COLLEGE OF ALLIED HEALTH SCIENCES

COURSE DESCRIPTIONS

(35) College of Allied Health Sciences

2008 - 2009

College of Allied Health Sciences 1

Advanced Medical Imaging Technology

35AMIT301

Pathophysiology for Diagnostic Medical Imaging

The goal of this course is to familiarize students with normal human physiology, and to learn how alterations in function lead to disease. Emphasis will be placed upon pathologies altering diagnostic medical images. BoK: NA. Credit Level: U. Credit Hrs: 4.00

35AMIT401

Human Sectional Anatomy

A regional survey of human anatomy in all sectional planes. It is primarily intended for Advanced Medical Imaging Technology students but may be taken by other College students to satisfy requirements or electives. BoK: NS., QR. Credit Level: U. Credit Hrs: 4.00

35AMIT402

Sonography Seminar I

The first in a seminar series on professional development, clinical correlation, student presentations, current issues, and other miscellaneous topics in sonography. Case study presentations will be an integral part of this course. Guest speakers may be utilized on an occasional basis to enhance the presentation. BoK: NA. Credit Level: U. Credit Hrs: 1.00

35AMIT403

Introduction to Diagnostic Medical Sonography

An introductory course to the health care field of sonography. History of ultrasound, medical terminology and professional organizations specific to the discipline, and introduction to the ultrasound system will be covered. BoK: NA. Credit Level: U. Credit Hrs: 2.00

35AMIT404

Sonography Seminar II

The second course in a seminar series on professional development, clinical correlation, student presentations, current issues and other miscellaneous topics in sonography. Case study presentations will be an integral part of this course. Guest speakers may be utilized on an occasional basis to enhance the presentations. BoK: NA. Credit Level: U. Credit Hrs: 1.00

35AMIT405

Sonography Seminar III

The third course in a seminar series on professional development, clinical correlation, student presentations, current issues, and other miscellaneous topics in sonography. Case study presentations will be an integral part of this course. Guest speakers may be utilized on an occasional basis to enhance the presentations. BoK: NA. Credit Level: U. Credit Hrs: 1.00

35AMIT411

Gynecological Sonography

The study and the uses of transabdominal and transvaginal medical sonography and its application in the diagnosis of diseases of the female pelvis. The sonographic appearance of the female reproductive organs, surrounding anatomy, and gynecological pathology will be covered. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35AMIT412

Obstetrical Sonography I

An extensive study of the anatomy, physiology, pathology, and sonographic appearance of the developing fetus. Clinical presentation and maternal complications associated with pregnancy are also covered. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35AMIT413

Obstetrical Sonography II

An extensive study of the anatomy, physiology, pathology, and sonographic appearance of the developing fetus. Clinical presentation and maternal complications associated with pregnancy are also covered. This course will also thoroughly discuss malformations and

Advanced Medical Imaging Technology

35AMIT413

Obstetrical Sonography II

congenital anomalies. BoK: NA. Credit Level: U. Credit Hrs: 2.00

35AMIT421

Abdominal Sonography I

The study and uses of diagnostic medical sonography and its application in the diagnosis of diseases of the abdomen. General principles of medical sonography scanning procedures and ultrasonic characteristics of the various abdominal organs and pathology will be covered. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35AMIT422

Abdominal Sonography II

This course is a continuation of Abdominal Sonography I and continues the study and uses of diagnostic medical sonography and its application in the diagnosis of diseases of the abdomen. General principles of medical sonography scanning procedures and ultrasound characteristics of the various abdominal organs and pathology will be covered. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35AMIT423

Abdominal Sonography III

The study and uses of diagnostic medical sonography and its application in the diagnosis of diseases of the abdomen and small parts. General principles of medical sonography scanning procedures and ultrasonic characteristics of the various abdominal organs, small parts (breast, thyroid, scrotum, etc.), and pathology will be covered. BoK: NA. Credit Level: U. Credit Hrs: 2.00

35AMIT431

Sonographic Physics and Instrumentation I

The first course in sonographic principles covering basic principles of medical sonography. The basics of the ultrasound system instruments and controls, basic mathematical concepts, Doppler, and the basics of sound waves will be discussed. BoK: NA. Credit Level: U. Credit Hrs: 1.00

35AMIT432

Sonography Physics and Instrumentation II

The second course in sonographic principles covering basic principles of medical sonography. Acoustic variables, the interaction of sound with tissue, transducers, and instrumentation of machine controls will be discussed. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35AMIT433

Sonographic Physics and Instrumentation III

The final course in sonographic principles covering basic principles of medical sonography. Pulsed echo instrumentation, displays and storage of images, Doppler, hemodynamics, artifacts, and quality assurance of ultrasound will be discussed. BoK: NA. Credit Level: U. Credit Hrs: 2.00

35AMIT441

Magnetic Resonance Imaging Directed Practice I

This is the first in a sequence of four classes that will stress practical laboratory experience, seminars, and case studies in magnetic resonance imaging technology. Students are provided the specialized instruction and experience to accomplish procedures normally performed in magnetic resonance imaging facilities. Students are expected to demonstrate the skill, knowledge, and experience to proficiently perform routine magnetic resonance imaging procedures. BoK: NS. Credit Level: U. Credit Hrs: 2.00

35AMIT442

MAGNETIC RESONANCE IMAGING DIRECTED PRACTICE II

This is the second in a sequence of four courses that will stress practical laboratory experience, seminars, and case studies in magnetic resonance imaging. Students are provided the specialized instruction

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Advanced Medical Imaging Technology**35AMIT442****MAGNETIC RESONANCE IMAGING DIRECTED PRACTICE II**

and experience to accomplish procedures normally performed in MRI facilities. BoK: NS. Credit Level: U. Credit Hrs: 5.00

35AMIT443**Magnetic Resonance Directed Practice III**

This is the third in a sequence of four courses that will stress practical laboratory experience, seminars, and case studies in magnetic resonance imaging. Students are provided the specialized instruction and experience to accomplish procedures normally performed in MRI facilities. Prereq: 35AMIT442. BoK: NS, SE. Credit Level: U. Credit Hrs: 6.00

35AMIT444**Magnetic Resonance Technical Evaluation**

Clinical training associated with learning the practice of magnetic resonance imaging. BoK: NS., SE. Credit Level: U. Credit Hrs: 6.00

35AMIT446**Sonographic Directed Practice I**

The study and the uses of transabdominal and transvaginal medical sonography and its application in the diagnosis of diseases of the female pelvis. The sonographic appearance of the female reproductive organs, surrounding anatomy, and gynecological pathology will be covered. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35AMIT447**Sonography Directed Practice II**

The study and the uses of transabdominal and transvaginal medical sonography and its application in the diagnosis of diseases of the female pelvis. The sonographic appearance of the female reproductive organs, surrounding anatomy, and gynecological pathology will be covered. BoK: NA. Credit Level: U. Credit Hrs: 5.00

35AMIT448**Sonographic Directed Practice III**

This is the third in a sequence of four classes that will stress practical laboratory experience, seminars, and case studies in sonography. Students are provided the specialized instruction and experience to accomplish procedures normally performed in sonography facilities. Prereq: 35AMIT442. BoK: NS, SE. Credit Level: U. Credit Hrs: 6.00

35AMIT449**Sonographic Directed Practice IV**

This is a final in a series of clinical experiences for sonography students. Students will apply learned techniques in the clinical setting under close supervision of clinical instructors at the designated clinical sites. BoK: NA. Credit Level: U. Credit Hrs: 6.00

35AMIT451**Medical Imaging Physics & Instrumentation**

Explores the physics & instrumentation that underpins magnetic resonance scanning. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

35AMIT452**Magnetic Resonance Physics & Instrumentation II**

Discussion on MRI scanning principles, manipulation of MRI instrumentation, causes of image contrast and noise, principles of RF pulses, rapid scan techniques, fat and water signal separation methods, safety issues, and spectroscopy techniques. Prereq: 35AMIT451. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

35AMIT453**Magnetic Resonance Imaging Physics & Instrumentation III**

Physics that underpin the operation of the Magnetic Resonance Imaging scanner. Prereq: 35NMT452. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

35AMIT457**Sonography Physics and Instrumentation II**

This course deals with the fundamental principles of sonographic physics. Topics such as the nature of waves, wave properties, interactions of ultrasound with tissue, Ultrasonic beam parameters and

Advanced Medical Imaging Technology**35AMIT457****Sonography Physics and Instrumentation II**

basic Doppler principles are covered. Prereq: 35AMIT431. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

35AMIT458**Sonography Physics and Instrumentation III**

This course deals with the fundamental principles of sonographic physics. Topics such as the nature of waves, wave properties, interactions of ultrasound with tissue, ultrasonic beam parameters and basic Doppler principles are covered. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

35AMIT461**Basic Elements of Magnetic Resonance Imaging Technology**

An introductory course that presents basic concepts of the health care system and an introduction to magnetic resonance imaging procedures, applied magnetic resonance safety, anatomy, and magnetic resonance imaging systems. Course involves didactic and laboratory experiences. BoK: NS., QR. Credit Level: U. Credit Hrs: 6.00

35AMIT462**Medical Imaging Anatomy, Physiology, & Pathology I**

Human anatomy & pathology as it appears on MRI images. BoK: NS., SE. Credit Level: U. Credit Hrs: 3.00

35AMIT463**Magnetic Resonance Anatomy, Physiology & Pathology II**

Anatomy, Physiology and Pathology as it relates to MRI identification. Prereq: 35AMIT462. BoK: NS, SE. Credit Level: U. Credit Hrs: 4.00

35AMIT464**Magnetic Resonance Anatomy Physiology & Pathology III**

Anatomy, physiology & pathology in MRI. Joints & extremities of the human body with associated pathological conditions. Prereq: 35NMT463. BoK: NS, SE. Credit Level: U. Credit Hrs: 4.00

35AMIT466**Basic Elements of Sonography**

An introductory course that presents basic concept of the healthcare system and an introduction to sonography procedures, anatomy and physiology relevant to sonography and sonography safety concerns. BoK: NA. Credit Level: U. Credit Hrs: 6.00

35AMIT468**Sonography Anatomy, Physiology, and Pathology II**

This course will familiarize the student with anatomical and physiological irregularities and common pathologies found in sonography imaging. The course sequence will be inclusive of all commonly imaged body systems and areas. Case studies and images of the pathologies will use. Prereq: 35AMIT402. BoK: NS, SE. Credit Level: U. Credit Hrs: 4.00

35AMIT469**Sonography Anatomy Physiology & Pathology III**

This course will familiarize the student with anatomical and physiological irregularities and common pathologies found in sonography imaging. The course sequence will be inclusive of all commonly imaged body systems and areas. Case studies and images of the pathologies will be used to reinforce the lectures. BoK: NS., SE. Credit Level: U. Credit Hrs: 4.00

35AMIT471**Nuclear Medicine Technology Directed Practice I**

This is the first sequence of four classes that will stress practical laboratory experience, seminars, and case studies in nuclear medicine technology. Students are provided the specialized instruction and experience to accomplish procedures normally performed in nuclear medicine imaging facilities. Students are expected to demonstrate the skill, knowledge, and experience to proficiently perform routine nuclear medicine procedures. BoK: NS. Credit Level: U. Credit Hrs: 2.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Advanced Medical Imaging Technology**35AMIT472****Nuclear Medicine Technology Directed Practice II**

This is the second in a sequence of four classes that will stress practical laboratory experience, seminars, and case studies in nuclear medicine technology. (The first class of four has already been approved for delivery during autumn quarter. Students are provided the specialized instruction and experience to accomplish procedures normally performed in nuclear medicine imaging facilities. Students are expected to demonstrate the skill, knowledge, and experience to proficiently perform routine nuclear medicine procedures BoK: NS. Credit Level: U. Credit Hrs: 5.00

35AMIT473**Nuclear Medicine Technology Directed Practice III**

This is the third in a sequence of four classes that will stress practical laboratory experience, seminars, and case studies in nuclear medicine technology. Students are provided the specialized instruction and experience to accomplish procedures normally performed in nuclear medicine imaging facilities. Students are expected to demonstrate the skill, knowledge, and experience to proficiently perform routine nuclear medicine procedures Prereq: 35AMIT472. BoK: NS, SE. Credit Level: U. Credit Hrs: 6.00

35AMIT474**Technical Evaluation of Nuclear Medicine Procedures**

This course stresses practical laboratory experience and case study presentation in nuclear medicine technology. Students are provided the specialized instruction and experience to accomplish procedures normally performed in nuclear medicine imaging facilities. Students are expected to demonstrate the skill, knowledge, and experience to proficiently perform routine nuclear medicine procedures and to present the results of their performance to supervising technologists, residents, and staff physicians. Prereq: 35NMT471, 35NMT472, 35NMT473. BoK: NS, SE. Credit Level: U. Credit Hrs: 6.00

35AMIT481**Nuclear Medicine Physics & Instrumentation**

This course will cover the fundamental principles of physics, mathematics, and instrumentation as applied to nuclear medicine. Topics include principles of radiation detection, radiation measuring instruments, atomic and nuclear structure, radioactive decay, interaction of radiation with matter, and the detection and registering of radiation events. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

35AMIT482**Nuclear Medicine Physics & Instrumentation II**

This course will cover the fundamental principles of physics, mathematics, and instrumentation as applied to nuclear medicine. Topics include principles of radiation detection, radiation measuring instruments, atomic and nuclear structure, radioactive decay, interaction of radiation with matter, and the detection and registering of radiation events. Prereq: 35AMIT481. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

35AMIT483**Nuclear Medicine Physics and Instrumentation**

This course will cover the fundamental principles of physics, mathematics, and instrumentation as applied to nuclear medicine. Topics include principles of radiation detection, radiation measuring instruments, atomic and nuclear structure, radioactive decay, interaction of radiation with matter, and the detection and registering of radiation events. Prereq: 35NMT482. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

35AMIT490**Sonography Technical Assessment and Review**

Students will demonstrate technical proficiency in performing abdomen, small parts, obstetrical, and gynecological procedures. Students will complete and pass comprehensive examinations in these areas as well as in Sonographic physics and instrumentation. Strategies for passing nationally administered board examinations will be discussed. BoK: NA. Credit Level: U. Credit Hrs: 5.00

Advanced Medical Imaging Technology**35AMIT491****Basic Elements of Nuclear Medicine Technology**

An introductory course that presents basic concepts of the health care system and an introduction to radiopharmacy, applied radiation safety, physiology, nuclear medicine imaging systems, and nuclear medicine procedures. Course involves didactic and laboratory experiences. BoK: NS., QR. Credit Level: U. Credit Hrs: 6.00

35AMIT492**Nuclear Medicine Anatomy, Physiology & Pathology**

Didactic and laboratory instruction on the structure, function, and pathologies of the human body as they apply to the field of nuclear medicine. Ethics, patient care and management, response to emergency procedures, and imaging principles and procedures are included. BoK: NS., SE. Credit Level: U. Credit Hrs: 3.00

35AMIT493**Nuclear Medicine Anatomy, Physiology, & Pathology**

Didactic instruction on the structure, function, and pathologies of the human body as they apply to the field of nuclear medicine. Patient care and management with respect to nuclear medicine procedures, response to emergency procedures, and imaging principles and procedures are included. BoK: NS., SE. Credit Level: U. Credit Hrs: 4.00

35AMIT494**Nuclear Medicine Anatomy, Physiology & Pathology III**

Didactic instruction on the structure, function, and pathologies of the human body as they apply to the field of nuclear medicine. Patient care and management with respect to nuclear medicine procedures, response to emergency procedures, and imaging principles and procedures are included. BoK: NS., SE. Credit Level: U. Credit Hrs: 4.00

35AMIT495**Medical Imaging Research Methodologies I**

Introduction to research methodologies, specifically qualitative, in the field of medical imaging. BoK: QR., SE. Credit Level: U. Credit Hrs: 3.00

35AMIT496**Quantitative Analysis in Medical Imaging**

This course provides students with the basic competencies in the understanding, design, analysis, interpretation, and evaluation of quantitative research used in the medical imaging sciences. BoK: QR., SE. Credit Level: U. Credit Hrs: 3.00

35AMIT497**Medical Imaging Capstone**

A course in which students interact as both participants and presenters in a series of seminars in a state-of-the-art medical imaging, radiation biology and radiation safety and health care ethics. Students also engage in a brief research assignment. Prereq: 35AMIT495, 35AMIT496. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35AMIT498**Advanced Medical Imaging Technology Review**

This course provides students with a comprehensive review of the basic competencies in advanced medical imaging modalities. It is the intent of this course to prepare students for national certification in multiple medical imaging modalities. BoK: NA. Credit Level: U. Credit Hrs: 2.00

35AMIT499**Radiopharmacy & Radiochemistry Laboratory**

Through direct, hands-on experience supervised by faculty, the student will perform quality control of radioactive materials and radiation measuring and monitoring devices, prepare, transport, administer and control the disposition of radioactive materials used in nuclear medicine practice, correctly document procedures for state and radiation. BoK: NS., QR. Credit Level: U. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Advanced Medical Imaging Technology**35AMIT501****Advanced Medical Imaging Practicum**

This course is designed to incorporate service learning with the required AMIT curriculum. In this course, students will travel to a poverty ridden area and perform studies for patients who otherwise have no access to health care. BoK: NS., DC. Credit Level: U. Credit Hrs: 2.00

35AMIT588**Radiobiology and Radiation Protection**

Safe handling of radioactive materials, units of radiation, exposure and dose, dose calculations, radiation protection guides, radiation protection instrumentation BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

Blood Transfusion Medicine**35BTM801****Foundations for Blood Transfusion Medicine I**

Instruction on pretransfusion testing, serological methods, immunohematology, cellular therapies, transplantation immunology, blood groups, donor selection, infectious disease testing, blood component blood administration, apheresis, hazards of transfusion, clinical indications for blood trans. Credit Level: G. Credit Hrs: 3.00

35BTM802**Foundations for Blood Transfusion Medicine II**

Instruction on pretransfusion testing, serological methods, immunohematology, cellular therapies, transplantations immunology, blood groups, blood collection, infectious disease testing, blood component manufacturing and storage, blood administrations apheresis, hazards and clinical indications of transfusion Credit Level: G. Credit Hrs: 3.00

35BTM803**Foundations for Blood Transfusion Medicine III**

Instruction on pretransfusion testing, serological methods, immunohematology, cellular therapies, transplantations immunology, blood groups, donor selection, infectious disease testing, blood component storage, administrations, apheresis, hazards of transfusions, clinical indications for blood trans Credit Level: G. Credit Hrs: 3.00

35BTM804**Transfusion Medicine Seminar I**

Literature review, written paper and oral presentation of blood transfusion medicine topic. Credit Level: G. Credit Hrs: 2.00

35BTM805**Transfusion Medicine Seminar II**

literature review, written paper and oral presentation of blood transfusion medicine topic. Credit Level: G. Credit Hrs: 2.00

35BTM806**Transfusion Medicine Seminar III**

Literature review, written paper and oral presentation of blood transfusion medicine topic. Credit Level: G. Credit Hrs: 2.00

35BTM811**Laboratory/Clinical Practicum I**

Practical training in the laboratories, donor collection services, blood manufacturing, product management, supervision, administration, education and quality assurance. Credit Level: G. Credit Hrs: 4.00

35BTM812**Laboratory/Clinical Practicum II**

Practical training in the laboratories, donor collection services, blood manufacturing, product management, supervision, administration, education and quality assurance. Credit Level: G. Credit Hrs: 4.00

35BTM813**Laboratory/Clinical Practicum III**

Practical training in the laboratories, donor collection services, blood manufacturing, product management, supervision, administration, education and quality assurance. Credit Level: G. Credit Hrs: 4.00

Blood Transfusion Medicine**35BTM814****Laboratory/Clinical Practicum IV**

Practical training in the laboratories, donor collection services, blood manufacturing, product management, supervision, administration, education and quality assurance. Credit Level: G. Credit Hrs: 4.00

35BTM821**Masters Thesis Research I**

Preparation of written research proposal to include a literature review, research plan, materials and methods, data analysis, budget and bibliography. Investigative research in laboratory or clinical setting. Credit Level: G. Credit Hrs: 6.00-12.00

35BTM822**Masters Thesis Research II**

Investigative research in a laboratory or clinical setting. Credit Level: G. Credit Hrs: 6.00-12.00

35BTM823**Masters Thesis Research III**

Investigative research in a laboratory or clinical setting. Preparation of written thesis. Perm of Instructor. Credit Level: G. Credit Hrs: 6.00-12.00

35BTM831**Research Project**

Introduction to research to include literature review, research plan, laboratory investigation data collection and statistical analysis. Credit Level: G. Credit Hrs: 3.00

35BTM841**Teaching Practicum in Transfusion Medicine**

Curriculum development, preparation of laboratory specimens, preparation and presentation of didactic lectures, and test construction. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

35BTM851**Scientific Writing and Presentation**

Research findings summarized and submitted for regional or national presentation. Submission of research findings to peer review journal. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

35BTM901**Human Blood Groups**

Introduction to donor selection and blood collection; blood component manufacturing and storage; pretransfusion testing and blood administration; apheresis and transplantation; hazards of blood transfusion and disease transmission. Problem cases and research. Credit Level: G. Credit Hrs: 6.00

35BTM902**Human Blood Groups**

See 35BTM901. Credit Level: G. Credit Hrs: 6.00

35BTM903**Human Blood Groups**

See 35BTM901. Credit Level: G. Credit Hrs: 6.00

35BTM904**Immunohematology**

Biochemistry, genetics, immunology and serology of blood group antigens and antibodies. Literature review, written paper, oral presentation. Credit Level: G. Credit Hrs: 6.00

35BTM905**Immunohematology**

See 35BTM904. Credit Level: G. Credit Hrs: 6.00

35BTM906**Immunohematology**

See 35BTM904. Credit Level: G. Credit Hrs: 6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Blood Transfusion Medicine**35BTM907****Seminar -- Blood Group Serology**

Introduction to research to include literature review, research plan, data collection techniques, and statistical analysis. Credit Level: G. Credit Hrs: 2.00

35BTM908**Seminar -- Blood Group Serology**

See 35BTM907. Credit Level: G. Credit Hrs: 2.00

35BTM909**Seminar -- Blood Group Serology**

See 35BTM907. Credit Level: G. Credit Hrs: 2.00

35BTM911**Laboratory I**

Practical training relating to courses 901,2,3 and 904,5,6. Credit Level: G. Credit Hrs: 3.00

35BTM912**Laboratory II**

See 35BTM911. Credit Level: G. Credit Hrs: 3.00

35BTM913**Laboratory III**

See 35BTM911. Credit Level: G. Credit Hrs: 3.00

35BTM921**Thesis Laboratory I**

Investigative research in partial fulfillment of requirements for the Master of Science degree. Credit Level: G. Credit Hrs: 6.00

35BTM922**Thesis Laboratory II**

See 35BTM921. Credit Level: G. Credit Hrs: 6.00

35BTM923**Thesis Laboratory III**

See 35BTM921. Credit Level: G. Credit Hrs: 6.00

35BTM961**Research I**

Preparation of written research proposal to include a literature review, research plan, materials and methods, data analysis, budget and bibliography. Credit Level: G. Credit Hrs: 3.00

35BTM962**Research II**

Preliminary presentation of investigative research findings. Credit Level: G. Credit Hrs: 3.00

35BTM963**Research III**

See 35BTM962. Credit Level: G. Credit Hrs: 3.00

35BTM972**Advances in Immunohematology**

Introduction to research to include literature review, research plan, data collection techniques, and statistical analysis. Credit Level: G. Credit Hrs: 2.00

35BTM973**Advances in Immunohematology**

Research findings summarized and submitted for regional or national presentation. Submission of research findings to peer review journal. Credit Level: G. Credit Hrs: 2.00

35BTM974**Advances in Immunohematology**

See 35BTM973. Credit Level: G. Credit Hrs: 2.00

Blood Transfusion Medicine**35BTM975****Advanced Techniques in Immunohematology**

Advanced laboratory and didactic instruction in serological methods and pretransfusion testing. Case studies. Credit Level: G. Credit Hrs: 2.00

35BTM976**Advanced Techniques in Immunohematology**

See 35BTM975. Credit Level: G. Credit Hrs: 2.00

35BTM981**Thesis Dissertation Research**

Final presentation and defense of thesis research. Credit Level: G. Credit Hrs: 3.00

Clinical Laboratory Science**35CLSC201****Survey of Clinical Lab**

An overview of routine clinical laboratory tests as they relate to human health and disease. Included are discussions describing the major areas of the laboratory, followed by demonstrations and hands-on experience in the student laboratory. Open to non-Medical Technology majors. BoK: NA. Credit Level: U. Credit Hrs: 1.00

35CLSC301**Introduction To Forensic Science**

This course is a survey in the medical laboratory aspects of forensic science. Each week a different discipline will be presented, with the focus on scientific techniques which constitute a crime solving tool. Experts will be used to impart understanding of the wide scope of Forensic Science. BoK: NS. Credit Level: U. Credit Hrs: 2.00

35CLSC305**Introduction to Biomedical Laboratory Science**

Introductory course in Biomedical Laboratory Science covering general topics related to the biomedical research laboratory. Emphasis will be placed upon the role of a research laboratory associate in a research setting. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35CLSC340**Principles of Clinical Laboratory Practice**

This course will provide the students with an introduction to the practice of clinical laboratory science. Topics include professionalism, professional ethics, laboratory organization and safety. Students will learn and perform fundamental laboratory techniques. Students will be introduced to the various departments of the clinical laboratory and will learn the use of basic laboratory equipment. BoK: NA. Credit Level: U. Credit Hrs: 10.00

35CLSC350**Special Topics in CLS**

An objective look at the field of Clinical Laboratory Medicine from its inception, and leading up to current and future technologies with an emphasis on specialized and advanced technologies and the issues surrounding those. Topics will include microscopy, staining technologies, forensic medicine, gene therapy, and cytogenetics. BoK: HP., NS. Credit Level: U. Credit Hrs: 3.00

35CLSC351**Laboratory Operations: Management, QA/QC, and Continuing Education**

A study of the basic principles of clinical laboratory management, including theory and practice. Topics will include personnel and financial management, regulation and accreditation, information management, quality assurance and quality control, and continuing education. BoK: QR., DC. Credit Level: U. Credit Hrs: 4.00

35CLSC352**Introductory Medical Biochemistry**

The basic principles of the structure and function of organic compounds in the human system including amino acids, enzymes, lipids, carbohydrates, and nucleic acids. BoK: NS., QR. Credit Level: U. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Clinical Laboratory Science**35CLSC353****Clinical Chemistry and Body Fluids**

A study of serum and fluid chemistry in normal and pathological states. Topics will include the basic principles of the structure and function of organic compounds in the human system. Discussions emphasize the relationship between normal and abnormal laboratory results and organ system function. The study of body fluids is included, as well as a review of urinalysis and renal function. BoK: NS., QR. Credit Level: U. Credit Hrs: 10.00

35CLSC354**Statistics and Research in Clinical Laboratory Science**

The statistics units will focus on the statistical principles that are pertinent to health care, and to the clinical laboratory. The research and methods units will focus on current research topics in laboratory medicine, and the development and verification of laboratory protocols. BoK: NA. Credit Level: U. Credit Hrs: 4.00

35CLSC355**Ecology and Environmental Toxicology**

The basic principles of ecology including ecosystem structure and function, and conservation biology. The environmental toxicology units will focus on the nature and the detection of toxic substances in the environment and their effects on humans. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35CLSC356**Clinical Hematology and Hemostasis**

An advanced study of blood and blood cells in normal and pathological states. Discussions on normal and abnormal hematopoiesis are included. The hemostasis unit is a comprehensive study of the blood clotting system in normal and pathological states. Included are discussions regarding the correlation of the test results with disease states and therapies. BoK: NS., QR. Credit Level: U. Credit Hrs: 10.00

35CLSC357**Clinical Microbiology**

Advanced study of microorganisms associated with human infectious processes. Discussions include the characteristics, isolation, identification, antimicrobial techniques, and clinical infections associated with pathogenic bacteria. BoK: NS. Credit Level: U. Credit Hrs: 10.00

35CLSC358**Clinical Immunohematology**

A study of the theory, principles and procedures associated with transfusion medicine. Discussions cover routine and specialized procedures, blood donors, components, regulations, and quality assurance. BoK: NA. Credit Level: U. Credit Hrs: 10.00

35CLSC359**Human Genetics and Molecular Diagnostic Techniques**

Overview of nucleic acid structure, gene expression and genetic disease. Principle of DNA and RNA isolation, cloning, amplification, hybridization, sequencing and analysis. Applications in microbiology, hematology and oncology, thrombosis risk testing, genetics disease, anthropology and forensic medicine. BoK: NA. Credit Level: U. Credit Hrs: 5.00

35CLSC360**Clinical Mycology and Virology**

The study of clinically relevant fungi and viruses and the laboratory diagnosis of the organisms involved. BoK: NA. Credit Level: U. Credit Hrs: 5.00

35CLSC361**Advanced Clinical Practice I**

A clinical practicum experience that will focus on advanced, applied clinical laboratory techniques and concepts. The practicum experience will be individually designed for each student. The student will participate in choosing the the practicum site. BoK: NS., QR. Credit Level: U. Credit Hrs: 1.00-10.00

Clinical Laboratory Science**35CLSC362****Clinical Parasitology**

The study of clinically relevant parasites and the laboratory diagnosis of the organisms involved. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

35CLSC363**Advanced Clinical Applications**

The second of two clinical practicum courses. This course will focus on the project based study of advanced, applied clinical laboratory techniques and concepts BoK: NA. Credit Level: U. Credit Hrs: 3.00

35CLSC364**Clinical Laboratory Science Distance Learning Seminar**

This seminar course will focus on building critical thinking and problem solving skills during clinical case study discussions. The course will include a comprehensive review of the major clinical laboratory science disciplines. Students will take a comprehensive examination at the end of the course. BoK: NS., QR. Credit Level: U. Credit Hrs: 4.00

35CLSC365**Clinical Laboratory Science Distance Learning Capstone**

A course in which students participate in a series of seminars culminating in the development and presentation of a fundamental research project involving an aspect of state-of-the-art clinical laboratory science practice. Under the direction of faculty, students prepare a written report and publicly present their findings. BoK: QR., SE. Credit Level: U. Credit Hrs: 3.00

35CLSC366**Immunology**

This course is a focused study of clinical immunology concentrating on immune system functions, the response of the immune system to infection and disease, and current diagnostic methodologies and molecular applications. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35CLSC400**Introduction to Clinical Laboratory Science**

Introduction and orientation to the field of Clinical Laboratory Science. Includes discussions on professionalism, basic laboratory concepts and techniques, and phlebotomy. Microscopy and phlebotomy techniques are practiced in the student laboratory. BoK: NS., HP. Credit Level: U. Credit Hrs: 3.00

35CLSC401**Basic Lab Skills**

Introduction and orientation to the field of Medical Technology. Includes discussions on professionalism, basic laboratory concepts and techniques, and phlebotomy. Microscopy and phlebotomy techniques are practiced in the student laboratory. BoK: NS., SS. Credit Level: U. Credit Hrs: 4.00

35CLSC402**Clinical Hematology I**

The study of blood and blood cells in a normal state. Discussions on normal and abnormal hematopoiesis are included. Routine hematology procedures are performed in the student laboratory, with an emphasis on the microscopic evaluation of normal blood cell morphology and evaluation of complete blood count data. BoK: NA. Credit Level: U. Credit Hrs: 4.00

35CLSC403**Coagulation**

A comprehensive study of the blood clotting system in normal and pathological states. Included are discussions regarding the correlation of test results with disease states and therapies. Semi-automated and manual techniques are performed in student laboratory exercises. BoK: NA. Credit Level: U. Credit Hrs: 2.00

35CLSC404**Clinical Immunology**

A study of the structure and function of the immune system in health and disease as pertinent to the clinical laboratory. Includes discussions on autoimmune diseases, immuno-deficiency, and immunodiagnostic techniques. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Clinical Laboratory Science**35CLSC404****Clinical Immunology**

A study of the structure and function of the immune system in health and disease as pertinent to the clinical laboratory. Includes discussions on autoimmune diseases, immuno-deficiency, and immunodiagnostic techniques. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

35CLSC405**Immunohematology**

A study of the theory, principles, and procedures associated with transfusion medicine. Discussions and laboratory exercises cover routine and specialized procedures, blood donors, components, regulations, and quality assurance. BoK: NS., QR. Credit Level: U. Credit Hrs: 6.00

35CLSC406**Urinalysis and Body Fluids**

A study of urinalysis procedures, renal function, and body fluid examination. Manual and semi-automated laboratory procedures are performed in the student laboratory. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

35CLSC407**Computer Applications**

Overview of computer applications relevant to laboratory work. Discussions of Laboratory Information Systems are included. BoK: NA. Credit Level: U. Credit Hrs: 1.00

35CLSC408**Issues in Medical Technology**

Discussions of current and timely issues affecting the Medical Technology professional. BoK: NA. Credit Level: U. Credit Hrs: 2.00

35CLSC409**Clinical Virology**

Introduction to the study of clinical virology. Laboratory exercises and demonstrations illustrate culture and serologic techniques. BoK: NA. Credit Level: U. Credit Hrs: 2.00

35CLSC410**Clinical Chemistry**

A study of serum and fluid chemistry in the normal and pathological states. Discussions emphasize the relationship between normal and abnormal laboratory results and organ system function. Manual and automated procedures are performed in the student laboratory. BoK: NS., QR. Credit Level: U. Credit Hrs: 7.00

35CLSC411**Clinical Parasitology**

The study of human parasitic diseases and the organisms involved. Lectures and laboratory exercises emphasize the detection and identification of diagnostic forms. BoK: NA. Credit Level: U. Credit Hrs: 2.00

35CLSC412**Clinical Mycology**

The study of clinically relevant fungi, with emphasis on diagnostic forms. Isolation and culture techniques are practiced in the laboratory. BoK: NA. Credit Level: U. Credit Hrs: 2.00

35CLSC413**Survey of Management**

A study of the basic principles of management theory and practice. Current clinical issues including daily operation, regulations, and accreditation are discussed. Basic educational theory and concepts are discussed in the education component. BoK: QR. Credit Level: U. Credit Hrs: 3.00

35CLSC414**Clinical Microbiology**

A study of the microorganisms associated with human infectious processes. Discussion include the characteristics, isolation, identification, and antimicrobial techniques associated with pathogenic bacteria. Manual techniques used in diagnostic microbiology are

Clinical Laboratory Science**35CLSC414****Clinical Microbiology**

practiced in the student laboratory. BoK: NS., QR. Credit Level: U. Credit Hrs: 8.00

35CLSC416**Clinical Toxicology**

A study of the principles and techniques of toxicology relating to therapeutic drug monitoring, overdose, poisoning, and unknown substance analysis. BoK: NS. Credit Level: U. Credit Hrs: 3.00

35CLSC417**Senior Seminar**

A capstone experience including assessment of laboratory knowledge through guided & independent review and other activities related to certification. Additional research experience is provided through senior research projects that lead to poster presentations in the college PRaise Conference. BoK: NA. Credit Level: U. Credit Hrs: 1.00

35CLSC418**Clinical Laboratory Science Elective**

Opportunity for students to gain practical experience in a specialized clinical or research laboratory. Students participate in site selection for this experience. BoK: NA. Credit Level: U. Credit Hrs: 1.00

35CLSC422**Clinical Experience III**

Supervised clinical hospital laboratory experience in Chemistry, Urinalysis and Body Fluids. BoK: NS., QR. Credit Level: U. Credit Hrs: 4.00

35CLSC423**Clinical Experience IV**

Supervised clinical hospital laboratory experience in Immunohematology. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

35CLSC424**Diagnostic Molecular Techniques**

Introduction to molecular biology techniques and their application to laboratory diagnosis of disease. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

35CLSC425**Independent Study in Medical Technology**

A course designed to allow students to pursue an individualized learning project with approval of an advisor under the supervision of a faculty member. BoK: NS., QR. Credit Level: U. Credit Hrs: 1.00-8.00

35CLSC430**Clinical Practicum I**

This is the first of two courses that will stress practical laboratory experience, professional and performance and mastery of skills in Clinical Laboratory Sciences. Students are provided the specialized instruction and experience needed to accomplish procedures normally performed in a hospital laboratory. BoK: DC., SE. Credit Level: U. Credit Hrs: 6.00

35CLSC431**Clinical Practicum II**

This is the second in a series of two courses that will stress practical laboratory experience, professional performance and case studies in Clinical Laboratory Sciences. Students are provided specialized instruction and experience to accomplish procedures normally performed in a Hosp/Diag. Lab. BoK: NA. Credit Level: U. Credit Hrs: 8.00

35CLSC432**Clinical Hematology II**

The study of the blood and blood cells in an abnormal or malignant state. Discussions on Red Blood Cells and White Blood Cell Disorders are included. Specialized hematology procedures are performed in the student laboratory, with an emphasis on the microscopic evaluation of abnormal blood cell morphology, evaluation of complete blood count data along with cytochemical and molecular testing. BoK: NA. Credit

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Clinical Laboratory Science**35CLSC432****Clinical Hematology II**

Level: U. Credit Hrs: 4.00

35CLSC433**Senior Seminar**

This course is designed to give senior students an introduction to scientific research. The purpose of this course is to provide students time to conduct research projects and present them at the PRAISE conference. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 2.00

35CLSC434**Senior Seminar II**

The course will serve to bring together all concepts covered throughout the clinical year via case studies and structured review. Its purpose is to prepare graduating CLS students for the final comprehensive exam and the national certifying exam. BoK: NA. Credit Level: U. Credit Hrs: 2.00

35CLSC435**Clinical Microbiology I**

The study of microorganisms associated with human infections process. Discussions include the characteristics, isolation, identification and antimicrobials associated with pathogenic organisms. Techniques are practiced in the teaching laboratory BoK: NS., QR. Credit Level: U. Credit Hrs: 5.00

35CLSC436**Clinical Microbiology II**

This course covers advanced topics in microbiology including antibiotics and antimicrobial susceptibility testing, mycobacteriology, anaerobic bacteriology, virology, and clinical aspects of microbiology. The lecture and laboratory portions of the course train students to be well-prepared BoK: NA. Credit Level: U. Credit Hrs: 3.00

35CLSC440**Clinical Laboratory Science Capstone**

A course in which students participate in a series of seminars culminating in the development and presentation of a fundamental research project involving an aspect of state of the art clinical laboratory science practice. Under direction of faculty, students prepare a written report and publically present their findings. BoK: QR., SE. Credit Level: U. Credit Hrs: 3.00

35CLSC500**Independent Studies in Clinical Laboratory Sciences**

Independent study in area if focus based upon the student's interest or need. BoK: NA. Credit Level: U. Credit Hrs: 1.00-10.00

35CLSC501**Independent Studies in Clinical Laboratory Sciences**

Independent study in area if focus based upon the student's interest or need. BoK: NA. Credit Level: U. Credit Hrs: 1.00-10.00

35CLSC502**Independent Studies in Clinical Laboratory Sciences**

Independent study in area if focus based upon the student's interest or need. BoK: NA. Credit Level: U. Credit Hrs: 1.00-10.00

Communication Sciences and Disorders**35CSD171****Communication Disorders in the Media and Lit**

An exploration of various communication disorders and how they are portrayed by the media and in literature. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35CSD212**Survey of Communication Disorders**

A survey of the field of communication disorders: descriptions of speech, language and voice disorders. Prereq: 35CSD171 Prereq: 35CSD171. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

Communication Sciences and Disorders**35CSD309****Anatomy and Physiology of Speech and Vocal Mechanisms for Speech-Language Pathology**

This course is an introduction to the anatomy and physiology of the speech/voice/language mechanisms. The course will include learning unit on the anatomical systems of respiration, phonation, articulation and swallowing. We will also include an introduction to brain anatomy as it pertains to systems of speech, language and swallowing mechanisms. None of these human systems exist in isolation. We will learn how the systems interact to produce speech and language. BoK: NA. Credit Level: U. Credit Hrs: 5.00

35CSD310**Anatomy & Physiology of Voice and Speech Production**

Anatomy and physiology of the systems of respiration, phonation, articulation, and neurology for voice, speech and swallowing. Prereq: 35CSD171, 35CSD212. Prereq: 35CSD171, 35CSD212. BoK: NS. Credit Level: U. Credit Hrs: 4.00

35CSD311**SPEECH AND LANGUAGE DEVELOPMENT**

Principles of normal speech and language development in children. Prereqs: 35CSD212, 35CSD371, 35CSD372 Prereq: 35CSD212, 35CSD371, 35CSD372. BoK: SS. Credit Level: U. Credit Hrs: 4.00

35CSD371**Phonetics**

Introduction to general phonetics. Analysis of speech patterns. Mastering of International Phonetic Alphabet. Relationship between sound feature patterns of English and linguistic rules of English. 1 hr. lab/wk. to be arranged. Prereq: 35CSD171, 35CSD212. Prereq: 35CSD171, 35CSD212. BoK: HU. Credit Level: U. Credit Hrs: 3.00

35CSD372**Syntax for Language Assessment**

This course provides prospective SLP students with the basics of syntax that they can apply to language samples analysis and intervention. Prereq: 35CSD171, 35CSD212. Prereq: 35CSD171, 35CSD212. BoK: NA. Credit Level: U. Credit Hrs: 2.00

35CSD512**Neurological Foundations of Communication**

Basic neuroanatomy and physiology of human communication and swallowing. Prereqs: 310, 521. Prereq: 35CSD310, 35CSD521. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

35CSD520**Speech Science**

Critical analysis of speech acoustics and the intersection of speech perception and production. Prereq: 35CSD310, 35CSD371. Prereq: 35CSD310, 35CSD371. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

35CSD521**Clinical Process I: Professional Issues**

Professional issues in speech-language pathology and audiology including observation of children and adults with communication disorders. Prereqs: 35CSD171, 35CSD212, 35CSD310, 35CSD311, 35CSD371 or permission of instructor. Prereq: 35CSD212, 35CSD311, 35CSD371, 35CSD310, 35CSD171. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

35CSD522**Clinical Process II: Assessment**

Methods for assessment and evaluation of communication disorders in children and adults. Prereq: 35CSD212, 35CSD311, 35CSD371, 35CSD520, 35CSD521. Prereq: 35CSD212, 35CSD311, 35CSD371, 35CSD520, 35CSD521. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

35CSD523**Clinical Process III: Intervention**

Methods for management of communication disorders in children and adults. Prereqs: 35CSD212, 35CSD311, 35CSD371, 35CSD520, 35CSD521, 35CSD522 Prereq: 35CSD311, 35CSD371, 35CSD520, 35CSD521, 35CSD522. Coreq.: BoK: NA. Credit Level: U, G. Credit

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Communication Sciences and Disorders**35CSD523****Clinical Process III: Intervention**

Hrs: 3.00

35CSD524**Clinical Processes in CSD**

Overview of professional issues and clinical processes used in assessment and intervention for speech-language disorders. Prereqs: 35CSD309, 35CSD371. Prereq: 35CSD309, 35CSD371. BoK: NA. Credit Level: U, G. Credit Hrs: 5.00

35CSD559**Anatomy of the Auditory and Vestibular Systems**

Brief review of techniques for describing sound; study of the anatomy and physiology of the peripheral auditory and vestibular system; brief reference to central auditory nervous system; study of common diseases or pathologies of the auditory and vestibular system that effect children and adults. BoK: NS. Credit Level: U, G. Credit Hrs: 5.00

35CSD560**Basic Audiological Assessment**

In depth introduction to basic audiological assessment techniques for both pediatric and adult populations. Specific emphasis on skills necessary to complete basic pure tone testing; interpretation of basic pure tone, speech, and immittance tests; and development of hearing screening program. Overview of more advanced audiological test procedures. Prereq: 35CSD559. Prereq: 35CSD559. BoK: NA. Credit Level: U, G. Credit Hrs: 5.00

35CSD561**Audiology I**

Anatomy, physiology, and pathology of the auditory systems; psychophysical procedures. Prereqs: 35CSD212, 35CSD310. Prereq: 35CSD212, 35CSD310, 35CSD371. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

35CSD562**Audiology II**

Hearing tests and testing instruments, case finding and referral, interpretation of hearing test results, organization of hearing conservation programs. Prereqs: 35CSD212, 35CSD310, 35CSD371, 35CSD561. Prereq: 35CSD212, 35CSD310, 35CSD371, 35CSD561. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

35CSD563**Audiology III**

Introduction to rehabilitation of children and adults with hearing loss. Prereqs: 35CSD212, 35CSD310, 35CSD371, 35CSD561, 35CSD562. Prereq: 35CSD212, 35CSD310, 35CSD371, 35CSD561, 35CSD562. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

35CSD568H**Hearing and Sound Production Through the Ages: Jurassic Acoustics**

This course is designed to familiarize students with the bioacoustics of human and animal communication and hearing including comparative terrestrial/marine mammal vocal anatomy, physiology and neuroanatomy, sound production mechanisms and acoustic behavior. The course documents the evolution of the hearing and vocal systems of humans and their relationship to animals. Prereq: Honor students only. BoK: HP., NS. Credit Level: U, G. Credit Hrs: 3.00

35CSD593**Individual Work in Speech Language & Hearing**

Guided study in communication sciences and disorders. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-9.00

35CSD594**Honors Work in Speech Language & Hearing**

Honor's projects in Communication Sciences & Disorders. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-9.00

Communication Sciences and Disorders**35CSD595****Capstone Experience**

The Capstone Experience will allow the students to demonstrate proficiency in the four Baccalaureate Competencies of the General Education Program as well as in the content of the B.S. Degree in CSD. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

35CSD619**Physical Bases of Audiology**

Basic concepts in acoustics, electricity and electronics necessary for audiology. BoK: NA. Credit Level: G, U. Credit Hrs: 4.00

35CSD620**Biological Bases of Audiology**

Biological foundation for future courses in auditory neurosciences, development, pathophysiology and clinical assessment of sensory systems. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

35CSD622**Biology of the Cochlea**

Structure and function of the peripheral auditory system. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

35CSD623**Introductory Audiology Practicum I**

First year clinical hands-on experience performing basic diagnostic testing and habilitative intervention in the on-campus clinic or at an off-campus site. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

35CSD624**Introductory Audiology Practicum II**

First year clinical hands on experience performing basic diagnostic testing and habilitative intervention in the on-campus clinic or at an off-campus site. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

35CSD625**Introductory Audiology Practicum III**

First year clinical hands-on experience performing basic diagnostic testing and habilitative intervention in the on-campus clinic or at an off-campus site. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

35CSD626**Audiology Clerkship I**

Practicum following the first academic year with placement in the on-campus clinic or an off-campus site such as a medical setting, school, private practice, or non-profit organization. Credit Level: G. Credit Hrs: 1.00-15.00

35CSD650**Autism Spectrum Disorders: Assessment & Intervention**

This course will provide information for assessment and development of communication intervention for individuals with Autism Spectrum Disorders. BoK: NA. Credit Level: G, U. Credit Hrs: 3.00

35CSD700**Counseling in Communication Disorders**

Overview of the personal and family emotional toll and life impact of communication disorders. Examination and role playing will center on building healthy patient/professional dynamics to facilitate rehabilitation. Credit Level: G. Credit Hrs: 3.00

35CSD702**Special Topics in Communication Disorders**

Specialized information about current issues and techniques. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-6.00

35CSD706**Diagnostic Audiology I**

Assessment of auditory function, emphasis on pure tone, speech and immittance measurements, interpretation of test results. Prereq: 35CSD562. Credit Level: G. Credit Hrs: 4.00

35CSD708**Management of the Hard of Hearing Child**

Assessment and management of children with hearing loss in

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Communication Sciences and Disorders**35CSD708****Management of the Hard of Hearing Child**

educational settings. Prereq: 35CSD563. Credit Level: G. Credit Hrs: 3.00

35CSD709**Cochlear Implantation: Theory and Practice**

Overview of Cochlear Implantation. Cochlear implant technology and function. Patient criteria and determination. Pre and post-implant counseling, testing and mapping/coding strategies. Medical and surgical perspectives in cochlear implantation. Aural habilitation for the CI user. Understanding other professional roles in the CI process. Credit Level: G. Credit Hrs: 3.00

35CSD710**Speech Sound Disorders**

Assessment and intervention for speech sound disorders in children. Credit Level: G. Credit Hrs: 3.00-5.00

35CSD711**Language Disorders in Early Childhood**

Contemporary strategies for assessment and intervention for preschool and early school age children with language disorders. Prereq: 35CSD710. Credit Level: G. Credit Hrs: 3.00-5.00

