicum

Practicum designed to experience and apply methods for teaching grades 1 through 3. Monday, Tuesday, Thursday. BoK: DC. Credit Level: U. Credit Hrs: 3.00

18ECE577

Early Childhood Education Internship

Full day Internship in grades 1 through 3. BoK: DC. Credit Level: U. Credit Hrs: 12.00

18ECE580

Curriculum in ECE

This seminar explores the origin of curriculum, evaluation of what is taught when to whom, and the nature of curriculum. BoK: DC. Credit Level: U. Credit Hrs: 3.00

18ECE582

Senior Seminar

Part of the capstone experience in Early Childhood Education, students reflect on practice and explore issues related to the profession of early childhood education. BoK: DC. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Early Childhood Education

18ECE632

Internship II: Early Childhood Education

A full year, part-time teaching experience in a professional practice school or site. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00-7.00

18ECE633

Intern III: Early Childhood Education

Third quarter of Internship in primary grades in a professional practice or professional development school. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00-12.00

18ECE672

Kindergarten Education

Investigation into the physical, social, emotional, and cognitive development of kindergarten-age children with an emphasis on an integrated, inclusive setting. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18ECE673

Administration and Supervision in Early Childhood Education

Processes, skills, and problems of administration and supervision for those in leadership roles in early childhood education. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18ECE674

ECE Special Topics

This course will provide special education personnel with a thorough understanding of the tenets of preschool education philosophy, curriculum, and instruction for all children. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-9.00

18ECE676

Practicum/Intern Early Childhood Education

Graduate level field experience for non-majors. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-12.00

18ECE681

Integrated Curriculum in Early Childhood Education

An integrated, differentiated approach to teaching K-3 grades with an emphasis on problem-solving and application of knowledge to real-life situations. BoK: NA. Credit Level: G, U. Credit Hrs: 3.00

18ECE710

Young Learners with Disabilities

Developmental patterns of specific disabilities and designing IEP's and supports for young children with disabilities and their families. Credit Level: G. Credit Hrs: 3.00

18ECE755

Contexts of Early Intervention

Foundation for understanding different contexts in early intervention, including ecological, sociopolitical, funding, culture, and family, in relation to settings such as a hospital, home, public and private centers, schools, and community agencies. Credit Level: G. Credit Hrs: 3.00

18ECE762

Static Web Programming for Educators

This course covers how to create education-based web pages in HTML and store them on a webserver. Credit Level: G. Credit Hrs: 3.00

18ECE770

Survey of Early Childhood Education

Developmentally-based philosophy of early childhood education, history, types of programs, and basic ECE curriculum. Credit Level: G. Credit Hrs: 3.00

18ECE771

Workshop ECE

Graduate level topical workshop. Credit Level: G. Credit Hrs: 1.00-9.00

18ECE772

Early Childhood Education Laboratory and Seminar

Practicum experience in early childhood centers, five half-days each week plus seminar. Credit Level: G. Credit Hrs: 2.00-6.00

Early Childhood Education

18ECE773

Documenting Children's Learning and Development

Techniques for observing and recording linguistic, emotional, social, physical, and cognitive behaviors of normal and exceptional children. Credit Level: G. Credit Hrs: 3.00

18ECE774

Social Competence in Early Childhood Settings

Investigation of strategies and techniques used by teachers to guide children to engage in acceptable behaviors in the early childhood classroom. Emphasis is on the theory underlying practice. Credit Level: G. Credit Hrs: 3.00

18ECE775

Constructivism in Education

This course examines the theoretical foundation and practical implications of the constructivist educational perspective. Focus is on the theories of Piaget and Vygotsky. Credit Level: G. Credit Hrs: 3.00

18ECE776

Curriculum Analysis in Early Childhood Education

A theoretical and practical investigation of curriculum planning for early childhood programs. Credit Level: G. Credit Hrs: 3.00

18ECE777

Trends and Issues in Early Childhood Education

Controversial areas and new directions in early childhood education; legislation, social change, and future expectations. Focuses on the role of the child advocate. Credit Level: G. Credit Hrs: 3.00

18ECE778

Child Development Theory and Research

Discussion of selected problems in early childhood education. Credit Level: G. Credit Hrs: 3.00-9.00

18ECE779

Thesis/Project Guidance

Individual guidance for Early Childhood Education graduate students who are working on a culminating experience in the master's degree program. Credit Level: G. Credit Hrs: 1.00-15.00

18ECE780

Team Models in Early Intervention

A foundation for understanding early intervention team models, including team building, group asset development, communication, and leadership, specific to early intervention. Credit Level: G. Credit Hrs: 3.00

18ECE781

Evidenced-Based Practices in Early Intervention

Methods and management techniques in providing appropriate developmental experiences for children with disabilities in groups of typically developing children. Credit Level: G. Credit Hrs: 3.00

18ECE782

Play and Development

Review theories and research on play and the relationship to child development. Examine issues related to the interface of children's play and the early childhood classroom. Credit Level: G. Credit Hrs: 3.00

18ECE855

Early Intervention Internship

An experience with young children with disabilities, birth through five years of age. Interns are placed in community agencies, early programs, and programs for preschool children with disabilities. Credit Level: G. Credit Hrs: 3.00-15.00

18ECE871

Independent Study in Early Childhood Education

Independent work for students in the area of early childhood education. Credit Level: G. Credit Hrs: 1.00-15.00

18ECE872

Readings in Early Childhood Education

Special readings for students who wish to do in-depth exploration of an

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

area in early childhood education. Credit Level: G. Credit Hrs: 1.00-6.00

18ECE876

Practicum/Internship in Early Childhood Education

An Internship which is individually planned and designed for selected students in the ECE master's degree program and for students in other master's and doctoral programs. Credit Level: G. Credit Hrs: 5.00-10.00

Educational Leadership

18EDLD601

Interpersonal Communications

Teachers and administrators develop communication skills to improve their communications with students, the community, and each other. Special scheduling: Administrator Development Academy. Consult program. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00-3.00

18EDLD736

Foundations of Educational Administration

Three-quarter sequence of learning activities designed to develop competencies necessary for entry-level administrative positions. Special scheduling: Administrator Development Academy. Consult program. Credit Level: G. Credit Hrs: 1.00-4.00

18EDLD737

Foundations of Educational Administration

See 18EDLD736. Special scheduling: Administrator Development Academy. Consult program. Prereq: 18EDLD736. Credit Level: G. Credit Hrs: 1.00-4.00

18EDLD738

Foundations of Educational Administration

See 18EDLD736. Special scheduling: Administrator Development Academy. Consult program. Prereq: 18EDLD737. Credit Level: G. Credit Hrs: 1.00-4.00

18EDLD739

Supervision of Instruction

Analysis of historical perspectives of supervision and the contextual and organization theories that define the workplace. Application of skills, strategies, and individual perspectives for restructuring/reinventing education through the development of new visions of supervision. Credit Level: G. Credit Hrs: 4.00

18EDLD743

Computer Applications in School Administration

Experience in developing effective school management strategies through the use of microcomputer technology. Credit Level: G. Credit Hrs: 3.00

18EDLD772

Understanding Educational Organizations

Study of organizational theories and their application in education. Credit Level: G. Credit Hrs: 3.00

18EDLD773

Collective Bargaining in Education

Process of communications, contracts, arbitration, conciliation, fact finding, good faith negotiations, grievance procedures, legal counsel, negotiation laws, sanctions, strikes, and roles of individuals. Credit Level: G. Credit Hrs: 3.00

18EDLD774

Principles of Curriculum Organization and Development

Comprehensive curriculum designs for learning experiences including philosophical, social, cultural, and psychological variables. Credit Level: G. Credit Hrs: 3.00

18EDLD775P

Understanding Educational Organizations: Licensure

This course is part of a nine-credit-hour sequence covering the attributes of school superintendency, educational organizations, and ethics. Students enrolled in this class are completing the requirements

College of Education, Criminal Justice, and Human Services Educational Leadership

18EDLD775P

Understanding Educational Organizations: Licensure

for superintendent licensure. Credit Level: G. Credit Hrs: 1.00-6.00

18EDLD776P

Collective Bargaining in Educational Administration

Course includes the process of communication, contracts, arbitration, conciliation, fact finding, good faith negotiations, grievance procedures, legal counsel, negotiation laws, sanctions, strikes, and roles of individuals. Credit Level: G. Credit Hrs: 3.00

18EDLD778

Educational Leadership

Educational leadership theory, research, and practice. Credit Level: G. Credit Hrs: 3.00-4.00

18EDLD780P

Educational Leadership: Licensure

This course is directed toward developing educational leadership in individuals who are preparing for superintendency licensure. Students will develop an understanding of leadership definitions and theories, assessment, research, practice, and training. Credit Level: G. Credit Hrs: 1.00-6.00

18EDLD782

Planned Field Experience I and Seminar in Educational Administration

Planned field experience to provide actual experience for individuals as required for licensure in Ohio. Credit Level: G. Credit Hrs: 4.00

18EDLD783

School Business Management

Administration of school business affairs. Credit Level: G. Credit Hrs: 3.00

18EDLD803

A Study of Change and Change Techniques

Change process theory, research, models, and practice. Credit Level: G. Credit Hrs: 3.00-4.00

18EDLD810

Innovations in Curriculum

Students will develop an understanding of curriculum innovations, sources of innovations, and the stages of planned change in implementing innovations. Credit Level: G. Credit Hrs: 3.00

18EDLD812

Data Use for School Improvement

Evaluation in this course is the process of seeking, analyzing, and interpreting information for use in directing the development, implementation, and improvement of educational/curriculum programs. Credit Level: G. Credit Hrs: 3.00-4.00

18EDLD814

Program Evaluation

A review of the conceptual and technical skills in program evaluation for improved educational decision making. Credit Level: G. Credit Hrs: 3.00

18EDLD815P

Program Evaluation

Course is designed as an in-depth exploration of a variety of approaches to program evaluation. Class will focus on uses of evaluation methods to improve organizational performance, including aspects of change processes, curricula, training programs, and ongoing improvement and accreditation. Credit Level: G. Credit Hrs: 3.00

18EDLD816

Educational Policy Analysis

Methods and techniques of educational policy analysis and the application of analytical tools. Credit Level: G. Credit Hrs: 3.00

18EDLD850

LGBTQ Issues and Educational Leadership

This course explores multiple theoretical frame- works regarding identity and sexuality and their applications for educational leadership Credit

H=University Honors course.

18EDLD850

LGBTQ Issues and Educational Leadership

Level: G. Credit Hrs: 3.00

18EDLD870

Women in Educational Leadership

Competencies for women in educational leadership. Credit Level: G. Credit Hrs: 3.00

18EDLD871

Individual Study in Educational Administration

Individual research on a problem of administration. Credit Level: G. Credit Hrs: 1.00-6.00

18EDLD874

Personnel Administration

An in-depth study of personnel functions including hiring, employment, and withdrawal phases. Prereq: 18EDLD738. Credit Level: G. Credit Hrs: 3.00-4.00

18EDLD875

Administration of Pupil Services

Consideration of the learner population and their needs, problems, rights, and expectations. Prereq: 18EDLD738. Credit Level: G. Credit Hrs: 3.00-4.00

18EDLD877

Community and Educational Process

Study of the relationships of educational organizations and the broader community and new conceptualizations of community. Prereq: 18EDLD738. Credit Level: G. Credit Hrs: 3.00

18EDLD878

Fiscal Aspects of Education

An analysis of the financial support and business procedures in educational institutions. Prereq: 18EDLD738. Credit Level: G. Credit Hrs: 3.00-4.00

18EDLD879

Educational Facilities

Educational specifications, design, and construction processes as related to the administrator's responsibilities. Credit Level: G. Credit Hrs: 3.00-4.00

18EDLD880

School Law

Case law is used to focus on the operation of schools and constitutional issues. Credit Level: G. Credit Hrs: 3.00-4.00

18EDLD881P

Educational Facilities Licensure

Course covers educational specifications, design, and construction processes as related to the administrator's responsibilities. Credit Level: G. Credit Hrs: 3.00

18EDLD882

Planned Field Experience II

A second-level planned field experience for those seeking certification as an administrator. Credit Level: G. Credit Hrs: 4.00

18EDLD883

Seminar: Staff Development

Examination of staff development models and activities. Credit Level: G. Credit Hrs: 3.00

18EDLD885

Economics of Education

Examination of important relationships between education and the economy. Credit Level: G. Credit Hrs: 3.00

18EDLD890

Budgeting, Appropriating, and Accounting

Budgeting, appropriating, and accounting procedures in schools. Credit Level: G. Credit Hrs: 3.00

Educational Leadership

18EDLD893

Special Program Administration

This is a broad designation for a topic selected by the professor. Consult specific program via announcement from the listed instructor. Credit Level: G. Credit Hrs: 1.00-4.00

18EDLD894

Ethics and Educational Leadership

This course is designed to introduce you to a variety of theories of ethical thought and their relationship to educational leadership. Credit Level: G. Credit Hrs: 3.00

18EDLD894P

Ethics of Educational Leadership: Licensure

This course is part of a nine-credit-hour sequence covering the attributes of school superintendency, educational organizations, and ethics. Students enrolled in this class are completing the requirements for superintendency licensure. Credit Level: G. Credit Hrs: 1.00-6.00

18EDLD895

Board Relations

For educators who work with nonprofit boards of control. Credit Level: G. Credit Hrs: 3.00

18EDLD896P

Board Relations: Licensure

School Board Relations is structured around the understanding of roles and responsibilities, both of the superintendent and the school board, and the forces of the environment that impact school boards and the board-superintendent relations. Students in this class are completing the requirements for superintendency licensure. Credit Level: G. Credit Hrs: 1.00-6.00

18EDLD932P

Internship I: Licensure

This planned field experience is designed for educational administrators who are completing the requirements for licensure for superintendent positions. The student is required to secure a district site and cooperating, licensed, practicing district-level administrator. Credit Level: G. Credit Hrs: 1.00-6.00

18EDLD933P

Internship II: Licensure

This planned field experience is designed for educational administrators who are completing the requirements for licensure for superintendent positions. The student is required to secure a district site and cooperating, licensed, practicing district-level administrator. Credit Level: G. Credit Hrs: 1.00-6.00

18EDLD950

Superintendency

This course is to increase student understanding of the complexity of leading in the contemporary environment. To provide insights in the everyday world of individuals in this role to provide opportunity for knowledge, skill & attitude development to prepare the student in leadership. Credit Level: G. Credit Hrs: 3.00

18EDLD951P

Superintendency: Licensure

This course is the first of a nine-credit-hour sequence covering the attributes of school superintendency, educational organizations, and ethics. Students enrolled in this class are completing the requirements for superintendency licensure. Credit Level: G. Credit Hrs: 1.00-6.00

18EDLD973

Individual Dissertation Guidance

Hours and credits to be arranged. Credit Level: G. Credit Hrs: 1.00-15.00

Educational Studies

18EDST201

Schooling and Teaching in America

This course explores teaching in the United States with attention to

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

standards-based education and reform; professionalization of teaching; diversity; democratic purposes of public schooling; educational inequities and social justice; curriculum and instruction; and legal, organizational, and political issues in education. BoK: HP., DC. Credit Level: U. Credit Hrs: 4.00

18EDST275**Human Learning and Development in Education**

This course examines the complex phenomena of learning, motivation, and human development, and how teachers can apply this knowledge in their practices. Major theories are covered on behaviorism, cognitive and social influences, motivation, and other factors affecting development across the lifespan. Emphasis is on knowledge of learners, including individual differences and multiple intelligences; exceptionalities; language acquisition; and home and community influences. Also covered are various pedagogical approaches that recognize developmentally appropriate pedagogical knowledge, assessment, and classroom management techniques. BoK: NA. Credit Level: U. Credit Hrs: 4.00

18EDST301**Human Development**

Physical, cognitive, social-emotional, and personality development of children up to six years. Prereq: 15PSYC101. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18EDST302**Human Development**

Physical, cognitive, social-emotional, and personality development through middle childhood and adolescence. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18EDST303**Human Development**

Developmental characteristics through young adulthood to old age. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18EDST426**Social Inequalities and Schooling**

Course explores social inequalities in the practice of education and contemporary approaches for achieving social equity. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

18EDST575**Independent Study**

Special topics in educational foundations on an individual basis. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18EDST631**Human Learning Seminar: Secondary**

Introduction to analysis of learning in cognitive psychology; conceptual frameworks for understanding individual learners. Coreq: 18SEC511. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

18EDST633**Classroom Assessment and Evaluation**

Students will use performance-based and classroom assessment techniques to determine how well students are learning. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18EDST675**Human Learning**

Theories of school learning and instruction and their application to classroom teaching. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

18EDST680**Education and Sex-Role Stereotyping**

The nature of sex-role stereotyping and ways to reduce bias in education. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

Educational Studies**18EDST681****Seminar on Peace Education**

A seminar for students of peace education. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

18EDST682**Conflict Resolution**

Surveys the theories and practices of conflict resolution utilized in educational settings. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

18EDST683**Peace Education and Popular Culture**

Establishes a dialogue among teachers utilizing popular culture in the development of values of peace and justice among students. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

18EDST684**Liberation Philosophy**

An overview of the perspectives of liberation philosophy and theology including feminist, African-American, Hispanic, Asian, and Latin American orientations. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

18EDST690**Introduction to Peace Education**

A survey of issues in peace education approached from interdisciplinary perspectives. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

18EDST691**General Mediation**

The course provides students with the sufficient theoretical grounding and skills to enable them to function as facilitators in the mediation process and to administer peer mediation programs. BoK: SE. Credit Level: G, U. Credit Hrs: 3.00

18EDST692**Cooperative Discipline**

The course provides teachers with a specialized body of theory and skills to enable them to create a classroom climate which will prevent many discipline problems. BoK: SE. Credit Level: G, U. Credit Hrs: 3.00

18EDST693**Alternatives to Violence**

This survey of the historical, social, and psychological perspectives on non-violent alternatives to conflict resolution provides students with a sufficient theoretical grounding and set of skills to enable them to facilitate the non-violent resolutions of conflicts. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

18EDST685P**Seminar in Violence Prevention**

Seminar for students interested in Peace Education, with an emphasis on theories and skills related to violence prevention. Credit Level: G. Credit Hrs: 3.00

18EDST686P**Peace Education and Media Literacy**

This course establishes a dialogue among teachers utilizing popular culture in the development of values of peace and justice among students. Credit Level: G. Credit Hrs: 3.00

18EDST694P**Students' Creative Response to Conflict**

Survey of historical, social, and psychological perspectives on non-violent alternatives to conflict resolution, with a focus on students. Credit Level: G. Credit Hrs: 3.00

18EDST695P**Introduction to Cooperative Discipline**

This course provides teachers with a specialized body of theory and skills which enables them to prevent discipline problems. Credit Level: G. Credit Hrs: 3.00

18EDST696P**Mediation for Classroom Teachers**

This course provides students with theoretical grounding and skills to

H=University Honors course.

Educational Studies

18EDST696P

Mediation for Classroom Teachers

enable them to function as facilitators in the mediation process and to administer peer mediation programs. Credit Level: G. Credit Hrs: 3.00

18EDST701

Politics of Education

Development of educational policy at the local, state, and national levels. Credit Level: G. Credit Hrs: 3.00

18EDST710

Introductory Statistical Methods

This course introduces fundamental techniques of data analysis and statistical inference, including descriptive statistics, t-tests, and correlation commonly used in the educational and behavioral sciences. Credit Level: G. Credit Hrs: 3.00

18EDST711

Intermediate Statistical Methods

This course covers essential techniques of data analysis and statistical inference, including ANOVA, ANCOVA, simple regression, and nonparametric tests commonly used in the educational and behavioral sciences. Credit Level: G. Credit Hrs: 3.00

18EDST721

Measurement and Assessment

Fundamentals of designing, developing, and evaluating data collection tools for research instrumentation and large-scale assessment. Credit Level: G. Credit Hrs: 3.00

18EDST735

Human Development: Early Childhood

Addresses human development from birth through age six. Credit Level: G. Credit Hrs: 3.00

18EDST736

Human Development: Middle Childhood

Addresses human development from age six through age twelve. Credit Level: G. Credit Hrs: 3.00

18EDST737

Human Development: Adolescence

Addresses human development from puberty through the end of adolescence. Credit Level: G. Credit Hrs: 3.00

18EDST738

Human Development: Adulthood

Addresses the developmental tasks of early and middle adulthood. Credit Level: G. Credit Hrs: 3.00

18EDST739

Human Development: Aging

Developmental tasks of the later years of life. Credit Level: G. Credit Hrs: 3.00

18EDST740

Adult Relationships

Seminar for advanced students in human development. Different topics selected each term; i.e., intimacy, work relationships, friendship. Grading: Pass/Fail. Credit Level: G. Credit Hrs: 3.00

18EDST745

Educational Sociology

Analysis and critique of schooling as an institution from a wide array of theoretical perspectives. Credit Level: G. Credit Hrs: 3.00

18EDST747

Social Theories in Education

Historical overview of classical, interpretive, and contemporary social theories in education. Credit Level: G. Credit Hrs: 3.00

18EDST750

Classroom-Based Action Research and Reflective Practice

Introduction to the practice of educational action research. Credit Level: G. Credit Hrs: 3.00

Educational Studies

18EDST755

Introduction To Research Methodology

Overview of the research process from problem formulation, literature review, research design, and data analysis to report writing. Credit Level: G. Credit Hrs: 3.00

18EDST762

Women, Culture, and Education

Issues of gender in learning and schooling from a cross-cultural perspective. Prereq: 15ANTH102. Credit Level: G. Credit Hrs: 3.00-4.00

18EDST771

Philosophy of Education

A survey of major philosophical issues in education. Credit Level: G. Credit Hrs: 3.00

18EDST775

Lifespan Human Development

Presents lifespan human development from a counseling perspective. Credit Level: G. Credit Hrs: 3.00

18EDST777

History of Education

History of education in American society. Credit Level: G. Credit Hrs: 3.00

18EDST778

Cultural Differences

Cross-cultural perspectives on the study of learning and schooling. Credit Level: G. Credit Hrs: 3.00

18EDST779

Appalachian Migrants in Urban Schools

Migratory patterns from rural to urban settings and effects on area schools. Credit Level: G. Credit Hrs: 2.00-3.00

18EDST785

Learning in Groups

Contemporary research and theory related to learning in groups in classroom settings. Credit Level: G. Credit Hrs: 3.00

18EDST787

Self-Concept and Achievement

Relationship between feelings of self-worth and achievement; effects of teaching-learning environment. Credit Level: G. Credit Hrs: 3.00

18EDST788

Community and Environmental Influences on the Schools

Dynamics of urban education including nature-nurture controversy, race, gender, and class as structural constraints. Credit Level: G. Credit Hrs: 3.00

18EDST789

Socio-Cultural Issues in Child Development

Psychological and cultural-political implications of different theories of child development and forms of child rearing. Credit Level: G. Credit Hrs: 3.00

18EDST792

Cultural Diversity and Mental Health

Examines mental health practices appropriate to the needs of socially and culturally diverse populations. Credit Level: G. Credit Hrs: 3.00

18EDST799

Seminar in Teaching Foundations

Seminar for graduate teaching assistants in Educational Studies only. Credit Level: G. Credit Hrs: 1.00-6.00

18EDST800

Modes Of Inquiry

An examination of the dominant research paradigms in education. Credit Level: G. Credit Hrs: 3.00

18EDST802

Introduction to Field Methods in Educational Research

Introduction to and practice of qualitative methods for studies of

H=University Honors course.

Educational Studies**18EDST802****Introduction to Field Methods in Educational Research**

learning and schooling. Credit Level: G. Credit Hrs: 3.00-4.00

18EDST812**Intermediate Field Methods: Strategies for Data Collection**

Design, data collection, data management, and field relations in the qualitative research process. Credit Level: G. Credit Hrs: 3.00

18EDST814**Anthropology and Education**

Application of anthropological theory and method to the study of learning, schooling, and culture acquisition. Credit Level: G. Credit Hrs: 3.00-4.00

18EDST822**Advanced Field Methods: Qualitative Data Analysis**

Methods for data analysis, use of theory, analytical systems, and narrative in the production of field study reports. Credit Level: G. Credit Hrs: 3.00

18EDST825**Marxist Theories**

Review of the foundational place of classical Marxist analysis in the sociology of education and the Marxist basis of contemporary critical post-modernist work in the field. Credit Level: G. Credit Hrs: 3.00

18EDST826**Marxist Applications**

Addresses the work of scholars who have actually implemented classic Marxist theory in their research. Credit Level: G. Credit Hrs: 3.00

18EDST835**Cognition and Learning**

Introduction to cognitive science with an emphasis on human learning. Credit Level: G. Credit Hrs: 3.00

18EDST836**Cognition and Thought**

Designing integrated learning to address individual differences through learning models, such as multiple intelligences and learning styles, as ways to approach curriculum, instruction, and assessment. Credit Level: G. Credit Hrs: 3.00

18EDST837**Cognition and Development**

Comprehensive overview of origins and developmental change in children's thinking. Credit Level: G. Credit Hrs: 3.00

18EDST838**Cognition and Technology: Special Topics**

Exploration of a topic in the connection among cognition, technology, and education. Credit Level: G. Credit Hrs: 3.00

18EDST839**Cognition and Culture**

Combines the study of culture with an understanding of relevant cognitive processes and the challenge of studying cognition as embedded in a specific cultural context. Credit Level: G. Credit Hrs: 3.00

18EDST840**History of Higher Education**

A historical overview of American higher education, 1636 to the present. Credit Level: G. Credit Hrs: 3.00

18EDST845**History of African-American Education: 1619-1865**

Historical overview of the education of African-Americans during the epoch of slavery until 1865. Schooling on the plantations for the slaves as well as education for the free blacks in cities will be investigated. Credit Level: G. Credit Hrs: 3.00

Educational Studies**18EDST846****History of African-American Education: 1865 to the Present**

An historical overview of the education of African-Americans after emancipation and through the twentieth century. Credit Level: G. Credit Hrs: 3.00

18EDST848**Oral History**

Understanding and conducting oral history research. Credit Level: G. Credit Hrs: 3.00

18EDST850**Action Research Seminar I**

First in a three-course sequence of Cohort seminars designed to provide students with the theoretical and practical skills necessary to conduct action research in urban school and community settings. Credit Level: G. Credit Hrs: 3.00

18EDST851**Action Research Seminar II**

Second in a three-course sequence of Cohort seminars designed to provide students with the theoretical and practical skills necessary to conduct action research in urban school and community settings. Credit Level: G. Credit Hrs: 3.00

18EDST852**Action Research Seminar III**

Third in a three-course sequence of Cohort seminars designed to provide students with the theoretical and practical skills necessary to conduct action research in urban school and community settings. Credit Level: G. Credit Hrs: 3.00

18EDST855**Quantitative Research Methods I: Research Design**

First course in a three-quarter sequence focusing on developing a quantitative research proposal. Credit Level: G. Credit Hrs: 3.00

18EDST856**Quantitative Research Methods II: Data Collection**

Second course of a three-quarter sequence focusing on developing an instrument for collecting quantitative data. Credit Level: G. Credit Hrs: 3.00

18EDST857**Quantitative Research Methods III: Data Analysis and Report Writing**

Third course in a three-quarter sequence focusing on analyzing quantitative data and writing up a research report. Credit Level: G. Credit Hrs: 3.00

18EDST861**Guided Research Experience**

Pre-dissertation supervised research project. Credit Level: G. Credit Hrs: 1.00-6.00

18EDST871**Individual Study**

Individual study under contract with a faculty member. Credit Level: G. Credit Hrs: 1.00-12.00

18EDST873**Master's Thesis Project**

Culminating experience for master's students. Credit Level: G. Credit Hrs: 1.00-9.00

18EDST878**Multivariate Analysis Of Differences**

This course covers comparison techniques, including MANOVA, MANCOVA, repeated measures analysis, and discriminant analysis, that fall under the umbrella of multivariate methods in educational research and behavioral sciences. Credit Level: G. Credit Hrs: 3.00

18EDST879**Multivariate Analysis Of Relationships**

This course covers correlational techniques, including multiple

regression, canonical correlation, logistical regression, factor analysis, and categorical data analysis, that fall under the umbrella of multivariate methods in educational research and behavioral sciences. Credit Level: G. Credit Hrs: 3.00

18EDST880

Advanced Multivariate Analysis: Structural Modeling And Multilevel Modeling

This course introduces students to two advanced techniques, structural equation modeling and multilevel modeling, that fall under the umbrella of multivariate methods in educational research and behavioral sciences. Credit Level: G. Credit Hrs: 3.00

18EDST882

Quantitative Research Synthesis

Addresses the problem of the accumulation of evidence in scientific research through the use of quantitative methods for meta analysis and research synthesis. Credit Level: G. Credit Hrs: 3.00

18EDST886

Experimental Research

Design and analysis of simple and complex experimental studies, including randomized design, repeated-measure design, nested design, and mixed design. Credit Level: G. Credit Hrs: 3.00

18EDST901

Pro-Seminar in Educational Foundations

Required for all first-year doctoral students. Credit Level: G. Credit Hrs: 3.00

18EDST902

Pro-Seminar in Educational Foundations

See 18EDST901. Credit Level: G. Credit Hrs: 3.00

18EDST903

Pro-Seminar in Educational Foundations

See 18EDST901. Credit Level: G. Credit Hrs: 3.00

18EDST973

Individual Dissertation Guidance

Students work with adviser in the process of preparing a dissertation. Credit Level: G. Credit Hrs: 1.00-15.00

18EDST989

Seminar in Educational Research

Selected topics in educational research on social foundations, psychological foundations, and research methodology. Credit Level: G. Credit Hrs: 1.00-4.00

Elementary Education

18ELE729

Elementary Education: Future Alternatives

Investigation of issues and problems affecting elementary education of the future: alternative schools, programs, and paths. Credit Level: G. Credit Hrs: 3.00

18ELE731

Principles and Practices in Elementary Education

Examines contemporary practices and innovations in elementary school programs. Credit Level: G. Credit Hrs: 3.00

College of Education, Criminal Justice, and Human Services English as a Second Language

18ESL081

Basic Academic English

This course is designed to provide non-native speakers of English an opportunity to develop and practice basic skills needed to prepare for entrance into academic reading and writing courses. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18ESL090

Introduction to Academic Reading and Writing

This workshop course is designed to introduce non-native speakers of English to the skills required for successful academic reading and writing in preparation for 18ESL100. BoK: NA. Credit Level: U. Credit Hrs: 6.00

18ESL100

Academic Reading and Writing Strategies

This course is designed for non-native speakers of English who need to improve their academic reading and writing skills in preparation for freshman English. BoK: NA. Credit Level: U. Credit Hrs: 6.00

18ESL601

Communication and Listening Skills

This course is designed to assist non-native English speaking students to further develop their conversational English fluency. It focuses primarily on perfecting the vocabulary and fluency necessary to execute speech acts that are basic to everyday conversation and also touches on intonation, emphasis, and reductions. Prereq: OEPT, Placement Test, or Permission of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18ESL602

Speaking/Listening Skills I

The goals of this course are to increase oral fluency and to improve listening comprehension in both academic and everyday conversation. Students will work on improving their recognition and use of idiomatic English while participating in class discussions, as well as express opinions, debate, and negotiate conversation. Content information will be provided through lecture, readings, discussion, role-play, interviews and observations for the purpose of learning oral communication skills that include both speaking and listening. Prereq: 18ESL601, OEPT, Placement Test, or Permission of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18ESL603

Speaking/Listening Skills II

This class will assist students achieving intermediate academic listening and speaking skills. Students will enhance their skills in giving presentations, debates, and class discussion. Students will demonstrate critical thinking skills through negotiation, expression of opinions and speech persuasion. Students will broaden their academic vocabulary through the exploration of collocations and idioms. Aspects of American culture, especially university culture, will be covered as well. Prereq: 18ESL602, OEPT, Placement Test, or Permission of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18ESL604

Oral Presentation Skills

The goals of this course are to develop the academic presentation skills necessary for teaching and presenting in graduate seminars or professional meetings. Students will learn techniques for audience analysis, selection and organization of materials, developing and supporting arguments, dealing with questions, and effective oral delivery. Several videotaped oral presentations are required. Prereq: 18ESL603, OEPT, Placement Test, or Permission of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18ESL605

Improving Pronunciation

Improving Pronunciation is a classroom-based course that focuses on comprehensible articulation of vowels and consonants as well as the rhythm, stress and intonation of North American English speech. This course should be taken by students who are already fluent in English, but who want to improve their pronunciation skills for more effective

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

English as a Second Language**18ESL605****Improving Pronunciation**

communication through practice activities that include speech/sound analysis, dialogue generation, role-play, and simulation and ethnographic assignments. Prereq: OEPT, Placement Test, or Permission of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18ESL606**American Culture and Communication**

This course will focus on the cultural aspects of verbal and non-verbal behavior, values, and communication styles while developing effective communication patterns in professional and pre-professional settings. Prereq: 18ESL603, OEPT, Placement Test, or Permission of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18ESL607**Strategies for Academic Success**

This course is designed to enhance student skills utilizing techniques for effective listening, note-taking strategies, reading, and writing skills for studying. In addition, it will introduce the student to the expectations of the American classroom culture. Prereq: OEPT, Placement Test, or Permission of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18ESL608**Editing Skills for ESL Writers**

This course is designed for international graduate students who need to improve their writing skills in order to become competent in basic academic English in the style commonly accepted in American universities. At the end of the course the students will be able to recognize and use vocabulary and grammatical structures common in academic writing and to produce texts employing a variety of modes of discourse. Prereq: Placement Test or Permission of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18ESL609**Introduction to Academic Writing**

This course serves as a continuation of 18ESL608 and is designed to familiarize students with the basic genres of academic writing seen across the disciplines and the modes of discourse that often characterize the writing in these genres. Students will be responsible for producing three major writing assignments: an Abstract, a Research Plan, and a Literature Review, all of which will draw on authentic models from the specific disciplines of class members. Several shorter papers will also be required through which students will become more familiar with some of the modes of discourse which inform various types of academic writing: summary, extended definition, process, critique, and synthesis. Many class periods will be conducted in a workshop format, and students will be expected to share their own works in progress as well as contribute thoughtfully and constructively on the works of their peers. Prereq: 18ESL608, Placement Test, or Permission of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18ESL610**Academic Writing for International Students**

This workshop course is designed to assist non-native speakers of English to recognize, analyze, and use academic criticism practices in discipline-specific research articles. Using texts from the student's courses, this reading and writing workshop will focus on the analysis of various genres present in their discipline, thus raising awareness of the generic features used by authors in different contexts. Acquiring this knowledge will enable students to manipulate the language features in their field in order to develop a portfolio of practical approaches to reading and writing. Prereq: 18ESL609, Placement Test, or Permission of Instructor. Prereq: 18ESL609. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18ESL710**Teaching Skills for International TAs**

This course is designed to assist International Teaching Assistants (ITAs) to acquire, improve, and practice the skills they need for success in their instructional duties. The course focuses on the American educational system, teaching skills, and classroom language use from

English as a Second Language**18ESL710****Teaching Skills for International TAs**

pronunciation to pragmatics. Prereq: 18ESL603, OEPT, Placement Test, or Permission of Instructor. Credit Level: G. Credit Hrs: 3.00

Health, Fitness and Leisure Studies**18HFL146****Tennis I**

Introduction to tennis skills. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HFL152**Weight Training**

Provides a basic understanding of weight training including safe equipment use, lifting and spotting fundamentals, selection, and program design. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HFL153**Physical Conditioning**

Basic skills for improving cardiovascular fitness, strength, and flexibility. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HFL155**Handball**

Beginning skills and rules for handball. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HFL156**Racquetball**

Basic skills of racquetball. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HFL157**Self Defense**

An overview of a variety of techniques for personal self defense. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HFL164**Yoga: Stress Management**

Stress management through yoga. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HFL167**Tai Chi Chuan**

Introduction to the basic practice of Tai Chi Chuan. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HFL171**Water Aerobics**

Water resistance exercise routines set to music. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HFL172**Swimming I**

Swimming skills for beginners. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HFL175**Life Guarding**

Introduction to life saving skills. BoK: NA. Credit Level: U. Credit Hrs: 2.00

18HFL182**Group Fitness**

Aerobic activities, basic nutrition, and stress management for improving fitness and maintaining weight. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HFL191**Lifestyle Health and Fitness**

Knowledge and coping skills related to lifestyle health problems of stress, nutrition, exercise, and substance abuse. BoK: NA. Credit Level: U. Credit Hrs: 2.00

H=University Honors course.

Health, Fitness and Leisure Studies**18HFL192****Drug Education**

A basic introduction to substance abuse with emphasis on drugs and athletic performance. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HFL193**Weight Control**

Provides a basic understanding of weight control, including factors affecting body weight and information related to proper diet and exercise. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HFL194**Stress Management**

Provides a basic understanding of human stress including definitions, effects on the body, and a variety of techniques to help control stress levels. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HFL272**Swim Conditioning**

Techniques for improving or maintaining fitness levels through swimming. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HFL275**Water Safety Instruction**

Red Cross Water Safety Instructor course. Prereq: 18HFL175. BoK: NA. Credit Level: U. Credit Hrs: 2.00

18HFL284**Philosophy of Sports**

To provide a definition for the cultural institution of sports and an explanation of its place in society. This evaluation will be done with the aid of traditional philosophical analysis and theory, and will examine the concepts of sports and related conceptual issues, such as competition, winning, violence, heroism, and legend. Transfer Module. BoK: HU. Credit Level: U. Credit Hrs: 3.00

18HFL301**Social History of Baseball**

This course provides a historical and analytical study of a sport through social change and cultural assimilation. Issues such as urbanization, race and ethnicity, health and legal issues, educational policies, and the place of sport in society are discussed and defined. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18HFL302**Basketball Society**

This course provides an analytical study of basketball in society as part of the development of sport and recreation in America and sociocultural change. The focus is on basketball as part of the American educational process, community health, the urban environment, religious and ethnic groups, transglobalization of sport, gender, race, and other societal issues. BoK: SS. Credit Level: U. Credit Hrs: 3.00

Health Education**18HPE101****Introduction to Health Promotion**

Historical, theoretical, ethical, and philosophical foundations of health education, including an emphasis on roles, responsibilities, work settings, and future directions of the profession. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18HPE133**Personal Health Behavior**

Personal aspects of wellness, chronic and communicable disease. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18HPE134**Mental Health Issues**

Basics of mental health, sexuality, substance use and abuse, emotional self-help. BoK: SS. Credit Level: U. Credit Hrs: 3.00

Health Education**18HPE136****Community Health**

Introduces the science and art of maintaining, protecting, and improving the health of people through organized community efforts. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18HPE161**Prospective Applications in Athletic Training I**

Introduction to prophylactic injury prevention techniques for practice in the field of athletic training. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HPE162**Prospective Applications in Athletic Training II**

The application of injury management and screening techniques for the practice of athletic training. Prereq: 18HPE177, 18HPE161. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HPE171**Athletic Training Practicum I**

Application of psychomotor skills dealing with the prevention and management of physical activity and sports-related injuries. A review of emergency procedures, basic prophylactic taping/wrapping applications, equipment management, and other basic athletic training techniques. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HPE172**Functional Anatomy for Athletic Training**

The study of surface and musculoskeletal anatomy with an emphasis in palpation, motion, and function for athletic training. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HPE177**Introduction to Athletic Training**

An introduction to the profession of athletic training and related fields. Basic methods of prevention, recognition, management, and injury risks factors of physical activity and sports-related injuries. BoK: NS., SS. Credit Level: U. Credit Hrs: 3.00

18HPE178**Fundamentals of Athletic Training**

An introduction to clinical applications of athletic training techniques and recognition and management of physical activity and sports-related injuries. Will provide a basic understanding of the operation of an athletic training room, the operation of selected therapeutic modalities and rehabilitation equipment, and basic competencies in athletic training. Prereq: 18HPE177. BoK: NA. Credit Level: U. Credit Hrs: 2.00

18HPE196**First Aid: Personal Safety**

Basic first aid and CPR. Red Cross certification upon completion. BoK: NA. Credit Level: U. Credit Hrs: 2.00

18HPE201**Introduction to Health Promotion**

Historical, theoretical, ethical, and philosophical foundations of health education, including an emphasis on roles, responsibilities, work settings, and future directions of the profession. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18HPE241**Consumer Health**

Discusses the myriad of consumer-related health choices and how such choices ultimately affect the health of the community and individuals within the community. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18HPE271**Athletic Training Practicum II**

Application of head, cervical spine, and upper extremity evaluation techniques. Application of Level I Proficiencies in athletic training relating to management of injuries under the direction of an approved clinical instructor. The student will complete practical experience in athletic training at an approved clinical site. Prereq: 18HPE171. BoK: NA. Credit Level: U. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Health Education**18HPE272****Athletic Training Practicum III**

Application of lower extremity orthopedic evaluation techniques. Application of Level II clinical proficiencies in athletic training relating to injury recognition and management of the upper extremity, head, and cervical spine injuries to individuals involved in physical activity and sports under the direction of an approved clinical instructor. The student will complete practical experience in athletic training at an approved clinical site. Prereq: 18HPE271. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HPE273**Athletic Training Practicum IV**

Application of orthopedic evaluation techniques and management of upper and lower extremities. Application of Level II clinical proficiencies in athletic training relating to injury recognition and management of the lower extremity, pelvis, and lumbar spine injuries to individuals involved in physical activity and sports under the direction of an approved clinical instructor. The student will complete practical experience in athletic training at an approved clinical site. Prereq: 18HPE272, 18HPE278. BoK: NA. Credit Level: U. Credit Hrs: 2.00

18HPE276**First Aid and CPR Instructor**

Theory and pedagogy of teaching basic first aid and CPR. Red Cross instructor certification upon completion. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18HPE278**Sports Injury Evaluation I**

The study of injury pathology and sports injury assessment, recognition, and management routines for the upper extremities, head, and cervical spine. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18HPE279**Sports Injury Evaluation II**

The study of injury pathology and sports injury assessment, recognition, and management routines for the lower extremities, lumbar spine, and pelvis. Prereq: 18HPE278. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18HPE309**Fitness and Health**

Overview of exercise and fitness and their relationship to health. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18HPE310**Exercise Physiology**

Application of basic anatomy and physiology concepts to exercise. BoK: NS. Credit Level: U. Credit Hrs: 3.00

18HPE311**Assessment and Prescription**

Basic exercise assessment, prescription writing, and program implementation for apparently healthy individuals. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18HPE312**Exercise Leadership Practicum**

Field work with experienced exercise professionals to develop skills and experience in leading exercise. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

18HPE313**Methods & Applications of Strength & Conditioning Programs**

A theoretical and practical approach to various methods applied in the development and implementation of activity-specific strength and conditioning programs for physically active individuals and competitive athletes. Prereq: 18HPE378. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18HPE321**Chronic and Communicable Disease**

To provide an overview of the basic principles of communicable and noncommunicable diseases, with a strong focus on epidemiological indices. Emphasis will be on disease prevention and the role of health

Health Education**18HPE321****Chronic and Communicable Disease**

education. Prereq: 18HPE101, 18HPE133, 18HPE136. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18HPE330**Child and Adolescent Health**

Organization and planning of community programs for health protection and health maintenance of children and adolescents. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18HPE333**Health Promotion Program Planning and Development**

Provides requisite skills to conduct a community needs assessment and to plan effective health promotion programs in various settings. Develops the skills in Responsibility Areas I and II of Certified Health Education Specialists. Prereq: 18HPE548. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18HPE334**Implementing and Promoting Health Programs**

Provides requisite skills to design, promote, present, and implement health promotion programs consistent with specified program goals and objectives. Develops the skills in Responsibility Area III of Certified Health Education Specialists. Prereq: 18HPE333. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18HPE335**Health Care Delivery**

Organization, financing, and problems related to the health care system and the health needs of special groups. Prereq: 18HPE101. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18HPE350**Service Learning in Community Health**

Experience in delivering health education services through a community agency. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

18HPE371**Athletic Training Practicum V**

Application of general medical, thoracic spine, abdominal, and facial evaluation techniques. Application of Level II clinical proficiencies in athletic training relating to orthopedic evaluation techniques and management of upper and lower extremities for individuals involved in physical activity and sports under the direction of an approved clinical instructor. Students will complete practical experience in athletic training at an approved clinical site. Prereq: 18HPE273, 18HPE279. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HPE372**Athletic Training Practicum VI**

Application of therapeutic modality techniques. Application of Level III clinical proficiencies in athletic training relating to the recognition, evaluation, and management of general medical illnesses and conditions, thoracic spine, abdomen, and facial injuries for those involved in physical activity and sports under the direction of an approved clinical instructor. Students will complete practical experience in athletic training at an approved clinical site. Prereq: 18HPE371, 18HPE377. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HPE373**Athletic Training Practicum VII**

Application of therapeutic rehabilitation techniques. Application of Level III clinical proficiencies in athletic training relating to implementation of therapeutic modalities for individuals involved in physical activity and sports under the direction of an approved clinical instructor. Students will complete practical experience in athletic training at an approved clinical site. Prereq: 18HPE372, 18HPE378. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HPE375**First Aid and CPR Instructor**

Theory and pedagogy of teaching basis first aid and CPR. Red Cross instructor certification upon completion. Perm of Department. BoK: NA.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Health Education**18HPE375****First Aid and CPR Instructor**

Credit Level: U. Credit Hrs: 3.00

18HPE377**Advanced Topics in Sports Medicine**

Introduction to a core set of material as it pertains to: common medical illnesses, non-extremity injuries, and pharmacology. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18HPE378**Therapeutic Modalities for Sports Injuries**

Introduction to the rationale and application of therapeutic modalities used in the profession of athletic training for physical activity and sports-related injuries. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18HPE379**Rehabilitation of Sports Injuries**

Introduction to the theory and methodology of advance rehabilitation techniques for physical activity and sports injury rehabilitation. Prereq: 18HPE378. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18HPE419**Internship: Health Promotion**

Internship in a health program under supervision of a professional health educator. BoK: NA. Credit Level: U. Credit Hrs: 3.00-15.00

18HPE471**Athletic Training Practicum VIII**

Evaluation of clinical skills and knowledge to prepare for the BOC Test. Application of Level III/IV proficiencies in athletic training relating to implementation of rehabilitation and strength and conditioning programs for injuries to individuals involved in physical activity and sports under the direct supervision of an approved clinical instructor. The student will complete practical experience at an approved clinical site. Prereq: 18HPE373, 18HPE379. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18HPE476**Athletic Training Seminar**

A seminar concentrating on athletic training skill development for professional practice and examining current research and contemporary issues in athletic training. Application of Level III clinical proficiencies in athletic training relating to implementation of therapeutic modalities for individuals involved in physical activity and sports under the direction of an approved clinical instructor. Students will complete practical experience in athletic training at an approved clinical site. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 2.00

18HPE477**Administration of Sports Medicine Programs**

Administrative components, policies, procedures, and organizational patterns in various athletic training settings. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18HPE501**Lifestyle and Athletic Performance**

How to use lifestyle variables to improve athletic performance. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

18HPE507**Evaluation of Health and Fitness Programs**

Provides skills to plan and conduct evaluations of health promotion programs. Includes information on instrument development, data collection, basic data analysis, and report writing. Develops the skills in Responsibility Area IV of Certified Health Education Specialists. Prereq: 18HPE334. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18HPE548**Health and Human Behavior**

Explores why people adopt health behaviors and how these behaviors can be altered. A major emphasis is on health behavior theory. Prereq: 18HPE101. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

Health Education**18HPE549****Human Sexuality**

Explores physical, mental, and social aspects of sexuality with major emphasis on sexuality education and the role of health education in the sexuality education process. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

18HPE550**Health Issues**

Controversial issues in health promotion will be reviewed and openly discussed. This class is a student-led class. You will have the opportunity to actively participate and mold the class discussion each and every session. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18HPE551**Drugs and Society**

Examines drug use in American society and specific educational and community approaches to deal with the problem. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18HPE552**Environmental Health**

Review of primary environmental health problems and their impact on individuals and society, and the role of health educators in environmental health. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18HPE553**Minority Health Issues**

Study of health issues related to minority populations with special emphasis on their specific health needs and programs designed to meet those needs. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00

18HPE554**International Health**

This class introduces the student to the primary health conditions, environmental concerns, population issues, health delivery systems, and health cultures in the regions of the world. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18HPE555**Using Technology in Health Promotion**

The purpose of the course is to develop effective and efficient use of MS Office Tools and Web-Based resources for a variety of professional settings in the health promotion field. BoK: NA. Credit Level: G, U. Credit Hrs: 3.00

18HPE572**Independent Study**

Individual research on a health education problem for undergraduate students. May be repeated. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

18HPE601**Stress Reduction**

Examination of individual and organization sources of stress and techniques for the management and reduction of stress. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18HPE611**Kinesiology**

Motor skills used in physical activity applied to effective movement. Prereq: 15BIOL202, 18HPE310. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18HPE633**Aging: Program Development**

Development of program design skills for senior health and social services. Prereq: 18HPE310, 18HPE548. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18HPE673**Workshop Health Education**

Special, unique, experimental, or topical classes that are scheduled on an as-needed basis. Consult department for current topics and prerequisites. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-12.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Health Education**18HPE673****Workshop Health Education**

Special, unique, experimental, or topical classes that are scheduled on an as-needed basis. Consult department for current topics and prerequisites. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-12.00

18HPE684**Health in the Middle School**

Develop a program of health instruction for middle school students. BoK: NA. Credit Level: G, U. Credit Hrs: 3.00

18HPE685**Women's Health Seminar**

A seminar introducing students to poignant physical, emotional, social, and political issues affecting women's health in today's world. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18HPE701**Principles and Foundations of Health Promotion and Education**

Historical, theoretical, ethical, and philosophical foundations of health education, including an emphasis on roles, responsibilities, and work settings of master's level health educators. Future directions of the profession and graduate level professionals are also discussed. Credit Level: G. Credit Hrs: 3.00

18HPE702**Health Promotion Program Planning**

Requisite skills to conduct needs assessments, plan, implement, and evaluate health education programs in a variety of settings. Credit Level: G. Credit Hrs: 3.00

18HPE703**Community Organization and Mobilization**

This course will enable students to: 1) identify communities; 2) organize community members and agencies for the purpose of assessing needs, goal setting, implementing plans to address community needs, and evaluating these efforts; and 3) empower individuals within the community to take action. Credit Level: G. Credit Hrs: 3.00

18HPE704**Current Topics in Nutrition Education**

An examination of current information and trends in nutrition education for health education professionals. Credit Level: G. Credit Hrs: 3.00

18HPE731**Promoting Health Promotion Programs**

Current research in program planning and diffusions research with implications for marketing promotion. Credit Level: G. Credit Hrs: 3.00

18HPE732**Health Promotion Program Management**

Application of basic management concepts to health promotion. Credit Level: G. Credit Hrs: 3.00

18HPE751**Analysis of Health Indices**

Basic epidemiology with practical application of the principle measures of health status and epidemiology. Credit Level: G. Credit Hrs: 3.00

18HPE761**Physiology of Exercise**

Application of exercise physiology concepts to health and training. Credit Level: G. Credit Hrs: 3.00

18HPE762**Graded Exercise Testing**

ECG interpretation and principles of cardiovascular exercise testing for low- and high-risk individuals. Prereq: 18HPE761. Credit Level: G. Credit Hrs: 3.00

18HPE763**Fitness Evaluation and Exercise Prescription**

Fitness testing, writing exercise prescriptions, and implementing exercise programs for low- and high-risk individuals. Prereq: 18HPE762. Credit Level: G. Credit Hrs: 3.00

Health Education**18HPE764****Issues in Exercise Physiology**

An examination of current research trends and issues related to the field of exercise physiology. Credit Level: G. Credit Hrs: 3.00

18HPE781**Social and Behavioral Change in Public Health**

Course content will include concepts and methods of social and behavioral sciences relevant to the identification and solution of public health problems. Emphasis will be on theories and models of behavioral sciences that are used in health promotion. Credit Level: G. Credit Hrs: 4.00

18HPE782**Resource Development and Fundraising**

Techniques and skills for identifying sources of funding and developing proposals for external resources will be explored. Credit Level: G. Credit Hrs: 3.00

18HPE788**Pre-Research Seminar**

A seminar course to examine and critique current health education research with a focus on helping students to identify research topics they may be interested in studying for their theses. Credit Level: G. Credit Hrs: 1.00

18HPE789**Research Methods for the Health Sciences**

Survey of research methods and designs used in health/physical fitness/nutrition research, with a strong emphasis on thesis/dissertation proposal development. Credit Level: G. Credit Hrs: 3.00

18HPE791**Statistics for the Health Sciences**

Descriptive statistics used in biomedical and health education investigations. Credit Level: G. Credit Hrs: 3.00

18HPE802**Internship, Health Promotion, and Education**

Practical development and implementation of health programs in a community setting. Credit Level: G. Credit Hrs: 3.00-12.00

18HPE861**Health Education in Academia**

To assist doctoral-level health education students learn about the expectations of academic faculty-level positions and provide strategies for obtaining faculty positions and succeeding in academia. Credit Level: G. Credit Hrs: 2.00

18HPE862**Philosophy and Ethics of Health Education**

An exploration of philosophical and ethical issues surrounding health, health education, and health care in the United States. Case studies will be presented involving the AAHE/SOPHE Code of Ethics. Credit Level: G. Credit Hrs: 3.00

18HPE863**Health Communication**

This course provides students with an in-depth understanding of how communication and health decisions/behaviors affect each other. Health communication theory, conceptual frameworks, strategies, and practical issues related to health promotion and education professional practices are addressed. Credit Level: G. Credit Hrs: 3.00

18HPE865**Health Counseling**

An introduction to the counseling skills and theories used when working with clients in health education and health care settings. Credit Level: G. Credit Hrs: 3.00

18HPE871**Individual Study in Health**

Individual research in health. For advanced students. May be repeated. Credit Level: G. Credit Hrs: 1.00-3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Health Education**18HPE872****Readings in Health**

Program of readings in research contributions in health. For advanced students. Credit Level: G. Credit Hrs: 1.00-3.00

18HPE880**Reading and Analyzing Health Education Research**

This course will enable students to critique research in health promotion and education by identifying strengths and weaknesses of research design, understanding statistical methods, proper interpretation of statistical results, and recognizing the practical significance of research. Credit Level: G. Credit Hrs: 3.00

18HPE881**Conducting Research with Vulnerable and Minority Populations**

This new course is designed to provide Health Promotion and Education PhD students with knowledge on the intricate and structured process of making research methodologies applicable and relevant when conducting studies with vulnerable populations. The course focuses on proven strategies, theories, and current practices in bridging the gap between mainstream research methodology and the needs and rights of special populations. Prereq: 18HPE789. Credit Level: G. Credit Hrs: 3.00

18HPE882**Survey Research**

Overview of effective survey research methods in health education. Topics include survey design, implementation, sampling, data collection, response rate enhancement, survey data analysis, and research ethics. Prereq: 18HPE789. Credit Level: G. Credit Hrs: 3.00

18HPE883**Measurement in Health Education**

Different measurement instruments in health education will be examined and critiqued. A major focus will be given to the skills necessary to develop new measurement instruments. A context of program evaluation will be utilized. Credit Level: G. Credit Hrs: 3.00

18HPE890**Writing for Publication I**

This course will help students learn about the publishing process and prepare a first draft of an article based on their thesis research. Topics will include the publishing process, selecting a journal, and following publication guidelines. Prereq: 18HPE891. Credit Level: G. Credit Hrs: 1.00

18HPE891**Master's Thesis - Health Promotion and Education**

Research supervised by departmental committee. Credit Level: G. Credit Hrs: 9.00

18HPE892**Master's Project -- Health Promotion and Education**

Independent or group study on an approved topic with practical application to health education. Credit Level: G. Credit Hrs: 3.00-6.00

18HPE990**Writing for Publication II**

This course will help students learn about the publishing process and prepare a first draft of an article based on their dissertation research. Topics will include the publishing process, selecting a journal, and following publication guidelines. Prereq: 18HPE991. Credit Level: G. Credit Hrs: 1.00

18HPE991**Dissertation Research in Health Education**

Directed doctoral-level research leading to the completion of the dissertation. Credit Level: G. Credit Hrs: 1.00-15.00

18HPE992**Advanced Doctoral Research Seminar I**

This course is designed to help advanced doctoral students understand the dissertation process and how to explore potential research topics for their dissertations. Prereq: 18HPE991. Credit Level: G. Credit Hrs: 1.00

Health Education**18HPE993****Advanced Doctoral Research Seminar II**

This course is designed to help advanced doctoral students prepare their dissertation proposal and prepare for a formal proposal hearing. Prereq: 18HPE992. Credit Level: G. Credit Hrs: 1.00

18HPE994**Advanced Doctoral Research Seminar III**

This course is designed to help advanced doctoral students analyze, report, and discuss the findings of their research. Prereq: 18HPE993. Credit Level: G. Credit Hrs: 1.00

Interdisciplinary**18INTR301****SIFE Internship (Students in Free Enterprise)**

This experiential internship emphasizes leadership, communication, and teamwork, and provides students with insight into the workings of a market economy. The supervised work experience must be approved by the SIFE faculty coordinator and must include a minimum of 90 supervised hours of work. The supervisor is required to submit an evaluation of the student's performance. This experience is limited to students enrolled in the AGS Students In Free Enterprise (SIFE) program. Prereq: 15ENGL103. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18INTR302**SIFE Internship (Students in Free Enterprise)**

This experiential internship emphasizes leadership, communication, and teamwork, and provides students with insight into the workings of a market economy. The supervised work experience must be approved by the SIFE faculty coordinator and must include a minimum of 90 supervised hours of work. The supervisor is required to submit an evaluation of the student's performance. This experience is limited to students enrolled in the AGS Students In Free Enterprise (SIFE) program. Prereq: 18INTR301. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18INTR303**SIFE Internship (Students in Free Enterprise)**

This experiential internship emphasizes leadership, communication, and teamwork, and provides students with insight into the workings of a market economy. The supervised work experience must be approved by the SIFE faculty coordinator and must include a minimum of 90 supervised hours of work. The supervisor is required to submit an evaluation of the student's performance. This experience is limited to students enrolled in the AGS Students In Free Enterprise (SIFE) program. Prereq: 18INTR302. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18INTR397H**History & Controversy: The Social Uses of the Past**

Application of perspectives on the social uses of history to current texts, events, and controversies. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18INTR401**SIFE Internship (Students in Free Enterprise)**

This experiential internship emphasizes leadership, communication, and teamwork, and provides students with insight into the workings of a market economy. The supervised work experience must be approved by the SIFE faculty coordinator and must include a minimum of 90 supervised hours of work. The supervisor is required to submit an evaluation of the student's performance. This experience is limited to students enrolled in the AGS Students In Free Enterprise (SIFE) program. Prereq: 18INTR303. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18INTR402**SIFE Internship (Students in Free Enterprise)**

This experiential internship emphasizes leadership, communication, and teamwork, and provides students with insight into the workings of a market economy. The supervised work experience must be approved by the SIFE faculty coordinator and must include a minimum of 90

Interdisciplinary**18INTR402****SIFE Internship (Students in Free Enterprise)**

supervised hours of work. The supervisor is required to submit an evaluation of the student's performance. This experience is limited to students enrolled in the AGS Students In Free Enterprise (SIFE) program. Prereq: 18INTR401. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18INTR403**SIFE Internship (Students in Free Enterprise)**

This experiential internship emphasizes leadership, communication, and teamwork, and provides students with insight into the workings of a market economy. The supervised work experience must be approved by the SIFE faculty coordinator and must include a minimum of 90 supervised hours of work. The supervisor is required to submit an evaluation of the student's performance. This experience is limited to students enrolled in the AGS Students In Free Enterprise (SIFE) program. Prereq: 18INTR402. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18INTR561**Interdisciplinary Capstone Seminar I**

An interdisciplinary course built around a timely theme. Student is asked to write several short papers on topics related to the course theme and/or to his/her completion of the baccalaureate degree. The theme is explored through reading and group discussions. This course must be followed by 18INTR562. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18INTR562**Interdisciplinary Capstone Seminar II**

A continuation of 18INTR561. The primary objective is to complete and present a senior paper and/or project related to both the theme covered in 18INTR561 and to the student's major area of study. Prereq: 18INTR561. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18INTR601**Student Support Services I: Early Childhood Education**

This course will familiarize Interns with concepts and practices associated with support services related to learning, social, and health needs of all students. Information about and experience with intervention-based problem solving, in the context of Internship teaching and with their work with other professionals, are provided. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18INTR602**Student Support Services II: Early Childhood Education**

This course will familiarize Interns with concepts and practices associated with support services related to learning, social, and health needs of all students. Information about and experience with intervention-based problem solving, in the context of Internship teaching and with their work with other professionals, are provided. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

18INTR604**Student Support Services I: Elementary**

This course will familiarize Interns with concepts and practices associated with support services related to learning, social, and health needs of all students. Information about and experience with intervention-based problem solving, in the context of Internship teaching and with their work with other professionals, are provided. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18INTR605**Student Support Services II: Elementary**

This course will familiarize Interns with concepts and practices associated with support services related to learning, social, and health needs of all students. Information about and experience with intervention-based problem solving, in the context of Internship teaching and with their work with other professionals, are provided. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

Interdisciplinary**18INTR607****Student Support Services I: Secondary**

This course will familiarize Interns with concepts and practices associated with support services related to learning, social, and health needs of all students. Provides information about and experience with intervention-based problem solving, in the context of Internship teaching and collaboration with other professionals. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

18INTR608**Student Support Services II: Secondary**

This course will familiarize Interns with concepts and practices associated with support services related to learning, social, and health needs of all students. Information about and experience with intervention-based problem solving, in the context of Internship teaching and with their work with other professionals, are provided. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

18INTR611**Human Learning Seminar: Early Childhood Education**

A coordinated seminar to provide a conceptual framework for understanding individual learners both inside and outside the classroom. BoK: SS. Credit Level: U, G. Credit Hrs: 2.00

18INTR613**Assessment and Evaluation Seminar: Early Childhood Education**

A coordinated seminar designed to prepare Teacher Education students to understand and develop skills in the assessment and evaluation of teaching processes and learning outcomes. This coordinated seminar is taught during the professional practice school teaching Internship. BoK: SS. Credit Level: U, G. Credit Hrs: 2.00

18INTR615**Language and Communication Seminar**

A coordinated seminar focusing on the study of language learning, including factors influencing development and use. Interpersonal communication, literacy learning, and classroom interaction are emphasized. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

18INTR621**Human Learning Seminar**

See 18INTR611. BoK: SS. Credit Level: U, G. Credit Hrs: 2.00

18INTR622**Individual Diversity Seminar**

Seminar on diversity. BoK: SE. Credit Level: U, G. Credit Hrs: 2.00

18INTR623**Assessment and Evaluation Seminar: Elementary**

See 18INTR613. BoK: SS. Credit Level: U, G. Credit Hrs: 2.00

18INTR625**Language and Communication Seminar**

See 18INTR615. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

18INTR626**Social Inequalities and Schooling: Elementary Education**

Course studies social inequalities in the policies and practices of education using historical and contemporary perspectives. BoK: SE. Credit Level: U, G. Credit Hrs: 2.00

18INTR631**Human Learning Seminar: Secondary**

A coordinated seminar that has five basic themes related to how learning occurs. Examines relationships between learning theory and instructional practices. BoK: SS. Credit Level: U, G. Credit Hrs: 2.00

18INTR633**Assessment and Evaluation Seminar**

This course addresses the measurement and evaluation aspects of teaching. It emphasizes multiple ways of assessing learning and a variety of information sources for decision making and congruence of assessment goals and methods. Coreq: 18SEC520. BoK: SS. Credit

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Interdisciplinary

18INTR633

Assessment and Evaluation Seminar

Level: U, G. Credit Hrs: 2.00

18INTR634

Individual Development: Secondary

This course concentrates on the developmental aspects of the adolescent and on important social influences and encourages students to explore and identify their own values and attitudes toward adolescence. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

18INTR636

Social Inequalities and Schooling: Secondary

Examines the relationship between social class, racial/ethnic background, and performance in the educational system. It supports and builds on PPS internship instructional tasks and responsibilities. BoK: SE. Credit Level: U, G. Credit Hrs: 2.00

Legal Assisting Technology

18LGTN180

Introduction to Paralegal Profession

Overview of the training and purpose of paralegals. Roles of lawyer, law clerk, legal secretary, and paralegal in law firms, commercial enterprises, institutions, and agencies. Examines legal and paralegal ethics and unauthorized practice of law problems related to the lawyering function; interviewing and oral advocacy. BoK: SE. Credit Level: U. Credit Hrs: 3.00

18LGTN241

Estates and Probate

Study of the status of descent and distribution as well as administration of a decedent estate. Probate court administration of estates and drafting of wills. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18LGTN251

Domestic Relations I

Introduces students to basic principles of domestic relations matters including the history of marriage, rights and obligations arising from a marital relationship, premarital agreements, annulment, marriage, divorce, and dissolution. Students will analyze statutes and apply to factual situations. This will include the determination of child support and spousal support awards, valuation of property, property division and settlement. Students will prepare forms and documents associated with domestic law issues and examine the domestic relations court. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18LGTN252

Domestic Relations II

Related domestic relations matters including juvenile problems, custody of minor children, adoption procedures, and guardianship. Focuses on the protection of minor children in legal proceedings. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18LGTN256

Litigation I

Federal and Ohio rules of civil procedure. Examination of court structure, venue, jurisdiction, and service of process. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18LGTN257

Litigation II

Draft pleadings and motions, responses, and memoranda in support or opposition, discovery documents, orders, decrees, and other documents relevant to a civil proceeding. Practical application of the skills and procedures learned in Litigation I. Prereq: 18LGTN256. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18LGTN258

Litigation III

Practical applications of the skills and procedures learned in Litigation I, II. Focus on trials. Prereq: 18LGTN257. BoK: NA. Credit Level: U. Credit Hrs: 3.00

College of Education, Criminal Justice, and Human Services

Legal Assisting Technology

18LGTN260

Basic Legal Principles

Processes of legal reasoning through studying four substantive areas of law affecting business: criminal law, contracts, real property, torts. Uses the case analysis approach to learning the law. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18LGTN261

Legal Research I

Provides the student with an understanding of the law library as well as the use, organization, and interrelationships of the various legal research tools. Skill in researching various legal problems is provided. Prereq: 18LGTN260. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18LGTN262

Legal Research II

Clear, concise legal writing style is developed. Students apply basic research skills learned in Legal Research I. Drafting of legal memorandums and legal briefs is emphasized. Students will learn to draft letters, opinions, and other legal documents. Prereq: 18LGTN261. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18LGTN270

Tax Law for Paralegals

Theory and practice of local, state, and federal income taxation; does not include corporate income tax. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18LGTN271

Bankruptcy and Debt Collection

The study of consumer bankruptcy and legal procedures for the collection of debt and judgments. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18LGTN272

Administrative Litigation

Prepares the paralegal to advise and represent clients as permitted by the various state and federal administrative agencies. Preparation of documents, preparation of clients and witnesses, as well as oral advocacy before these agencies. Actual simulation with administrative hearing. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18LGTN275

Corporate Law and Business Organizations

Various forms of business entities designed to acquaint the student with their formal structure, processes, and operations. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18LGTN280

Real Estate for Paralegals

In-depth study of the law governing real property, including real estate transactions and conveyances such as deeds, contracts, leases, etc. Emphasizes problems encountered in drafting these conveyances. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18LGTN290

Paralegal Practicum

The student will gain practical supervised experience as a paralegal prior to seeking employment in law or law-related offices. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18LGTN301

Computer Applications for Paralegals

Introduction to computer technology and its application within the law firm, including the use of computers related to paralegal functions in litigation support, legal research, and case management applications. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18LGTN321

Interviewing and Investigation for Paralegals

In-depth study of principles, methods, and investigative techniques utilized to locate, gather, document, and disseminate information. Emphasis on developing interviewing and investigating skills which prepare paralegals to communicate effectively while recognizing ethical

Legal Assisting Technology**18LGTN321****Interviewing and Investigation for Paralegals**

problems. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18LGTN401**Advanced Legal Research and Writing**

Improve practical legal research/writing skills learned in Legal Research I & II. Develop ability to put into written form results derived from identification/analysis of legal issues. Enhance word processing skills to facilitate production of a legal document, pleading, memorandum of law, or brief. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18LGTN402**Trademarks, Patents and Copyrights**

This course will focus on statutory and common law rights dealing with intellectual property. This includes trademarks, which exist to identify and to distinguish products and services in the marketplace; copyrights, namely rights in literary, artistic, musical, dramatic, and sound and movie recordings and patents; exclusive rights granted to inventors. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18LGTN410**Introduction to Law Practice Management**

This course will introduce students to the management of law firms and the unique challenges they face because of the roles nonlawyers have in an organization of professionals. It will discuss the structures within the firm and about working with people who fill those structures. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18LGTN419**Alternate Dispute Resolution**

Provides a description and overview of dispute resolution mechanisms, including litigation, voluntary arbitration, negotiation, and mediation. Introduces student to the basic skills needed to begin to mediate with parties in conflict. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18LGTN421**Legal Ethics and Professional Responsibility**

This course will introduce students to the types of ethical dilemmas that they will face once in the work force, and to methods for researching the answers to ethical dilemmas. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18LGTN471**Advanced Paralegal Seminar**

This is an advanced paralegal course to challenge the student to integrate knowledge of theoretical concepts and practical application of legal research, litigation, property, torts, and business law through case analysis and the completion of writing assignments. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Literacy**18LTCY500****Phonics in Context**

This course is designed to provide research-based and historical/cultural information about the teaching and learning of phonetics, phonics, word study, and spelling in relation to developing learners and a total reading program. BoK: NA. Credit Level: U, G. Credit Hrs: 5.00

18LTCY673**Phonetics and L2 Education**

This course is an analysis of the sound system of English for diagnosis and instruction of pronunciation problems for ESL students. The main goal of the course is to equip participants with appropriate phonological knowledge to understand better the characteristic interference and transfer difficulties that ESL/EFL students bring to the second language learning context. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18LTCY674**Grammar and L2 Education**

Analysis of the linguistic systems that constitute the English language and pedagogical applications of that analysis. BoK: NA. Credit Level: U,

Literacy**18LTCY674****Grammar and L2 Education**

G. Credit Hrs: 3.00

18LTCY701**Research in Second Language Acquisition**

Application of social science contemporary research methods to the scientific study of the second language learning process, foreign language, and bilingualism. Credit Level: G. Credit Hrs: 3.00

18LTCY720**Theory Into Practice: Models of Literacy**

Course studies the cultural and psychological bases of literacy. Stressing a process approach to literacy rooted in the social milieu of classrooms, the course applies theories to instruction. Credit Level: G. Credit Hrs: 3.00

18LTCY727**Poetry for Children and Young Adults**

Poetry is one of the most flexible genres available for use in classrooms as it can integrate content areas, be a model for writing, or simply enjoyed. Emphasis in this course is on gaining insight into the practical uses of poetry as well as writing it. Credit Level: G. Credit Hrs: 3.00

18LTCY728**Prose for Children and Young Adults**

Fiction and non-fiction books motivate most students to read more than assigned textbooks. Reading some of the best books, sharing teaching ideas, and finding out about award-winning authors is the focus of this course. Credit Level: G. Credit Hrs: 3.00

18LTCY730**Discourse Analysis**

A guide to the understanding of natural language acquisition and ways in which language can be examined and conveyed to learners. Credit Level: G. Credit Hrs: 4.00

18LTCY731**Adult/International Practicum**

Provides student teachers with the opportunity to put into practice their ideas about effective language teaching and learning within the context of an overseas teaching site. Credit Level: G. Credit Hrs: 1.00-15.00

18LTCY751**Making Meaning from Text**

Examines the various systems that readers and writers use to make meaning from text and how they orchestrate and integrate the various language systems. Also examines current methods for literacy instruction. Credit Level: G. Credit Hrs: 3.00

18LTCY755**Assessing and Supporting Literacy Skills and Development**

This course examines a wide range of assessment instruments and instructional methods to support the literacy development of K-12 struggling learners. The course stresses the application and interpretation of assessment tools and instruction within the context of individual differences and individual development. Also includes study in methods of communicating results to a wide variety of audiences. Prereq: 18LTCY720. Credit Level: G. Credit Hrs: 3.00

18LTCY756**Remedial Reading: Remedial Techniques**

Continued study of the theory and techniques of evidence-based diagnosis and remediation. Principles and activities of diagnosis and assessment of literacy difficulties. Examines procedures and materials for teaching students with literacy difficulties. Continued professional development of the reading specialist. Prereq: 18LTCY755, 18LTCY757. Credit Level: G. Credit Hrs: 3.00

18LTCY757**Literacy Practicum**

This Practicum course has multiple themes: (a) reflective teaching and assessment, (b) teaching and learning with culturally and language diverse students, and (c) tutoring. Perm of Instructor. Credit Level: G.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Literacy**18LTCY757****Literacy Practicum**

Credit Hrs: 3.00

18LTCY758**Literacy Practicum II**

This practicum builds on the first with further evidence-based techniques and research that address multiple themes: (a) reflective teaching and assessment, (b) teaching and learning with culturally and language diverse students, (c) practice-based tutoring, and (d) professional development of the reading specialist. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

18LTCY771**Literacy as a Cultural and Linguistic Tool**

Analysis of the social, community, and cultural influences on literacy and literacy learners. Focuses on creating socially and culturally responsive classroom practices. Examines issues of second language learning in the content of the regular literacy program. Credit Level: G. Credit Hrs: 3.00

18LTCY772**Topical Seminar in Reading**

In-depth analysis of selected topics in literacy. May be adapted to meet the needs of particular school faculties. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

18LTCY773**Linking Reading and Writing in Classroom Instruction**

An exploration of reading and writing relationships with an emphasis on practical teaching strategies for classroom use, grades K-12. Credit Level: G. Credit Hrs: 3.00

18LTCY774**Teaching Literature of Ethnic-American Populations K-12**

Explores the wealth of literature written by ethnic-American writers (African-American, American Indian, Asian-American, and Hispanic-American) often excluded from anthologies. Pedagogical implications are explored. Credit Level: G. Credit Hrs: 3.00

18LTCY775**L2 Acquisition Theory**

Theories of second language acquisition and their implications for development of ESL teaching methods. Credit Level: G. Credit Hrs: 3.00

18LTCY776**PreK-12 TESL Methods I: Principles and Procedures**

Methods and techniques of teaching ESL in a variety of contexts. Prereq: 18LTCY775. Credit Level: G. Credit Hrs: 3.00

18LTCY777**PreK-12 TESL Methods II: Materials, Design and Development**

Methods, curriculum, and materials development for ESL; techniques for testing and evaluation. Prereq: 18LTCY776. Credit Level: G. Credit Hrs: 3.00

18LTCY778**PreK-12 Teaching English as a Second Language Practicum**

Supervised practice in teaching ESL. Prereq: 18LTCY777. Credit Level: G. Credit Hrs: 1.00-15.00

18LTCY779**Sociolinguistics and L2 Education**

An overview of sociolinguistic factors affecting second language variation and acquisition: societal and individual influences on language choice, use, maintenance, and change. It examines some major topics such as variation of language, language attitudes and motivations, language policies and implications for TESL, and some of the major research methods in sociolinguistics. This course takes an ecological perspective to language teaching and learning. It encourages students to explore activities and communities of practice as units of analyses in their research. Credit Level: G. Credit Hrs: 3.00

Literacy**18LTCY780P****Theories of Second Language Acquisition**

Course deals with theories of second language acquisition and their implications for development of ESL teaching methods and instructional strategies in relation to pre-K-12 culturally and linguistically diverse students. Linguistic, cognitive, affective, and social factors represented by most important second language theories will be discussed in relation to instructional applications. Credit Level: G. Credit Hrs: 3.00

18LTCY781P**Teaching Reading and Writing in ESL**

This course is designed to provide conceptual and educationally applied understanding of effective ESL pedagogical principles and strategies for teaching reading and writing and the implementation of methodology and reading and writing curriculum planning for pre-K-12 students. Credit Level: G. Credit Hrs: 3.00

18LTCY782P**ESL Teaching Methods I**

Teaching English as a Second Language Methods I is the first of two methods courses in the TESOL Endorsement program. Credit Level: G. Credit Hrs: 3.00

18LTCY783P**ESL Phonetics**

This online course provides students with appropriate phonological knowledge to better understand the characteristic transfer difficulties that ESL/EFL students bring to the second language learning context. Credit Level: G. Credit Hrs: 3.00

18LTCY784P**ESL Teaching Methods II**

Teaching English as a Second Language Methods II is the second of two methods courses in the TESOL Endorsement program. It is generally taught online. Coreq: 18LTCY780P, 18LTCY782P. Credit Level: G. Credit Hrs: 3.00

18LTCY785P**Sociolinguistics for TESL**

This course examines the sociolinguistics that influence students who are learning in an English as a Second Language environment. Part of the TESL Endorsement course sequence. Taught online. Credit Level: G. Credit Hrs: 3.00

18LTCY786P**Practicum in Teaching as a Second Language (P-12)**

This online course guides the practicum experience as the culminating experience in the course sequence for TESL Endorsement. The online portion accompanies an on-site classroom ESL experience guided by a mentoring, experienced ESL teacher. Prereq: 18LTCY780P, 18LTCY782P, 18LTCY784P. Credit Level: G. Credit Hrs: 3.00

18LTCY787P**Grammar for Teaching English as a Second Language**

This course is online and part of the TESOL Endorsement sequence. It covers the various grammatical concepts necessary for successful TESL curriculum. Credit Level: G. Credit Hrs: 3.00

18LTCY800**Lifelong Literacy Learning and Professional Development**

This course studies professional development in teachers and other literacy professionals. The course examines classroom inquiry, teacher collaboratives, and professional networks as vehicles for improving practice and creating professional communities, as well as models of best practice and their impact on teachers and student learning. Credit Level: G. Credit Hrs: 3.00

18LTCY801P**Foundations of Postsecondary Literacy Instruction**

This course critically examines readings and research in adult literacy, developmental education, and basic adult education from a historical, political, and cultural perspective. This is a professional graduate course offered by the Graduate Program in Literacy in the College of Education, Criminal Justice, and Human Services. Credit Level: G.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Literacy

18LTCY801P

Foundations of Postsecondary Literacy Instruction

Credit Hrs: 3.00

18LTCY802P

Methods of Postsecondary Literacy Instruction: Focus on Reading

This course is designed to analyze, demonstrate, and practice methods of teaching adult literacy from an empowerment perspective. (P = College of Education, Criminal Justice and Human Services professional course. LTCY indicates a graduate teacher education course offered by the Graduate Program in Literacy.) Credit Level: G. Credit Hrs: 3.00

18LTCY803P

Practicum in Postsecondary Literacy Instruction

This course is designed to provide an opportunity for students to integrate practice with the theory and skills developed in the Pedagogy in Adult Literacy course. This is a professional graduate course offered by the Graduate Program in Literacy in the College of Education, Criminal Justice, and Human Services. Prereq: 18LTCY802P. Credit Level: G. Credit Hrs: 3.00

18LTCY804

PreK-12 Teaching English as a Second Language Assessment, Evaluation and Testing

Application of contemporary research to methodologies and measures for accurately assessing and linking assessment and instruction in pre-K-12 graders, adults, and international college students learning ESL. Credit Level: G. Credit Hrs: 3.00

18LTCY805P

Reading and Writing Processes at the Postsecondary Level

Examines various theories of reading and writing processes as they pertain to postsecondary literacy instruction. This is a professional graduate course offered by the Graduate Program in Literacy in the College of Education, Criminal Justice, and Human Services. Credit Level: G. Credit Hrs: 3.00

18LTCY806P

Methods of Postsecondary Literacy Instruction: Focus on Writing

Methods and techniques of literacy instruction at the postsecondary level with a focus on teaching writing. This is a professional graduate course offered by the Graduate Program in Literacy in the College of Education, Criminal Justice, and Human Services. Credit Level: G. Credit Hrs: 3.00

18LTCY807P

Projects in Postsecondary Literacy Instruction

Intensive focus on a variety of issues in postsecondary literacy instruction. This is a professional graduate course offered by the Graduate Program in Literacy in the College of Education, Criminal Justice, and Human Services. Credit Level: G. Credit Hrs: 3.00-6.00

18LTCY808P

Postsecondary ESL Literacy

This course addresses issues in English as a Second Language literacy instruction at the postsecondary level. This is a professional graduate course offered by the Graduate Program in Literacy in the College of Education, Criminal Justice, and Human Services. Credit Level: G. Credit Hrs: 3.00

18LTCY809P

Postsecondary Literacy: Second Language and Society

The course focuses on issues of dialect, culture, and society through the lens of postsecondary literacy instruction. This is a professional graduate course offered by the Graduate Program in Literacy in the College of Education, Criminal Justice, and Human Services. Credit Level: G. Credit Hrs: 3.00

Literacy

18LTCY850

Miscue Analysis

Study of miscue analysis procedures and research; application of miscue analysis for reading assessment and instruction; exploration of reading as a constructive and transactive process of meaning making. Credit Level: G. Credit Hrs: 3.00

18LTCY865

Content-based L2 Education: Theory, Research, and Practice

This course is designed for people interested in teaching English as a Second Language (TESL) and people who have English as a Second Language (ESL) students in their regular classes in K-12 and adult contexts. Students will learn theories, research, and strategies for teaching English language and subject-matter content simultaneously. Credit Level: G. Credit Hrs: 3.00

18LTCY867

Bilingual Education: Theory, Research, and Practice

This course focuses on the philosophical, theoretical, and educational applied modes of cognitive and language development that use bilingual education as a method of instruction. Credit Level: G. Credit Hrs: 3.00

18LTCY868

Teaching and Assessing College English as a Second Language: Reading and Writing

This course will present and combine current theories and approaches to ESL reading and writing. Multiple perspectives address issues relevant to researchers, teacher educators, in-service ESL educators, curriculum designers, program administrators, and mainstream composition and reading teachers. Credit Level: G. Credit Hrs: 3.00

18LTCY869

Teaching and Assessing College English as a Second Language: Oral

The course covers major issues related to oral communication in North American classroom, campus, and social contexts. Students will have opportunities to read and discuss recent works of representative scholars and current trends and issues, as well as theory and research, and explore best practices in teaching college ESL. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

18LTCY870

Research in Computer Assisted Language Learning

This course is a review and discussion of the history of Computer Assisted Second Language Acquisition (CASLA), the context and challenge for CASLA and CALL, and principles and procedures of CALL evaluation and assessment. Other topics include CALL research, CASLA design and application, and the future of CASLA. Credit Level: G. Credit Hrs: 3.00

18LTCY871

Individual Study in Literacy

Designed to provide advanced graduate students opportunities for individual, in-depth analysis of topics not fully addressed in the courses currently offered in the graduate program. Credit Level: G. Credit Hrs: 1.00-6.00

18LTCY872

Readings in Literacy

Designed to provide advanced graduate students opportunities for further in-depth study of and extensive reading in selected topics in the field of literacy. Credit Level: G. Credit Hrs: 1.00-6.00

18LTCY873

Individual Master's Thesis: Literacy

Research and writing on an approved topic. In lieu of comprehensive examination. Credit Level: G. Credit Hrs: 1.00-9.00

18LTCY874

Individual Master's Project: Literacy

Writings on an approved topic which culminates in a product that can be used by professionals in the field of literacy. In lieu of comprehensive examination. Credit Level: G. Credit Hrs: 1.00-6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Literacy

18LTCY874

Individual Master's Project: Literacy

Writings on an approved topic which culminates in a product that can be used by professionals in the field of literacy. In lieu of comprehensive examination. Credit Level: G. Credit Hrs: 1.00-6.00

18LTCY875

Professional Portfolio: Literacy

A portfolio of the candidate's work that provides evidence she/he has met the International Reading Association's Standards for Reading Professionals. In lieu of comprehensive examination. Credit Level: G. Credit Hrs: 1.00-3.00

18LTCY878

Seminar: Survey of Research in Reading

Critical appraisal and discussion of classical and current studies in the research and teaching of reading. Credit Level: G. Credit Hrs: 3.00

18LTCY879

Seminar: Current Issues in Literacy

Investigation and analysis of current approaches, materials, issues, and problems in the process of acquiring literate behavior. Credit Level: G. Credit Hrs: 3.00

18LTCY880

Principles of Organizing a Literacy Curriculum

Planning, implementing, and supervising literacy programs. Credit Level: G. Credit Hrs: 3.00

18LTCY881

Seminar: Research on Writing Instruction

Explores two major themes: (1) historical and current research on writing development and the teaching of writing, and (2) current approaches to writing instruction in K-12 classrooms. Credit Level: G. Credit Hrs: 3.00

18LTCY882

Language and Emergent Literacy

Examines research on young children's reading and writing development from several disciplinary perspectives (e.g., psychology, linguistics, education); explicates significant implications for pre-K-2 literacy instruction. Credit Level: G. Credit Hrs: 3.00

18LTCY901

Frameworks for Literacy Research

Analysis of current theoretical frameworks for literacy research; exploration of links between theoretical frameworks for research and literacy practices in communities and schools. Credit Level: G. Credit Hrs: 3.00

18LTCY902

Guided Literacy Research I

Application of frameworks for literacy research to literacy research in social settings; analysis of methods for gathering and analyzing language and literacy data; explorations of genres of literacy research writing. Credit Level: G. Credit Hrs: 3.00

18LTCY903

Guided Literacy Research II

Further application of frameworks for literacy research to literacy research in social settings; continued analysis of methods for gathering and analyzing language and literacy data; exploration of genres of literacy research writing. Credit Level: G. Credit Hrs: 3.00

18LTCY910

Foundations of Research in SLA

This course, the first of a three-course doctoral sequence, examines the historical trends, theoretical frames, and research traditions undergirding research in SLA. We also explore qualitative and quantitative research paradigms, review research studies in SLA, and initiate a pre-dissertation research experience. Credit Level: G. Credit Hrs: 4.00

Literacy

18LTCY911

Advanced Study of Research in SLA

This course, the second in a three-course doctoral sequence, examines the political, social, and philosophical issues which affect our field, particularly in relation to bilingualism, language planning, and language policy. Credit Level: G. Credit Hrs: 4.00

18LTCY912

Focused Research in SLA

This course, the third of a three-course doctoral sequence, examines the issue of power, language, culture, and identity. Participants will explore these issues within the framework of their own research. Credit Level: G. Credit Hrs: 4.00

18LTCY921

Mentored Research in Literacy I

Apprenticeship experience in the design and conduct of literacy research. Credit Level: G. Credit Hrs: 3.00

18LTCY922

Mentored Research in Literacy II

Apprenticeship experience emphasizing data collection and analysis in the conduct of literacy research. Prereq: 18LTCY921. Credit Level: G. Credit Hrs: 3.00

18LTCY923

Mentored Research in Literacy III

Apprenticeship experience emphasizing data analysis and reporting the results of literacy research. Credit Level: G. Credit Hrs: 3.00

18LTCY930

Advanced Seminar in Literacy I

Selective topics seminar at the doctoral level. Topics may vary by instructor and quarter. In general, topics related to literacy and TESL. Credit Level: G. Credit Hrs: 3.00

18LTCY931

Advanced Seminar in Literacy II

Selective topics seminar at the doctoral level. Topics may vary by instructor and quarter. In general, topics related to literacy and TESL. Credit Level: G. Credit Hrs: 3.00

18LTCY932

Advanced Seminar in Literacy III

Selective topics seminar at the doctoral level. Topics may vary by instructor and quarter. In general, topics related to literacy and TESL. Credit Level: G. Credit Hrs: 3.00

18LTCY953

Professional Seminar in Teacher Education III: Language and Social Practices

Seminar examining how language practices shape knowledge and identity in educational settings. Credit Level: G. Credit Hrs: 3.00

18LTCY973

Individual Dissertation Guidance: Literacy

Doctoral candidate confers with major adviser and dissertation committee. Required in doctoral program. Credit Level: G. Credit Hrs: 1.00-15.00

Middle Childhood Education

18MDL201

Introductory Field Experience

Interactions in schools and/or with young people appropriate to the grade level license; reflective seminar to discuss these experiences. BoK: NA. Credit Level: U. Credit Hrs: 1.00

18MDL213

Instructional Technology: Middle School

Students will develop a set of skills and a knowledge base around the use of instructional technologies in the classroom, enabling them "to activate the learning environment through the use of technology" and to begin the development of their digital portfolio. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Middle Childhood Education**18MDL325****Geometry and Measurement for Middle School Teachers**

This course focuses on the teaching of geometry and measurement.

Coreq: 15MATH305. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18MDL500**Phonics in Middle School**

This course is designed to provide research-based and historical/cultural information about the teaching and learning of phonetics, phonics, word study, and spelling in relation to developing learners and a total reading program. BoK: NA. Credit Level: U, G. Credit Hrs: 5.00

18MDL501**Opening School Experience - Teaching Associate in Middle School**

Participation in a middle school professional practice school classroom from the opening day of the public schools until the first day of UC's autumn quarter. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

18MDL502**Field Experience I Middle School**

Practicum experience in a middle school classroom. Prereq: 18MDL521, 18MDL525. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

18MDL503**Field Experience: TA: II**

This is the second of three field experiences during the Teaching Associate year. Done in the same site as the Opening School Experience and Field Experience I. Teaching Associates are in the schools with their mentor teachers a minimum of one half-day (or three hours) per week. Perm of Department. BoK: SE, HP. Credit Level: U, G. Credit Hrs: 3.00

18MDL511**Middle School Organization and Practices**

Addresses the unique needs of middle level students in the context of their physical, social, emotional, and intellectual needs. Required for students seeking to be admitted to the Middle Childhood Education program. BoK: NA. Credit Level: G, U. Credit Hrs: 3.00

18MDL515**Classroom Management: Middle Childhood**

Designed to develop the ability to create and maintain a positive learning environment in the middle childhood classroom. Strategies for effective teaching, which will include issues of diversity, will be emphasized. Attention will be given to analyzing, resolving, and preventing managerial problems. Reflective teaching strategies will be presented. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18MDL521**Foundations of Literacy: Middle School**

Theoretical underpinnings of literacy instruction in middle school classrooms. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

18MDL522**Literacy II: Assessment and Evaluation**

Discussion of a variety of assessment strategies and how these should be integrated with instruction in a middle school. Prereq: 18MDL521. BoK: NA. Credit Level: G, U. Credit Hrs: 3.00

18MDL523**Literacy III: Reading in the Content Areas**

This course provides participants with an overview of reading in the content areas, including particular curricular approaches and literacy strategies to use in middle school content classrooms. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18MDL524**Principles and Practices: Language Arts**

Methods, materials, and strategies for language arts instruction. Prereq: 18MDL521, 18MDL525. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

Middle Childhood Education**18MDL525****Improving Reading Using Literature**

Course focuses on children's literature and its role in classrooms.

Current theories and methods about integrating literature into all curriculum areas will be discussed and demonstrated. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18MDL531**Principles and Practices Science**

Prepares preservice teachers to teach science, integrating methods with concepts in areas of physical, biological, and earth sciences. BoK: NA. Credit Level: G, U. Credit Hrs: 3.00

18MDL541**Principles and Practices: Social Studies**

Provides the basic perspectives and skills necessary to teach social studies in the middle grades. Required for Middle Childhood Education students whose area of concentration is social studies. BoK: NA. Credit Level: G, U. Credit Hrs: 3.00

18MDL551**Middle School Mathematics I**

Addresses the unique needs of middle school students as they are acquiring competence in mathematics. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18MDL561**Middle School Capstone Seminar**

This course holistically measures Middle Childhood Education candidates' professional behaviors and competencies through tasks designed for reflection, synthesis, and application of pedagogical information acquired during their studies in middle school education. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

18MDL601**Portfolio Development I: Middle Childhood**

This course is designed to have each Middle Childhood preservice teacher prepare a professional portfolio during the Internship year. The portfolio needs to be in two forms: electronic (on a CD) and paper. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

18MDL602**Portfolio Development II: Middle Childhood**

This course is designed to have each Middle Childhood preservice teacher prepare a professional portfolio during the Internship year. The portfolio needs to be in two forms: electronic (on a CD) and paper. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

18MDL644**Internship I: Middle Childhood**

All Interns accepted by schools will be placed to complete a year-long Internship experience in grades 4-9. This experience will begin on the first day the public schools open after summer vacation (generally in the third week of August). Prereq: 18MDL503. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00-20.00

18MDL645**Internship II: Middle Childhood**

All Interns accepted by schools will be placed to complete a year-long Internship experience in grades 4-9. This experience will begin on the first day the public schools open after summer vacation (generally in the third week of August). Prereq: 18MDL644. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00-20.00

18MDL731**Science: Advanced Study**

This course emphasizes the designing, planning, and implementing of science curriculum materials as well as refining process and product teaching skills. Credit Level: G. Credit Hrs: 3.00

18MDL741**Advanced Study: Social Studies**

Addresses effective teaching of social studies for diverse learners in the middle grades. Required for Middle Childhood Education teaching

H=University Honors course.

Middle Childhood Education

18MDL741

Advanced Study: Social Studies

Interns whose area of concentration is social studies. Credit Level: G.
Credit Hrs: 3.00

Paralegal Studies

18PARA180

Introduction to Paralegal Profession

Overview of the training and purpose of paralegals. Roles of lawyer, law clerk, legal secretary, and paralegal in law firms, commercial enterprises, institutions, and agencies. Examines legal and paralegal ethics and unauthorized practice of law problems related to the lawyering function; interviewing and oral advocacy. BoK: SE. Credit Level: U. Credit Hrs: 3.00

18PARA241

Estates and Probate

Study of the status of descent and distribution as well as administration of a decedent estate. Probate court administration of estates and drafting of wills. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18PARA251

Domestic Relations I

Premarital and postmarital agreements, marriage contracts, divorce, and dissolution of marriage, including child support, alimony, property division, and settlement. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18PARA252

Domestic Relations II

Related domestic relations matters including juvenile problems, custody of minor children, adoption procedures, and guardianship. Focuses on the protection of minor children in legal proceedings. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18PARA256

Litigation I

Federal and Ohio rules of civil procedure. Examination of court structure, venue, jurisdiction, and service of process. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18PARA257

Litigation II

Draft pleadings and motions, responses, and memoranda in support or opposition, discovery documents, orders, decrees, and other documents relevant to a civil proceeding. Practical application of the skills and procedures learned in Litigation I. Prereq: 18LGTN256. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18PARA258

Litigation III

Practical applications of the skills and procedures learned in Litigation I, II. Focus on trials. Prereq: 18LGTN257. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18PARA260

Basic Legal Principles

Processes of legal reasoning through studying four substantive areas of law affecting business: criminal law, contracts, real property, torts. Uses the case analysis approach to learning the law. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18PARA261

Legal Research I

Provides the student with an understanding of the law library as well as the use, organization, and interrelationships of the various legal research tools. Skill in researching various legal problems is provided. Prereq: 18LGTN260. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18PARA262

Legal Research II

Clear, concise legal writing style is developed. Students apply basic research skills learned in Legal Research I. Drafting of legal memorandums and legal briefs is emphasized. Students will learn to

Paralegal Studies

18PARA262

Legal Research II

draft letters, opinions, and other legal documents. Prereq: 18LGTN261. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18PARA270

Tax Law for Paralegals

Theory and practice of local, state, and federal income taxation; does not include corporate income tax. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18PARA271

Bankruptcy and Debt Collection

The study of consumer bankruptcy and legal procedures for the collection of debt and judgments. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18PARA272

Administrative Litigation

Prepares the paralegal to advise and represent clients as permitted by the various state and federal administrative agencies. Preparation of documents, preparation of clients and witnesses, as well as oral advocacy before these agencies. Actual simulation with administrative hearing. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18PARA275

Corporate Law and Business Organizations

Various forms of business entities designed to acquaint the student with their formal structure, processes, and operations. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18PARA280

Real Estate for Paralegals I

In-depth study of interests in real property, studying various types of real estate transactions and conveyances such as deeds, contracts, leases, etc. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18PARA290

Paralegal Practicum

The student will gain practical supervised experience as a paralegal prior to seeking employment in law or law-related offices. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18PARA301

Computer Applications for Paralegals

Introduction to computer technology and its application within the law firm, including the use of computers related to paralegal functions in litigation support, legal research, and case management applications. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18PARA321

Interviewing and Investigation for Paralegals

In-depth study of principles, methods, and investigative techniques utilized to locate, gather, document, and disseminate information. Emphasis on developing interviewing and investigating skills which prepare paralegals to communicate effectively while recognizing ethical problems. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18PARA380

Tax Law for Paralegals

Theory and practice of local, state, and Federal income taxation; does not include corporate tax work. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18PARA401

Advanced Legal Research and Writing

Improve practical legal research/writing skills learned in Legal Research I & II. Develop ability to put into written form results derived from identification/analysis of legal issues. Enhance word processing skills to facilitate production of a legal document, pleading, memorandum of law, or brief. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Paralegal Studies

18PARA402

Trademarks, Patents and Copyrights

This course will focus on statutory and common law rights dealing with intellectual property. This includes trademarks, which exist to identify and to distinguish products and services in the marketplace; copyrights, namely rights in literary, artistic, musical, dramatic, and sound and movie recordings and patents; exclusive rights granted to inventors. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18PARA410

Introduction to Law Practice Management

This course will introduce students to the management of law firms and the unique challenges they face because of the roles nonlawyers have in an organization of professionals. It will discuss the structures within the firm and about working with people who fill those structures. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18PARA419

Alternate Dispute Resolution

Provides a description and overview of dispute resolution mechanisms, including litigation, voluntary arbitration, negotiation, and mediation. Introduces student to the basic skills needed to begin to mediate with parties in conflict. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18PARA421

Legal Ethics and Professional Responsibility

This course will introduce students to the types of ethical dilemmas that they will face once in the work force, and to methods for researching the answers to ethical dilemmas. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18PARA471

Advanced Paralegal Seminar

This is an advanced paralegal course to challenge the student to integrate knowledge of theoretical concepts and practical application of legal research, litigation, property, torts, and business law through case analysis and the completion of writing assignments. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Professional Seminar

18PRFS125

FYE College Survival Skills

This is a First Year Experience course designed to help the freshman student navigate the University system. Topics include: financial aid, registration, study skills, time management, computer skills, and career selection. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

18PRFS126

First Year Service Learning

This is a First Year Experience course for freshmen in the College of Education, Criminal Justice, and Human Services. The course will incorporate service learning to enhance the knowledge of the student's specific major and provide real life experience. The course is intended to encourage students to access resources across the university and within the college as well as provide a real life experience in their chosen field. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

18PRFS127

FYE Steps to Success

This is a First Year Experience course for freshmen who are on probation after their first quarter in college. It is designed to help the student identify why he/she is on probation and what changes need to be made. Emphasis is on developing reading and writing skills, time management, and goal setting. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

18PRFS191

Advanced Physical Conditioning

This course teaches the benefits of healthy living by exploring/using the fitness center. BoK: NA. Credit Level: U. Credit Hrs: 1.00

College of Education, Criminal Justice, and Human Services Professional Seminar

18PRFS202

Pharmacology

This course introduces basic pharmacology, the history of drug use and discovery, and modern pharmacology. Drug receptors, drug actions, absorption, distribution, metabolism, and elimination are discussed. Also includes FDA approval, major body systems, prescription and OTC drugs, herbal preparations, and ethical issues about the non-medical use of drugs. An internet course. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

18PRFS210

Early Childhood Learning Community Orientation

This course will allow students to review the requirements for being successful. Students will develop goals to help them be successful and learn problem solving skills. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

18PRFS211

CDA Credential Course 1 - Theory 1

Study of child development theories and how they are applied in the early childhood setting. Topics and issues regarding culture, ability, gender, and socio-economic diversity are studied. Theoretical and practical aspects of planning appropriate programs. CDA resource file work. BoK: NA. Credit Level: U. Credit Hrs: 1.00-5.00

18PRFS212

CDA Credential Course II - Theory II

This course deals with behavior management of children in group settings. BoK: NA. Credit Level: U. Credit Hrs: 1.00-5.00

18PRFS213

CDA Credential Course III - Curriculum I

Early childhood curricula is studied in light of the information on child development studies in previous classes. Literacy (reading and writing development), developmentally appropriate art and music curricula, and the purpose and planning behind dramatic play will be emphasized. Family involvement practices and assessment procedures will be infused throughout the coursework. Prereq: 18PRFS211, 18PRFS212. BoK: NA. Credit Level: U. Credit Hrs: 1.00-5.00

18PRFS214

CDA Credential Course 4 - Curriculum II

Curriculum in early childhood will continue to be examined, particularly with regard to math and science. Students will write lesson plans for specific areas that include objectives for learning concepts and early academic skills. They will learn how to plan, implement, monitor, assess, and modify an integrated curriculum that will foster social development and accelerate positive outcomes for young children. Prereq: 18PRFS213. BoK: NA. Credit Level: U. Credit Hrs: 1.00-5.00

18PRFS215

CDA Math and Literature

This course implements writing and music into the early childhood curriculum. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18PRFS216

CDA Science

This course implements math and science into the early childhood curriculum. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18PRFS217

Child Development Associate Renewal, Topics in Perfecting Practice

Course is targeted at the CDA. Credential holder must renew the national certification. It will cover positive discipline techniques, inclusion of children with special needs, growth as a professional, and new ideas for curriculum development in early childhood. BoK: NA. Credit Level: U. Credit Hrs: 1.00-5.00

18PRFS218

Drugs and Behavior

This course provides an introduction to problems associated with drug abuse and chemical dependency using a historical perspective, associated psychological behavior and processes, physiological

Professional Seminar

18PRFS218

Drugs and Behavior

processes, the disease concept, and various therapeutic models. Explores the student's own attitudes and feelings toward the use of drugs and their implications in a society that has been experiencing a crisis of "epidemic." BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

18PRFS221

Assessment And Diagnosis in Addictions

This course covers clinical assessment and diagnostic process in addictions. The key elements of making a good assessment, self-assessment, use of assessment tools, interviewing techniques, impediments to the assessment process, and the use of a multidimensional assessment approach are covered. Includes use of the "decision tree" diagnostic thinking process and basic use of the multiaxial system in the DSM-IV, with concentration on addictive and compulsive behavioral categories. Includes an understanding of various diagnostic instruments. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

18PRFS302

Neurobiology And Neuroendocrinology of Addictions

This course provides an understanding of the basic anatomy and physiology of the neuron and synapse. Students will understand specialized brain formations which sub-serve pain, pleasure, and motor coordination. Neurotransmitters, agonists, and anti-agonists affecting brain receptors will be studied, as related to drug impingement activity. Mood and behavioral factors associated with drug and neurotransmitter interactions and neuroendocrinology of hormones will be studied. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

18PRFS304

PARKS & RECREATION: PROFESSIONAL INTERN PROJECT

The Professional Intern Project is an approved and directed demonstration project in a qualified recreation or park agency. Students will be introduced to the concept of applied research in the field of leisure. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

18PRFS305

Developmental Domains of Infants and Toddlers

This course will broaden our knowledge of how young children move through three distinct stages and where they stand developmentally. This understanding will strengthen the ability to provide responsive, reciprocal, and respectful care. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

18PRFS410

Recreation and Leisure Programming

This course covers the fundamentals of recreation and leisure programming, philosophy, and goals, and translating goals into activities and evaluation. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

18PRFS411

Recreation Arts Programming

This course focuses on developing lesson plans for age appropriate activities in a recreation setting. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

18PRFS412

SIRI Pre-K

This course deals with reading and literacy instruction for preschool through kindergarten-aged children. BoK: NA. Credit Level: U. Credit Hrs: 1.00-10.50

18PRFS413

Infant and Toddler Development

This course discusses various aspects of infant and toddler development, including emotional, social, motor, language, and cognitive development. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

18PRFS415

English as a Second Language: Academic Reading and Writing I

Students will develop the ability to read and comprehend texts on various academic topics with an emphasis on vocabulary expansion

College of Education, Criminal Justice, and Human Services

Professional Seminar

18PRFS415

English as a Second Language: Academic Reading and Writing I

and application of critical thinking skills. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

18PRFS416

English as a Second Language: Academic Reading and Writing II

Students will continue to develop the ability to read and comprehend texts on various academic topics with an emphasis on extensive reading and the enhancement of critical thinking skills. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

18PRFS500

ESL - Beginning Assessment and Testing in ESL

This course covers the application of methods and measures for accurately assessing and linking assessment and instruction for K-12 culturally and linguistically diverse students in the public schools. The class is designed for classroom aides. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

18PRFS501

Accommodations and Modifications for ESL Students

This course covers the specific strategies and techniques to facilitate the learning of English by ESL students in content classrooms. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-10.00

18PRFS502

Stress Management Online

Online undergraduate and graduate course designed to examine the entire field of stress management: etiology, personality, and disease; stress patterns in work and other environments; physical and mental responses. Students must register their email addresses and use Blackboard. Course entirely online. Part-time students should register for the 705 section. If section 707 is full and a full-time student registers for section 705, the student will be charged part-time tuition in addition to the full-time tuition. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS503

Proportional Reasoning

Addresses the mathematics of proportional reasoning as described by the NCTM Principles and Standards for School Mathematics. Focuses on the expectations for middle school students. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS504

ESL - Cultural Diversity in ESL

This course examines the ways in which culture shapes students' lives. It uses literature of communication, gender roles, religious practice, law, and politics within the context of cultural differences to recognize and respond appropriately to culturally-based differences. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS505

ESL - Second Language Acquisition and the ESL Student

This course provides conceptual and practical understanding of effective second language methodology and curriculum planning for limited English proficient students. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS506

OMAP Measurement and Geometry and Spatial Sense

The Ohio Mathematics Program (OMAP) focuses on the deep mathematical content that teachers need for high quality middle grade instruction. This class covers content in measurement, geometry, and spatial sense. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS507

OMAP Data Analysis and Probability, and Number Sense and Operations

The Ohio Mathematics Academy Program (OMAP) focuses on the deep mathematical content that teachers need for high quality middle grade instruction. This module covers data analysis and probability, as well as number sense and operations. BoK: NA. Credit Level: U, G. Credit

Professional Seminar

18PRFS507

OMAP Data Analysis and Probability, and Number Sense and Operations

Hrs: 1.00-6.00

18PRFS508

Ohio Early Learning Content Standards: Science

This module explores the teacher's role in supporting young children's early concepts of science. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS509

Conflict Resolution

An online web-based course. The course surveys theories of conflict resolution and their application in educational settings. Two sections, with section 705 for part-time students. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-5.00

18PRFS511

Thinking Strategies and Instruction

Reading must be about thinking and constructing meaning. It is much more than pronouncing words. Researchers today define reading as a complex, recursive thinking process. Improve student comprehension, introduce thinking strategies, provide practical materials, apply learning. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS512

Effectively Supporting Diverse Backgrounds

The object of this course is to increase cross-cultural competence in assessment, instruction, and teaming. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-5.00

18PRFS513

Special Topics in Music Education

Professional development class on various topics related to music education including curriculum, instruction, assessment, and best practices. Designed for in-service teachers engaged in Pre-K-12 music education. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS514

Ohio Early Learning Content Standards: Mathematics

This module explores the teacher's role in supporting young children's early concepts of numbers and early addition and subtraction. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS515

Global Education

This online course will help experienced students understand what Global Education is, how to review and critique a lesson plan, and how to incorporate Global Education into lesson plans. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS516

Ohio Early Learning Content Standards Integrating Curriculum

This course supports teacher inquiry, community building, project documentation, responsive environments, play, intentional teaching and incidental learning opportunities, and assessment and accountability in early childhood environments. It is approved by ODE and offered to non-matriculated students as professional development. It is not open to CECH Early Childhood students unless by special permission. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS517

OELCS Individualized Education Plan and Curriculum

This module will begin with the young child's view point on curriculum, proceed to a discussion on the relationship between curriculum and OELC standards, and conclude with an exploration of how the IEP can be used as a tool to access that curriculum for young children with disabilities. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-10.50

18PRFS518

Service Learning for Peace Education

This service learning class concentrates on instructional strategies that connect classrooms to communities, enhance academic achievement,

College of Education, Criminal Justice, and Human Services Professional Seminar

18PRFS518

Service Learning for Peace Education

encourage civic responsibility, and serve as an instrument of peace. Students will construct lesson plans, learn to build partnerships, and deepen their understanding of social justice. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS519

English as a Second Language - Students in the Mainstream

This seven-lesson course aims to prepare teachers to work more effectively with English language learners in mainstream classes. Providing English language learners with appropriate instruction and support in the mainstream classroom takes extra time and effort but the payoff is worth it. Not only do ELL students benefit, so does the rest of the class. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS520

Technology Academic Content Standards

This course provides an understanding of the Technology Standards implemented for classrooms by the Ohio Department of Education. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS521

Leisure & Aging

Students will demonstrate knowledge of Ulysses' Adulthood and identify stereotypes and myths about aging and demographic trends. Students will define leisure and its role in successful aging, as well as examine the needs of the community and explore the development of the service industry. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS522

Recreational Sports Programming

Students will understand the concepts and applications of effective sports programming and administration. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS523

Developing Business and Education Programs

This course will identify and assess effective ways to identify activities and build partnerships to improve school programs and instruction. Often offered as part of regional and state conferences. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS524

Constructivism in the Classroom: Instructional Planning

Covers the theory of constructivism, a model of learning based on active techniques and experience. Students will design and implement lesson plans based on these principles. Includes lesson planning techniques. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS525

Standards-Based Instruction

Course covers instruction and assessment in a standards-based environment. It addresses application of standards in grades K-12 and subset ranges in various subject areas. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS526

Special Education Collaboration Techniques

Collaborative techniques and issues in the schools surrounding special education. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

18PRFS527

Methods of Teaching Foreign Language

Covers the theory of teaching foreign language learning based on active techniques and experience. Students will design and implement lesson plans based on these principles. Includes lesson planning techniques. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS528

Introduction to Therapeutic Recreation & Inclusion

The focus of this class is to introduce students to therapeutic recreation and inclusion services through public recreation programs. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Professional Seminar**18PRFS529****Introduction to Special Education**

An introduction to the field of special education. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS530**SERRC: Attention Deficit Hyperactive Disorder**

Attention deficit hyperactive disorder in the school system. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

18PRFS531**Diagnosis and Assessment of Children with Disabilities**

Diagnosis and assessment of children with disabilities, including the identification process, diagnosis and assessment instruments, and assessment of the curriculum and content area. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS532**Digital Literacy**

This class will show teachers the importance of using the internet with their students. The use of the internet to find information about various subjects is promoted and discussed in great detail. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS533**Classroom Management**

This course will provide specific ideas and strategies that save time, promote classroom order, and increase students' learning focus. Topics include: materials management through guided discovery; logical consequences; rules, rituals, and routines; and successful classroom beginnings, transition, and closure. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS534**Montessori Philosophy and Methods**

Students will gain a clear understanding of Maria Montessori and her work. The course will focus on the key concepts in the Montessori method. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-5.00

18PRFS535**Special Education Curriculum Design & Instruction**

To assist teachers in developing a variety of instructional methodologies to meet the diverse learning needs of students in the classroom. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS536**The Learning Centered Classroom**

Strategies for dealing with diverse classrooms in terms of gender, grade level, academic skills, and ethnicity in order to promote student learning. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-5.00

18PRFS537**Montessori Overview**

Montessori principles will be discussed, with emphasis on the concept of sensitive periods, developmental stages, three modes of learning, the three period lesson, and the nomenclature cards used in early research. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS538**Special Education Team Collaboration**

Team efforts and collaboration concerning special education in the schools. BoK: SE. Credit Level: U, G. Credit Hrs: 1.00-3.00

18PRFS539**Teaching Reading and Writing**

This course addresses facilitating the literacy development and reading and writing skills for diverse learners in the inclusive classroom, preschool through primary grades. An emphasis is on the relationship between language and communication development and literacy and interdisciplinary approaches, grounded in the Ohio Academic Content Standards. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

Professional Seminar**18PRFS540****Teaching Reading and Writing II**

This course addresses facilitating the literacy development and reading and writing skills for diverse learners in the inclusive classroom, middle and secondary grades through adulthood. An emphasis is on literacy related to functional skills and transitions, and literacy and interdisciplinary approaches, grounded in the Ohio Academic Content Standards. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS541**Special Topic Pre-K-12**

Special topics in the Pre-K-12 setting. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

18PRFS542**Individuals with Learning Disabilities**

Identification, assessment, educational approaches, educational service alternatives, interactions in the home and classroom, and current issues and trends with regard to children, youth, and adults with learning disabilities are covered in this course. In addition, student characteristics and instructional implication of various disabilities related to learning styles and rates are addressed. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS543**Effective Planning and Professional Practices in Early Childhood Special Education**

This course will allow teachers to examine appropriate intervention planning and instruction models for children on IEPs who are between the ages of 3 and 5 years old. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS544**Supporting Differing Learning Styles**

This course allows educators to develop curriculum that meets the diverse learning needs of their students. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS545**Teaching Geometry Using Technology K-2**

Effective planning and teaching methods for geometry units that integrate the use of technology. For K-2 teachers as inservice or preservice. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS546**Computer Applications Class for Teachers**

The goal of this course is to acquaint the teacher with Microsoft Office, with particular emphasis on Microsoft Word, Access, and Excel. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS547**Introduction to Computers**

The goal of this course is to acquaint the teacher with Windows, the internet, email, and educational software packages. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18PRFS548**Standards-Driven Curriculum**

Standards-driven curriculum is part of a sequenced professional development program for teachers. Teachers are introduced to a design process that they can use to write rigorous and complex extended student work units. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-5.00

18PRFS549**Critical Thinking Skills Online**

Online course. A course designed to assist teachers developing critical thinking skills in their students to attain information literacy. Covers the information search model in an online environment. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS550**Literacy Principles and Practices: Leadership**

Principles and current practices in literacy education and leadership.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Professional Seminar

18PRFS550

Literacy Principles and Practices: Leadership

BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS551

Special Education Literacy

This course examines literacy and literacy instruction in the special education field. BoK: DC. Credit Level: U, G. Credit Hrs: 1.00-3.00

18PRFS552

Elements of Instruction

This course is a study of the practical applications of learning theory in the classroom. Participants explore the latest in brain research, as well as "best practice" ideas for managing classroom time. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-6.00

18PRFS553

Standards-Based Classrooms

Teachers will clarify the meaning of the content area proficiency standards and develop standards-based units to provide evidence that students meet the Ohio-mandated proficiency standards. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-5.00

18PRFS554

Connecting Family, Community, and Schools

This course will instruct participants on how to develop strategies to increase family and community involvement in their schools. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS555

New Teacher Induction (Online)

The course provides support in classroom management, transitioning to the teaching environment, and methods that lead to an increased rate of retention for highly qualified teachers to develop school-wide structures and strategies based on effective schools research. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS556

New Teacher Induction (Online) Live Support Sessions

This course focuses on issues and topics for new classroom teachers in an interactive online environment. Topics vary with classroom conditions. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-5.00

18PRFS557

Montessori Methods (Advanced) - Structure and Organization

This advanced course explains the secondary Montessori classroom structure and organization, curriculum development, teaching methodology, field studies, and curriculum integration. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS558

Early Childhood Practicum

Practicum experiences for Early Childhood Education students for grades K-3. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-6.00

18PRFS559

Socratic Seminar - Secondary Montessori

Socratic Seminar prepares students to conduct this mode of teaching. The structure and process are practiced throughout the course. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS560

Integrating Computer Applications in Instruction

Designed for teachers who will learn how to integrate presentation, publishing, and web design software into classroom content. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS561

Web Design Basics for Classroom Instruction

Designed for teachers who will learn how to use web design software to create instructional web content. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-6.00

College of Education, Criminal Justice, and Human Services

Professional Seminar

18PRFS562

Advanced Elements of Instruction

This course is for veteran mentors who will develop advanced techniques of inquiry, profiles of practice, and levels of performance. Mentors must have completed 18PRFS552 and Pathwise training. Prereq: 18PRFS552. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS563

Arts as the Connecting Link in Curriculum Integration

The Arts Connections program by the Association for the Advancement of Arts Education. Week-long workshop for training in multiple intelligences, integrated curriculum, assessment design and development, arts and the proficiencies, and experience with professional artists. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-8.00

18PRFS564

Management of Parks and Recreation Facilities

This course is designed to provide students with an orientation into various management practices, structural makeup, design, operations, and functions related to managing recreational facilities. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS565

Multimedia Strategies for Reading and Social Studies

This course uses materials developed with the CET Safe Passage project to develop the knowledge, skills, and dispositions needed to teach reading, writing, and social studies in the middle grades. Participants will learn to use the Safe Passage materials to align instruction with standards, use effective teaching strategies, teach inquiry skills, use a variety of print and electronic media, and develop assessment strategies. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS566

Teaching Technology

This course will instruct teachers how to coach and teach novice or veteran teachers to develop competence in using technology to enhance student learning. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS567

Nature and Needs of the Gifted

Emphasis for the coordinators/practitioners is on understanding the nature and needs of gifted learners. Focus of the class will be on the practical application of the identification and assessment tools and the planning and implementation of appropriate gifted services. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

18PRFS568

Developing Mathematical Ideas

This course explores how students experience mathematics, focusing on the reasoning processes - a shift from the mechanical use of algorithms. Written and videotaped case studies will be analyzed as students perform the four basic operations. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-5.00

18PRFS569

Internet Searching and Researching

This course introduces concepts and methods related to searching the internet, comparing search engines, and using internet content effectively in instruction. An online course. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS570

Autism Spectrum Disorder

This course instructs teachers how best to communicate and teach students who are on the Autism Spectrum. The importance of using visual supports to encourage student learning will be emphasized. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS571

Special Topics in Social Studies

Seminars in special topics related to teaching Social Studies in various grades K-12. May be offered online. BoK: NA. Credit Level: U, G. Credit

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Professional Seminar

18PRFS571

Special Topics in Social Studies

Hrs: 1.00-6.00

18PRFS572

Online Student Courses

This course will help teachers gain an understanding of the purposes and benefits of online courses for students. Teachers will also have the opportunity to explore policy issues associated with offering online student courses. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS574

Data Driven Decisions for Instruction

Data collection and analysis as the basis of instructional decisions are examined. Includes data definitions, collection, graphing, and trend analysis. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS575

Social Studies: U.S. Studies

This course will instruct teachers how to actively align their curriculum to the U.S. Social Studies standards. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS576

Literature Review for Band Grades 5-12

Students will receive an overview of method books and materials appropriate for beginning band and middle/high school warm-up and techniques, and information regarding selection of appropriate literature for performance in band, grades 5-12. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS577

Designing Online Courses

This course will teach students how to develop courses for use in an online environment. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS578

Standards-Based Education for General Music Education

Students will learn standards-based strategies for effectively engaging students from diverse socio-economic, ethnic, cultural, and ability backgrounds, using an Orff-based approach, to increase student academic performance through concept-based learning. Correlation between fine arts and core content area concepts will be emphasized. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS579

Conflict Resolution

This course helps educators understand how to teach conflict resolution skills and empower students to resolve conflicts. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS580

Bridging Learning Theory in the Classroom

This course discusses ways to combine various theories in classroom teaching. Theories include behaviorism, cognitivism, constructivism, and brain-based learning. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS581

Understanding Student Motivation

This course allows teachers to encourage a sense of belonging and success for every student. Teachers will learn the differences between extrinsic and intrinsic motivation and will learn ways to elicit motivation by addressing the basic needs of all children. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS582

Teacher Behaviors that Promote Assessment for Learning

This course examines the teacher behaviors that promote quality assessment. Those behaviors include fairness, clarity, pride, and student centered planning. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

College of Education, Criminal Justice, and Human Services Professional Seminar

18PRFS584

Student Understanding and Achievement

This course allows teachers to understand what is needed in a classroom in order to promote student understanding and achievement, as well as how to establish positive teacher-student relationships. Teachers will also learn the importance of safe and affirming learning environments. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS585

Administration of ECE Settings

This course will instruct students on the history and theories of administration and the role of administrators in public services. Students will learn about the jobs of administrators and what opportunities they will have in administration. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS589

Management in ECE Settings

This course focuses on skills needed to support the day-to-day implementation of practices and standards that uphold the provision of quality services. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS590

Reading and Writing Workshop: Teaching Reading, Writing and Learning Strategies

This course is designed to explore the reading and writing workshop approach to instruction in a standards-based classroom. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS591

Instructional Strategies: Students with Mild to Moderate Educational Needs

An introduction to concepts and issues related to the teacher's ability to demonstrate an in-depth knowledge base in individual learning differences. The teacher will understand how students differ in their approaches to learning and create adapted learning opportunities. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS592

Individual Education Plans

This course covers the multiple requirements for Individual Education Plans that are designed for special needs students, so that they will have access to, be involved in, and make progress in a general education curriculum. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS593

Students With Disabilities

Examines the standards-based education impact on the development of Individualized Education Programs for students with disabilities. Also looks at statewide assessments such as the Ohio Graduation Test. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS594

Teacher Evaluation System

Course participants will develop and demonstrate individualized professional growth plans and methods for documenting and benchmarking their professional growth. Plans will be showcased in a culminating presentation. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-4.00

18PRFS595

SERRC Learning Strategies

Current effective learning strategies in special education. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-5.00

18PRFS597

Second Language Acquisition

This course covers elements of second language acquisition for English learners. It includes the acquisition process, misconceptions of second language proficiency, communicative and cognitive demands, and language instruction. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Professional Seminar

18PRFS598

Evaluating a Science Fair

This course will provide active teachers with the knowledge, tools, and resources to evaluate science fairs relative to student, teacher, and school administration participation. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS599

Grant Writing

Students will learn how to successfully develop a grant. The goal of this course is to develop a building-based leadership team for successful grant writing. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS600

Teacher Evaluation Systems: Comprehensive Appraisal

National Boards (NBPTS) advanced candidate seminar. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-5.00

18PRFS603

Information/Library Literacy

Classroom teachers research literacy, library, and media standards and identify resources to integrate information in classroom instruction. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS605

Math Grades 6-8

Effective planning and teaching methods for problem solving that integrate the use of technology, the internet, and computer software in math instruction for grades 6-8. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS606

Teaching Arithmetic

This course reviews the four arithmetic operations and considers how children develop meaningful approaches to the operations. Students learn to analyze thinking processes and guide children in learning computation. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-5.00

18PRFS611

Teaching Communication Skills

This course develops critical communication skills for instruction and student relationships. Special attention is paid to effective utilization of technology and online communications. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS612

The Online Learning Environment

Introduction to basic concepts of the internet and utilization of its content in classroom lessons. Includes completion of an internet-based lesson plan and classroom website for lesson management. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-6.00

18PRFS613

Developmental Psychology: Middle Childhood thru Adolescence

Topics include the physical and cognitive development extending from the middle childhood through adolescent years. Also includes implications for instruction. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

18PRFS614

Mentoring and Coaching in Early Childhood Education

Mentoring and coaching in early childhood education. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS615

Reading in the Content Areas

Seminar course covering specific topics for reading in the content areas. May be offered online. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS616

Art-Music in ECE

Methods and techniques in art and music integration in early childhood education. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

College of Education, Criminal Justice, and Human Services

Professional Seminar

18PRFS617

Reading for Proficiency in the Foreign Language Classroom

A seminar on reading, including reading for comprehension and reading for proficiency. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-2.00

18PRFS618

Instrumental Music Pedagogy

Students receive intensive review training in playing and teaching techniques for woodwind, brass, and percussion instruments. Includes skills for modeling performances and practices. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS619

Urban Teacher Leaders in STEM

This course exposes practicing teachers to issues surrounding setting high expectations, understanding poverty, and culturally-relevant teaching in urban schools. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-9.00

18PRFS622

Phonics

This course addresses the teaching and learning of phonetics, phonics, word study, and spelling in relationship to developing learners in a diverse and inclusive classroom setting. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-6.00

18PRFS623

Environmental Education

Topics in environmental education for teachers. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-6.00

18PRFS624

The Inclusion Classroom

This course examines the principles of inclusion in classroom settings. It includes preparation, implementation, strategies, and assessment, all within the framework of No Child Left Behind. An online class. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-6.00

18PRFS625

Science Activity for Middle School

This course implements science curriculum and activities across the middle school curriculum. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

18PRFS626

Mentor Training and Instructional Efficiency

Mentor training and improved instructional effectiveness in the schools. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-9.00

18PRFS627

Designing Performance Assessment

The course addresses multiple issues of designing performance assessment targets, tasks, and scoring tools in a manner that assures quality. An online course. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS628

Contemporary Issues

Contemporary issues in education and training. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-5.00

18PRFS629

Teacher Academy Practicum

A practicum experience for teachers who are guiding the classroom experiences of high school students who participate in the Teacher Academy vocational development program. Only open to Teacher Academy classroom teachers. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-9.00

18PRFS630

Cognitive Coaching

Mentor teachers will be trained to coach new teachers to grow as individuals, focusing on efficacy, flexibility, craftsmanship, consciousness, and interdependence. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Professional Seminar**18PRFS630****Cognitive Coaching**

Mentor teachers will be trained to coach new teachers to grow as individuals, focusing on efficacy, flexibility, craftsmanship, consciousness, and interdependence. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS631**Managing Challenging Behavior**

This course addresses approaches to challenging student behaviors through influencing factors analysis and intervention approaches. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS632**Cultural Diversity**

This course is one of a series of topical seminars in cultural diversity in an educational setting. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-5.00

18PRFS633**Reading and Writing Literary Braille**

Participants follow a programmed instruction text leading to mastery in both reading and writing the literary braille code. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS635**Professional Learning Communities**

Designed for in-service teacher leaders and curriculum personnel in a K-12 setting. Examines strategies for creating and maintaining professional learning communities and whole faculty study groups. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-6.00

18PRFS639**Improving the Learning Environment**

Topic classes that address various ways in which teachers can improve the teaching and learning environment. Special attention is given to ways in which teachers can intervene and effectively modify student behaviors to improve achievement. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-6.00

18PRFS641**Staff Development Seminar**

Seminar in various areas of staff development. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

18PRFS642**Advanced Staff Development Seminar**

Advanced seminar in various areas of staff development. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

18PRFS646**Supervised Field Clinical Experience (Alternative Licensure)**

Teaching experience in supervised conditions. A planning, performance, and reflection cycle is used to cause candidates to become aware of factors that influence instruction. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS647**Computer Programs for Teachers**

The goal of this class is to acquaint participants with the computer programs that are applicable to classroom instruction, student record maintenance, and communications. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS648**Language Development**

This course is a survey of language development, including factors influencing development and learning, effects of disabilities on language development and learning, and the relationship of language and literacy emergent through adolescence. The role of cultural diversity and limited English proficiency will also be discussed. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

Professional Seminar**18PRFS649****Chemistry and Forensic Science for Teachers**

Teachers will learn how chemistry can help with understanding how a product works. Teachers will also learn basic forensic techniques including document analysis, soil analysis, blood analysis, and drug analysis. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS650**Human Learning**

An introduction to the analysis of learning and teaching as it occurs in educational settings. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS651**Montessori Secondary Structure and Organization**

This course examines program models and curriculum development at the secondary level. State and local standards are integrated with the Montessori Philosophy at the secondary level. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS652**Montessori Erdkinder**

Students will form a strong community through seminars on stewardship and sustainability, shared work projects, and activities that illustrate the cycle of life and death. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS653**NBPTS from Start to Finish**

A series of workshops to provide teacher mentors with additional training to support the development of new mentors. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS655**NBPTS: Pre-Candidate Program**

During an intensive week-long institute, teachers develop an understanding of core concepts associated with this assessment process. They develop an understanding of the standards and the role they play in the assessment process. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-6.00

18PRFS659**Use of Technology in Classroom Science**

Science education and the integration of technology in the schools. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18PRFS660**NBPTS: Advanced Candidate**

National Boards (NBPTS) advanced candidate seminar. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-5.00

18PRFS662**NBPTS Start to Finish - Course #2**

The second of two courses providing the cognitive and collegial support for teachers to qualify for National Board (NBPTS) certification. Prereq: 18PRFS653. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-6.00

18PRFS663**Special Topics Math**

Special topics in math education. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS664**Special Topics in Science Education I**

Special topics in science education, first course. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-7.00

18PRFS665**Special Topics in Science Education II**

Special topics in science education, second course. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-7.00

18PRFS666**Cooperative Discipline**

This course will address causes of student misbehavior and help participants develop strategies to deal with student discipline in a

H=University Honors course.

Professional Seminar

18PRFS666

Cooperative Discipline

positive and cooperative manner. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-5.00

18PRFS669

Conducting Classroom Walk-Throughs

This course trains teachers and principals to improve achievement in their schools using the walk-through procedure. Content includes specific actions and activities that will enhance the quality of student learning and achievement. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-5.00

18PRFS671

Math: Advanced Concepts Grades 6-12

Course is designed for teachers who are oriented toward the high school student with advanced concepts in middle school math. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-6.00

18PRFS672

SBE Earth and Space Sciences OSCI Institute

The Ohio Science Institute improves student achievement in Standards-Based Education (SBE) through teacher development related to understanding science content and process standards, developing inquiry learning approaches, meeting the needs of all students, creating assessments, and applying technology. This course concentrates on earth and space science. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS673

SBE Physical Sciences OSCI Institute

The Ohio Science Institute improves student achievement in Standards-Based Education (SBE) through teacher development related to understanding science content and process standards, developing inquiry learning approaches, meeting the needs of all students, creating assessments, and applying technology. This course concentrates on physical sciences. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS674

SBE Life Sciences OSCI Institute

The Ohio Science Institute improves student achievement in Standards-Based Education (SBE) through teacher development related to understanding science content and process standards, developing inquiry learning approaches, meeting the needs of all students, creating assessments, and applying technology. This course concentrates on life sciences. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS675

Education and the Framework of Poverty

This course is designed to equip teachers to help students from poverty achieve success in the school and workplace. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS676

Special Topics in Mathematics and Science Education

This series of classes examines topical areas in mathematics and science education including curriculum content, instructional strategies, and standards-based education. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS677

Earth Science in Education

This course is designed to allow teachers to explore issues related to earth science and earth science education through an intensive, hands-on experience. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS678

OISM Year One

First year training modules for intervention-based services. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS679

OISM Advanced

Basic teaching in special education. BoK: NA. Credit Level: U, G. Credit

College of Education, Criminal Justice, and Human Services

Professional Seminar

18PRFS679

OISM Advanced

Hrs: 1.00-5.00

18PRFS680

Special Education Initiatives

Current initiatives in special education. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS681

SERRC: Teaching II

Teaching methods in special education. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

18PRFS682

SERRC: Teaching III

Advanced teaching methods in special education. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

18PRFS683

Substitute Teaching

Students will learn to be prepared, knowledgeable, and able to manage classroom behavior in short-term and long-term substitute teaching assignments. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS684

Helping Struggling Readers

Teachers will learn strategies to help struggling readers. Phonemic awareness, vocabulary, and making meaning will be discussed. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS685

Mathematics Investigations K-6

Course focuses on best practices, math concepts, and math understanding, which will lead to strengthened content knowledge, math pedagogy, and lesson comprehension. The outcome of this course is alignment among test requirements, course of study objectives, and teaching/learning behavior. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-6.00

18PRFS686

Connected Mathematics Grades 6-8

This course introduces the content of the Connected Mathematics program and prepares teachers to teach the program at their grade level. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-6.00

18PRFS687

Teaching the Fundamentals for Calculus 9-12

A three-quarter course sequence for teachers. Includes review of mathematics content as it relates to the teaching and learning of pre-calculus and calculus concepts in grades 9-12. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-9.00

18PRFS688

SERRC Student

Focus on the student in special education. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-5.00

18PRFS689

Special Education Legislation

Current legislation and implications in special education. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

18PRFS691

English as a Second Language in Early Childhood Education

Students will learn various techniques in teaching children ages 0-5 who are learning English as a second language. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-6.00

18PRFS693

SERRC Staff Development

Various issues and topics for staff development in special education. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-5.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Professional Seminar

18PRFS694

Authentic Assessment: Science Portfolio

The course describes a viable methodology for assessing science students by using science portfolios. Each participant will be required to implement this methodology in his or her classroom. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-2.00

18PRFS695

Multiple Intelligence

Workshop offered online, with two sessions in-person, offered for teachers interested in learning about new developments regarding student intelligence and implications for classrooms. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-5.00

18PRFS696

Mentoring in Head Start

Teachers will learn various techniques to mentor students who are learning about Head Start teaching. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS697

Interactive Writing

Learning how to integrate phonics, spelling, grammar, and writing requirements of the curriculum. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS698

Introduction to Curriculum Mapping

Learners explore the history and purpose of curriculum mapping, the role an individual teacher plays in curriculum mapping, the types of maps, and the various data collected in the maps. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS716

Understanding Student Motivation

This course will help teachers learn about student motivation, the power of intrinsic motivation, and how to enhance motivation. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-6.00

18PRFS717

Classroom Management: Building Relationships for Better Learning

This course instructs teachers on ways to build solid, working relationships with their students in order to maintain a positive, constructive working environment in the classroom. BoK: NA. Credit Level: G, U. Credit Hrs: 1.00-6.00

18PRFS718

Conflict Resolution

This course instructs teachers on how to handle conflict between students in a classroom setting. Teachers will learn how to become mediators and the various approaches to be used when becoming involved in resolving conflicts. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18PRFS510

SERRC: Effective Teaching

Effective teaching strategies in special education. Credit Level: G. Credit Hrs: 1.00-5.00

18PRFS602

Cooperative Learning in the Classroom

This course will provide specific cooperative learning structures that work in all grade levels. Participants will examine the rationale and research for cooperative learning and be provided with dozens of cooperative learning structures that participants can use immediately. Topics include: team formation, seating arrangement, team building, class building, social skills, classroom management, and cooperative learning structures. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS607

Advanced Topics in Literacy

Current topics in literacy education. Credit Level: G. Credit Hrs: 1.00-6.00

College of Education, Criminal Justice, and Human Services Professional Seminar

18PRFS620

Advanced Topics Science, Mathematics and Engineering Education

Various current topics in science education. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS621

Perceptions of Teaching

Students will understand the public perceptions of what goes on in schools and will develop strategies to overcome the hurdles that accompany the profession of teaching. Credit Level: G. Credit Hrs: 1.00-10.00

18PRFS634

Introduction to Teaching GCT - Gifted, Creative, Talented

General introduction to the education of children. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS636

Algebra Content and Pedagogy for Middle Grade Teachers

This course will examine ideas of algebra content and pedagogy for teaching algebra in the middle grades. It will explore adult level algebra problems and algebra problems appropriate for middle grades students. It will experience, read about and discuss teaching algebra content. Credit Level: G. Credit Hrs: 1.00-10.00

18PRFS637

GCT Instructional Strategies

Develop knowledge and understanding of the legal aspects and policy considerations for individuals who may be gifted, creative, or talented. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS638

Legal Aspects of GCT - Gifted, Creative, Talented

Develop knowledge and understanding of the legal aspects and policy considerations for individuals. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS640

GCT Collaboration and Consultation

Students will understand services, networks, and organizations for individuals, use group problem skills, communicate to schools about the needs of gifted people, and communicate effectively with families of gifted individuals from diverse backgrounds. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS643

Cultural Diversity and Families of Children

Develop knowledge, understanding, and respect for the needs and requirements of students with diverse learning needs in various educational settings. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS644

GCT Practicum Teaching Children and Youth Who are Gifted

Develop and maintain a relationship with the mentor and other members of the team, and interact in the role of instructor to students. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS645

GCT Collaboration and Consultation

Students will understand services, networks, and organizations for individuals, use group problem skills, communicate to schools about the needs of gifted people, and communicate effectively with families of gifted individuals from diverse backgrounds. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS654

Special Topics Special Education Curriculum

Various topics in special education and the curriculum. Credit Level: G. Credit Hrs: 1.00-3.00

18PRFS656

Special Topic Learning Style

Issues surrounding learning styles in staff development and the schools. Credit Level: G. Credit Hrs: 1.00-6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Professional Seminar

18PRFS657

Seminar Higher Education

Current issues in higher education for the teacher. Credit Level: G.

Credit Hrs: 1.00-3.00

18PRFS658

Special Topic Problems

Discussion concerning special problems in the schools. Credit Level: G.

Credit Hrs: 1.00-3.00

18PRFS667

Montessori Pedagogy of Place

Pedagogy of Place gives students a chance to experience real field studies within their own disciplines. During this class, teachers will learn to design their own experiential courses. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS668

Montessori Curriculum Development

Participants in this class will re-examine the models and curriculum presented in Curriculum Development. Implementing procedures for student accountability within the classroom and beyond will also be discussed. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS670

Montessori Practicum

Practicum will provide supervised teaching/learning experience and a period of observation, internalization, and further study, to bring together the theory and practice of Montessori Education. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS690

Special Topic Special Education

Special topics of interest in special education. Credit Level: G. Credit Hrs: 1.00-3.00

18PRFS692

Special Topics Collaborative Teaching

Special topics and issues in teaching collaboratively. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS699

NBPTS Summer Institute

Developing and understanding the standards of accomplished teaching of the NBPTS. Credit Level: G. Credit Hrs: 1.00-5.00

18PRFS700

Designing Performance Assessments

This course discusses various types of performance assessments, as well as techniques for creating them. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS701

Toward Equity in Achievement

This course will help leaders explore what it means to strive for equity in achievement and will provide insight about education policies. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS702

Advanced Cognitive Coaching

Teachers will be trained to be in-house trainers for the foundation level of Cognitive Coaching. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS703

SIRI Pre-Kindergarten Reading Instruction

State Institute for Reading Instruction, covering topics as a framework for conceptualizing early childhood learning and development. Credit Level: G. Credit Hrs: 1.00-10.50

18PRFS704

Leadership Development Support

A course meant to support leadership development in the schools. Credit Level: G. Credit Hrs: 3.00

College of Education, Criminal Justice, and Human Services

Professional Seminar

18PRFS705

State Institute for Reading Instruction (SIRI): Adolescent Literacy

This course provides teachers with foundational knowledge about adolescent literacy development, effective classroom reading instruction, and reading strategies within the Ohio Educational Standards and assessment system. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS706

Readings in Literacy: Literacy Specialist Project

A graduate literacy course, CORE, which focuses on literacy specialists' and teachers' study of CORE curriculum. It is based on the Ohio Standards and current research and evidence in literacy. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS707

Literacy CORE Pathway II

A graduate literacy course, Pathway II is focused on literacy specialists' and teachers' study of children's learning through diagnostic/evidenced-based methods. It involves multiple use of various developmental-appropriate assessments and instruction through a rigorous program of intervention. Credit Level: G. Credit Hrs: 1.00-5.00

18PRFS708

State Institute for Reading Instruction (SIRI): Focus on the First R

A four-day institute providing foundational knowledge and skills about reading development, effective classroom reading instruction in five essential components, differentiated instruction, and the state standards and assessment system. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS709

State Institute for Reading Instruction (SIRI): Focus on Reading Diagnostics and Lesson Design

A four-day institute for teachers who have completed the "First R" or have demonstrated advanced SBR training. Teachers learn to apply SBR instruction in an "assess, plan, teach" instructional cycle. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS710

Response to Intervention (RTI) Fundamentals

Response to Intervention (RTI) gives schools an opportunity to intervene early and change identification practices. This course covers the fundamentals, including federal law, history, research, implementation, and evaluation. An on-line class. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS711

Creating and Sustaining Professional Learning Centers

This course will investigate how contemporary school leaders communicate and collaborate with all stakeholders to promote improved student learning. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS712

Bullying: Let's Break the Cycle

Students will investigate the three components of an effective bullying definition; the effect of bullying on stakeholders' perspectives; strategies that support the bully; and identify successful intervention programs. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS713

Supervising Paraeducators in Your Classroom

This course deals with working with paraprofessional instructional aides in the classroom and in tutoring situations. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS714

Seminar in Special Issues in Math

Seminar in special topics and issues for the math area in teaching. Credit Level: G. Credit Hrs: 1.00-3.00

18PRFS715

Human Learning

An introduction to the analysis of learning and teaching as they occur in educational settings is presented in this course. Credit Level: G. Credit

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Professional Seminar

18PRFS715

Human Learning

Hrs: 1.00-6.00

18PRFS719

Field-Based Staff Development

Provides field-based instruction and supervised practice for staff development. Credit Level: G. Credit Hrs: 1.00-5.00

18PRFS720

OISM Coaching

This course is designed for OISM coaches who will assist their districts and buildings in the implementation of OISM. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS721

State Institute for Reading Instruction (SIRI): SIRI Extensions

Participants will implement a continuous and reflective professional development model for reading, writing, and content, based on State Institute for Reading Instruction (SIRI) guidelines. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS722

Seminar Methodology I

This seminar course examines different elementary, middle, and secondary teaching methodologies. Credit Level: G. Credit Hrs: 1.00-3.00

18PRFS723

Student Portfolios

This course examines various uses of a portfolio and the benefits of using it in the classroom. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS724

Integrating Technology, Multimedia, and Curriculum

Provides skills and experiences for integrating the use of technology and multimedia tools in curriculum for school-based staff. Credit Level: G. Credit Hrs: 1.00-5.00

18PRFS725

Seminar and Assessor Training

This course is designed strictly for veteran teachers who have been selected by their school districts to become assessors. They will understand the assessor's role in licensure as well as pass the APT to become assessors for the state. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS726

Seminar Reflective Practice

Seminar in reflective practice and teaching. Credit Level: G. Credit Hrs: 1.00-3.00

18PRFS727

Application Based Instruction: Pathwise Training

This training is to provide teachers with a working knowledge of the Pathwise framework. This will allow mentors to develop good observation skills, provide objective feedback and suggestions, as well as prepare entry-year teachers for Praxis III. Credit Level: G. Credit Hrs: 1.00-5.00

18PRFS728

Seminar in Teaching Language Arts

Seminar in topics related to teaching language arts. Topics vary with each seminar. Credit Level: G. Credit Hrs: 1.00-5.00

18PRFS729

Seminar in Standards-Based Curriculum

A series of seminars related to topics in standards-based curriculum and its effect on curriculum design and instructional strategies. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS730

Cooperative Grouping Strategies

This course is designed help teachers involve students in the process of active, rather than passive, learning techniques. Credit Level: G. Credit Hrs: 1.00-6.00

College of Education, Criminal Justice, and Human Services

Professional Seminar

18PRFS730

Cooperative Grouping Strategies

This course is designed help teachers involve students in the process of active, rather than passive, learning techniques. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS731

Strategic Reading in the Middle Years

Teachers will learn to teach strategic reading skills including strengthening comprehension skills, methods for scaffolding, and increasing vocabulary skills. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS732

Managing Literacy Learning Situations

This course will instruct teachers on how to design learning centers aligned to Ohio Literacy standards. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS733

Strategic Instructional Design

This course focuses on teacher behavior in two areas: effective lesson design and quality instructional practices. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS734

Action Research in Support of School Change and Continuous Improvement

Introduction to action research, evaluation, and case study research methods to support schools in applying data to drive their school change and continuous improvement efforts. Credit Level: G. Credit Hrs: 2.00-3.00

18PRFS735

Action Research in Support of School Change and Continuous Improvement

Action research, evaluation, and case study research methods to support schools in applying data to track their school change and continuous improvement efforts. Prereq: 18PRFS734. Credit Level: G. Credit Hrs: 2.00-3.00

18PRFS736

Action Research in Support of School Change and Continuous Improvement

Action research, evaluation, and case study research methods to support schools in applying data to track their school change and continuous improvement efforts. Prereq: 18PRFS735. Credit Level: G. Credit Hrs: 2.00-3.00

18PRFS737

Mathematics Professional Development

Students examine how children learn mathematics, research instructional strategies that improve student learning, and learn how to teach mathematics with problem solving as a primary focus. Credit Level: G. Credit Hrs: 1.00-5.00

18PRFS738

Engaging Activities to Motivate Your Students

Teachers will be presented with strategies and activities toward teaching in a standards-based Social Studies classroom. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS739

Engaging Activities Across All Standards

Teachers will be presented with strategies and activities toward teaching standards in American history, government, economics, and geography. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS740

Transforming Students from Academic Consumers to Producers

This course will instruct teachers to help prepare students for the OAT test. Teachers will learn to teach cross-curricular strategies. Credit Level: G. Credit Hrs: 1.00-6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Professional Seminar

18PRFS741

Crafting Curriculum

This course focuses on guiding curriculum development questions and examines the way in which instruction and assessment are supported by the curriculum. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS742

Competence Promotion

The promotion of competence in teaching and learning techniques for the student. Credit Level: G. Credit Hrs: 1.00-3.00

18PRFS743

Literacy

This course will help teachers develop techniques to support literacy development. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS744

Phonics & Reading

Teachers will learn the fundamental principles and concepts to teach reading. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS745

Transitioning from Secondary to College Level Writing

This course will instruct teachers in ways to increase and improve writing skills of secondary students. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS746

Using Personal Finance to Enhance Learning in Mathematics

Teachers will learn to help students better understand math skills as they relate to personal finance decisions. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS747

German Art Expressionism

This course takes an in-depth look at German Expressionism, an art movement which occurred in pre-war Germany between 1900 and 1914. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS748

Learning Strategies

Students will understand that the two main memory systems govern different types of learning. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS749

Secondary Teaching Methods: Science

This course focuses on frameworks for thinking about instructional goals in the field, suitable instructional models and practices, values issues associated with the field, as well as pedagogical requirements uniquely associated with science subject matter. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS750

School Leadership

Issues in leadership in the schools. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS751

Teaching Calculus

This course addresses derivatives: graphical, numerical, and algebraic points of view; derivatives of the basic functions; and applications of differentiation. It also covers antiderivatives, integrals, definite integrals, integration, and infinite sequences. Credit Level: G. Credit Hrs: 1.00-9.00

18PRFS752

Advanced Topics in Gifted, Creative, or Talented Education

This course addresses topics in teaching children who are gifted, creative, or talented. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS753

Secondary Teaching Methods: Mathematics

This course focuses on frameworks for thinking about instructional goals in the field, suitable instructional models and practices, values issues associated with the field, as well as pedagogical requirements

18PRFS753

Secondary Teaching Methods: Mathematics

uniquely associated with mathematics subject matter. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS754

Human Development: Adolescent

Topics in this course include principles, issues, and selected theories associated with development in middle childhood and adolescence. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS755

Mathematics Curriculum

This course prepares students to understand the measurement and evaluation aspects of teaching. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS756

Science Curriculum

This course prepares students to understand the aspects of teaching in the field of science. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS757

Calculus

Selected topics dealing with various functions, systems of linear equations, limits and derivatives will be presented, developed, and practiced. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS758

Topics in Probability and Statistics

Several mathematical topics underlying the mathematical approaches to probability and statistics will be presented, developed, and practiced. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS759

Fundamentals of Algebra with Geometry Topics

Selected topics dealing with various areas fundamental to the study of algebra, including related topics in geometry, will be presented, developed, and practiced. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS760

Technology Seminar

Seminar in current technology and its use in the classroom. Credit Level: G. Credit Hrs: 1.00-3.00

18PRFS761

Meeting Academic Standards with the Internet

Examines ways in which well-designed internet-supported activities can help students meet academic standards efficiently. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS762

Response to Intervention Models

This class focuses on implementation of school-wide intervention practices. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS763

Children's Authors on the Web

Introduces the basic concepts of author studies and how they can support and enhance student reading and writing. Locates and utilizes author studies available on the web. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS764

Creating and Sustaining Professional Learning Communities

This course instructs educators and administrators to accurately identify and meet the ever-changing needs of each student. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS765

Counselor's Academy

This course instructs support staff in various public K-12 settings to meet the needs of the students and families they are helping. Credit Level: G. Credit Hrs: 1.00-6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Professional Seminar

18PRFS766

Professional Development Natural Life Sciences

Professional development in the natural life sciences. Credit Level: G. Credit Hrs: 4.00

18PRFS767

Professional Development Topics in Ecology

Professional development in the natural life sciences. Credit Level: G. Credit Hrs: 4.00-6.00

18PRFS768

Internship

An Internship experience applied to an identified area of professional development, most often associated with licensure or an endorsement. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS769

Teaching Young Children With Learning Disabilities

This course will introduce methods and strategies for teaching young children with learning disabilities. Credit Level: G. Credit Hrs: 1.00-3.00

18PRFS770

Application-Based Instruction

Current applications and their use in instruction. Credit Level: G. Credit Hrs: 2.00-3.00

18PRFS771

TALL: Teacher Academy for Leaders and Learners in Mathematics Education.

This course will instruct specialists and support staff in public K-12 settings to work with students and families in the area of mathematics education. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS772

Understanding Educational Organizations

This course is the study of organizational theories and their application within education. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS773

Assessment and Intervention for Early Childhood

This course covers foundations in theory, assessment, and intervention techniques for early childhood and preschool intervention. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS774

The Brain

Students will explore the physical aspects of the brain and consider its role in emotions, memory, reasoning, planning, and problem solving. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS775

Exploring the Jewish Experience

This course is designed for teachers in Jewish and non-sectarian schools who are responsible for teaching Jewish studies subjects, topics, and themes through texts, films, and literature. Credit Level: G. Credit Hrs: 1.00-12.00

18PRFS776

Analysis of Student Work

This course is intended to assist school-based mentors, university-based supervisors, interns, and new teachers in the analysis of student work. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS777

Introduction to Instructional Mentoring

This course is intended for educators wishing to become mentor teachers in K-12 schools. Emphasis will be on strategies for creating successful, collegial relationships between the mentor/mentee pairing. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS779

Cognitive Functions

The goal of this class is to provide pre-service teachers with information on how individuals learn, in order to influence how they think about, structure, and deliver instruction in the classroom. Credit Level: G.

College of Education, Criminal Justice, and Human Services

Professional Seminar

18PRFS779

Cognitive Functions

Credit Hrs: 1.00-6.00

18PRFS780

Evidenced-Based Practices in Early Intervention for Pre-K Special Needs Endorsement Licensure

A licensure only class in methods and management techniques in providing appropriate developmental experiences for children with disabilities in groups of typically developing children. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS781

Preschool Education and Issues for Early ChildhoodSpecial Education Teachers

This course will provide special education personnel with a thorough understanding of the tenets of preschool education philosophy, curriculum, and instruction for all children. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS782

Phonics II

This course is designed to provide research-based and historical/cultural information about the teaching and learning of phonetics, phonics, word study, and spelling in relation to developing learners and a total reading program. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS783

Reflection in Teaching

Participants will give thoughtful consideration to the ways in which they now engage in professional work. They will also identify personal priorities and resources for making a credible difference in education through their practice. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS802

Contemporary Issues in American Education

Contemporary issues and topics in the American education system. Credit Level: G. Credit Hrs: 3.00

18PRFS804

Assessment, Evaluation, and Testing in ESL

This online course deals with the application of contemporary research in methodologies and measurement for accurately assessing and linking assessment and instruction in pre-K-12 culturally and linguistically diverse students learning ESL. Discussion of the effect of culture, language, and socioeconomic status on the assessment of ESL learning and achievement and the evaluators' and teachers' attitudes toward diagnosis and instructional recommendations for ESL populations will be emphasized. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS893

Ethics in Educational Leadership

This course is designed to introduce students to a variety of theories of ethical thought and their relationship to educational leadership. Through exposure to multiple ethical modes of thought, the students are invited to reflect upon their own ethical positions and apply them directly to critical dilemmas. Credit Level: G. Credit Hrs: 1.00-6.00

18PRFS950

Superintendency

A course which examines the role, functions, skills, and responsibilities of the school superintendency. As such, it is a course which is multidisciplinary in nature because the position rests at the apex of all school systems. Credit Level: G. Credit Hrs: 1.00-6.00

Psychology

18PSYC721

School Organization and the Role of the School Psychologist

Orientation to schools as organizations, schools and educational issues, and the role and function of school psychologists and other professionals. Includes supervised field experiences. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Psychology

18PSYC721

School Organization and the Role of the School Psychologist

Orientation to schools as organizations, schools and educational issues, and the role and function of school psychologists and other professionals. Includes supervised field experiences. Credit Level: G. Credit Hrs: 3.00

18PSYC730

Introduction to Legal and Ethical Issues in School Psychology

Examines recent legislation, regulations, court decisions, and ethical standards in terms of their impact on the work of helping professionals. Credit Level: G. Credit Hrs: 1.00

18PSYC781

Professional Seminar III

Various professional seminars. Credit Level: G. Credit Hrs: 1.00-3.00

18PSYC805

Behavior Research and Accountability Methods

Examines research methods and designs appropriate to the study of children's learning and behavior problems; requires research project. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

18PSYC810

Developmental Principles and Psychopathology

Foundations for child development and developmental psychopathology from an ecological and competence enhancement perspective. Emphasis is on implications for intervention and practice. Credit Level: G. Credit Hrs: 3.00

18PSYC815

Social Cognitive Theory and Intervention

Reviews recent literature in social and cognitive learning that has implications for assessment and interventions with children. Credit Level: G. Credit Hrs: 1.00

18PSYC821

School Psychology Practicum I

Integrated field experience in individual child study, assessment and intervention design, and related professional skills. Credit Level: G. Credit Hrs: 1.00-5.00

18PSYC822

School Psychology Practicum II

Integrated field experience in individual child study, assessment and intervention design, and related professional skills. Credit Level: G. Credit Hrs: 1.00-5.00

18PSYC823

School Psychology Practicum III

Integrated field experience in individual child study, assessment and intervention design, and related professional skills. Credit Level: G. Credit Hrs: 1.00-5.00

18PSYC824

Early Intervention Practicum I

Integrated, applied, supervised experience in school psychological services in early childhood settings. Credit Level: G. Credit Hrs: 1.00-5.00

18PSYC825

Early Intervention Practicum II

Integrated, applied, supervised experience in school psychological services in early childhood settings. Credit Level: G. Credit Hrs: 1.00-5.00

18PSYC826

Early Intervention Practicum III

Integrated, applied, supervised experience in school psychological services in early childhood settings. Credit Level: G. Credit Hrs: 1.00-5.00

Psychology

18PSYC840

Theories of Measurement for School Psychology

This first course in a sequence of required assessment courses provides foundational, technical, and theoretical knowledge in assessment and measurement theory and concepts. Credit Level: G. Credit Hrs: 3.00

18PSYC841

Introduction to Intellectual Assessment

Measurement of intellectual and cognitive functioning of children and adolescents, interpretation of scores, and test use. Credit Level: G. Credit Hrs: 3.00

18PSYC842

Academic Assessment

Practice with advanced techniques in direct and norm-referenced academic assessment for use in intervention planning and progress monitoring. Credit Level: G. Credit Hrs: 3.00

18PSYC843

Functional Assessment

An intensive introduction to functional assessment with low incidence populations, with particular emphasis on functional behavioral assessment and intervention. Credit Level: G. Credit Hrs: 3.00

18PSYC850

Assessment and Intervention for Early Childhood

Foundations in theory, assessment, and intervention techniques for early childhood and preschool intervention. Credit Level: G. Credit Hrs: 3.00

18PSYC851

Family Interventions: Theory and Application

An examination of foundations for working with families in schools with emphasis on developing school-based interventions and increasing home-school collaboration. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

18PSYC852

School-Based Behavioral Counseling

Provides knowledge, skills, and practice for development, implementation, and evaluation of school-based counseling groups for children and adolescents from an ecobehavioral orientation. Requirements include co-leading group and data-based portfolio entry. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

18PSYC853

School-Based Behavioral Counseling Practicum

Supervised experiences in school-based behavioral counseling for groups and individuals. Prereq: 18PSYC852. Credit Level: G. Credit Hrs: 1.00-3.00

18PSYC855P

PreK Special Needs: Assessment and Intervention

Pre-K Special Needs Endorsement course addressing foundations in theory, assessment, and intervention techniques for early childhood. Credit Level: G. Credit Hrs: 3.00

18PSYC860

Applied Behavior Analysis

Provides intensive introduction and practice in applied behavior analysis procedures and their use in developing classroom intervention strategies. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

18PSYC861

Foundations in Social/Behavioral Assessment and Intervention

Examines and provides practice in implementing and evaluating school-based interventions within the methodology of applied behavior analysis. Emphasis is on application with social-emotional problems. Credit Level: G. Credit Hrs: 3.00

18PSYC862

Academic Interventions

Examines a wide range of research-based intervention procedures for children's academic problems. Practicum component included,

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Psychology

18PSYC862

Academic Interventions

Involving design and implementation of intervention program for students experiencing classroom difficulty. Credit Level: G. Credit Hrs: 3.00

18PSYC863

School-Based Mental Health Prevention and Intervention

Foundations and principles for effective school-based group and system level interventions and accountability, with an emphasis on school-wide prevention programs and crisis response. Credit Level: G. Credit Hrs: 3.00

18PSYC871

Individual Study in School Psychology

Individual research on a problem relevant to school psychology. Faculty/individual contract required. Credit Level: G. Credit Hrs: 1.00-15.00

18PSYC872

Consultation I

Examines variables which influence consultative effectiveness; emphasizes skill development in collaborative problem-solving techniques. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

18PSYC873

Consultation II

Examines the conceptual and practical basis for effective consultation-based service delivery and use of collaborative problem-solving at a systems level. Credit Level: G. Credit Hrs: 3.00

18PSYC877

Critical Examination and Legal-Ethical Issues for Professional Practice

Review of legal, ethical, and professional practice issues in school psychology. Includes critical review of current issues in professional practice. Credit Level: G. Credit Hrs: 2.00

18PSYC879

Field Practicum in School Psychology

School Psychology field practicum. Credit Level: G. Credit Hrs: 1.00-15.00

18PSYC881

Advanced School Experience I

Provides advanced experience in services delivery, leadership and systems change, supervision, and research for doctoral students in School Psychology. Involves field-based work and seminars. Prereq: 18PSYC821, 18PSYC822. Coreq: 18PSYC823. Credit Level: G. Credit Hrs: 1.00-15.00

18PSYC882

Advanced School Experience II

Provides advanced experience in services delivery, leadership and systems change, supervision, and research for doctoral students in School Psychology. Involves field-based work and seminars. Credit Level: G. Credit Hrs: 1.00-15.00

18PSYC883

Advanced School Experience III

Provides advanced experience in services delivery, leadership and systems change, supervision, and research for doctoral students in School Psychology. Involves field-based work and seminars. Credit Level: G. Credit Hrs: 1.00-15.00

18PSYC891

Internship in School Psychology I

Supervised experiences in an applied setting plus regular on-campus seminars as arranged. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-15.00

18PSYC892

Internship in School Psychology II

See 18PSYC891. Information, skills, and experiences in indirect service delivery methods. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-

Psychology

18PSYC892

Internship in School Psychology II

15.00

18PSYC893

Internship in School Psychology III

See 18PSYC891. Information, skills, and experiences in indirect service delivery methods. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-15.00

18PSYC905

Advanced Behavioral Research Methods

Examines advanced measurement, sampling, experimental design, and data analysis for single case experimental research. Designed for doctoral students in School Psychology and related disciplines. Credit Level: G. Credit Hrs: 2.00

18PSYC910

Advanced Behavioral Theory and Practice

Surveys major areas of learning from a behavioral point of view, from its parochial origins to specific demonstrations and applications in human and nonhuman research. Perm of Instructor. Credit Level: G. Credit Hrs: 2.00

18PSYC953

Doctoral Colloquium in School Psychology

Discussion of research experiences, professional issues, and leadership. Credit Level: G. Credit Hrs: 1.00

18PSYC954

Doctoral Colloquium in School Psychology

See 18PSYC953. Credit Level: G. Credit Hrs: 1.00

18PSYC961

Doctoral Internship in School Psychology

Culminating field-based Internship, providing comprehensive school psychological services, for doctoral-level School Psychology students. Credit Level: G. Credit Hrs: 1.00-15.00

18PSYC962

Doctoral Internship in School Psychology II

Culminating field-based Internship, providing comprehensive school psychological services, for doctoral-level School Psychology students. Prereq: 18PSYC961. Credit Level: G. Credit Hrs: 1.00-15.00

18PSYC963

Doctoral Internship in School Psychology III

Culminating field-based Internship, providing comprehensive school psychological services, for doctoral-level School Psychology students. Prereq: 18PSYC962. Credit Level: G. Credit Hrs: 1.00-15.00

18PSYC973

Individual Dissertation Guidance

Individual study. Credit Level: G. Credit Hrs: 1.00-15.00

Secondary Education

Conceptions and theoretical perspectives of social studies curriculum and components. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SEC511**Instructional Planning**

Focuses on pedagogical concepts and principles related to planning and teaching lessons. Relates theory and research to instructional practices. Emphasizes basic instructional models and techniques. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SEC515**Instructional Management**

Examines the impact of the physical and social organization on learner involvement and behavior. Addresses values and principles to be reflected in a teacher's managerial policies. Prereq: 18SEC511. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SEC516**Field/Clinical Experience II**

Fifty-hour experience at an assigned school involving observing and teaching in classrooms related to area of licensure sought. Addresses both instructional and management topics and issues. Prereq: 18SEC511. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

18SEC520**Secondary Teaching Methods: Language Arts**

Develops planning and teaching skills especially appropriate to the teaching English in secondary school classrooms. Prereq: 18SEC511. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SEC521**Field/Clinical Experience I: Language Arts**

Sixty-hour experience at an assigned school involving observing and teaching language arts in secondary school classrooms. Prereq: 18SEC511. Coreq: 18SEC520. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SEC530**Teaching Methods: Foreign Language**

Pedagogical and theoretical frameworks necessary to implement effective second language classroom instruction. Prereq: 18SEC511. Coreq: 18SEC531. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SEC531**Field/Clinical Experience I: Foreign Language**

Sixty-hour experience at an assigned school involving observing and teaching foreign language in secondary school classrooms. Prereq: 18SEC511. Coreq: 18SEC530. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SEC540**Secondary Teaching Methods: Mathematics**

Develops planning and teaching skills especially appropriate to the teaching of mathematics. Prereq: 18SEC511. Coreq: 18SEC541. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SEC541**Field/Clinical Experience I: Mathematics**

Sixty-hour experience at an assigned school involving observing and teaching mathematics in secondary school classrooms. Prereq: 18SEC511. Coreq: 18SEC540. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SEC550**Secondary Teaching Methods: Science**

Develops planning and teaching skills especially appropriate to the teaching of science subjects. Prereq: 18SEC511. Coreq: 18SEC551. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

Secondary Education**18SEC550****Secondary Teaching Methods: Science**

Develops planning and teaching skills especially appropriate to the teaching of science subjects. Prereq: 18SEC511. Coreq: 18SEC551. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SEC551**Field/Clinical Experience I: Science**

Sixty-hour experience at an assigned school involving observing and teaching science in secondary school classrooms. Prereq: 18SEC511. Coreq: 18SEC550. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SEC560**Secondary Teaching Methods: Social Studies**

Develops planning and teaching skills especially appropriate to the teaching of social studies. Prereq: 18SEC511. Coreq: 18SEC561. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SEC561**Field/Clinical Experience I: Social Studies**

Sixty-hour experience at an assigned school involving observing and teaching social studies in secondary school classrooms. Prereq: 18SEC511. Coreq: 18SEC560. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SEC568**Practicum in Secondary Education**

Restricted option for teaching opportunities in secondary schools. By special arrangement. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

18SEC570**Teaching Reading, Writing, and Learning Strategies**

Examines the role of reading and writing in content area classrooms. Addresses young adult reading, writing, and learning strategies and ways to enhance them. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SEC620**Applied Secondary Teaching Methods: English/Language Arts**

Refines and develops English/language arts-related teaching skills in conjunction with the Internship experience. Prereq: 18SEC511. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SEC630**Applied Secondary Teaching Methods: Foreign Languages**

Refines and develops foreign language-related teaching skills in conjunction with the Internship experience. Prereq: 18SEC511. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SEC640**Applied Secondary Teaching Methods: Mathematics**

Refines and develops mathematics-related teaching skills in conjunction with the Internship experience. Prereq: 18SEC511. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SEC650**Applied Secondary Teaching Methods: Science**

Refines and develops science-related teaching skills in conjunction with the Internship experience. Prereq: 18SEC511. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SEC660**Applied Secondary Teaching Methods: Social Studies**

Refines and develops social studies-related teaching skills in conjunction with the Internship experience. Prereq: 18SEC511. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SEC671**Teaching Literature in the Secondary School**

Examines adolescent and young adult literature, including development of interest and appreciation, materials, and programs. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SEC672**Reading Improvement in Secondary Schools**

Focuses on the diagnostic teaching of developmental and content area

American Sign Language I

incorporated into this course. BoK: DC. Credit Level: U. Credit Hrs: 3.00

18SPED192

American Sign Language II

A second level course in the visual, gestural language of American Sign Language (ASL). This course is designed to offer an overview of linguistic, cultural, and sociolinguistic information regarding ASL while developing communication skills, both receptive and expressive. An understanding of culture and identity of the deaf community will be incorporated into this course. This course will be conducted in sign language with minimal voicing. Prereq: 18SPED191. BoK: DC. Credit Level: U. Credit Hrs: 3.00

18SPED193

American Sign Language III

A third level course in the visual, gestural language of American Sign Language (ASL). This course is designed to offer an overview of linguistic, cultural, and sociolinguistic information regarding ASL while developing communication skills, both receptive and expressive. An understanding of culture and identity of the deaf community will be incorporated into this course. This class will be conducted in sign language with minimal voicing. Prereq: 18SPED191, 18SPED192. BoK: DC. Credit Level: U. Credit Hrs: 3.00

18SPED201

Introduction to Interpreting Theory and Practice

This course will provide students with foundations of working in the interpreting field including, influences of culture on communication, working in multicultural communities, cultural frames, processing models of interpretation, mediation challenges, history and professionalization of interpreting, principles of professional practice, interpreting models. Prereq: 18SPED291. BoK: DC. Credit Level: U. Credit Hrs: 3.00

18SPED202

Processing Skills Development for Interpreters

This course will introduce various cognitive processes involved in sign language interpreting including memorization, the role of memory in the interpretation process, acuity and discrimination, phrase and word level pattern inferences, and delayed repetition. Concept application will be demonstrated through performance-based assessment. BoK: DC. Credit Level: U. Credit Hrs: 3.00

18SPED205

Methods of Interpreting

This course concentrates on further development and application, including analysis, of consecutive and simultaneous sign language interpreting. Additional aspects of interpreting such as expanded lexicon, fingerspelling competencies and current topics will be addressed. Prereq: 18SPED202. BoK: DC. Credit Level: U. Credit Hrs: 1.00-6.00

18SPED210

Psychosocial Aspects of Deafness

This course is designed to introduce students to psychosocial aspects of deafness. Students will learn about the language, norms of behavior, values, and traditions. The evolution of a pathological view of deaf people to a cultural one will be analyzed from a historical and sociological perspective. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

18SPED211

History of Deaf Heritage

This course is an introductory survey of the unique characteristics influencing deaf people throughout the past hundred years, and the achievements and accomplishments made by deaf individuals in various professional fields. Also, students will learn the importance of the national organizations of the deaf and of the achievements of deaf advocacy groups protecting the rights of deaf people. BoK: HP., DC. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

Special Education

18SPED250

Foundations and History of Special Education

This course is designed for teacher candidates to understand the issues and concepts related to the history and foundation of special education. This course is directly related to the Council for Exceptional Children (CEC) Special Education Content Standard #1: Foundations; Standard #2: Development and Characteristics of Learners; and Standard #3: Individual Learning Differences. BoK: SE. Credit Level: U. Credit Hrs: 4.00

18SPED291

Intermediate American Sign Language I

The course seeks to deepen students' grammatical competency on all linguistic levels: sign formation, vocabulary, morphology, syntax, and discourse. Emphasis will be placed upon improving students' receptive and productive abilities through exposure to connected discourse. BoK: DC. Credit Level: U. Credit Hrs: 3.00

18SPED292

Intermediate American Sign Language II

The course seeks to deepen students' grammatical competency on all linguistic levels: sign formation, vocabulary, morphology, syntax, and discourse. Emphasis will be placed upon improving students' receptive and productive abilities through exposure to connected discourse. Prereq: 18SPED291. BoK: DC. Credit Level: U. Credit Hrs: 3.00

18SPED293

Intermediate American Sign Language III

The course seeks to deepen students' grammatical competency on all linguistic levels: sign formation, vocabulary, morphology, syntax, and discourse. Emphasis will be placed upon improving students' receptive and productive abilities through exposure to connected discourse. Prereq: 18SPED291, 18SPED292. BoK: DC. Credit Level: U. Credit Hrs: 3.00

18SPED310

Legal Issues of Deafness

A comprehensive course about deaf and hard of hearing individuals seeking equal access to social services, education, employment, and medical care, including federal and state laws prohibiting discrimination against the handicapped. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

18SPED311

Advanced Interpreting and Transliterating Skills Development

Course focuses on deeper understanding and application of cognitive processing skills employed during consecutive simultaneous interpretation. Course will focus on additional theoretical foundations related to interpreting skills needed to manage the interpreting process successfully. Perm of Instructor. BoK: DC. Credit Level: U. Credit Hrs: 3.00

18SPED312

Critical Analysis for Interpreters

Through application of the Demand-Control Schema, students explore and discuss the interpreting contexts, examine roles and responsibilities, and address situational issues occurring within these contexts. Prereq: 18SPED311. BoK: DC. Credit Level: U. Credit Hrs: 3.00

18SPED313

Discourse Analysis for Interpreters

This course is the study of discourse for interpreters by analyzing interpreters' communicative competence. Knowledge of what is appropriate in various language communities will be examined. This course also includes the study of conversational interactions in English and ASL, including an analysis of the context and intentions of the people within various communication events. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18SPED314

Portfolio Assessment I

Course will provide students with a structured method for synthesizing

Special Education

18SPED314

Portfolio Assessment I

evidence of learning and accomplishments into a formal portfolio. BoK: DC. Credit Level: U. Credit Hrs: 1.00

18SPED321

Educational Interpreting and Transliterating Skills Development

Students will explore the role of the educational interpreter in K-12 and post-secondary settings. Relative laws and regulations, communication methods, resources, and practices by various members of the educational community will be covered. Topics that concern educational interpreters, including ethical and educational practices, will also be investigated. Perm of Instructor. BoK: DC. Credit Level: U. Credit Hrs: 3.00

18SPED322

Interpreting and Technology

This course is designed to study the relationship of technology on the deaf community. Students will engage in discussions to increase awareness and understanding of technology employed in various contexts. Students will also participate in activities designed to increase competencies needed for interpreting with technology. Perm of Instructor. BoK: DC. Credit Level: U. Credit Hrs: 3.00

18SPED323

Community Interpreting and Transliterating Skills Development

Course focus includes ethical topics in interpreting/transliterating, including students' role in the interpreting/transliterating process. Course will address various interpreting/ transliterating settings within community interpreting/transliterating in complex conflict resolutions. Course will focus on additional concepts related to advanced level interpreting/ transliterating skills specifically related to the influence of environmental factors. Prereq: 18SPED322. BoK: DC. Credit Level: U. Credit Hrs: 3.00

18SPED324

Business and Leadership of Interpreting

Students will explore various leadership theories and their application to the field of sign language interpreting. Business practices and ethics as they pertain to community sign language interpreters will be explored through use of small business service provider models. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18SPED325

Educational Interpreting and Learning

Students will explore the role of the educational interpreter in K-12 and post-secondary settings. Relative laws and regulations, as well as communication methods, resources, and practices by various members of the educational community will be covered. Topics that concern educational interpreters including ethical and educational practices will also be investigated. Prereq: 18SPED321. BoK: DC. Credit Level: U. Credit Hrs: 3.00

18SPED326

Educational Interpreting and Language

This course examines child development and the acquisition of a first language for hearing and deaf children. Students gain understanding of children's growth and development and the role of language and the influence on interpreting experiences. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18SPED391

Advanced American Sign Language and Linguistics

This course will cover Units 1-4 in Signing Naturally-Level III curriculum. Students will increase their skills in receptive and expressive American Sign Language grammar, semantics, syntax, and discourse via a total immersion experience (no voicing in the classroom). Prereq: 18SPED293. BoK: DC. Credit Level: U. Credit Hrs: 3.00

18SPED392

Advanced American Sign Language II

This course will cover Units 5-8 in Signing Naturally-Level III curriculum. Students will increase their skills in receptive and expressive American

18SPED392

Advanced American Sign Language II

Sign Language grammar, semantics, syntax, and discourse via a total immersion experience (no voicing in the classroom). BoK: DC. Credit Level: U. Credit Hrs: 3.00

18SPED393

Advanced American Sign Language III

Advanced American Sign Language III will cover Units 9-12 in Signing Naturally-Level III curriculum. Students will increase their skills in receptive and expressive American Sign Language grammar, semantics, syntax, and discourse via a total immersion experience (no voicing in the classroom). BoK: DC. Credit Level: U. Credit Hrs: 3.00

18SPED401

Field Experience Preparation

This course introduces students to the concepts and practice of service learning and mentoring/ guided leadership for interpreting. The course prepares students for service learning and guided leadership projects through design, development and discussion of proposals. Prereq: 18SPED313. BoK: SE. Credit Level: U. Credit Hrs: 2.00

18SPED402

Field Experience I: Service Learning

This is a field experience course designed to focus on service learning. The students will have the opportunity to interact with various members of the Deaf and/or Interpreting community to enrich their understanding of the culture and profession. Students will conduct projects previously designed during 18 SPED 401. Prereq: 18SPED401. BoK: DC. Credit Level: U. Credit Hrs: 6.00

18SPED403

FIELD EXPERIENCE II: MENTORING

This is a field experience course designed to focus on peer mentoring and development. The students will have the opportunity to interact with other student interpreters who are beginning their internship/practicum experience in sign language interpreting to enrich their understanding of and sensitivity to peer supervision and the novice interpreting experience. Students will conduct projects previously designed during SPED 401. Prereq: 18SPED402. BoK: DC. Credit Level: U. Credit Hrs: 6.00

18SPED404

Professionalism and Ethics

This course guides students in the investigation of professional identity and ethical practice. The course continues student knowledge and skill development for practice through the demand- control schema and interpreting discourse as it relates to ethical standards in the interpreting profession. Prereq: 18SPED312. BoK: SE. Credit Level: U. Credit Hrs: 3.00

18SPED406

Portfolio Assessment II

This course is second in a series of a two-part process for development and synthesis of evidence of learning for a final product, a professional portfolio. Students will examine current trends in the field of interpreting and beyond for collecting and integrating professional artifacts into a formal collection. Prereq: 18SPED314. BoK: SE. Credit Level: U. Credit Hrs: 1.00

18SPED442

Independent Study

Individual study in Special Education. Written agreement developed with faculty member required. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

18SPED508

Instructional Strategies: Students with Mild to Moderate Educational Needs

Instructional strategies for students with mild to moderate educational needs. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

College of Education, Criminal Justice, and Human Services

Special Education

18SPED509

Survey of Learning Disabilities: Mild to Moderate

Introduction to concepts and issues related to individual learning differences. BoK: NA. Credit Level: U. Credit Hrs: 3.00

18SPED511

Teaching Reading and Writing to Students with Disabilities I

A two-course sequence emphasizing cognitive processes related to reading and writing and identification of reading disorders in students with disabilities. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00

18SPED512

Teaching Reading and Writing to Students with Disabilities II

A two-course sequence emphasizing reading methods, remediation, and intervention strategies to accommodate learners with reading disorders. This course will include interactions with students with disabilities in an applied setting. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00

18SPED514

Seminar I: Mild to Moderate

Discussion of issues related to Internship and portfolio development. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18SPED518

Instructional Strategies: Students with Moderate to Intense Educational Needs

Instructional strategies for students with moderate to intense educational needs. This course will include interactions with students with disabilities in an applied setting. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SPED519

Augmentative Communication

Integration of principles of language development with principles of augmentative communication. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SPED520

Teaching Associate I: Mild to Moderate

Develop skills and ways of knowing and doing in supporting learners with effective instruction. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-12.00

18SPED526

Seminar I: Moderate to Intense

Discussion of issues related to Internship and portfolio development. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

18SPED530

ABA for Educators

Creating a learning environment for classrooms with a special focus on the challenging learner. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SPED531

Curriculum Planning for Individuals With Learning Differences

Curriculum planning for individuals with learning differences, with special focus on transitions across the life span. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SPED532

Management of Challenging Behaviors

Foundations of theoretical and behavioral models, with special focus on positive behavioral support, functional assessments, and behavior support plans. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SPED533

Assessment and Evaluation in Special Education

Discussion and practice of components of effective assessment. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SPED538

Language Development in Typical and Exceptional Children

A survey of normal language development in children; factors influencing development and learning; effects of disabilities and other

Special Education

18SPED538

Language Development in Typical and Exceptional Children

conditions on language development and learning. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00

18SPED581

Overview of Mild, Moderate to Intense Disabilities and their Impact on Learning and Living

Develop in-depth knowledge base in characteristics of learning through reflection, critical analysis, and synthesis. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SPED600

The Challenging Learner in Society

An introduction to the concepts and issues related to the schooling, learning, and instruction of individuals who experience significant disabilities. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00

18SPED601

Special Education and the Law

Topics associated with IDEA and related laws. Other topics include theories, learner characteristics, due process, IEP, services, professional ethics, and accountability issues. BoK: NA. Credit Level: G, U. Credit Hrs: 3.00

18SPED602

Current Issues in Special Education

This course focuses on various practices/models in providing services and meeting the challenges of individuals with special needs. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SPED604

Internship I: Mild to Moderate

Develop skills in supporting learner development and success. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-12.00

18SPED608

Internship I: Moderate to Intense

Develop skills in supporting learner development and success. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-12.00

18SPED611

Foundations of Literacy

This course focuses on instructional strategies to help children become literate. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SPED612

Teaching Reading and Writing through Literature

Teaching reading and writing through the use of literature. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SPED625

Intern Seminar in Special Education

Special Education issues seminar concurrent to post-graduate Internship experience. Prereq: 18SPED624. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

18SPED632

Individual Diversity: Secondary

This course addresses the issues of human diversity, as it is reflected in variations among individuals in learning styles and developmental rates, interaction styles, and accessing the environment through communication, mobility, vision, and audition. Coreq: 18SEC691. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

18SPED641

Phonics I - Special Education

This course is designed to provide research-based and historical/cultural information about the teaching and learning of phonetics, phonics, word study, and spelling in relation to developing learners and a total reading program. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

College of Education, Criminal Justice, and Human Services

Special Education

18SPED642

Phonics II - Special Education

This course is designed to provide research-based and historical/cultural information about the teaching and learning of phonetics, phonics, word study, and spelling in relation to developing learners and a total reading program. Prereq: 18SPED641. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SPED658

Individuals with Learning Disabilities

This course will focus on identification and assessment, educational approaches, educational services alternatives, interactions in the home and classroom, and current issues and trends with regard to children and youth who have learning disabilities. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00

18SPED667

Working with Supporting Families

Discusses methods and interventions for working with and supporting families. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SPED691

Autism Spectrum Disorders: An Overview for Educators

Introduction to children within the autism spectrum. Survey of characteristics, impact on learning, and intervention strategies. Techniques and methods for providing meaningful educational experiences and activities with individuals who have autistic-like behavior. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

18SPED660P

Gifted Endorsement: Overview of Education for Gifted, Creative, or Talented Students

Develop knowledge, understanding, and respect for the needs and requirements of students with diverse learning needs in varied educational settings. This is a professional graduate course offered by the Graduate Program in Special Education in the College of Education, Criminal Justice, and Human Services. Credit Level: G. Credit Hrs: 3.00

18SPED661P

Gifted Endorsement: Creating Learning Environments

Students will demonstrate an understanding of technology for planning and managing; choose technologies to modify the instructional process; learn grouping practices that support different learning environments; and identify and prioritize areas of general and differentiated curricula. This is a professional graduate course offered by the Graduate Program in Special Education in the College of Education, Criminal Justice, and Human Services. Credit Level: G. Credit Hrs: 3.00

18SPED662P

Gifted End: Instructional Strategies

Develop knowledge and understanding of the legal aspects and policy considerations for individuals who may be gifted, creative, or talented. This is a professional graduate course offered by the Graduate Program in Special Education in the College of Education, Criminal Justice, and Human Services. Credit Level: G. Credit Hrs: 3.00

18SPED663P

Gifted End: Introduction

General introduction to the education of children. This is a professional graduate course offered by the Graduate Program in Special Education in the College of Education, Criminal Justice, and Human Services. Credit Level: G. Credit Hrs: 3.00

18SPED668P

Gifted End: Legal Aspects and Models

Develop knowledge and understanding of the legal aspects and policy considerations for individuals. This is a professional graduate course offered by the Graduate Program in Special Education in the College of Education, Criminal Justice, and Human Services. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Special Education

18SPED702

Partnerships and Collaboration

Participants will become familiar with the philosophical bases and practical application of interacting collaboratively with colleagues, parents, community members, other professionals, and learners. An introduction to the concepts and issues related to the schooling, learning, and instruction of individuals who experience significant disabilities. Credit Level: G. Credit Hrs: 3.00

18SPED705

Instructional Assessment and Planning

This course (second in a three-quarter sequence) focuses on design, implementation, and assessment of instructional activities for challenging learners. Credit Level: G. Credit Hrs: 3.00

18SPED714

Theories of Language Development I

A survey of linguistic theories and their implications for language learning in normal and linguistically handicapped children and youth. Credit Level: G. Credit Hrs: 3.00

18SPED715

Theories of Language Development II

A continued survey of linguistic theories and their implications for language learning in normal and linguistically handicapped children and youth. Prereq: 18SPED714. Credit Level: G. Credit Hrs: 3.00

18SPED716

Techniques of Developing Language in Children and Youths

Application of language learning theory to classroom instruction and preparation of materials for students. Prereq: 18SPED715. Credit Level: G. Credit Hrs: 3.00

18SPED738

Documenting Professional Practice Through Media

Strategies for documenting and reflecting on professional practice through the use of video; generating evidence for best practice and student learning. Credit Level: G. Credit Hrs: 3.00

18SPED739

Documenting Professional Practice Through Writing

Describing student profiles, reflective questions, and assessment tools in writing; responding to prompts; generating written commentary describing teacher stance and reflections. Credit Level: G. Credit Hrs: 3.00

18SPED740

Teaching Associate Experience

This field experience provides participants with teaching experiences designing, implementing, and evaluating instruction for learners with disabilities. Credit Level: G. Credit Hrs: 1.00-3.00

18SPED745

Clinical/Field Practicum: Special Education

Experiences in schools and agencies serving individuals with disabilities. Credit Level: G. Credit Hrs: 1.00-3.00

18SPED766

Health, Wellness, Leisure, and Transitions

Techniques of delivering career education to individuals with disabilities. Credit Level: G. Credit Hrs: 3.00

18SPED767P

Gifted End: Cultural Diversity and Family GCT

Develop knowledge, understanding, and respect for the needs and requirements of students with diverse learning needs in various educational settings. This is a professional graduate course offered by the Graduate Program in Special Education in the College of Education, Criminal Justice, and Human Services. Credit Level: G. Credit Hrs: 3.00

18SPED768P

Gifted End: Assessment

Learn to analyze and understand assessment. Learn the implications of effective assessment for professional development and the role of bias and distortion in the assessment process. This is a professional

Special Education

18SPED768P

Gifted End: Assessment

graduate course offered by the Graduate Program in Special Education in the College of Education, Criminal Justice, and Human Services. Credit Level: G. Credit Hrs: 3.00

18SPED769P

Gifted End: Collaboration

Students will demonstrate an understanding of technology for planning and managing; choose technologies to modify the instructional process; learn grouping practices that support different learning environments; and identify and prioritize areas of general and differentiated curricula. This is a professional graduate course offered by the Graduate Program in Special Education in the College of Education, Criminal Justice, and Human Services. Credit Level: G. Credit Hrs: 3.00

18SPED770P

Gifted End: Practicum

Develop and maintain a relationship with the mentor and other members of the team, and interact in the role of instructor to students. This is a professional graduate course offered by the Graduate Program in Special Education in the College of Education, Criminal Justice, and Human Services. Credit Level: G. Credit Hrs: 3.00

18SPED778

Classroom Structure/Behavior Management for Special Education

Principles and practice in classroom structure and behavior management for special education. Credit Level: G. Credit Hrs: 3.00

18SPED781

Concepts and Issues in Developmental Disabilities

A survey course for full-time majors in the field studying the total range of mental disability. Credit Level: G. Credit Hrs: 3.00

18SPED783

Language Development: Implications for Special Education

A survey of normal language development in children; factors influencing language development and learning; implications for educating children with special needs in this area. Credit Level: G. Credit Hrs: 3.00

18SPED785

Thesis Guidance

Individual guidance for Special Education majors who are working on a thesis in the master's degree program. Credit Level: G. Credit Hrs: 1.00-9.00

18SPED786

Project Guidance

Individual guidance for Special Education majors who are working on a special project in the master's degree program. Credit Level: G. Credit Hrs: 1.00-9.00

18SPED787

Master's Project Seminar in Special Education

Exploration of current trends and issues for practitioners. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

18SPED790

Intervention Specialist Internship: Moderate to Intense

This course provides opportunities for the graduate student Intern to develop skills in supporting learners' development through the practice of effective instruction. Credit Level: G. Credit Hrs: 1.00-15.00

18SPED796

Intervention Specialist Internship: Mild to Moderate

Teaching Internship working with students who have mild to moderate educational needs. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-15.00

18SPED812

Study and Seminar in Communication Assessment

Survey of literature and research; review of procedures and materials on assessment of language, literacy learning, and development in the

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

Special Education

18SPED812

Study and Seminar in Communication Assessment

variety of modes. Credit Level: G. Credit Hrs: 2.00-12.00

18SPED871

Individual Study in Special Education

Individual research on a problem in the field of special education. Must have signed contract before quarter begins. Credit Level: G. Credit Hrs: 1.00-6.00

18SPED872

Readings in Special Education

Selected readings regarding major research contributions in an area of special education. Written contract required before quarter begins. Credit Level: G. Credit Hrs: 1.00-6.00

18SPED879

Assessment and Intervention in the Classroom

This course will focus on special topics associated with assessment and evaluation of learners who have special needs. Credit Level: G. Credit Hrs: 3.00

18SPED891

Doctoral Seminar in Special Education I

Introduces selected research ideas and methodologies in special education and related fields. Credit Level: G. Credit Hrs: 1.00

18SPED892

Doctoral Seminar in Special Education II

Investigates and critically analyzes selected research literature in special education and related fields from a methodological and conceptual basis. Credit Level: G. Credit Hrs: 1.00

18SPED893

Doctoral Seminar in Special Education III

Investigates and critically analyzes selected research literature in special education and related fields from a methodological and conceptual basis. Credit Level: G. Credit Hrs: 1.00

18SPED897

Doctoral Research in Special Education I

First in a three-course sequence providing students with the foundational knowledge for disabilities studies. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

18SPED898

Doctoral Research in Special Education II

Second of a three-course sequence providing students with the skills to identify appropriate RFP's, design projects, and write proposals for external funding. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

18SPED899

Doctoral Research in Special Education III

Third of a three-course sequence providing students with skills emphasizing writing for scholarship, publication, and presentation. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

18SPED901

Theory and Practice in Multidiscipline Evaluation and Diagnosis of Exceptional Children

Advanced instruction in methods and techniques used in the appraisal of exceptional children and youth. Credit Level: G. Credit Hrs: 3.00-5.00

18SPED902

Practicum in Multidiscipline Evaluation and Diagnosis of Exceptional Children

Principles covered in 18SPED901 during supervised program of practical experience. Credit Level: G. Credit Hrs: 3.00-5.00

18SPED903

Seminar and Practicum on Multidiscipline Evaluation and Diagnosis of Exceptional Children

Case study approach. Problems of evaluation; appraisal of exceptional children and youth at CCDD. Credit Level: G. Credit Hrs: 3.00-5.00

Special Education

18SPED904

Doctoral Internship in Special Education

Orientation, observation, and participation in educational agencies devoted to serving exceptional children, youth, and adults. Quarter and time to be arranged. Credit Level: G. Credit Hrs: 3.00-15.00

18SPED952

Professional Seminar in Teacher Education II: Diversity of Learners and Schooling Processes

Seminar examining the diversity of learners in social groups and the socially constructed nature of the schooling practices that affect them. Credit Level: G. Credit Hrs: 3.00

18SPED971

Non-Thesis Research by a Doctoral Student

Individually supervised research project completed under the tutelage of a full-time faculty member. Credit Level: G. Credit Hrs: 3.00-15.00

18SPED973

Individual Dissertation Guidance

Hours and credit to be arranged. Offered quarterly. Credit Level: G. Credit Hrs: 1.00-15.00

18SPED975

Current Trends and Issues in Special Education: Seminar

An investigation of current trends and issues in the field of special education. Credit Level: G. Credit Hrs: 3.00

18SPED976

Clinical Internship in Special Education

Orientation, observation, and clinical practicum. Credit Level: G. Credit Hrs: 3.00-15.00

Treatment

18TRMT251

Child Protective Services

Course covers a broad knowledge base of child protective services (history, distinctive aspects, scope and demographics, process, treatment, problems, trends) and how this system interacts with law enforcement and the courts. Will explain the what and the why, not the how. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18TRMT252

Children and the Courts

The course will analyze judicial attempts to insure the safety and well-being of children in American society. The course will consider the child witness, the child as a crime victim, the orphaned child, and the child in the context of divorce. The course will provide a historical context in which the judicial response has mirrored societies' changing mores. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18TRMT271

Crisis Management

Crisis management is an extensive strategy integrated into human service work. This course will introduce undergraduate social workers and other human service workers to the concepts of crisis work. The course will focus on problems of living, oriented to the here and now. Students will learn strategies from numerous practice theories and interventions. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18TRMT278

Stress Management in Treatment

This course provides an analysis of the nature of stress, beliefs about stress, current research, prevention, and coping strategies. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18TRMT279

Gender Interaction in Treatment

This course examines gender communication and research that has been done on the subject. BoK: SS., HU. Credit Level: U. Credit Hrs: 3.00

Treatment**18TRMT281****Native American Culture and Treatment Applications**

Introduces students to Native American cultures by reviewing literature and cultural practices as they relate to treatment. BoK: DC., LT. Credit Level: U. Credit Hrs: 3.00

18TRMT283**Understanding the Intervention of Batterers**

The purpose of this course is to introduce the student to the theoretical aspect of understanding batterer intervention, including an historical overview of the intervention movement, theories related to intervention approaches, goals of batterer intervention, current trends, and setting up a comprehensive and effective batterer program. Students will become aware that "intervention of batterers" takes specific skills and knowledge beyond "general" intervention. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18TRMT310**Child Abuse I**

This course will consider the public system's response to children at risk. The focus will be upon remedies, both for children who engage in delinquent behavior and for families who put children at risk of abuse or neglect. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18TRMT311**Child Abuse II**

This course will follow Child Abuse I as a more in-depth discussion of child abuse and neglect topics. This course will go beyond identification as discussed in Child Abuse I to evaluation of child abuse, neglect, and treatment. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18TRMT312**Dynamics of Victimization**

The purpose of this course is to introduce the student to the dynamics of victimization. The student will learn some history of violence and oppression and the correlation between the two. The different types of abuse, the cycle of violence, and cultural reactions to abuse will be introduced to the student. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18TRMT313**Treating the Sexual Abuser**

The purpose of this course is to introduce the student to the parameters of services available in terms of treating the sexual offender. The student will learn the essential components of the therapeutic repertoire of skills including theoretical models of behavior, assessment, differential diagnoses, cognitive orientations, behavioral management, and relapse prevention. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18TRMT314**Treatment Issues/Strategies with Domestic Violence**

The purpose of this course is to introduce the student to the counseling, assessment, and treatment strategies with victims of domestic violence. Students will also gain knowledge of the characteristic behaviors of the victims of domestic violence and of developing treatment plans, and gain familiarity with varied forms of domestic violence and the essential need to correlate treatment strategies with these respective forms. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18TRMT315**Assessment and Treatment Strategies with Batterers**

The goal of this course is to help students develop the necessary skills for assessing and co-facilitating batterer intervention groups. This course is vital to understanding and developing safe intervention strategies that will end the violence toward intimate partners. The course will include guest speakers from the domestic violence field, video tapes, and lecture/discussion. Students will also be required to role-play as co-facilitators and group members. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18TRMT316**Abnormal Behavior I**

This class introduces undergraduate and graduate students to the

Treatment**18TRMT316****Abnormal Behavior I**

growing literature linking biology to social development in general and to criminal behavior specifically. Special attention is paid to behavior genetics and the heritability of traits, brain functioning and growth, and functions of neurotransmitters. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18TRMT317**Abnormal Behavior II**

Continuation of 18TRMT316. Prereq: 18TRMT316. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18TRMT318**Abnormal Behavior III**

Continuation of 18TRMT316 & 317. Prereq: 18TRMT316, 18TRMT317. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18TRMT322**Domestic Violence and the Law**

This course was developed to provide students with essential legal information as it relates to federal, state, and local laws; and the associated legal processes that are involved with stalking and domestic violence. This is an essential course for those students working with both perpetrators and victims of domestic violence. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18TRMT361**Grief: Death and Dying**

This course provides skills to enable the social worker to assist family members and others to cope with death and dying. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18TRMT385**Single Parent Families**

Reality will be separated from myth of the single parent family - the fastest growing American family form. Offered alternate years. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18TRMT394**Introduction to DSM IV**

This course will introduce undergraduate social workers and other human service workers to the basic concepts of psychopathology and to the Diagnostic and Statistical Manual IV of the American Psychiatric Association, used in the assessment of mental disorders. The course will include a focus on the influences of human diversity in a psycho/social assessment. BoK: SS. Credit Level: U. Credit Hrs: 3.00

18TRMT411**Child Sexual Abuse**

This course will provide an introduction to and overview of general and specific issues related to child sexual abuse. Emphasis will be given to the impact of culture on issues of sexual abuse. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18TRMT415**Childhood Trauma and Recovery**

This course will explore the "costs" of traumatic abuse to the individual, family, community, and society. While examining the enormous impact of abuse on one's self-concept and interpersonal relationships, the course will also emphasize stages of recovery throughout the lifespan. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18TRMT421**Child Abuse Prevention Strategies for Educators**

This course will provide information and strategies to utilize in the identification, intervention, and prevention of child abuse. This course will also meet the requirements of Ohio House Bill 55, required of all elementary school staff, and a certificate for such can be provided. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18TRMT429**Counseling the Sexual Abuser**

Introduces the student to the parameters of services available in terms

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Treatment**18TRMT429****Counseling the Sexual Abuser**

of treating the sexual offender. Students will learn essential components of the therapeutic repertoire of skills, including theoretical models of behavior, assessment, differential diagnoses, cognitive orientations, behavioral management, and relapse prevention. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18TRMT571**Children's Rights**

Emerging rights of children, from the US Supreme Court landmark decision of In Re Gault in 1967 to the present. Changing precepts of the rights of children; rights of parents; and the interest of the State regarding delinquency, ungovernability, corporal punishment, abortion, contraception, commitment to mental health facilities, termination of parental rights, support, and emancipation. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

18TRMT572**Children's Rights II**

Children's Rights II will consider the public system's response to children at risk. The focus will be upon remedies, both for children who engage in delinquent behavior and for families who put children at risk of abuse or neglect. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

Urban Educational Leadership**18UEL801****Professional Seminar in Urban Educational Leadership**

This course is limited to first year doctoral students in Urban Educational Leadership for whom it is required as preparation for meeting program requirements. Credit Level: G. Credit Hrs: 3.00

18UEL802**Professional Seminar in Urban Educational Leadership**

This course is limited to first year doctoral students in Urban Educational Leadership for whom it is required as preparation for meeting program requirements. Credit Level: G. Credit Hrs: 3.00

18UEL871**Individual Study in Urban Educational Leadership**

Supervised individual study of selected issues in urban educational leadership. By contract with faculty member. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-6.00

18UEL876**Special Topics in Urban Education Leadership**

Seminar on selected issues in urban educational leadership. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-3.00

18UEL877**Practicum in Urban Education Leadership**

Supervised practicum designed to allow students to examine selected leadership issues in urban educational schools and communities. By contract with faculty member. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-6.00

18UEL879**Leadership in P-16 Partnerships**

Seminar examining how the quality of student learning and achievement in urban schools can be enabled through strong, sustaining, and systemic partnerships involving key institutions across the community. Credit Level: G. Credit Hrs: 3.00

18UEL901**Theoretical Foundations of Urban Education Leadership**

Cohort seminar designed to introduce students to the theoretical frameworks and research practices surrounding urban educational leadership issues. Credit Level: G. Credit Hrs: 3.00

18UEL912**UEL Seminar: Leading Urban Educational Organizations through Change**

Cohort seminar designed to introduce students to the methods and

Urban Educational Leadership**18UEL912****UEL Seminar: Leading Urban Educational Organizations through Change**

theoretical frameworks used by education leaders to foster change in urban educational organizations. Credit Level: G. Credit Hrs: 3.00

18UEL913**Leading, Learning, and Teaching in Urban Communities**

Cohort seminar designed to introduce students to the processes used by educational leaders to facilitate effective learning and teaching in urban educational organizations. Credit Level: G. Credit Hrs: 3.00

18UEL914**Social, Political, Economic, and Legal Contexts of Urban Educational Leadership**

Cohort seminar designed to introduce students to the various social, political, economic, and legal contexts surrounding the practice of urban educational leadership. Credit Level: G. Credit Hrs: 3.00

18UEL930**Internship Development**

Course provides students with guidance in the development and location of mentored Internships. Credit Level: G. Credit Hrs: 3.00

18UEL931**Internship I**

First in a two-course sequence of mentored Internships designed to give students opportunities to practice and develop leadership skills in urban school and community settings. Credit Level: G. Credit Hrs: 3.00

18UEL932**Internship II**

Second in a two-course sequence of mentored Internships designed to give students opportunities to practice and develop leadership skills in urban school and community settings. Prereq: 18UEL931. Credit Level: G. Credit Hrs: 3.00

18UEL973**Individual Dissertation Guidance**

Individual guidance in doctoral dissertation research. Hours and credits to be arranged. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-15.00

COLLEGE OF ENGINEERING

COURSE DESCRIPTIONS

(20) College of Engineering

2008 - 2009

College of Engineering 1

Aerospace Engineering & Engineering Mechanics

20AEEM100

Introduction to Aerospace Engineering

Introduction to college staff and organizations. Small group work by major, including ethics, the co-op program, and a team project in creative problem solving. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20AEEM101

Mechanics I

Study of statics. Moments, resultant forces and equilibrium for particles and rigid bodies, friction. Ea. qtr. Lecture_(formerly 20ENFD101) Prereq: 15PHYS201. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20AEEM102

Mechanics II

Study of motion and the relationship between force, mass and acceleration for particles. Work-energy and impulse-momentum concepts. Ea. qtr. Lecture_(formerly 20ENFD102) Prereq: 20AEEM101, 15PHYS201. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20AEEM103

Mechanics III

Centroids, center of gravity. Study of motion and the relationship between force, mass and acceleration for rigid bodies. Lecture (Formerly 20ENFD103) Prereq: 20AEEM102. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20AEEM110

Introduction to Aircraft Engineering

History of Aviation. Topical case studies from trade and technical publications. Aeronautical terminology. Role of disciplines and their interrelations. Role and importance of basic sciences and mathematics. Design, fabricate, and test a flying wing. Prereq: 20AEEM100. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20AEEM111

Introduction to Spacecraft Engineering

Development of the fundamental concepts of spaceflight mechanics. Applications to Earth- orbiting spacecraft. Prereq: 20AEEM100. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20AEEM120

Introduction to Engineering Mechanics I

Interdisciplinary nature of engineering mechanics. Role of sub disciplines and their interrelation. Roles and importance of basic sciences and mathematics to engineering mechanics roles of theoretical and experimental methods. Case studies from trade publications. Role of professional societies. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20AEEM121

Introduction to Engineering Mechanics II

History of non destructive evaluation. History of biomechanics. History of composite materials. Employment opportunities. Role of graduate education. Communication and presentation skills. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20AEEM211

Basic Integrated Engineering

Elementary design concepts, team problem-solving, optimization of fundamental engineering problems, and oral and written communication skills. Prereq: 20ENFD112, 20ENFD101, 15MATH253, 15PHYS201. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20AEEM212

Probabilistic Engineering

Probability and statistics for design and reliability, design case studies, and continuation of engineering design experience from Basic Integrated Engineering. Prereq: 20AEEM211, 15MATH254. BoK: QR. Credit Level: U. Credit Hrs: 3.00

Aerospace Engineering & Engineering Mechanics

20AEEM313

Modeling and Simulation of Physical Systems

Modeling of physical systems, actuators and sensors. Transient response, design of physical systems to meet constraints. Introduction to computer simulation and virtual laboratory. Prereq: 20ENFD102, 20ENFD112, 15MATH273, 15PHYS203. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20AEEM320

Introduction to Astrodynamics

General formulation of differential equations of motion of particles and systems of particles in non-rotating and rotating frames; equilibrium; linearization and stability; two-body and central force problems; energy methods; introduction to rigid body dynamics. 3 lec. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

20AEEM329

Fundamentals of Engineering Measurements

Principles of modern computer-based engineering measurements, sensors, data acquisition systems, signal processing, data storage and display. Prereq: 15PHYS203, 15PHYS213. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20AEEM336

Mechanics of Solids I

Stress-strain concepts. Stress-strain transformations. Failure theories. Uniaxial and combined stresses. Torsion. Symmetric beam bending. Prereq: 15MATH273. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20AEEM337

Mechanics of Solids II

Shear deformation. Asymmetric bending. Stiffness of structures. Combined loadings. Energy methods. Stability and buckling. Prereq: 20AEEM336. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20AEEM342

Fundamentals of Aerodynamics

Principles of ideal fluids and aerodynamics: potential theory; flow of perfect fluids around 2D bodies. Lift and pitching moment of an airfoil of infinite span. Panel method. Prereq: 15MATH254, 15MATH258, 15PHYS201, 20ENFD383. BoK: NS. Credit Level: U. Credit Hrs: 3.00

20AEEM352

Vibration Analysis

Free and forced vibration of systems with one and many degrees of freedom; introduction to continuous systems; computational techniques. Prereq: 20ENFD103, 15MATH273, 15MATH276. BoK: NS. Credit Level: U. Credit Hrs: 3.00

20AEEM360

Numerical Methods for Engineering Design

Interpolation and approximation, numerical integration, solutions of equations, systems of equations. Solution of ordinary differential equations; computer design problems with application to Aerospace Engineering and Engineering Mechanics. Prereq: 15MATH254, 15MATH273, 15MATH276, 20ENFD103. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20AEEM361

Integrated Aircraft Engineering

Students will learn aircraft spacecraft and propulsion system nomenclature. Students will develop an appreciation for aerospace vehicles and propulsion systems through case studies of or in response to previous preliminary design efforts or via case studies from AIAA or aerospace contractors. Students will work in small groups on several aspects of a component or subsystem design on several aspects of a component or subsystem design of an aerospace vehicle or propulsion system component. Prereq: 15MATH254, 15MATH273, 20ENFD103. BoK: QR. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Aerospace Engineering & Engineering Mechanics**20AEEM361****Integrated Aircraft Engineering**

Students will learn aircraft spacecraft and propulsion system nomenclature. Students will develop an appreciation for aerospace vehicles and propulsion systems through case studies of or in response to previous preliminary design efforts or via case studies from AIAA or aerospace contractors. Students will work in small groups on several aspects of a component or subsystem design on several aspects of a component or subsystem design of an aerospace vehicle or propulsion system component. Prereq: 15MATH254, 15MATH273, 20ENFD103. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20AEEM371**Integrated Engineering Mechanics I**

This course focuses on the application of engineering analysis techniques learned in other courses to the analysis of individual components that comprise a larger system. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20AEEM382**Aerospace Vehicle Performance**

Development of equations for vehicle motion. Performance of aircraft and rockets in the atmosphere and in space. Prereq: 20ENFD102, 15MATH273, 20AEEM342. BoK: NS. Credit Level: U. Credit Hrs: 3.00

20AEEM383**Basic Fluid Mechanics**

Physical nature of fluids, statics. Conservation principles and their applications to engineering problems. Dimensional analysis, duct flow of real fluids. (Formerly 20ENFD383) Prereq: 15MATH273, 15MATH254, 20AEEM101. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20AEEM403**Fundamentals of Control Theory**

Fundamentals of feedback control system modeling, transfer functions, root locus and frequency response methods. Prereq: 15MATH273, 20AEEM313. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20AEEM430**Matrix Structural Analysis**

Computer oriented methods for solving determinate and indeterminate structures with emphasis on trusses, frames and beams; extensive static analysis using the force-displacement method; dynamic response of bar and beam elements using lumped and consistent mass matrices. Prereq: 20AEEM352, 20ENFD375. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20AEEM438**Solid Mechanics Laboratory**

Experimental stress analysis. Strain gauge rosettes. Static and dynamic measurements. Stability. Photoelasticity. Prereq: 20AEEM329, 20ENFD375. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20AEEM445**Gas Dynamics**

Equations of one- and two-dimensional gas motion. Speed of sound, normal and oblique shock waves, expansion wave theory. Applications are presented for diffusers and nozzles, wind tunnel design, jetexhausts and airfoils. Prereq: 15MATH254, 15MATH276, 20ENFD382, 20ENFD383, 20AEEM342. BoK: NS. Credit Level: U. Credit Hrs: 4.00

20AEEM452**Flight Mechanics**

Equations of motion of aircraft. Longitudinal and lateral dynamics. Automatic control of aircraft. Prereq: 15MATH273, 20AEEM313, 20ENFD103. BoK: NS. Credit Level: U. Credit Hrs: 3.00

20AEEM456**Applied Aerodynamics**

Theory and application of a vortex lattice code, introduction to the concept of a viscous flow, presentation of the Navier-Stokes and boundary layer equations, theory and application of 2D boundary layer code, introduction to turbulence modeling and application for boundary layers. Prereq: 20AEEM342, 20AEEM445, 20AEEM360, 20ENFD383.

Aerospace Engineering & Engineering Mechanics**20AEEM456****Applied Aerodynamics**

BoK: NS. Credit Level: U. Credit Hrs: 3.00

20AEEM460**Numerical Methods for Engineering Design**

Interpolation and approximation, numerical integration, solutions of equations, systems of equations. Solution of ordinary differential equations; computer design problems with application to Aerospace Engineering and Engineering Mechanics. 3 lec., 3 lab. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20AEEM462**Integrated Spacecraft Engineering**

Application of fundamentals learned in previous courses to the design and construction of a simple device or system to meet specified design objectives. Formal documentation/presentation of results. One class hour/wk for introduction, discussion of approaches, problems and progress reports. Two hours/wk design and/or fabrication in lab. Students spend time normally devoted to homework with design and construction. The formation of the groups and definition of projects will consider the senior options students wish to take. Prereq: 15MATH254, 15MATH273, 20ENFD103, 20AEEM111, 20ENFD383. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20AEEM463**Integrated Aerospace Engineering III**

The space environment. Spacecraft mission types. Spacecraft system design considerations. Top-level spacecraft design. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20AEEM472**Integrated Engineering Mechanics II**

This course focuses on the application of engineering analysis techniques learned in other courses to the analysis of engineering systems and the interactions among the components that comprise the system. Prereq: 20AEEM371. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20AEEM474**Airbreathing Propulsion**

Aerothermodynamic data: foundations of propulsion theory. Cycle thermodynamics. Turbomachinery. Aerodynamic design of compressors and turbines. Prereq: 20AEEM445, 20ENFD382, 20ENFD383, 20ENFD385. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20AEEM480**Computational Mechanics**

Applied computational mechanics oriented method for solving structural problems. Stress analysis of structures and finite element modeling guidelines. Prereq: 20ENFD375. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20AEEM481**Thermal Engineering**

Introduction into the mechanisms of thermal energy transfer. Steady and unsteady heat conduction in solids. Fundamentals of both natural and forced convective heat transfer. Heat transfer by thermal radiation. Prereq: 20ENFD382, 20ENFD383. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20AEEM502**Aircraft Design I**

Integrated vehicle system performance, mission/ constraints. Aircraft design, analysis, trade studies and optimization. Prereq: 20AEEM382, 20AEEM445, 20AEEM452, 20AEEM456. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20AEEM503**Special Topics**

Analysis of a special problem chosen in consultation with a faculty member. Aut. qtr. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Aerospace Engineering & Engineering Mechanics**20AEEM504****Special Topics**

See 20AEEM503. Win. qtr. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

20AEEM505**Special Topics**

See 20AEEM503. Spr. qtr. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

20AEEM506**Special Topics**

See 20AEEM503. Sum. qtr. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

20AEEM509**Computational Aerodynamics**

Numerical flow visualization. 2-D panel methods. Axisymmetric panel methods. Vortex lattice method and 3-D panel methods. Basic concepts of finite differences. Finite difference solutions of 2-D potential equation. 3 lec. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20AEEM512**Aircraft Design II**

Continuation of Aircraft Engineering Design I. Integrated vehicle system performance, mission/ constraints. Aircraft design, analysis, trade studies and optimization. Prereq: 20AEEM502. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20AEEM513**Advanced Aerospace Design**

Advanced design primarily for students participating in AIAA Design Competition. Prereq: 20AEEM512, 20AEEM517, 20AEEM523. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20AEEM515**Spacecraft Design I**

Introduction to space mission analysis and the principles of spacecraft design, space mission life cycle, mission constraints and objectives; cost estimation. Prereq: 20AEEM403, 20AEEM462. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20AEEM517**Spacecraft Design II**

Concepts of space subsystem design. Formal design of a space mission and associated spacecraft. Report preparation and formal presentation. Prereq: 20AEEM515. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20AEEM519**Engine Design I**

Integrated propulsion/vehicle system performance, mission/constraints. Trade-off studies: design and off-design cycle analysis and optimization. Prereq: 20AEEM382, 20AEEM445, 20AEEM474. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20AEEM523**Engine Design II**

Engine flow path and sizing. Intake, turbomachinery, combustor, and exhaust system design. Report preparation and formal presentation. Prereq: 20AEEM519. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20AEEM525**Advanced Strength of Materials**

This course builds on the stress analysis and structures courses taken in an undergraduate engineering curriculum. It is mathematically oriented, but less so than a theory of elasticity approach. Theory and problems in failure, spinning disks, torsion and bending will be emphasized. Prereq: 20AEEM333, 20AEEM334. BoK: NS. Credit Level: U. Credit Hrs: 3.00

20AEEM527**Continuum Mechanics**

Concepts of a continuous medium, Cartesian tensor analysis, deformation measures, stress, constitutive equations for solids and

Aerospace Engineering & Engineering Mechanics**20AEEM527****Continuum Mechanics**

fluids, field equations, example problems. BoK: NS. Credit Level: U. Credit Hrs: 3.00

20AEEM529**Nondestructive Testing**

Basic nondestructive materials testing methods; ultrasonic inspection, acoustic emission, eddy-current inspection, radiographic testing, magnetic techniques. BoK: NS. Credit Level: U. Credit Hrs: 3.00

20AEEM530**Computational Fluid Dynamics**

Calculation of 2D and 3D flows using commercial CFD software. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20AEEM535**Undergraduate Research**

Individual research topics under the supervision of department faculty in conjunction with the ACCEND program. Perm of Instructor. BoK: QR. Credit Level: U. Credit Hrs: 1.00-9.00

20AEEM536**Undergraduate Research (Winter)**

Individual research topics under the supervision of department faculty in conjunction with the ACCEND program. Winter quarter. Perm of Instructor. BoK: QR. Credit Level: U. Credit Hrs: 1.00-9.00

20AEEM537**Undergraduate Research (Spring)**

Individual research topics under the supervision of department faculty in conjunction with the ACCEND program. Spring quarter. Perm of Instructor. BoK: QR. Credit Level: U. Credit Hrs: 1.00-9.00

20AEEM538**Undergraduate Research (Summer)**

Individual research topics under the supervision of department faculty in conjunction with the ACCEND program. Summer quarter. Perm of Instructor. BoK: QR. Credit Level: U. Credit Hrs: 1.00-9.00

20AEEM574**Aerodynamic Measurement Laboratory**

Analysis of data, measurement of pressure, velocity, volume flow rate, and drag. Drag and lift evaluations on a lifting airfoil and bluff body experimentation. Experiments. Prereq: 20AEEM329, 20AEEM342, 20AEEM456. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20AEEM575**Propulsion and Gas Dynamics Laboratory**

Measurement of pressure, temperature and velocities in flows, force, torque, rotational speed. Nozzle flow, pipe flows with heat addition, compressor and turbine performance parameters/charts. Elements of uncertainty analysis, reporting of data. Prereq: 20AEEM329, 20AEEM445, 20AEEM474. BoK: NA. Credit Level: U. Credit Hrs: 2.00-3.00

20AEEM576**Rocket Propulsion**

Preliminary design considerations of a rocket engine for a missile or satellite. "Exotic" rocket propulsion systems. Prereq: 20AEEM445, 20AEEM474, 20ENFD382, 20ENFD383, 20ENFD385. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20AEEM581**Engineering Mechanics Design I**

Integrating the fundamental principles of engineering in the design of a variety of engineering components or systems. This course will focus on preliminary designs and the selection of the design that will be pursued in the second quarter. BoK: NA. Credit Level: U. Credit Hrs: 4.00

20AEEM582**Engineering Mechanics Design II**

Integrating the fundamental principles of engineering in the design of a variety of engineering components or systems. This course is a

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Aerospace Engineering & Engineering Mechanics**20AEEM582****Engineering Mechanics Design II**

continuation of Engineering Mechanics Design I and will conclude with a formal design presentation and the submission of a final design report. Prereq: 20AEEM581. BoK: NA. Credit Level: U. Credit Hrs: 4.00

20AEEM593**Control Theory II**

Control system design and compensation. Introduction to modern systems theory. Experiments in systems identification and control. 2 lec., 1 lab. Prereq: 20AEEM403. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20AEEM597**Composite Structures**

Manufacturing processes of composite materials, design, and analysis of composite structures. Concepts of mechanical and hygro-thermal behavior of composite materials. Properties, strength, and stiffness calculation of composite structures. Application to engineering components. Prereq: 20ENFD375, 20ENFD376, 20AEEM430, 20AEEM438. BoK: NS. Credit Level: U. Credit Hrs: 3.00

20AEEM603**Analytical Dynamics I**

Kinematics, particle dynamics, energy methods, constrained dynamical systems, simulations and advanced dynamics techniques. 3 lec. Prereq: 20MATH273. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20AEEM604**Analytical Dynamics II**

Rigid body mechanics, gyro dynamics, energy methods, quaternions, linear system theory, stability of motion, floquet theory and simulations. 3 lec. Prereq: 20AEEM603. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20AEEM605**Ligament and Tendon Biomechanics**

The correlation of mechanical properties and tissue microstructure. Emphasis on the properties of tissue attachments to muscle and bone. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20AEEM607**Viscoelasticity of Biological Materials**

Phenomenological and structural constitutive and failure modeling of biological materials including ligament, tendon, cartilage and bone tissues. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20AEEM609**Current Topics in Bioengineering**

Presentation of research on five bioengineering topics by Medicine/Engineering faculty teams. Student research on the topic of their choice, culminating in a term report. Final exam covering the faculty presentations. 3 lec. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20AEEM610**Probability and Random Processes for Engineers**

Introduction to fundamentals of probability and random processes with engineering emphasis. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20AEEM614**Fundamentals of Control Theory**

A fundamental look at control system stability, performance and robustness of SISO and MIMO systems. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20AEEM616**Kinematics of Biological Joints**

Analysis of biological joints in terms of degrees of freedom, instant center, screw axis and Euler angles. Compatibility requirements between joint geometry, ligament attachment location, and joint motion. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

Aerospace Engineering & Engineering Mechanics**20AEEM619****Elasticity**

Governing equations of linear elasticity. Solution of plane and three-dimensional boundary value problems. 3 lec. Prereq: 20AEEM683. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20AEEM620**Aeroelasticity Fundamentals**

Static and dynamic response of flexible aircraft to aerodynamic inertia and structure forces: life effectiveness, load distribution divergence, control surface effectiveness, control reversal, flutter, gust response. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20AEEM625**Boundary Layer Methods I**

Boundary layer methods for two-dimensional and axisymmetric compressible steady flows. Current solution methods. Introduction to turbulent flows. 3 lec. Prereq: 20AEEM445. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20AEEM627**Introduction to Biomechanics**

Basic concepts and methods in application of engineering mechanics principles in the medical and life sciences. (Co-listed as 20-263-685). 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20AEEM628**Biomechanics Instrumentation**

Development of skills in using testing equipment and data acquisition methods in biomechanics research. Prereq.: Experimental Structures Lab. 2 lec., 3 lab. Prereq: 20AEEM334. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20AEEM636**Spacecraft Dynamics**

Attitude dynamics of space vehicles, rotational kinetics, Euler parameters, motion equations. Dual-spin vehicles, gravitational and aerodynamic torques, stabilization methods. Design of spin-stabilized spacecraft. 3 lec. Prereq: 20AEEM320. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20AEEM641**Introduction to Compressible Flow**

Integral and differential equations for unsteady, inviscid flow; shocks, expansion waves, acoustic theory, steady linearized flow; method of characteristics. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20AEEM645**Combustion Theory I**

Examination of the fluid mechanics of reacting flows. Thermodynamics of mixtures, chemical kinetics, conservation equations for reacting flows, combustion waves and nozzle flow. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20AEEM646**Combustion Theory II**

See 20-251-645. 3 lec. Prereq: 20AEEM645. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20AEEM655**Chemical and Nuclear Rocket Propulsion**

Fundamentals, thermodynamic relationships and design parameters for liquid- and solid-propellant rocket engines. Physics of nuclear processes and reactions. Application of nuclear energy in rockets and other space vehicles. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20AEEM657**Electrical Propulsion and Energy Conversion Systems**

Electromagnetic theory, performance of electric propulsion systems and energy conversion systems. 3 lec. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Aerospace Engineering & Engineering Mechanics**20AEEM659****Hypersonic Flow**

Normal and oblique shock waves; high temperature gas effects; computer simulation of hypersonic flows; introduction to rarefied gas dynamics. Prereq: 20AEEM445. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20AEEM661**Experimental Methods in Fluid Mechanics**

Review of experimental techniques in single and two-phase flows. Data acquisition methodology and data analysis. Methods used for measurements of pressure, velocity, flow rate, wall shear stress, particle sizes, and flow visualization techniques. Prereq: 20ENFD383. BoK: NS, QR. Credit Level: G, U. Credit Hrs: 3.00

20AEEM670**Introduction to Ideal Fluids**

The governing equations for motion of ideal fluids. The stream function and velocity potential. Vorticity, circulation and lift. Method of singularities. 3 lec. Prereq: 20MATH376. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20AEEM672**Finite Element Techniques I**

Displacement-based finite element analysis of trusses and Bernoulli-Euler beams. Principles of virtual displacement and minimum total potential energy. Rayleigh-Ritz Methods. 3 lec. Prereq: 20AEEM333. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20AEEM673**Finite Element Techniques II**

Energy principles. Displacement-based finite element analysis of linear elastic planar continua. Linear and quadratic elements, isoparametric coordinates. 3 lec. Prereq: 20AEEM672. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20AEEM674**Finite Element Techniques III**

Further topics in finite element analysis of planar elasticity problems; modal analysis; selected topics in linear F.E.T. 3 lec. Prereq: 20AEEM673. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20AEEM675**Heat Transfer**

Review of basic modes of heat transfer including conduction, convection, and radiation. Multidimensional, transient conduction. Radiation heat exchange and space applications. 3 lec. Prereq: 20ENFD385. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20AEEM676**Heat Transfer for Propulsion System**

Methods for analysis of thermal and velocity boundary layers, convective heat transfer in turbulent flow, heat exchanger analysis and design. 3 lec. Prereq: 20AEEM675, 20ENFD385. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20AEEM677**Heat Transfer and Aerodynamic Heating**

Convective heat transfer in supersonic flow mass transfer cooling, ablation, and re-entry heattransfer. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20AEEM680**Introduction to Random Vibrations**

Analysis of deterministic systems subject to probabilistic excitations. Introduction to fatigue. 3 lec. Prereq: 20AEEM610. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20AEEM681**Mechanics of Structures I**

Principle of virtual displacements. Applications to statically indeterminate structures. Castigliano's theorems. 3 lec. Prereq: 20AEEM452. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

Aerospace Engineering & Engineering Mechanics**20AEEM682****Mechanics of Structures II**

Minimum principles. Applications to statically indeterminate structures and buckling problems. 3 lec. Prereq: 20AEEM681. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20AEEM687**Properties of Structural Materials**

Introduction to mechanical and physical properties of crystals, polycrystalline metals, polymers, composites and ceramics used in aerospace structures. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20AEEM689**Life Prediction Methods**

Stress life and strain life models, fracture, notches, cumulative damage models, multiaxial life models, comparison of approaches. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20AEEM690**Static Optimization**

Analytical and numerical methods for optimization of functions and functionals. Gradient and direct search methods. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20AEEM691**Variational Optimization**

Variational methods for the optimization of constrained functions and functionals. Solution of two-point boundary value problems in controls and mechanics. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20AEEM693**Advanced Flight Mechanics**

Equations of aircraft motion and their simplification. Autopilot and flight control design by classical and modern control methods. 3 lec. Prereq: 20AEEM452. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20AEEM694**Introduction to Nonlinear Vibrations**

Perturbation methods, free and forced response of nonlinear systems, resonance, regular and chaotic motions, numerical simulations and analysis. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20AEEM695**Orbital Mechanics I**

Two- and three-body problems. Orbit transfer and rendezvous. Orbit perturbations and analysis. Artificial satellite theory. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20AEEM696**Turbomachinery and Rocket Engine Design**

Introduction to the analysis and design of compressors, turbines and rocket engines. 3 lec. Prereq: 20AEEM474. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20AEEM697**Composite Structures**

Concepts of mechanical and thermal behavior of composite structures. Effective properties, stiffness, and strength. Applications to engineering components. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20AEEM704**Tissue Biomechanics**

Examination of properties and mechanical behavior of the structures, soft tissue, and organs of biosystems. (Co-listed with 20-263-686. Additional work beyond 686 will be assigned.) 3 lec. Credit Level: G. Credit Hrs: 3.00

20AEEM706**Biosynthetic Composites**

Examination of the mechanical and structural properties of synthetic materials used as replacements for biological structures. 3 lec. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Aerospace Engineering & Engineering Mechanics**20AEEM708****Research Methods in Aerospace Engineering and Engineering Mechanics**

Elements of scientific investigation; problem definition, experiments, use of hypotheses, the roles of chance, imagination, reason and strategy. Credit Level: G. Credit Hrs: 3.00

20AEEM711**Multivariable Control**

Matrix fraction description of multivariable systems. Frequency domain effects of state feedback. Singular values and robustness of controllers. 3 lec. Prereq: 20AEEM615. Credit Level: G. Credit Hrs: 3.00

20AEEM713**Linear Quadratic Control**

The theory and application of linear quadratic optimal control; optimal filtering; the LQG optimization problem. 3 lect. Prereq: 20EGFD615. Credit Level: G. Credit Hrs: 3.00

20AEEM714**Analytical and Structural Vibrations I**

Lagrange's equations. Free and forced vibrations of discrete systems. Exact and approximate methods. Computer applications. 3 lec. Credit Level: G. Credit Hrs: 3.00

20AEEM715**Analytical and Structural Vibrations II**

Free and forced vibrations of continuous systems. Exact and approximate methods. Computer applications. 3 lec. Credit Level: G. Credit Hrs: 3.00

20AEEM718**Dynamics and Controls of Flexible Structures**

Modeling of flexible structures. Controllability and observability versus sensor and actuator location. Model reduction: modal and balanced. State feedback. Dissipative controllers and stability robustness. High-Authority/Low-Authority Control. 3 lec. Credit Level: G. Credit Hrs: 3.00

20AEEM721**Inelasticity I**

Introduction to the concepts of inelastic material behavior. Yield surface methods of analysis and application of classical viscoelasticity. Application to high temperature metals. 3 lec. Prereq: 20AEEM619. Credit Level: G. Credit Hrs: 3.00

20AEEM722**Inelasticity II**

Introduction to the concepts of inelastic modeling using state variable methods of analysis. Application to high temperature metals. 3lec. Prereq: 20AEEM619. Credit Level: G. Credit Hrs: 3.00

20AEEM723**Experimental Stress Analysis I**

Theory, experiments. Strain gages, photoelasticity. Moire technique. Transducers. Brittle lacquers. 2 lec., 3 lab. Credit Level: G. Credit Hrs: 3.00

20AEEM725**Nonlinear Finite Element Methods**

General methods of nonlinear analysis with applications to inelastic material response. Prereq: 20AEEM672. Credit Level: G. Credit Hrs: 3.00

20AEEM727**Nondestructive Testing**

To familiarize the student with the fundamental principles of nondestructive materials characterization and to introduce them to the most important engineering applications of nondestructive testing. This course covers the basics non-destructive testing methods with special emphasis paid to ultrasonic, eddy-current and radiographic inspections. Prereq: 20AEEM601. Credit Level: G. Credit Hrs: 3.00

Aerospace Engineering & Engineering Mechanics**20AEEM728****Introduction to Ultrasonics**

Ultrasonic wave propagation. Basic phenomena: dispersion, attenuation, reflection, transmission, diffraction, scattering. Ultrasonic measurements. Credit Level: G. Credit Hrs: 3.00

20AEEM729**Ultrasonic Nondestructive Evaluation**

This course gives introduction to Ultrasonic Non-destructive Evaluation. Included in this course are fundamentals of elastic wave propagation in solid materials, basic types of wave material interaction with plane boundaries between different materials, scattering from discontinuities, defect detection and characterization, principles and techniques of generation and detection and characterization, principles and techniques of generation and detection of ultrasonic waves, ultrasonic NDE instrumentation and basic ultrasonic measurements for materials characterization. Prereq: 20AEEM728. Credit Level: G. Credit Hrs: 3.00

20AEEM730**Physical Gas Dynamics**

Study of dynamics of gases, atomic and molecular considerations, kinetic theory, Boltzmann equation, rarefied gas flows. 3 lec. Prereq: 20AEEM445. Credit Level: G. Credit Hrs: 3.00

20AEEM731**Body Aerodynamics**

Subsonic lifting surface theory; supersonic wing theory, conical flow phenomena, and slender-body theory. 3 lec. Prereq: 20AEEM445. Credit Level: G. Credit Hrs: 3.00

20AEEM732**Introduction to Numerical Methods in Fluid Mechanics**

Explicit and implicit methods for ordinary differential equations, parabolic and hyperbolic partial differential equations, the method of characteristics, relaxation and alternating direction methods for elliptic equations, application to fluid mechanics. Credit Level: G. Credit Hrs: 3.00

20AEEM735**Boundary Layer Methods II**

Introduction to stability theory. Turbulence models, interacting boundary layer theory. Solution methods. 3 lec. Prereq: 20AEEM625. Credit Level: G. Credit Hrs: 3.00

20AEEM740**Aerothermochemistry**

Review of classical thermodynamics. Chemical thermodynamics, elements of quantum mechanics, statistical mechanics, Fermi-Dirac and Bose-Einstein statistics, reaction kinetics. 3 lec. Credit Level: G. Credit Hrs: 3.00

20AEEM741**High Temperature Gas Dynamics**

Flow equations for chemically reacting gas mixtures. Non-equilibrium shock and nozzle flows. Laminar boundary layer solutions for dissociating gas. Radiation gas dynamics. 3 lec. Prereq: 20AEEM740. Credit Level: G. Credit Hrs: 3.00

20AEEM750**Turbomachinery Flow**

This course emphasizes the fluid dynamics unique to turbomachinery. Computational Fluid Dynamics (CFD) has seen an explosive growth as a design and analysis tool for turbomachinery. This course provides a bridge between the traditional analytical and recent computational solution. Credit Level: G. Credit Hrs: 3.00

20AEEM761**Special Topics -- Graduate**

Newly-offered topics in Aer. Eng. or Eng. Mech. presented in a lecture/recitation format. Aut. qtr. 3 lec. Credit Level: G. Credit Hrs: 3.00

20AEEM762**Special Topics Graduate**

SPEC TOP GRADUATE Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Aerospace Engineering & Engineering Mechanics**20AEEM762****Special Topics Graduate**

SPEC TOP GRADUATE Credit Level: G. Credit Hrs: 3.00

20AEEM763**Special Topics -- Graduate**

See 20-251-761. Spr. qtr. 3 lec. Credit Level: G. Credit Hrs: 3.00

20AEEM764**Special Topics -- Graduate**

See 20-251-761. Sum. qtr. 3 lec. Credit Level: G. Credit Hrs: 3.00

20AEEM776**Theory of Structural Stability**

Various stability methods and their applicability. Bifurcational and limit point instability. Applications to models, columns, frames and plates. Initial geometric imperfections. 3 lec. Credit Level: G. Credit Hrs: 3.00

20AEEM792**Stochastic Optimization**

Introduction to stochastic search techniques: genetic algorithms, simulated annealing, neural networks. Applications to engineering problems. 3 lec. Credit Level: G. Credit Hrs: 3.00

20AEEM795**Orbital Mechanics II**

Fundamental and advanced methods for investigating the motion of artificial satellites. Two body problem, physical perturbations, Gauss and Lagrange planetary equations, canonical perturbation methods, numerical methods, resonant orbits. 3 lec. Credit Level: G. Credit Hrs: 3.00

20AEEM796**Introduction to Intelligent Control**

An introduction to theories and applications of control systems having planning, learning, identifying and corrective capabilities. 3 lec. Credit Level: G. Credit Hrs: 3.00

20AEEM811**Fundamentals of Adaptive Control I**

Fundamentals of adaptive control emphasizing stability-based methods. Readings and research in contemporary adaptive literature. 3 lec. Prereq: 20AEEM614. Credit Level: G. Credit Hrs: 3.00

20AEEM812**Fundamentals of Adaptive Control II**

See 20-251-811. 3 lec. Prereq: 20AEEM811. Credit Level: G. Credit Hrs: 3.00

20AEEM813**Fundamentals of Microprocessor Control I**

Frequency domain and state variable methods in design of digital systems. Microprocessor implementation including A/D-D/A conversion, interrupts, processor characteristics. 3 lec. Prereq: 20AEEM614. Credit Level: G. Credit Hrs: 2.00-3.00

20AEEM820**Thermal Stress I**

Steady state and transient conditions. Exact and approximate methods. Thermal shock and applications. 3 lec. Prereq: 20AEEM683. Credit Level: G. Credit Hrs: 3.00

20AEEM831**Viscous Flow**

Review of tensor analysis. Derivation of the Navier-Stokes equations in integral and differential form for a compressible fluid mixture of perfect gases. Vorticity transport and Poisson equations. Exact and approximate methods for the solution of Navier-Stokes equations. 3 lec. Prereq: 20AEEM670. Credit Level: G. Credit Hrs: 3.00

20AEEM835**Dynamics of Compressible Flow I**

Method of Characteristics for rotational flow. Shock expansion method. Introduction to hypersonic flow. Small perturbation theory for transonic

Aerospace Engineering & Engineering Mechanics**20AEEM835****Dynamics of Compressible Flow I**

flow. Hodograph method. 3 lec. Prereq: 20AEEM641. Credit Level: G. Credit Hrs: 3.00

20AEEM846**Theory of Turbulence**

A study of turbulent fluid flows. Transition to turbulence, equations of turbulent flow, statistical theories, and applied results. 3 lec. Prereq: 20AEEM831. Credit Level: G. Credit Hrs: 3.00

20AEEM854**Theory of Plates and Shells I**

Stresses in and deformation of plates and shells of various shapes with different boundary conditions; membrane and bending theory. 3 lec. Prereq: 20AEEM683. Credit Level: G. Credit Hrs: 3.00

20AEEM855**Theory of Plates and Shells II**

See 20-251-854. 3 lec. Prereq: 20AEEM854. Credit Level: G. Credit Hrs: 3.00

20AEEM910**Linear Estimation and Filtering Theory**

Least-squares estimation, equation and output error methods, the Kalman filter, maximum likelihood methods. Parameter identification methods. 3 lec. Prereq: 20AEEM610. Credit Level: G. Credit Hrs: 3.00

20AEEM930**Advanced Propulsion Systems I**

Application of thermoaerodynamics to analysis and design of turbomachinery. Diffusers, compressors, combustion chambers, turbines and nozzles. Supersonic air-breathing engines. Performance analysis of jet propelled aircraft. 3 lec. Credit Level: G. Credit Hrs: 3.00

20AEEM931**Advanced Propulsion Systems II**

See 20-251-930. 3 lec. Prereq: 20AEEM930. Credit Level: G. Credit Hrs: 3.00

20AEEM936**Perturbation Methods I**

Regular and singular perturbation problems: Poincaré-Lighthill-Kuo method, method of strained coordinates; method of matched asymptotic expansions. 3 lec. Prereq: 20MATH273. Credit Level: G. Credit Hrs: 3.00

20AEEM948**Selected Topics in Fluid Mechanics**

Non-Newtonian fluid mechanics, bio-fluid mechanics, pollution fluid mechanics, separated flows, jets, three-dimensional and unsteady boundary layers, tripledeck asymptotic theory. 3 lec. Credit Level: G. Credit Hrs: 3.00