35CSD712**Language Disorders in Later Childhood**

Contemporary strategies for assessment and intervention for school age children with language disorders. Prereq: 35CSD711. Credit Level: G. Credit Hrs: 3.00-5.00

35CSD716**Pathophysiology of Audition**

Overview of the biological bases of auditory dysfunction; anatomical and physiological studies associated with different categories of cochlear insult (eg. ototoxicity, acoustic trauma, presbycusis) and central auditory nervous system (eg. auditory neuropathy). Credit Level: G. Credit Hrs: 3.00

35CSD717**Diseases of the Ear**

Survey of pathologies, medical and surgical management of diseases of the auditory system. Credit Level: G. Credit Hrs: 1.00-3.00

35CSD718**Pediatric Audiology:Assessment**

Identification and evaluation of infants and children with hearing loss. Credit Level: G. Credit Hrs: 4.00

35CSD719**Amplification Systems I**

Introduction to amplification systems for the hearing impaired. Topics: types of aids and their components, electroacoustic characteristics of hearing aids, coupler measurements, output limitation and earmolds. Credit Level: G. Credit Hrs: 1.00-3.00

35CSD720**Amplification Systems II**

Selection and fitting of amplification for the hearing impaired. Topics include: hearing aid evaluation, prescription of electroacoustic characteristics, fitting procedures, and post-fitting counseling. Credit Level: G. Credit Hrs: 5.00

35CSD723**Graduate Audiologist I**

Second year, first clinical practicum placement in the on-campus clinic or an off-campus site such as a medical setting, school, private practice, or non-profit organization. Credit Level: G. Credit Hrs: 1.00-15.00

35CSD724**Graduate Audiologist II**

Second year, second clinical practicum placement in the on-campus clinic or an off-campus site such as a medical setting, school, private practice, or non-profit organization. Credit Level: G. Credit Hrs: 1.00-

Communication Sciences and Disorders**35CSD724****Graduate Audiologist II**

15.00

35CSD725**Graduate Audiologist III**

Second year, third clinical practicum placement in the on-campus clinic or an off-campus site such as a medical setting, school, private practice, or non-profit organization. Credit Level: G. Credit Hrs: 1.00-15.00

35CSD726**Audiology Clerkship II**

Practicum following the second academic year with placement in and off-campus site such as a medical setting, school, private practice, or non-profit organization. Credit Level: G. Credit Hrs: 1.00-15.00

35CSD727**Diagnostic Audiology II**

Description, definition, and basic instrumentation of otoacoustic emissions and ECoCh and ABR in the assessment of hearing-impaired people. Credit Level: G. Credit Hrs: 3.00

35CSD728**Seminar in Auditory Processing Disorders**

Contemporary techniques used by audiologists for assessment management of central auditory processing disorders. Credit Level: G. Credit Hrs: 3.00

35CSD731**Neuro Bases of CD**

Neurophysiology for evaluation and treatment of neurogenic speech and language disorders in children and adults. Prereq.: 35CSD210 Prereq: 35CSD210. Credit Level: G. Credit Hrs: 3.00-5.00

35CSD732**Neurogenic Language Disorders**

Evaluation and treatment of aphasia and the communication aspect of other language, cognitive and neurobehavioral disorders in children and adults. Credit Level: G. Credit Hrs: 3.00-5.00

35CSD733**Neurogenic Cognitive Disorders**

Evaluation and treatment of the communicative aspects of cognitive and neurobehavioral disorders in children and adults. Credit Level: G. Credit Hrs: 3.00

35CSD734**Neurogenic Speech Disorders**

Neurophysiology, evaluation, and treatment of neurogenic speech disorders in children and adults. Credit Level: G. Credit Hrs: 3.00

35CSD743**Research Design in Communication**

Planning and analysis, application to individual research. Prereqs: MATH 146 or 147 or a stats course Prereq: 15MATH146. Credit Level: G. Credit Hrs: 3.00

35CSD745**Psychoacoustics**

Thresholds, scaling of judgements, signal detection, lab demonstrations. Credit Level: G. Credit Hrs: 3.00

35CSD748**Advanced Speech and Hearing Science**

Advanced understanding of normal and disordered speech production and perception. Credit Level: G. Credit Hrs: 3.00

35CSD761**Speech Communication for the Hearing Impaired**

Principles from speech and hearing science, normal development, phonetics as applied to development and/or modification of speech in deaf children and adults. Credit Level: G. Credit Hrs: 1.00-3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Communication Sciences and Disorders**35CSD762****Speech Communication for the Hearing Impaired**

Study of speech, voice and informal auditory evaluation procedures for students with impaired hearing. Case study development and reporting emphasized. Credit Level: G. Credit Hrs: 1.00-3.00

35CSD763**Speech Communication for the Hearing Impaired**

Principles of assessment and modification of speech in deaf children and adolescents. Credit Level: G. Credit Hrs: 3.00

35CSD773**Reading and Literacy for SLP's**

This course provides in depth information concerning evidence based practice in all aspects of reading and literacy as it pertains to the knowledge needed by SLP's to provide state of the art services to children. Credit Level: G. Credit Hrs: 3.00

35CSD774**Emergent Literacy for Speech-Language Pathologists**

The course provides a connection between theory and practice in emergent literacy for speech- language. Credit Level: G. Credit Hrs: 3.00

35CSD777**Seminar in School Issues**

Organization, management and administration of a school speech-language pathology and audiology program. Credit Level: G. Credit Hrs: 3.00

35CSD783**Collaborative Literacy Seminar I : Language and Literacy**

Development of an understanding of issues related to language and literacy. Credit Level: G. Credit Hrs: 2.00

35CSD784**Collaborative Literacy Seminar II: Collaboration**

A survey of the collaborative process in language and literacy intervention. Credit Level: G. Credit Hrs: 2.00

35CSD785**Collaborative Literacy Seminar III: Curriculum**

The implementation of curriculum in language and literacy intervention. Credit Level: G. Credit Hrs: 2.00

35CSD786**Collaborative Literacy Seminar IV: Capstone Project**

Synthesis and application of language and literacy modules to Providers, Activities, Contexts model. Credit Level: G. Credit Hrs: 2.00

35CSD811**Voice Disorders**

Function and disorders of the larynx; evaluation and management. Credit Level: G. Credit Hrs: 3.00-5.00

35CSD812**Craniofacial Anomalies**

Cleft palate and associated orofacial anomalies. Evaluation and management. Credit Level: G. Credit Hrs: 3.00

35CSD813**Seminar in Stuttering**

Theories of stuttering; therapeutic approaches. Taught concurrently with intensive therapy program. Credit Level: G. Credit Hrs: 1.00-5.00

35CSD816**Noise and Hearing**

Concepts in hearing risk, personnel protection, noise measurement. Credit Level: G. Credit Hrs: 2.00

35CSD818**Audiologic Rehabilitation of the Adult**

Discussion and study of the principles and methods of aural rehabilitation of the adult. Credit Level: G. Credit Hrs: 3.00

Communication Sciences and Disorders**35CSD819****Pediatric Audiology: Intervention and Management**

Principles of hearing habilitation and hearing managements counseling for families and their young children with mild to profound hearing loss. Credit Level: G. Credit Hrs: 5.00

35CSD822**Vestibular Assessment and Rehabilitation**

Theory and practice in electrophysiologic assessment of normal and disordered vestibular systems. Credit Level: G. Credit Hrs: 3.00

35CSD823**Internship in Audiology I**

Third year, first clinical practicum placement in an off-campus site such as a medical setting, school, private practice, or non-profit organization. Credit Level: G. Credit Hrs: 1.00-15.00

35CSD824**INTERNSHIP IN AUDIOLOGY II**

Third year, second clinical practicum placement in an off-campus site such as a medical setting, school, private practice, or non-profit organization. Credit Level: G. Credit Hrs: 1.00-15.00

35CSD825**INTERNSHIP IN AUDIOLOGY III**

Third year, third clinical practicum placement in an off-campus site such as a medical setting, school, private practice, or non-profit organization. Credit Level: G. Credit Hrs: 1.00-15.00

35CSD826**Audiology Clerkship III**

Practicum following the third academic year with placement in an off-campus site such as a medical setting, school, private practice, or non-profit organization. Credit Level: G. Credit Hrs: 1.00-15.00

35CSD827**Vestibular Assessment and Rehabilitation II**

Pedagogy and practical training in the advanced assessment of vestibular disorders, including advanced diagnostic procedures that include rotary chair, sway platform posturography, vestibular evoked myogenic potentials, electrocochleography, canalith repositioning. Prereq: 35CSD822. Credit Level: G. Credit Hrs: 3.00

35CSD830**Dysphagia**

In depth instruction regarding anatomy and physiology of normal and disordered swallowing, assessment, treatment and research. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00-5.00

35CSD831**Augmentative and Alternative Communication**

Selection of communication systems for non- speaking clients and strategies for assessment intervention using augmentative/alternative systems. Prereq.: 18SPED714 Prereq: 18SPED714. Credit Level: G. Credit Hrs: 3.00-5.00

35CSD832**Early Intervention for Children with Communication Disorders**

The speech language pathologists role in providing transdisciplinary services to infants and toddlers. Credit Level: G. Credit Hrs: 3.00

35CSD834**Advanced Dysphagia**

To provide students with an in-depth understanding of the assessment and treatment of abnormal swallowing in medically complex children and adults. Included will be a review of pathophysiology, etiological correlates, evaluation and management techniques, and current research on swallowing disorders involving complex pulmonary, airway, systemic, or neurogenic disorders. This course assumes a prior knowledge of basic head and neck anatomy, physiology, neuroanatomy, normal and abnormal swallowing, clinical and instrumental assessment and basic treatment planning. Prereq: 35CSD830, 35CSD731, 35CSD310. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Communication Sciences and Disorders**35CSD835****Pediatric Dysphagia**

This course will provide students with knowledge and resources necessary to effectively evaluate and treat feeding and swallowing disorders in medically complex infants and children in medical, school, and home settings. Normal and abnormal anatomy, changes in swallowing physiology from infancy to childhood, evaluation and management techniques, and pertinent research will be covered in the course. Knowledge of head and neck anatomy and physiology as well as basic neuroanatomy is assumed. This course is available to graduate students, doctoral students, and community speech language pathologists. Prereq: 35CSD830 Prereq: 35CSD830. Credit Level: G. Credit Hrs: 2.00

35CSD840**Seminar in Auditory Evoked Potentials (AEP)**

Basic outcomes and effects of communication disorders on the late auditory evoked potentials and discussion, description of the use of AEP's for both research and applied purposes. Credit Level: G. Credit Hrs: 3.00

35CSD841**Practice Management in Communication Disorders**

Overview of business principles including planning, financing, operations and marketing. Credit Level: G. Credit Hrs: 3.00

35CSD842**Seminar in AEP II**

This course covers the latest information on electrophysiology of the auditory system and the clinical application of auditory evoked potentials. Prereq: 35CSD840. Credit Level: G. Credit Hrs: 3.00

35CSD863**Directed Problems in Speech/Language Pathology**

Projects are designed and supervised by the faculty. Offered ea. qtr. Credit Level: G. Credit Hrs: 1.00-15.00

35CSD864**Directed Problems in Audiology**

Projects are designed and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-15.00

35CSD865**Directed Problems in Speech and Hearing Science**

Projects are designed and supervised by the faculty. Credit Level: G. Credit Hrs: 1.00-15.00

35CSD908**Special Topics in Clinical Practice in Audiology**

Interactive clinical seminar designed to cover applications of specific theoretical audiological information to everyday clinical practice Credit Level: G. Credit Hrs: 2.00

35CSD911**Clinical Practicum in Speech/Language Pathology**

Diagnostic, therapeutic participation in speech/language pathology. Credit Level: G. Credit Hrs: 1.00-15.00

35CSD913**Internship in Speech/Language Pathology**

Off-campus experience in speech/language pathology. Credit Level: G. Credit Hrs: 1.00-15.00

35CSD914**School Practicum in Audiology**

Supervised experience in educational audiology in a school setting. Credit Level: G. Credit Hrs: 1.00-15.00

35CSD915**School Practicum in Speech-Language Pathology**

Supervised experience in providing speech-language services to children in a school setting. Credit Level: G. Credit Hrs: 1.00-15.00

Communication Sciences and Disorders**35CSD916****Advanced Clinical Methods in Communication Science**

This course is directed toward graduate students in speech/language pathology who have had experience in practicum with persons with communication disorders. Students will review assessment and intervention processes to prepare their portfolios. Credit Level: G. Credit Hrs: 3.00

35CSD920**Clinical Externship in Speech-Language Path II**

Full or part-time clinical practicum experience at an off campus site such as a medical setting, school, private practice or non-profit organization. Credit Level: G. Credit Hrs: 1.00-15.00

35CSD921**Clinical Externship in Speech-Language Path III**

Full or part-time clinical practicum experience at an off campus site such as a medical setting, school, private practice or non-profit organization. Credit Level: G. Credit Hrs: 1.00-15.00

35CSD923**Clinical Externship in Audiology I**

Full-time clinical practicum experience at an off-campus site such as medical setting, school, private practice or non-profit organization. Credit Level: G. Credit Hrs: 1.00-15.00

35CSD924**Clinical Externship in Audiology II**

Full-time clinical practicum experience at an off-campus site such as medical setting, school, private practice or non-profit organization. Credit Level: G. Credit Hrs: 1.00-15.00

35CSD925**Clinical Externship in Audiology III**

Full-time clinical practicum experience at an off-campus site such as medical setting, school, private practice or non-profit organization. Credit Level: G. Credit Hrs: 1.00-15.00

35CSD940**Graduate Seminar in Speech Pathology and Audiology**

Presentation of graduate student projects, publishable papers, theses or dissertation designs in seminar mode. Credit Level: G. Credit Hrs: 1.00-3.00

35CSD943**Graduate Research Project Communication Disorders I**

Research project in Communication Disorders I. Completion of research proposal for thesis or publishable paper. Credit Level: G. Credit Hrs: 1.00-3.00

35CSD944**Graduate Research Project Communication Disorders II**

Research Project in Communication Disorders II. Completion of data collection for thesis or publishable paper. Prereq: 35CSD943. Credit Level: G. Credit Hrs: 1.00-3.00

35CSD945**Graduate Research Project Communication Disorders III**

Research project in Communication Disorders III. Completion of written document and oral defense of thesis or publishable paper. Prereq: CSD 943, 944. Credit Level: G. Credit Hrs: 1.00-3.00

35CSD946**Research Methods in Communication Disorders**

Research project and lectures focus on application of design, analysis and short research report. Review MA thesis and published articles. Credit Level: G. Credit Hrs: 3.00

35CSD983**Doctoral Seminar Research in Communication Disorders I**

Pre-dissertation research evaluation, planning and experience. Credit Level: G. Credit Hrs: 3.00-6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Communication Sciences and Disorders**35CSD984****Doctoral Seminar in Research in Communication Disorders II**

Pre-dissertation research evaluation planning and experience. Prereq: 35CSD983. Credit Level: G. Credit Hrs: 3.00-6.00

35CSD985**Doctoral Seminar in Research in Communication Disorders III**

Pre-dissertation research evaluation, planning and experience; professional writing emphasized. Prereq: 35CSD984. Credit Level: G. Credit Hrs: 3.00-6.00

35CSD986**Doctoral Seminar in Communication Disorders: Pedagogy**

Discussion of issues related to teaching at the college level and guided experience in teaching. Credit Level: G. Credit Hrs: 3.00

35CSD987**Doctoral Seminar in Communication Disorders: Supervision**

Discussion of issues related to supervision and guiding experience on supervision of student practicum in Communication Disorders. Credit Level: G. Credit Hrs: 3.00

35CSD988**Doctoral Seminar in Communication Disorders: Grant Writing**

Review of granting agencies, funding sources, grants and guided experience on grant writing. Credit Level: G. Credit Hrs: 3.00

35CSD989**Topics in Language, Speech and Hearing Disorders**

This is a research seminar in which students present, defend and critique recent research articles on Hot Topics in Speech-Language Pathology and Audiology. Topics vary according to student interest. Credit Level: G. Credit Hrs: 1.00

35CSD991**Doctoral Dissertation Research**

Degree candidates only. Credit Level: G. Credit Hrs: 1.00-15.00

35CSD992**Doctoral Dissertation Research**

Degree candidates only. Credit Level: G. Credit Hrs: 1.00-15.00

35CSD993**Doctoral Dissertation Research**

Degree candidates only. Credit Level: G. Credit Hrs: 1.00-15.00

Cellular Therapies**35CT831****Foundations for Cellular Therapies I**

Instruction on stem cell biology, stem cell collection and storage, positive and negative selection, genetic manipulation, clinical cell transplantation, blood groups, infectious disease testing, hazards of transplantations, regulatory issue and quality management. Credit Level: G. Credit Hrs: 2.00

35CT832**Foundations for Cellular Therapies II**

Instruction on stem cell biology, stem cell collection and storage, positive and negative selection, genetic manipulation, clinical cell transplantation, blood groups, infectious disease testing, hazards of transplantations, regulatory issue and quality management. Credit Level: G. Credit Hrs: 2.00

35CT833**Foundations for Cellular Therapies III**

Instruction on stem cell biology, stem cell collection and storage, positive and negative selection, genetic manipulation, clinical cell transplantation, blood groups, infectious disease testing, hazards of transplantations, regulatory issue and quality management. Perm of Instructor. Credit Level: G. Credit Hrs: 2.00

Cellular Therapies**35CT841****Cellular Therapies Seminar I**

Literature review, written paper and oral presentation of cellular therapies topic. Credit Level: G. Credit Hrs: 2.00

35CT842**Cellular Therapies Seminar II**

Literature review, written paper and oral presentation of cellular therapies topic. Credit Level: G. Credit Hrs: 2.00

35CT843**Cellular Therapies Seminar III**

Literature review, written paper and oral presentation of cellular therapies topic. Perm of Instructor. Credit Level: G. Credit Hrs: 2.00

35CT851**Cellular Therapies Laboratory/Clinical Prac I**

This course provides the practical training and experience in cell processing including Plasma reduction, Red cell reduction, Buffy coat preparation, Controlled rate freezing, T cell depletion, CD34 selection and analysis, Donor Lymphocyte infusion, processing of stem cells for cryopreservation, thawing frozen stem cells for infusion, cell counts using automated and manual equipment, record keeping systems for stem cell products and laboratory management training. Credit Level: G. Credit Hrs: 3.00

35CT852**Cellular Therapies Laboratory/Clinical Prac II**

This course provides the practical training and experience in cell processing including Plasma reduction, Red cell reduction, Buffy coat preparation, Controlled rate freezing, T cell depletion, CD34 selection and analysis, Donor Lymphocyte infusion, processing of stem cells for cryopreservation, thawing frozen stem cells for infusion, cell counts using automated and manual equipment, record keeping systems for stem cell products and laboratory management training. Credit Level: G. Credit Hrs: 3.00

35CT853**Cellular Therapies Laboratory/Clinical Prac III**

This course provides the practical training and experience in cell processing including Plasma reduction, Red cell reduction, Buffy coat preparation, Controlled rate freezing, T cell depletion, CD34 selection and analysis, Donor Lymphocyte infusion, processing of stem cells for cryopreservation, thawing frozen stem cells for infusion, cell counts using automated and manual equipment, record keeping systems for stem cell products and laboratory management training. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

35CT861**Cellular Therapies Thesis Research I**

Preparation of written research proposal to include a literature review, research plan, materials and methods, data analysis, budget and bibliography. Investigative research in a laboratory or clinical setting. Final written thesis. Perm of Instructor. Credit Level: G. Credit Hrs: 4.00-12.00

35CT862**Cellular Therapies Thesis Research II**

Preparation of written research proposal to include a literature review, research plan, materials and methods, data analysis, budget and bibliography. Investigative research in a laboratory or clinical setting. Final written thesis. Credit Level: G. Credit Hrs: 4.00-12.00

35CT863**Cellular Therapies Thesis Research III**

Preparation of written research proposal to include a literature review, research plan, materials and methods, data analysis, budget and bibliography. Investigative research in a laboratory or clinical setting. Final written thesis. Credit Level: G. Credit Hrs: 4.00-12.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Genetic Counseling**35GC600****Topics in Personalized Medicine Online**

An asynchronous online only course focused on the science and applications of personalized medicine in health care. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

35GC828**Emerging Topics in Clinical Genomics**

A series of invited speakers present lectures on diverse topics related to the spectrum of clinical genetics, genetic counseling, molecular & biochemical testing, treatment of genetic conditions and other areas. BoK: SE. Credit Level: G, U. Credit Hrs: 1.00-2.00

35GC829**Emerging Topics in Clinical Genomics**

A series of invited speakers present lectures on diverse topics related to the spectrum of clinical genetics, genetic counseling, molecular & biochemical testing, treatment of genetic conditions and other areas. BoK: SE. Credit Level: G, U. Credit Hrs: 1.00-2.00

35GC830**Emerging Topics in Clinical Genomics**

A series of invited speakers present lectures on diverse topics related to the spectrum of clinical genetics, genetic counseling, molecular & biochemical testing, treatment of genetic conditions and other areas. BoK: SE. Credit Level: G, U. Credit Hrs: 1.00-2.00

35GC606**Legal and Ethical Issues in Human Genetics**

Issues and conflicts in the field of genetics are examined and discussed in the context of a systematic framework, employing principles and concepts of ethics with consideration of legal implications. Credit Level: G. Credit Hrs: 2.00

35GC700**Providing Culturally Competent Care**

Use case studies, journaling & other methods of self-reflection, discourse with instructor and peers through a discussion board, readings taken from lay & professional literature, videos and other electronic instructional materials, and group work. Credit Level: G. Credit Hrs: 2.00

35GC701**Introduction to Public Health Genomics**

An introduction to the role of genomics in public health. This course will explore the growing impact of the genomic revolution in relation to health and disease in populations. Credit Level: G. Credit Hrs: 2.00

35GC734**Introduction to Genetic Counseling**

Practical genetic counseling approaches and methods taught by means of hands-on activities, peer instruction, guest lectures, and role playing. Credit Level: G. Credit Hrs: 3.00

35GC735**Introduction to Genetic Counseling**

See 35-962-734. Credit Level: G. Credit Hrs: 3.00

35GC736**Introduction to Genetic Counseling**

See 35-962-734. Credit Level: G. Credit Hrs: 3.00

35GC740**Clinical Practicum I**

This course provides students with the opportunity to gain practical experience working with patients who are referred for genetic counseling. Credit Level: G. Credit Hrs: 1.00

35GC741**Clinical Practicum II**

This course provides students with the opportunity to gain practical experience working with patients who are referred for genetic counseling. Credit Level: G. Credit Hrs: 1.00

Genetic Counseling**35GC742****Clinical Practicum III**

This course provides students with the opportunity to gain practical experience working with patients who are referred for genetic counseling. Credit Level: G. Credit Hrs: 1.00

35GC743**Clinical Practicum Summer Internship**

This course provides students with the opportunity to gain practical experience working with patients who are referred for genetic counseling. Credit Level: G. Credit Hrs: 1.00-3.00

35GC750**Genetic Counseling Professional Development Series**

Topics related to professional development in the field of genetic counseling are addressed. Credit Level: G. Credit Hrs: 1.00

35GC751**Clinical Genetics I**

In-depth description of clinical aspects and genetic counseling issues of common genetic diseases. For first year GC students only. Credit Level: G. Credit Hrs: 1.00

35GC752**Clinical Genetics II**

In-depth description of clinical aspects and genetic counseling issues of common genetic disorders. For first year GC students only. Credit Level: G. Credit Hrs: 1.00

35GC753**Clinical Genetics III**

In-depth description of clinical aspects and genetic counseling issues of common genetic diseases. Geared for first year GC students only. Credit Level: G. Credit Hrs: 1.00

35GC754**Clinical Genetics IV**

In depth description of clinical aspects and genetic counseling issues of common genetic disorders. Credit Level: G. Credit Hrs: 1.00

35GC755**Clinical Genetics V**

In depth description of genetic aspects and genetic counseling issues of common genetic disorders. Credit Level: G. Credit Hrs: 1.00

35GC766**Independent Study in Genetic Counseling**

Independent study at the graduate level in genetic counseling, under the direction of G.C. Program faculty. Subject varies with student interests. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-6.00

35GC767**Independent Study in Genetic Counseling**

See 35-962-766. Credit Level: G. Credit Hrs: 1.00-6.00

35GC768**Independent Study in Genetic Counseling**

See 35-962-766. Credit Level: G. Credit Hrs: 1.00-6.00

35GC777**Advanced Genetic Counseling Issues**

Advanced clinical practice and professional issues in genetic counseling. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-3.00

35GC778**Advanced Genetic Counseling Issues**

See 35-962-777. Credit Level: G. Credit Hrs: 1.00-3.00

35GC779**Advanced Genetic Counseling Issues**

See 35-962-777. Credit Level: G. Credit Hrs: 1.00-3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Genetic Counseling**35GC781****Human Genetics Journal Club**

Molecular and clinical genetics papers are reviewed, presented and discussed. Credit Level: G. Credit Hrs: 1.00

35GC785**Research Design**

This course provides genetic counseling students the skills and resources to develop their masters thesis research proposal and a protocol for submission to the IRB. Credit Level: G. Credit Hrs: 3.00

35GC791**Master's Thesis Research**

Independent research towards master's degree. Credit Level: G. Credit Hrs: 1.00-15.00

35GC800**Community Education Experience**

To develop educational interventions that accomplish the goals and meet the specific needs of the audience. Topics include: educational theory and pedagogy. Credit Level: G. Credit Hrs: 1.00-3.00

35GC825**Emerging Topics in Clinical Genomics**

Series of invited speakers present lectures on diverse topics related to the spectrum of clinical genetics, genetic counseling, molecular and biochemical testing, treatment of genetic conditions and other areas. Credit Level: G. Credit Hrs: 1.00-2.00

35GC826**Emerging Topics in Clinical Genomics**

A series of invited speakers will present lectures on diverse topics related to the spectrum of clinical genetics, genetic counseling, molecular and biochemical testing, treatment of genetic conditions and other areas. Credit Level: G. Credit Hrs: 1.00-2.00

35GC827**Emerging Topics in Clinical Genomics**

Series of invited speakers present lectures on diverse topics related to the spectrum of clinical genetics, genetic counseling, molecular and biochemical testing, treatment of genetic conditions and other areas. Credit Level: G. Credit Hrs: 1.00-2.00

35GC840**Clinical Practicum IV**

This course provides students with the opportunity to gain practical experience working with patients who are referred for genetic counseling. Credit Level: G. Credit Hrs: 1.00-3.00

35GC841**Clinical Practicum V**

This course provides students with the opportunity to gain practical experience working with patients who are referred for genetic counseling. Credit Level: G. Credit Hrs: 1.00-3.00

35GC842**Clinical Practicum VI**

This course provides students with the opportunity to gain practical experience working with patients who are referred for genetic counseling. Credit Level: G. Credit Hrs: 1.00-3.00

35GC853**Genetic Counseling Case Conference**

Review and discussion of cases seen for genetic counseling and medical genetic evaluation. Credit Level: G. Credit Hrs: 1.00

35GC854**Genetic Counseling Case Conference**

See 35-962-853. Credit Level: G. Credit Hrs: 1.00

35GC855**Genetic Counseling Case Conference**

See 35-962-853. Credit Level: G. Credit Hrs: 1.00

Genetic Counseling**35GC860****Teratology**

Basic principles of teratology will be discussed. Topics include drug testing, pharmacokinetics, retinoids, thalidomide, environmental chemicals, anticonvulsants, diabetes, behavioral teratology, fetal alcohol syndrome, therapeutic drugs, infectious diseases, radiation, and hormones. Credit Level: G. Credit Hrs: 3.00

35GC881**Human Genetics**

Introduction to basic human genetics including mitosis, meiosis, chromosome structure and mechanisms of rearrangement, inheritance, modes / mechanisms, mutational mechanism, population / quantitative genetics and biochemical genetics (polymorphisms). Credit Level: G. Credit Hrs: 3.00

35GC888**Cancer Genomics and Genetic Counseling**

Study of genetic, environmental and epigenetic causes of cancer, syndromes and the related genetic counseling issues. Credit Level: G. Credit Hrs: 3.00

35GC900**Clinical Embryology**

A course designed for understanding the process of usual human development in order to appreciate the timing and mechanisms underlying birth defects, chromosomal abnormalities and genetic syndromes. Credit Level: G. Credit Hrs: 3.00

Health Information Management**35HIM504****Issues in Healthcare Delivery**

This course provides an overview of US health care systems and their many components including organizational structures, mechanisms for health care delivery, health services financing, health policy, quality of health care and health information management. BoK: NA. Credit Level: U. Credit Hrs: 5.00

35HIM506**Health Data Management**

This course will provide the methods and technique to manage health care data, to develop documentation guidelines and understand compliance regulations and standards of AHIMA. BoK: NA. Credit Level: U. Credit Hrs: 5.00

35HIM508**Clinical Data Management**

This course will focus on evaluating and analyzing clinical data. The course will address clinical classifications, terminologies, and future initiatives in coding. BoK: NA. Credit Level: U. Credit Hrs: 5.00

35HIM510**Applied Reimbursement Methods**

This course will focus on analysis of reimbursement methods and the role of HIM professionals in revenue cycle management. BoK: NA. Credit Level: U. Credit Hrs: 5.00

35HIM512**Computer Systems in Healthcare**

Comprehensive study of computers in healthcare. BoK: NA. Credit Level: U. Credit Hrs: 5.00

35HIM514**Professional Computer Practicum**

Supervised computer practicum in a healthcare facility. Emphasis on evaluation of computer applications and utilizing software applications. BoK: NA. Credit Level: U. Credit Hrs: 5.00

35HIM516**Legal and Ethical Issues in Healthcare**

Study of legal and ethical issues in healthcare with a focus on practical applications in health information management. BoK: NA. Credit Level: U. Credit Hrs: 5.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Health Information Management**35HIM520****Human Resource Management**

Applications in managing health information management (HIM) departments in healthcare facilities. Students will apply theories and utilize best practices to the management of human resources. BoK: NA. Credit Level: U. Credit Hrs: 5.00

35HIM522**Professionalism and Leadership**

Study of the management of change, team building, and leadership development related to practice in healthcare. Students will learn skills and outline effective strategies for communication. BoK: NA. Credit Level: U. Credit Hrs: 5.00

35HIM525**Clinical Terminologies and Classification Systems**

Analysis of standard clinical terminologies including SNOMED, ICD-10-PCS, medical linguistics, medical vocabulary standards, natural language processing and the role of the healthcare vocabularies and clinical terminologies in the electronic health record. BoK: NA. Credit Level: U. Credit Hrs: 5.00

35HIM526**Financial and Resource Management**

Financial aspects of healthcare and accounting principles BoK: NA. Credit Level: U. Credit Hrs: 5.00

35HIM528**Strategic Planning and Organizational Development**

Course will focus on strategic and operational plans in healthcare. BoK: NA. Credit Level: U. Credit Hrs: 5.00

35HIM530**Project and Operations Management**

Application of project management techniques and implementing process engineering BoK: NA. Credit Level: U. Credit Hrs: 5.00

35HIM532**Statistics and Research Methods**

Analysis and presentation of data and introduction to research methods. BoK: NA. Credit Level: U. Credit Hrs: 5.00

35HIM534**Quality Management and Performance Improvement**

Advanced study of the application of QI tools, evaluation of documentation standards, quality improvement, utilization and risk management, and credentialing. BoK: NA. Credit Level: U. Credit Hrs: 5.00

35HIM536**Capstone: Contemporary Issues in HIM**

Discussion of emerging issues and trends in the health information management (HIM) field. Integrate studies and apply knowledge to problems and issues facing the HIM profession. BoK: NA. Credit Level: U. Credit Hrs: 5.00

35HIM538**Professional HIM Practicum**

Professional practice course provides the student with the opportunity to integrate knowledge, behaviors, and professional attributes acquired throughout the curriculum that are necessary to the practice of HIM. The student will be involved in developing insight and skill in HIM management. BoK: NA. Credit Level: U. Credit Hrs: 5.00

Health Sciences**35HLSC172****Musculoskeletal Anatomy**

This course is designed to provide the student with a foundation in basic surface anatomy. In order to allow the student to develop a sound working knowledge of surface musculature and bony landmarks, laboratory experience will be utilized throughout the course. Prereq: 15BIOL201. BoK: NS. Credit Level: U. Credit Hrs: 3.00

Health Sciences**35HLSC211****Medical Terminology**

This course will cover medical terminology for health or allied health majors or anyone interested in learning medical terminology. The course will be formatted for on-line. Students will learn root words, combining forms, and application of learning via worksheets. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35HLSC294**Human Behavior in Health & Sickness for Health Related Programs**

This course will discuss the various aspects of human behavior in response to illness. Emphasis will be on understanding normal versus abnormal reactions to illness, and therefore being able to apply the most effective therapy regimen. The course will consist of lectures, case studies, and observation of psychiatric evaluations. This course is available to all majors. BoK: SS. Credit Level: U. Credit Hrs: 3.00

35HLSC330**Introduction to Biomechanics**

This course will introduce students to the basic terminology in biomechanics. The forces that act on the body during static and dynamic activities will be emphasized. Information mastered will be applied to whole body function. Prereq: 35HLSC172, 15PHYS103, 35HLSC172. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35HLSC333**Computers and Equipment in Biomechanics**

This course will introduce students to the equipment and procedures used to measure movement and force. This lab-based class emphasizes techniques used in research and testing in health care settings, including manual and mechanical measurement of force, joint movement, 2D and 3D motion analysis, friction and gravity. BoK: NA. Credit Level: U. Credit Hrs: 4.00

35HLSC345**Physical Conditioning and Testing**

This course covers the guidelines and accepted methods for exercise testing, strength and conditioning established by the American College of Sports Medicine and the National Strength and Conditioning Association. Students will apply knowledge from previous coursework in anatomy and physiology, exercise physiology, biomechanics, and kinesiology. Students will develop exercise protocols / prescriptions using accepted methods of exercise testing and apply knowledge of methods of strength and conditioning training. Prereq: 35HLSC351, 35HLSC412. Coreq: 35HLSC352, 35HLSC413. BoK: NA. Credit Level: U. Credit Hrs: 4.00

35HLSC351**Kinesiology I**

This course is designed to provide the student with a basic understanding of human movement. Included in this course is an examination of the anatomy of the musculoskeletal system, the structure and function of muscles and associated connective tissue, the structure and function of joints and the application of basic mechanical laws. This course is designed to contribute to the skills sets described by the ACSM and the NSCA as necessary components for entry level certifications. Prereq: 35HLSC330. Coreq: 35HLSC331. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35HLSC352**Kinesiology II**

A continuation of Kinesiology I, this course is designed to provide the student with a basic understanding of human movement. Included in this course is an examination of the anatomy of the musculoskeletal system, the structure and function of muscles and associated connective tissue, the structure and function of joints, and the application of basic mechanical laws. This course is designed to contribute to the skills sets described by the ACSM and the NSCA as necessary components for entry level certifications. Prereq: 35HLSC351. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Health Sciences**35HLSC373****Health Care Ethics**

This interdisciplinary course considers ethical theories and principles applicable to the allied health professions. Using scholarly inquiry, students will analyze ethical dilemmas that may occur in their professional roles. Students will address ethical issues across the lifespan in diverse socioeconomic and cultural situations. BoK: NA. Credit Level: U. Credit Hrs: 2.00

35HLSC401**Recreation Across the Lifespan I**

This course combines classroom study with service learning. Classroom study involves didactic information on aging and the effects of aging on physical activity. The service learning component provides students with weekly first-hand experience in implementing exercise programs for older adults. Students will utilize knowledge from previous coursework in anatomy, physiology, biomechanics, kinesiology, exercise testing, and strength and conditioning, and apply the principles to exercise and activity to the elderly population. This course is designed to contribute to the skills sets described by the ACSM and the NSCA as necessary components for entry level certifications. Prereq: 35HLSC345, 35HLSC340, 35HLSC360, 35HLSC332. Coreq: . BoK: NA. Credit Level: U. Credit Hrs: 3.00

35HLSC402**Recreation Across the Lifespan II**

This course is designed to provide the student with the opportunity to apply previous course knowledge in a practical setting working with an adult population. The course will combine classroom activities with independent study and community engagement experiences. The students will apply the principles of exercise testing and prescription, kinesiology, biomechanics, and strength and conditioning in order to provide members of the community with guidance in matters of health and fitness. Prereq: 35HLSC401. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35HLSC403**Recreation Across the Lifespan III**

Combines on-line independent study with service learning. The on-line independent study portion of the course gives students the opportunity to design exercise programs for individuals of varying fitness levels. The service learning component provides students with weekly first hand experience in implementing exercise programs to members of the community who are between the ages of 5 and 20 years. Students will utilize knowledge from previous coursework in anatomy, physiology, biomechanics, kinesiology, exercise testing & strength & conditioning to the principles in the pediatric population. Prereq: 35HLSC402. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35HLSC411**Physiology of Exercise I**

Physiology of Exercise is the study of the human body's short term responses and its long term adaptations to exercise. This is the first course in a sequence of three that will investigate the human body's bio energy systems, the utilization during exercise and the application of these systems towards performance enhancement. Prereq: 15CHEM103, 15BIOL103, 15BIOL203. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35HLSC412**Physiology of Exercise II**

This course is an extension of Physiology of Exercise I. Cardiovascular physiology as it relates to exercise and ECG interpretation will be a major focus. In addition, special populations, environments, and supplemental aids will be addressed. Prereq: 35HLSC411. BoK: NS. Credit Level: U. Credit Hrs: 3.00

35HLSC413**Physiology of Exercise III**

This course is an extension of Physiology of Exercise II. The student will write an exercise prescription using work calculations and ECG data from a cardiorespiratory stress test and other fitness information. A lab

Health Sciences**35HLSC413****Physiology of Exercise III**

component will be a major part of this course. Prereq: 35HLSC412. BoK: NS. Credit Level: U. Credit Hrs: 3.00

35HLSC421**Biomechanics of Sport I**

This course is designed to provide the student with an understanding of the biomechanics of movement and sport activities. This includes terminology, an examination of concepts and principles, and performing the observations, analyses and calculations necessary to examine mechanical and performance characteristics of human movements. This course is designed to meet the skill sets described by the ACSM and the NSCA as necessary components for entry level certifications. There is a lecture and a laboratory component to the course. Prereq: 35HLSC352. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35HLSC422**Biomechanics of Sport II**

This course is designed to provide the student with an increased understanding of human movement as it relates to dynamic activities. Included in this course is an examination of the anatomy of the musculoskeletal system, the structure and function of joints and the application of basic mechanical laws. This course is designed to contribute to the skill sets described by the ACSM and the NSCA as necessary components for entry level certifications. Prereq: 35HLSC421. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35HLSC423**Special Topics in Sports and Sports Science**

To cover topics related to sports biomechanics and exercise science that is not directly related to biomechanics but can effect the athlete or participant Prereq: 35HLSC422. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35HLSC499**Behavior and Fitness**

This course is designed to provide students with the foundation and skills to facilitate behavior changes and conduct health promotion in the community and corporate setting. Prereq: 35HLSC330, 35HLSC351. Coreq: 35HLSC411, 35HLSC412. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35HLSC510**Research Methods**

The purpose of this course is to introduce the student to basic research methods and concepts with special emphasis on research for healthcare professionals. Specific method and concepts that will be introduced include basic epidemiological terms, study design, reliability and validity, statistics, and determination of causality. A goal of this course is to help the student interpret scientific literature. Prereq: 15MATH146, 15MATH147. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

35HLSC520**Senior Project I**

Independent study course is a required course for students in the final year of the HLSC program. The course allows each student to work on his/her capstone experience which all health science students must complete prior to graduation. Prereq: 35HLSC510, 35HLSC345. BoK: NA. Credit Level: U. Credit Hrs: 2.00

35HLSC521**Senior Project II**

Independent study course is a required course for students in the final year of the HLSC program. The course allows each student to work on his/her capstone experience which all Health Science students must complete prior to graduation. Prereq: 35HLSC520. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35HLSC522**Senior Project III**

Independent study course is a required course for students in the final

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Health Sciences**35HLSC522****Senior Project III**

year of the HLSC program. The course allows each student to work on his/her capstone experience which all Health Science students must complete prior to graduation. Prereq: 35HLSC521. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35HLSC523**Elective: Gait Analysis**

Students will study the kinematic and kinetic aspects of normal and abnormal gait. Emphasis will be on the clinical analysis of gait and the development and completion of a project related to the biomechanics of walking and running. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

35HLSC567**Motor Learning for Performance**

Online course with lectures, independent study, and guided lab activities that will focus on individual differences and information processing in the principles of motor control. The process of skill learning from preparation to feedback will be discussed. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

35HLSC570**Rational & Irrational Use of Drugs of Abuse**

Course will provide a basic understanding of how drugs that act on the brain produce their effects. The pharmacological, medical & social aspects of these drugs will be discussed. Emphasis will be placed on understanding how drugs act to produce desirable effects & undesirable or toxic effects. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

35HLSC600**Independent Study**

Independent study into an area of interest (health sciences, biomechanics or rehabilitation sciences) to the student Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-4.00

Interdisciplinary Health Education**35HLTH101****Success in Allied Health I**

A continuation of Freshman Orientation. Subjects to be covered include but are not limited to academic survival skills, interpersonal relationships, campus life outside the classroom and career decisions. BoK: HU. Credit Level: U. Credit Hrs: 2.00

35HLTH102**Success in Allied Health II**

This course provides an overview and understanding of career development for CAHS students emphasizing academic preparation, career options, success and commitment to a career choice. BoK: HU. Credit Level: U. Credit Hrs: 1.00

35HLTH103**Success in Allied Health III**

This course provides first-year students with hands-on experience in areas of career choice through service learning activities to further define their career goals. BoK: HU. Credit Level: U. Credit Hrs: 1.00

35HLTH373**Health Care Ethics**

This interdisciplinary course considers ethical theories and principles applicable to nursing, pharmacology, and the allied health professions. Using scholarly inquiry, students will analyze ethical dilemmas that may occur in their professional roles. Students will address ethical issues across the lifespan in diverse socioeconomic and cultural situations. BoK: NA. Credit Level: U. Credit Hrs: 2.00

35HLTH506**Health Data Management**

This course will provide the methods and techniques to manage health care data, to develop documentation guidelines and understand compliance regulations and standards of AHIMA (accreditation organization). BoK: NA. Credit Level: U. Credit Hrs: 5.00

Interdisciplinary Health Education**35HLTH508****Clinical Data Management**

This course will focus on evaluating and analyzing clinical data. The course will address clinical classifications, terminologies and future initiatives in coding. BoK: NA. Credit Level: U. Credit Hrs: 5.00

35HLTH510**Applied Reimbursement Methods**

This course will focus on analysis of reimbursement methods and the role of HIM professionals in revenue cycle management. BoK: NA. Credit Level: U. Credit Hrs: 5.00

35HLTH570**Integrative Therapies for Health Sciences**

An interdisciplinary course introducing health science students to complimentary and alternative therapies. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00

35HLTH650**Case Studies in Interdisciplinary Health Care**

An interdisciplinary course designed to provide hands-on experience in the concepts and rationale of interdisciplinary care. Emphasis is placed on the essential need for interdisciplinary care and effective communication among the disciplines. BoK: DC., SE. Credit Level: U, G. Credit Hrs: 3.00

35HLTH660**Health Care Delivery Systems**

This course is a broad overview of the U.S. health care system and its many components including organizational structures, mechanisms for health care delivery, health services financing, determinants of health and health status, health policy, and quality of health care. BoK: HU. Credit Level: U, G. Credit Hrs: 2.00-5.00

35HLTH680**Legal Aspects of Health Care**

This course explores the legal and regulatory environment within which health care providers and professional must operate. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

35HLTH673**Health Care Ethics**

This interdisciplinary course considers ethical theories and principles applicable to nursing, pharmacology, and the allied health professions. Using scholarly inquiry, students will analyze ethical dilemmas that may occur in their professional roles. Students will address ethical issues across the lifespan in diverse socioeconomic situations. Credit Level: G. Credit Hrs: 2.00

Nutrition Sciences**35NUTR176****Food Science I**

Basic culinary techniques, and menu planning; introduction to the study of the physical and chemical properties and sensory evaluation of food. Lecture and lab. BoK: NA. Credit Level: U. Credit Hrs: 4.00

35NUTR240**Personal Nutrition**

This course is designed for majors and non-majors. The course will provide an overview of nutrient metabolism and review important functions of nutrients on life processes and the role of nutrients on health and disease. Tools to evaluate and analyze personal nutrition will be discussed. BoK: NS. Credit Level: U. Credit Hrs: 3.00

35NUTR241**Principles of Nutrition**

This course will review the scientific principles of nutrition with an emphasis on macronutrient and micronutrient metabolism and functions. The course includes an introduction to the basic methods of nutritional assessment. Prereq: 35NUTR240. BoK: NS. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Nutrition Sciences**35NUTR252****Lifecycle Nutrition**

Nutritional needs to support growth and development from conception through adulthood and aging. Prereq: 35NUTR240. BoK: NS. Credit Level: U. Credit Hrs: 3.00

35NUTR282**Explore Dietetics & Nutrition**

Introduction to the field of Dietetics and Nutrition in relation to its history and practices in the health care system. An overview of policies, procedures and curricula in the Department of Nutritional Sciences will be provided. BoK: NA. Credit Level: U. Credit Hrs: 1.00

35NUTR376**Food Science II**

The study of the chemical and physical properties of food; the effects of processing on nutritive value; and sensory evaluation of foods. Prereq: 35NUTR176. BoK: QR. Credit Level: U. Credit Hrs: 4.00

35NUTR381**Communication Skills in Nutrition**

Basic techniques of oral and written communication skills used in the field of nutrition. Includes oral presentations, interviewing and counseling techniques; development of lesson plans. Prereq: 35NUTR240. BoK: HU. Credit Level: U. Credit Hrs: 3.00

35NUTR382**Nutritional Assessment Methods**

This course will provide students with an in-depth look at the major assessment techniques including dietary, anthropometric, physical and biochemical methods for assessing nutritional status. Students gain practical experience in applying specific assessment techniques to various disease states, including cardiovascular disease, diabetes gastrointestinal disease and renal disease. Prereq: 35NUTR252, 35NUTR603. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35NUTR476**Quantity Foods**

Planning of institutional menus, including purchasing, preparation, and service of food. Lec. and lab. Prereq: 35NUTR376. BoK: QR. Credit Level: U. Credit Hrs: 4.00

35NUTR482**Professional Seminar**

Discussion of goal setting, portfolio development, resume preparation, interviewing skills, and other topics related to professional development. Assist students in portfolio preparation to fulfill requirement for capstone experience for Dietetics and Food and Nutrition majors. BoK: NA. Credit Level: U. Credit Hrs: 2.00

35NUTR572**Projects and Problems in Nutrition**

A course designed to allow students to pursue an individualized learning project with approval of and under supervision of a faculty member. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

35NUTR575**Community Nutrition**

Nutrition programs in the community and fundamentals of nutrition care delivery. Includes nutrition assessment, nutrition education and design of programs. Prereq: 35NUTR240. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

35NUTR578**Institutional Management**

Principles of management in institutional food service settings. Includes resource management, quality assurance, accounting and marketing. BoK: QR. Credit Level: U, G. Credit Hrs: 4.00

35NUTR580**Nutrition Practicum**

Field experiences in areas of Nutrition, Nutrition and Business, Food Service, Management, or Nutrition and Exercise. Must be pre-arranged with instructor one quarter prior to enrollment. Senior standing. Majors

Nutrition Sciences**35NUTR580****Nutrition Practicum**

only. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

35NUTR582**Internship Seminar**

Discussion of the dietetic internship application process, including a review of internship requirements, introduction to specific internship alternatives, and assistance with completion of application requirements. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

35NUTR600**Advanced Nutrition I**

In-depth study of the biochemical and physiological functions of energy, protein, fat and carbohydrates. Prereq: 28CHEM206, 15BIOL203. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

35NUTR601**Advanced Nutrition II**

In-depth study of the biochemical and physiological functions of vitamins. Prereq: 35NUTR600. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

35NUTR602**Advanced Nutrition III**

In-depth study of the biochemical and physiological functions of minerals. Review of role of phytochemicals in nutrition and health. Prereq: 35NUTR601. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

35NUTR603**Medical Nutrition Therapy I**

Nutrition therapy and diet modifications for pathological conditions. Includes nutrition care planning and medical record documentation. Prereq: 35NUTR600, 15BIOL203. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

35NUTR604**Medical Nutrition Therapy II**

Nutrition therapy and diet modifications for pathological conditions. Includes nutrition care planning for cardiovascular disease, diabetes, hypertension and chronic obstructive pulmonary disease. Prereq: 35NUTR603. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

35NUTR605**Medical Nutrition Therapy III**

Nutritional therapy and diet modifications for pathological conditions. Includes nutrition care planning for gastrointestinal diseases, diseases of the liver and kidney and cancer therapeutics. Prereq: 35NUTR604. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

35NUTR650**Nutrition and Exercise**

Study of interactions between nutrition and exercise with emphasis on health promotion and fitness. Prereq: 35NUTR240. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

35NUTR685**Nutrition Research Methods**

Methodologies and practicum experience related to conducting nutrition research. Prereq: 35NUTR602, 15MATH146. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

35NUTR691**Supervised Practice Experience I**

Individually assigned site rotations that enable the student to demonstrate entry-level dietitian competence by attaining all of the Commission on Accreditation for Dietitians Education Core Competencies. Students work with, and are evaluated by, a number of site preceptors. Participation is required in weekly programs designed to enhance the supervised practice experience. BoK: NA. Credit Level: U, G. Credit Hrs: 6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Nutrition Sciences**35NUTR692****Supervised Practice Experience II**

Individually assigned site rotation that enable the student to demonstrate entry-level dietitian competence by attaining all of the Commission on Accreditation for Dietitians Education Core Competencies. Students work with, and are evaluated by a number of site preceptors. Participation is required in weekly programs designed to enhance the supervised practice experience. Prereq: 35NUTR691. BoK: NA. Credit Level: U, G. Credit Hrs: 15.00

35NUTR693**Supervised Practice Experience III**

Individually assigned site rotations that enable the student to demonstrate entry-level dietitian competence by attaining all of the Commission on Accreditation for Dietitians Education Core Competencies. Students work with, and are evaluated by, a number of site preceptors. Participation is required in weekly programs designed to enhance the supervised practice experience. Prereq: 35NUTR692. BoK: NA. Credit Level: U, G. Credit Hrs: 15.00

35NUTR694**Supervised Practice Experience IV**

Individually assigned site rotations that enable the student to demonstrate entry-level dietitian competence by attaining all of the Commission on Accreditation for Dietitians Education Core Competencies. Students work with, and are evaluated by, a number of site preceptors. Participation is required in weekly programs designed to enhance the supervised practice experience. Prereq: 35NUTR693. BoK: NA. Credit Level: U, G. Credit Hrs: 15.00

35NUTR782**Nutrition Strategies for Behavior Change**

Understanding and application of theoretical frame works from the behavioral sciences to design nutrition intervention programs to various groups and to facilitate the adoption of healthful behaviors. Prereq: 35NUTR240. Credit Level: G. Credit Hrs: 3.00

35NUTR783**Macronutrients**

An in-depth examination of energy and macronutrient metabolism. Prereq: 28CHEM206. Credit Level: G. Credit Hrs: 3.00

35NUTR784**Vitamin Nutrition**

For each vitamin, consideration will be given to structure, sources, digestion, absorption, transport, functions and mechanisms of action, metabolism and excretion, recommended dietary allowance or dietary reference intake, deficiency, toxicity, and assessment of nutriture. Prereq: 28CHEM206. Credit Level: G. Credit Hrs: 3.00

35NUTR785**Mineral Nutrition**

A course that will allow students to demonstrate a gain in knowledge related to the biochemical and physiological aspects of mineral nutrition. A discussion of current research related to mineral nutrition. Prereq: 28CHEM206. Credit Level: G. Credit Hrs: 3.00

35NUTR786**Advanced Clinical Nutrition**

This course is based on a knowledge of macro-nutrient metabolism, physiology & biochemistry. Chronic and acute diseases that involve diet therapy will be examined from the standpoint of understanding the disease state and the current nutritional approaches to preventing and/or managing the disease. Prereq: 35NUTR783, 29NURS820. Credit Level: G. Credit Hrs: 3.00

35NUTR787**Topics in Nutrition Research**

Students will learn the skills required to critically evaluate current nutrition research through reading research articles, interpreting results and conclusions, and searching for relevant literature. Prereq: 35NUTR240. Credit Level: G. Credit Hrs: 3.00

Nutrition Sciences**35NUTR788****Methods in Nutritional Assessment**

The aims of this course are to provide the skills for understanding and evaluating the dietary, clinical, and biochemical components in the assessment of nutritional status of individuals and communities. Prereq: 35NUTR783, 35NUTR784. Coreq: 35NUTR785. Credit Level: G. Credit Hrs: 3.00

35NUTR871**Individual Study in Food and Nutrition**

Individual research on a problem in the area of food and nutrition. Credit Level: G. Credit Hrs: 1.00-9.00

35NUTR872**Readings in Food and Nutrition**

A selected program of readings regarding major research contributions in the area of food and nutrition when there is no opportunity in a regularly scheduled class to pursue such an investigation. Credit Level: G. Credit Hrs: 1.00-9.00

35NUTR874**Masters Thesis Guidance**

A research investigation. Credit Level: G. Credit Hrs: 1.00-6.00

Physical Therapy**35PT500****Sports Medicine Seminar I**

Lecture/Seminar/ Journal Club Series to bring new techniques, research and protocols to discussion in the sports medicine field. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

35PT501**Sports Medicine Seminar II**

Seminar Course geared toward active discussion following formal presentations and journal article review 2X a quarter. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

35PT831**Physiology, Pathology and Pharmacology I**

Part I focuses on the basic principles of cell physiology and histology, homeostasis, and general introduction to the physiology of musculoskeletal system. In addition, pathologies of inflammation, cell and tissue injury and healing, immunopathology, general principles of pharmacology are also included. Emphasis will be on understanding and application of information of the respective topics. Credit Level: G. Credit Hrs: 3.00

35PT832**Physiology, Pathology and Pharmacology II**

Part II emphasis is on an in-depth study of physiology, pathophysiology, and pharmacology of the musculoskeletal and endocrine systems, and cancer. Credit Level: G. Credit Hrs: 3.00

35PT833**Physiology, Pathology & Pharmacology III**

This course emphasizes the physiology, pathophysiology and pharmacology of the cardiopulmonary systems, blood, and digestive system. Credit Level: G. Credit Hrs: 3.00

35PT834**Physiology, Pathology and Pharmacology IV**

This course emphasizes the physiology, pathology, and pharmacology of the nervous and renal systems and the skin. Credit Level: G. Credit Hrs: 3.00

35PT835**Physiology, Pathology and Pharmacology V**

This section discusses selective topics and case studies of various medical conditions. Emphasis on recognizing and management of medical emergencies will be discussed thoroughly. Credit Level: G. Credit Hrs: 2.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Physical Therapy**35PT841****Movement Science I**

This course will introduce students to the concepts of motor learning and progress to the analysis of static and dynamic activities in the upper quarter. Students will use biomechanical principles to study joint motion and the forces involved in activities of the cervical spine and upper extremity. Credit Level: G. Credit Hrs: 2.00

35PT842**Movement Science II**

Students will use biomechanical principles to study joint motion and the forces involved in activities of the thoracic and lumbar spine and lower extremity. The components of gait and posture, including deviations will be covered. Credit Level: G. Credit Hrs: 3.00

35PT843**Movement Science III**

Theories and principles of motor control and motor learning, concepts related to recovery of function and plasticity, models of disablement will be covered. Conceptual frameworks for clinical practice, normal aging and abnormal postural control and balance, and an introduction of constraints on motor control in general neurological impairments will be covered. Applied neuroscience will be the focus of laboratory activities related to motor control and learning. Credit Level: G. Credit Hrs: 3.00

35PT844**Movement Science IV**

This course will focus on motor development from conception through old age. The impact of age related changes, including social, psychological and physiological on functional movement will be discussed. Students will be introduced to some common abnormalities and pathologies. The material will be presented primarily in a lecture format although several laboratory sessions, primarily observation, such as observing typical infant development, will be included. Videos and computer assisted learning will also be utilized. Credit Level: G. Credit Hrs: 4.00

35PT845**Movement Science V**

This course will focus on development from conception through old age. The impact of age related changes, including social, psychologic and physiologic, on functional movement will be discussed. Students will be introduced to some common abnormalities and pathologies, with an emphasis on the pediatric and geriatric populations, as well as appropriate PT intervention. The material will be presented primarily in a lecture format with one laboratory session on infant/child development. Videos and computer assisted learning will also be utilized. Credit Level: G. Credit Hrs: 2.00

35PT846**Patient Management I: Musculoskeletal Conditions**

This course will focus on physical therapy evaluation and differential diagnosis in relationship to orthopedic problems of the upper extremity joints. Emphasis will be placed on differential diagnosis, imaging, conservative management and post surgical management of the shoulder, elbow and wrist/hand. Credit Level: G. Credit Hrs: 4.00

35PT847**Patient Management II: Musculoskeletal Conditions**

This course will focus on physical therapy evaluation and differential diagnosis in relationship to orthopedic problems of the lower extremity joints. Emphasis will be placed on differential diagnosis, imaging, conservative management and post surgical management of the hip, knee, and ankle. Credit Level: G. Credit Hrs: 3.00

35PT848**Patient Management III: Musculoskeletal Conditions**

This course will focus on the physical therapy examination, evaluation, diagnosis, prognosis, intervention, reexamination, outcomes, and criteria for discharge in patients with spinal and TMJ dysfunctions. Emphasis will be placed on differential diagnosis, imaging, common conservative/postoperative management and interventions of lumbosacral, sacroiliac, thoracic, cervical and temporomandibular

Physical Therapy**35PT848****Patient Management III: Musculoskeletal Conditions**

disorders. Spinal joint mobilization will be mastered. Primary prevention/risk factor reduction strategies for the specific patient/client diagnostic groups will also be covered. Credit Level: G. Credit Hrs: 3.00

35PT856**Patient Management I: Neuromuscular Conditions**

Techniques of examination (history, systems review, and tests and measures) and evaluation of patients and clients with impaired motor function and sensory integrity associated with congenital, acquired, and progressive disorders of the central nervous system throughout the life span will be covered. The theoretical and research basis for treatment approaches of the above patient/client problems will also be covered. The identification of problems and their possible solutions, the implementation of the solutions, and alternative treatments will be emphasized. Credit Level: G. Credit Hrs: 4.00

35PT857**Patient Management II: Neuromuscular Conditions**

A continuation of Neuromuscular Conditions I. Topics covered will include rehabilitation concepts and the special needs of the patient, evaluation, utilization of imaging, and treatment planning of patients with neuromuscular disorders, including TIA, CVA, TBI, Parkinsons Disease, MS, ALS as well as acute or chronic polyneuropathies including Guillian-Barre syndrome and post-polio syndrome. Credit Level: G. Credit Hrs: 5.00

35PT858**Patient Management III: Neuromuscular Conditions**

A continuation of Neuromuscular Conditions II. Topics covered will include rehabilitation concepts and the special needs of the patient, evaluation, utilization of imaging, and treatment planning of adults and children with neuromuscular disorders, including SCI, myelodysplasia and cerebral palsy. Additionally, wheelchair prescription and adaptations utilized with clients with neuromuscular dysfunction will be covered. Credit Level: G. Credit Hrs: 5.00

35PT860**Introduction to Applied Anatomy**

This course is a two and one half week session designed as a prelude to the subsequent two quarters of Applied Anatomy. The student will be given an introduction to concepts fundamental to human anatomy including anatomical terminology, cross sectional anatomy, radiology and dissection skills. Student conducted cadaver dissections and prosections will be used to facilitate the student's understanding of structure, location and function of organs, muscles and other anatomic structures. The course will be taught using a regional approach. The regions to be covered in this session are the back, pectoral region and an introduction to the upper extremity. Case studies relating anatomy to clinical findings will be considered on a regular basis during student led discussions. Credit Level: G. Credit Hrs: 2.00

35PT861**Applied Anatomy I**

During this course, the student will be given an introduction to concepts fundamental to human gross anatomy including anatomical terminology, cross sectional anatomy, radiology and dissection skills. Student-conducted cadaver dissections, prosections & anatomical models will be used to facilitate the student's understanding of structure, location & function of muscles, blood vessels, nerves & other anatomic structures. The course will be taught using a regional approach. The regions to be covered are vertebral column, upper extremity and thorax. Credit Level: G. Credit Hrs: 3.00

35PT862**Applied Anatomy II**

This course follows Applied Anatomy I and continues an in-depth investigation into normal human anatomy. Student-conducted cadaver dissections, prosections and anatomical models will be used to facilitate the student's understanding of structure, location & function of muscles, blood vessels, nerves, organs & other anatomic structures. The regions

Physical Therapy**35PT862****Applied Anatomy II**

to be covered in this session are the abdomen, pelvis/perineum & the lower extremity. Case studies relating anatomy to clinical findings will be considered on a regular basis during student-led discussions. Credit Level: G. Credit Hrs: 4.00

35PT863**Applied Anatomy III**

This course will cover the basic functional anatomy of the human nervous system. Emphasis will be placed on the structure and function of the major components of the central, autonomic & peripheral nervous system diseases & dysfunctions. Student-conducted cadaver dissections, prosections, brain sections & anatomical models will be used to facilitate the student's understanding of structure, location & function of organs, muscles & other anatomic structures. Credit Level: G. Credit Hrs: 4.00

35PT865**Patient Management I: Medical Conditions (Integumentary)**

Topics covered will include rehabilitation concepts and the special needs of the patient with integumentary problems, including evaluation, documentation, and treatment planning of patients with wounds and burns. Peripheral Vascular disease examination and intervention will also be covered. Credit Level: G. Credit Hrs: 4.00

35PT866**Patient Management II: Medical Conditions (Acute Care)**

This course will cover the examination, evaluation, diagnosis, prognosis, and intervention of patients with acute medical conditions, co-morbidities, and other conditions, including the normal and abnormal function of the cardio-pulmonary system. Elements of patient management within the acute care setting will be addressed including elements of patient management with primary and secondary diagnosis involving the cardiopulmonary system. Credit Level: G. Credit Hrs: 4.00

35PT867**Patient Management III: Medical Conditions (Rehabilitation)**

Topics covered will include rehabilitation concepts and the special needs of the patient with amputation, including evaluation, documentation, and treatment planning of this type of patient. Prosthetic management will also be covered. Credit Level: G. Credit Hrs: 3.00

35PT869**Special Considerations in Clinical Management**

This course will cover the physical therapy management of patients: in unique clinical settings, such as the educational setting; with selected diagnoses, such as genitourinary dysfunction and other women's health issues; and affected by specific cultural, legal and health care system issues, such as end of life issues, related to patient care. Credit Level: G. Credit Hrs: 3.00

35PT871**Professional Roles I**

This course introduces students to the profession of physical therapy. Concepts of professionalism, communication, applicable laws, ethics, and the scope of practice are discussed. Students begin the process of learning to assess themselves in and develop a plan for professional development. Credit Level: G. Credit Hrs: 2.00

35PT872**Professional Roles II**

The student will examine & apply communication theories & theories/components of intentional change & learning styles. The dynamics of inter-personal communication will be explored as the student practices active listening, interviewing & negotiation skills with a variety of health care system stakeholders. The student will continue to reflect on & respond to the concept of "cultural competence & patient centered care." Organizational structure & behavior, public & health policies will be examined as the student discovers the role of the "PT as Consultant." Credit Level: G. Credit Hrs: 2.00

Physical Therapy**35PT873****Professional Roles III**

This course will study administrative structures, procedures, and methods of management and leadership found in various health care settings. Managerial responsibilities of budget, billing and reimbursement, evaluation, procedure manual, program development, and outcome designs will be integrated with participation in a design project. Credit Level: G. Credit Hrs: 2.00

35PT876**Evidence Based Physical Therapy I**

The purpose of this course is to introduce the student to research methods and concepts with special emphasis on critically analyzing evidence. The course will focus on various aspects of clinical or epidemiological research in the field of physical therapy. Students in this course will be expected to: 1) critically analyze evidence, both current cumulative evidence and individual published articles; and 2) apply this evidence to clinical cases. Specific methods and concepts that will be introduced include epidemiological terms and concepts, study design, reliability and validity, and statistics (descriptive, analytical, parametric, and nonparametric). Credit Level: G. Credit Hrs: 3.00

35PT877**Evidence Based Physical Therapy II**

This course will focus on various aspects of clinical or epidemiological research in the field of physical therapy. This class applies topics learned in EBPT I and integrates them into clinical decision making. The emphasis in EBPT II will be on interventions, tests and measures learned or are being currently learned during the Patient Management series (Neuromuscular, Acute and Integumentary). Throughout this class, you may find it useful to review the notes and textbooks you used during these classes. The goals of this class are 1) to critically analyze evidence, both current cumulative evidence and individual published articles; and 2) apply this evidence to clinical cases. Credit Level: G. Credit Hrs: 2.00

35PT878**Evidence Based Physical Therapy III**

The goal of this class is for you to critically analyze evidence from published articles and apply it to clinical case studies. The course will focus on various aspects of clinical or epidemiological research in the field of physical therapy. Emphasis will be on diagnosis, prognosis, interventions, and tests and measures learned in previous coursework. Credit Level: G. Credit Hrs: 2.00

35PT881**Examination I**

This course introduces students to imaging and the examination process. Students assimilate the language of health care, demonstrating appropriate documentation skills, as they begin the review of the medical record, the interview process and the review of systems. PT related imaging techniques are introduced along with the objective measurements of range of motion and manual muscle testing. Adaptation of these skills to differing populations is included. Credit Level: G. Credit Hrs: 3.00

35PT882**Examination II**

This course expands on the examination and evaluation skills of the upper quarter. Students continue to progress interviewing skills through the collection of pertinent medical history, the viewing of applicable imaging, & the gathering of subjective information. As part of the management of patients with upper quarter symptoms, students continue to conduct appropriate systems reviews & administer appropriate tests & measures. Implications for upper quarter evaluation, diagnosis & prognosis are included. Credit Level: G. Credit Hrs: 4.00

35PT883**Examination III**

This course expands on the examination & evaluation skills of the lower quarter. Students continue to progress interviewing skills through the

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Physical Therapy**35PT883****Examination III**

collection of pertinent medical history, the viewing of applicable imaging, and the gathering of subjective information. As part of the management of patients with lower quarter symptoms, students continue to conduct appropriate systems reviews and administer appropriate tests and measures. Implications for lower quarter evaluation, diagnosis and prognosis are included. Credit Level: G. Credit Hrs: 4.00

35PT884**Examination IV**

This course expands on the examination and evaluation skills. Emphasis is placed on patients with musculoskeletal systems involving the trunk. Students will also integrate basic examination skills related to posture, gait, spasticity, reflexes and development. Variations within populations will be presented. Credit Level: G. Credit Hrs: 4.00

35PT885**Imaging I**

This course covers basic principles and interpretation of diagnostic imaging modalities as they apply to physical therapy. The emphasis is on plain film radiography, including the basic physics of imaging techniques, viewing, interpreting films, radiographic anatomy and clinical correlation with orthopedic patient cases. Other types of imaging, including contrast studies, MRI and CT will be examined. Credit Level: G. Credit Hrs: 1.00

35PT886**Imaging II**

This course covers basic principles and interpretation of diagnostic imaging modalities as they apply to physical therapy. The emphasis is on the basic physics of imaging techniques, viewing, interpreting films, radiographic anatomy and clinical correlation with patient cases on the chest, abdomen, genitourinary system, and the brain. Other types of imaging including contrast studies, MRI, and CT will be studied. Credit Level: G. Credit Hrs: 1.00

35PT887**Interventions I**

An introduction to the basic skills required for physical therapists to begin progressive mobility training. Patient problems, lecture and lab will guide students through the development of good body mechanics, the spectrum of mobility training, wheelchair skills, transfers, assistive devices, positioning, draping, and active and passive ROM. Credit Level: G. Credit Hrs: 3.00

35PT888**Interventions II**

This course will introduce students to physical therapy interventions. Patient problems, lecture & lab will guide students through the development of appropriate positioning, draping & infection control techniques needed for physical agents. Emphasis will be on the physical principles, biophysical effects & clinical indications & procedures associated with the implementation of electrical current, electromagnetic heat, cold, light & acoustic energy & massage in the prevention & treatment of dysfunction. Credit Level: G. Credit Hrs: 4.00

35PT889**Interventions III**

Students will master the principles of exercise, strengthening, stretching, and advanced therapeutic exercise techniques. The use of basic evaluation techniques to select appropriate exercises will be covered as well as the physiological response to exercise. Theories, advantages, and indications of several approaches will be discussed. Patient problems will be utilized for students to develop exercise programs and become familiar with functional progression. Students will utilize evaluation findings and literature to justify exercises in treatment plan. Credit Level: G. Credit Hrs: 3.00

Physical Therapy**35PT900****Introduction to Clinical Education**

Clinical education in the University of Cincinnati's Physical Therapy program makes up 42 weeks of the PT student's preparation for becoming an entry-level physical therapist. This course will prepare the student for their full-time clinical rotations through active learning experiences designed to increase the student's knowledge base in understanding the clinical expectations from the clinical instructor's viewpoint, reviewing case scenarios, successfully completing the APTA certification quiz for the PT CPTI Web, and presenting cases that will enable the student to establish a decision-making framework for clinical issues. Credit Level: G. Credit Hrs: 1.00

35PT901**Physical Therapy Practice I**

This course will consist of a four-week full-time clinical affiliation experience. The experience is specifically designed to assist the student to begin achieving the competency necessary to work as an entry-level physical therapist; however, the focus of the clinical experience is on the application of evidence and research in the clinical setting. The affiliation will take place in facilities specifically selected by the program to allow the students orientation to evidence based practice. Credit Level: G. Credit Hrs: 4.00

35PT902**Physical Therapy Practice II**

This experience is designed to assist the student in achieving the competency necessary to work as an entry-level PT. This course will consist of a ten-week full-time clinical affiliation experience in inpatient or outpatient facilities. Students will work under the supervision of an experienced PT, evaluating patients, giving input to the interpretation of evaluation findings, making progress toward the setting of appropriate functional goals, implementing an appropriate treatment plan and participating in the modification of the treatment plan through the evaluation of its effectiveness. Credit Level: G. Credit Hrs: 10.00

35PT903**Physical Therapy Practice III**

This experience is designed to assist the student in achieving the competency necessary to work as an entry-level PT. This course will consist of a ten-week full-time clinical affiliation experience in inpatient or outpatient facilities. Specialty areas may include, but not be limited to, skilled nursing facilities, extended care facilities, home health, sports medicine clinics, pediatric settings, or freestanding rehab facilities. Students will be supervised by an experienced PT who will facilitate their skills in patient/client evaluation, interpretation of evaluation/assessment findings, problem identification and prioritization, functional goal setting, implementation of appropriate treatment plans and modification of treatment plan/intervention via evaluation of effectiveness through ability to monitor outcomes. The student is expected to be much more comprehensive in his/her practice. The PT Practice III experience will offer an opportunity for greater integration of classroom activity with clinical practice. Credit Level: G. Credit Hrs: 10.00

35PT904**Physical Therapy Practice IV**

This experience will be designed to assist the student in achieving the competency necessary to work as an entry-level PT. This course will consist of a nine-week full-time clinical affiliation experience in inpatient or outpatient facilities. Specialty areas may include, but not limited to, skilled nursing facilities, extended care facilities, home health, sports medicine clinics, pediatric settings or free-standing rehab facilities. Students will be supervised by an experienced PT who will facilitate their skills in patient/client evaluation, interpretation of evaluation/assessment findings, problem identification and prioritization, functional goal setting, implementation of appropriate treatment plans, and modification of treatment plan/ intervention via evaluation of effectiveness through ability to monitor outcomes. PT Practice IV will serve as a capstone experiences. Students should be comprehensive in their practice and largely entry-level in all areas. Credit Level: G. Credit

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

Physical Therapy**35PT904****Physical Therapy Practice IV**

Hrs: 9.00

35PT905**Physical Therapy Practice V**

This experience will be designed to assist the student in the achievement of entry-level competence in his/her practice of all aspects of PT. This course will consist of a ten-week full-time clinical affiliation experience in inpatient or outpatient facilities. Specialty areas may include, but not be limited to, skilled nursing facilities, extended care facilities, home health, sports medicine clinics, pediatric settings, or freestanding rehab facilities. Students will be supervised by an experienced PT who will facilitate their skills in patient/client evaluation, interpretation of evaluation/assessment findings, problem identification and prioritization, functional goal setting, implementation of appropriate treatment plans, and modification of treatment plan/intervention via evaluation of effectiveness through ability to monitor outcomes. The PT Practice V is the final capstone experience the student will have in the program. The student should be at entry-level competence in the practice of physical therapy. Credit Level: G. Credit Hrs: 10.00

35PT910**Research I**

This course will provide an understanding of the skills required in conducting research in health related sciences with emphasis on the PT field. Students will be introduced to the basics of research: thinking processes, design approaches & statistical analysis of findings. They will also be familiarized with the rules & regulations for conducting basic & clinical research. In addition, students will be introduced to guidelines for writing research protocols. Finally, they will acquire skills necessary to conduct and present their findings for publications or presentations. Credit Level: G. Credit Hrs: 3.00

35PT911**Clinical Research I**

The goal of this class is to prepare students to conduct their research capstone project. The majority of students will conduct a case study as their capstone project. This course will review research methodology with the focus of conducting a clinical case study. Students will be introduced to scientific writing techniques. In order to prepare the students for the research capstone project, they will be assigned a simulated clinical patient (written) and be asked to design a case study for that patient including conducting a literature search. Finally, during this quarter students will be assigned a faculty advisor and begin to identify a possible capstone project. The faculty advisor will be the instructor through the Clinical Research II-V. The culmination of the Clinical Research series will be a research capstone project that the students will present (either poster or oral) at the annual College of Allied Health Sciences research day, PRAISE. In addition, the faculty advisor may request that the student submit the case study for future dissemination in a peer reviewed journal or at a conference. Credit Level: G. Credit Hrs: 1.00-3.00

35PT912**Clinical Research II**

The goal is to guide the student's progress toward completion of the research capstone project. The faculty advisor is the instructor for the series of Clinical Research II-V. Students have the option of choosing to complete a case study or making a contribution to the American Physical Therapy "Hooked on Evidence" site. The capstone project is the culmination of the Clinical Research course series. Completion of the capstone will require students to search the literature in a specific area of physical therapy practice, analyze and critically evaluate the literature, and apply the knowledge gained from the literature in a scientific manner to the appropriate population. Results of the capstone project will be presented in a poster or oral format at the College of Allied Health Sciences annual student PRAISE conference. In addition, the faculty advisor may request that the student submit the capstone project for future dissemination in a peer reviewed journal or at a

Physical Therapy**35PT912****Clinical Research II**

conference. Assignment of the faculty advisor and identification of a capstone project occurs during Clinical Research I. Credit Level: G. Credit Hrs: 1.00-3.00

35PT913**Clinical Research III**

The goal is to guide the student's progress toward completion of the research capstone project. The faculty advisor is the instructor for the series of Clinical Research II-V. Students have the option of choosing to complete a case study or making a contribution to the American Physical Therapy "Hooked on Evidence" site. The capstone project is the culmination of the Clinical Research course series. Completion of the capstone will require students to search the literature in a specific area of physical therapy practice, analyze and critically evaluate the literature, and apply the knowledge gained from the literature in a scientific manner to the appropriate population. Results of the capstone project will be presented in a poster or oral format at the College of Allied Health Sciences annual student PRAISE conference. In addition, the faculty advisor may request that the student submit the capstone project for future dissemination in a peer reviewed journal or at a conference. Assignment of the faculty advisor and identification of a capstone project occurs during Clinical Research I. Credit Level: G. Credit Hrs: 1.00-3.00

35PT914**Clinical Research IV**

The goal is to guide the student's progress toward completion of the research capstone project. The faculty advisor is the instructor for the series of Clinical Research II-V. Students have the option of choosing to complete a case study or making a contribution to the American Physical Therapy "Hooked on Evidence" site. The capstone project is the culmination of the Clinical Research course series. Completion of the capstone will require students to search the literature in a specific area of physical therapy practice, analyze and critically evaluate the literature, and apply the knowledge gained from the literature in a scientific manner to the appropriate population. Results of the capstone project will be presented in a poster or oral format at the College of Allied Health Sciences annual student PRAISE conference. In addition, the faculty advisor may request that the student submit the capstone project for future dissemination in a peer reviewed journal or at a conference. Assignment of the faculty advisor and identification of a capstone project occurs during Clinical Research I. Credit Level: G. Credit Hrs: 1.00-3.00

35PT915**Clinical Research V**

The goal is to guide the student's progress toward completion of the research capstone project. The faculty advisor is the instructor for the series of Clinical Research II-V. Students have the option of choosing to complete a case study or making a contribution to the American Physical Therapy "Hooked on Evidence" site. The capstone project is the culmination of the Clinical Research course series. Completion of the capstone will require students to search the literature in a specific area of physical therapy practice, analyze and critically evaluate the literature, and apply the knowledge gained from the literature in a scientific manner to the appropriate population. Results of the capstone project will be presented in a poster or oral format at the College of Allied Health Sciences annual student PRAISE conference. In addition, the faculty advisor may request that the student submit the capstone project for future dissemination in a peer reviewed journal or at a conference. Assignment of the faculty advisor and identification of a capstone project occurs during Clinical Research I. Credit Level: G. Credit Hrs: 1.00-3.00

Physical Therapy Technology**35PTTN204****Physical Therapist Assisting Assessments**

The student will learn how to measure joint range of motion and how to

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Physical Therapy Technology**35PTTN204****Physical Therapist Assisting Assessments**

perform manual muscle testing. Normal range of motion and kinesiology are emphasized. Prereq: C or better in 35-PTTN-2 03 BoK: NS. Credit Level: U. Credit Hrs: 6.00

35PTTN205**Therapeutic Exercise**

In-depth study of therapeutic exercise with emphasis on anatomy, kinesiology, and neurological principles. Prereq: C or better in 35-PTTN-204. Prereq: 35PTTN204. BoK: NS. Credit Level: U. Credit Hrs: 6.00

35PTTN211**Physical Therapist Assisting Sports Medicine Seminar**

This course will cover treatment, care, rehabilitation and prevention of sports and common orthopedic injuries. These concepts will be presented through the use of lecture, discussion, demonstration, laboratory and visual media. Prereq: C or better in all previous Technical Core coursework. BoK: NA. Credit Level: U. Credit Hrs: 1.00

35PTTN212**Physical Therapist Assisting Pediatric/Geriatric Seminar**

A study of the special needs of the pediatric patient, the permanently disabled, and the geriatric patient with emphasis on functions related to activities of daily living. Prereq: 35PTTN211 & C or better in all previous Technical Core coursework. Prereq: 35PTTN211. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35PTTN213**Physical Therapy Seminar III**

Course occurs during the Spring quarter of the technical core year I. Review of content in preparation for the licensing exam occurs and information on preparing for employment is reviewed. Prereq: 35-PTTN 212 & C or better in all previous Technical Core coursework. BoK: NA. Credit Level: U. Credit Hrs: 1.00

35PTTN273**Physical Therapist Assisting Functional Anatomy**

In-depth study of human anatomy with emphasis on muscles, ligaments, the peripheral neurological and vascular systems, and joint movement. Important kinesiological concepts are covered and correlated to the respective anatomy. Prereq: C or better in all previous Technical Core coursework. BoK: NS. Credit Level: U. Credit Hrs: 3.00

35PTTN274**Applied Neuroanatomy**

This course will cover the basic functional anatomy of the human nervous system. Emphasis will be placed on the structure and function of the major components of the central and peripheral nervous systems. This information will enable the student to explain and understand the basis of several nervous system diseases and dysfunctions. Additionally, treatment techniques for the neurologically involved client will be reviewed and discussed. Prereq: C or better in all previous Technical Core coursework. Prereq: 35 PTTN 273 & C or better in all previous Technical Core coursework. BoK: NS. Credit Level: U. Credit Hrs: 3.00

35PTTN277**Physical Therapist Assisting Problems-Applications**

Students will perform various exercise and rehabilitative programs in a clinical setting under the supervision of a PT. Students must have a current CPR certification in order to take this course. Prereq: C or better in all Technical Core Winter courses. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35PTTN281**Physical Therapist Assisting-Modalities**

Student will apply simple and complex modality treatments in a clinical setting under the supervision of a PT. Students must have a current CPR certification in order to take this course. Prereq: C or better in all Technical Core Winter courses. BoK: NA. Credit Level: U. Credit Hrs:

Physical Therapy Technology**35PTTN281****Physical Therapist Assisting-Modalities**

3.00

35PTTN283**Physical Therapist Asst Problems-Therapeutic Exercise**

Student will develop and carry out exercise programs for patients in a clinical setting under the supervision of a PT. Students must have a current CPR certification in order to take this course. Prereq: C or better in all Technical Core Winter courses. BoK: NA. Credit Level: U. Credit Hrs: 3.00

35PTTN285**Cardiopulmonary Function**

Study of the relationship among the heart, lungs, and circulatory systems. Disease processes, cardiac rehabilitation, physical fitness, exercise, and wellness are studied. Prereq: C or better in all previous Technical Core coursework. BoK: NS. Credit Level: U. Credit Hrs: 3.00

35PTTN287**Physical Rehabilitation**

This course will cover rehabilitation concepts and the special needs of the rehabilitation patient. Collaboration with other health care professionals using a team approach is emphasized. The rehabilitation of patients with stroke, brain injury, spinal cord injury, amputations, and total joint replacement will be included. Specific treatment approaches will be offered. Lab time and patient interaction will be provided. Prereq: C or better in all previous Technical Core coursework. BoK: NS. Credit Level: U. Credit Hrs: 3.00

35PTTN289**Clinical Integration**

This course combines knowledge of the various aspects of muscle physiology and the mechanical principles of human movement with a study of human kinesiology and those injuries and diseases which limit normal function and movement. The course will be disease oriented. BoK: NS. Credit Level: U. Credit Hrs: 3.00

35PTTN294**Human Behavior in Health & Sickness for Health Related Programs**

This course will discuss the various aspects of human behavior in response to illness. Emphasis will be on understanding normal versus abnormal reactions to illness, and therefore being able to apply the most effective therapy regimen. The course will consist of lectures, case studies, and observation of psychiatric evaluations. This course is available to all majors. BoK: SS. Credit Level: U. Credit Hrs: 3.00

35PTTN298**Clinical Internship**

Student will prepare and perform PT treatments in a physical therapy facility under the supervision of a licensed physical therapist. Students must have a current CPR certification in order to take this course. Prereq: C or better in all Technical Core Winter courses. BoK: NA. Credit Level: U. Credit Hrs: 6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

COLLEGE OF APPLIED SCIENCE

COURSE DESCRIPTIONS

(32) College of Applied Science

2008 - 2009

College of Applied Science 1

Accounting

32ACCT091

Fundamentals of Bookkeeping-Accountancy I

An introduction to the theory and principles of basic bookkeeping and contemporary accountancy. Students will learn how to collect, record, and present basic financial data. Candidates with 5 or more years of bookkeeping accountancy experience may petition to waive this course through an online examination. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ACCT092

Fundamentals of Bookkeeping-Accounting II

An examination of advanced transactions in bookkeeping accountancy. Students will explore bookkeeping-accountancy standards for assets, liabilities and equities. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ACCT093

Fundamentals of Bookkeeping-Accountancy III

An examination of specialized transactions in bookkeeping-accountancy. Students will explore the corporate accounts and fundamentals of statement preparation. Prereq.: Fund of Bkpg Acct II (32ACCT092). BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ACCT094

Fundamentals of Managerial Accounting

An examination of introductory topics in Managerial Accounting. Coverage will include contemporary issues in the application of bookkeeping-accountancy to the use and interpretation of data for managerial efficiency. Prereq.: Fund of Bkpg-Acctg III (32ACCT093). BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ACCT095

Fundamentals of Financial Statement Analysis

An introduction to basis financial statement analysis. Students will prepare a formal analysis of a company using contemporary analytical standards. Prereq.: Fund of Bkpg-Acctg III (32ACCT093). BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ACCT096

Fundamentals of Desktop Computer Accounting

The use of contemporary accounting software designed for desktop computers. Student will complete all transactions of the bookkeeping accountancy cycle with proprietary bookkeeping-accountancy programs. Prereq.: Fund Bkpg Accts III (32ACCT093). BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ACCT100

Seminar in Accounting Information Systems

The purpose of this course is to help students bridge the gap between the academic application of concepts learned in the Accounting Information Systems Program and its pragmatic utilization. As a result of the internship, students should develop greater appreciation for the efficacy of classroom learning and the importance of academic preparation. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ACCT101

Principles of Accounting I

The economic environment of accounting. The accounting cycle. Measurement and reporting. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32ACCT102

Principles of Accounting II

Asset, equity, and revenue measurement. Compound interest and present value, partnership accounting. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32ACCT103

Principles of Accounting III

Stockholders' equity. Analysis of financial statements. Accounting for price level changes. BoK: QR. Credit Level: U. Credit Hrs: 3.00

Accounting

32ACCT150

Internship in Accounting Information Systems

The purpose of this course is to help students bridge the gap between the academic application of concepts learned in the Accounting Information Systems Program and its pragmatic utilization. As a result of the internship, students should develop greater appreciation for the efficacy of classroom learning and the importance of academic preparation. Perm of Instructor. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32ACCT171

Principles of Accounting

Basic concepts and procedures of the accounting cycle. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32ACCT215

Directed Study - Accounting

This course is designed for students who require individualized instruction in Accounting. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ACCT241

Managerial Accounting I

The use of accounting data in planning and control. Introduction to cost accounting, budgetary planning and quantitative techniques. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32ACCT242

Managerial Accounting II

The use of accounting data in capital budgeting, pricing and production decisions, and the control of decentralized operations. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32ACCT245

Accounting Concepts I

This course will cover the accounting cycle, accounting for merchandising operations, asset and equity measurement, receivables, long term long term assets, payables and inventory. Prereq: 32MATH174. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32ACCT246

Accounting Concepts II

This course will cover long term liabilities, corporate transactions, stock transactions, statement of cash flow and analysis of financial statements using ratios. Prereq: 32ACCT245. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32ACCT270

Computer Accounting Applications

The integration of accounting principles and procedures and spreadsheets through ten tutorials covering recording business transactions to capital budgeting. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ACCT271

Accounting for Decision Making

This course will cover cost-volume-profit analysis, budgeting, variable costing, just in time inventory methods, present value, capital budgeting, net present value, payback, and rate of return. Prereq: 32ACCT246. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32ACCT341

Managerial Accounting I

Managerial use of accounting data in the analysis of financial statements, cost controls for labor, materials and overhead, cost variances, budget, risks, etc. Prereq: 32ACCT171. BoK: QR. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Accounting**32ACCT342****Managerial Accounting II**

A continuation of Managerial Accounting I. Prereq: 32ACCT341. BoK: QR. Credit Level: U. Credit Hrs: 3.00

Architectural Technology**32ARTN121****Construction Drawing I**

Introduction to graphics as construction communications media, sketching, construction details, beginning drafting, developing traditional and computer-aided drafting (CAD) skills. BoK: NA. Credit Level: U. Credit Hrs: 2.00-4.00

32ARTN122**Construction Drawing II**

A continuation of Construction Drawing I, developing a set of light construction working drawings. Prereq: 32ARTN121. BoK: NA. Credit Level: U. Credit Hrs: 2.00-3.00

32ARTN183**Architectural History**

Study of the architectural past to determine why certain styles developed, how they served the needs of the people, and how they have influenced contemporary design and construction. BoK: FA., HP. Credit Level: U. Credit Hrs: 3.00

32ARTN241**Architectural Design I**

Design principles as they apply to architecture in two- and three-dimensional forms. Sketching isometric and perspective drawings using pencil and ink techniques; studies and field exercises. Prereq: 32ARTN122. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ARTN242**Architectural Design II**

Continuation of Arch Design I (32ARTN241) with emphasis on design principles using modeling and a variety of rendering techniques. Prereq: 32ARTN241. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ARTN242H**Architectural Design II (Honors)**

Reading, seminars, final exam/papers topics in Architectural Design Theory. BoK: FA. Credit Level: U. Credit Hrs: 3.00

32ARTN289**Construction Estimating**

Procedures for surveying quantities of materials and projecting labor costs, contingencies, overhead and profit; bid strategies. Introduction to computerized estimating methods. Prereq: 32ARTN122, 32IET121, 32CVTN242. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ARTN318**Problems in Architecture I**

Study of residential planning and design including programming, schematics, design development and detailing. Projects include single family, multi-family, and special needs housing. Lectures on design principles. Studio course. Prereq: 32ARTN242. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ARTN319**Problems in Architecture II**

Industrial design. A study of manufacturing, laboratories, clean rooms, treatment plants, etc., including research into systems, robotics, design, and detailing. Studio course. Prereq: 32ARTN318. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ARTN372**Electrical Systems**

Power generation and transmission, equipment comparison and analysis. Design and installation of an electrical systems for a commercial building. Prereq: 32ARTN122, 32MATH244, 32PHYS183, 32PHYS188. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Architectural Technology**32ARTN373****Water Supplies and Waste Disposal Systems**

Study of water supply and waste disposal systems for commercial and industrial buildings. Topics include water chemistry, water quality and treatment, water supply and distribution, sewage treatment and solid waste disposal. Students will design a water supply and waste disposal system for a multi-story building. Prereq: 32CVTN251. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

32ARTN420**Problems in Architecture III**

Public buildings; research, programming, schematics and detailing of a bank, library, museum or other building of frequent public access. Studio course. Prereq: 32ARTN242. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ARTN421**Problems in Architecture IV**

Major land use projects; research, programming and planning for a shopping center, urban complex, transportation terminal or amusement/sports park. Team project. Studio course. Prereq: 32ARTN420. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32ARTN476**Building Code**

The course introduces the student to building code applications to various projects. Ohio Building Code will be discussed for design and construction projects. Prereq: 32ARTN122. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ARTN522**Senior Architectural Project I**

Research, programming and schematic design of major senior project: mid-rise, multi-use complex to be carried to construction document stage in Senior Architectural Project II. Prereq: 32ARTN319, 32ARTN421. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32ARTN523**Senior Architectural Project II**

Preparation of contract documents for building design in Senior Architectural Project I; use of computer aided drafting and various systems techniques. Prereq: 32ARTN522. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32ARTN524**Senior Architectural Project III**

Electrical, piping and heating/cooling designs are computer generated for the building design earlier in the sequence. Prereq: 32ARTN523. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32ARTN561**Photographics**

Uses of photographic methods in the design and study of buildings. Darkroom practice in black and white. Enlarging, mounting, exhibiting. Prereq: 32ARTN242. BoK: FA. Credit Level: U. Credit Hrs: 3.00

32ARTN571**Global Experience In Construction Science**

A faculty guided, three-week study abroad experience in which students will be exposed to several facets of international construction. BoK: DC. Credit Level: U. Credit Hrs: 3.00

32ARTN573**Mechanical Systems**

Study of environmental control equipment for buildings. Topics covered include steam, hydronic, and forced air heating systems. Study of direct expansion and chilled water cooling systems; variable air volume distribution systems; and other types of air handling equipment. Prereq: 32ARTN373. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32ARTN581**3 Dimension Computer Graphics**

Develop graphic skills required to construct 3-dimensional computer models and understand concepts in 3-D modeling in architecture. BoK:

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Architectural Technology**32ARTN581****3 Dimension Computer Graphics**

NA. Credit Level: U. Credit Hrs: 3.00

32ARTN582**3D COMPUTER RENDERING**

Students will develop those graphic skills required to construct and render 3-Dimensional computer models using 3D Studio Viz R2. Students will also develop an understanding of 3-Dimensional principles and techniques utilized in solid rendering and surface mapping processes. 3-Dimensional modeling experience using Autocad software is required. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ARTN583**Applied 3D Graphics & Rendering**

Apply skills acquired in 3D Computer Rendering in a workplace scenario. Students will construct a complete model showing interior and exterior renderings as well as rendered cross sections. Prereq: 32ARTN582. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Business Administration**32BA171****Introduction to Business**

A functional overview of business which includes major issues in business today and business career opportunities. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32BA215**Directed Study - Business Administration**

This course is designed for students who require individualized instruction in Business Administration. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32BA271**Introduction to Business: Study Abroad**

A study abroad course comparing American and foreign management, marketing, finance, human resources and production practices. Cultural differences affecting business practices will also be analyzed. Perm of Instructor. BoK: DC. Credit Level: U. Credit Hrs: 3.00

Biological Sciences**32BIOL144****Principles of Cell Biology I**

An introduction to the principles and laboratory techniques associated with contemporary cell biology. This course will examine the major biological, chemical, and structural components of eukaryotic cells. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32BIOL145**Principles of Cell Biology II**

A continuation of Principles of Cell Biology I. Prereq: 32BIOL144. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32BIOL154**Principles of Cell Biology I Laboratory**

Laboratory experiments, designed to complement lecture material in Prin of Cell Biology I. Coreq: 32BIOL144. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32BIOL155**Principles of Cell Biology II Laboratory**

Laboratory experiments - design to complement lecture materials in Prin of Cell Biology II. Prereq: 32BIOL154. Coreq: 32BIOL145. BoK: NA. Credit Level: U. Credit Hrs: 1.00

Business Law**32BLAW215****Directed Study - Business Law**

This course is designed for students who require individualized instruction in Business Law. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Business Law**32BLAW271****Business Law I**

A study of the legal environment of business, including the principles of dispute resolution, tort, consumer protection, antitrust and employment law. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

32BLAW272**Business Law II**

Contract and property law. The law of negotiated obligations, with emphasis on economic and social reasons for contract rules. Introduction to the Uniform Commercial Code. Survey of the law of real and personal property. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

Building Trades Technology**32BLTN001****Blueprint Reading for Building Trades**

Introductory course in reading building drawings to understand the several branches of work and their relation to each other; examination of contracts, documents, calculations. Knowledge of basic arithmetic required. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32BLTN010**Occupational Safety & Health Standards for the Construction Industry**

This course covers OSHA policies, procedures and standards, as well as construction safety and health principles. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32BLTN015**Trainer Course for the Construction Industry Standard**

This course is designed for the students in the private sector who are interested in teaching the 10- and 30-hour construction safety and health outreach program to their employees and other interested groups. Special emphasis is on those topics that are required in the 10- and 30-hour program and the most hazardous, using OSHA standards as a guide. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32BLTN107**Construction Materials**

Investigation and laboratory experimentation with a wide range of materials and methods. Emphasis on soils, masonry, concrete, and light framing with steel and wood. Group lab projects, films, guest speakers, and field trips. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32BLTN310**Construction Equipment**

Horizontal and vertical materials handling. Earthmoving, excavation, cranes. Comparative economics of equipment; depreciation. Concrete forming and placement. Prereq: 32BLTN107, 32ARTN289, 32CVTN242, 32IET121. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32BLTN318**Construction Methods**

Investigation of perimeter enclosure systems and interior finishes. Building code review and applications. Group lab projects, film, guest speakers, and field trips. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32BLTN531**Building Systems I**

Analysis and design of advanced mechanical systems for buildings, Passive and Active Solar heating systems, Solar powered cooling systems. Direct heating and cooling systems. District heating and cooling systems, Ice storage systems, Cogeneration systems. Prereq: 32ARTN572. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32BLTN532**Building Systems II**

Analysis and design of advanced electrical systems for buildings, Electrical distribution systems, busduct and raceway systems. Indoor transformer selection and metering. Solid state and programmable switches. Microprocessor and direct digital control systems. Advanced lighting and telecommunication systems, Intelligent Buildings. Prereq: 32BLTN531. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Building Trades Technology**32BLTN533****Building Systems III**

Cost estimation and economic evaluation of building systems. Estimation of seasonal energy consumption. Life cycle costing. An analysis of the factors effecting the selection of Mechanical, Electrical and Plumbing systems for buildings. Prereq: 32BLTN532. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

Cabinet and Furniture Making**32CBMK001****Cabinet/Furniture Construction IA**

Introduction to basic construction techniques and woodworking tools, applying this knowledge to construct a Shaker side stand table measuring 18"x18"x27". The student then constructs another table project from the Pembroke, coffee or occasional category learning leg and frame construction and edging techniques. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32CBMK002**Cabinet/Furniture Construction IB**

Continuation of Furniture Construction I. Prereq: 32CBMK001. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32CBMK003**Cabinet/Furniture Construction IC**

Continuation of Furniture Construction I. Prereq: 32CBMK002. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32CBMK004**Cabinet/Furniture Construction IIA**