20AEEM950**Cascade Theory**

Basic cascade concepts. Blade elements analysis. Actuator disc theory and interaction between successive rows. 3 lec. Credit Level: G. Credit Hrs: 3.00

20AEEM951**Selected Topics in Annular Cascades**

Loss mechanics. Supersonic cascades. Computer-aided methods in annular cascades applied to the direct and indirect problems. 3 lec. Prereq: 20AEEM950. Credit Level: G. Credit Hrs: 3.00

20AEEM960**Dynamics and Orbital Mechanics Seminar**

Advanced topics of current interest in orbital and celestial mechanics. 1-18 gr. cr. Credit Level: G. Credit Hrs: 1.00-18.00

20AEEM970**Research**

Individual research topics under supervision of departmental faculty. Credit Level: G. Credit Hrs: 1.00-15.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Aerospace Engineering & Engineering Mechanics**20AEEM972****Aerospace Engineering and Engineering Mechanics Seminar**

Seminar lectures throughout the year by staff and invited speakers from academic, research and industrial institutions on current aerospace engineering and engineering mechanics problems. Register one qtr. only. Credit Level: G. Credit Hrs: 1.00

20AEEM974**Reading Course**

Directed individual study in aerospace engineering and engineering mechanics. Credit Level: G. Credit Hrs: 1.00-15.00

Biomedical Engineering**20BME101****Introduction to Biomedical Engineering I**

Overview of BME at UC, career opportunities, learning resources, engineering design, creative problem solving, and ethics BoK: NA. Credit Level: U. Credit Hrs: 1.00

20BME102**Introduction to Biomedical Engineering II**

This course provides an overview of biomedical engineering research careers and current BME research at the University of Cincinnati. Prereq: 20BME101. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20BME103**Introduction to Biomedical Engineering III**

Use of technology in clinical settings including patient monitoring, diagnostic laboratories, and surgical suites. Prereq: 20BME102. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20BME110**BME in the Clinical Environment**

Use of technology in clinical settings including patient monitoring, diagnostic laboratories, and surgical suites. Prereq: 20BME101. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20BME150**Medical Device Dissection**

Disassembly and static equilibrium analysis of medical devices. Solid modeling and rapid prototyping of components. Analysis of component function, manufacturing methods, and method of assembly. Report writing. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20BME210**BME in the Clinical Environment**

An overview of the field of biomedical engineering with special emphasis on the use of technology in clinical settings, including patient monitoring, surgical suites, diagnostic laboratories, and imaging structures and activities in the body. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20BME220**Introduction to Human Body Dynamics**

Study of the relationships between forces, moments, mass, and acceleration for human body and body segment motions. Centroids, center of mass, mass moment of inertia, and relative motion. Prereq: 20ENFD101, 20ENFD102. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20BME230**Introduction to Medical Product Design**

Exploration of the health care delivery environment, its unique culture, and the impact this has on medical product design. Course will include field trips to medical sites and medical product manufactures. Perm of Instructor. BoK: DC. Credit Level: U. Credit Hrs: 3.00

20BME250**Medical Device Dissection**

Disassembly and static equilibrium analysis of medical devices. Solid modeling and rapid prototyping of components. Analysis of component function, manufacturing methods, and method of assembly. Report writing. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Biomedical Engineering**20BME305****Modeling and Analysis of Systems**

Modeling and Analysis of electrical, mechanical, fluid and thermal systems using LAPLACE transforms and state space methods. Time response and second order systems. Solution of model equations with MATLAB Prereq: 20ENFD111, 15MATH273. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20BME306**Modeling and Analysis of Systems**

Tools for modeling and analysis of biomedical engineering systems and processes. Fundamentals of signal analysis. Lumped-element models for first and second-order electrical and mechanical systems. System analysis using differential equations, impedance relationships, and transfer functions. Solution of model equations and data analysis using MATLAB programming. Laboratory exercises including fundamentals, time response and frequency response of electrical and mechanical systems. Prereq: 20ENFD112, 15MATH273. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20BME310**Bioinstrumentation**

Introduction to measurement of biological signals using computer data acquisition systems. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20BME320**Biocontrols**

Fundamentals of feedback control system modeling, transfer functions, root locus and frequency response methods as applied to biological systems. Prereq: 20MATH273. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20BME350**Medical Product Design I**

This course is an applied engineering design course covering engineering design process, user-centered design, design decision making, concept generation, creative thinking, competitive analysis and benchmarking, and FDA design control. Students will be asked to create engineering design specifications and generate multiple solutions. Prereq: 20BME250, 20ENFD112. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20BME410**Biomaterials**

Response of the body to implanted materials. Emphasis on polymers and common metals used in orthopaedic and tissue engineering applications. BoK: NS. Credit Level: U. Credit Hrs: 3.00

20BME420**Controls in Biomedical Engineering**

Controls in BME presents control theory and its application to the design of medical devices and the analysis of physiological systems. Topics include electromechanical system transfer functions, state space representation, analysis and design of feedback systems, steady state errors, stability determination, design of compensators, and frequency response techniques. Prereq: 20BME305, 20BME310. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20BME450**Medical Product Design II**

This course is an applied engineering design course covering engineering analysis, detailed design development, and systems thinking. An emphasis is placed on sustainable design considerations for material selection and manufacturing methods. FDA design verification and validation, risk analysis and FMEA are also explored. Prereq: 20ENFD112, 20BME350. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20BME455**Multidisciplinary Medical Device Development**

Exploration of the health care delivery environment, its unique culture, and the impact this has on medical product design. This multidisciplinary teaming experience provides a foundation for

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Biomedical Engineering**20BME455****Multidisciplinary Medical Device Development**

continuation in the Medical Device Innovation and Entrepreneurship Program. Course will include field trips and industry expert presentations from multiple disciplines. Prereq: 20BME250. BoK: SS. Credit Level: U. Credit Hrs: 3.00

20BME501**Medical Device Innovation I**

This is the first course of a capstone design sequence for biomedical engineering students. Students are presented with a clinical problem and are expected to conceive, design, prototype and evaluate devices for innovative solutions. Innovation I emphasizes information gathering, establishing requirements, concept development & evaluation. Students from other disciplines, particularly industrial design and business, are encouraged to enroll Perm of Instructor. BoK: QR, SE. Credit Level: U. Credit Hrs: 3.00-9.00

20BME502**Medical Device Innovation II**

This is the second course in the design capstone sequence for biomedical engineering students. Students are presented with a clinical problem and are expected to conceive, design, prototype and evaluate devices for innovative solutions. Innovation II focuses on the detailed design, prototyping and evaluation of the concept selected in Innovation I. Students from other disciplines, particularly industrial design and business, are encouraged to enroll. Individual assignments that build on the students discipline will be developed Perm of Instructor. BoK: QR, SE. Credit Level: U. Credit Hrs: 3.00-9.00

20BME503**Business Development in Medical Device Innovation**

This course focuses on understanding the translation of technology into business opportunity. Issue and challenges of entrepreneurship will be explored including the topics: the identification, selection, description and communication of an opportunity which has potential to become a successful venture. Students from Biomedical Engineering, Industrial Design and Business are encouraged to participate. BoK: NA. Credit Level: U. Credit Hrs: 3.00-6.00

20BME505**Experimental Research Capstone I**

This course will teach students how to design and conduct a pilot study involving human subjects. The course will include development of a hypothesis, design of the experimental protocol to test the hypothesis, and learning ethical aspects of human research. Prereq: 20BME310. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20BME506**Experimental Research Capstone II**

This course will provide the students with an opportunity to conduct a pilot study involving human subjects, using equipment and environment of a physiology lab. The course will include carrying out a previously developed experimental protocol, data analysis and interpretation, statistical analysis and writing of a manuscript. Prereq: 20BME505. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20BME510**Independent Study in Medical Imaging**

Individual study of a medical imaging topic selected in consultation with a faculty member Perm of Instructor. BoK: NS. Credit Level: U. Credit Hrs: 1.00-6.00

20BME520**Independent Study in Biomechanics**

Individual study of a biomechanics topic selected in consultation with a faculty member Perm of Instructor. BoK: NS. Credit Level: U. Credit Hrs: 1.00-6.00

20BME521**Tissue Mechanics Lab**

Methods of measuring the mechanical properties of biological tissues BoK: NA. Credit Level: U. Credit Hrs: 1.00-2.00

Biomedical Engineering**20BME524****Human Motion Lab**

Methods of measuring human motion including ground reaction forces, body segment motion, and muscle emg. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20BME530**Independent Study in Tissue Engineering**

Individual study of a tissue engineering topic selected in consultation with a faculty member Perm of Instructor. BoK: NS. Credit Level: U. Credit Hrs: 1.00-6.00

20BME540**Independent Study in Bioinformatics**

Individual study of a bioinformatics topic selected in consultation with a faculty member Perm of Instructor. BoK: NS. Credit Level: U. Credit Hrs: 1.00-6.00

20BME550**Independent Study Design and Manufacturing**

Individual study of design and manufacturing in consultation with a faculty member. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

20BME590**Special Projects in Biomedical Engineering**

This course is a special projects course to be arranged between the student and the instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

20BME601**BME Survey**

Survey of biomedical engineering research topics. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20BME602**Bioinstrumentation**

An overview of biomedical instrumentation, design and operation of transducer and measurement systems used in medicine and biology. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20BME610**Imaging with Ionizing Radiation**

The physics and instrumentation of diagnostic radiology with x-rays, computed tomography, and radioisotope imaging Prereq: 15MATH553. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20BME611**Imaging Without Ionizing Radiation**

The physics and instrumentation of diagnostic ultrasound, magnetic resonance imaging (MRI), functional MR and MR spectroscopy Prereq: 20BME610, 15MATH553. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20BME612**Biomedical Signal and Image Processing**

Fundamentals of signal and image processing, Fourier analysis, and stochastic processes, with emphasis on biomedical applications. Filtering transformation and feature extraction for biomedical signals and images. Prereq: 15MATH264. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20BME620**Introduction to Biomechanics**

Basic concepts and methods in the application of engineering mechanics principles in the medical and life sciences (co-listed as 20MECH685). Prereq: 20ENFD103, 20MATH273. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20BME621**Tissue Biomechanics**

Examination of the properties and mechanical behavior of the structures, soft tissues, and organ systems of biosystems (co-listed as 20MECH686) BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Biomedical Engineering**20BME622****Ligament and Tendon Biomechanics**

The correlation of mechanical properties and tissue microstructure. Emphasis on the properties of tissue attachments to muscle and bone
BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20BME623**Bone Biomechanics**

Structure, mechanical properties, failure, and adaptation of long bones to mechanical stresses. Prereq: 20ENFD375, 15BIOL101. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20BME624**Joint Biomechanics**

Mathematical description and analysis of the three dimensional motion of biological joints. Emphasis is on the human knee. Prereq: 20ENFD103, 20MATH276. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20BME625**Cell Mechanics**

Structure and function of the cell cytoskeleton with an emphasis on the role of the actin filaments in cell locomotion and signal transduction
BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20BME626**Biofluid Mechanics**

Biofluid mechanics provides an intellectual framework for understanding the features of flow in organ systems, in health and disease. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20BME629**Special Topics in Biomechanics**

In-depth study of biomechanics. Topics selected by the instructor. Perm of Instructor. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20BME630**Tissue Engineering**

General principles of tissue engineering including aspects of cell isolation and propagation; matrix selection; construct creation, manipulation, and implantation; and evaluation of resulting repairs. BoK: NA. Credit Level: G, U. Credit Hrs: 3.00

20BME631**Functional Tissue Engineering**

Application of principles of tissue engineering for load-bearing tissue structures. Measuring and using in vivo forces and displacements as design criteria and mechanical stimulation signals to stiffen constructs in culture and to improve repair biomechanics and structure after surgery. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20BME639**Special Topics in Tissue Engineering**

In-depth study of tissue engineering. Topics selected by the instructor. Perm of Instructor. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20BME640**Computational Genomics**

Computational problems and algorithms in genome analysis (co-listed as 20ECES786). Perm of Instructor. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20BME641**Functional Genomics**

This course deals with the experimental design and microarray processing and proteomics Perm of Instructor. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20BME642**Mining and Analyzing Biomedical Free-Text Using Natural Language Processing**

Generally, there are two types of data: transactional and free-text. Transactional data are structured and predominately represent current and past states. They measure some action, i.e. lab results measure a patient's chemical profile. Free-text, is unstructured and is a proxy for

Biomedical Engineering**20BME642****Mining and Analyzing Biomedical Free-Text Using Natural Language Processing**

human thought. Free texts represent current and future states. Most efforts have focused on analysis of transactional data. More methods for analyzing free-text data have emerged. This course focuses on how to apply these methods to biomedical free-text. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20BME643**Introduction to Bioinformatics**

Modeling aspects, biological motivation, problem formulation and solution as well as reference to bioinformatics tools. BoK: NS. Credit Level: G, U. Credit Hrs: 3.00

20BME649**Special Topics in Bioinformatics**

In-depth study of bioinformatics. Topics selected by the instructor. Perm of Instructor. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20BME660**Mathematical Models in Physiology and Medicine**

This course will introduce students to the use of computers and computer programming in the mathematical description of physiological and biological processes. Processes at all levels will be studied, including models of receptor-ligand binding, population dynamics, neural spike propagation, and infectious diseases. Students will also learn advanced techniques in curve fitting. Each student will have the opportunity to focus on an area of mathematical physiology or medicine of his or her interest. Prereq: 20ENFD112, 15MATH273. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20BME661**Biostatistics in Research**

In this course a number of statistical methods will be presented to analyze various types of data stemming from research. A rudimentary knowledge of probability and inferential statistics will be assumed. How to evaluate a diagnostic test will be dealt in depth. Analysis of contingency tables and loglinear models will be presented to answer a number of relevant research questions. A detailed presentation of logistic regression and rudiments of Survival Analysis will be presented. Presentation of current research from journals. Prereq: 15MATH361, 15MATH362. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20BME670**Advanced Topics in Biomaterials**

Deals with advanced topics in current biomaterials research including the cell-material interface, molecular engineering of biomaterials, nanoscale biomaterials, hierarchically assembling materials, tissue engineering, protein peptide design, bioactive polymers, biomacromolecules, and surface science. It will be composed of both didactic and discussion/literature-based activities. Prereq: 20BME410. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20BME680**Nanotechnology and Nanomedicine**

Course will cover nanotechnology concepts, principles, instrumentation, approaches and applications crossing the disciplines of chemistry, physics, optics, math, computations, molecular biology, biophysics, physical chemistry, materials, biomaterials as well as biochemistry of lipids, peptides, nucleotides, structures of RNA, DNA and proteins including the single molecules studies on nanomaterials. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20BME650**Biomedical Ultrasound I**

This course will detail the physical properties of sound and the fundamental principles governing the generation, propagation, reflection, transmission, and reception of sound waves in fluids, and introduce some medical applications. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Biomedical Engineering**20BME699****Master's Thesis Research**

Thesis research credit for Biomedical Engineering Master's students
Credit Level: G. Credit Hrs: 3.00-12.00

20BME700**Introduction to IGERT Research**

Graduate students admitted to the NSF IGERT program will participate in a summer laboratory rotation prior to the start of their first academic year in their doctoral program. The IGERT student will spend three weeks in the laboratory of an IGERT faculty member. Credit Level: G. Credit Hrs: 1.00

20BME702**Biomedical Engineering Seminar**

Required of all full time BME students. Seminar lectures by staff and invited speakers from academic, research and industrial institutions on current biomedical engineering problems. Credit Level: G. Credit Hrs: 1.00

20BME703**BME Career Building Blocks**

Required of all full time BME students. Seminar lectures by staff and invited speakers from academic, research and industrial institutions on current biomedical engineering problems. Credit Level: G. Credit Hrs: 1.00

20BME705**BME Research Design**

This course will help students to develop methods and skills necessary to create, develop and execute a successful research career. Methods covered include: formulating and defining ideas, understanding and using appropriate resource management, gathering and assessing data, designing a complete research project and basic writing skills for manuscript preparation and grant writing. Credit Level: G. Credit Hrs: 3.00

20BME712**Advanced Topics in MRI**

This course will detail the quantum mechanical aspects of NMR and the methods by which gradient magnetic fields are used to spatially encode the N MR signal to produce a magnetic resonant image (MR I) Prereq: 20BME610, 20BME611. Credit Level: G. Credit Hrs: 3.00

20BME719**Laboratory Research Survey**

Open to first and second year BME graduate students. The research rotation will expose the student to state-of-the-art biomedical research and will help guide the student in the selection of a dissertation research mentor. Student is expected to consult with BME director and faculty mentor prior to registering for this course. The rotation does not constitute an agreement to accept student in lab for research. If student has an interest in lab for potential thesis research, student should clarify with faculty if funding is available for student's research. Credit Level: G. Credit Hrs: 1.00-6.00

20BME734**Cellular Engineering**

Provides theoretical and practical training in the principles of cell culture and its uses for treatment of diseases Credit Level: G. Credit Hrs: 3.00

20BME741**Advanced Computational Biology**

This course cover in depth selected problems and algorithms arising in computational molecular biology, including genomic sequence and map assembly, sequence analysis, genomic rearrangement and applications of machine learning techniques in bioinformatics. The course will involve seminar style presentations by the students and projects focused on key algorithmic issues behind widely used methods in computational biology and bioinformatics. Prereq: 20BME643. Credit Level: G. Credit Hrs: 3.00

Biomedical Engineering**20BME799****Doctoral Dissertation Research**

Doctoral Dissertation Research for Students who are enrolled in the Department of Biomedical Engineering Credit Level: G. Credit Hrs: 1.00-19.00

20BME810**Independent Study in Medical Imaging**

Individual advanced studies in medical imaging under the supervision of a department faculty member Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-6.00

20BME820**Independent Study in Biomechanics**

Individual advanced studies in biomechanics under the supervision of a department faculty member Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-6.00

20BME830**Independent Study in Tissue Engineering**

Individual advanced studies in tissue engineering under the supervision of a department faculty member Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-6.00

20BME840**Independent Study in Bioinformatics**

Individual advanced studies in bioinformatics under the supervision of a department faculty member Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-6.00

20BME860**Master of Engineering Capstone Project**

Individual projects under supervision of departmental faculty in partial fulfillment of the Master of Engineering degree. Credit Level: G. Credit Hrs: 1.00-6.00

20BME864**Advanced Statistical Methods in Biomedical Research**

New methods of analyzing complex data constantly evolve and the purpose of this course is to expose these methods to graduate students. The methods are culled mostly from research journals and as such no textbook is prescribed for this course. Prereq: 26BE787. Credit Level: G. Credit Hrs: 3.00

20BME881**Introduction to Functional Genomics**

The course will consist of a series of lectures/seminars on the theory and use of methods of functional genomics in biomedical research. Lectures will be presented by some local speakers and invited experts outside the university. The course will include four "lab" sessions offered in an electronic classroom. These sessions will provide hands-on experience application of bioinformatics principles. Prereq: 26GNTD881. Credit Level: G. Credit Hrs: 2.00-4.00

Civil and Environmental Engineering**20CEE100****Introduction to Civil and Environmental Engineering**

Introduction to areas of civil and environmental engineering, basic problem solving skills, ethics, co-op and curriculum. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20CEE101**CEE Freshman Seminar I**

This course provides an overview of environmental engineering issues and practice. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20CEE102**CEE Freshman Seminar II**

This course provides an overview of civil engineering issues and practices. BoK: NA. Credit Level: U. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Civil and Environmental Engineering**20CEE103****Introduction to CEE Math**

Course covers basic elements of trigonometry, geometry, calculus and differential equations through the solution of Civil Engineering problems. Students are shown how basic mathematical concepts relate to and are used in the solutions to engineering problems. Short projects included. Coreq: 20CEE100. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20CEE204**Introduction to Environmental Assessment and Remediation**

Principles of biochemistry and organic chemistry needed for environmental site assessment and remediation strategies Prereq: 15CHEM103. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20CEE272**Civil Engineering Measurements**

Basics of surveying instruments and their use, engineering field and laboratory measurement techniques, computerized data acquisition and reduction. 3 lec. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CEE340**Civil & Environmental Systems Analysis**

Introduction to systems analysis of Civil & Environmental Engineering Systems including methodology and applications. Linear & integer programming, critical path method, and engineering economics, with application to structural, water resources, transportation engineering systems. Prereq: 15MATH273. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CEE345**Environmental Material Balances**

Introduction to techniques of analysis for environmental systems. Application of concepts of material and energy balances to environmental systems as part of the engineering approach to problem solving. Topics include units and dimensions, process variables, reactive system balances, and equations of state for real gases. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CEE351**Transportation Engineering**

Transportation systems; traffic flow theory; traffic engineering studies and design; highway capacity; traffic operations; signal and timing design; highway engineering overview; standards and criteria; highway geometric design. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CEE375**Civil and Environmental Engineering Computer Applications**

Introduction to college computing facilities, applications, software, basic concepts of computer programming and application of computer solutions in civil and environmental engineering BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CEE376**Basic Strength of Materials**

Stress-strain curves and properties of materials; direct stress; thermal stress; shear; torsion; flexure; deflections of beams; columns; combined stresses. Dept. of Civil and Environmental Engr. Ea. Qtr. Prereq: 15MATH264, 20AEEM101. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20CEE381**Structures I**

Applied theory of beams, columns, and other structural elements. Prereq: 20ENFD375. Coreq: 20CEE383. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CEE382**Structural Analysis**

Loads and modeling of determinate and stable structures; trusses; shear and moment diagrams for beams and frames; deflections of beams, frames, and trusses; influence lines; approximate methods of analysis. Prereq: 20CEE381. BoK: NA. Credit Level: U. Credit Hrs: 4.00

Civil and Environmental Engineering**20CEE397H****Environmental Challenges in Modern India**

The emergence of modern India as an economic superpower, the world's largest democracy, and the second largest Muslim nation defies conventional understanding by Western norms. In the context of tremendous ongoing growth and even stronger positioning for future growth - the challenges of environmental degradation within India are severe. The objective of this course is to focus on environmental concerns while discussing the politics, identity, economy, education, youth culture, and the future of modern India through critical review of selected readings BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

20CEE398H**Readings in Sustainable Urban Engineering**

By 2050, more than five billion people live in urban agglomerations. Learning how to sustain living conditions in mega cities is critical for human capital, natural capital, and financial capital. The objective of this course is to integrate readings from urban planning, engineering, and public health with an understanding of the social implications and financial opportunities of mega cities and urban lifestyle. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

20CEE400**Engineering Project Abroad I: Market Assessment**

The objective of this course is to prepare engineers to plan and execute an assessment of a market need abroad including the identification of the need, quantifying the market opportunity, planning an international assessment trip and evaluating data collection in the field. BoK: SE., DC. Credit Level: U. Credit Hrs: 1.00

20CEE401**Engineering Project Abroad II: Appropriate Design**

The objective of this course is to prepare engineers for appropriate design in a context-dependent manner. An emphasis will be placed on recognizing diversity and culture of the client as well as considering the social and ethical issues of engineering design. BoK: SE., DC. Credit Level: U. Credit Hrs: 1.00

20CEE402**Engineering Project Abroad III: Implementation**

The objective of this course is to facilitate the inherent entrepreneurial spirit of each student to implement an appropriate design. An emphasis will be placed on creativity in recognizing diversity and culture of the client as well as considering the social and ethical issues in a context-dependent manner. BoK: SE., DC. Credit Level: U. Credit Hrs: 1.00

20CEE471**Environmental Engineering I**

Fundamental physical, chemical, and biological mechanisms relevant to understanding and modeling important water and air pollution problems. Introduction to treatment and pollution prevention technologies. Techniques for understanding how these problems impact the environment and the risks they pose. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CEE472**Practical Aspects of Building Energy Audits**

Global warming represents one of the great problems confronting our civilization today. At the core of this problem is the massive generation of green house gases (GHGs) that result from the burning of fossil fuels. In our country approximately 40% of all our energy consumption is associated with the heating, cooling, and lighting of buildings, so increasing the efficiency of these processes is a prime target for reducing our GHG production. This course uses lecture-discussion and hands-on energy audits as a means of teaching students how to perform a basic assessment of ways to reduce GHG production for non-commercial buildings. The course targets University Honors Scholars Program students and UC GenEd Breath of Knowledge Courses in Social and Ethical Issues and Social Sciences. BoK: SS., SE. Credit Level: U. Credit Hrs: 0.00-3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Civil and Environmental Engineering**20CEE474****Construction Materials/Concrete Laboratory**

Testing of various construction materials with special emphasis on mixing and testing of concrete materials and structures. 3 lab. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20CEE475**Construction Materials**

General characteristics, physical properties, methods of manufacture, and uses/design of concrete, mortar, brick, steel, wood, and asphalt. 3 lec. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

20CEE476**Principles of Soil Mechanics**

Soil structure and clay minerals, soil compaction, soil hydraulics, consolidation and settlement, shear strength, lateral earth pressures, bearing capacity and slope stability. 3 lec. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CEE477**Soil Mechanics Laboratory**

Laboratory exercises involving the engineering properties of soils and their measurement. A lab report is required for all projects unless stated by the instructor. Computer usage is stressed in the analysis and presentation of results. Coreq: 20CEE476. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20CEE480**Structures II**

Loads and modeling of determinate and stable structures; trusses; shear and moment diagrams for frames; deflections by energy methods; influence lines. Coreq: 20CEE381. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20CEE481**Structural Steel**

Design of steel beams, columns, frames, and connections for buildings. 3 lec., 2 lab. Prereq: 20CEE382. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20CEE482**Reinforced Concrete**

Serviceability and strength-limit states. Behavior, analysis, design and detailing of beams, one-way slabs, and columns. Computer-aided design of reinforced concrete elements. Introduction to integrated design of structural systems. 3 lec., 2 lab. Prereq.: 20CEE381 Prereq: 20CEE382. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20CEE493**Hydraulic Systems**

Theory, design, and laboratory experiments. Pipe flow, measuring devices, open channels, pumps, and turbines. Pipe networks. Jets. Unsteady flow. Systems of hydraulic units. 3 lec. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CEE494**Fluid Mechanics and Hydraulics Laboratory**

Laboratory experiments designed to provide a physical demonstration of hydrostatics, pipe flow, measuring devices, and open channels. Computer-aided analysis of hydraulic systems. 1 lec., 3 lab. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20CEE501**Senior Project**

An original report of a study, design, or investigation which demonstrates the ability of the student to undertake individual responsibility on a comprehensive civil engineering project. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

20CEE502**Senior Project**

See 20-257-501. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

Civil and Environmental Engineering**20CEE503****Senior Project**

See 20-257-501. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

20CEE504**Integrated Design I**

Integrated design is a 3 quarter, team-driven, multi-disciplinary design experience. Students are guided by a panel of UC CEE faculty members and representatives from industry. Each student team will be given a real-world design problem to complete in the 3 quarters allotted. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20CEE505**Integrated Design II**

Integrated design is a 3 quarter, team-driven, multi-disciplinary design experience. Students are guided by a panel of UC CEE faculty members and representatives from industry. Each student team will be given a real-world design problem to complete in the 3 quarters allotted. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20CEE506**Integrated Design III**

Integrated Design is a 3 quarter, team-driven, multi-disciplinary design experience. Students are guided by a panel of UC CEE faculty members and representatives from industry. Each student team will be given a real-world design problem to complete in the 3 quarters allotted. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20CEE543**Hydrology**

Weather and hydrology. Evaporation and transpiration. Infiltration. Streamflow hydrographs. Precipitation and runoff. Storm and sanitary sewer design. Reservoir and streamflow routing. Probabilities. Sediment transport. 3 lec. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CEE550**CEE Finite Element Applications**

Direct stiffness and ritz approaches; shape functions and isoparametric formulation; numerical solution of linear simultaneous equations. One- and two-dimensional elements for truss, beam, plate, flow and heat transfer problems in CEE. Mesh refinement and convergence. Prereq: 20CEE476, 20CEE480. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CEE551**RELIABILITY OF CEE SYSTEMS**

Fundamentals of reliability theory applied to systems and components used in CEE. Design of experiments to quantify reliability; evaluation of experimental results; discrete and continuous distributions; multi-variate distributions; uncertainty; regression and correlation. Prereq: 15MATH366. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CEE561**Senior Seminar**

Discussion of topics important to students nearing graduation; ethics, professional registration, etc. 1 lec. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20CEE583**Structural Loads and Systems**

In-depth discussion of minimum design loads and load combinations. Overview of various steel and concrete structural systems, discussion of practical selection and design issue. Design of joist systems, diaphragms, and lateral bracing. 3 lec., 2 lab. Prereq.: 20CEE481, 20CEE482, 20CEE585. Prereq: 20CEE481, 20CEE482, 20CEE585. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CEE584**WOOD/MASONRY**

Wood/Masonry BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE585**Advanced Analysis of Structures**

Extension and intensification of structural analysis. Virtual work.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Civil and Environmental Engineering**20CEE585****Advanced Analysis of Structures**

Flexural, shear, axial and thermal deformations. Approximate analysis. Statically-determinate cables. Determinate and indeterminate arches. Extension of flexibility method and slope-deflection method. Non-prismatic members. Extension of influence line. 3 lec. Prereq: 20CEE480. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE600**Millennium Goal 7: Ensure Environmental Sustainability**

The objective of this course is to demonstrate key concepts in environmental chemistry and microbiology through engaging students in the evaluation of appropriate technology using case studies. Drinking water and sanitary system design in North America, India, and Sub-Saharan East Africa will be used to compare design needs in developed, emerging, and less developed countries. Successful completion of this course should prepare students for further study in appropriate technologies. BoK: SE., QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE600H**Millennium Goal 7: Ensure Environmental Sustainability**

The objective of this course is to demonstrate key concepts in environmental chemistry and microbiology through engaging students in the evaluation of appropriate technology using case studies. Drinking water and sanitary system design in North America, India, and Sub-Saharan East Africa will be used to compare design needs in developed, emerging, and less developed countries. BoK: SE., QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE601**Millennium Goal 7: Ensure Environmental Sustainability Lab**

Introductory laboratory course on the chemical and microbiological measurements used in water and wastewater sampling and analysis. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

20CEE601H**Millennium Goal 7: Ensure Environmental Sustainability Lab**

Introductory laboratory course on the chemical and microbiological measurements used in water and wastewater sampling and analysis. BoK: SE., QR. Credit Level: U, G. Credit Hrs: 1.00

20CEE603**Managing an Engineering Practice**

Practical aspects of establishing and managing a professional engineering practice; legal, accounting, liability and insurance considerations; registration and professional ethics; human resource management; sales and marketing of projects. 3 lec. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20CEE604**Highway Engineering**

Overview from programming through design to construction. Coverage of design controls and standards, alignment and grade line, typical sections, geometric design, design with COGO, surveying and mapping intersections and channelization, cross sections and earthwork, drainage and right of way, safety criteria, maintenance of traffic, contract documents, legal and environmental considerations. 3 lec. Prereq: 20CEE451. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE605**Transportation Demand Forecasting I**

Fundamental concepts and theories of travel demand forecasting process; aggregate travel demand models; trip generation, trip distribution, modal split, network assignment. 3 lec. Prereq: 20CEE451. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE606**Traffic Engineering**

Operation of transportation systems; traffic surveys and studies; laws and ordinances; traffic control devices, including signs, pavement markings and traffic signals; signal systems; speed; capacity analysis. 3 lec. Prereq: 20CEE451. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

Civil and Environmental Engineering**20CEE607****Pavement Design**

Stresses and deflections in pavements. Effects of traffic, vehicle loads and climate on design of pavements. Pavement material characterization. Design of flexible and rigid highway pavements. Overlay design. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE608**Transportation Systems Evaluation**

Current transportation legislation and federal policies; methods of alternative analysis of transportation systems; analysis of user costs, travel time and safety improvements; benefit-cost and cost-effectiveness analyses; community concerns and environmental impact analyses; planning, programming and prioritizing; impact studies. 3 lec. Prereq: 20CEE451. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE609**Mass Transit Engineering and Operations**

Introduction to urban mass transportation; transit models; transit performance and design standards; designing transit system components and operations; revenue and cost estimation; rail transit. 3 lec. Prereq: 20CEE451. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE610**Computer Methods in Transportation**

Use of computers to analyze traffic data and interpret models; use of current microcomputer software for capacity analysis and signal timing. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE611**Advanced Strength of Materials**

Review of stress-strain relationships, stress on an inclined plane and Mohr's circle; combined loading, combined stress and strain rosettes, pressure vessels; beam mechanics, shear center, and unsymmetric bending; columns; introduction to fatigue and stress concentrations. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20CEE612**Transportation Demand Forecasting II**

Introduction to computerized travel demand models; use of computers to forecast travel demand; calibration and application; techniques to refine travel forecasts from computerized models. 3 lec. Prereq: 20CEE605. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE613**Computer Aided Pavement Engineering**

Use of computers for analyses, design and evaluation of flexible and rigid pavements; analysis of NDT pavement data; maintenance management of pavements. 3 lec. Prereq: 20CEE607. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE614**Municipal Solid Waste Management**

Analysis of the characteristics and management options of municipal solid wastes. Management options are compared for their technical feasibility and environmental soundness. Emphasis is placed on energy and resource recovery. 3 lec., 2 lab. BoK: QR. Credit Level: U, G. Credit Hrs: 4.00

20CEE615**Environmental Virology I**

Basic principles of virology, including the nature of viruses, classification, methods for cultivation, determination of infection and assay, structure, chemistry, molecular genetics and mechanism of infection. 2 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 2.00

20CEE616**Environmental Virology II**

Viruses that infect man. Diarrheal viruses, hepatitis viruses, herpes viruses, adenoviruses, common cold viruses, AIDS virus, influenza and parainfluenza viruses, slow viruses, and others. 2 lec. Prereq: 20CEE615. BoK: NS. Credit Level: U, G. Credit Hrs: 2.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Civil and Environmental Engineering**20CEE617****Environmental Virology III**

Occurrence, survival, detection, removal and destruction of viruses in the air, food and water environments. 2 lec. Prereq: 20CEE616. BoK: NS. Credit Level: U, G. Credit Hrs: 2.00

20CEE618**ENVIRONMENTAL MOLECULAR MICROBIOLOGY**

This course will develop for the student the basic principles of molecular microbiology, describe the techniques of the discipline and provide a basis for evaluating new molecular methods for indicator and pathogen detection in environmental waters. BoK: NS. Credit Level: U, G. Credit Hrs: 2.00

20CEE619**Molecular Methods in Environmental Engineering and Science**

Introduces molecular methods (recombinant DNA techniques, immunochemistry, and 16S rRNA technology) for the identification, enumeration, and quantitative monitoring of microbial populations in natural and engineered systems. (Lecture and lab) Prereq: 20CEE600, 20CEE646. BoK: NA. Credit Level: G, U. Credit Hrs: 4.00

20CEE620**Steel Bridge Engineering**

Covers basic bridge engineering topics including bridge loading, truss systems, noncomposite and composite beam and plate-girder systems, fatigue, and other limit states according to the AASHTO-LRFD Specification. Prereq: 20CEE381, 20CEE481. BoK: NA. Credit Level: G, U. Credit Hrs: 3.00

20CEE621**Concrete Bridge Engineering**

Covers basic bridge engineering topics including bridge loading, concrete and precast concrete superstructures, slabs, end-zone and anchorages according to the AASHTO-LRFD Specification. Prereq: 20CEE381, 20CEE482. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE622**Traffic Signal Design**

Fundamental concepts and standard practices of traffic signal design. Design process and operational aspects of traffic signals. 3 lec. Prereq: 20CEE451. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE623**Construction Estimating**

Types of estimates; estimating techniques; computer application; bidding strategies; value engineering. Students will use real projects and interact with local contractors. 4 lec. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

20CEE624**Highway Safety**

Overview of highway safety engineering studies methodology; problem identification, countermeasure selection and project development; accident surrogates for use in highway safety analysis; before/after study design. 3 lec. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20CEE625**Remediation Geotechnics**

Geotechnical practice for remediation of contaminated sites is discussed. Topics covered include site characterization, soil and groundwater monitoring, in situ containment, air-based remediation, and reactive barriers. Prereq: 20CEE476, 20CEE477. BoK: QR. Credit Level: G, U. Credit Hrs: 3.00

20CEE626**ENVIRONMENTAL SYSTEMS ANALYSIS**

Environmental Systems Analysis BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE627**Mathematical Principles of Environmental Systems**

Fundamental mathematical concepts and numerical algorithms that are important for developing and solving mathematical models of

Civil and Environmental Engineering**20CEE627****Mathematical Principles of Environmental Systems**

environmental systems. Use of these fundamental concepts and algorithms as building blocks for simulating and studying environmental processes and systems. Computer use. algebra; ordinary differential equations recommended. 4 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 4.00

20CEE628**Seepage**

Permeability, seepage fundamentals, and flow net construction. Analysis and design methods to control seepage and groundwater in foundations, earth dams, earth slopes, roads, airfields and other civil engineering works. 3 lec. Prereq: 20CEE476. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE629**Lateral Earth Pressures**

Lateral earth pressure theories, anchored bulkheads, cellular cofferdams, braced excavations, tieback walls, reinforced earth. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE630**Earth Dam Design**

Foundation geology, site investigation, foundation treatment and grouting, seepage, slope stability, embankment construction, spillway analysis, and safety in operation and maintenance. 3 lec. Prereq: 20CEE628. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE631**Asphalt Pavement Technology**

Production and uses of bituminous materials; measurement and significance of lab properties of asphalt; asphalt mix design; aggregate for asphalt pavements, bituminous base stabilization; quality control. 3 lec. and lab. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE632**Geotechnics of Waste Containment**

The geotechnical aspects of waste containment and storage. Aspects of design, construction, testing, and performance of waste containment systems and remediation systems for contaminated sites. BoK: QR. Credit Level: G, U. Credit Hrs: 3.00

20CEE633**Mechanistic Principles of Pavement Design**

Pavement structural analysis. Principles of similitude. Numerical procedures. Mechanistic-based design concepts. Recent advances. Mechanistic-based design procedures for flexible and rigid highway pavements. 3 lec. Prereq: 20CEE607. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE635**Ground Control and Improvement**

Techniques for ground support, control and improvement, including vibrocompaction, soil nailing, pin piles, permeation grouting and compaction grouting. Case histories are emphasized. 3 lec. Prereq: 20CEE476. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE636**Geosynthetics: Theory and Applications**

Design techniques and applications for geotextiles, geosynthetics, geogrids, geonets, geomembranes and geocomposites as they are used in environmental, geotechnical, and other construction engineering projects. 3 lec. Prereq: 20CEE476. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE640**ENVIRONMENTAL CHEMISTRY FOR MANAGERS**

Introductory course for the application of environmental chemistry concepts for problems encountered by environmental managers Prereq: 15CHEM103. BoK: QR, SE. Credit Level: U, G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Civil and Environmental Engineering**20CEE641****Environmental Engineering Seminar**

Lectures and discussions of topics relating to the control of the environment. Guest lecturers as well as student presentations. 1 lec. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

20CEE642**Environmental Engineering Seminar**

See 20-257-641. 1 lec. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

20CEE643**Environmental Engineering Seminar**

See 20-257-641. 1 lec. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

20CEE644**Environmentally Conscious Engineering**

Introduction to the principles of environmentally conscious engineering. Overview of types of environmental contaminants, pollution prevention concepts, materials selection, design for disassembly, economic analysis, and sustainability concepts. 3 lec. BoK: QR., SE. Credit Level: U, G. Credit Hrs: 3.00

20CEE645**Environmental Policy and Decision Making**

Environmental policy analysis with a focus on engineering and technology issues. Uses and organization of environmental policy studies. Role of science and technology in policy studies. Improving theory and practice of policy analysis and decision making. 3 lec. BoK: QR., SE. Credit Level: U, G. Credit Hrs: 3.00

20CEE646**Biological and Microbiological Principles of Environmental Systems**

Basic principles of biology, biochemistry and microbiology with emphasis on energetics, biogeochemical cycling and interactions among biological populations, and influence of environmental factors on the growth and distribution of biological life in different environments. 4 lec. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 4.00

20CEE647**Chemical Principles of Environmental Systems**

Introduction to the chemical principles which are a part of environmental systems used to treat and maintain the air, land, water and to treat the wastes produced by man and industrial processes. Covers topics important to aquatic chemistry, including acid/base behavior, metal-ligand chemistry, precipitation and dissolution, redox chemistry, and the chemistry of carbon dioxide. 4 lec. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 4.00

20CEE648**Environmental Chemistry Laboratory**

Laboratory course on the chemical and biological measurements of dilute aqueous systems, including sampling and analysis of water and wastewater; computer usage in the laboratory; data quality control and quality assurance. 3 lab. Prereq: 20CEE647. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

20CEE649**Introduction to Sustainable Urban Engineering**

Provides a trans-discipline introduction to topics in engineering, planning, policy, health and environmental studies related to the unique challenges of developing and maintaining economically and environmentally sustainable urban regions. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20CEE650**Environmental Biology and Microbiology Laboratory**

Laboratory and field exercises emphasizing the activities of biological and microbiological life and their interactions and effect on man and his environment. Analyses of water, wastewater, solid and hazardous materials, and bioaerosols. 3 lab. Prereq: 20CEE646. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

Civil and Environmental Engineering**20CEE651****ENVIRONMENTAL LAW AND POLICY**

This course imparts a working knowledge of current environmental regulation and of the processes and institutions which share environmental law and policy and addresses the special needs of environmental managers and professionals. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

20CEE652**Advanced Topics in Environmental Water Chemistry**

Advanced chemical concepts used in water treatment and environmental protection of water resources. State-of-the-art research is emphasized. 3 lec. Prereq: 20CEE647. BoK: NS, QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE653**Physical Principles of Environmental Systems**

Analysis of the physical principles which form the basis for many unit operations in water and air quality control operations; sedimentation, filtration and flow through porous media, principles of reactor design, and principles of mass transfer. 4 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 4.00

20CEE654**Physical/Chemical Processes for Water Quality Control**

Process design of physical-chemical systems for water and wastewater treatment. Includes mixing, coagulation-flocculation, sedimentation, media-filtration, adsorption, gas transfer, oxidation, disinfection, flotation and membranes. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 4.00

20CEE655**Biological Processes for Water Quality Control**

Theoretical and practical applications of biological principles to the treatment of water and wastewater. Other areas include sludge dewatering and disposal and solids separation. 4 lec. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 4.00

20CEE656**Public Health Practices Related to Environmental Controls**

Basic principles of communicable diseases as applied to water and wastewater disposal and treatment practices, insect and rodent control, solid and hazardous waste disposal, and indoor and outdoor air pollution. BoK: SE. Credit Level: U, G. Credit Hrs: 4.00

20CEE657**Basic Principles of Environmental Law**

Emphasis on toxics and hazardous materials laws, as well as other aspects of environmental laws. Recent examples of environmental litigation to emphasize legal points. 3 lec. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

20CEE658**Environmental Instrumentation**

Lecture/laboratory course on the theory and practical use of instruments used to analyze environmental samples. Instruments include GC, GC/MS, HPLC, IC, AA, UC-VIS SPEC. 2 lec., 3 lab. Prereq: 20CEE647, 20CEE648. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

20CEE659**Unit Operations Laboratory and Process Monitoring**

Lecture/laboratory course on the theory and practical applications of experimental treatment processes. The class will evaluate both short term and long term processes, such as settling, carbon adsorption, oxidation, activated sludge, and anaerobic digestion. 1.5 lec., 4-5 lab. Prereq: 20CEE646, 20CEE647, 20CEE648. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

20CEE660**Environmental Engineering Management Ethics**

This course addresses the ethical questions that arise when an engineer is faced with environmental concerns resulting from the creation or application of technology. Several major environmental events will be reviewed. 1 lec. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Civil and Environmental Engineering**20CEE660****Environmental Engineering Management Ethics**

This course addresses the ethical questions that arise when an engineer is faced with environmental concerns resulting from the creation or application of technology. Several major environmental events will be reviewed. 1 lec. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

20CEE661**Pollution Prevention and Economics**

This course includes the fundamental concepts of pollution prevention (P-2), P-2 law and hierarchy, P-2 audit systems and concepts of P-2 economics. 3 lec. BoK: QR., SE. Credit Level: U, G. Credit Hrs: 3.00

20CEE662**Atmospheric Chemistry and Monitoring**

A review of organic chemistry. Atmospheric chemistry: both photochemical smog formation and atmospheric aqueous chemistry. Air pollution monitoring and quality assurance, including data quality objectives. 3 lec. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE664**Air Resources Management**

A survey of the concepts of managing the air as a natural resource including sources, effects measurement and monitoring, transport and fate, and laws and regulations of air pollution and the application of these concepts to the development of environmental protection policy and programs and their implementation. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE665**Principles of Combustion**

Chemical and physical fundamentals of combustion processes. Formation and control of primary and secondary gaseous pollutants. Solids, liquids, and gaseous fuel combustion. Hazardous waste incinerators. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE666**Environmental Risk Analysis and Assessment**

The course introduces the process of risk analysis including risk assessment and its translation into risk management and engineering decisions for environmental improvements. 3 lec. BoK: QR., SE. Credit Level: U, G. Credit Hrs: 3.00

20CEE667**Environmental Impact Analysis**

Environmental impact analysis methodologies, National Environmental Policy Act and related regulations, international perspectives, contemporary issues in environmental assessment. 3 lec. BoK: QR., SE. Credit Level: U, G. Credit Hrs: 3.00

20CEE669**Industrial Sources of Air Pollution**

Analysis of industrial processes, estimation of air pollutant emissions, maintenance and operation of air pollution control facilities. Field trips to representative plants. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00-4.00

20CEE670**Construction Equipment and Planning**

Construction equipment selection, planning and management; engineering fundamentals. Course is project oriented, case studies used extensively. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE671**Aerosol Science and Engineering**

Physics of aerosols: size and size distributions, mechanics of motion, agglomeration, diffusion, electrical effects and light scattering. Applications to sampling, deposition, visibility. Condensation and nucleation of aerosols. 3 lec. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 3.00

Civil and Environmental Engineering**20CEE672****Design of Particulate Control Systems**

Mechanical collectors, filters, scrubbers, electrostatic precipitators, and advanced concepts. 3 lec. Prereq: 20CEE671. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE673**Diffusion and Mass Transfer in Environmental Systems**

Design principles for control of gaseous pollutants and air handling systems. Theory of diffusion and mass transfer for application to absorption, adsorption, and incineration systems. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE674**Design of Gaseous Pollution Control Systems**

Analysis and design principles of various gaseous control equipment including flue-gas desulfurization systems, NO_x control, volatile organic vapors and odors 3 lec. Prereq: 20CEE673. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE675**Sustainable Infrastructure and Green Construction**

The course will focus on the built and civil infrastructure environment by considering total life cycle assessment of engineering designs and construction alternatives in the context of sustainable development. Additionally, the course will educate students about green building procedures and strategies, the LEED rating system and the requirements that need to be met on the construction site and in the office to achieve a certified structure. This will include Energy and Atmosphere, Indoor Environmental Qualities, Sustainable Sites, Materials and Resources and Water Efficiency. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20CEE676**Advanced Seminar in Environmental Engineering**

Presentations and discussion of recent developments and research work in Environmental Engineering. 1 lec. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

20CEE677**CE Engineering Economics**

The impact of economic decisions on engineering projects and the associated decision making process. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE678**Case Studies Construction**

Examination of the difference between lean construction and traditional project management. assignments, choice of topics and speakers. 3 lec. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20CEE679**Construction Project Management**

Principles of management, labor motivation, theories of bidding, analysis of risk, valuation, cost control, budgetary control. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE680**Construction Planning and Estimating**

Types and preparation of bids, conceptual estimating, operation analysis, theory of queuing, CPM, PERT, planning with limited resources, resource leveling. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE681**Foundation Engineering I**

Subsurface exploration for foundations. Analysis of shallow footings, mats, retaining wall foundations, pile and pier foundations. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE682**Foundation Engineering II**

Structural analysis and design of footings using ACI Code; pedestals, bearing plates, anchor bolts; square, rectangular, combined and mat

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Civil and Environmental Engineering**20CEE682****Foundation Engineering II**

foundations; pile caps; case histories. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE683**Prestressed Concrete**

Design of pretensioned and post-tensioned units, including loss of pre-stress, flexure, shear, and bond. Design of pre-stressed structures using the ACI code and bridge design using the AASHTO code. Use computer-aided design. 3 lec. Prereq: 20CEE482. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE686**Introduction to Digital Prototyping for AEC Projects**

Introduction to Digital Prototyping for AEC Projects. Use of object-oriented, 3-D parameter modeling to assist with project management tasks such as quantity estimating, clash detection, and installation sequencing. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20CEE687**Law for Engineers**

Legal principles, including construction contracts and liability issues affecting engineers and contractors. Minimizing loss due to liability. Alternative methods of dispute resolution. 3 lec. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

20CEE688**Matrix Analysis of Structures**

Matrix theory and digital computer techniques for the solution of structural problems. 3 lec. Prereq: 20CEE585. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE689**Hydrologic Processes**

A close look at the pathways of rainwater at the earth's surface and at the meteorological, soil physical, and topographic parameters that control these pathways. Perm of Instructor. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE690**Modeling Hydrologic-Hydraulic Systems**

Practical applications of state-of-the-art computer models to solve problems in prediction and control of water quality and quantity. Models may include SWMM, STORM, KYPipe, HEC-1 and HEC-2. 3 lec. Prereq: 20CEE493, 20CEE543. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE691**Climate Change and Environmental Impact**

Properties of climate systems. Physics and dynamics of climatic fluctuations. Causes and effects of climate change. Reviews of evidence of global warming. Environmental impact of climate change. 3 lec. BoK: QR., SE. Credit Level: U, G. Credit Hrs: 3.00

20CEE692**Watershed Field Course**

Field description of soils & their interpretation in a landscape context. Field determination of soil properties relevant for hydrological and biogeochemical processes. Perm of Instructor. BoK: NS, SE. Credit Level: U, G. Credit Hrs: 5.00

20CEE693**Environmental Hydraulics**

Particle and contaminant transport in pipes, unsteady gradually varied open channel flow, residence times and mixing in reactors. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE694**Statistical Principles for Environmental Systems**

Elements of probability theory; common probabilistic models; statistical hypothesis testing and confidence intervals, correlation and regression analysis; introduction to multi-variate systems; non-parametric methods. Examples and illustrations emphasize environmental problems. 3 lec.

Civil and Environmental Engineering**20CEE694****Statistical Principles for Environmental Systems**

Prereq: 20CEE493. BoK: QR. Credit Level: U, G. Credit Hrs: 4.00

20CEE696**Watersheds: Theory and Management**

The abiotic and biotic processes that underlie the structure and function of streams and their watersheds. Social, economic, political, and legal challenges that affect watershed management. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE697**Surface Water Hydrology**

Physics of atmospheric water; evaporation, precipitation, infiltration; linear reservoir theory; unit hydrograph theory; dynamic flow models; hydrologic risk. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE698**Construction Safety and Health**

This course covers OSHA rules and policies for construction projects, assessment of construction safety and health risk exposures, engineering interventions and ergonomics, and human factors in construction. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20CEE699**Design of Natural Treatment Systems**

Application of hydrodynamic principles, nutrient cycling and monte carlo simulation to reliability-based design of constructed wetlands for wastewater treatment. 3 lec. Prereq: 20CEE543. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CEE703**Expert Systems Seminar**

Introduction of knowledge-based expert systems for applications in civil and environmental engineering; components of expert systems -- knowledge base, inference engine, user interface; knowledge acquisition; development of a prototype expert system using a PC-based tool or shell. 1 lec. Credit Level: G. Credit Hrs: 1.00

20CEE705**Seminar**

For all graduate students. Overview of facilities and resources available for instruction and research at the University of Cincinnati. 1 lec. Credit Level: G. Credit Hrs: 1.00

20CEE706**Seminar**

1 cr. Credit Level: G. Credit Hrs: 1.00

20CEE707**Seminar**

1 cr. Credit Level: G. Credit Hrs: 1.00

20CEE708**Limit Analysis of Structures**

Application of lower and upper bound theorems to framed and gabled structures; computer methods; displacements at point of "incipient" collapse; yield-line theory. 3 lec. Prereq: 20CEE781. Credit Level: G. Credit Hrs: 3.00

20CEE710**RISK AND RELIABILITY FOR CIVIL ENGINEERING SYSTEMS**

The fundamental concepts of risk, reliability, safety and probability of failure are examined. Numerical methods of quantifying reliability with application to the various types of civil engineering systems. Relationship to testing and design of experimental programs. Credit Level: G. Credit Hrs: 3.00

20CEE711**Theory of Structures I**

Two and three dimensional stress and strain transformations, principles stresses and strains, and generalized stress-strain relationships. Concept of yield criterion, and classical yield theories. Flexural stresses for unsymmetrical sections, and thin webbed sections. Theory of

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Civil and Environmental Engineering**20CEE711****Theory of Structures I**

torsion, generalization to non-circular cross-sections, St. Venant torsional theory and Prandtl stress function, and membrane analogy and application to cross-sections consisting of a system of rectangles. Prereq: 20CEE585. Credit Level: G. Credit Hrs: 3.00

20CEE712**Theory of Structures II**

Finite element analysis methods applied to structures and structural components. Plane stress and plane strain elements, axisymmetric and solid elements, plate bending elements. 3 lec. Prereq: 20CEE711. Credit Level: G. Credit Hrs: 3.00

20CEE713**Theory of Structures III**

Advanced finite element applications to complex structural behavior. Thin shells, material and geometric non-linearities, fracture problems, dynamic and buckling problems. 3 lec. Prereq: 20CEE712. Credit Level: G. Credit Hrs: 3.00

20CEE714**Nonlinear Structural Analysis**

Fundamentals of mechanics of nonlinear systems and material models for non-Hookean materials. Solution strategies and numerical methods for analysis of structures with geometric and material nonlinearity, with computer applications. 3 lec. Credit Level: G. Credit Hrs: 3.00

20CEE719**Management of Professionals**

This course examines the essential functions of management particularly as related to technical professionals. Topics: managing people, projects & teams; communication; development of organizations; and conflict resolution. Materials presented through readings, case studies and interactive exercises. Credit Level: G. Credit Hrs: 3.00

20CEE720**Management of Science, Technology and Innovation**

Unique characteristics of managing science, technology and innovation based organizations; strategic planning; motivation; conflict management; technology transfer; and science and technology policy. Credit Level: G. Credit Hrs: 3.00

20CEE721**Hazardous Waste Management**

Theory and practice of hazardous waste management are presented from the viewpoint of maximum human and environmental protection with realistic technical expectations for chemical, biological and combined technologies. Risk reduction and safety are integrated into the management concepts. 3 lec. Prereq: 20CEE614. Credit Level: G. Credit Hrs: 3.00

20CEE722**Industrial Wastewater Treatment**

Principles of modern industrial wastewater treatment. Analysis of specific pilot and full-scale treatment plants which are treating complex industrial wastes and meeting discharge requirements. 3 lec. Prereq: 20CEE651. Credit Level: G. Credit Hrs: 3.00

20CEE723**Data Analysis for Environmental Sciences**

An introduction to the analysis of messy data with an emphasis on exploratory and robust methods, and to experimental design. Credit Level: G. Credit Hrs: 2.00

20CEE724**Advanced Unit Operations for Water and Wastewater Treatment**

Fundamentals and applications of advanced unit operations for the purification of drinking water and wastewater. Those include organic and inorganic membranes, ion exchange, adsorption, ultra-filtration, chemical oxidation, and reverse osmosis. Credit Level: G. Credit Hrs: 3.00

Civil and Environmental Engineering**20CEE740****Construction Innovation Seminar**

Introduction to research needs and state of the art research and development (innovation) in the Construction industry. Offered through a series of presentations made by people from the industry as well as students and faculty working in construction related research and development. Credit Level: G. Credit Hrs: 3.00

20CEE742**Computer Applications in Construction**

An overview of information systems in project management, specifically construction engineering, management and administration applications. Overview of computer technology, application planning, development, and management issues, and selected application development tools. Credit Level: G. Credit Hrs: 3.00

20CEE743**Strategic Planning**

Integrated project management, business planning and organization, financial control, project cost control, bid evaluations, bidding strategies, risk analysis, constructability, and lean construction. Credit Level: G. Credit Hrs: 3.00

20CEE761**Soil Mechanics I**

In situ soil stresses, elastic properties of soils, induced stresses, immediate and consolidation settlements, secondary compression, stress path analysis, predicting settlement, difficult soils and site improvement. 3 lec. Prereq: 20CEE476. Credit Level: G. Credit Hrs: 3.00

20CEE762**Soil Mechanics II**

The shear strength parameters of cohesionless and cohesive soils; their proper measurement and uses. Effect of pore pressure. Effect of soil strength on foundation design, slope stability analysis and lateral earth pressure. 3 lec. Credit Level: G. Credit Hrs: 3.00

20CEE763**Advanced Foundation Engineering**

Study of piles, piers and drilled shafts. Foundations on difficult sites. Case studies. 3 lec. Prereq: 20CEE681. Credit Level: G. Credit Hrs: 3.00

20CEE764**Rock Mechanics**

Classification and index properties of rocks; rock strength and failure criteria; initial stresses in rock and their measurement; planes of weakness in rocks; deformability of rocks; applications - underground openings, rock slopes, and foundations Prereq: 20CEE476, 20CEE477, 15GEOL374. Credit Level: G. Credit Hrs: 3.00

20CEE774**Traffic Flow Theory**

Statistical distribution of traffic characteristics: traffic stream models; car following models; hydrodynamic models of traffic; queuing models. 3 lec. Credit Level: G. Credit Hrs: 3.00

20CEE775**Artificial Intelligence Techniques in CEE**

Introduction to expert systems and neural networks with applications in civil and environmental engineering. 3 lec. Credit Level: G. Credit Hrs: 3.00

20CEE776**INTELLIGENT TRAFFIC MANAGEMENT SYSTEMS**

Overview of the national intelligent transportation systems program; freeway surveillance and control systems; driver information and route guidance; incident detection; automated traffic signal system. Credit Level: G. Credit Hrs: 3.00

20CEE781**Reinforced Concrete Theory**

Advanced material properties of concrete including failure criteria, creep

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Civil and Environmental Engineering**20CEE781****Reinforced Concrete Theory**

and shrinkage. Mathematical and numerical modeling of concrete under uni-axial compression, bi-axial and confined loading. Theoretical treatment of column behavior. Examination and modeling of tensile behavior, tension stiffening, bond and anchorage. 3 lec. Credit Level: G. Credit Hrs: 3.00

20CEE782**Reinforced Concrete Design I**

Flexural, shear and torsional behavior and design of reinforced concrete beams and columns. Strut and tie models. Long-term and short-term deflection of reinforced concrete flexural members. Computer methods for section analysis. 3 lec. Prereq: 20CEE781. Credit Level: G. Credit Hrs: 3.00

20CEE783**Reinforced Concrete Design II**

Behavior and design of two-way slab systems and frame systems, including slab column connections and beam column connections. Behavior and design of reinforced concrete structural walls and frame-wall intersection. Computer modeling of reinforced concrete structures, with an emphasis on flat slab systems and structural walls. 3 lec. Prereq: 20CEE782. Credit Level: G. Credit Hrs: 3.00

20CEE785**Theory of Metal Structures I**

Design of steel tension members, columns, and beams by allowable stress and LRFD methods. Elastic and inelastic behavior, torsion, buckling. 3 lec. Credit Level: G. Credit Hrs: 3.00

20CEE786**Theory of Metal Structures II**

Design of steel plate girders, beam-columns, and frames. Allowable stress and LRFD design methods. 3 lec. Prereq: 20CEE785. Credit Level: G. Credit Hrs: 3.00

20CEE787**Theory of Metal Structures III**

Design of connections for steel members, design of bracing for stability, and comprehensive steel frame design. 3 lec. Prereq: 20CEE786. Credit Level: G. Credit Hrs: 3.00

20CEE788**Structural Dynamics I**

The vibration analysis of building elements and structures under dynamic loadings. Single and multiple degree-of-freedom discrete systems, with exposure to continuous systems. 3 lec. Credit Level: G. Credit Hrs: 3.00

20CEE789**Structural Dynamics II**

Analysis, including modeling and assumptions, of building structures for seismic ground motions. Response spectrum, seismic design codes, blast loadings, floor vibrations. Computer applications. 3 lec. Credit Level: G. Credit Hrs: 3.00

20CEE793**Modeling Surface Water Quality**

Advective and dispersive transport of pollutants in overland and channel flow; kinematic non-point source model; first-order kinetics; mixing in rivers. 3 lec. Prereq: 20CEE697. Credit Level: G. Credit Hrs: 3.00

20CEE794**Hydrologic Signal Processing**

Quantitative treatment of spatial and temporal variability in hydrologic processes with an emphasis on earth system science perspective. Correlation and spectral analysis of periodic and aperiodic signals. Estimation of static and dynamic systems including kriging and Kalman filtering. Issues of scale disparity in geophysical processes. or perm. of instr. 4 lec. Credit Level: G. Credit Hrs: 4.00

Civil and Environmental Engineering**20CEE823****Advanced Processes for Water Treatment**

Physicochemical and biological processes as applied to drinking water treatment. 3 lec. Prereq: 20CEE654. Credit Level: G. Credit Hrs: 3.00

20CEE824**Advanced Hazardous Waste Treatment**

The design and application of emergency technologies in the area of hazardous waste treatment, destruction, and recovery. Selection of treatment processes of specific waste streams will be emphasized. 3 lec. Prereq: 20CEE721. Credit Level: G. Credit Hrs: 3.00

20CEE860**Master of Engineering Capstone Project**

Individual projects under supervision of departmental faculty in partial fulfillment of the Master of Engineering degree. Credit Level: G. Credit Hrs: 1.00-6.00

20CEE872**Research**

Projects or research to be done by independent study, not for the MS thesis or PhD dissertation. Credits to be arranged. Offered ea. Qtr. Credit Level: G. Credit Hrs: 1.00-15.00

20CEE899**MS/PHD Research**

Research for the MS thesis or PhD dissertation as required Credit Level: G. Credit Hrs: 1.00-15.00

20CEE904**Fundamentals and Applications of Advanced Oxidation Technologies**

The emphasis of this course is to teach the fundamental mechanisms of AOTs and their application to water treatment. These AOTs include H₂O₂/UV/03, Fenton's and photo-Fenton's reagent, TiO₂ photocatalysis, and sonolysis. The course covers the mechanisms of the degradation reactions, reactor design and process development. The course also includes case studies for the application of these technologies in pilot and full-scale projects for water treatment and in some cases for air treatment and disinfection. Credit Level: G. Credit Hrs: 3.00

20CEE905**Readings**

Tutorial study of problems selected for independent study. Credits to be arranged. Credit Level: G. Credit Hrs: 1.00-15.00

20CEE906**Readings**

See 20-257-905. Credit Level: G. Credit Hrs: 1.00-15.00

20CEE907**Readings**

See 20-257-905. Credit Level: G. Credit Hrs: 1.00-15.00

Chemical Engineering**20CHE100****Introduction to Chemical Engineering**

Introduction to the field of Chemical Engineering and what areas it encompasses including future opportunities in the field. Also, covers ethics, the co-op program, and a team project in creative problem solving. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20CHE362**Chemical Engineering Thermodynamics**

Applications of thermodynamic principles to chemical reaction equilibria, phase equilibria, and various physical and chemical processes. BoK: NS. Credit Level: U. Credit Hrs: 4.00

20CHE364**Material and Energy Balances**

Introduction to chemical engineering; material and energy balance calculations for industrial chemical processes. 3 lec., 3 lab. Prereq: 20ENFD382. BoK: NS. Credit Level: U. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Chemical Engineering**20CHE373****Chemical Engineering Computational Methods**

Computational methods and practices in solving complex chemical engineering problems. BoK: NS. Credit Level: U. Credit Hrs: 3.00

20CHE421**Principles of Momentum Transport**

Applications of fluid mechanics in engineering systems. BoK: NS. Credit Level: U. Credit Hrs: 4.00

20CHE422**Principles of Heat Transfer**

Conduction, convection, and radiation, emphasizing applications of the convective mode. Prereq: 20CHE421. BoK: NS. Credit Level: U. Credit Hrs: 4.00

20CHE423**Principles of Mass Transfer**

Emphasizing the principles of operation and design of differential contacting equipment. BoK: NS. Credit Level: U. Credit Hrs: 4.00

20CHE436**Chemical Engineering Laboratory IV**

Laboratory studies to illustrate chemical engineering principles and operations. 6 lab. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20CHE437**Chemical Engineering Laboratory V**

See 20CHE436. 9 lab. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20CHE461**Equilibrium Processes-Stage-wise Operations**

Fundamentals of stagewise operations and applications in distillation, gas absorption, and extraction. Prereq: 20CHE362. BoK: NS. Credit Level: U. Credit Hrs: 4.00

20CHE462**Chemical Reaction Engineering**

The principles of energy and mass transport and of chemical rate processes applied to the design of process equipment. BoK: NS. Credit Level: U. Credit Hrs: 4.00

20CHE475**Special Projects**

Study or experimental research in areas not covered in other courses. Offered each qtr. Faculty supervision required. BoK: NA. Credit Level: U. Credit Hrs: 1.00-5.00

20CHE545**Process Design Project I**

Application of fundamental theory and economic factors in the design of chemical processes and equipment. Prereq: 20CHE581. BoK: NA. Credit Level: U. Credit Hrs: 2.00-3.00

20CHE546**Process Design Project II**

See 20-CHE-545. Prereq: 20CHE545. BoK: NA. Credit Level: U. Credit Hrs: 3.00-4.00

20CHE571**Process Dynamics and Control**

Principles of automatic control and process dynamics applied to the chemical process industries; examples of measurement and control. Prereq: 20MATH273. BoK: NS. Credit Level: U. Credit Hrs: 4.00

20CHE581**Chemical Engineering Systems**

Analysis and design of chemical processes with emphasis on economics and optimization. BoK: NS. Credit Level: U. Credit Hrs: 4.00

20CHE591**Plastics Technology**

Preparation, properties, and applications of polymers as engineering materials. Includes polymer processing technology, polymer blending and modification, and material selection for specific applications. BoK:

Chemical Engineering**20CHE591****Plastics Technology**

NS. Credit Level: U. Credit Hrs: 3.00

20CHE599**Undergraduate Seminar**

Attendance required. Seminars, workshops, and other events pertaining to professional development will be scheduled throughout the academic year. BoK: NA. Credit Level: U. Credit Hrs: 0.00-1.00

20CHE600**Process Development and Commercialization**

In this course, students will explore the methods by which new processes are developed, evaluated, and commercialized. The course will address: how new processes are developed; the use of simplified process and economic models and approximate optimization to evaluate process concepts for technical and economic feasibility; the impact of safety, environmental and quality requirements; the interface between chemical engineering, laboratory, and market development efforts; transferring a new process from the laboratory to pilot plant to commercialization. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20CHE607**Advanced Particle Technology**

The latest developments of particle science and technology in industrial and environmental systems are presented. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

20CHE608**Advanced Particle Technology**

See 20-CHE-607. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

20CHE609**Advanced Particle Technology**

See 20-CHE-607. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

20CHE610**Process Optimization**

Optimization methods in chemical. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE611**Engineering Economics for Chemical Engineers**

The engineer's role is to solve business problems with technology. Since businesses exist to make profit, this role requires engineers to be able to optimize their designs on an economic basis. This course will provide a foundation in economic analysis, installed cost and product cost estimating plus option analysis and evaluation. Prereq: 20CHE610. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CHE612**Experimental Design in the Chemical Industry**

Covers the analysis of experimental designs with special emphasis on the chemical industry. Topics include completely randomized designs, blocking, full and partial factorial, etc. Prereq: 15MATH148. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE613**Chemical Engineering Analysis**

This course provides a topical review of the analysis techniques used in chemical engineering modeling and research. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE620**Distillation**

Advanced distillation topics; multi-component operations, azeotropic and extractive distillation, computer applications, practical aspects of tower design. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE623**Biochemical Engineering**

Study of the microorganisms, chemistry and processes in the biochemical industries. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Chemical Engineering**20CHE623****Biochemical Engineering**

Study of the microorganisms, chemistry and processes in the biochemical industries. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE624**Biotransformation and Biocatalysis**

Will focus on biochemistry of microbial and in vitro systems that lead to organic synthesis from renewable feedstocks. It will describe major metabolic pathways of the microbial biotransformation of key classes of "xenobiotic" compounds and other types of biocatalytic processes. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20CHE626**Liquid Mixing Technology**

The majority of the processes in industry involve batch or continuous production units which utilize some form of mixing system. This training will provide fundamental knowledge on liquid mixing processes and design of liquid mixing equipment and will focus on problem solving. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE630**Waste Treatment**

Fundamentals of fate modeling and systematic development of waste treatment processes. Covers the modeling and design equations for unit operations for treatment of contaminated air, water, and soil. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE635**Fuels and Air Pollution**

Properties of primary chemical fuels; fuel combustion processes; mechanisms of production of air pollutants; strategies for reducing air pollution. Prereq.: Sr. standing in engineering. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE637**Homogeneous Catalysis**

Description of homogeneous catalytic systems and reactors. Reactor design and stability. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE641**Non-Equilibrium Thermodynamics**

Principles of non-equilibrium thermodynamics and application to the analysis of irreversible processes. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE643**Transport Phenomena I**

An advanced treatment of transport processes. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE650**Bioseparations**

Downstream processing for biotechnology. Introduction to large-scale separation and purification of the products of biochemical engineering. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE655**Adsorption Processes**

Equilibrium and kinetic phenomena in adsorption processes for gas and liquid separations. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE657**Fuel Cells I: Fundamentals**

This course discusses principles and operation mechanisms of fuel cell systems and the underlying thermodynamics and physical factors that determine cell performance. The course covers the concept and classification of fuel cells, thermodynamics, electrochemical efficiency, basics of fuel cells. Prereq: 20CHE362. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

Chemical Engineering**20CHE658****Fuel Cells (II): Technology and Applications**

Course will begin with an overview of sustainable energy supplies for fuel cell development. Issues regarding hydrogen fuel generation and storage are considered. There will be detailed discussions on most important types of fuel cells and their applications. Prereq: 20CHE657. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20CHE659**Inorganic Membranes**

Covers synthesis methods in chemical, structural and transport properties of advanced inorganic membranes. Methods used for inorganic preparation include chemical vapor deposition, physical vapor deposition, sol-gel, co-precipitation and liquid phase deposition. Chemical, structural, surface and transport properties of inorganic membranes will be discussed in this course. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE660**Membrane Separations**

Membrane transport, nonequilibrium thermodynamic formalism, membrane preparation and characterization, separation devices, cascade, computer simulation, industrial applications. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE661**Aging, Evolving Systems: Re-engineering the Corporate System**

How the shape of the table of organization, power distribution and redundancies of duties affect the function of a corporation. Six parameters will be identified, involving overlapping activities, structural geometry, center of gravity and symmetry of power distribution, and informational entropy. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE663**Thermodynamics and Transport in Living Systems**

A review of the thermodynamics of irreversible processes to study aging, open systems. Entropy analysis of living systems. Transport processes in living systems. A primer on energy generation and oxygen consumption in bariatric medicine. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE670**Process Synthesis**

Optimization methods for flowsheet synthesis, including reactor systems, materials allocations and heat and separation system design. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE671**Aerosol Science and Engineering**

Physics of aerosols: size and size distribution, mechanics of motion, agglomeration, diffusion, electrical effects and light scattering. Applications to sampling, deposition, and visibility. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE672**Design of Particulate Pollution Control System**

Mechanical collectors, filters, scrubbers, electrostatic precipitators, and advanced concepts. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CHE673**Computers in Chemical Engineering Design**

To train chemical engineers to solve complex chemical engineering problems using various software programming tools BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CHE675**Particulate Processes**

The fundamentals of aerosol behavior are outlined, and engineering applications and environmental impact of aerosols are presented. Prereq.: Transport Phenomena, mathematics and physical chemistry. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Chemical Engineering**20CHE676****Colloid Science and Engineering**

This course will introduce colloid science and the surface phenomena that are key to understanding the physics and chemistry of colloids.

BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20CHE680**Process Simulation**

The description and analysis of chemical and physical processes by the development and manipulation of appropriate mathematical models.

BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE683**Digital Control of Engineering Processes**

Supervisory and direct digital control, theory of sampled-data system, Z-transforms analysis, design of digital algorithm. BoK: NS. Credit Level:

U, G. Credit Hrs: 3.00

20CHE686**Characterization of Powdered and Porous Materials**

Characterization of particulate solid materials in terms of size, distribution and shape. Special emphasis on characterization of internal structure of porous solids. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE687**FRACTALS IN CHE**

FRACTALS IN CHE BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE688**Powder Technology**

A number of industrial processes and products involve materials in the form of particles or powders. This course introduces the fundamentals of particle science and illuminates its industrial applications. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE689**Zeolites: Synthesis, Characterization and Applications**

Focuses on the fundamentals of zeolites/molecular sieves science. The methods for the preparation and characterization of zeolites will be presented. Applications of zeolites on catalysis, separations and environmental science/engineering will be presented as well. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE690**Applied Separations**

This course is a survey of important technologies including filtration, centrifugation, crossflow membrane microfiltration, evaporation, membrane contractor operations, extraction, distillation, adsorption, and crystallization. General principles, types of equipment available, scale-up methods and process economics are discussed. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20CHE691**Fundamental and Applications of CVD**

Fundamental principles of CVD processes: CVD thermodynamics precursor transport, CVD kinetics, etc., and applications of CVD for advanced materials fabrication. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE692**Sol-Gel Science and Engineering**

To present the fundamental physical and chemical principles of the sol-gel process with emphasis on applications of chemical engineering principles to study the various steps of the sol-gel process. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE693**Polymer Engineering Lab**

Measurements of viscoelastic properties. Mechanical and rheological testing. Polymeric processing techniques. Prereq: 20CHE591. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

Chemical Engineering**20CHE694****Computational Chemistry for Engineers**

Fundamentals of ab initio and semi-empirical molecular orbital theory. Molecular mechanics and dynamics. Monte Carlo methods. Commercial and public domain programs in computational chemistry and simulation methods. Applications in materials science. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE695**Properties and Applications of Hydrogels**

Properties of polymeric hydrogels and their uses for chemical separations and biomedical, pharmaceutical applications are examined including synthesis, swelling, solute transport, phase transitions, network structure. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20CHE696**Environmental Catalysis and Reaction Engineering**

This class will highlight some of the most important problems and solutions that catalysis and reaction engineering can offer. BoK: NA. Credit Level: G, U. Credit Hrs: 3.00

20CHE697**Biotechnology**

The goal of this course is to introduce biology with an emphasis on the biomolecular interactions between DNA, RNA and proteins. This course will cover modern biotechnology and recent advances in bioprocessing through in-depth discussions of current methods for purification, high-throughput screening and nanotechnology used to study biology BoK: NA. Credit Level: G, U. Credit Hrs: 3.00

20CHE698**Molecular Engineering of Functional Nanomaterials**

The goal of this course is to introduce advanced undergraduate and graduate students to modern methods of rational design of functional materials from different sub-disciplines of chemistry and engineering. BoK: NA. Credit Level: G, U. Credit Hrs: 3.00

20CHE699**Surfactant Science and Engineering**

This course will introduce key concepts in surfactant science and help develop a molecular level understanding of a rich variety of interfacial phenomena that is the key to the rationale design and formulation of many surfactant-based products and processes. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20CHE741**Advanced Thermodynamics**

Fundamentals of thermodynamics, together with more advanced treatment and applications to chemical engineering problems. Credit Level: G. Credit Hrs: 3.00

20CHE743**Transport Phenomena II**

See 20CHE643. Credit Level: G. Credit Hrs: 3.00

20CHE777**Chemical Reactor Design**

Principles of chemical kinetics, heat and mass transfer applied to the design of homogeneous and heterogeneous chemical reactors. Credit Level: G. Credit Hrs: 3.00

20CHE778**Fundamentals of Gas-Solid Reaction**

Kinetics of gas-solid reactions. Shrinking core model. Grainy pellet model. Changing voidage model. Thermal decomposition model. Shrinking and growing particles. Fluidized bed applications. Attrition and elutriation. Calcination and desulfurization applications. Credit Level: G. Credit Hrs: 3.00

20CHE796**Polymer Engineering**

Fundamentals of polymer processing. Rheological behavior of polymeric materials. Prereq: 20MTSC794. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Chemical Engineering**20CHE796****Polymer Engineering**

Fundamentals of polymer processing. Rheological behavior of polymeric materials. Prereq: 20MTSC794. Credit Level: G. Credit Hrs: 3.00

20CHE797**Polymer Viscoelasticity**

The nature of linear viscoelasticity. Dynamic testing techniques. Modeling and phenomenology of viscoelastic response. Prereq: 20MTSC794. Credit Level: G. Credit Hrs: 3.00

20CHE800**MS Research in Chemical Engineering**

1-15 GR.CR. Credit Level: G. Credit Hrs: 1.00-15.00

20CHE824**ADVANCED HAZARD WASTE TREATMENT**

3-4 gr.cr. Credit Level: G. Credit Hrs: 3.00-4.00

20CHE853**Biotechnology**

The goal of this course is to introduce biology with an emphasis on the biomolecular interactions between DNA, RNA, and proteins. The course will cover modern biotechnology and recent advances in bioprocessing through in-depth discussions of current methods for purification, high-throughput screening, and nanotechnology used to study biology. Credit Level: G. Credit Hrs: 3.00

20CHE860**Master of Engineering Capstone Project**

Individual projects under supervision of departmental faculty in partial fulfillment of the Master of Engineering degree. Credit Level: G. Credit Hrs: 1.00-6.00

20CHE870**Seminar**

1 gr.cr. Credit Level: G. Credit Hrs: 1.00

20CHE871**Thesis**

Research for the Master of Science thesis. Offered each qtr. Cr. to be arranged. Credit Level: G. Credit Hrs: 1.00-15.00

20CHE881**Selected Topics in Chemical Engineering**

Advanced material not covered elsewhere, including equilibria, rate processes, and separations. Credit Level: G. Credit Hrs: 3.00

20CHE882**Selected Topics in Chemical Engineering**

See 20-CHE-881. 3 lec. Credit Level: G. Credit Hrs: 3.00

20CHE883**Selected Topics in Chemical Engineering**

See 20-CHE-881. 3 lec. Credit Level: G. Credit Hrs: 3.00

20CHE900**PhD Research in Chemical Engineering**

Offered each qtr. Credit Level: G. Credit Hrs: 1.00-15.00

20CHE921**Teaching Methodology in Chemical Engineering**

To enhance students ability in teaching and communication applicable to the chemical engineering profession. Credit Level: G. Credit Hrs: 1.00

20CHE971**Dissertation**

Research for the PhD dissertation. Offered each qtr. Cr. to be arranged. Credit Level: G. Credit Hrs: 1.00-15.00

Chemical Engineering**20CHE972****Special Projects in Chemical Engineering**

Investigations of special problems other than theses. Credit Level: G. Credit Hrs: 1.00-15.00

20CHE973**Readings**

Directed individual study of specialized topics not covered in other courses. Credit Level: G. Credit Hrs: 1.00-15.00

Chemical and Materials Engineering**20CME100****Introduction to CME**

An introduction to the CME Department faculty, staff, organizations and an introduction to the field of chemical and materials engineering. Lectures include ethics topics, team projects in creative problem solving, and introduction to the Co-op Program. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20CME101**Introduction to CME II**

Introduction to CME II will focus on specific and detailed examples of Chemical and Materials Engineering fields of study. Students will have individual technical contact with faculty and industrial personnel. Voluntary plant tours will be offered throughout the quarter BoK: NA. Credit Level: U. Credit Hrs: 1.00

20CME110**Technical Laboratory I**

An introduction to laboratory techniques and equipment, necessary for characterization, development and design of chemical and materials processes. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20CME200**Biology for Engineers**

Fundamentals of biology with the emphasis on applications for engineering including energy production and transport processes in living systems, nanobiology, controlled drug delivery, artificial organs, tissue engineering, genomics, proteomics and bioinformatics BoK: NA. Credit Level: U. Credit Hrs: 3.00

20CME210**Undergraduate Seminar**

Seminars given by faculty, industry, and co-op employers to make students more knowledgeable in their field of study, and to enlighten them as to work opportunities and responsibilities BoK: NA. Credit Level: U. Credit Hrs: 1.00

20CME279**Experimental Nanoscale Science and Technology**

To introduce students to experimental nanoscale science and technology, including carbon nanotube synthesis, nanotube sensor fabrication and characterization, quantum dot characterization, and gold nanoparticle fabrication and characterization. The experimental techniques learned in this course can be applied to industrial problems and also used as a foundation for performing research in the area of nanoscale science and technology. BoK: NS., SE. Credit Level: U. Credit Hrs: 3.00

20CME300**Properties of Materials I**

Structure and property relationships of engineering materials will be explored. Polymer and colloidal systems and their associated properties and structure will also be emphasized. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20CME376**Nature and Properties of Materials**

Properties of engineering materials; atomic bonding; crystal systems; electron transport in solids; metal alloys; deformation of metals; cold working and annealing; polymers; ceramic materials. Ea. Qtr. 3 lec. Prereq: 15CHEM103. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Chemical and Materials Engineering**20CME382****Basic Thermodynamics**

Fundamental laws and concepts of classical thermodynamics; thermodynamic functions; properties of pure substance. Ea. Qtr. Prereq: 15MATH264. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20CME385**Basic Heat Transfer**

Fundamental concepts of heat transfer including conduction, convection, and radiation. Ea. Qtr. Prereq: 15MATH273. BoK: NS. Credit Level: U. Credit Hrs: 3.00

20CME600**Introduction to Biomembranes**

An introduction to the study of biological cell membranes including a discussion of the organization and function of lipid bilayers and membrane channels in living systems and the nature of diffusional processes across cell walls. Topics will include differences between animal and bacterial cells, structure of membrane proteins and carbohydrates, carrier-mediated diffusion, chemical and electrical gradients for transport, G-protein coupled receptors and drug targeting, and experimental and simulation methods of study. Suitable for senior undergraduate and graduate students in engineering, materials science, chemistry, life sciences, pharmacy, and medicine. Required course for new graduate students enrolled in the NSF IGERT program on Bio-Applications of Membrane Science and Technology. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20CME700**Introduction to IGERT Research**

Graduate students admitted to the NSF IGERT program will participate in a summer laboratory rotation prior to the start of their first academic year in their doctoral program. The IGERT student will spend three weeks in the laboratory of an IGERT faculty member on an approved research area prior to selecting an IGERT dissertation advisor. During that time, the IGERT student will have an opportunity to learn about the research area and have experience working on the project under the direction of the IGERT faculty member and under guidance of other graduate students and postdoctoral student assigned to the laboratory. Prereq.: Permission of the Instructor. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00

20CME701**Introduction to IGERT**

Introduction to the IGERT program on Bioapplications of Membrane Science and Technology Discussion of laboratory skills, safety, lab notebooks, critical thinking, problem-solving techniques and laboratory trouble-shooting, technology transfer, and presentation methods. Required course for new graduate students enrolled in the NSF IGERT program on Bio-Applications of Membrane Science and Technology. Credit Level: G. Credit Hrs: 1.00

20CME702**IGERT Seminar**

1 gr. credit Aut, Win, Spr. (credit received at the end of the Spring Quarter) Research presentations by students enrolled in IGERT program and faculty advisors. Invited speakers on IGERT related topics. Required course for new graduate students enrolled in the NSF IGERT program on Bio-Applications of Membrane Science and Technology Credit Level: G. Credit Hrs: 1.00

Computer Science**20CS110****Introduction to Computer Science**

Introduction to various aspects of the computing discipline including: critical analytical skills and underlying ideas; survey of some core areas of CS; introduction to the computing environment using MATLAB; and information about the profession, prospects, and general academic skills. Enrollment limited to CS majors. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Computer Science**20CS112****Fundamentals of Programming**

Top-down program design; break problems into functions and identify needed control structures; declare and employ basic MATLAB data types particularly numbers, strings, 1-dimensional arrays and symbolic variables; create and use functions. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CS121**Computer Science I**

Introduction to computer science with emphasis upon structured and object-oriented programming, algorithm design, and problem-solving. Currently C++ is used as the computer language. Prereq: 20ECES150, 20ECES151. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20CS122**Computer Science II**

Introduction to classes and objects, multi-dimensional arrays, stacks and queues, and abstract data types. Students completing the course successfully should be able to program in the language studied (C++) using general programming principles taught in the course. Prereq: 20ECES121. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CS124**Accelerated Computer Science I and II**

Accelerated coverage of material in Computer Science I - II for students with significant programming experience. Course will cover language (currently C++), problem solving, top-down design, abstract data types, stacks and queues. Requires satisfactory score on dept's placement exam to enroll. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20CS127**Cooperative Learning for Computer Science 1**

Students will participate in guided group work which complements the Computer Science 1 curriculum. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20CS128**Cooperative Learning for Computer Science 2**

Students will participate in guided group work which complements the Computer Science 2 curriculum. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20CS130**Introduction to Formal Logic**

Propositional logic, including definitions and relations to circuits. Formal proofs in propositional logic, soundness, and completeness. Introduction to first order logic, with emphasis upon describing knowledge and requirements. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CS228**Data Structures**

Data structures, such as stacks, queues, trees, and graphs. Introduction to hashing, sorting, searching, and complexity of algorithms. Practice implementation of the concepts of the data structures and encapsulation of structure and behavior of data types. Prereq: 20ECES122. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CS229**Software Development**

Techniques of program design and software engineering, particularly, object-oriented design. Prereq: 20ECES228. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20CS271**Discrete Computational Structures I**

Discrete Computational Structures I introduces discrete mathematical topics in the context of CS; mathematical induction, sets, propositional logic, relations and functions, algorithm analysis, graph theory & combinatorics, and discrete probability. First of 2-course sequence. Prereq: 20CS122, 15MATH252. BoK: QR. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Computer Science**20CS272****Discrete Computational Structures II**

Discrete Computational Structures II; the second in series; continues to introduce discrete mathematical topics in CS, including mathematical induction, sets, propositional logic, relations & functions, algorithm analysis, graph theory & combinatorics and discrete probability. Prereq: 20CS271, 20CS228. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CS311**Introduction to Computer Systems**

Students will gain an understanding of the hardware organization and instruction set of a computer; the internal data representation, addressing modes, I/O. Students will write programs at the assembly language level. Prereq: 20CS228. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CS317**Assembler I**

Assembler language programming on a PC. Organization of the hardware, including registers, memory, and microprocessors and I/O ports. Binary and hexadecimal arithmetic, assembler instructions processor status (flags), program control, the program stack, integer multiplication and division arrays and addressing modes. Prereq: 20ECES229. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CS323**Functional & Logic Programming**

Examination of one or more modern programming methodologies, such as functional programming and logic programming, plus languages to support these methodologies. Prereq: 20ECES229. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20CS332**Design and Analysis of Algorithms**

Algorithm complexity analysis, algorithm design techniques, advanced data structures, and sorting techniques, polynomial and non-polynomial classes of problems. 3 lec. Prereq: 20ECES228. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CS362**Pre-Junior Seminar in Computer Science**

Assessment of student's professional development and planning for CS specialization. Review of careers in computer science. Duties and responsibilities of a computer professional. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20CS403**Organization of Programming Languages**

Examination of organization of programming languages, particularly of their run time behavior. Comparison and formal study of various programming languages. Examples will be drawn both from traditional languages and from modern languages. Prereq: 20ECES323. Coreq: 20ECES317. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CS454**Network Systems Programming**

Principles, standards and programming environment for operating systems and inter-computer communications. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CS471**Design and Analysis of Algorithms I**

Introduction to the study of algorithms, emphasizing general design strategy and both theoretical and practical analysis of their efficiency. Prereq: 20ECES323. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CS472**Design and Analysis of Algorithms II**

See 20ECES471. Prereq: 20ECES471. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20CS505**Special Studies**

Requirements individually arranged including 700-level courses for

Computer Science**20CS505****Special Studies**

graduate school preparation. Available only to seniors with high academic rank and upon approval of petition to faculty. Offered ea. qtr. Cr. arranged. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

20CS507**Research Experience I**

Research Experience I : Participation in a professor's research project. The student must obtain the consent of the instructor prior to registration. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20CS508**Research Experience II**

Research Experience I : Participation in a professor's research project. The student must obtain the consent of the instructor prior to registration. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20CS541**Computational Biology**

Computational problems and tools in biological data analysis. Covers areas in genomics, proteins, genetic variations, systems biology, literature search. Students get insights and experience in solving computational biology problems. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

20CS561**Computer Science Senior Design Project**

Each student creates with his/her advisor a significant project capitalizing on the prior four years of Computer Science education. The scope includes problem selection, requirement specification, design and implementation of the solution. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20CS562**Computer Science Senior Design Project**

Each student creates with his/her advisor a significant project capitalizing on the prior four years of Computer Science education. The scope includes problem selection, requirement specification, design and implementation of the solution. Prereq: 20ECES561. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20CS563**Computer Science Senior Design Project**

Each student creates with his/her advisor a significant project capitalizing on the prior four years of Computer Science education. The scope includes problem selection, requirement specification, design and implementation of the solution. Prereq: 20ECES562. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20CS581**Honors Research Experience in Robotics**

Participation in research with a CS faculty. Includes problem design, solution strategy, computational thinking, comparison with related work, discussion of potential impact of work, reporting & presentation. Student must take course twice to receive credit. Cannot take with 581/582. BoK: QR. Credit Level: U. Credit Hrs: 2.00-3.00

20CS582**Honors Research Experience in Bioinformatics**

Participation in research with a CS faculty. Includes problem design, solution strategy, computational thinking, comparison with related work, discussion of potential impact of work, reporting & presentation. Student must take course twice to receive credit. Cannot take with 581/583. BoK: QR. Credit Level: U. Credit Hrs: 2.00-3.00

20CS583**Honors Research Experience in Virtual Reality**

Participation in research with a CS faculty. Includes problem design, solution strategy, computational thinking, comparison with related work, discussion of potential impact of work, reporting & presentation. Student must take course twice to receive credit. Cannot take with

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Computer Science**20CS583****Honors Research Experience in Virtual Reality**

BoK: QR. Credit Level: U. Credit Hrs: 2.00-3.00

20CS595**Special Topics in Computer Science**

In-depth study of designated area of Computer Science. Topics to be decided by instructor. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS597**Wireless and Mobile Networking**

Basic concepts for wireless communication of both voice and data information. Many underlying system issues related to mobility support and channel allocation will be covered. Wireless communication using satellites will also be described. Discussions on Ad Hoc and sensor networks will also help understand why they are useful. BoK: NS. Credit Level: U. Credit Hrs: 3.00

20CS599**Readings in Computer Science**

Readings in Computer Science BoK: NA. Credit Level: U. Credit Hrs: 1.00-9.00

20CS602**Programming for Artificial Intelligence**

Introduction to programming in languages such as LISP and Prolog which are important in the construction of expert systems, in dealing with "fuzzy" measures of uncertainty, and in other applications of artificial intelligence. Experience in writing programs in these languages. NOTE: This course is intended primarily for graduate students who did not study functional and logic programming as undergraduates. It should normally not be taken by students who have taken 20ECES323 Programming Languages and Methodologies. It does not fulfill any computer science requirements for the BS degree. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

20CS615**Computer Arithmetic**

Examination of both the physical and the algorithmic implementations of arithmetic by digital computers: digital logic and technologies data representation, memory organization and hierarchies, and design and implementation of CPU operations. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS620**The UNIX Operating System**

The UNIX operating system as a multi-user, multiprocessing system; shell programming; utilities and tools of UNIX. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS621**Mathematical Logic I**

Propositional and first order logic. Proof systems, such as Hilbert-style proofs, natural deduction systems, or resolution proofs. Compactness, completeness, and model theoretic techniques. Prereq.: Some 600-level theoretical math or computer science course. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS624**Mathematical Logic II**

Continuation of Mathematical Logic I. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS625**Data Encoding**

Theory and implementation of encryption, authentication, data integrity and compression algorithms. Prereq: 15MATH410. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS626**Formal Software Verification**

An introduction to formal hardware and software verification. The course will be applied emphasizing verification using a particular system. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

Computer Science**20CS626****Formal Software Verification**

An introduction to formal hardware and software verification. The course will be applied emphasizing verification using a particular system. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS633**Artificial Intelligence I**

Knowledge representation, related data structures and major reasoning schemes and their implementation. A major goal of the course is developing a working knowledge of AI programming. Subjects covered may include unification and resolution in first order logic, graph search algorithms, planning, game playing, heuristic classifiers, knowledge engineering and uncertainty management. Prereq: 15MATH410, 20ECES323. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS634**Artificial Intelligence II**

Knowledge representation, related data structures and major reasoning schemes and their implementation. A major goal of the course is developing a working knowledge of AI programming. Subjects covered may include unification and resolution in first order logic, graph search algorithms, planning, game playing, heuristic classifiers, knowledge engineering and uncertainty management. Prereq: 20ECES633. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS635**Math Logic III**

Nonstandard logics of interest in computer science. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS636**Introduction to Robotics**

Introduction to industrial robots, components, programming, and application. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS637**Machine Learning**

Algorithms for training and improving programs that perform knowledge organization and retrieval, classification, and prediction. 3 lec. Prereq: 20ECES672. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS638**Robot Design**

Mechanics of robots. Robot design process starting from specifications BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS639**Robot Control**

Introduction to industrial robot control. Robot servo system analysis and design. Emphasis on electric and hydraulic drive robots. Frequency domain stability analysis. Automated factory concepts. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS640**Robot Vision**

Introduction to intelligent robotics, mathematics, programming and control. Machine intelligence, expert industrial systems, sensors and vision, application to flexible manufacturing system design. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS650**Intelligent Systems Theory**

Introduction to intelligent systems theory including expert systems, fuzzy logic, neural networks, and applications to manufacturing and materials handling. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS651**Database Theory**

Discussion of databases, with emphasis upon theory. Formal models for database system architectures: relational, hierarchical, object, and network; data dependencies, normalization, concurrency, heterogeneous systems. Methodologies for manipulating these models. 3 lec. Prereq: 20ECES229, 20ECES323. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Computer Science**20CS651****Database Theory**

3.00

20CS652**Intelligent Data Analysis**

This course is focused on techniques for extracting useful information from vast amounts of data. Traditional, non-traditional data types, algorithms and recent data mining techniques are discussed and analyzed. Algorithms for classification, clustering, association analysis, etc. are studied. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS653**Network Security**

Current concerns, trends and techniques to insure security and safety of data on computers and over networks. Topics include PGP, RSA, Diffie-Hellman, authentication, integrity, confidentiality, denial of service, security policy enforcement and management techniques. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS660**Computer Graphics**

Introduction to the basic elements of computer graphics. Representation, manipulation, and display of geometric information. Two-dimensional display of three-dimensional objects: perspective hidden surfaces, shading, and animation. Display and input devices. Issues in designing interactive graphics systems. Prereq: 20ECES229, 20ECES323. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS661**Digital Libraries**

Compression and indexing of documents and data: algorithms, formats, and applications. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS662**Virtual Reality and Visualization**

Scientific visualization and virtual reality. Explore the fundamentals of virtual reality (VR) technology to support scientific visualization and engineering design. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS665**Computer Communications and Networks I**

Architecture and protocols in computer networks. TCP/IP programming. Local area networks and ATM. 3 lec. Prereq: 20ECES326. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS666**Computer Communications and Networks II**

Secure protocols in computer networks and distributed computing. 3 lec. Prereq: 20ECES665. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS667**User Interface I**

Examination of human factors of interactive software (psychology vs. machinery). Introduction to graphical user interface (GUI), window systems and programming. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS668**Parallel Computing**

This course is designed to cover programming and algorithmic design issues arising in parallel computing. Fundamental concepts of modern parallel programming, including MPI programming, parallel libraries, and analysis of parallel programs are also covered in this course. Perm of Department. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS669**Collaborative Computing**

Languages, toolkits, technology and human-computer interaction issues related to collaborative computing (C/S groupware, Internet, and/or intranet). BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

Computer Science**20CS670****Theory of Automata and Formal Languages I**

An overview of automata theory and the theory of computation. Regular languages and finite state machines; deterministic and non-deterministic automata. Context free languages. Turing machines and the halting problem; Godel numbering and universal Turing machines. The classes P and NP. Prereq: 20ECES228, 15MATH410. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS671**Design and Analysis of Algorithms I**

An introduction to the study of algorithms. Analysis of computing time, asymptotic notation and generating functions. Strategies for designing algorithms: Divide-and-conquer, Greedy method, Backtracking, etc. Further topics such as techniques for algebraic manipulations, lower bound theory, NP-Complete problems, and parallel algorithms. Prereq: 20ECES228, 20ECES229. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS672**Design and Analysis of Algorithms II**

An introduction to the study of algorithms. Analysis of computing time, asymptotic notation and generating functions. Strategies for designing algorithms: Divide-and-conquer, Greedy method, Backtracking, etc. Further topics such as techniques for algebraic manipulations, lower bound theory, NP-Complete problems, and parallel algorithms. Prereq: 20ECES671. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS675**Parallel and Distributed Systems**

Design and construction of software for parallel and distributed environments. Communication protocols, security and integrity, and fault-tolerance. Emphasis on language constructs and operating systems for parallel and distributed processing. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS679**Network Programming Lab**

Computer network systems and Web server administration. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

20CS688**Introduction to Wireless and Mobile Networks**

Basics of wireless and mobile networks, US wireless and mobile systems infrastructure; fundamentals of cellular systems; channel utilization schemes; Advanced Mobile Phone System; Global System for Mobile Communications, Personal Communication Services; satellite-based systems BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS690**Special Topics in Computer Science**

Topics of current interest to faculty and students. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS694**Advanced Programming Concepts**

Treats programming concepts, especially those needed for upcoming internet, security, graphics, and stream applications. Topics include: exception handlers, control abstractions and applications to streams, co-routines, demand-driven computation, interfaces substitution for multiple inheritance, content handlers, protocol handlers, applications of public key cryptosystem, clients and servers, remote method invocation, uniform data base interfaces, and reflection. Prereq: 20ECES403, 20ECES429. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20CS701**Computer Science Seminar**

Required of all full-time graduate students. Offered in Fall Quarter. Organization; local and visiting speakers. 1 lec. Credit Level: G. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Computer Science**20CS702****Computer Science Seminar**

Required of all full-time graduate students. Organization, local, and visiting speakers. Offered in Winter Quarter. 1 lec. Prereq: 20ECES701. Credit Level: G. Credit Hrs: 1.00

20CS703**Computer Science Seminar**

Required of all full-time graduate students. Organization; local, and visiting speakers. Offered in Spring Quarter. 1 lec. Prereq: 20ECES702. Credit Level: G. Credit Hrs: 1.00

20CS710**Practical Experience**

This course is designed to provide the CS graduate student research experience either on campus or off campus in industry. The advising professor approves the suitability of the work experience and employment period, and can suggest alternate ways of meeting this requirement. Credit Level: G. Credit Hrs: 1.00

20CS717**Type Systems for Programming Languages**

Fundamental type disciplines in programming language design and implementation, emphasizing the use of rigorous mathematical methods in programming language studies. Subtyping, polymorphism and effects. Prereq: 20ECES403, 20ECES670. Credit Level: G. Credit Hrs: 3.00

20CS723**Topics in Artificial Intelligence**

Introduction to varying topics in artificial intelligence. 3 lec. Credit Level: G. Credit Hrs: 3.00

20CS724**Logic in Artificial Intelligence**

Connections between formal logic and artificial intelligence. 3 lec. Credit Level: G. Credit Hrs: 3.00

20CS727**Uncertainty in Artificial Intelligence**

Computational models for management of uncertainty. 3 lec. Prereq: 20ECES634, 15MATH361. Credit Level: G. Credit Hrs: 3.00

20CS728**Internet Studies and Web Algorithms**

Design issues and algorithmic questions arising from internet related technologies and emerging world-wide-web applications. New technologies such as web indexing and search engines, distributed internet caches, streaming technologies, and peer-to-peer application-level networking. Prereq: 20ECES743, 20ECES781. Credit Level: G. Credit Hrs: 3.00

20CS730**Principles of Programming Languages**

Fundamental principles and results in programming language design and implementation. In particular we present a type system for a functional programming language and rigorously establish the soundness theorem for this type system. We also study type inference and program compilation, emphasizing the use of mathematical formalism in such studies. Credit Level: G. Credit Hrs: 3.00

20CS731**Distributed AI**

Introduction to the latest topics and research activities in the area of distributed artificial intelligence. Philosophical foundations of distributed AI, algorithms for achieving different AI goals in distributed knowledge systems, and implemented systems that employ distributed AI. Prereq: 20ECES633. Credit Level: G. Credit Hrs: 3.00

20CS735**Computer Security I**

Protecting software and datafiles against theft, duplication, alteration, and falsification. One-key cryptosystems. Cryptosystems based upon computationally hard problems. Authenticity verification and zero-

Computer Science**20CS735****Computer Security I**

knowledge proofs. 3 lec. Prereq: 15MATH263. Credit Level: G. Credit Hrs: 3.00

20CS736**Computer Security II**

Continued study of computer security issues. Prereq: 20ECES735. Credit Level: G. Credit Hrs: 3.00

20CS742**Parallel and Distributed Computing**

Theoretical and practical aspects of parallel computing, PRAM, network, and VLSI models. Capabilities and limitations of specific communication graphs, including arrays, hypercubes, butterflies and cube-connected cycles. Design and analysis of parallel algorithms. 3 lec. Prereq: 20ECES471. Credit Level: G. Credit Hrs: 3.00

20CS743**Computer Networking**

First graduate level course in computer network protocols. Protocol layering. Fundamentals of link layer design, multiple access, packet switching, addressing, routing and flow/ congestion control. Emphasis on internet working protocols. Credit Level: G. Credit Hrs: 3.00

20CS746**Automata and Formal Languages 2**

Regular and context free grammars and associated automata. The Chomsky hierarchy. Algorithms and unsolvable problems in language theory. 3 lec. Credit Level: G. Credit Hrs: 3.00

20CS747**Complexity Theory**

Polynomial-time complexity. Cook's theorem and NP-complete problems, the polynomial-time hierarchy, and other complexity classes. 3 lec. Credit Level: G. Credit Hrs: 3.00

20CS749**Computability Theory**

Recursive function theory and Turing machines, unsolvable problems, recursively innumerable sets, and the arithmetic hierarchy. 3 lec. Credit Level: G. Credit Hrs: 3.00

20CS752**Advanced Databases**

Selected topics in database theory. Sample topics include knowledge-base systems, physical database architectures, query optimization, distributed databases, security and integrity in databases, and non-DML interfaces. Course may be repeated if different topics are studied. 3 lec. Credit Level: G. Credit Hrs: 3.00

20CS763**Kernel Methods for Learning**

This course provides the mathematical and algorithmic background needed for a basic understanding of the kernel methods. Students will be able to apply them in creative ways to solve a wide range of problems in science and engineering. Prereq: 20ECES634, 20ECES637. Credit Level: G. Credit Hrs: 3.00

20CS765**Computer Graphics 2**

Advanced topics in computer graphics, such as algorithms for scan-line generation, hidden surface removal, shading and texturing, and anti-aliasing. 3 lec. Credit Level: G. Credit Hrs: 3.00

20CS766**User Interface II**

Advanced topics in user interface, including multimedia languages for developing user interface, toolkits, and user interface management systems (UIMS). 3 lec. Credit Level: G. Credit Hrs: 3.00

20CS769**Computational Geometry**

Selected topics in computer-aided geometric design (CAGD). Sample topics include differential and combinatorial geometry, algorithms for

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Computer Science**20CS769****Computational Geometry**

free-form curves and surfaces, and feature-based surface design. 3 lec. Credit Level: G. Credit Hrs: 3.00

20CS780**Self-Study Research**

Research study not directly related to the thesis or dissertation. Self-study to determine the research area and topic. Credits may not be counted towards MS/PhD program. Credits arranged each quarter. Credit Level: G. Credit Hrs: 1.00-9.00

20CS781**Advanced Algorithms I**

Formal treatment of algorithms and algorithms design methodologies; both sequential and parallel paradigms will be covered. Measures of parallel complexity. Program complexity and correctness proofs. Credit Level: G. Credit Hrs: 3.00

20CS782**Advanced Algorithms II**

Continuation of Advanced Algorithms 1. Also selected topics from randomized algorithms, approximation algorithms, distributed algorithms, heuristic search and other modern design strategies. Credit Level: G. Credit Hrs: 3.00

20CS785**Advanced Topics in Computer Science**

Advanced study in varying research topic areas. 3 lec. Credit Level: G. Credit Hrs: 3.00

20CS786**Computational Genomics**

Computational analysis of biological sequences. Credit Level: G. Credit Hrs: 3.00

20CS792**Algebraic Cryptosystems**

Current status of developing and defeating multivariate cryptosystems for transmitting data securely over the Internet with the help of a public key. Tame Transformation systems (TTM), Hidden Field Equations (HFE), SFlash, Vinegar and Oil systems, Matsumoto Imai Plus-Minus systems. Prereq: 15MATH597. Credit Level: G. Credit Hrs: 3.00

20CS794**Research Seminar in Computer Science**

3 lec. Credit Level: G. Credit Hrs: 3.00

20CS796**Solid Modeling**

Introduction to the field of solid modeling. Examination of the basic elements and structures that support solid modeling systems. Mixture of industrial experience, academic ideas, and current research. Study of modeling algorithms, nonmanifold operations, and geometric representation is the focus. 3 lec. Credit Level: G. Credit Hrs: 3.00

20CS797**Wireless and Mobile Networking**

Basic concepts for wireless communication of both voice and data information. Many underlying system issues related to mobility support and channel allocation will be covered. Wireless communication using satellites will also be described. Discussions on Ad Hoc and sensor networks will also help understand why they are useful. This course requires a survey of recent information on one specific topic. A group simulation project will require implementation of a concept in wireless technology Credit Level: G. Credit Hrs: 3.00

20CS798**Performance Evaluation**

Performance evaluation of computer systems and computer networks, including three major analytical techniques such as queuing theory, simulation modeling, and experimental methods. Prereq: 20ECES619. Credit Level: G. Credit Hrs: 3.00

Computer Science**20CS821****Pattern Recognition**

Fundamental techniques for classifying patterns from their measurements; feature selection and extraction Credit Level: G. Credit Hrs: 3.00

20CS829**Queuing Systems and Applications**

Basic theoretical modeling and applications of queuing systems. Topics include review of probability theory, statistics, and random processes, generating functions, Laplace and z-transforms; M/M/1, M/M/m, M/G/m, G/G/1, and G/G/m queues, queuing networks; priority priority queuing, and computer simulation techniques. Prereq: 20ECES619, 20ECES798. Credit Level: G. Credit Hrs: 3.00

20CS831**Ad Hoc and Sensor Networks**

Ad hoc networks, sensor networks, potential applications, broadcasting, multicasting, geo- casting, Wireless LANs and PANs. Impact of directional antennas, security and heterogeneous networks. Prereq: 20ECES797. Credit Level: G. Credit Hrs: 3.00

20CS842**Graph and Network Algorithms**

Graph and network algorithms, both classical ones and ones from current research. Generalizations to matroids. Prereq: 20ECES543. Credit Level: G. Credit Hrs: 3.00

20CS846**Advanced Mobile Computing and Networking**

Base station subsystem; routing; media access control; power and error control; handoff policies; channel allocation; wireless LAN; mobile computing; applications; future directions in mobile networks. Credit Level: G. Credit Hrs: 3.00

20CS860**Master of Engineering Capstone Project**

Individual projects under supervision of departmental faculty in partial fulfillment of the Master of Engineering degree. Credit Level: G. Credit Hrs: 1.00-6.00

20CS865**Advanced Computer Networks**

This course will introduce several advanced topics related to computer networks. Topics will be related to various random access protocols, routing and transport protocols, and quality of service issues. Performance issues will be emphasized. Issues related to Internet and mobile and wireless networks will be discussed. Credit Level: G. Credit Hrs: 3.00

20CS880**Doctoral Dissertation Proposal**

Opened to doctoral students only who have passed the qualifying examination. Only 9 credits of 20ECES880 will be counted toward course work requirements. Prereq.: Perm. of student's adviser. Credit Level: G. Credit Hrs: 1.00-9.00

20CS888**MS Project**

Part-time master's degree students who are pursuing the project option. The project option is not available to full time students. Cr. arranged ea. qtr. Credit Level: G. Credit Hrs: 1.00-6.00

20CS889**Thesis or Dissertation Research**

Full time master's and all doctoral students. Credit Level: G. Credit Hrs: 1.00-19.00

20CS892**Independent Study**

Individual advanced study not directly connected with thesis or dissertation. Cr. arranged ea. qtr. Limits of 3 cr. for MS, 6 cr. for Ph.D. Credit Level: G. Credit Hrs: 1.00-6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Dayton Area Graduate Studies Institute (DAGSI)**20DAG700****INTRODUCTION TO MECHANICS OF COMPOSITE STRUCTURES**

Intro to the macromechanical analysis of anisotropic composite structures, governing equations, strength and stiffness and failure envelopes. Analysis of builtup composite structures. Credit Level: G. Credit Hrs: 4.00

20DAG720**DESIGN OF ROBUST MULTIVARIABLE CONTROL SYSTEMS**

Basic course in robust multivariable control design and analysis, realistic design applications Transfer functions, uncertainty formulation, optimal control and model order reduction techniques. Credit Level: G. Credit Hrs: 4.00

20DAG740**ADVANCED TOPICS IN RELIABILITY**

Advanced topics in systems design in areas of reliability maintainability applied to systems design. Optimal probabilistic design, complex system analysis and design, software and human reliability. Credit Level: G. Credit Hrs: 4.00

20DAG760**ELECTROMAGNETIC COMPATABILITY (EMC)**

Legal and market driven requirements for achieving electromagnetic compatibility, modeling and predicting EMC, compliance with regulations and system design methodologies. Basic EMC design in components, signal spectra and transmission lines. Credit Level: G. Credit Hrs: 4.00

20DAG770**DAGSI AEROSPACE SEMINAR**

A weekly series of seminars in Aerospace Engineering, control theory, aerodynamics, propulsion, structures, composite materials and sensors. Credit Level: G. Credit Hrs: 1.00

Electrical and Computer Engineering**20EECE150****Introduction to Electrical and Computer Engineering**

An introduction to the fundamental engineering principles of digital systems and to ethical, social, economic & safety issues in science and engineering. Students are introduced to faculty and facilities and helped to identify careers in ECE, and to strengthen problem solving skills. Coreq: NA. Credit Level: U. Credit Hrs: 1.00

20EECE151**Introduction to Electrical and Computer Engineering Lab**

An introduction to fundamental engineering principles including digital systems, optics, digital signal processing/communications and robotics through hands-on experimental activities. Coreq: 20EECE150. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20EECE175**Introduction to Digital Design**

Theory and practice of digital system design; combinational logic, synchronous sequential circuits, components & technologies, digital design processes including requirements generation, design & verification using HDL modeling & simulation, hardware synthesis, digital test design. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20EECE180**Software Methods I**

Introduction to software methods for solving engineering problems. Emphasis is on the software development process including creating problem requirements, systematic software design, correct and maintainable C++ coding, and efficient software testing methods. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20EECE235**Digital System Design**

Theory and practice in digital system design; combinational logic, synchronous sequential circuits, components and technologies, simple computers, ALUs, memories, controllers, and I/O interfaces. 3 lec. BoK: QR. Credit Level: U. Credit Hrs: 3.00

Electrical and Computer Engineering**20EECE237****Digital System Design Laboratory**

Implementation of digital systems including combinational logic, synchronous sequential circuits, simple computers, ALUs, memories, controllers and I/O interfaces. 2 lec., 4 lab. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20EECE238**Digital System Design Laboratory for Computer Science Majors**

Implementation of digital systems including combinational logic, synchronous sequential circuits, simple computers, ALUs, memories, controllers and I/O interfaces. 2 lec., 4 lab. NOTE: Should be taken by CS major only. Coreq: 20ECES235. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20EECE240**Software Methods II**

Introduction to intermediate and advanced software methods for solving engineering problems. Emphasis is on the software development process, exploitation of abstraction in the software development process, and data structures to produce maintainable software programs. Prereq: 20EECE180. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20EECE250**Network Analysis I**

Voltage, current, and power in electrical networks. Solutions of linear resistive networks and network theorems. Solutions of linear electrical networks containing inductors and capacitors. Transient solutions and steady state solutions for constant forcing functions. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20EECE251**Network Analysis II**

Transient solutions and steady-state solutions for time-varying forcing functions. Use of phasors to analyze networks and sinusoidal forcing functions. Impedance; power; two-ports networks. 4 lec. Prereq: 20ECES250. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20EECE326**Introduction to Computer Organization**

Fundamentals of computers. The stored program concept. Addressing modes, instruction formats, and instruction sets. Data path and control unit design. Hardwired and microprogrammed control. Memory components and the memory hierarchy. 3 lec. Prereq: 20ECES235. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20EECE337**Microsystem Design Laboratory**

Introduction to microprocessors and their uses. The special features of microprocessors: the stack, interrupts, input ports, output ports, and displays. The usage of microprocessors: data manipulation and interfacing. 2 lec, 4 lab. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20EECE338**Microsystem Design and Interfacing**

Introduction to microprocessors and their uses. Review of gate level digital fundamentals. Architecture and register set of CPU, types of memory, interfacing using FPGA technology. Use of Assembly Language to create binary machine code. Link to high level languages. Prereq: 20ECES235, 20ECES237. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20EECE339**Microsystem Design and Interface**

Microsystems, memory systems, assembly language programming, microcomputer architecture, I/O design, and interfacing related issues. 3 lec. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20EECE343**Signals and Systems I**

An introduction to the fundamentals of signals and systems and the computational methods for computer-aided system analysis and design. 4 lec. Prereq: 20ECES251. BoK: QR. Credit Level: U. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Electrical and Computer Engineering**20EECE343****Signals and Systems I**

An introduction to the fundamentals of signals and systems and the computational methods for computer-aided system analysis and design. 4 lec. Prereq: 20ECES251. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20EECE344**Signals and Systems II**

Representation and analysis of signals and systems parameterized by continuous-time. 4 lec. Prereq: 20ECES343. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20EECE349**Measurement Laboratory**

Computer controlled use of oscilloscope and spectrum analyzer. 2 lec., 4 lab. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20EECE351**Electronics I**

OP amp. systems, nonlinear circuits, linear amplifiers, bipolar and FET stages, differential and multistage amplifiers. 4 lec. Prereq: 20ECES251. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20EECE352**Electronics II**

Feedback systems, filters, oscillators, tuned amplifiers, MOS and bipolar digital circuits. 4 lec. Prereq: 20ECES351. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20EECE371**Basic Electric Circuit Analysis**

Analysis and problem solution with direct and alternating currents. Series and parallel circuits with resistance, inductance and capacitance. Circuit laws, power and sinusoidal waveforms. Dept. of Electrical & Computer Engr. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

20EECE429**Introduction to Operating Systems**

Function, design, and integration of the parts of an operating system. Policies for scheduling and page-replacement. Non-preemptable resource allocation, deadlock, starvation, livelock, access control, and mutual exclusion and concurrency. 3 lec. Prereq: 20ECES326, 20ECES228. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20EECE436**Computer Systems Modeling and Analysis**

Principles and methods for modeling and simulation of networked computing systems and analyzing their performance. Prereq: 20ECES326. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20EECE465**Electronics Laboratory**

Measurement techniques and characterization of transistors and various ICs. 2 lec., 4 lab. Prereq: 20ECES349. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20EECE466**Electronics Design Laboratory**

Analog and digital circuit design projects with theoretical and experimental work to meet design specifications. 2 lec., 4 lab. Prereq: 20EECE352, 20EECE465. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20EECE472**Practical Aspects of Building Energy Audits**

Global warming represents one of the great problems confronting our civilization today. At the core of this problem is the massive generation of green house gases (GHGs) that result from the burning of fossil fuels. In our country approximately 40% of all our energy consumption is associated with the heating, cooling, and lighting of buildings, so increasing the efficiency of these processes is a prime target for reducing our GHG production. This course uses lecture-discussion and hands-on energy audits as a means of teaching students how to perform a basic assessment of ways to reduce GHG production for non-

Electrical and Computer Engineering**20EECE472****Practical Aspects of Building Energy Audits**

commercial buildings. The course targets University Honors Scholars Program students and UC GenEd Breath of Knowledge Courses in Social and Ethical Issues and Social Sciences. BoK: SS., SE. Credit Level: U. Credit Hrs: 0.00-3.00