The student constructs two projects from the following furniture categories: bookcases, display and corner cabinets, and sideboard cabinets, learning joint and door construction techniques. Students must repeat this course for a total of 12 cr. hrs. before registering for Cabinet/Furniture Construction III. Prereq: 32CBMK003. BoK: NA. Credit Level: U. Credit Hrs: 2.00-4.00

32CBMK005**Cabinet/Furniture Construction IIB**

Continuation of Furniture Construction II. Prereq: 32CBMK004. BoK: NA. Credit Level: U. Credit Hrs: 2.00-4.00

32CBMK006**Cabinet/Furniture Construction IIC**

Continuation of Furniture Construction II. Prereq: 32CBMK005. BoK: NA. Credit Level: U. Credit Hrs: 2.00-4.00

32CBMK007**Cabinet/Furniture Construction IIIA**

The student constructs two projects from the following furniture categories: chest of drawers and desk, office, writing and lectern, learning drawer construction and hardware installation. This series must be repeated for a total of 18 cr. hrs. before registering for Cabinet/Furniture Construction IV. Prereq: 32CBMK006. BoK: NA. Credit Level: U. Credit Hrs: 2.00-6.00

32CBMK008**Cabinet/Furniture Construction IIIB**

Continuation of Furniture Construction III-A. Prereq: 32CBMK007. BoK: NA. Credit Level: U. Credit Hrs: 2.00-6.00

32CBMK009**Cabinet/Furniture Construction IIIC**

Continuation of Furniture Construction III-A. Prereq: 32CBMK008. BoK: NA. Credit Level: U. Credit Hrs: 2.00-6.00

32CBMK010**Cabinet/Furniture Construction Drawing I**

Beginning drawing (use of drafting tools, orthographic projection, sections, dimensioning, and lettering), construction details and embellishments, joinery considerations, furniture proportions, laying out patterns (actual patterns to be made in wood shop), complete furniture drawing. BoK: NA. Credit Level: U. Credit Hrs: 2.00

Cabinet and Furniture Making**32CBMK011****Cabinet/Furniture Construction Drawing I**

Continuation of Furniture Construction Drawing I. Prereq: 32CBMK010. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32CBMK012**Cabinet/Furniture Construction Drawing I**

Continuation of Furniture Construction Drawing. Prereq: 32CBMK011. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32CBMK021**Cabinet/Furniture Construction IVA**

The student constructs two projects from the following furniture categories: blanket chest, pedestal tables and pencil post beds, learning dovetail and box joint construction and lathe turning. This series must be repeated for a total of 18 cr. hrs. Prereq: 32CBMK009. BoK: NA. Credit Level: U. Credit Hrs: 2.00-6.00

32CBMK022**Cabinet/Furniture Construction IVB**

Continuation of Furniture Construction IV. Prereq: 32CBMK021. BoK: NA. Credit Level: U. Credit Hrs: 2.00-6.00

32CBMK023**Cabinet/Furniture Construction IVC**

A continuation of Cabinet/Furniture Construction IV-A & B. The student constructs two project from the following furniture categories: blanket chest, pedestal tables and pencil post beds, learning dovetail and box joint construction and lathe turning. Prereq: 32CBMK022. BoK: NA. Credit Level: U. Credit Hrs: 2.00-6.00

32CBMK030**Wood Working for Crafters I**

This course is for beginners and experienced woodworkers. Building projects for personal use, gifts or to sell. The first class project, a set of shaker boxes. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32CBMK031**Woodworking for Crafters II**

Continuation of Woodworking for Crafters I. Prereq: 32CBMK030. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32CBMK032**Woodworking for Crafters III**

Continuation of Woodworking for Crafters II. Prereq: 32CBMK031. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32CBMK040**Windsor Chair Construction I**

This course is devoted to building one project, a family heirloom, the Windsor Chair. Intermediate skill level required. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32CBMK041**Windsor Chair Construction II**

Continuation to Windsor Chair I. Prereq: 32CBMK040. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32CBMK042**Windsor Chair Construction III**

Continuation of Windsor Chair II. Prereq: 32CBMK041. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32CBMK070**Wood Technology: Understanding Wood**

Wood anatomy (also basic forestry and tree framing), wood species and uses, lumbering (self and industrial), drying (self and industrial), lumber grading and wood products, glues, wood coloration and color shifts, joinery theory, shop safety (dust collection, toxic woods, hearing protection), fasteners and hardware. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32CBMK071**Woodworking Techniques**

Machinery alignment and adjustment, sharpening, clamping and

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Cabinet and Furniture Making**32CBMK071****Woodworking Techniques**

clamping jigs, wood bending, veneering and lamination, lathe turning basics, shaping and molding, blades, cutters, and bits. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32CBMK072**Wood Finishing**

Surface preparation (sanding and scraping), staining (oil, alcohol, water, gel, dye chemicals), wipe-on finishes, brush-on finishes, spray-on finishes, waxes, and finish care. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32CBMK073**Wood Turning**

This class is for the beginner interested in wood turning. The student will be introduced to the basics with a discussion of lathes, tools and tool sharpening. Then learning techniques needed by the furniture maker to produce table legs and chair parts and art wood turning such as bowls. The student will make a small project incorporating the skills and knowledge learned. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32CBMK074**Wood Turning I-B**

Continuation of Wood Turning I (32CBMK073). BoK: NA. Credit Level: U. Credit Hrs: 2.00

32CBMK075**Wood Carving I**

A complete overview of wood carving. Student will learn everything from sharpening techniques, use and function of carving tools, proper layout of projects, to physically carving projects in relief and in the round. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32CBMK076**Wood Carving II**

Continuation of Wood Carving I. Prereq: 32CBMK075. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32CBMK077**Wood Carving III**

A continuation of Woodcarving I, II. A complete overview of wood carving. Student will learn everything from sharpening techniques, use and function of carving tools, proper layout of projects to physically carving projects in relief and in the round. Prereq: 32CBMK076. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32CBMK078**Wood Turning 1-C**

Continuation of Wood Turning I-A (32CBMK073). BoK: NA. Credit Level: U. Credit Hrs: 2.00

Civil Engineering**32CE121****Surveying I**

Introduction to surveying. Determining distances, elevations, bearing and azimuths; systematic and random errors in measurements. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CE122**Surveying II**

Continuation of 30CE121. Concept of traverse and related calculations. Adjustment of traverses by compass rule and method of least squares. Area calculations. Introduction to the theory and practical applications of the State Plane Coordinate systems. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CE223**Surveying III**

Methods and computations of route surveys; topographic surveys; circular, spiral and vertical curves. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Civil Engineering**32CE304****Environmental Engineering I**

Analysis of precipitation data and stream flow records for water supply purposes and storm sewer design. Application of principles of hydraulics, hydrology, chemistry, biology, and engineering to the designing of water supply and waste-water disposal systems. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CE305**Environmental Engineering II**

Continuation of 30CE304. Offered every third year An introductory water quality modeling course is given. It begins with material related to the student's gained knowledge from Environmental Engineering I. An introduction to air quality, and solid waste management is also provided. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CE306**Environmental Engineering III**

Continuation of 30CE305. After gaining the basic concepts of water quality modeling in Environmental Engineering II, the main goal of this course is to understand and design processes for the treatment of water and waste water. This course provides the student with a clear understanding of the three processes involved, namely physical treatment methods, chemical treatment methods, and biological treatment methods. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CE311**Construction Materials and Soils I**

General characteristics, physical properties, methods of manufacturing and mixing, and uses of construction materials. Concepts of soils as they apply to engineering problems. Subsurface investigations, classifications, permeability, consolidation, and shearing strength. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CE312**Construction Materials and Soils II**

Continuation of 30CE311. Concepts of soils as they apply to engineering problems. Subsurface investigations, classifications, permeability, consolidation and shearing strength. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CE313**Construction Materials and Soils III**

Continuation of 30CE312. Soil structure and clay minerals, soil hydraulics, lateral earth pressures, bearing capacity and slope stability, design of retaining walls and footings. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CE341**Applied Strength of Materials I**

Applied theory of beams, columns, plates and structural elements. Critical loads and stress concentration. Failure theories. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CE342**Applied Strength of Materials II**

Continuation of 30CE341. Laboratory tests of metals, timber, plastics, ceramics, and other structural materials. Measurement and experimental techniques. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CE343**Hydraulic Engineering I**

Applications of fluid mechanics. Fluid force and velocity measurement. Design and operation of closed conduit systems. Pumps and turbomachinery. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CE344**Hydraulic Engineering II**

Continuation of 30CE343. Open channel hydraulics. General theory and practical applications of uniform and gradually varied flow. Selected unsteady flow problems. Laboratory demonstration of open channel flow. Discussion of principles of turbomachinery. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Civil Engineering**32CE344****Hydraulic Engineering II**

Continuation of 30CE343. Open channel hydraulics. General theory and practical applications of uniform and gradually varied flow. Selected unsteady flow problems. Laboratory demonstration of open channel flow. Discussion of principles of turbomachinery. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CE414**Introduction to Transportation Engineering**

Planning, building, and operating a transportation system that best serves the community. What community leaders and planners need to know about traffic and transportation to make good decisions. Transportation financing. Environmental considerations. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CE415**Highway Transportation**

Traffic engineering operations, safety, laws and ordinances. Proper design of roads and streets for safety and capacity. Managing a transportation system. Parking and terminal concerns. The role of mass transportation in the community. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CE416**Building Transportation Facilities**

Property acquisition and relocation. Cost-effective designs, construction techniques and standards. Also, other forms of transportation -- rail, air and water -- and their contribution to the total transportation system. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CE420**Structural Design I**

(Formerly 30CE471.) Design of metal structures. Tension and compression members, beams, trusses, connections. Plastic design of steel structures. Timber design. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CE421**Structural Design II**

Continuation of 30CE420. Design of metal structures. Combined bending and axial load. Lateral and local buckling. Plastic design of steel structures. Timber design. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CE422**Structural Design III**

Reinforced concrete design-ultimate strength. Flexure and axial loads. Shear and torsion. Development of reinforcement. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CE423**Structural Design IV**

Continuation of 30CE422. Working stress design of reinforced concrete structures. Slab Systems. Prestressed concrete. Composite concrete flexural members. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CE441**Structural Analysis I**

Statically determinate beams, frames, cables and arches, influence lines. Deflection analysis. Energy methods. Computational techniques. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CE442**Structural Analysis II**

Continuation of 30CE441. Indeterminate structures. Slope-deflection analysis. Moment distribution analysis. Castigliano theorem and related analysis techniques. Computer methods. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CE499**Independent Study in Civil Engineering**

Please complete and submit an Independent Application Form available from the college office. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

Computer Engineering Technology**32CET102****Elements of CET**

This course provides essential background information for the study of computer engineering technology, introduces methodologies of structured problem solving, and introduces basic programming concepts. Teamwork is integral to the course. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32CET131**Computer Engineering Technology I**

This course integrates laboratory experiments with lecture focusing on embedded systems applications to teach the basics of computer programming beginning with procedural techniques using the structural programming language C. This course introduces the tools used by EETs and CETs in industry. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CET132**Computer Engineering Technology II**

This course continues to use the computer language C to teach data structures, and then, near the end of the course, switches to C++ to introduce objects and object-oriented programming. Data structures and the structured programming techniques associated with them are the foundation for well-designed, maintainable, embedded-system applications. This course integrates laboratory experiments with lecture. Prereq: 32CET131. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CET133**Computer Engineering Technology III**

This course completes the study of object-oriented programming with the computer language C++ by thoroughly covering encapsulation, abstraction, inheritance, and polymorphism. This course integrates real-world laboratory experiments with lecture. Prereq: 32CET132. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CET204**Computer Interfacing**

An examination of computer interfacing techniques for real-world applications. Topics include computer bus interfacing to temperature, and displacement sensors, and displays. Prereq: 32ELTN242. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CET214**Computer Interfacing Laboratory**

Interfacing and sensor projects to illustrate lecture concepts. Prereq: 32ELTN242. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32CET400**TOPICS OF PROGRAMMABLE LOGIC DEVICES**

The study and application of programmable logic devices. Specifically the use of PALs, PLDs, and FDGAs. Prereq: 32ELTN242. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32CET402**Computer Security**

An introduction to computer and network security. Topics include: kinds of security attacks, methods of defense, encryption and decryption, program, operating system and network security. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CET410**TOPICS OF PROGRAMMABLE LOGIC DEVICES LABORATORY**

Design and implementation projects to demonstrate lecture concepts. Prereq: 32CET400. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32CET412**Computer Security Laboratory**

Exercises and projects to illustrate lecture concepts. Coreq: 32CET402. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32CET440**TOPICS OF IP ROUTERS**

An introduction to the management of IP networks using routers. Specific topics: basic network design, selecting equipment, routing protocol selection, configuration and security. BoK: QR. Credit Level: U.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Computer Engineering Technology**32CET440****TOPICS OF IP ROUTERS**

Credit Hrs: 3.00

32CET441**TOPICS OF WEB-BASED CONTROL**

An introduction to real-time control via the world wide web. Explore the use of web-based applications to control devices across a network.

BoK: QR. Credit Level: U. Credit Hrs: 3.00

32CET445**COMPUTER NETWORK ADMINISTRATION**

Examination of network administration tasks in mixed system environment. Topics include design, performance/optimization, security and mixed protocol environments. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CET450**TOPICS OF IP ROUTERS LABORATORY**

Design and implementation projects to demonstrate lecture concepts utilizing a popular commercial router. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32CET451**TOPICS OF WEB-BASED CONTROL LABORATORY**

Design and implementation projects to demonstrate lecture concepts. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32CET455**COMPUTER NETWORK ADMINISTRATION LAB**

Exercises and projects to illustrate lecture concepts. BoK: NA. Credit Level: U. Credit Hrs: 1.00

Chemistry**32CHEM021****Introduction to Chemistry I**

Introduction to the principles of chemistry, with applications and laboratory activities. BoK: NA. Credit Level: U. Credit Hrs: 3.00-4.00

32CHEM022**Introduction to Chemistry II**

The periodic table, chemical bonding, chemical equations, stoichiometry, thermochemistry. Prereq: 32CHEM021. BoK: NA. Credit Level: U. Credit Hrs: 3.00-4.00

32CHEM131**Chemical Technology I**

Elementary principles of chemical analysis including use and handling of chemical glassware, beginning qualitative and quantitative analysis, data handling, laboratory notebook development, report writing. Coreq: 32CHEM171. BoK: NS, QR. Credit Level: U. Credit Hrs: 5.00-6.00

32CHEM132**Chemical Technology II**

Continuation of 32-035-131 concentrating on gravimetric and volumetric analysis, use of the analytical balance and the pH meter. Additional exercises in developing notebook and report writing skills. Prereq: 32CHEM131. Transfer Module. BoK: NS, QR. Credit Level: U. Credit Hrs: 5.00-6.00

32CHEM133**Chemical Technology III**

Continuation of 32-035-132 concentrating on gravimetric and volumetric analysis and introductory instrumental analysis including computer applications in data analysis. Prereq: 32CHEM132. BoK: NS, QR. Credit Level: U. Credit Hrs: 5.00-6.00

32CHEM161**Life Science I**

This is the first of two courses in the life sciences. It is an introduction to human anatomy and physiology. It is designed to support later studies in biochemistry and bioanalytical chemistry, and to help prepare students for co-op and work assignments in biomedical and pharmaceutical industry laboratories. BoK: NS. Credit Level: U. Credit

Chemistry**32CHEM161****Life Science I**

Hrs: 2.00

32CHEM162**Life Science II**

This is the second of two courses in the life sciences. It is an introduction to human cellular biology. It is designed to support later studies in biochemistry and bioanalytical chemistry, and to help prepare students for co-op and work assignments in biomedical and pharmaceutical industry laboratories. Prereq: 32CHEM161. BoK: NS. Credit Level: U. Credit Hrs: 2.00

32CHEM171**Chemical Technology Orientation I**

An orientation to the chemical technology profession and introduction to necessary academic and technical skills. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32CHEM172**Chemical Technology Seminar I**

This course consists of a collection of seminars designed to introduce freshman students to the chemistry-based industry, career opportunities, lectures by practitioners and several faculty. Prereq: 32CHEM131, 32CHEM171. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32CHEM174**Fundamentals of Chemistry**

A study of chemical reactions, stoichiometry with emphasis upon inorganic reactions and thermodynamics. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 4.00

32CHEM204**Chemical Technology Seminar II**

This course consists of a collection of seminars designed to encourage second year chemical technology majors to gain more exposure to the chemistry-based industry, career opportunities, lectures by practitioners and faculty. Students are also expected to continue to work on their e-portfolios used by the college. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32CHEM231**Preparation and Analysis of Organic Compounds I**

An introduction to the preparation and analysis of organic compounds concentrating on basic skills needed to synthesize and characterize simple organic compounds. Prereq: 32CHEM133. Coreq: 32CHEM241. BoK: NS. Credit Level: U. Credit Hrs: 5.00

32CHEM232**Preparation and Analysis of Organic Compounds II**

Continuation of 32-035-231 with emphasis on classes of organic reactions and use of chemical instrumentation to analyze compounds produced. Prereq: 32CHEM231. Coreq: 32CHEM241. BoK: NS. Credit Level: U. Credit Hrs: 5.00

32CHEM233**Preparation and Analysis of Organic Compounds III**

Continuation of 32-035-232 emphasizing contemporary methods of preparation of organic compounds and more rigorous use of chemical instrumentation for characterization. Prereq: 32CHEM232. BoK: NS. Credit Level: U. Credit Hrs: 5.00

32CHEM241**Chemical Technology IV**

Continuation of 32CHEM133 concentrating on instrumental analysis including UV-Vis-IR spectrophotometry, chromatography, and additional computer applications. Prereq: 32CHEM133. BoK: NS. Credit Level: U. Credit Hrs: 4.00

32CHEM250**Nuclear Magnetic Resonance, Principles and Applications I**

Nuclear magnetic resonance (NMR) is the premier investigative tool for structure determination in chemistry, biology (biochemistry) and medicine. This course is designed for the student early in their study of

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Chemistry**32CHEM250****Nuclear Magnetic Resonance, Principles and Applications I**

chemistry at the college level. It will build on principles presented in a first course in chemistry and will augment the study of organic chemistry. The course will address the major concepts associated with the use of NMR for chemical analysis: nuclear spin, spin resonance and the chemical shift, coupling of neighboring nuclei, and signal integration. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CHEM271**Environmental Chemistry**

Examination of the chemical cycles and life support systems of the planet, and the influence of human-driven chemistry on these systems. Exploration of the molecular basis of current environmental issues and trends, including acid rain, environmental toxins, global warming, green chemistry, and stratospheric ozone depletion. Prereq: 32CHEM133. Coreq: 32CHEM231. BoK: NS. Credit Level: U. Credit Hrs: 4.00

32CHEM276**Chemical and Biological Warfare Agents**

This course provides information on the nature of chemical and biological warfare agents, including structure and function relationships, signs and symptoms of exposure, decontamination, and prophylactic measures for protection. In addition, the course examines the potential for genetically modified biological weapons and agents based upon knowledge from cancer research, which are currently under development. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CHEM285**Introduction To Molecular Modeling**

An Introduction some of the ways in which molecular modeling is used to verify information about structure and reactivity already known for many compounds, to probe for explanations for reactivity not fully understood, or to predict the properties of compounds not yet prepared or isolated from natural materials. Students will use a molecular modeling software system to carry out otherwise complex mathematical computations for a variety of chemical structures. Prereq: 32CHEM231. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CHEM305**Green Chemistry**

Building on students' prior laboratory experiences this course will explore strategies and methods for carrying out chemical reactions using reagents and reaction conditions that have a more benign impact than traditional methods on toxic waste generation and exposing workers to health hazards. Course reading and discussion will include topics such as energy, waste, atom efficiency, finding benign solvents, and the impact of 'green' processes on industry. Laboratory work will illustrate selected examples of traditional and 'green' reactions for both organic and inorganic synthesis. Students will gain a broader perspective of various approaches being used to contribute to environmentally responsible solutions to a topic of increasing global concern. Perm of Instructor. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CHEM306**Chemistry of Hazardous Materials**

The United Nations has created the Globally Harmonized Systems (GHS) for classification of chemicals in an attempt to have better communication of chemical hazards at the global level. Most of the industrialized world has either switched to the GHS program or, as in the process of doing so. The United States is attempting to modify its hazard communication program in order to comply with the new GHS system. This course will introduce the student to the above topic and will cover the chemistry of physical, health, and environmental hazards of categories of chemical identified by the GHS. Prereq: 32CHEM133. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CHEM311**Biochemical Technology I**

Concentrates on contemporary biochemical laboratory skills and techniques as applied to proteins. Prereq: 32CHEM233. BoK: NS. Credit Level: U. Credit Hrs: 5.00

Chemistry**32CHEM312****Biochemical Technology II**

Continuation of 32-035-311 emphasizing laboratory skills and techniques as applied to genetic material. Prereq: 32CHEM311. BoK: NS. Credit Level: U. Credit Hrs: 5.00

32CHEM313**Biochemical Technology III**

Continuation of 32-035-312 emphasizing laboratory skills and techniques as applied to metabolic cycles. Prereq: 32CHEM312. BoK: NS. Credit Level: U. Credit Hrs: 5.00

32CHEM315**Biochemistry of Physiologically Active Compounds**

This course will apply biochemical principles and technology to the study of physiologically active indigenous and exogenous compounds, including foods, drugs, medicinals, environmental factors and metabolites. Students will study the structure, function, metabolism and physiological effects of compounds. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CHEM321**Chemical Instrumentation I**

Concentrates on the construction of chemical instrumentation examining mechanical, optical, and electronic components. Prereq: 32CHEM242. BoK: NS. Credit Level: U. Credit Hrs: 5.00

32CHEM322**Chemical Instrumentation II**

Continuation of 32-035-321 concentrating on detailed development of methods for instrumental analysis. Prereq: 32CHEM321. BoK: NS. Credit Level: U. Credit Hrs: 5.00

32CHEM323**Chemical Instrumentation III**

Continuation of 32-035-322 concentrating on instrument operation. Prereq: 32CHEM322. BoK: NS. Credit Level: U. Credit Hrs: 5.00

32CHEM330**Fundamentals Of Food Science**

This is an introductory course in basic chemistry to develop understandings on nomenclature, and physical and chemical processes related to foods and food preparation. It includes an overview of topics such as: atomic and molecular structure, pH, concentration units, bonding and the chemical structures of carbohydrates, fats, proteins, and water. BoK: NS. Credit Level: U. Credit Hrs: 4.00

32CHEM331**Fundamentals of Food Chemistry I**

An introductory course in carbohydrates and lipids, including an understanding of ingredient functionalities in food preparation and on final product characteristics. Prereq: 32CHEM330. BoK: NS. Credit Level: U. Credit Hrs: 4.00

32CHEM332**Fundamentals of Food Chemistry II**

A continuation of Fundamentals of Food Chemistry I with emphasis upon proteins and food additives. Prereq: 32CHEM331. BoK: NS. Credit Level: U. Credit Hrs: 4.00

32CHEM333**Fundamentals of Food Chemistry III**

This course is a continuation of the study of foods, their composition, properties and behavior, and the changes that occur as they are prepared, processed and stored. The student will continue to build their understanding of functional ingredients and food additives. Laboratory work emphasized good instrumental and analytical techniques in examining food properties and reactions. Prereq: 32CHEM332. BoK: NS. Credit Level: U. Credit Hrs: 4.00

32CHEM335**Biochemistry for Food Science**

Introduction to biochemistry and bio-organic chemistry, including the structure and properties of organic compounds and biomolecules that

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Chemistry**32CHEM335****Biochemistry for Food Science**

are of particular relevance in food science. This course is designed for Culinary Arts & Sciences majors. Prereq: 32CHEM330. BoK: NS. Credit Level: U. Credit Hrs: 4.00

32CHEM340**Food Safety and Preservation**

An introduction to food safety issues, including chemical and microbial factors, and the control of food safety. This course will also look at fundamental food preservation techniques and the standards that regulate the industry. Prereq: 32CHEM332. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32CHEM345**Food Microbiology**

This is an introductory level course in microbiology. This course is designed to give students an understanding of the fundamentals of microbiology and specifically, the importance of microbiology and its applications in the food science industry. Prereq: 32CHEM331, 32CHEM335. BoK: NS. Credit Level: U. Credit Hrs: 4.00

32CHEM350**Chemistry and Technology of Flavors**

This is an introductory level course in the chemistry of flavor compounds. This course will also include information about flavoring materials and techniques of analysis of flavor compounds. The course will also address the impact of processing and storage on the performance of flavors and the importance of flavor in the today's food science industry. Prereq: 32CHEM331, 32CHEM335. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CHEM355**Methods of Analysis of Food Components**

This is an introductory level course in analytical chemistry specifically for culinary science students. The course will introduce students to analytical methods and techniques as they apply to the analysis of food and food products. Students will be expected to do hands-on laboratory work. Prereq: 32CHEM333. BoK: NS. Credit Level: U. Credit Hrs: 4.00

32CHEM360**BASIC TOXICOLOGY**

An introductory course in toxicology that examines the factors that affect the toxicity of chemicals, including the long- and short-term effects of exposure, mutagenesis, carcinogenesis, and reproductive toxicity. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CHEM361**Sensory Evaluation and Testing**

An introduction to the principles of sensory evaluation. Emphasis is on the sensory perception of foods and the types of sensory testing procedures used as part of product analysis. Prereq: 32CHEM333. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CHEM372**Demonstration of Comprehensive Laboratory Proficiency**

Requires the demonstration of proficiencies in use of essential chemical technology laboratory techniques, equipment, protocols, data reduction, health and safety standards and Good Laboratory Practice. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32CHEM373**Methods of Sample Preparations**

An introduction to methods of sample preparation including classical wet chemical and physical methods as well as contemporary methods including super critical fluid extraction. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32CHEM374**Applications of Molecular Spectroscopy**

Applications of molecular spectroscopy with respect to UV-VIS, fluorescence, IR and FTIR spectroscopy including theory, sampling methods and spectral interpretation. BoK: NS. Credit Level: U. Credit Hrs: 3.00-5.00

Chemistry**32CHEM374****Applications of Molecular Spectroscopy**

Applications of molecular spectroscopy with respect to UV-VIS, fluorescence, IR and FTIR spectroscopy including theory, sampling methods and spectral interpretation. BoK: NS. Credit Level: U. Credit Hrs: 3.00-5.00

32CHEM375**Applications of Surfactants and Lipids**

The course offers an inclusive survey of surfactants and lipids. It provides the fundamentals of the solution, colloidal and interfacial properties of surfactant and lipid systems. It also provides a detailed description of analytical and structural characterization techniques. Prereq: 32CHEM233. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CHEM376**Modern Industrial Microscopy**

This class will review a wide range of microscopy techniques and their applications to modern industrial chemistry; the impact to industries such as pharmaceuticals, forensics, microbiology, computer manufacturing, consumer products, and polymer research will be addressed. The advances in digital images acquisition and analysis that have made microscopy increasingly quantitative and more broadly applicable will be a major focal point. Consisting of lecture and lab exercises, with an emphasis on light microscopy, the course will provide both comprehensive insight and hands-on experience. The content will be flexible to accommodate students interests, especially in cases of reviewing/preparing for cooperative experiences. Prereq: 32CHEM242. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CHEM377**POLYMER CHEMISTRY**

The methods of polymer synthesis and characterization will be studied in three lecture hours and three laboratory hours per week. Prereq: 32CHEM233. BoK: NS. Credit Level: U. Credit Hrs: 4.00

32CHEM378**INTERMEDIATE PREPARATION AND ANALYSIS OF ORGANIC COMPOUNDS**

The course will include the study of the preparation, analysis and nomenclature of the following types of compounds: amines, heterocyclics, polynuclear aromatics, and phenolics. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CHEM379**Food Chemistry: Structure And Reactions**

This is a course about the chemistry behind food and cooking. In this course we will study the structure, properties, and reactions of food and its components. We will examine the four fundamental food molecules, following them through classes of foods including dairy products, fruits and vegetables, meats, bread, and sweets. We will explore the molecular basis of the development of flavor during cooking. We will also explore the chemical reactions in food driven by bacteria and yeasts. This course requires that you have passed Prep & Analysis of Organic Compounds III. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CHEM390**Professional Ethics in Technology**

Exploration and research of ethical issues in applications of technology. Various points of view are examined to analyze their assumptions, impact and implications. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32CHEM399H**From Dr. Seuss to Wall Street: Interdisciplinary Look at the Environment**

This course is an examination of the cycles and life support systems of the environment, and the influence of human activity on these systems. The course will consider specific environmental issues connected to energy, air, water and living things from multiple points of view with an interdisciplinary perspective. BoK: NS., HP. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Chemistry**32CHEM401****SENIOR PROJECT I**

Identification and solution of a defined problem from the field of chemical technology. Culminates with production of a formal report. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32CHEM402**SENIOR PROJECT II**

A Continuation of Senior Project I (32CHEM401). BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CHEM403**Senior Project III**

A continuation of Senior Project II. Prereq: 32CHEM402. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32CHEM411**BIOCHEMISTRY I**

Concentrates on contemporary biochemical laboratory skills and techniques as applied to proteins. BoK: NS. Credit Level: U. Credit Hrs: 5.00

32CHEM412**BIOCHEMISTRY II**

A continuation of Biochemistry I (32CHEM411) emphasizing laboratory skills and techniques as applied to genetic material. Prereq: 32CHEM411. BoK: NS. Credit Level: U. Credit Hrs: 5.00

32CHEM413**BIOCHEMISTRY III**

A continuation of Biochemistry II (32CHEM412) emphasizing laboratory skills and techniques as applied to metabolic cycles BoK: NS. Credit Level: U. Credit Hrs: 5.00

32CHEM414**The Biochemical Basis of Nutrition**

A study of the biochemical basis of nutrition, including the molecular structure-function relationships of -energy½ metabolism, food nutrients including carbohydrates, fats and proteins, health and disease states. This is a course for Chemical Technology majors or those with a chemistry background including organic chemistry. Prereq: 32CHEM232. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CHEM420**Food Processing Technologies**

An overview of food production systems and scale up, principles of food processing and packaging technologies. Prereq: 32CHEM333. BoK: NS. Credit Level: U. Credit Hrs: 4.00

32CHEM421**Food Formulation & Ingredient Functionality**

An overview of food formulation practices and principles from gold standard to prototype to finished product. Including cuisine knowledge, ingredient usage, cooking techniques, food safety, and manufacturing issues. Other areas covered include how new product ideas are derived from a food trend, consumer learning, and market analysis. Prereq: 32CHEM420. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CHEM422**Senior Project I**

A capstone experience requiring students to define a problem or creative need in the food industry, to develop a Project Plan to solve the problem or meet the creative need, and to present the Project Plan in writing and through an oral presentation, including both theoretical and practical/hands-on applications. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CHEM423**Culinary Senior Project II**

A continuation of Senior Project I. Students will execute their project plans, and provide a written final report and oral presentation of results. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Chemistry**32CHEM424****NUTRITIONAL BIOCHEMISTRY**

Introduction to the biomolecular basis of nutrition, including micro and macronutrients, energy metabolism, digestion and absorption, diet, and health and disease rates. This course is designed for Culinary Arts and Science majors. Prereq: 32CHEM333. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CHEM430**Instrumental Analysis**

This course will introduce the student to the basic concepts of instrumental methods of chemical analysis. This project-based course will provide the student with an opportunity to build on good laboratory techniques, and apply the theory of chemical instrumentation, and quantitative problem skills to solve typical real-life problems in the laboratory. The content will be flexible to accommodate a broad range of student interests, including the areas of environmental and biotechnology applications. BoK: NS. Credit Level: U. Credit Hrs: 5.00

32CHEM470**Environmental Laws and Regulations**

The course is a comprehensive review of the major federal laws and regulations. The laws and regulations covered include: SARA Title III and Emergency Planning and Community Right-to-Know Act (EPCRA); Toxic Substances Control Act (TSCA); Clean Air Act; OSHA Law and Regulations; National Environmental Policy Act (NEPA); Hazardous Wastes/RCRA; Underground Storage Tanks; and Comprehensive Environmental Response Compensation and Liability Act/Superfund. In addition, the course will cover Potential Environmental Liabilities, Handling Inspection and Environmental Auditing. BoK: SE. Credit Level: U. Credit Hrs: 4.00

32CHEM471**The Chemical Process Industry**

A review of the major manufacturing processes in the chemical process industry. Prereq: 32CHEM470. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CHEM472**Environmental Laws and Regulations II**

A continuation of Environmental Laws and Regulations I. Prereq: 32CHEM470. BoK: SE. Credit Level: U. Credit Hrs: 4.00

32CHEM499**Special Topics in Chemical Technology**

Current topics of interest in chemical technology. Topics selected from surface, polymer, and inorganic chemistry, statistical and computer applications, and other timely areas of interest. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00-5.00

Chemical Engineering**32CHTN224****Chemical Engineering Technology I**

(Lab. 234.) Process variables, steady-state material balances, gas laws, single and multiple systems, basic thermodynamics and energy balances. Laboratory experiments cover gas laws, vapor pressure, liquid-liquid extraction, chemical equilibrium, and boiling point elevation. Coreq: 32CHTN234. BoK: NA. Credit Level: U. Credit Hrs: 3.00-4.00

32CHTN225**Chemical Engineering Technology II**

(Lab. 235.) Fluid flow, heat transfer, distillation, absorption, extraction and drying. Laboratory experiments cover phase diagrams, heat of reaction, binary liquid-vapor equilibrium, statistical process control, distillation, fluid flow and flow measurements, heat transfer and heat exchangers. Prereq: 32CHTN224. Coreq: 32CHTN235. BoK: NA. Credit Level: U. Credit Hrs: 3.00-4.00

32CHTN234**Chemical Engineering Technology I Laboratory**

Laboratory experiments involving heat transfer, fluid flow, filtration, etc. Designed to complement lecture material in Chemical Engr Tech. I.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Chemical Engineering**32CHTN234****Chemical Engineering Technology I Laboratory**

BoK: NA. Credit Level: U. Credit Hrs: 1.00

32CHTN235**Chemical Engineering Technology II Laboratory**

Laboratory experiments involving the use and calibration of industrial measuring equipment. Design to complement lecture material in Chemical Engr Tech II. Prereq: 32CHTN225. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32CHTN271**CHEMICAL ENGINEERING AND PROCESS FUNDAMENTALS**

Introduction to basic concepts of chemical engineering principles needed to solve chemical process problems, including engineering principles understanding of engineering problem-solving styles and approaches to produce optimum results, and specific industrial examples of chemical processes and phenomena and their relationships to chemical engineering principles. Prereq: 32CHEM133, 32MATH179. BoK: NA. Credit Level: U. Credit Hrs: 4.00

Construction Management**32CM101****Construction Seminar I**

Seminars to introduce freshman students to career opportunities in design, construction and facilities management; lectures by practitioners and several faculty members, student papers. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32CM102**Construction Seminar II**

Continuation of Construction Seminar I. Prereq: 32CM101. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32CM272**Construction Documents and Quality Control**

Relationship of design to construction; specifications to field procedures; testing, inspections, quality management; legal requirements. Prereq: 32CM402. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CM276**Construction Safety Management**

Safety in industry and construction, methods of conducting operations in close proximity to potential hazards, legal and insurance factors, accident case studies. Job site illustrated discussions. Prereq: 32BLTN108. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32CM301**Construction Management I**

Overview of the Construction Management sequence, interrelationships of the parties involved in various types of construction contracts, office procedures, personnel, business strategies, payments, affidavits, liens, etc. Prereq: 32BLTN107, 32ENGL103, 32MATH244. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CM301H**Leadership and Teamwork From Within**

The objective of the course is to examine the integration of humanities, leadership and teamwork to build on management concepts. Leadership in organization can be established in many different ways. A leadership that focuses on needs of individuals within organization for the benefit of the team has a lasting impact that promotes the organization well beyond other leadership styles. The course examines methods for promoting personal growth of individuals while enhancing teamwork to achieve organization objectives. BoK: HU., SS. Credit Level: U. Credit Hrs: 3.00

32CM401**Construction Management I**

Overview of the Construction Management sequence, interrelationships of the parties involved in various types of construction contracts, office procedures, personnel, business strategies, payments, affidavits, liens,

Construction Management**32CM401****Construction Management I**

etc. Prereq: 32ENGL103, 32BLTN107, 32MATH244. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CM402**Construction Management II**

On-site operations, role of the superintendent, productivity, methods improvement, equipment scheduling, materials handling, computer modeling, time lapse and video photography. Prereq: 32CM401, 32ARTN289. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CM473**Special Construction Management Projects**

Variable cr. Independent study of subjects chosen by the student with the approval of Department Head. BoK: NA. Credit Level: U. Credit Hrs: 1.00-9.00

32CM473H**Honors Special Topic Management Project**

The course is the Honors version of Special Topic Management Project offered to our CM students in the Honors Program. BoK: NA. Credit Level: U. Credit Hrs: 1.00-9.00

32CM503**Construction Management III**

Comparative building system analysis. Product selection, fabrication and erection methods. Student project evaluates systems. Evaluation. Lab will study decision support systems for construction projects. Prereq: 32CM402, 32MATH371. BoK: NA. Credit Level: U. Credit Hrs: 3.00-4.00

32CM504**Construction Management IV**

Industrial construction, particular problems of building in a manufacturing or processing environment. Student project addresses design, scheduling and economic requirements for a particular site. Prereq: 32CM503, 32CM581. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CM505**Leadership and Decision Making**

Leadership traits and skills and their application to facilities management. Prereq: 32PD132. BoK: SS, SE. Credit Level: U. Credit Hrs: 3.00

32CM511**Scheduling I**

Flow of labor and material toward specified goal, weather, trade characteristics, material availability considered in designing bar charts, graphs and CPM schedules. Prereq: 32ARTN289, 32CM402, 32BLTN310, 32IET321. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CM512**Scheduling II**

Computerized scheduling of more complex PERT and critical path problems. Prereq: 32CM511. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CM555**Sustainable Construction and LEED**

The course discusses how LEED project certification influences the overall construction project. Topics will include LEED certification techniques for sustainable sites, water efficiency energy & atmosphere, materials & resources, indoor environmental quality, and innovation and techniques and design. Prereq: 32ARTN372, 32ARTN373, 32ARTN573. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CM571**Construction Law**

Contract documents -- legal aspects, formation of contracts and interpretations; subcontractor and agency relationship -- legal pitfalls; forfeiture -- determination and frustration; legal remedies and remedies in equity; damages and restitution; arbitration, liens, bonds, indemnities case studies in the above described areas of construction law. Prereq:

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Construction Management**32CM571****Construction Law**

32CM402. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32CM572**Construction Documents and Quality Control**

Relationship of design to construction; specifications to field procedures; testing, inspections, quality management; legal requirements. Prereq: 32CM402. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CM575**Senior Special Project**

Each student is required to design in detail a plan of contract execution from project generation to owner's use of the building, estimating, scheduling, project costing, etc. Prereq: 32CM504, 32CM512. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32CM576**Senior Special Project II**

Continuation of 32CM575 with emphasis on resource management, pre-construction services and post construction (facilities). Prereq: 32CM575. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32CM581**Construction Financing & Strategy Planning**

Time value of money. Economic analysis of investment in various projects. ROE, discounted cash flow, depreciation, financial analysis of construction firms. Trend analysis and financial management decisions. Capital budgeting and cash forecasting. Equipment financing and management. Bidding strategy. Prereq: 32ACCT342, 32IET321. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32CM582**Project Costing**

Advanced estimating procedures, time value of money, life-cycle costing; cash flow and controls, billing systems, holdbacks, incentive and penalties, short-term financing. Estimating/costing project for a building. Prereq: 32CM511, 32CM581, 32ARTN289. BoK: QR. Credit Level: U. Credit Hrs: 3.00

Communication**32COMM172****Fundamentals of Speech Communications**

An introduction to speech composition, delivery, audience analysis, and handling of audiovisual equipment. BoK: HU. Credit Level: U. Credit Hrs: 3.00

32COMM192**Speeches That Changed History: Words From Politicians, Warmongers and Peacemakers.**

Reading speeches by Lincoln, Twain, Gandhi, Churchill, et. al. Student will discover the power of language and rhetoric to change history. BoK: HU. Credit Level: U. Credit Hrs: 3.00

32COMM341**Managerial Communications**

A study of process of communication focusing on the purpose of communicating and the best strategy for accomplishing that purpose in national and international settings. BoK: HU. Credit Level: U. Credit Hrs: 3.00

32COMM371**Technical and Professional Presentations**

Oral presentation of technical information supplemented by analysis of interpersonal and group communication. Prereq: 32COMM172. BoK: HU. Credit Level: U. Credit Hrs: 3.00

32COMM382**Graphics I**

An intensive, comprehensive course in computer graphics: it encompasses the conceptual, technical and historical aspects of graphics design and visual presentation in the digital domain. We will

Communication**32COMM382****Graphics I**

learn the principles of design integration of images, graphics and text through reading, discussion, critique and practice. Prereq: 32ENGL103. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

32COMM383**Communication in the Modern World**

Examines the technical, theoretical and cultural constructs that define contemporary communication media. Students explore predominant content-areas and genres of cyberspace media, study the foundations of media theory, and learn to apply a critical lens to the representation of identity and diversity in media. BoK: HU. Credit Level: U. Credit Hrs: 3.00

32COMM384**Graphics II**

Building on topics covered in Graphics I, students will extend their knowledge and practice of creating professional level graphic images and typography in multi-page compositions. Emphasis will be placed on type as images, types as experiment and on the use of photographic images and stock graphics two creative innovative, eye-catching brochures, booklets and professional materials for technology industries and businesses. Students will build a portfolio of professional print media while acquiring skills in Adobe Photo-Shop and InDesign. Prereq: 32COMM382. BoK: HU. Credit Level: U. Credit Hrs: 3.00

32COMM385**Intercultural Business Communication**

This course examines the characteristics of cultural differences that alter communication symbols and meaning for international business activities. Prereq: 32ENGL101, 32ENGL102, 32ENGL103. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

32COMM388**Communication Studies in New Media**

An overview of the theoretical and cultural constructs that define new communication media, interactive moving images, and simple algorithm-based computer graphics. We will learn how these media inform, reproduce, or displace cultural categories that permeate our world. During this course, students will 1) examine the cross-cultural categories that production and use of the visual image of new media, 2) explore montage, the figuration of multiple image fragments and sequences to create movement and cinematic perception, and 3) create, analyze and critique graphical elements using an algorithm-based language. Prereq: 32ENGL103. BoK: DC, HU. Credit Level: U. Credit Hrs: 3.00

32COMM480**Science and Technology in the Popular Media**

Examines the representation of science and technology in media and popular culture, including print, film and cyberspace. Students will explore through readings the dominant cybernetic and neo-Darwinian discourses that shape popular visions of technology and will consider their critical alternatives. Prereq: 32ENGL103. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32COMM484**Trends in Global Communications**

The emergence of a "geoeconomy" and the pursuit of global culture based on technology and commercial discourse are having mixed results on the local scale, including adaptation of resistance. Global communications is approached from three comprehensive perspectives: 1) media communication and international regulation of info flow, 2) the cultural politics of language, and 3) postcolonial responses to globalization of commodities. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

32COMM485**E-Portfolio Production & Information Graphics**

Course participants produce functional, engaging, stylish, and self-reflective e-portfolios of their undergraduate work as part of the broader study of interactive Web design. The course overviews the deep and

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Communication**32COMM485****E-Portfolio Production & Information Graphics**

complex data structures of new media objects, discusses possible navigational control structures in Web and CD media as appropriate for specific content. As a secondary focus, participants will also study alternative visual formats for the delivery of various types of data and information. Prereq: 32ENGL103. BoK: FA. Credit Level: U. Credit Hrs: 3.00

32COMM498**Special Topics In Communications**

This course permits special topics instruction to be offered in the Humanities area of Communication. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

32COMM499**Independent Study in Communication**

This course permits independent study instruction to be offered in the humanities area of Communications. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

Construction Administration**32CONA800****Construction Personnel Management**

Examination of personnel management and analysis of strategic personnel planning in construction firms. Credit Level: G. Credit Hrs: 3.00

32CONA815**Planning and Control of Construction Firms**

A focused study of strategic planning in construction firms as distinct from operational planning. Prereq: 32CM511, 32CM512, 32CM582. Credit Level: G. Credit Hrs: 3.00

32CONA820**Facilities Planning and Value Analysis**

Planning and managing the design of facilities and value analysis of projects. Prereq: 32CM511, 32CM581, 32ECON386. Credit Level: G. Credit Hrs: 3.00

32CONA825**Advanced Construction Costing**

Costing strategies and its impact on planning, acquisition and control of construction resources. Prereq: 32CM512, 32CM582, 32ACCT341. Credit Level: G. Credit Hrs: 3.00

32CONA830**International Construction**

Examination of international construction and impact of global economy on construction firms. Credit Level: G. Credit Hrs: 3.00

32CONA835**Analysis of Legal Issues in Construction**

Exploration of legal and regulatory environment and its impact in the construction process. Credit Level: G. Credit Hrs: 3.00

32CONA840**Construction Method and System**

Investigation of construction materials and processes and its impact in the design/construct/maintain continuum. A systematic evaluation of construction materials in constructability is also presented. Credit Level: G. Credit Hrs: 3.00

32CONA860**Seminar in Construction Management**

In-depth examination of problems in construction and their implication. Innovation in construction is discussed with cases. Credit Level: G. Credit Hrs: 3.00

32CONA870**Research in Construction Management**

Independent study. Credit Level: G. Credit Hrs: 3.00-9.00

Cooperative Education**32COOP332H****Professional Practice Honors Project**

Course for students enrolled in the University Honors and Scholars Program in the College of Applied Science. Course to follow student's cooperative education quarter (Professional Practice Registration). A student proposal must be approved by Professional Practice Advisor, Departmental Advisor and Employer prior to beginning project. Project culminates with written technical report. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

Computer Science Technology**32CSTN101****Computer Literacy**

This is meant as a first course for computer users. It covers an introduction to computer concepts, networking, and telecommunication issues. It includes a hands-on introduction to E-Mail and the Internet. The course also includes practical applications in word processing, electronic spreadsheets, presentation graphics and database software. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CSTN111**Problem Solving and Logic in Programming**

The art and science of writing computer algorithms is introduced without reference to any specific computer language. Course relates logical and mathematical concepts such as truth tables and set theory to computer algorithm construction. Algorithmic paradigm used in this course is procedural. Design and development of algorithms with the aid of structure charts, IPO charts, flowcharts and pseudo-codes will be emphasized. BoK: QR., NS. Credit Level: U. Credit Hrs: 3.00

32CSTN112**Problem Solving and Logic in Programming II**

This course builds on concepts introduced in Problem Solving and Logic I by introducing the object oriented and event-driven paradigms. Course thus introduces object oriented and event-driven computer algorithm construction as alternatives to the procedural thinking process discussed in Problem Solving and Logic I. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CSTN141**Introduction to Computer Programming I**

This is the first programming course for students with no prior programming experience. It intends to provide an introduction to the fundamental concepts of composing and running a program using the programming language Visual C++. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CSTN142**Introduction to Computer Programming II**

This course is a continuation of Introduction to Computer Programming I. Students will learn to write user defined functions, work with arrays and structures, read and write files to and from disk. In addition, class construct and object oriented design will be introduced. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CSTN143**Introduction to Computer Programming III**

This course is a continuation of Introduction to Computer Programming II. Students will learn to work with pointers and implement abstract data types. Container classes of vector, queue, and stack will be discussed. Other object oriented programming concepts such as function/operator overload, inheritance, polymorphism and templates will be introduced. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CSTN146**Visual Programming I**

This course introduces the fundamental elements of object oriented programming under the Windows environment. Visual Basic is the programming language used in this course. Students will learn to write highly visual event driven program by supplying codes to the events and setting properties of the various controls supplied by Visual Basic. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Computer Science Technology**32CSTN147****Visual Programming II**

This course is a continuation of Visual Programming I. Students will learn to display graphics, access databases, and communicate with other Windows applications, design objects and ActiveX controls using Visual Basic. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CSTN181**Introduction to Operating Systems**

Course introduces the objectives and functions of a computer operating system. Microsoft Windows, UNIX, and LINUX are studied and compared. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CSTN183**Desktop Publishing**

Course is designed to introduce students to the electronic publishing process including writing, assembly, and design as applied to business documents. The technical and creative aspects of electronic publishing are examined. Microcomputer desktop publishing software such as Adobe In Design is used to illustrate concepts. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CSTN215**Directed Study - Computer Science**

This course is designed for students who require individualized instruction in Computer Science. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CSTN216**Directed Study - Computer Science**

This course is designed for students who require individualized instruction in Computer Science. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CSTN221**Object Oriented Programming with Java I**

This course will introduce object-oriented design and programming using Java. Students will learn all aspects of the object-oriented design methodology including Inheritance, Encapsulation and Polymorphism and apply them to typical business systems using Java applications. Students will learn to create GUI applications as well as Console-based applications and learn inner classes, graphics and image processing. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CSTN222**Object Oriented Programming with Java II**

This course is a continuation of Object Oriented Programming with Java I. Students will learn to write applets using Java's AWT and Swing UI Toolkit. Event handling, Exception handling, and Multithreading will be studied. Students will also learn JDBC, Servlet programming, animation Remote Method Invocation and Networking. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CSTN223**Advanced Java Programming**

To educate the student about the full web development environment available through the Java 2 Enterprise Edition (J2EE) and introduce the student to the various components of the platform. The course will cover Java Server Pages, Java Transaction Service and API, concepts of the Java mobile programming. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CSTN246**Visual Programming I**

This course introduces the fundamental elements of object oriented programming under the Windows environment. Visual Basic is the programming language used in this course. Students will learn to write highly visual event driven program by supplying codes to the events and setting properties of the various controls supplied by Visual Basic. BoK: QR., NS. Credit Level: U. Credit Hrs: 3.00

Computer Science Technology**32CSTN247****Visual Programming II**

This course is a continuation of Visual Programming I. Students will learn to display graphics, access databases, and communicate with other Windows applications, design objects and ActiveX controls using Visual Basic. BoK: QR., NS. Credit Level: U. Credit Hrs: 3.00

32CSTN251**PC Support**

This course is designed to provide basic competence in supporting microcomputers. Topics of discussion include, but are not limited to, installation, configuration and upgrading, diagnosing and troubleshooting, preventive maintenance, motherboards, processors, and memory; RAM, printers, basic networking, and operating systems. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CSTN261**Novell Administration**

In this course the students learn basic administration of a Netware Network. This includes designing a NDS tree, managing users, and implementing security. A student successfully completing this course will be on track to take the Novell Certified Network Administrator Exam. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CSTN262**Microsoft Network Operating Systems I**

This course is an introduction to Microsoft NT administration. It includes installation, configuration and domain setup. Students successfully completing this course will have covered many topics required by two of the four NT 2000 core certification exams; therefore, the course material can be used to prepare for such exams. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CSTN263**Microsoft Network Operating System II (Directory Services)**

This is a continuation of the course Microsoft Network Operating System I (17-CSTN-262) course line. The focus of this course is on Microsoft Directory Services. This course will also go deeper into Windows 2000 networking. Students completed the courses sequence are well-suited to pursue the network certification examination. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CSTN264**Network Security**

The course will focus on three stages: "Why network security?", the securing of data, and managing network traffic. The last two stages utilize cryptography, and as such, a good deal of time will be spent on cryptography. After addressing each of these three stages, the class will look at the implementation of real-world scenarios and how they apply to our studies. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CSTN275**Web Publishing**

This service learning course covers basic Web Technology and Web site Design. HTML, Cascading Style Sheets, and Web site Design are covered in depth. Students will complete a personal homepage on the UC OZ network and a major Web site design project for a local not-for-profit organization. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CSTN276**Web Programming**

This course will cover Server and Client-side programming including Dynamic HTML, Active Server Pages, JavaScript, Common Gateway Interface programming, database back-ends, and other web programming technologies and paradigms. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CSTN277**Web Administration**

This course will cover setup, maintenance, and management of web servers. Issues addressed will include user management, security, and Web site automation. Focus will be on the Internet Information server and Apache Web server software with some coverage of Java-based

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Computer Science Technology**32CSTN277****Web Administration**

servers. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CSTN278**Dynamic Web Pages With ASP Net**

To learn the elements of dynamic web programming using the .NET Platform. The JavaScript or VB.NET language will be used for server-side programming. The student will be taught how to develop a web database construction using the .NET platform. Students will learn how to do session management and basic application deployment. Students will relate the client-side programming to the back-end server-side technology. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CSTN279**Dynamic Web Pages With XML and Web Services**

To learn the elements of dynamic Web pages using XML and Web Services. The student will be taught how to develop a Web database construction using XML. Students will learn the essentials of the various Web Services. They also get a basic introduction to Mobile programming. Students will use the .NET platform to create a simple Web Service and deploy it. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32CSTN281**Spreadsheet Design and Programming**

This course explores intermediate and advanced capabilities of the Excel spreadsheet program. It provides students an environment in which to expand their skills in layout, design, formula construction, and documentation, plus @ function, macro, and VBA programming techniques. BoK: QR., NS. Credit Level: U. Credit Hrs: 3.00

32CSTN282**Database Design and Programming**

Relational database management model is introduced and critically compared to other data management systems. Microsoft access is used as a relational database management system (RDBMS). Microsoft Access API is studied. BoK: QR., NS. Credit Level: U. Credit Hrs: 3.00

32CSTN283**Database Administration**

This course is designed to give students a firm foundation in basic Oracle8 database administrative tasks. Students will gain the necessary knowledge and skills to set up, maintain, and troubleshoot an Oracle8 database. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32CSTN298**Implication of Computer Technology on Our Society**

This course focuses on the impact brought upon our society by computer and its related technologies. Issues related to privacy, ethics, law, encryption, copyright, computer crimes, etc., will be critically examined. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32CSTN299**Special Topics in Computer Technology**

Presents relevant topics in Computer Science and its related technologies that reflect the direction and development of the computer industry. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

Culinary Arts**32CUL320****History of Restaurants in the United States**

From the birth of restaurant dining as recreation in the 1800s to current dining lifestyle trends, History of Restaurants in the U.S. will explore the early motivations of the restaurant industry, how technologies have affected the growth of the industry, and in turn how those technologies have shaped the modern American experience. BoK: HP. Credit Level: U. Credit Hrs: 3.00

32CUL330**Advanced Asian Cookery**

Students will learn to prepare authentic Asian foods and understand the cultures, history, traditions and symbolisms behind the cooking.

Culinary Arts**32CUL330****Advanced Asian Cookery**

The course consists of lectures, demonstrations and hands-on production of foods. The student will learn traditional techniques and handles an array of Asian ingredients and spices. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CUL331**Setting The Stage - Banquet & Catering**

Students will conduct in-depth analyses pertaining to on-premise banquet operation, off-premise catering, and an overview of global event planning. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CUL332**Classical French Cookery**

Following the path of the Grand Chefs of France such as Careme, Escoffier, and Bocuse, the student will study and practice the regional cuisines of France. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CUL333**Computer Use in Food Management**

Utilizing desktop publishing fundamentals, the student will focus on ways to produce brochures, banners, menus, and documents that include the use of digital photography for the restaurant industry. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CUL334**American Ethnic Cuisines**

Following the historical immigration of the new Americans, the course will explore the evolution of American Regional Cooking. The student will research the fundamentals of American regional cooking including Cajun, Creole, South Western, Texmex, California Spa Cuisine, New England, and San Francisco Asiatic Cooking. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CUL335**Advanced Cake & Pastry**

Using the skills the student has learned this course will give a more in-depth look into the art of pastry, including plated desserts, decorating cakes, pastry for retail and buffet production. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CUL337**Advanced Cake, Pastry and Bakeshop**

Using the skills the student has learned, this course will give a more in-depth look into the art of pastry, including plated desserts, decorating cakes, pastry for retail and buffet production. The student will also hone their basic bakeshop skills to produce advanced artisan breads, cookies, breakfast pastries, event and novelty cake items. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CUL338**Marketing and Merchandising Food and Food Products**

An introduction to the principles of food product development, and the elements involved from product conception to the marketplace. Topics include strategic product development, consumer research, marketing and product launch, distribution channels, evaluation and regulations affecting the processes. Prereq: 32CUL333. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CUL404**Creating Foods**

The focus of this course is on the integration of culinary skills, training in food chemistry, and the innovative use of flavors and ingredients to prepare original foods. This course emphasizes quality, creativity and functionality in the food production. Prereq: 32CHEM332. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CUL406**Discovering Wine**

This course is a comprehensive overview of the many aspects of wine, winemaking, wine history, and wine enjoyment. We examine the gastronomic principles involved with storing, handling, serving, and pairing wine with foods, and wine will be tasted during each class.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Culinary Arts**32CUL406****Discovering Wine**

Special attention is paid to winemaking, grape growing and the history and terroir of the world's important wine producing regions. Students will need to purchase a set of wine tasting glasses. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32CUL420**Culinary Presentation**

The course will focus on recipe and press release writing skills, professionalism within the industry and media presentations. Within the course, students will be required to present a 30-minute culinary lecture and demonstration to their peers. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Civil and Construction Engineering Technology**32CVTN212****Structures II**

(Lab. 222) Strength of materials. Study of the mechanical properties of structural elements. Relationships between external forces and internal forces. Relationships between forces, stresses, and deformations. Lecture and lab must be taken concurrently. Prereq: 32CVTN213, 32MATH244. Coreq: 32CVTN222. BoK: NS, QR. Credit Level: U. Credit Hrs: 2.00-3.00

32CVTN213**Mechanics of Rigid Bodies**

Statics, equilibrants and resultants of two-dimensional force systems, centroids, and moments of area. Prereq: 32MATH244, 32BLTN107. Coreq: 32CVTN223. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32CVTN222**Structures II Lab**

Laboratory instructions for Structures II (32CVTN212) Prereq: 32CVTN212. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32CVTN223**Applied Structural Mechanics**

Studio course which explores the use of graphics and computer technology for problem solving. Student presentations are required. Coreq: 32CVTN213. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32CVTN242**Surveying**

Traversing, site plan, state plane coordinates, control survey, construction survey, circular curves and parabolic curves, earthwork. Complete five projects. Prereq: 32MATH244. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32CVTN251**Fluid Mechanics**

(Lab. 261.) Fluid statics and dynamics. A study of the principles of conservation of mass and energy applied to fluid flow systems. Characteristics of flow in enclosed conduits and open channels. Prereq: 32CVTN213, 32MATH244. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32CVTN261**Fluid Mechanics Laboratory**

Laboratory instructions for Fluid Mechanics (32-257-251). BoK: NA. Credit Level: U. Credit Hrs: 1.00

32CVTN313**Structures III**

(Lab. 323.) Design of structural steel members and connections based on LRFD Specifications. Practical problem solving and detailing of solutions. Lecture and lab must be taken concurrently. Prereq: 32CVTN212. BoK: NS, QR. Credit Level: U. Credit Hrs: 2.00-3.00

32CVTN314**Structures IV**

(Lab. 324.) Design of structural concrete members such as beams, slabs, spread footing and columns. Lecture and lab must be taken

Civil and Construction Engineering Technology**32CVTN314****Structures IV**

concurrently. Prereq: 32CVTN313. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32CVTN323**Structures III Laboratory**

Laboratory Instructions for Structures III (32-257-313). Prereq: 32CVTN313. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32CVTN324**Structures IV Laboratory**

Laboratory instructions for Structures IV (32-257-314). Coreq: 32CVTN314. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32CVTN378**Soil Mechanics**

(Lab. 388.) Types and classification of soils, characteristics, properties and behavior. Soil surveys include engineering sampling and procedures and compacted fill tests. Prereq: 32CVTN212, 32CVTN251, 32MATH244. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32CVTN388**Soil Mechanics Laboratory**

Laboratory instructions for Soil Mechanics (32-257-378). Coreq: 32CVTN378. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32CVTN390**Heavy/Highway Estimating**

A structured estimating process; work breakdown, cost elements, resources, labor material, equipment subcontractors and bid pricing. Prereq: 32ARTN122, 32ARTN289, 32BLTN107, 32CVTN242. BoK: QR, NS. Credit Level: U. Credit Hrs: 3.00

32CVTN401**Structural Systems I**

(Lab. 411.) Building code requirements that affect the selection of systems for light construction. Lateral bracing systems for one-story construction. Shallow and deep foundation systems. Prereq: 32CVTN314. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32CVTN411**Structural Systems I Laboratory**

Laboratory instructions for Structural Systems I (32-257-411). Coreq: 32CVTN401. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32CVTN571**Structural Systems II**

Lateral bracing systems for tall buildings. Case studies. Prereq: 32CVTN401. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

Electrical and Computer Engr and Computer Sci**32ECES321****Network Analysis I**

Fundamental laws, basic network variables, formulation of network equations, transient analysis. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32ECES322**Network Analysis II**

Sinusoidal steady state analysis of electric networks with applications, analog networks, four terminal networks. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32ECES323**Network Analysis III**

Fourier series introduction to Fourier transforms, Laplace transforms with applications. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32ECES351**Electric and Magnetic Fields I**

Review of electricity and magnetism. Fundamental concepts. Introduction to field theory. BoK: QR. Credit Level: U. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Electrical and Computer Engr and Computer Sci**32ECES352****Electric and Magnetic Fields II**

Continuation of 30ECES351. Engineering applications of electric and magnetic phenomena. Analysis and computation techniques. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32ECES421**Electromagnetic Devices I**

Electromagnetic field theory essential to transformer theory equivalent circuits; applications. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32ECES422**Electromagnetic Devices II**

Mechanical forces, torques, and induced voltages associated with magnetic fields. Analysis of rotating electrical machines. Offered alt. yrs. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32ECES423**Electromagnetic Devices III**

Continuation of 30ECES422. Motors, generators, relays, actuators. Engineering applications. Design and analysis techniques. Efficiency and loss analyses. Offered alt. yrs. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32ECES431**Electronics I**

Review of electrical and magnetic principles. Resistors, circuits, voltage and current dividers. Meters and measuring devices. Offered alt. yrs. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32ECES432**Electronics II**

Continuation of 30ECES431. Kirchoff laws. Network theorems. Conductors and insulators. Batteries. Magnets. Inductance and inductive circuits. Offered alt. yrs. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32ECES433**Electronics III**

Continuation of 30ECES432. Capacitance and capacitive circuits. Alternating current circuits Network Analysis. Filters, amplifiers, transistors. Digital circuits. Offered alt. yrs. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32ECES486**Feedback Control**

Automatic control theory. Transient and steady-state response. Transfer functions and stability criteria. Offered alt. yrs. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32ECES499**Independent Study in Electrical Engineering**

Please complete and submit an Independent Application form available from the college office. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

32ECES541**Communication Circuit Design I**

Senior level circuit design course using techniques and information gained in Electronics, Feedback Control and Electromagnetic fields courses. Emphasis on component search techniques. Prereq: 32ECES352, 32ECES433, 30ECES486. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32ECES542**Communication Circuit Design II**

Senior level circuit design; continuation of 30ECES541. Prereq: 30ECES541. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32ECES571**Engineering Design**

Topics important to the designer including product liability, specifications, patents, decision theory, reliability, optimization and computer-aided design. BoK: QR. Credit Level: U. Credit Hrs: 4.00

Economics**32ECON141****Principles of Economics: Micro**

Introduction to our economic system; supply and demand; pricing under competitive and noncompetitive market structures. BoK: SS. Credit Level: U. Credit Hrs: 3.00

32ECON142**Principles of Economics: Macro**

Introduction to national product and national income, and to monetary and fiscal policies for stability and growth. BoK: SS. Credit Level: U. Credit Hrs: 3.00

32ECON286**Survey of Economics**

Study of the production, distribution, and consumption of goods and services. Relations between the economy, society and government. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

32ECON371**Economics of Sport**

Economics growth of the sport industry over the last century. This course will apply basic economic tools to questions and problems in professional and intercollegiate sports as well as the operation of stadiums and arenas. Prereq: 32ECON142. BoK: SS. Credit Level: U. Credit Hrs: 3.00

32ECON386**Economic Analysis**

Asset valuation, depreciation and depletion, investment and operating costs, taxes, inflation, production economics, break-even analysis, value analysis, economic service life. Relations between economy and society. Prereq: 32ECON286. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

32ECON481**Globalization and International Trade**

Globalization and Theory of International Trade including balance of payments, tariffs, quotas, exchange rates; international monetary problems; foreign transactions and domestic economy; regional trade agreements. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

Electrical Technology**32EETN004****Electrical Equipment and Maintenance**

Basic theory of operation of electrical equipment including: magnetic circuits, transformers, motors and instrumentation. Also preventative and routine maintenance procedures pertaining to electrical equipment. Prereq: 32EETN018. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32EETN005**Electrical Equipment and Maintenance**

A continuation of Electrical Equipment and Maintenance (See 32-170-004). Prereq: 32EETN004. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32EETN006**Electrical Equipment and Maintenance**

Continuation of Electrical Equipment and Maintenance (See 32-170-004) Prereq: 32EETN005. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32EETN016**Fundamentals of Electricity**

A study of basic electrical principles including static and dynamic electricity, electromagnetism, DC and AC circuits, and an introduction to solid-state electronics. Review of applied mathematics is coordinated with related electrical formulas and calculations. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32EETN017**Fundamentals of Electricity**

A continuation of Fundamentals of Electricity (See 32EETN016). Prereq: 32EETN016. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Electrical Technology**32EETN018****Fundamentals of Electricity**

Continuation of Fundamentals of Electricity (See 32EETN016). Prereq: 32EETN017. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32EETN019**Electrical Wiring**

Wiring terminology, devices and circuits. Utilization of national electrical code and local utility requirements. Residential, commercial, and industrial installations. Prereq: 32EETN018. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32EETN020**Electrical Wiring**

A continuation of Electrical Wiring (See 32-170-019). Prereq: 32EETN019. BoK: NA. Credit Level: U. Credit Hrs: 3.00-4.00

32EETN021**Electrical Wiring**

A continuation of Electrical Wiring (See 32-170-019). Prereq: 32EETN020. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32EETN025**Industrial Control Circuits**

Machine electrical control devices required for use with manual, semiautomatic, and complex automatic circuits. Development of ladder diagrams showing sequence of machine operations with interlocking, safety, timing, displacement, and thermal limiting circuits. Solid-state electronic control devices and applications. Digital circuit analysis leading to a working knowledge of the programmable controllers and basic control circuit programming. Prereq: 32EETN018. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32EETN026**Industrial Control Circuits**

A continuation of Industrial Control Circuits (See 32-170-025). Prereq: 32EETN025. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32EETN027**Industrial Control Circuits**

A continuation of Industrial Control Circuits (See 32-170-025). Prereq: 32EETN026. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32EETN050**Computer Proficiency, Repair, and Maintenance**

Students will be provided with the basic information on installing, troubleshooting and using microcomputer communication and local area network hardware and software. They will learn how to use IBM compatible personal computers for personal and professional applications. They will also learn how to connect and troubleshoot peer-to-peer and other basic local area network (LAN) systems. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32EETN055**Computer Hardware and Software Upgrade**

Students will learn the operation of PC computer architecture, microprocessors, systems memory, video types, hard drives, mice, cabling, and printers as they relate to the running of current application programs. They will learn how to build upgrade and troubleshoot personal computer system specific to user requirements. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32EETN060**Fundamentals of Electricity**

Students will learn the basic of DC and AC electrical circuit theory. They will learn how to use algebra and trigonometry mathematics to solve electric equations and calculate current and voltage. They will also be introduced to basic solid state electronic devices such as diodes, transistors, SCR, Triac and their applications. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32EETN065**Electric Power Distribution**

Students will learn the concept of three-phase and single-phase power

Electrical Technology**32EETN065****Electric Power Distribution**

distribution systems and their appropriate use in industry. They will learn why and where step-up, step-down and isolation transformers should be utilized for electric power distribution. They will also learn how to calculate and use appropriate electrical devices for correcting power factor and harmonic pollutions in the electric system. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32EETN070**Electric Motors and their Maintenance**

Student will learn the operating characteristics of transformers and electrical motors including DC motors, three-phase and single-phase induction motors. They will also learn routine maintenance procedures for electrical motors, NEMA standard ratings and their control apparatus. Prereq: 32EETN060. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32EETN075**Electric Motor and Generator Operation**

Students will learn the concept of three-phase voltage generation and connection to a three-phase load. They will learn transformers types and connections, and characteristic of synchronous motors and generators. They will also learn how power electronic devices operate and are utilized. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32EETN080**Electric Wiring and Instrumentation**

Students will learn how to select sensors and instruments for industrial and plants commercial buildings. Basic theory and selection procedure of electronic and digital sensors and instruments will be covered. Students will also learn to select type and size of electric wires and conduits for electrical device, sensors and instruments. Prereq: 32EETN060. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32EETN085**Commercial Building Wiring**

Student will learn to select and install fuse classes/circuit breakers, service entrance transformers/conductors/over-current protection, motor short circuit, and fault protection for air conditioning and refrigeration units. They will also learn how to select and wire communication circuits, fire alarm systems and telephone systems in commercial and residential buildings. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32EETN090**Programmable Logic Controllers**

Student will learn the procedures for PLC selection, port connections, and ladder logic programming rules. They will use individual PLC simulation software and PLC trainers to write ladder logic programs for process and industrial control systems. They will also learn when to utilize relay logic instead of PLC in process or industrial control systems. Prereq: 32EETN060. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32EETN095**National Electric Codes (NEC)**

Students will learn how to comply with the national electrical code (NEC) and local utility requirements. They will learn to comply with NEC codes when wiring residential and commercial buildings. They will also learn how to calculate lighting loads, electric motor loads, and fire alarms and building communication signal loads. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32EETN099**Electrical Professional Engineering (PE/EE) Review Course**

This course is a review of electrical engineering topics to prepare students for the Electrical Engineering Professional Exam. Topics include AC/DC circuits analysis, single phase and three phase power, transformers, rotating machines, electronic devices, op-amp circuits, combinational and sequential logic, communication and control systems. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Electronic Technology**32ELTN099****Electrical PE Review**

This course is a review of electrical engineering topics to prepare students for the Electrical Engineering Professional Exam. Topics include AC/DC circuits analysis, single phase and three phase power, transformers, rotating machines, electronic devices, op-amp circuits, combinational and sequential logic, communication and control systems. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ELTN101**Electronics**

Semiconductor concepts, device characterization and operation of on junctions, bipolar transistors JFET's and MOSFET's, four-layer devices and LED's Bias design and single-stage amplifier circuit implementations. Prereq: 32ELTN142. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN102**Elements of Electrical & Computer Engineering Technology**

Survey of electrical and computer engineering technology. An introduction to circuit theory, computer simulation and computer systems concepts. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32ELTN111**Electronics Laboratory**

Investigation of electronic devices and their operation in active circuits. Introduction to electronic circuit design. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN112**Elements of Electrical & Computer Engineering Lab**

Laboratory exercises emphasizing the practical aspects of CAD; Computer simulation and laboratory testing of simple DC circuits. Coreq: 32ELTN102. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN141**Digital Systems I**

Number systems, Boolean algebra, logic concepts, and characterization of TTL and CMOS logic families. Investigation of gates, latches, decoders, and bistables and their interconnection into combinational logic subsystems. Prereq: 32ELTN101. Coreq: 32ELTN151. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN142**Circuit Analysis I**

Investigation of electric circuits and problems solutions using Ohm's Law. Kirchhoff's voltage and current laws, mesh and nodal analysis methods, superposition and Thevenin's and Norton's theorems. Electric and magnetic field concepts. Prereq: 32MATH178, 32ELTN102. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN143**Circuit Analysis II**

Investigation of circuits containing real and reactive components with sinusoidal forcing functions. Problem solution employing phasor analysis, superposition, RC, RL, and RLC parallel circuits including resonance and transient phenomena. Prereq: 32ELTN142. Coreq: 32ELTN153. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN144**Circuit Analysis III**

Advanced circuit analysis techniques including mesh and nodal analysis, AC bridges, filters, and pulsed circuits. Prereq: 32ELTN143. Coreq: 32ELTN154. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN151**Digital Systems I Laboratory**

Experimentation with logic gates, and their interfacing requirements, bistables, and latches, decoders and monostables, TTL, CMOS, and ECL logic families. Coreq: 32ELTN141. BoK: NA. Credit Level: U. Credit Hrs: 1.00

Electronic Technology**32ELTN152****Circuit Analysis I Laboratory**

Utilization of electrical measurement instrumentation in the verification and proofing the concepts, methods, and laws of DC Circuit Analysis. Coreq: 32ELTN142. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN153**Circuit Analysis II Laboratory**

Experiments are performed to verify and study AC applications of RC parallel circuits and resonance transient phenomena, and time-domain analysis. Prereq: 32ELTN142. Coreq: 32ELTN143. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN154**Circuit Analysis III Laboratory**

Mesh and nodal analysis, AC bridges, filters, pulsed circuits. Prereq: 32ELTN143. Coreq: 32ELTN144. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN203**Linear Electronics**

Topics of higher power nature, power supplies and voltage regulators, OP Amps and AC power control. Prereq: 32ELTN101. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN207**Large Signal Electronics**

Multistates amplifiers, JFETS, frequency response considerations. Prereq: 32ELTN101. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN209**Telecommunications I**

Basic concepts of telecommunications systems, emphasizing the present telephone system. Prereq: 32ELTN143. Coreq: 32ELTN219. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ELTN210**Telecommunications II**

Study of computer communications networks and the problems encountered when sending data over them. Prereq: 32ELTN209, 32ELTN219. Coreq: 32ELTN220. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ELTN211**Telecommunications III**

Study of new and emerging telecommunications techniques, including cable and satellite systems. Prereq: 32ELTN210, 32ELTN220. Coreq: 32ELTN221. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ELTN213**Linear Electronics Laboratory**

Laboratory experiments in support of the lecture (32ELTN203). BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN218**Large Signal Electronics Lab**

Laboratory experiments in support of the lecture (32ELTN207). BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN219**Telecommunications I Laboratory**

Experiments and studies in support of the lecture. Prereq: 32ELTN143, 32ELTN153. Coreq: 32ELTN209. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN220**Telecommunications II Laboratory**

Experiments and studies in support of the lecture. Prereq: 32ELTN209, 32ELTN219. Coreq: 32ELTN210. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN221**Telecommunications III Laboratory**

Experiments and studies of advanced telecommunications techniques. Prereq: 32ELTN210, 32ELTN220. Coreq: 32ELTN211. BoK: NA. Credit

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Electronic Technology**32ELTN221****Telecommunications III Laboratory**

Level: U. Credit Hrs: 1.00

32ELTN242**Digital Systems II**

Study of MSI and LSI digital registers, half-adders, static and dynamic memories, and their interconnection to form computer circuits from the electronic device timing, and signal perspectives. Introduction to microcomputers circuits with the Intel SDK-85 trainer. Prereq: 32ELTN141. Coreq: 32ELTN252. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN243**Assembly Language and Microprocessors**

Organization of combinational logic and memory into computer systems. Arithmetic and logic units, memory and control, and input-output devices. Prereq: 32ELTN242. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN247**Electronic Communications**

Introduction to communications signals and spectra, analog modulation and demodulation including AM, FM, and FSK. Study of RF, video, and tuned circuits. Time and frequency domain concepts, and noise. Prereq: 32ELTN203. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN252**Digital Systems II Laboratory**

Experimentation with digital complex function devices including interfacing requirements. Half-adders, decoders, multiplexers, registers, and associated functions and their interconnection into subsystems are evaluated. Coreq: 32ELTN242. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN253**Assembly Language and Microprocessors Lab**

Computer concepts are illustrated by manipulation of architectural features in an existing system. Prereq: 32ELTN242, 32ELTN252. Coreq: 32ELTN243. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN256**Topics Of Applied Design**

Covers practical concepts integral to the design of systems. This includes component selection, and tolerance, circuit design and construction and other concepts that are important to the design of electronic system. Prereq: 32ELTN203, 32ELTN242. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ELTN257**Electronic Communications Laboratory**

Experimental investigation of tuned circuits, signal analysis and Fourier methods in the time and frequency domains, and AM and FM modulation and demodulations circuits. Coreq: 32ELTN247. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN266**Topics Of Applied Design Laboratory**

Practical projects and experiments in applied electronic design, in support of Applied Design lecture (32ELTN256). Prereq: 32ELTN213, 32ELTN252. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN278**Basic Electrical Circuits**

DC and AC voltage, current and power concepts, series and parallel circuits, and elementary networks. Waveform analysis, impedance and phase relationships, application to power systems. Coreq: 32MATH179. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32ELTN288**Basic Electrical Circuits Laboratory**

Experiments with DC and AC circuits, measurement techniques, and proofing of fundamental circuit analysis theorems. Coreq: 32ELTN278, 32MATH179. BoK: NA. Credit Level: U. Credit Hrs: 1.00

Electronic Technology**32ELTN288****Basic Electrical Circuits Laboratory**

Experiments with DC and AC circuits, measurement techniques, and proofing of fundamental circuit analysis theorems. Coreq: 32ELTN278, 32MATH179. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN289**Topics in Electronic Instrumentation I**

Topics in operational amplifier systems, active filters and elementary instrumentation. Prereq: 32ELTN207. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN299**Topics in Electronics Instrumentation I Laboratory**

Experiments with operational amplifiers in linear and nonlinear circuits and active filters, in support of the lecture course. Coreq: 32ELTN289. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN309**Telecommunications I**

Basic concepts of telecommunications systems, emphasizing the present telephone system. Prereq: 32ELTN143. Coreq: 32ELTN219. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ELTN310**Telecommunications II**

Study of computer communications networks and the problems encountered when sending data over them. Prereq: 32ELTN309. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ELTN311**Telecommunications III**

Study of new and emerging telecommunications techniques, including cable and satellite systems. Prereq: 32ELTN310. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ELTN319**Telecommunications I Laboratory**

Experiments and studies in support of the lecture. Prereq: 32ELTN153. Coreq: 32ELTN309. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN320**Telecommunications II Laboratory**

Experiments and studies in support of the lecture. Prereq: 32ELTN319. Coreq: 32ELTN310. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN321**Telecommunications III Laboratory**

Experiments and studies of advanced telecommunications techniques. Prereq: 32ELTN310. Coreq: 32ELTN311. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN341**Topics of Electronic Instrumentation II**

Advanced topics in linear systems with emphasis on real life design and operation of amplifier circuits. Understanding manufacturer's literature and its application to design limitations with application to medical electronic systems. Prereq: 32ELTN289. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN342**Embedded Systems**

Development of stand alone microcomputer systems, with emphasis placed upon the Intel 8031 and Motorola 68HC11 microcontroller, Sensors and display interfacing plus A/D converters are included. Prereq: 32ELTN243. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32ELTN345**Servomechanisms**

Design and analysis of feedback systems for position and velocity control. Study of DC and AC servos, single-axis robotic actuators, and general closed-loop systems from Routh, Bode, and root locus viewpoints. Prereq: 32ELTN372. Coreq: 32ELTN355. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Electronic Technology**32ELTN346****Feedback Control II**

Design, analysis and simulation of digital control systems. Analysis in both time and frequency domains. Z-transforms and stability. Introduction to microcomputer control. Prereq: 32ELTN372. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN351**Topics in Elec Instrumentation II Laboratory**

Experiments in advanced operational amplifier applications, with emphasis on biomedical systems. Prereq: 32ELTN289. Coreq: 32ELTN341. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN352**Embedded System Laboratory**

Experiments in building stand alone microcomputer systems in support of the lecture course. Prereq: 32ELTN342. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN355**Servomechanism Laboratory**

Experimental investigation of feedback control systems for speed and position control. Measurement of system transient response, steady state error, and compensation effects. Prereq: 32ELTN345. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN356**Feedback Control II Laboratory**

Design of computer simulation and implementation of analog and digital compensators for servomechanisms in support of Feedback Control II lecture. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN372**Feedback Control I**

Analysis and modeling of feedback systems using D.E.'s and T.F.'s. Prereq: 32MATH381. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN373**Electromagnetics**

Investigation of electric and magnetic quantities under non-time varying charge and charge-free conditions. Maxwell's equations and wave propagation with applications to transmission line and antennas. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN381**Electronic Fundamentals**

Introduction to linear and digital electronic devices and circuits with emphasis on the elements of instrumentation and measurement systems. FOR NON EET MAJORS. Prereq: 32ELTN278. Coreq: 32ELTN391. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN382**Feedback Control I Laboratory**

Experimentation and simulation of feedback systems in support of the lecture (32ELTN372). Coreq: 32ELTN372. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN391**Electronic Fundamentals Laboratory**

Experiments with linear and digital electronic circuits using oscilloscopes and other measurement instrumentation. Investigation of data acquisition system components and their interconnection. Prereq: 32ELTN381. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN401**Topics of Data Communications**

Investigation of analog and digital modulation and detection methods and performance limitations primarily for data transmission including AM, FMD, OOK, FSK, PAM, PCM. Noise and channel considerations, system calculations. Prereq: 32ELTN411. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

Electronic Technology**32ELTN402****Topics of Data Communication Laboratory**

Experimental investigation of analog-to-digital conversion, compounding, pulse code modulation, and adaptive delta modulation. Time and frequency division multiplexing will also be investigated. Data communication protocols will be evaluated. Coreq: 32ELTN401. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN411**Senior Design I**

Real-world design project combining both theoretical and experimental elements in area of student's primary interest. Approximately 150 hrs. effort culminating in Senior Thesis. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32ELTN412**Senior Design II**

A continuation of Senior Design I. Prereq: 32ELTN411. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN413**Senior Design III**

A continuation of Senior Design I Prereq: 32ELTN412. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ELTN415**Topics of Flexible Automation**

An introduction to PLC architecture, programming, and networking based upon the Modicon984 family of controllers, Modsoft, and PanelMate Plus graphic MMI. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN416**Rotating Electrical Machines**

An investigation of the operating characteristics and control of the following rotating electrical machines: 3-phase induction motors, single phase induction motors, stepper motors, synchronous motors, synchronous generators, and DC machines. Coreq: 32ELTN426. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN417**Topics of Microcomputer Interfacing**

Interfacing of both DC and AC devices using various support circuits and the C programming language. Topics include programmable peripheral devices, interrupts, and optoisolators. Prereq: 32IET160. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN418**Topics of AI-Expert Systems**

An application introduction to artificial intelligence concepts and expert systems. Topics include LISP programming, expert system shells, and applications. Prereq: 32ELTN484. Coreq: 32ELTN428. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN419**Topics of Flexible Automation II**

Advanced topics in PLC architecture, programming and networking based upon the Modicon family of controllers. Prereq: 32ELTN415. Coreq: 32ELTN429. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN422**Topics of Operating Systems**

Examination of operating systems concepts, services, file systems, scheduling, memory management, protection and real-time applications. Prereq: 32ELTN484. Coreq: 32ELTN432. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN424**Topics of UNIX System Administration**

Examination of UNIX system administrative tasks. Topics include startup, shutdown, user accounts, file systems, backup and restore, terminals, modems, and TCP/IP management. Prereq: 32ELTN484. Coreq: 32ELTN434. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Electronic Technology**32ELTN425****Topics of Flexible Automation Laboratory**

PLC configuring, programming, trouble shooting, and networking.
Coreq: 32ELTN415. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN426**Rotating Electrical Machines Laboratory**

A laboratory investigation of 3-phase induction motors, single phase induction motors, synchronous machines, and DC machines. In support of the lecture. Prereq: 32ELTN144. Coreq: 32ELTN416. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN427**Topics of Microcomputer Interfacing Laboratory**

Hardware/software exercises to demonstrate classroom concepts utilizing the appropriate hardware and software. Prereq: 32IET160. Coreq: 32ELTN417. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN428**Topics of AI-Expert Systems Laboratory**

LISP and expert system shell programming exercises to illustrate classroom concepts. Prereq: 32ELTN484. Coreq: 32ELTN418. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN429**Topics of Flexible Automation II Laboratory**

Advanced concepts in PLC programming configuring and networking. Coreq: 32ELTN419. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN432**Topics of Operating Systems Laboratory**

Programming projects to demonstrate operating systems lecture concepts. Prereq: 32ELTN484. Coreq: 32ELTN422. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN434**Topics of UNIX System Administration Laboratory**

Exercises to demonstrate classroom concepts utilizing the UNIX operating system. Prereq: 32ELTN484. Coreq: 32ELTN424. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN436**Topics of Compiler Design**

Examination of lexical analysis, parsing, code generation, optimization, and error recovery. Prereq: 32ELTN484. Coreq: 32ELTN426. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32ELTN437**Object Oriented Programming in C++**

An introduction to data structures using the C++ programming language and the UNIX programming environment. Topics include linked lists, libraries, structures and pointers. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ELTN445**Topics of State Variable Feedback**

Student learn to model a wide array of physical systems using state-variable models. The concept of altering the characteristics (poles) of a system using feedback is then discussed in terms of stability, transient response, and steady-state tracking performance indices. For systems which are controllable. Ackermann's Formula is used to compute the feedback control gains for the states. For systems in which the states cannot be physically measured, observers are designed which generate estimates of the states which will converge to the actual physical states. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32ELTN446**Topics of Compiler Design Laboratory**

Programming projects to demonstrate classroom concepts utilizing the C programming language and the UNIX operating system. Prereq: 32ELTN484. Coreq: 32ELTN436. BoK: NA. Credit Level: U. Credit Hrs: 1.00

Electronic Technology**32ELTN447****Object Oriented Programming in C++ Laboratory**

Experiments and studies in C++ in support of the lecture. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN451**Polyphase Networks**

Analysis of balanced and unbalanced Wye and Delta networks. Three-phase power measurements, 3-phase rectifiers, 3-phase transformations, symmetrical components. Prereq: 32ELTN144. Coreq: 32ELTN461. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32ELTN455**Topics of State Variable Laboratory**

Students are given mechanical, electrical, and chemical systems to model and control. Matlab and Simulink are utilized extensively to compute the state gains and simulate the physical systems and the state estimators. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN456**Topics of Computer Networks I**

An introduction to design, selection and implementation of computer networks. Specific topics include: transmission media packets, frames, LAN's, WAN's, addressing, routing, protocols and TCP/IP. Prereq: 32ELTN484. Coreq: 32ELTN466. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32ELTN457**Topics of Computer Networks II**

UNIX network programming. Topics include interprocess communication, Berkeley sockets, System V transport layer, and network security. Prereq: 32ELTN456. Coreq: 32ELTN467. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32ELTN458**Topics Of Virtual Instrumentation**

Control and monitoring of electronic systems using computers incorporating virtual instrumentation software. Topics covered will include data acquisition and logging, data analysis and reporting. Prereq: 32ELTN243, 32ELTN289. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ELTN461**Polyphase Networks Laboratory**

Single-phase power measurements, power factor correction, 3-phase rectifiers, transformer characteristics, 3-phase transformations. Prereq: 32ELTN451. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN466**Topics of Computer Networks I Laboratory**

Exercises and projects to illustrate lecture concepts. Coreq: 32ELTN456. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN467**Topics of Computer Networks II Laboratory**

Programming projects to demonstrate classroom concepts utilizing the UNIX operating system. Prereq: 32ELTN456. Coreq: 32ELTN457. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN468**Topics Of Virtual Instrumentation Laboratory**

Laboratory experiments in computer data acquisition, analysis and control, in support of the lecture. Prereq: 32ELTN299, 32ELTN253. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN469**Topics of Power Semiconductor Drives**

Study of power semiconductor motor drives, including invertors, choppers and PW modulators. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ELTN471**Topics of RF Communications Systems**

A study of radio frequency sources, amplifiers, and system design. Circuit design employing s-parameters, system calculations using

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Electronic Technology**32ELTN471****Topics of RF Communications Systems**

signal-to-noise ratios, and introduction to optical communication systems. Prereq: 32ELTN247. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32ELTN478H**Topics Of Technical Project Management**

Issues related to managing technical projects in organizations. These include: Project Planning, Budgeting and Control Leadership, Conflict Resolution, Resource Allocation and Scheduling. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ELTN479**Topics of Power Semiconductor Drives Laboratory**

Experimentation with power motor drives in support of the lecture. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN481**Topics of RF Communication Systems Laboratory**

Experimental evaluation of modulation techniques to include: frequency modulation, FSK, BPSK, mixers and RF amplifiers will be constructed and evaluated. Measurement of transmission parameters. Introducing overview of RF software with application. Coreq: 32ELTN471. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN483**Computer Architecture**

An introduction to computer design. Topics include performance and cost, instruction set design, instruction set measurements and basic processor implementation techniques. Prereq: 32ELTN243. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32ELTN485**Digital Signal Processing**

Discrete-time signal operations, Z-transforms, and discrete Fourier transforms. Analysis of infinite impulse response digital filters including windowing. Introduction to fast Fourier transforms and computer simulation methods. Prereq: 32ELTN243, 32ELTN346. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN486**Graphical Network Programming**

This course uses JAVA to explore graphical applications and network/web applications. This is a culminating, capstone-like project-based learning experience for CET students. Prereq: 32CET133. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32ELTN487**Topics of Digital Signal Processing II**

Advanced studies and applications of digital signal processing. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ELTN493**Computer Architecture Laboratory**

Simulation language exercises to illustrate classroom concepts. Coreq: 32ELTN483. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN495**Digital Signal Processing Laboratory**

Application of computer techniques to DSP in support of DSP lecture. Coreq: 32ELTN485. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN496**Graphical Network Programming Laboratory**

Programming projects to demonstrate classroom concepts utilizing X-based workstations. Coreq: 32ELTN486. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ELTN497**Topics of Digital Signal Processing II Laboratory**

Experimentation and simulation in support of the lecture. BoK: NA. Credit Level: U. Credit Hrs: 1.00

Electronic Technology**32ELTN499****Special Topics in EET**

Special Topics in Electrical Engineering Technology. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

Engineering Fundamentals**32ENFD101****Introduction to Engineering and Engineering Technology**

An overview of the Engineering and Engineering Technology profession and the skills necessary for success. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32ENFD141**Mechanics I**

Study of statics. Moments, resultant forces and equilibrium for particular and rigid bodies. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32ENFD142**Mechanics II**

Study of motion and the relationship between force, inertia, and kinetics of particles. Work-energy and impulse-momentum concepts. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32ENFD143**Mechanics III**

Study of motion and the relationship between force, inertia, and kinematics of rigid bodies. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32ENFD371**Basic Thermodynamics**

Thermodynamics as an engineering science, fundamental concepts, law, processes, and properties of matter; application in the field of engineering. BoK: NS., QR. Credit Level: U. Credit Hrs: 4.00

32ENFD372**Basic Fluid Mechanics**

Fluid properties, types of flow, fundamental concepts and equations, viscous effects, similarity parameters, measuring of flow. BoK: NS., QR. Credit Level: U. Credit Hrs: 4.00

32ENFD373**Basic Heat Transfer**

Fundamental considerations in heat transfer; conduction, convection, and radiation. BoK: NS., QR. Credit Level: U. Credit Hrs: 4.00

32ENFD374**Nature and Property of Materials**

The structures of solid materials. Structure imperfections and responses to static and dynamic loading. Phase equilibria in solids and material response to engineering environments. BoK: NS., QR. Credit Level: U. Credit Hrs: 4.00

32ENFD375**Basic Strength of Materials**

Application of the principles of mechanics to the design of shafts, beams, columns, and structures. Shear and bending moment diagrams; deflections; combined stresses. BoK: NS., QR. Credit Level: U. Credit Hrs: 4.00

32ENFD376**Basic Electric Circuit Theory**

Transient and steady state circuit analysis, equivalent networks, power, polyphase systems, resonance, and Thevenin's theorem. BoK: NS., QR. Credit Level: U. Credit Hrs: 4.00

32ENFD377**Basic Electrical Machinery**

Theory and characteristics of transformers and rotating machinery. BoK: NS., QR. Credit Level: U. Credit Hrs: 4.00

32ENFD378**Basic Electronics**

Characteristics of active devices, application to electronic circuits and instruments. BoK: NS., QR. Credit Level: U. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Engineering Fundamentals**32ENFD499****Independent Study in Engineering Fundamentals**

Please complete and submit an Independent Application form available from the college office. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

English**32ENGL071****Study Skills and Problem Solving**

Individual and group instruction in skills important to successful college work. Additional emphasis on activities to enhance critical and analytical problem solving abilities. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ENGL091**Basic Grammar and Writing**

A grammatical approach to writing anxieties with exercises in grammar, mechanics, usage, practice in sentence and paragraph writing: assignments based on student's language needs and interests. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

32ENGL097**Preparatory Reading and Writing**

Review of reading and writing skills for success in English Composition I. Heavy emphasis on effective reading strategies. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ENGL099**Preparatory Composition**

Review of skills necessary for success in English Composition I. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ENGL101**English Composition I**

A study of college level writing, including strategies for pre-writing, writing, revising, and editing that focuses on audience and purpose, and introduces concepts of critical thinking, reading, writing, and information literacy. Portfolio used for University Exit Exam. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ENGL102**English Composition II**

An introduction to researching and writing in the technical professions with a focus on fundamentals of argument and continued emphasis on information literacy from English Comp I resulting in writing of a major research paper on a technical subject, together with a study of memos, letters, proposals, and reports. Prereq: 32ENGL101. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ENGL103**English Composition III**

Final course in English Composition sequence, emphasizing further development of critical thinking, reading, and writing skills and strategies, through the study of literature including fiction, poetry, and/or drama. Prereq: 32ENGL102. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ENGL103H**Honors English Composition III**

Final course in English composition sequence for Honors Students. It emphasizes further development of critical thinking, with more challenging examples and readings than the regular section of English Comp III. Prereq: 32ENGL102. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ENGL234**Contemporary Literature: Drama**

Focuses upon the works of 20th Century Playwrights. BoK: LT. Credit Level: U. Credit Hrs: 3.00

32ENGL235**Technical Poetry: The Peak of Technique**

The study of poetry as technique: technical analysis of poetic elements, with focus on poems that technical in form and content. BoK: LT. Credit

English**32ENGL235****Technical Poetry: The Peak of Technique**

Level: U. Credit Hrs: 3.00

32ENGL240**Biographies of Eminent Scientists**

We will read biographies of Sir Isaac Newton, Albert Einstein, Marie Curie and Stephen Hawking. Prereq: 32ENGL103. BoK: LT. Credit Level: U. Credit Hrs: 3.00

32ENGL250**British and American Mystery Stories**

Examines British and American mystery and detective stories as fictional puzzles, and explores the ways puzzles/crimes solved. BoK: LT. Credit Level: U. Credit Hrs: 3.00

32ENGL270**Contemporary Mystery and Spy Story**

The contemporary mystery and spy story: P.D. James, John LeCarre, John Grisham, Sara Paretsky, and Jonathan Valin. Prereq: 32ENGL103. BoK: LT. Credit Level: U. Credit Hrs: 3.00

32ENGL271**Themes in American Literature: Lifestyles**

Nonconformists, the individual vs. society. An examination of various literary works that deal with social outsiders, individualists, and rebels who resist society's expectations, conformity, or group acceptability. BoK: LT. Credit Level: U. Credit Hrs: 3.00

32ENGL272**Money and The American Dream**

This course is designed to improve your appreciation for as well as your reading, writing, and critical thinking about treatment of the theme of the American dream in American literature. We will trace this theme from the Jazz Age of the 1920's to the big money of today's casinos. BoK: LT. Credit Level: U. Credit Hrs: 3.00

32ENGL275**American Childhood in Literature**

Using a cultural studies approach, this course examines literary treatments of childhood in American literature. This is a multi-ethnic course that attempts to help students - understand childhood as a socially constructed concept. Prereq: 17ENGL101. BoK: LT. Credit Level: U. Credit Hrs: 3.00

32ENGL289**Intermediate Composition**

Drawing from a specific topic or topics drawn from broad disciplinary fields, this intermediate level, General Education course builds upon and enhances the writing and reading skills developed in first-year writing courses (English 101 & 102). The course emphasizes critical reading and writing, more advanced research and argumentative skills, and rhetorical understanding of discourse as it is used in different disciplines and discourse communities. This course will bridge students' learning about writing from the first-year sequence to more advanced writing in their chosen disciplines in upper-level courses. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ENGL341**Technical and Professional Writing I**

Technical writing forms, emphasis on research, style, and use of graphics. Prereq: 32ENGL103. BoK: HU. Credit Level: U. Credit Hrs: 3.00

32ENGL342**Technical and Professional Writing II**

Emphasis on writing manuals, professional articles, and technical correspondence. Prereq: 32ENGL341. BoK: HU. Credit Level: U. Credit Hrs: 3.00

32ENGL350**The Spy Story: International Espionage and Politics.**

Explores ways that the spy in fiction mirrors closely the complexities of international politics and warfare in the 20th century. Prereq:

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

English**32ENGL350****The Spy Story: International Espionage and Politics.**

32ENGL103. BoK: LT. Credit Level: U. Credit Hrs: 3.00

32ENGL360**Selected Comic, Satiric, & Bawdy Poetry and Prose**

We will read selections from Chaucer, Shakespeare, Dryden, Pope, Swift, Byron and Ogden Nash. We will also spend time on the limerick. Prereq: 32ENGL103. BoK: LT. Credit Level: U. Credit Hrs: 3.00

32ENGL370**Technical Publications: Layout, Design & Production**

This course is a study of the practices and principles of design, editing, and production of technical and organizational publications, or the "technical magazines" of business and industry, with emphasis on integrated editing, the merging of graphics and text into an organizational publication for distribution to a large audience. Prereq: 32ENGL103. BoK: HU. Credit Level: U. Credit Hrs: 3.00

32ENGL374**Border Crossings: Images in World Cinema**

The course will explore the meaning and legitimacy of border crossings as represented in Contemporary World Cinema. Students will attempt to consider and question categories such as exile, refugee, tourist, as well as those of invasion, war, and famine being represented and catalogued in this vibrant cinema discourse that provides an international dialogue about the things that separate and join us. Prereq: 32ENGL101, 32ENGL102. BoK: DC, LT. Credit Level: U. Credit Hrs: 3.00

32ENGL375**Entering The Global Conversation**

The course will look at the conditions of developing countries the voices of their writers, musicians, and filmmakers, concentrating on the day to day events that occupy a majority of the world's people. In the literary and artistic products of these are some of the most probing questions about how technology and global marketplace affect ordinary citizens who have even less influence over their futures than Westerners do. For instances, the class will look at the literature coming out of the Middle East, films shaping public opinion in India, or the music catalyzing democratic change in southern Africa. Prereq: 32ENGL103. BoK: LT, DC. Credit Level: U. Credit Hrs: 3.00

32ENGL378**Filmic Arts**

An introduction to film with concentration on the visual and verbal elements that create impact and viewing pleasure. Attention will be given to classic and contemporary films that best illustrate the filmic art. BoK: LT., FA. Credit Level: U. Credit Hrs: 3.00

32ENGL379**Film As Production**

In this course, students will concentrate on the elements of production both technical and artistic. Because filmmaking blends specific technical knowledge with visual, verbal and written arts, students will try their hand at composing and developing a short film through storyboarding, writing and editing. Prereq: 32ENGL101, 32ENGL102. BoK: LT, FA. Credit Level: U. Credit Hrs: 3.00

32ENGL382**Utopian and Science Fiction Novels**

Study of selected science fiction with focus on technology's effect on man's search for a better society. Prereq: 32ENGL103. BoK: LT. Credit Level: U. Credit Hrs: 3.00

32ENGL383**Literature of Science and Technology**

Study of selected scientific literature. BoK: LT. Credit Level: U. Credit Hrs: 3.00

32ENGL384**American Short Story**

An examination of the evolution and tradition of the American short

English**32ENGL384****American Short Story**

story, including the process through which stories are created. Prereq: 32ENGL103. BoK: LT. Credit Level: U. Credit Hrs: 3.00

32ENGL385**Technology, Holocaust and Text**

While no course can review every technological element related to the holocaust, this one will examine various texts in literature, film, and television to discern the role technology played initially and continues to play concerning this important historical moment; it will permit students to investigate the limits of technology in producing such an experience as well as the render the experience which is essentially beyond representation. The class will also consider ethical questions at the heart of recording, investigating, and dispensing such material. Prereq: 32ENGL103. BoK: SE, LT. Credit Level: U. Credit Hrs: 3.00

32ENGL387**Food and Film**

This course examines films that concern food or utilize food in its preparation as a meaning system in contemporary film. The class will investigate the significance of food in establishing groups such as family, community, and culture. Prereq: 32ENGL103. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

32ENGL393**The African American Literary Tradition**

This course presents key issues and themes in African American literature from the Slave Era to the present. The course is comprised of important texts in multiple genres: poetry, drama, short fiction, essays and novels which have both contributed to and shaped the major critical foci of African American literature from its "beginnings" through the 20th century. Though the course presumes very little knowledge on the students' parts of either African American studies specifically or ethnic studies more generally, it does presume some basic literature background. BoK: LT., DC. Credit Level: U. Credit Hrs: 3.00

32ENGL395**Nobel Prize for Literature: Globalization Nationalism & Post-Colonialism**

As readers we will try to understand the reasons for the awarding of the Nobel Prize to authors from diverse cultural, ethnic, religious and political backgrounds to see if Nobel's request that the prize be awarded to the author whose work "benefited humanity most in given years. BoK: LT., DC. Credit Level: U. Credit Hrs: 3.00

32ENGL396**Nobel Prize for Literature: Ireland's Four Laureates**

As readers we will try to understand the reasons for the awarding of the Nobel Prize to authors from diverse cultural, ethnic, religious and political backgrounds to see if Nobel's request that the prize be awarded to the author whose work "benefited humanity most in given years. BoK: LT., DC. Credit Level: U. Credit Hrs: 3.00

32ENGL397**Nobel Laureates in Literature: Past & Present Prize Winning Authors (1909-1993)**

An exploration of the writings of nobel laureates in literature in a cultural and political context. BoK: LT. Credit Level: U. Credit Hrs: 3.00

32ENGL398H**The Pink Triangle: Homosexuals in Nazi Germany**

When Hitler came to power in 1933, Germany changed from a center of homosexual liberation to a center of homosexual oppression. We will follow Germany's gay men from the cabaret to the concentration camp and try to comprehend how this happened, and what are the wider implications. Prereq: 32ENGL103. BoK: LT, DC. Credit Level: U. Credit Hrs: 3.00

32ENGL460**Senior Project Communications I**

The first communication course in the senior project sequence covers review of the literature, definition of the chemical problem to be

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

English**32ENGL460****Senior Project Communications I**

investigated and solved, and development of two communication projects: a feasibility study and a project management plan. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ENGL461**Senior Project Communications II**

The second communication course in the senior project sequence focuses on development of an oral presentation of the Project Management Plan, and a written interim report on the progress of the senior project at mid-year. Prereq: 32ENGL460. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32ENGL462**Senior Project Communications III**

Third communication course in the senior project sequence develops student expertise in the oral, graphic, and written documentation of their project work. Students will plan, draft, and deliver a formal oral presentation. Prereq: 32ENGL460. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ENGL483**Modern Fiction**

Study of selected late 19th century and early 20th century short stories and novellas. Prereq: 32ENGL103. BoK: LT. Credit Level: U. Credit Hrs: 3.00

32ENGL493**Senior Design Communications**

Researching, organizing and writing formal technical reports, and oral presentations, in conjunction with major departments' senior project requirements. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ENGL498**Special Topics In English**

This course permits special topics instructions to be offered in the Humanities area of English. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

32ENGL499**Independent Study In English**

This course permits independent study instruction to be offered in the Humanities area of English. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

Energy**32ENGY101****Stationary Engineering I**

To provide the basic fundamental knowledge for high performance steam plant operation. This includes steam and its importance, utility boilers for electrical power, combined cycle and cogeneration systems, fundamentals of steam generation, principles of heat transfer, superheaters, nuclear steam generation, design and construction of boilers, fluidized bed boilers and combustion of fuels, maximum allowable working pressure, internal design pressure and boiler horsepower calculations. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ENGY102**Stationary Engineering II**

Boiler settings, combustion systems and auxiliary equipment, handfiring, stokers, pulverized coal, fuel oil, gas, automatic operation of boilers, boiler accessories, operation and maintenance of boilers, instruments and automatic control systems pumps, and auxiliary steam plant equipment. Minimum and maximum hydrostatic test pressure calculations. Prereq: 32ENGY101. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ENGY201**Stationary Engineering III**

Pumps, facts about fluids and pumping, factors affecting pump operation, pump installation and operations, pump testing and calculations, pump maintenance, steam turbines, turbine design and

Energy**32ENGY201****Stationary Engineering III**

construction, electric generations, cooling towers and condensers and steam turbine horsepower calculations. Prereq: 32ENGY102. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ENGY202**Stationary Engineering IV**

To provide the fundamental technical knowledge of steam plant equipment for the Ohio State Stationary Engineer's Examination. Steam turbines and auxiliary equipment, environmental control systems, and Waste to energy plants, application of thermodynamics, fluid mechanics and heat transfer in power plant operations. Review of all power plant calculations and synthesis of Stationary Engineering I, II, III and IV. Prereq: 32ENGY201. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Engineering Science**32ENSC141****Graphics I**

Instrumental drawing, geometric construction and descriptive geometry applied to multiview projection, auxiliary views, oblique projection, isometric drawing, and perspective. Dimensioning, graphic techniques, graphical math, empirical equations, least squares. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32ENSC142**Graphics II**

Continuation of 30ENSC141, and its application using AutoCAD, introduction to CAD. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32ENSC171**Methods of Digital Computation**

FORTAN programming utilizing basic numerical algorithms with engineering applications. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32ENSC271**Advanced Computer Techniques**

Advanced techniques in FORTRAN. Subroutines, library programs, graphing, job control language, program debugging. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32ENSC272**Numerical Methods and Computer Techniques I**

Roots of equations, matrices, polynomial approximations, and finite differences, quadrature, computer solutions. Computer control, searching, and sorting techniques. Offered alt. yrs. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32ENSC273**Numerical Methods and Computer Techniques II**

Continuation of 30ENSC272. Offered alt. yrs. Matrix methods, eigenvalue problems, searching and sorting techniques, quadrature, numerical differentiation, error analysis, differential equations. Offered alt. yrs. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32ENSC471**CAD/CAM**

Computer-aided-design; computer graphics software, representation of graphic elements, editing and transforming. Non-line simultaneous equations. Object modeling, system assembly, and mechanism design using IDEAS (3-D) CAD software. Computer-aided-manufacturing; numerical control and computer numerical control part programming, industrial robot technology and applications, robot programming. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32ENSC499**Independent Study in Engineering Science**

Please complete and submit an Independent Application form available from the college office. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Engineering Science**32ENSC541****Finite Elements I**

Introduction to the finite element method. Truss analysis, beams, and frames. Stiffness matrices. Offered alt. yrs. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32ENSC542**Finite Elements II**

Continuation of 30ENSC541. Use of variational methods. Assembly procedures. Algorithm development. Boundary conditions. Offered alt. yrs. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32ENSC543**Finite Elements III**

Continuation of 30ENSC542. Boundary value problems. Two and three dimensional analyses. Isoparametric elements. Higher order elements. Grid generation. Offered alt. yrs. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32ENSC571**Advanced Mechanics I**

Review of basic mechanics. Three-dimension motion. Lagrangian and energy methods. Gyroscopic motion and nonlinear oscillations. Offered alt. yrs. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32ENSC572**Advanced Mechanics II**

Continuation of 30ENSC571. Offered alt. yrs. Analytical and experimental modal analysis; single degree and multidegree of freedom systems, frequency response function analysis, proportional & non-proportional damped systems. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32ENSC573**Advanced Mechanics III**

Continuation of 30ENSC571. Offered alt. yrs. Analyzing the structure, heat transfer, fluid mechanics, and acoustical vibration problems using finite element method. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

English as a Second Language**32ESL090****Introduction to Academic Reading and Writing**

This workshop course is designed to introduce non-native speakers of English to the skills required for successful academic reading and writing in preparation for 42ESL100. BoK: NA. Credit Level: U. Credit Hrs: 6.00

32ESL091**Editing Skills for Non-Native Writers**

A workshop course designed to assist non-native speakers to English to recognize, correct, and avoid the most common errors in their writing. This course is not open to students who are at the pre-Freshman English level. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32ESL100**Academic Reading and Writing Strategies**

This course is designed for advanced and non-native speakers of English who need to improve their academic reading and writing skills in preparation for Freshman English I. BoK: NA. Credit Level: U. Credit Hrs: 6.00

Fine Arts - Art**32FAA271****Basic Single-Panel Cartooning**

This course will introduce students to a sampling of the techniques and devices used by contemporary cartoonists, including caricature, symbolism, exaggeration, labeling, analogy, and irony. The novice will receive a clear, comprehensive course in beginning cartooning, from drawing faces and figures and backgrounds, to learning techniques of design and composition, to learning how to generate ideas for cartoons-pictorial concepts and captions. Special attention will be given to learning how to fine-tune captions to maximize their punch line

Fine Arts - Art**32FAA271****Basic Single-Panel Cartooning**

potential. Prereq: 32ENGL101. BoK: FA. Credit Level: U. Credit Hrs: 3.00

32FAA272**Regional Arts**

This course introduces students to the visual arts by visiting local galleries, visits and interactions with local artists in their studios and examination of the work in progress as well as the finished work of each artist. Upon completion of the course, students will have a clear understanding of the visual arts in the community. They will gain the ability to examine and explore a work of art with a more developed understanding of the issues that an individual work presents and the objectives of the artist. BoK: FA. Credit Level: U. Credit Hrs: 3.00

32FAA371**Multi-Panel Cartoons and Comics**

Students in this hands-on workshop style course will develop material for cartoons by keeping sketchbooks that will serve as journals for notes, observations, experiences, memories, and anecdotes which will be translated into cartoon narratives, from three-panel "gag" cartoons to many-panel stories and strips. The class will explore the rhythms of storytelling inherent in cartoon language with a focus on modeling the material in the sketchbooks into finished pieces through class critiques. The focus will be as much on storytelling, using the iconic language of cartoons, as on developing ability in drawing. Prereq: 32ENGL103. BoK: FA. Credit Level: U. Credit Hrs: 3.00

32FAA384**Digital Art: Theory and Practice**

Digital art is burgeoning in networked (Web) cyberspace and new museums of art and technology. This course offers students an introduction to digital art innovations. It contextualizes digital art in relation to twentieth and twenty-first century art historical trends, and facilitates the survey of nonlinear, interactive art on the web. BoK: FA. Credit Level: U. Credit Hrs: 3.00

32FAA386**Digital Art: Interactive Book Design**

In the interactive book, words meet images in complex cyberspace media and online information environments. How can the form and structure of an interactive book intensify its content? This course ofers student an in-depth study of digital interactive book design. We create nonlinear narrative structures that traverse new media "database" configurations using authoring software. We also explore how interactive books on CD-ROM or Web embed artistic and cinematic representations within the framework of an interactive contral surface. Prereq: 32ENGL103. BoK: FA, DC. Credit Level: U. Credit Hrs: 3.00

32FAA388**Documentary Photography**

An comprehensive, introductory course that explores the theory and practice of digital photography and image-making, documentary photography and video, media representation in visual research, and visual ethnography. Students compare, interpret, and ex, critique, and present visual research evidence and results. Prereq: 32ENGL103. BoK: FA, DC. Credit Level: U. Credit Hrs: 3.00

32FAA389**Poster Art: Aesthetics and Propaganda**

This course will explore the tensions that exist between art, propaganda and advertising. Discussions of these tensions will be framed by examining the genre of Poster Art. The course will use the Poster Art of World War I & II, together with famous public service announcements and poster ads to bring the often uneasy alliance between art, propaganda and commercialism to light. The stereotyping of national identities in the name of war and peace, together with issues of diversity and culture that such stereotyping entails, will be discussed. Theory will be put into practice by the generation of a series of assignments involving the creation of art posters. BoK: FA., SE. Credit Level: U.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Fine Arts - Art**32FAA389****Poster Art: Aesthetics and Propaganda**

Credit Hrs: 3.00

Facilities & Hospitality Management**32FHM141****Facilities Management I**

This course will provide historical background and comprehensive overview of the facilities management area. The course includes a description of the positions and careers available in the field, career opportunities, and a process for exploring and securing career opportunities. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM142**Facilities Management II**

The course will cover the facilities management process, terminology, and organizational development. An introduction to basic methods, concepts, and procedures of facilities planning, programming, budgeting, project management office productivity measurements, and operations management. Prereq: 32FHM141. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM143**Special Topics**

This course will consist of forums with business leaders from the facilities management, casino, and hospitality fields. Prereq: 32FHM141, 32FHM142. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32FHM151**Hospitality Management I**

This course surveys the hospitality industry. The students will be exposed to the career opportunities and the various issues involved in the field. The student will study hospitality operations, including room management, housekeeping, front office, security and engineering. Prereq: 32FHM142. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM152**Hospitality Management II**

This course provides a practical approach to the system and practices used in hospitality office management emphasizing contemporary theory and information techniques. Some of the topics included in the course will be front office operations, reservation and room management, uniform service, housekeeping, security and engineering operations. Prereq: 32FHM151. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM161**Casino Management I**

The course surveys the casino industry. The students will be exposed to the career opportunities in the field. The students will study the casino operations including gaming, hospitality, and security. Prereq: 32FHM142, 32FHM152. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM162**Casino Management II**

The course provides the study of the unique administration and operational issues of casino management. Included in the course is the study of the casino operation, strategic management and planning, managing the guest experience, special issues involving management of casino personnel, planned management of assets, and marketing. Prereq: 32FHM161. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM175**Introduction to Customer Service**

This course will cover the essential skills for anyone working in business. It will cover the following topics listening skills, verbal and non-verbal communications, use of technology and how to handle difficult customers. It will use the case approach. Prereq: 32FHM142, 32FHM152. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Facilities & Hospitality Management**32FHM201****Facilities Systems I**

Principles of engineering mechanics applied to building structural systems. An overview of statics and strength of materials. An investigation of common construction materials and their properties. Prereq: 32FHM142. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM202**Facilities Systems II**

Building code review and applications. An overview of various types of structural systems, perimeter enclosures and interior finishes. An investigation of common construction methods. Prereq: 32FHM201. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM215**Directed Study-Facilities & Hospitality Management**

This course is designed for students who require individualized instruction in Facilities and Hospitality Management. Prereq: 32FHM202. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM271**Building and Grounds Operations**

The course covers the operational aspects of property management. To facilitate learning the concepts covered in this course, students will conduct building surveys. Computer applications will be utilized for the planning, scheduling, inventory control, design techniques, and budget preparation. Prereq: 32FHM202. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM273**Facilities Supervision**

The course applies to the supervisory function of a facilities management professional. The course includes the study of supervising employees, human psychology, labor relations, organizing and delegating work, scheduling techniques, TCM, problem-solving, developing employees' potential and long and short range planning of employment needs. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM274**Special Event Planning and Management**

This course will cover the concepts in operational and marketing for planning, developing, and implementing conferences, banquets, conventions, catering, and special events. Techniques for developing goals and objectives for programming large events will be covered, as well as evaluative skills. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM275**Casino Operations**

The course includes the study of casino operations including the dynamics of key operational issues such as player tracking, slot accounting systems, ticket-in-ticket-out, bill validators, controlling the game operations, and the fundamentals of various aspects of the casino operation. Students will study how casinos operate as compared and contrasted with other aspects of a casino resort, the hotel, employment issues, and demographics. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM280**Hospitality Facilities Management and Design**

This course will cover the cost, and management of hospitality facilities, environmental and sustainability management, safety and security, energy management, renovation and capital projects. This course will also cover the operating systems that optimizes comfort for employees, residents, and guests while reducing energy and operating costs for the owners. Prereq: 32FHM152. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM303**Facilities Systems III**

An examination of water supply and waste disposal systems, plumbing code requirements, and principles of waste management. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Facilities & Hospitality Management**32FHM304****Facilities Systems IV**

An investigation of heating, ventilating and air conditioning systems. An overview of mechanical code requirements, electrical systems, and lighting. Prereq: 32FHM303. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM371**Space Planning and Interior Design**

The course covers the study and application of space planning and interior design concepts and the ergonomics involved as well as on others in the facility. Students will study building code requirements, costs, depreciation factors, space and functionality considerations. Prereq: 32ARTN121. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM373**Facilities Management Law**

The course includes the study of real estate law, landlord-tenant, rental and leasing agreements, premises liability, regulatory requirements such as American with Disabilities Act (ADA), Occupational Safety & Health (OSHA) laws, anti-discrimination provisions, land use planning, zoning and eminent domain, etc. Students will have opportunities for practical application of the subject matter they study, for instance the students using the floor plans, etc for a facility will plan where accessibility would be best and in compliance with the laws. Student will review lease agreements to determine what provisions would be best. Prereq: 32BLAW272, 32BLAW271, 32FHM142. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM374**Facilities Management Information Systems**

The course will cover the utilization of information technology in facilities management area. It will cover the use of wireless devices such as PDAs and cell phones to manage facilities operations. Prereq: 32IT101, 32IT209, 32FHM141, 32FHM142. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM375**Casino Law**

The course includes the study of federal and state laws that regulate the gaming industries including casinos, lotteries, and Indian gaming. Students will study concepts, definitions, taxation, regulation, liabilities, licensing, and advertising. Prereq: 32BLAW271, 32BLAW272, 32FHM161, 32FHM162. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM376**Casino Information Systems**

The course will cover the study of the utilization of technology in the operational and management aspects of casinos in the accounting aspects, operational tracking, and surveillance. The course will also cover the use of wireless devices such as PDAs and cell phones to manage facilities operations. Prereq: 32IT101, 32IT209, 32FHM161, 32FHM162. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM377**Hospitality Law**

The course will review business law as applied to the hospitality field-hotel, resort, spa, restaurant, and travel professionals with an emphasis on preventative law to assist in avoiding lawsuits. Prereq: 32BLAW271, 32BLAW272, 32FHM151, 32FHM152. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM378**Hospitality Information Systems**

The course will cover the utilization of technology in the operational and management aspects of the hospitality industry. The course will cover the use of wireless devices such as PDAs and cell phones to manage facilities operations. It will also cover software unique to hospitality operations. Prereq: 32IT101, 32IT209, 32FHM141, 32FHM142. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM381**Hospitality Management Accounting**

This course will cover the Uniform System of Accounts for the Lodging

Facilities & Hospitality Management**32FHM381****Hospitality Management Accounting**

Industry, the Sarbanes-Oxley Act, fair value accounting, casino accounting and revenue management, food and beverage cost and income taxes. Prereq: 32ACCT271. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32FHM383**Spa and Resort Management**

This course will cover the resort industry, the development and management of these properties, including ski resorts, cruise ships, and gaming properties. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM384**Meeting Management**

This course will cover topics in meeting management strategies, destination options and issues, program development, meeting production and procedures and legal and ethical considerations. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM385**Travel and Tourism Management**

This course will look at the economic, political and social forces that impact travel and tourism from a domestic and global perspective. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM441**Senior Project I**

The course provides the students with the opportunity to bring together in a comprehensive manner all of the subjects covered in the program and the additional experiences gained from the internship. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM442**Senior Project II**

A continuation of Senior Project I (32FHM541). The course provides the student with the opportunity to bring together in a comprehensive manner all of the subjects covered in the program and the addition experiences gained from the internship. Prereq: 32FHM541. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM471**Hotel & Restaurant Purchasing & Cost Control**

The course covers purchasing and cost control principles for hotel and restaurants. Provides guidelines for assessing, interpreting, and planning hotel operations including food and beverages. Prereq: 32FHM152, 32FHM274, 32FHM377, 32ACCT271. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM472**Restaurant and Bar Management**

This course covers the study of restaurant and bar food service and drink management systems in the hospitality field; analysis including cost control and quality control techniques, factoring in the global traveler and a diverse guest base. Prereq: 32FHM152, 32FHM274, 32FHM377, 32FHM471. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM473**Issues in Assisted-Living Facilities**

The course concentrates on the unique issues involved in managing assisted-living facilities such as appropriate facility design, equipment, and activities. Also included are the issues of safety and health associated with an aged clientele with various degrees of compromised health and/or physical capabilities. The students will study how to balance the special needs with budgetary concerns. Prereq: 32FHM141, 32FHM142. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM475**Gaming Techniques and Operations**

The study of the various gaming options, including slot operations, and gaming tables, etc. Additionally, students will study the probability analysis necessary to make a casino operation profitable. An understanding of the systems, report, floor design and layout, pricing, customer service strategies and interactions will be studied. Field trips

H=University Honors course.

Facilities & Hospitality Management**32FHM475****Gaming Techniques and Operations**

and demonstrations will be provided. Prereq: 32FHM162, 32FHM275, 32FHM375. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM476**Casino Security and Surveillance**

The course covers the study of security, potential loss, surveillance, crisis situations in the casino and gaming industry. Coverage includes the role of managers, and security personnel, computer fraud, available security and surveillance products and systems. Additionally, topics include strategic planning, crisis and security management techniques, surveillance operations and the practical application of the topics to a variety of situations. Prereq: 32FHM162, 32FHM275, 32FHM375, 32FHM475. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM477**Project Management**

The course will cover the management of projects and include team work, sequencing of events, and budgeting. Project management software will be used. Upon completion of this course, students are qualified to take the CAPM exam to earn CAPM certification awarded by the Project Management Institute (PMI). Prereq: 32IT141, 32IT142, 32FIN371, 32STAT242. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM481**Energy Management**

The course covers the area of energy conservation techniques applicable to diversified types of facilities such as hotels, schools, office and industrial complexes, apartment complexes, resorts casinos, sports and recreational facilities. The study of energy audit and analysis as well as the implementation and payback of the energy measures will be included. Building automation systems will be included. Computer simulation will be utilized to enhance student learning. Prereq: 32FHM303, 32FHM304. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM482**Rooms Division Management**

This course will cover revenue management, lodging systems, room division, and housekeeping, and loss prevention. Prereq: 32FHM381. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM483**Ethics in Hospitality and Tourism**

This course will apply ethics theories to situations in various hospitality industry job areas. Topics covered applying ethics to the purchasing, marketing and sales functions; the ethics of the food and beverage function, applying ethics to maintain environmentally sound hospitality and tourism industry. Prereq: 32PHIL371. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32FHM484**International Hospitality Management**

This course will cover globalization, tourism and the lodging sector; emergence of international hotel, international human resources management and global competition. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM485**Project Costing and Estimating**

The course will cover estimating techniques, cash forecasting, budgeting, present value concepts, holdbacks, capital budgeting, financing and other cost considerations for pricing projects. Prereq: 32ACCT245, 32ACCT246, 32ACCT271. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM486**Hospitality Marketing**

This course will cover revenue management, lodging systems, room division, and housekeeping, and loss prevention. Prereq: 32FHM381. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Facilities & Hospitality Management**32FHM487****Human Resources in the Hospitality Industry**

This course will cover diversity, development and training, retention, managing conflict, FMLA, safety and security, workers compensation and other topics. Prereq: 32FHM385. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM488**Advanced Hospitality Management**

The course involves the study of principles of facilities planning, facilities management, and maintenance for the hotel industry. Topics included in the course are developing strategic plans for the hotel industry, emphasizing strategy formulation, implementation and evaluation. Prereq: 32FHM152, 32FHM274, 32FHM271, 32FHM371, 32FHM378. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32FHM489**Risk Management and Insurance**

The study of risk management and methods of controlling risks involved in facilities and property management, including the law and role of insurance. Students will have opportunities for practical application of the subject areas they study. For instance, students will be presented with a "case" from which they must determine the risks and safety factors involved and come up with solutions and plans to alleviate and/or protect against the risks. Students will study and learn how to formulate safety procedures including evacuation plans for any time of emergency-fire, toxic substance exposure, medical emergencies, and terrorist threats, critical issues for event safety, outdoor events and emergencies. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM542**Senior Project II**

A continuation of Senior Project I (32FHM541). The course provides the student with the opportunity to bring together in a comprehensive manner all of the subjects covered in the program and the addition experiences gained from the internship. Prereq: 32FHM541. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM571**Leadership Development Seminar**

This course will cover advanced business ethics, developing a leadership style, honing interpersonal relations, how to get the best from your employees, etc. Students will have the additional opportunity to have a variety of business people in the facilities management and related areas to speak on topics pertinent to executive leadership. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM573**Advanced Facilities Management**

This course will cover advanced facilities management processes such as quality of service, facilities effectiveness, benchmarking, audit activities, relocation, long range strategic and tactical planning, asset management, planning and resources planning. It will also cover global facilities management issues. Prereq: 32FHM142, 32FHM271, 32FHM273, 32FHM373, 32FHM378. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM574**Facilities Management Seminar in Global Issues**

This course includes the study of global issues in the facilities management area. Included topics are diversity in a global economy-employee, and customer/guest; requirements of operating in over-seas venues; requirements of conducting business with foreign businesses; cultural differences and sound business principles and operations. This provides an excellent opportunity for students to apply their learning experience to case studies. Research papers will be utilized to nurture the students/ research. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FHM576**Special Issues Seminar in Resorts & Spas Management**

This course involves the study of the unique issues involved in managing resort and spa facilities including special ethical, legal and

Facilities & Hospitality Management**32FHM576****Special Issues Seminar in Resorts & Spas Management**

business concerns, where employees and staff have physical contact with guests. The course will utilize case studies, research, papers, and in class presentations. Perm of Instructor. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32FHM577**Advance Casino Management**

This course combines analytical skills with practical application concerning the ability to interpret numerical data, calculations and reports regarding the placement and performance of the various gaming areas within a casino, layout and design issues, and selection of product, customer research and profiles, evaluating marketing, planning and implementation of promotional events. The course includes the application of the analysis and skills in reports and class presentations. BoK: SE. Credit Level: U. Credit Hrs: 3.00

Finance**32FIN171****Personal Finance**

Personal Financial Planning; setting financial goals; budgeting; tax preparation and planning; consumer credit; major purchases and survey of investments. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32FIN215**Directed Study - Finance**

This course is designed for students who require individualized instruction in Finance. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FIN241**BUSINESS FINANCE**

An introduction to business finance. Analysis of financial markets. An overview of the financial system and time value of money calculations. An introduction to capital budgeting, cost of capital and financial planning. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32FIN271**Personal Finance**

This course will cover foundations of financial planning. Topics covered: managing your taxes, managing cash, consumer credit, insurance and health needs, major purchases, investment planning, planning for retirement and estate planning. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32FIN272**Survey of Investments**

The economic background of investments. Investing in federal government securities; stocks and bonds. Overview of worldwide securities markets and investment policies. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32FIN371**Business Finance**

This course will cover investment and financing decisions, analysis of financial markets, budgeting and forecasting cost of capital. An overview of international financial management, time value of money, risk analysis in capital. Budgeting and ration analysis. Prereq: 32ACCT245, 32ACCT246, 32ACCT271. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32FIN372**Survey of Investments**

This course will cover the concept of investing. Topics will include understanding risk and return, bond fundamentals, common stock, market indexes, convertible securities, managing the equity portfolio, mortgage-backed securities and contemporary issues. Prereq: 32ACCT245, 32ACCT246. BoK: QR. Credit Level: U. Credit Hrs: 3.00

Fire Science**32FST101****English Composition I**

A study of college level writing, including strategies for pre-writing, writing revising, and editing that focuses on audience and purpose and introduces concepts of critical thinking reading, writing, and information literacy. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FST102**Freshman Composition II**

This course is the second course in the English Composition sequence. It assumes continuing improvement in the basic of the writing process, and focuses on formal argument. Students write four essays during the course, all of which will improve argument, then expand one of these papers into a research project. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FST103**Freshman Composition III**

Final course in English Composition sequence, emphasizing further development of critical thinking, reading, and writing skills and strategies, through the study of literature including fiction, poetry, and/or drama. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FST171**General Psychology/OLFS**

The course covers the general topics and basic concepts of Psychology. It gives an overview of the science and technology of the field with heavy emphasis upon every day examples/illustrations of the concept. BoK: SS. Credit Level: U. Credit Hrs: 3.00-4.00

32FST172**Fundamentals of Speech Communication**

An introduction to speech composition, delivery, and audience analysis. BoK: HU. Credit Level: U. Credit Hrs: 3.00

32FST178**Algebra for OLFS**

Solving equations, exponents, algebraic fractions, exponential and logarithmic functions, and inequalities. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32FST179**Trigonometry for OLFS**

Right triangle trigonometry, vectors, solving oblique triangles, trigonometric identities, and equations. Prereq: 32FST178. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32FST209**Fire Tactics -- Open Learning**

Fire ground tactics and strategies. Company operations, large-scale operations and special firefighting procedures. BoK: SE. Credit Level: U. Credit Hrs: 5.00

32FST249**Hazardous Materials -- Open Learning**

Storage, transportation, and handling of hazardous materials; emergency situations, chemical reactions, firefighting control. BoK: SE. Credit Level: U. Credit Hrs: 5.00

32FST260**Industrial Fire Protection**

A survey of fire protection principles for industrial processes. BoK: SE. Credit Level: U. Credit Hrs: 5.00

32FST269**Fire Determination Strategies**

Fire investigation; report preparation; fire scene observation; evidence analysis. BoK: SE. Credit Level: U. Credit Hrs: 5.00

32FST275**Chemistry for Emergency Service Personnel**

Introduction to the chemistry of hazardous material for emergency service personnel. BoK: NA. Credit Level: U. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Fire Science**32FST276****Chemical and Biological Warfare Agents**

This course provides information on the nature of chemical and biological warfare agents, including structure and function relationships, signs and symptoms of exposure, decontamination and prophylactic measures for protection. In addition, the course examines the potential for genetically modified biological weapons and agents based upon knowledge from cancer research, which are currently under development. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32FST279**Firefighter Safety and Risk Management**

Death, injury and health statistics for emergency personnel; risk management and loss reduction. BoK: SE. Credit Level: U. Credit Hrs: 5.00

32FST283**Fire Protection Hydraulics and Water Supply**

This course provides the theoretical knowledge required for understanding the principles of use of water for fire protection. These principles are then applied in the analysis of common water supply problems. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32FST289**Intermediate Composition**

Drawing from a specific topic or topics drawn from broad disciplinary fields, this intermediate level, General Education course builds upon and enhances the writing and reading skills developed in first-year writing courses (ENGL 101 & 102). The course emphasizes critical reading and writing, more advanced research and argumentative skills, and rhetorical understanding of discourse as it is used in different disciplines and discourse communities. This course will bridge students' learning about writing from the first-year sequence to more advanced writing in their chosen disciplines in upper-level courses. Prereq: 32FST101, 32ENGL102. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FST319**Building Construction for the Fire Service**

This course will survey building construction principles and how these structures are affected and impacted by hostile fire damage. BoK: QR. Credit Level: U. Credit Hrs: 5.00

32FST321**Terrorism Awareness & Planning**

A comprehensive study of terror including technical, historical, governmental, and psychological issues for emergency management personnel. BoK: SE. Credit Level: U. Credit Hrs: 5.00

32FST355**Social Psychology for Firefighters**

The focus will be upon human behavior in social situations. Various psychological perspectives will be presented in discussions of social behavior. In addition, each major course topic will be addressed with specific attention to diversity and cultural influences and issues. BoK: SS. Credit Level: U. Credit Hrs: 3.00

32FST356**Border Crossings: Images in World Cinema**

The course will explore the meaning and legitimacy of border crossings as represented in Contemporary World Cinema. Students will attempt to consider and question categories such as exile, refugee, tourist, as well as those of invasion, war, and famine being represented and catalogued in this vibrant cinema discourse that provides an international dialogue about the things that separate and join us. Prereq: 32FST101, 32FST102. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FST360**Special Topics in Humanities OLFS**

Periodic instruction of important or timely topics in Humanities. Repeatable up to 15 cr. BoK: NA. Credit Level: U. Credit Hrs: 1.00-5.00

Fire Science**32FST361****Resolving Conflicts in the Workplace**

Application of conflict self-management, principles, development of flexibility interpersonal relationships and conflict resolution skills BoK: NA. Credit Level: U. Credit Hrs: 1.00-5.00

32FST362**Organizational Communication**

Theory and practice of system thinking, psychology and leadership and teamwork, process improvement, management and leadership; writing, speaking, group interaction BoK: NA. Credit Level: U. Credit Hrs: 1.00-5.00

32FST363**Native American History**

This course provides students an opportunity to study the history of the Native Americans and the interactions between indigenous people and the larger American culture/society. The course will examine the historical, political, social and economic relations between Native Americans, the federal government, and American society in general. An understanding of these exchanges will assist students in comprehending the current state of affairs between indigenous nations and the United States. BoK: HP. Credit Level: U. Credit Hrs: 3.00

32FST364**American Short Story**

An examination of the evolution and tradition of the American short story, including the process through which stories are created. Selections include fiction of interest to firefighters and emergency service personnel. Prereq: 32FST103. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FST365**Utopian Science Fiction**

The study of science fiction focusing on technology's effect on the search for a better society. Selections will include utopian and dystopian novels of interest to firefighters and emergency service personnel. Prereq: 32FST103. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FST367**Technical and Professional Presentations**

Oral presentation of technical information with emphasis on historical and cultural influences on public speaking. Students will learn how to cover audience analysis research and develop support materials into rational and effective presentations. BoK: HU. Credit Level: U. Credit Hrs: 3.00

32FST368**Contemporary Global Issues**

The focus of the course will be to provide the student the opportunity to explore critical global issues like globalization, conflict, population/health and the study of the environmental and natural resources. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

32FST369**Selected Comic and Satiric Literature**

Selected readings in comic literary material. Students will gain a deeper understanding of the world through laughter and experiment with humorous writing style. BoK: HU. Credit Level: U. Credit Hrs: 3.00

32FST370**Microcomputer Applications for Open Learning Fire Service Program**

Microcomputer Applications for Open Learning Fire Service Program BoK: NA. Credit Level: U. Credit Hrs: 1.00-5.00

32FST371**Statistics for OLFS**

Descriptive and inferential statistics with applications for fire science. Prereq: 32FST370. BoK: NA. Credit Level: U. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Fire Science**32FST372****Calculus for Open Learning Fire Service**

Introduction to calculus for Open Learning Fire Service students. Topics include limits, differentiation and integration of algebraic functions and relations with applications. Prereq: 32MATH179. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32FST373**ACCESS for OLFS**

Course will cover beginning through advanced features of Microsoft Access. Topics to be covered: relationships, importing and exporting data, tables, form/subforms, queries and reports. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32FST374**EXCEL for OLS**

Course will cover beginning through advanced features of Microsoft Excel: templates, formatting, function/formula data validation, conditional formats. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32FST375**Managerial Psychology for Firefighters**

This course will explore the application of behaviorial theory and techniques to performance problems encountered within the firefighting profession. The focus will be upon learning how to manage performance-enhancing the good while eliminating or diminishing problems. Behavior analytic, data based procedures will be employed in in-class and individual projects in order to begin developing professional competence. Lecture/discussion materials will NOT be limited to material covered in the text. Those in or working toward leadership roles will find the course most useful. BoK: SS. Credit Level: U. Credit Hrs: 3.00

32FST377**Hazardous Materials - Technician Level**

A lectures and field experience course for hazardous materials personnel covering a broad range of safety related topics and skills. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32FST378**Filmic Art**

An introduction to film with concentration on visual and verbal elements that create impact and viewing pleasure. Attention will be given to classic and contemporary films that best illustrate the filmic art form. Prereq: 32FST101, 32FST102. BoK: FA, LT. Credit Level: U. Credit Hrs: 3.00

32FST380**Fire and Emergency Services Administration**

An overview of organization and management in the modern fire service. Topics include management of equipment and personnel, fire department functions, planning, resource development, labor relations, communications, financial management, and community relations. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32FST381**Analytic Approaches to Public Fire Protection**

Systems analysis and its use and limitations in fire protection and other problem areas. Illustrated with case studies and models using the systems approach to fire suppression and prevention. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32FST382**Fire Prevention Organization and Management**

Examines and evaluates the techniques, procedures, programs, and agencies involved with fire prevention functions, licenses, permits, zoning, legal aspects, inspections, investigations, and planning. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32FST383**Fire Protection Structures and Systems**

The design principles involved in the protection of a structure from fire involvement. The empirical tests and prediction procedures. Control, detection, and suppression system design practices. Fundamentals of

Fire Science**32FST383****Fire Protection Structures and Systems**

the hydraulic design of sprinkler and water spray systems, including recent innovations. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32FST384**Community Risk Reduction for the Fire and Emergency Services**

The sociological, economic, and political characteristics of communities and their influence on the fire problem. Review of rural and urban studies relative to public fire protection. The role of the fire department and fire prevention programs in the community. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32FST385**Political and Legal Foundations of Fire Protection**

This course examines the legal basis for the political and social aspects of the government's role in public safety, including the American legal system, liability, negligence, code enforcement and public sector personnel issues. Review of judicial decisions and implications of product liability cases in fire prevention are discussed. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32FST386**Managerial Issues of Hazardous Materials**

This course will be an amalgamation of hazardous materials awareness, operations, and technical levels placed in a managerial paradigm. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32FST387**Fire Dynamics**

This course undertakes a study of fluid mechanics and thermodynamics principles of fire propagation. The study of phenomenon of fire propagation in both fuel- and air-regulated phases dealing with the variables in pre- and post-flashover fire development. Purpose of this course is to provide a scientific study of hostile fires applying physics, chemistry, and engineering principles with the objective of quantitatively describing fire and related processes. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32FST388**Fire Scene Reconstruction, CSI**

This course is intended to provide the student with the fundametnals and technical knowledge needed in understanding the reconstruction principles, fire pattern analysis, fire modeling, fire deaths and injury analysis. BoK: NS., SS. Credit Level: U. Credit Hrs: 5.00

32FST390**Fire Service Computer Graphics**

This course is designed to make student familiar with operating systems (MS-DOS) and fundamentals of computer graphics and geometric principles using the commercial software package (AUTO CAD). BoK: NA. Credit Level: U. Credit Hrs: 4.00

32FST391**Design of Fire Protection Sprinklers**

This course is designed to give fundamentals of sprinkler design (all applications) using a commercial CAD package and a sprinkler design package. Prereq: 32FST390. BoK: NA. Credit Level: U. Credit Hrs: 3.00 -4.00

32FST399**Mathematics Topics for OLFS**

Special topics in upper-level mathematics with applications for fire science. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32FST419**Building Construction II for OLFS**

A continuation of Building Construction I, students will be required to identify the NFPA Building types and present these types in a seminar setting. BoK: NA. Credit Level: U. Credit Hrs: 5.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Fire Science**32FST450****Emergency Medical Response to Hazardous Materials**

This course will explore the protocols that will be required for emergency medical technicians at hazardous material incidents. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32FST460**Independent Study in Humanities for OLFS**

Individual research in Humanities developed between the instructor and student. Repeatable up to 15 hrs. BoK: NA. Credit Level: U. Credit Hrs: 1.00-5.00

32FST463**Modern Fiction**

Study of selected late 19th century and early short stories and novellas of interest of firefighters and emergency service personnel. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32FST471**Safety Management**

Introduction to OSHA, Worker's Compensation, environmental, transportation, accident and product safety, risk management, policies, procedures and training. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32FST472**Occupational Safety Hazards Control**

Introduction to plant safety, construction safety, hand/power tools, machinery, materials handling and electrical safety. Prereq: 32FST471. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32FST473**Introduction to Industrial Hygiene**

Develop a basic understanding of anatomy, toxics, airborne contaminants, thermal hazards, radiation and noise. Prereq: 32FST472. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32FST474**System Safety**

Overview of quality control, hazard recognition, fault hazard analysis and failure mode and effect analysis. Prereq: 32FST473. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32FST475**Construction Safety**

Advanced workplace safety analysis focusing on scaffolds, electrical and concrete safety. Prereq: 32FST474. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32FST476**Principles of Ergonomics**

Pending BoK: NA. Credit Level: U. Credit Hrs: 4.00-5.00

32FST477**Contemporary Issues in the Fire Service**

Analysis of modern factors affecting tactical decisions and administrative planning in the modern fire department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

32FST480**Disaster Planning and Control**

Concepts and principles of community risk assessment; regional and cooperative procedures and plans; the relationship of structural, climatic, and topographical variables to group fires, conflagrations and natural disasters; pre- and post-occurrence factors; communications; planning; organizing; coordination; command; and logistics. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32FST481**Personnel Management for the Fire and Emergency Services**

Personnel practices and management procedures. Included are manpower planning, labor relations, recruitment, selection, testing, performance appraisals, classification, motivation, politics, and management. BoK: NA. Credit Level: U. Credit Hrs: 5.00

Fire Science**32FST482****Applications of Fire Research**

Understanding of fire research programs and areas of study application. The transfer and implications of research results for fire prevention and protection programs. Foreign studies and international programs. A research matrix of problem areas and results. Technology transfer. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32FST483**Fire-Related Human Behavior**

Dynamics of human behavior in fire incidents related to fire prevention practices, programs, codes and ordinances, concepts of role, personal invulnerability, risk and group dynamics, as related to design aspects of buildings and the mitigation effects of communications during emergencies and the conduct of post-fire interviews. BoK: SS. Credit Level: U. Credit Hrs: 5.00

32FST484**Fire Investigation and Analysis**

Examination of the procedures and techniques for collection, comparison, and analysis of the physical evidence relative to the area of fire origin. Principles of evidence of ignition phenomenon and propagation variables. Legislative, economic, psychological, and sociological variables of incendiary fire. The role of insurance and government programs. Data analysis and prediction techniques, including pattern analysis. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32FST486**Managerial Issues of Hazardous Materials**

This course will be an amalgamation of hazardous materials awareness, operations, and technical levels placed in a managerial paradigm. BoK: SE. Credit Level: U. Credit Hrs: 5.00

32FST488**Fire Science Portfolio**

Formalized instruction in documenting life experience equal to college learning. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32FST499**Independent Research in the Fire Service**

Practical research study designed around an individual student's career in consultation with Director of Open Learning. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

History**32HIST230****American History to 1880**

This course will be a historical analysis of the political, cultural, economic, and social development of the United States to 1880. It will assist students in understanding the evolution of the American national identity through an examination of America's more recent past. BoK: HP. Credit Level: U. Credit Hrs: 3.00

32HIST231**American History Since 1880**

This course will be a historical analysis of the political, cultural, economic, and social development of the United States from 1880 to the present. It will assist students in understanding the evolution of the American national identity through an examination of America's more recent past. Prereq: 32ENGL103. BoK: HP. Credit Level: U. Credit Hrs: 3.00

32HIST273**Battling Empire**

Course charting turbulent relations between British Empire and her first colony Ireland. Focus on Ireland's efforts to break free from UK. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00

32HIST275**American Trailblazers**

Americans whose discoveries, inventions and innovations influenced the direction of American life to 1900. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

History**32HIST276****20th Century Trailblazers**

Americans whose discoveries, inventions and innovations influenced the direction of 20th century life. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00

32HIST301**History of American Culture**

Historical events and representative literature, art and music. 1865 to present. Prereq: 32ENGL103. BoK: HP, SS. Credit Level: U. Credit Hrs: 3.00

32HIST320**World History To 1900**

The movement toward globalization the last several years has made it imperative that students contextualize the events taking place around them into a global understanding of world history and politics. This course examines world history from 1700 to 1900. The course's approach is both global and comparative, stressing the growing interdependency of nations, regions, cultures, and economics. Prominent themes include the growth of empires, colonization, scientific and technological advances, revolutionary movements, and the interplay of politics, culture and economics. Prereq: 32ENGL103. BoK: HP, SS. Credit Level: U. Credit Hrs: 3.00

32HIST322**World History Since 1900**

The class provides students the opportunity to explore modern world history and understand how events, advances, and individuals, continue to shape the 21st century. The class will start with an understanding of the importance 1885 Berlin Conference and the high-tide of Western global dominance. The course's approach to both global and comparative, stressing the growing interdependency of nations, regions, cultures, and economics. Prominent themes includes the expansion of empires, decolonization, scientific and technological advances, revolutionary movements, global conflicts, ideological clashes, the collapse of the Soviet bloc, and the rise of global fundamentalism. Prereq: 32ENGL103. BoK: HP, SS. Credit Level: U. Credit Hrs: 3.00

32HIST363**Native American History**

This course will examine the historical, political, social and economic relations between Native Americans, the federal government and American society in general. An understanding of these exchanges will assist student in comprehending the current state of affairs between indigenous nations and the United States. Prereq: 32ENGL103. BoK: HP. Credit Level: U. Credit Hrs: 3.00

32HIST372**History of Technology**

The evolution of technology in modern Europe and the United States and its influence on social change. Prereq: 32ENGL103. BoK: HP, SE. Credit Level: U. Credit Hrs: 3.00

32HIST373**TYRANTS/PEACEMAKERS**

Exploration of Nobel Peace Prize and focus on figures such as Ghandi, Martin Luther King, Jr., Nelson Mandela, etc. and ways in which private initiative triumphed over tyranny and warmongers. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00

32HIST380**Investigating Historical and Professional Perspectives**

This course investigates the professional development of archivists and the multiple perspectives of historiography. The class provides students an opportunity to explore the theoretical foundations of archival technologies, the development of the archival profession, and the relevance of historical interpretations of archival materials. The integration of these topics will facilitate students' understanding of the growing importance of archival technologies in the global economy. New technologies, established professional views, and knowledge of historical perspectives are merging to reshape the mission of archivists. This class explores this movement and its relevance for

History**32HIST380****Investigating Historical and Professional Perspectives**

students. Prereq: 32ENGL103. BoK: HP, SS. Credit Level: U. Credit Hrs: 3.00

32HIST382H**Historical London Through The Lens Of Technology**

Student study history of societies by studying development of technologies of London through the ages. BoK: HP., QR. Credit Level: U. Credit Hrs: 3.00

32HIST388**History of American Invention**

This class provides students an opportunity to study the development of invention and engineering in the United States. Students will examine the roots of American innovation, the distinctiveness of American technology, and the development of technology over time. Students will also discuss the establishment of the American profession of engineering in its modern form, so that they can acquire a better consciousness of the problems and achievements of their chosen career. Prereq: 32ENGL103. BoK: HP, SS. Credit Level: U. Credit Hrs: 3.00

32HIST389H**Cold War Science and Technology Policies**

This course deals with the reciprocal interactions, both direct and indirect, between science, technology, and the American federal government during the Cold War years. The class examines the historical development of the relations between science, technology, and the government from the post World War II era to the present. Two themes will be explored in this class. First, students will consider the efforts of the government to promote scientific and technological activities, the effort of scientists and engineers to increase such support, and the degree to which the state received a return on its investments. Second, students will analyze the attempts by the federal government during the Cold War to regulate and legislate science and technology in order to control or minimize the negative consequences of state sponsored technological activities. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00

32HIST390**The Atomic Bomb & Global Politics**

This course examines the development of nuclear weapons from the discovery of fission to the proliferation of such systems in the post-Cold War era. The class will first consider the technological and political decisions that contributed to building the bomb during World War II. Next the course analyzes the nuclear standoff between the United States and the Soviet Union during the Cold War years. Finally, the class looks at the transition period begun as the Cold War concluded and the proliferation of nuclear weapons technology today. BoK: HP., SE. Credit Level: U. Credit Hrs: 3.00

32HIST391**Civil War Technologies & Sciences**

This course considers the relationships between government policies, technology development, scientific discoveries, and war-time. The class contextualizes these interactions by examining the policies and technologies generated during the American Civil War by both sides of the conflict. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00

Hotel Management**32HMG141****Introduction to Hotel Management**

A survey of the management of hotel operations. Areas include rooms, food and beverage operations, support structure, sales and marketing and systems and technologies. Descriptions of management duties are also included. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Horticulture

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Horticulture

32HORT184

Plant Communities of Southwest Ohio

A survey of native plant communities of Southwest Ohio. Course develops awareness and appreciation of natural vegetative patterns and issues that threaten native plant communities; discussions and field studies of eastern deciduous forest, prairies and wetlands. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT185

Cincinnati Summer Horticulture

Designed for non-majors. Survey of horticulture in the Cincinnati area. Field trips and discussions concerned with commercial horticulture including greenhouses, orchards and ornamentals. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT187

Horticulture Science I

Survey of the plant kingdom, plant structure, anatomy, physiological functions, growth, development, and response to the environment. Field trip to be announced. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT188

Horticulture Science II

Human dependence on plants for existence, controlling plant environment through soil, water, temperature and light. The physical, biological, and chemical control of plant growth. Field trip to be announced. Prereq: 32HORT187. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT189

Horticulture Science III

Competition between cultivated plants and weeds; plants and stress factors-biotic and abiotic; sexual and asexual plant propagation; plant genetics and breeding. Field trip to be announced. Prereq: 32HORT188. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT195

Landscape Design I

A beginning course in landscape design, drafting and planning, emphasizing proper planning and design principles, site analysis, drafting techniques and the functional as well as aesthetic use of plant materials to complement a family residence. Individual project applying course content. Prereq: 32HORT187. BoK: FA. Credit Level: U. Credit Hrs: 3.00

32HORT235

Interior Plantscape

The culture and use of foliage and flowering plants indoors, management of the interior environment for plants, plants identification and business practices for interior plantscapes. Prereq: 32HORT187. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT275

Landscape Design II

An advanced landscape design course building on the skills presented in Landscape Design I. Students will be assigned both residential and commercial sites that will be taken through the design process. A site analysis and master plan will be required for each site. Design skill, graphics and plant materials will be further explored. Prereq: 32HORT187, 32HORT195. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HORT276

Plant Pathology

An in-depth understanding of plant health management in relation to horticultural crops. Discussion topics include biotic and abiotic agents, identification, control of primary and secondary causal agents, and the cumulative impact of stress factors. Prereq: 32HORT187. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT277

Turfgrass Management

A comprehensive understanding of midwest turf grass culture. Discussion topics include turf grass uses, species identification, establishment, maintenance and stress control. Prereq: 32HORT187.