20EECE473**Electromagnetic Fields I**

Applications of Maxwell's equations to uniform plane waves. Attenuation of plane waves in conductors. Reflection and refraction of plane waves at interfaces. Wave propagation in waveguides and optic fibers. Prereq: 20ECES250. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20EECE474**Electromagnetic Fields II**

Introduces students to concepts of distributed parameter systems, development of networks and analysis techniques for uniform transmission lines. Development of understanding of basic electrical and magnetic phenomena, definition of field vectors. Prereq: 20ECES473. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20EECE481**Solid State Electronics I**

Crystal structures, energy bands, and material properties. Charge carriers in semi-conductors. Carrier drift, diffusion, generation and recombination. P-N junction operation. 3 lec. Prereq: 15MATH276, 15MATH273, 20MATH273, 20EECE349. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20EECE482**Solid State Electronics II**

Fundamental device operation of MOS capacitor, bipolar, field effect and junction FET transistors. Biasing, carrier flow and control, static characteristics, secondary effects, switching, small signal models. 3 lec. Prereq: 20ECES481. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20EECE490**Introduction to Automatic Controls**

Modeling, transfer functions, transients, stability, and error characteristics. Use of Nyquist, Bode and Root Locus diagrams and state variables. 3 lec. Prereq: 20ECES344. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20EECE493**Software Engineering**

Introduction to software engineering and formal methods. General course topics include software lifecycle models, requirements analysis, specification, design, testing and maintenance. The course introduces students to formal methods and applies those techniques throughout the software cycle. Coreq: 20EECE495. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20EECE495**Software Engineering Laboratory**

Lab to accompany ECES 493 Software Engineering. Students learn the basics of object-oriented analysis and design, apply concepts taught in Software Engineering lecture, and develop a large, group project. 4 lab. Coreq: 20EECE493. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20EECE501**Electrical Engineering Senior Design Project**

Independent or team investigations arranged to develop experimental and design abilities. 3 lec., 6 lab. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20EECE502**Electrical Engineering Senior Design Project**

Independent or team investigations arranged to develop experimental and design abilities. 9 lab. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20EECE503**Electrical Engineering Senior Design Project**

Independent or team investigations arranged to develop experimental

Electrical and Computer Engineering**20EECE503****Electrical Engineering Senior Design Project**

and design abilities. 9 lab. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20EECE505**Special Studies**

Requirements individually arranged including 700-level courses for graduate school preparation. Available only to seniors with high academic rank and upon approval of petition to faculty. Offered ea. qtr. Cr. arranged. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

20EECE531**Computer Engineering Senior Design Project**

First of three quarter laboratory series in which students create a significant product capitalizing on their prior four years of Computer Engineering education. Each student selects a project adviser, and works with him/her to select a design problem, identify the requirements and specifications of the product, and design the product. Prereq.: Senior standing in computer engineering. 9 lab. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20EECE532**Computer Engineering Senior Design Project**

Continuation of 20ECES531. Completion of detailed design and implementation of project. 9 lab. Prereq: 20EECE531. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20EECE533**Computer Engineering Senior Design Project**

Continuation of 20ECES532. Complete the assembly and carry out testing and integration of the project. 9 lab. Prereq: 20EECE532. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20EECE592**Database Design and Development**

Database design with the Entity Relationship model. Relational data model and database design. Physical storage techniques. Reliability and recovery. Concurrency. 3 lec. Prereq: 20ECES228. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20EECE593**Advanced Database Design**

Database design with the Extended Entity Relationship Model and Unified Modeling Language. Mapping conceptual schemas to relational, object-oriented, and object-relational logical schemas. Prereq: 20ECES592. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20EECE607**Introduction to Biomedical Microsystems**

Introduction to biomedical microsystems, including micro total analysis systems, biochips, cell engineering applications, and microfluidics. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE608**Fundamentals of MEMS**

Introduction to MEMS, driving principles for MEMS, new MEMS materials, fundamental MEMS microstructures, microtransducers and microactuators, MEMS-based sensors, microsystems and control, circuit integration and system partitioning, packing, assembly and testing Prereq: 20EECE482. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE610**Database Management Theory**

Database formal architectures emphasizing modeling and theory. Formal methods for database architectures; relational, hierarchical, object, object-relational and network; data dependencies, normalization, integrity constraints, concurrency, heterogeneous systems. Prereq: 20ECES323, 15MATH352. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

Electrical and Computer Engineering**20EECE611****Microwave Communications**

A study of microwave communication systems, passive microwave components and circuits, amplifiers, and oscillators. 3 lec. Prereq: 20EECE473, 20EECE474. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE612**Microwave Communications Laboratory**

An experimental study of microwave components, circuits, amplifiers and oscillators. 2 lec., 4 lab. Prereq: 20ECES611. BoK: QR. Credit Level: U, G. Credit Hrs: 4.00

20EECE614**Photonic Information Processing Laboratory**

Explore the fundamentals of photonic systems through the analysis and characterization of optical and optoelectronic components. Free space (standard bulk) optics and development of a simple image processing system. Fiber optic systems and development of 2-channel wavelength division multiplexed fiber optic communication link. 2 lec. 4 lab. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE616**Computer Systems Design**

Design and analysis of computer systems and networks of computers. Analytical and simulation methods used to determine design requirements, specifications, and architectures. A simple computer is designed and evaluated. 3 lec. Prereq: 20ECES326, 20ECES338. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE617**Embedded Systems**

Embedded system design and development. High-level design tools, system-level design, and designing for testability will be emphasized. Pre-req: 20EECE326 and 20EECE429 OR permission of instructor. Prereq: 20CS228. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE618**Microfabrication of Semiconductor Devices**

Microfabrication principles and elements, epitaxial growth, oxidation, thin film deposition, lithography, etching, doping, and process integration. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE619**Introduction to Random Processes**

This course will provide an introduction to random variables, stochastic processes and stochastic modeling techniques. The first part of the course will cover the fundamentals of random variables. The second part will introduce stochastic processes and methods for their analysis and estimation, leading into issues of modeling in the context of linear systems. Markov processes and queueing theory. Prereq: 15MATH361. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE622**Introduction to Quantum Computing**

Introduction to the rapidly growing field of quantum computing. Brief overview including historical perspective, intro to qubit and tensor product, examples of superdense coding and teleportation. Quantum mechanics, computer science, intro to quantum gates and circuits, quantum computers and their physical realizations. Prereq: 15MATH356, 15PHYS276. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE626**Communication Systems**

Analog and digital modulation systems; noise, frequency, and time-division multiplexing. Prereq: 20EECE619. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE628**Introduction to Nanoelectronics**

Emerging technologies in nanofabrication and nanoscale electronic devices. Nanolithography, nanometer 3D MOSFETs, carbon nanotubes, spintronics, nanoscale and single electron transistors,

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Electrical and Computer Engineering**20EECE628****Introduction to Nanoelectronics**

quantum dots and computing, molecular electronics. BoK: NS. Credit Level: G, U. Credit Hrs: 3.00

20EECE629**Introduction to Operating Systems**

Function, design, and integration of the parts of an operating system. Policies for scheduling and page-replacement. Non-preemptable resource allocation, deadlock, starvation, livelock, access control, and mutual exclusion and concurrency. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE630**Advanced Sensors Instrumentation and Computer I/O Design**

Model-based system accountability and error analysis methods for computer systems for data acquisition, processing, and output distribution. 3 lec. Prereq: 20EECE351, 20EECE352. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE632**Digital Communications**

Digital passband communication theory and design. Passband digital modulation techniques. Performance analysis and tradeoffs. Coding techniques. Trellis-coded modulations. Spread spectrum communications including DS/CDMA and FH/CDMA. Communication theory. Prereq: 20EECE626. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE636**Intelligent Systems**

Intelligent systems can be characterized by the ability to (i) extract pertinent information from irrelevant details, (ii) to learn from examples and generalize this knowledge, and (iii) draw inferences from incomplete information. This course focuses on the underlying theory of Intelligent Systems. 3 lec. Prereq: 20EECE343. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE638**Nonlinear Dynamics and Intelligent Systems**

Intelligent systems and their connection to nonlinear dynamics will be explored in this course. Concepts such as fuzzy logic and fuzzy controllers, recurrent neural networks will be introduced and their different applications will be considered. 3 lec. Prereq: 20ECES344. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE641**Silicon Semiconductor Microfabrication**

Instruction and hands-on semiconductor processing in clean-room environment, including two sided wet and dry lithography for microelectronics, microensors and MEMS (microelectromechanical systems), using surface and bulk "micromachining" for systems "on a chip." 2 lec., 4 lab. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE642**Digital Image Processing**

Digital image characterization, discrete transforms, image enhancement, encoding, restoration, and reconstruction. 3 lec. Prereq: 20ECES645, 20ECES343. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE643**Electrical Machines Laboratory**

Experimental evaluation and application of 1-phase and 3-phase induction, synchronous, and universal electric motors and their speed-torque load curves employing dynamometer measurements. Coreq: 20ECES654. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

20EECE644**Digital Signal Processing Laboratory**

Introduction to real-time digital signal processing. Designed to enhance the theoretical background learned in signal processing and communications courses by implementing algorithms in real-time and observing the results with the laboratory instruments. Student will gain

Electrical and Computer Engineering**20EECE644****Digital Signal Processing Laboratory**

an understanding of the DSP hardware and gather experience in system design and algorithm implementation. Prereq: 20ECES645. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE645**Introduction to Digital Signal Processing**

Representation and processing of signals using digital techniques, A/D and D/A, fast Fourier transform, design of digital filters. 3 lec. Prereq: 20ECES343. BoK: QR. Credit Level: U, G. Credit Hrs: 4.00

20EECE647**Semiconductor Device Modeling for VLSI**

Operation and characteristics of high speed devices: submicron silicon MOSFETS and bipolar transistors for high frequency and VLSI applications. Basics of MESFETS and some high speed devices using compound semiconductors. Introduction to the AIM-SPICE simulation package. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE648**Fundamentals of Optoelectronics**

Lightwave technology including fiber optics, semiconductor lasers, photodetectors and modulation and switching devices are considered. The concepts of optical signal processing and optical computing are introduced. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE650**Multidisciplinary and Collaborative Design for Systems on a Chip**

Understanding of micro/macro collaboration and ability to apply and use multidisciplinary skills for the design of a system on a chip. Peripheral sensors, multiplatform integration, embedded real-time processors and design issues, adaptive data reduction and analysis, wireless communication. BoK: QR. Credit Level: U, G. Credit Hrs: 4.00

20EECE652**Optical Communications**

An introduction to the theory and design of optical communication systems. Covers the design of optical communications systems at both the component and system levels. Components discussed: fibers, semiconductor lasers, photodetectors, modulators and couplers, design of transmitters and receivers. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE654**Electric Machines and Power Systems**

Development of models of induction machines, synchronous machines and other power system components, balanced and unbalanced 3 phase power system analysis. 3 lec. Prereq: 20ECES250, 20ECES474. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE655**Power System Analysis and Computer Methods**

Study computer simulation methods for power flow, short circuit and transient stability analysis and to employ these methods for analysis of large scale systems. 3 lec. Prereq: 20ECES654. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE656**Modern Sensors and Instrumentation I**

Theory, design and implementation of sensors for industrial, medical and biological processes; transducer interfacing and signal conditioning; "smart" sensors, multi-sensory systems, sensor control and implementation structures. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE658**Introduction to Logic and High Level VLSI Synthesis**

Introduces students to the concepts of logic and high level VLSI synthesis. Synthesis at logic, state-machine, register transfer and behavior levels will be covered. Prereq: 20ECES680. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Electrical and Computer Engineering**20EECE662****Computer Control of Manufacturing Systems**

An introduction to computer algorithms, architectures, and systems engineering for automatic factory control. Scheduling algorithms, dispatching algorithms. Re-order point (sic. kanban and JIT) algorithms. Manufacturing system classification for control algorithm selection. 3 lec. Prereq: 20ECES490. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE663**Industrial Control Laboratory**

A computer-based laboratory emphasizing different control techniques used in industry including PIC and PLC control. This course is meant to bridge the student's theoretical knowledge with current industrial practice. Implementation of PID and PLC control algorithms on industrial controllers, PCs, and with specialized digital circuits. 2 lec., 4 lab. BoK: QR. Credit Level: U, G. Credit Hrs: 4.00

20EECE664**Analog Electronic Systems**

Analog circuit fundamentals for signal conditioning and interfacing to microprocessors; emphasis on circuit techniques useful in general analog design; op amps, comparators, noise, and nonlinear circuits. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE668**Microsensing for Instrumentation**

Microsensing for instrumentation in space, industrial and medical applications. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE673**Antennas for Wireless Communication**

A study of the theory and properties of various communication antennas covering the range from RF frequencies to millimeter wavelengths. Prereq: 20ECES473, 20ECES474, 20ECES611. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE674**Photonic Circuits and Systems**

Circuits and systems incorporating high speed electronic devices, such as HEMTs and HBTs, with optical devices such as semiconductors, lasers, modulators, and photodetectors. Optical receivers and transmitters, digital and microwave applications, configurations, tradeoffs, gain, bandwidth, noise, device structure, system integration. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE676**VLSI Design Automation**

VLSI design automation, layout synthesis and logic synthesis, partitioning, placement and routing algorithms, combinational and sequential circuit synthesis. Course includes laboratory session and software development. Prereq: 20ECES680. BoK: QR. Credit Level: U, G. Credit Hrs: 4.00

20EECE678**Micro/Nano Fluidic Biochip Laboratory**

An introduction to design, fabrication, and characterization of micro/nano fluidic lab-on-a-chip (LOC) devices and biochips. Laboratory topics include device design and modeling, mask layout and design, thick resist lithography, polymer fabrication and fluorescence characterization. Perm of Instructor. BoK: NS. Credit Level: G, U. Credit Hrs: 4.00

20EECE680**Physical VLSI Design**

Introduces techniques and tools for scaleable VLSI design and analysis. Emphasis is on physical design (layout, placement, and routing) and on performance analysis (area, speed, and power). Includes extensive lab experiments and hands-on usage of CAD tools. 3 lec., 4 lab. Prereq: 20ECES338. BoK: QR. Credit Level: U, G. Credit Hrs: 4.00

20EECE681**VLSI System Design**

Systems-level design of VLSI circuits, from high-level specifications through physical design and layout. Emphasis on requirements

Electrical and Computer Engineering**20EECE681****VLSI System Design**

analysis, systems partitioning, and performance-driven design methods. Includes extensive lab experiments and hands-on usage of CAD tools. 3 lec., 4 lab. Prereq: 20ECES680. BoK: QR. Credit Level: U, G. Credit Hrs: 4.00

20EECE682**VLSI Testing and Validation**

Introduces students to the concepts of VLSI testing and validation at the chip and PCB levels. Includes combinational and sequential testing, test strategies and design for testability. Involves lab sessions and use of VLSI test equipment and software. 3 lec., 4 lab. Prereq: 20ECES680. BoK: QR. Credit Level: U, G. Credit Hrs: 4.00

20EECE683**Compiler Theory**

Scanning. Parsing. Semantic analysis. Code generation. 3 lec. Prereq: 20ECES228, 20ECES332, 20ECES670. Coreq: 20ECES685. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE684**Silicon Millimeter Wave Devices and Circuits**

Introduction to new, high speed silicon transistors, especially HEMTs and HBTs incorporating SiGe, and their operation at microwave and millimeter wave frequencies for applications such as communications and sensors. Overview of device structure and operation, recent demonstrations, future potential, and monolithic integration in MMICs. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE685**Compiler Laboratory**

Implementation of a compiler, including parts of the scanner, parser, semantic analyzer, and code generator. 2 lab. Prereq: 20ECES228, 20ECES338. Coreq: 20ECES683. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

20EECE695**Modern Control Engineering**

Frequency response and state-space methods for designing feedback control systems. Other practical control design issues including digital control systems, robust control and adaptive control systems. Case studies for control systems design will be investigated. Prereq: 20ECES490. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE696**Process Control and Manufacturing Systems**

Process control and manufacturing automation for computer integrated systems with the new quality technologies. Sensor/computer/control structures employing contemporary analytical design methods. BoK: QR. Credit Level: G, U. Credit Hrs: 3.00

20EECE697**Compound Semiconductor Fabrication Laboratory**

Compound semiconductor fabrication, ion implantation, PACVD, rapid thermal annealing, photolithography, metallization and lift-off, ohmic and Schottky contacts, process characterization techniques, MESFET measurements. 3 lec. Prereq: 20ECES481, 20ECES482. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE698**Biosensors and BioMEMS**

Introduction to Biomedical MicroElectroMechanical Systems (BioMEMS), including microfluidics, biosensors, bioelectronics, material biocompatibility, and packaging. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EECE701**Electrical and Computer Engineering Seminar**

Required of all full-time graduate students. Offered in Fall Quarter. Organization; local and visiting speakers. 1 lec. Credit Level: G. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Electrical and Computer Engineering**20EECE702****Electrical and Computer Engineering Seminar**

Required of all full-time graduate students. Organization, local, and visiting speakers. Offered in Winter Quarter. 1 lec. Prereq: 20ECES701. Credit Level: G. Credit Hrs: 1.00

20EECE703**Electrical and Computer Engineering Seminar**

Required of all full-time graduate students. Organization; local, and visiting speakers. Offered in Spring Quarter. 1 lec. Prereq: 20ECES702. Credit Level: G. Credit Hrs: 1.00

20EECE707**Biomedical MEMS**

Applications of Microelectromechanical Systems (MEMS) to medicine and biology, including microfluidic biochips and their fabrication, biosensors, cell handling, material biocompatibility, and packaging. Credit Level: G. Credit Hrs: 3.00

20EECE708**Optimization by Vector Space Methods I**

This course will introduce students to functional analysis and infinite dimensional optimization with applications to least squares estimation, optimal control and differential games. Prereq: 20ECES733, 15MATH506. Credit Level: G. Credit Hrs: 3.00

20EECE709**Optimization by Vector Space Methods II**

Continuation of 20ECES708. Prereq: 20ECES708. Credit Level: G. Credit Hrs: 3.00

20EECE710**Practical Experience**

This course is designed to provide the ECE graduate student research experience either on campus or off-campus in industry. This is required of all MS and PhD students. The advising professor approves the suitability of the work experience and employment period, and may also waive this requirement. Credit Level: G. Credit Hrs: 1.00

20EECE711**Millimeter Wave Electronics**

A study of passive microwave components and circuits, resonators, power dividers, filters, theory and design of ferrimagnetic components, active microwave circuits. 3 lec. Prereq: 20ECES611. Credit Level: G. Credit Hrs: 3.00

20EECE712**Introduction to Optical Computing**

Fundamentals of optical computing. Basic principles of optics; analog and digital optical computing. Potential role of optics in implementation of computing systems. Credit Level: G. Credit Hrs: 3.00

20EECE714**Advanced Microfabrication of Compound Semiconductor Devices**

Advanced topics in device microfabrication, in particular dealing with compound semiconductors. 3 lec. Prereq: 20ECES618. Credit Level: G. Credit Hrs: 3.00

20EECE715**Random Processes and Stochastic Models**

Introduction to random variables, stochastic processes and stochastic modeling techniques. The course covers fundamentals of random variables, an introduction to stochastic processes and methods for their analysis and estimation, leading into issues of modeling in the context of linear systems, queueing theory and Markov processes. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE716**Semantic Web**

Managing data and knowledge embedded in the Semantic Web. Topics: World Wide Web and how Semantic Web may store semantically identified data. Loosely structured data is given well-defined meaning, better enabling computers and people to work in cooperation. Prereq: 20ECES651. Credit Level: G. Credit Hrs: 3.00

Electrical and Computer Engineering**20EECE717****Intelligent Knowledge Representation**

Intelligent knowledge representation use. May contain facts, relationships, and/or actions. Representation constrains how things are stored, solved. Highly & loosely structured data, semantic networks, frames, ontologies, heuristics, approximate representations and reasoning. Prereq: 20CS323, 15MATH352. Credit Level: G. Credit Hrs: 3.00

20EECE718**Video Processing and Communications**

Fundamental theory and techniques for digital video processing and communication including video formation and representation, Fourier analysis, sampling, modeling and video compression standards. Prereq: 20ECES642. Credit Level: G. Credit Hrs: 3.00

20EECE719**Wireless Communications**

Mobile radio propagation. Fading and multipath. Modulation techniques for wireless channels. Equalization, diversity and channel coding. Wireless networking. Wireless system design and standards. Emphasis will be on fundamental concepts and theory and their use in designs. Credit Level: G. Credit Hrs: 3.00

20EECE720**Detection and Estimation**

Introduction to detection of signals and estimation of signal parameters, with applications in communications and statistical signal processing. Prereq: 20ECES619. Credit Level: G. Credit Hrs: 3.00

20EECE721**Plasma Processing of Materials**

Introduction to the basic concepts of plasma and laser assisted methods and technology for microelectronic fabrication. Plasma background, plasma assisted etching, plasma enhanced deposition, laser-assisted processing. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE722**Fabrication Process Modeling**

A detailed knowledge of the operation of a semiconductor requires a detailed knowledge of its structure. Since features sizes in semiconductor devices today are of the order of or even smaller than the resolution limit of classical inspection tools, the detailed knowledge of a device structure must be assembled from analytical models or through computer simulation of the physical and chemical processes used in its fabrication. This course covers analytical methods and numerical simulation techniques for a select number of fabrication processes. Prereq: 20ECES618, 20ECES714. Credit Level: G. Credit Hrs: 3.00

20EECE725**Fourier Optics**

Theory and applications of scalar diffraction to two-dimensional signal and systems analysis, especially coherent and incoherent imaging, 3-D displays, wavefront modulation, optical information processing and holography. Perm of Department. Credit Level: G. Credit Hrs: 3.00

20EECE726**Biochips and Lab-on-a-Chips**

Fundamentals of micro and nano fabrication of biochips and lab-on-a-chips, on-chip biochemical detection methods, micro/nano fluidics, basic components of lab-on-a-chips, integration of lab-on-a-chips, and micro total analysis systems (uTAS). Prereq: 20ECES607, 20ECES608. Credit Level: G. Credit Hrs: 3.00

20EECE729**Physical Basis for Electronic and MEMS Devices**

Introduction to the physical and engineering principles which serve as the basis of electronic devices, semiconductor sensors and microelectromechanical systems. Microthermal, micromechanical, magnetic, piezoelectric, crystallographic and electrical properties originating from solid state physics. 3 lec. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Electrical and Computer Engineering**20EECE732****Biosensors and Bioelectronics**

Fundamentals of biosensors, bioelectronics, physicochemical transduction mechanisms for biotransduction, molecular recognition and bio-immobilization principles and procedures, coupled mass transport kinetics of enzyme-catalyzed and molecular binding reactions, fundamentals of electrochemistry Prereq: 20ECES607, 20ECES608. Credit Level: G. Credit Hrs: 3.00

20EECE733**Foundations of Applied Systems**

Introduction to basic theoretical concepts and computing tools required for the study of Applied Systems. Mathematical characterizations of applied systems are used for understanding and predicting the behavior of the system and for designing mechanisms able to effectively control the system behavior. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE734**Applied Systems Theory**

The manipulation of mathematical models is an integral part of the systems engineering methodology. This course develops and examines the basic structural characteristics of models frequently used in the study of Applied Systems. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE738**Parallel and Distributed Numerical Methods**

Methods (algorithms, data structures, performance analysis) for parallel and distributed computational solutions of mathematical methods used in engineering and science. Includes recent developments in parallel and distributed numerical computation methods, perturbation methods, and methods for sparse linear and nonlinear systems. Credit Level: G. Credit Hrs: 3.00

20EECE741**Stochastic Decision & Control Processes**

Fundamental concepts and modeling techniques of decision and control problems for discrete-time Stochastic Systems, and the use of Dynamic Programming. Credit Level: G. Credit Hrs: 3.00

20EECE748**Advanced Image Processing**

Image segmentation, representation and description, recognition and interpretation, reconstruction from projection, mathematical morphology, facet model, and texture. 3 lec. Prereq: 20ECES642. Credit Level: G. Credit Hrs: 3.00

20EECE750**Semiconductors and Heterojunctions**

Physics of elementary and compound semiconductors and their epitaxial growth on one another. Energy band structure and charge transport across heterojunctions. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE753**Special Topics in Quantum Computing**

Advanced topics in quantum computing: quantum search algorithms; quantum fourier transform and its applications; quantum noise; quantum error-correction; quantum information theory. Quantum computers and their physical realizations. Prereq: 20ECES622. Credit Level: G. Credit Hrs: 3.00

20EECE754**Semiconductor Devices I**

Semiconductor properties, carrier processes and transport, p-n junctions, and heterojunctions, Schottky barriers and ohmic contacts. Prereq.: Introductory courses in semiconductor devices or solid state physics and electromagnetism. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE755**Semiconductor Devices II**

Processes and operation of metal-insulator-semiconductor (MIS) structures, MOSFETs and MISFET transistors and bipolar transistors. 3 lec. Prereq: 20ECES754. Credit Level: G. Credit Hrs: 3.00

Electrical and Computer Engineering**20EECE757****Semiconductor Physics**

Classification of solids, types of bonding, bonding in semiconductors, impurity bonding, electrons in solids, free electron theory, nearly free electron theory, semiconductor band structure, density of states, effective mass holes. 3 lec. Prereq: 20ECES758. Credit Level: G. Credit Hrs: 3.00

20EECE758**Quantum Mechanics**

Fundamentals of quantum mechanics, wave functions, Schrodinger equations, energy level quantization, energy band structure and their applications to microelectronics. Prereq.: An undergraduate course in modern physics. 3 lec. Prereq: 15PHYS276. Credit Level: G. Credit Hrs: 3.00

20EECE761**High Speed Electronic Devices**

An introduction to compound semiconductor heterojunction devices and their characteristics. Energy band structure design and operational characteristics of heterojunction bipolar and field effect transistors (HEMT, HFET). 3 lec. Prereq: 20ECES750. Credit Level: G. Credit Hrs: 3.00

20EECE762**Low-Power VLSI Circuit Design**

Students will learn to design low-power VLSI circuits for portable electronics and high performance chips exceeding power dissipation limits. Prereq: 20ECES680. Credit Level: G. Credit Hrs: 3.00

20EECE767**Multi-user Communication Theory**

The objective of this course is to study the physical-layer theory of multi-user communications. Emphasis is placed in multi-user detection, both optimal and suboptimal, for direct-sequence code-division multiple-access communications. Credit Level: G. Credit Hrs: 3.00

20EECE771**Applications of Microelectromechanical Systems**

Applications of MicroElectroMechanical Systems (MEMS), including mechanical, electromagnetic, thermal, optical, chemical and biological. Prereq: 20ECES608. Credit Level: G. Credit Hrs: 3.00

20EECE773**Photonic Devices**

Theory and design of devices and components for photonic circuits; introduction to the better-known applications. Photonic design concepts; using these concepts in system design where previously only electron devices might have been considered. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE774**Communication Networks**

Fundamental concepts and key architectures in modern communication networks: overview of layered network structure, review of digital transmission fundamentals, typical transmission systems, telephone networks, peer-to-peer transmission controls, packet switching networks, resource sharing, ATM networks, TCP/IP and beyond. Prereq: 20ECES626, 20ECES632. Credit Level: G. Credit Hrs: 3.00

20EECE775**Millimeter Wave and Photonics Materials**

Non-linear optics and materials, optical fiber waveguides, infrared-transmitting materials, oxide glasses, fluoride glasses, chalcogenide glasses. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE776**VLSI For Multi-Technology Systems**

Introduction to VLSI design for electronic materials and device students. Basic principles of CMOS circuits, VLSI layout for standard CMOS and mix-technology systems. Simple digital and analog circuit design based on standard CMOS VLSI. Incorporation of MEMS and photonic device structures that can be monolithically integrated with CMOS circuitry. Prereq: 20ECES481, 20ECES482. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Electrical and Computer Engineering**20EECE776****VLSI For Multi-Technology Systems**

Introduction to VLSI design for electronic materials and device students. Basic principles of CMOS circuits, VLSI layout for standard CMOS and mix-technology systems. Simple digital and analog circuit design based on standard CMOS VLSI. Incorporation of MEMS and photonic device structures that can be monolithically integrated with CMOS circuitry. Prereq: 20ECES481, 20ECES482. Credit Level: G. Credit Hrs: 4.00

20EECE780**Self-Study Research**

Research study not directly related to the thesis or dissertation. Self-study to determine the research area and topic. Credits may not be counted towards MS/PhD program. Credits arranged each quarter. Credit Level: G. Credit Hrs: 1.00-9.00

20EECE783**Introduction to Information Theory**

Information theory and statistics: data compression, channel capacity, Shannon entropy, rate distortion theory, Huffman and random coding. Prereq: 20ECES619. Credit Level: G. Credit Hrs: 3.00

20EECE784**Advanced Semiconductor Lasers**

Physics of semiconductor lasers and their theory of operation. Device engineering, structure and performance characteristics of standard semiconductor laser structures, including advanced and tunable optoelectronic transmitters. Prereq: 20ECES648. Credit Level: G. Credit Hrs: 3.00

20EECE788**High Performance Computing**

The study of high performance computing (HPC) and the techniques used in designing and implementing computationally intensive applications on HPC systems. High performance systems including traditional parallel supercomputers, Beowulf clusters, and FPGA based hardware accelerators will be discussed. The course will focus on parallelization and locality enhancement for computationally intensive applications in scientific simulation and image processing. Credit Level: G. Credit Hrs: 3.00

20EECE791**Nonlinear Systems**

Phase plot, fundamental theory for ODE, Lyapunov theory, advanced Lyapunov theory, singular perturbation, and integrator backstepping. Credit Level: G. Credit Hrs: 3.00

20EECE793**Advanced Software Engineering**

Introduces students to algebraic specification using PVS. Students learn advanced specification techniques and how to automate tools for verification. 3 lec. Prereq: 20ECES328. Credit Level: G. Credit Hrs: 3.00

20EECE795**Introduction to Computer Architecture**

Processor design concepts. Instruction set design: general register machines, stack machines, RISC machines. The memory hierarchy: virtual memory management, cache memories. Pipelining: instruction pipelining, functional unit pipelining, multiple functional units, vector processing. The control unit: hardwired control, microprogrammed control. Input/output processing. Parallel processing architectures: microprocessors, multicomputers, dataflow. 3 lec. Prereq: 20ECES326. Credit Level: G. Credit Hrs: 3.00

20EECE809**Materials Characterization -- Structural**

Techniques for structural characterization of semiconductor materials, ceramics, and their surfaces, X-ray scattering, low energy electron diffraction (LEED), Rutherford Back Scattering (RBS), and electron microscopy. 3 lec. Credit Level: G. Credit Hrs: 3.00

Electrical and Computer Engineering**20EECE810****Materials Characterization -- Optical**

Techniques for optical and other characterization of semiconductor materials, ceramics, and their surfaces, Ellipsometry, Raman photoluminescence, XPS, AES, SIMS, and Mossbauer absorption techniques. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE814**Introduction to Multi-Agent Systems**

Current concepts in multi-agent systems including communications paradigms, multi-agent architectures, algorithms for multi-agent coordination, agent building tools, speech-acts, body-head structures, mobility and example applications. Credit Level: G. Credit Hrs: 3.00

20EECE816**High-Level VLSI Synthesis**

Introduces the students to the concepts of high level VLSI synthesis. Synthesis at behavioral and register transfer levels will be covered. Includes topics in scheduling, register optimization, controller models, VHDL interpretation and linking with logic and physical VLSI design tools. Credit Level: G. Credit Hrs: 3.00

20EECE817**Advanced VLSI Testing and Low-Power Design**

Important issues of VLSI testing and low-power design, especially for deep sub-micron, high clock rate, and high transistor count circuits are studied in this course. Students will learn research skills and establish a concrete, broad technical background for research. Prereq: 20EECE682, 20EECE762. Credit Level: G. Credit Hrs: 3.00

20EECE818**Reconfigurable and Adaptive Computing**

Programmable logic - PLDs, CPLDs and FPGAs. Design of reconfigurable systems - architectural issues. Static and dynamic reconfiguration. Software environments and applications. Credit Level: G. Credit Hrs: 3.00

20EECE819**Topics in VLSI Design**

Examination of the interaction between integrated circuit design and theoretical computer science. Algorithms for VLSI implementation. Silicon compilers. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE824**Advanced VLSI/ULSI Architectures**

Advanced concepts in VLSI architecture design; CAD interactions; hardware fault tolerance; design for high performance. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE825**Adaptive Signal Processing**

Introduction to adaptive filtering and its applications, and its relationship with linear prediction and Kalman filtering. Emphasis on adaptive FIR filtering algorithms and convergence aspect. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE826**Recurrent Neural Networks**

Recurrent neural networks, unlike feed-forward networks, allow connections both ways between a pair of units. This advanced course focuses on the complementary points of view that have arisen to describe the properties of such networks. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE827**Feedforward Neural Networks**

Rigorous analysis of the training and generalization performance of networks as a function of their architecture and nature and size of the training data. Emerging paradigms which exploit existing domain knowledge and train incrementally are also examined. Credit Level: G. Credit Hrs: 3.00

Electrical and Computer Engineering**20EECE832****Advanced Physical Design Automation**

Combinatorial optimization, circuit partitioning techniques, floor planning and placement for ASICs and DSM, routing algorithms, interconnection analysis and prediction. Prereq: 20ECES676, 20ECES332. Credit Level: G. Credit Hrs: 3.00

20EECE834**Digital Design Environments**

Examines the issues in developing CAD tools for digital hardware design, and in integrating the tools into unified design environments. Topics include: design teams, hierarchy and abstraction, hardware description languages, compilation and translation techniques, design data bases and knowledge bases. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE837**Intelligent Control Systems**

Introduction to intelligent control methods and their application to the monitoring and control of uncertain, complex dynamical systems. Neural control systems, fuzzy control systems, fault diagnosis. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE841**Advanced Decision Processes**

Application of principles of probability and statistics to the design and control of engineering, economic and logistic systems in a random or uncertain environment. Emphasis is placed on Bayesian decision analysis. Credit Level: G. Credit Hrs: 3.00

20EECE843**Gallium Arsenide Integrated Circuits**

Develops a theory of design, analysis and simulation of integrated circuits in gallium arsenide. Analytical and equivalent circuit models of active and passive devices are developed and used in circuit design. Three categories of monolithic integrated circuits are covered: digital, analog and microwave. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE847**Advanced Operating Systems**

Analytical models. Benchmarking and performance evaluation. Distributed operating systems. Multiprocessor operating systems. Real-time operating systems and schedulability analysis. Advanced file systems and I/O management. Micro-kernal. Modern virtual memory architecture. Specialized operating systems. Credit Level: G. Credit Hrs: 3.00

20EECE848**Microelectromechanical Systems for Actuation and Control**

Theory and practice for research, design, development and analysis of MEMS, e.g., "on a chip," including integrated optics, surface micromachining and polysilicon for mechanical actuation, LIGA micromechanics, mathematical descriptions for micro-systems control. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE850**Biological Neural Systems**

Introduction to the biological neural systems, biological vision systems with neural information processing models, models of complex neurons, reconstruction of neural networks, simulation of neural networks for spatial and temporal processing in applications such as vision. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE854**Complex Systems**

Introduction to complex systems concepts with an emphasis on building geometric intuition. Specific applications, such as time-series prediction, iterated function systems for image compression, etc. will be emphasized. 3 lec. Prereq: 20ECES733. Credit Level: G. Credit Hrs: 3.00

Electrical and Computer Engineering**20EECE856****Multivariable Control**

An advanced course in multivariable control theory, emphasizing state space and input/output approaches. Covers system identification, state/observer and output feedback design, optimal and robust control theory. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE857**Adaptive Control Systems**

An introduction to adaptive control methods and their application to the identification and control of dynamical systems with parametric uncertainty. Several topics such as on-line parameter estimation, model reference adaptive robust adaptive control and implementation issues will be covered. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE858**Data Mining**

Knowledge discovery in databases. Credit Level: G. Credit Hrs: 3.00

20EECE860**Master of Engineering Capstone Project**

Individual projects under supervision of departmental faculty in partial fulfillment of the Master of Engineering degree. Credit Level: G. Credit Hrs: 1.00-6.00

20EECE864**Advanced Computer Architectures**

Benchmarking and performance evaluation. Advanced instruction level parallelism. Advanced memory hierarchy. High-performance I/O architectures. Parallel architectures. Interaction between OS and architecture. Specialized computer architecture. Prereq: 20ECES629, 20ECES795. Credit Level: G. Credit Hrs: 3.00

20EECE867**Biomorphic Systems**

This course aims to provide an introduction to recent developments in biomorphic engineering. The use of biologically inspired methods for engineering tasks such as computation, design, optimization, search, and assembly. Applications from computing, communications, robotics, controls, pattern recognition, and intelligent systems will be discussed. Credit Level: G. Credit Hrs: 3.00

20EECE868**Advanced Compiler Optimizations**

Rigorous theory and practice behind advanced compiler optimization for emerging languages on emerging architectures. Optimizations that reduce the execution time and/or memory requirements of a program. Architecture independent and customized architecture dependent optimizations will be discussed. 3 lec. Prereq: 20ECES683, 20ECES685. Credit Level: G. Credit Hrs: 3.00

20EECE875**Robust Adaptive Control**

Introduction to one robust adaptive control design methodology. Introduction to the state space solution to H infinity optimal control problem. This solution is then extended to solve a special class of robust adaptive control problems. Prereq: 20ECES734. Credit Level: G. Credit Hrs: 3.00

20EECE877**Advanced Data Models and Query Optimization**

Relational query processing and optimization techniques. Object-oriented database systems. Current research in object-oriented query processing. 3 lec. Prereq: 20ECES328. Credit Level: G. Credit Hrs: 3.00

20EECE880**Doctoral Dissertation Proposal**

Opened to doctoral students only who have passed the qualifying examination. Only 9 credits of 20EECE880 will be counted toward course work requirements. Prereq.: Perm. of student's adviser. Credit Level: G. Credit Hrs: 1.00-9.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Electrical and Computer Engineering**20EECE888****MS Project**

Part-time master's degree students who are pursuing the project option. The project option is not available to full time students. Cr. arranged ea. qtr. Credit Level: G. Credit Hrs: 1.00-6.00

20EECE889**Thesis or Dissertation Research**

Full time master's and all doctoral students. Credit Level: G. Credit Hrs: 1.00-19.00

20EECE890**Modern Displays - Materials, Strategies And Technologies**

Current literature-based review of the frontiers of electronic display research and technology. Electrowetting, organic LED, micromirror, liquid crystal, and plasma technology, etc. Students will choose a group of papers, write a critical review and present a seminar on their study. Credit Level: G. Credit Hrs: 3.00

20EECE892**Independent Study**

Individual advanced study not directly connected with thesis or dissertation. Cr. arranged ea. qtr. Limits of 3 cr. for MS, 6 cr. for Ph.D. Credit Level: G. Credit Hrs: 1.00-6.00

20EECE913**Modeling and Simulation of Biological Systems**

Review of literature in challenging modeling and simulation problems of biological systems such as cell-to-cell communications. Study of behaviors such as quorum sensing in biological systems. Understand the modeling and simulation problems faced in efficiently and accurately representing biological systems. Credit Level: G. Credit Hrs: 3.00

20EECE915**Formal Semantic Models of Computer Languages**

Several techniques for representing the formal semantics of computer languages will be examined. Representation of both static and dynamic semantics will be explored. Examples of semantic models for existing languages such as ML, Haskell, and VHDL will be covered. Prereq: 20ECES795. Credit Level: G. Credit Hrs: 3.00

20EECE918**System Identification**

Introduction to system identification methods, their properties and their application. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE923**Novel Sources of Light for Optoelectronic Devices**

Optical properties of porous Si, wide band-gap semiconductors, rare-earth doped materials and light emitting polymers. Device applications of light-emitting materials. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE925**Wide Bandgap Semiconductors and Devices**

Review of basic properties of wide bandgap semiconductor materials; bulk growth of wide bandgap semiconductors; epitaxial growth; plasma-assisted etching; optoelectronic device applications; high power/temperature device applications. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EECE935**Biophotonics: Fundamentals and Advanced Devices**

Topics in the use of photonics for biomedical research and biological materials for photonics devices. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

20EECE936**Photonic Devices Using GaN and Other Wide Bandgap Semiconductors**

Study of GaN and related wide bandgap semiconductors for photonic device application. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

Electrical and Computer Engineering**20EECE945****High Performance Distributed Computing**

This course is devoted to the study of high performance distributed computing (HPDC) and the techniques used in designing and implementing HPDC systems. The course will cover a broad range of issues in distributed computing, parallel/distributed computing techniques that are applied to the solution of computationally intensive applications across networks of computers. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

20EECE947**Research in Computer-Aided Design of VLSI Systems**

Ongoing and future research directions in computer-aided design of VLSI systems. Students will be able to critically study and analyze VLSI CAD research. Prereq: 20ECES676. Credit Level: G. Credit Hrs: 3.00

20EECE948**Selected Topics in Computer-Aided Design of VLSI Systems**

Ongoing and future research topics in computer-aided design of VLSI systems. Upon the completion of this course, the students will be able to critically study and analyze VLSI CAD research. Prereq: 20ECES676. Credit Level: G. Credit Hrs: 3.00

20EECE963**Data Warehouse Design**

Data warehouse design with conceptual data models and physical storage techniques. Credit Level: G. Credit Hrs: 3.00

20EECE973**Optimizing Programs Through Online Analysis**

Distributed computing applications often require considerable tweaking to obtain optimal performance on each computing platform that it executes. The optimization of these applications can consume considerable time and efforts and even minor releases of the Operating System can require additional changes for optimal performance. This class will study recent efforts to build self-optimizing applications. In this term, we will focus our studies on optimizing networks and databases. Credit Level: G. Credit Hrs: 3.00

20EECE975**Parallel Discrete Driven Simulation**

Study of PDES and the design problems of their implementation. The course will discuss both conservative and optimistic synchronization strategies. 3 lec. Prereq: 20ECES795. Credit Level: G. Credit Hrs: 3.00

20EECE982**Organic and Inorganic Light Emitters**

Study of organic, inorganic and hybrid inorganic/organic light emitters. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

20EECE983**Organic Light Emitting Materials and Devices**

Study of light emitting mechanisms, materials and devices in organic materials. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

20EECE986**Advanced Computer Vision**

Current topics on texture, ranging vision, 3-D vision, change detection, image compression and 3-D reconstruction from projection. 3 lec. Prereq: 20ECES642. Credit Level: G. Credit Hrs: 3.00

20EECE988**Advanced Micro Architectures**

Important issues of advanced computer micro architectures, mainly in the areas of pipelines, Instruction-Level Parallelism (ILP). Establish a concrete and broad technical background for students who will conduct future research on computer architectures and compilers. Includes other research skills such as reviewing, writing and presenting technical papers. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

Engineering Graduate Fundamentals

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Engineering Graduate Fundamentals**20EGFD601****Advanced Strength of Materials**

Theories of failure. Stress concentrations. Beams on elastic foundation. Stress functions. Thick-walled cylinders and spinning disks. Torsion. Shear flow in open and closed cells. 3 lec. Prereq: 20ENFD375. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20EGFD615**Introduction to Modern Control Theory**

State variable formulation of control problems. Linear systems theory. Observability, controllability and feedback control. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EGFD617**Introduction to Digital Control Design**

Intended as a hands-on introduction to digital control with the emphasis on implementation of digital controls systems. First half of class is lecture, second half is lab work. 3 lec. Prereq: 20MECH481. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EGFD618**Intermediate Classical Control Systems Design**

A second course in basic control with an emphasis on design to closed loop stability and performance specifications using frequency response techniques. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EGFD621**Optimal Engineering Design**

Analytical and numerical methods for optimization of functions and functionals. Gradient and direct search methods. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EGFD622**Optimal Control**

Variational methods for the optimization of functions and functionals. Solution of two-point boundary value problems in control and mechanics. Prereq: 20EGFD615. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EGFD631**Introduction to Combustion Theory I**

Chemical thermodynamics, equilibrium chemical kinetics, theories of premixed and diffusion flames. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EGFD632**Principles of Gas Turbine Combustion**

Examination of the fluid mechanics of reacting flows. Thermodynamics of mixture, chemical kinetics, conservation equations for reacting flows, combustion waves and nozzle flow. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EGFD637**Computational Fluid Dynamics**

Calculation of 2D and 3D flows using commercial CFD software; significance of CFL and cell Reynolds number limitations; premixed combustive flow; turbulence modeling and chemical kinetics; pre/post-processing of data; interpretation of results. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20EGFD650**Technology Law**

Technology law, issues relating to corporate contracts, product liability, intellectual property, and related topics. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20EGFD701**Engineering Elasticity I**

Theory of deformation for continuous media; theory of stress for continuous media; stress-strain relations on three dimensional elasticity; review of index notations. 3 lec. Credit Level: G. Credit Hrs: 3.00

Engineering Graduate Fundamentals**20EGFD702****Elasticity II**

This course builds on the theory of continuum mechanics the students learned in Elasticity I and teaches them the most important specific methods of elasticity. The students familiarize themselves with the fundamental equations of elasticity, and learn about the mechanical and thermal properties of solids. This course is essential for those pursuing advanced graduate study in solids mechanics. Prereq: 20AEEM619. Credit Level: G. Credit Hrs: 3.00

20EGFD703**Elasticity III**

This course builds on the theories of continuum mechanics and elasticity the students learned in Elasticity I & II, respectively, and familiarizes them with the specific methods of elasticity through examples of selected problems. This course is recommended for all students pursuing advanced graduate study in solid mechanics. Prereq: 20AEEM619, 20EGFD702. Credit Level: G. Credit Hrs: 3.00

20EGFD705**Finite Element Techniques I**

Introduction to finite element techniques. Stiffness matrices, assembly, applications with trusses and beams; use of ANSYS. Credit Level: G. Credit Hrs: 3.00

20EGFD706**Finite Element Techniques II**

Displacement-based finite element analysis. Higher order elements, isoparametric coordinates. Use of ABAQUS or LSDYNA. Prereq: 20EGFD705. Credit Level: G. Credit Hrs: 3.00

20EGFD707**Advanced Finite Elements III**

Galerkin formulation, Application to Vibrational Analysis, Impact Simulation and Introduction to Nonlinear F.E.T. Prereq: 20EGFD705, 20EGFD706. Credit Level: G. Credit Hrs: 3.00

20EGFD720**Introduction to Multivariable Control**

A fundamental look at control system stability, performance and robustness of SISO and MIMO systems. Prereq: 20EGFD615. Credit Level: G. Credit Hrs: 3.00

20EGFD721**Multivariable Control Theory**

Matrix description of multivariable systems. Frequency domain effects of state feedback. Singular values and robustness of controllers. Prereq: 20EGFD615. Credit Level: G. Credit Hrs: 3.00

20EGFD724**Grid Generation Technique I**

Features of appropriate coordinates in fluid dynamic analysis. Basic techniques of grid generation. Details of boundary-aligned coordinate generation for arbitrary geometry and the resolution of length scales will be emphasized. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EGFD731**Manufacturing Controls**

Course provides a broad basis for understanding modern digital control theory for manufacturing. Provides practical experience with enough detailed examples in understanding stability and tuning of digital motion controllers using modern design tools such as Matlab. Credit Level: G. Credit Hrs: 1.00

20EGFD737**Machine Vision**

Course provides a fundamental understanding of machine vision concepts and applications. Presents two and three dimensional machine vision techniques. Credit Level: G. Credit Hrs: 1.00

20EGFD741**Viscous Laminar Flow**

The emphasis is on the theoretical development of solution techniques

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Engineering Graduate Fundamentals**20EGFD741****Viscous Laminar Flow**

for the incompressible boundary layer equations. The boundary layer equations are derived in general surface coordinates and details of exact and approximate methods of solution are presented. Credit Level: G. Credit Hrs: 3.00

20EGFD742**Turbulent Flows**

Stability of flows, introduction to transition and turbulence. Reynolds average equations, turbulence models. Credit Level: G. Credit Hrs: 3.00

20EGFD745**CFD for Incompressible Flows**

Navier-Stokes Equations and their Non- Dimensionalization for Incompressible Flow; Primitive-Variable and Derived-Variable Formulations; Staggered-Grid and Co-Located-Grid Discretizations; Pressure Poisson Equation and its Numerical Solution. Credit Level: G. Credit Hrs: 3.00

20EGFD746**Numerical Methods for Inviscid Compressible Flow**

Governing equations, methods for solving potential flow equations for subsonic and transonic flow. Recent techniques for the solution of Euler's equations. Prereq: 20AEEM625, 20AEEM685. Credit Level: G. Credit Hrs: 3.00

20EGFD748**Numerical Methods for Viscous Compressible Flow**

Explicit and implicit methods of solution for the parabolized, "thin-layer", and Navier-Stokes equations, and additional topics of current interest. Prereq: 20EGFD746. Credit Level: G. Credit Hrs: 3.00

20EGFD751**Numerical Methods in Transport Phenomena**

Explicit and implicit methods for ordinary differential equations, parabolic and hyperbolic partial differential equations, the method of characteristics, relaxation and alternating direction methods for elliptic equations, application to fluid mechanics. Credit Level: G. Credit Hrs: 3.00

20EGFD752**Knowledge Based Engineering**

Participants will develop a basic understanding of artificial intelligence techniques and their applications in manufacturing. Students will also develop the ability to apply knowledge-based systems, fuzzy logic, and neural network techniques in solving specific manufacturing prob. Credit Level: G. Credit Hrs: 1.00

20EGFD753**Supply Chain Management**

The course describes supply chains, why they are important, and the types of challenges implicit in managing supply chains. The use of decision-support system in supply chain management is also discussed. Credit Level: G. Credit Hrs: 1.00

20EGFD755**Ergonomic Analysis**

Analysis of work and individual factors in organizations with the objective to create and maintain a healthy/safe and productive workplace. Credit Level: G. Credit Hrs: 1.00

20EGFD756**Ergonomic Design**

Discussion of human factors theories on work design to gain a global understanding of how to achieve a balance among the different elements in the work system and balance between work and human abilities and needs to ensure that the health and safety of workers are taken into acct. Credit Level: G. Credit Hrs: 1.00

20EGFD761**Conduction Heat Transfer**

Heat transfer by conduction. Mathematical formulation of physical problems; methods of solution including separation of variables.

Engineering Graduate Fundamentals**20EGFD761****Conduction Heat Transfer**

Laplace transforms, superposition techniques. 3 lec. Credit Level: G. Credit Hrs: 3.00

20EGFD762**Convection Heat Transfer I**

Heat transfer by forced and free convection. Analysis of various problems including external and internal fluid flows, momentum transfer analogies, transpiration cooling, change of phase. 3 lec. Prereq: 20MECH728. Credit Level: G. Credit Hrs: 3.00

20EGFD770**Leadership in Technical Organizations**

This course provides skills and training needed to improve an individuals effectiveness as a leader and manager in technical organizations. Topics covered include effective communication, interpersonal effectiveness, teams, conflict resolution, decision making, and ethics. Concepts are presented through streaming video, presentations and readings. Interaction with the instructor and other students is done through on-line means. Credit Level: G. Credit Hrs: 5.00

20EGFD774**CAD for Manufacturing**

Discussion of advanced manufacturing concepts including feature based modeling, group technology, process planning, numerical control, tolerancing and inspection. Credit Level: G. Credit Hrs: 1.00

20EGFD780**Numerical Methods for Inviscid Flows**

Governing equations, methods for solving potential flow equations for subsonic and transonic flow. Recent techniques for the solution of Euler's equations. 3 lec. Prereq: 20AEEM732. Credit Level: G. Credit Hrs: 3.00

20EGFD781**Numerical Methods for Viscous Flows**

Explicit and implicit methods of solution for the parabolized, "thin-layer" and Navier-Stokes equations. Direct Poisson solvers, topics of current interest. 3 lec. Prereq: 20EGFD780. Credit Level: G. Credit Hrs: 3.00

20EGFD820**Digital Control Systems**

Frequency domains and state variable methods in design of digital systems. Microprocessor implementation including A/D-D/A conversion, interrupts, processor characteristics. Prereq: 20EGFD615, 20EGFD720. Credit Level: G. Credit Hrs: 3.00

Engineering Education**20ENED116****Engineering Concepts I**

This course will provide student support for calculus, chemistry and engineering problem solving. This is also an interactive engineering course designed to inform, mentor, and advise students about engineering programs and disciplines. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20ENED117**Engineering Concepts II**

A continuation of ENED116 in which students are mentored about the various engineering programs and where engineering problem-solving skills are enhanced. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20ENED118**Engineering Concepts III**

A continuation of ENED117 in which students are mentored about the various engineering programs and where engineering problem solving skills are enhanced. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20ENED120**Foundations of Engineering**

Students will be exposed to all fields of engineering in order to make an

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Engineering Education**20ENED120****Foundations of Engineering**

informed choice as to the engineering program to study. BoK: NA.

Credit Level: U. Credit Hrs: 3.00

Engineering Fundamentals**20ENFD101****Mechanics I**

Study of statics. Moments, resultant forces and equilibrium for particles and rigid bodies, friction. Dept. of Aerospace Engr. and Engineering Mechanic. Ea. qtr. 3 lec. Prereq: 15PHYS201. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20ENFD102**Mechanics II**

Study of motion and the relationship between force, mass and acceleration for particles. Work-energy and impulse-momentum concepts. Dept. of Aerospace Engr. and Engineering Mechanics. Ea. Qtr. 3 lec. Prereq: 20ENFD101, 15PHYS201. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20ENFD102H**Honors Mechanics II**

Study of motion and the relationships among force, mass and acceleration for particles. Work-energy and impulse-momentum concepts. Dept. of Aerospace Engineering & Engineering Mechanics. Prereq: 15PHYS201, 20ENFD101. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20ENFD103**Mechanics III**

Centroids, center of gravity. Study of motion and the relationship between force, mass and acceleration for rigid bodies. Dept. of Aerospace Engr. and Engineering Mechanics. Ea. Qtr. Prereq: 20ENFD102. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20ENFD104**Cooperative Learning for Calculus I**

Techniques for helping students maximize their potential using cooperative learning techniques and collaborative skills. Admission by permission of the Emerging Ethnic Engineers Program office. 4 lab. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20ENFD105**Cooperative Learning for Calculus II**

See 20-031-104. 4 lab. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20ENFD112**Fundamentals of Programming**

Top-down program design; break problems into functions and identify needed control structures; declare and employ basic MATLAB data

Engineering Fundamentals**20ENFD112****Fundamentals of Programming**

types particularly numbers, strings, 1-dimensional arrays and symbolic variables; create and use functions. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20ENFD113**Engineering Honors Computing II**

ENGR HON COMPT II Prereq: 20ENFD112. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20ENFD114**Cooperative Learning for Differential Equations**

Students work homework problems in groups with help from teaching assistants. A minimum number of hours per week of participation is required for a given grade. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20ENFD115**Cooperative Learning for Physics III**

See 10-031-104. 4 lab. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20ENFD116**Engineering Concepts**

An interactive engineering course designed to inform students about engineering programs and disciplines. This is a "hands-on" project-oriented course where students can experience real engineering projects. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20ENFD119**The Schneider Series**

Seminar series with speakers and topics in a wide range of areas. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

20ENFD120**The Schneider Series**

Seminar series with speakers and topics in a wide range of areas. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

20ENFD121**The Schneider Series**

Seminar series with speakers and topics in a wide range of areas. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

20ENFD122**Mechanics II -- Civil**

Taught in combination with Physics I for Civil Engineers -- continuation of the study of motion, mass and acceleration for particles. 3 lec. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20ENFD250**Graphics Fundamentals**

Survey of graphical techniques, projection theory, engineering drawings and standards, and introduction to CAD. Dept. of Civil and Env. Engr. Ea. Qtr. 2 lec., 2 lab. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20ENFD251**Graphics Fundamentals**

Survey of graphical techniques, projection theory, engineering drawings and standards and introduction to the CAD program Solid Edge. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20ENFD252**Graphics Fundamentals**

Survey of graphical techniques, projection theory, engineering drawings and standards and introduction to the CAD program Solid Works BoK: QR. Credit Level: U. Credit Hrs: 3.00

20ENFD278**Introduction to Nanoscale Science and Technology**

An introduction to nanoscience and nanotechnology for undergraduate engineering and science students: nanoparticles, nanoelectronics, nanophotonics, nanobioscience, and societal and ethical implications. BoK: NS., SE. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Engineering Fundamentals**20ENFD279****Experimental Nanoscale Science and Technology**

To introduce students to experimental nanoscale science and technology, including carbon nanotube synthesis, nanotube sensor fabrication and characterization, quantum dot characterization, and gold nanoparticle fabrication and characterization. The experimental techniques learned in this course can be applied to industrial problems and also used as a foundation for performing research in the area of nanoscale science and technology. Prereq: 20ENFD278. BoK: NS, SE. Credit Level: U. Credit Hrs: 3.00

20ENFD371**Basic Electric Circuit Analysis**

Analysis and problem solution with direct and alternating currents. Series and parallel circuits with resistance, inductance, and capacitance. Circuit laws, power and sinusoidal waveforms. Department of Elec. and Comp. Eng. and Comp. Sci. 3 lec. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

20ENFD376**Nature and Properties of Materials**

Properties of engineering materials; atomic bonding; crystal systems; electron transport in solids; metal alloys; deformation of metals; cold working and annealing; polymers; ceramic materials. Dept. of Materials Science and Engineering. Ea. Qtr. 3 lec. Prereq: 15CHEM103. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20ENFD382**Basic Thermodynamics**

Fundamental laws and concepts of classical thermodynamics; thermodynamic functions; properties of the pure substance. Dept. of Materials Sci. and Engr. Ea. Qtr. Prereq: 15MATH254. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20ENFD383**Basic Fluid Mechanics**

Physical nature of fluids, statics. Conservation principles and their applications to engineering problems. Dimensional analysis, duct flow of real fluids. Dept. of Aerospace Engr. and Engineering Mechanics. 3 lec. Prereq: 15MATH273, 15MATH254, 20ENFD101. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20ENFD384**Honors Basic Fluid Mechanics**

Physical nature of fluids, fluid statics, derivation of conservation equations and their application to engineering problems. Similitude, laminar and turbulent flow in pipes and channels. This course fulfills the requirement of Basic Fluid Mechanics 20-031-383 for selected students. Limited to students in the Honors Program or by perm. of instr. 3 lec. Prereq: 15MATH254, 15MATH273, 20ENFD101. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20ENFD385**Basic Heat Transfer**

Fundamental concepts of heat transfer including conduction, convection, and radiation. Dept. of Chemical Engr. Ea. Qtr. Prereq: 15MATH273. BoK: NS. Credit Level: U. Credit Hrs: 3.00

20ENFD400**Engineering Project Abroad I: Market Assessment**

The objective of this course is to prepare engineers to plan and execute an assessment of a market need abroad including the identification of the need, quantifying the market opportunity, planning an international assessment trip and evaluating data collection in the field. BoK: SE., DC. Credit Level: U. Credit Hrs: 1.00

20ENFD401**Engineering Project Abroad II: Appropriate Design**

The objective of this course is to prepare engineers for appropriate design in a context- dependent manner. An emphasis will be placed on recognizing diversity and culture of the client as well as considering the social and ethical issues of engineering design. BoK: SE., DC. Credit Level: U. Credit Hrs: 1.00

Engineering Fundamentals**20ENFD402****Engineering Project Abroad III: Implementation**

The objective of this course is to facilitate the inherent entrepreneurial spirit of each student to implement an appropriate design. An emphasis will be placed on creativity in recognizing diversity and culture of the client as well as considering the social and ethical issues in a context-dependent manner. BoK: SE., DC. Credit Level: U. Credit Hrs: 1.00

20ENFD501**SPACE SYST DESIGN**

SPACE SYST DESIGN BoK: NA. Credit Level: U. Credit Hrs: 1.00

20ENFD502**SPACE SYS DESIGNII**

SPACE SYS DESIGNII Prereq: 20ENFD501. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20ENFD600**SEMINAR-MATERIALS**

SEMINAR-MATERIALS BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

20ENFD601**SEMINAR-ENVIRONMENT**

SEMINAR-ENVIRONMENT BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

Engineering**20ENGR600****FUNDAMENTALS OF LEADERSHIP**

The goal of this course is to prepare students for leadership roles in the workplace. Topics covered include: leadership qualities and skills, ethical and social values needed in leadership roles, analysis of human behavior, leadership strategies and what is really important in order to be an excellent leader. Case studies will be conducted through group study, concluding with oral and written reports. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

20ENGR601**Engineering Information Resources**

A web-based course requiring in depth use of engineering literature in support of research for a thesis or project. See WWW.englib.uc.edu/EIR96 BoK: NA. Credit Level: U, G. Credit Hrs:

20ENGR610**Effectiveness in Technical Organization**

Examines the non-technical factors that enable engineers and other technical professionals to maximize their contribution to organizational effectiveness. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

20ENGR613**Engineering Economic Analysis**

Examines the principles and techniques for making decisions between various engineering alternatives. The techniques of benefit-cost rate-of-return, and net present value will be examined. Also, the topic of taxes and their impact on decision making is explored. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20ENGR614**Engineering Project Management**

Examines management of projects for engineering endeavors from preparing a project proposal, conducting the project to quality control of project work. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20ENGR651**Instructional Planning**

The purpose of this course is to provide National Science Foundation Fellows with an introduction to instructional techniques and secondary math and science classrooms. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20ENGR652**Engineering Education Practicum**

The purpose of these practicum courses is to provide NSF Fellows with

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Engineering**20ENGR652****Engineering Education Practicum**

a continuation of instructional techniques and secondary math and science classroom strategies begun in Instructional Planning. Prereq: 20ENGR651. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

20ENGR952**Modern Teaching Techniques**

Students discuss basics of creating course content managing a class and interacting effectively with students. Topics covered include learning styles and Bloom's taxonomy. Students create course materials for an undergrad course. Weekly seminars are run by students. Credit Level: G. Credit Hrs: 1.00

20ENGR953**Mentored Teaching Experience**

Students in this class work directly with an assigned faculty mentor to develop teaching skills. Students spend a minimum of 10 hours in the classroom teaching and other appropriate activities supervised by their mentors. Prereq: 20ENGR952. Coreq: 20ENGR954. Credit Level: G. Credit Hrs: 1.00

20ENGR954**Advanced Teaching Techniques**

This seminar continues the examination of issues addressed in 20ENGR952. Additional topics may include: managing student projects/teams, incorporating practical ethics into engineering curriculum, teaching evaluations, ABET, and preparing proposals. Prereq: 20ENGR952. Coreq: 20ENGR953. Credit Level: G. Credit Hrs: 1.00

20ENGR955**The Academic Profession**

Students research opportunities for academic jobs in a variety of institutions, practice presentation skills and prepare application materials, including a Teaching Portfolio. Junior faculty issues are discussed and panel discussions are held. Prereq: 20ENGR954. Credit Level: G. Credit Hrs: 1.00

Industrial Engineering**20INDS691****Nanotechnology Occupational and Environmental Health & Safety**

Topics cover the impact of nanotechnology on occupational and environmental health and safety with respect to the promotion and protection of individual safety and health along the life cycle of nano-based products (i.e., material handling, manufacturing process, etc.) BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20INDS692**Nanotechnology Occupational and Environmental Health & Safety II**

Topics cover the use of nanohealth technologies for the prevention, detection, and treatment of occupational and environmental diseases (e.g., musculoskeletal disorders, pulmonary and cardiovascular diseases. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20INDS747**Safety and Health Engineering: Research to Practice**

This course is designed so the student learns advanced research topics related to safety and health engineering as defined by the National Occupational Research Agenda (NORA). Some course topics are: lower back disorders, musculoskeletal disorders, emerging technologies, etc. Credit Level: G. Credit Hrs: 3.00

20INDS748**Safety and Health Engineering II: Research to Practice**

Topics deal with the identification, improvement and maintenance of the safety and health of individuals in the occupational environment. Emphasis is placed on applications in different technology sectors such as manufacturing, health-care, construction, biomedical and enviro. tech. Credit Level: G. Credit Hrs: 3.00

Industrial Engineering**20INDS752****OCC BIOMECHANICS**

OCC BIOMECHANICS Credit Level: G. Credit Hrs: 3.00

20INDS800**Master's Thesis**

Credit hours to be arranged with adviser. Credit Level: G. Credit Hrs: 1.00-15.00

20INDS870**Research**

Individual research topics under supervision of departmental faculty. Credit Level: G. Credit Hrs: 1.00-15.00

20INDS871**Topics in Industrial Engineering**

Special problems on a conference basis. Hours and credits to be arranged. Credit Level: G. Credit Hrs: 1.00-15.00

20INDS950**Industrial Engineering PhD Fundamentals Exam**

Industrial Engineering PhD Fundamentals candidacy exam, part 1. Credit Level: G. Credit Hrs: 0.00

20INDS971**Ph.D. Dissertation**

Credits to be arranged by student and dissertation advisor. Credit Level: G. Credit Hrs: 1.00-18.00

Mathematics**20MATH273****Differential Equations**

DIFFERENTIAL EQUAT BoK: NA. Credit Level: U. Credit Hrs: 5.00

20MATH276**Matrix Methods**

MATRIX METHODS BoK: NA. Credit Level: U. Credit Hrs: 3.00

20MATH376**APPLIED MATH-ENG**

APPLIED MATH-ENG BoK: NA. Credit Level: U. Credit Hrs: 4.00

20MATH566**VECTOR CALC-ENGR I**

VECTOR CALC-ENGR I Prereq: 20MATH273. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

Mechanical Engineering**20MECH100****Introduction to Mechanical Engineering**

An introduction to the Mechanical Engineering discipline intended for first year Mechanical Engineering students. Topics to be covered include Mechanical Engineering as a career, co-op opportunities, College and University Rules. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20MECH101**Introduction to Mechanical Engineering**

An introduction to the engineering profession; specifically to the field of mechanical engineering. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MECH102**Introduction to Mechanical Engineering Tools I**

An introduction to computers and computer applications used by mechanical engineers to solve typical engineering problems. Students will be introduced to operating systems, Microsoft Office, Matlab and computer aided design applications. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MECH103**Introduction to Mechanical Engineering Tools II**

A continuation of 20MECH102 with more detail use of computers and their application to engineering problem solving. BoK: QR. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Mechanical Engineering**20MECH103****Introduction to Mechanical Engineering Tools II**

A continuation of 20MECH102 with more detail use of computers and their application to engineering problem solving. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MECH150**Graphics Fundamentals**

Survey of graphical techniques, projection theory, engineering drawings and standards, and introduction to CAD. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MECH151**Graphics Fundamentals**

Survey of graphical techniques, projection theory, engineering drawings and standards, and introduction to the CAD program Solid Edge. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MECH210**Thermodynamics I**

Basic Concepts of thermodynamics, the first and second laws, properties of pure substances, ideal gas behavior. Entropy, availability and applications to engineering problems. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MECH219**Kinematics of Machines (KOM)**

Fundamental concepts and principles of mechanisms, degree of freedom of mechanisms, four bar linkages with examples such as slider-crank mechanisms and quick return mechanisms, position, velocity and acceleration analysis of mechanisms, cams, gears, and robotic linkages. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20MECH240**Engineering Statistical Methods**

Principles of probability, distributions, sampling statistical inference, applications. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MECH251**Concurrent Product and Process Development I**

This course will introduce global business trends, technologies and tools in integrated product manufacturing and service systems engineering. A special topic on Dominant Design for innovative products and service systems will be introduced with examples. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20MECH275**Mechanics of Solids**

Introduction of the concepts of displacement, strain, stress and constitutive equations of elastic solids in one, two and three dimensions. Study of material properties and solutions of one-dimensional structure members in tension, bending and torsion. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20MECH311**Fluid Mechanics**

Basic fluid mechanics concepts of continuum, fluid particle, control volume, and fluid kinematics and dynamics. Continuity and momentum balances for laminar and turbulent flow with applications and design problems. Similitude, modeling and boundary layer concepts. Prereq: 15MATH273, 20MECH210, 20ENFD102. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20MECH312**Thermodynamics II**

Thermodynamic analysis of cycles. Property relations and Maxwell's equations. Nonreacting and reacting gas mixtures. Incompressible flow. Prereq: 20MECH210, 20MECH311. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20MECH320**Machinery Dynamics**

Rigid body model, kinematical equation of planar and rolling motions, kinetic principles of rigid body motion, and angular momentum and

Mechanical Engineering**20MECH320****Machinery Dynamics**

inertia will be introduced first. Applications of principle of work and energy, impulse and momentum to rigid body dynamics, kinematics in a moving frame and more. Prereq: 15MATH273, 20AEEM102. BoK: NA. Credit Level: U. Credit Hrs: 4.00

20MECH321**Machine Analysis and Design**

Review of stress/strain and force/deflection relationships. Static and dynamic failure theories. Design of some machine elements. 4 lec. Prereq: 20MECH320, 20ENFD375, 20ENFD103. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20MECH342**Numerical Analysis for Mechanical Engineers**

Fundamentals of solution techniques for mechanical engineering problems. Linear Algebra. Eigenvalues and Eigenvectors. Computer usage. 3 lec. Prereq: 15MATH273, 20ENFD111. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MECH354**Manufacturing Processes I**

Discussion of materials and properties, heat treatment, principles of metal cutting and machining, energy and economic considerations, welding and joining processes. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MECH355**Manufacturing Processes II**

Analysis of metal forming and shaping processes, metal casting processes and equipment. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MECH370**Measurements and Instrumentation Lab**

Introduction to the theory and practice of measuring mechanical engineering phenomena. Concentration on physical laws and calibration. 3 lab. Prereq: 20ENFD371. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MECH399H**Mechanics of Human Injury**

Provides a comprehensive introduction to injury mechanics including the causes of injury, the physical, emotional and economic cost of injuries recovery and rehabilitation from injury, injury prevention by protective devices and injury prevention through standards and safety rules. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MECH413**Heat Transfer**

Introduction to concepts and principles of heat transfer. To develop an intuitive and quantitative understanding of conductive, convective, and radiative heat transfer, and design of heat exchangers. 4 lec. Prereq: 20MECH312. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20MECH414**Momentum and Energy Transport**

Boundary layer and law of the wall. Heat transfer in non-stationary media; forced and free convection in pipes and around objects. 4 lec. Prereq: 20MECH413. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20MECH422**Design of Mechanical Components**

Design of mechanical components and subsystems with emphasis on mechanical drives and fluid power components. Design project. 4 lec. Prereq: 20MECH321. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20MECH423**Design of Mechanical Systems**

Design of mechanical engineering systems. Methodology of design. Safety. Cost. Design project. 4 lec. Prereq: 20MECH422. BoK: QR. Credit Level: U. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Mechanical Engineering**20MECH451****Engineering Economy**

Principles for making decisions among competing engineering alternatives on the basis of their return on investment. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MECH480**Mechanical Vibrations I**

Fundamental concepts of vibrations analysis of single degree of freedom mechanical systems. Steady-state and transient vibrations. 3 lec. Prereq: 20MECH320, 15MATH273. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MECH481**Control Theory**

Fundamental concepts of control systems. Open and closed loop systems, control components, time and frequency domain analysis. Transfer function and stability analysis. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20MECH510**Computer Aided Design**

Selected topics in mechanical design, computer aided engineering and computer aided design. Utilization of the digital computer as a design tool. 3 lec. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20MECH525**Introduction to Finite Element Methods I**

Fundamental finite element analysis of trusses and beams with software applications. 3 lec. Prereq: 20MECH321. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MECH526**Introduction to Finite Element Methods II**

Continuation of 20-MECH-525 in finite element analysis of plates and solids with software applications. 3 lec. Prereq: 20MECH525. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MECH536**Special Projects**

An opportunity for individual students or small teams to work under the supervision of volunteer faculty on topics of special interest including software development, research, analysis, experimentation, and design. Limited funding available. By prearrangement with individual faculty. BoK: NA. Credit Level: U. Credit Hrs: 1.00-19.00

20MECH537**Automotive Design I**

Advanced design theory for mechanical engineering systems. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20MECH538**Automotive Design II**

Advanced design theory for mechanical engineering systems. Continuation of 20MECH537 Prereq: 20MECH537. BoK: NS. Credit Level: U. Credit Hrs: 4.00

20MECH539**Automotive Design III**

Advanced design theory for mechanical engineering systems. Continuation of 20MECH538. Prereq: 20MECH538. BoK: NS. Credit Level: U. Credit Hrs: 4.00

20MECH540**Safety in Mechanical Design**

Aspects of mechanical design which cause injury, methods of correction and protection and governmental regulations. Liability and its effects on engineering designers and their employers. 3 lec. Prereq: 20MECH321. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MECH552**Concurrent Product and Process Development II**

This course will introduce computer-aided, concurrent engineering approaches applied to conceive, design and manufacture products, systems and processes that take into account their entire lifecycles.

Mechanical Engineering**20MECH552****Concurrent Product and Process Development II**

Development of personal skills and attributes for the practicing engineer. BoK: NA. Credit Level: U. Credit Hrs: 4.00

20MECH553**Design Clinic I**

Team project internship experience. Students in three-person teams serve as consultants to industrial clients. Emphasis on conducting professional level design study. BoK: NA. Credit Level: U. Credit Hrs: 4.00

20MECH554**Design Clinic II**

Team project internship experience. Students in three-person teams serve as consultants to industrial clients. Emphasis on conducting professional level design study. BoK: NA. Credit Level: U. Credit Hrs: 4.00

20MECH556**Production Planning and Control**

Problem analysis and design of scheduling and control systems with emphasis on time-based (JIT) manufacturing. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20MECH563**Power Machinery**

Turbine types, Rankine and Brayton cycles, energy interchanges in fluid machinery, nozzles, blades. Turbine control and performance, compressors, regenerators. 3 lec. Prereq: 20MECH312, 20MECH414. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MECH565**Basic Electric Power Engineering**

Review of circuit fundamentals. Study of synchronous generators, transformers, DC machines, induction machines, switchgear design, operation of circuits, generators, motors, and transformers. Prereq: 20ENFD371. BoK: QR. Credit Level: U. Credit Hrs: 4.00

20MECH571**Structure/Motion Lab**

Engineering Experimentation: performance tests, transducer applications, statistical analysis, automated data acquisition, vibration testing. 3 lab. Prereq: 20MECH370, 20MECH321, 20MECH481. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MECH572**Heat Transfer/Fluids Lab**

Experiments involving measurement of pressure, velocity and temperature in flows, data analysis and evaluation of heat transfer in forced and natural convection. 3 lab. Prereq: 20MECH370, 20MECH413. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MECH592**Power Generation - Primary and Auxiliary Systems**

The course covers energy management and power generation including energy conversion, production and distribution infrastructure. Variety of methods for using energy efficiency and for measuring the impact on the built environment will be presented. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MECH611**Computational Design I**

Introduction to optimal design for engineering problems using nonlinear programming methods. This course provides a broad overview of optimal design using formal, analytical and numerical techniques. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MECH612**Computational Design II**

Introduction to statistical design of experiments (DOE) with a focus on optimal design for engineering problems using DOE and response surface methods (RSM). Emphasis is placed upon uses of these techniques in design and manufacturing applications. BoK: NA. Credit

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Mechanical Engineering**20MECH612****Computational Design II**

Level: U, G. Credit Hrs: 3.00

20MECH615**Modern Control Theory**

State variable formulation of control problems. Linear systems theory. Observability, controllability and feed back control. 3 lec. Prereq: 20MECH481. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH617**Introduction to Digital Control Design**

Intended as a hands-on introduction to digital control with the emphasis on implementation of digital controls systems. First half of class is lecture, second half is lab work. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH618**Intermediate Classical Control Systems Design**

A second course in basic control with an emphasis on design to closed loop stability and performance specifications using frequency response techniques. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH621**Modeling and Simulation of Solids I**

Focus will be on modeling of various solid materials and simulation using molecular dynamics, FEM/BEM or meshfree methods. Prereq: 20EGFD601, 20MECH525. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MECH625**Mechatronics System Design**

Modeling and simulation of physical systems; sensors and transducers, actuative device, hardware components for Mechatronics; signals, systems and controls; real-time interfacing; advanced applications and case studies. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH628**Design for Manufacturability I**

Designing for manufacturability, specifically functionality, usability, assembly, quality, reliability, inspectability, maintainability, and safety. Course focuses on the consumer product design process, its evolution, customer need and market demand assessments, manufacturing planning. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH629**Design for Manufacturability II**

Actual design of a consumer product for manufacturability. Students will forecast market demands, assess user needs, (re)design the product for functionality, usability, manufacturability, etc., do manufacturing planning, and estimate costs, and plan for growth. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH630**Numerical Methods in Transport Phenomena I**

Introduction to transport phenomena. Application of finite difference methods to the solution of fluid/thermal problems. Numerical methods for ordinary differential equations. (Alternate years) 3 lec. Prereq: 20MINE414. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH631**Numerical Methods in Transport Phenomena II**

Continuation of 20-263-630. Numerical methods for partial differential equations of fluid flow and heat transfer. (Alternate years) 3 lec. Prereq: 20MECH630. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH632**Intermediate Fluid Mechanics**

Extension of fundamental fluid mechanics to more detailed study of viscous flow theory and inviscid incompressible and compressible flow. 3 lec. Prereq: 20MECH414. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

Mechanical Engineering**20MECH633****Experimental Techniques in Fluid Mechanics**

Review of experimental methods commonly used in experimental and applied research in fluid mechanics, convective heat transfer and aerodynamics. A discussion of techniques, instrumentation, practical applications and testing facilities. (Alternate years) 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH634**Kinematic Synthesis**

Study of kinematic-geometric relations in linkages and mechanical devices; polode properties; Euler-Savary equation; analysis and synthesis of mechanisms. 3 lec. Prereq: 20MECH320. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH635**Biofluid Mechanics**

Biofluid mechanics provides an intellectual framework for understanding the features of flow in organ systems, in health and disease. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH636**Introduction to Robotics**

Introduction to industrial robots, components, programming, and applications. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH637**Robot Control**

Introduction to industrial robot control. Robot servo system analysis and design. Emphasis on electric and hydraulic drive robots. Frequency domain stability analysis. Automated factory concepts. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH638**Robot Design**

Mechanics of robots. Robot design process starting from specifications. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH639**Concurrent Product and Manufacturing Process Development**

Fundamentals concurrent product and manufacturing process development. Product development process that is being used to develop more competitive products with breakthrough productivity (faster design with lower development costs). Key methods will be introduced throughout the major phases. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MECH640**Robot Vision**

Introduction to intelligent robotics, mathematics, programming and control. Machine intelligence, expert industrial systems, sensors and vision, applications to flexible manufacturing system design. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH641**Fundamentals of Tribology**

Basics including tribological elements (bearings, clutches, brakes), design issues (friction, lubrication, wear), and modeling/solution techniques. Tribological component design in a student project situation. 3 lec. Prereq: 20MECH321, 20MECH422. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH642**Bio-Heat Transfer**

General heat transfer and thermodynamics review, modes of heat transfer-conduction, convection and radiation; thermal properties of tissues, perfusion in tissues; heat transfer in biological systems; effect of blood flow on heat transfer; hyperthermal therapy; thermal imaging. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MECH645**Introduction to Smart Structures**

Introductory course to give students a background in the design of smart structures. Use of MATLAB to design and simulate a simple

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Mechanical Engineering**20MECH645****Introduction to Smart Structures**

smart structure. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20MECH650**Occupational Safety Engineering**

An introduction and overview into the subject of occupational safety and health. The identification of hazards and the effective control of hazards is examined. The establishment of OSHA and Workers Compensation is studied along with the historical development of occupational safety and health. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MECH651**Safety Engineering and Product Liability**

An overview into the design and analysis of engineering systems and products from the stand- point of safety and liability. The identification of hazards and the legal consequences of exposure to hazards is examined. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MECH652**System Safety Engineering I**

Introduction to fundamental concepts of safety engineering. Inductive methods for analyzing systems to recognize, evaluate and control hazards. Techniques include preliminary hazard analysis, failure mode and effects analysis, management oversight and risk tree (MORT), and job safety. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MECH653**System Safety Engineering II**

Application of quantitative deductive methods; including: Boolean logic, fault tree, and sneak circuit analysis; to the rigorous analysis of major systems to identify and rank likely fault states of subsystems and components. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MECH655**Intelligent Systems and Controls**

Treatment of uncertainties in probabilistic, stochastic, and fuzzy domains; Bayesian estimation and decision theory; Stochastic control including Markov Decision Process; Graph theoretic modeling of interconnected systems; and Swarm intelligence. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MECH660**Fourier Transform Techniques**

Time, frequency, s-domain relationships, Fourier series and transforms. Application to vibration, noise control, heat transfer problems. Recommended for 20MECH633. 2 lec., 1 lab. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH662**Mechanical Vibrations II**

Continuation of Mechanical Vibrations I with emphasis on multi-degree of freedom, lumped parameter, and continuously distributed systems; transient vibrations, relationships between lumped parameter models and measured parameters. 3 lec. Prereq: 20MECH481, 20MECH660. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH663**Mechanical Vibrations III**

Experimental analysis of vibration problems. Vibration analysis techniques, digital signal processing, measurements, excitation techniques and modal parameter estimation applied in a student project situation. Students must register for 20MECH664. 3 lec. Prereq: 20MECH660, 20MECH662, 20MECH664. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH664**Mechanical Vibrations III Lab**

Experimental analysis of vibration problems. Vibration analysis techniques, digital signal processing, measurements, excitation techniques and modal parameter estimation applied in a student project situation. Students must register for 20MECH663. 1 lab. Prereq: 20MECH660, 20MECH662, 20MECH663. BoK: NA. Credit Level: U, G.

Mechanical Engineering**20MECH664****Mechanical Vibrations III Lab**

Credit Hrs: 1.00

20MECH666**Acoustics I**

Elements and general properties of waves and wave motion. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH667**Acoustics II**

Reverberation, speakers, speech and hearing noise study techniques involving analog and digital filtering, correlation, and coherence. 3 lec. Prereq: 20MECH666. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH668**Vehicle Noise, Vibration and Harshness (NVH)**

Understanding mechanisms controlling automotive NVH response. Study of analytical, computational and experimental techniques for analyzing NVH problems including powertrain noise, tire vibration, squeak and rattle, and ride quality. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MECH671**Quality Control**

Learn the applied statistics for quality control, 7QC tools, Quality Function Deployment (QFD), and design for six-sigma and to use these tools for term projects. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MECH672**Manufacturing Facilities Design**

Problem analysis and design for commercial buildings to produce products and/or services with emphasis on material handling/movement and distribution, product or service flow, and information flow. A project will be completed to determine a final layout for the total system. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MECH673**Introduction to E-Manufacturing**

Introduction of IT-enabled emerging technologies and tools in manufacturing including remote monitoring, embedded prognostics, intelligent networks, RFID, wireless communications, and smart machine systems. Prior knowledge of the LabView program is preferred. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MECH674**Intelligent Systems Theory**

Introduction to intelligent systems theory including expert systems, fuzzy logic, neural networks, and applications to manufacturing and material handling. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MECH675**CAD for Manufacturing**

Discussion of advanced manufacturing concepts including group technology, process planning, numerical control, design for manufacturability and assembly. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MECH676**Introduction to Supply Chain Management**

This course discusses what supply chains are, why they are important, and the types of challenges implicit in managing supply chains. The use of decision-support system in supply chain management is also discussed. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MECH685**Introduction to Biomechanics**

Basic concepts and methods involved in the applications of mechanical engineering principles in the medical and life sciences. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH686**Tissue Biomechanics**

Examination of properties and mechanical behavior of the structures,

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Mechanical Engineering**20MECH686****Tissue Biomechanics**

soft tissue, and organs of biosystems. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH687**Human Body Dynamics**

Introduction to human body modeling. Bones; soft tissue; internal organs; experimental and analytical results; applications in injury analysis, rehabilitative therapy, and sports mechanics. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH690**Optimal Engineering Design**

Analytical and numerical methods for optimization of functions and functionals. Gradient and direct search methods. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH691**Variational Optimization**

Variational methods for the optimization of constrained functions and functionals. Solution for two-point boundary value problems in controls and mechanics. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH693**Thermal Environmental Engineering**

Human thermal comfort; air conditioning, refrigeration, and ventilating systems. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH694**Industrial Heat Exchange Engineering and Design**

An introduction to industrial heat exchange engineering strategies and management techniques and experience in design of heat exchangers and systems to accommodate fixed heat dissipation. (Alternate years) 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH695**Design of HVAC Systems**

To provide an experience in the design of heating, ventilating, and air conditioning systems for commercial, industrial, institutional and / or residential applications. Aimed at providing a systems design supplement to Thermal Environmental Engineering. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH696**Combustion**

Chemical thermodynamics, reaction kinetics, premixed and diffusion flames, ignition, combustion systems, environmental pollution. (Alternate years) 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MECH697**Thermal Energy Storage**

This course covers the fundamentals of thermal energy storage, from the concepts to the hardware, surveying the many different technologies found in current operation. Analysis is geared primarily at the senior-level undergrad students and first year graduate students. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MECH698**HVAC Design I**

This course provides an introduction to the design of heating, ventilating and air conditioning (HVAC) systems and their individual units, engineering strategies and management techniques. Topics include HVAC needs and sustainability, refrigeration, cycles, Psychometrics and more. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MECH699**HVAC Design II**

This is a second course on the design of heating, ventilating and air conditioning (HVAC) systems, and their individual units, engineering strategies and management techniques. Topics include more in-depth coverage of HVAC needs and sustainability refrigeration cycles, Psychometrics and more. Prereq: 20MECH698. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

Mechanical Engineering**20MECH760****Artificial Intelligence in Manufacturing**

Topics include basic artificial intelligence concepts; algorithms related to rule-based systems, fuzzy logic and artificial neural networks; and the applications of these techniques in solving manufacturing problems such as process modeling and process planning. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MECH998**HVAC Design I**

This course provides an introduction to the design of heating, ventilating and air conditioning (HVAC) systems, and their individual units, engineering strategies and management techniques. Topics include HVAC needs and sustainability, refrigeration cycles, Psychometrics, etc. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MECH711**CAD / CAM I**

Selected topics in mechanical design, computer aided engineering, computer aided design, computer aided manufacturing and computer integrated manufacturing. Utilization of the digital computer as a design tool. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MECH712**CAD / CAM II**

Selected topics in mechanical design, computer aided engineering, computer aided design, computer aided manufacturing and computer integrated manufacturing. Utilization of the digital computer as a design tool. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MECH715**Advanced Kinematics**

Advanced topics in kinematics and dynamics of machines. . 3 lec. Prereq: 20MECH634. Credit Level: G. Credit Hrs: 3.00

20MECH716**Advanced Kinematics II**

Provide a fundamental understanding of the kinematics theory in design and analysis of mechanisms. The material will expose the student to theory and practice of synthesis of mechanisms and their evaluation for industry needs. 3 lec. Prereq: 20MECH715. Credit Level: G. Credit Hrs: 3.00

20MECH724**Grid Generation Techniques I**

Features of appropriate coordinates in fluid dynamic analysis. Basic techniques of grid generation. Details of boundary-aligned coordinate generation for arbitrary geometry and the resolution of length scales will be emphasized. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MECH725**Grid Generation Techniques II**

Continuation of 20MECH724. Grid generation using partial differential equations. Fixed and adaptive grid clustering. Multi-rectangular computational regions. 3 lec. Prereq: 20MECH724. Credit Level: G. Credit Hrs: 3.00

20MECH727**Ideal Fluid Flow**

Physical aspects of inviscid flow; the equations governing ideal fluid motion; concept of circulation, vorticity, stream function and velocity potential; potential flow. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MECH728**Viscous Fluid Flow-laminar**

The governing equations for viscous-fluid motion; similarity variables; the boundary-layer concept; incompressible boundary layer flow; Falkner-Skan solutions; introduction to compressible boundary-layer flow. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MECH731**Introduction to Parallel Computing**

Introduction to distributed computing, message passing using MPI, and basic domain decomposition strategies. Credit Level: G. Credit Hrs:

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Mechanical Engineering**20MECH731****Introduction to Parallel Computing**

3.00

20MECH736**Continuum Mechanics**

Tensor algebra, kinematics, conservation laws, constitutive equations, hyperelasticity, variational principles. Credit Level: G. Credit Hrs: 3.00

20MECH741**Engineering Elasticity II**

Formulation and "exact" solutions of some linear elasticity problems and application in structural mechanics. 3 lec. Prereq: 20MECH740. Credit Level: G. Credit Hrs: 3.00

20MECH742**Engineering Elasticity III**

Energy principles in mechanics, numerical methods, and other solid mechanics problems. 3 lec. Prereq: 20MECH741. Credit Level: G. Credit Hrs: 3.00

20MECH745**Finite Element Techniques I**

Introduction to finite element techniques. Stiffness matrices, assembly, applications with trusses and beams; use of ANSYS. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MECH746**Finite Element Techniques II**

Beams and frames; joint releases; fixed-end forces and distributed loading; curved beams and vibration problems. 3 lec. Prereq: 20MECH745. Credit Level: G. Credit Hrs: 3.00

20MECH747**Advanced Finite Element Methods**

Boundary value problems; two-dimensional analysis; variational techniques; plane stress and plain strain; isoparametric and solid elements. 3 lec Prereq: 20MECH746. Credit Level: G. Credit Hrs: 3.00

20MECH750**Boundary Element Methods I**

Theory and application of Boundary Elements. Review of BEM applications to elastostatics, acoustics, and heat transfer. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MECH751**Boundary Element Methods II**

Continuation of Boundary Element Methods I. Emphasis on formulation and solution of three-dimensional problems in heat conduction, elastostatics, and acoustics. 3 lec. Prereq: 20MECH750. Credit Level: G. Credit Hrs: 3.00

20MECH755**Fracture Mechanics**

Introduction to linear elastic fracture mechanics (LEFM), elastic stress singularity, small-scale yielding, energy approach, J-integral, crack growth and stability, application to structures, and computational fracture mechanics. Credit Level: G. Credit Hrs: 3.00

20MECH757**Solid Mechanics of Biological and Biomaterials**

Nonlinear solid mechanics of bio-, biological materials; hyperelasticity; hyperviscoelasticity; application to soft tissue and hydrogels using MATLAB. Credit Level: G. Credit Hrs: 3.00

20MECH765**CAD for Manufacturing**

Discussion of advanced manufacturing concepts including group technology, process planning, numerical control, design for manufacturability and assembly. Credit Level: G. Credit Hrs: 3.00

20MECH766**Precision Engineering & Computational Metrology**

Fundamentals of solid modeling and sculptured surfaces; applications in process planning, feature extraction, tolerance representation,

Mechanical Engineering**20MECH766****Precision Engineering & Computational Metrology**

assembly planning, tool path generation, and robotic task planning. Credit Level: G. Credit Hrs: 3.00

20MECH771**Advanced Conduction Heat Transfer**

Heat transfer by conduction. Mathematical formulation of physical problems; methods of solution including separation of variables. Laplace transforms, superposition techniques. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MECH772**Advanced Convection Heat Transfer**

Heat transfer by forced and free convection. Analysis of various problems including external and internal fluid flows, momentum transfer analogies, transpiration cooling, change of phase. 3 lec. Prereq: 20MECH728. Credit Level: G. Credit Hrs: 3.00

20MECH773**Advanced Radiation Heat Transfer**

Heat transfer by electromagnetic radiation. Analysis of the radiative characteristics of surfaces and of participating members. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MECH774**Advanced Convective Heat Transfer II**

To develop the ability and solve complex convection problems associated with turbulent fluid flow with heat transfer, natural convection, and enhancements of heat transfer to single-phase flows. Also, become familiar with new solution techniques, modeling methods, and development and research trends in the field. 3 lec. Prereq: 20MECH772. Credit Level: G. Credit Hrs: 3.00

20MECH775**Advanced Thermodynamics**

Maxwell relations, equations of state for rest gases. Multicomponent systems, phase equilibrium. Kinetic theory of gases. Transport coefficients. Introduction to quantum mechanics, Bose-Einstein quantum statistics. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MECH776**Boiling Heat Transfer and Two-Phase Flow**

The fundamental processes governing boiling heat transfer and two-phase flow will be examined and predictive procedures presented. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MECH777**Advanced Conduction II**

Continuation of graduate heat conduction with emphasis on transient heat conduction problems with time-dependent boundary conditions/internal heat sources in finite and semi-infinite solids and heat conduction of pure substances with freezing/melting phase-change. Credit Level: G. Credit Hrs: 3.00

20MECH780**Vibration of Continuous Systems**

Vibration of continuous systems including shells, plates, beams, arches. Free and forced vibration problems of continuous system. Forced vibration solutions based on the mode superposition model. Vibrations of combined structures and rotating structures. Credit Level: G. Credit Hrs: 3.00

20MECH781**Non-Linear Vibrations**

The study of non-linear vibrations; elements of non-linear vibrations. Applications and Examples. Credit Level: G. Credit Hrs: 3.00

20MECH794**System Dynamic Analysis I**

Advanced analytical experimental methods to determine dynamic performance of complex mechanical systems. Analysis equipment and computer software are used. 3 lec. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Mechanical Engineering**20MECH795****System Dynamic Analysis II**

See 20MECH794. 3 lec. Prereq: 20MECH794. Credit Level: G. Credit Hrs: 3.00

20MECH796**System Dynamic Analysis III**

See 20MECH794. 3 lec. Prereq: 20MECH795. Credit Level: G. Credit Hrs: 3.00

20MECH800**Masters's Thesis Research**

Cr. to be arranged. Credit Level: G. Credit Hrs: 1.00-19.00

20MECH813**Fundamentals of Microprocessor Control**

Frequency domain and state variable methods in design of digital systems. Microprocessor implementation including A/D - D/A conversion, interrupts, processor characteristics. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MECH818**Intelligent Manufacturing Systems I**

Design and simulation of intelligent manufacturing systems with special emphasis on robot integrated mechanized assembly tasks. Fundamentals of artificial intelligence, application of robotics, sensors, vision, and flexible assembly work cells. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MECH819**Intelligent Manufacturing Systems II**

Continuation of 20MECH818 with emphasis on an extensive project. Prereq.: Perm of instr. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MECH820**Intelligent Manufacturing Systems III**

Continuation of 20MECH819. Introduction to CIM. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MECH829**Viscous Fluid Flow-turbulent**

Introduction to turbulence; the governing equations for turbulent flow and the inherent difficulties in their solution; modeling of turbulence; applications. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MECH830**Thermal Process Engineering**

Modeling of convective transport in thermal processing of anomalously viscous process media, droplets, and vapor/gas-liquid interfaces. Theoretical development of underlying fluid flow and heat transfer principles, along with discussion of relevant experimental issues, for applications in material manufacturing and bio-chemical processing, including plasma processing, material deposition, atomization, and production of chemical and bio-chemical media, among others. Credit Level: G. Credit Hrs: 3.00

20MECH837**Multi-Body Dynamics I**

Kinematics and dynamics of particles and rigid bodies; multibody systems; application in biosciences, robotics, mechanisms, and manipulators. (Alternate Years) 3 lec. Credit Level: G. Credit Hrs: 3.00

20MECH838**Multi-Body Dynamics II**

Kinematics and dynamics of particles and rigid bodies; multibody systems; application in biosciences, robotics, mechanisms, and manipulators. (Alternate Years) 3 lec. Prereq: 20MECH837. Credit Level: G. Credit Hrs: 3.00

20MECH839**Multi-Body Dynamics III**

Kinematics and dynamics of particles and rigid bodies; multibody systems; applications in biosciences, robotics, mechanisms, and manipulators. (Alternate Years) 3 lec. Prereq: 20MECH837,

Mechanical Engineering**20MECH839****Multi-Body Dynamics III**

20MECH838. Credit Level: G. Credit Hrs: 3.00

20MECH860**Master of Engineering Capstone Project**

Individual projects under supervision of departmental faculty in partial fulfillment of the Master of Engineering degree. Credit Level: G. Credit Hrs: 1.00-6.00

20MECH870**Research**

Individual research topics under supervision of departmental faculty, not for the MS thesis. Credit Level: G. Credit Hrs: 1.00-18.00

20MECH871**Topics in MIN Engineering**

Special problems on a conference basis. Hrs. and cr. to be arranged. Credit Level: G. Credit Hrs: 1.00-19.00

20MECH872**Graduate Seminar**

The seminar is a one-credit hour course designed for the graduate students in mechanical engineering. The goal is to provide the opportunity to learn the state-of-the-art research work that is being done in the field of mechanical engineering. Credit Level: G. Credit Hrs: 1.00

20MECH880**Analytical Vibrations of Mechanical Systems**

D'Alembert and Hamilton's principles. Lagrange's equation of motion. Approximate methods (Raleigh-Ritz, Galerkin, collocation). Non-linear and time-varying systems. Credit Level: G. Credit Hrs: 3.00

20MECH950**Mechanical Engineering PhD Fundamentals Exam**

Mechanical Engineering PhD Fundamentals candidacy exam, part 1. Credit Level: G. Credit Hrs: 0.00

20MECH971**Doctoral Dissertation Research**

Cr. to be arranged. Credit Level: G. Credit Hrs: 1.00-19.00

Metallurgical Engineering**20METL471****Materials and Energy Balances I**

Principles and calculations involved in the determining of material and energy balances in materials processing. 581 2 lec., 3 lec. Prereq: 20MTEN342. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20METL536**Special Projects**

Various topics in materials processing and materials characterization on an individual or team basis. All qtr. cr. to be arranged. BoK: NA. Credit Level: U. Credit Hrs: 1.00-7.00

20METL577**Electrometallurgy**

Electrodeposition and metallic corrosion. 3 lec. Prereq: 20MTEN201. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20METL581**Extractive Metallurgy**

Introduction to the methods used in the winning and refining of metals from their native ores. 3 lec. Prereq: 20MTEN201. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20METL593**Foundry Engineering**

An elective course designed to introduce engineering students to the fundamentals involved in the production of castings and solidification processes. Structure-property relationships in cast materials. 3 lec. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Metallurgical Engineering**20METL594****Foundry Engineering Laboratory**

Experiments to evaluate variables related to molding materials, molding operations, and metal casting methods. 3 lab. Prereq: 20METL593. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20METL611**Statistics Policies and Productivity in Manufacturing**

This course deals with statistical methods, corporate and government policies and their effect on productivity issues in medium and large scale manufacturing processes. A few case studies will be discussed. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20METL661**Materials and Energy Balances II**

Analysis of industrial metallurgical processes, study of computer application in the area of process metallurgy. 2 lec., 3 lab. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 3.00

20METL719**Electron Microscopy**

Basic principles of operation of the Electron Microscope. Kinematic and dynamical theories of image formation including Fresnel calculations and Darwin equations. Defect analysis. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20METL773**Fracture Mechanics**

Consideration of the concepts of fracture mechanics and their application to materials systems. 3 lec. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 3.00

20METL779**Dislocations**

Dislocation stress fields, dislocation interactions, theory and methods of formation. 3 lec. Credit Level: G. Credit Hrs: 3.00

20METL871**Seminars**

Studies, presentations and discussions by faculty, students, and visitors of current topics in the field of metallurgy or materials science. 1 lec. Credit Level: G. Credit Hrs: 1.00

20METL971**Research - Metallurgical Engineering**

1-18 gr.cr. Credit Level: G. Credit Hrs: 1.00-18.00

Mechanical, Industrial and Nuclear Engr**20MINE540****Management of Professionals**

Introduction to the principles and procedures of management for professionals; role of administration in engineering, health care, and other professional areas. BoK: QR. Credit Level: U. Credit Hrs: 3.00

20MINE640**Management of Professionals**

Introduction to the principles and procedures of management for professionals; role of administration in engineering, health care, and other professional areas. 3 lec. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20MINE777**Fire Protection Engineering in Facility and Process Design**

Fire protection engineering concepts in the design of facilities and processes from the standpoint of loss prevention and control. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MINE778**Safety Engineering Design and Management**

Advanced application of an integrated safety engineering design/management approach to risk reduction in business and industry. 3 lec. Credit Level: G. Credit Hrs: 3.00

Materials Engineering**20MTEN100****Introduction to Materials Engineering**

An introduction to the field of materials engineering. What areas it encompasses and future opportunities in the field. 1 lec. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20MTEN101**Introduction to Materials Engineering II**

Advanced introduction to the Materials Engineering discipline emphasizing laboratory and research techniques. Also covers current topics in Materials Engineering. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20MTEN110**Materials Fundamentals**

Properties of engineering materials; atomic bonding; crystal systems; electron transport in solids; metal alloys; deformation of metals; cold working and annealing; polymers, ceramic materials. Dept. of Materials Science and Engineering. BoK: NS. Credit Level: U. Credit Hrs: 3.00

20MTEN201**Introduction to Metallurgy**

An introduction to the basic concepts of metallurgy including a description of crystal structures. Additional topics would include mechanical properties, deformation characteristics of metals, defect structure, phase diagrams and phase transformations 4 lec. BoK: NS. Credit Level: U. Credit Hrs: 4.00

20MTEN202**Introduction to Ceramics**

An introduction to the basic characteristics of ceramic systems including phase equilibria, mechanical behavior and crystal structures. 3 lec. BoK: NS. Credit Level: U. Credit Hrs: 3.00

20MTEN203**Introduction to Polymers**

An introduction to polymer systems and their associated properties and structure. 3 lec. BoK: NS. Credit Level: U. Credit Hrs: 3.00

20MTEN204**Introduction to Ceramic Processing**

This introductory course deals with the synthesis, refinement and consolidation of these materials into a green state body and the changes that occur during heat treatment of the body. Focus will be on the development of desired properties, requiring careful control of all processing variables. Prereq: 20MTEN110, 20MTEN202. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20MTEN205**Ceramics Laboratory**

This introductory laboratory course in ceramics is designed to complement the corresponding lecture course in Introduction to Ceramic Processing. Coreq: 20MTEN204. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20MTEN211**Materials Techniques**

An introduction to those laboratory techniques necessary for the investigation and characterization of materials. 1 lec., 6 lab. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20MTEN221**Computer Applications in Materials Engineering**

An introduction to the concepts of data analysis using the microcomputer and the development of programming skills as applied to elementary problems in materials. 2 lec. BoK: NS. Credit Level: U. Credit Hrs: 3.00

20MTEN252**Physical Polymers**

This course deals with the fundamentals of the physical structure and properties of polymers. Prereq: 20MTEN110, 20MTEN203. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Materials Engineering**20MTEN315****Physical Metallurgy I**

An introduction to the fundamental phenomena which control the structure and properties of metals and alloys. Prereq: 20MTEN110, 20MTEN201. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20MTEN331**Science of Materials I**

An introduction to the fundamental phenomena which control the properties and structure of materials. Includes nucleation, transformations, diffusion, defect structures and properties. 3 lec. BoK: NS. Credit Level: U. Credit Hrs: 3.00

20MTEN332**Science of Materials II**

A continuation of Science of Materials I. An introduction to the fundamental phenomena which control the properties and structure of materials. Includes nucleation, transformations, diffusion, and defect structures and properties. 3 lec. Prereq: 20MTEN331. BoK: NS. Credit Level: U. Credit Hrs: 3.00

20MTEN333**Materials Laboratory I**

A sequence of experiments designed to give the students hands-on experience in determining materials characteristics. 3 lab. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20MTEN334**Materials Laboratory II**

A continuation of the experiments in Materials Lab. I. 3 lab. Prereq: 20MTEN333. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20MTEN341**Materials Thermodynamics I**

An introduction to the fundamental laws of thermodynamics with applications to gas phase equilibria. Will include computer solutions of complex equilibrium problems. 3 lec. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

20MTEN342**Materials Thermodynamics II**

Application of the fundamental laws of thermodynamics to phase equilibria in metallic, polymeric and ceramic systems. Solution models and thermodynamics of electrochemistry. 3 lec. Prereq: 20MTEN341. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20MTEN352**Introduction to Polymer Processing**

This course will explore the fundamentals of different techniques for polymer processing and the manufacturing of polymer based parts. Prereq: 20MTEN203, 20MTEN252. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20MTEN354**Polymers Laboratory**

This laboratory course in polymers is designed to compliment the corresponding lecture course in Introduction to Polymer Processing. Coreq: 20MTEN252. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20MTEN376**Materials Selection in Design**

This course is based on the book and interactive CD generated by Prof. Mike Ashby of Cambridge University. The course combines case studies and materials science in an innovative method of teaching selection in design. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20MTEN415**Physical Metallurgy II**

This course deals with more advanced concepts of the phenomena which control the structure and properties of metals and alloys. Prereq: 20MTEN201, 20MTEN315. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

Materials Engineering**20MTEN416****Metallurgy Laboratory**

This laboratory course in metallurgy is designed to compliment the corresponding lecture courses in Physical Metallurgy. Coreq: 20MTEN415. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20MTEN421**Ceramic Fundamentals**

This course will focus on the high temperature chemistry that occurs during ceramic processing. Topics included will be crystallization and recrystallization, phase transformations and the interpretation of phase diagrams that describe high temperature reactions. 3 lec. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

20MTEN424**X-Ray Diffraction**

Structure of crystals; the principles and applications of x-ray diffraction techniques; lecture and lab. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

20MTEN431**Diffusion and Kinetics**

Will consider the fundamental concepts of kinetics and diffusion processes in materials systems. Special emphasis will be placed on the mathematical analyses of these processes. 3 lec. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

20MTEN434**Polymer Chemistry**

This course will cover the fundamental chemical reactions and methods used in the preparation of polymeric materials. The key mechanistic and kinetic features of the methods will be treated in detail. Additional material will include degradation, recycling, and processing of polymeric materials. 3 lec. BoK: NS. Credit Level: U. Credit Hrs: 3.00

20MTEN444**Mechanical Behavior of Materials I**

Review of elasticity and strength of materials concepts; plasticity theory; deformation of crystalline and noncrystalline solids; strengthening methods; fracture mechanisms; mechanical test techniques. 3 lec. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

20MTEN490**Senior Project Proposal**

Selecting and developing a proposal for an experimental and/or theoretical investigation by the individual or group of students. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20MTEN501**Senior Projects I**

Independent theoretical and experimental investigation by the individual or group of students. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20MTEN502**Senior Projects II**

See 20MTEN501. BoK: NA. Credit Level: U. Credit Hrs: 2.00

20MTEN503**Senior Projects III**

See 20MTEN501. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20MTEN520**Physical Properties Of Solids**

This course provides background relating to the major physical properties of solids including metals, ceramics and polymers, specifically those of emerging materials that are currently in use. It is also intended to prepare students in the areas of sensors, detectors, transducers, membranes, optical devices and microwave components. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20MTEN524**Materials and Energy Balances**

Principles and calculations involved in the determining of materials and energy balances in materials processing. Prereq: 20MTEN431. BoK:

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Materials Engineering**20MTEN524****Materials and Energy Balances**

NS, QR. Credit Level: U. Credit Hrs: 3.00

20MTEN530**Polymer Engineering**

Thermomechanical properties of engineering resins. Manufacture with polymers. Design and specification of polymer based structures. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

20MTEN532**Polymer Characterization**

Experiments with aspects of preparation, characterization of polymers-determination of molecular weight, mechanical properties, crystallinity, transitions BoK: NA. Credit Level: U. Credit Hrs: 3.00

20MTEN544**Mechanical Behavior of Materials I**

Review of elasticity and strength of materials concepts; plasticity theory; deformation of crystalline and noncrystalline solids; strengthening methods; fracture mechanisms; mechanical test techniques. Prereq: 20MTEN415. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20MTEN551**Corrosion of Metals I**

This course describes the various forms of corrosion of metals, techniques to measure corrosion rates, with emphasis on electrochemistry, and methods to prevent corrosion such as the use of cathodic protection, coatings and inhibitors. 3 lec. BoK: NS. Credit Level: U. Credit Hrs: 3.00

20MTEN562**Phase Analysis in Materials Engineering**

The aim of this course, with associated laboratory is to provide materials engineering students a "capstone" experience in the principles and "hands-on" use of the most applicable and commonly used methods of phase analysis of materials in an integrated way. Students will perform a series of experiments, designed to address a variety of problems in metals, polymers and ceramics, that require the combined use of techniques such as x-ray diffraction, optical microscopy, scanning. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

20MTEN570**Advances in Energy Technologies**

The course will cover the advances in materials and systems for energy generation in the 21st century. Power generation, distribution and storage from traditional and "green" or sustainable methods will be described. Discussions of approaches that lead mankind away from an intensive use of fossil fuels will be emphasized. Prereq: 15CHEM102, 15PHYS102. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

20MTEN610**Nanomaterials Science/Biomedical Applications I**

To introduce various basic concepts of current nanomaterials and nanotechnology, such as nano- structures, new nanomaterials (nanotubes and nano- wires), synthesis methods, and physical properties. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MTEN611**Nanomaterials Science/Biomedical Applications II**

To introduce applications of nanomaterials and nanotechnologies in biomedical areas including nanodevices, biological probes, hyperthermia, virus detection, cancer diagnosis, and drug delivery. The lectures will focus on their unique properties, current developments in nanoscience. BoK: NA. Credit Level: G, U. Credit Hrs: 3.00

20MTEN612**Nanostructured Materials Engineering**

This course will address important topics concerning nanostructured materials that are closely related to their science and engineering. A breakthrough area of research at UC will be transferred into the classroom and in the teaching labs. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

Materials Engineering**20MTEN625****Polymer Processing**

This course will explore the different techniques for polymer processing and manufacture of polymer based parts. Polymer processing will focus on four major areas including plastics technology, rubber technology, surface coatings/coating technology and composite technology. 3 lec. Prereq: 20MTEN434. BoK: NS, QR. Credit Level: U, G. Credit Hrs: 3.00

20MTEN632**Polymer Analysis**

Instrumental and physical methods for polymer testing. Identification, molecular weight characterization, mechanical properties. 3 lec. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 3.00

20MTEN634**Properties of Polymers**

Structure-property relationships in polymeric materials. Rubber elasticity, glass transition, structure of crystalline polymers, thermodynamics of polymer solutions and compatibility. 3 lec. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 3.00

20MTEN635**Polymer Spectroscopy**

This course will focus on the principles and applications of spectroscopic techniques such as Fourier-transform infrared spectroscopy (FTIR), X-ray photoelectron spectroscopy (XPS), and spectroscopic ellipsometry. Applications of these techniques to all classes of materials, including metals, polymers, ceramics, and composites will be discussed; however, specific attention will be directed toward applications involving polymer surfaces, thin films, and interfaces. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MTEN636**Polymer Characterization**

Experiments with aspects of preparation, characterization of polymers-determination of molecular weight, mechanical properties, crystallinity, transitions. 2 lec., 3 lab. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 3.00

20MTEN637**Soft Matter**

Soft matter currently dominates hiring in physical sciences at research universities across the world (Science and Engineering Indicators, 2004). This course examines the science of soft matter, which lies at the boundary of physics, chemistry, and biology. Topics include nanophase self-assembly, functionalization, interfacial phenomena and responsive (smart) behavior. Soft-matter application will be taken from two research journals launched in the last year. Applications include micromachines, antireflective surfaces, tissue scaffolding, drug delivery, self-cleaning surfaces and photovoltaics. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MTEN638**Introduction to Adhesion Science**

Theories of adhesion. Surface chemistry of solids. Pretreatment of adhered surfaces. Chemistry of adhesives. Surface characterization of adhesives and adherents. Analysis and testing of adhesive joints. Viscoelastic effects in adhesive joints. Durability of adhesive joints. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20MTEN639**Introduction to Biomaterials**

This course will introduce the uses of materials in biomedical applications. The use of ceramic, metal, polymer and composite materials for biocompatible and biomimetic applications in human musculoskeletal, cardiovascular and blood, endocrine and sensory systems will be emphasized. Senior standing or perm. of instr. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20MTEN640**Advanced Ceramic Phase Equilibria**

The reactions that occur during high temperature ceramic processing often involve several oxide components. This course will cover the

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Materials Engineering**20MTEN640****Advanced Ceramic Phase Equilibria**

interpretation of melting and crystallization behavior in multicomponent phase diagrams and how it influences the design of ceramic formulations. Special emphasis will be given to the non-equilibrium reactions commonly encountered in ceramic processing. 3 lec. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 3.00

20MTEN641**Functional Ceramic Devices**

Ceramic devices such as capacitors, sensors, transducers, actuators, memory devices, infrared detectors, PTC thermistors, energy converters and smart devices will be described. Testing methods, related experimental equipment and properties will be discussed. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20MTEN642**Composite materials**

This course is to introduce fundamental concepts for the design, fabrication and mechanical property evaluation of composites. This includes methods of fabricating fibers, matrices and composites, toughening mechanisms in composites, mechanical properties, role of interfaces. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MTEN643**Ceramic Composites**

The objective of this course is to introduce fundamental concepts for the design, fabrication and mechanical property evaluation of ceramic matrix composites. This will include methods of fabricating fibers, matrices and ceramic composites, toughening mechanisms in ceramic and ceramic composites, mechanical properties of ceramic composites, role of interfaces on mechanical properties and micromechanics of ceramic composites. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20MTEN644**Ceramic Processing**

Ceramic processing as an applied science describes the ability to refine, fabricate and characterize ceramic materials and systems for useful applications. This course deals with the synthesis, refinement and consolidation of these materials into a green state body and the changes that occur during heat treatment of that body. Focus will be on the development of desired properties, requiring careful control of all processing variables. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20MTEN645**Glass and Glass/Ceramic Materials**

This course will address the structure, chemistry, and properties of glass and glass ceramics. Topics will include the effect of various network formers and modifiers on the behavior of glass, the crystallization processes by which glass-ceramics are made and non-oxide glasses such as fluoride and tellurite glasses. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20MTEN646**Advanced X-Ray Diffraction**

Wide angle and small angle diffraction theory and techniques for study of crystalline and amorphous solids. 3 lec. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 3.00

20MTEN647**Electrical and Optical Properties of Ceramics**

This course will cover fundamental principles governing the electrical, optical and magnetic properties of ceramic materials. Specific topics to be covered are electronic and ionic conductivity, optical properties of ceramics and glasses and magnetic properties of ceramics. Important applications of ceramics based on these properties will also be discussed. 3 lec. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 3.00

20MTEN649**Magnetic, Dielectric and Sensor Properties of Materials**

Characteristics directly reflect the unique composition, structure, defect

Materials Engineering**20MTEN649****Magnetic, Dielectric and Sensor Properties of Materials**

state and microstructure of ceramic materials. Detailed treatment will be given to the effect of these parameters on specialized electrical behavior, e.g. conduction, dielectric, ferroelectric, piezoelectric and magnetic phenomena in these systems. Basic definitions of these terms and the role of defects in controlling these properties will also be presented. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20MTEN654**ADVANCED CERAMIC PROCESSING**

This course will develop granular mechanics concepts for powder consolidation and the sintering of powder compacts. Recent advances in ceramic manufacturing processing of composite materials and computer aided manufacturing will be considered. Computer control and automation developments enable rapid prototyping, flexible manufacturing and fabrication of materials with unique microstructures tailored to specific application. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20MTEN660**Corrosion of Metal**

3 ug. or gr.cr BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20MTEN671**Phase Transformations in Solids**

Basic concepts of homogeneous and heterogeneous nucleation. Diffusion-controlled and interface-controlled growth, i.e., eutectoid transformations, spinodal decomposition, and order-disorder transformations. 3 lec. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 3.00

20MTEN673**Phase Transformation in Polymer Science**

Crystallization, melting, and glass transition with a concentration on kinetics and time effects from theoretical and experimental view points. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MTEN680**Advanced Physical Metallurgy**

Properties of metallic alloy systems with emphasis on the role of processing on the development of microstructures and final properties. 3 lec. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 3.00

20MTEN685**Coatings and Thin Film Processing**

This course covers general practices in industrial coating operations spanning surface preparation and coating methods to characterization. Techniques include electroplating, plasma spraying, conversion coating, carburizing, and vapor deposition. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MTEN690**Methods of Molecular Modeling**

To teach the fundamental principles of molecular modeling tools that provide a bridge between macroscopic experimental observations and nanoscale phenomena. Monte Carlo and Molecular Dynamics techniques, basic statistical mechanics, and the use of simulations to derive thermodynamic information from various ensembles will be discussed. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 3.00

20MTEN691**Metal Forming Processes**

This course will include a review of basic mechanics and metallurgical principles involved in deformation and mechanical working processes. Applications to specific metal forming methods such as rolling, forging, extrusion, etc., will be discussed in detail. Prereq: 20MTEN444. BoK: NS, QR. Credit Level: U, G. Credit Hrs: 3.00

20MTEN695**FEM Applications in Materials Processing**

General introduction to FEM. Basic formulation for elastic deformation. Small deformation elastic-plastic analysis. Finite strain formulation.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Materials Engineering**20MTEN695****FEM Applications in Materials Processing**

Practical applications to: mechanical processing such as forging, extrusion and rolling; coatings and thin-films; thermo-mechanical processing such as hot-pressing and composite fabrication and multi-stage processes. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 3.00

20MTEN696**Smart Materials**

This course deals with recent developments in special materials that can adapt to service requirements. Materials' ability to adapt to changes in shape, physical, mechanical, and electrical responses will be discussed. BoK: NS. Credit Level: G, U. Credit Hrs: 3.00

20MTEN697**Mechanical Behavior of Materials II**

Elasticity, plasticity, and fracture and their application to materials behavior. 3 lec. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 3.00

20MTEN698**Failure Analysis and Life Prediction Methods**

This course deals with various mechanics and materials principles to analyze failures of structures. A few case studies to illustrate the R principles of failure analysis will be presented. Additionally damage and life predictions methods for complex loading conditions will be discussed. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20MTEN701**PHYS PRIN MAT APP**

3 gr.cr. Credit Level: G. Credit Hrs: 3.00

20MTEN711**Advance Materials Technology**

3 gr.cr. Credit Level: G. Credit Hrs: 3.00

20MTEN720**Advanced Ferroelectric Properties**

Physical effects including dielectric, piezoelectric, electrostrictive, pyroelectric, electro-optic and induced phase transition effects will be introduced. The main parameters which describe the electrical, mechanical and thermal properties and coupling coefficients of ferroelectric ceramics will be covered. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MTEN722**Function Ceramic Devices**

FUNCT CER DEVICES Credit Level: G. Credit Hrs: 3.00

20MTEN730**Corrosion of Metals II**

In this course emphasis will be on electrochemical aspects of corrosion. Various DC polarization techniques and electrochemical impedance spectroscopy are introduced. The students will do some laboratory experiments using these techniques. Credit Level: G. Credit Hrs: 3.00

20MTEN732**Advanced Polymer Characterization**

Experiments with aspects of preparation, characterization of polymers-determination of molecular weight, mechanical properties, crystallinity, transitions. Credit Level: G. Credit Hrs: 3.00

20MTEN735**Advanced Thermodynamics**

Review of the concepts of thermodynamics. Model analysis of binary and ternary metallic, ceramic and polymeric systems. Experimental methods and analysis of experimental data. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MTEN736**Statistical Thermodynamics**

The basic concepts of statistical mechanics are discussed to show how the thermodynamic properties of solid and liquid materials can be related to the properties of individual atoms and molecules which constitute such materials. 3 lec. Credit Level: G. Credit Hrs: 3.00

Materials Engineering**20MTEN736****Statistical Thermodynamics**

The basic concepts of statistical mechanics are discussed to show how the thermodynamic properties of solid and liquid materials can be related to the properties of individual atoms and molecules which constitute such materials. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MTEN745**Scanning Electron Microscopy and Microanalysis**

Scanning electron microscopy and microanalysis describes the basic principles of the instrument and electron-specimen interaction phenomena. Also deals with the operation of instruments together with the sample preparations in metals, ceramics and polymers for materials scientists. Special emphasis is placed on microprobe analysis and interpretation of the data. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MTEN746**TEM Operation**

Transmission electron microscopy describes the basic principles of the instrument and diffraction theory. Also deals with the operation of instruments together with basic techniques using structure analysis for materials scientists. Special emphasis is placed on the relationship between morphology and diffraction pattern and their interpretation. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MTEN748**Diffraction Theory**

The course discusses the basic principles governing the diffraction phenomena of x-rays as well as neutrons, lights and electrons from materials. Diffraction from crystalline materials as well as semi-crystalline and non-crystalline materials will be discussed in the context of the reciprocal lattice. Small-angle scattering as well as x-ray and neutron reflectivity will be treated in sufficient detail that the student analyze laboratory data. Credit Level: G. Credit Hrs: 3.00

20MTEN750**Polymerization, Degradation, and Characterization Techniques**

Will cover recent developments in the preparation of polymeric materials and the degradation of polymeric materials (including thermal degradation, oxidation and photo-degradation). Analytical methods covered will include thermogravimetric analysis, differential scanning calorimetry, mass spectroscopy, nuclear magnetic resonance spectroscopy and various chromatographic techniques. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MTEN753**Polymer Physics**

This course equips students with a knowledge of the terminology and mathematics involved in the physical understanding of polymers, especially topics developed since 1970 involving the statics and dynamics of polymeric materials. Credit Level: G. Credit Hrs: 3.00

20MTEN757**Polymer Morphology**

Structures commonly encountered in polymeric materials are discussed with emphasis on industrially important materials and their morphological details. The approach will involve exploring morphology in terms of level of structure. Topics will include crystalline polymers, structural domains in amorphous polymers, liquid crystalline polymers, block copolymers, phase separated morphologies and the morphology of common filler materials. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MTEN771**Vibrational Spectroscopy of Polymers I**

An introduction to infrared and Raman spectroscopy as applied to polymers. Topics discussed include group theory and symmetry, selection rules, crystallinity, orientation, and degradation. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MTEN780**Mechanical Properties of Polymers**

Mechanical properties of polymers gives an overview of the thermo-mechanical, deformation and fracture behavior of solid polymers. It

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Materials Engineering**20MTEN780****Mechanical Properties of Polymers**

Covers special topics such as rubber elasticity, principles of linear viscoelasticity, non-linear viscoelasticity, yield behavior and fracture of polymers. Credit Level: G. Credit Hrs: 3.00

20MTEN801**Solidification Processing of Materials**

Theory and applications of solidification of solids. Control of nucleation and growth to produce a desired microstructure and how this relates to the final properties. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MTEN860**Master of Engineering Capstone Project**

Individual projects under supervision of departmental faculty in partial fulfillment of the Master of Engineering degree. Credit Level: G. Credit Hrs: 1.00-6.00

Materials Science**20MTSC640****Kinetics of Materials Processing**

Systematic treatment of kinetic theory in materials processing. Diffusion in metals and non-metals including short-term and long-term solutions. Reaction kinetic theory. Surface reaction kinetics. Nucleation and grain growth theory. Application of kinetic theories in materials processing such as solidification, oxidation, evaporation and heat treatment. 3 lec. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 3.00

20MTSC641**NANO-Structured Powders: Synthesis Structure and Applications**

This class is intended to give an overview of the syntheses, industrial production, characterization and applications of nano-structured ceramic, organics and hybrid powders. These materials are used for a wide range of applications including use as catalysis chemical sensors etc. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20MTSC642**Rubber Science and Technology**

This course deals with the chemical and physical principles of making and using rubber & associated products. Both science and technology issues will be addressed. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20MTSC693**Metal Matrix Composite Materials**

Structure, properties, applications, fabrication and interfacial reactions of metal matrix composite materials. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20MTSC695**Introduction to Polymer Composites**

This introductory course on polymer composites will include discussions about matrix resins, reinforcing fibers, micro and macro-mechanics, fabrication techniques and testing procedures. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20MTSC764**THERMO-SOLIDS I**

THERMO-SOLIDS I Credit Level: G. Credit Hrs: 3.00

20MTSC794**Introduction to Polymer Science**

Preparation and characterization of polymers; addition and condensation polymerization, stereoregularity, branching, and copolymerization, molecular weight averages and distributions. 3 lec. Credit Level: G. Credit Hrs: 3.00

20MTSC971**Research - Materials Science**

1-18 cr. Credit Level: G. Credit Hrs: 1.00-18.00

20MTSC972**Special Projects - Materials Science**

1-15 cr. Credit Level: G. Credit Hrs: 1.00-15.00

Materials Science**20MTSC972****Special Projects - Materials Science**

1-15 cr. Credit Level: G. Credit Hrs: 1.00-15.00

Nuclear Engineering**20NUC101****MNE Freshman Seminar I**

Interactive presentations and discussion about the physical basis for nuclear engineering and its relationship to mechanical engineering. Recent developments and awareness of current issues in the nuclear engineering profession. Required of all freshman students in the MNE-ACCEND Program. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20NUC102**MNE Freshman Seminar II**

Spring Quarter continuation of 20-NUC-101. Further interactive presentations and discussion about the physical basis for nuclear engineering. Recent developments and awareness of current issues in the nuclear engineering profession. Required of all freshman students in MNE-ACCEND. BoK: NA. Credit Level: U. Credit Hrs: 1.00

20NUC211**Fundamentals of Nuclear & Radiological Engineering**

Survey of major aspects of modern nuclear and radioactivity, elementary theory of special relativity, interactions of radiation with matter, biological effects of radiation, radioisotope applications, neutron reactions and nuclear fission reactor theory. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20NUC245**Fundamentals of Nuclear Reactor Theory**

Introduction to the fundamentals of nuclear fission reactor theory, delayed neutrons, neutron flux, neutron reaction rates and the neutron current density vector. Fundamentals of neutron diffusion theory in non-multiplying and multiplying regions. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20NUC311**Fundamentals of Nuclear Fuel Cycles**

Concepts associated with the mining, conversion, enrichment, and manufacturing of nuclear fuel for power generation. Fundamentals of nuclear fuel management for light water reactors, spent fuel storage, reprocessing, and waste disposal. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20NUC333**Nuclear Concepts for Engineers**

Elementary quantum theory, atomic and nuclear processes associated with radioactive decay and radiation emission, physical and biological consequences of radiation interactions, technical basis for radiation protection standards and regulations. BoK: NA. Credit Level: U. Credit Hrs: 3.00

20NUC400**Independent Projects in Nuclear Engineering**

To be arranged with nuclear engineering faculty member. Offered ea. qtr. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

20NUC523**Radiation Measurement I**

A theoretical and experimental study of nuclear radiation sources, interactions of radiation with matter, general radiation detector principles & properties. The statistics of counting and error propagation. Principles and operation of gas detectors. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC524**Radiation Measurement II**

The second part of the sequence is spent on scintillation detectors, signal processing of scintillation light pulse, photomultipliers, semiconductor detectors, neutron detectors, background radiation, advanced topics on detector response, and gamma ray spectroscopy. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Nuclear Engineering**20NUC524****Radiation Measurement II**

The second part of the sequence is spent on scintillation detectors, signal processing of scintillation light pulse, photomultipliers, semiconductor detectors, neutron detectors, background radiation, advanced topics on detector response, and gamma ray spectroscopy. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC550**Radiation Shielding Design**

Dosimetry definitions, terminology. Methods for calculating neutron and photon attenuation in reactor shields. Shield heating, induced activity, shield design. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC601**Nuclear Reactor Theory & Engineering I**

Neutron diffusion and the neutron fission process. Nuclear reactor kinetics, control and materials. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC602**Nuclear Reactor Theory & Engineering II**

Thermal energy transport in nuclear reactors. Fundamental aspects of reactor fuel management, design and safety BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20NUC603**Nuclear Reactor Theory & Engineering III**

Analysis of heat transfer, temperature distributions, and fluid flow in the nuclear reactor environment, including the circumstances that can lead to fuel rod centerline temperatures. Applied elements of neutron slowing down theory, phenomenological formulas for calculating the resonance escape probability and power distribution control will also be presented. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC604**Reactor Engineering I**

Aspects of nuclear reactor design, heat generation and removal, reactor vessel design, shielding and material consideration. 3 lec. Prereq: 20MECH311, 20MECH414. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC605**Reactor Engineering II**

See 20NUC604. 3 lec. Prereq: 20NUC604. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

20NUC606**Power Engineering**

Study of power generation systems in nuclear and conventional plants. 3 lec. Prereq: 20MECH311, 20MECH414. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC608**Nuclear Reactor Systems Dynamics**

Dynamic behavior of nuclear reactors. Theory of reactor control systems and reactor system stability analysis. 3 lec. Prereq: 20NUC501. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC610**Light Water Power Reactor Operation**

Practical aspects of light water power reactor operations under normal and abnormal conditions. Includes fieldwork on full scope reactor simulators. 3 lec. Prereq: 20NUC656. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC611**Radiation Interactions I**

Fundamentals of quantum mechanics and nuclear physics required for nuclear and radiological engineering. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

Nuclear Engineering**20NUC612****Radiation Interactions II**

Nuclear interaction theories and evaluations of cross sections for charged and neutral particles. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC613**Health Physics Lab 1**

Application of health physics theory and concepts using radiation detection instrumentation to measure radioactivity in various sample media. 2 lec., 3 lab. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC615**Radiation Interactions**

This course will include reviews of nuclear model, nuclear decay and radioactivity, and will focus on the fundamentals of interactions of neutral and charged particles with atomic electrons and nuclei and evaluation of cross sections. BoK: NS. Credit Level: U, G. Credit Hrs: 4.00

20NUC620**In-Core Reactor Fuel Management**

Fundamental aspects of the nuclear fuel cycle, basics of nuclear reactor fuel elements, in-core fuel management, spent fuel management, and fuel cycle economics. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC621**Health Phys Lab I**

HEALTH PHYS LAB I BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC622**Health Phys Lab II**

HEALTH PHYS LAB II BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC630**The Monte Carlo Method**

This course provides an introduction to the basic concepts, sampling techniques, error estimates, variance reducing devices of the Monte Carlo method and its application in particle transport calculations. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC640**Introduction to Nuclear Engineering & Health Physics**

Introduction to health physics: fundamental particles, radioactivity, biological effects, radiation standards, basic dosimetry calculations. 3 lec. Prereq: 15MATH273. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC641**Radiological Engineering**

Sources. atmospheric transport, groundwater modeling, environmental pathways, internal dosimetry, external dosimetry, and health effects. 3 lec. Prereq: 20NUC640, 15MATH273. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC642**Health Physics Laboratory**

Analysis of radioactivity in environmental samples, principles of Health Physics Lab work, worker protection fundamentals, radiation monitoring of workers and environment. 2 lec., 3 lab. Prereq: 20NUC641. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC643**Introduction to Nuclear Criticality Safety**

Fundamental aspects of criticality safety, analysis methods, experimental methods, accidents, standards and regulations for criticality safety. 3 lec. Prereq: 20NUC502. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC644**Radiation Effects of Materials**

Mechanisms for radiation-induced changes in materials properties. Selection of materials and design techniques to minimize radiation effects. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Nuclear Engineering**20NUC645****Monte Carlo Criticality Analysis**

Individual and team project analysis of criticality safety problems using KENO and MCNP Monte Carlo codes. Double contingency analysis of nuclear engineering processes. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC646**Fundamentals of Neutron Activation Analysis**

The objective of the course is to provide the student with a broad-base background on the engineering aspects of neutron activation analysis (NAA). This class will involve both lectures and labs to provide the student with experience in the aspects of NAA. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

20NUC648**Radiological Pathway Analysis**

Source term analysis, activity scenario development, radiological transport mechanisms, dose calculations, risk and health assessment, computer program applications. 3 lec. Prereq: 20NUC641. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC650**Nuclear Reactor Computations**

Computational techniques and approximations associated with multigroup diffusion calculations. Analyses of reactor performance. 3 lec. Prereq: 20NUC502. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC656**Light Water Power Reactor Systems**

Examination of physical basis for common functional requirements of principal systems required for safe and efficient operation of power reactors. Study of how requirements are implemented for principal types of currently operating light water reactors. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC660**Health Physics II**

Internal dosimetry: ICRP models and analysis, MIRD method, radiation protection, external dosimetry, use of computer analysis to calculate dose, trends in health physics research. 3 lec. Prereq: 20NUC640. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC680**Probabilistic Risk Assessment**

Use of stochastic techniques to assess nuclear power station risks. Application of fault and event tree analyses to evaluate accident sequences and probability. Probabilities coupled with evaluated consequences to establish risk. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC681**Boiling Heat Transfer and Two-Phase Flow**

The fundamental processes governing boiling heat transfer and two-phase flow will be examined and predictive procedures presented. 3 lec. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC683**Environmental Radioactivity**

Study of origin, concentration, and distribution of naturally occurring and technically enhanced radioactive material in the environment and biological effects of those materials. 3 lec. Prereq: 20NUC640. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC683H**Environmental Radioactivity**

Study of origin, concentration, and distribution of naturally occurring and technically enhanced radioactive material in the environment and biological effects of those materials. 3 lec. Prereq: 20NUC640. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC690**Nuclear Engineering Seminar**

Selected topics in Nuclear Engineering. BoK: NA. Credit Level: U, G.

Nuclear Engineering**20NUC690****Nuclear Engineering Seminar**

Credit Hrs: 1.00

20NUC691**NRE Research Seminar**

Seminars on research topics and/or current events delivered by NRE students to aid in developing skills necessary for effective written and verbal technical communication. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

20NUC711**Nuclear Physics for Engineers**

NUCLEAR PHYS-ENGR BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC712**Nuclear Physics for Engineers**

See 20NUC711. 3 lec. Prereq: 20NUC711. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

20NUC700**Research In Health Physics**

Research projects in health physics and radiological engineering. Credit Level: G. Credit Hrs: 1.00-15.00

20NUC800**Master's Thesis Research**

For graduate students working on a Masters Thesis. Credit hours to be arranged. Credit Level: G. Credit Hrs: 1.00-15.00

20NUC811**Neutron Transport I**

Methods for solving neutron transport equation; spherical harmonics, discrete ordinates, Monte Carlo and perturbation variational techniques. 3 lec. Prereq: 20NUC503. Credit Level: G. Credit Hrs: 3.00

20NUC812**Neutron Transport II**

See 20NUC811. 3 lec. Prereq: 20NUC811. Credit Level: G. Credit Hrs: 3.00

20NUC821**Special Topics in Nuclear Engineering**

Specialized and developing topics such as fast reactors, nuclear safety analyses, isotope power sources, and pulsed neutron techniques. Credit Level: G. Credit Hrs: 2.00-6.00

20NUC822**Special Topics in Nuclear Engineering**

See 20NUC821. 3 lec. Credit Level: G. Credit Hrs: 3.00

20NUC823**Special Topics in Nuclear Engineering**

See 20NUC821. 3 lec. Credit Level: G. Credit Hrs: 3.00

20NUC870**MS Research**

Individual research topics under supervision of departmental faculty, not for the MS thesis. Credit Level: G. Credit Hrs: 1.00-15.00

20NUC871**Topics in Nuclear Engineering**

Special problems on a conference basis. Hours and credit to be arranged. Credit Level: G. Credit Hrs: 1.00-15.00

20NUC872**Projects, Master of Science**

Special projects directed by individual faculty. Credit Level: G. Credit Hrs: 1.00-6.00

20NUC901**Readings**

Directed study of problems selected for independent study. Offered each Quarter. Credit Level: G. Credit Hrs: 1.00-15.00

H=University Honors course.

Nuclear Engineering**20NUC902****Readings In Health Physics**

Supervised readings course in Health Physics for the purpose of identifying research topics. Credit Level: G. Credit Hrs: 1.00-6.00

20NUC903**Research in Nuclear Engineering**

Research projects related to the field of nuclear science and nuclear engineering. Credit Level: G. Credit Hrs: 1.00-15.00

20NUC950**Nuclear Engineering PhD Fundamentals Exam**

Nuclear Engineering PhD Fundamentals candidacy exam, part 1. Credit Level: G. Credit Hrs: 0.00

20NUC971**Dissertation**

Research for the PhD dissertation. Cr. to be arranged. Credit Level: G. Credit Hrs: 1.00-15.00

Professional Development**20PD502****Professional Dev II**

Professional Dev II BoK: NA. Credit Level: U. Credit Hrs: 1.00

COLLEGE OF LAW

COURSE DESCRIPTIONS

(24) College of Law

2008 - 2009

College of Law 1

Business, Commercial and Labor

24BCL501

Contracts

This course covers basic concepts and doctrines in contract law, including the legal grounds for enforcement of promises, the role of consent in contract formation, contract remedies, and interpretation. Attention is given to both the common law of contracts and to Article 2 of the Uniform Commercial Code, which governs transactions in goods. Credit Level: P. Credit Hrs: 4.00-6.00

24BCL502

Torts

Torts examines the three basic theories of civil (non-criminal) liability for injuries to persons and property: intentional torts, negligence and strict liability. These subjects are considered together with causation problems, defenses to liability (such as consent, self-defense, comparative negligence and assumption of risk), and affirmative duties. Credit Level: P. Credit Hrs: 4.00-6.00

24BCL701

Agency-Partnership Law

The legal principles governing agency and partnership are explored. Special attention is given to the creation and termination of agency and partnership relationships as well as to the rights, duties and powers of principal, agent and third party in the agency setting. Employment terms, trade secrets and vicarious liability are discussed. Credit Level: P. Credit Hrs: 2.00-4.50

24BCL704

Bankruptcy

This survey of bankruptcy law covers basic concepts such as the automatic stay, adequate protection and property of the estate and also examines personal and business bankruptcy options under Chapters 7, 11, and 13. The course gives limited treatment to non-bankruptcy law of debt collection. It is recommended, but not required, that Commercial Law I be taken first. Prereq: 24BCL706. Credit Level: P. Credit Hrs: 3.00-4.50

24BCL705

Bankruptcy: Business Reorganization

This seminar deals with business rehabilitation utilizing the Bankruptcy Code. The major portion of the course is devoted to Chapter 11. Significant attention is also paid to Chapter 13. It is recommended, but not required, that Bankruptcy be taken first. Credit Level: P. Credit Hrs: 2.00-3.00

24BCL706

Commercial Law I

This course covers basic commercial law doctrine, focusing on two central devices in commercial credit, negotiability and the security interest. The law of these devices is found principally in Articles 3 and 9 of the Uniform Commercial Code. The treatment of security interests in bankruptcy is also covered. The topics to be addressed include the use of notes to separate payment obligations from their underlying transactions, creation and perfection of security interests in personal property, and priorities and remedies upon default in these secured transactions. Credit Level: P. Credit Hrs: 3.00-4.50

24BCL707

Commercial Law II

This course covers the law of domestic and international sales as well as the payment devices used in these transactions. After dealing with basic sales law doctrine, the course will focus on bringing together the law governing complex sales transactions. Doctrines covered include warranties, remedies, performance and risk of loss under Article 2 of the Uniform Commercial Code. This domestic law will be compared to the United Nations Convention on Contracts for the International Sale of Goods. The course also covers the law of payment devices used in sales transactions, including checks, documentary drafts and letters of

Business, Commercial and Labor

24BCL707

Commercial Law II

credit. The payments law covered will include parts of Articles 3,4,5 and 7 of the Uniform Commercial Code. Credit Level: P. Credit Hrs: 2.00-4.50

24BCL708

Corporations

This course involves the study of the law affecting the American modern private business corporation. It deals with problems connected with organizing and funding a new corporation, the control and management of the corporation, the duties of directors, officers and controlling shareholders and liability for breach of these duties, and with transactions in shares of the corporation by directors and other "insiders," including the impact of U.S. securities laws upon such transactions. Credit Level: P. Credit Hrs: 3.00-4.50

24BCL709

Corporate Finance

This course examines the legal rules governing financial transactions within a corporation and between the corporation and its shareholders. The course will also cover financing the corporation and organic changes, including mergers, consolidation, recapitalizations and charter amendments. Credit Level: P. Credit Hrs: 3.00-4.50

24BCL711

Corporate Transactions Negotiating and Drafting

This course provides exposure to corporate transactions and hands-on drafting experience with an active corporate practitioner. By the end of the course, students will have a basic understanding of the structure of a corporate agreement, and the purposes of its basic components, including recitals, representations and warranties, covenants, conditions precedent, closing logistics and post-closing obligations. Students work on a fictitious corporate acquisition from letter of intent through stock purchase agreement to closing documents, with emphasis on drafting, but including some discussion of structuring the transaction, negotiating strategies and practice negotiations. Course work includes weekly in-class drafting exercises, frequent written take-home drafting exercises and some required reading. Credit Level: P. Credit Hrs: 2.00-3.00

24BCL712

Antitrust

This course covers sections 1 and 2 of the Sherman Act, sections 2 (Robinson-Patman), 3 and 7 of the Clayton Act, and section 5 of the Federal Trade Commission Act, and their extensive judicial gloss. The legal concepts include ventures which substantially lessen competition or tend toward monopoly in any product in any section of the country. Credit Level: P. Credit Hrs: 2.00-4.50

24BCL713

Food, Drug and Safety Laws

Examines regulation of products used by consuming public. Covers Food and Drug Administration, Consumer Product Safety Commission and certain Environmental Protection Agency regulatory programs. Credit Level: P. Credit Hrs: 3.00-4.50

24BCL715

Labor Law

Areas covered in this survey course include organization, representation, and collective bargaining; strikes, picketing, boycotts, and other economic pressures; economic pressures by employers such as lockouts and subcontracting; and union security. Credit Level: P. Credit Hrs: 3.00-4.50

24BCL717

Mediation in the Labor Public Sector

This course emphasizes the mediation process and the significant differences between the private and public sector in labor relations.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Business, Commercial and Labor**24BCL717****Mediation in the Labor Public Sector**

Students are separated into two groups of associates in law firms that represent either a county or union local that have reached impasse in bargaining. The students present the case to a professional mediator. Credit Level: P. Credit Hrs: 2.00-3.00

24BCL718**Product Liability**

Examines injury compensation systems that allocate the costs of harm to product makers, insurers, and consumers. Prepares the student for active participation in litigation, risk avoidance counseling, and the legislative and regulatory systems that impact on safe products. Credit Level: P. Credit Hrs: 2.00-4.50

24BCL719**Securities Enforcement and Litigation**

This course will explore the various ways in which the federal securities laws are enforced to protect investors and the public interest in a fair and open market. In the course of study, we will consider: 1) the investigation and enforcement powers of the SEC and self-regulatory organizations such as the NYSE and the NASD; 2) the criminal law provisions under which violations of the securities laws may be prosecuted; 3) litigation instituted against individual and corporate defendants by private plaintiffs such as shareholders and other investors; and 4) the development of compliance programs and codes of conduct designed to deter and prevent transgressions. Credit Level: P. Credit Hrs: 2.00-4.50

24BCL721**Securities Regulation**

This overview of federal securities laws stresses the registration requirements of the Securities Act of 1933 and the regulatory provisions of the Securities Exchange Act of 1934. State securities laws are considered in general and the Ohio Securities Act is reviewed in particular. Credit Level: P. Credit Hrs: 3.00-4.50

24BCL722**Worker's Social Legislation**

Provides an introduction to the theory and practice of the state and federal laws which are intended to protect workers' health and livelihood from the many risks of the work place. Specific topics include: workers' compensation, unemployment compensation, the Occupational Safety and Health Act, and the Social Security Act. Credit Level: P. Credit Hrs: 2.00-4.50

24BCL724**Employment Law**

This course will focus on the legal relationship between employer and the individual employee. It will cover the common law aspects of that relationship, particularly contacts and torts. It will then examine statutory modifications of the common law. Statutes that may be examined include ERISA, the Civil Rights Acts, whistle-blower protection legislation, unemployment and workers compensation acts, Fair Labor Standards Act and OSHA. The course is recommended for students contemplating a labor law, corporate or general practice. Credit Level: P. Credit Hrs: 3.00

24BCL725**Advanced Torts**

This course will cover topics not covered in the basic course. In today's legal world, tort law provides some of the most cutting edge issues. This course will supplement and enhance the curriculum offerings in corporate law and in constitutional law, with an emphasis on the constitutional torts such as defamation and privacy. Credit Level: P. Credit Hrs: 2.00-4.50

24BCL726**Government Contracts: Formation & Administration**

This course will provide an overview of the basic considerations in contracting with the federal government, including the sovereign's power to contract, the applicable statutes, regulations and executive orders, and sovereign immunity. Credit Level: P. Credit Hrs: 2.00-3.00

Business, Commercial and Labor**24BCL726****Government Contracts: Formation & Administration**

This course will provide an overview of the basic considerations in contracting with the federal government, including the sovereign's power to contract, the applicable statutes, regulations and executive orders, and sovereign immunity. Credit Level: P. Credit Hrs: 2.00-3.00

24BCL727**International Labor & Employment Law**

This seminar surveys various aspects of international labor and employment law and examines human rights, labor rights and labor standards in the context of an international economy heavily regulated by bilateral and multilateral trade agreements. The seminar materials will include background readings on labor, human rights, and international trade law and policy, as well as detailed discussion of issues where the labor, human rights and trade policy intersect. Credit Level: P. Credit Hrs: 2.00-3.00

24BCL728**Employee Benefits Law I**

This course will focus on the law controlling qualified retirement plans, beginning with the passage of the Employee Retirement Income Security Act of 1974 (ERISA) and ending with the changes under the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA) (or more recent subsequent legislation, as applicable). Emphasis will be placed on the policy issues underpinning the development of employee benefit law, as well as the practical application of the law. The course will emphasize representations of the plan sponsor. Credit Level: P. Credit Hrs: 2.00-3.00

24BCL731**Payment Systems**

This is a core course in the area of commercial law. It builds upon basic contract and property principles to introduce you to important commercial concepts such as negotiability and good-faith purchase and how those concepts operate in a wide variety of settings. It covers legal rules that govern several familiar payment systems and devices: negotiable instruments (eg. notes and checks), wire transfers, credit cards, and electronic fund transfers. With respect to each payment system we will try to get a basic understanding of the operations and economics of the system as well as the governing law. Study of the law of modern payment systems provides an ideal opportunity for examining a phenomenon typical of modern law: widely scattered and rapidly changing sources of law. The applicable law is found, *inter alia*, in Art. 3,4,4A of UCC; various federal statutes and Federal Reserve System regulations; private agreements, such as those governing clearing houses and back credit card arrangements; and, of course, basic common law concepts. Credit Level: P. Credit Hrs: 2.00-4.00

24BCL732**Sales**

This course covers issues relating to contracts for the sale of goods under Article 2 of the UCC. The issues involve formation of such contracts, terms, mechanics of performance, warranties, and the remedies for various defaults. This class's approach to Art.2 of the UCC is based on two premises: first that the ability to read and understand statutes is a vital skill for lawyers; and, second, that you (the students) can best learn Art.2 (and most statutes) by reading, deconstructing, and reconstructing the statutory language for yourselves. Indeed you will learn the UCC better this way than by reading exclusively cases, since cases only tell you what judges think the Code means. Credit Level: P. Credit Hrs: 2.00-4.00

24BCL733**International Trade**

The regulation of international trade is an increasingly important aspect of law, business, domestic politics, and international affairs. This course will examine international trade law, focusing on the World Trade Organization and the international agreements that are part of the WTO system, especially the General Agreement on Tariffs and Trade (GATT). We will begin with basic international trade theory and policy and proceed to examine procedural and substantive aspects of the

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Business, Commercial and Labor**24BCL733****International Trade**

WTO system, including dispute settlement procedures, trade barriers, principles of nondiscrimination, dumping, subsidies, and trade restrictions relating to health, development, the environment, intellectual property, and relief from import competition. We will also address regional trade agreements such as North American Free Trade Agreement (NAFTA). Credit Level: P. Credit Hrs: 2.00-3.00

24BCL734**Corporations II**

This course will build on the core concepts learned in Corporations I and addresses advanced issues in modern corporation law. It will cover federal regulation of shareholder voting; federal and state regulation of mergers and other acquisitions; directors' fiduciary duties in connection with takeover attempts; and corporate governance issues presented by shareholder activities and the corporate social responsibility movement. Since the mid-80's, corporate law has expanded dramatically, with increased emphasis on state law fiduciary duties of directors and officers, particularly in the area of proxy regulation and corporate governance. These are important and interesting issues that students planning to enter corporate practice should understand. In addition, all students who want to understand better the complexities of the modern public corporation will benefit from this course. Credit Level: P. Credit Hrs: 2.00-4.00

24BCL735**Accounting for Lawyers**

A study of basic concepts and limitations of financial accounting, this course covers the financial reporting process and the developments of financial statements for external users, such as investors and creditors. Techniques for analyzing financial statements and auditing them are introduced. The course is designed for students with no background in accounting; students with such a background must not register. Credit Level: P. Credit Hrs: 2.00-4.00

24BCL736**Venture Capital & Private Equity**

This course studies the venture capital (VC) and private equity (PE) industries. The emergence of institutional VC and PE firms in and after the 1990s will be highlighted in the first four weeks of the semester, as will the legal and economic structures of such firms. Fundraising by such firms and investor perspectives will also be examined during this period. How VC/PE firms operate will be the primary focus of the next six weeks of the semester, with emphasis on how VC/PC firms screen, select, value and monitor investee companies, investment transaction structures and "down" round financing issues. Investment "exits" and related matters, such as legal issues faced by VC/PE-controlled public companies, will be the subject of the remainder of the semester. Credit Level: P. Credit Hrs: 1.00-5.00

Government**24GOVT501****Constitutional Law I**

This is an introductory course covering judicial review, federalism, separation of powers, and equal protection. Credit Level: P. Credit Hrs: 3.00-4.50

24GOVT502**Civil Procedure I**

This course covers various aspects of civil litigation from the filing of a complaint up to the discovery process. Jurisdiction over the person, venue and federal subject matter jurisdiction are explored. Coverage is also given to the decision in *Erie RR v. Tompkins* and its progeny, concerning the applicability of state law in federal courts. The remainder of the course is devoted to, service of process, joinder of parties, counterclaims and amendments. Credit Level: P. Credit Hrs: 3.00-4.50

24GOVT503**Civil Procedure II**

This course continues issues first explored in Civil Procedure I. It opens

Government**24GOVT503****Civil Procedure II**

with joinder of parties in multi-party actions, interpleader, class actions and intervention. Modern discovery procedures, the trial process, and post-trial motions are considered. The course ends with procedures governing appeals, alternative dispute resolution, and the effect of res judicata and collateral estoppel by judgment in prior litigation. Credit Level: P. Credit Hrs: 3.00-4.50

24GOVT701**Administrative Law**

Government agencies increasingly regulate the marketplace, health and safety, and provide basic services. This course explores the constitutional powers and limitations on agency action, judicial review of agencies, and the procedures with which agencies must comply in regulating or providing benefits. Credit Level: P. Credit Hrs: 3.00-4.50

24GOVT702**Federal Jurisdiction**

This course addresses issues of federalism and separation of powers raised by statutes and doctrines which establish and limit federal court jurisdiction. Among the matters addressed are standing, legislative courts, congressional power over federal jurisdiction, the Eleventh Amendment, and the abstention doctrines. Also considered are the role state courts play in the formation and application of doctrines. Credit Level: P. Credit Hrs: 3.00-4.50

24GOVT706**Legislation and Statutory Interpretation**

This seminar will explore some of the various procedural, constitutional, and jurisprudential issues raised by the role that the state and federal legislatures play in our constitutional order. In particular, the reading assignments will focus on legal questions relating to the manner in which representatives are elected; procedures governing legislative deliberation; representatives' powers, privileges, and duties; and the interpretation of statutes by courts and administrative agencies. Chief among the many aims of the course is to introduce the student to the legal problems posed by legislative government, in the hopes that as a practicing lawyer s/he will be a more sophisticated, effective, and responsible participant in the legislative process and/or in the subsequent implementation of statutes. Students will write a paper in lieu of taking an exam. A preliminary topic must be chosen by the 4th week; a final topic must be chosen by the 6th week; a complete draft must be submitted by the 13th week; and a final draft must be submitted by the last day of exams. Credit Level: P. Credit Hrs: 2.00-4.00

International**24INTL701****Advanced Problems in Environmental Law: International Environmental Law**

This course will cover the nature and causes of global and transnational environmental problems, international law and institutions for environmental protection, the problems of subsistence economies, and relationships between the developed worlds. Credit Level: P. Credit Hrs: 3.00-4.50

24INTL704**International Business Transactions**

This course is an introduction to the economic or business side of the international legal system through which public and private transactions occur. It includes the legal environment for creating new wealth, producing and distributing in world markets, disruptions in markets by political decisions or events, settling disputes both private and between private parties and governments, reducing tariffs and barriers to trade, minimizing conflicts and extraterritorial enforcement of antitrust, export control and handling problems in the conduct of international litigation. Credit Level: P. Credit Hrs: 3.00-4.50

H=University Honors course.

International**24INTL705****International Intellectual Property**

This course examines the various mechanisms by which intellectual property rights are granted and enforced worldwide--mechanisms that have become increasingly important in our "world without borders." Topics include treaties covering copyrights, trademarks, designs, and patents; the World Intellectual Property Organization; the regulatory systems of the European Union and other regional bodies; and the ways in which intellectual property owners may navigate these systems and, ultimately, protect their intellectual property across the globe. Students also will learn about special problems relating to international intellectual property law, such as developing countries and developing technologies. Prereq.: Introduction to Intellectual Property Law or Copyright Law and Trademark and Unfair Competition. Credit Level: P. Credit Hrs: 2.00-4.50

24INTL706**International Law**

This course is the core upper-level course for those students interested in international or comparative law. The course examines the process of public and private decision-making in the transnational context as well as the role of international lawyers in public and private relations and institutions in the post-Cold War era. The course uses structured problems to explore the tools of law as they are employed as an instrument of international policy in a range of human activities across national boundaries. Specific issues examined in this course include problems of jurisdiction, sources of international law in treaties and custom, processes for resolving disputes between private parties or between private parties and governments, available remedies and the enforcement of international legal rights in general. International law is a foundation for further studies in international law and policy, such as Int'l Bus. Trans, Int'l Human Rights, Int'l Environ. Law and Int'l Legal Theory. Credit Level: P. Credit Hrs: 3.00-4.50

24INTL708**Int'l Commercial Arbitration**

International arbitration has increased as a function of world trade. This course gives students a basic foundation in the mechanics of international commercial arbitration and an understanding of the tactical choices that frequently confront international arbitration practitioners. In particular, the course will examine systematically, through statutes, rules, national and international cases, and treatises, the establishment, operation, and implementation of awards of international commercial arbitration tribunals; the role of national courts in compelling, facilitating, and enforcing or vacating arbitral awards; and policies currently under consideration for changing arbitral practices. This course will be valuable for students planning to practice in the area of business transactions, as arbitration is frequently the dispute settlement method of choice for firms dealing with their counterparts in other countries. Even students whose practice will seemingly focus exclusively on domestic transactions will need to know the basics of international commercial arbitration, as advising, planning, and structuring are increasing tasks. Credit Level: P. Credit Hrs: 2.00-4.00

24INTL712**International Human Rights (Current Problems in): Women's Human Rights**

Students in this course will undertake a study in the status of women's human and legal rights globally. The course will focus on the current status of the rights of women in a variety of countries and cultures, and as they relate to issues of health, personal and political rights. The students will examine the role of domestic laws, international human rights instruments and traditional cultural values as they define the rights of women. Credit Level: P. Credit Hrs: 3.00-4.50

24INTL713**International Environmental Law**

This course will cover the nature and causes of global and intranational environmental problems, international law and institutions for environmental protection, the problems of subsistence economics, and relationships between the developed worlds. Prereq.: Environmental

International**24INTL713****International Environmental Law**

Law I or perm of instr. Credit Level: P. Credit Hrs: 2.00-3.00

24INTL714**International Criminal Law**

This course will introduce students to the principles of jurisdiction for international criminal law. Those principles will then be applied to the Foreign Corrupt Practices Act, antitrust and securities regulation, export controls, economic espionage, computer crimes, narcotics and money laundering, piracy and terrorism, and torture. Next, the course considers procedural aspects of trying those cases in United States courts, such as the extraterritorial application of the US Constitution, immunities from jurisdiction, mutual assistance in criminal cases, extradition and its alternatives, prisoner transfers, and recognition of foreign criminal judgements. Finally, the course examines the prosecution of international tribunals: human rights and criminal procedure, the Nuremberg and Tokyo precedents, the UN Yugoslav and Rwanda tribunals, the International Criminal Court, and the substantive law of international crimes, such as aggression, genocide, crimes against humanity, and war crimes. Credit Level: P. Credit Hrs: 2.00-4.50

Individual Rights and Liberties**24IRTS501****Constitutional Law II**

This required course covers individual rights and freedoms, including the incorporation of the Bill of Rights as against the States, freedom of speech and religion, due process, economic and personal liberties and state action. Credit Level: P. Credit Hrs: 2.00-4.50

24IRTS701**Civil Liberties**

This course examines legislation, such as section 1983 of the Civil Rights Act, designed to protect constitutional rights. Defenses and immunities are explored, as are available remedies. Legislation dealing with housing, discrimination in contractual relations, employment discrimination and voting rights is also examined. Credit Level: P. Credit Hrs: 3.00-4.50

24IRTS702**Criminal Procedure I**

This introductory course deals with the constitutional aspects of various police practices, focusing primarily on the Fourth, Fifth, and Sixth Amendments to the US Constitution. The course specifically addresses the right to counsel; arrest, search and seizure; wiretapping, electronic eavesdropping and the use of secret agents; police interrogation and confession; and the scope and administration of the exclusionary rules. Recommended prerequisite for Criminal Procedure II. Credit Level: P. Credit Hrs: 3.00-4.50

24IRTS703**Criminal Procedure II**

This continuation of Criminal Procedure I deals with the defense of entrapment; eyewitness identifications and lineups; pre-trial release; the decision whether to prosecute; the preliminary hearing; grand jury investigations and review; the location and scope of the prosecution; the right to a speedy trial, notice, discovery and disclosure; coerced and negotiated guilty pleas; trial by jury; the criminal trial itself; double jeopardy; and appeal. It is recommended that Criminal Procedure I be taken first. Credit Level: P. Credit Hrs: 3.00-4.50

24IRTS704**Education Law**

Examines legal issues encountered at all levels of education. Course will focus on such problems as academic freedom, curriculum control, censorship, mandatory education, church - state issues, faculty and student rights, tort and civil rights liability of educational institutions, and educational opportunity, including rights of the handicapped. Credit Level: P. Credit Hrs: 3.00-4.50

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Individual Rights and Liberties**24IRTS705****Employment Discrimination**

This course surveys the major legislative and executive provisions prohibiting various types of discrimination in employment. Discrimination is considered in the context of hiring, promotion, discharge, benefits, conditions, and the like. Consideration is also given to the procedures applicable to employment discrimination cases. Credit Level: P. Credit Hrs: 3.00-4.50

24IRTS706**Family Law**

Primary focus is on the relationship between law and the family in the context of the creation, maintenance and restructuring of domestic relations. Special attention is given to the nature of marriage, separation, divorce, dissolution, support, alimony and child custody. Credit Level: P. Credit Hrs: 2.00-4.50

24IRTS707**First Amendment Seminar**

Directed principally at exploring freedom of speech and freedom of religion, this seminar enables each student to consider both the historical development of and contemporary cases and issues related to the First Amendment. Credit Level: P. Credit Hrs: 3.00-4.50

24IRTS708**Gender and the Constitution**

This course explores gender equality from the perspective of U.S. constitutional law. Decisions, principally by the U.S. Supreme Court, in the areas of reproductive freedom, single sex education, affirmative action, and pornography will be discussed. The course will also explore the perspectives of feminist legal theorists as well as the work of constitutional scholars with respect to methods of constitutional interpretation. Credit Level: P. Credit Hrs: 2.00-4.50

24IRTS709**Human Rights Seminar**

This course examines the Universal Declaration of Human Rights and the International Covenants on Civil and Political Rights, and Economic, Social, and Cultural Rights along with several treaties which have been promulgated relating to such matters as genocide, refugees, racial discrimination, and the political rights of women. Using a problem-oriented approach, students engage in a number of lawyering roles such as presenting testimony before the Senate Foreign Relations Committee, oral argument before the US Supreme Court, and drafting a petition for submittal to the United Nations Subcommittee on Prevention of Discrimination and Protection of Minorities. Credit Level: P. Credit Hrs: 3.00-4.50

24IRTS711**Immigration and Nationality Law Review: Editor**

Immigration & Nationality Law Review: Editor (EIC) shall be responsible for all final editorial decisions made relative to the editing of the contents of the review; the progress of the final edited version of the Review; and initiating organic changes to the Constitution. The powers of the EIC by default are those not assigned to other editors for the purposes of ongoing organization. The powers of the EIC may not be delegated to any committees without permission of the Faculty Advisor. The EIC may be one or more third year students, selected by the outgoing board and by the faculty advisor at the end of the year prior to their service as EIC. Credit Level: P. Credit Hrs: 3.00

24IRTS712**Immigration and Nationality Law Review: Articles Editor**

See Above Information on Editor. Credit Level: P. Credit Hrs: 2.00

24IRTS713**Immigration Law and Policy**

Students are introduced to national and international legislation and decisions concerning the entrance and residence in the United States by aliens, including the social, economic and political aspects thereof. Credit Level: P. Credit Hrs: 2.00-4.50

Individual Rights and Liberties**24IRTS714****Juvenile Law**

Surveys the various components of the juvenile justice system in the context of jurisdiction, rights and obligation of the parties, and dispositions. Areas of concentration include delinquency, unruliness, dependency, neglect, child abuse and contributing to the delinquency of minors. Some attention is also given to torts, contracts, and student rights. Credit Level: P. Credit Hrs: 3.00-4.50

24IRTS715**Freedom Center Journal of Law and History: Editor**

This journal will support the intellectual efforts of the Underground Railroad and Freedom Center. The purpose of the journal is to generate an historical analysis of the response of oppressed peoples to unjust laws; the primary, but not exclusive, focus is African-American history. The Journal will also offer an additional opportunity for black law students to gain writing and editing skills. The academic work for student credit is similar to the requirements established by the LAW REVIEW and HUMAN RIGHTS QUARTERLY. Credit Level: P. Credit Hrs: 3.00

24IRTS716**Freedom Center Journal of Law and History: Articles Editor**

This journal will support the intellectual efforts of the Underground Railroad and Freedom Center. The purpose of the journal is to generate an historical analysis of the response of oppressed peoples to unjust laws; the primary, but not exclusive, focus is African-American history. The Journal will also offer an additional opportunity for black law students to gain writing and editing skills. The academic work for student credit is similar to the requirements established by the LAW REVIEW and HUMAN RIGHTS QUARTERLY. Credit Level: P. Credit Hrs: 2.00

24IRTS717**Poverty and the Law**

The seminar seeks to develop an appreciation of the law's role as a significant factor in the social and economic conditions of society. Some of the questions addressed in the seminar are: What are the problems of the poor? What is, and has been, the role of law with respect to these problems? What is, and should be, the role of the legislature in alleviating inequities? An understanding of the substantive law in the area is only the first step in the resolution of these issues. Credit Level: P. Credit Hrs: 3.00-4.50

24IRTS718**Problems in Litigating Civil Rights**

The first area to be examined will be what rights are due individuals and their constitutional and statutory sources with emphasis on the linkage between those directed at historical racial issues and contemporary problems of age and disabilities. Next, there will be an examination of the forum that is most appropriate for vindicating the rights. Finally, the seminar will examine the issues which relate to the nature and extent of remedies to be fashioned for violations of civil rights. Credit Level: P. Credit Hrs: 3.00-4.50

24IRTS720**Gender and the Constitution**

This course explores gender equality from the perspective of US constitutional law. Decisions, principally by the US Supreme Court, in the areas of reproductive freedom, single sex education, affirmative action, and pornography will be discussed. The course will also explore the perspectives of feminist legal theorists as well as the work of constitutional scholars with respect to methods of constitutional interpretation. Credit Level: P. Credit Hrs: 2.00-3.00

24IRTS721**Sexual Orientation and the Law**

This course will explore the relationship between sexual orientation and the law, encompassing recent decisions by the US Supreme Court, the Hawaii trial court's decision in the gay marriage case, and legislative responses, such as the Defense of Marriage Act. Constitutional privacy, the right to public access, and first amendment issues as they relate to

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Individual Rights and Liberties

24IRTS721

Sexual Orientation and the Law

sexual identity/ orientation will be examined. Credit Level: P. Credit Hrs: 2.00-3.00

24IRTS722

White Collar Crime

Examines the special problems of proving a 'guilty mind' and a 'guilty act' in the context of business and government activities. Specific emphasis will be placed on corporate criminal liability, personal liability in organizational settings, conspiracy, mail fraud, false statements, perjury and false declarations, obstruction of justice, bribery of public officials, and RICO: The Racketeer Influenced and Corrupt Organizations Act. Credit Level: P. Credit Hrs: 3.00-4.50

24IRTS729

Criminality and Civil Disability

This course will address the implications of criminality, and the civil disabilities that members of our society endure following the discharge of their sentences. Such disabilities range from the prohibition to bear arms to the inability to exercise the right to vote. The course will offer contemporary American and Jewish perspectives on the subject of criminality, guilt, and innocence, as well as various issues relating to the re-integration of offenders into society and the notion of civil disability. Credit Level: P. Credit Hrs: 2.00-3.00

24IRTS730

Death Penalty: Race, Poverty and Disadvantage

This course will examine the process of imposing the death penalty, with emphasis on legal representation for people who cannot afford lawyers, and racial discrimination. It will address the influence of race, poverty, politics, and the passions of the moment in decision making in capital cases; prosecutorial discretion; judicial independence; the participation of people of color as jurors, judges, prosecutors, and attorneys in the criminal justice system; mental health issues; and the appropriateness of the death penalty for people who are mentally retarded, mentally ill, or children. Credit Level: P. Credit Hrs: 2.00-3.00

24IRTS731

Criminal Procedure Capstone

Criminal Procedure Capstone is designed to prepare students for the transition to criminal defense practice. The course will focus on pre- and post- guilty plea process. Students will participate in a simulation of the federal sentencing process, including writing a sentencing memorandum and arguing a client's position at a sentencing hearing before a guest judge. Credit Level: P. Credit Hrs: 3.00-4.00

24IRTS732

Wrongful Convictions: Causes & Remedies

The course will address the primary causes of wrongful convictions, and the legal remedies. Each week a different topic will be presented. Examples of weekly topics include eyewitness misidentification, false confessions, junk science, bad defense lawyering, prosecutorial misconduct, "Brady" violations, etc. Students will read articles about this topic, and in class we might watch a video or have a guest speaker in addition to engaging in discussion about the topic. Credit Level: P. Credit Hrs: 1.00-4.00

24IRTS736

Capital Punishment

This course will examine the process of imposing the death penalty, with emphasis on legal representation for people who cannot afford lawyers, and racial discrimination. It will address the influence of race, poverty, politics, and the passions of the moment in decision making in capital cases; prosecutorial discretion; judicial independence; the participation of people of color as jurors, judges, prosecutors, and attorneys in the criminal justice system; mental health issues; and the appropriateness of the death penalty for people who are mentally retarded, mentally ill, or children. Credit Level: P. Credit Hrs: 2.00-3.00

Individual Rights and Liberties

24IRTS737

Domestic Relations/Domestic Violence Clinic

In this one semester clinical program students advocate for victims of domestic violence in civil protective order hearings and address family law issues that arise in the protective order context, including child support and custody. As needed, students may assist attorneys at the Legal Aid Society of Greater Cincinnati by researching family law issues (as well as assisting in related matters) that arise during the course of Legal Aid's representation of clients in divorce and other family related issues. Credit Level: P. Credit Hrs: 2.00-5.00

24IRTS738

Domestic Relations/Domestic Violence: Field Placement

Field Placement requirement of this course. Students must enroll concurrently. Credit Level: P. Credit Hrs: 2.00-5.00

24IRTS739

Domestic Violence Civil Protection Order Clinic (2L)

Concurrent enrollment in Domestic Violence Civil Protection 2L Clinic Field Experience course required. Enrollment by permission of instructor. Credit Level: P. Credit Hrs: 1.00-4.00

24IRTS740

Domestic Violence Civil Protection Order Clinic Field Experience (2L)

Concurrent enrollment in Domestic Violence Civil Protection 2L Clinic course required. Enrollment by permission of instructor. Credit Level: P. Credit Hrs: 1.00-4.00

24IRTS774

Habeas Corpus and Post Conviction Remedies

This class will focus upon practical and procedural issues involving criminal post-conviction remedies at both the state and federal levels. The class will examine not only the constitutional aspects of collaterally attacking a conviction, but will also address the mechanisms of litigating post-conviction appeals. While not excluding other types of cases, the class will concentrate on the death penalty, using as a model a current case. Criminal Procedure I is a prerequisite for this course. Credit Level: P. Credit Hrs: 2.00-4.00

24IRTS775

Innocence Project: Wrongful Convictions

In this course, students examine the various types of evidence that might lead to the wrongful convictions of innocent persons. They will also consider the roles police, prosecutors and defense lawyers play in the criminal justice system, with an emphasis on discovering how errors can lead to the conviction of the innocent. Credit Level: P. Credit Hrs: 2.00-4.00

24IRTS776

Innocence Project: Field Placement

Students will be assigned to one or more cases of Ohio inmates convicted of serious crimes who have steadfastly maintained their innocence. Working with volunteer attorneys, students will consider and select investigative avenues which show promise for establishing that the case was wrongly decided. The goal of the project is to obtain the release of innocent inmates. Credit Level: P. Credit Hrs: 4.00-6.00

24IRTS777

Critical Race Theory

In the mid-1980's, a new scholarly movement developed in legal academe, Critical Race Theory. Early advocates of CRT-challenged both the substance and style of conventional legal scholarship. Substantively, race crts rejected formal equality, individual rights, and color-blind approaches to solving legal problems. Stylistically, critical race scholars often employed new methodologies for legal scholarship, including storytelling and post-modern and post-structural analysis. The goal of this two-credit seminar is to examine the genesis of CRT and, in light of its theoretical commitments, to explore CRTS possibilities and limitations. Such an exploration will require us to think carefully not only about race and racism, but also about sexism, classism, and heterosexism. Thus, some of the readings will be drawn from Critical Legal Studies, Feminist Jurisprudence, and Queer or Sex

Special Permission needed to enroll in this course Perm of College. Credit Level: P. Credit Hrs: 12.00

Litigation and Skills**24LITG501****Lawyering II**

This course covers basic techniques of oral and written advocacy, which the student practices by representing one of the parties in a hypothetical case at the trial court level. Credit Level: P. Credit Hrs: 2.00-3.00

24LITG502**Lawyering I**

This course covers skills basic to competent legal research and writing. The students write objective memoranda of law based on hypothetical problems composed by the instructors. The course emphasizes issue recognition, case and statutory interpretation, legal analysis, and the use of plain English. Credit Level: P. Credit Hrs: 2.00-3.00

24LITG701**Justice and the Legal System**

This course examines various tensions between law and justice in the legal system. By focusing on the role of justice in advocacy, the course will endeavor to equip students to be more effective advocates. By focusing on the function of justice in judicial decision-making, the course will endeavor to provide greater insight into the influence of justice in judicial decisions. The grade in this course will be based on participation in class discussion, as well as upon a paper. Credit Level: P. Credit Hrs: 3.00-4.50

Litigation and Skills**24LITG701****Justice and the Legal System**

This course examines various tensions between law and justice in the legal system. By focusing on the role of justice in advocacy, the course will endeavor to equip students to be more effective advocates. By focusing on the function of justice in judicial decision-making, the course will endeavor to provide greater insight into the influence of justice in judicial decisions. The grade in this course will be based on participation in class discussion, as well as upon a paper. Credit Level: P. Credit Hrs: 3.00-4.50

24LITG703**Appellate Advocacy**

Working with the record of a case tried in a Hamilton County court, students prepare appellate briefs and present oral arguments. The grade is based not on competition but on the final product of each student. Recommended that Appellate Practice and Procedure be taken first. Credit Level: P. Credit Hrs: 3.00-4.50

24LITG704**Appellate Practice and Procedure**

This covers the role and function of appellate courts: preserving issues for appeal; appealability; appeal strategy; the record on appeal; briefs and oral argument; operating procedures of appellate courts; motion practice; extraordinary writs; and related matters. Each student prepares a critique of an actual case pending in an appellate court. Credit Level: P. Credit Hrs: 3.00-4.50

24LITG705**Complex Litigation**

Introduces the students to the increasing trend toward complex litigation (cases with complex issues, multi-party cases, and multi-forum cases). Explores the use of procedural devices; the functioning of the judicial panel on multi-district litigation; and case management by lawyers, judges, and special masters. Credit Level: P. Credit Hrs: 3.00

24LITG706**Conflict of Laws**

This course deals with the legal ramifications of disputes involving contacts with two or more states or foreign jurisdictions. The choice of law evolution is explored, from both a doctrinal and policy perspective. Included are issues of constitutional limitations on choice of law, the extraterritorial application of American law, and special problems raised by the enforcement of foreign judgments. Credit Level: P. Credit Hrs: 2.00-4.50

24LITG707**Evidence**

This course focuses on the proof of facts in a trial court. Common law doctrines are contrasted with evidence rules created by statute as exemplified by the Federal Rules of Evidence. Credit Level: P. Credit Hrs: 3.00-4.50

24LITG709**Introduction to Client Interviewing & Counseling**

This course will include basic theory and techniques of interviewing and counseling, including the underlying psychological issues and prescriptions for effective communication and assisting clients in understanding alternatives and making decisions. Classroom demonstration, simulation exercises and discussion will be used to place students in the position of lawyer and client. Credit Level: P. Credit Hrs: 1.00-4.00

24LITG710**Introduction to Alternative Dispute Resolution**

This course will introduce the theory and practice of alternative dispute resolution (ADR). Students will examine the basic concept of resolving disputes without an adjudication by a court, and will cover various methods of ADR, including mediation, arbitration, neutral evaluation, minitrial and summary jury trial. Their characteristics will be compared and contrasted with traditional court-based litigation. Credit Level: P. Credit Hrs: 2.00-4.50

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Litigation and Skills**24LITG711****Judicial Extern Class**

The class component of the Judicial Extern Program covers writing for judges and proper conduct for judges and judicial clerks. Students must enroll concurrently in the Judicial Extern Field Placement. Student may not, however, enroll concurrently in the other extern programs. Credit Level: P. Credit Hrs: 1.00-2.00

24LITG712**Law Review**

Varied credit. Participating students engage in the selection and editing of articles for publication in the University of Cincinnati Law Review. Students also write notes and comments for publication in the Review. Open only to student contributors to the Review. Credit Level: P. Credit Hrs: 0.00-7.50

24LITG713**Law Review**

Varied credit. See 24LITG712. Credit Level: P. Credit Hrs: 0.00-7.50

24LITG714**Law Review**

Varied credit. See 24LITG712. Credit Level: P. Credit Hrs: 3.00-4.50

24LITG715**Legal Drafting**

Using research provided, students draft a client letter, complaint, set of interrogatories, contract and will. For each project, 2-3 students will interview the client to obtain the necessary facts. The final work product, due at the end of the semester, is a portfolio containing corrected drafts of each assignment, plus the applicable law, rules, and sample documents used to create all five assignments. Open to 3L's only. Credit Level: P. Credit Hrs: 3.00-4.50

24LITG716**Legal Extern Class**

The classroom component of the Legal Extern Program emphasizes practical lawyering skills, law office economics, and ethical issues. Students must enroll concurrently in the Legal Extern Field Placement. Students may not enroll concurrently in the other extern programs. Credit Level: P. Credit Hrs: 1.00

24LITG717**Moot Court**

This is a skills course involving advanced argumentation and persuasion via the preparation of a partisan appellate brief. Oral arguments are required. Offered to second-year students in the first semester. Credit Level: P. Credit Hrs: 1.00-1.50

24LITG718**Moot Court Douglass Competition**

Participating students represent the College of Law at the Frederick Douglass Moot Court Competition. Credit Level: P. Credit Hrs: 2.00-6.00

24LITG719**Moot Court Editor**

Selected third-year students critique, annotate, and discuss oral arguments and written briefs submitted in Moot Court-Fourth Semester. Credit Level: P. Credit Hrs: 2.00-3.00

24LITG720**Moot Court - Fourth Semester**

Participating students represent the College of Law in various intercollegiate moot court competitions. Credit Level: P. Credit Hrs: 2.00-4.50

24LITG721**Moot Court Jessup International**

Participating students represent the College of Law at the Jessup International Moot Court Competition. Credit Level: P. Credit Hrs: 2.00

Litigation and Skills**24LITG722****Moot Court - Senior Semester**

Participating students represent the College of Law in intercollegiate National Moot Court Competition. Credit Level: P. Credit Hrs: 2.00-3.00

24LITG723**Negotiations**

The objective of this course is to develop the skills which lawyers use in the process of negotiating on behalf of their clients. Theory and technique are discussed, and demonstrations of negotiations are presented on video tape. This is a skills course and students are graded on their performance in negotiation simulations. Credit Level: P. Credit Hrs: 3.00-4.50

24LITG726**Remedies**

This course covers all forms of ultimate relief in civil actions: damages, restitution, equitable relief. The first portion deals with the damages remedy in tort, contract, real property, and personal property litigation. The second unit analyzes the alternative remedy of restitution, in law and equity. The course concludes with those cases governing specific relief in equity, specific performance in contract and injunctions in tort. Credit Level: P. Credit Hrs: 3.00-4.50

24LITG728**Political Trials**

Political Trials A political trial is one where the prosecution or the defense is politically motivated or where the results will have a substantial political impact. The course will provide an understanding of what a political trial is and where they take place and will explore the connection of law, politics, and the social and historical trends in the country. Among the trials to be considered will be the Scopes Monkey Trial, the Rosenberg Spy Case, and the Chicago 7 Conspiracy Trial. Credit Level: P. Credit Hrs: 2.00-3.00

24LITG729**Street Law Extern Field Placement**

Each law student teaches the Street Law curriculum at an area high school during one fifty-minute section three days per week. The curriculum includes introduction to law, family law, consumer law, housing law, torts, and criminal law with topics in contracts and procedure. There is also a classroom component in which the law students learn both the interactive teaching techniques and the substantive law they will be teaching. (Students may not enroll concurrently in the Judicial, Legal, or Street Law Extern Programs.) Credit Level: P. Credit Hrs: 1.00-4.50

24LITG730**PILG Public Interest Legal Grants**

Participating students work on projects for organizations that provide legal services to underserved populations. Reports at the end of the summer are made in accordance with requirements established by the supervising faculty member. Open only to students receiving summer work study and/or public interest fellowship funds. Credit Level: P. Credit Hrs: 1.00

24LITG731**Intensive Practical Lawyering Skills**

This is an intensive course designed to give students insight into the day-to-day work of practicing lawyers and to provide students the opportunity, through simulation, to learn and practice fundamental lawyering skills. Students will develop professional skills as they interview and counsel the client, draft pleadings, depose the opposing party in preparation for litigation, assist the client's decision-making, and negotiate on behalf of the client. These skills are developed through a framework designed to present the student with a theoretical context for better understanding the importance of practical lawyering skills. Credit Level: P. Credit Hrs: 2.00-3.00

24LITG733**Trial Practice**

The development of litigative techniques is stressed through student participation in simulated trial situations. Each aspect of the trial is

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Litigation and Skills**24LITG733****Trial Practice**

studied and emphasis is placed upon strategy and fact management. Open to third year students only. Credit Level: P. Credit Hrs: 3.00-4.50

24LITG734**Judicial Extern Field Placement**

Judicial Extern Field Placement. The work performed in the judicial extern field placement is essentially the same as that performed by a law clerk to a judge. It usually involves preparing memoranda on cases, reviewing case files, drafting opinions and orders, attending court and conferences. The precise tasks performed, however, depend upon the type of court and style of the judge. Students must enroll concurrently in the Judicial Extern Class. Coreq: 24LITG711. Credit Level: P. Credit Hrs: 2.00

24LITG735**Legal Extern Field Placement**

Legal externs work under the supervision of attorneys in local, state and federal public agencies, as well as for legal aid and other non-profit organizations in the private sector. Students must enroll concurrently in the Legal Extern Class. Coreq: 24LITG716. Credit Level: P. Credit Hrs: 2.00

24LITG738**Criminal Defense Investigation & Discovery**

This course will explore the essentials of using investigation and discovery to defend an indigent, criminal defendant. The course will consist of several components: Theoretical, practice-oriented (with scholarly discussion interspersed throughout), and then finally a review of the major themes of the class which will require each student to discuss the book which he or she was assigned at the beginning of the semester. Recommended but not required: Criminal Procedure I, Evidence. Credit Level: P. Credit Hrs: 2.00-3.00

24LITG740**Forensic Sciences**

This course is designed to familiarize students with contemporary scientific evidence and expert witnesses. Acknowledged experts will present their specialties with an eye toward what the lawyer should know about the scientific area and how to utilize an expert witness. Topics include: pathology, eye-witness identification, fingerprints, tool mark and firearms identification, arson investigation and accident reconstruction. Credit Level: P. Credit Hrs: 2.00-3.00

24LITG741**Mediation Advocacy Workshop**

The course will include an introduction to mediation processes, contrasting mediation with litigation and direct negotiation. Classroom exercises and discussion will prepare students for interviewing and counseling the client, representing the client's broader range of interests in mediation and achieving optimal outcomes. Students will be called upon to practice mediation advocacy skills. Credit Level: P. Credit Hrs: 1.00-2.00

24LITG742**Moot Court Rendigs Problem Writer**

Selected student will write the Rendigs National Products Liability Moot Court Competition problem. Credit Level: P. Credit Hrs: 3.00

24LITG743**Sixth Circuit Appellate Practice**

The class introduces students to the basics of appellate advocacy, with particular emphasis on practice before the US Court of Appeals for the Sixth Circuit. Students will have the opportunity to work for actual clients on cases pending before the Sixth Circuit, including preparing the briefs and possible presentation of oral argument. Attention will also be devoted to studying the judges on the Sixth Circuit, with expected guest lectures from Sixth Circuit judges. Credit Level: P. Credit Hrs: 2.00-3.00

Litigation and Skills**24LITG744****Practice Session**

In this class, students and faculty will meet and discuss readings relevant to a particular problem of legal policy. Enrollment will be limited to 15. Students will take turns leading discussion and presenting short analytical papers or a longer term paper. Credit Level: P. Credit Hrs: 1.00-3.00

24LITG745**Mediation**

This course will equip students with the skills and strategic analysis necessary to successfully fulfill the role of neutral third-party mediator. Students will undertake a series of mediation role plays, and will receive intensive feedback on technique, skill, and intervention choices. Video-taping will be used extensively, enabling students to calibrate perception and reality of their own mediation style and effectiveness. The class will also view and critique the techniques used by other experienced mediators (on video-tape and through in-class demonstration), permitting us to see a range of mediator presence, styles and choices. Recommended but not required is the Negotiations class. Students who have not taken Negotiations will be asked to complete limited additional reading, and to attend a one hour "Negotiation Highlights" lecture to be scheduled in the fall. Credit Level: P. Credit Hrs: 1.00-4.00

24LITG746**Federal Criminal Practice**

In this class, students and faculty (Assistant US Attorneys) will meet and discuss federal criminal practice from investigation through appeal. Students will have the opportunity to analyze and discuss real cases and then see them actually presented in the court room. Students will also have the opportunity to participate in responding to motions, etc. Credit Level: P. Credit Hrs: 2.00-4.50

24LITG747**Law Review Contributing Editor**

By permission only. Credit Level: P. Credit Hrs: 1.00-3.00

24LITG748**Rules of Legal Writing**

Students enrolled in this course will study and practice ways to improve their writing. Using a set of specific rules for enhancing writing, students will analyze and correct examples of poorly written material and compose and correct original material. With emphasis on plain English this course is designed to improve students' understanding of the grammar and composition skills necessary for effective legal writing. Credit Level: P. Credit Hrs: 1.00-3.00

24LITG749**Advanced Legal Research: Methods and Applications**

This course builds upon the basic research skills and techniques learned in the required "Lawyering I" course. Its problem-solving approach gives students practical research experience that will enhance their understanding of the legal literature and legal research principles. Students will learn to assess and respond strategically to legal research problems using available resources in print and digital formats. Scope is limited to researching United States federal and state law. Credit Level: P. Credit Hrs: 2.00-3.00

24LITG750**Advanced Decision Analysis Workshop**

This course expands on the decision analysis for case evaluation and client-counseling in simple cases. It moves to sophisticated applications in complex cases, where attorneys use decision analysis to think through litigation management and strategy, and to communicate with opposing counsel and (particularly corporate) clients. In-house counsel increasingly require the use of decision analysis for settlement and litigation decisions. Students completing this course could claim a reasonable degree of proficiency in decision analysis for legal practice. Credit Level: P. Credit Hrs: 1.00-3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Litigation and Skills**24LITG751****Indigent Defense Clinic**

Enrollment in class and field placement is required. Students will be interviewed for selection for this two-semester clinic. 3L's who qualify for Student Intern License only. Please submit resume and a letter of interest. Credit Level: P. Credit Hrs: 1.00-3.00

24LITG752**Indigent Defense Clinic FP**

Enrollment in class and field placement is required. See information on Indigent Defense Clinic. Credit Level: P. Credit Hrs: 1.00-3.00

24LITG753**Street Law**

Complete separate Street Law Extern Preference form and include transcript and resume. Students may not enroll concurrently in Extern Programs. You must also register for the Field Placement portion of this class. Credit Level: P. Credit Hrs: 1.00-3.00

24LITG754**Trial Practice: Criminal Defense**

This class will concentrate on developing trial skills with a focus on representing the criminally accused. Beginning with developing the Theory of Defense, this class will expose students to all aspects of criminal defense trial work, including pre-trial motions, making and responding to objections, and each component of a criminal trial. The goal of the class is to provide an introduction to the zealous and effective representation of the criminal defendant. Credit Level: P. Credit Hrs: 3.00-4.00

24LITG756**Trial Practice: Mock Trial Competition**

Class participation is limited to students who have instructor permission. Student try-outs (via resume, interview) are required. Credit Level: P. Credit Hrs: 2.00-4.00

24LITG757**6th Circuit Field Experience**

Field Experience portion; concurrent enrollment in class required. Credit Level: P. Credit Hrs: 1.00-3.00

24LITG758**Environmental Law Practice 1**

Advanced study in Environmental Law I. Enrollment in Environmental Law I required. Credit Level: P. Credit Hrs: 1.00-3.00

24LITG759**Intro to Intellectual Property Practice 1**

Enrollment in Introduction to Intellectual Property required. Credit Level: P. Credit Hrs: 1.00-3.00

24LITG760**Trial Practice Competition**

Students will conduct extensive preparation for and will enter a regional trial competition in the Spring, under the supervision of attorney-coaches. Students who "win" at the regional level will participate in the national trial competition for no additional credit. Credit Level: P. Credit Hrs: 1.00-5.00

24LITG761**International Business Transactions Practice 1**

Must enroll concurrently in International Business Transactions. Credit Level: P. Credit Hrs: 1.00-5.00

24LITG875**Advanced Remedies: Remedying Race Discrimination**

Advanced Remedies: Remedying Race Discrimination This seminar provides an opportunity to explore and critique the judiciary's attempts to redress race discrimination. Because the course is a remedies course, it will take as a given legal liability. Students will be expected both to understand and question current judicial approaches to redressing race discrimination. Credit Level: P. Credit Hrs: 2.00-3.00

Litigation and Skills**24LITG876****Research Seminar**

Students in this advanced research seminar will explore in depth topics as determined by the faculty member. Each student will write and present an independent research paper on a topic approved in advance. Credit Level: P. Credit Hrs: 2.00-4.50

24LITG901**Individual Research Project**

Under the direct supervision of a member of the faculty, upper level students engage in original research and prepare for credit a substantial work product. The research project is selected jointly by the student and the faculty member. Customarily the final product will be a research paper, and, in that case, the paper must be 10-15 pages long for one credit, 20-30 pages long for two credits, and 35-50 pages long for three credits. Credit Level: P. Credit Hrs: 1.00

24LITG902**Individual Research Project**

Under the direct supervision of a member of the faculty, upper level students engage in original research and prepare for credit a substantial work product. The research project is selected jointly by the student and the faculty member. Customarily the final product will be a research paper, and, in that case, the paper must be 10-15 pages long for one credit, 20-30 pages long for two credits, and 35-50 pages long for three credits. Credit Level: P. Credit Hrs: 2.00

24LITG903**Individual Research Project**

Under the direct supervision of a member of the faculty, upper level students engage in original research and prepare for credit a substantial work product. The research project is selected jointly by the student and the faculty member. Customarily the final product will be a research paper, and, in that case, the paper must be 10-15 pages long for one credit, 20-30 pages long for two credits, and 35-50 pages long for three credits. Credit Level: P. Credit Hrs: 3.00

Property**24PROP501****Property**

This course surveys the varieties of property interests and relations available in Anglo-American law, with an emphasis on tracing their development and evolution in modern American society. Discussion usually covers adverse possession, the traditional estates in land, future interests, landlord-tenant law, concurrent ownership, land use regulation and eminent domain, nuisance, and easements and other servitudes. Credit Level: P. Credit Hrs: 4.00-6.00

24PROP701**Advanced Problems in Environmental Law**

The course will focus on problem solving and application of environmental statutes and regulations to situations practitioners face daily. Risk assessments and environmental auditing will be examined as tools to aid the practicing lawyer. Negotiation strategies for real estate transactions and remedial programs will also be explored. This will be a hands-on, "you make the tough call" course. Prereq: 24PROP705. Credit Level: P. Credit Hrs: 2.00-4.50

24PROP702**Computer Law**

This course tackles the legal issues surrounding computer technology, including the protectability of computer software; the misappropriation of computer technology; software licenses, support, distribution, and development agreements; ownership of online "content;" privacy in a computer age; and liability for tortious acts and computer crimes. Credit Level: P. Credit Hrs: 2.00-4.50

24PROP703**Copyright Law**

This course examines copyright law in detail, with particular focus on the Copyright Law of 1976, its history, and its ability to respond to recent developments in technology. Copyright Law offers protection for

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Property**24PROP703****Copyright Law**

works considered to be within the "fine arts" (music, paintings, photographs, sculpture) and "literature" (books, stories plays) as well as more mundane works, including commercial, i.e., applied art and even data directories. Copyright also covers architectural works reliant on technology, such as computer software. Students will gain an understanding of how that law might apply to emerging technologies. Credit Level: P. Credit Hrs: 3.00-4.50

24PROP705**Environmental Law I**

Surveys the government's role in environmental protection, including the scope and nature of governmental control. Topics covered include pollution control, toxic substances and hazardous waste, as well as conservation measures. Credit Level: P. Credit Hrs: 2.00-4.50

24PROP706**Environmental Law II**

This course will focus on issues related to climate change. If there is time, the professor may address additional environmental topics. Students may write a paper on a wide range of environmental topics, not just those related to climate change. Credit Level: P. Credit Hrs: 2.00-4.50

24PROP707**Environmental Litigation**

This course focuses on how the United States Environmental Protection Agency (EPA) and state environmental agencies use administrative actions, civil penalties, criminal penalties, and injunctions to enforce environmental statutes. In addition, students will learn when citizen suits can substitute for agency litigation. Environmental Law I or II recommended but not required. Credit Level: P. Credit Hrs: 2.00-4.50

24PROP708**Estate Planning**

This course explores tax, non-tax and Medicaid aspects of planning for the transfer of family wealth. The primary tax planning focus of the course is developed through study of the use of various techniques, including transfers between spouses, lifetime gifts (particularly gifts to children), charitable gifts, intra-family transfers and life insurance. Non-tax issues considered include the role, duties and ethical obligations of the attorney, as well as the use of durable powers of attorney and living wills. Medicaid issues considered include the desirability of planning to ensure that the Government, rather than the family, is financially responsible for a parent or grandparent's nursing home care, as well as specific planning techniques to achieve this result. Prereq.: Federal Income Tax. Recommend Wills and Gift and Estate Tax be taken first. May take concurrently. Credit Level: P. Credit Hrs: 2.00-4.50

24PROP709**Estate & Gift Tax**

This course examines the three federal taxes imposed on the transfer of family wealth: the Gift Tax, Estate Tax and Generation-Skipping Tax. Credit Level: P. Credit Hrs: 2.00-4.00

24PROP710**Government Regulation Directed Reading**

Government Regulation examines the instances of and reasons for government intervention in private markets. The first part of the course studies the legal, policy, and political dimensions of government intervention. The second and third parts will explore economic and social regulation, respectively. The course will examine such regulatory areas as energy, workplace safety, food and drug, telecommunications, education, and welfare. Credit Level: P. Credit Hrs: 3.00-4.50

24PROP711**Introduction to Intellectual Property**

This course provides an introduction to the field of Intellectual Property Law and thus serves as a step into this broad and increasingly important field. The course will also serve an overview function for students who have taken or will take other intellectual property courses by exploring the ways in which the various federal intellectual property

Property**24PROP711****Introduction to Intellectual Property**

disciplines fit with each other and with related forms of state law protection. In particular, the course will cover copyright law, moral rights, trademark law (including closely related trade dress and product simulation matters), unfair competition, idea protection, false advertising, trade secret law and rights of publicity. Coverage of patent law is brief. The course will conclude with a discussion of the simultaneous application of differing but overlapping forms of intellectual protection to several specific types of creative product. Credit Level: P. Credit Hrs: 3.00

24PROP713**Patent Law**

This course examines the federal statutory system of protection for useful, novel, and non-obvious inventions and those developments that enrich the technological arts. Topics also include the protection of trade secrets, as well as the impact of those trade secrets upon the employment relationship. Students with a science background will find it very helpful to them in this course and this field. Credit Level: P. Credit Hrs: 2.00-4.00

24PROP714**Patent Office Practice and Procedure**

This course provides students with "hands-on" experience in conducting patent practice before the United States Patent and Trademark Office. Topics include patent searches; patentability opinions; patent drafting; filing; responding to correspondence from the Patent Examiner; and conducting litigation before the Board of Patent Appeals and Interferences and the Federal Circuit Court of Appeals. Credit Level: P. Credit Hrs: 3.00-4.50

24PROP715**Real Estate Transactions**

Covers the legal problems involved in the transfer of both commercial and residential real property: the real estate broker, the contract of sale and an extensive consideration of the various methods of title assurance. The course concludes with an introduction to mortgages. Credit Level: P. Credit Hrs: 2.00-3.00

24PROP716**Trademark and Unfair Competition**

This course examines the law governing trademarks and other means of identifying products and services in the minds of consumers. Instruction primarily will focus on the federal statute governing trademarks and unfair competition, the Lanham Trademark Act of 1946, but students will learn about state laws and state law doctrines in the field as well. Topics include the protectability of marks, including words, symbols, and "trade dress;" federal registration of marks; causes of action for infringement, dilution, and "cybersquatting;" and defenses, including parodies protected by the First Amendment. Credit Level: P. Credit Hrs: 2.00-3.00

24PROP717**Wills, Trusts and Future Interests**

This course covers the variety of ways in which people can arrange for the passage of their property during life or at their death. We study common law and statutory methods of dealing with property left by a decedent who did or did not leave a will; the procedures and problems of creating, construing, contesting, or revoking wills and trusts; the concerns for providing for surviving spouses and other family members; the kinds of trusts available; fiduciary duties in the administration of estates and trusts; some of the methods for avoiding the probate of estates; and the details for the law of future interests (including the Rule against Perpetuities). Related tax questions may be discussed, but they are not emphasized. Credit Level: P. Credit Hrs: 4.00-6.00

24PROP718**Advertising Law Seminar**

This seminar will explore copyright, trademark, and other intellectual property issues surrounding the creative world of advertising. Topics will include logos; products and their packaging; the use of images in

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Property

24PROP718

Advertising Law Seminar

advertising; celebrity sponsorship; false advertising, comparative advertising and the "pain reliever wars;" contests and lotteries; metatags, banner advertisements, and other creatures of the Internet; and government regulation of "unfair" trade practices. To fulfill the seminar requirement, students will be asked to research and write an opinion letter to a mock client analyzing and evaluating its mock advertising portfolio--much like attorneys are asked to do in practice. A limited number of students may be given permission to substitute a research paper relating to the topics discussed, but only upon consulting with and receiving permission from the instructor. Prereq.: Introduction to Intellectual Property or Trademark and Unfair Competition. Credit Level: P. Credit Hrs: 2.00-3.00

24PROP720

Patent Litigation & Strategy

This is a perspective course focusing on the unique procedural, substantive and strategic aspects of patent litigation. Specific topics include claim interpretation, the interrelationship between written descriptions and claims, proof of infringement, special issues in attorney/client privilege and waiver, discovery of confidential information, validity issues, patent remedies and defenses. Students will have the opportunity to prepare written pleadings and to orally argue claim interpretations and infringement positions in simulated hearings and/or motions. Performance on these projects will form the basis for student assessment. The course will benefit students seeking to acquire broad-based litigation skills as well as those with specific interest in patent law. Credit Level: P. Credit Hrs: 2.00-4.00

24PROP721

Law and the Internet

The internet is a new medium but does it require new law? This course will explore the intersection of the new internet technology with traditional legal principles of due process, jurisdiction and choice of law; trademarks, copyrights and other intellectual property; content regulation; service provider liability; privacy and First Amendment; torts and crimes, contracting; governance and other issues. Students not only will examine the extent to which legal issues presented by the internet fit within a conventional legal framework but they will be encouraged to re-examine the relevance of traditional legal approaches to 21st century life and legal practice. Credit Level: P. Credit Hrs: 2.00-4.00

24PROP723

Licensing Intellectual Property

Transactions to convey intellectual property (IP), which includes patents, trademarks, trade secrets, and copyrights, are a crucial part of business and technology law. Details of simple licenses will be taught in general as well as with reference to issues unique to the specific type of IP involved. Aspects of more complex licenses, due diligence to assess licensing opportunities, IP audits, and resolution of licensing disputes will also be described. Introduction to Intellectual Property required; Business Associations I recommended. Credit Level: P. Credit Hrs: 3.00-4.00

24PROP880

Trademark Practice and Procedure

This course provides students with "hands on" experience in conducting trademark practice before the United States Patent and Trademark Office. Topics include trademark searches; trademark "clearance" opinions; filing; responding to correspondence from the Trademark Examining Attorney; and conducting litigation before the Trademark Trial and Appeal Board and the Federal Circuit Court of Appeals. Credit Level: P. Credit Hrs: 2.00-4.00

Perspective

24PRSP501

Introduction to Law

Prepares students with common grounding in basic legal concepts, historical context, the language of law and legal reasoning. Introduces

Perspective

24PRSP501

Introduction to Law

the student to the idea of law as a particular institution of government. Credit Level: P. Credit Hrs: 1.00-1.50

24PRSP502

Criminal Law

This course deals with substantive criminal law, although its focus is on the various principles that apply to all crimes rather than on the elements of specific crimes. Homicidal crimes are given separate attention, however. The various defenses, including insanity, are reviewed. Credit Level: P. Credit Hrs: 3.00-4.50

24PRSP702

English Legal History

Survey of English legal history from the Norman Conquest to the Glorious Revolution. The course is intended to provide students with a historical background to and perspective on their present study and future practice of Anglo-American law. Credit Level: P. Credit Hrs: 2.00-4.50

24PRSP704

Jurisprudence

This course studies recurring issues and debates in the philosophy of law, including those among positivism and natural law theory, legal realism, utilitarianism, critical legal studies, and policy-oriented jurisprudence. Often, the class then studies one or more of these theoretical debates in a practical context (perhaps involving the development of a legal doctrine, or in a controversial case or set of cases). The readings for the course typically include selections from contemporary (H.L.A.Hart, Lon Fuller, Ronald Dworkin, John Rawls) and historically important (Plato, Immanuel Kant, John Stuart Mill) philosophers of law. Credit Level: P. Credit Hrs: 2.00-4.50

24PRSP705

Law and Literature

This seminar explores differences and similarities between the languages of the law and the languages of literature, between legal thinking and literary thinking, between the ways in which literary works construct worlds and the ways in which the law constructs worlds. Credit Level: P. Credit Hrs: 3.00

24PRSP706

Law and Economics

Introduction to the economic analysis of law. Topics to be covered include the Coase Theorem, efficiency and equity in the choice of legal rules, economic analysis of property law, and the efficiency of common law. Credit Level: P. Credit Hrs: 3.00-4.50

24PRSP707

The Legal Imagination

This course investigates the resources that the law has for expressing and coming to terms with human experience. We read selections from literature, philosophy, history, and other disciplines, all of which speak about general matters of human experience (e.g., life and death, friendship, racism, school rules, making a decision), and then we compare these with selections on the same topics taken from law. What does the law allow us to say and think, and what does it force us to omit or ignore? In this way, we explore the powers and the limits of legal language and its characteristic forms of expression (e.g., the judicial opinion, the statute, the rule). Credit Level: P. Credit Hrs: 2.00-3.00

24PRSP710

Advanced Problems in Constitutional Law: Constitutional Interpretation

An exploration of various advanced topics in Constitutional law. Credit Level: P. Credit Hrs: 3.00-4.50

24PRSP711

Law and Popular Culture

This course will study law-related films within basic traditional legal training, using film and film theory as tools to gain access to other aspects of the law. There is a distinction between research in law and

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Perspective**24PRSP711****Law and Popular Culture**

research about the law. Film can tell us much about the law. Traditional disciplines do not always provide the director encounter with concrete experiences of daily living that literature and film can achieve. Credit Level: P. Credit Hrs: 2.00-3.00

24PRSP713**Law, Literature and Feminism**

This seminar explores differences and similarities between the language of the law and the languages of literature, between legal thinking and literary thinking, between the ways in which literary works construct worlds and the ways in which the law constructs worlds. Credit Level: P. Credit Hrs: 2.00-3.00

24PRSP714**Interaction of Medicine and Law**

The aim of the Interaction of Medicine and the Law course is to give law students a practical introduction to the basic medical terminology, the role that medicine plays in a variety of legal circumstances, and confront problems that arise when the medical and legal professions come together. The focus of this course will be more on the application of law as it appears in every day practice than on the textual intricacies which found the legal system itself. Credit Level: P. Credit Hrs: 2.00-3.00

24PRSP715**Second Year Lawyering: Ethics and Skills of Practice**

In this course, students will consider the lawyer-client relationship in the context of realistic scenarios, evaluating the complex choices an ethical lawyer must make and demonstrating the basic skills a lawyer must master to establish an effective lawyer-client relationship. Following an examination of the ABA Model Rules and/or the Code of Professional Responsibility, students will consider the ethical components of the lawyer client relationship, with an emphasis on competency, confidentiality, and conflicts of interest. Students will also gain skills in client interviewing, counseling, decision-making and will prepare several documents, including an engagement letter and fee agreement, a letter declining representation, and a marketing piece. Credit Level: P. Credit Hrs: 2.00-4.00

24PRSP716**Second Year Lawyering: Second Semester**

This is a continuation of Fall Semester Credit Level: P. Credit Hrs: 2.00

Specialty**24SPCL703****Disability Law**

Although major federal laws on disability discrimination existed before 1990, it was not until the Americans with Disabilities Act (ADA) was passed that there was a comprehensive statute applying to virtually all aspects of an individual's life experience. The primary goal of this course is to introduce students to the major federal substantive law relating to rights of individuals with disabilities, primarily relating to nondiscrimination. Another important goal of the course will be to focus on the underlying philosophy of disability rights law. Credit Level: P. Credit Hrs: 2.00-4.50

24SPCL704**Entertainment Law**

This course examines issues relating to the entertainment industry, in which practical considerations often are more important than the dictates of intellectual property law. In addition to studying problems specific to film, television, theater, music, and literary publishing, students will discuss the roles of managers and agents and the rights of entertainers throughout the entertainment industry. Credit Level: P. Credit Hrs: 2.00-4.00

24SPCL705**Health Care Law**

This class explores the financing and regulation of health care, bioethics, the various structures of health care organizations, the

Specialty**24SPCL705****Health Care Law**

physician-patient relationship, professional liability of health care providers, and tort reform for medical injuries. Credit Level: P. Credit Hrs: 2.00-4.50

24SPCL706**Law and Psychiatry**

Considers the structure of the mental health profession by addressing duties owed by practitioners and researchers to patients or clients, such as the obligation to preserve the confidences and privacy of the client. The seminar will also consider issues related to mentally ill or incapacitated individuals and the institutional systems and processes designed to deal with such persons. Credit Level: P. Credit Hrs: 3.00-4.50

24SPCL707**Research Seminar**

Students in this advanced research seminar will explore in depth topics as determined by the faculty member. Each student will write and present an independent research paper on a topic approved in advance. Credit Level: P. Credit Hrs: 2.00-4.50

24SPCL708**Mental Health Law I: Civil Commitment**

In this class, formerly titled "Public Sector Mental Health Law," we will focus on the legal aspects of publicly-financed mental health care and the traditional and current governmental responses to mental disability. These issues stem largely from the movement known as deinstitutionalization, or the widespread release of persons with mental disabilities into community settings. The seminar begins with an historical overview of deinstitutionalization and the role of the law in that movement. After briefly examining the current public sector mental health system, using Ohio's system as an example, we will consider a variety of civil commitment laws and the legal issues related to those laws. We will also study the impact of American with Disabilities Act (ADA) on persons with mental disabilities, access to community-based mental health services, patient rights, and criminal law diversion alternatives. Credit Level: P. Credit Hrs: 2.00-3.00

24SPCL709**Mental Health Law Extern Field Placement**

Mental Health Law Extern Field Placement Students enrolled in the Mental Health Law Externship Program work with various courts, government and community agencies, and advocacy groups involved with some aspect of mental health law in Ohio. Simultaneous or subsequent enrollment in the Mental Health Law Seminar is required to receive credit for the externship. Students may not enroll concurrently in the Judicial, Legal, Mental Health Law, or Street Law Extern Programs. Credit Level: P. Credit Hrs: 2.00

24SPCL710**Mental Health Law II: Medical Malpractice**

This course will focus on the private sector health care issues that arise frequently in mental disability law. Issues to be covered include: medical and psychiatric malpractice and professional liability, licensing and regulation of health professions, confidentiality, duties to warn and other duties to third parties, guardianship and conservatorship, third-party payer issues, including the growing influence of HMOs and managed care regimes, insurance industry regulation, including parity laws, and health care advanced directives. Although emphasis will be placed on the applicability of these issues in the mental disability law arena, the course will also be appropriate for students interested in health law generally. Credit Level: P. Credit Hrs: 2.00-4.00

24SPCL711**Introduction to Sports Law**

This course is designed to introduce students to the substantive and practical aspects of sports law. Students will be exposed to a review of current and selected past case law, a review and interpretation of federal and state legislation, as well as an interpretation of NCAA Bylaws and Constitutional provisions. Credit Level: P. Credit Hrs: 2.00-

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Specialty**24SPCL711****Introduction to Sports Law**

3.00

24SPCL712**Feminist Jurisprudence: The Work Family Axis**

While the predominant focus in feminist jurisprudence in recent times has been on sex and violence this course shifts the focus to the design of market and family work and the entitlements that flow from it. This course will examine family law employment discrimination law, and feminist theory in the context of rethinking how we as a society structure the relationship of paid work to work in the family. Credit Level: P. Credit Hrs: 3.00

24SPCL713**Health Issues Facing Vulnerable Populations**

This class examines a variety of medical issues and their impact on "vulnerable populations," including minorities, women, children, prisoners, individuals with contagious diseases, and the mentally disabled. Some of the topics that will be addressed concern genetic testing, access to advanced medical technologies, confidentiality issues, human experimentation, and sex selection and cloning. Credit Level: P. Credit Hrs: 3.00

24SPCL714**Media Law: Issues and Problems**

This seminar will explore current issues in the law as it relates to media. Students will examine such topics as libel, discovery or editorial materials and privileges, privacy and news- gathering torts, and access to information, including issues arising under the Freedom of Information Act. Throughout the course, hypothetical "problems" will be used to illustrate the points being discussed. Credit Level: P. Credit Hrs: 2.00

24SPCL715**JD/WS Extern**

Special permission required. Credit Level: P. Credit Hrs: 1.00-6.00

24SPCL716**JD/WS Tutorial Component**

Special permission of both the College of Law and the McMicken College of Arts & Sciences-Women's Studies Graduate program are required for this course. Credit Level: P. Credit Hrs: 1.00-3.00

24SPCL717**JD/WS Conference Presentation**

Special permission required. Credit Level: P. Credit Hrs: 1.00

24SPCL718**Advanced Health Care Practice**

This course will develop knowledge and skills for effective legal practice in a dramatic health care case, arising from high numbers of newborn deaths following heart surgery performed by a surgical team in a large hospital. Faculty will lecture and lead discussion on legal issues and process strategies. The course will end with presentations by health law attorneys on practice experience representing physicians and hospitals. This course will 'cover' the following topics in health law: the structure of the health care enterprise, health care licensing and quality control, staff privileges and hospital-physician contracts, informed consent, direct institutional liability, corporate negligence, complex causation and expert testimony, and vicarious liability. Credit Level: P. Credit Hrs: 2.00-4.50

24SPCL719**Animal Law**

This course addresses legal and philosophical materials relevant to understanding the legal status of animals. The focus is on the status of animals as property, the doctrine of standing, and the nature of legal rights as applied to nonhuman animals. The course incorporates developing tort law concepts, criminal law, and constitutional law, and considers the evolution of the law's understanding and treatment of animals by examining federal and state statutes and policies. Credit

Specialty**24SPCL719****Animal Law**

Level: P. Credit Hrs: 2.00-3.00

24SPCL720**National Security Law**

This course will introduce students to National Security Law. Areas of coverage include: the international law of conflict management, American security doctrine and deterrence, security aspects of sea and space law, the national institutional framework, individual rights and responsibilities, and other national legal issues. The Foreign Intelligence Surveillance Act (FISA) and the Classified Information Procedures Act (CIPA) will be considered. Credit Level: P. Credit Hrs: 2.00-4.00

24SPCL721**Health Care Finance**

This course examines the transactional aspects of health care law. The course first considers how health care services are reimbursed by providing students with an understanding of the complex interaction of private insurance, the federal Medicare program, and the state/federal Medicaid program. The course also provides an analysis of the regulatory schemes regulating the business relationships between health care providers, including fraud and abuse law, Stark II, HIPAA and Antitrust laws. In addition, the course provides an overview of the rapidly evolving organizational forms through which health care is delivered, such as integrated delivery systems, physician practice management companies and joint ventures. All issues will be reviewed from a transactional lawyer's perspective and case studies will be used to arrive at practical legal solutions. Credit Level: P. Credit Hrs: 2.00-4.00

24SPCL722**Advanced Topics in Mental Health**

This course is designed to meet needs of students who have taken other law-medicine classes and wish to study criminal law topics in greater depth, and students who have not taken other law-medicine classes, but whose anticipated career paths may include criminal defense work or becoming assistant prosecutors. The primary instructors for this class are experienced forensic psychiatrists; they will supplement their presentations and class discussions with presentations by other mental health clinicians with extensive experience in performing mental evaluations for courts. Course topics include waiving 'Miranda' rights, false confessions, trial competence, 'pro se' defendants, mental state defense, sex offenders, violence, capital punishment, juvenile delinquency, and malingerers. Credit Level: P. Credit Hrs: 2.00-3.00

24SPCL723**Topics in Law: Advanced Civil Procedure**

Topics in Law: topics will vary depending on interests and faculty availability. Credit Level: P. Credit Hrs: 1.00-4.00

Tax**24TAX702****Business Planning**

Please see the College of Law website for description. Credit Level: P. Credit Hrs: 2.00-4.50

24TAX703**Corporate Tax I**

This course involves the study of the U.S. income taxation of corporations and shareholders, particularly the language of Subchapter C and other selected sections of the Internal Revenue Code. Prereq.: Federal Income Taxation (may be waived by instructor). Credit Level: P. Credit Hrs: 3.00-4.50

24TAX704**Corporate Tax II**

Advanced Corporate Tax continues the study of U.S. income taxation of corporations and shareholders. It includes intensive coverage of corporate reorganizations and various other advanced corporate tax

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Tax**24TAX704****Corporate Tax II**

topics. Credit Level: P. Credit Hrs: 3.00-4.50

24TAX705**Federal Income Taxation**

This course is structured around the two dominant themes of the taxation of individuals under the Internal Revenue Code: what is income, and what is deductible; and when must the taxpayer recognize income, and when can the taxpayer deduct a particular expense. Also examines miscellaneous topics such as capital gains and losses, identifying the proper taxpayer, etc. Credit Level: P. Credit Hrs: 3.00-6.00

24TAX706**Partnership Tax**

After examining classification of entities as partnerships (as opposed to corporations or other forms of business organization), this course studies tax issues arising during the life-cycle of a partnership -- formation, operation, sales and exchanges of partnership interests, operating distributions, and liquidating distributions. Credit Level: P. Credit Hrs: 3.00-4.50

24TAX707**Tax Policy**

This course critically examines our method of taxing income: criteria for a sound tax policy; tax system versus tax on income; use or acceptance of certain deductions, credits and exclusions. Students examine and evaluate proposals for tax reform. Credit Level: P. Credit Hrs: 2.00-3.00

24TAX708**Tax Procedure**

This course prepares individuals for resolving federal tax problems administratively within the I.R.S. as well as within the court system. It examines I.R.S. organization; rulings, private and public, technical advise memorandums and determination letters; audits; appellate protests; criminal and civil litigation, with special emphasis on the US Tax Court. Credit Level: P. Credit Hrs: 2.00-3.00

24TAX709**Contemporary Issues in Business Regulation**

This seminar examines contemporary issues that are prevalent in the regulation of business organizations and activities. The class will engage in detailed discussions on topics listed in the syllabus. With the exception of the first few class meetings, students will volunteer to act as the lead discussant on his/her chosen topic. The student is required to prepare an outline prior to the class. In addition, two students will be assigned to comment on the discussion and outline of the lead student. The other students are also encouraged to comment and make suggestions. Prerequisite: Corporations I and/or an undergraduate degree in business, economics, or finance. Substantial working experience in the business world is a good substitute for the above course/degree requirements, but enrollment must be approved in advance. Credit Level: P. Credit Hrs: 2.00-4.00

24TAX877**Advanced Federal Income Taxation**

The course will concentrate on income taxation of trusts and estates, Subchapter J. Emphasis will be on design of trusts to save taxes. If time permits, other income tax planning ideas will be covered, such as income tax planning with S corporations and their use in estate freezes. Credit Level: P. Credit Hrs: 2.00

COLLEGE OF MEDICINE

COURSE DESCRIPTIONS

(26) College of Medicine

2008 - 2009

College of Medicine 1

Biostatistics and Epidemiology

26BE761

Special Topics -- Biostatistics in Research

Seminars or tutorial sessions dealing with special topics in biostatistics related to research and application basic to field of environmental health. Credit Level: G. Credit Hrs: 1.00-15.00

26BE762

Applied Longitudinal Data Analysis

The methodology of general linear mixed models (GL MM) using SAS is presented in detail. Example data sets are analyzed using PROC MIXED. Course content includes applied aspects of model building using RANDOM & REPEATED statements, comparisons of covariance structures for analyzing. Credit Level: G. Credit Hrs: 3.00

26BE763

Special Topics - Pediatric Environmental Health

See 26BE761. Credit Level: G. Credit Hrs: 1.00-15.00

26BE764

Statistical Genetics I: Principles and Methods

First of 2 part course. Students should be able to learn the basic principle of statistical inference in relation to the biological features of genetic data and relevant distributional properties of such data. Part 2 26BE765 Credit Level: G. Credit Hrs: 3.00

26BE765

Statistical Genetics II: Segregation and Linkage Analyses

Second of 2 part course. Students should be able to learn the principles of conducting quantitative analyses of data for determining the mode of inheritance and localization of genes underlying a familial trait. Part 1 26BE764 Credit Level: G. Credit Hrs: 3.00

26BE766

Principles of Clinical Trials

Scientific, regulatory, managerial, and dissemination aspects of clinical trials, including: types and quality of trial design, pros and cons of experimental vs management trials, randomization, rationale and implementation of masking strategies, sample size estimation and subject/clinical consent. Prereq: 26BE787. Credit Level: G. Credit Hrs: 3.00

26BE767

Scientific Integrity

Lecture series addressing ethical issues in research including of human experimentation, animal welfare, conflict of interest, and responsible authorship and publication practices. Course equivalent is 26 GNTD 730. Credit Level: G. Credit Hrs: 1.00

26BE768

Decision Analysis and Cost-effectiveness Analysis

Introduction to methods and applications of decision analysis, cost-effectiveness, and cost-benefit analysis in medical decision making. Bayes Theorem, diagnostic test, design assessment and economic analysis of health care programs. Credit Level: G. Credit Hrs: 3.00

26BE769

Special Topics - Epidemiology - Patient Specimen Methods

See 26BE766. Credit Level: G. Credit Hrs: 1.00-15.00

26BE770

Survey and Qualitative Methods for Health Research

Students learn concepts, methods, and practical procedures for locating, evaluating, and implementing health survey instruments to answer research questions. Other items of study are: questionnaire design and construction, intro to scale construction, methods for testing psychometric properties of instruments, and scaling methodologies. Credit Level: G. Credit Hrs: 2.00

Biostatistics and Epidemiology

26BE771

Introduction to Genome Science

Prereq: Molecular Biology. Will allow students exposed to general research areas in genome science, a study of the structure, content, and evolution of genomes. Core concepts and methodologies will be presented. Credit Level: G. Credit Hrs: 3.00

26BE776

Introduction to Epidemiology

Methodology for studies of disease in human populations. Examples include chronic disease, infectious disease, occupational and environmental epidemiology. Sources, collection, handling, interpretation of health data. Credit Level: G. Credit Hrs: 3.00

26BE777

Non Linear Statistical Analysis

Methods will be discussed for performing analysis of variance on data which include missing values. The technique will include quick approximate methods, exact methods and reliable computer programs. Credit Level: G. Credit Hrs: 3.00

26BE778

Introduction to SAS Programming

This course includes the use of SAS and other statistical packages as well as instruction in data management for epidemiologists and biostatisticians. Credit Level: G. Credit Hrs: 2.00

26BE779

Human Genome Diversity

Prereq: Basic Human/Pop. Genetics. Students should be able to understand the concept of interindividual variation at the genome level & how this relates to studies on evolution of modern human, global migration of human populations, and to natural history of disease causing mutations. Credit Level: G. Credit Hrs: 3.00

26BE784

Seminar of the Epidemiology of Infectious Diseases

Epidemiologic, serologic and public health aspects of modern infectious diseases, their transmission and methods of control. Credit Level: G. Credit Hrs: 2.00

26BE787

Introduction to Biostatistics

Descriptive statistics, probability distributions, estimation, types of error, significance level, test of hypotheses, sample size, correlation, linear regression, non-parametric methods. Emphasizes practical-applied aspects. Credit Level: G. Credit Hrs: 4.00

26BE788

Regression Analysis

Linear regression, least squares, elementary matrix operation, multiple regression models, correlation analysis, and introductory analysis of variance. Prereq: 26BE787. Credit Level: G. Credit Hrs: 4.00

26BE789

Experimental Design

Study of the applications of randomized block, Latin square, and factorial designs for scientific experimentation including confounding, fractional factorial. Fixed, random, mixed designs. Prereq: 26BE787. Credit Level: G. Credit Hrs: 4.00

26BE790

Computational Functional Genomics

Introduce students to mathematical & statistical models & concepts underlying current approaches to computational analysis of functional genomics & proteomics data. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Biostatistics and Epidemiology**26BE793****Statistics of Bioassay**

Study of the statistical methods of parallel line, slope ratio, probit, logit and other bioassay techniques. Quantitative and quantal bioassays.

Credit Level: G. Credit Hrs: 3.00

26BE794**Survey Sampling**

Study of the applications of simple random, stratified, cluster, systematic, multistage, ratio, regression sampling techniques; minimization of costs. Credit Level: G. Credit Hrs: 3.00

26BE795**Nonparametric Statistics**

Study of estimation and hypothesis testing with minimal assumptions. Includes the study of rank tests and other distribution-free statistics.

Credit Level: G. Credit Hrs: 3.00

26BE796**Introduction to Statistics**

Descriptive statistics, probability, estimation, statistical errors, parametric and nonparametric hypothesis testing, statistical fallacies. Emphasizes applied-practical aspects. Less material covered than in 787. Credit Level: G. Credit Hrs: 4.00

26BE797**Categorical Data Analysis & Logistic Regression Analysis**

Statistical methods for analyzing discrete categorical and qualitative data are presented including Chi-square, Mantel Haenszel, McNemar's test, PMR, SMR. Credit Level: G. Credit Hrs: 3.00

26BE798**Survival Analysis**

Nonparametric and parametric methods of estimating and comparing survival functions for mortality studies including Kaplan-Meier, Weibull, exponential model, Cox regression. Credit Level: G. Credit Hrs: 3.00

26BE799**Applied Multivariate Analysis**

Extension of univariate tests in normal populations to the multivariate case with a review of matrix algebra, Hotellings T, Wilks Lambda, Discriminant analysis. Credit Level: G. Credit Hrs: 3.00

26BE804**Biostatistical and Epidemiological Consultation**

Biostatistical and Epidemiological Consultation preceptorship (offers one-on-one consultation to other University personnel). Credit Level: G. Credit Hrs: 1.00-3.00

26BE805**Biostatistical and Epidemiological Consultation**

See 26BE804. Credit Level: G. Credit Hrs: 1.00-3.00

26BE806**Biostatistical and Epidemiological Consultation**

See 26BE804. Credit Level: G. Credit Hrs: 1.00-3.00

26BE810**Laboratory Technologies in Genome Research**

Advanced course for the students who are interested in the common & novel laboratory technologies that are currently used in genomics research. Principle of the technologies & their major applications will be presented along with examples of research projects where those technologies were employed. Credit Level: G. Credit Hrs: 3.00

26BE828**Epidemiology and Biostatistics Division Seminar**

Seminars presented by the faculty and students presenting subjects of interest in epidemiology and biostatistics. Current research by speaker as well as review of the literature. Credit Level: G. Credit Hrs: 1.00

26BE829**Epidemiology and Biostatistics Division Seminar**

See 26BE828. Credit Level: G. Credit Hrs: 1.00

Biostatistics and Epidemiology**26BE830****Epidemiology and Biostatistics Division Seminar**

See 26BE828. Credit Level: G. Credit Hrs: 1.00

26BE842**Neuroepidemiology**

Neuroepidemiology is the investigation of the distribution and dynamics of neurologic disease in free ranging human populations. This course explores the scope and methods of neuroepidemiology. Prereq:

26BE776. Credit Level: G. Credit Hrs: 3.00

26BE861**Teaching Practicum in Biostatistics/Epidemiology Environmental Medicine**

Teaching practicum in epidemiology and/or biostatistics. Practice of assisting and teaching in environmental courses by special arrangement with faculty member who will provide supervision. www.eh.uc.edu Credit Level: G. Credit Hrs: 1.00-3.00

26BE862**Introduction to Medical Informatics**

Introduction to the field of health informatics and its relation to patient care and clinical research. Topics include: field overview, clinical informatics, data standards, security and confidentiality, regional health information exchange, standards/terminologies, databases, internet/intranet and healthcare. Credit Level: G. Credit Hrs: 3.00

26BE863**Special Topics Biostatistics - Proteomics and Wavelets**

See 26BE761. Credit Level: G. Credit Hrs: 1.00-15.00

26BE864**Advanced Statistical Methods in Biomedical Research**

New methods of analyzing complex data constantly evolve and the purpose of this course is to expose these methods to graduate students. The methods are culled mostly from research journals and as such no textbook is prescribed for this course. Prereq: 26BE787. Credit Level: G. Credit Hrs: 3.00

26BE865**Special Topics Biostatistics - Spatial Data Analysis on R**

See 26BE761. Boosting and bagging are two of the most recent techniques available in the literature to enhance quality of prediction in data analysis. Credit Level: G. Credit Hrs: 1.00-15.00

26BE866**Molecular Epidemiology Laboratory**

Teaches students about molecular techniques used to assess DNA, RNA, & protein for markers of Expos ure & markers of disease state and susceptibility. Will rotate through a minimum of 5 labs and will learn basic research projects & basic techniques in host labs, critical to ongoing evaluations. Coreq: 26BE973. Credit Level: G. Credit Hrs: 1.00

26BE867**Health Services Research**

Research on effects of the organization, delivery, and financing of healthcare. Principles of health services research, including patterns of resource utilization, small area variation, medical errors, and measurement and improvement of quality of care will be emphasized. Credit Level: G. Credit Hrs: 3.00

26BE868**Genetics of Complex Diseases**

Introduction to complex disease and traits. Epidemiology and genetic basis of complex diseases. Credit Level: G. Credit Hrs: 3.00

26BE869**Study Design and Analysis**

Seminars or tutorial sessions dealing with special topics in epidemiology related to research and application basic to field of environmental health. Prereq: 26BE776, 26BE787. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Biostatistics and Epidemiology**26BE870****Global Environmental Epidemiology**

See 26BE766. Credit Level: G. Credit Hrs: 1.00-15.00

26BE871**Logistic Regression and Log Linear Models**

Analysis of discrete data using logistic and loglinear models including interpretation of coefficients and model-building strategies. Familiarity with SAS software through examples will be emphasized. Credit Level: G. Credit Hrs: 3.00

26BE874**Classic Topics in Epidemiology**

Study of historical works in epidemiology including Snow, Panum, Goldberger, and comparison with recent epidemiologic research. Credit Level: G. Credit Hrs: 2.00

26BE879**Epidemiology of Occupations**

Methodology and results of epidemiological studies of occupations including morbidity and mortality. Real examples and practical factors are considered. Prereq: 26BE776. Credit Level: G. Credit Hrs: 3.00

26BE884**Use of Statistical Procedures in Computer Package Programs**

The computer package programs SAS and BMDP contain an extensive array of statistical procedures, and a selection of the more useful and popular ones will be examined. The underlying theory, program statements, output, and application to real biomedical data sets will be discussed. Credit Level: G. Credit Hrs: 3.00

26BE887**Statistical Methods in Epidemiology**

Statistical methods for occupational and environmental health studies are reviewed, including case-control, cohort logistic regression, log-linear, matching. Credit Level: G. Credit Hrs: 3.00

26BE892**Pharmacoepidemiology**

Discussions with review of epidemiologic studies around a theme, e.g., environmental- or reproductive- or AIDS-related epidemiology for students who have completed the introductory course. Prereq: 26BE776. Credit Level: G. Credit Hrs: 2.00

26BE893**Advanced Epidemiology - Appraisal of Epidemiological Studies and Clinical Trials**

Sophisticated epidemiologic seminar review along a theme, e.g., the epidemiologic basis of standard; setting for students who have completed at least two other courses in epidemiology. Credit Level: G. Credit Hrs: 2.00-4.00

26BE894**Structural Equation Modeling**

Path analysis, measurement error models; confirmatory factor analysis; general structural equation model with latent variables; alternative estimators and models for categorical data. Credit Level: G. Credit Hrs: 3.00

26BE897**Epidemiology of Cardiovascular Diseases**

An introduction to epidemiology of the major cardiovascular diseases with a focus on risk factors. Prereq: 26BE776. Credit Level: G. Credit Hrs: 3.00

26BE898**Epidemiology of Cancer**

A general overview of known associations of environmental and occupational factors with various types of cancer; includes discussion of types of studies that give rise to associations and causation. Each student selects either a particular etiology or cancer site for a report to the class. Credit Level: G. Credit Hrs: 3.00

Biostatistics and Epidemiology**26BE961****Meta Analysis**

History of Meta-Analysis, searching literature, computation of effect sizes, pooling sizes, summary of data meta-regression; individual patient data (IPD) meta-analysis. Credit Level: G. Credit Hrs: 3.00

26BE962**Special Topics Biostatistics - Graphics on R**

See 26BE761. Credit Level: G. Credit Hrs: 1.00-15.00

26BE963**Special Topics Biostatistics --Genome Wide Association Studies**

See 26BE761. Credit Level: G. Credit Hrs: 1.00-15.00

26BE964**Special Topics Biostatistics**

See 26BE761. Credit Level: G. Credit Hrs: 1.00-15.00

26BE965**Special Topics Biostatistics**

See 26BE761. Credit Level: G. Credit Hrs: 1.00-15.00

26BE966**Clinical Research Scholars Seminar**

Topics such as grant writing, research presentation, job negotiation, critique research and interaction among trainees from all tracks. Credit Level: G. Credit Hrs: 1.00

26BE967**Special Topics - Epidemiology - Disease Specific Translational Research**

See 26BE766. Credit Level: G. Credit Hrs: 1.00-15.00

26BE968**Dilemmas in Epidemiology**

See 26BE766. Credit Level: G. Credit Hrs: 1.00-15.00

26BE969**Special Topics in Molecular Epidemiology**

See 26BE766. Credit Level: G. Credit Hrs: 1.00-15.00

26BE970**Special Topics Epidemiology-Epidemiology of Cancer**

See 26BE766. Credit Level: G. Credit Hrs: 1.00-15.00

26BE973**Molecular Epidemiology - The Use of Biomarkers in Epidemiologic Research**

The course covers how biomarkers can be used in epidemiologic research; scientific, technical and ethical issues in the use of biomarkers and a range of applications for the use of biomarkers in the study of various diseases. Prereq: 26BE776. Credit Level: G. Credit Hrs: 3.00

26BE975**Design and Management of Field Studies in Epidemiology**

Opportunity to acquire knowledge and skills both in formulating a research problem, writing a research proposal or grant application, designing questionnaires, the art of presenting study findings, and evaluating research. Prereq: 26BE776. Credit Level: G. Credit Hrs: 4.00

26BE980**Quality Control Statistics**

Introduces the statistical methodology used in process quality control. Emphasis will be on data analysis techniques, graphical presentations, and interpretation. Credit Level: G. Credit Hrs: 3.00

26BE981**Statistics in the Pharmaceutical Industry**

Discusses controlled clinical trials in general and pharmaceutical industry research in particular. Also covers statistical methods used in the industry. Credit Level: G. Credit Hrs: 2.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Cell and Molecular Biology**26CB101****Gross Anatomy**

Study of the body walls, cavities, and lower limb, and head, neck, and upper limb of the human body in the dissecting room; supplemented by lectures. BoK: NS. Credit Level: U. Credit Hrs: 2.00-6.00

26CB841**Medical Histology and Cell Biology**

The normal microscopic structure of cells, tissues and organs with emphasis on structural-functional relationships. Credit Level: G. Credit Hrs: 4.00

26CB871**Human Gross Anatomy**

See 26CB101 for description. Perm of Instructor. Credit Level: G. Credit Hrs: 4.00-10.00

26CB880**Biology of Cancer**

Currently, a one quarter course that covers a broad spectrum of issues relating to the genesis and progression of cancer. Some topics that are covered include cell kinetics and cell cycle regulation in normal and cancerous cells, oncogenes and growth factors, tumor suppressors, the genetics of cancer, mutation and environmental exposure, signal transduction and the role of the immune system in cancer. Credit Level: G. Credit Hrs: 4.00

26CB881**Research**

Laboratory research in cellular or molecular biology, leading toward a doctoral dissertation. Credit Level: G. Credit Hrs: 1.00-20.00

26CB882**Research**

See 26CB881. Credit Level: G. Credit Hrs: 1.00-20.00

26CB883**Research**

See 26CB881. Credit Level: G. Credit Hrs: 1.00-20.00

26CB884**Research**

See 26CB881. Credit Level: G. Credit Hrs: 1.00-15.00

26CB915**Seminar**

Formal presentations of current research in cell and molecular biology will be given by speakers from both UC and other institutions. Credit Level: G. Credit Hrs: 1.00

26CB916**Seminar**

See 26CB915 for course description. Credit Level: G. Credit Hrs: 1.00

26CB917**Seminar**

See 26CB915 for course description. Credit Level: G. Credit Hrs: 1.00

26CB921**Seminar Redux**

This is a discussion course in which the research topic and format of presentation of the Cell Biology seminar for each week are analyzed in detail. Credit Level: G. Credit Hrs: 1.00

26CB922**Scientific Writing**

Principles and practice of scientific writing, including manuscripts and proposals. Perm of Instructor. Credit Level: G. Credit Hrs: 2.00

26CB923**Data Critique and Presentation I**

The main goals of this course are to teach students critical data analysis and interpretation skills through discussion of specific examples of the current biomedical literature. Students also receive

Cell and Molecular Biology**26CB923****Data Critique and Presentation I**

instruction in techniques for effective presentation of data to colleagues. Credit Level: G. Credit Hrs: 2.00

26CB924**Data Critique and Presentation II**

The main goals of this course are to teach students critical data analysis and interpretation skills through discussion of specific examples of the current biomedical literature. Students also receive instruction in techniques for effective presentation of data to colleagues. Prereq: 26CB923. Credit Level: G. Credit Hrs: 2.00

26CB925**Introduction to Grant Writing and Review**

The goal of this course is to introduce students to successful grant writing strategies. Students receive instruction in grantsmanship and participate in grant writing exercises. Completed grants are critically reviewed by instructors and students. Prereq: 26CB923, 26CB924. Credit Level: G. Credit Hrs: 2.00

26CB926**Data Critique and Presentation III**

The main goals of this course are to teach students critical data analysis and interpretation skills through discussion of specific examples of the current biomedical literature. Students also receive instruction in techniques for effective presentation of data to colleagues. Prereq: 26CB924, 26CB923. Credit Level: G. Credit Hrs: 2.00

26CB950**Special Topics in Cell Biology**

This course offers intensive instruction in specialized areas of cell biology including such topics as cell motility, cell-cell interactions, molecular endocrinology and intracellular trafficking. The content and format varies. Credit Level: G. Credit Hrs: 2.00-4.00

26CB952**Action of Cancer Therapeutics**

This course is designed for students interested in the mechanisms through which cancer therapeutics act and their implementation in clinical settings. The course is team-taught by basic researchers and participating clinical faculty. The course will provide an overview of a variety of therapeutic approaches utilized in the treatment of cancer, the molecular basis through which these therapeutics function, clinical relapse and new therapeutics under development. Credit Level: G. Credit Hrs: 2.00

26CB954**Advanced Cell Biology: Cell Growth and Differentiation**

This course is targeted to advanced students who want to attempt to define a stem cell and study the impact of extra-cellular signals on cell proliferation and differentiation. The level of this course is beyond that presented in Molecular Biology of the Cell II. The course will be held twice a week in a case study format and will be taught and moderated by faculty of the Cell and Molecular Biology Graduate Program. Course grades will be determined by the quality of class participation each week, the creativity and participation of each student as leader of case study presentations (each student is required to lead their case study group twice during the quarter), and a paper submitted by each student on one of the course topics. This course will be offered in alternating years with Advanced Cell Biology: Cell Communication Inside and Out. One of the Advanced Cell Biology courses is required for one quarter for students in the Cell and Molecular Biology Graduate Program. Credit Level: G. Credit Hrs: 2.00

26CB955**From Drug Target to Therapy**

This course provides an overview of the complex process of discovering a new therapeutic agent. Students will be given a basic understanding of the tools, techniques and approaches as exemplified in the discovery of several recent launches in the cancer field (primarily Gleevec, Iressa, Herceptin). We anticipate scheduling a few seminars from persons credited with discovering marketed therapeutics. Student evaluations

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Cell and Molecular Biology**26CB955****From Drug Target to Therapy**

will be based on a short paper, active participation and attendance.