Horticulture

32HORT277

Turfgrass Management

BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT278

Herbaceous Ornamental Plants I

Identification, maintenance, habits of growth, use in landscaping. New cultivars and hybrid plants will also be covered. Propagation and division of plants will be addressed. Combination of class room and field studies. Prereq: 32HORT187. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT279

Landscape Construction I

The techniques and installation of various construction materials used in contemporary landscape features and structures, such as patio, decks, walks and steps, pools, retaining walls and outdoor lighting. Prereq: 32HORT275. BoK: FA. Credit Level: U. Credit Hrs: 3.00

32HORT281

Woody Ornamental Plants I

Identification, habits of growth, and landscape use of deciduous woodies. Theory and advice on landscape maintenance. Combination classroom and field studies. Prereq: 32HORT187. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT282

Woody Ornamental Plants II

Identification, habits of growth, and landscape use of evergreen woodies. Theory and advice on landscape maintenance. Combination classroom and field studies. Prereq: 32HORT281. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT283

Flowers, Vegetables and Lawns

Their use in landscape, habits of growth and maintenance. Basic planning and types of forcing structures will be discussed. Theory and advice on landscape maintenance. Combination classroom and field studies. Designed for non-majors. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT284

Tri-State Native Plants

Morphology, taxonomy, and biology of our indigenous Eastern U.S. plants. Combination classroom and field studies. Prereq: 32HORT187. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT285

Entomology

Anatomy, physiology, ecology, behavior, lifestyle, and classification of insects. Economic effects of insects on horticultural crops. Prereq: 32HORT187. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT286

Soil Science

Understanding and controlling plant environment - soil types, moisture capacity, drainage. Fertilizers - uses and methods. Demonstrations. Prereq: 32HORT187. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT310

Plant Propagation

A lecture and demonstration course comprehensively examining plant, propagation and practices and their underlying principles. Plant biology, cultural practices, and the manipulation of growing environments as used in commercial production. Prereq: 32HORT189. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT312

Horticultural Microbiology

An introduction to microorganisms with an emphasis on ecological interactions, especially with plants. Course includes classroom demonstrations and hands-on experience with microbiological techniques. Intended primarily for students in the Horticulture programs. Prereq: 32HORT189. BoK: NS. Credit Level: U. Credit Hrs:

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Horticulture

32HORT312

Horticultural Microbiology

3.00

32HORT317

Advanced Entomology

A comparative survey of external and internal morphological features of insects with emphasis on developmental, functional, physiological, and evolutionary interpretations. Prereq: 32HORT189, 32HORT285. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT320

Tree Fruits and Small Fruits

A comprehensive course covering biology, cultivar selection, planting, fertilization, pruning, propagation, integrated pest management of the fruits and small fruits. Discussion topics include apples, pears, peaches, walnuts, grapes, strawberries, raspberries, blackberries, blueberries, and selected uncommon fruits. Prereq: 32HORT189. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT325

Vegetable Gardening

This class will acquaint students with the basic principles involved in small-scale vegetable production, including plant physiology and classification, economic importance, pest and disease management using both organic and IPM strategies, post-harvest physiology, and marketing. Prereq: 32HORT189, 32HORT276, 32HORT285. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HORT331

Woody Ornamental Plant III

A more in-depth look at woody plants covered previously as well as the introduction of additional species. Emphasis is on sight identification, the use, the ecology, and culture of plants as well as the integration of plants in the landscape. Students will examine plants from the standpoint of understanding the needs of the plants studied, the selection of plants to meet various site requirements and the visual impact selected plants have on those around them. Prereq: 32HORT189. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT338

Landscape Construction II

An advanced course building on the skills presented in 32HORT195 and 32HORT279. Large and complex landscape construction projects will be discussed and analyzed. Issues such as materials selection, sequencing events, site supervision, cost estimating, bidding, the client and role of landscape architects will be discussed. Prereq: 32HORT195. BoK: FA. Credit Level: U. Credit Hrs: 3.00

32HORT340

Wildlife in Home Landscapes

This course will cover various forms of wildlife, principles and practices of landscaping for wildlife, and wildlife management. Students will learn how to identify and attract various forms of wildlife such as hummingbirds and birds, and butterflies. Students will also learn how to deal with nuisance wildlife problems. Prereq: 32HORT189, 32HORT195. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT364

Plant Nutrition

This course will cover plant nutrient uptake and assimilation, functions of essential plant elements including macronutrients and micronutrients, nutrient interactions, nutrient deficiencies and toxicities, and fertilization practices of horticultural plants. Both practical and theoretical issues of fertilizing trees, shrubs, flowers, vegetables, and fruit will be addressed. Prereq: 32HORT189. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT378

Advanced Turf Grass Management

Factors affecting the production of high quality turf are integrated into comprehensive, practical turf management programs. Prereq: 32HORT277. BoK: NS. Credit Level: U. Credit Hrs: 3.00

Horticulture

32HORT379

Herbaceous Ornamental Plants II

A more in-depth look at perennial plants available to the horticultural community as well as those not commonly found. Plant families, culture and ecology are examined. Design attributes of plants including color, texture and form and the design of floral beds and borders are discussed. Prereq: 32HORT278. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT385

Urban Forestry

The field of urban forestry is a dynamic multidisciplinary profession. U.S. municipalities contain over 610 million urban trees. These trees require professional management using sound arboricultural techniques combined with other disciplines such as landscape architecture, urban planning, and engineering. Prereq: 32HORT189, 32HORT281, 32HORT282. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT410

Edible Landscaping

This course of study is designed to examine edible plants suitable for use in midwest landscapes. This course will include plant identification as well as their cultural needs, historical, design and culinary uses. Prereq: 32HORT189, 32HORT195, 32HORT281. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HORT416

Plant Problem Diagnostics

A detailed examination of the diagnostic process and field instruction on applying diagnostic principles to solving biotic and abiotic plant problems. Prereq: 32HORT276, 32HORT278, 32HORT312. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT420

Theme Gardens

A course of study designed to explore the principles and techniques of theme and specialty gardens. This course will develop an awareness of and appreciation for specialty garden styles. Students will learn the history and proper utilization of each garden style; be able to specify appropriate plant species and the technical consideration for each garden style. Prereq: 32HORT189, 32HORT195, 32HORT278. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HORT434

Integrated Landscape Management

All aspects of landscape management are examined in this applied, practical and comprehensive course. Major focus will be given to site analysis, plant selection, handling, installation, pruning, pest diagnostics/management, and site techniques. Prereq: 32HORT281, 32HORT282, 32HORT320. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT441

Landscape Design III

An upper level landscape design course integrating design skills and horticultural knowledge and focusing on plant selection. What plants to use, where and why. From the aesthetic, horticultural and maintenance viewpoints. Several projects will be assigned. Field Trips Prereq: 32HORT189, 32HORT275, 32HORT278, 32HORT281. BoK: FA. Credit Level: U. Credit Hrs: 3.00

32HORT472

Plant Morphology

Systematic analysis of plant structure, form and development from embryogenesis to maturity using comparisons and generalizations based on present and fossil species and relationships of physiology to form and structure. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT478

Horticultural Crop Physiology

This course will cover physiological processes related to growth, development and productivity of horticultural crops. The effects of various environmental and cultural factors on physiological processes will be discussed. Topics include cell structure, plant hormones,

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Horticulture**32HORT478****Horticultural Crop Physiology**

dormancy, apical dominance, fruit development, flower development, and stress physiology. Prereq: 32HORT189. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT480**Economic Plant Pathology & Disease Management**

Major diseases of landscape and food crop plants with emphasis on etiology, epidemiology and control. Prereq: 32HORT189, 32HORT276, 32HORT285, 32HORT312. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT490**Economic Entomology and Pest Management**

Contemporary concepts of insect biology, behavior and insect population management are applied within the context of developing integrated pest management tactics. Prereq: 32HORT189, 32HORT276, 32HORT285, 32HORT312. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT498**Special Research Topics in Horticulture**

Topics may come from any of the four areas of Horticulture: horticulture science, plant health, plant materials and management, or landscape design and construction. Project requires identification of defined problem or current topic impacting horticulture. Approval of research proposal by sponsoring professor and department head. The project must culminate in a final report. Perm of Instructor. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT499**Independent Study in Horticulture**

Please complete and submit an Independent Application form available from the college office. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

32HORT513**Economic Plant Pathology and Disease Management**

Major diseases of landscape and food crop plants with emphasis on etiology, epidemiology and control. Course is part of Plant Health cluster. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32HORT519**Economic Entomology and Pest Management**

Contemporary concepts of insect biology, behavior and insect population management are applied within the context of developing integrated pest management tactics. Course is part of Plant Health cluster. BoK: NS. Credit Level: U. Credit Hrs: 3.00

HVAC and Stationary Engineering**32HVAC010****Stationary Engineering I/II**

Accelerated course combining Stationary Engineering I and II. BoK: NA. Credit Level: U. Credit Hrs: 6.00

32HVAC011**Stationary Engineering I**

To provide the basic fundamental technical knowledge for high performance steam plant operation. This includes steam and its importance utility boilers for electrical power, combined cycle and cogeneration systems, fundamentals of steam generation, principles of heat transfer, superheaters, nuclear steam generation, design and construction of boilers, fluidized bed boilers and combustion of fuels, maximum allowable working pressure, internal design pressure and boiler horsepower calculations. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HVAC012**Stationary Engineering II**

Boiler settings, combustion systems and auxiliary equipment, handfiring, stokers, pulverized coal, fuel oil, gas, automatic operation of boilers, boiler accessories, operation and maintenance of boilers, instruments and automatic control systems pumps, and auxiliary steam

HVAC and Stationary Engineering**32HVAC012****Stationary Engineering II**

plant equipment. Minimum and maximum hydrostatic test pressure calculations. Prereq: 32HVAC011. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HVAC013**Stationary Engineering III**

Pumps, facts about fluids and pumping, factors affecting pump operation, pump installation and operations, pump testing and calculations, pump maintenance, steam turbines, turbine design and construction, electric generations, cooling towers and condensers and steam turbine horsepower calculations. Prereq: 32HVAC012. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HVAC014**Stationary Engineering IV**

To provide the fundamental technical knowledge of steam plant equipment for the Ohio State Stationary Engineer's Examination. Steam turbines and auxiliary equipment, environmental control systems, and Waste to energy plants, application of thermodynamics, fluid mechanics and heat transfer in power plant operation. Review of all power plant calculations and synthesis of Stationary Engineering I, II, III and IV. Prereq: 32HVAC013. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HVAC015**Gas Turbine Operation**

Lecture on the basic concepts and procedures for operating a gas turbine used for generating electrical power at small power stations or as supplemental power sources at larger facilities. Training suitable for becoming a Gas Turbine Technician. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HVAC030**Refrigeration I/II**

Accelerated course combining Refrigeration I and II. BoK: NA. Credit Level: U. Credit Hrs: 6.00

32HVAC031**Refrigeration I**

A combination of theoretical and practical work to give a thorough understanding of different types of refrigeration systems. A troubleshooters course emphasizing residential and commercial refrigeration and air conditioning. Coreq: 32EETN060. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HVAC032**Refrigeration II**

Continuation of Refrigeration I (32-185-031). Prereq: 32HVAC031. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HVAC033**Refrigeration III**

Industrial capacity reciprocating and centrifugal compressors, multi-stage units and low temperature applications, absorption-cycle cooling, vortex tube and automotive A/C. Prereq: 32HVAC032. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HVAC034**Refrigeration IV**

Continuation of Refrigeration III (32-185-033). Prereq: 32HVAC033. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HVAC041**HVAC Equipment I**

A troubleshooters course in air handling and heating. Pulleys, sheaves, traps, strainers, corrosion, humidifiers, hydronics, pumps and pneumatic and electric controls. Prereq: 32HVAC031. Coreq: 32EETN065. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HVAC042**HVAC Equipment II**

Continuation of HVAC Equipment I (32-185-041). Prereq: 32HVAC041.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

HVAC and Stationary Engineering**32HVAC042****HVAC Equipment II**

Coreq: 32EETN026. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HVAC043**Indoor Air Quality**

This intensive study is designed for building owners, facility and property managers, service contractors, administrators, school officials and environmental professionals. This course covers ways of addressing potential IAQ problems, diagnosing and remediating IAQ complaints, and measuring CO₂ and ventilation effectiveness. It also covers the origin of IAQ problems as well as IAQ litigation. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HVAC046**Heating and Air Conditioning Fundamentals I**

Product selection, layout, and system sizing. Drawing knowledge valuable in incorporating HVAC systems into a building project. Not a troubleshooter's course. Prereq: 32MATH021, 32HVAC031, 32HVAC041. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HVAC047**Heating and Air Conditioning Fundamentals II**

Continuation of Heating and Air Conditioning Fundamentals I (32-185-046). Prereq: 32HVAC046. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HVAC051**Instrumentation I**

Practical course dealing with selection, care and sizing of various types of pneumatic and electronic primary elements used in industry for measurement of temperature and flow of liquids and gases. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HVAC052**Instrumentation and Control**

An introduction to industrial instrumentation and control with emphasis on pneumatic controls, PLCs, and hydraulic and pneumatic circuits. Prereq: 32HVAC051. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HVAC053**Building Automation**

An introduction to the controls and servos used to automate the environmental control of buildings including pneumatic, hydraulic, and digital control. Prereq: 32EETN018. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HVAC060**Plumbing Systems**

Study of design, installation, and maintenance of plumbing systems for industrial and commercial applications. Lecture covers plumbing components, principal design features of plumbing systems, and common maintenance faults. Lab and field trip experience. Coreq: 32EETN080. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HVAC063**General Building Maintenance and HVAC**

An introductory course designed to provide a broad range of knowledge of various components utilized in heating, ventilating and air conditioning systems. Both air and water side equipment and distribution networks will be discussed in conjunction with air/water balancing and maintenance methods with emphasis on achieving occupant comfort and air quality. BoK: NA. Credit Level: U. Credit Hrs: 2.00-3.00

32HVAC064**General Building Maintenance and HVAC II**

Continuation of Gen Bldg Main and HVAC. Prereq: 32HVAC063. BoK: NA. Credit Level: U. Credit Hrs: 2.00-3.00

32HVAC065**General Building Maintenance and HVAC III**

Continuation of Gen Bldg Main and HVAC II. Prereq: 32HVAC064. BoK: NA. Credit Level: U. Credit Hrs: 2.00-3.00

HVAC and Stationary Engineering**32HVAC070****Hydra Power Mech**

Industrial and mobile hydraulics, preventative maintenance, fluid maintenance, field and shop repairs, component assembly and replacement, symbology and troubleshooting. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32HVAC080**Basic Instrumentation and Controls I**

Lectures, discussions, and demonstrations to understand basic measurements and instrumentation control theory, pneumatic controls, electric controls, control systems and applications, and maintenance of instrumentation and controls. BoK: NA. Credit Level: U. Credit Hrs: 3.00-4.00

32HVAC081**Basic Instrumentation and Controls II**

Continuation of Basic Instrumentation and Controls I. Prereq: 32HVAC080. BoK: NA. Credit Level: U. Credit Hrs: 3.00-4.00

Information Engineering Technology**32IET010****Introduction to Computers**

Introduction to computer systems, applications, word processing, and BASIC computer programming. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32IET121**Microcomputer Applications I**

Topics include microcomputer operating systems, spreadsheet, word processing, and the Internet. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32IET155**Fortran Programming I**

Introduction to scientific programming with FORTRAN 77. Assignments of programs to be completed using interactive remote terminals. BoK: NA. Credit Level: U. Credit Hrs: 2.00-3.00

32IET160**Programming in C**

"C" language data types, operators, control flow, and elementary I/O control, arrays and structures. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32IET321**Microcomputer Applications II**

A study of basic programming and database. Prereq: 32IET121. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32IET455**Management in Information Technology**

General management techniques and specific issues and tools for project management in information engineering technology. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32IET481**Advanced Web-Based System**

Using forms, sound, animation and database queries on web-based systems. Security issues and doing business on the Web. Prereq: 32IET282, 32IET295. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32IET491**Senior Design I**

Capstone experience for seniors that involves their doing independent work on a project from conception to design to implementation, with guidance from a faculty advisor. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IET492**Senior Design II**

A continuation of Senior Design I (32-IET491) in which students will design and develop a prototype of the capstone project. Prereq: 32IET491. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Information Engineering Technology**32IET493****Senior Design III**

A continuation of Senior Design II (32IET492) in which students will complete the final version of the capstone project. Prereq: 32IET492. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IET498**Special Topics in Information Engineering Technology**

Special Topics in Information Engineering Technology. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 3.00-5.00

32IET499**Independent Study in Information Engineering Technology**

Independent study in Information Engineering Technology under faculty supervision. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

Industrial Engineering**32INDS441****Human Factors Engineering**

Man and machine interaction, physiological, psychological, anthropological, climatological environment factors in design and performance. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32INDS444**Safety and Product Liability**

Design and analysis of engineering systems from the standpoint of safety and liability. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32INDS474**Quality Control**

Objectives, principles, methods, techniques including process performance, capability control, problem solving, sampling and risks in decision making. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32INDS475**Methods Engineering**

The development of manufacturing effectiveness within a physical production facility, work and design simplification techniques, standardization of work methods, product justification techniques, motion study, predetermined motion time systems, organizing the manufacturing engineering function. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32INDS476**Performance Controls and Work Measurements**

Techniques used in the development of performance time, stopwatch time studies, performance rating and allowances, development of standard data, design of labor control techniques and incentive plans, auditing procedures to maintain effective labor controls. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32INDS481**Production Control**

Major techniques used in production control; objectives, functions, organization study of forecast, production planning scheduling, service levels, production capacity control, expediting, dispatching, priority rules, shop floor control, feedback. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32INDS482**Material Control**

Major techniques used in material control; objectives, functions, organizations, study of EOQ, lead time, forecast error, order point, periodic review system, two-bin system, bill of material, product structure, aggregate inventory management, feedback, MRP, interrelationships of PIC techniques. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32INDS499**Independent Study in Industrial Engineering**

Please complete and submit an Independent Application form available from the college office. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

Industrial Engineering**32INDS524****White Collar Productivity**

Case studies with engineering applications to identify problems and develop solution alternatives for government and non-manufacturing operations. Offered alt. yrs. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32INDS525**Information Systems**

Structure and design of information requirements for manufacturing and servicing industries utilizing systems analysis and computers. Offered alt. yrs. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32INDS526**Facilities Design**

Problem analysis and design of material handling, layout, and physical storage systems. Offered alt. yrs. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32INDS551**Operations Analysis I**

Introduction to models of quantitative analysis used in business operations. Queuing, simulation and gaining theories. Introduction to dynamic programming. Offered alt. yrs. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32INDS552**Operations Analysis II**

Continuation of 30INDS551. Advanced procedures in quantitative analysis. Use of computer models and other computational techniques. Application to industrial and commercial process design. Offered alt. yrs. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32INDS581**Engineering Economy**

Principles and techniques for making decisions between various engineering alternatives on the basis of their beneficial return on investment. BoK: QR. Credit Level: U. Credit Hrs: 3.00

Interdisciplinary**32INTR001****First Year Experience Seminar**

The "First Year Experience Seminar" is a course designed to assist students in the academic and social transitions associated with college life. The development of specific success skills such as time management, note-taking and study strategies as well as career and academic guidance will be included in this class. The course will provide an orientation to the policies and procedures of the University and of the College. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32INTR071**Study Skills and Problem Solving**

Individual and group instruction in skills important to successful college work. Additional emphasis on activities to enhance critical and analytic problem solving abilities. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32INTR301**SIFE Internship (Students in Free Enterprise)**

This experiential internship emphasizes leadership, communication and teamwork, and provides students with insight into the workings of a market economy. The supervised work experience must be approved by the SIFE Faculty Coordinator and must include a minimum of 90 supervised hours of work. The supervisor is required to submit an evaluation of the student's performance. This experience is limited to students enrolled in the AGS Students In Free Enterprise (SIFE) program in CECE. Prereq: 32ENGL103. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32INTR302**SIFE Internship (Students in Free Enterprise)**

This experiential internship emphasizes leadership, communication and teamwork, and provides students with insight into the workings of a market economy. The supervised work experience must be approved

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Interdisciplinary**32INTR302****SIFE Internship (Students in Free Enterprise)**

by the SIFE Faculty Coordinator and must include a minimum of 90 supervised hours of work. The supervisor is required to submit an evaluation of the student's performance. This experience is limited to students enrolled in the AGS Students In Free Enterprise (SIFE) program in CECE. Prereq: 32INTR301. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32INTR302H**Historical Perspectives In Computing**

This course will cover the historical, political, ethical, legal and other issues involving the development of computer hardware, software, and communications from the 1800s to the present from a non-technical viewpoint. The individuals and companies involved that played a pivotal role will also be studied. The specific details of the various computing technologies will not be discussed, but may be investigated by the individual student. This course will ultimately explore how computers and related technology have affected our lives. BoK: HP. Credit Level: U. Credit Hrs: 3.00

32INTR303**SIFE Internship (Students in Free Enterprise)**

This experiential internship emphasizes leadership, communication and teamwork, and provides students with insight into the workings of a market economy. The supervised work experience must be approved by the SIFE Faculty Coordinator and must include a minimum of 90 supervised hours of work. The supervisor is required to submit an evaluation of the student's performance. This experience is limited to students enrolled in the AGS Students In Free Enterprise (SIFE) program in CECE. Prereq: 32INTR302. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32INTR304H**Home Systems: Electronic Automation et al**

The course addresses basic knowledge and simplified science behind electrical and and electronic home systems. It is designed to be simple enough so that Honors students without a background in technology can benefit from it, but is enriching to provide provoking thoughts on innovation and futuristic aspects of the technologies involved. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32INTR321**Systematic Innovation I: Technology, Community Service and Entrepreneurship.**

In this course, which uses project based learning (PBL), experiential learning (EL) and service learning (SL) pedagogies, students working in interdisciplinary teams identify problems through community service, develop technical solutions to those problems, and propose business plans to transfer their solutions to a profitable venture. The focus is on methods of systematic innovation, the solving of real-world problems, and the development of teamwork skills for effective leadership. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

32INTR322**Systematic Innovation II**

In the second course of a two-course sequence, which uses project based learning (PBL), experiential learning (EL) and service learning (SL) pedagogies, students working in interdisciplinary teams identify problems through community service, develop technical solutions to those problems, and propose business plans to transfer their solutions to a profitable venture. The course focuses on the management of innovative product development and includes topics such Market Analysis, Product Design Specification (PDS), Proposal preparations, Strategic Planning and Management for New Product for Community Service, Prototype Development, Manufacturing Requirements, and Business Plan. Prereq: 32INTR321. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

32INTR331**Systematic Innovation I Lab**

This is an optional companion course to Systematic Innovations I:

Interdisciplinary**32INTR331****Systematic Innovation I Lab**

Technology, Community Service and Entrepreneurship that provides additional laboratory assignments to satisfy the requirements of some students who need a four credit technical elective. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32INTR332**Systematic Innovation II Lab**

This is an optional companion course to Systematic Innovations II: Technology, Community Service and Entrepreneurship that provides additional laboratory assignments to satisfy the requirements of some students who need a four credit technical elective. Coreq: 32INTR322. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32INTR346H**Math and Architecture of the Ancient Maya Civilization**

Using a hybrid model, students will study the math, architecture and culture of the Maya during the spring 2008 quarter. Students will work collaboratively to discover the unique contributions of the Maya civilization to our present world. The course will culminate with a required visit to Chiapas, Mexico for the student to experience these interrelations. In order to get the full credit for the course the students must be enrolled in the course and be prepared to travel to Chiapas. BoK: HP., DC. Credit Level: U. Credit Hrs: 3.00

32INTR347H**STC: Entrepreneurship through Innovative Interdisciplinary Projects**

In a Project Based Learning (PBL) approach to honors scholars education, the course explores the notion that entrepreneurship, technology and community service complement each other. BoK: NS., SE. Credit Level: U. Credit Hrs: 3.00

32INTR395H**Roman Construction Architecture and Culture**

Global development of technologies of structures, and architecture through the centuries is associated with societal culture, needs, progress and yes, war. The proposed seminar/course uses Problem Based Learning pedagogy to expose Honors students to these interrelationships, and helps them to better understand societies. In this course, teams of Honors students will research the technology of construction and architecture of roman monuments and reflect on the culture that promoted their construction. Students are required to travel to Rome the end of the course course at a cost of about \$2500. BoK: FA., HP. Credit Level: U. Credit Hrs: 3.00

32INTR396H**Technology, Architecture & Structures in Paris**

A special topics course for Honors. Part of the biennial interdisciplinary global component for the Honors Scholars Program, this course explores the development of technologies throughout the world. BoK: HP., FA. Credit Level: U. Credit Hrs: 3.00

32INTR397H**Global Experiential Learning**

Students will travel to various international destinations to experience the local culture, history and technology. Written and visual journals will be kept & exhibited on the web. Registration is restricted to UC Honors students. Travel expenses will be the responsibility of the student. Students can apply for partial subsidy from the UC International Program's Office. BoK: DC., HP. Credit Level: U. Credit Hrs: 3.00

32INTR401**SIFE Internship (Students in Free Enterprise)**

This experiential internship emphasizes leadership, communication and teamwork, and provides students with insight into the workings of a market economy. The supervised work experience must be approved by the SIFE Faculty Coordinator and must include a minimum of 90 supervised hours of work. The supervisor is required to submit an evaluation of the student's performance. This experience is limited to students enrolled in the AGS Students In Free Enterprise (SIFE) program in CECE. Prereq: 32INTR303. BoK: NA. Credit Level: U. Credit

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Interdisciplinary**32INTR401****SIFE Internship (Students in Free Enterprise)**

Hrs: 3.00

32INTR402**SIFE Internship (Students in Free Enterprise)**

This experiential internship emphasizes leadership, communication and teamwork, and provides students with insight into the workings of a market economy. The supervised work experience must be approved by the SIFE Faculty Coordinator and must include a minimum of 90 supervised hours of work. The supervisor is required to submit an evaluation of the student's performance. This experience is limited to students enrolled in the AGS Students In Free Enterprise (SIFE) program in CECE. Prereq: 32INTR401. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32INTR403**SIFE Internship (Students in Free Enterprise)**

This experiential internship emphasizes leadership, communication and teamwork, and provides students with insight into the workings of a market economy. The supervised work experience must be approved by the SIFE Faculty Coordinator and must include a minimum of 90 supervised hours of work. The supervisor is required to submit an evaluation of the student's performance. This experience is limited to students enrolled in the AGS Students In Free Enterprise (SIFE) program in CECE. Prereq: 32INTR402. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32INTR561**Interdisciplinary Capstone Seminar I**

An interdisciplinary course built around a timely theme. Student is asked to write several short papers on topics related to the course theme and/or to their completion of the baccalaureate degree. The theme is explored through reading and group discussions. This course must be followed by INTR562. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32INTR562**Interdisciplinary Capstone Seminar II**

A continuation of 30INTR561. The primary objective is to complete and present a senior paper and/or project related to both the theme covered in INTR561 and to the student's major area of study. Prereq: 32INTR561. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Information Technology**32IT060****PC Maintenance**

This course is for the computer user in mind to troubleshoot their own PC. Topics in PC hardware and operating systems are covered to enable users to solve their own computer problems as they arise. These problems could span from computer accessories, performance, security, and issues surrounding Internet access. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT061**Windows Vista**

Getting started and working efficiently with Windows Vista. Working with files and folders, personalizing Vista, installing and configuring devices. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT070**Setting Up a Home Network**

This course deals with the basics of setting up a computer network for a home or small organization for internal use as well as Internet connectivity. It covers both wired and wireless network configurations, proper security implementation, and troubleshooting. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT080**Create Your Own Webpage**

This course covers the basics of Web page creation and maintenance. Students will learn the skills necessary to design, implement, and

Information Technology**32IT080****Create Your Own Webpage**

maintain small Web sites. No previous background in this area is required other than basic computer literacy. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT090**Basic Keyboarding**

A beginning course in typewriting/keyboarding including keyboard mastery, developing speed and accuracy, and simple document formatting. Taught on a personal computer. Out-of-class lab work required. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT091**Intermediate Personal Computer Keyboarding**

Brief review of PC keyboard and techniques used in typewriting and computer entry; drills for improvement of speed and accuracy; review business letters, forms, tabulations, and manuscripts. This course is part of Fundamentals cluster. Prereq: 32IT090. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT092**Word Processing Applications**

A course intended for students who wish to learn the basics of word processing as well as intermediate features such as merging, etc. Students will use current popular software programs. Out-of-class lab work required. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT093**Presentations using Power Point**

Creating effective and attractive presentations using MS PowerPoint. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT094**Spreadsheet Applications**

A hands-on course intended for students who wish to learn the basics of computer spreadsheets applications as well as intermediate features such as data analysis, manipulation, and presentation. Students will learn to use spreadsheet application to impact data from and export data to other applications and databases. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT101**Computer Applications**

A course in the use of the microcomputer in a professional business environment. This course includes an overview of hardware and software applications such as, the operating environment and the business software included in a typical office application (word processing, spread sheet and presentations). Hands-on active learning required. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32IT120**Web Publishing**

This is a course for non-majors that covers the design and creation of static Web sites using commonly available tools. The course includes the Web design process, user modeling, basic marketing issues and the importing of content from common office information systems software format (word-processed documents, spreadsheets, presentation and databases) for display on the Web. (IT majors should take 32IT220 Fundamentals of Web Development instead of this course). BoK: FA., NS. Credit Level: U. Credit Hrs: 3.00

32IT141**Business Computer Applications**

A course in the use of the microcomputer in a professional environment. Overview of hardware and business software applications including operating environments, word processing, spreadsheets and electronic mail. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32IT142**Business Information Systems**

A course focusing on the support and improvement of business processes through the use of information technology. This course includes coverage of database management systems,

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Information Technology**32IT142****Business Information Systems**

telecommunications, networking, presentation graphics, and systems design and development. A hands-on approach to problem-solving in the business environment. Prereq: 32IT141. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32IT160**Microsoft Windows**

Practical hands-on experience in using some of the basic windows applications. Windows is a graphical user interface which changes menu operating systems, so that the interface between the user and the program is in a more pleasant environment for visual detail. Course is a part of Fundamentals cluster. Section "707" is an "online" course. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT170**Introduction To Information Technology**

An Introduction to the field of Information Technology that surveys topics related to software development, computer networking, databases, digital media, the internet and web technologies and who it is used to service the IT needs of an organization. The course also discusses professional skills required for IT professionals. Perm of Department. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT171**Programming: Logic and Methods**

The art and science of writing computer algorithms is introduced without reference to any specific computer language. Course relates logical and mathematical concepts such as truth tables and set theory to computer algorithm construction. Design and development of algorithms with the aid of structure charts, IPO charts, flowcharts and pseudo-codes will be emphasized. Concepts and program design for Object Oriented Programming will be introduced. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT181**Programming Logic & Methods (IT Technical Track)**

This course is an introduction to the basic concepts of programming; control structures, sequence selection iteration; terminology such as operators, expressions, assignment, functions; data structures, simple and complex, data types, variables. This includes broader issues such as development concepts, software life cycle, programming steps, basic modeling with use cases and other relevant components of the Unified Modeling Language. Project work using examples based on Visual Basic is expected. The 171 version is designed for the business tract. The 181 version was designed for the technical tract and introduces basic object-oriented concepts such as the following: encapsulation, polymorphism, inheritance. Course is part of the Fundamentals cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT191**Introduction to Microcomputers I**

A course in the use of the microcomputer in a professional environment. Overview of hardware and business software applications including operating systems, word processing, spreadsheets, electronic mail. Course is part of Fundamentals cluster. Section "707" is an "online" course. Prereq: 30IT150. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT192**Introduction to Microcomputers II**

Advanced discussion of microcomputers in the business environment, including database management and presentation software. Attention paid to the exchange of information between systems. Course is part of Fundamentals cluster. Section "707" is an "online" course. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT200**Computational Concepts**

The emphasis of the course is in the applications of computational concepts used specifically in information technology. Students are given a range of computational topics that lead to the understanding in and the application of how, why, and where these computational

Information Technology**32IT200****Computational Concepts**

concepts are applied in information technology applications. Prereq: 32IT170, 32IT205, 32MATH179. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT201**Word Processing Applications**

A hands-on word processing course using WORD. This survey course will introduce students to creating, editing, and proofing documents; formatting; tables; merging; and working with graphics in a word processing document. Course is part of Applications cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT205**Computer Programming I**

This is the first programming course for students with no prior programming experience. It intends to provide an introduction to the fundamental concepts of composing and running a program using a current high-level programming language. Hands-on active learning required. Coreq: 32IT171. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT206**Computer Programming II**

This course is a continuation of Computer Programming I. Students will learn to write programmer defined functions, work with data structures, read and write files to and from disk, and construct programmer defined class as well as import pre-defined classes to use in their programs using a current high-level programmable language. Hands-on active learning required. Prereq: 32IT205, 32IT170. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT207**Computer Programming III**

This course is a continuation of Computer Programming II. Students will learn to work with pointers and/or reference variables and implement abstract data types. Additional libraries of classes will be included for discussion and usage in programs. Other object oriented programming concepts such as function/operator overloading, inheritance, overrides, polymorphism, and class templates will be discussed. Hands-on active learning required. Prereq: 32IT206. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT209**Introduction To Database**

Introduction to Database system concepts and terminology with emphasis on relational database design. Hands-on active learning required. Prereq: 32IT170. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32IT211**Introduction To Operating Systems**

Introduction to Operating Systems with emphasis on the UNIX operating system. Discussions of file system, file management, command language and shell programming. Hands-on active learning required. Prereq: 32IT101, 32IT170, 32IT205. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT215**Directed Study - Information Technology**

A course designed for students who require individualized instruction in the information technology area. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

32IT216**Directed Study - Information Technology**

A course designed for students who require individualized instruction in the information technology area. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

32IT220**Fundamentals Of Web Development**

Fundamentals of website design, creation, implementation and publication of websites using XHTML, Cascading Style Sheets and local

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Information Technology**32IT220****Fundamentals Of Web Development**

and remote development tools. Web design process, the use of graphics development tools, and XML basics. Students will create a personal website on the University server and also a website for a community partner individually or in groups. Hands-on active learning required. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT230**Fundamentals Of Digital Media**

Emphasizes the production of interactive presentations that incorporate graphics, sound, animation and video. Hands-on active learning required. Prereq: 32IT170. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT236**Introduction to e-Business**

This course is a comprehensive overview of the role of e-business within a company and is applicable to those starting an e-business or looking to apply the technology and practices to an existing operation. This course examines how to develop and manage an e-business from startup including e-business concepts from market analysis, business strategies, information architecture, web site design, and integration to deployment. This course applies e-business concepts through examples, illustrations and case studies that analyze and design e-business solutions. Part of Business Management cluster. Prereq: 30IT170. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT241**COBOL Programming I**

Programming of typical business problems. Sequential and direct access file organization. Debugging. Course is part of Languages cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT242**COBOL Programming II**

Continuation of IT 241. Develop advanced COBOL programs using new language elements used to edit and process various types of files on disk. The emphasis will be on internal sorts, arrays, processing sequential and indexed (VSAM) files, and called modules, as well as learning additional COBOL programming techniques. Course is part of Languages cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT251**World Wide Web - Basic Concepts**

The course is an introduction of internet and intranet concepts, terminology, tools and applications. Principal topics include SGML, HTML, XML and DHTML basics, World Wide Web, e-mail, web servers, browsers, searching and internet services. This course also includes the origins and evolution of the internet and intranets as well as a survey of current commercial products. Students will complete case studies pertaining to the course objectives. Course is part of Web Technology cluster. Prereq: 30IT170. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT252**World Wide Web - Development Concepts**

This course is a survey of Internet and intranet software development concepts and implementation. Commercial software products will be used to design and develop applications using the latest technology. Topics include a survey of Javascript, XML and HTML. Course is part of Web Technology cluster. Prereq: 30IT251. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT253**World Wide Web - Multimedia Concepts**

A survey of multimedia oriented development with emphasis on Web applications. Topics include the integration of graphics, animation, video, and sound, into user interfaces and authoring tools. Course is part of Web Technology cluster. Prereq: 30IT252. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Information Technology**32IT254****Web Administration**

An in-depth survey of Web server administration and related applications including site design, administration, implementation, installation, configuration, maintenance, data base administration and information policy (security, intellectual property). Includes case studies in the establishment and maintenance of a web server using commercial products and applications on various platforms. Course is part of Web Technology cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT255**Visual Basic I**

This course is an introduction and overview of Visual Basic, a Windows development product. Principal topics include the Visual Basic language and data types. Additional topics include forms, controls (labels, command buttons, text boxes and list boxes), events and properties (colors). Students are expected to develop case studies pertaining to the course objectives. Course is part of the Languages cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT256**Visual Basic II**

This course surveys advanced features of Visual Basic, a Windows development product. Principal topics include advanced Visual Basic language features as well as menus (pull-down, pop-up), advanced controls (dialog boxes, combo boxes, grids), error handling, object linking and embedding, graphics and data access. Students are expected to develop case studies pertaining to the course objectives. Course is part of the Languages cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT257**Active Server Pages (Server Side Scripting)**

This course presents Active Server Pages for Web application development based on the .NET architectural framework. The principal topics include server side scripting using active server pages (ASP), XML, Web Services, Web forms, Web controls and database applications using web client server technology. The course includes substantive project work. Course is part of Languages cluster. Prereq: 30IT251, 30IT255. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT270**Pascal Programming**

Pascal is a general-purpose, high-level programming language. Pascal syntax and fundamental aspects such as data types, constants, variables, and declarations. Arithmetic and Boolean expressions, assignment of values to variables, techniques for performing input and output operations, control statements and structures, functions and procedures. Available only as Independent Study with permission of Instructor. Course is part of Language cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT274**Computer Hardware**

Topics of discussion include, but are not limited to, installation, configuration and upgrading, diagnosing and troubleshooting, preventive maintenance, motherboards, processors, and memory; RAM, and printers. Hands-on active learning required. Prereq: 32IT170. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT275**Introduction to Networking**

A broad course covering the spectrum of computer networking in the theoretical and practical frame- work. Students will learn such topics as network media, topologies, the OSI model, protocols, security, and network architectures. Hands-on labs for this course will introduce implementing and managing a peer-to-peer local network. Hands-on active learning required. Prereq: 32IT205, 32IT274. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Information Technology**32IT277****Fundamentals of Spreadsheets**

A hands-on spreadsheet course using Lotus 1-2-3 or a Lotus clone. Intended for students who wish to learn a basic spreadsheet software program. Advanced features such as macros, graphing, and database functions will be introduced. Course is part of Applications cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT279**Introduction to Computers and Digital Publishing**

A hands-on course in digital publishing. Intended for students who wish to learn the basics of a desktop publishing software program. Features such as style sheets, document importation, drawing and writing tools, and printing will be introduced. Course is part of Applications cluster. Prereq: 30IT201. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT283**Digital Illustrating**

Offering an expanded knowledge of graphic design using draw programs this course allows students to enhance their digital publishing skills by becoming proficient in the vector environment. Drawing short-cuts and transformation methods are stressed, along with the building process for object-oriented rendering. Course is part of Applications cluster. Prereq: 30IT279. BoK: FA. Credit Level: U. Credit Hrs: 3.00

32IT285**Information Policy for Information Technology**

The course reviews information policy as it relates to access, openness, privacy, intellectual property (copyrights, trade marks), cost and benefits, security and legal issues. Included are issues pertaining to information integrity, electronic communications, and principles of ethical conduct. Students will be expected to complete case studies. Course is part of Business Management cluster. Section "707" is an "online" course. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32IT288**Digital Painting I**

This class will introduce students to a unique computer program that allows the user to generate traditional mediums like charcoal, oil and water color paints, crayon, pencil, pen and ink, airbrush and much more. Course is part of Applications cluster. Prereq: 30IT283. BoK: FA. Credit Level: U. Credit Hrs: 3.00

32IT289**Digital Painting II**

This class will utilize the Painter 5 program in a unique but traditional setting. Students will sketch and develop illustrations and paintings while working from live models, and still lifes, while learning traditional rendering skills. Course is part of Applications cluster. Prereq: 30IT288. BoK: FA. Credit Level: U. Credit Hrs: 3.00

32IT291**Database Overview**

Introduction to database system concepts and terminology with emphasis on relational database design. Concepts covered include logical and physical database structure, database management systems (DBMS), data definition, data manipulation, database query and views, query languages, graphical user interfaces, and report generation. Students complete a case study of their choice using Microsoft Access. Course is part of Database Management cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT293**C++I - Introduction**

This course is an introduction to the basic language fundamentals of C++ technology. The focus of this course is on object-oriented concepts including encapsulation, polymorphism and inheritance using objects, classes and member functions. Course is part of Languages cluster. Prereq: 30IT181. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT294**C++II - Intermediate**

This course introduces intermediate level C++ technology. The focus of

Information Technology**32IT294****C++II - Intermediate**

this course is on graphical user interface concepts and their application. Course is part of Languages cluster. Prereq: 30IT293. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT295**C++III - Advanced**

This course introduces advanced level C++ technology. The focus of this course is on software architecture, components and database programming. Course is part of Languages cluster. Prereq: 30IT294. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT296**Java I - Introduction**

This course is an introduction to the basic language fundamentals of Java technology. The focus of this course is on object-oriented concepts including encapsulation, polymorphism and inheritance using objects, classes and methods. Course is part of Languages cluster. Prereq: 30IT181. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT297**Java II - Intermediate**

This course introduces intermediate level Java technology. The focus of this course is on graphical user interface concepts and their application. Course is part of Languages cluster. Prereq: 30IT296. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT298**Java III - Advanced**

This course introduces advanced level Java technology. The focus of this course is on software architecture, components and database programming. Course is part of Languages cluster. Prereq: 30IT297. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT299**Implications In IT**

This course focuses on the impact brought upon our society by computer and its related technologies. Issues related to privacy, ethics law, encryption, copyright, computer crimes, etc, will be critically examines. Prereq: 32IT170. BoK: NS, SE. Credit Level: U. Credit Hrs: 3.00

32IT301**Systems Analysis and Design I**

A broad study of systems development life-cycle, from the initial stages of systems requirement analysis to the implementation of the system. Different techniques and methodologies in different development stages will be studied. Hands-on active learning required. Prereq: 32IT207, 32IT275, 32IT309. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT302**Systems Analysis and Design II**

The design phases of the system development life cycle. Hands-on active learning required. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT303**Systems Analysis and Design III**

Continuation of IT302. This course is the actual application of the principles of Systems Analysis and Design which the student acquired in 30IT301, 302. The student will completely execute their own analysis and design of a computer-based system in a case study environment. Course is part of Software Development cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT305**Brand Identity**

A professional Graphic Design Course centering around Typography, Logo Signature Marks for identity marks in the corporate and brand identity arena. the background history, hands on development, and deepened understanding will benefit a designer in any field they choose. Course is part of Applications cluster. Prereq: 30IT283. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Information Technology**32IT306****Customer Service in IT**

The key to success in any organization is exceptional customer service. The purpose of this course is to provide the customer service skills to allow each person to improve customer service within their organizations. Topics include concept, customer service models, skills, empowerment, rewards and recognition, renewal (stress and burnout), communications, team building and problem handling. Course is part of Business Management cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT307**Interactive Animation and Design**

This program has opened many doors for interactive animation and design. Static web pages become doorways to movies, audio sounds and more. This program has captured 80% of the WEB and is growing everyday. Students will have an opportunity to participate and play with vector graphic animation that is easily assembled into scenes for WEB animations and interactive CD's. Course is part of Applications cluster. BoK: FA. Credit Level: U. Credit Hrs: 3.00

32IT309**Database Management**

Database design using popular database packages. Tables, forms, queries, reports and building applications that automate database functions Hands-on active learning required. Prereq: 32IT209. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT310**Digital Image Editing**