Credit Level: G. Credit Hrs: 3.00

Developmental Biology**26DB900D****Developmental Biology Dissertation Research**

Students who have been approved for PhD candidacy are eligible for this special fee dissertation course. Full-time (12 credits) dissertation research effort is required, and a student registered for this course cannot register for any other courses in that quarter. Research in the lab of faculty member on a defined problem will be performed to teach lab techniques and approaches to research. Literature readings and discussion of research with staff and dissertation writing also are included. Offered each quarter, may be taken repeatedly. Credit Level: G. Credit Hrs: 12.00

26DB901**Developmental Biology Research Seminar**

Contemporary research papers presented by members of the staff and invited speakers. May be taken repeatedly. Credit Level: G. Credit Hrs: 1.00

26DB902**Developmental Biology Research Seminar**

See 26DB901. Credit Level: G. Credit Hrs: 1.00

26DB903**Developmental Biology Research Seminar**

See 26CB901. Credit Level: G. Credit Hrs: 1.00

26DB904**Journal Club**

Discussions of research papers in a particular field. May be taken repeatedly. Credit Level: G. Credit Hrs: 1.00

26DB905**Journal Club**

See 26CB904. Credit Level: G. Credit Hrs: 1.00

26DB906**Journal Club**

See 26CB904. Credit Level: G. Credit Hrs: 1.00

26DB973**Developmental Biology Laboratory Research**

Readings, discussions, research in lab of staff member on small defined problem: to familiarize student with research of staff; to teach lab technique and approach to research. Offered ea. qtr. May be taken repeatedly. Credit Level: G. Credit Hrs: 1.00-17.00

26DB985**Introduction to Developmental Biology**

Principles of development of cells, tissues and organisms will be illustrated through genetic and biologic approaches. Credit Level: G. Credit Hrs: 3.00

26DB986**Advanced Developmental Biology**

Principles of development of cells, tissues and organisms will be illustrated through genetic and cell biologic approaches. Credit Level: G. Credit Hrs: 4.00

26DB987**Development and Disease**

This course would explore the developmental basis of human disease processes. It is a natural consequence of recent insights into the molecular basis of normal and abnormal development. This course will cover topics not covered in our other Developmental Biology courses. Credit Level: G. Credit Hrs: 3.00

Environmental Health Sciences**26EHS745****Introduction to Environmental Health**

A general study of biological and medical principles and disciplines as they apply to the recognition and resolution of problems of environmental health. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

26EHS749**Quality Assurance and Quality Control in Environmental Toxicology and Chemistry**

The principles and strategies for a QA/QC program to provide credible data and to evaluate the accuracy, bias, and precision of environmental, toxicological, and biological monitoring data forming the basis for critical decisions on vital human health and environmental matters. Credit Level: G. Credit Hrs: 3.00

26EHS750**Public Policy and Environmental Health**

The community attitudes and political climates that impact on scientific information and determine public health policy. The Occupational Safety and Health Act and the Toxic Substances Act will be used as primary examples. Credit Level: G. Credit Hrs: 2.00

26EHS776**Special Topics -- Environmental Health**

Seminars or tutorial sessions dealing with special topics as related to research and application basic to the field of environmental health. Credit Level: G. Credit Hrs: 1.00-15.00

26EHS777**Special Topics Environmental Health**

See 26EHS776. Credit Level: G. Credit Hrs: 1.00-15.00

26EHS778**Special Topics Environmental Health**

See 26EHS776. Credit Level: G. Credit Hrs: 1.00-15.00

26EHS779**Special Topics - Environmental Health**

See 26EHS776. Credit Level: G. Credit Hrs: 1.00-15.00

26EHS780**Special Topics Environmental Health**

See 26EHS776. Credit Level: G. Credit Hrs: 1.00-15.00

26EHS785**Introductory Physiology**

Basic biological principles with lectures on structure and function in mammals. Credit Level: G. Credit Hrs: 3.00

26EHS876**Special Topics -- Environmental Health**

See 26EHS776. Credit Level: G. Credit Hrs: 1.00-15.00

Environmental and Industrial Hygiene**26EIH707****Principles of Occupational Exposure Assessment**

Lectures, demonstrations on problems arising from man's environment, industrial hygiene, air pollution fundamentals and practices. Credit Level: G. Credit Hrs: 3.00

26EIH725**Teaching Practicum in Environmental Health**

Practice of assisting and teaching in environmental courses by special arrangement with faculty member who will provide supervision. Credit Level: G. Credit Hrs: 1.00-3.00

26EIH726**Teaching Practicum in Environmental Health**

See 26ENV725. Credit Level: G. Credit Hrs: 1.00-3.00

26EIH727**Teaching Practicum in Environmental Health**

See 26ENV725. Credit Level: G. Credit Hrs: 1.00-3.00

26EIH741**Practice in Occupational Exposure Assessment I**

Calibration of sampling equipment, collection and analysis of pollutant gases, vapors, and particles. Quality assurance/control. Control of exposures through use of respirators. Lec., lab. Credit Level: G. Credit Hrs: 3.00

26EIH742**Practice in Occupational Exposure Assessment II**

Assessment of human exposure to chemical and physical occupational hazards: bioaerosols, heat stress, noise, chemicals. Exposure control through ventilation. Lec., lab. Taking the course Physical Aspects of the Environment (26-EIH-790) simultaneously or before is strongly recommended. Credit Level: G. Credit Hrs: 3.00

26EIH743**Physical and Biological Aspects of Aerosols**

Concepts and parameters for generating, transport, sampling and characterizing airborne particles and microorganisms; principles and techniques for aerosol measurements; use of PM collectors and direct-reading instruments in indoor and ambient air environments; identification and enumeration of airborne microorganisms and aeroallergens; bioaerosols and health effects; bioterrorism threat; id/control Credit Level: G. Credit Hrs: 3.00

26EIH771**Special Topics -- Air Pollution - Practice in Occupational Exposure Assessment 2**

Seminars or tutorial sessions dealing with special topics in air pollution related to research and application basic to field of environmental health. Credit Level: G. Credit Hrs: 1.00-15.00

Environmental and Industrial Hygiene**26EIH772****Energy and Environment**

Environmental and health impacts of existing and developing energy systems, from source development to conversion to utilization, including transport elements, recycling, and conservation. Credit Level: G. Credit Hrs: 2.00

26EIH773**Special Topics Air Pollution - Oak Ridge National Laboratories**

See 26EIH771. Credit Level: G. Credit Hrs: 1.00-15.00

26EIH774**Special Topics Air Pollution - Occupational Exposure Assessment**

See 26EIH771. Credit Level: G. Credit Hrs: 1.00-15.00

26EIH775**Evaluation of Workplace Exposures**

Evaluation of chemical, physical hazards in industrial workplaces. Potential hazards include noise, glare, heat, dust, solvents, electromagnetic radiation, etc. Credit Level: G. Credit Hrs: 3.00

26EIH776**Special Topics - Ventilation Design Concepts**

See 26EIH771. Credit Level: G. Credit Hrs: 1.00-15.00

26EIH777**Special Topics Air Pollution - Expanded EIH 742 Topics**

See 26EIH771. Credit Level: G. Credit Hrs: 1.00-15.00

26EIH779**Industrial Ventilation**

Air flow through ventilation systems, and their design for industrial uses; selection of exhaust hoods; sizing of ducts; calculation of system pressure losses; selection of fans; design of complex systems. Credit Level: G. Credit Hrs: 3.00

26EIH781**Programmatic Aspects of Occupational Safety and Health**

Principles, philosophies, basic concepts of occupational medicine, industrial hygiene, safety, nursing and epidemiology and their interrelationship. Credit Level: G. Credit Hrs: 1.00

26EIH782**Special Topics I.H.-Eval of WHO Toolbox for Exposure Control in Mozambique & other African Countries**

Seminars or tutorial sessions dealing with special topics in industrial hygiene as related to research and application basic to field of environmental health. Credit Level: G. Credit Hrs: 1.00-15.00

26EIH783**Special Topics-ERC Coal Mining Trip**

See 26EIH782. Credit Level: G. Credit Hrs: 1.00-15.00

26EIH784**Special Topics Industrial Hygiene - Aerosol Generation and Protection Laboratory**

See 26EIH782. Credit Level: G. Credit Hrs: 1.00-15.00

26EIH785**Special Topics Industrial Hygiene - Introduction to Occupational & Environmental Health**

Replaces 26EIH781 - Intro to OCC Health - see 29AN CH810 course description Credit Level: G. Credit Hrs: 1.00-15.00

26EIH786**Occupational Health High School Workshop**

See 26EIH782. Credit Level: G. Credit Hrs: 1.00-15.00

26EIH790**Physical Aspects of the Environment**

Principles and techniques of recognizing and evaluating health problems of vibration, heat, noise, non-ionizing radiation, ultraviolet, visible, infrared, and microwave. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

Environmental and Industrial Hygiene**26EIH819****Occupational Health, Hygiene and Safety Workshop**

Interdisciplinary workshop of occupational safety, occupational nursing, industrial hygiene, and occupational medicine students. Involves group projects, interdisciplinary presentations and team building skills. Credit Level: G. Credit Hrs: 2.00

26EIH820**Occupational Health, Hygiene and Safety Workshop**

See 26EIH819. Credit Level: G. Credit Hrs: 2.00

26EIH821**Occupational Health, Hygiene and Safety Workshop**

See 26EIH819. Credit Level: G. Credit Hrs: 2.00

26EIH834**Hazardous Materials Management**

Technical, health, economic, and institutional issues in hazardous waste management, including generation, storage, transportation, treatment and disposal, field trips, risk assessment, emergency response, waste minimization and computer applications. Credit Level: G. Credit Hrs: 2.00

26EIH835**Environmental Quality Management**

Topics vary but include technical, economic, and institutional aspects of selected water, wastewater, solid and hazardous wastes, energy and housing programs. Credit Level: G. Credit Hrs: 2.00

26EIH843**Human Biological Monitoring and Biological Markers**

The development and use of specific metabolites, DNA and protein adducts, and general screening tests of exposure to chemicals and of adverse effects in humans. Credit Level: G. Credit Hrs: 3.00

26EIH845**Methods to Obtain Complete Occupational Histories**

Students will attend the occupational medicine clinic, assist in obtaining an occupational history and research potential exposures for the jobs held to better understand effects of workplace exposures. Credit Level: G. Credit Hrs: 2.00

26EIH846**Effective Methods for Worker Health and Safety Training**

Specific needs of adult learners, effective methods for workplace health and safety training and a practicum on program design are included. Open to students in hygiene, safety and related professions. Credit Level: G. Credit Hrs: 2.00

26EIH871**Special Topics -- Air Pollution-- Bioaerosol sampling and analysis.**

See 26EIH771. Credit Level: G. Credit Hrs: 1.00-15.00

26EIH872**Special Topics Air Pollution - Readings in Biomonitoring**

See 26EIH771. Credit Level: G. Credit Hrs: 1.00-15.00

26EIH873**Special Topics - I. H. - Energy and the Environment**

See 26EIH771. Credit Level: G. Credit Hrs: 1.00-15.00

26EIH874**Special Topics Air Pollution - Biological Monitoring Particle Matter**

See 26EIH782. Credit Level: G. Credit Hrs: 1.00-15.00

26EIH901**Instrumental Methods of Analysis of Pollutants I**

Lecture, lab. Chromatography. Credit Level: G. Credit Hrs: 3.00

26EIH902**Instrumental Methods of Analysis of Pollutants II**

Lecture, laboratory. Direct reading instrumentation. Credit Level: G. Credit Hrs: 3.00

26EIH903**Instrumental Methods of Analysis of Pollutants III**

Lecture, laboratory. Introduction to mass spectrometry, fluorescence and ultra-violet spectroscopy and allied topics. Credit Level: G. Credit Hrs: 3.00

26EIH904**Identification of Potential Workplace Exposures**

Field trips to representative industrial plants to illustrate principles of industrial operations, and methods employed in controlling physical, chemical hazards. Credit Level: G. Credit Hrs: 2.00

26EIH905**Identification of Potential Workplace Exposures**

See 26EIH904. Credit Level: G. Credit Hrs: 3.00

26EIH971**Advanced Topics in Environmental and Occupational Hygiene**

Follow up to 26EIH775. Provide time for a structured review and discussion of the issues raised in the survey reports conducted in 26EIH775 history/ethics .OSHA procedures and history/ethics are covered in order to provide an opportunity for 2nd yr students to synthesize knowledge/skills. Credit Level: G. Credit Hrs: 1.00

26EIH972**Special Topics Air Pollution**

See 26EIH771. Credit Level: G. Credit Hrs: 1.00-15.00

26EIH973**Special Topics Air Pollution**

Graduate Medicine Interdepartmental**26GNTD720****Academic Conduct**

This course will provide a description of academic and scientific conduct and misconduct, as outlined in the UC policy book, The Student Code of Conduct and the National Academy of Sciences publication, On Being a Scientist. Credit Level: G. Credit Hrs: 0.00-1.00

26GNTD730**Ethics in Research**

A nine week lecture series addressing ethical issues in research including such topics as human experimentation, animal welfare, conflict of interest, and responsible authorship and publication practices. Credit Level: G. Credit Hrs: 1.00

26GNTD741**Medical Biochemistry and Human Genetics**

Chemistry of proteins, enzymes and other macromolecules; bioenergetics, cellular and mammalian metabolism, metabolic control mechanisms, molecular genetics and nutrition. Credit Level: G. Credit Hrs: 7.00

26GNTD742**Medical Biochemistry and Human Genetics**

Chemistry of proteins, enzymes and other macromolecules; bioenergetics, cellular and mammalian metabolism, metabolic control mechanisms, molecular genetics and nutrition. Credit Level: G. Credit Hrs: 5.00

26GNTD780**Flex Option Research**

Laboratory rotation for students in the Flex Option Program during the first year of graduate study in the College of Medicine. Credit Level: G. Credit Hrs: 1.00-12.00

26GNTD781**Flex Option Research**

Laboratory rotation for students in the Flex Option Program during the first year of graduate study in the College of Medicine. Credit Level: G. Credit Hrs: 1.00-12.00

H=University Honors course.

Graduate Medicine Interdepartmental**26GNTD781****Flex Option Research**

Laboratory rotation for students in the Flex Option Program during the first year of graduate study in the College of Medicine. Credit Level: G. Credit Hrs: 1.00-12.00

26GNTD782**Flex Option Research**

Laboratory rotation for students in the Flex Option Program during the first year of graduate study in the College of Medicine. Credit Level: G. Credit Hrs: 1.00-12.00

26GNTD783**Flex Option Research**

Laboratory rotation for students in the Flex Option Program during the first year of graduate study in the College of Medicine. Credit Level: G. Credit Hrs: 1.00-12.00

26GNTD871**Molecular Genetics**

Genetic concepts, DNA structure, replication and repair, recombination, transcription, translation, regulation, cloning methods. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

26GNTD872**Biochemistry**

Application of classical and molecular techniques to problems of protein structure and function; membrane organization and dynamics; biochemistry of membrane transport processes. Credit Level: G. Credit Hrs: 3.00

26GNTD873**Cell Biology**

This course covers membrane biology and basic cell biology. Emphases include membrane structure and generation of resting and action potentials, cell compartmentalization and organelles, protein trafficking and secretion, cytoskeleton, extracellular matrix, nuclear architecture and chromosome structure. The course integrates morphological, biochemical and biophysical approaches. Credit Level: G. Credit Hrs: 3.00

26GNTD881**Introduction to Functional Genomics**

The course will consist of a series of lectures/seminars on the theory and use of methods of functional genomics in biomedical research. Lectures will be presented by some local speakers and invited experts outside the university. The course will include eight lab sessions, five on bioinformatics that will be offered in an electronic classroom and three "wet labs" that will provide hands-on experience in practical application of functional genomics principles. Prereq: 26GNTD871. Credit Level: G. Credit Hrs: 3.00

Immunobiology**26IMM801****Journal Club**

Critical reviews and group discussion of current issues and literature. Presentations will be made by students, faculty and outside speaker. Credit Level: G. Credit Hrs: 1.00

26IMM802**Journal Club**

Critical reviews and group discussion of current issues and literature. Presentations will be made by students, faculty and outside speaker. Credit Level: G. Credit Hrs: 1.00

26IMM803**Journal Club**

Critical reviews and group discussion of current issues and literature. Presentations will be made by students, faculty and outside speaker. Credit Level: G. Credit Hrs: 1.00

Immunobiology**26IMM804****Seminar**

Research seminars by guest scientists and summations of research in progress by faculty and fellows. Credit Level: G. Credit Hrs: 1.00

26IMM805**Seminar**

Research seminars by guest scientists and summations of research in progress by faculty and fellows. Credit Level: G. Credit Hrs: 1.00

26IMM806**Seminar**

Research seminars by guest scientists and summations of research in progress by faculty and fellows. Credit Level: G. Credit Hrs: 1.00

26IMM807**Immunobiology Student / Post Doc Forum**

Graduate students present their research with the aid of their mentor. Credit Level: G. Credit Hrs: 1.00

26IMM808**Seminar (Immunohematology Club)**

Immunohematology Club is a seminar as part of the immunobiology graduate program curriculum. Credit Level: G. Credit Hrs: 1.00

26IMM872**Research**

Investigative work in partial fulfillment of requirements for the Masters and the PhD degrees. Offered each quarter. Credit Level: G. Credit Hrs: 1.00-12.00

26IMM888**Foundations of Immunology I**

Foundations of Immunology is intended to be a comprehensive immunology course for first year graduate students. It covers the structure and organization of the immune system, basic concepts of the innate and adaptive immune responses, and T and B cell development and biology. Lectures will also include details of immunological techniques. While the course has no official prerequisites, students will find that some background in basic biochemistry, cell biology and molecular genetics will be desirable. Credit Level: G. Credit Hrs: 4.00

26IMM889**Foundations of Immunology II**

This course is designed to apply the concepts learned in Foundations of Immunology I to understanding the regulation of immune responses and inflammation. Prereq: 26IMM888. Credit Level: G. Credit Hrs: 4.00

26IMM890**Advanced Topics in Immunology**

This course will cover the most significant advances in immunological research, derived from the current literature. Each class section will focus on a specific topic with first, a short general discussion and second, a focused look at some isolated issues. Students will be assigned papers to present at each class session. Journal club format will be used, where the course director will cover background and introductory information on a current topic of immunology (i.e. chemokines, cytokine receptors, apoptosis, memory, etc.) and will subsequently lead a round table discussion of data from the primary literature. Designed for masters, doctoral and advanced undergraduate students with prior experience in immunology. A portion of the grade will be based on an NIH-style grant proposal turned in at the end of the course. The grant will be based on any paper that is covered in the course. The last session will consist of a student-run study section to critique the grants written by their peers. Prereq: 26IMM888, 26IMM889. Credit Level: G. Credit Hrs: 1.00

26IMM891**Advanced Topics in Immunology**

This course will cover the most significant advances in immunological research, derived from the current literature. Each section will focus on a specific topic with a short general discussion and a focused look at some isolated issues. Students will be assigned papers to present at each class session. Journal club format will be used, in

The last session will consist of a student-run study section to critique the grants written by their peers. Credit Level: G. Credit Hrs: 2.00

Molecular, Cellular and Biochemical Pharmacology**26MCBP801****Lab Rotation**

A series of practical laboratory methods employed in contemporary pharmacology research. Computer models and modeling, quantitative analysis, statistical applications, experimental design. Molecular, cellular, organ, organ system and organism levels. Credit Level: G. Credit Hrs: 1.00-12.00

26MCBP802**Lab Rotation**

See 26MCBP801. Credit Level: G. Credit Hrs: 1.00-12.00

26MCBP803**Lab Rotation**

See 26MCBP801. Credit Level: G. Credit Hrs: 1.00-12.00

26MCBP804**Lab Rotation**

See 26MCBP801. Credit Level: G. Credit Hrs: 1.00-12.00

26MCBP805**Seminar**

Emphasis on drugs; mechanism of action; historical, classical and novel concepts; current discoveries; trends in pharmacology. Oral presentation and written assignments/reports. Current literature and critical reviews. Credit Level: G. Credit Hrs: 1.00

26MCBP806**Seminar**

See 26MCBP805. Credit Level: G. Credit Hrs: 1.00

26MCBP807**Seminar**

See 26MCBP805. Credit Level: G. Credit Hrs: 1.00

26MCBP821**Cell Biophysics I**

Membranes and Bioenergetics. Current concepts of structure, function, regulation, and intracellular integration of energy transducing membranes, with emphasis on their roles in heart muscle and in heart and neural diseases and aging. Credit Level: G. Credit Hrs: 3.00

26MCBP823**Integrated Molecular Pharmacology and Medicine**

Pharmacology at the whole animal, organ, tissue, cellular and molecular levels. Integrated concepts of biomechanics and bioenergetics, structure and function, excitation-contraction coupling, ion transport, regulatory mechanisms, drug actions and transgenic approaches. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00-5.00

26MCBP831**Receptor Pharmacology**

An introductory course designed specifically for graduate students to supplement portions of the primary course in pharmacology with emphasis on modern concepts of drug receptor interactions. Credit Level: G. Credit Hrs: 4.00

Molecular, Cellular and Biochemical Pharmacology**26MCBP837****Advanced Topics Protein Phosphorylation**

Concepts of protein, phosphorylation by various protein kinases. Regulation of cellular functions through phosphorylation/dephosphorylation processes. Credit Level: G. Credit Hrs: 3.00

26MCBP841**Pharmacology and Therapeutics I**

Principles of drug action and the rational use of drugs in clinical disorders. Lectures, demonstrations, and conferences. Credit Level: G. Credit Hrs: 3.00

26MCBP842**Pharmacology and Therapeutics II**

Continuation of 26MCBP841. Prereq: 26MCBP841. Credit Level: G. Credit Hrs: 2.00

26MCBP843**Pharmacology and Therapeutics III**

Principles of drug action and the rational use of drugs in clinical disorders. Lectures, demonstrations, and conferences. Credit Level: G. Credit Hrs: 3.00

26MCBP844**Pharmacology and Therapeutics IV**

Principles of drug action and the rational use of drugs in clinical disorders. Lectures, demonstrations, and conferences. Credit Level: G. Credit Hrs: 3.00

26MCBP851**Cardiac Muscle Bioenergetics**

Current concepts of bioenergetics, molecular and cell biology as they related to the intracellular integration of energy production and utilization in normal and ischemic cardiac muscle. Credit Level: G. Credit Hrs: 3.00

26MCBP871**Lab Rotation**

A series of laboratory problems carried out under supervision of the staff. Credit Level: G. Credit Hrs: 1.00-15.00

26MCBP873**Advanced Topics in Electropharmacology**

Membrane potentials and electrical models of nerve, muscle, and synapse. Analysis of ionic theories for bioelectric phenomena. Credit Level: G. Credit Hrs: 3.00

26MCBP888**Community Pharmacology**

Individual research projects and seminars on use of drugs by medical and non-medical community, e.g., drug epidemiology, drug "abuse," drug information. Credit Level: G. Credit Hrs: 2.00-6.00

26MCBP903**Special Topics in Pharmacology**

This course offers advanced instruction in specialized areas of pharmacology. The content and format varies. Credit Level: G. Credit Hrs: 1.00-4.00

26MCBP905**Emerging Concepts in Targeting Common Metabolic Disorders**

Students will be introduced to the emerging multidisciplinary concepts in the prevention and cure of the most common metabolic diseases. Credit Level: G. Credit Hrs: 2.00

26MCBP951**Molecular Pharmacology**

The goal of this course is to introduce the major concepts, literature and experimental approaches related to the study of membrane transport proteins, including ion channels, pumps and transporters. Perm of Instructor. Credit Level: G. Credit Hrs: 4.00

26MCBP971**Research**

Dissertation research in Pharmacology and Cell Biophysics. Credit

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Molecular, Cellular and Biochemical Pharmacology**26MCPB971****Research**

Level: G. Credit Hrs: 1.00-15.00

Molecular & Cellular Physiology**26MCP841****Medical Physiology I**

Subcellular organelles, cells, tissues, organ systems and their integrated activity. Focus: cellular, muscle, cardiac, circulatory, renal, respiration, the physiology acid base, and the physiology of energy balance and temperature regulation. Credit Level: G. Credit Hrs: 7.00

26MCP842**Medical Physiology II**

Subcellular organelles, cells, tissues, organs systems, and their integrated activity. Focus: gastrointestinal physiology, endocrine physiology, and the physiology of reproduction. Perm of Instructor. Credit Level: G. Credit Hrs: 5.00

26MCP843**Graduate Physiology I**

To understand the body fluid spaces and the forces and flows maintaining homeostasis at the cellular level. To understand bioelectrical phenomena for the origin of the cell membrane potential to cardiac electrophysiology. To be able to characterize muscle mechanical properties as well as to understand the underlying mechanisms. To expose students to standard laboratory approaches used to explore essential cellular processes. Perm of Instructor. Credit Level: G. Credit Hrs: 2.00

26MCP844**Graduate Physiology II**

To provide a thorough understanding of the fundamental principles of cardiac and vascular physiology at the whole animal, organ and cell and molecular levels. To review some of the major research areas and experimental approaches that represent current and pressing questions in cardiovascular research. To expose students to laboratory environments and techniques currently in use to explore cardiovascular function - particularly in gene-manipulated mouse models. To review and evaluate the current literature in representative areas of cutting-edge cardiovascular research. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

26MCP845**Graduate Physiology III**

To provide a thorough understanding of the fundamental principles of renal, respiratory and acid-base physiology at the whole animal, organ, cell and molecular levels. To review major research areas and experimental approaches used in renal, respiratory and acid-base research. To familiarize students with techniques currently in use to explore renal, respiratory and acid-base function. To review and evaluate the current literature. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

26MCP846**Graduate Physiology IV**

To provide current understanding of hormone actions and endocrine control of body functions, particularly as it relates to the gastrointestinal system. To review major research areas and experimental approaches used in the study of hormone signaling and GI function. To familiarize students with techniques currently in use to explore endocrine and GI physiology. To critically review and evaluate current literature in the area of hormone signaling mechanism and control of epithelial function. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

26MCP847**Graduate Physiology V**

To provide a thorough understanding of the fundamental principles of neurophysiology animal, organ, cell and molecular levels. To review and evaluate the current literature in representative areas neurophysiology with attention to current experimental approaches. Credit Level: G. Credit Hrs: 3.00

Molecular & Cellular Physiology**26MCP847****Graduate Physiology V**

To provide a thorough understanding of the fundamental principles of neurophysiology animal, organ, cell and molecular levels. To review and evaluate the current literature in representative areas neurophysiology with attention to current experimental approaches. Credit Level: G. Credit Hrs: 3.00

26MCP848**Special Topics in Systems Biology and Physiology**

This course provides advanced education in current areas of interest within systems biology and physiology, utilizing faculty expertise and serving students' interests and needs. The content and format varies. Prerequisite - Permission of Program Director and Instructor. Credit Level: G. Credit Hrs: 1.00-4.00

26MCP849**Statistical Methods in Physiology**

A practical course in statistics that will equip students to select and execute the appropriate statistical tests to analyze experimental data typically encountered in physiology research. Course topics include: experimental design; statistical concepts, pitfalls and misconceptions; statistical analysis (including t-tests, analysis of variance, and regression analysis); appropriate and effective data presentation. Credit Level: G. Credit Hrs: 3.00

26MCP874**Research Careers**

A wide range of career options are presented by professionals in field research. Credit Level: G. Credit Hrs: 1.00

26MCP900**Introduction to Research Techniques**

The objective of this course is to demonstrate techniques used in physiology in the context of solving a scientific problem. Credit Level: G. Credit Hrs: 2.00

26MCP902**Human Systems Physiology I**

This course will investigate the bioenergetics of cellular homeostasis, cellular bioelectrical phenomena, muscle, and cardiovascular physiology from molecular to whole organism levels. Credit Level: G. Credit Hrs: 4.00

26MCP903**Human Systems Physiology II**

This course will investigate the fundamentals of respiratory, renal and gastrointestinal physiology along with understanding applications of quantitative biology to physiologic problems. Credit Level: G. Credit Hrs: 4.00

26MCP911**Seminar/Journal Club**

Research seminars by guest scientists and summations of research in progress by faculty and fellows. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00

26MCP912**Seminar/Journal Club**

Research seminars by guest scientists and summations of research in progress by faculty and fellows. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00

26MCP913**Seminar/Journal Club**

Research seminars by guest scientists and summations of research in progress by faculty and fellows. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00

26MCP951**Molecular Physiology I: Membrane Transport Proteins**

The goal of this course is to introduce the major concepts, literature and experimental approaches related to the study of membrane transport proteins, including ion channels, pumps, and transporters. Credit Level:

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Molecular & Cellular Physiology**26MCP951****Molecular Physiology I: Membrane Transport Proteins**

G. Credit Hrs: 4.00

26MCP952**Molecular Physiology II: Molecular Endocrinology**

This course is an advanced study of the molecular mechanisms responsible for hormone, growth factor and cytokine signal transduction. Credit Level: G. Credit Hrs: 4.00

26MCP953**Molecular Physiology III**

The purpose of this course is to integrate abundant molecular biological information and classic organ physiology. The course will be directed to teach students how molecular biology approaches can be applied to study cell and organ function. Emphasis will be placed on the integration of key physiological concepts of selected topics, with particular focus on examples of control mechanisms and how they adapt to changes in the environment to maintain homeostasis. In addition, the topics will be selected from the point of view of their potential relevance in pathophysiology and treatment of major diseases. The clinical correlation will be presented. Credit Level: G. Credit Hrs: 4.00

26MCP963**Renal Physiology**

Concepts of renal function. Discussions of glomerular and tubular functions. Credit Level: G. Credit Hrs: 2.00

26MCP970**Introduction to Research**

Laboratory research for graduate students who have not yet advanced to candidacy. Credit Level: G. Credit Hrs: 1.00-15.00

26MCP971**Thesis Research**

Thesis research in Molecular and Cellular Physiology. Credit Level: G. Credit Hrs: 1.00-15.00

26MCP978**Cell Biology of the Blood Vessel Wall**

Focus on endothelial cell-vascular smooth muscle interactions in the control of vasomotor tone. Credit Level: G. Credit Hrs: 2.00

26MCP981**Physiology/Reproduction**

Discussion of cellular mechanisms of reproductive hormone action, control of growth and development, gametogenesis, reproductive cycles, pregnancy including cardiovascular adaptations during pregnancy, and parturition. Current research methods and publications will be discussed. Credit Level: G. Credit Hrs: 3.00

Medicine**26MD101****Freshman MD Course**

Medical curriculum for first year students. Credit Level: P. Credit Hrs: 24.00

26MD102**Freshman MD Course**

Medical curriculum for first year students. Credit Level: P. Credit Hrs: 24.00

26MD103**Freshman MD Course**

Medical curriculum for first year students. Credit Level: P. Credit Hrs: 24.00

Medical curriculum for fourth year students. Credit Level: P. Credit Hrs: 24.00

26MD504**Senior MD Course**

Medical curriculum for fourth year students. Credit Level: P. Credit Hrs: 24.00

26MD533**Medical Curriculum Special Studies**

Special studies for the first, second, third or fourth year medical student. Schedules worked out in conjunction with the student, the Promotion Board and Student Affairs. Credit Level: P. Credit Hrs: 12.00

Molecular Gen, Biochem, Microbiol & Immunology**26MG599****Introduction to Immunology**

A comprehensive introductory level immunology course for graduate students, advanced undergraduates, technicians and fellows. It will cover basic immunochemistry and cellular and molecular immunology. While the course has no official prerequisites, students will find that some background in basic biochemistry, cell biology and molecular genetics will be desirable. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

26MG620**Advanced Immunology-Contemporary Topic I**

This course will cover the most significant advances in immunological research, derived from the current literature. Journal club format will be used, where the presenter will cover background and introductory information on a topic chosen with the advice and consent of the instructor, and will subsequently lead a round table discussion of data from the primary literature. Designed for masters, doctoral and

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

Molecular Gen, Biochem, Microbiol & Immunology**26MG620****Advanced Immunology-Contemporary Topic I**

advanced undergraduate students with prior experience in immunology. Each student will be assigned as discussion leader twice per quarter. Enrollment limited to 10. BoK: NS. Credit Level: U, G. Credit Hrs: 1.00

26MG621**Advanced Immunology-Contemporary Topics II**

Same as 26MG620. BoK: NS. Credit Level: U, G. Credit Hrs: 1.00

26MG622**Advanced Immunology-Contemporary Topics III**

Same as 26MG620. BoK: NS. Credit Level: U, G. Credit Hrs: 1.00

26MG649**Pathogenic Mechanisms**

This course covers the basics of bacterial fungal pathogenesis and virology with emphasis on viral replication. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

26MG708**Yeast Mutants as an Educational Tool**

This course will provide teachers the necessary knowledge and training to permit them to teach fundamental aspects of modern molecular biological research to their K-12 students. This course will use a problem in yeast biochemical genetics to guide students through the application of the scientific method. The essential laboratory component of the class is designed to familiarize teachers with molecular genetic techniques. Perm of Instructor. Credit Level: G. Credit Hrs: 4.00

26MG710**Advanced Molecular Genetics I: Gene Regulation**

Provides a literature-based view of major research questions, with emphasis upon gene structure and the regulation of gene expression. Student discussions are included with the lecture format. Prereq: 26GNTD871. Credit Level: G. Credit Hrs: 4.00

26MG711**Mechanisms of Signal Transduction**

Provides a research literature-based view of modern aspects of signal transduction and includes student driven discussions of seminal papers in the signal transduction field. Topics include receptor-mediated signal transduction originating at the plasma membrane and covers major effector pathways including those leading to second messenger generation, kinase cascade assembly, and activation of transcription factors. We will be discussing signaling mechanisms related to cellular homeostasis, developmental biology, immunology, and cancer. Recommended prerequisites: Introduction to Molecular Genetics and Molecular Biology of the Cell I. Spring Quarter only. Prereq: 26GNTD871, 26GNTD872. Credit Level: G. Credit Hrs: 3.00

26MG712**Microbiology and Immunology**

This course will provide individuals interested in microbiology with a firm foundation to pursue their studies. In addition, the course will provide all biological science students with the fundamentals of prokaryotic biology that lie at the heart of modern molecular genetic techniques. The topics to be covered include prokaryotic structure and function, gene regulation and protein synthesis, gene transfer, plasmids, bacteriophage genetics and restriction and modification of systems. Credit Level: G. Credit Hrs: 3.00

26MG718**Structural Biology**

This course will cover structural techniques used to determine protein structure, dynamics and enzyme mechanisms. Particular emphasis will be placed on solution NMR techniques to problems in protein structure and enzyme mechanism. The course will consist of both lectures and a review of pertinent literature articles. Topics to be covered include NMR theory, practical aspects of biological NMR, the use of structural techniques in understanding HIV proteins, structural studies of muscle

Molecular Gen, Biochem, Microbiol & Immunology**26MG718****Structural Biology**

proteins, as well as mechanistic studies of ribonucleases and phosphoryl transfer enzymes. Credit Level: G. Credit Hrs: 2.00

26MG719**Proteins: Structure, Function and Engineering**

Designed for graduate students who have completed the first quarter of Molecular Biology of the Cell. Protein design; enzyme specificity and mechanisms of catalysis; transport physiology and enzymology; macromolecular assembly, protein-protein interactions and signal transduction; NMR and macromolecular structure. Credit Level: G. Credit Hrs: 4.00

26MG730**PC Research Applications**

An introduction to the use of database, spreadsheets, graphics, word processing programs, and DNA sequence analysis. Credit Level: G. Credit Hrs: 1.00

26MG820**Biologic Threat Agents**

This course deals with microbes of interest in bioterrorism. Lectures providing background information on selected agents will be followed by student presentations of current research papers on the topic. Winter Quarter only. 3 gr. cr. hrs. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

26MG821**Human Genetics**

Hours to be arranged. Credit Level: G. Credit Hrs: 1.00-3.00

26MG822**Immunology**

Hours to be arranged. Credit Level: G. Credit Hrs: 1.00-3.00

26MG823**Advanced Topics in Structural Biology**

This advanced topics course will explore the principles, methodologies, and practical applications of macromolecular crystallography in contemporary structural biology research. In addition to understanding the central issues that underlie macromolecular structure determination by crystallographic methods, students will learn through hands-on experiments of the practical aspects for growing crystals, collecting and analyzing X-ray diffraction data, and ultimately determining crystal structures. Credit Level: G. Credit Hrs: 1.00-3.00

26MG824**Image Analysis: A Practical Approach**

This is a practical course on the application of image analysis to current problems in biological research. Students will be provided hands on experience with the application of state of the art image analysis equipment to problems in immunocytochemistry, gel analysis and fluorescence microscopy in living cells. Credit Level: G. Credit Hrs: 2.00

26MG825**Nucleic Acids**

DNA structure and DNA protein interactions during gene expression. Credit Level: G. Credit Hrs: 1.00-3.00

26MG826**Pathogenic Mechanisms**

Hrs. to be arranged. Credit Level: G. Credit Hrs: 1.00-3.00

26MG827**Proteins/Enzymology**

Hrs. to be arranged. Credit Level: G. Credit Hrs: 1.00-3.00

26MG828**Topics in Virology**

Hrs. to be arranged. Credit Level: G. Credit Hrs: 1.00-3.00

H=University Honors course.

Molecular Gen, Biochem, Microbiol & Immunology**26MG831****Growth Factors**

Hrs. to be arranged. Credit Level: G. Credit Hrs: 1.00-3.00

26MG833**Topics in Genetics: Graduate Seminar**

Hrs. to be arranged. Credit Level: G. Credit Hrs: 3.00

26MG834**Scientific Writing for Publication and Funding I**

The aim of this course is to improve the student's ability to write scientific papers and grant proposals in a clear and cogent manner.

Credit Level: G. Credit Hrs: 1.00

26MG835**Scientific Writing for Publication and Funding II**

Continuation of 26MG834. Prereq: 26MG834. Credit Level: G. Credit Hrs: 1.00

26MG836**Myocardial Biology**

The purpose of this course is to examine in detail the cardiac muscle cell with the major goal of understanding how the heart functions and is regulated. The role of calcium as a central regulator is stressed. Credit Level: G. Credit Hrs: 3.00

26MG837**Advanced Topics in Gene Regulation**

A research article-based course exploring the most recent literature in the field of eukaryotic gene expression and mechanisms of gene regulation. Format will be primarily through numerous student-participatory discussions of research papers and will include several visits by noted leaders in the field from outside institutions. Offered every other year. Prereq: 26MG710. Credit Level: G. Credit Hrs: 3.00

26MG838**Special Topics in Molecular Genetics**

Hrs. to be arranged. Credit Level: G. Credit Hrs: 1.00-3.00

26MG868**Genetics of Complex Diseases**

Introduction to complex disease and traits. Epidemiology and genetic basis of complex diseases. Credit Level: G. Credit Hrs: 3.00

26MG870**Masters Research**

Investigative work in partial fulfillment of the requirements for the Masters degree. Credit Level: G. Credit Hrs: 1.00-15.00

26MG921**Graduate Seminar in Molecular Genetics I**

Review of current literature (under director of faculty adviser). Credit Level: G. Credit Hrs: 2.00

26MG922**Graduate Seminar in Molecular Genetics II**

Review of current literature (under direction of faculty adviser). Credit Level: G. Credit Hrs: 2.00

26MG923**Graduate Seminar in Molecular Genetics III**

Review of current literature (under direction of faculty adviser). Credit Level: G. Credit Hrs: 2.00

26MG950**Doctoral Literature Review**

Independent study course where the student submits a short, written review describing previous work performed by others in the field related to his/her dissertation project. For Molecular Genetics Doctoral Students Only. Autumn Qtr. Credit Level: G. Credit Hrs: 1.00

26MG971**PHD Dissertation Research**

Investigative work in partial fulfillment of the requirements for the PhD degree. Credit Level: G. Credit Hrs: 1.00-15.00

Molecular Gen, Biochem, Microbiol & Immunology**26MG971****PHD Dissertation Research**

Investigative work in partial fulfillment of the requirements for the PhD degree. Credit Level: G. Credit Hrs: 1.00-15.00

26MG972**Special Problems**

Laboratory work and readings. The specific area of concentration will be determined by consultation with the staff. Credit Level: G. Credit Hrs: 1.00-15.00

Medical Physics**26MP941****Radiobiology I**

Physics and chemistry of ionizing radiation interaction with living cell systems. Subcellular and cellular effects: damage, repair, sensitivity. Measurement methods, survival curve models, in vitro, in vivo assays. Tumor and normal tissue responses. Radiosensitizers, radioprotectors, hypoxia. Genetic effects, oncogenes, carcinogenesis, risk estimates. Cancer radiotherapy: fractionation, dose-rate, adjuvant therapies. Effects on whole body, organ and tissues systems, dose limits. Credit Level: G. Credit Hrs: 2.00

26MP942**Radiobiology II**

See 26MP941. Credit Level: G. Credit Hrs: 2.00

26MP943**Radiobiology III**

See 26MP941. Credit Level: G. Credit Hrs: 2.00

26MP944**Radiologic Dosimetry I**

Physical interactions between electromagnetic radiation and matter; exposure and absorbed dose; dose calculations for external and internal radiation sources. Credit Level: G. Credit Hrs: 2.00

26MP945**Radiologic Dosimetry II**

See 26MP944. Credit Level: G. Credit Hrs: 2.00

26MP946**Radiologic Dosimetry III**

See 26MP944. Credit Level: G. Credit Hrs: 2.00

26MP950**Radiologic Imaging Physics I**

Physical principles of imaging including diagnostic radiology, x-ray equipment, image quality evaluation, information transfer systems, special imaging modalities of mammography, digital radiography, CT, ultrasound, MRI, nuclear medicine, radiation detection, clinical instrumentation. Credit Level: G. Credit Hrs: 2.00

26MP951**Radiologic Imaging Physics II**

See 26MP950. Credit Level: G. Credit Hrs: 2.00

26MP952**Radiologic Imaging Physics III**

Physical principles of imaging including diagnostic radiology, x-ray equipment, image quality evaluation, information transfer systems, special imaging modalities of mammography, digital radiography, CT, ultrasound, MRI, nuclear medicine, radiation detection, clinical instrumentation. Credit Level: G. Credit Hrs: 2.00

26MP972**Radiological Sciences Lab I**

Selected laboratory experiments including surveys and calibrations of radiation units for diagnostic radiology, nuclear medicine, and therapeutic oncology. Credit Level: G. Credit Hrs: 2.00-4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Medical Physics**26MP973****Radiological Sciences Lab II**

See 26MP972. Prereq: 26MP972. Credit Level: G. Credit Hrs: 2.00-4.00

26MP981**Special Topics - Treatment Planning**

Extend student knowledge of use of ionizing radiation for therapeutic gain, detailed information on specialized radiation therapy treatment. Credit Level: G. Credit Hrs: 3.00

26MP982**Special Topics - Quality Assurance**

Will include initial acceptance of treatment units and continuing quality assurance of treatment units. Includes daily, weekly, monthly, annual quality assurance for proper completion of therapeutic prescription. Credit Level: G. Credit Hrs: 3.00

26MP983**Special Topics - Regulatory Issues**

Detailed review of applicable regulatory issues associated with radiation therapy, regulatory roles of USNRC, USFDA, state agencies and issues which arise from hospital accreditation issues. Credit Level: G. Credit Hrs: 3.00

26MP984**Special Topics in Nuclear Medical Physics**

Extend knowledge of nuclear medicine to clinical applications as well as imaging processing, quality assurance and radiation protection. Includes role of medical physicist in quality assurance and radiation protection. Credit Level: G. Credit Hrs: 3.00

26MP985**Special Topics in Diagnostic Radiological Physics**

Extend students knowledge of clinical diagnostic radiological physics and issues of image processing, quality assurance and radiation protection. Credit Level: G. Credit Hrs: 3.00

26MP989**Advanced Imaging Physics**

The course will extend the students knowledge of a particular aspect of diagnostic radiological physics. Topics will be selected on the basis of the interest of instructor and/or students. Credit Level: G. Credit Hrs: 3.00

26MP991**Research in Radiological Sciences**

Selected research projects in diagnostic and therapeutic radiology, radiologic physics, nuclear medicine and radiobiology. Credit Level: G. Credit Hrs: 1.00-15.00

26MP992**Seminar: Current Research in Radiological Sciences**

Reading, presentation, and critical discussion of recent research contributions in the radiological sciences. Credit Level: G. Credit Hrs: 1.00

26MP993**Clinical Medical Physics**

Clinical experience in areas of physics applied to diagnostic radiology, therapeutic radiology, and nuclear medicine. Credit Level: G. Credit Hrs: 1.00-15.00

26MP995**Clinical Aspects of Treatment Planning**

The course will familiarize students with clinical goals for radiation therapy as related to various tumor systems. The students will gain an appreciation of the role of radiation therapy as a therapeutic agent as well as the role of radiation physicist. Credit Level: G. Credit Hrs: 3.00

26MP996**Clinical Aspects of Treatment Planning**

The course will familiarize students with clinical goals for radiation therapy as related to various tumor systems. The students will gain an appreciation of the role of radiation therapy as a therapeutic agent as

Medical Physics**26MP996****Clinical Aspects of Treatment Planning**

well as the role of radiation physicist. Credit Level: G. Credit Hrs: 3.00

26MP997**Clinical Aspects of Treatment Planning**

The course will familiarize students with clinical goals for radiation therapy as related to various tumor systems. The students will gain an appreciation of the role of radiation therapy as a therapeutic agent as well as the role of radiation physicist. Credit Level: G. Credit Hrs: 3.00

Neuroscience**26NS777****Scientific Writing for Neuroscientists**

This course is designed to provide students with a solid background in scientific communication skills as they relate to neuroscience research. Students will be familiarized with various forms of science writing, including manuscript preparation, grant preparation and review articles. Credit Level: G. Credit Hrs: 3.00

26NS778**Fundamentals of Neuroscience I**

This is the first half of a two-quarter course that will serve as an introduction to neuroscience for UC NS grad students and interested students from other UC grad programs. This course will provide an overview of our current understanding of molecular and cellular neuroscience. Credit Level: G. Credit Hrs: 3.00

26NS779**Fundamentals of Neuroscience II**

This is a second half of a two-quarter course that will serve as an introduction to neuroscience for graduate students in the UC NS Graduate Program and interested students from other UC graduate programs. Fundamentals of Neuroscience II is intended to integrate and extend topics covered in Fundamentals of Neuroscience I, and will provide an overview of our current understanding of neuroendocrine and motor systems, reward and addiction, and behavioral and cognitive neuroscience. Credit Level: G. Credit Hrs: 4.00

26NS830**Neuropharmacology**

This course covers the neurochemical mechanisms underlying the behavioral effects of psychoactive drugs. Reference to specific neurotransmitter systems and drugs are used to illustrate general principles. Topics include drug modulation of synaptic transmission; brain adaptations to chronic drug treatments; psychotherapeutic drugs and what they tell us about the etiology of brain disorders. Credit Level: G. Credit Hrs: 2.00

26NS840**Survey of Neuroscience Research**

Weekly research seminars by faculty to introduce incoming graduate students to research opportunities in neuroscience at the University of Cincinnati. This series of seminars will assist students in identification of laboratories in which they desire to do laboratory rotations and ultimately dissertation research. Credit Level: G. Credit Hrs: 1.00

26NS841**Brain and Behavior I**

The first quarter of a two quarter sequence that introduces the principles and concepts of nervous system organization: structural organization, cellular neurophysiology, neuropharmacology, sensory and motor systems, higher cortical functions. Required for Neuroscience PhD students. Credit Level: G. Credit Hrs: 4.00-10.00

26NS842**Neuroscience: Development and Plasticity**

A graduate course designed to introduce students to cellular and developmental neuroscience. Topics include: structure and function of the neuron and synapse; nervous system segmentation; neuronal and glial differentiation; axonal pathfinding; cellular mechanisms of learning; neural regeneration. Required for Neuroscience PhD students. Credit

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Neuroscience**26NS842****Neuroscience: Development and Plasticity**

Level: G. Credit Hrs: 1.00-4.00

26NS850**Introduction to Laboratory Research**

Laboratory research for graduate students who have not yet advanced to candidacy. Credit Level: G. Credit Hrs: 1.00-12.00

26NS851**Introduction to Laboratory Research**

See 26NS850. Credit Level: G. Credit Hrs: 1.00-12.00

26NS852**Introduction to Laboratory Research**

See 26NS850. Credit Level: G. Credit Hrs: 1.00-12.00

26NS861**Brain and Behavior II**

An overview of human neurological and psychiatric disorders through the various stages of human development, including seizures, schizophrenia, substance abuse, Alzheimer's disease, Parkinson's disease and other movement disorders. The course is offered during a four-week concentrated block of time. Perm of Instructor. Credit Level: G. Credit Hrs: 4.00-10.00

26NS901**Neuroscience Seminar**

Formal presentations of current research in neuroscience will be given by speakers from both UC and other institutions. Credit Level: G. Credit Hrs: 1.00

26NS902**Neuroscience Seminar**

See 26NS901. Credit Level: G. Credit Hrs: 1.00

26NS903**Neuroscience Seminar**

See 26NS901. Credit Level: G. Credit Hrs: 1.00

26NS910**Neuroscience Journal Club**

This course will emphasize critical analysis of current issues in neuroscience research. Presentations will be made by students, faculty and outside speakers and group discussion is encouraged. Credit Level: G. Credit Hrs: 1.00

26NS911**Neuroscience Journal Club and Ethics Module**

See 26NS910. Credit Level: G. Credit Hrs: 1.00

26NS912**Neuroscience Journal Club**

See 26NS910. Credit Level: G. Credit Hrs: 1.00

26NS930**Advanced Topics in Neuroscience**

A didactic course intended to provide an in-depth analysis of the history, methodology, and/or current research in a specified topic in neuroscience. Credit Level: G. Credit Hrs: 1.00-4.00

26NS931**Neuronal Signal Transmission**

Starting with the generation of an action potential (AP), the first half of this course describes in detail the mechanisms by which the electrical activity of an AP is converted into the release of neurotransmitter at the presynaptic nerve terminal, followed by the induction of ionic conductances at the postsynaptic terminal and finally how that information is transferred to the cell body of the target neuron. The second half of the course considers other types of signal transduction by which extracellular signals such as hormones and growth factors give rise to intracellular second messengers. A short section on cellular

Neuroscience**26NS931****Neuronal Signal Transmission**

immunology is also included. Credit Level: G. Credit Hrs: 1.00-4.00

26NS940**Advanced Study in Neuroscience**

Individualized readings or research in a specified topic in neuroscience. This course will allow students to study topics independently under the direction of faculty who have expertise in that area. Credit Level: G. Credit Hrs: 1.00-12.00

26NS999**Dissertation Research**

Laboratory research for graduate students who have advanced to candidacy. Credit Level: G. Credit Hrs: 1.00-12.00

Occupational Medicine**26OCCM746****Survey of Public Health**

An overview of various topics in public health, including health services administration, communicable disease, epidemiology, chronic disease epidemiology, and other issues of current public health concern suitable for both undergraduate and graduate students with wide variety of health care career interests. Credit Level: G. Credit Hrs: 3.00

26OCCM748**Occupational Health Management**

The course will cover the principles in the development of a business plan in occupational health, including the basics of financial statements and projections, marketing and occupational health information systems. Credit Level: G. Credit Hrs: 3.00

26OCCM773**The Skin and the Environment**

Lectures and discussions of basic science aspects of cutaneous reactions to environmental stress; clinical characteristics of environmental skin diseases and injuries; hazard identification, clinical management, prevention and control of environmental skin diseases and injuries. Credit Level: G. Credit Hrs: 2.00

26OCCM783**Occupational and Environmental Health Law**

Overview of laws related to occupational and environmental health, including workers' compensation, toxic tort litigation, Americans with Disabilities Act, Family Medical Leave Act, Occupational Safety and Health Act, and the role of scientific experts. Credit Level: G. Credit Hrs: 1.00

26OCCM786**Basics of Occupational Medicine I**

A course designed to be an entry level, overview of occupational medicine for physicians, industrial hygienists, nurses and other health professionals. Credit Level: G. Credit Hrs: 2.00

26OCCM787**Special Topics - Occupational Medicine - Preventive Medicine**

Seminars or tutorial sessions dealing with special topics in occupational medicine related to research and application basic to field of environmental health. Credit Level: G. Credit Hrs: 1.00-15.00

26OCCM788**Special Topics - Occupational Medicine - Basics of Environmental Medicine**

See 26OCCM787. Credit Level: G. Credit Hrs: 1.00-15.00

26OCCM789**Special Topics - Occupational Medicine - Occupational Health Program Management & Administrative**

See 26OCCM787. Credit Level: G. Credit Hrs: 1.00-15.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Occupational Medicine**26OCCM790****Special Topics - Respirators & Respiratory Protection**

See 26OCCM854. Credit Level: G. Credit Hrs: 1.00-15.00

26OCCM791**Special Topics-Medical Toxicology**

See 26OCCM787. Credit Level: G. Credit Hrs: 1.00-15.00

26OCCM844**Pulmonary Function Testing**

Principles of pulmonary function testing including basic spirometry, lung volume and diffusion studies, specific and nonspecific challenge testing, A.T.S. standards and interpretation of test results. Credit Level: G. Credit Hrs: 1.00-10.00

26OCCM849**The Lung and the Environment I**

Lectures and discussions on etiology, pathogenesis, evaluation and treatment of lung diseases of occupational and environmental origin. Credit Level: G. Credit Hrs: 2.00

26OCCM850**The Lung and the Environment II**

See 26OCCM849. Credit Level: G. Credit Hrs: 2.00

26OCCM854**Respirators and Respiratory Protection I**

This course will enable students to identify the proper type of respiratory protection to use based upon the hazards that exist. Government standards will be presented along with demonstrations of fit testing techniques. Problem solving and "hands-on" techniques will be stressed. Credit Level: G. Credit Hrs: 2.00

26OCCM877**Occupational Pulmonary Clinic**

A clinical practice rotation designed for physicians to achieve proficiency in completing an occupational history and exam with special emphasis on lung toxins, ordering and interpreting appropriate pulmonary and radiographic tests, using acquired information to develop a complete differential for lung disorders, and forming a clinically and legally appropriate opinion of work relatedness. Credit Level: G. Credit Hrs: 2.00-4.00

26OCCM886**Special Topics -- Occupational Medicine - Public Health Selected Topics**

See 26OCCM787. Credit Level: G. Credit Hrs: 1.00-15.00

26OCCM887**Special Topics - Occupational Medicine - Medicolegal Skills**

See 26OCCM787. Credit Level: G. Credit Hrs: 1.00-15.00

26OCCM888**Occupational Dermatology Clinic**

A clinical practice rotation designed for physicians to achieve proficiency in understanding common occupational skin problems and the physical, chemical and biological sources of these problems. Develop skills in differentiating between occupational and non-occupational skin disease and treatment/prevention of common occupational skin problems. Credit Level: G. Credit Hrs: 2.00-4.00

26OCCM889**Hospital Occupational Health Clinic**

A clinical practice rotation designed for physicians to acquire knowledge of hazards present in hospital environment and develop the ability to recognize and treat common infectious exposures. Develop ability to design and implement site specific health promotion and surveillance programs. Acquire knowledge of psychological and social stresses of work in hospital environment along with role of Employee Assistance Programs. Credit Level: G. Credit Hrs: 1.00-15.00

Occupational Medicine**26OCCM890****Special Topics - Occupational Medicine - Intro to Clinical Occupational Health and Disease Mgmt**

see S.T. Credit Level: G. Credit Hrs: 1.00-15.00

26OCCM891**Special Topics - Introduction to Forensic Disability Evaluation and Management**

This course will focus on medical forensic evaluation of impairment and disability claims with focus on specific aspects of the medical and physical examination, review of medical records, treatment modalities assessment and options, diagnostic studies available to evaluate disabling conditions... Credit Level: G. Credit Hrs: 1.00-15.00

26OCCM892**Special Topics - Occupational Medicine - Emergency Preparedness**

See 26OCCM787. Credit Level: G. Credit Hrs: 1.00-15.00

26OCCM896**Basics of Occupational Medicine II**

A course designed to provide an in-depth survey of pertinent issues and topics in the practice of Occupational Medicine, built upon knowledge gained from Basics of Occupational Medicine I. For physicians, nurses and healthcare professionals. Credit Level: G. Credit Hrs: 2.00

26OCCM899**General Occupational Medicine Clinic**

A clinical practice rotation designed for physicians to achieve proficiency in general occupational medicine principles including patient evaluations to recognize common occupational illnesses and to determine if illnesses or complaints are occupationally related. Credit Level: G. Credit Hrs: 2.00-6.00

26OCCM925**Occupational Medicine Resident - Industrial Days**

Rotation through the medical department of a prominent local or national industry -- active participation in medical routine, related personnel functions. Credit Level: G. Credit Hrs: 1.00-15.00

26OCCM926**Occupational Medicine Resident - Industrial Days**

See 26OCCM925. Credit Level: G. Credit Hrs: 1.00-15.00

26OCCM927**Occupational Medicine Resident - Industrial Days**

See 26OCCM925. Credit Level: G. Credit Hrs: 1.00-15.00

26OCCM928**Occupational Medicine Resident - Industrial Days**

See 26OCCM925. Credit Level: G. Credit Hrs: 1.00-15.00

26OCCM929**Occupational Medicine Resident - Non-Industrial Clinical Experience**

This course is designed for Occupational Medicine Residents to supplement their general medical clinical skills by rotating through a variety of non-occupational clinical settings. The most common clinical experiences in the past have been Physical Medicine and Rehabilitation, Orthopedics, Emergency Medicine, and Ophthalmology. Arrangements are made with participating clinical departments for each resident on an individual basis. Credit Level: G. Credit Hrs: 1.00-15.00

26OCCM930**Occupational Medicine Resident - Non-Industrial Clinical Experience**

See 26OCCM929 for course description. Credit Level: G. Credit Hrs: 1.00-15.00

26OCCM931**Occupational Medicine Resident - Non-Industrial Clinical Experience**

See 26OCCM787. Credit Level: G. Credit Hrs: 1.00-15.00

Occupational Safety and Ergonomics**26OSE744****Biomechanical and Physiological Aspects of Muscular Activity**

Biomechanics of human static posture and dynamic motion, cardiovascular and metabolic cost of muscular activity, biomechanics of trauma, spinal mechanics, and biomechanical modelling. Credit Level: G. Credit Hrs: 3.00

26OSE748**Introduction to Measurement Techniques in Ergonomics**

Provide students with an understanding and working knowledge of how to evaluate and control the risk of musculoskeletal disorders of the low back and upper extremity in the design of industrial workplaces. Risk & exposure assessment techniques will be discussed. Credit Level: G. Credit Hrs: 3.00

26OSE756**Special Topics -- Introduction to Measurement Techniques in Ergonomics**

Seminars or tutorial sessions dealing with special topics in occupational safety as related to research and application basic to the field of environmental health. Credit Level: G. Credit Hrs: 1.00-15.00

26OSE757**Special Topics - Occupational Safety -Introduction to Ergonomic Laboratory Research**

See 26OSE756. Credit Level: G. Credit Hrs: 1.00-15.00

Public Health**26PH701****Introduction to Evidence Based Public Health**

This course will include an orientation to the US public health system, current concepts and issues, and major contemporary public health problems. A second content theme will include a brief overview of the development of the quality improvement movement in medicine, resulting in the evidence based public health movement. These two segments will be integrated as students learn to apply the principles of an evidence based approach to current public health problems in the

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

Public Health**26PH701****Introduction to Evidence Based Public Health**

greater Cincinnati area. A seminar style of teaching, employing small group discussion of cases, will be employed. Perm of Department. Credit Level: G. Credit Hrs: 4.00

26PH702**Health Systems and Health Policy**

Course content will include the application of political science and economics to the planning, financing, organization, administration, and evaluation of policy affecting the public's health. Topics will include the organization and effectiveness of United States health care and public health systems; determinants of health, need, and utilization; quality, costs and accessibility of care; development of public policy concerning medical care and public health, emergency preparedness, and the relationship between public decisions and the marketplace as they concern the public's health. Perm of Department. Credit Level: G. Credit Hrs: 4.00

26PH703**Introduction to Population Health and Disease**

Course content will include distributions, determinants, and natural history of disease, disabilities and death in human populations; the characteristics and dynamics of health and illness in human populations, including the application of genomic issues and studies to public health. A seminar style of teaching, employing small group discussion of cases, will be employed. Perm of Department. Credit Level: G. Credit Hrs: 4.00

26PH704**Legal and Ethical Issues in Public Health**

Course content will include public health law and the uses of law to promote the public's health; the ethical and legal bases for public health practice and research, including the belief that people are interdependent on each other and the environment; the priority of addressing the root causes of health and illness; and the importance of communicating public health messages in ways that respect the values, opinions, beliefs and practices of people in various communities. Perm of Department. Credit Level: G. Credit Hrs: 4.00

26PH705**Statistical Analysis for Public Health Practitioners**

Public Health workers need to read and interpret public health and medical literature to keep abreast of the latest methods. This course will provide an introduction of basic concepts of statistics, methods of statistical analysis and tools of statistical computation. The goal is to help students understand the language of statistics and the art of statistical investigation; perform basic statistical analysis of their own research; and read and evaluate analytical results in health and research articles. Perm of Department. Credit Level: G. Credit Hrs: 4.00

26PH706**The Environment and the Public's Health**

Starting with a review of the major human and natural activities that threaten the public's health (overpopulation, climate change, peak oil, etc) this course will examine the causal links between chemical, physical, and biological agents in the environment and their impact on human health. The basic principles of toxicology will be presented including dose-response relationships, absorption, distribution, metabolism, and excretion of chemicals. The overall role of environmental risks in the pattern of human disease, both nationally and internationally, will be covered. The engineering and policy strategies, including risk assessment, used to evaluate and control these risks will be introduced. Credit Level: G. Credit Hrs: 4.00

26PH707**Community Assessment and Programming**

This course is designed to assist students in acquiring skills related to defining a health problem, conducting an assessment, and developing, implementing and evaluating health programs. Students will acquire the skills needed to assess the health patterns of communities and populations in partnership with key members of the community that

Public Health**26PH707****Community Assessment and Programming**

encompasses the culture, geography, political structure, environment and assets of the community. Students will learn methods to obtain and interpret information regarding the risks and benefits to the community/population assessment methods. Students will gain knowledge needed to develop management and leadership skills required to build community led interventions aimed at improving the overall health of an identified community or population. Students will build their knowledge on public health models and methods for conducting population based assessments and program planning. Credit Level: G. Credit Hrs: 4.00

26PH711**Leadership Development In Public Health**

This course will include the development of management skills and leadership attitudes and competencies which allow the promotion and implementation of sound health policy and practices. Concepts covered include stewardship, equity, social justice and accountability. Perm of Department. Credit Level: G. Credit Hrs: 4.00

26PH713**Policy and Advocacy For Public Health**

An advanced course for those interested in the role of policy and advocacy in improving the public's health at the state and national levels. Students will understand the roles of legislation and regulation and how to effect these processes, as well as how these processes in turn effect public health's ability to perform its core functions. Students will aid in the development of policy briefs on targeted issues. Perm of Department. Credit Level: G. Credit Hrs: 4.00

26PH721**Understanding Vulnerable Populations**

This course aims to examine concepts and methods in the study of vulnerability in health and in particular, strategies and future directions for resolving disparities in health care access, quality, and health status at the community and national levels. Vulnerability risks will be defined, and implications for public health and social and human services delivery will be discussed. A comprehensive approach incorporating individual and community factors and current government and private initiatives will be reviewed. Also included will be interpretation of the existing knowledge and programs for application at the community level. Credit Level: G. Credit Hrs: 4.00

26PH723**Global and International Health Systems**

Course will provide an overview of global and national health systems to provide the student with a perspective on how national and other societies approach health and health care including cultural, economic and political systems. In addition to the World Health Organization, certain UN agencies and NGOs, national systems from the developed and under- developed world will be examined and contrasted, including those of England, Canada, China and Cuba. Credit Level: G. Credit Hrs: 4.00

26PH791**Public Health Practicum**

The Practicum is an individually-planned, supervised, and evaluated practice experience through which the student will develop an understanding of and appreciation for practice in a public health-related environment relevant to their chosen concentration. The typical practicum will occur at a public health agency with the student supervised on-site by a qualified preceptor who may have an adjunct faculty appointment. The Practicum site will be selected by the student from a listing of available, approved sites within their concentration of choice and must be approved by their advisor. Projects or problems identified during the Practicum may well lead directly into the Capstone. The practicum is set up with three sections. One for each concentration. Section 001 is for the health education and Section 002 is for the Leadership Concentration. Perm of Department. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

Public Health**26PH798****Public Health Capstone I**

The culminating experience is the mechanism by which the student demonstrates her/his ability to synthesize and integrate the knowledge and skills gained throughout the program. It allows the student to apply theory and principles in a situation that approximates some aspect of professional problem-solving practice and serves as a means by which faculty judge whether the student has mastered the body of knowledge and can demonstrate proficiency in the required competencies. Many different models are acceptable, including written or oral comprehensive examinations, supervised practice experiences, a major written paper such as a thesis or an applied research project, development of case studies, extended internship with portfolio, capstone seminars and others. The capstone will be proposed by the student with the approval of her/his advisor; a faculty supervisory committee will be identified to oversee the student's progress through the capstone. Students will typically register for the capstone across more than one term. Credit Level: G. Credit Hrs: 2.00-6.00

26PH799**Public Health Capstone II**

The culminating experience is the mechanism by which the student demonstrates her/his ability to synthesize and integrate the knowledge and skills gained throughout the program. It allows the student to apply theory and principles in a situation that approximates some aspect of professional problem-solving practice and serves as a means by which faculty judge whether the student has mastered the body of knowledge and can demonstrate proficiency in the required competencies. Many different models are acceptable, including written or oral comprehensive examinations, supervised practice experiences, a major written paper such as a thesis or an applied research project, development of case studies, extended internship with portfolio, capstone seminars, and others. The capstone will be proposed by the student with approval of her/his advisor; a faculty supervisory committee will be identified to oversee the student's progress through the Capstone. Students will typically register for the capstone across more than one term. Credit Level: G. Credit Hrs: 2.00-6.00

Pathobiology and Molecular Medicine**26PMM599****Introductory Immunology**

This course is intended to be a comprehensive introductory level immunology course for graduate students, advanced undergraduates, technicians and fellows. It will cover basic immunochemistry, cellular, and molecular immunology. While the course has no official prerequisites, students will find that some background in basic biochemistry, cell biology and molecular genetics would be desirable. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

26PMM721**Methods in Biomedical Research**

Rigorous laboratory course designed to familiarize the aspiring scientist in the biologic sciences with contemporary research methods (including molecular biologic techniques) as they are applied to the study of human disease. Credit Level: G. Credit Hrs: 5.00

26PMM884**Histology for Research**

A hands-on graduate level course for researchers who use transgenic mice as models of gene function or human disease. After taking this course, the student will have an understanding of the structure and function of all major organ systems, and will be proficient in the comparative anatomy of human and rodent tissues. Previous coursework in physiology is beneficial, but not required. Course may be taken for 1 credit (histologic identification only) or 3 credits (histologic identification and basic organ system physiology. Credit Level: G. Credit Hrs: 1.00-3.00

Pathobiology and Molecular Medicine**26PMM885****Basic Principles of Pathology**

Lecture and seminar with basic concepts of pathobiology, including cell degeneration, inflammation, toxic, immunologic, infectious, and environmental injury and neoplasia. Credit Level: G. Credit Hrs: 0.00-3.00

26PMM891**Research Rotation-Fall**

Laboratory work, readings in research aspects of pathobiology and molecular medicine. Specific area of concentration determined by consultation with staff. Credit Level: G. Credit Hrs: 3.00-5.00

26PMM892**Research Rotation-Winter**

See 26PMM891. Credit Level: G. Credit Hrs: 3.00-5.00

26PMM893**Research Rotation-Spring**

See 26PMM891. Credit Level: G. Credit Hrs: 3.00-5.00

26PMM894**Research Rotation-Summer**

See 26PMM891. Credit Level: G. Credit Hrs: 3.00-5.00

26PMM899**Immunology of Disease**

Basic cellular and molecular mechanisms of immunity as they relate to the pathogenesis of disease. Host responses to cancer and infection, congenital immunodeficiencies and AIDS. Prereq: 26PMM599. Credit Level: G. Credit Hrs: 2.00

26PMM900**Elective Rotation in Pharmaceutical Research**

Lecture, demonstration, clinical correlation and laboratory exercise covering pathology of organ systems. Credit Level: G. Credit Hrs: 5.00

26PMM971**Thesis Research in Pathobiology and Molecular Medicine**

Hours and credits to be arranged. Offered each quarter. Restricted to P&MM students who have advanced to candidacy. Credit Level: G. Credit Hrs: 1.00-15.00

26PMM979**Research Seminar**

A seminar-type class offering discussion of contemporary papers in experimental pathobiology and molecular medicine. Emphasis is on learning to read scientific literature, to interpret data, and to understand concepts of experimental design. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00

26PMM980**Research Journal Club**

This course is designed to teach students how to select and read scientific literature. It will include group discussions on the content of the literature including interpretation of data and experimental design and implementation. Credit Level: G. Credit Hrs: 1.00

26PMM981**Molecular Pathogenic Mycology**

The goal of this course is to provide information on the basic biology, genetics, and clinical importance of the major human fungal pathogens. Perm of Instructor. Credit Level: G. Credit Hrs: 2.00

26PMM983**Pathobiology of Lipid-related Disease**

Pathobiology of Lipid-related Disease is an intensive course designed for graduate students serious about obtaining a firm understanding of the basics of lipid structure/function, metabolism and the pathological conditions that arise from mishandling of lipids in the body. Perm of Instructor. Credit Level: G. Credit Hrs: 2.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Pathobiology and Molecular Medicine**26PMM984****Molecular Basis of Disease: Hematology/Oncology Disorders**

The purpose of this course is to provide a background in several important topics within Hem/Onc for students in the first year of the Pathobiology and Molecular Medicine curriculum, but it is also open to graduate students from other programs. Perm of Instructor. Credit Level: G. Credit Hrs: 2.00

26PMM989**MOLECULAR PATHOGENIC MYCOLOGY JOURNAL CLUB**

An advanced topics course that uses a journal club format to discuss recent advances in the basic biology and genetics of the major human fungal pathogens. Credit Level: G. Credit Hrs: 1.00

Physician Scientist Training Program**26PSTP741****Medical Histology and Cell Biology**

The normal microscopic structure of cells, tissues and organs with emphasis on structural-functional relationships. Credit Level: G. Credit Hrs: 3.00

26PSTP742**Gross Anatomy**

Study of the body walls, cavities, and lower limb, and head, neck, and upper limb of the human body in the dissecting room; supplemented by lectures. Credit Level: G. Credit Hrs: 3.00

26PSTP743**Biological Chemistry**

Chemistry of proteins, enzymes and other macromolecules; bioenergetics, cellular and mammalian metabolism, metabolic control mechanisms, molecular genetics and nutrition. Credit Level: G. Credit Hrs: 3.00

26PSTP744**Physiology**

Subcellular organelles, cells, tissues, organ systems and their integrated activity. Focus: cellular, muscle, cardiac, circulatory, renal, respiration, the physiology acid base, and the physiology of energy balance and temperature regulation. Credit Level: G. Credit Hrs: 3.00

26PSTP745**Clinical Foundations of Medical Practice I**

This course is designed to prepare MD/PhD students for their clinical years. Credit Level: G. Credit Hrs: 3.00

26PSTP746**Brain & Behavior I**

This course introduces the principles and concepts of nervous system organization: structural organization, cellular neurophysiology, neuropharmacology, sensory and motor systems, higher cortical functions. Credit Level: G. Credit Hrs: 9.00

26PSTP747**Pathology of Disease**

Lecture and seminar with basic concepts of pathobiology, including cell degeneration, inflammation, toxic, immunologic, infectious, and environmental injury and neoplasia. Credit Level: G. Credit Hrs: 3.00-4.00

26PSTP748**Pharmacology & Therapeutics**

Principles of drug action and the rational use of drugs in clinical disorders. Lectures, demonstrations, and conferences. Credit Level: G. Credit Hrs: 2.00-4.00

26PSTP749**Medical Microbiology**

A study of the biology of microorganisms with emphasis on important examples of infectious agents (bacteria, viruses and fungi); the principles of immunology with stress placed on the relationship between host and microbe; the role of microbiology in clinical medicine and surgery. Credit Level: G. Credit Hrs: 3.00-4.00

Physician Scientist Training Program**26PSTP750****Brain & Behavior II**

An overview of human neurological and psychiatric disorders through the various stages of human development, including seizures, schizophrenia, substance abuse, Alzheimer's disease, Parkinson's disease and other movement disorders. The course is offered during a four-week concentrated block of time. Credit Level: G. Credit Hrs: 3.00-4.00

26PSTP751**Clinical Foundations of Medical Practice II**

This is required for MD/PhD students. It is designed to prepare medical students for their clinical years. Credit Level: G. Credit Hrs: 3.00-4.00

26PSTP901**Seminar Medical Science**

Under the direction of a faculty advisor, students present, discuss and analyze current literature. Credit Level: G. Credit Hrs: 1.00

26PSTP902**Biomedical Science Journals**

See Seminar Medical Sciences, 26PSTP901. Credit Level: G. Credit Hrs: 1.00

26PSTP951**Research**

Basic science or clinical research. Credit Level: G. Credit Hrs: 1.00-12.00

26PSTP952**Research**

Basic science or clinical research. Credit Level: G. Credit Hrs: 1.00-12.00

26PSTP953**Research**

Basic science or clinical research. Credit Level: G. Credit Hrs: 1.00-12.00

26PSTP954**Research**

Basic science or clinical research. Credit Level: G. Credit Hrs: 1.00-12.00

Toxicology**26TOX771****Biological Effects of Air Pollutants**

Effects of ambient and industrial air pollutants on humans, laboratory animals and plants. Offered alternate years. Credit Level: G. Credit Hrs: 2.00

26TOX782**Survey of Environmental Toxicology**

Entry, action, and elimination of toxic chemicals; dose-response relationships; design, interpretation and application of the data. Credit Level: G. Credit Hrs: 3.00

26TOX791**Special Topics -- Current Methods in In Vito Toxicology**

Seminars or tutorial sessions dealing with special topics in toxicology as related to research and application basic to field of environmental health. Credit Level: G. Credit Hrs: 1.00-15.00

26TOX792**Special Topics - EGMT Core Course - BM Section**

See 26TOX791. Credit Level: G. Credit Hrs: 1.00-15.00

26TOX793**Special Topics - Historical Perspectives in Analytical Toxicology**

See 26TOX791. Credit Level: G. Credit Hrs: 1.00-15.00

26TOX794**Special Topics - Occupational Toxicology**

See 26TOX791. Credit Level: G. Credit Hrs: 1.00-15.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

26TOX795**Special Topics - Toxicology - Survey of Occupational and Environmental Toxicology II**

See 26TOX791. Credit Level: G. Credit Hrs: 1.00-15.00

26TOX837**Toxicology Seminar**

Required for graduate students in the Toxicology PhD program. Each student is required to present a research seminar based on literature or his/her own research. Credit Level: G. Credit Hrs: 1.00

26TOX838**Toxicology Seminar**

See 26TOX837. Credit Level: G. Credit Hrs: 1.00

26TOX839**Toxicology Seminar**

See 26TOX837. Credit Level: G. Credit Hrs: 1.00

26TOX841**Development of Scientific Hypotheses**

Discussions of current research articles in the fields of environmental genetics, molecular toxicology, and molecular biology. Credit Level: G. Credit Hrs: 2.00

26TOX848**Introduction to Bioinformatics and Biocomputing**

An introduction to the principles of organization and analysis of biological information using computational methods. Comparison of internet resources for biological research, including molecular structure and function determination and phylogenetic analysis. Credit Level: G. Credit Hrs: 3.00

26TOX851**Environmental Genetics and Molecular Toxicology (EGMT)Core Course**

Focus on gene-toxicant interactions. Overview of epidemiology; introduction to the principles of pharmacogenetics, exposure assessment, and biotransformation. Credit Level: G. Credit Hrs: 4.00

26TOX852**Environmental Genetics and Molecular Toxicology (EGMT) Core Course**

Focus on gene-toxicant interactions. See 26TOX851. Need permission of instructor or class 26TOX851. Credit Level: G. Credit Hrs: 4.00

26TOX878**Applied Risk Assessment**

Topics include exposure-response, dose-response, risk characterization of carcinogenic and non-cancer outcomes, and uncertainty assessment. Computer programs such as Crystal Ball and GIS-ArcView are used to evaluate risk using real-world scenarios for lead and organic solvents. Credit Level: G. Credit Hrs: 3.00

26TOX883**Environmental Mutagenesis and Carcinogenesis**

Lectures on current concepts of the mechanism of action of environmental mutagens and carcinogens, and their application in detection and testing. Credit Level: G. Credit Hrs: 3.00

26TOX885**Neurobehavioral Toxicology**

Examinations of behavioral, neurophysiological and neurochemical effects associated with environmental toxicants. Credit Level: G. Credit Hrs: 3.00

26TOX890**Mechanisms in Environmental Chemical Carcinogenesis**

Lecture and discussion of chemical carcinogens in the environment, trends in research, mechanisms of action of carcinogens at the cellular

Toxicology**26TOX890****Mechanisms in Environmental Chemical Carcinogenesis**

and molecular level, and methods of analysis. Credit Level: G. Credit Hrs: 3.00

26TOX891**Special Topics - Toxicology**

See 26TOX791. Credit Level: G. Credit Hrs: 1.00-15.00

26TOX892**Special Topics - Toxicology**

See 26TOX791. Credit Level: G. Credit Hrs: 1.00-15.00

COLLEGE OF NURSING

COURSE DESCRIPTIONS

(29) College of Nursing

2008 - 2009

College of Nursing 1

Advanced Nursing - Adult Health

29ANAH505

Bridging the Gap in Oncology Nursing Care

The course is designed to enhance nursing students' knowledge regarding the health patterns and care of patients with cancer. Issues and trends in cancer care as well as nursing interventions specific to selected cancers will be explored. Topics will include carcinogenesis, treatment modalities, symptom management, delivery systems, and nursing intervention strategies. Cancer prevention and early detection in diverse cultural client systems will be investigated. Scholarly inquiry will be used to analyze the care of oncology patients in various environmental contexts. Emphasis will be placed on developing the professional nursing role related to the care of oncology client systems. Prereq: 29NURS303. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

29ANAH506

Integrative Therapies for Health Sciences

An interdisciplinary course introducing students in the health sciences to complementary and alternative therapies. This course covers the history, theoretical and physiological foundation, utilization and contraindications for use of an array of popular integrative therapies. Information is included on how to integrate complementary and alternative therapies into clinical practice. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00

29ANAH802

Special Populations in Primary Care

This course provides an in-depth exploration of the special health care requirements of specific populations. An examination of particular health care issues that are unique to the adolescent, women, and the elderly is conducted. Each population is addressed by focusing on distinctive topics that incorporate the development of advanced therapeutic interventions that can be used in primary care and long-term care. Credit Level: G. Credit Hrs: 2.00

29ANAH803

Special Topics in Acute Care

This course provides in-depth exploration of advanced therapeutic nursing interventions that are designed to promote, maintain, or restore the health of client systems across the adult lifespan with acute health pattern disruptions. The application of technology, informatics, and select therapies is explored relative to adult client systems within the acute care environmental context. Students analyze the purpose, cost-benefits, selection criteria, and outcomes for each therapeutic nursing intervention. Selected symptoms reported by adult client systems with acute illness are used as exemplars for the development of advanced therapeutic nursing interventions. Current theory and research related to the interventions are examined. Coreq: 29NURS825, 29NURS813. Credit Level: G. Credit Hrs: 3.00

29ANAH804

Advanced Adult Pathophysiology

The course builds upon the student's pre-existing knowledge of the pathophysiology of disease in adults and the normal health patterns of aging. The focus of the course is an in-depth consideration of alterations that occur as variations in health patterns across the life span. It explores the underlying cellular mechanisms that form the basis for advanced nursing practice to manage the variations in health patterns of adult client systems. The theoretical basis of evolving health patterns in the aging populations is explored. Contemporary research in biochemical processes and cellular dysfunction is emphasized. Students have the opportunity to apply theoretical content in an associated clinical experience. Prereq: 29NURS811. Credit Level: G. Credit Hrs: 2.00

29ANAH805

Advanced Adult Acute Care Nursing I

This is a seminar which provides students with the theoretical base to

Advanced Nursing - Adult Health

29ANAH805

Advanced Adult Acute Care Nursing I

manage the care of acutely ill client systems across the adult lifespan with selected health pattern alterations. Students will focus on the maintenance and restoration of client system's health patterns as transition occurs across acute and ambulatory care environmental contexts. Client systems with selected health pattern alterations reflecting the major adult mortality and morbidities will be discussed. Students will focus on the management of single disorders that affect adult client systems as well as more complex problems. Ethical considerations and role components in advanced nursing practice will be addressed within the context of holistic nursing care. Critique of current nursing and related science research, serving as the basis for care management decision-making is emphasized. This course includes at least 0.5 (5 clock hours) of pharmacology content. Prereq: 29NURS825, 29NURS813. Credit Level: G. Credit Hrs: 2.00

29ANAH806

Well Women and Special Populations for Advanced Nursing Practice

Examines the care of the well woman across the lifespan and prepares students to assume professional practice roles and responsibilities in assessing the healthy women and adolescents. Includes an exploration of the special health care requirements and culture of specific populations with an examination of particular health care issues that are unique to the adolescent, women, and the elderly. Each population will be addressed by focusing on distinctive topics that incorporate the development of advanced therapeutic interventions that can be utilized in primary care and long-term care. Prereq: 29NURS812. Credit Level: G. Credit Hrs: 3.00

29ANAH807

Advanced Adult Acute Care Nursing II

This is the second of two courses which provides students with the theoretical base to manage the care of acutely ill client systems across the adult lifespan with selected health pattern alterations. Students will focus on the maintenance and restoration of client system's health patterns as transition occurs across acute care environmental contexts. Client systems with selected health pattern alterations reflecting the major adult mortality and morbidities will be discussed. Students will focus on the management of single disorders that affect adult client systems as well as more complex problems. Ethical considerations and role components in advanced nursing practice will be addressed within the context of holistic nursing care. Current nursing and related science research serve as the basis for evidence based practice care. This course includes at least 0.5 credits (5 clock hours) of pharmacology content. Prereq: 29NURS825, 29NURS813. Credit Level: G. Credit Hrs: 2.00

29ANAH808

Adult Health Assessment and Differential Diagnosis

(2 didactic and 3 clinical contact hours per week). Develops diagnostic reasoning skill and incorporates the analysis of history data, physical findings, and diagnostic studies that contribute to the formulation of differential diagnoses of the major health problems. Includes a clinical practicum. Credit Level: G. Credit Hrs: 3.00

29ANAH810

Advanced Acute Care Practicum I

This practicum is the first of three sequential clinical practica in advanced acute care nursing of adults. Students engage in comprehensive assessment, diagnosis and care planning activities for client systems with health pattern alterations. The focus of the clinical experiences is on the selection and implementation of extant therapeutic nursing interventions, the beginning design of newly required therapeutic interventions, and discernment of measurable outcome criteria for both. The student engages in beginning

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Advanced Nursing - Adult Health**29ANAH810****Advanced Acute Care Practicum I**

implementation of the roles inherent in advanced nursing practice. Clinical experiences take place in various environmental contexts including acute care and primary care. Prereq: 29NURS811, 29NURS812. Coreq: 29ANAH804, 29ANAH808, 29ANAH811, 29NURS813. Credit Level: G. Credit Hrs: 3.00

29ANAH811**Advanced Adult Health Nursing I**

Provides the theoretical base to manage the care of adults with selected health pattern alterations as transitions occur across acute and ambulatory care. Ethical considerations and role components in advanced nursing practice are addressed within the context of holistic nursing care. Credit Level: G. Credit Hrs: 3.00

29ANAH812**Advanced Adult Health Nursing II**

Prepares students to manage the health care of adults with major mortality and morbidity health pattern alterations that directly affect multiple systems or are more complex. Focus is on the promotion, maintenance and restoration of adult health patterns as transition occurs across acute and ambulatory care. Credit Level: G. Credit Hrs: 3.00

29ANAH813**Advanced Adult Health Nursing Practicum I**

(9 clinical contact hours per week). Provides the opportunity for students to engage in comprehensive assessment, diagnosis and care planning activities for adults with health pattern alterations and implementation of the roles inherent in advanced nursing practice. Credit Level: G. Credit Hrs: 3.00

29ANAH814**Advanced Adult Health Nursing Practicum II-Part 1**

(9 clinical contact hours/week). Focuses on the selection and implementation of therapeutic nursing intervention, the design of newly required therapeutic interventions, and formulation of measurable outcome criteria. Collaboration as a member of the multidisciplinary health care team is emphasized. Credit Level: G. Credit Hrs: 3.00

29ANAH815**Advanced Adult Health Nursing Practicum II-Part 2**

(9 clinical contact hours/week including 1 hour of seminar). This practicum is a continuation of 29ANAH814 and may be taken concurrently or sequentially. Credit Level: G. Credit Hrs: 3.00

29ANAH818**Advanced Adult Health Nursing Practicum III-Part 1**

Focuses on comprehensive assessment, diagnosis and care planning activities for adults with health pattern alterations and implementation of the roles inherent in advanced nursing practice. Clinical experiences will take place in mutually negotiated setting. Prereq: 29ANAH812, 29ANAH815. Credit Level: G. Credit Hrs: 4.00

29ANAH819**Advanced Adult Health Nursing Practicum III-Part 2**

This practicum is a continuation of 29ANAH818 and may be taken concurrently or sequentially. Credit Level: G. Credit Hrs: 4.00

29ANAH820**Advanced Adult Health Nursing III**

This is the third of three sequential seminars that provides students with the theoretical base to manage the care of client systems across the adult life span with selected health pattern alterations. Students focus on the promotion, maintenance, and restoration of client system's health patterns as transition occurs across acute and ambulatory care environmental contexts. Client systems with selected health pattern alterations reflecting the major adult mortality and morbidities or the most common health problems encountered by advanced practice nurses are discussed. Students focus on the management of single disorders that affect adult client systems. Ethical considerations and role components in advanced nursing practice are addressed within the

Advanced Nursing - Adult Health**29ANAH820****Advanced Adult Health Nursing III**

context of holistic nursing care. Critique of current nursing and related science research, serving as the basis for care management decision-making is emphasized. Prereq: 29ANAH812. Credit Level: G. Credit Hrs: 3.00

29ANAH821**Advanced Acute Care Practicum II: Part 1**

The practicum is the second of three sequential clinical practica in advanced acute care nursing. Students engage in comprehensive assessment, diagnosis, and care planning activities for client systems with common health pattern alterations. The clinical experiences focus on the selection and implementation of extant therapeutic nursing interventions, the continued design of newly required therapeutic interventions, and formulation of measurable outcome criteria related thereto. Collaboration as member of the multidisciplinary health care team is emphasized. The student engages in implementation of the roles inherent in advanced nursing practice. Clinical experiences take place in various environmental contexts including acute care and ambulatory care. Prereq: 29ANAH810. Coreq: 29ANAH801, 29ANAH803, 29ANAH807, 29ANAH812. Credit Level: G. Credit Hrs: 3.00

29ANAH822**Advanced Acute Care Practicum II: Part 2**

The course is a continuation of Advanced Acute Care Nursing Practicum II, Part 1, 29ANAH821. Prereq: 29ANAH810. Coreq: 29ANAH821. Credit Level: G. Credit Hrs: 3.00

29ANAH823**Advanced Acute Care Practicum III: Part 1**

The practicum is the third in a series of three advanced acute care practica. Students engage in comprehensive assessment, diagnosis and care planning activities for client systems with health pattern alterations. The clinical experiences focus on the selection and implementation of extant therapeutic nursing interventions, the design of newly required therapeutic interventions, and formulation of measurable outcome criteria related thereto. Collaboration as a peer on the multidisciplinary health care team is emphasized. The students implement the roles inherent in advanced nursing practice. Clinical experiences take place in mutually negotiated settings. Prereq: 29ANAH822. Coreq: 29ANAH820. Credit Level: G. Credit Hrs: 4.00

29ANAH824**Advanced Acute Care Practicum III: Part 2**

The practicum is the continuation of Advanced Acute Care Practicum III, Part 1. Prereq: 29ANAH822. Coreq: 29ANAH820, 29ANAH823. Credit Level: G. Credit Hrs: 4.00

29ANAH825**Advanced Nursing Practice in Anesthesia I**

Overview course that integrates physiology, applied physics and related mathematics. Topics include history, legal aspects, preoperative assessment, preinduction preparation, environmental safety, use of equipment, and anesthesia delivery systems. Credit Level: G. Credit Hrs: 7.00

29ANAH826**Advanced Nursing Practice in Anesthesia II**

Focuses on the physiological effects of anesthetic agents on the health patterns of client systems. Emphasizes nursing interventions and measurable client system outcomes. Credit Level: G. Credit Hrs: 4.00

29ANAH827**Advanced Nursing Practice in Anesthesia III**

Focuses on anesthesia interventions and outcomes for children and pregnant women. Emphasizes maternal physiology, neonatal care and resuscitation, management of obstetrical complications, and special needs of children undergoing anesthesia. Examines the properties of anesthetic, accessory, and therapeutic agents. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Advanced Nursing - Adult Health**29ANAH828****Advanced Nursing Practice in Anesthesia IV**

Focuses on anesthesia interventions and outcomes for client systems requiring surgical intervention for complex alterations in health patterns. Addresses professional, management, financial, ethical and legal aspects of anesthesia nursing practice. Prereq: 29ANAH827. Credit Level: G. Credit Hrs: 4.00

29ANAH829**Advanced Pharmacology for Advanced Nursing Practice in Anesthesia**

Discusses anesthetic and analgesic agents used in complex situations. Focuses on the pharmacodynamics, pharmacokinetics, structural activity relationships, effects, toxic/adverse reactions and associated treatments and pharmacotherapeutics. Credit Level: G. Credit Hrs: 3.00

29ANAH830**Advanced Nursing Practice in Anesthesia Practicum I**

Focuses on preoperative evaluation of client systems prior to anesthesia administration, development of an anesthesia plan of care with focus on therapeutic nursing interventions and outcomes, and administration of anesthesia to selected client systems with altered health patterns. Credit Level: G. Credit Hrs: 3.00

29ANAH831**Advanced Nursing Practice in Anesthesia II**

Provides for increasing responsibility for anesthesia interventions in the perioperative period. Focus is on routine surgical procedures, a variety of modalities, and non-complex alteration in client system health patterns. Credit Level: G. Credit Hrs: 9.00

29ANAH832**Advanced Nursing Practice in Anesthesia Practicum III**

Continues development of the professional role with anesthesia interventions for client systems with varying health patterns that require surgery using general and regional anesthetic techniques. Credit Level: G. Credit Hrs: 11.00

29ANAH833**Advanced Nursing Practice in Anesthesia Practicum IV**

Focuses on anesthesia interventions and evaluation of outcomes for children and pregnant women in community hospital settings. Opportunities for emergency call for client systems with unanticipated alterations in health patterns of an emergent nature. Prereq: 29ANAH832. Credit Level: G. Credit Hrs: 9.00

29ANAH834**Adult Ambulatory Care for Advanced Nursing Practice: Seminar I**

This seminar is the first of three courses that prepares nurses for professional roles in advanced nursing practice. It is taken in conjunction with the clinical practicum and provides an opportunity to discuss clinical cases while demonstrating the ability to apply the didactic material to practice. Coreq: 29ANAH813. Credit Level: G. Credit Hrs: 1.00

29ANAH835**Adult Ambulatory Care for Advanced Nursing Practice: Seminar II**

This seminar is the second of three courses that prepares nurses for professional roles in advanced nursing practice. It is taken in conjunction with the clinical practicum and provides an opportunity to discuss clinical cases while demonstrating the ability to apply the didactic material to practice. Coreq: 29ANAH814, 29ANAH815. Credit Level: G. Credit Hrs: 1.00

29ANAH836**Adult Ambulatory Care for Advanced Nursing Practice: Seminar III**

This seminar is the last of three courses that prepares nurses for professional roles in advanced nursing practice. It is taken in conjunction with the clinical practicum and provides an opportunity to discuss clinical cases while demonstrating the ability to apply the

Advanced Nursing - Adult Health**29ANAH836****Adult Ambulatory Care for Advanced Nursing Practice: Seminar III**

This course provides elective clinical practice opportunities for nurse anesthesia students. Credit Level: G. Credit Hrs: 1.00

29ANAH844**Independent Study in Nurse Anesthesia Practice**

This course provides elective clinical practice opportunities for nurse anesthesia students. Credit Level: G. Credit Hrs: 1.00-5.00

29ANAH845**Independent Study in Nurse Anesthesia Practice**

This course provides elective clinical practice opportunities for nurse anesthesia students. Credit Level: G. Credit Hrs: 1.00-5.00

29ANAH846**Advanced Nursing Practice in Anesthesia Clinical Internship I**

Provides concentrated clinical experience in anesthesia interventions with a variety of clients in various perioperative environmental contexts. Emphasizes legal, ethical and financial considerations inherent in the advanced nursing practice role in anesthesia. Credit Level: G. Credit Hrs: 1.00

29ANAH847**Advanced Nursing Practice in Anesthesia Clinical Internship II**

Provides continuing concentrated clinical experience in implementing anesthesia interventions and evaluating outcomes with implementation of research findings. Emphasizes interventions with clients experiencing complex alterations in health patterns in a variety of perioperative environmental contexts. Prereq: 29ANAH846. Credit Level: G. Credit Hrs: 1.00

29ANAH848**Advanced Nursing Practice in Anesthesia Clinical Internship III**

Culminating concentrated clinical experience that provides opportunity to plan and select/design nursing interventions in anesthesia and evaluate outcomes in all phases of perioperative care. Emphasizes clients with a variety of altered, complex, and atypical health patterns. Prereq: 29ANAH847. Credit Level: G. Credit Hrs: 1.00

29ANAH849**Advanced Nursing Practice in Anesthesia Practicum V**

Provides intensive clinical practice in anesthesia interventions. Clinical experiences in various specialties with clients with increasingly complex alterations in health patterns requiring more expertise in anesthesia management. Credit Level: G. Credit Hrs: 12.00

29ANAH858**Acute Care Seminar I**

This seminar is the first of three courses that prepares nurses for professional roles in advanced nursing practice. It is taken in conjunction with the clinical practicum and provides an opportunity to discuss clinical cases while demonstrating the ability to apply the didactic material to practice. Coreq: 29ANAH810. Credit Level: G. Credit Hrs: 1.00

29ANAH859**Acute Care Seminar II**

This seminar is the second of three courses that prepares nurses for professional roles in advanced nursing practice. It is taken in conjunction with the clinical practicum and provides an opportunity to discuss clinical cases while demonstrating the ability to apply the didactic material to practice. Prereq: 29ANAH858. Coreq: 29ANAH821, 29ANAH822. Credit Level: G. Credit Hrs: 1.00

29ANAH860**Acute Care Seminar III**

This seminar is the last of three courses that prepares nurses for professional roles in advanced nursing practice. It is taken in conjunction with the clinical practicum and provides an opportunity to discuss clinical cases while demonstrating the ability to apply the didactic material to practice. Prereq: 29ANAH859. Coreq: 29ANAH823, 29ANAH824. Credit Level: G. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Advanced Nursing - Adult Health**29ANAH860****Acute Care Seminar III**

This seminar is the last of three courses that prepares nurses for professional roles in advanced nursing practice. It is taken in conjunction with the clinical practicum and provides an opportunity to discuss clinical cases while demonstrating the ability to apply the didactic material to practice. Prereq: 29ANAH859. Coreq: 29ANAH823, 29ANAH824. Credit Level: G. Credit Hrs: 1.00

29ANAH861**Advanced Acute Care Nursing Internship I**

The internship is the first of five sequential clinical courses in the Post-Master Certificate Acute Care Nurse Practitioner Program. Students engage in comprehensive assessment, diagnosis and care planning activities for client systems with health pattern alterations. The focus of the clinical experiences is on the selection and implementation of extant therapeutic nursing interventions, the beginning design of newly required therapeutic interventions, and discernment of measurable outcome criteria for both. The students engage in beginning implementation of the roles inherent in practice as a nurse practitioner. Clinical experiences take place in various environmental contexts including acute and ambulatory care settings. Prereq: 29NURS811, 29NURS812. Coreq: 29NURS813, 29ANAH804, 29ANAH808. Credit Level: G. Credit Hrs: 1.00

29ANAH862**Advanced Acute Care Nursing Internship II**

The internship is the second of five sequential clinical courses in the Post-Master's Certificate Acute Care Nurse Practitioner Program. Students engage in comprehensive assessment, diagnosis and care planning activities for client systems with health pattern alterations. The focus of the clinical experiences is on the selection and implementation of extant therapeutic nursing interventions, the beginning design of newly required therapeutic interventions, and discernment of measurable outcome criteria for both. The students engage in beginning implementation of the roles inherent in practice as a nurse practitioner. Clinical experiences take place in various environmental contexts including acute and ambulatory care settings. Coreq: 29ANAH801, 29ANAH803, 29ANAH807, 29ANAH861. Credit Level: G. Credit Hrs: 1.00

29ANAH863**Advanced Acute Care Nursing Internship III**

The internship is the third of five sequential clinical courses in the Post-Master's Certificate Acute Care Nurse Practitioner Program. Students engage in comprehensive assessment, diagnosis and care planning activities for client systems with health pattern alterations. The focus of the clinical experiences is on the selection and implementation of extant therapeutic nursing interventions, the beginning design of newly required therapeutic interventions, and discernment of measurable outcome criteria for both. The students engage in beginning implementation of the roles inherent in practice as a nurse practitioner. Clinical experiences take place in various environmental contexts including acute and ambulatory care settings. Coreq: 29ANAH801, 29ANAH803, 29ANAH807, 29ANAH862. Credit Level: G. Credit Hrs: 1.00

29ANAH864**Advanced Acute Care Nursing Internship IV**

The internship is the fourth of five sequential clinical courses in the Post-Master's Certificate Acute Care Nurse Practitioner Program. Students engage in comprehensive assessment, diagnosis and care planning activities for client systems with health pattern alterations. The focus of the clinical experiences is on the selection and implementation of extant therapeutic nursing interventions, the beginning design of newly required therapeutic interventions, and discernment of measurable outcome criteria related thereto. Collaboration as a peer on the multidisciplinary health care team is emphasized. Students implement the roles inherent in practice as a nurse practitioner. Clinical experiences take place in mutually negotiated settings. Coreq: 29ANAH863. Credit Level: G. Credit Hrs: 1.00

Advanced Nursing - Adult Health**29ANAH865****Advanced Acute Care Nursing Internship V**

The internship is the fifth of five sequential clinical courses in the Post-Master's Certificate Acute Care Nurse Practitioner Program. Students engage in comprehensive assessment, diagnosis and care planning activities for client systems with health pattern alterations. The focus of the clinical experiences is on the selection and implementation of extant therapeutic nursing interventions, the beginning design of newly required therapeutic interventions, and discernment of measurable outcome criteria related thereto. Collaboration as a peer on the multidisciplinary health care team is emphasized. Students implement the roles inherent in practice as a nurse practitioner. Clinical experiences take place in mutually negotiated settings. Coreq: 29ANAH864. Credit Level: G. Credit Hrs: 1.00

29ANAH870**Adult Health Nursing Internship I**

Internship for clinical nursing practice in adult health nursing. Credit Level: G. Credit Hrs: 1.00

29ANAH871**Adult Health Nursing Internship II**

Internship for clinical nursing practice in adult health nursing. Credit Level: G. Credit Hrs: 1.00

29ANAH872**Adult Health Nursing Internship III**

Internship for clinical nursing practice in adult health nursing. Credit Level: G. Credit Hrs: 1.00

29ANAH873**Adult Health Nursing Internship IV**

Internship for clinical nursing practice in adult health nursing. Credit Level: G. Credit Hrs: 1.00

29ANAH874**Adult Health Nursing Internship V**

Internship for clinical nursing practice in adult health nursing. Credit Level: G. Credit Hrs: 1.00

Advanced Nursing - Community Health**29ANCH501****Health Policy Topics (Gen Ed)**

This elective course develops knowledge and skill to systematically identify and analyze health care literature pertinent to health policy formulation. The effects of health policy decisions on health care delivery, providers, and consumers are examined with emphasis on nursing practice. Health policy topics may vary with course offering. Approved for General Education credit. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

29ANCH800**Family Health Nursing: Theory and Counseling in the Health Patterns of Families.**

Focuses on health patterns of families, structure, dynamics, culture and coping strategies in a variety of environmental contexts. Presents health promotion and illness prevention interventions and role in consultation and referral of families. Prereq: 29NURS800. Credit Level: G. Credit Hrs: 3.00

29ANCH801**Family Health Nursing: Therapeutic Interventions in the Health Patterns of Women and Children**

Presents content for health promotion, health maintenance, differential diagnosis and management, and outcome evaluation of health pattern variations in women of childbearing age and of children. Emphasis is on specialized knowledge necessary to provide primary care, including consultation and referral. Credit Level: G. Credit Hrs: 4.00

29ANCH802**Family Health Nursing: Advanced Clinical Pharmacology**

Focuses on safe selection of pharmacologic agents for the management of health pattern alterations of adults and children.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Advanced Nursing - Community Health**29ANCH802****Family Health Nursing: Advanced Clinical Pharmacology**

Therapy options based on pharmacologic protocols, lifestyle and cost-effectiveness issues, and environmental contexts are explored. Credit Level: G. Credit Hrs: 2.00

29ANCH803**Family Health Nursing I: Therapeutic Interventions in Adults with Acute Health Patterns Variations**

Focuses on differential diagnosis, management, and outcome evaluation of common acute adult health pattern variations. Topics include health screening, risk assessment, health promotion, and health counseling. Prerequisites: Health Assessment for Advanced Nursing Practice. Credit Level: G. Credit Hrs: 4.00

29ANCH804**Family Health Nursing II: Therapeutic Interventions in Adults with Chronic Health Pattern Variations**

Focuses on differential diagnosis, management, and outcome evaluation of common chronic adult health pattern variations. Topics include health screening, risk assessment, health promotion, health maintenance, and health counseling. Credit Level: G. Credit Hrs: 4.00

29ANCH805**Family Health Nursing: Practicum I**

This practicum is the first in a series of three designed to provide clinical experiences for the advanced nursing practice role in the care of individuals and families. Students will apply knowledge from health assessment, pharmacology, and family health nursing courses. A clinical preceptor will supervise students in ambulatory settings providing therapeutic interventions to a variety of individual and family client systems from diverse cultures across the lifespan in various environmental contexts. Prereq: 29ANCH824, 29NURS813. Coreq: 29NURS821. Credit Level: G. Credit Hrs: 6.00

29ANCH806**Family Health Nursing: Practicum II**

This course is the second in a series of three designed to provide experiences for the advanced nursing practice role in the care of individuals and families. A clinical preceptor will supervise students in ambulatory settings providing therapeutic interventions to a variety of healthy individuals and families, and in those experiencing episodic or chronic health pattern variations. Coreq: 29NURS823. Credit Level: G. Credit Hrs: 7.00

29ANCH807**Family Health Nursing: Practicum III**

This course, a continuation of Family Health Nursing: Practicum II, is designed to provide experiences for the advanced nursing practice role in the care of individuals and families. Prereq: 29ANCH806, 29NURS823. Credit Level: G. Credit Hrs: 7.00

29ANCH808**Family Nursing Seminar I**

This seminar is the first of three courses that prepares nurses for professional roles in advanced nursing practice. It is taken in conjunction with the clinical practicum and provides an opportunity to discuss clinical cases while demonstrating the ability to apply the didactic material to practice. Coreq: 29ANCH805. Credit Level: G. Credit Hrs: 1.00

29ANCH809**Family Nursing Seminar II**

This seminar is the second of three courses that prepares nurses for professional roles in advanced nursing practice. It is taken in conjunction with the clinical practicum and provides an opportunity to discuss clinical cases while demonstrating the ability to apply the didactic material to practice. Prereq: 29ANCH805. Coreq: 29ANCH806. Credit Level: G. Credit Hrs: 1.00

29ANCH810**Introduction to Occupational Health Nursing**

Introduces student to foundational concepts of occupational health and

Advanced Nursing - Community Health**29ANCH810****Introduction to Occupational Health Nursing**

safety, emphasizing the role of the occupational health nurse. Credit Level: G. Credit Hrs: 3.00

29ANCH811**Managing Common Occupational and Environmental Diseases and Injuries**

This course provides a foundation for understanding common occupational and environmental diseases and injuries. Concepts in epidemiology, pathophysiology, toxicology, and nursing will be used to assess workers and their worksites, and to plan interventions. Emphasis will be given to using the team approach to assess and manage occupational and environmental diseases and injuries. Credit Level: G. Credit Hrs: 3.00

29ANCH812**Advance Practice in Occupational Health Nursing Practicum**

Field experience with a worker population in an occupational setting to identify potential work related illnesses and injuries, strategies for prevention, implementation of strategies, and evaluation of outcomes. Prereq: 29ANCH811. Credit Level: G. Credit Hrs: 2.00

29ANCH813**Managing Health and Safety Programs in the Workplace**

This synthesis course focuses on the development, implementation, and evaluation of occupational and environmental health services and programs. Students apply their knowledge of occupational health diseases and injuries, program planning, health promotion, and health behavior theory to the workplace. Discussion focuses on common occupational and environmental health services and programs that use prevention and intervention strategies to reduce risk for workers. Emphasis will be given on using the multidisciplinary team to develop, implement, and evaluate health services and programs. Prereq: 29NURS806, 29NURS814, 29NURS811. Credit Level: G. Credit Hrs: 3.00

29ANCH814**Practicum in Occupational Health Nursing**

This course provides a field experience focused on developing occupational health nursing skills within a specific work setting. A service project is negotiated with a preceptor, completed, and presented at the completion of the course. A summary evaluation of the experience is presented to the professor and preceptor. Prereq: 29ANCH810. Credit Level: G. Credit Hrs: 3.00

29ANCH815**Leadership in Occupational Health Practicum**

The focus of this practicum is the assessment, management and evaluation of a project related to occupational health and safety. Application of nursing theory and research within an occupational health setting or regulatory body will be emphasized, along with decision making, budgeting, human resources and health cost management. The need to use an interdisciplinary approach to meeting the health and safety needs of diverse worker populations within the culture of the organization will also be emphasized. Prereq: 29ANCH813. Credit Level: G. Credit Hrs: 5.00

29ANCH817**Internship in Occupational Health Nursing**

Concentrated field experience in selected areas of advance practice occupational health nursing. Credit Level: G. Credit Hrs: 5.00

29ANCH819**Practicum I: Information Systems**

This practica course is designed to assist students in the development of skills in information technology required for the tracking of populations, management of services and evaluation of interventions. Credit Level: G. Credit Hrs: 2.00

29ANCH821**Family Health Nursing Clinical Internship I**

Internship for clinical nursing practice in family health nursing. Credit

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Advanced Nursing - Community Health**29ANCH821****Family Health Nursing Clinical Internship I**

29ANCH823**Family Health Nursing Clinical Internship III**

Internship for clinical nursing practice in family health nursing. Credit

Level: G. Credit Hrs: 2.00

29ANCH824**The Care of Well Women and Children for Family Nursing Practice**

This course focuses on the care of well women and children across the lifespan. It prepares students to assume professional practice roles and responsibilities in health promotion, health maintenance and management of common health pattern variations pertaining to gynecological and primary care of well women and children. Emphasis is on family-centered, community based health care for diverse client systems. Prereq: 29NURS820, 29NURS812. Credit Level: G. Credit Hrs: 3.00

29ANCH841**Nursing Leadership - Targeting Population Needs**

During this practicum students will analyze aspects of organizations/communities relative to the patient/client populations they serve. Students will apply appropriate theories to evaluating the structure, organization, culture, climate, and other relevant aspects of their chosen organization or community. Emphasis is placed on the development and application of skills used in assessing organizational/community dynamics for related population groups in a variety of environmental and organizational contexts. Credit Level: G. Credit Hrs: 3.00-5.00

29ANCH842**Family Nursing Seminar III**

This seminar is the last of three courses that prepares nurses for professional roles in advanced nursing practice. It is taken in conjunction with the clinical practicum and provides an opportunity to discuss clinical cases while demonstrating the ability to apply the didactic material to practice. Prereq: 29ANCH806. Coreq: 29ANCH807. Credit Level: G. Credit Hrs: 1.00

29ANCH851**Epidemiology for Advanced Nursing Practice**

This course is designed to develop the graduate level nurse's ability to apply epidemiology concepts to clinical practice when developing populations based programs or services. Emphasis is placed on the ability to analyze and critique epidemiologic studies related to clinical practice and population focused health planning and care. Credit Level: G. Credit Hrs: 3.00

29ANCH852**Health Promotion and Risk Reduction**

This course is designed to assist students in developing skills and the ethical foundation necessary for assessing a population based on risk for disease and injury and to evaluate the health patterns of populations. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00-4.50

29ANCH853**Community Health Practicum I: Interdisciplinary Health Planning**

Based on community/public health nursing practice models, students will collaborate with an interdisciplinary team to make programmatic recommendations based on analysis of community-focused population data. Prereq: 29ANCH851. Credit Level: G. Credit Hrs: 5.00

29ANCH854**Foundations of Public Health Nursing**

This course provides the foundation for advanced practice as a public

Advanced Nursing - Community Health**29ANCH854****Foundations of Public Health Nursing**

health nurse. The course helps the student build on core public health theory and functions to develop knowledge and skills within the scope and standards of the specialty. Credit Level: G. Credit Hrs: 3.00

29ANCH855**Practicum II: Community Assessment**

During this practicum students will apply appropriate theories and frameworks to assess the health status and determinants of health for a community. Students will analyze data related to health trends and develop a community diagnosis that incorporates multiple determinants of health for the total community/selected populations. Credit Level: G. Credit Hrs: 3.00-7.00

29ANCH856**Global Health**

This course is designed to assist the graduate student in the development of skills in trending population health data over time from a global perspective. These skills will assist the student in identifying emerging issues from the local to the global level related to the health patterns of populations. In addition the course is aimed at helping the student develop skills related to terrorism, natural disasters, environmental health concerns, emergent health conditions, and poverty. Credit Level: G. Credit Hrs: 3.00

29ANCH857**Advanced Practice Community Health Nursing Seminar**

Based on community/public health nursing practice models students will evaluate the multiple strategies for intervention at the population level within a community grassroots framework and a public health/agency framework. Credit Level: G. Credit Hrs: 3.00

29ANCH859**Practica III: Health Planning Implementation and Evaluation**

Students will develop a population-focused health program relevant to the promotion of health for an identified population/community and select an appropriate implementation and evaluation plan. Credit Level: G. Credit Hrs: 5.00

29ANCH860**Practica IV: Public Health Nursing Leadership**

Students will investigate the role of the public health nurse as a leader in the promotion of the public's health. The course will focus on public health policy, communication and management strategies as they pertain to the delivery of population-focused care. Credit Level: G. Credit Hrs: 3.00-7.00

29ANCH872**Interdisciplinary Practicum I**

Opportunities are provided to interact with members of an interdisciplinary team for the purpose of team building to accomplish a commonly identified goal. Credit Level: G. Credit Hrs: 2.00

29ANCH879**Community Health Internship**

Internship for clinical nursing practice in community health nursing. Credit Level: G. Credit Hrs: 2.00-10.00

29ANCH882**Gerontological Nursing Clinical Internship**

Internship for clinical nursing practice in gerontological nursing. Credit Level: G. Credit Hrs: 1.00-5.00

Advanced Nursing - Nursing Administration**29ANNA837****Nursing Service Administration Practicum I**

Opportunities to analyze the operational aspects of nursing service. Students apply nursing and management theories in evaluating the structure and processes used by nursing administration to achieve outcomes. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Advanced Nursing - Nursing Administration**29ANNA838****Nursing Service Administration Practicum II**

Opportunities to analyze the professional roles of nurse administrators in management. Emphasizes analysis and use of resources to meet departmental and/or organizational goals within a variety of environmental contexts. Credit Level: G. Credit Hrs: 3.00

29ANNA839**Nursing Service Administration: Practicum III**

Analyzes major policies, organizational situations, and strategic planning aspects of the nursing manager roles. Credit Level: G. Credit Hrs: 6.00

29ANNA886**Nursing Service Administration Seminar**

Integrates theory and practice in professional nursing management roles with focus on transition into nursing management roles and utilization of administrative theory in practice. Credit Level: G. Credit Hrs: 3.00

29ANNA898**Strategic Concepts and Models in Nursing Service Administration**

Provides an introduction to the key concepts and theoretical models of strategic management as applied to the health care industry. Emphasizes the role of the nurse executive in formation of strategy and of the nurse manager in the implementation process. Credit Level: G. Credit Hrs: 3.00

Advanced Nursing - Parent Child**29ANPC507****Special Topics in Women's Health**

The course is designed to examine the larger spheres of sociocultural, anthropological, and political variables that influence design, delivery, accessibility and outcomes of health care for women on local, regional, national and international levels. Special topics include science and women's health, sexuality, health policy and gender-specific research, women's life transitions, and specific health challenges. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00

29ANPC801**Differential Diagnosis for Women's Health**

The focus of this course is to understand the diagnostic reasoning process through analysis of present and past histories, physical findings and diagnostic studies that contribute to the formulation of differential diagnoses. The client is assessed from a holistic nursing perspective with consideration of her cultural, social, ethnic, family and community environments. Prereq: 29NURS820, 29NURS812. Credit Level: G. Credit Hrs: 1.00

29ANPC802**Advanced Physiology and Pathophysiology**

This course builds upon basic knowledge of human anatomy and physiology, and the mechanisms of disease. It provides an in-depth consideration of molecular physiology while integrating examples of physiological principles and pathophysiology most likely to be encountered by the advanced practice nurse. Basic and translational research into biochemical, molecular and organ system function and dysfunction will be emphasized. Current thought concerning age-related changes and theories of physiology across the life span will be included. Credit Level: G. Credit Hrs: 4.00

29ANPC804**Conceptual Framework for Women's Health**

Introduces advanced practice nursing role in Women's Health. Addresses concepts of care management, the nursing process, utilization of paradigms of wellness and health, and communication pertinent to women's health nursing practice. Credit Level: G. Credit Hrs: 3.00

29ANPC805**Advanced Women's Health I**

This course, the first in a series of two sequential courses, lays the

Advanced Nursing - Parent Child**29ANPC805****Advanced Women's Health I**

foundation for the women's health care management process and the care of women across the lifespan. It prepares students to assume professional roles and responsibilities in the management of normal and common health pattern variations pertaining to gynecological care. There are at least 0.5 credits (5 clock hours) of pharmacology content. Emphasis is on family-centered, community-based health care for diverse client systems. Prereq: 29NURS820, 29NURS812. Coreq: 29ANPC812, 29NURS813. Credit Level: G. Credit Hrs: 3.00

29ANPC806**Advanced Women's Health Care Practicum I**

This course is the first in a series of three sequential clinical courses in Women's Health Care. The student will engage in comprehensive assessment, diagnosis and management of women's health care across the lifespan. The student will assume a professional practice role and responsibility for management of normal and common health pattern variations pertaining to gynecological care. Emphasis is on family-centered, community-based health care for diverse client systems. Prereq: 29ANPC890, 29ANPC802, 29NURS801, 29ANPC801, 29NURS812. Coreq: 29ANPC806. Credit Level: G. Credit Hrs: 4.00

29ANPC807**Women's Health Nursing I Internship**

Internship for clinical nursing practice in women's health nursing. Credit Level: G. Credit Hrs: 1.00-3.00

29ANPC808**Women's Health Nursing II Internship**

Internship for clinical nursing practice in women's health nursing. Credit Level: G. Credit Hrs: 1.00-3.00

29ANPC809**Primary Care of Episodic Illness for Women**

This course provides students with the theoretical base to assess, diagnose, and manage the care of client systems across the lifespan with selected episodic health pattern alterations. Students will focus on the promotion, maintenance and restoration of client system's health patterns. Culturally competent, holistic, ethical, age and gender specific, and risk stratified care will be discussed. Nonpharmacologic aspects of care such as teaching and coaching will be addressed as well as the pharmacologic management designed to help clients achieve desired outcomes. Evidence based practice will serve as the basis for care management. This course includes 0.5 credits (5 clock hours) of pharmacology content. Prereq: 29NURS825, 29NURS813. Credit Level: G. Credit Hrs: 3.00

29ANPC810**Conceptual Framework for Nurse-Midwifery Practice**

Introduces the professional role of the nurse midwife including the management process, the nursing process, utilization of paradigms of wellness and health, and communication pertinent to nurse midwifery practice. Credit Level: G. Credit Hrs: 3.00

29ANPC811**Primary Care for Women**

(3 didactic and 1 lab with 30 contact hours/quarter). Prepares students to provide primary care for women utilizing critical thinking and decision-making skills. Prereq: 29ANPC810. Credit Level: G. Credit Hrs: 5.00

29ANPC812**Advanced Reproductive Dynamics**

Explores the anatomical and physiological basis for advanced nursing practice in reproductive health care. Includes genetics and reproductive endocrinology in the adult female, male, fetus, and neonate. Examines normal and abnormal fetal development from the perspective of maternal and environmental influences. Prereq: 29NURS820. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Advanced Nursing - Parent Child**29ANPC813****Pharmacology for Nurse-Midwifery Practice/Women's Health Practice**

Examines Nurse Midwifery/Women's Health pharmacologic management and therapeutic interventions to address health patterns in the student's focus area: midwifery or women's health. Prereq: 29NURS811, 29NURS813, 29ANPC812. Credit Level: G. Credit Hrs: 2.00

29ANPC814**Nurse-Midwifery I**

This course, the first in a series of four sequential courses, lays the foundation for the nurse-midwifery management process and the care of the well woman across the lifespan. It prepares students to assume professional roles and responsibilities in the management of normal and common health pattern variations pertaining to gynecological care. Emphasis is on family-centered, community-based health care for diverse client systems. Included are at least 0.5 credits (5 clock hours) of pharmacology content. Prereq: 29ANPC890, 29NURS801, 29NURS820, 29NURS812. Credit Level: G. Credit Hrs: 3.00

29ANPC815**Nurse-Midwifery Practicum I**

This course is the first in a series of four sequential clinical courses in Nurse-midwifery. Students will engage in comprehensive assessment, diagnosis and nurse-midwifery management for well women across the lifespan and assume professional practice roles and responsibilities in managing common health pattern variations pertaining to gynecological care. Emphasis is on family-centered, community-based health care for diverse client systems. Prereq: 29ANPC802, 29ANPC890, 29NURS812, 29NURS801. Coreq: 29ANPC814. Credit Level: G. Credit Hrs: 5.00

29ANPC816**Nurse-Midwifery II**

This course, the second in a sequence of four, prepares students to assume professional roles in the care of normal antepartum women and those with health pattern variations with an at-risk pregnancy. Emphasis is placed on the collaborative management of interventions to achieve desired outcomes during pregnancy. Included are at least 0.5 (5 clock hours) of pharmacology content. Students use scholarly inquiry to further develop their practice knowledge. Research related to normal and at-risk client systems is applied. The course expands on the history of nurse-midwifery as it impacts on professional role issues. Prereq: 29ANPC814, 29ANPC815. Credit Level: G. Credit Hrs: 3.00

29ANPC817**Nurse-Midwifery Practicum II**

This course is the second in a series of four sequential clinical courses in nurse-midwifery. Students will engage in comprehensive assessment, diagnosis and nurse-midwifery management for childbearing women and assume professional practice roles and responsibilities in managing common health pattern variations pertaining to childbearing women during the antepartum period. Students will use scholarly inquiry to evaluate and apply evidence-based practice to further develop their practice. Emphasis is on family-centered, community-based health care for diverse client systems. Professional practice role is further developed. Prereq: 29ANPC814, 29ANPC815. Coreq: 29ANPC816. Credit Level: G. Credit Hrs: 8.00

29ANPC819**Women's Health in a Contemporary Global Society**

The course is designed to present a global perspective of selected contemporary physiological, psychological, and sociocultural issues and concepts associated with women's health. Variations in women's health conditions are discussed from a diagnostic, treatment, and intervention perspective. Credit Level: G. Credit Hrs: 3.00

29ANPC820**Developmental Physiology of the Fetus/Newborn**

The course is designed to provide the student with an in-depth understanding of developmental physiology of the fetus and neonate.

Advanced Nursing - Parent Child**29ANPC820****Developmental Physiology of the Fetus/Newborn**

Principles of biologic growth and development, physiologic maturation of organ systems, birth physiology, and transition to extrauterine life through early infancy will be covered. Adaptation to physiologic stress and alterations from normal will be addressed. Prereq: 29ANPC844. Coreq: 29NURS813. Credit Level: G. Credit Hrs: 2.00

29ANPC821**Developmental Physiology of the Fetus/Newborn**

This course provides the student with an in-depth understanding of developmental physiology of the fetus and neonate. Principles of biologic growth and development, physiologic maturation of organ systems, birth physiology, and transition to extrauterine life through early infancy are covered. Adaptation to physiologic stress and alterations from normal are also addressed. Credit Level: G. Credit Hrs: 2.00

29ANPC822**Advanced Newborn/Infant Health Assessment**

The course provides the knowledge necessary to perform comprehensive assessments and to interpret diagnostic data in the care of newborns and infants. Systematic data collection, diagnostic reasoning, and clinical problem solving are emphasized. (Content focuses on physical examination as well as fetal, perinatal, psychosocial, gestational age, neuro-behavioral, and developmental assessments of newborns and infants.) Differential diagnosis will be discussed. Credit Level: G. Credit Hrs: 5.00

29ANPC823**Advanced Newborn/Infant Pharmacotherapeutics**

The course is an introduction to the understanding of pharmacokinetics, pharmacodynamics, and pharmacotherapeutics of the fetus, newborn and infant. Special considerations of drug therapy in the fetus/newborn/infant, and advanced nursing management of selected newborn/infant therapeutics is addressed. Six hours of legal, ethical, and financial content related to prescribing are addressed in this course. Credit Level: G. Credit Hrs: 5.00

29ANPC824**Neonatal Pathophysiology and Advanced Nursing Management I: The High Risk Family**

The course provides the theoretical and practical knowledge needed for the management of healthy and at risk newborns and their families. Issues of neonatal health care delivery, the advanced practice neonatal nurse role, and care of the family are emphasized. Resuscitation and stabilization of the neonate is addressed. Credit Level: G. Credit Hrs: 3.00

29ANPC825**Advanced Practice Roles in Neonatal Nursing Practicum**

Application of role and leadership theories to needs of neonates and infants. Provides students practice in applying clinical and theory content in program major to practice in selected aspects of advanced practice role. Credit Level: G. Credit Hrs: 3.00-9.00

29ANPC826**Advanced Practice Neonatal Nursing Internship**

This course is designed to provide students with an opportunity to develop clinical competency in the neonatal nurse practitioner role. The experience is accomplished under the guidance of an approved preceptor. Credit Level: G. Credit Hrs: 2.00

29ANPC827**Neonatal Pathophysiology and Advanced Nursing Management II: The High Risk Newborn/Infant**

The course provides the student with the theoretical and practical knowledge needed in the nursing management of newborns and infants with acute and chronic health problems in the Neonatal Intensive Care Unit (NICU). Advanced practice skills are introduced. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Advanced Nursing - Parent Child**29ANPC828****Neonatal Pathophysiology and Advanced Nursing Management III: The Acutely Ill Newborn/Infant**

The course provides the student with the theoretical and practical knowledge needed for the role of the advanced practice neonatal nurse in the neonatal intensive care unit. Content will focus on the assessment, pathophysiology, and management of health problems of critically and chronically ill newborns/infants and their client systems.

Credit Level: G. Credit Hrs: 3.00

29ANPC829**Practicum II: Clinical Care of Pediatric Clients with Acute Illnesses**

This clinical practicum introduces the APN student to diagnosing and managing common acute pediatric illnesses of newborns, infants, children, adolescents, and young adults in primary care contexts. In this practicum students use diagnostic reasoning to accurately diagnose common illnesses, and integrate research and standards of care to plan and deliver appropriate family-based care. Prereq: 29ANPC835. Credit Level: G. Credit Hrs: 3.00-8.00

29ANPC830**Practicum III: Clinical Care of Pediatric Clients with Chronic Illnesses**

This clinical practicum introduces the APN student to management of chronic conditions in health patterns for culturally diverse populations of infants, children, adolescents, and young adults in primary care contexts. In this practicum the students use diagnostic reasoning to accurately diagnose for chronic illnesses, and integrate research and standards of care to plan and deliver appropriate family-based care. Prereq: 29ANPC836. Credit Level: G. Credit Hrs: 3.00-6.00

29ANPC831**Advanced Pediatric Pharmacology**

This course provides nurses preparing for roles in advanced pediatric nursing practice with knowledge of pharmacotherapeutics for common acute and chronic variations in health patterns of the pediatric population. Course content includes the clinical pharmacology of common drug categories encountered in advanced practice pediatric nursing. Pharmacokinetic and pharmacodynamic principles, their clinical application and the use of pharmacologic agents in the prevention of illness and the restoration and maintenance of health are discussed. The mechanism of action, pharmacologic response, usual dose, adverse effects, indications, interactions, contraindications, and routes of administration of medications are emphasized. Credit Level: G. Credit Hrs: 3.00

29ANPC832**Well Women and Special Populations for Pediatrics**

This course prepares students to assume professional practice roles and responsibilities in providing care for well women across the lifespan but with special emphasis on the adolescent and young adult women. Contraception, emergency contraception, sexually transmitted infections, teen pregnancy, teen parenting, abortion, adoption, and adolescent and young adult sexuality are topics that will be discussed. A special pediatric populations will be a second focus of this course and will cover teen parents, children of teen parents, children in foster home care, children in alternative homes (group homes), homeless children and adolescents and incarcerated children and adolescents. Credit Level: G. Credit Hrs: 3.00

29ANPC834**Pediatric Primary Care I: Advanced Pediatric Health Promotion and Assessment**

This course introduces the student to the advanced practice nursing role in health promotion and assessment and in the prevention of illness in a culturally diverse population of newborns, infants, children, adolescents, and young adults in primary care contexts. Credit Level: G. Credit Hrs: 4.00

Advanced Nursing - Parent Child**29ANPC835****Pediatric Primary Care II: Care of Pediatric Clients with Acute Illnesses**

The focus of this course is to introduce the APN student to diagnosing and management of common acute pediatric illnesses in newborns, infants, children, adolescents, and young adults in primary care contexts. Management of acute illnesses includes recognizing signs and symptoms of common illnesses, using diagnostic reasoning to accurately diagnose common illnesses, and integrating research and standards of care to plan and implement care. Credit Level: G. Credit Hrs: 4.00

29ANPC836**Pediatric Primary Care III: Care of Pediatric Clients with Chronic Illnesses**

This course introduces the student to the advanced pediatric nursing practice role in the management of chronic conditions in health patterns for culturally diverse client systems from early pre/school-age to adolescence and early adulthood in multiple environmental contexts. Credit Level: G. Credit Hrs: 4.00

29ANPC837**Practicum I: Advanced Pediatric Health Promotion and Assessment**

This clinical practicum introduces the student to the advanced practice nursing role in health promotion and assessment and in the prevention of illness in a culturally diverse population of newborns, infants, children, adolescents, and young adults in primary care contexts. Prereq: 29ANPC834. Coreq: . Credit Level: G. Credit Hrs: 4.00

29ANPC839**Primary Care of Episodic Illness for Women Practicum**

This course is part of a series of sequential clinical courses in Women's Health Care and prepares the student to provide primary care of episodic illnesses throughout the lifespan. Students will engage in comprehensive assessment, diagnosis and women's health care management for women across the lifespan and assume professional practice roles and responsibilities in managing common health pattern variations pertaining to gynecological and primary care. Emphasis is on family-centered, community-based health care for diverse client systems. Prereq: 29NURS812, 29ANPC802, 29ANPC890, 29NURS801. Coreq: 29ANPC809. Credit Level: G. Credit Hrs: 3.00

29ANPC840**Advanced Women's Health II**

This course, the second in a sequence of two, prepares students to assume professional roles in the care of normal antepartal women and those with health pattern variations with an at-risk pregnancy. Emphasis is placed on the collaborative management of interventions to achieve desired outcomes during pregnancy. Included are at least 0.5 credits (5 clock hours) of pharmacology content. Students use scholarly inquiry to further develop their practice knowledge. Research related to normal and at-risk client systems is applied. Prereq: 29ANPC806, 29ANPC805. Coreq: 29ANPC841. Credit Level: G. Credit Hrs: 3.00

29ANPC841**Advanced Women's Health Care Practicum II**

This course, the second in a series of three sequential clinical courses in women's health care, prepares the students to assume the professional practice roles in the care of normal antepartal women and those with health pattern variations with an at-risk pregnancy. Emphasis is placed on the collaborative management of interventions to achieve desired outcomes during pregnancy. Students use scholarly inquiry to further develop their practice. Evidence-based research as related to normal and at-risk client systems is applied. Prereq: 29ANPC806, 29ANPC805. Coreq: 29ANPC840. Credit Level: G. Credit Hrs: 8.00

29ANPC842**Advanced Women's Health Care Practicum III**

This course, the third in a sequence of three, prepares the student for the fully integrated practice of women's health care to include primary care of episodic illnessness throughout the life span. The professional,

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Advanced Nursing - Parent Child**29ANPC842****Advanced Women's Health Care Practicum III**

social, political, legal, ethical, economic and financial factors that affect women's health care practice are analyzed. Prereq: 29ANPC840, 29ANPC841. Credit Level: G. Credit Hrs: 8.00

29ANPC843**Pediatric Primary Care I: Advanced Pediatric Health Promotion and Assessment**

This course introduces primary care concepts of the advanced nursing practice role in health promotion, assessment, and prevention for newborns, infants, children and adolescents from birth to 21 years of age. Socio-cultural, developmental, and family care theories form the basis of discussion of all age groups. An overview of genetics and its effect on patients and families is discussed. Various assessment tools are discussed including the Ballard, the Denver Developmental Screening Test, HEADSS and GAPS. Health care policy and health care economics related to children and families in the current political climate in relation to health care are appraised particularly in relation to vulnerable children, diverse cultures and health disparities. Prereq: 29NURS812, 29NURS807, 29NURS820, 29NURS804. Credit Level: G. Credit Hrs: 3.00

29ANPC844**Pediatric Primary Care II: Pediatric Episodic/ Primary Care**

This course provides students with a theoretical base to manage common, acute, and emergent health care concerns of newborns, infants, children and adolescents within the context of the primary care setting. This course will prepare the student to recognize signs and symptoms of common pediatric illnesses and injuries, using diagnostic reasoning skills to accurately diagnose conditions based on evidence-based practice and research principles and to design treatment plans. Providing families of ill/injured children with education and support will be addressed. Discussions related to the plight of culturally diverse and/or vulnerable children and their families in relation to actual/potential health disparities are also included in this course. This course includes 0.5 credits (5 clock hours) of pharmacology content. Prereq: 29NURS813, 29NURS810, 29NURS825, 29ANPC843. Credit Level: G. Credit Hrs: 3.00

29ANPC845**Pediatric Primary Care III: Chronic Health Problems in the Pediatric Population**

This course provides students with a theoretical base to manage chronic health concerns of newborns, infants, children and adolescents within the context of the primary care setting. This course will prepare the student to recognize signs and symptoms of chronic pediatric illnesses using diagnostic reasoning skills to accurately diagnose conditions based on evidence based practice and research principles and to design treatment plans. Providing families of chronically ill children with education and support will be addressed. Discussions of culturally diverse and/or vulnerable children and their families in relation to actual/potential health disparities are also included in this course. This course includes 0.5 credits (5 clock hours) of pharmacology content related to chronic health conditions in the pediatric population. Prereq: 29ANPC844, 29ANPC847, 29NURS805. Credit Level: G. Credit Hrs: 3.00

29ANPC846**Pediatric Primary Care IV: Child and Adolescent Mental Health Issues in the Primary Care Setting**

This course introduces the Pediatric Nurse Practitioner student to mental health issues, risk and preventive factors, and management within the primary care setting. Approaches to effective mental health screening and assessment along with common screening tools for child and adolescent mental health disorders are discussed. The KySS Guide will be used to teach students to identify, manage, and prevent child and adolescent mental health disorders within a primary care practice context. Psychopharmacology appropriate to the primary care setting will be addressed. This course includes 0.5 credits (5 clock hours) of pharmacology content related to use of medications for mental

Advanced Nursing - Parent Child**29ANPC846****Pediatric Primary Care IV: Child and Adolescent Mental Health Issues in the Primary Care Setting**

health conditions in children and adolescents. Prereq: 29ANPC845, 29NURS808. Credit Level: G. Credit Hrs: 3.00

29ANPC847**PNP Practicum I**

This introductory clinical practicum introduces the student to the advanced practice nurse role and responsibility in health promotion, prevention, and assessment of culturally diverse patients and families within the context of the primary care setting. Prereq: 29ANPC843. Credit Level: G. Credit Hrs: 6.00

29ANPC848**PNP Practicum II**

This intermediate clinical practicum introduces the student to advanced practice nurse roles and responsibilities in assessing acute illness/injury and chronic illnesses of culturally diverse patients and families within the context of the primary care setting. Prereq: 29ANPC844, 29ANPC847. Credit Level: G. Credit Hrs: 6.00

29ANPC849**PNP Practicum III**

This culminating clinical practicum allows the student to perform holistically in advanced practice nurse roles and responsibilities with culturally diverse patients and families within the context of the primary care setting. Prereq: 29ANPC845, 29ANPC848. Credit Level: G. Credit Hrs: 6.00

29ANPC851**Newborn/Infant Pathophysiology I**

The course provides the student with the theoretical and practical knowledge needed for the role of the neonatal nurse practitioner and clinical nurse specialist in the pathophysiology of healthy and at-risk newborns/infants and their client systems. Issues of neonatal health care delivery, the advanced practice neonatal nurse role, and care of the family will be emphasized. Credit Level: G. Credit Hrs: 5.00

29ANPC852**Pediatric Acute Care I**

This course provides students with a theoretical base to manage acute and emergent health care concerns of pediatric patients within the context of the acute care setting. Students recognize and manage signs and symptoms of acute illnesses and injuries, using diagnostic reasoning skills to accurately diagnose conditions and to design treatment plans. Providing families of hospitalized ill/injured children with education and support and the plight of culturally diverse and/or vulnerable children and their families in relation to actual/potential health disparities is discussed. This course includes 0.5 credits (5 clock hours) of pharmacology content. Prereq: 29NURS813, 29NURS822, 29NURS825, 29ANPC843, 29ANPC866. Coreq: 29ANPC844, 29NURS824. Credit Level: G. Credit Hrs: 2.00

29ANPC853**Pediatric Acute Care II**

This course provides students with a theoretical base to manage acute exacerbations of chronic health care concerns of pediatric patients within acute care settings. Students are prepared to recognize and manage acute episodes of chronic pediatric illnesses using diagnostic reasoning skills to accurately diagnose and design treatment plans. Education and support of families of chronically ill children will be addressed. The management of culturally diverse and/or vulnerable children and their families in relation to actual/potential health disparities is included in this course. This course includes 0.5 credits (5 clock hours) of pharmacology content related to chronic health conditions in the pediatric population. Prereq: 29ANPC844, 29ANPC852. Coreq: 29ANPC845. Credit Level: G. Credit Hrs: 2.00

29ANPC854**Advanced Child Health Nursing Internship I**

Internship for clinical nursing practice in child health nursing. Credit Level: G. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Advanced Nursing - Parent Child**29ANPC854****Advanced Child Health Nursing Internship I**

Internship for clinical nursing practice in child health nursing. Credit Level: G. Credit Hrs: 1.00

29ANPC855**Advanced Child Health Nursing Internship II**

Internship for clinical nursing practice in child health nursing. Credit Level: G. Credit Hrs: 1.00

29ANPC856**Advanced Child Health Nursing Internship III**

Internship for clinical nursing practice in child health nursing. Credit Level: G. Credit Hrs: 1.00

29ANPC857**Advanced Child Health Nursing Internship IV**

Internship for clinical nursing practice in child health nursing. Credit Level: G. Credit Hrs: 1.00

29ANPC858**Advanced Child Health Nursing Internship V**

Internship for clinical nursing practice in child health nursing. Credit Level: G. Credit Hrs: 1.00

29ANPC859**Advanced Child Health Nursing Internship VI**

Internship for clinical nursing practice in child health nursing. Credit Level: G. Credit Hrs: 1.00

29ANPC861**Nurse-Midwifery Internship I**

This course, the first in a series of four sequential courses, lays the foundation for the nurse-midwifery management process and for women across the lifespan. It prepares students to assume professional practice roles and responsibilities in managing common health pattern variations pertaining to primary care, gynecological and antepartum care. Emphasis is on family-centered, community-based health care for diverse client systems. Perm of Instructor. Credit Level: G. Credit Hrs: 2.00

29ANPC862**Nurse-Midwifery Internship II**

This course, the second in a sequence of four, prepares students to assume professional practice roles in the care of women with health pattern variations with an at-risk pregnancy and selected gynecologic problems. Emphasis is placed on the collaborative management of interventions to achieve desired outcomes during pregnancy, parturition. Students use scholarly inquiry to further develop their practice. Research related to at-risk client systems is applied. The course expands on the history of nurse-midwifery as it impacts on professional role issues. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

29ANPC863**Nurse-Midwifery Internship III**

This course, the third in a sequence of four, prepares the student to assume professional practice roles and responsibilities in the care of women with common health pattern variations pertaining to normal and at-risk pregnancy and parturition, normal and at-risk neonates. Emphasis is placed on the collaborative management of interventions to achieve desired outcomes during the postpartum period. Research related to at-risk client systems is applied. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

29ANPC864**Nurse-Midwifery Internship IV**

This course, the last in a sequence of four, prepares the student for the fully integrated practice of nurse-midwifery. The social, political, legal, ethical, economic and financial factors that affect nurse-midwifery practice are analyzed. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

Advanced Nursing - Parent Child**29ANPC865****Pediatric Acute Care III: Pediatric Critical Care**

This course provides students with a theoretical base to manage care of medically fragile pediatric patients in intensive care units, step down units, emergency departments, and surgical departments. The student is prepared to manage signs and symptoms of critically ill patients and to accurately diagnose rapid changes in health status. Critical clinical decision making is stressed in the design of treatment plans. The need to provide families of critically ill children with culturally appropriate education and support to facilitate the patient's return to a state of wellness, relative wellness or a peaceful death, is addressed. This course includes 0.5 credits (5 clock hours) of pharmacology content related to the care of critically ill infants, children and adolescents. Prereq: 29ANPC845, 29ANPC853. Credit Level: G. Credit Hrs: 3.00

29ANPC866**Pediatric Acute Care Practicum I**

This introductory clinical practicum introduces the student to the advanced practice nurse role and responsibility in caring for children and families from culturally diverse backgrounds within the context of ambulatory/specialty clinic and hospital settings. The clinical emphasis is on wellness and caring for acute/episodic illnesses in children. Prereq: 29NURS813, 29NURS822, 29ANPC843, 29NURS825, 29ANPC886. Coreq: 29ANPC852, 29ANPC875. Credit Level: G. Credit Hrs: 6.00

29ANPC867**Nurse-Midwifery III**

This course, the third in a sequence of four, prepares the student to assume professional roles and responsibilities in the care of normal intrapart and post partal women and those with common health pattern variations pertaining to at-risk women in parturition and post partum; normal and at-risk neonates. Included are at least 0.5 credits (5 clock hours) of pharmacology content. Emphasis is placed on the collaborative management of interventions to achieve desired outcomes during the parturition and postpartum period and the neonate. Research related to normal and at-risk client systems is applied. Prereq: 29ANPC816, 29ANPC817. Credit Level: G. Credit Hrs: 4.00

29ANPC868**Nurse-Midwifery Practicum III**

This course is the third in a series of four sequential clinical courses in Nurse-midwifery. Students will engage in comprehensive assessment, diagnosis and nurse-midwifery management for childbearing women and their neonates during the intrapartum and postpartum period. Students will continue to assume professional practice roles and responsibilities in managing common health pattern variations pertaining to childbearing women and their neonates during the intrapartum and postpartum period. Students will use scholarly inquiry to evaluate and apply evidence-based practice to further develop their practice. Emphasis is on family-centered, community-based health care for diverse client systems. Professional practice role is further developed. Prereq: 29ANPC814, 29ANPC815, 29ANPC816, 29ANPC817. Coreq: 29ANPC867. Credit Level: G. Credit Hrs: 9.00

29ANPC869**Pediatric Acute Care Practicum II**

This intermediate clinical practicum introduces the student to advanced practice nurse roles and responsibilities in assessing and managing acute episodic illness of chronically ill hospitalized newborns, infants, children and adolescents from culturally diverse families within the context of the acute care setting. Prereq: 29NURS824, 29ANPC843, 29ANPC852, 29ANPC866. Coreq: 29ANPC876, 29ANPC853. Credit Level: G. Credit Hrs: 7.00

29ANPC870**Pediatric Acute Care Practicum III**

This culminating clinical practicum allows the student to perform holistically in advanced practice nurse roles and responsibilities with culturally diverse patients and families within the context of the critical care setting. Care of newborn, infants, children, and adolescents and their families will be in ICUs, Step Downs, Emergency Departments,

Advanced Nursing - Parent Child**29ANPC870****Pediatric Acute Care Practicum III**

and/or Surgical areas. Prereq: 29ANPC845, 29ANPC853, 29ANPC869.
Coreq: 29ANPC879, 29ANPC865. Credit Level: G. Credit Hrs: 7.00

29ANPC871**Clinical Practicum I: General Assessment of the Newborn Infant**

This initial practicum focuses on health assessment and evaluation of diverse newborn/infants and their families in various clinical settings.
Prereq: 29ANPC822. Coreq: 29ANPC821. Credit Level: G. Credit Hrs: 3.00

29ANPC872**Clinical Practicum II: General Management of the Newborn/Infant**

The practicum focuses on the collaborative management of the diverse health patterns affecting the neonate/infant and their families. Emphasis is placed on development of the professional role and application of research findings to advanced nursing practice. Prereq: 29ANPC821, 29ANPC822, 29ANPC871, 29ANPC823. Credit Level: G. Credit Hrs: 5.00

29ANPC873**Clinical Practicum III: Neonatal Disease Process**

The course is designed to provide students with an opportunity to develop clinical competency in the multifaceted aspects of the neonatal nurse practitioner role. The focus of this clinical practicum is the management, implementation, and evaluation of strategies related to specific disease processes affecting the newborn/infant client. The experience is accomplished in a Level III designated Neonatal Intensive Care Unit under the guidance of an approved preceptor (Neonatal Nurse Practitioner and/or board certified Neonatologist). Prereq: 29ANPC821, 29ANPC822, 29ANPC871, 29ANPC872, 29ANPC823. Credit Level: G. Credit Hrs: 6.00

29ANPC874**Clinical Practicum IV: Neonatal Disease Process**

The course is designed to provide students with an opportunity to develop clinical competency in the multifaceted aspects of the neonatal nurse practitioner role. The focus of this clinical practicum is the management, implementation, and evaluation of strategies related to specific disease processes affecting the newborn/infant client. The experience is accomplished in a Level III designated Neonatal Intensive Care Unit under the guidance of an approved preceptor (Neonatal Nurse Practitioner and/or board certified Neonatologist). Prereq: 29ANPC821, 29ANPC822, 29ANPC871, 29ANPC872, 29ANPC823. Credit Level: G. Credit Hrs: 1.00-7.00

29ANPC875**Pediatric Acute Care Seminar I**

This seminar is the first of three courses that prepares nurses for professional roles in advanced nursing practice for acutely ill pediatric patients. It is taken in conjunction with the clinical practicum and provides an opportunity to debrief and discuss clinical cases while demonstrating the ability to apply the didactic material to practice. Coreq: 29ANPC866. Credit Level: G. Credit Hrs: 1.00

29ANPC876**Pediatric Acute Care Seminar II**

This seminar is the second of three courses that prepares nurses for professional roles in advanced nursing practice with acutely ill pediatric patients. It is taken in conjunction with the clinical practicum and provides an opportunity to debrief and discuss clinical cases while demonstrating the ability to apply the didactic material to practice. Coreq: 29ANPC869. Credit Level: G. Credit Hrs: 1.00

29ANPC877**Nurse-Midwifery IV**

This course, the fourth in a sequence of four, prepares the student for the fully integrated practice of nurse-midwifery. Included are at least 0.5 credits (5 clock hours) of pharmacology content. The professional, social, political, legal, ethical, economic and financial factors that affect nurse-midwifery practice are analyzed. Prereq: 29ANPC867, 29ANPC868. Credit Level: G. Credit Hrs: 2.00

Advanced Nursing - Parent Child**29ANPC877****Nurse-Midwifery IV**

This course, the fourth in a sequence of four, prepares the student for the fully integrated practice of nurse-midwifery. Included are at least 0.5 credits (5 clock hours) of pharmacology content. The professional, social, political, legal, ethical, economic and financial factors that affect nurse-midwifery practice are analyzed. Prereq: 29ANPC867, 29ANPC868. Credit Level: G. Credit Hrs: 2.00

29ANPC878**Nurse-Midwifery Practicum IV**

This course is the fourth in a series of four sequential clinical courses in Nurse-midwifery and prepares the student for fully integrated practice of Nurse-midwifery. Students will use scholarly inquiry to evaluate and apply evidence-based practice to further develop their practice. Emphasis is on family-centered, community-based health care for diverse client systems. Professional, historical, social, political, legal, ethical, economic factors that affect midwifery practice are analyzed. The student professional practice role as part of a multidisciplinary team is further developed. Prereq: 29ANPC814, 29ANPC815, 29ANPC816, 29ANPC817, 29ANPC867. Coreq: 29ANPC877. Credit Level: G. Credit Hrs: 9.00

29ANPC879**Pediatric Acute Care Seminar III**

This seminar is the last of three courses that prepares nurses for professional roles in advanced nursing practice. It is taken in conjunction with the clinical practicum and provides an opportunity to debrief and discuss clinical cases while demonstrating the ability to apply didactic material to practice. Coreq: 29ANPC870. Credit Level: G. Credit Hrs: 1.00

29ANPC880**Advanced Pediatric Acute Care Nursing Internship I**

Internship for clinical nursing practice in child health nursing for preparation as a Pediatric Acute Care Nurse Practitioner. The course is designed to provide students with an opportunity to develop clinical competency in the pediatric acute care nurse practitioner role. The experience is accomplished under the guidance of a faculty approved preceptor. Credit Level: G. Credit Hrs: 1.00

29ANPC881**Advanced Pediatric Acute Care Nursing Internship II**

Internship for clinical nursing practice in child health nursing for preparation as a Pediatric Acute Care Nurse Practitioner. The course is designed to provide students with an opportunity to develop clinical competency in the pediatric acute care nurse practitioner role. The experience is accomplished under the guidance of a faculty approved preceptor. Credit Level: G. Credit Hrs: 1.00

29ANPC882**Advanced Pediatric Acute Care Nursing Internship III**

Internship for clinical nursing practice in child health nursing for preparation as a Pediatric Acute Care Nurse Practitioner. The course is designed to provide students with an opportunity to develop clinical competency in the pediatric acute care nurse practitioner role. The experience is accomplished under the guidance of a faculty approved preceptor. Credit Level: G. Credit Hrs: 1.00

29ANPC883**Advanced Pediatric Acute Care Nursing Internship IV**

Internship for clinical nursing practice in child health nursing for preparation as a Pediatric Acute Care Nurse Practitioner. The course is designed to provide students with an opportunity to develop clinical competency in the pediatric acute care nurse practitioner role. The experience is accomplished under the guidance of a faculty approved preceptor. Credit Level: G. Credit Hrs: 1.00

29ANPC884**Advanced Pediatric Acute Care Nursing Internship V**

Internship for clinical nursing practice in child health nursing for preparation as a Pediatric Acute Care Nurse Practitioner. The course is designed to provide students with an opportunity to develop clinical

Advanced Nursing - Parent Child**29ANPC884****Advanced Pediatric Acute Care Nursing Internship V**

competency in the pediatric acute care nurse practitioner role. The experience is accomplished under the guidance of a faculty approved preceptor. Credit Level: G. Credit Hrs: 1.00

29ANPC885**Advanced Pediatric Acute Care Nursing Internship VI**

Internship for clinical nursing practice in child health nursing for preparation as a Pediatric Acute Care Nurse Practitioner. The course is designed to provide students with an opportunity to develop clinical competency in the pediatric acute care nurse practitioner role. The experience is accomplished under the guidance of a faculty approved preceptor. Credit Level: G. Credit Hrs: 1.00

29ANPC886**Special Topics in Acute Care Pediatric Care**

This course provides in depth exploration of advanced therapeutic nursing interventions designed to promote, maintain, or restore the health of acutely ill newborns, infants, children and adolescents. The application of technology, informatics, and select therapies is explored relative to pediatric patients within the acute care environmental context. Students analyze the purpose, cost-benefits, selection criteria and outcomes for each therapeutic intervention. Selected symptoms common in acutely ill hospitalized pediatric patients are used as exemplars for the development of advanced therapeutic nursing interventions. Current theory and research related to the interventions are examined. Coreq: 29NURS825, 29NURS813. Credit Level: G. Credit Hrs: 3.00

29ANPC887**Nurse-Midwifery Practicum V**

This course, the fifth in a sequence of five, prepares the student for the fully integrated practice of nurse-midwifery to include primary care of episodic illnesses throughout the lifespan. The professional, social, political, legal, ethical, economic and financial factors that affect nurse-midwifery practice are analyzed. Prereq: 29ANPC877, 29ANPC878. Credit Level: G. Credit Hrs: 7.00

29ANPC890**Advanced Reproductive Dynamics**

This course explores the anatomical and physiological basis for advanced nursing practice in reproductive health care. Emphasis is on anatomy, physiology, and reproductive endocrinology in the adult female, male, fetus and neonate. Fetal development is examined from the perspective of maternal and environmental contexts. Credit Level: G. Credit Hrs: 4.00

29ANPC891**Advanced Women's Health I**

(3 didactic and 9 clinical with 270 clinical contact hours). Introduces the management process related to the primary care of women's health across the lifespan and during the antenatal period. Roles and responsibilities in management of complications of pregnancy and parturition and in care of the normal neonate are addressed. Clinical experiences are precepted. Prereq: 29ANPC812, 29ANPC813. Credit Level: G. Credit Hrs: 12.00

29ANPC892**Advanced Women's Health II**

(2 didactic and 10 clinical with 300 clinical contact hours). Prepares the student to assume professional practice roles and responsibilities in managing the care of the woman with health pattern variations across the life span. Women's health care legislation, health care management, and issues are explored. Clinical experiences are precepted. Prereq: 29ANPC805. Credit Level: G. Credit Hrs: 12.00

29ANPC893**Nurse Midwifery I**

(3 didactic and 5 clinical). This course prepares students for nurse-midwifery management including therapeutic interventions and the nursing process for the primary care of women across the lifespan, including childbearing. Concepts of family, community, and health

Advanced Nursing - Parent Child**29ANPC893****Nurse Midwifery I**

promotion are addressed. Credit Level: G. Credit Hrs: 8.00

29ANPC894**Nurse Midwifery II**

(4 didactic and 8 clinical). This course prepares students to assume professional practice roles and responsibilities in managing complications of pregnancy and parturition and the care of the normal neonate. Professional role issues, the history of midwifery, need for use of scholarly inquiry by nurse-midwives to further their practice and practice context are discussed. Credit Level: G. Credit Hrs: 12.00

29ANPC895**Nurse Midwifery III**

(3 didactic and 9 clinical). This course prepares the student to assume professional practice roles and responsibilities in the care of the woman with an at-risk pregnancy, the neonatal complications, and the woman with selected gynecologic problems. Credit Level: G. Credit Hrs: 12.00

29ANPC896**Nurse Midwifery IV**

(2 didactic and 8 clinical). This course prepares the student for the fully integrated practice of nurse-midwifery. Maternal-child health care legislation, health care legislation, health care management, professional management of nurse-midwifery practice, advanced professional roles, use of scholarly inquiry, and issues are discussed. Credit Level: G. Credit Hrs: 10.00

Advanced Nursing - Psychiatric**29ANPS441****Care of Clients with Substance Use, Abuse, and Addictions**

Nursing elective provides overview of theoretical and practical aspects of managing care of clients with substance abuse problems. BoK: NA. Credit Level: U. Credit Hrs: 3.00

29ANPS801**Advanced Concepts in Forensic Nursing**

The course builds the foundation for forensic studies related to nursing practice. Focuses on the legal issues experienced by forensic population. Factors related to epidemiology of violence, trauma, culture, poverty, and criminality are explored. Credit Level: G. Credit Hrs: 3.00

29ANPS820**Advanced Psychiatric Nursing I: Assessment and Diagnosis**

Focuses on assessment and differential diagnosis of common chronic health pattern variations in clients with mental disorders in various psychiatric settings. Credit Level: G. Credit Hrs: 4.00

29ANPS821**Advanced Psychiatric Nursing II: Interventions for Health Pattern Variations with Psychiatric Client**

Provides theoretical basis for advanced psychiatric nursing practice. Focuses on individual treatment modalities appropriate to a managed care environment, legal and ethical issues, and standards of practice. Credit Level: G. Credit Hrs: 4.00

29ANPS823**Substance Abuse and Advanced Psychiatric Nursing Practice**

Focuses on theories, research, treatment approaches, and societal and political issues related to primary, secondary, and tertiary levels of prevention for substance abuse across the life span. Credit Level: G. Credit Hrs: 4.00

29ANPS831**Psychiatric Nursing Internship**

This practicum provides the student with opportunities and supervision for clinical training in two psychotherapeutic modalities: Cognitive and Interpersonal Therapy. Emphasis is on establishing a Nurse Practitioner/client relationship and management of client care when using these treatment modalities. Credit Level: G. Credit Hrs: 2.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Advanced Nursing - Psychiatric**29ANPS832****Advanced Psychiatric Nursing: Internship II**

Internship for clinical nursing practice in psychiatric nursing. Credit Level: G. Credit Hrs: 1.00

29ANPS889**Psychopharmacology for Nurses in Advanced Practice**

Provides nurses in advanced practice with an understanding of the effects of psychotropic drugs and their relationship with other treatment modalities. Credit Level: G. Credit Hrs: 2.00

Nursing**29NURS101****Success in College and Nursing I**

This course is required for Pre-Nursing students. The purpose of the course is to introduce students to college life, the profession of nursing and to provide a sense of belonging to both. The course centers on academic skill development, personal success in the University and making a connection between general education and nursing. BoK: NA. Credit Level: U. Credit Hrs: 2.00

29NURS102**Success in College and Nursing II**

This course is required for Pre-Nursing students. The purpose of the course is to introduce students to college life, the profession of nursing and to provide a sense of belonging to both. The course centers on academic skill development, personal success in the University and making a connection between general education and nursing. Prereq: 29NURS101. BoK: NA. Credit Level: U. Credit Hrs: 2.00

29NURS200**Nutrition For Health**

This introductory nutrition course focuses on the relationship between nutrition and the promotion of health and prevention of disease. The course content introduces nutrients (both macronutrients and micronutrients) and their common dietary sources, daily requirements, and clinical deficiencies/excesses. The concept of energy balance and its effect on overnutrition and undernutrition will be discussed. The content also addresses the relationship between nutrient requirements and physiological needs across the entire life span, from prenatal nutrition through geriatric nutrition. Types of individuals, populations, or communities at risk for dietary imbalances as a result of genetic, environmental, or socio-cultural influences will be discussed. The content includes information related to legal/ ethical guidelines when appropriate. Emphasis will be placed on how to critically evaluate both popular and professional literature related to healthcare. The principles of nutrition discussed will be applicable to the role of the nurse in promotion of health and the management of patients' nutritional needs. Prereq: 15BIOL203, 15CHEM106. BoK: NA. Credit Level: U. Credit Hrs: 2.00

29NURS201**Introduction to Professional Nursing**

Students are introduced to the underlying values and concepts of nursing as a profession. Hallmark events, integral to the evolution of nursing as a profession are discussed. Nurse-client relationships and the role of the nurse as a member of an interdisciplinary health care team are emphasized. The nursing process as a methodology of care, the basic ethical principles and legal aspects relevant to care, the systems of health care delivery and the importance of evidence-based practice are addressed. The power of communication and leadership techniques is experienced throughout the course. BoK: NA. Credit Level: U. Credit Hrs: 2.00

29NURS202**Foundations of Nursing Practice I**

Students are introduced to the concepts, content, behaviors, and procedures that provide the foundation for nursing practice. The focus of the content is the use of assessment techniques relevant to specific nursing procedures, performance of basic nursing procedures, application of critical thinking, and the use of communication methods

Nursing**29NURS202****Foundations of Nursing Practice I**

while providing care. Application of the content occurs in a simulated laboratory setting that emphasizes self-directed learning, practice, and competent performance of selected skills and behaviors. Coreq: 29NURS201. BoK: NA. Credit Level: U. Credit Hrs: 4.00

29NURS203**Foundations of Nursing Practice II**

The concepts, content, behaviors, and procedures build upon those taught in Foundations of Nursing Practice I. Didactic content provides the basis for simulated experiences in a laboratory setting and clinical experiences in a health care setting. The development of the nurse-patient relationship, performance of basic nursing procedures, and use of critical thinking with emphasis on the collection of assessment data and the provision of selected nursing interventions are addressed. Students learn to apply verbal and written communication skills in interactions with other health care disciplines. Prereq: 29NURS201, 29NURS202. BoK: NA. Credit Level: U. Credit Hrs: 5.00

29NURS204**Nursing Health Assessment**

This course focuses on attaining the skills necessary for astute observation, purposeful inquiry and investigation, and outcomes based on nursing judgments. Students are introduced to the nursing process, health history taking, diagnostic study interpretation, physical examination skills and environmental evaluation for client systems across the life span. BoK: NA. Credit Level: U. Credit Hrs: 4.00

29NURS205**Pharmacology**

Course content explores the basic mechanisms of drug action, indications and contraindications of drug therapy, and the therapeutic effects as well as toxic and expected side effects of various medications. The nursing implications related to pharmacotherapies with clients across the life span are stressed. Legal and ethical issues related to medication administration and skills for calculating drug dosages are presented. Prereq: 29NURS200. BoK: NA. Credit Level: U. Credit Hrs: 4.00

29NURS206**Nutrition and Disease**

This course builds upon the nutrition principles introduced in Nutrition for Health (29NURS200). It provides an introduction to the assessment of nutritional status so that the registered nurse can identify patients at risk for malnutrition and address their nutrient needs in a comprehensive care plan. Types of individuals, populations, or communities at risk for dietary imbalances as a result of genetic, environmental, or socio-cultural influences will be discussed. The course will address the diagnosis, prevalence, health consequences, and treatment of obesity and undernutrition. Nutritional management of common medical conditions will be included. In addition, indications for enteral and parenteral nutrition support and potential delivery sites will be discussed. The content of the course will include information related to legal/ethical guidelines, when appropriate. The information gained in this course will be beneficial to the registered nurse in assessment and management of patients' nutritional needs related to specific medical conditions. Prereq: 29NURS200. BoK: NA. Credit Level: U. Credit Hrs: 2.00

29NURS207**Nursing Ethics and Law**

The course examines ethical theories and principles as applied to ethical aspects of selected issues in nursing and health care. Law as it applies to nursing practice is also examined. BoK: SE. Credit Level: U. Credit Hrs: 2.00

29NURS270**Pathophysiology**

Course discusses the physiological variations in health patterns based on examination of biological processes that affect the dynamic equilibrium (homeostasis) of the human body. A conceptual approach is

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

Nursing**29NURS270****Pathophysiology**

used to integrate knowledge from the natural sciences. Applications to the professional role of practitioner are identified. BoK: NS. Credit Level: U. Credit Hrs: 4.00

29NURS271**Honors Guided Study**

Individualized study for honors recognition. BoK: NA. Credit Level: U. Credit Hrs: 2.00-3.00

29NURS300**Concepts of Community**

Course content emphasizes the concept of community focused nursing practice and the relationship among individuals, families, and communities across the life span. Critical attributes and characteristics of various communities are examined. Selected models and theories are used for identifying health patterns of culturally diverse client systems. Health policy, politics, and research are emphasized as the context for community health advocacy and the roles of the professional nurse. Prereq: 29NURS203. BoK: DC, SS. Credit Level: U. Credit Hrs: 3.00

29NURS301**Introduction to Genetics for Professional Nursing Practice**

Course content includes a foundational overview of the current state of genomics science and Human Genome Project. Basic genetic concepts about human chromosomes, karyotype, mitosis, meiosis, DNA, genotype, phenotype, Mendelian inheritance, mitochondrial and chromosomal aberrations and complex disorders will be reviewed. The student will be updated on emerging genetics content areas. An introduction to the top ten causes of mortalities and morbidities with genomic influences across the life span will be discussed. Family pedigree construction and analysis, dysmorphology and physical genetics assessment will be addressed. Financial, ethical, legal, and cultural implications of genetics testing and research will be highlighted. The roles of genetics specialists in interdisciplinary practice will be introduced. Prereq: 29NURS270. BoK: NA. Credit Level: U. Credit Hrs: 2.00-3.00

29NURS303**Nursing Care of Adults**

The content in this course follows and builds upon the introductory nursing courses Foundations I and II. Emphasis is on promoting and restoring health of adults with common health concerns and related physiologic and psychologic responses. Nursing process related to alterations in health patterns is explored. Content also includes appropriate information on genetics, cultural diversity, ethics, legal principles, and life span issues specifically related to adults. Clinical experiences facilitate the utilization of this knowledge. Scholarly inquiry is used to evaluate nursing interventions in a variety of environmental and biopsychosocial contexts. Prereq: 29NURS203, 29NURS204, 29NURS205. BoK: NA. Credit Level: U. Credit Hrs: 9.00

29NURS304**Gerontological Nursing Practice**

This course will focus on essential content necessary to provide quality care for older adults. Content will include best nursing practices in care of the healthy and ill older adult and the role of the professional nurse. Prereq: 29NURS203. BoK: SS. Credit Level: U. Credit Hrs: 3.00

29NURS305**Continuum of Care for Children and Families**

This course provides didactic and clinical experiences that focus on health patterns as a basis for nursing practice appropriate for children and families throughout their continuum of care. The concepts of health including promotion, maintenance, rehabilitation/restoration and palliation are incorporated into the nursing process. Content will also include information on age appropriate lifespan concerns, genetics, cultural diversity, legal, ethical and end of life issues. Clinical experience in acute care and community settings will facilitate the use of this knowledge. Scholarly inquiry and information technology will be

Nursing**29NURS305****Continuum of Care for Children and Families**

applied to examine professional nursing practice in a variety of environmental and biopsychosocial contexts. Prereq: 29NURS300, 29NURS303. BoK: NA. Credit Level: U. Credit Hrs: 9.00

29NURS306**Continuum of Care for Childbearing Families**

This course provides didactic content and clinical experiences that focus on the continuum of care for culturally diverse women of childbearing age and their families. The concepts of health promotion, health maintenance and health restoration are incorporated into discussion of the nursing process and the role of the professional nurse. Content will also include information on genetics, cultural diversity, legal and ethical issues, and related end-of-life issues. Clinical experiences in a variety of acute care and community-based settings will provide opportunities to apply the nursing process to low risk and at-risk pregnant women across the spectrum of reproductive health care. Prereq: 29NURS303, 29NURS300. BoK: NA. Credit Level: U. Credit Hrs: 9.00

29NURS307**Continuum Of Mental Health Care**

This course provides didactic and clinical experiences that focus on health pattern alterations as a basis for nursing practice appropriate for persons experiencing mental illness and their families throughout the continuum of care. The concepts of health including promotion, health maintenance, and rehabilitation/restoration are incorporated into discussion of the nursing process and the role of the professional nurse in the classroom and clinical settings. Content will also include information on age-appropriate lifespan concerns which include genetics, cultural diversity, legal and ethical issues, and related end-of-life issues. Scholarly inquiry and information technology will be applied to examine professional nursing practice in a variety of environmental and biopsychosocial texts. Prereq: 29NURS300, 29NURS303. Coreq.: BoK: NA. Credit Level: U. Credit Hrs: 9.00

29NURS308**Nursing Theory and Research**

The course introduces the student to nursing theory and research as a form of scholarly inquiry. Content includes the evolution of nursing theory and research, the components of theory, the research process, and the cyclical nature of practice, theory, and research. Nursing practice that utilizes research findings as a basis for nursing judgement and interventions with clients is emphasized. BoK: NA. Credit Level: U. Credit Hrs: 4.00

29NURS310**Independent Study for Registered Nurses**

This course provides opportunity for individual study in nursing for registered nurse students. BoK: NA. Credit Level: U. Credit Hrs: 6.00-12.00

29NURS373**Health Care Ethics**

This interdisciplinary course considers ethical theories and principles applicable to nursing, pharmacology, and allied health professions. Using scholarly inquiry, students will analyze ethical issues across the lifespan in diverse socioeconomic and cultural situations. Nursing students take an additional credit hour covering legal aspects of nursing practice. BoK: SE. Credit Level: U. Credit Hrs: 2.00-3.00

29NURS396**ROTC Nursing**

Seminar and clinical practice opportunities offered as a part of ROTC Nursing. BoK: NA. Credit Level: U. Credit Hrs: 3.00

29NURS401**Contemporary Adult Ambulatory Care**

The course is a practicum designed to introduce students to the role of the professional nurse in the ambulatory care setting. Emphasis is on further development of professional nursing skills and the use of the nursing process, particularly assessment, decision making, and

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Nursing**29NURS401****Contemporary Adult Ambulatory Care**

evaluation. Clinical experiences in a variety of ambulatory care settings enable students to develop essential skills for providing accessible, continuous, collaborative, affordable, and personalized care. Students gain experience in independent and interdisciplinary decision making with nurse preceptors and other health team members. Prereq: 29NURS305, 29NURS306, 29NURS307. BoK: NA. Credit Level: U. Credit Hrs: 2.00

29NURS403**Nurse as Professional Leader**

The course content focuses on the knowledge and skills essential to effective nursing leadership. Emphasis will be placed on strategies that facilitate professional practice of self and others as members of the health care organization. Prereq: 29NURS207, 29NURS305, 29NURS306, 29NURS307. BoK: SE. Credit Level: U. Credit Hrs: 3.00

29NURS407**Senior Capstone**

This project is the capstone experience for the nursing major. The project is an opportunity to integrate all course work in the program. The student completes a project to demonstrate the role of the professional nurse in relation to responsibility for health in a selected environmental context within a global society. BoK: NA. Credit Level: U. Credit Hrs: 3.00

29NURS410**Nursing Care of Adults with Complex Health Concerns**

The content in this course focuses on the synthesis of health patterns of client systems that are in acute care environments. Emphasis is on the use of the nursing process to provide illness and rehabilitation/restoration care to client systems experiencing complex and multi- system health pattern variations. Content will also include appropriate information on genetics and cultural diversity and life span, and end of life issues specific to the client experiencing complex health care concerns. Clinical experience in acute care settings will facilitate the utilization of this knowledge and the transition from student to professional nurse as the student manages the care of diverse client systems. Scholarly inquiry will be used to evaluate nursing interventions. Prereq: 29NURS305, 29NURS306, 29NURS307, 29NURS401. BoK: NA. Credit Level: U. Credit Hrs: 10.00-13.00

29NURS411**Professional Leader as Manager**

This course content introduces the managing role of the leader within varied nurse practice settings. Managerial concepts and leadership skills needed to promote high quality outcomes- based nursing care delivery are examined. The role of the professional nurse as manager is explored in relationship to the delivery of health care. Prereq: 29NURS403. BoK: NA. Credit Level: U. Credit Hrs: 3.00

29NURS414**Dysrhythmia Interpretation**

This course is designed to equip the learner with the ability to recognize and understand appropriate responses to major dysrhythmias that frequently occur in clinical practice. BoK: NA. Credit Level: U. Credit Hrs: 3.00

29NURS415**Community as Partner**

This course is designed to facilitate student transition to the role of the professional nurse in the community. Students have opportunities to design and implement population-based interventions to promote the health of communities. Students use models and strategies for population-based health promotion and risk reduction across the life span including end of life care. Prereq: 29NURS305, 29NURS306, 29NURS307, 29NURS308, 29NURS300. BoK: NA. Credit Level: U. Credit Hrs: 7.00

Nursing**29NURS452****Perioperative Nursing**

Designed for senior baccalaureate nursing students interested in careers in perioperative nursing and registered nurses wishing to develop perioperative nursing skills who did not have an opportunity to do so in their basic nursing program. BoK: NA. Credit Level: U. Credit Hrs: 3.00

29NURS457**RN Transition to Professional Nursing**

Facilitates transition of the registered nurse student into undergraduate nursing education. Emphasis is placed on the philosophy of baccalaureate education; professional nursing roles of practitioner, leader, and scholar; functional health patterns and the nursing process; teaching learning process; and evolution of nursing as a profession. BoK: HP. Credit Level: U. Credit Hrs: 4.00

29NURS458**RN Concepts of Community**

The relationships among individuals, families, and communities will provide the foundations for understanding community focused nursing practice. The multiple types of communities are discussed. Selected models and theories will be used for identifying health patterns of diverse client systems. Health policy, politics, and research will be discussed as the basis for community health advocacy and as related to the professional role of the nurse. BoK: SS. Credit Level: U. Credit Hrs: 4.00

29NURS460**RN-Theory and Research**

This course introduces the student to nursing theory and research as a form of scholarly inquiry. Content includes the evolution of nursing theory and research, the components of theory, the research process, and the cyclical nature of practice, theory, and research. Nursing practice that utilizes research findings as a basis for nursing judgement and interventions with clients is emphasized. Prereq: 29NURS457, 15MATH146. BoK: HP. Credit Level: U. Credit Hrs: 4.00

29NURS461**RN Community as Client**

This course discusses the local, state, national and global economic, cultural, and political factors that influence the health of communities. Methods for identifying target populations are identified. Strategies for risk reduction and models for health education and health promotion are discussed. The professional roles of the nurse are examined in the context of the community as client. BoK: NA. Credit Level: U. Credit Hrs: 3.00

29NURS462**RN-Concepts of Community**

Course content emphasizes the concept of community focused nursing practice and the relationship among individuals, families, and communities across the life span. Critical attributes and characteristics of various communities are examined. Selected models and theories are used for identifying health patterns of culturally diverse client systems. Health policy, politics, and research are emphasized as the context for community health advocacy and the roles of the professional nurse. Prereq: 29NURS457. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

29NURS463**RN-Introduction to Genetics for Professional Nursing Practice**

The course content includes a foundational overview of the current state of genomics science and Human Genome Project. Basis genetic concepts about human chromosomes, karyotype, mitosis, meiosis, DNA, genotype, phenotype, Mendelian inheritance, mitochondrial and chromosomal aberrations and complex disorders are reviewed. The student is updated on emerging genetics content areas. An introduction to the top ten causes of mortalities and morbidities with genetic influences across the life span are discussed. Family pedigree construction and analysis, dysmorphology and physical genetics assessment are addressed. Financial, ethical, legal and cultural

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Nursing**29NURS463****RN-Introduction to Genetics for Professional Nursing Practice**

implications of genetics testing and research are highlighted. The roles of genetics specialists in interdisciplinary practice are introduced.

Prereq: 29NURS457. BoK: NA. Credit Level: U. Credit Hrs: 2.00

29NURS464**RN-Gerontological Nursing Practice**

This course content focuses on essential content necessary to provide quality care for older adults. Content includes best nursing practices in care of the healthy and ill older adult and the role of the professional nurse. Prereq: 29NURS457. BoK: NA. Credit Level: U. Credit Hrs: 3.00

29NURS465**RN-Community as Partner**

This course is designed to facilitate student transition to the role of the professional nurse in the community. Students have opportunities to design community focused interventions to promote the health of selected communities. Students use models and strategies for community focused health promotion and risk reduction across the life span including end of life care. Prereq: 29NURS457, 29NURS462. BoK: NA. Credit Level: U. Credit Hrs: 2.00

29NURS466**RN-Community as Partner-Practicum**

This course is designed to facilitate student transition to the role of the professional nurse in the community. Students have opportunities to design and implement community focused interventions to promote the health of select communities. Students use models and strategies for community focused health promotion & risk reduction across the life span including end of life care. Prereq: 29NURS465, 29NURS462. BoK: NA. Credit Level: U. Credit Hrs: 3.00

29NURS468**RN-Nurse as Professional Leader and Manager**

Course content focuses on the knowledge and skills essential to effective nursing leadership and introduces the managing role of the leader within varied nurse practice settings. Managerial concepts and leadership skills needed to promote high quality outcomes-based nursing care delivery are examined. Emphasis will be placed on strategies that facilitate professional practice of self and others as members of the health care organization. Prereq: 29NURS457. BoK: NA. Credit Level: U. Credit Hrs: 3.00

29NURS469**RN-Senior Capstone**

This course is the capstone experience for the nursing major. RN students have the opportunity to synthesize and integrate materials presented throughout the major courses through completion of a project related to nursing and health care. BoK: NA. Credit Level: U. Credit Hrs: 3.00

29NURS470**RN Nursing Elective**

This course provides students with an opportunity to fulfill requirements for a nursing elective by building on prior educational, professional, or work experiences. Students work individually with faculty in the design of course objectives and an evaluation plan that allows the student to demonstrate how current and/or past experiences contribute to the meeting of one or more objectives of the undergraduate program. Faculty approval of learning objectives and activities is required. BoK: NA. Credit Level: U. Credit Hrs: 3.00

29NURS472**Advanced Concepts in Professional Nursing**

This course provides students with learning opportunities to acquire knowledge and skills fundamental to professional nursing roles. Leadership and management concepts and skills are examined and promote high quality evidence-based nursing care delivery. Emphasis is placed on strategies that facilitate professional "use of self" and others as members of the health care organization. BoK: NA. Credit Level: U. Credit Hrs: 4.00

Nursing**29NURS474****Community Concepts and Contexts**

This course is focused on applying the concepts of community/public health nursing to populations within the context of their community. Knowledge and skills needed to develop partnerships with communities are emphasized as an integral part of developing culturally appropriate strategies for the prevention of disease and the promotion of health.

Prereq: 29NURS472. BoK: NA. Credit Level: U. Credit Hrs: 4.00

29NURS475**LINK Capstone**

This course is the capstone experience for the RN LINK program. Students demonstrate their achievement of the Baccalaureate Competencies of critical thinking, effective communication, knowledge integration and social responsibility through a process of self-reflection and evaluation. Prereq: 29NURS472, 29NURS474. BoK: NA. Credit Level: U. Credit Hrs: 1.00

29NURS483**Leader as Clinical Mentor**

The course content focuses on leadership and coaching knowledge and skills essential to effective clinical mentoring. Emphasis is placed on demonstration of effective leadership and communication strategies to facilitate senior level student leadership/coaching of sophomore student peers. Prereq: 29NURS403, 29NURS207, 29NURS305, 29NURS306, 29NURS307. BoK: NA. Credit Level: U. Credit Hrs: 3.00

29NURS485**Evidence-Based Practice for Clinical Decision-Making**

This course is designed to build on the basic research concepts. This course focuses on the development of knowledge and skills for locating and critically appraising sources of evidence and clinical practice guidelines (CPG) and change processes to ensure the use of best evidence for the management of diverse patients and populations. Prereq: 29NURS308. BoK: NA. Credit Level: U. Credit Hrs: 3.00

29NURS486**Family Impact on Treatment**

The focus of this course is to prepare the nurse working in the health care setting to better handle issues related to patients and their family support systems. Students will engage in discussions centered on vignettes relative to both inpatient and clinic settings as well as practice critical thinking and creativity in solving common interpersonal problems. BoK: NA. Credit Level: U. Credit Hrs: 3.00

29NURS487**Health Issues of Vulnerable and Marginalized Populations**

In this course, students will have the opportunity to examine the interplay between vulnerability, health status, and health care access and quality. Physical, psychological, demographic, environmental, socioeconomic, and cultural issues influencing the health status of and health care delivery to vulnerable populations are examined. BoK: NA. Credit Level: U. Credit Hrs: 3.00

29NURS492**International Health Care**

The clinical experiences in this course provide learning opportunities in a variety of global settings. With diverse experiences in community and/or acute care settings, the student will have the opportunity to understand the interplay of culture, education, nutrition, and political climate on health and illness. Perm of Instructor. BoK: DC. Credit Level: U. Credit Hrs: 2.00-4.00

29NURS493**International Health**

Seminars on factors influencing health status and delivery of health care in selected countries of the world, with a primary focus on those of developing nations. BoK: DC. Credit Level: U. Credit Hrs: 3.00

29NURS494**Spanish for Health Professionals**

This course introduces students in the health care professions to the values, beliefs, practices, and language of the Hispanic culture.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Nursing**29NURS494****Spanish for Health Professionals**

Students learn the language skills necessary to facilitate basic communications for Spanish speaking people in the health care setting. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

29NURS501**Patient Education in Health and Illness**

This course will enable students to develop educational competencies needed to influence patient behavior, increase health promotion knowledge, promote positive attitudes, and to develop skills necessary to maintain or improve their health. BoK: NA. Credit Level: U. Credit Hrs: 3.00

29NURS558**Substance Abuse: Current Trends in Prevention and Treatment**

The course focuses on primary, secondary, and tertiary levels of prevention related to substance abuse across the life span. Students examine the relationship between substance abuse and mental illness. Current trends in prevention and treatment approaches, research findings, and societal and political issues that influence prevention and treatment of substance abuse are explored. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

29NURS571**Independent Study**

Prereq.: Availability of and agreement with a faculty member to supervise the study; a 2.5 overall grade point average. BoK: NA. Credit Level: U. Credit Hrs: 1.00-4.00

29NURS572**Independent Study**

See 29NURS571. BoK: NA. Credit Level: U. Credit Hrs: 1.00-4.00

29NURS573**Independent Study**

See 29NURS571. BoK: NA. Credit Level: U. Credit Hrs: 1.00-4.00

29NURS576**Clinical Elective**

Provides elective clinical practice learning opportunities in a selected area of nursing practice. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-5.00

29NURS577**Refuting the Myths of Pain Management**

This course focuses on traditional and non-traditional nursing interventions for the management of the human experience of pain. Current theories of pain and pain management will be discussed in the context of acute, chronic, and cancer pain. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00

29NURS578**Clinical Decision-Making in Critical Care Nursing**

The purpose of this course is to prepare nurses with the critical thinking skills to care for critically ill adult patients. The course will build on previously learned knowledge of critical care conditions and allow practice in clinical decision-making through a process of unfolding case studies. There will also be an emphasis on the use of scientific evidence in the clinical decision-making. This course is appropriate as an update for practicing critical care nurses and may serve as a critical care certification review. Prereq: 29NURS270, 29NURS410, 29NURS414. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

29NURS581**School Children with Special Health Needs**

The impact of chronic conditions and illness on the school age child, family, and school. Discusses the legal aspects of educating handicapped children, mental retardation, chronic illnesses, childhood cancer, AIDS, childhood and adolescent depression and suicide, eating disorders, and children with parents who have drinking problems. Course designed for school and community health nurses, school professionals, and students interested in school health. BoK: NA. Credit

Nursing**29NURS581****School Children with Special Health Needs**

Level: U, G. Credit Hrs: 3.00

29NURS588**Positioning for the Future: Internship in Area of Concentration**

This course focuses on application of the knowledge and skills essential for nursing practice in specific health care setting(s) with selected client systems. Transitioning of RNs in the changing health care system is facilitated with emphasis on critical thinking, priority setting, and integration of theory into clinical practice. Supervised clinical practice is required. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00-10.00

29NURS600**Applied Nutrition for Health Professionals**

Introduces health professions students to information about the essential nutrients and their relationship to health and disease. Includes discussion of nutrient requirements throughout the lifecycle, nutrition assessment, weight control, malnutrition, eating disorders, and over-the-counter dietary supplements. Theories associated with behavior change will be discussed throughout the course. Prereq: 17BIOL203. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

29NURS601**Case Studies In Interdisciplinary Health Care**

An interdisciplinary course designed to provide hands-on experience in the concepts and rationale for interdisciplinary care. Emphasis is placed on the essential need for interdisciplinary care and effective communication among the disciplines. The interrelated components of interdisciplinary care are applied within the learning exercises. The exercises are selected to illustrate the forces of change within the health care system and strategies to affect interdisciplinary health care in the future. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

29NURS602**Nursing and the Humanities**

The course examines the voices within poetry, short fiction, pathography, film and drama to explore the patient's experience of illness. The patient is viewed from the perspective of the individual as revealed by selected works from the humanities. In addition to the study of the patient's "voice", the course will also examine the image of the nurse as portrayed in the selected works and works in the humanities written by nurses. The course includes works that explore health and illness across the life span as well as works with a multi-cultural focus. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00

29NURS603**Evidence-Based Practice for Clinical Decision-Making**

This course is designed to build on the research concepts developed in the undergraduate program. The senior undergraduate student or graduate student will develop knowledge and skills for locating and critically appraising sources of evidence and evidence-based clinical practice guidelines (CPG) and use of best evidence for the management of diverse patients and populations. Prereq: 29NURS308. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

29NURS604**Palliative Care of the Client and Family**

This course will focus on care of the client and family with a life-limiting disease and will provide the student the opportunity to experience interaction with nurse professionals working in the palliative care area, increase knowledge of palliative care models, and enhance understanding of priorities of care. Prereq: 29NURS303. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

29NURS700**Accelerated-Nursing Assessment**

Focus is on attaining the skills necessary for astute observation, purposeful inquiry and investigation, and outcomes based nursing judgments. Emphasis is placed on the nursing process, health history taking, diagnostic study interpretation, physical examination skills, and environmental evaluation. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Nursing**29NURS701****Accelerated-Concepts of Community Health Nursing**

Course content emphasizes the concept of community focused nursing practice and the relationships among individuals, families, and communities across the life span. Critical attributes and characteristics of various communities are examined. Selected models and theories are used to identify health patterns of culturally diverse client systems. Health policy, politics, and research are emphasized as the context for community health advocacy. The course also examines methods to identify target populations for interventions designed to enhance the health of the community. Strategies for risk reduction and models for health education and health promotion will be discussed. The professional roles of the nurse are examined in the context of community health nursing. Coreq: 29NURS703. Credit Level: G. Credit Hrs: 3.00

29NURS702**Accelerated-Nursing Interventions**

Accelerated Pathway students identify health patterns of client systems and select the use of therapeutic nursing interventions for the promotion, maintenance, and restoration of health patterns for diverse client systems in a variety of environmental contexts. The practicum component provides opportunity for nursing practice skill attainment. Prereq: 29NURS700. Credit Level: G. Credit Hrs: 7.00

29NURS703**Accelerated-Socialization to Professional Nursing**

This course addresses societal influences on the development of the nursing profession. Professional guidelines, law and contemporary ethical concerns in health care are examined. Credit Level: G. Credit Hrs: 2.00

29NURS704**Health Patterns A Childbearing Accelerated**

This course focuses on health pattern alterations as a basis for nursing interventions appropriate for childbearing families. The concepts of health promotion, health maintenance, and health restoration are incorporated into discussion of the nursing process and the role of the professional nurse. Scholarly inquiry will be used to analyze nursing interventions in a variety of environmental and biopsychosocial contexts. Clinical experiences offer the student the opportunities to provide therapeutic nursing interventions to childbearing families in various environmental contexts. The student will apply the nursing process to childbearing families with variations in health patterns. Scholarly inquiry is used to evaluate nursing interventions in a variety of environmental and biophysical contexts. Prereq: 29NURS700, 29NURS702. Coreq: 29NURS701, 29NURS719, 29NURS707. Credit Level: G. Credit Hrs: 5.00

29NURS707**Health Patterns A Children and Families Accelerated**

This course focuses on health pattern alterations as a basis for nursing interventions appropriate for children and families. The concepts of health promotion, health maintenance, and health restoration are incorporated into discussion of the nursing process and the role of the professional nurse. Scholarly inquiry will be used to analyze nursing interventions in a variety of environmental and biopsychosocial contexts. Clinical experiences offer the student the opportunities to provide therapeutic nursing interventions to children and families with major health concerns in various environmental contexts. The student will apply the nursing process to children and families with variations in health patterns. Scholarly inquiry is used to evaluate nursing interventions in a variety of environmental and biophysical contexts. Prereq: 29NURS700, 29NURS702. Coreq: 29NURS701, 29NURS719, 29NURS704. Credit Level: G. Credit Hrs: 6.00

29NURS711**Accelerated Community as Partner**

The course is designed to facilitate student transition to the role of the professional nurse in the community. Students have opportunities to design and implement population-based interventions to promote the health of communities. Students use models and strategies for

Nursing**29NURS711****Accelerated Community as Partner**

population based health promotion and risk reduction across the life span including end of life care. Prereq: 29NURS701. Credit Level: G. Credit Hrs: 4.00

29NURS712**Leadership and Management in Professional Nursing**

The course focuses on management and leadership roles in various health care organizations. The course emphasizes integration of management and leadership skills to promote high quality patient outcomes through facilitation of high quality professional practice in the delivery of health care. Prereq: 29NURS708, 29NURS709. Credit Level: G. Credit Hrs: 2.00

29NURS714**Health Pattern Synthesis/Integration-Accelerated**

This seminar provides students with the opportunity to work in small groups to synthesize the complex health pattern variations of client systems in an acute care environment. Emphasis is placed on evaluating outcomes of therapeutic nursing interventions of diverse client systems. Offered for Accelerated Pathway students. Coreq: 29NURS715, 29NURS724. Credit Level: G. Credit Hrs: 3.00

29NURS715**Practicum: Transition to Professional Practice in an Acute Care Environment-Accelerated**

This practicum facilitates transition from student to professional nurse in the acute care environment. A variety of experiences provide the student opportunity to develop independence as care is managed for diverse client systems experiencing complex health pattern variations. Offered for Accelerated Pathway students. Credit Level: G. Credit Hrs: 5.00

29NURS716**Accelerated Health Patterns B: Adult**

This course focuses on health pattern alterations as the basis for nursing interventions appropriate for adult client systems. The concepts of health promotion, health maintenance, and health restoration are incorporated into discussion of the nursing process and the role of the professional nurse. Scholarly inquiry will be used to analyze nursing interventions in a variety of environmental and biopsychosocial contexts. Clinical experiences facilitate the utilization of this knowledge in the provision of holistic care. Prereq: 29NURS700, 29NURS702, 29NURS704, 29NURS707. Credit Level: G. Credit Hrs: 6.00

29NURS717**Accelerated Health Patterns B: Psychiatric Mental Health**

This course focuses on health pattern alterations as the basis for nursing interventions appropriate for psychiatric client systems. The concepts of health promotion, health maintenance, and health restoration are incorporated into discussions of the nursing process and the role of the professional nurse and practical clinical experiences. Scholarly inquiry is used to analyze nursing interventions in a variety of environmental and biopsychosocial contexts. Credit Level: G. Credit Hrs: 6.00

29NURS718**Accelerated Health Pattern Integration/Synthesis**

This course focuses on integration and synthesis of health pattern alterations as the basis for nursing interventions appropriate for adult client systems. The concepts of health promotion, health maintenance, and health restoration are incorporated into discussions of nursing process and the role of the professional nurse. Scholarly inquiry is used to analyze nursing interventions in a variety of environmental and biopsychosocial contexts. Clinical experiences facilitate utilization of this knowledge. Prereq: 29NURS716, 29NURS717, 29NURS711. Credit Level: G. Credit Hrs: 14.00

29NURS720**Health Patterns B Accelerated Practicum: Adult**

This practicum offers the student the opportunities to provide therapeutic nursing interventions to adult client systems with major

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Nursing**29NURS720****Health Patterns B Accelerated Practicum: Adult**

health concerns in various environmental contexts. The student will apply the nursing process to client systems with variations in health patterns. Prereq: 29NURS704, 29NURS706, 29NURS708. Credit Level: G. Credit Hrs: 3.00

29NURS724**Health Pattern Synthesis/Integration-Accelerated**

This course focuses on the synthesis of health patterns of client systems who are in an acute care environment. Focus is on the use of the nursing process when providing therapeutic nursing interventions for client systems experiencing complex health pattern variations. Scholarly inquiry will be used to evaluate nursing interventions. Offered for Accelerated Pathway students. Credit Level: G. Credit Hrs: 5.00

29NURS725**Accelerated-Therapeutic Nursing Interventions**

Accelerated Pathway students identify health patterns of client systems and select the use of therapeutic nursing interventions for the promotion, maintenance, and restoration of health patterns for diverse client systems in a variety of environmental contexts. The practicum component provides opportunity for nursing practice skill attainment. Credit Level: G. Credit Hrs: 7.00

29NURS726**Accelerated - Health Patterns A Childbearing**

This course focuses on health pattern alterations as a basis for nursing interventions appropriate for childbearing families. The concepts of health promotion, health maintenance, and health restoration are incorporated into discussion of the nursing process and the role of the professional nurse. Scholarly inquiry will be used to analyze nursing interventions in a variety of environmental and biopsychosocial contexts. Prereq: 29NURS700, 29NURS702. Coreq: 29NURS703, 29NURS705, 29NURS706. Credit Level: G. Credit Hrs: 2.00

29NURS730**Nursing Theory**

This course focuses on the systematic examination of concepts and theories common to nursing practice as a basis for developing a theoretical framework for nursing practice. Offered for Yonsei University students. Credit Level: G. Credit Hrs: 4.50

29NURS731**Nursing Research Methodology**

This course is designed for graduate neonatal or pediatric nursing students to provide scientific frameworks for research proposal development. Credit Level: G. Credit Hrs: 4.50

29NURS733**Advanced Maternal Child Health Seminar**

This seminar will include discussion about genetics and fetal development for the pregnant mother and child. Credit Level: G. Credit Hrs: 4.50

29NURS734**Child and Family**

This course focuses on the theories of family and group therapy with emphasis on families of young children and adolescents. Case studies are used to analyze the roles and functions of family members. Offered for Yonsei University students. Credit Level: G. Credit Hrs: 4.50

29NURS736**Advanced Physiology**

This course introduces the neonatal and pediatric student to physiology necessary for advanced nursing practice. Credit Level: G. Credit Hrs: 4.50

29NURS737**Statistical Analysis for Advanced Nursing Practice**

This course focuses on statistical analysis and interpretation for advanced nursing practice. Selected statistics will be explored along with the rationale and requirements for each statistical test. Offered for Yonsei University students. Credit Level: G. Credit Hrs: 4.50

Nursing**29NURS737****Statistical Analysis for Advanced Nursing Practice**

This course focuses on statistical analysis and interpretation for advanced nursing practice. Selected statistics will be explored along with the rationale and requirements for each statistical test. Offered for Yonsei University students. Credit Level: G. Credit Hrs: 4.50

29NURS738**Health Assessment**

This course introduces the neonatal and pediatric student to health assessment for advanced nursing practice. Credit Level: G. Credit Hrs: 4.50

29NURS740**Health Policy**

This course focuses on the theories and processes of health policy making. The issues include: manpower and organizational structure of the health care system and factors affecting development of the health care system. Offered for Yonsei University students. Credit Level: G. Credit Hrs: 4.50

29NURS800**Novice Nurse Educator Institute**

This course prepares the novice nurse educator for the beginning teaching role in clinical and laboratory settings. The course focuses on expectations of faculty in higher education, principles of teaching and learning, student socialization, clinical assessment and evaluation strategies, and evidence-based practice. Credit Level: G. Credit Hrs: 2.00

29NURS801**Pharmacology for Advanced Nursing Practice**

(3 cr. hours/week or 30 continuing education contact hours.) Prepares nurses for advanced practice with knowledge of pharmacokinetic and pharmacodynamic principles of common drug categories used to prevent illness and to restore and maintain health across the lifespan. Prereq: 29NURS811. Credit Level: G. Credit Hrs: 3.00

29NURS803**Health Care Policy, Organization, and Finance**

Examines health care organization, financing, and delivery. Emphasis is directed at organizational and financial processes and strategies used in evaluating, planning, monitoring, managing and improving outcome effectiveness. Credit Level: G. Credit Hrs: 3.00

29NURS804**Statistical Analysis for Advanced Nursing Practice**

Focuses on statistical analysis and interpretation for advanced nursing practice. Selected statistics will be explored along with the rationale and requirements for each statistical test. Credit Level: G. Credit Hrs: 3.00

29NURS805**Research and Evidence-Based Advance Practice Nursing**

This course is designed to build on the research and statistical concepts developed in undergraduate programs. Focusing on the evaluation and utilization of new knowledge for evidence-based practice, students will develop skills needed for the application of research findings to advanced practice nursing and the beginning conduct of scholarly inquiry. Ethical concerns and safety of human subjects in research will be highlighted. Credit Level: G. Credit Hrs: 3.00

29NURS807**Theoretical Foundations of Health Promotion, Risk Reduction and Health Planning**

This course is designed to build on theoretical perspectives and skills gained at the undergraduate level. Nursing and other scientific theories will be critiqued for applicability to health promotion/protection and disease prevention services for consideration of age, developmental stage, family history and ethnicity. These theories include principles of epidemiology, risk reduction, use of community/public health assessment information and demography, principles of teaching/learning, and the principles of behavioral change. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Nursing**29NURS808****Health Care Policy, Organization and Finance**

This course will assist the advanced nursing practice student to develop knowledge about health care policy, organization, and finance from historical, sociocultural, political, economic, and legislative perspectives. The leadership of the Advance Practice Nurse in influencing the process of health care policy formulation, implementation, and modification as it effects client systems, clinical practice, and health care delivery are explored. The organization structure and the reimbursement process in a variety of practice settings for advanced practice nurses are examined. Credit Level: G. Credit Hrs: 3.00

29NURS809**Research for Evidence Based Practice**

This course is designed to build on the research and statistical concepts learned at the undergraduate level. The graduate student will develop knowledge and skills needed for the application of research findings to advanced nursing practice and the beginning conduct of scholarly inquiry. The course assists the graduate student to use an evidence based approach to the management of patient/population health care. Epidemiologic methods and clinical biostatistics are combined to provide a foundation for research planning and the appraisal of research quality. Theories of quality improvement are provided to assist students in evaluating outcomes of care. Ethical concern and safety of human subjects research will be highlighted. Credit Level: G. Credit Hrs: 5.00

29NURS810**Family and Cultural Theories for the Advanced Nurse Practice**

This course introduces the advanced practice nursing student to the concepts and frameworks of theories of family and culture throughout the lifespan. This includes growth and development throughout the lifespan with an emphasis on family interaction. Family structure and function will be investigated including family stressors, impediments, transitions, and coping mechanisms. Culture values regarding health and in health care will be explored emphasizing the effects of language, poverty, vulnerability and customs. Credit Level: G. Credit Hrs: 3.00

29NURS811**Cellular and Biophysical Basis for Pathophysiology**

This course builds upon basic knowledge of human anatomy, physiology, and the mechanisms of disease. It provides an in-depth consideration of molecular physiology while integrating examples of pathophysiology most likely to be encountered by the advanced practice nurse. Basic and translational research into biochemical, molecular and organ system dysfunction are emphasized. Current thought concerning age-related changes and theories of physiological aging are included. Credit Level: G. Credit Hrs: 4.00

29NURS812**Health Assessment for Advanced Nursing Practice**

(3 hours didactic/week and 3 hours clinical lab/week). Develops the knowledge and skills necessary for the performance of a comprehensive health assessment. Synthesis of data including diagnostic study interpretation is emphasized. Credit Level: G. Credit Hrs: 4.00

29NURS813**Pharmacology for Advanced Nursing Practice**

This course prepares nurses for professional roles in advanced nursing practice with knowledge of pharmacokinetic and pharmacodynamic principles of common drug categories used to prevent illness and to restore and maintain health for client systems across the lifespan. Mechanisms of action, pharmacologic response, usual doses, adverse effects, indications, interactions, compatibilities, contraindications and routes of administration will be emphasized in acute and chronic conditions. Six hours of legal, ethical and financial content related to prescribing is addressed in this course as required by the Ohio Board of Nursing. Prereq: 29NURS820. Credit Level: G. Credit Hrs: 4.00

Nursing**29NURS814****Health Planning**

Focuses on needs assessments, program planning, implementation, and evaluation in a variety of environmental contexts. Process and outcome evaluation are covered. Credit Level: G. Credit Hrs: 3.00

29NURS815**Financial Management in Health Services**

Prepares students with basic skills for the financial management of delivery systems. Topics discussed include reimbursement, budgeting, analyzing productivity, financial control, and alternative strategies for income production. Credit Level: G. Credit Hrs: 3.00

29NURS816**Human Resources Management in Health Services**

Provides a systems approach to human resources management in health service administration. Examines the external environment, organizational characteristics, subsystem components, and individual and collective outcomes. Credit Level: G. Credit Hrs: 3.00

29NURS817**Organization and Management of Health Care Systems**

Integrates theory and practice related to organization and management of nursing and health services. Focus is on transition into management roles and utilization of administrative theory. Case management, managed care, and quality improvement are addressed. Credit Level: G. Credit Hrs: 3.00

29NURS818**Genetic Applications to Advanced Practice Nursing**

This course provides an overview of the Human Genome Project and the current state of genomics science. Basic genetic concepts about human chromosomes, karyotype, mitosis, meiosis, recombinant DNA, genotype, phenotype, Mendelian inheritance, gene expression, biochemical genetics, and chromosomal aberrations are reviewed. Students are updated on emerging genetic terms including genomics, proteomics, pharmacogenetics, and metabolomics. Application of the top ten causes of mortalities and morbidities with genomic influences across the lifespan are applied to the role of the advanced practice nurse. Pedigree construction and analysis, dysmorphology assessment, and genetic screening and testing are addressed to enhance the advanced practice role. Ethical and legal implications of genetic testing are addressed. Content is structured to insure students will be able to gain an appreciation for laboratory techniques related to clinical genetics. Credit Level: G. Credit Hrs: 2.00

29NURS819**Data Management for Advanced Practice Nursing**

This practicum is designed to assist students in the development of skills in information technology required for tracking populations, management of services, and evaluation of interventions. Credit Level: G. Credit Hrs: 2.00

29NURS820**Advanced Physiology**

This course builds upon basic knowledge of human anatomy and physiology. It provides an in-depth consideration of molecular physiology while integrating examples of physiological principles most likely to be encountered by the advanced practice nurse. Basic and translational research into biochemical, molecular and organ system function will be emphasized. Current thought concerning age-related changes and theories of physiology across the life span will be included. Credit Level: G. Credit Hrs: 4.00

29NURS821**Primary Care of Episodic Illness**

This course provides students with the theoretical base to assess, diagnose, and manage the care of client systems across the lifespan with selected episodic health pattern alterations. Students will focus on the promotion, maintenance and restoration of client systems' health patterns. Culturally competent, holistic, ethical, age and gender specific, and risk stratified care will be discussed. Nonpharmacologic aspects of care such as teaching and coaching will be addressed as well as the

H=University Honors course.

Nursing**29NURS821****Primary Care of Episodic Illness**

pharmacologic management designed to help clients achieve desired outcomes. Evidence based practice will serve as the basis for care management. This course includes 0.5 credits (5 clock hours) of pharmacology content. Prereq: 29NURS825, 29NURS813. Credit Level: G. Credit Hrs: 3.00

29NURS822**Differential Diagnosis Across the Lifespan**

This course is the second sequential course that explores the comprehensive physical and psychological assessment of signs, symptoms and pathophysiological changes of the client system across the lifespan. The focus of the course is to develop diagnostic reasoning skill through analysis of present and past histories, physical findings and diagnostic studies that contribute to the formulation of differential diagnoses of the major health problems in the United States. The client is assessed from a holistic nursing perspective with consideration of his/her cultural, social, ethnic, family and community environments. Prereq: 29NURS820, 29NURS812. Credit Level: G. Credit Hrs: 3.00

29NURS823**Management of Chronic Illness**

This course provides students with the theoretical base to assess, diagnose, and manage the care of client systems across the lifespan with selected common chronic health pattern alterations. Students will focus on the promotion, maintenance and restoration of client system's health patterns. Culturally competent, holistic, ethical, age and gender specific, and risk stratified care will be discussed. Nonpharmacologic aspects of care such as teaching and coaching will be addressed as well as the pharmacologic management designed to help clients achieve desired outcomes. Current evidence based practice as the basis for care management decision making is emphasized. This course includes 0.5 credits (5 clock hours) of pharmacology content. Prereq: 29NURS825, 29NURS813. Credit Level: G. Credit Hrs: 4.00

29NURS824**Interventions for Advanced Nursing Practice**

This course provides in-depth exploration of advanced therapeutic nursing interventions that are designed to promote, maintain, or restore the health of client systems across the lifespan. Students will learn the theory and then practice the most common skills needed for advanced practice nursing in primary and urgent care settings. In addition, students will analyze the purpose, cost-benefits, selection criteria and outcomes for the evaluation of each therapeutic intervention. Current theory and evidence based medicine related to the interventions are examined. Prereq: 29NURS812, 29NURS820. Credit Level: G. Credit Hrs: 2.00

29NURS825**Pathophysiology for Advanced Nursing Practice**

This course is designed to build upon the student's pre-existing knowledge of the pathophysiology of disease across the life span. The focus of the course is an in-depth consideration of cellular alterations that occur as variations in health patterns across the lifespan. It explores the underlying cellular mechanisms that form the basis for advanced nursing practice to manage the variations in health patterns of client systems. Contemporary research in genetics, biochemical processes and cellular dysfunction is emphasized. Students will have the opportunity to apply theoretical content in an associated clinical course. Prereq: 29NURS820. Credit Level: G. Credit Hrs: 4.00

29NURS826**Finance and Economics of Healthcare**

This course explores healthcare finance and economics from the perspective of health care providers and non-financial managers of health services. Financial management principles, the healthcare reimbursement system, reimbursement processes, and factors influencing the financial environment are discussed with emphasis on strategies to promote and sustain the financial viability of the healthcare. Credit Level: G. Credit Hrs: 3.00-4.00

Nursing**29NURS830****Financial Reimbursement for Health Care Providers**

This course provides an overview of the health care financial reimbursement system and reimbursement process from initial coding through payment as it relates to health care providers. The essentials of compliant coding and supportive documentation are emphasized from the provider's perspective. Provider insurance credentialing and contracting and practice financial management are also discussed. Credit Level: G. Credit Hrs: 3.00

29NURS832**Master's Capstone Project**

Culminating experience in which one of three foci are selected: (1) integration of research findings into practice with evaluation of client system outcomes; or (2) evaluation of current nursing practice through examination of relevant client system clinical outcomes; or (3) description of new knowledge with potential for enhancing nursing practice. Credit Level: G. Credit Hrs: 2.00

29NURS833**Master's Research Thesis**

Capstone research experience. Credit Level: G. Credit Hrs: 3.00

29NURS834**The Shifting Instructional Paradigm: Teaching to Learning**

Building on a basic understanding of clinical instruction, this course focuses on the role of the faculty member in facilitation of learning in the traditional and virtual classroom. Non-traditional, innovative teaching strategies and evidence-based practice in nursing education will be explored. Prereq: 29NURS800. Credit Level: G. Credit Hrs: 3.00

29NURS835**Transforming Curricula and Student Evaluation in Nursing**

Taught from a outcomes-based perspective, this course focuses on the role of the faculty member in curricular and course design and evaluation and assessment of student learning. Competency based student assessment will be addressed. Content on test design, construction and evaluation, and the use of instructional technology in student evaluation is also included. Prereq: 29NURS800. Credit Level: G. Credit Hrs: 4.00

29NURS836**Practicum: The Competent Nurse Educator**

This course provides the student with an ongoing mentored classroom experience. A faculty mentor will be assigned to assist the student in developing instructional skills in the traditional and/or virtual classroom for an entire academic term. Prereq: 29NURS834, 29NURS835. Coreq: 29NURS837. Credit Level: G. Credit Hrs: 4.00

29NURS837**Role Seminar: The Competent Nurse Educator**

This seminar is designed to complement 29NURS836 Practicum: The Competent Nurse Educator. A guided discussion format is used to evaluate the role of the nurse educator as leader, teacher, and scholar as a member of a higher education community. Issues to be discussed include classroom management, mentorship, change design and implementation, student counseling, legal and ethical issues in higher education, and the scholarship of teaching and learning. Prereq: 29NURS834, 29NURS835. Coreq: 29NURS836. Credit Level: G. Credit Hrs: 3.00

29NURS843**Research Practicum**

Learning experience as a research assistant. Credit Level: G. Credit Hrs: 1.00-4.00

29NURS847**Directed Specialty Study II: Critical Care**

This course will focus on evidence-based practice concepts in Critical Care. Guided self-assessment and independent study aid the student to expand their knowledge base related to advanced practice within their specialty. Prereq: 29NURS851. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Nursing**29NURS848****Directed Specialty Study II: Gerontology**

This course will focus on evidence-based practice concepts in Gerontology. Guided self-assessment and independent study aid the student to expand their knowledge base related to advanced practice within their specialty. Prereq: 29NURS851. Credit Level: G. Credit Hrs: 3.00

29NURS849**Directed Specialty Study II: Adult Health**

This course will focus on evidence-based practice concepts in Adult Health. Guided self-assessment and independent study aid the student to expand their knowledge base related to advanced practice within their specialty. Prereq: 29NURS851. Credit Level: G. Credit Hrs: 3.00

29NURS850**Evidence-Based Practice for the Nurse Leader**

This course is designed to build on the research competencies acquired in a Master of Science in Nursing program. The student will develop knowledge and skills to translate the best available evidence for the improvement in outcomes in healthcare. Prereq: 29NURS804, 29NURS805. Credit Level: G. Credit Hrs: 3.00

29NURS851**Directed Specialty Study I: Symptom Management**

Through seminar discussions, students learn to systematically approach complex clinical situations. This seminar course focuses on the design, implementation and evaluation of innovative interventions for client symptoms and functional problems. New models for the delivery of individual and group interventions are explored. Credit Level: G. Credit Hrs: 3.00

29NURS852**Role Integration of the CNS I**

This course focuses on the role development of clinical nurse specialist. Models and frameworks are explored to aid in the integration of the many subroles of the CNS. The role of the CNS in clinical judgment, clinical inquiry, facilitation of learning, program planning and project management, advocacy and moral agency, collaboration, caring practices, cultural diversity, and systems thinking are explored. Credit Level: G. Credit Hrs: 3.00

29NURS854**Clinical Nurse Specialist Practicum I**

In this practicum, students will engage in the beginning implementation of the role of the clinical nurse specialist including clinical expert, consultant, educator, researcher, and leader. Clinical experiences will take place in various contexts consistent with the student's clinical specialty. Prereq: 29NURS820, 29NURS812, 29NURS825, 29NURS813, 29NURS822. Coreq: 29NURS852, 29NURS853. Credit Level: G. Credit Hrs: 6.00

29NURS855**Role Seminar I**

This seminar is taken in conjunction with the clinical practicum and provides an opportunity to discuss clinical cases, clinical projects, and education programs while demonstrating the ability to apply the didactic material to practice. Prereq: 29NURS820, 29NURS812, 29NURS825, 29NURS813, 29NURS822. Coreq: 29NURS852, 29NURS854. Credit Level: G. Credit Hrs: 1.00

29NURS856**Clinical Nurse Specialist Practicum II**

In this practicum, students will continue to engage in the beginning implementation of the role of the clinical nurse specialist including clinical expert, consultant, educator, researcher, and leader. Clinical experiences will take place in various contexts consistent with the student's clinical specialty. Credit Level: G. Credit Hrs: 6.00

29NURS857**Role Seminar II**

This seminar is taken in conjunction with the clinical practicum and

Nursing**29NURS857****Role Seminar II**

provides an opportunity to discuss clinical cases, clinical projects, and education programs while demonstrating the ability to apply the didactic material to practice. Prereq: 29NURS855. Coreq: 29NURS800, 29NURS834, 29NURS835, 29NURS856. Credit Level: G. Credit Hrs: 1.00

29NURS858**Clinical Nurse Specialist Practicum III**

In this practicum, students will continue to engage in the beginning implementation of the role of the clinical nurse specialist including clinical expert, consultant, educator, researcher, and leader. Clinical experiences will take place in various contexts consistent with the student's clinical specialty. Coreq: 29NURS860. Credit Level: G. Credit Hrs: 5.00

29NURS859**Role Seminar III**

This seminar is taken in conjunction with the clinical practicum and provides an opportunity to discuss clinical cases, clinical projects, and education programs while demonstrating the ability to apply the didactic material to practice. Prereq: 29NURS856. Coreq: 29NURS860, 29NURS858. Credit Level: G. Credit Hrs: 1.00

29NURS860**Leadership Dynamics in Healthcare Organizations**

This course focuses on the integration of core leadership concepts and principles into leadership roles at various levels throughout the healthcare organization. Students examine the theoretical basis for development and application of effective leader behaviors in healthcare organizations. Emphasis is placed on the experience of becoming and being a leader. Credit Level: G. Credit Hrs: 3.00

29NURS871**Special Topics (In Area of Concentration)**

Study in a specified topic or area. Credit Level: G. Credit Hrs: 1.00-5.00

29NURS872**Independent Study**

Independent study to expand knowledge and experience beyond that gained in regularly offered courses. Credit Level: G. Credit Hrs: 1.00-5.00

29NURS873**Independent Study**

Independent study to expand knowledge and experience beyond that gained in regularly offered courses in the graduate program. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-7.00

29NURS874**Independent Study**

Independent study to expand knowledge and experience beyond that gained in regularly offered courses in the graduate program. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-7.00

29NURS877**Special Topics (In Area of Concentration)**

Study in a specified topic or area. Credit Level: G. Credit Hrs: 1.00-5.00

29NURS878**Special Topics (In Area of Concentration)**

Study in a specified topic or area. Credit Level: G. Credit Hrs: 1.00-5.00

29NURS890**CULTURE, HEALTH & COMMUNITY**

The course will explore the phenomenon of culture and its broad implications for health. Cultural frameworks and research studies in the extant literature that explain and investigate the relationships between culture and health will be examined. Other relevant constructs related to culture such as ethnicity, race, religion, and socioeconomic status will be examined for their impact on population health. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Nursing**29NURS892****Cancer Survivorship**

This interdisciplinary course is the first of two courses that focus on the survivorship phase of the cancer trajectory. An overview of cancer pathophysiology and the diagnostic and treatment modalities of the major cancers provides the foundation for understanding the impact of the disease and treatment on quality of life. An examination of the state of the science of delivery of care from a multidisciplinary approach is emphasized. Credit Level: G. Credit Hrs: 3.00

29NURS940**Nursing Inquiry I**

A seminar focusing on the theoretical and research dynamics of nursing inquiry as a basis for understanding the development of knowledge in nursing science and the impact of health determinants on individuals, communities, and systems. Credit Level: G. Credit Hrs: 4.00

29NURS941**Nursing Inquiry II**

A seminar offering an in-depth study of the theoretical and philosophical underpinnings of nursing inquiry. Students study the development, history, and philosophy of science in general and their relationship to the development of nursing inquiry. Contemporary philosophies of science and theories provide the foundation for exploring methods of inquiry relevant to phenomena of interest. Prereq: 29NURS940. Credit Level: G. Credit Hrs: 4.00

29NURS942**Nursing Inquiry III**

A seminar that offers students the opportunity to apply the processes of nursing inquiry to the exploration of phenomena of interest to nursing. Students integrate varied philosophical, theoretical, and methodological perspectives in designing dynamic approaches for the advancement of nursing science. Prereq: 29NURS940, 29NURS941. Credit Level: G. Credit Hrs: 5.00

29NURS945**Scientific Basis for Clinical Reasoning**

This course examines approaches for the translation of the best available evidence into practice for improved outcomes in healthcare. Prereq: 29NURS804, 29NURS805. Credit Level: G. Credit Hrs: 6.00

29NURS948**Introduction to Qualitative Methods**

This course focuses on qualitative research relevant to the study of human phenomena of concern to nurses. Philosophical issues are examined as they relate to paradigms and research methods. Qualitative research methods and criteria of research are analyzed. Students participate in data collection methods and analyses of data. Credit Level: G. Credit Hrs: 3.00

29NURS949**Professional Seminar II**

This is the second course in a four course sequence, and is designed to continue the socialization of students into the roles and responsibilities of active novice nurse researchers. Students are exposed to all components of the research process by working with a senior nurse researcher who will actively mentor them in research endeavors. To do this, students devote 60 hours working on research teams as novice investigators; attend research team meetings, scholarship roundtables, and other appropriate seminars as identified by the research mentor or course faculty. Prereq: 29NURS950. Credit Level: G. Credit Hrs: 3.00

29NURS950**Professional Seminar I**

This is the first in a four course sequence, and is designed to socialize the student into the roles and responsibilities of the PhD-prepared nurse scientist. Students will be given the opportunity to develop specific beginning competencies necessary to engage in a career as an independent nurse scientist. Students will become competent in understanding how the conceptual framework of the doctoral program - Multiple Determinants of Health - relates to the programs of faculty research and to the development of their own research. Opportunities

Nursing**29NURS950****Professional Seminar I**

for becoming acquainted with faculty programs of research will be provided. The specific topics of roles and responsibilities of the PhD-prepared nurse scientist, the ANA Social Policy Statement, internal and external funding mechanisms, beginning grantsmanship, the National Institutes of Health Strategic Mission and Plan, establishing collegial relationships, successful collaboration, scientific reading and writing, and dissemination of scholarship will be presented. During this class, students will select a senior research mentor for Winter and Spring Quarter. Credit Level: G. Credit Hrs: 2.00

29NURS952**Professional Seminar III**

This is the third course in a four course sequence, and is designed to further socialize the student into the roles and responsibilities of an independent nurse researcher. Students continue to be exposed to all components of the research process through the research practicum begun in 29NURS951. In addition to completing 60 hours of research practicum, students will attend a weekly 2-hour seminar to continue synthesizing the knowledge needed to function as an independent nurse researcher. Students will independently conduct research based on their mentor's program of research, produce a research synthesis paper, and begin to formulate an independent research project. Prereq: 29NURS950, 29NURS951. Credit Level: G. Credit Hrs: 4.00

29NURS953**Professional Seminar IV**

As students work on their independent research projects and take course work related to their phenomenon of concern, this seminar is designed to assist students with the final articulation of their phenomenon of concern and research trajectory, increase their ability to write persuasively about their phenomenon, and assist with writing and submitting scholarly works, including publications, presentations, and grant proposals. Research mentors will attend seminar with their students twice during the quarter. Credit Level: G. Credit Hrs: 1.00

29NURS954**Proposal Seminar I**

This required doctoral course facilitates the development of a dissertation proposal in a mentored environment by means of participation with peers, doctoral faculty, and the dissertation advisor. The course is a forum for students to explore methods of inquiry in the area of their phenomenon of concern with particular attention to the research problem, theoretical foundations, research methods, and data management and analysis. Students are guided in the application of the fundamentals of scientific writing and critical analyses of the literature. Faculty and students discuss the format and procedures for progression in the dissertation process. Credit Level: G. Credit Hrs: 3.00

29NURS955**Proposal Seminar II**

This required doctoral course is the second in a series to facilitate the development of a dissertation proposal in a mentored environment. The course is a forum for students to participate with peers, doctoral faculty, and the dissertation advisor to explore methods of inquiry in the area of their phenomenon of concern. There is particular attention to finalization of the research problem, theoretical foundations, research methods, and data management and analysis. Students are guided in the application of the fundamentals of scientific writing and critical analyses of the literature. Faculty and students discuss the format and procedures for the dissertation process and dissertation defense. Prereq: 29NURS954. Credit Level: G. Credit Hrs: 3.00

29NURS957**Dissertation Seminar**

The dissertation seminar runs concurrently with dissertation credit hours. In this seminar, all students who are working on dissertation will come together on a regular basis to discuss progress, problems, and lessons learned in order to progress in a timely manner through the dissertation process. The seminar is led by a senior scientist with significant experience with dissertation advisement. Credit Level: G.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Nursing**29NURS957****Dissertation Seminar**

Credit Hrs: 1.00

29NURS958**Advanced Qualitative Methods**

This course introduces the philosophical underpinnings of three interpretive methodologies: ethnography, grounded theory, and hermeneutic phenomenology. The participants will immerse themselves in the historical and classical literature that provides the foundation for these three methodologies. The participants will critique studies using each of the three interpretive research methodologies.

Prereq: 29NURS948, 29NURS973. Credit Level: G. Credit Hrs: 3.00

29NURS960**Religiosity, Spirituality, and Health Sciences Research**

This course is designed to provide the student an introduction to the history, evaluation, implementation, and application of research concerned with the relationship between religiosity, spirituality, and health. A primary focus will be comprehending research issues related to conceptual definitions, measurement, design, analysis, and interpretation. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

29NURS963**Theories and Methods for Analysis of Discrete Data**

This course introduces the student to the theory and methods used in analysis of discrete data. The course is designed to provide the student with an understanding of the rates and the probability models frequently used in health care research. A major focus of the course is the application of these theories and methods in the study of human phenomena of concern to nursing. Credit Level: G. Credit Hrs: 3.00

29NURS964**Measurement in Research Using Item Response Theory**

This course provides the student with the knowledge and skills to develop and evaluate measurement tools using item response theory. The mathematical and psychometric history of measurement and the subsequent development of the Rasch Measurement Model will be discussed. Students will have the opportunity to apply the principles and methods of the Rasch Measurement in the laboratory setting. Credit Level: G. Credit Hrs: 3.00

29NURS965**Teaching and Learning in Graduate Nursing Education: Practicum and Seminar**

Designed to prepare nursing faculty for the teaching role in graduate education, this course (seminar and practicum) provides the participant with a guided teaching experience in the graduate classroom and/or practicum. The seminar covers such topics as how professional expertise is taught and learned, teaching styles appropriate for students already engaged in the profession, and evaluation of students' professional skills. Prereq: 29NURS834, 29NURS835, 29NURS837. Credit Level: G. Credit Hrs: 5.00

29NURS966**Educational and Professional Leadership Strategies in Nursing**

This course is an exploration of the interplay of the university faculty member role, educational and professional leadership, and external forces that impact upon nursing education programs. Students will complete a comprehensive investigation of the academic nursing role in higher education relative to program administration, student issues, program requirements, and faculty expectations. Credit Level: G. Credit Hrs: 3.00

29NURS967**The Scholarship of Teaching and Learning: Research Methods**

This course focuses on emerging methodologies for the study of nursing education. Students will critique current research literature pertaining to nursing education. Applicability of a variety of research methodologies (e.g., evidence-based, critical, participatory, feminist, grounded, phenomenological, and postmodern) will be explored. A research proposal related to a phenomenon of interest in nursing

Nursing**29NURS967****The Scholarship of Teaching and Learning: Research Methods**

education will be developed. Credit Level: G. Credit Hrs: 3.00

29NURS968**The Phenomenon of Human Care and Caring**

This course focuses on a systematic examination of the phenomenon of human care and caring using a cultural paradigmatic foundation. Human care literature will be analyzed systematically and discussed from a multidisciplinary perspective of care theorists. Historical, cultural, epistemic and ontologic dimensions of care and caring along with research methodologies will be considered in advancing the science of nursing. Credit Level: G. Credit Hrs: 3.00

29NURS969**The Science of Symptom Management**

This course provides a systematic evaluation of the state of the science related to symptom management. Symptom management models, current theories and research related to symptom clusters, interventions and outcomes (including biophysical and economic) will be analyzed. Research design, methods, measurement implementation and analysis issues related to symptom management will be explored. Prereq: 29NURS940, 29NURS973. Credit Level: G. Credit Hrs: 3.00

29NURS971**Instrument Evaluation and Development**

This seminar focuses on the evaluation of existing instruments and development of new instruments designed to measure psychosocial and behavioral concepts of interest to nursing. Emphasis is placed on the use of rigor in the tool development and evaluation process as well as ethical and professional standards for the conduct of research. Prereq: 29NURS804, 29NURS982. Credit Level: G. Credit Hrs: 3.00

29NURS972**Nursing Research Methods**

Seminar focuses on conceptualization of clinical nursing phenomena, relevant research designs consistent with quantitative and qualitative research methods used in describing and in examining comparative, associational and predictive relationships among phenomena, and corresponding measurement and data collection techniques. Credit Level: G. Credit Hrs: 4.00

29NURS973**Quantitative Research Methods**

This is a seminar in which students focus on basic quantitative research designs. Students discuss varied approaches to examining nursing phenomena and identify appropriate designs for the research questions that are generated. Strengths and weaknesses of various designs will be analyzed. Methods for operationalizing variables will be explored. Sampling strategies will be compared. Students will examine the components of research proposals for common nursing funding agencies. Emphasis will be placed on the use of scientific rigor in the research process as well as the ethical and professional standards for the conduct and reporting of research. Credit Level: G. Credit Hrs: 3.00

29NURS974**Teaching and Learning in Graduate Nursing Education**

Designed to prepare nursing faculty for the teaching role in graduate education, this course (seminar and practicum) provides the participant with a guided teaching experience in the graduate classroom and/or practicum. The seminar covers such topics as how professional expertise is taught and learned, teaching styles appropriate for students already engaged in the profession, and evaluation of students' professional skills. Prereq: 29NURS834, 29NURS835, 29NURS837. Credit Level: G. Credit Hrs: 5.00

29NURS975**Educational and Professional Leadership Strategies in Nursing**

This course is an exploration of the interplay of the university faculty member role, educational and professional leadership, and external forces that impact upon nursing education programs. Students will complete a comprehensive investigation of the academic nursing role in

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

Nursing**29NURS975****Educational and Professional Leadership Strategies in Nursing**

higher education relative to program administration, student issues, program requirements and faculty expectations. Credit Level: G. Credit Hrs: 3.00

29NURS976**The Scholarship of Teaching and Learning: Research Strategies**

This course focuses on emerging methodologies for the study of nursing education. Students will critique current research literature pertaining to nursing education. Applicability of a variety of research methodologies (e.g. evidence-based, critical, participatory, feminist, grounded, phenomenological and postmodern) will be explored. A research proposal related to a phenomenon of interest in nursing education will be developed. Credit Level: G. Credit Hrs: 3.00

29NURS977**Quality of Life: Theoretical and Methodological Issues**

This seminar course explores quality of life from various theoretical and methodological perspectives. Qualitative and quantitative methods used to examine quality of life are analyzed and strategies to enhance rigor in studies are explored. Issues in quality of life research are debated. Credit Level: G. Credit Hrs: 3.00

29NURS978**Analysis of Educational Processes in Nursing**

This elective doctoral course provides information necessary for effective functioning as an educator. Educational theories and principles, development of objectives, measurement and evaluation considerations and curriculum design and development are discussed. Credit Level: G. Credit Hrs: 3.00

29NURS979**Consultation Process in Nursing Education**

Course provides an understanding of consultation as a complex partnership process. Consultation is explored in terms of theory and practice and examined from the standpoint of underlying assumptions and relative advantages and disadvantages. Credit Level: G. Credit Hrs: 3.00

29NURS980**Health Policy and Ethical Issues in Nursing Science**

Analysis of social, public and health policy in relation to the advancement of nursing science. The contribution of nursing research to the development of health policy is analyzed and evaluated. Credit Level: G. Credit Hrs: 3.00

29NURS981**Dissertation**

In-depth research in doctoral focus area. Credit Level: G. Credit Hrs: 1.00-19.00

29NURS982**Advanced Multivariate Analysis I: Foundations**

This course is an advanced statistical seminar for doctoral-level students on multivariate statistical techniques. It is intended to serve as the first quarter of a year-long sequence on advanced multivariate statistics. The course will be taught from an applied perspective with an emphasis on modern statistical techniques. Topics covered include foundational concepts and traditional statistical techniques such as MANOVA and DFA that fall within the rubric of the General Linear Model. Prereq: 29NURS804. Credit Level: G. Credit Hrs: 3.00

29NURS983**Advanced Multivariate Analysis II: Generalized Linear and Additive Models**

This course is intended to serve as the second quarter of a year-long sequence on advanced multivariate statistics. The course will be taught from an applied perspective with an emphasis on modern statistical techniques. The General Linear Model (GLM) will be reviewed and more advanced topics such as modeling and interpreting interactions within the GLM will be introduced. The Generalized Linear Model will

Nursing**29NURS983****Advanced Multivariate Analysis II: Generalized Linear and Additive Models**

be taught, beginning with logistic regression. Finally, the Generalized Additive Model will be taught as an adjunct to the other modeling procedures learned. Prereq: 29NURS982. Credit Level: G. Credit Hrs: 3.00

29NURS984**Advanced Multivariate Analysis III: Structural Equation Modeling & Hierarchical/Multilevel Models**

This course is the third in a 3-quarter sequence on advanced multivariate statistics. The structural equation model will be presented as two primary components: 1) the measurement model; and, 2) the structural or path model. Building on knowledge of regression, path modeling will be presented, followed by an introduction to psychometrics. Multiple measurement models will be introduced, including: factor analysis; latent class models, and item response theory (IRT) models. Hierarchical or multilevel models will be covered. Both linear and nonlinear forms (e.g. logistic/logit regression) will be discussed. Prereq: 29NURS982, 29NURS983. Credit Level: G. Credit Hrs: 3.00

29NURS985**Seminar Study of Qualitative Data Analysis**

Seminar that focuses on the analysis of data for selected qualitative methods. Emphasis is placed on the identification and synthesis of themes or common elements in qualitative data through defined levels of abstraction. Credit Level: G. Credit Hrs: 3.00

29NURS986**Doctoral Candidacy Examination**

The Doctoral Candidacy Examination documents the student's synthesis of knowledge in nursing science, scholarly inquiry, and other areas of study and determines the student's readiness to undertake research independently. Credit Level: G. Credit Hrs: 0.00

JAMES L. WINKLE COLLEGE OF PHARMACY

COURSE DESCRIPTIONS

(25) College of Pharmacy

2008 - 2009

College of Pharmacy 1

Pharmacy-Administrative Science

25PADM551

Medication Distribution System Analysis

The use of control theory in evaluating and designing medication distribution systems. Discussion including pharmacy automation, operations analysis, job redesign, and centralized vs. decentralized operations. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

25PADM553

Pharmacy Seminar

A forum for the development of an in-depth understanding of the opportunities and challenges being faced by pharmacy and the health care system. Guest speakers focus on areas of dynamic change in pharmacy along with student presentations. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

25PADM571

Introduction to Pharmaceutical Economics & Policy

Introduction to the economic and policy analysis of the pharmaceutical industry. Focus will be on the suppliers of therapeutic agents and their motivation and performance. Potential applications of economic analyses in pharmacy and the health policy process. Demand and supply issues related to bringing products to markets, setting drug prices, and comparison of international trends will be included. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

25PADM500

Financial Realities of Pharmacy

Discussion of types of business enterprises, insurance needs, employee benefits, and taxes that are appropriate for pharmacists and pharmacies. Credit Level: G. Credit Hrs: 2.00

25PADM611

Application of Statistics for Pharmacists

Application of the basic principles of statistics to the practice of pharmacy. Statistical validity scientific integrity of literature and the design of methods for conducting drug related studies. Perm of College. Credit Level: G. Credit Hrs: 3.00

25PADM621

Pharmacy Communications

Introduction into social, psychological and professional aspects of pharmacist communications. Perm of College. Credit Level: G. Credit Hrs: 3.00

25PADM631

Pharmacy Jurisprudence

A study of Federal, state, and local laws and regulations governing the practice of pharmacy. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

25PADM650

Pharmacoeconomics-NTPD

The application of pharmacoeconomic principles in interpreting cost consequence studies of pharmaceutical and other therapeutic modalities. Sources, reliability and validity of operational measures of costs, clinical, economic and quality of life outcomes will be covered Perm of College. Credit Level: G. Credit Hrs: 3.00

25PADM672

Research in Pharmacoepidemiology and Drug Safety

Research applications for post-marketing drug safety surveillance. Focus will be on pharmacoepidemiologic research, therapeutic risk management, and pharmacoepidemiology contribution to pharmacy practices. Perm of College. Credit Level: G. Credit Hrs: 3.00

25PADM712

Pharmacy Management I

A study of the socioeconomic factors involved with the practice of contemporary pharmacy Perm of Instructor. Credit Level: G. Credit Hrs:

Pharmacy-Administrative Science

25PADM712

Pharmacy Management I

3.00

25PADM722

Pharmacy Management II

A study of the principles of operations, financial and personnel management as applied to contemporary pharmacy practice Prereq: 25PADM712. Credit Level: G. Credit Hrs: 3.00

25PADM731

Health Related Quality of Life Measures

Conceptual and quantitative characterization of humanistic outcomes from health care. The course will examine the development, evaluation and use of quality of life measures with specific reference to bone disease. Sources, reliability and validity of operational measures of patient's perceptions will be examined. Credit Level: G. Credit Hrs: 3.00

25PADM774

Evaluation of Administrative Pharmacy Research

An evaluative review of published research in the managerial and legal aspects of pharmacy practice. Credit Level: G. Credit Hrs: 3.00

25PADM812

Pharmacoeconomics

This course is an introduction to Outcomes Research focusing on the economic, clinical and humanistic dimensions. It covers cost/consequence analysis, decision analysis and quality of life measures in health care. Perm of College. Credit Level: G. Credit Hrs: 3.00

Pharmacy-Biological Science

25PBIO502

Vitamins

An in-depth examination of the biochemical aspects of vitamins and how they contribute to the health and well-being of humans. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

25PBIO520

Clinical Toxicology

Overview and principles of toxicology with emphasis on management of the poisoned patient. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

25PBIO525

Biochemical Toxicology of Drugs and Chemicals

Focus will be on the toxicity of drugs and chemicals to the major organs of the body; target organ toxicology of xenobiotics. A major emphasis of the course is to describe the principal mechanisms by which chemicals injure the major tissues of the body. Selective chemical classes will be highlighted for their well-known toxic actions in mammalian systems. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

25PBIO610

Pharmacology Basics

Provide an understanding of the basic concepts and applications of the science of pharmacology, giving a solid base upon which to build a working knowledge of how drugs can influence target cellular activity in a manner that is beneficial to human health. The course will emphasize theoretical aspects of drug actions at the cellular and molecular levels, and on clinical aspects of pharmacology with specific examples of the application of pharmacologic principles in disease states. BoK: NA. Credit Level: G, U. Credit Hrs: 3.00

25PBIO501

Nutrition and Drugs

Interactions between foods, food supplements, electrolytes, and drugs which affect nutritional status or the status of a disease in treatment. Credit Level: G. Credit Hrs: 2.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Pharmacy-Biological Science**25PBIO505****Development of Computer Assisted Pharmacy Instruction**

An individual studies course in which students develop computer assisted instruction programs. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

25PBIO574**Substances of Abuse and Addictive Disorders**

The course will focus on the mechanism of action of commonly abused drugs such as opiates, stimulants, and barbiturates, alcohol and hallucinogens along with issues of drugs, diagnosis and treatment of addictive disorders. Drug abuse within the profession as well as regulatory issues concerning pharmacists will be covered. Credit Level: G. Credit Hrs: 3.00

25PBIO612**Biochemistry**

The chemistry and metabolism of substances involved in life processes. Perm of College. Credit Level: G. Credit Hrs: 4.00

25PBIO613**Anatomy and Physiology**

Important aspects of human physiology and anatomy relative to normal human health, pathological states, and pharmacotherapeutics will be covered. Lab exercises will be coordinated with the lecture material. Perm of College. Credit Level: G. Credit Hrs: 6.00

25PBIO622**Pharmacogenomics**

Discussions of gene structure, DNA replication, transcription, translation, and recombinant DNA technology. Prereq: 25PBIO612, 25PBIO613. Credit Level: G. Credit Hrs: 2.00

25PBIO624**Principles of Pharmacology**

Autonomic drugs are used to illustrate pharmacological principles including mechanism of action, cellular effects and adverse reactions associated with pharmacotherapy. Credit Level: G. Credit Hrs: 5.00

25PBIO722**Topics in Neuropharmacology**

This course is a specialized journal club for graduate students interested in neuropharmacology. It requires reading of the primary literature associated with research interests. It is a student-directed learning that requires presentation of journal articles. Credit Level: G. Credit Hrs: 1.00

25PBIO723**Topics in Neuropharmacology**

This course is a specialized journal club for graduate students interested in neuropharmacology. It requires reading of the primary literature associated with research interests. It is a student-directed learning that requires presentation of journal articles. Credit Level: G. Credit Hrs: 1.00

25PBIO740**Methods of Biochemistry and Molecular Biology**

A laboratory course in modern experimental methods used in biochemistry and molecular biology with emphasis on problem solving. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

25PBIO750**Reproductive Pharmacology-Physiology**

Disorders and diseases of the reproductive system impact a significant portion of the population, and not only those of reproductive age. Moreover, management of reproduction, particularly through pharmacological means, is broadly used in most societies. This elective will explore these topics. Credit Level: G. Credit Hrs: 3.00

25PBIO760**Renal Pharmacology**

How drugs and toxins affect kidney function and how the kidney influences therapeutic activity of drugs. 3 discussion hrs. Credit Level: G. Credit Hrs: 3.00

Pharmacy-Biological Science**25PBIO800****Contemporary Pharmacology Techniques**

A rotational experience in pharmacology laboratories to acquaint graduate students with experimental techniques. 12 lab. hrs. per wk. Credit Level: G. Credit Hrs: 1.00-4.00

25PBIO850**Pharmacodynamics**

A study of the sites and mechanisms of drug action, fundamental receptor concepts, biological factors influencing drug action, and the principles of experimental pharmacology. 4 discussion hrs. Credit Level: G. Credit Hrs: 4.00

25PBIO852**Molecular Pharmacology: Cell Signaling**

Contemporary issues in molecular cell regulation with a focus on mechanisms of intracellular signal transduction pathways: nuclear hormone receptors, the G-protein coupled transducers, the Ras-MAP kinase cascade, and the JAK/Stat pathway. Perm of Instructor. Credit Level: G. Credit Hrs: 4.00

Pharmacy-Pharmaceutics**25PCEU602****Sunscreens and Phototoxicity**

Skin structure and color. Reaction between light and skin, nature of radiation, tanning, melanogenesis and its function. Sunscreens, ultraviolet absorbers; photosensitization. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

25PCEU615**Advanced Physical Pharmacy I**

A discussion of the physical-chemical principles of significant importance to pharmaceutical and cosmetic systems. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

25PCEU614**Introduction to Principles of Physical Pharmacy**

Physical-organic Chemistry as related to development and production of pharmaceutical dosage forms. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

25PCEU633**Drug Delivery I**

Pharmaceutical principles of dosage forms and pharmacy-related calculations. Physicochemical properties; biopharmaceutics; stability; formulation packaging of solution dosage forms used for various routes of administration. Perm of Instructor. Credit Level: G. Credit Hrs: 6.00

25PCEU711**Drug Delivery II**

Principles of drug delivery and their effect on pharmacokinetic responses in patients. Optimization of pharmacotherapy through selective and controlled release of drugs from various dosage forms. Prereq: 25PCEU633. Credit Level: G. Credit Hrs: 6.00

25PCEU721**Clinical Pharmacokinetics**

Principles of dosing regimen design; effects of co-variables such as age, gender, genetic make-up and disease state on pharmacokinetics; therapeutic drug monitoring; individualization of dosing regimens. Prereq: 25PCEU711. Credit Level: G. Credit Hrs: 4.00

25PCEU723**Fundamentals of Powder Technology**

A study of the up to date technologies of studying pharmaceutical and cosmetic powders with special reference to particle size and distribution, flow properties, mixing and relevant factors affecting mixing uniformity of powders and their dosage forms. Perm of Instructor. Credit Level: G. Credit Hrs: 2.00

25PCEU727**Diffusion Dissolution and Mass Transport in Pharmaceutical Systems**

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Pharmacy-Pharmaceutics**25PCEU727****Diffusion Dissolution and Mass Transport in Pharmaceutical Systems**

Diffusion fundamentals, values of diffusion coefficients, dissolution and release models, diffusion in lipid membranes, self-diffusion, tracer diffusion, diffusion of associating solutes facilitated diffusion, skin membrane systems. Perm of College. Credit Level: G. Credit Hrs: 3.00

25PCEU731**In Vitro Tests in Drug Evaluation**

Discussion and laboratory work on physical tests for drug product evaluation and interpretation in respect to biopharmaceutics. Credit Level: G. Credit Hrs: 3.00

25PCEU745**Specialized Research Techniques in Biopharmaceutics and Pharmacokinetics**

Individual instruction in animal experimentation, use and application of special skills such as computers, electron microscopy, techniques in pathology, animal surgery, etc. 3-12 lab. hrs. per wk. Credit Level: G. Credit Hrs: 1.00-4.00

25PCEU757**Advances in Drug Delivery Systems**

Recent advances in basic approaches to the development, manufacture and evaluation of controlled release delivery systems both in vitro and in vivo. Credit Level: G. Credit Hrs: 3.00

25PCEU763**Biopharmaceutics of Biotechnology-Based Drugs**

Biopharmaceutical and pharmacokinetic aspects in development and delivery of biotechnology-based drugs, with special emphasis on peptides and proteins. Credit Level: G. Credit Hrs: 3.00

25PCEU765**Biopharmaceutics Seminar I**

Assignment of special topics in biopharmaceutics and presentation of a paper based upon library research including the use of MEDLINE. Credit Level: G. Credit Hrs: 2.00

25PCEU767**Kinetic/Dynamic Evaluation of Human Experiments**

Design of studies involving human subjects and discussion on correlation of pharmacologic response with drug disposition. Credit Level: G. Credit Hrs: 2.00

25PCEU770**Advanced Pharmaceutics I: Solutions and Colloids**

Physiochemical properties related to the design and performance of solution and semisolid dose forms. Solubility and partitioning, ionic equilibria, colligative properties, degradation kinetics, suspension and emulsion stability, complexation, protein binding, polymer solutions. Prereq: 15CHEM382, 15MATH227. Credit Level: G. Credit Hrs: 4.00

25PCEU771**Advanced Pharmaceutics II: Kinetics, Transporters and Metabolism**

Physiochemical properties related to the design and performance of Dosage Forms with a focus on chemical reaction rates and solution stability. The course covers diffusion fundamentals, enzyme kinetics, transporters and efflux systems and reviews drug metabolism and pharmacokinetics. Prereq: 25PCEU770. Credit Level: G. Credit Hrs: 4.00

25PCEU772**Advanced Pharmaceutics III: Biomembranes, Dose msd Metabolism**

Physiochemical properties related to the design and performance of Dosage Forms with a focus on Biomembrane barriers and dosage form design. Controlled drug release, targeted drug delivery systems and nanotechnology as they relate to dose form design. Prereq: 25PCEU770, 25PCEU771. Credit Level: G. Credit Hrs: 4.00

Pharmacy-Pharmaceutics**25PCEU780****Cosmetic Science Capstone Project I**

This course requires comprehensive evaluation of a contemporary issue in cosmetic science or topical drug development that demonstrates competency in multidisciplinary, didactic coursework and scientific, regulatory, and business aspects of research and development related to these products. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

25PCEU781**Cosmetic Science Capstone Project II**

This course requires comprehensive evaluation of a contemporary issue in cosmetic science or topical drug development that demonstrates competency in multidisciplinary, didactic coursework and scientific, regulatory, and business aspects of research and development related to these products. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

25PCEU790**Molecular Biology of Skin**

An advanced course that focuses on measuring the properties of human skin. Modern protocols for testing the effects of skin care products will be discussed. The major emphasis will be on noninvasive measurement of skin function using biophysical instrumentation. Prereq: 25PCEU791. Credit Level: G. Credit Hrs: 2.00

25PCEU791**Skin Care Science**

Cosmetic ingredients, formulation, preparation and evaluation. Surfactants and emulsions, shampoos and dentifrices. Credit Level: G. Credit Hrs: 3.00

25PCEU792**Cosmetic Science II**

Skin and skin care products, hair, safety testing and microbiological aspects of cosmetics. Credit Level: G. Credit Hrs: 3.00

25PCEU793**Hair Care Science**

Antiperspirant, decorative and hair treatment preparations. Stability and stabilization of cosmetic products. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

25PCEU794**Cosmetic Science Laboratory**

Application of cosmetic science to formulation and preparation of prototypes of cosmetic classes. Credit Level: G. Credit Hrs: 3.00

25PCEU795**Cosmetic Science Research and Development**

Studies on aspects of cosmetic preformulation; influence of equipment, the evaluation of finished cosmetic products and the development of new ones. Credit Level: G. Credit Hrs: 3.00

25PCEU796**Color cosmetics**

Fundamentals of color cosmetics including the science of colors, color regulations, principles of formulation and testing of color cosmetics. Credit Level: G. Credit Hrs: 2.00

25PCEU797**Color Cosmetics Laboratory**

This course is designed to give hands-on experience with the formulation, laboratory scale manufacture and evaluation of color cosmetic products including lipsticks, pressed powders and liquid make-up. Perm of College. Credit Level: G. Credit Hrs: 1.00

25PCEU798**Clinical and Instrumental Testing of Skin**

This is an advanced course that focuses on measuring the properties of human skin. Modern protocols for testing the effects of skin care products will be discussed. The major emphasis will be on noninvasive measurements of skin function using biophysical instrumentation. Prereq: 25PCEU791. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Pharmacy-Pharmaceutics**25PCEU799****Cosmetic Science III: Product Formulation**

This course focuses on the formulation of cosmetic and OTC products used in personal care including skin care, hair care, antiperspirants, and oral care. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

25PCEU801**Tablet Machine Instrumentation**

Advanced level state-of-the-art instruction on the basic principles and applications of the various technologies for the instrumentation of tablet presses and the optimization of tablet formulation. Credit Level: G. Credit Hrs: 2.00

Pharmacy-Pharmaceutical Chemistry**25PCHM623****Principles of Medicinal Chemistry**

The application of chemical, biochemical and biological principles to the design and development of clinically important drugs. Receptors, physicochemical properties of drugs, drug metabolism and prodrug concepts will be discussed. Credit Level: G. Credit Hrs: 3.00

25PCHM732**Advanced Medicinal Chemistry**

A discussion of molecular mechanisms of receptor interaction as a basis for classification of drugs according to biochemical target sites. Credit Level: G. Credit Hrs: 3.00

25PCHM733**Computer-Assisted Drug Design**

Discussion and application of modern techniques of computer-assisted drug design. Credit Level: G. Credit Hrs: 3.00

Pharmaceutical Drug Development**25PHDD600****Statistical Prin. for Clinical Research Studies**

This course will provide an overview of the statistical principles used for the design, analysis, and interpretation of results for clinical research studies. The course will also cover the statistical topics discussed in regulatory guidances for clinical research studies. Credit Level: G. Credit Hrs: 3.00

25PHDD601**Global Drug Development**

Overview of research, legal regulatory and product life-cycle aspects that impact decisions in global pharmaceutical product development. Perm of College. Credit Level: G. Credit Hrs: 3.00

25PHDD602**Regulatory Affairs I: Pre-Clinical/IND**

Principles and regulatory guidelines for pre-clinical evaluation of the pharmacology, toxicology and pharmacokinetics of investigational drugs and biologics and key elements of the Investigational Drug (IND) application and Clinical Investigators brochures. Perm of College. Credit Level: G. Credit Hrs: 3.00

25PHDD603**Pre-Clinical Product Development**

The course provides an understanding of the role of formulation/dosage form development in the overall scheme for new drug approval with an emphasis on preformulation/formulation studies, current good manufacturing practices and FDA/ICH guidelines for formulation components, processes and equipment, stability testing programs and overall quality assurance. Issues pertaining to the biopharmaceutics classification system, special aspects of formulation of biologicals and the impact of dosage form on drug disposition will also be underscored. Perm of College. Credit Level: G. Credit Hrs: 3.00

25PHDD604**Pharmaceutical Project Management**

Course challenges students with the logistic and strategic issues of modern drug development at the global level. It includes exposure to principles of project management of complex programs involving

Pharmaceutical Drug Development**25PHDD604****Pharmaceutical Project Management**

discovery, pharmaceutical development, operations, regulatory affairs, clinical affairs, and marketing. Corporate challenges involved with portfolio management and optimization will be presented focusing on tools used for optimum decision making. Perm of College. Credit Level: G. Credit Hrs: 3.00

25PHDD605**Clinical Trials Design and Research I**

Regulatory, statistical and operational issues in phase I trials will be discussed. The use of first dose in humans, dose escalation schemes, determination of maximal tolerated dose, mass balance, metabolism and bioavailability will be covered along with drug-drug interaction and food-effect studies. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

25PHDD606**Regulatory Affairs II: Clinical Research & Human Subjects Protections**

Principles and regulatory guidelines for human subjects research including analysis and assessment of regulatory issues, ethical challenges in human trials, societal pressures on product development, and current controversies in clinical trials. Principles, policies and practices in the process of transferring pre-clinical findings to human trials will be discussed. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

25PHDD607**Seminar in Drug Development**

The course will require the students to conduct an in-depth analysis on current issues in drug development and apply the best practices in making scientific presentations. Perm of College. Credit Level: G. Credit Hrs: 3.00

25PHDD701**Phase II Clinical Trials: Therapeutic Evaluation**

The role of Phase II trials in new drug development and approval with emphasis on proof-of-concept and dose-ranging requirements. Trial designs including cross-over and parallel group will be discussed. The importance of Phase II trials for making dose selections for Phase III will be explored. Perm of College. Credit Level: G. Credit Hrs: 3.00

25PHDD702**Medical Devices & Combination Products**

Overview on regulatory pathways for medical devices and combination products to support a successful marketing application. Perm of College. Credit Level: G. Credit Hrs: 3.00

25PHDD703**Phase III Clinical Trials: Therapeutic Confirmation**

The role of Phase III trials in drug development and approval. Randomized controlled trial designs and factorial designs, selection of dose levels, management of multi-center and multi-national trials, population pharmacokinetics, choice of endpoints, surrogate endpoints, and management of milestones and metrics will be discussed. Perm of College. Credit Level: G. Credit Hrs: 3.00

25PHDD704**Biopharmaceutical Business and Financial Mgmt**

This course will focus on management of the biotechnology, pharmaceutical and contract research industries, including funding the drug development process, competition, business, competition, business models, intellectual property and funding of biotechnology. Perm of College. Credit Level: G. Credit Hrs: 3.00

25PHDD705**Pharmacovigilance and Post-Marketing Surveillance**

Introduction to pharmacovigilance and research applications for post-marketing drug surveillance. Covers basic concepts of pharmacoepidemiology and describes the New Drug Application filing and approval process related to drug safety assessment as well as adverse event monitoring. Perm of College. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Pharmaceutical Drug Development**25PHDD707****Drug Development Project I**

A problem-based/hypothesis driven research project or a comprehensive evaluation of a contemporary issue in drug/device development that demonstrates competency in multidisciplinary didactic coursework and scientific, regulatory and business aspects of new product development. Perm of College. Credit Level: G. Credit Hrs: 3.00

25PHDD708**Drug Development Project II**

A problem-based/hypothesis-driven research project or a comprehensive evaluation of a contemporary issue in drug/device development that demonstrates competency in multidisciplinary didactic coursework and scientific, regulatory and business aspects of new product development. Perm of College. Credit Level: G. Credit Hrs: 3.00

Pharmacy-Interdisciplinary**25PHID541****Research in Pharmaceutical Sciences**

Selected research projects designed to acquaint the student with the scientific method of investigation. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

25PHID542**Research in Pharmaceutical Sciences**

See 25PHID541. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

25PHID543**Research in Pharmaceutical Sciences**

See 25PHID541. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

25PHID544**Research Seminar in Pharmaceutical Sciences**

Presentation of research in progress and reports on assigned topics. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

25PHID700**Principles of Pharmaceutical Sciences**

Introduction to basic concepts of pharmacology, pharmacodynamics, medicinal chemistry, pharmaceuticals, pharmacoeconomics, and health outcomes that impact decisions in the drug development process. Perm of College. Credit Level: G. Credit Hrs: 4.00

25PHID701**Seminar in Pharmaceutical Sciences**

Presentation of research in progress and reports on assigned topics. Credit Level: G. Credit Hrs: 1.00

25PHID702**Seminar in Pharmaceutical Sciences**

See 25PHID701. Credit Level: G. Credit Hrs: 1.00

25PHID703**Seminar in Pharmaceutical Sciences**

See 25PHID701. Credit Level: G. Credit Hrs: 1.00

25PHID741**Research in Pharmaceutical Sciences**

Selected research projects to acquaint the student with the scientific method. Credit Level: G. Credit Hrs: 1.00-12.00

25PHID742**Research in Pharmaceutical Sciences**

See 25PHID741. Credit Level: G. Credit Hrs: 1.00-12.00

25PHID743**Research in Pharmaceutical Sciences**

See 25PHID741. Credit Level: G. Credit Hrs: 1.00-12.00

25PHID751**Publication of Papers in Medical Sciences**

Discussion of all aspects of preparing and submitting a manuscript to a scientific medical journal. 3 lec. hrs. per wk. Credit Level: G. Credit Hrs:

Pharmacy-Interdisciplinary**25PHID751****Publication of Papers in Medical Sciences**

3.00

25PHID765**Statistical Methods in Pharmaceutical Research I**

The application of statistical analyses in decision making in pharmaceutical research. Credit Level: G. Credit Hrs: 3.00

25PHID766**Statistical Methods in Pharmaceutical Research II**

The application of correlation and regression analyses techniques in pharmaceutical research. Prereq: 25PHID765. Credit Level: G. Credit Hrs: 3.00

25PHID767**Statistical Methods in Pharmaceutical Research III**

The application of designs frequently used in the pharmaceutical sciences with real problems and data. Prereq: 25PHID766. Credit Level: G. Credit Hrs: 3.00

25PHID801**Special Topics in Pharmaceutical Sciences**

This course will deal with areas of current interest in pharmaceutical sciences with topics to be chosen by the instructor. Participation will be via classroom discussion (lecture and/or seminar format), library research and/or laboratory experience. Credit Level: G. Credit Hrs: 1.00-8.00

25PHID802**Special Topics in Pharmaceutical Sciences**

See 25PHID801. Credit Level: G. Credit Hrs: 1.00-8.00

25PHID803**Special Topics in Pharmaceutical Sciences**

See 25PHID801. Credit Level: G. Credit Hrs: 1.00-8.00

25PHID804**Special Topics in Pharmaceutical Sciences**

See 25PHID801. Credit Level: G. Credit Hrs: 1.00-8.00

25PHID871**MS Thesis Research**

Pharmacy-Professional Experience**25PHE615****Longitudinal Patient Care Experience**

Professional development utilizing community service, clinic visits and following patients over an extended period of time. Perm of College. Credit Level: G. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Pharmacy-Professional Experience**25PHPE625****Longitudinal Patient Care Experience**

Professional development utilizing community service, clinic visits and following patients over an extended period of time. Perm of College.
Credit Level: G. Credit Hrs: 1.00

25PHPE635**Longitudinal Patient Care Experience**

Professional development utilizing community service, clinic visits and following patients over an extended period of time. Perm of College.
Credit Level: G. Credit Hrs: 1.00

25PHPE715**Longitudinal Practice Experience**

Early clinical practice experience in a variety of patient care settings
Perm of Instructor. Credit Level: G. Credit Hrs: 1.00

25PHPE821**Introductory Full-Time Ambulatory Professional Experience**

Introductory full-time professional experience Perm of College. Credit Level: G. Credit Hrs: 6.00

25PHPE822**Introductory Full-Time Institutional Professional Experience**

Introductory full-time professional experience Perm of College. Credit Level: G. Credit Hrs: 6.00

25PHPE833**Introduction to Advanced Professional Experience**

Focus on clinical skills that develop ability to function independently on advanced professional experience rotations. Students will make case presentations and develop treatment plans. Perm of College. Credit Level: G. Credit Hrs: 2.00

25PHPE901**Medical/Surgical Specialty Advanced Experience**

Advanced Professional Experience rotation that emphasizes professional and general ability- based outcomes of the Center for the Advancement of Pharmaceutical Education (CAPE). Perm of College.
Credit Level: G. Credit Hrs: 6.00

25PHPE902**General Medicine Advanced Experience**

Advanced Professional Experience rotation that emphasizes professional and general ability- based outcomes of the Center for the Advancement of Pharmaceutical Education (CAPE). Perm of College.
Credit Level: G. Credit Hrs: 6.00

25PHPE903**Ambulatory Care/Organized Health Care Advanced Experience**

Advanced Professional Experience rotation that emphasizes professional and general ability- based outcomes of the Center for the Advancement of Pharmaceutical Education (CAPE). Perm of College.
Credit Level: G. Credit Hrs: 6.00

25PHPE904**Ambulatory Care/Community Advanced Experience**

Advanced Professional Experience rotation that emphasizes professional and general ability- based outcomes of the Center for the Advancement of Pharmaceutical Education (CAPE). Perm of College.
Credit Level: G. Credit Hrs: 6.00

25PHPE905**Drug Information/Drug Policy Development Advanced Experience**

Advanced Professional Experience rotation that emphasizes professional and general ability- based outcomes of the Center for the Advancement of Pharmaceutical Education (CAPE). Perm of College.
Credit Level: G. Credit Hrs: 6.00

25PHPE906**Direct Patient Care Selective Advanced Experience**

Advanced Professional Experience rotation that emphasizes professional and general ability- based outcomes of the Center for the Advancement of Pharmaceutical Education (CAPE). Perm of College.
Credit Level: G. Credit Hrs: 6.00

Pharmacy-Professional Experience**25PHPE906****Direct Patient Care Selective Advanced Experience**

Advanced Professional Experience rotation that emphasizes professional and general ability- based outcomes of the Center for the Advancement of Pharmaceutical Education (CAPE). Perm of College.
Credit Level: G. Credit Hrs: 6.00

25PHPE907**Advanced Professional Experience Elective I**

Advanced Professional Experience rotation that emphasizes professional and general ability- based outcomes of the Center for the Advancement of Pharmaceutical Education (CAPE). Perm of College.
Credit Level: G. Credit Hrs: 6.00

25PHPE908**Advanced Professional Experience Elective II**

Advanced Professional Experience rotation that emphasizes professional and general ability- based outcomes of the Center for the Advancement of Pharmaceutical Education (CAPE). Perm of College.
Credit Level: G. Credit Hrs: 6.00

25PHPE909**Advanced Professional Experience Elective III**

Advanced Professional Experience rotation that emphasizes professional and general ability- based outcomes of the Center for the Advancement of Pharmaceutical Education (CAPE). Perm of College.
Credit Level: G. Credit Hrs: 6.00

25PHPE921**Advanced Practice Experience I-NTPD**

Advanced Professional Experience rotation that emphasizes professional and general ability-based outcomes. Perm of College.
Credit Level: G. Credit Hrs: 6.00

25PHPE922**Advanced Practice Experience II-NTPD**

Advanced Professional Experience rotation that emphasizes professional and general ability-based outcomes. Perm of College.
Credit Level: G. Credit Hrs: 6.00

25PHPE923**Advanced Practice Experience III-NTPD**

Advanced Professional Experience rotation that emphasizes professional and general ability-based outcomes. Perm of College.
Credit Level: G. Credit Hrs: 6.00

25PHPE924**Advanced Practice Experience IV-NTPD**

Advanced Professional Experience rotation that emphasizes professional and general ability-based outcomes. Perm of College.
Credit Level: G. Credit Hrs: 6.00

25PHPE925**Advanced Practice Experience V-NTPD**

Advanced Professional Experience rotation that emphasizes professional and general ability-based outcomes Perm of College.
Credit Level: G. Credit Hrs: 6.00

25PHPE926**Advanced Practice Experience VI-NTPD**

Advanced Professional Experience rotation that emphasizes professional and generability-based outcomes. Perm of College. Credit Level: G. Credit Hrs: 6.00

Pharmacy-Pharmacy Practice**25PHRX582****Survey of Natural Medicine**

An introduction to homeopathic, nutritional and herbal medicine along with future applications, current legal status and important considerations for pharmacists to be aware of when advising patients.
BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Pharmacy-Pharmacy Practice**25PHRX544****Pharmacy Practice for Geriatric Patients**

Overview of geriatric and long term patient care. Highlights pharmacist's role, major responsibilities, and opportunities available. Credit Level: G. Credit Hrs: 2.00

25PHRX556**Home Infusion Pharmacy**

Therapies specific to Home Care Pharmacy practice will be discussed and compared with other practice settings. Credit Level: G. Credit Hrs: 2.00

25PHRX557**Compounding in Practice**

An in-depth experience with contemporary prescription compounding of extemporaneous products. Credit Level: G. Credit Hrs: 2.00

25PHRX614**Fundamentals of Pharmacy Practice**

An overview of the pharmacy profession, its opportunities and goals. Basic information such as the top 200 drugs, abbreviations, and medical terminology are included, as well as early pharmacy experience rotations. Perm of College. Credit Level: G. Credit Hrs: 4.00

25PHRX626**United States Health Care System**

A study of the components of the health care system and the roles of pharmacists within this system. Perm of College. Credit Level: G. Credit Hrs: 3.00

25PHRX634**Pharmacy Practice Skills Development I**

A competency based course which includes a stepped approach guiding students from introductory material to advanced, and will provide experience in pharmacy informatics and drug information sources, prescription compounding and dispensing, patient counseling, clinical problem solving, physical assessment, and pharmaceutical math skills. Perm of College. Credit Level: G. Credit Hrs: 2.00

25PHRX650**Advanced Pharmaceutical Care Skills-NTPD**

Provide the non-traditional PharmD student with the technology and practice skills that will allow them to function independently and develop pharmaceutical care plans for a variety of patient specific problems. Perm of Instructor. Credit Level: G. Credit Hrs: 2.00

25PHRX682**Medical Ethics and the Movies**

Ethical issues which are the theme of movies and other media will be analyzed by students as they relate to contemporary pharmacy practice. Credit Level: G. Credit Hrs: 2.00

25PHRX683**Professional Development through Association Activities**

Students will develop an understanding of the prominent role of professional organizations in contemporary pharmacy by discussion, presentation and attendance of association meetings. Credit Level: G. Credit Hrs: 1.00-3.00

25PHRX684**History of Pharmacy**

The historical development of Pharmacy in the United States will be examined including professionalization, commercial and industrial growth, Statutory Regulation and changing materia medica, dosage forms and standardization with time. Credit Level: G. Credit Hrs: 2.00

25PHRX685**Interdisciplinary Collaborative Healthcare**

An interdisciplinary course designed to provide hands-on experience in the concepts and rationale for interdisciplinary healthcare. Perm of College. Credit Level: G. Credit Hrs: 3.00

Pharmacy-Pharmacy Practice**25PHRX686****Service Learning In Pharmacy Practice**

Students provide service to area community partner agencies providing care to the underserved of the TriState region. In the process of providing a service, the students reinforce and refine concepts learned in course work, focusing on disease state management and communication skills. Perm of College. Credit Level: G. Credit Hrs: 1.00-3.00

25PHRX714**Pharmacy Practice Skills Development II**

Development of pharmacy practice skills based on learning in required didactic courses. Lab sessions will be coordinated with therapeutics courses. Perm of College. Credit Level: G. Credit Hrs: 2.00

25PHRX726**Drug Literature Evaluation**

Student centered course focusing on the development of critical thinking skills to evaluate medical and pharmaceutical literature. Perm of College. Credit Level: G. Credit Hrs: 1.00

25PHRX727**Pharmacy Ethics**

Guides students in how to think critically and thoughtfully about ethical decisions they face in practice. It will present both western and non-western sources of ethical thought. The course will utilize a unique 6-step decision-making process to provide a framework for making effective decisions. Pharmacy based cases, which will reflect a diversity of practitioners, settings and cultures, will be presented to encourage critical thinking and enforce an interactive approach. Perm of College. Credit Level: G. Credit Hrs: 2.00

25PHRX732**Health Systems Pharmacy Practice**

A study of the expanding roles and responsibilities of pharmacists in the health care system. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

25PHRX734**Pharmacy Practice Skills Development III**

Pharmacy practice skills development based on learning in other required didactic courses. Perm of College. Credit Level: G. Credit Hrs: 2.00

25PHRX813**Pharmacy Practice Skills Development IV**

Pharmacy practice skills development based on learning in other required didactic courses. Perm of College. Credit Level: G. Credit Hrs: 2.00

25PHRX831**Pharmacy Seminar**

A forum for the development of an in-depth understanding of the opportunities and challenges being faced by pharmacy and the health care system. Guest speakers focus on areas of dynamic change in pharmacy along with student presentations. Perm of College. Credit Level: G. Credit Hrs: 2.00

25PHRX931**Contemporary Pharmacy Practice**

The course provides students with contemporary thinking and information dealing with recent advances in various areas of pharmacy practice. Perm of College. Credit Level: G. Credit Hrs: 6.00

25PHRX965**Clinical Pharmacy Project I**

A problem-based, clinical-related project that requires integration and application of the didactic coursework and experiential training in order to generate a rational solution to a well defined question using established scientific methodologies. Perm of College. Credit Level: G. Credit Hrs: 1.00

25PHRX966**Clinical Pharmacy Project II**

A problem-based, clinical-related project that requires integration and

Pharmacy-Pharmacy Practice**25PHRX966****Clinical Pharmacy Project II**

application of the didactic coursework and experiential training in order to generate a rational solution to a well defined question using established scientific methodologies. Prereq: 25PHRX965. Credit Level: G. Credit Hrs: 3.00

Pharmacy-Therapeutics**25PHTH556****Dental Problems and the Pharmacist**

An overview of dental health and its relationship with pharmacy. Credit Level: G. Credit Hrs: 1.00

25PHTH581**Evaluation and Selection of Cardiac Drugs**

Students will evaluate pharmacokinetic and/or pharmacodynamic properties of an assigned category of cardiovascular drug based on published literature. Credit Level: G. Credit Hrs: 2.00

25PHTH632**Therapeutics of Inflammatory, Respiratory and Gastrointestinal Diseases**

The course integrates the principles of physiology pharmacology and medicinal chemistry with those of pharmacotherapeutics of selective examples of inflammatory conditions and diseases of the respiratory and gastrointestinal systems. Perm of Instructor. Credit Level: G. Credit Hrs: 5.00

25PHTH649**Critical Literature Evaluation-NTPD**

Reading, understanding and application of information from published literature to solve care problems by the transfer of medical research into clinical practice. Perm of College. Credit Level: G. Credit Hrs: 3.00

25PHTH651**Therapeutics of Cardiovascular Disorders-NTPD**

The chemistry, pharmacology and therapeutic use of drugs to treat a variety of cardiovascular diseases will be covered. Pathophysiology, mechanisms of drug action, pharmacokinetics/ pharmacodynamics, adverse drug effects/drug interactions, and patient monitoring of cardiovascular drugs will be covered. n Perm of College. Credit Level: G. Credit Hrs: 4.00

25PHTH652**Therapeutics of Renal & Electrolyte Disorders-NTPD**

Current approaches to the treatment of selected abnormalities of the exocrine and endocrine functions of the kidney and associated urinary tract structures with an emphasis on the proper use of drugs for or during renal impairment. Perm of College. Credit Level: G. Credit Hrs: 2.00

25PHTH653**Therapeutics of Infectious Diseases-NTPD**

Principles and application of appropriate antimicrobial therapy of various infectious diseases. Host-drug-microbe interactions, mechanisms of drug action and resistance, spectrum of activity, kinetics/dynamics, uses, adverse effects, patient monitoring of anti-infectives will be covered. Perm of College. Credit Level: G. Credit Hrs: 4.00

25PHTH654**Therapeutics of CNS Disorders-NTPD**

Principles and application of appropriate therapy to diseases of the CNS. The medicinal chemistry, pharmacology and pharmacotherapeutics of drugs used to treat CNS diseases, as well as the abuse potential/liability of these agents will Perm of College. Credit Level: G. Credit Hrs: 3.00

25PHTH655**Therapeutics of Hematologic and Oncologic Disorders-NTPD**

The chemistry, pharmacology and therapeutic use of oncology products in various neoplastic diseases. It will include mechanisms of drug action and resistance, pharmacokinetics/dynamic issues, adverse

Pharmacy-Therapeutics**25PHTH655****Therapeutics of Hematologic and Oncologic Disorders-NTPD**

effects and patient monitoring of antineoplastic agents. Perm of College. Credit Level: G. Credit Hrs: 2.00

25PHTH656**Therapeutics of Endocrine, Respiratory, Gastrointestinal and Inflammatory Disorders-NTPD**

Principles and application of appropriate therapy of various endocrine, respiratory, gastrointestinal and inflammatory diseases. Perm of College. Credit Level: G. Credit Hrs: 3.00

25PHTH701**Critical Care Therapeutics**

The pathophysiology, pharmacotherapy, and decision making processes for the treatment of patients who are critically ill. Perm of College. Credit Level: G. Credit Hrs: 2.00

25PHTH713**Therapeutics of Cardiovascular Disorders**

Drug therapy decision making (drug selection, patient monitoring and counseling) in patients with cardiovascular disease. Pathophysiology, pharmacology, medicinal chemistry of agents along with therapeutic applications and patient counseling will be discussed. Perm of Instructor. Credit Level: G. Credit Hrs: 5.00

25PHTH723**Therapeutics of Renal and Electrolyte Disorders**

Drug therapy decision making in patients with renal and urinary tract disorders, pathophysiology pharmacology, medicinal chemistry of agents along with therapeutic applications will be discussed. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

25PHTH731**Therapeutics of Infectious Diseases**

Principles and application of appropriate antimicrobial therapy of various infectious diseases. Chemistry, structure activity relation- ships, host-drug-microbe interactions, mechanisms of drug action and resistance, spectrum of activity, kinetics/dynamics, uses, adverse effects dose forms, patient counseling and monitoring of anti-infectives. Perm of Instructor. Credit Level: G. Credit Hrs: 5.00

25PHTH733**Therapeutics of Endocrine Disorders**

Treatment of diseases involving the endocrine system. The medicinal chemistry, pharmacology and pharmacotherapeutics of hormones and drugs used to treat these diseases will be discussed in an integrated format. Perm of Instructor. Credit Level: G. Credit Hrs: 4.00

25PHTH811**Therapeutics of Neurological Disorders**

Therapeutics of diseases involving the central nervous system. The medicinal chemistry, pharmacology and therapeutics of drugs used to treat diseases and abuse potential/liability of drugs used to treat these diseases will be discussed in an integrated format. Perm of College. Credit Level: G. Credit Hrs: 5.00

25PHTH832**Therapeutics of Skin and Mucous Membrane Disorders**

Treatment of skin, eye, ears, nose, throat, vaginal tract, anorectal area and other mucous membrane diseases will be discussed with an emphasis on the role of the pharmacist in managing the patient therapy. 3 lec. hrs. per wk. Perm of College. Credit Level: G. Credit Hrs: 3.00

25PHTH834**Therapeutics of Cancer and Hematological Disorders**

This course focuses on the chemistry, pharmacology and therapeutic use of oncology products and therapeutic decision-making. Perm of Instructor. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

SCHOOL OF SOCIAL WORK

COURSE DESCRIPTIONS

(21) School of Social Work

2008 - 2009

School of Social Work 1

Social Work

21SW101

Social Work First Year Seminar I: Introduction to UC

This seminar is designed to equip first-year students with the tools needed for success in college. The focus is on familiarizing students with UC and its resources - library, writing center, student activities and leadership development and the wellness center. Other college success skills such as time management and study skills will also be discussed. BoK: NA. Credit Level: U. Credit Hrs: 1.00

21SW102

Social Work First Year Seminar II: Introduction to the Profession

This seminar is designed to complement Introduction to Social Work taken concurrently by first year pre-social work students. Students will explore fields of social work practice through agency visits and contacts with social work professionals. BoK: NA. Credit Level: U. Credit Hrs: 1.00

21SW103

Social Work First Year Seminar III: Introduction to the Community

This seminar is designed to introduce students to the concept of service, a primary value of social work. Through completion of a service learning project, students will explore and develop a commitment to civic responsibility and citizenship. BoK: NA. Credit Level: U. Credit Hrs: 1.00

21SW150

Introduction to the Social Work Profession

This course provides students an opportunity to explore the dynamic richness of the social work profession. Social work's values/ethics, historical development, role in the social service delivery system, and knowledge base will be explored. Potential careers and fields of practice will also be discussed. BoK: SE. Credit Level: U. Credit Hrs: 3.00

21SW250

Families in America

The major goal of this course is to study the family through history with a primary focus on contemporary families in America. Different family structures will be examined and various family life cycles will be studied. BoK: NA. Credit Level: U. Credit Hrs: 3.00

21SW255

Poverty in America

This course explores multiple aspects of poverty including the number of Americans affected, the role of the government in the plight of the poor, and the evolution of the welfare system and welfare reform policies. Groups at highest risk for poverty will be highlighted, including children, single parent households, older adults, and those with chronic illness and disabilities. Social work values of self-reliance, economic security, productiveness, advocacy, and self-determination and their role in finding solutions to poverty will be highlighted. BoK: SE. Credit Level: U. Credit Hrs: 3.00

21SW331

Social Welfare Institutions and the Social Work Profession

This introductory course familiarizes students with the institutions of social welfare and the profession of social work. Topics include the role of knowledge and values in decision-making, the differential distribution of resources and the effect on service delivery structures, and the role of human diversity in decisions about resource allocation. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

21SW332

Social Welfare Policy

Policy as an expression of values; policy-making processes; social work roles and policy; major areas of policy and basic legislation; and policy implementation. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

Social Work

21SW341

Human Behavior and the Social Environment I

This course focuses on the life states of infancy childhood, and adolescence. The course uses the systems impact model, which assumes a general systems theoretical approach that incorporates concepts from the ecological perspective. The course provides the student with a broad understanding of human behavior theories to enhance the generalist's ability to assess problems and develop comprehensive solutions. Special emphasis is placed on such diverse groups as Women, People of Color, Appalachians, and Gay and Lesbians. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

21SW342

Human Behavior and the Social Environment II

This course focuses on the life stages of young adulthood, middle adulthood, and later adulthood. The course uses the systems impact model, which assumes a general systems theoretical approach that incorporates concepts from the ecological perspective. This course seeks to provide the student with a broad understanding of human behavior theories to enhance the generalist's ability to assess problems and develop comprehensive solutions. Special emphasis is placed on such diverse groups as Women, People of Color, Appalachians, and Gay and Lesbians. Prereq: 21SW341. BoK: DC, SE. Credit Level: U. Credit Hrs: 3.00

21SW343

Urban Issues

A survey of issues and policies related to life in the urban community. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

21SW350

Human Diversity and Generalist Social Work Practice

This course examines both micro and macro implications for multicultural social work practice with diverse groups - people of color, gays and lesbians, older adults, people with disabilities, and Appalachians. BoK: DC. Credit Level: U. Credit Hrs: 3.00

21SW351

Generalist Social Work Practice I

This course prepares students for entry-level professional social work practice with individuals at the generalist level. The course uses an ecological perspective and incorporates the strengths and resources of individuals when assessing human needs. Emphasis is placed on utilizing interventions and methods based on a holistic conception of the person within the social environment. The helping process is examined in-depth, focusing on the generic knowledge and skills needed for effective engagement, assessment, planning, intervention, evaluation and termination. Attention is given to issues of human diversity, social justice, and populations-at-risk. BoK: SE., DC. Credit Level: U. Credit Hrs: 3.00

21SW352

Generalist Social Work Practice II

This course builds upon Generalist Social Work Practice I by using systems theory and the problem-solving framework for generalist social work practice with groups and families. Human problems are conceptualized as dynamic interchanges between the person and the environment: specifically the family in which one is connected to, and the groups in which they are embedded. Emphasis is placed upon the development of practice skills in the area of self-awareness, communication skills, leadership skills, and the implementation of the problem solving process and conflict resolution with groups and families. Attention is given to issues of human diversity, social justice, and populations-at-risk. Prereq: 21SW351. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Social Work**21SW353****Generalist Social Work Practice III**

This course uses systems theory and the problem solving framework for generalist social work practice with organizations and communities. Knowledge of the bio-psycho-social model of human development is integrated within an ecological perspective, where human problems are conceptualized as dynamic interchanges between the person and the environment; specifically the organizations to which one is connected, and the communities in which they are embedded. Prereq: 21SW351, 21SW352. BoK: DC, SE. Credit Level: U. Credit Hrs: 3.00

21SW410**Social Work with Adolescents**

This course introduces students to social work practice with adolescents. Development theories and challenges of this stage of development will be examined, including identity formation, gender sexuality, substance use, and other high risk behaviors. Skills in relationship building with adolescents will be emphasized. BoK: NA. Credit Level: U. Credit Hrs: 3.00

21SW441**Research I**

This course introduces the scientific method of inquiry. The research purpose, the identification of variables, the sampling plan, and the development of data collection instruments require careful thought. Students will examine the influence of personal values on conceptualization of research questions and the need to appreciate human diversity when designing research studies. Coreq: 21SW461. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

21SW442**Research II**

This course provides the student with an in-depth examination of research methodologies employed in social work practice. In particular, investigation methods used at the Macro and Micro levels of practice will be explored. The influence of personal values, the organizational context, and human diversity on the formulation and implementation of research will be a primary focus. Students will also explore the uses of information technology for the purpose of data collection/analysis, information management, and information retrieval. Prereq: 21SW441. Coreq: 21SW462. BoK: DC, SE. Credit Level: U.

21SW452**Senior Field Seminar I**

The first of a three course sequence focused on integrating knowledge, skills, and values learned in the classroom with experiences in the concurrent field placement. Attention is given to understanding informal and formal structures, policies, and organizational roles affecting the entry-level social worker's practice. Students will understand how the foundations of social work knowledge, including human development diversity issues, and values and ethics, are operationalized within the organizational structure. Students will discuss their experiences in their agency and critically analyze their role in the delivery of services to or on behalf of clients. Coreq: 21SW461. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

21SW453**Senior Field Seminar II**

The second of a three course sequence designed to facilitate the integration of classroom learning with the field placement experience. Emphasis is placed on refinement of the generalist practice skills of assessment, goal-setting and contracting and selection and implementation of interventions. The use of research-based knowledge to inform practice will be emphasized. Students will have the opportunity to formally present case plans and to develop skills in peer consultation. Prereq: 21SW452, 21SW461. Coreq: 21SW462. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

21SW454**Senior Field Seminar III**

This is the final course of a three course sequence designed to facilitate the integration of classroom learning with the field placement

Social Work**21SW454****Senior Field Seminar III**

experience. Emphasis is placed on refinement of the generalist practice skills of evaluation and termination. Students will have the opportunity to critically examine their development as social workers, demonstrate their understanding of the use of self, personal and professional values, issues of diversity, and the use of theory and knowledge in practice. Prereq: 21SW452, 21SW453. Coreq: 21SW463. BoK: DC, SE. Credit Level: U. Credit Hrs: 3.00

21SW461**Social Work Field Learning I**

In consultation with an agency-based field instructor, a set of learning objectives are identified and activities are planned to achieve these objectives. Requires students to work in an agency two days per week. BoK: DC, SE. Credit Level: U. Credit Hrs: 6.00

21SW462**Social Work Field Learning II**

See 21-058-461. BoK: DC, SE. Credit Level: U. Credit Hrs: 6.00

21SW463**Social Work Field Learning III**

See 21-058-461. BoK: DC, SE. Credit Level: U. Credit Hrs: 6.00

21SW473**Social Work Directed Studies**

Directed studies and tutorial conferences related to specific areas of social work. Prereq.: Perm. BoK: NA. Credit Level: U. Credit Hrs: 1.00-5.00

21SW500**Emotional Abuse: Assessment and Treatment**

This course covers the dynamics of emotional abuse and discusses frameworks for assessment and treatment. Self psychology is one of the theoretical frameworks that will be presented to foster understanding of emotional development. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

21SW501**Narrative Therapy and Social Work Practice**

How a narrative therapy, post-modern approach opens up new intervention options for social workers and clients. Emphasis on treating the problem as the problem, not the person as the problem. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

21SW502**Spirituality in Social Work Practice**

This course will focus on how to recognize and appropriately respond to religious and spiritual issues as they emerge in practice. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

21SW503**Social Work and Psychopharmacology**

Students will learn the therapeutic effects and possible problems that can result from medication intervention. The effects that mental health medications can have on the counseling/helping relationship will also be explored. BoK: SE. Credit Level: U, G. Credit Hrs: 1.00

21SW504**Grant Writing**

This course will help students identify potential funding sources, understand the components of a grant, and learn to write content in compliance with grant directives. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

21SW505**Post Traumatic Stress Disorder in Children, Adolescents and Adults**

Students will understand the symptomatology of Post Traumatic Stress Disorder, learn the diagnostic process and learn how the disorder impacts individuals, families, and communities. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Social Work**21SW506****Grief Theory and Social Work Practice**

This course examines the central processes involved in grief. Models for counseling clients in grief will be reviewed with an emphasis on identification of unresolved and traumatic grief as well as opportunities for growth during the process of grief. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

21SW507**Domestic Violence I**

Study of domestic violence with a focus on gay and lesbian relationships. Also, an exploration of how the criminal justice system treats women who kill their abuser. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

21SW508**Issues of Sexuality**

The course will provide an overview of human sexual development and examine the positive and negative impact of sexual behaviors for individuals, families, and society. Social problems related to human sexuality and the role social workers play in addressing these issues will be a primary focus. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

21SW509**Documentation**

This course will examine the different types of documentation commonly required of social work practitioners. Legal issues related to documentation will be explored. Attention will be given to the process for conversion of observations into narrative accounts. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

21SW510**Suicide: Assessment and Prevention**

This course focuses on assessment of clients who may be considering suicide and the development of interventions to prevent suicide. Known risks for suicide will be outlined and ways to identify persons at risk for suicide will be discussed. Emphasis will be on interviewing strategies to use with clients who may be expressing suicidal ideation. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

21SW511**Adoption**

This course will explore different types of adoptions and the laws that regulate the process. Special attention will focus on infant, special needs, and kinship adoption. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

21SW512**Transgender**

This course introduces students to the field of transgender studies. Androgyny, transvestism, transsexuality, and other transgender behaviors will be examined as well as social attitudes toward transgender people. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

21SW513**Attention Deficit Hyperactivity Disorder**

This course is built upon evidence-based research on treatment efficacy of both psychotherapeutic and psychotropic interventions for individuals with ADHD. The course addresses ADHD in children, adolescents, and adults. A specific focus will be upon social work interventions with various systems levels that impact the individual. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

21SW514**Personal Safety**

This course will examine issues of personal safety in the agency and field work settings. In particular, the course will discuss the signs of potential violence and strategies for de-escalation. The course will also provide a range of techniques designed to prevent interpersonal confrontation. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

Social Work**21SW515****Conflict Resolution**

This course will explore strategies for managing and resolving conflicts, contributing to understanding, acceptance and change, and enhance adult and professional relationships. Students will learn conflict resolution strategies through didactic and experiential presentations. Special attention given to Mediation Intervention. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

21SW530**Quantitative Analysis for Social Workers**

This course is designed to help students understand the variety of statistical methods and tests used in behavioral science research. Students will develop a basic understanding of statistical software that can be utilized to evaluate clinical practice. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

21SW550**Loss and Grief**

This course examines the central processes involved in loss and grief. Theoretical perspectives and loss and grief across the life span will be considered. Gender, cultural, and ethnic/racial variations in grief expression will be explored. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00

21SW551**Family Violence Across the Life Cycle**

The prevalence, dynamics, and theories of various types of family violence, ranging from child abuse to elder abuse will be examined. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00

21SW552**Substance Abuse**

Chemical dependence as a disease is emphasized, however, other etiological perspectives are also surveyed. Physiological aspects of dependence are presented and the role of gender, race, and social conditions in the assessment and intervention of substance abuse are explored. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00

21SW553**Social Work Interviewing**

This course covers the steps for engaging the client in a professional social work interview. From engagement to termination, a major focus is on the use of self in the helping process. Issues of human diversity will be examined in relation to structuring the interview process. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00

21SW554**Child Welfare I**

First course of a two-part series. The course provides students with the knowledge and skills to practice in a public or private child welfare setting. The course focuses on protecting children from physical and sexual abuse and neglect. Special attention is paid to determining immediate and potential risk for maltreatment. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00

21SW555**Child Welfare II**

This course addresses the developmental and permanence needs of children. The effects of maltreatment on the physical, psychological, and social development of the child will be explored. Developmental disabilities, separation trauma, and placement issues will also be discussed. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00

21SW557**Issues in Individual Psychotherapy**

This course focuses on issues in individual psychotherapy such as disclosure, resistance, mutuality, responsibility, boundaries, abandonment, attraction, use of paradox, and termination. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Social Work**21SW558****Child Welfare III**

This is the third course in the Child Welfare sequence. This course examines the developmental and permanence needs of children. Specifically, the course covers effects of child maltreatment, trauma of separation, placement issues, and services available for children with disabilities. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

21SW559**Social Work Practice with GLBT Communities**

This course will examine gay, lesbian, bisexual and transgender people with a focus on historical events, conflicts and current issues. In particular, ethical issues, policies, resources, cultural diversity, and hate crimes will be a primary focus. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

21SW560**Aging in America**

This course introduces students to the field of gerontological social work. Individual concerns of older adults, including biological, psychological, and social factors will be explored. The demographics of aging will be examined along with the implications for public policy and the service delivery system. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

21SW589**CRISIS INTERVENTION**

CRISIS INTERVENTION BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

21SW594**Special Topics in Social Work**

Variable subjects depending upon student and faculty interest. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

21SW595**Special Topics in Social Work**

See 21-058-594. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

See 21-058-594. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

21SW597**Special Topics in Social Work**

See 21-058-594. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

21SW730**Social Welfare Policy, Institutions and Programs**

Analysis of current major social welfare policies and their historical development with an emphasis on the cultural, political, social, and economic forces which shaped them. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

21SW795**Special Topics in Social Work**

Variable subjects based upon student and faculty interest. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

21SW796**Special Topics in Social Work**

See 21SW795. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

21SW700**Brief Treatment in Social Work Practice**

This course focuses on differential treatment techniques for different groups. Brief treatment models are evaluated in relation to social work values and their impact on diverse client populations. Credit Level: G. Credit Hrs: 3.00

21SW701**Family Treatment**

The principles and techniques of social work practice with families is explored. Theories and models of family practice are presented with an

Social Work**21SW701****Family Treatment**

emphasis on the family as a social system in transaction within a sociocultural environment. Credit Level: G. Credit Hrs: 3.00

21SW702**Child Mental Health**

The development of knowledge and skills in direct practice with children and adolescents that require mental health services. Approaches to assessment, diagnosis, and intervention are studied. The role of culture, race, gender, and class in the assessment and intervention planning will be carefully examined. Credit Level: G. Credit Hrs: 3.00

21SW703**Social Work Practice in the Schools**

This course prepares social work students to work in educational settings as certified social workers. The course examines issues in American schools, design, delivery and evaluation of school social work services, and legal and ethical issues that may arise in a school setting. Emphasis is placed on truancy, dropping-out of school, violence, and juvenile delinquency. Credit Level: G. Credit Hrs: 3.00

21SW704**Leadership for Social Workers**

This course is designed to enhance student leadership knowledge and skills in both direct practice and administrative social work settings. Credit Level: G. Credit Hrs: 3.00

21SW710**Human Behavior and the Social Environment I: Organizations and Communities**

Introduction to the effect organizations and communities have on people's bio-psycho-social development. Also examines theories on organizational and community structure. Credit Level: G. Credit Hrs: 3.00

21SW711**HBSE II IND**

HBSE II IND Credit Level: G. Credit Hrs: 3.00

21SW712**HBSE III Families**

This course provides knowledge for understanding families in their social context. The family life cycle, intergenerational families, and how families are structured and function will be explored. Diverse family structures will be examined. Credit Level: G. Credit Hrs: 3.00

21SW713**Theories of Personality Development**

Advanced human behavior and social environment course designed for direct practice students. Different theories of human personality development and how these perspectives influence practice decisions will be discussed. Credit Level: G. Credit Hrs: 3.00

21SW714**Human Diversity for Social Work**

Focuses on differences and similarities in the experiences, needs, and beliefs of people. This includes groups distinguished by culture, ethnicity, gender, age, sexual orientation, socioeconomic status, and physical or mental ability. Credit Level: G. Credit Hrs: 3.00

21SW720**Research in Social Work**

Introduction to the scientific method and social science research methods and concepts. Research design and application to social work issues is emphasized. Credit Level: G. Credit Hrs: 3.00

21SW721**Practice Evaluation in Social Work**

Techniques and uses of single system research for monitoring and evaluating individual client outcomes and organizational change. Students learn to define groups and subsystems as single systems and to use data collected over time as control or comparison data from which to make inferences. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

Social Work**21SW721****Practice Evaluation in Social Work**

Techniques and uses of single system research for monitoring and evaluating individual client outcomes and organizational change. Students learn to define groups and subsystems as single systems and to use data collected over time as control or comparison data from which to make inferences. Credit Level: G. Credit Hrs: 3.00

21SW722**Planning and Managing Program Evaluation**

This course is designed to help students develop the knowledge and skills required to plan, implement, and manage program evaluation projects. Various program evaluation methods, tools, and monitoring techniques will be explored. How the results of the evaluation can be used to modify interventions and program performance will be discussed. Credit Level: G. Credit Hrs: 3.00

21SW731**Social Policy Analysis**

Evaluation of social policy and its planned and unanticipated impacts are examined. Students are required to apply analytic tools to evaluate the appropriateness and utility of selected policies. Credit Level: G. Credit Hrs: 3.00

21SW740**Social Work Practice with Organizations and Communities**

Introduction to macro practice -- solving social problems and making social changes at the organizational, community, and societal levels. Credit Level: G. Credit Hrs: 3.00

21SW741**Social Work Practice with Individuals and Families I**

Introduction to micro practice with individuals and families. Emphasis is placed on the beginning phases of the helping process. Credit Level: G. Credit Hrs: 3.00

21SW742**Social Work Practice with Individuals and Families II**

The middle and ending phases of the helping process. Credit Level: G. Credit Hrs: 3.00

21SW743**Social Work Practice with Groups**

Developing competencies for direct practice with groups. An examination of various models of group work and development of group intervention skills. Credit Level: G. Credit Hrs: 3.00

21SW744**Assessment and Diagnosis in Social Work Practice**

Concepts of normality, deviance, and psychopathology are presented with particular attention to influence of culture, ethnicity, and gender. Contrasts are made between diagnostic classification and assessment with attention to the DSM IV. Credit Level: G. Credit Hrs: 3.00

21SW761**Introduction to Major Mental Illness**

This course focuses on persons with major mental illnesses. It includes theories of etiology, specific issues in assessment and diagnosis; the range of intervention options and an examination of various subgroups (e.g., minorities, homeless, dually diagnosed, young adults). The course emphasizes the role of the social worker using the biopsychosocial model, collaboration and community support. Social justice and eliminating stigma for persons with mental illness will be a focus. Recovery and consumer operated services and the importance of individual differences in determining interventions will be emphasized. Credit Level: G. Credit Hrs: 3.00

21SW770**Social Work Field Instruction Lab**

This course introduces the field instruction program. Students will learn the policies and procedures for determining a field placement, how to develop a learning contract, and explore the specialized study opportunities. Credit Level: G. Credit Hrs: 1.00

Social Work**21SW771****Field Instruction in Social Work I**

Continuation of instruction from 21SW770. Credit Level: G. Credit Hrs: 4.00

21SW772**Social Work Field Instruction II**

Preparation for entry into student field practicum; introduction to the placement process and field contract; development of basic interviewing and communication skills. Credit Level: G. Credit Hrs: 4.00

21SW773**Summer Field Instruction**

Summer Field Instruction Credit Level: G. Credit Hrs: 1.00-12.00

21SW780**INTRO MENTAL ILL**

INTRO MENTAL ILL Credit Level: G. Credit Hrs: 3.00

21SW781**REHAB MENTAL ILL**

REHAB MENTAL ILL Credit Level: G. Credit Hrs: 3.00

COM SUP MENTAL ILL Credit Level: G. Credit Hrs: 3.00

21SW783**FAM MENTAL ILL**

FAM MENTAL ILL Credit Level: G. Credit Hrs: 3.00

21SW785**Theory and Skills for Advanced Practice**

This course is designed as a bridge from the knowledge and skills of the generalist practitioner to that required for advanced practice. Emphasis is placed on enhancing skills in engagement, relationship building, and multi-dimensional assessment. Credit Level: G. Credit Hrs: 3.00

21SW789**DIRECTED STUDIES**

DIRECTED STUDIES Credit Level: G. Credit Hrs: 1.00-15.00

21SW790**Social Work Field Instruction I**

This is the first 9-hour field instruction course. Students will become familiar with their field placement setting and work on their first learning contract. Credit Level: G. Credit Hrs: 2.00

21SW791**Social Work Field Instruction II**

This is the second 9-hour field instruction course. Students will continue working on their foundation year learning objectives. Credit Level: G. Credit Hrs: 2.00

21SW792**Social Work Field Instruction III**

This is the third 9-hour field instruction course. Students will continue working on their foundation year learning objectives. Credit Level: G. Credit Hrs: 2.00

21SW793**Social Work Field Instruction IV**

This is the fourth 9-hour field instruction course. Students continue working on their foundation year learning objectives. Credit Level: G. Credit Hrs: 2.00

21SW799**MSW Field Instruction**

MSW Field instruction provides experience in professional social work practice in administration or in direct practice with individuals, families, and small groups. Individualized learning contracts are jointly developed by the student and the field instructor. This course is designed for

H=University Honors course.

students who need to make-up field hours from previous quarters or who are completing additional field hours for elective credit. Credit Level: G. Credit Hrs: 1.00-8.00

21SW830**SOC POLCY ANALYSIS**

SOC POLCY ANALYSIS Credit Level: G. Credit Hrs: 3.00

21SW840**Social Welfare Administration Practice Theory and Methods**

Introduction to social welfare administration. An examination of organizations as implementers of social welfare policy. Credit Level: G. Credit Hrs: 3.00

21SW841**Program Planning and Implementation**

Develop skills for planning and implementing social service programs. Credit Level: G. Credit Hrs: 3.00

21SW842**Managing Human and Financial Resources in Social Service Agencies**

This course provides students with the knowledge and skills to manage human and financial resources in social service agencies. The process of recruiting, selecting, developing, and retaining productive staff will be explored. In addition strategies for developing financial plans that support program goals/objectives will be examined. Credit Level: G. Credit Hrs: 3.00

21SW843**Methods of Personnel Administration**

Major issues in personnel management of social welfare organizations: collective bargaining, affirmative action, hiring/firing. Credit Level: G. Credit Hrs: 3.00

21SW845**Theory and Practice of Supervision**

Study of administrative, educational and support functions of social work supervision in human service agencies. Credit Level: G. Credit Hrs: 3.00

21SW846**Methods of Resource Management**

Analysis of budgetary and fiscal management processes unique to non-profit organizations are examined as is the development and preparation of a budget. Credit Level: G. Credit Hrs: 3.00

21SW848**Program Policy and Implementation**

Analysis of reasons for policy decisions/program outcomes. Methods and strategies of implementation planning to minimize problems is emphasized. Credit Level: G. Credit Hrs: 3.00

21SW850**Children and Family Services - Programs and Policies**

Overview of programmatic and policy issues governing services impacting children and families. Welfare reform, managed care and legal procedures will also be explored. Credit Level: G. Credit Hrs: 3.00

21SW851**Assessment: Children, Adolescents and Families**

Interviewing and assessment skills specific to children, adolescents and families. Emphasis on children/adolescents at risk. Credit Level: G. Credit Hrs: 3.00

21SW852**Intervention: Children, Adolescents, & Families**

This course is designed to help students develop advanced knowledge and skills for intervention with children/adolescents and their families. The course begins with an overview of treatment approaches utilized with this population. The remainder of the course looks at the application of these interventions with different types of problems often

Social Work**21SW852****Intervention: Children, Adolescents, & Families**

experienced by children/adolescents and their families. Attention is also given to the role human diversity plays when developing an intervention plan. Credit Level: G. Credit Hrs: 3.00

21SW855**Social Work Practice in Health Care**

Practice in health care settings - hospitals, home health care agencies, hospices, clinics and community based programs. health beliefs, models of health behavior will be explained. Credit Level: G. Credit Hrs: 3.00

21SW856**Social Programs and Policies in Health Care and Gerontology**

An examination of major policies, programs, friends and issues in health care and gerontology. Credit Level: G. Credit Hrs: 3.00

21SW857**Social Work Practice in Gerontology**

This course prepares students for direct practice in a variety of settings serving older adults and their families. Theories of adult development and aging are examined. Emphasis is placed on developing skills for work with older adults experiencing "normal" life transitions, life crises, and special problems. Particular attention is given to the experiences of elderly women, minorities, and populations at risk. Credit Level: G. Credit Hrs: 3.00

21SW860**Advanced Clinical Practice in Mental Health I**

The focus of this course is on working with individuals with major mental illness. Theories of etiology, issues in assessment and diagnosis and a range of intervention options will be explored. Credit Level: G. Credit Hrs: 3.00

21SW861**Advanced Clinical Practice in Mental Health II**

This course focuses on the process of mental health psychosocial treatment, use of theoretical foci, therapeutic processes and relationship development to effect growth and change. Credit Level: G. Credit Hrs: 3.00

21SW862**Policy Implications of Mental Health Practice: Negotiating the System**

This course examines policy, economic, legal, ethical, and political issues that affect social techniques of the worker within the context of several modalities of group intervention are emphasized. Credit Level: G. Credit Hrs: 3.00

21SW870**Field Instruction in Social Work III**

See 21-058-770. Credit Level: G. Credit Hrs: 4.00

21SW871**Field Instruction in Social Work IV**

Social Work**21SW882****Field Integration Seminar**

This seminar offers students the opportunity for classroom and field learning integration. Students present situations from their field work experiences for peer consultation. In addition, students will explore relevant practice issues. Credit Level: G. Credit Hrs: 1.00

21SW885**Advanced Field Instruction**

Advanced Field Instruction is designed to provide a closely supervised and educationally focused learning experience that helps prepare students for competent, accountable, and autonomous practice. Emphasis is placed on integration and application of knowledge gained in the classroom. Credit Level: G. Credit Hrs: 3.00

21SW890**Social Work Field Instruction V**

This is the fifth 9-hour field instruction course. Students begin their advanced year of field placement in one specialized study area. Credit Level: G. Credit Hrs: 2.00

21SW891**Social Work Field Instruction VI**

This is the sixth 9-hour field instruction course. Students continue working on their advanced year learning objectives within a specialized study area. Credit Level: G. Credit Hrs: 2.00

21SW892**Social Work Field Instruction VII**

This is the seventh 9-hour field instruction course. Students continue working on their advanced year learning objectives within a specialized study area. Credit Level: G. Credit Hrs: 2.00

21SW893**Social Work Field Instruction VIII**

This is the eighth 9-hour field instruction course. Students continue working on their advanced year learning objectives within a specialized study area. Credit Level: G. Credit Hrs: 2.00

21SW894**Social Work Field Instruction IX**

This is the ninth 9-hour field instruction course. Students continue working on their advanced year learning objectives within a specialized study area. Credit Level: G. Credit Hrs: 2.00

Social Work Technology**21SWTN175****Social Service Professional Development**

This course is designed to introduce students to the values, principles, and ethics of the Social Work profession in preparation for practice as a Social Work Assistant, as prescribed by the Ohio Counselor and Social Worker licensing law, or transfer to an upper-division social work program. Pedagogical method: lecture, discussion, small group activities. BoK: SS. Credit Level: U. Credit Hrs: 3.00

21SWTN181**Social Service Systems I**

Social Service delivery systems. Emphasis is placed on difference in worker roles and functions. BoK: SS. Credit Level: U. Credit Hrs: 3.00

21SWTN182**Social Service Systems II**

Social services to urban populations. Emphasis placed on housing, transportation, poverty and other in-kind transfer programs. BoK: SS. Credit Level: U. Credit Hrs: 3.00

21SWTN183**Social Service Systems III**

Social services to urban populations. Special emphasis placed upon violence in the urban environment across the life-span, including child abuse, domestic abuse, and elder abuse. BoK: SS. Credit Level: U. Credit Hrs: 3.00

Social Work Technology**21SWTN222****Work With Families and Children**

The focus of this course is upon developing an understanding of family dynamics, the roles of family members, and the rituals of family interaction with emphasis upon single-parent families. BoK: SS. Credit Level: U. Credit Hrs: 3.00

21SWTN231**Work with Individuals**

Introduction to the casework method. Case management, case contracting, and other contemporary models are emphasized. BoK: SS. Credit Level: U. Credit Hrs: 3.00

21SWTN232**Work with Groups**

In this course social service students will begin to develop the skills necessary for effective social work with groups. Focus will be upon leadership in this role. BoK: SS. Credit Level: U. Credit Hrs: 3.00

21SWTN241**Intervention Techniques for Child and Youth Workers**

This course emphasizes the skills necessary for social service work with children and youth living in residential facilities. BoK: SS. Credit Level: U. Credit Hrs: 3.00

21SWTN260**Assessment Information and Referral Skills**

Skill development in assessment, information gathering and referrals. Laboratory practice. BoK: SS. Credit Level: U. Credit Hrs: 3.00

21SWTN262**Advanced Interviewing**

This course introduces students to counseling techniques for work with on-going clients. BoK: SS. Credit Level: U. Credit Hrs: 3.00

21SWTN276**Social Service Interviewing**

Techniques and skills of interviewing. Emphasis is placed on data collection and recording. Prereq: 17SWTN275. BoK: SS. Credit Level: U. Credit Hrs: 3.00

21SWTN277**Social Service Seminar I**

Integration of practice and theory. Runs simultaneously with Social Service Practicum. BoK: NA. Credit Level: U. Credit Hrs: 1.00

21SWTN278**Social Service Internship**

Student on-the-job training in local social service agencies. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

GENERAL UNIVERSITY INFORMATION

GENERAL UNIVERSITY INFORMATION

THE UNIVERSITY OF CINCINNATI IN BRIEF

The University of Cincinnati traces its origins to 1819, the year of the founding of the Cincinnati College and the Medical College of Ohio. In 1870, the city of Cincinnati established the University of Cincinnati, which later absorbed the earlier institutions. UC became a state university in 1977.

The University of Cincinnati has established a continuing reputation for excellence in graduate and undergraduate education, cultural services and basic and applied research. Since its 1819 founding, UC has been the source of many contributions to society, including the oral polio vaccine, the first program of cooperative education, the first electronic organ, the first safe anti-knock gasoline and the first antihistamine. In recent years, UC has gained international attention for studies on the vibration analysis of structures, the chemistry of surfaces and laser brain surgery.

Located on five campuses, the University of Cincinnati today serves more than 37,000 students through 17 colleges and divisions offering hundreds of degree programs from the associate to the doctoral level.

UC boasts the first – and still one of the nation's largest – cooperative education or "professional practice" program. Established at UC in 1906, co-op allows students to alternate academic quarters of classroom instruction with salaried, on-the-job experience. Today, almost 4,000 UC co-op students work in 34 states and nine foreign countries for 1,500 employers.

The University of Cincinnati is a stimulating environment that has produced some exceptional people. Among past or present faculty and alumni are: President and later Chief Justice William Howard Taft; prima ballerina and ballet director Suzanne Farrell; Nobel Peace Prize recipient Charles G. Dawes; Albert Sabin, developer of the oral polio vaccine; Doris Twitchell Allen, founder of Children's International Summer Village; Cleveland

Abbe, whose work at UC led to the National Weather Service; opera stars Kathleen Battle, Barbara Daniels and Mark Oswald; authors Thomas Berger (*Little Big Man*, *Neighbors*) and Jonathan Valin (*The Lime Pit*, *Final Notice*); Eula Bingham, environmental scientist and head of OSHA; Marilyn Gaston, assistant surgeon general; sports greats Sandy Koufax, Oscar Robertson, Jack Twyman and Tony Trabert; architect Michael Graves; artist Tom Wesselman; Tony Award winner Faith Prince; actor David Canary; and Broadway stars Lee Roy Reams and Michelle Pawk.

UC is accredited by the North Central Association of Colleges and Schools. It is a member of the National Commission on Accrediting and is recognized by the Ohio State Department of Education.

University Mission

The University of Cincinnati is a public comprehensive system of learning and research. The excellent faculty have distinguished themselves worldwide for their creative pedagogy and research, especially in problem solving and the application of their discoveries.

The university system is designed to serve a diverse student body with a broad range of interests and goals. It is a place of opportunity.

In support of this mission, the University of Cincinnati strives to provide the highest quality learning environment, world-renowned scholarship, innovation and community service and to serve as a place where freedom of intellectual interchange flourishes.

ADMISSION

The University of Cincinnati offers admission opportunities in a wide range of academic, professional and career education programs. The university requires that students who graduated from high school in 1986 and thereafter who wish to earn a baccalaureate degree present the following high school units. Additional science and/or math units are required by some programs.

4 units of college-preparatory English
3 units of college-preparatory mathematics
2 units of science
2 units of social science
2 units of a single foreign language
1 unit of fine arts
2 additional units of any of the above

Students who have been admitted with deficiencies in the above requirements will be notified of that fact in acceptance materials sent to them by the Office of Admissions.

Further information regarding admission may be found in the front of this *Bulletin* and the separately published viewbook.

TRANSFER

The Ohio Board of Regents, following the directive of the Ohio General Assembly, developed a statewide policy to facilitate students' ability to transfer credits from one Ohio public college or university to another in order to avoid duplication of course requirements. To learn more about the Ohio Board of Regents Articulation & Transfer Policy, visit www.regents.ohio.gov/transfer/.

Transfer and Lifelong Learning Center

The Transfer and Lifelong Learning Center (TLLC) serves students with diverse educational backgrounds and goals, including:

- degree-seeking students transferring directly from other colleges and universities to complete bachelor's degrees
- professionals enrolling in certificate programs or individual classes to enhance their skills, earn credentials, or maintain licensure in their field
- returning students who postponed college or took a break
- intellectually curious people of all ages, taking college courses for personal growth

Academic advisors in the TLLC are available to help: 513-556-2247 or transfer@uc.edu.

Acceptance of Transfer Credit

Here are some general points to understand about transfer credit:

- In order for transfer credit to be awarded, institutions you have attended must be accredited by one of six national accrediting agencies:
 - Middle States Association of Colleges and Schools
 - North Central Association of Colleges and Schools
 - New England Association of Schools and Colleges
 - Northwest Association of Schools and Colleges
 - Southern Association of Colleges and Schools/Commission on Colleges
 - Western Association of Schools and Colleges
- You can check your school's accreditation online at www.chea.org.
- General education requirements such as math, English, history and so on will usually transfer to a direct equivalent UC course.
- In most cases, a grade of C- or better is required for UC credit to be granted. (Exception: In compliance with Ohio Board of Regents requirements, for courses taken prior to fall 2005, students who have earned an associate of arts (AA) or an associate of science (AS) degree, with a cumulative GPA of 2.00 or higher, will receive credit for transfer courses with a D grade. For courses taken in fall 2005 or later, students will receive credit for all D grades earned.)
- Your GPA from other institutions does not transfer to UC. Your UC GPA is based only on course work completed at UC.
- If you have already earned a great many credits at another institution, you still have to meet UC's residency requirements, which usually means at least two years of course work. To receive a bachelor's degree from UC, around 65 credits must be earned here.
- UC operates on a quarter academic calendar. One semester credit equals 1.5 quarter credits. For example, 10 semester credits transfer as 15 quarter credits.

Responsibilities of Students

In order to transfer with maximum applicability of transfer credit, prospective transfer students must plan a course of study to meet the requirements (both academic and non-academic) of the institution they wish to transfer into. Planning for transfer should begin as early as possible. Delays in developing and following an appropriate plan or changing one's plan (e.g. changing majors) may reduce the applicability of transfer

credit to the degree program ultimately selected. To view the complete list of student responsibilities, visit the transfer Web pages at: www.admissions.uc.edu/transfer. An abbreviated list is provided below.

You can monitor the progress of your course review and print a copy of your Credit Evaluation Report (CER) by visiting the following Web site: www.admissions.uc.edu/cer.

The University of Cincinnati accepts credit for examinations such as Advanced Placement (AP), College-Level Examination Program (CLEP) and International Baccalaureate (IB) when minimum scores, established by UC, are earned for each exam.

The University of Cincinnati accepts military credit based on a course by course evaluation.

If you think your transfer credit evaluation is wrong, contact the Office of Admissions and explain your concern. Occasionally, courses may be evaluated incorrectly due to a lack of information about the course, or because the course content has changed. We may require a copy of the current course description and/or syllabus for re-evaluation.

The prospective transfer student should:

- Seek out program/degree and transfer information and an adviser
- Be aware that a change in major will most likely reduce the number of credits that can be applied to the new major
- Understand the policies and procedures of the transfer institution, including application fees, transfer admission, course transfer, financial aid, scholarship, housing and related deadlines.

Appeals Process

The appeals policy, in compliance with Ohio Board of Regents (OBR) Articulation & Transfer Policy, provides transfer students the ability to appeal, at multiple levels within the university, when disagreement occurs regarding the application of transfer credit toward degree requirements. To view the written policy and appeals form, visit the transfer Web pages at: www.admissions.uc.edu/transfer.

FRESH START POLICY

The purpose of the Fresh Start policy is to permit a student who performed poorly upon initial enrollment at UC to have an opportunity for a fresh cumulative grade point average.

This policy applies to UC undergraduate students who, after completing no more than four quarters, had a cumulative GPA of less than 2.0, and then were readmitted to the university

after an absence of at least three years. These students may petition the deans of their college to have their former courses treated in accordance with the college's advanced standing policy. Upon the approval of a Fresh Start, the student's cumulative grade point average is initiated from the date of reentry. The credit granted for prior work is subject to the age of credit limits and degree requirements established by the student's college at the time of readmission.

A request for a Fresh Start must be submitted within one year of readmission and applies only to courses taken at UC before readmission. Fresh Start will not be reviewed or approved prior to completion of one quarter. An academic Fresh Start is not automatic and it is not guaranteed. Academic units may impose additional criteria, such as requiring a plan of study. The Fresh Start option may be effected only once during a student's academic career.

NOTE: Approval of a Fresh Start will be recorded on the transcript. However, students should be aware that the previous academic record will appear on the transcript and that most graduate and professional schools, as well as potential employers, may average all academic records together.

Applications for a Fresh Start may be obtained from the office of the student's degree-granting unit and will be considered in accordance with procedures and any additional guidelines of that unit. Degree-granting units may not grant a Fresh Start to any student who fails to satisfy the above criteria. If a request for a Fresh Start is denied by the student's college, the student may file an appeal with the University Grading Appeals Panel through the Office of the Registrar. If a request for a Fresh Start is supported by the college but the student fails to meet one or more of the minimum criteria, the college may refer the application to the advisory committee.

UNIVERSITY HONORS SCHOLARS PROGRAM

Designed to emphasize experiential learning, the honors scholars program engages the top 10 percent of University of Cincinnati students in curricular and co-curricular opportunities within the program's four themes:

- leadership
- community engagement
- global studies
- research and creative arts

While following any academic program at the university, students can focus their honors course work and experiential learning projects in one theme or broadly explore all areas. Students can fulfill honors requirements through experiential learning programs with reflective components, such as:

- international study
- research
- creative/arts projects or performances
- internships, clinicals or cooperative education
- service learning or long-term community service
- leadership positions and programs

The first-year experience includes a leadership retreat (prior to the beginning of classes), English composition classes with an emphasis on civic engagement and Honors 101. In Honors 101, students create a personal development plan that will guide their academic and personal growth within the honors program and throughout their college career. Throughout the honors program, students document their learning experiences in an e-portfolio to be shared with peers, faculty, the campus community and potential employers.

All first-time freshmen admitted to a baccalaureate college at the university are automatically considered for admission to the honors scholars program; they do not need to submit a separate application. Current UC or transfer students who are interested in participating should complete the honors scholars application.

Students admitted to honors as freshmen typically have:

- a high school rank in the top 10 percent
- an unweighted high school GPA of 3.8
- an ACT score of 31 or higher
- an SAT score 1360 or higher (combined verbal and math)

When a student completes the requirements of the honors program, the designation *Honors Scholar* is placed on the student's final transcript and diploma.

For information: 513-556-6254; honors@uc.edu; www.uc.edu/honors.

FEES AND FINANCIAL ASSISTANCE

Fees

Fees are assessed on the basis of a student's college and program, the level of the classes (graduate or undergraduate), the student's residence classification and the number of enrolled credit hours. Students registering for fewer than 12 quarter credit hours (10 quarter credit hours for graduate students) will be assessed student fees on a credit-hour basis; those who enroll for 12 quarter credit hours or more (10 hours for graduate students) will be assessed full-time instructional fee. All students will be assessed the general fee, the information technology and instructional equipment (ITIE) fee, and the nonresident surcharge, as applicable. Full-time fees normally cover up to 18

credit hours per quarter, except where the college curriculum specifies an academic load in excess of 18 hours, exclusive of military or air science credit hours. Fees for hours over 18 will be assessed at the part-time credit-hour rate.

Fees are payable at the beginning of each academic quarter. They are published online at www.onestop.uc.edu and are also available from the Office of Admissions, One Stop Student Services and the individual college offices.

Financial Aid

Students who attend the University of Cincinnati are encouraged to apply for financial aid. The Student Financial Aid Office is committed to making education as affordable as possible. Every effort will be made to identify university, federal and state resources to assist both undergraduate and graduate students in fulfilling their educational goals.

The Free Application for Federal Student Aid (FAFSA), available from any high school or UC's One Stop Student Services, is used annually to apply for all work-study, loan and undergraduate grant programs. The Web-based FAFSA, as well as a status check once you apply, is available at www.financialaid.uc.edu. Complete the FAFSA as soon after January 1 as possible. Because some aid programs are awarded on a first-come, first-served basis, an early application receives priority consideration for limited funding sources.

Freshmen with exemplary high school academic records may be eligible to compete in the Cincinnati Scholarship Competition. Information about the competition is available from the Office of Admissions. Students (new, returning and graduate) should review the information in this Bulletin concerning college scholarship programs. Scholarships are also available from the State of Ohio, high schools, churches and civic groups.

Specific information about financial aid programs, a scholarship search and the aid process is available online at www.financialaid.uc.edu. If you need more information, contact:

Student Financial Aid Office
University of Cincinnati
PO Box 210125
Cincinnati, OH 45221-0125

Phone: 513-556-1000 (One Stop Student Services)
Fax: 513-556-9171
E-mail: financeaid@uc.edu
Web site: www.financialaid.uc.edu

ORIENTATION

All students enrolling for the first time are required to attend a New Student Orientation, which allows students to take required placement tests, receive academic advising and register for their first quarter classes. Orientation also provides important information about university resources and opportunities. New students are also required to attend New Student Convocation and College Day activities that are a part of a comprehensive Welcome Week, which begins the week before fall quarter. Details about these programs will be mailed at the appropriate time.

REGISTRATION

To attend classes and receive course credit, students must officially register for classes and must pay all associated tuition and fee charges. Students should register online through the One Stop Student Service Web site at www.onestop.uc.edu. Registration dates and tuition payment deadlines are listed on the Registrar's Office Web site at www.uc.edu/registrar.

Early Registration

Early registration by appointment for continuing students opens in April for the fall quarter, October for the winter quarter and February for the spring quarter. Generate a degree audit and contact your adviser *prior* to early registration.

Enter the One Stop Student Service Web site at www.onestop.uc.edu.

- To obtain your appointment time each quarter, click the designated link under "Announcements and Reminders" and follow the instructions.
- Click "review registration information" for important registration policies and procedures.
- Click "view class offerings" to open the online Schedule of Classes search application. Select the appropriate quarter, enter your preferred class criteria and click "Search." The online Schedule of Classes enables you to search by college and discipline, meeting days and times and by mode of instruction. Search results include class locations and class availability, and will provide links to online course descriptions.
- Once you have recorded a list of potential classes, return to the One Stop Student Service main page. Click "register for classes." Log in to the registration system. Enter your selections.

Open Web Registration

Following early registration, Web registration is open to all students through the One Stop Web site at www.onestop.uc.edu. Class requests are processed while the student is online, and schedules are available online immediately following Web transactions. Students can view their schedule and bill on the One Stop Web site at any time from 6 a.m. until midnight.

In-Person Registration

This is the walk-through phase of registration that begins concurrently with open registration. Registration after calendar day seven of the quarter is possible only with college and instructor permission. Late registration fees are assessed beginning with the first day of the quarter. New students and continuing students who need to register or adjust their schedules should obtain registration forms from their college offices, seek advising on class selection and present their class requests in person in one of the registration offices. The class requests are processed by registration staff members or university service associates, and students know immediately their schedules and fees. Students registering or adjusting their schedules (add/drops) during in-person registration may obtain a schedule/bill as they leave the registration offices.

GENERAL EDUCATION

Integrated Core Learning (ICL)

The phrase "Integrated Core Learning" describes the University of Cincinnati's signature approach to undergraduate education. ICL was developed as the thoughtful integration of all aspects of the undergraduate experience, including the General Education core, major course work, experiential learning, co-curricular activities, and faculty-guided reflection. ICL underscores the University of Cincinnati's strengths and places them within a holistic framework for student learning from the first undergraduate year through graduation. ICL envisions the purposeful weaving of high-impact practices and experiences with high-quality, rigorous instruction.

ICL is built around three touch-points in the undergraduate experience to provide all students with key opportunities to develop, review, and act upon a learning plan for degree completion. It begins with a significant first-year experience as its cornerstone and continues with opportunities for self-reflection and on-going support through mid-collegiate coursework and experiences. Culminating with a senior-year experience, ICL will provide students with the necessary tools to transition to a profession or graduate program and continue to assume ownership for life-long learning, civic engagement, and social responsibility.

ICL relies heavily on experiential education as a way of demonstrating the linkages between the curriculum and inquiry, practice, creativity and social responsibility. Broadly defined, this approach seeks theory-practice integration, contextual complexity, and community engagement to foster learning that is self-directed, integrative, and transformational. From professional development, field projects, and study abroad to service learning and student research, experiential learning permeates every program on campus.

UNDERGRADUATE GRADING SYSTEM

At the end of each academic quarter, the Office of the University Registrar posts an official grade report for each student to the One Stop Student Services Web site. UC uses the following grading system for undergraduate courses:

Grading and Point System

Grade	Description	Grade Points
A	Excellent	4.0000
A-		3.6667
B+		3.3333
B	Good	3.0000
B-		2.6667
C+		2.3333
C	Satisfactory	2.0000
C-		1.6667
D+		1.3333
D	Poor	1.0000
D-		0.6667
F	Fail	0.0000
P	Pass	N/A
U	Unsatisfactory	N/A
T	Audit	N/A
I	Incomplete ¹	0.0000*
I/F	Failure ²	0.0000
W	Withdrawal (Official)	N/A
WX	Withdrawal (Official) – no participation ³	N/A
UW	Unofficial Withdrawal	0.00
X	Unofficial Withdrawal – no participation ⁴	0.00
SP	In Progress – Satisfactory ⁵	N/A
UP	In Progress – Unsatisfactory ⁵	N/A
NP	Not Proficient ⁶	N/A
NG	No Grade Reported (see instructor)	N/A

¹ The I grade does not carry quality points (i.e., none) during the quarter immediately following the quarter in which the I was assigned. Thereafter, the I grade carries zero (0.0000) quality points and is calculated into the cumulative grade point average like the F grade.

²If the *I* grade remains on the student's record at the end of one (1) year following the end of the quarter, the *I* will change to *I/F* (Failure).

³The *WX* grade is displayed as a *W* grade on all grade reports and transcripts.

⁴Instructors will record an *X* for students who never attended classes and did not submit any assigned work. The *X* will appear on the transcript and will carry zero (0.00) quality points. It is calculated into the GPA like the *F* grade.

⁵Courses approved by college committees for extended grading periods are labeled *SP* or *UP*. If the *SP* or *UP* grade for a class remains on a student's record at the end of one year following the end of the quarter, that grade will change to *I/F* (Failure).

⁶The *NP* grade is used only for 103-level and below English courses that both require a level of proficiency to move through the sequence and are approved by the appropriate college committees.

Explanation of Grades

The *P* (Pass) grade is used to indicate passing work in classes graded under the pass/fail system, as well as for non-credit classes.

The *U* (Unsatisfactory) grade is used to indicate failure in noncredit courses. The *F* grade is the appropriate grade to indicate unsatisfactory work in classes graded under the pass/fail system.

The *I* grade is assigned when a class grade has not been finalized and the instructor has contracted with the student for later completion of class requirements. The *I* grade cannot be removed by repeating the class. The *I* grade will carry no quality points for one quarter after it is incurred. Following that period, the *I* grade will carry "0.0000" quality points. An *I* grade automatically will be changed to *I/F* on the permanent record after one year if no other change of grade is submitted.

The *SP* and *UP* grades are temporarily assigned only in courses approved by designated college committees for work to be completed later. These *SP* and *UP* grades automatically will be changed to *I/F* on the permanent record after one year if no other change of grade is submitted.

The *UW* and *X* grades denote unofficial withdrawals. The *UW* grade indicates that the student discontinued class attendance but neglected to withdraw officially from the class by means of either online withdrawal or submission of the paper withdrawal form. Either the faculty member or the Office of the University Registrar may assign this grade. The *X* grade indicates that the student never attended or participated in the class. Both grades carry "0.0000" quality points and are calculated into the grade point average like the *F* grade.

The *W* grade denotes an official withdrawal from the class. Students may "drop" one or more classes through the 15th calendar day of the quarter. Dropped classes are not recorded on the student's permanent academic record. Beginning with the

16th calendar day of the quarter, students can no longer "drop" a class but must officially *withdraw* from that class. Withdrawn classes are recorded on the student's permanent academic record with the *W* grade. Each instructor should include in the class syllabus the his or her policy for withdrawing from that class. A student seeking to withdraw from the class must follow the instructions included on the syllabus. Students may then withdraw from the class either through the registration system housed on the One Stop Student Services Web site at www.onestop.uc.edu/ or by obtaining the instructor's signature on a completed drop/add form and submitting that form to the One Stop Student Service Center (University Pavilion, 2nd floor). For all colleges, the last day to withdraw from a class is the 58th calendar day of the quarter. Students also have the option to request a complete withdrawal, which is a withdrawal from all classes for which the student is enrolled that quarter. A complete withdrawal must be initiated by the student in writing through the college office.

Note: Dropping or withdrawing from classes should not be done lightly. Financial aid funds are intended to assist students in completing course work. Federal aid recipients therefore are subject to refund and repayment obligations that may differ from university withdrawal policies. In addition, a student's receipt of aid is contingent upon proof that the student participated in course work. Upon the student's withdrawal from a class, the class instructor will submit participation information for review by the Office of Financial Aid. Failure to attend/participate in classes can limit the student's aid eligibility. For additional information, consult the Office of Financial Aid Web site at www.financialaid.uc.edu/aid_recalculation.html

The pass/fail option should be indicated at the time of registration. The student cannot change this option after the 7th calendar day of the quarter. If the student fails a pass/fail class, the *F* grade will be recorded, impacting the cumulative grade point average.

The *T* grade (audit) is assigned when a student has registered as an auditor rather than for credit. The faculty member and the student should agree on the conditions of the audit, as the *T* grade may not be awarded automatically.

Grades and transcripts will not be released to a student with a financial obligation to the university.

Computing a Grade Point Average

Each student's UC grade point average (GPA) is determined by dividing the total number of quality points earned by the total number of UC credit hours carried. Classes for which the grades of *W*, *P*, *T*, *SP*, *UP*, *NP*, and *NG* have been earned should be excluded from the calculations. Advanced standing credit is not included in the calculation of the UC cumulative quality point average.

Example: A student completes four courses during the quarter. Each course is allotted three credit hours. The student receives grades of A, B, and C. The student's GPA is calculated as follows:

Step 1. Substitute grades with their assigned values (quality points).

A=4 B=3 C=2

Step 2. Multiply the assigned value of each grade by the credit hours allotted each course, and total them.

$$A = 4 \times 3 = 12$$

$$B = 3 \times 3 = 9$$

$$C = 3 \times 3 = 9$$

$$C = 2 \times 3 = 6$$

$$\text{Total} = 36$$

Step 3. Divide the sum by the number of hours enrolled. $36 \div 12 = 3.0$ GPA

Deadline for Changing Grades

For the first year following the completion of a class, the class instructor alone has the responsibility to change grades reported for that class, even if that year extends beyond the student's certification for graduation. After one year, and for three additional years or until graduation (whichever comes first), the instructor may change undergraduates grades only with college approval. Any grade changes requested after this period requires the approval of a seven-member panel convened by the University Registrar.

Grade Replacement Policy

UC policy requires a student repeating a course to re-register for the course and pay tuition. Instructors may not allow a student to repeat a course without re-registering and later submitting a form to change a grade of I or other grade previously reported. Unless a student completes and submits a grade replacement application to the appropriate college office within the first 58 days of the quarter, the grades awarded for both the original class *and* the repeated class will be calculated into the UC cumulative grade point average.

Undergraduate students may re-enroll in up to five courses (no more than 15 total credit hours) for a recalculated GPA using the most recent registration. The original grade(s) will remain on the student's permanent record with a symbol indicating repeated enrollment.

STUDENT GRIEVANCE POLICY AND PROCEDURES

Philosophy

All members of the University community are expected to interact with civility and respect, recognizing at the same time the unique tradition of the University to provoke thought, stimulate discussion, and examine dissent. The University encourages the resolution of complaints in a fair and collegial manner. This document establishes a policy and process for undergraduate students to request review and resolution of certain complaints.

Complaints may be resolved informally between the individuals or with the aid of their department head, college office, or the University Ombuds. However, the student may proceed through the Formal Resolution stage.

Applicability

This document supersedes all former individual college grievance procedures. It is to be used by any UC student except those who are admitted to and enrolled in a graduate degree, MD, or JD program.

These procedures are applicable when:

1. a student believes that he/she has been subjected to an academic evaluation which is capricious or biased.
2. a student believes he/she has been subjected to other improper treatment.

Exceptions

Allegations described below will be handled as outlined.

1. Complaints alleging violation of privacy. Allegations of a violation of privacy as set forth under the Family Educational Rights and Privacy Act (FERPA) will be handled by the University Registrar in accordance with current practice.
2. Complaints regarding incompetency of instruction. Allegations of incompetent instruction will be handled according to the agreement between UC and the AAUP.
3. Complaints alleging discriminatory treatment. Allegations of discriminatory treatment based on age, race, sex, sex orientation, disability, national origin, or religion will be handled according to the UC Discrimination procedure administered by the Office of Equal Opportunity. If the complaint involves a faculty member, it will be handled according to the agreement between UC and the AAUP. Copies of the process for complaints alleging discriminatory treatment involving a faculty member may be obtained at the Ombuds Office, the Office of the Vice President for Student Affairs and Services, and the Office of Equal Opportunity.

General Guidelines

To use these procedures, a student may initiate an informal complaint in the University Ombuds Office (607 Swift Hall) or the College Office in which the course is offered no later than the end of the quarter following the quarter in which the activity that gave rise to the complaint occurred. A student registered for cooperative education through the Division of Professional Practice will receive an extension of one quarter upon his/her request. All complaints shall be heard without unnecessary delay.

Complaints regarding a course will be in the jurisdiction of the college offering the course. If the course is offered in a different college than the student's home college or school, the complainant's college representative will sit as an ad hoc member of the College Grievance Review Committee (CGRC) (see Step 3).

Two or more students with the same complaint may join in a group action. A single statement of complaint shall be submitted and processed in the manner described herein for individuals, but all those joining in such a group action must sign the statement. The University Ombuds shall determine whether, in fact, all of the students have the same complaint. If it is found that they do not, they will be divided into two or more subgroups. One individual may represent the entire group but all complainants may be required to meet with the University Ombuds or the CGRC.

Procedures

Step 1 – Informal Resolution. The parties involved must first attempt to resolve the complaint informally.

- A. First the student must talk with the faculty member about his/her complaint. A faculty member must be willing to meet with a student for discussion.
- B. If the complaint is not resolved, the student must talk with the faculty member's department or unit head or a college representative designated by the Dean, who will attempt to resolve the complaint.
- C. If the complaint is not satisfactorily resolved through A and/or B, a student may proceed to Step 2, Mediation, or Step 3, Formal Resolution, no later than the end of the following quarter.

Step 2 – Mediation. Mediation shall be requested of and conducted by the Office of the University Ombuds. The University Ombuds (UO) shall consult with the College and shall meet with the individuals separately and/or together to attempt to reach a solution (written) which is agreeable to and signed by all parties to the dispute. All individuals directly involved shall receive a copy of the signed resolution. No written records, other than the final resolution, shall be retained by the UO. Original documents shall be returned to their source or to another site as agreed in the signed resolution. All other notes shall be destroyed. If the complaint is not resolved through mediation, the UO shall immediately notify the Chair of the CGRC in the college in which the dispute originated and inform all affected parties in writing.

Step 3 – Formal Resolution. Following the receipt of the notification that the complaint was not resolved informally through Mediation (Step 2), the student(s) may file a grievance with the Chair of the CGRC. The Chair, who is appointed by the College Dean, shall schedule a grievance review meeting. The CGRC shall be composed of two faculty selected from a pool of four elected from the faculty of the college, two students from a pool of four selected by the College Tribunal or student government, and the Chair.

Any party to the complaint may challenge the participation of any committee member on the grounds of conflict of interest. Challenges must be submitted in writing to the Chair of CGRC within two (2) days after the parties have been notified of the CGRC composition. If the Chair is challenged, the appointing Dean shall determine the validity of the challenge and either replace or retain the Chair. The challenge must specify reasons that would prevent the individual from being unbiased with respect to the grievance. Any faculty member directly involved in the grievance shall not participate as a member of a CGRC.

A student may withdraw a grievance from further consideration at any time by submitting a written statement to the Chair of the CGRC. No reason needs to be given for withdrawal of the grievance. The Chair of the CGRC will notify all individuals involved in writing that the grievance has been withdrawn and that the grievance process is terminated.

Committee Procedures

1. The CGRC shall hold a grievance review meeting at which all parties shall have the opportunity to present to the CGRC any written and/or oral information relevant to the complaint.
2. The CGRC may also request information (within FERPA regulations) from other sources.
3. Copies of written material provided to the Committee shall be made available, upon written request, to persons directly involved in the formal resolution of the grievance.
4. Signed written statements may, when necessary, be submitted by individuals and witnesses if unable to attend.
5. The student and faculty member may elect to have an advisor present who may counsel but not actively participate as a spokesperson or vocal advocate.
6. Either party may request testimony from witnesses. However, the physical presence of witnesses shall be restricted to those invited by the Committee (except as noted above in #5).
7. If the student or faculty member chooses not to attend the meeting, his/her written statements shall be reviewed in their absence.
8. The meetings shall be tape recorded and the tape shall be maintained in accordance with University records policy.

Following the grievance review meeting, the CGRC shall issue a report to the College Dean. The CGRC's report shall contain:

1. relevant information including, but not limited to, documentation of written and oral information presented to the CGRC;
2. relevant University rules and policies;
3. decisions and the reasons therefore.

The College Dean shall notify both parties in writing of the CGRC's decision. Either party may appeal the decision of the CGRC in writing to the College Dean within ten (10) days following notification. Grounds for appeal shall be limited to procedural error or new information not available at the time of the hearing. The College Dean shall have the authority to accept and implement or modify the decisions of the CGRC. If the grievance alleges capricious or biased academic evaluation and the CGRC finds in favor of the grievant, the College Dean may exercise his/her authority to alter the grade. Decisions of the College Dean shall be final.

[Written June 1, 1992]

Please note: There are separate University Grievance Procedures for graduate students and employees. Graduate Student Grievance Procedures are available from the Graduate School. Employee Grievance Procedures are available in union contracts or in the Human Resources Policies & Procedures Manual.

THE UNIVERSITY'S LIBRARIES

University of Cincinnati libraries are nationally ranked, offering access to an outstanding research library collection of over 3.4 million volumes, more than 69,000 serial subscriptions and a wide range of services to help students with their research needs. Libraries at UC include the Walter C. Langsam Library, the archives and rare books library, nine college and departmental libraries, the law library and libraries at Clermont College and Raymond Walters College. The libraries' Web site, at www.libraries.uc.edu, provides access to the university's own resources and serves as a local gateway to OhioLINK, a statewide library consortium that includes a central library catalog of over 46 million items from 90 other library collections across Ohio, as well as thousands of journals, almost 100 databases, and numerous digitized books, images and newspapers.

GRADUATION WITH HONORS

Students who are candidates for a degree and who have met the college's residency requirement may be recognized by award of the following honors based on their university Grade Point Average (GPA).

<i>Cum Laude</i>	3.6000–3.7499
<i>Magna Cum Laude</i>	3.7500–3.8999
<i>Summa Cum Laude</i>	3.9000–4.0000

The university Grade Point Average (GPA) is based on all undergraduate course work taken at the University of Cincinnati. To be eligible for university honors, students must meet all residency requirements for their respective colleges.

STUDENT AFFAIRS

The Division of Student Affairs provides programs and services which complement and support the learning environment of the university and enhance the quality of student life. It traditionally provides campus-wide information and referral for students, faculty and staff.

Details regarding admissions, registration and student financial aid are located separately in this *Bulletin*.

African American Cultural and Research Center

The African American Cultural and Research Center enhances the entire university community by serving as a resource for individuals to become more enlightened about the African American experience. The center also aids in the retention of the African American student population by specifically addressing their academic, social, spiritual and cultural needs.

Career Development Center

The Career Development Center offers career guidance, internship and job search assistance, and referral services to students and alumni. Career fairs, professional development classes, on-campus recruiting and interviewing workshops are among the services offered quarterly. Additionally, the career navigator program specifically assists undecided students with career exploration and special topics in career decision-making classes.

Counseling Center

The Counseling Center offers individual, group and couple's counseling for UC students. We are available Mondays through Fridays 8 a.m. to 5 p.m. for urgent care on a walk-in basis (no appointment necessary). We also provide consultations for faculty, staff, family and friends concerned about a student. Our workshops and other outreach programs are available upon request and include such topics as balancing multiple demands, building and maintaining satisfying relationships, and communication skills. A limited number of assessments for learning disabilities and attention deficit hyperactivity disorder is available only by referral from UC's Disability Services Office. Urgent care, groups, consultation, and outreach are free; for

other counseling we accept Student Health Insurance and some other insurances, and we use a sliding fee scale. Contact us at 513-556-0648.

Disability Services

Students with disabilities who need academic accommodations or other specialized services while attending the university should contact the Disability Services Office, located in Suite 210, University Pavilion. Qualified students will receive reasonable accommodations to meet their individual needs as well as advocacy assistance on disability-related issues. The University of Cincinnati is strongly committed to maintaining an environment that guarantees students with disabilities full access to its educational programs, activities and facilities. In order to ensure timely implementation of academic accommodations, requests for accommodations or services should be made at least eight weeks in advance of the beginning of each quarter or as soon as possible after a disability has been confirmed. Requests for interpreters or real-time captioning for special programs or events should be made at least two weeks prior to the event. Contact the Disability Services Office at 513-556-6823 or (TTY) 513-556-3277.

Ethnic Programs and Services

Ethnic Programs and Services offers cultural and educational programs specifically for and about students of color, as well as financial assistance through the prestigious Darwin T. Turner scholarship program, short-term counseling and academic advising.

Judicial Affairs

The mission of the Office of University Judicial Affairs is to support the mission of the University of Cincinnati, through the implementation of the Student Code of Conduct (the university code of behavior), educational programs/sanctions, intervention programs and a due process judicial system. The Office of University Judicial Affairs is committed to promoting a safe, orderly, civil and just community by utilizing the Student Code of Conduct to hold students accountable for decisions and behavior that impact the university community.

The Office of University Judicial Affairs:

- Adjudicates all alleged violations of the University of Cincinnati Student Code of Conduct
- Promotes students' rights, responsibility and a just community
- Promotes responsibility and ethical behavior by the university community
- Protects the opportunity for students to attain their education
- Protects the physical and mental health, safety and welfare of the university community members
- Protects individual property rights

Contact the Office of University Judicial Affairs at Suite 745 Steger SLC, PO Box 210193, Cincinnati, Ohio, 45221-0193, or 513-556-6814, fax 513-556-1458, e-mail daniel.cummins@uc.edu, Web site: www.uc.edu/studentlife/conduct

McNair Scholars Program

The McNair scholars program provides assistance to disadvantaged or underrepresented students preparing for doctoral studies through a variety of student support, scholarly and research activities.

New Student Orientation Office

The New Student Orientation Office coordinates all orientation and placement testing for incoming first-year and transfer students as they transition into UC.

One Stop Student Services Center

Cross-trained staff in the One Stop Student Services Center provide in-person, Web and phone service for issues related to registration, financial aid and billing.

Pre-Professional Advising Center

The Pre-Professional Advising Center helps students prepare for admission to medical school, law school and other professional schools.

Resident Education and Development

Resident Education and Development (RED) is responsible for the staffing, programming and quality of life in the seven undergraduate residence halls – Calhoun, Campus Recreation Center, Dabney, Daniels, Schneider, Siddall, and Turner. RED staff members include the desk operations staff for service and security features, a resident advisor (RA) for each floor community, an assistant residence coordinators (ARC) for each hall or unit, a public inquiries assistant (PIA), who is a full-time receptionist in each hall or complex, as well as staff members in the central RED administrative office. RED works collaboratively with Housing and Food Services and Physical Facilities to manage and maintain residence hall operations. RED staff advise student organizations in the halls, provide leadership development training, mediate conflicts, support university policies, and assist students and parents in identifying and using other university resources. RED provides activities to complement the in-class experience and enhance student learning, to foster students' adjustment to university life, to encourage a sense of community and connection to campus, and to promote students' growth and independence. For assistance, contact the front desk of any residence hall, or the central RED office in 422 Dabney Hall, 513-556-6476.

Calhoun Hall 556-8596	CRC Hall 558-3031/556-6484
Dabney Hall 556-6484	Daniels Hall 556-0676
Sawyer Hall 556-2022	Schneider Hall 556-3925
Siddall Hall 556-8281	Turner Hall 556-3925

Student Activities and Leadership Development Office

An important resource for UC students who want to be involved, the Student Activities and Leadership Development Office provides leadership and direction for the more than 300 student organizations, as well as a full range of activities and cultural programs for students. Located in the Steger Student Life Center on the 400 and 600 levels, the office provides programs with an educational component, specifically leadership development and citizenship. For more information, call 513-556-6115.

Student Health Insurance

The University of Cincinnati offers an excellent, low-cost, health insurance plan to all eligible students and their eligible dependents. The coverage insures UC students and their insured dependents at home, at school, and while traveling, 24 hours a day, anywhere in the world.

UC policy requires all students who register for six or more credit hours (including co-op students) have health insurance. International students holding *F* and *J* visas are required to have health insurance if they are registered for one or more credit hours.

These students are billed automatically for single student coverage. Students with private insurance wishing to be excluded from UC's student health insurance plan must complete an online insurance waiver form no later than the third Friday of the term or semester. The insurance must be equal to or greater than that offered by the university and must have a U.S.-based claims administrator and a U.S.-based underwriter. Students may also waive coverage through the One Stop Student Services Web site.

Graduate students enrolled in less than six credit hours may purchase coverage and should contact the Student Health Insurance Office for more information regarding the necessary forms and requirements, and due dates.

All insurance transactions, enrollments and waivers, must be received by the Student Health Insurance Office by the close of business on the third Friday of the term or semester. For information regarding benefits, enrollment or waivers, please see the student health insurance newsletter, available at the Onestop Student Services Center, college offices, or call the Student Health Insurance Office at 513-556-6868, Room 112, Varsity Village.

University Health Services

University Health Services clinics, located on the 300 level of Varsity Village and the first floor of the Holmes Building, provide primary care and gynecology and mental health services to all University of Cincinnati students. The clinics are staffed by physicians with specialty boards in internal medicine, family medicine, preventive medicine and occupational medicine; a nurse practitioner; registered nurses; nursing assistants; laboratory and radiology technologists; and pharmacists. Students are seen by appointment for primary care and gynecological services. Students are referred to specialty clinics at UHS or the Health Alliance for dermatology, mental health and other specialty appointments. The UHS pharmacy in Varsity Village on the 300 level offers reduced prices on the pharmaceuticals in its formulary.

Students with UC Student Health Insurance are not charged for their UHS primary care clinic visits: they are charged for vaccines, vaccine titers, orthotics, prescriptions and mental health care. Students with other health insurance may be seen at UHS, but they will be charged for their care.

UC Wellness Center

The UC Wellness Center provides resources and opportunities, disseminates information and educates the university community about health and wellness in order to create an environment that promotes, encourages and supports health decisions, behaviors and lifestyles. The Wellness Center provides workshops, programs and individual sessions free to the entire UC community on a variety of health and wellness issues. The center is located at 675 Steger Student Life Center, and can be reached at 513-556-6124.

UC Women's Center

The UC Women's Center (UCWC), located in 571 Steger Student Life Center (513-556-4401), is dedicated to meeting the diverse needs and interests of women and lesbian/gay, bisexual, transgender and questioning (LGBTQ) students at the University of Cincinnati. The center offers a wide range of programs and opportunities, including:

- Safe Zone – faculty, staff and student leader training on LGBTQ issues
- Women's History Month (March)
- Sexual Awareness Month (April)
- Body Acceptance Week (April)
- Visibility Week (April)
- The C-Ring Award – the highest distinction award for a graduating senior woman
- Student Choice, Woman of the Year Award – awarded to an outstanding female faculty or staff member exemplifying qualities of leadership

The center also offers a peer education and peer advocate program and a library of more than 600 books, videos and publications.

In addition, the UC Women's Center supports a sexual assault response program with trained professionals available to provide 24-hour on-call support, advocacy and referral to survivors of acquaintance and stranger assault, stalking and harassment. The 24-hour crisis line (513-218-9531) provides emergency support and referral to *any* UC student, faculty, staff member or visitor.

JUST COMMUNITY

The University of Cincinnati is a public comprehensive system of learning and research that serves a diverse student body with a broad range of interests and goals. The faculty of the university produces world-renowned scholarship and nurtures innovation in and out of the classroom. Faculty, staff and administration also support an educational setting of excellence, opportunity and service. In embracing our roles within this learning community, we subscribe to the defining purposes, traditions and diversity of the University of Cincinnati. Through our actions, we will strive to make the University of Cincinnati a more caring and just community.

As members of this community we will:

- **Pursue learning and scholarship** by building on successes, learning from mistakes, and pursuing quality in teaching, research and creative endeavors
- **Strive for excellence** by aspiring to achieve our fullest potential in our educational and personal pursuits
- **Celebrate the uniqueness of each individual** by respecting individual differences and promoting common interests
- **Practice civility** by extending to those we meet the same respect, cooperation and caring that we expect from others
- **Embrace freedom and openness** by working to create an environment that is safe and affirming, one that nurtures independent thinking and the free and open expression of ideas
- **Seek integrity** by aspiring to the highest moral and ethical standards
- **Promote justice** by working to build a learning environment that offers everyone an equal opportunity to grow, flourish and contribute
- **Accept responsibility** by striving to build a learning community committed to these common values and principles

UC INTERNATIONAL SERVICES

UC International Services Office is responsible for all international students, faculty and visiting scholars and researchers at the University of Cincinnati. The office is in charge of issuing the Certificate of Eligibility (1-20A-B for F-1 status, or DS 2019 for J-1 status) only to applicants who have submitted all the necessary documents and have been admitted to the university. These services meet the requirements of the Department of Homeland Security, the Department of State and the governments of the countries whose students and faculty come to the University of Cincinnati for study, training and research. The university is authorized under federal law to enroll non-immigrant alien students and scholars as well as visiting faculty through the services of this office.

The staff of UC International Services is available to assist all internationals with their general welfare and guide them in their relations within the university community so that they can pursue their academic goals most successfully. The office provides advising on financial needs, cultural adjustment and personal concerns, as well as information regarding immigration and visa regulations. All international students are required to purchase the University of Cincinnati student health insurance plan unless they have insurance equal to, or greater than, the UC plan. The insurance must be provided by an American insurance carrier. For more information regarding the insurance requirement, see the Student Health Services section of this *Bulletin*. For more information about the university, address correspondence to UC International Services, University of Cincinnati, PO Box 210640, Cincinnati OH 45221-0640, or call 513-556-4278, fax 513-556-2990 or Web site: www.uc.edu/international/services.

RESERVE OFFICERS TRAINING CORPS

Air Force

The Air Force ROTC program prepares you for life after college and duty as an Air Force officer. AFROTC teaches students the basics of leadership as well as teamwork and offers them many outstanding opportunities for personal growth and development. In short, it helps prepare students for life in the "real world." Students with at least two years of college remaining may enroll in the ROTC program. To initially enroll, register for one of the Aerospace Studies courses and the Leadership Laboratory. Course information can be found online on the One Stop Web site (www.onestop.uc.edu/learningopp/qtr.asp) in the McMicken College of Arts and Sciences section, under the disciplinary heading "Aerospace Studies" and "Air Force ROTC."

The introductory classes of the General Military Course (GMC) are offered during the first two years of college. Freshmen and sophomores are not obligated to the military in any way unless they are on scholarship.

Scholarships for undergraduate and limited graduate studies are available on a competitive basis. They range from as low as \$3,000 annually to full tuition, books and associated fees.

Students make the decision to pursue the Professional Officer Course (POC) during their second year. If they choose to continue in the POC they attend summer field training encampment after their second year. Students who complete all the GMC courses have a four-week training encampment; those who start their ROTC program with POC, or who do not complete all the GMC courses, attend a slightly longer session.

All cadets on scholarship, and all in the POC, receive a monthly stipend ranging from \$300–\$500 depending upon year in school. There are no additional costs associated with ROTC classes. Textbooks and uniforms are provided.

In the POC, students concentrate on leadership, management and the United States' defense policy. In addition, they have various positions of responsibility within the corps, enabling them to test and practice the leadership skills they have learned.

Upon graduation, cadets go on active duty as second lieutenants. They will serve four years, gaining invaluable experience along the way. Those in flying careers will have a longer commitment.

There are numerous opportunities available to all types of students in Air Force ROTC, including five-year co-op students. To learn more, call 513-556-2237.

Army

Army ROTC provides great opportunities for leadership education, and military and adventure training, along with numerous possibilities for scholarships and financial incentives. High school seniors through graduate students are eligible to participate in the Army ROTC program and receive scholarships and financial benefits. The scholarships and financial incentives are worth in excess of \$100,000 at the University of Cincinnati. Each scholarship covers tuition, fees, books and stipends ranging from \$300 to \$500 monthly. Additionally, scholarship winners also receive free room and board their freshman year. Special scholarships are available for nurses, Army Reserve and National Guard soldiers, current active duty soldiers, and any individual with a solid background in academics and physical fitness.

Any student in any major is welcome to participate in the Army ROTC program without any military obligation. Those that decide to officially join ROTC can choose to fulfill their military obligation either full time in the active Army or part time in the Reserve components. The Reserve components in conjunction with Army ROTC offer a dual membership program that allows cadets to gain valuable military experience along with substantial financial incentives worth up to approximately \$3,000 monthly.

Enrollment in Army ROTC is no different than enrollment in any UC class. All Army ROTC courses are listed online under the disciplinary heading "Army ROTC" in the McMicken College of Arts and Sciences section (www.onestop.uc.edu/learningopp/qtr.asp). Additional paid educational and training opportunities are available in the summer through the Army ROTC program. Students who are military veterans or members of the Reserve components automatically qualify for advanced standing in the ROTC program.

Changes in Army policies and training philosophy have resulted in a dynamic Army ROTC program that provides young leaders with the skills to serve in the Army or private industry in the 21st century. Students are encouraged to try out the program and gain valuable life skills. Army ROTC can be contacted at 513-556-3664 or on the Web at www.uc.edu/armyrotc.

Note: The ROTC programs at the University of Cincinnati may not fully comply with university nondiscrimination policies due to the selective process of military service. However, the ROTC programs are in compliance with national nondiscrimination policies and the guidance and policies of the respective military services and Department of Defense.

VA EDUCATIONAL BENEFITS

Veterans, Reserve/Guard Members and Dependents of Veterans

The University of Cincinnati is approved for the education and training of veterans, reservists/guard members and dependents of veterans under several assistance laws. The VA will pay a monthly stipend to eligible applicants based on the number of applicable credit hours of enrollment in an approved program. Since these monthly checks are paid to the student after the month has ended, students need to make their own arrangements to cover tuition, books and fees. Disabled veterans authorized by VA for Vocational Rehabilitation (Chapter #31) benefits are the only ones the DVA (Department of Veteran Affairs) will fully cover for educational charges. Receipt of VA Educational Benefits does not necessarily exclude students from receipt of other forms of financial aid, so students are encouraged to apply for those monies.

In order for eligible students to be certified for VA "Chapter" Educational Benefits at UC they must apply for official admission to a UC college and matriculate in an approved degree major within that college. They can only receive these VA benefits for classes that are required for their current official degree program. Students certified for these benefits are responsible for promptly notifying the appropriate university offices of all changes in their status, in compliance with DVA regulations and university policy. They are required to make satisfactory progress, as defined by DVA and their college, toward their degrees in order to continue receiving VA educational benefits. Applicants for VA "Chapter" benefits will have pertinent regulations and policies explained to them at an information session, as part of the initial process, before being certified for VA "Chapter" educational benefits at UC.

For more information concerning eligibility, contact the DVA 1-888-442-4551 with your social security number (or, in the case of dependents, the veteran's social security number). Students eligible for VA "Chapter" educational benefits who have applied to UC for admission should contact the UC Veterans Certification Office 513-556-6811 as early as two to three months before classes begin in order to start the benefit process. Students who have applied online with the VA will also need to complete a university application for benefits.

Dependents of a Deceased Veteran

Dependents of a veteran with a service-connected death prior to 8/13/81 may be eligible for additional VA benefits under the Restored Entitlement Program for Survivors (REPS). The surviving spouse must not be remarried and may apply when their youngest child reaches age 16 and ends when the child reaches age 18. A dependent child may be eligible between the ages 18 and 22 if attending a postsecondary school full time. Obtain an application and more information on the VA Web site: www.gibill.va.gov (form #21-8924), or by phoning the VA at 314-552-9803.

War Orphans

Dependents of disabled veterans may be eligible for a scholarship from the Ohio Board of Regents, located in Columbus, Ohio. For more information and an application, call 888-833-1133.

Standards of Progress for VA Pay Purposes

If a student accumulates more than 15 credit hours of *F*, *Y*, *I*, *X* and *UW* grades (including *IP*, *SP* and *UP* grades at the undergraduate level) on their UC transcript, VA benefits will be interrupted due to "unsatisfactory progress" status. Any student suspended or dismissed from the University of Cincinnati for unsatisfactory conduct or academic reasons will have their VA educational benefits interrupted. If the "unsatisfactory progress"

status or suspension/dismissal occurred at UC prior to receipt of VA benefits or, if the student was reported in "unsatisfactory progress" status to VA by their previous school, additional items are required before the application for VA benefits at UC may be processed.

NONDISCRIMINATION POLICY

The University of Cincinnati actively supports University Rule 3361:10-13. Discrimination on the basis of race, color, religion, national origin, sex, age, sexual orientation, disability, status as a disabled veteran or veteran of the Vietnam era shall not be practiced in any of its programs or activities. Furthermore, where past or present discrimination continues to have an adverse impact upon protected class members such as minority groups, women, disabled, Vietnam-era veterans or disabled veterans, the university will take affirmative action in carrying out its policy of nondiscrimination and equal opportunity for all. Questions concerning this policy should be addressed to the Director, Office of Equal Opportunity, Suite 250, University Hall, University of Cincinnati, PO Box 210214, Cincinnati, OH 45221-0214, 513-556-5503.