This intensive, hands-on course explores the vast capabilities of Adobe Photoshop, focusing on advanced manipulation techniques for photos and graphics. Participants learn to scan and enhance digital images, use layers, work with channels, and create impressive special effects using filters. Course is part of the Applications cluster. Prereq: 30IT283. BoK: FA. Credit Level: U. Credit Hrs: 3.00

32IT311**Business Intelligence**

Data warehouse design and implementation, OLAP cubes, data transformation, reporting services. Hands-on active learning required. Prereq: 32IT309. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT313**Information Security & Privacy**

Information Security and Privacy is designed to give the student an introduction to some of the following security concepts: confidential, integrity, availability, authentication, and non-repudiation. This course first examines computer security and then moves on to the broader, more applicable issue of network security. Prereq: 32IT207, 32IT275. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT314**Digital 3-D and Animation**

This class will allow students to create frames and render them in 3-D, while allowing them to move freely through space in a very visual manner. These images can be used for Web Movies, 3-D Product Rendering's, Store Walk Throughs, and much, much more. Students will be given an artistic and technical background in the program. Course is part of Applications cluster. Prereq: 30IT283, 30IT289, 30IT310. BoK: FA. Credit Level: U. Credit Hrs: 3.00

32IT315**Systems Administration I**

This course will provide the knowledge and hands-on skills necessary to manage a Local Area Network and its resources. Topics covered include server management, file and print services, disk management, system security, and user/client administration. Students will setup and manage a fully functioning computer network of systems. Hands-on active learning required. Prereq: 32IT275. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

Information Technology**32IT316****Systems Administration II**

Advanced study of systems administration in a computer network. This course will go beyond the basic study of systems administration into such areas as directory services, backup and recovery, clustering and load balancing, DNS, DHCP, and web services. Hands-on active learning required. Prereq: 32IT315. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT317**Network Infrastructure Development**

An in-depth course covering the array of computer networking media and their associated components found in both LAN and WAN environments. Each media will be studied for its characteristics and students will obtain the skills for its implementation in the network. Physical cabling as well as wireless topics will be covered. This course utilizes a multitude of hands-on activities with various network media. Hands-on active learning required. Prereq: 32IT275. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT318**Advanced Digital Illustrating & Photo Editing**

Class covers some advanced capabilities of Photoshop and Illustrator not covered in preceding classes. Tips and tricks of both programs help students to understand some step-by-step, hands-on learning that brings the program's more expert functions into a practical, everyday use. Prereq: 30IT283, 30IT310. BoK: FA. Credit Level: U. Credit Hrs: 3.00

32IT319**Network Security**

This course covers the array of technologies and techniques to secure a computer network. Anticipation of network weaknesses then design the network infrastructure and policies to pre-empt potential attacks upon the network will be presented. Practical skills in router security, firewalls, virtual private networks (VPN), intrusion detection/prevention systems (IDS/IPS), and host-based security will be key components to the course. Hands-on active learning required. Prereq: 32IT317, 32IT313. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT321**Client Side Web Development**

Development of dynamic websites using current scripting languages for client-side development. The course involves understanding the difference between client-side and server-side web programming. Hands-on active learning required. Prereq: 32IT220. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT322**Data Representation Technologies**

This course covers methods used to represent, store, and encode data for inter-operability and re-use between computer software systems. This includes methods of transforming data between representation formats and flexible presentation. The course covers a wide range of software tools to create representations, confirm compliance to representational formats, and to transform data between formats. This course requires active, hands-on learning. Prereq: 32IT321. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT323**E-Business Fundamentals**

This course will address the e-Business fundamentals and concepts to analyze and design e-Business solutions with a rapidly changing environment. These solutions include e-Business models, processes, systems, Internet strategies and security strategies. The course examines e-Business through examples, illustrations and case studies that analyze and design e-business solutions. Course is part of Business Management cluster. Prereq: 30IT301, 30IT478. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Information Technology**32IT324****E-Commerce**

This course is designed to give students an understanding of the various types of eCommerce, implications and benefits of eCommerce, and the associated enabling technologies. The course will cover the requirements for developing an eBusiness, how to implement a website, Merchant accounts, interactive gateways, product management, security and the legal and ethical issues involved in eCommerce. The students will participate in a team project to design, and implement a complete B2B eCommerce website focusing on analysis and choice of enabling on analysis and choice of enabling technologies including single or multi-tier architectures. Hands-on active learning required. Prereq: 32IT421. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT325**E-Business Systems Integration**

This course examines the full spectrum of e-business/commerce systems design, integration and deployment concepts and technologies. This course helps the potential e-business/commerce manager or professional to visualize and experience the process of designing/developing an e-business/commerce system that typically includes integration and deployment. Examples, case studies, actual integration exercises, and demonstrations are explored. Course is part of Business Management cluster. Prereq: 30IT324. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT330**Digital Image Development**

Focuses on the acquisition, creation and manipulation of graphical images (photographs, line art) using high level digital tools and techniques. Hands-on active learning required. Prereq: 32IT230. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT331**Introduction to Smalltalk Programming**

The student will learn object-oriented concepts and the mechanisms that support them using Smalltalk. The principal topics are the Smalltalk language, object-oriented analysis and design concepts, the development of graphical user interfaces, and object-oriented patterns. Students are expected to complete projects to enhance their understanding of object-oriented programming. Available only as Independent Study with permission of Instructor. Course is part of Languages cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT332**Digital Audio Development**

Focuses on the acquisition, creation and manipulation of audio information using high level digital tools and techniques. Deals with production processes, including management and use of audio materials. Hands-on active learning required. Prereq: 32IT230. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT333**Digital Video Development**

Focuses on the acquisition, creation and manipulation of video information using high level digital tools and techniques. Deals with production processes, including management and use of video materials. Hands-on active learning required. Prereq: 32IT332. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT341**Assembler Language I (IBM)**

An introduction to assembler language coding, testing and debugging. Includes a review of suitable applications for assembler language as well as class projects in assembler language. Course is part of Languages cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT342**Assembler Language II (IBM)**

Continuation of IT 341. Topics include assembler language applications in file management, memory management, access methods, I/O devices and performance considerations. Offered alt. yrs. Course is part of Languages cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Information Technology**32IT342****Assembler Language II (IBM)**

Continuation of IT 341. Topics include assembler language applications in file management, memory management, access methods, I/O devices and performance considerations. Offered alt. yrs. Course is part of Languages cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT343**Assembler Language III (IBM)**

Continuation of 30-441-342. Topics include re-entrant and recursive programming; advanced access methods, macros and operating system services. Course is part of Languages cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT345**Contemporary Programming I**

This course deals with advanced programming techniques and design issues relating to enterprise-wide development. Topics include advanced object-oriented programming and techniques and application testing and deployment using current enterprise application development tools and development and design methodologies. The concentration will on presentation-tier development. Hands-on active learning required. Prereq: 32IT207. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT346**Contemporary Programming II**

This course deals with advanced programming techniques and design issues relating to enterprise-wide development. Topics include advanced object-oriented programming and techniques, database processing and database interfaces using current enterprise application development tools and development and design methodologies. The concentration will on middle-tier development. Hands-on active learning required. Prereq: 32IT345. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT347**Contemporary Programming III**

This course deals with advanced programming techniques and design issues relating to enterprise-wide development. Topics include advanced object-oriented programming and techniques, optimization techniques, multithreading, remote method invocation, system services, security techniques, how to use attributes, metadata, and reflection, and customization using current enterprise application development tools and development and design methodologies. The concentration will on advanced features used for enterprise application development. Hands-on active learning required. Prereq: 32IT346. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT354**Web Administration**

Installation, configuration and administration of commercial Web servers. Web servers, Internet security, firewall servers, proxy servers. The course cover domain creation, indexing, mail server processing, FTP, NNTP, and other protocols and an understanding of various responsibilities of web server administration. Students will have opportunities to learn how to set up web server administration. Students will have opportunities to learn how to set up a security policy, request a digital server certificate and how to administer intranet applications and web database applications. Students will also learn how to analyze various Internet/intranet scenarios and how to suggest solutions using advanced Internet technologies. Hands-on active learning required. Prereq: 32IT275. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT361**Computer Forensics**

This course introduces the learner to the concepts and techniques of computer forensics. Topics include detecting incident occurrence, data hiding through alternate data streams and steganography, incident preparation, incident response tools, scanners and sniffers, and developing a forensics methodology. Hands-on active learning

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Information Technology**32IT361****Computer Forensics**

required. Prereq: 32IT315. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT371**Date Structures & Algorithms**

Data Structures deals with the systematic study of the most commonly occurring data structures and use of storage media and methods of representing structured data and the techniques and algorithms for operating on such data. Hands-on active learning required. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32IT372**SAS Programming**

This course will introduce various aspects of computing involved in modern day statistics. The SAS package will be used as a vehicle for illustrating different types of computations, utilities and extracts. Especially geared to the applications programmer. Course is part of Languages cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT373**Applied Data Structures**

Applied Data Structures deals with the systematic study of the most commonly occurring data structures and their usage as a storage mechanism and a method representing structured data. The techniques and algorithms for operating on such data will be studied. Hands-on active learning required. Prereq: 32IT207. BoK: QR, NS. Credit Level: U. Credit Hrs: 3.00

32IT374**Groupware Technology**

This course provides an introduction to groupware technology concepts. Principal topics include terminology (collaboration, sharing knowledge, and replication), development -customer needs and analysis, design, implementation (forms, database, programming)½ and applications (messaging, workflow automation, approval processes, and office automation). Available only as Independent Study with permission of Instructor. Prereq: 30IT171, 30IT181. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT383**Hardware Architecture I**

A survey of hardware architecture concepts of both complex instruction set computing (CICS) and reduced instruction set computing (RISC) from microcomputers to mainframes. Principal topics include instructions and addressing, registers and indexing, interrupts and logic, microcode, buses, caches, memory, pipelining, superscalar, symmetrical multiprocessing, and massively parallel processors. Includes a detailed review of both Intel and Motorola microprocessors, storage devices from tape, disk, optical to redundant arrays of independent/inexpensive disks (RAID). Students are expected to complete case studies using the application of machine languages. Course is part of Computer Science Concepts cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT384**Hardware Architecture II**

Current and advanced research topics in hardware architecture are presented. This course would serve to provide ideas on viable topics that are emerging that have promise and applicability to the technological aspects of the business environment. Part of Computer Science Concepts cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT385**Data Warehousing**

Difference between OLAP and OLTP systems, designing a data warehouse, data transformation, creating and using cubes, querying cubes and applications. Hands-on active learning required. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

Information Technology**32IT386****Data Mining**

Data mining theory and techniques, including clustering models and decision trees. Using software tools to find non-apparent meaning in large amounts of data. Hands-on active learning required. Prereq: 32IT385. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT391**Quality Assurance and Testing**

This course presents techniques, procedures and tools used in the systems development life cycle for quality assurance testing and validation. Test plan preparation, test case development, event partitioning, designing for testability, software metrics and availability and selection of automated tools. Students will learn the importance of valid test procedures and practical application of them across hardware and software platforms. Course is part of Software Development cluster. Prereq: 30IT171, 30IT181. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT403**Software Engineering**

Software engineering processes, methods, tools and techniques are introduced in a framework of requirements generation, problem definition, analysis, design, software architecture, testing and quality assurance. Prereq: 32IT302. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT411**Enterprise Network Administration**

Techniques for successfully implementing and supporting network services on an enterprise scale will be covered in this course. Through hands-on job simulations and case studies, students will obtain the knowledge to perform network management on a large magnitude. Hands-on active learning required. Prereq: 32IT316, 32IT488. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT412**Information Architecture**

Information Architecture presents the underlying technical concepts and components to understand, analyze, design and implement systems for modern creative e-business enabled organizations. Information Architecture focuses on the structure of systems that comprise the major components, the externally visible properties of those components and their relationships. Information Architecture results in a holistic view of e-business implementation. This course includes a survey of the software architectures including host-centric, two-tier and three-tier, client server, distributed systems, WWW architectures and parallel systems. The principal topics include high level hardware, storage, connectivity related to data, voice, image and video software, networking, development tools and languages, transactions processing, web technologies and database building blocks for the future. This course is part of the Software Development cluster. Prereq: 30IT301. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT415**System Integration**

Hands-on study of computer networks comprised of heterogeneous operating systems and their applications. The course will focus on back-end network management and administration to enable seamless dataflow between differing computer systems. Students will follow established guidelines and best-practice techniques to create typical networks of varying operating systems and services which communicate efficiently. Hands-on active learning required. Prereq: 32IT316. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT416**Senior Design Project I - Networking**

Development of a prototype of a final project in Computer Networking. Projects are selected in Senior Design (IT495). Independent analysis, design, and development of a prototype under the supervision of a faculty member. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Information Technology**32IT417****Senior Design Project II - Networking**

Development of the final senior project in Computer Networking that started in IT416. Independent development, testing, deployment and evaluation of the final project under the supervision of a faculty member. Prereq: 32IT416. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT420**Web Server Application Development**

Covers the development of advanced Websites and Web-based applications. Includes database backends, Web services, Advanced XML, Web security etc. This course focuses on using commercial technologies. Hands-on active learning required. Prereq: 32IT322. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT421**Enterprise Web Development**

Covers the development of advanced Websites and Web-based applications using disparate technologies for distributed solutions. Hands-on active learning required. Prereq: 32IT420. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT426**Senior Design Project I - Web Technologies**

Development of a prototype of a final project in Web Technologies. Projects are selected in Senior Design (IT495). Independent analysis, design, and development of a prototype under the supervision of a faculty member. Coreq: BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT427**Senior Design Project In Web Technologies II**

Development of the final senior project in Web Technologies that started in IT426. Independent development, testing, deployment and evaluation of the final project under the supervision of a faculty member. Prereq: 32IT426. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT430**Human Computer Interaction I**

Concerned with the design of interfaces that facilitate the use of computers and other personal electronic devices such as handheld devices. Theory and practice of usability is emphasized. Prereq: 32IT230. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT432**Digital Media in Web Development**

This course introduces students to the multimedia possibilities of the Web. This course will teach how to incorporate each form of media into their Web pages. From adding sound to integrating animation. Hands-on active learning required. Prereq: 32IT322, 32IT230. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT433**Web Application Development**

Web Application development is a comprehensive review of the concepts in modern web development. Principal topics include major web architecture components, a survey of user interface design principals and guidelines for Web applications, designing for people (human computer interaction), analysis, design and implementation (languages) through graphical user interface (GUI) controls, forms and events. Students are expected to develop web applications using popular commercial products. Course is part of Web Technology cluster. Prereq: 30IT301, 30IT478. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT434**Creating a Successful Web Site**

Creating a successful Web site presents the underlying processes and technical concepts to understand, analyze, design and implement web sites to include a creative planning process, site design, frames and windows, site navigation and content accessibility, page architecture and design page layout, color, fonts, search engines. Modern tools will

Information Technology**32IT434****Creating a Successful Web Site**

be used to apply the concepts. Course is part of Web Technology cluster. Prereq: 30IT433. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT436**Digital Media in Web Development**

This course introduces students to the multimedia possibilities of the Web. This course will teach how to incorporate each form of media into their Web pages. From adding sound to integrating animation. Hands-on active learning required. Prereq: 32IT322, 32IT230. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT441**Design of Communications-Based Systems I**

Development and implementation of teleprocessing systems, terminals and communication facilities. Case studies. Course is part of Networking cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT442**Design of Communications-Based Systems II**

Continuation of IT441, including design of a terminal-oriented system. Course is part of Networking cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT451**Database Management Systems I**

An in-depth review of database technology to include database applications, relational database concepts and structured query language. Students will be required to implement database applications. Course is part of Database Management cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT452**Database Management Systems II**

Continuation of IT451. Topics include a review of commercial database products, database modeling and design (conceptual, logical and physical), database security, backup and recovery. A review of client server and distributed database architecture. Students will be required to design and implement database applications. Course is part of Database Management cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT453**Operating Systems I**

This course is a survey of operating systems concepts. Principal topics include operating systems spanning desktops to mainframes to networks such as Linux, Windows 9X, Windows NT/Windows 2000, Unix and MVS. This course includes case studies and project work. Course is part of Computer Science Concepts cluster. Prereq: 30IT371, 30IT303. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT454**Operating Systems II**

This course is an in-depth review of modern operating systems concepts including computing architectures and network operating systems. Principal topics include Linux, Windows 2000, NetWare and Cisco's IOS. Course is part of Computer Science Concepts cluster. Prereq: 30IT453. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT455**Management In Information Technology**

General management techniques and specific issues and tools for project management in information technology. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32IT461**Special Topics in Networking**

This course addresses technical advances in the area of Computer Networking that are not covered by other courses in the curriculum. Topics may change from one offering to the other depending on the current technological advances. Hands-on active learning required. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Information Technology**32IT462****Special Topics in Web Technologies**

This course addresses technical advances in the area of Web Technologies that are not covered by other courses in the curriculum. Topics may change from one offering to the other depending on the current technological advances. Hands-on active learning required. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32IT463**Special Topics in Software Development**

The course addresses technical advances in the area of Software Development that are not covered by other courses in the curriculum. Topics may change from one offering to the other depending on current technological advances. Hands-on active learning required. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32IT471**Information Systems - Design and Theory**

Design and theory of integrated information systems including technology, strategic planning processes and systems development methodologies to implement information systems that are congruent with companies' business goals. Offered alt. yrs. Course is part of Business Management cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT472**Office Automation Systems**

Design and application of office-based technologies including text processing, imaging, records management, voice, facsimile, reprographics, mainframe integration and electronic messaging to enhance administrative support and information service requirements of the corporate office. Course is part of Applications cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT475**Programming for Mobile Devices**

Developing and deploying applications for consumer and embedded devices and a survey of available technologies. Hands-on active learning required. Prereq: 32IT347. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT476**Database Management Systems Technologies**

Issues regarding the ongoing operation and support of database applications and support structures. Subjects and activities are those usually associated with the database administrator. Tuning, security, backup/recovery, data restructuring and application enhancement. Course is part of Database Management cluster. Prereq: 30IT452. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT477**Database Design and Implementation**

Design principles for both operational database systems and data warehouses, including normalization theory, ER diagramming theory and tools, data storage. Hands-on active learning required. Prereq: 32IT311. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32IT478**Software Engineering I**

Software engineering processes, methods, tools and techniques are introduced in a framework of requirements generation, problem definition, analysis, design, software architecture, testing and quality assurance. Team projects are included. Course is part of Software Development cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT479**Software Engineering II**

Software engineering processes, methods and tools are applied through practice in a framework that highlights the systems engineering process, full life-cycle models and technical metrics. Team projects are utilized to strengthen concepts. Course is part of Software Development cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Information Technology**32IT480****Database Administration**

Installing and configuring database servers, database security, managing database files, disaster recovery plans, replication, monitoring and optimization. Hands-on active learning required. Prereq: 32IT309. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT483**Project Management**

A survey of project management concepts as applied to information technology. Principal topics include project selection, planning and business strategy; project scheduling, costs and control; interpersonal, leadership and managerial skills; quality, risk, conflict and change management. Students are expected to complete individual and team projects. Course is part of Software Development cluster. Prereq: 30IT301, 30IT478. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT484**Object-Oriented Technology**

Object-oriented technology is examined with emphasis on object-oriented concepts, analysis, design, languages and implementation, databases, and networks. Students are expected to develop case studies using a commercial object-oriented tool. Course is part of Software Development cluster. Prereq: 30IT301, 30IT478. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT485**Information Engineering**

A review of information engineering concepts and applications. This includes a survey of computer aided software engineering (CASE) and an implementation project. Course is part of Software Development cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT486**Knowledge Engineering**

A survey of the knowledge engineering process, inference engines and knowledge bases, deduction and induction, forward and reverse reasoning, syllogisms, rules, uncertainty algebra, fuzzy variables and unknown variables. Includes practical experience using an expert system. Course is part of Artificial Intelligence cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT487**Topics in Advanced Database Management Systems**

Concepts of relational database management systems will be used to introduce distributed database technologies and the adoption of the relational models to the new technology. Course is part of Database Management cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT488**Routing & Switching**

Students construct network segments and learn to link the segments together with routers and switches. Once networks are connected, issues such as network interoperability, real-time network analysis, and Quality of Service (Qos) will be addressed. Further, students will learn topics of router programming and will build applications for the router. Hands-on active learning required. Prereq: 32IT317. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT489**Neural Networks**

A survey of neural network products and a review of neural net applications such as pattern recognition. Topics include processing elements, input units, output units, hidden units and fuzzy logic. Includes practical experience. Course is part of Artificial Intelligence cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT490**Senior Design**

The process of research, analysis and defending a senior design project, which is a capstone experience for seniors that involves their doing independent work on a project from conception to design to implementation, with guidance from a faculty advisor. Perm of

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Information Technology**32IT490****Senior Design**

Department. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32IT492**Information Technology for Managers**

This course, taught primarily by the case method, examines the environment, objectives, and issues relating to the management of the information systems function in current business entities. It is presented in the context of several industries to illustrate and explain the similarities as well as the differences caused by competition in today's business climate. The effect of Information Technology is examined at all levels of management (Strategic, Tactical and Operating). Course is part of Business Management cluster. Prereq: 30IT170. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT493**Senior Design Technical Practicum I**

Development of a prototype of a final project in Information Technology. Projects are selected in Senior Design (IT495). Independent analysis, design, and development of a prototype under the supervision of a faculty member. Prereq: 32IT490. Coreq: 32IT496. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT494**Senior Design Technical Practicum II**

Development of the final senior project in Information Technology that started in IT416. Independent development, testing, deployment and evaluation of the final project under the supervision of a faculty member. Prereq: 32IT493. Coreq: 32IT497. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT495**Senior Design**

The process of research, analysis and defending a senior design project, which is a capstone experience for seniors that involves their doing independent work on a project from conception to design to implementation, with guidance from a faculty advisor. Perm of Department. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

32IT496**Senior Design Project Management I**

The life cycle of developing a project prototype. Students perform independent research and document and present the prototype for their senior design project. Prereq: 32IT490. Coreq: 32IT493. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT497**Senior Design Project Management II**

A continuation of Senior Design Project Management I (32IT496) in which students will research and discuss issues related to project deployment, testing, client training and gathering feedback from the client. Students will document and defend their senior design project in a public forum. Prereq: 32IT496. Coreq: 32IT494. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32IT499**Independent Study in Information Technology**

Please complete and submit an Independent Application form available from the College Office. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

32IT571**Solid Modeling**

Discussion of the construction and processing of informationally complete representations of 3D solid objects. Topics will include techniques for representing, manipulating, and displaying solid objects. Data exchange standards will also be presented. Solid Modeling is a technology fundamentally important in increasing the capability of applications such as CAD, robotics, and computer animation. Course is part of Applications cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Information Technology**32IT573****Software Engineering Applications**

This application of software engineering methods, tools, and techniques are used in a life-cycle systems engineering process, including metrics, testing, and code delivery. Group project required. Course is part of Software Development cluster. Prereq: 30IT479. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32IT575**Colloquium on Information Technology**

Current topics in information technology presented. This course will serve to provide ideas on viable topics that are emerging that have promise and applicability to the business environment. Course is part of Computer Science Concepts cluster. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Mathematics**32MATH018****Strategies For Academic Success**

Incorporation of study skills, time management and decision-making techniques, problems-solving skills, and familiarization with services offered by the College/University. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MATH021**Introduction to Technical Mathematics I**

Real numbers, exponents, variable expressions, solving linear equations, applications of linear equations, graphing linear equations, solving systems of linear equations. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32MATH022**Introduction to Technical Mathematics II**

Trigonometric functions, right triangle and coordinate plane trigonometry, vectors, radian measure, graphing trigonometric functions, trigonometric identities, solving trigonometric equations, Laws of Sines and Law of Cosines, trigonometric applications. Prereq.: A score of at least 300 on the Math Placement Test or a grade of "C" or better in Tech Math I (32MATH021). Prereq: 32MATH021. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32MATH023**Introduction to Technical Mathematics III**

Algebraic fractions, polynomials, factoring, radical expressions, quadratic equations, composition of functions, inverses. Prereq.: A score of at least 420 on the Math Placement Test or a grade of "C" or better in Intro Tech Math II (32MATH022). Prereq: 32MATH022. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32MATH024**Preparatory Algebra**

Exponents; solving linear, literal and quadratics equations; operations with polynomials; factoring; solving systems of equations; graphing linear functions; radical expressions; rational exponents complex numbers. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32MATH031**Creative Problem Solving**

This course is multi-disciplinary approach to problem solving involving mathematical and engineering technology as well as reading and writing skills. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MATH033**Trade Mathematics I**

Whole numbers, fractions and decimals; principles of linear, surface, and volume measurement; percentages, averages, and estimations; basic algebra concepts; algebraic equations; powers and roots; ratios and proportions. BoK: NA. Credit Level: U. Credit Hrs: 2.00-4.00

32MATH034**Trade Mathematics II**

Applications of shop algebra, geometry and right angle trigonometry. Prereq: 32MATH033. BoK: NA. Credit Level: U. Credit Hrs: 2.00-4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Mathematics

32MATH051

SAS Basics

This is a foundation class for the purpose of preparing students to write SAS programs. Topics will include the DATA step, SAS data libraries, PROC steps, reading and writing data, merging files, conditional processing, arrays, and functions. The class will facilitate the preparation of students preparing to take the BASE SAS certification exam. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32MATH091

Elementary Algebra I

A review of arithmetic operations involving: Integers, fractions, and percents. Topics include: Number sense, solving linear equations and inequalities. Problem solving is emphasized. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32MATH092

Elementary Algebra II

Topics from probabilities and statistics, graphs, linear equations, systems of equations and inequalities, exponents, polynomials and scientific notation. Prereq: 32MATH091. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32MATH101

Elementary Algebra III

Factoring, simplifying rational expressions, working with radicals, solving rational, radical, and quadratic type equations, graphs. Prereq: 32MATH092. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32MATH104

Preparatory Mathematics

A review of the arithmetic operations involving whole numbers, fractions, decimals, percents, and signed numbers. Introductory work with exponentiation and root extraction. A brief exposure to algebra is presented as the generalization of the processes of arithmetic. Problem solving is emphasized. As part of this course, students are also required to work at least one hour per week in a math learning center. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MATH132

Introductory Algebra I

A review of high-school algebra. Topics include signed numbers, factoring, exponents, radical, simplifying algebraic equations. Prereq: 32MATH104. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MATH133

Introductory Algebra II

Further topics from high-school algebra, including graphing, systems of equations, quadratic equations, word problems. Prereq: 32MATH132. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MATH134

Intermediate Algebra

A transition course from Introductory Algebra II to College Algebra I. This course is designed to strengthen the algebra skills and raise the level of mathematical sophistication of students. Topics include complex numbers, special factoring, rational expressions, rational exponents, quadratic equations, equations containing radicals and rational exponents, word problems, and graphing. Prereq: 32MATH133. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MATH141

Math for Health Sciences

The course will include basic calculations with fractions and decimals, conversions from one measurement system to another, percent calculations, ratios, proportions and solving simple linear and rational equations. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MATH142

Mathematics for the Physical Sciences

This course will include operations with signed numbers, exponents, scientific notation, significant figures, logarithms, solving equations, working with formulas, dimensional analysis, and graphing. Prereq: 32MATH141. BoK: QR. Credit Level: U. Credit Hrs: 3.00

Mathematics

32MATH142

Mathematics for the Physical Sciences

This course will include operations with signed numbers, exponents, scientific notation, significant figures, logarithms, solving equations, working with formulas, dimensional analysis, and graphing. Prereq: 32MATH141. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MATH145

Statistics For The Social Sciences

An introduction to basic statistical concepts and techniques applied to problems in the social sciences. Topics include tabular and graphical presentations of data, calculations of descriptive statistics, an introduction to probability and probability distributions and an introduction to statistics inference. Prereq: 32MATH134. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MATH146

Statistics for Health Sciences

The concepts of statistical models an inference applied to problems in the health sciences. Major emphasis on the role statistics plays in the Health Sciences, with the aim of giving the student an understanding of and confidence in the use of statistical techniques. Prereq: 32MATH134. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MATH150

Topics in Math

Introductory Algebra topics including, but not limited to, solving linear equations, solving proportions, solving percent equations, and applications involving all of these. Also includes introductory statistics topics including, but not limited to, ways of collecting statistical data and ways of describing statistical data using tables, bar graphs, the mean, the median, and the standard deviation. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MATH155

Topics In Math I

Mathematics used in Management Science, topics include using graphs and digraphs to model various management problems like the traveling salesman problem and problems in planning and scheduling, and linear programming. Prereq: 32MATH134. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MATH156

Topics in Math II

Statistics: The Science of Data, topics include appropriate ways of collecting data and describing data, the laws of probability, and methods of statistical inference. Prereq: 32MATH134. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MATH157

Topics in Math III

Fair division and apportionment, growth and form, the size of populations, measurements, measuring the universe with telescopes, and patterns. Prereq: 32MATH134. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MATH161

Math For Culinary Science I

This is an introductory course designed to provide proficiency in and an understanding of mathematical concepts required to successfully complete the coursework for a career in the culinary field. It includes an overview of topics such as: ratios and proportions, measurement systems, dimensional analysis, exponents and scientific notation, algebraic manipulations, equation solving, basic logarithms, and reading and interpreting graphs, charts and tables. Special emphasis will be placed on the development of critical thinking skills necessary to make decisions about how and when to apply the mathematical concepts. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MATH162

Math For Culinary Science II

This course will be a continuation of Math for Culinary Science I. An emphasis will be placed on applications and problem solving using the

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Mathematics**32MATH162****Math For Culinary Science II**

skills obtained from part one of the course. Students will also be required to work on group projects. Topics will include data collection, spreadsheets, curve fitting, systems of equations, basic geometry, and interpreting statistical and probabilistic information, Prereq:

32MATH161. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MATH170**Problem Solving**

This courses satisfies the General Education math requirement of the College of Evening and Continuing Education. Problem solving strategies emphasize understanding the problem, devising and carrying out the plan of solution, examining the solution obtained, & presenting written solution. Prereq: 32MATH133. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MATH173**College Algebra I**

Equations, inequalities, Cartesian coordinate system, graphs of polynomial functions. Prereq: 32MATH134. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MATH174**College Algebra II**

Rational functions, conic sections, exponential and logarithmic function, systems of equations and inequalities. Prereq: 32MATH173. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MATH176**College Algebra (Accel)**

Exponents, logarithms, polynomials, rational functions, equations, inequalities, graphing. Exponential and logarithmic functions. Selected other topics. Prereq: 32MATH134. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MATH178**Algebra and Trigonometry I**

Introduction to functions and their graphs, solving equations algebraically and graphically, radian measures and applications, graphs of circular functions, oblique triangles, vectors, complex numbers, trigonometric functions; and right angle trig. Prereq.: A score of at least 450 on the UC Math Placement Test or successful completion with a "C" or better in Intro to Tech 3 (32MATH023). BoK: QR. Credit Level: U. Credit Hrs: 4.00

32MATH179**Algebra and Trigonometry II**

Trigonometric identities, solving trig equations, the fundamental theorem of algebra, systems of equations and inequalities, matrices, sequences, series. Polynomial and rational functions, exponential and logarithmic functions variable. Prereq.: 32MATH178. A grade of C or better in 32MATH178. Prereq: 32MATH178. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32MATH180**College Algebra and Trigonometry**

Exponential, lograithmic, and trigonometric functions and their graphs. Polynomial functions, matrices, inequalities, rational functions, vectors, progressions, complex numbers. Trigonometric identities and equations; solutions of triangles. BoK: QR. Credit Level: U. Credit Hrs: 5.00

32MATH181**Trigonometry**

Rational functions, conic sections, trigonometry. Prereq: 32MATH174. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MATH215**Direct Study-Math**

This course designed for students who require individualized instruction in mathematics. Perm of Instructor. BoK: QR. Credit Level: U. Credit Hrs: 1.00-3.00

Mathematics**32MATH217****Direct Study-Math**

This course designed for the student who requires individualized instruction in mathematics. Perm of Instructor. BoK: QR. Credit Level: U. Credit Hrs: 1.00-3.00

32MATH225**Finite Mathematics and Calculus I**

Operations with matrices, determinants. Linear programming. Probability. Prereq: 32MATH174. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MATH226**Finite Mathematics and Calculus II**

Limits, continuity, derivatives and techniques for differentiation. Optimization using derivatives. Graphical techniques. Prereq: 32MATH225. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MATH227**Finite Mathematics and Calculus III**

Derivatives of logarithmic and exponential functions. Definite and indefinite integrals. Partial derivatives, application of functions of several variables, solutions to first order differential equations. Prereq: 32MATH226. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MATH228**Algebra and Finite Mathematics**

Algebra review, modeling techniques, systems of equations, linear programming, and matrix algebra. BoK: QR. Credit Level: U. Credit Hrs: 5.00

32MATH229**Concepts of Calculus**

Limits, continuity, differentiation, rates of change, marginal analysis, elasticity of demand, curve sketching, optimization, and integration. Prereq: 32MATH228. BoK: QR. Credit Level: U. Credit Hrs: 5.00

32MATH244**Calculus I**

Study of differential calculus with topics to include: limits, continuity, rules for differentiation, curve sketching, partial derivatives, and applications of the derivative including optimization methods and related rates. Prereq.: A grade of "C" or better in either Algebra & Trigonometry II (32MATH179) or College Algebra & Trigonometry (32MATH180) before entering this course. BoK: QR. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32MATH245**Calculus II**

A study of integral calculus with topics to include: Riemann sums, area approximation, definite and indefinite integration, techniques of integration, applications (volumes, work, fluid force and pressure, and centers of mass), and hyperbolic functions. Prereq.: Calculus I (32MATH244). A grade of "C" or better in Calculus I. BoK: QR. Prereq: 32MATH244. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32MATH251**Calculus and Analytic Geometry I**

This course covers the topics of functions, limits and continuity, the derivatives of algebraic and transcendental functions, rules of differentiation applications of the derivative, anti-differentiation and an introduction to integration and Riemann Sums. Prereq.: Grade of C or better in 32MATH179 or 32MATH180, or score of 670 or better on Placement Test. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 5.00

32MATH254**Calculus I Tech Lab**

Topics of Calculus I covered from a technological perspective using computer software and graphics calculators. Limits, continuity, differentiation, integration and applications. Coreq: 32MATH244. BoK: NA. Credit Level: U. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Mathematics**32MATH255****Calculus II Tech Lab**

Topics of Calculus II covered from a technological perspective using computer software and graphics calculators. Differentiation and integration of exponential, logarithmic and trigonometric functions, techniques of integration. Coreq: 32MATH245. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32MATH271**Discrete Mathematics I**

A course designed for students in the computing technology program. Includes topics in logic, algorithms, number systems, switching circuits, proofs, set theory, vectors, matrices, and mathematical induction. Prereq.: 32MATH179 or 32MATH180. A grade of C or better in 32MATH179 or 32MATH180. Prereq: 32MATH179. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32MATH272**Discrete Mathematics II**

A continuation of 32MATH271 with topics in counting principles, probability and probability distributions, Boolean algebra, logic networks, recurrence relations and recursion and matrices. Prereq: 32MATH271. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

32MATH371**Probability and Statistics**

Descriptive statistics, normal distribution, sampling theory, hypothesis testing, confidence limits, regression and correlation, ANOVA. Prereq: 32MATH179. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32MATH376**Vector and Matrix Algebra**

Matrix representation of systems using determinants including Gauss reduction and inversion methods. Three-dimensional vector spaces, vector calculus, del operator, Greens, Stokes, and divergence theorems. Prereq: 32MATH245. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32MATH381**Advanced Technical Calculus**

First and second order differential equations, harmonic motion, matrices, LaPlace transforms, trigonometric Fourier series. Prereq: 32MATH245. BoK: QR. Credit Level: U. Credit Hrs: 4.00

Mechanical Engineering**32MECH371****Kinematics**

Geometry of constrained motion; motion analysis of linkages, gears and gear trains; synthesis of mechanisms. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32MECH372**Dynamics of Machines**

Static and dynamic forces in mechanisms; flywheels; balancing rotating and reciprocating elements; energy methods in analysis and synthesis. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32MECH373**Engineering Thermodynamics**

Extension of basic thermodynamics to applications in mixtures, cycles, chemical reactions, availability, and other topics. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32MECH374**Machine Design**

Principles of design applied to machine elements; strength and rigidity of machine members; principles of machine construction. Offered alt. yrs. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32MECH375**Measurements**

Introduction to measurement engineering; systems and components; static and dynamic responses. BoK: QR. Credit Level: U. Credit Hrs:

Mechanical Engineering**32MECH375****Measurements**

4.00

32MECH376**Instrumentation**

Components of instrument systems; basic electronics and mechanics of instruments; specifications and evaluation. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32MECH377**Mechanical Vibrations**

Vibratory motion in systems with one, two, or more degrees of freedom. Use of the analog computer in solution of vibration problems. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32MECH378**Advanced Mechanical Vibrations**

Design for vibration suppression, active vibration suppression, passive control system, vibration testing and experimental modal analysis, measurement hardware, signal analysis, and finite element method. Introduction to nonlinear vibration may be covered in this course. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32MECH379**Control Theory**

Fundamental concepts of automatic control systems; feedback, transfer functions, control components, time and frequency domain analysis. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32MECH380**Engineering Design**

Study of the interdisciplinary nature of design and methodology of design synthesis, creativity, and human factors; economics. Offered alt. yrs. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32MECH381**Computational Methods**

Engineering applications of determinants, matrices, simultaneous linear algebra equations, differencing and interpolation methods. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32MECH382**Engineering Heat Transfer**

Extension of basic heat transfer to treatment in greater depth of basic modes, combined modes, and applications. Offered alt. yrs. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32MECH383**Manufacturing Processes and Planning**

Principles of metal forming, machining and machines required; production requirements, overall production planning. Offered alt. yrs. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MECH499**Independent Study in Mechanical Engineering**

Please complete and submit an Independent Application Form available from the college office. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

32MECH582**Design of Mechanical Components**

Characteristics of mechanical systems. Mechanical system components. Synthesis of components into systems. Student teams will be assigned projects. Offered alt. yrs. BoK: QR. Credit Level: U. Credit Hrs: 4.00

Mechanical Engineering Technologies**32MET010****Industrial Rigging And Safety**

Lecture and lab on the study of slings and special lifting devices used to suspend a load from a hoist. The study includes how to calculate the weight and the center of gravity of a load and how to determine the safe load rating of the components used for lifting the load. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Mechanical Engineering Technologies**32MET010****Industrial Rigging And Safety**

Lecture and lab on the study of slings and special lifting devices used to suspend a load from a hoist. The study includes how to calculate the weight and the center of gravity of a load and how to determine the safe load rating of the components used for lifting the load. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET011**OSHA 30 Hour Industrial Safety**

Lecture and lab on basic safety topics needed in industry including an introduction to OSHA requirements, personal protective equipment, machine guarding, lockout/tagout and selected other topics that will best serve the class needs. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET012**Industrial Hydraulics and Pneumatics**

Lecture and lab on basic fundamentals of hydraulics and pneumatics, which includes fluid pressure, pumps, containment, valves, and associated concepts for an industrial mechanic. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET013**Industrial Equipment Maintenance**

Lecture and lab on lubrication, bearings, belt drives, mechanical drives, vibration, alignment, and associated concepts for an industrial mechanics. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET015**Occupational Safety & Health Standards for the General Industry**

This course covers OSHA policies, procedures, and standards, as well as general industry safety and health principles. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET016**Hazardous Materials**

This course covers OSHA General Industry Standards and integrates materials from other consensus and proprietary standards that relate to hazardous materials. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET025**Machinery and Machine Guarding Standards**

This course provides the student with an overview of various types of common machinery and related safety standards. The course also provides guidance in recognizing hazards such as those created by points of operations, ingoing nip points, rotating parts and flying chips or sparks, and provides some options to achieve abatement. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET035**Electrical Standards**

This course is designed to provide the trainee with an overview of electrical installations and equipment. Emphasis is placed on controlling electrical hazards by the application of OSHA standards and the National Electrical Code. Topics include grounding requirements and overcurrent protection for both portable and fixed equipment. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET045**Trainer Course for the General Industry Standard**

This course is designed for students in the private sector who are interested in teaching the 10- and 30-hour general industry safety and health outreach program to their employees and other interested groups. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET053**Solid Modeling**

For the professional. See 32-195-375. Not for degree credit. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET061**Basic CAD/2D**

Introduction and overview of computers, microcomputers, computer-aided drafting; overview of DOS as it relates to commercial CAD

Mechanical Engineering Technologies**32MET061****Basic CAD/2D**

systems; introduction to menu structures; graphics primitives (drawing simple geometric entities); setting up the drawing; introduction to editing; drawing output. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET062**Advanced CAD/3D**

Drawing enhancements; drawing intelligence (dimensioning); herding objectives into symbols; 3D use of drawings; advanced editing text; drawing output; overview of "CADD" as it relates to micro-mini. Prereq: 32MET061. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET063**Introduction to Parametric Solid Modeling**

Lecture and lab introduction to parametric solid modeling interface. Topics include sketching, constraining, dimensioning, extruding, revolving, sweeping, Boolean operations with toolbodies, and creating 2D drawings from 3D models. Prereq: 32MET062. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET065**Introduction to CAD for Theater Design & Production**

Introduction and overview of computer aided drafting: introduction to menu structures; graphics entity creation; drawing editing; CAD drawing set-up. Introduction to drawing aids for entity creation and accuracy; use of selection sets; basic dimensioning and drawing output. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET066**Advanced CAD for Theater Design & Production**

Drawing sectional views; advanced text editing; herding objects into symbols using BLOCKS. Introduction to 3D wireframe and solid modeling; 3D coordinate systems. Introduction to solid model rendering. Obtaining 2D drawing output from 3D data. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET070**Industrial Blueprint Reading**

Course in reading blueprints in a variety of fields, in such areas as mechanical, electrical, construction (buildings). Prereq: 32MATH033. Coreq: 32EETN060. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET071**Sheet Metal Layout I**

Development of skills for layout of sheet metal patterns. Introduction to drafting fundamentals. Parallel line development methods for sheet metal layout. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET072**Sheet Metal Layout II**

Continuation of Sheet Metal Layout I (32MET071). Radial line development methods for sheet metal layout. Prereq: 32MET071. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET073**Sheet Metal Layout III**

Continuation of Sheet Metal Layout II (32MET072). Triangulation methods for sheet metal layout. Prereq: 32MET072. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET074**Sheet Metal Layout IV**

Continuation of Sheet Metal Layout III (32MET073). Layout problems requiring use of combinations of parallel line, radial line, and triangulation and techniques for pattern preparation. Prereq: 32MET073. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET095**Fundamentals Engineering Prep-FTP**

This course will help students prepare and review for the FE exam. The subjects in this course will serve as ONLY a review. This course contains brief reviews of: engineering math, probability & stat, chemistry, computers, ethics, economics, engineering mechanics,

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Mechanical Engineering Technologies**32MET095****Fundamentals Engineering Prep-FTP**

material properties, fluid electricity, thermodynamics. Specific engineering disciplines will not be covered. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32MET098**Special Topics in Mechanical Certificates**

Periodic introduction of important new topics in the Mechanical certificate programs. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

32MET099**Independent Study in Mechanical Certificates**

Opportunity for student to pursue topics of individual interest relevant to Mechanical certificate program goals. Open to student only upon successful written petition. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

32MET140**Statics**

Composition and resolution of vector forces. Principles of static equilibrium; the free body diagram. Force systems in two- and three-dimensions; points and rigid bodies; concentrated and distributed loads. Centroids and moments of inertia. Static friction. Introduction to structural analysis: trusses, frames, machines, cables, beams. Lecture and problem session. Prereq.: Engr Drwg I, Alg & Trig I, Phys for Tech I. Prereq: 32MATH179, 32PHYS181. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

32MET160**Technical Problem Solving with MATLAB/EXCEL**

This is an introductory course in problem solving using Excel and Matlab. I/O control, arrays, scalars, vectors, matrices, conditional statements will be covered using macros and built in functions of both softwares. 2-D plotting and iterative programming will also be covered. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET171**Engineering Design Graphics I**

Freehand sketching; isometric sketching, creation of 3-dimensional geometric models, orthographic projection, sectioning, auxiliary views, dimensioning, ANSI standards, creation of graphs and charts. Lec and lab. Coreq: 32MATH178. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32MET172**Engineering Design Graphics II**

Continuation of Engineering Graphics I. Geometric dimensioning and tolerancing, selection of fits and tolerances, weldments, casting, screws and threads, working shop drawings, assembly drawings, bill of materials. A design project from concept sketches to final drawings. Lec and lab. Prereq: 32MET171. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

32MET210**Introduction to Thermosciences**

Incompressible fluid mechanics: fluid properties; hydrostatic; conservation of mass; conservation of energy; buoyancy and stability of floating bodies. Heat and work relationships, first and second laws of thermodynamics, enthalpy entropy. Perfect gas laws, equation of state. Closed and open thermodynamics systems. Fundamentals of steady state conduction heat transfer, free and forced convection and radiation. Applications in combined conduction, convection and radiation. Lec and lab. Prereq: 32MATH179, 32PHYS182. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

32MET215**Thermodynamics**

Second law of thermodynamics, entropy. Power cycles: Rankine, Otto, Diesel, Brayton, Stirling. Analysis and performance characteristics of steam turbines, pumps, compressors, combustion engines, refrigeration systems, gas turbines. Design of heat exchangers. Lec and lab. Prereq: 32MATH244, 32MET210. BoK: NS, QR. Credit Level: U. Credit

Mechanical Engineering Technologies**32MET215****Thermodynamics**

Hrs: 4.00

32MET241**Mechanics of Materials I**

Concept and types of stress and strain, stress and strain diagram and material properties. Axially loaded members: deflection, statically indeterminate structures, temperature effects, stress concentration, stresses on inclined planes. Torsion: torsion formula, pure shear transmission of power, statically indeterminate. Shear force and bending moment: relationships between load, shear force, and bending moments, shear and bending diagram. Lec. and lab. Prereq: 32MATH244, 32MET140. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

32MET242**Mechanics of Materials II**

Analysis of transversely loaded members. Bending and shear stress: bending stress formula, shear stress formula, design of beams, stress concentrations in bending. Analysis of stress and strain: principal stresses and maximum shear stresses, Mohr's circle, pressure vessels, combined loadings. Deflections of beams: integration, Moment-area, and superposition. Statically Indeterminate Beams: analysis by differential equation, Moment-area method, and methods of superposition. Lec and Lab. Prereq: 32MET241, 32MATH245. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

32MET260**Mechanisms**

Kinematics of machine elements; displacement, velocity, acceleration. Introduction to the synthesis of linkages. Gears, cams, gear trains. Lec. and lab. Prereq: 32MET171, 32PHYS181. Coreq: 32MATH245. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

32MET270**Design of Machine Elements**

Design of machine elements: springs, columns, power screws, brakes. Mechanical power transmission: gear drives, belt and chain drives, clutches. Welded and riveted structures. Project work in design of mechanical systems, selection of standard mechanical components, such as bearings. Lecture and lab. Prereq: 32MET172, 32MET242, 32MET260. BoK: NS, QR. Credit Level: U. Credit Hrs: 5.00

32MET302**Numerical Analysis**

Numerical methods in analysis of mechanical systems, with emphasis on applications with scientific computer languages: roots of higher order polynomials and transcendental equations; elements of linear algebra; numerical differentiation and integration; interpolation and extrapolation. Applications of numerical mathematics in a variety of engineering problems. Lec. and lab. Prereq: 32MATH381. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

32MET315**Heat Transfer**

Review of thermodynamics. Fundamentals of steady state and transient conduction heat transfer. Free and forced convection. Infrared and solar radiation. Applications in combines conduction, convection and radiation. Heat exchangers, temperature measurement, insulation systems optimization of heat transfer rates. Prereq: 32MATH381, 32MET330. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

32MET325**Solar Heating and Cooling**

Review of conduction, convection and radiation heat transfer. Computer simulation, design of solar components and systems. Survey of active and passive solar heating; introduction to solar cooling and other applications. Prereq: 32MET215, 32MET415. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Mechanical Engineering Technologies**32MET330****Fluid Mechanics**

Fluid Dynamics. Forces due to fluids in motion: impulse and momentum; nozzles, jets, lift and drag on airfoils. Fundamentals of compressible flow. Similitude theory and its application to modeling. Lec. and lab. Prereq: 32MATH245, 32MET215. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

32MET340**Dynamics**

Two-dimensional motion of particles and rigid bodies. Equations of motion in kinematics and kinetics; translation, rotation and plane motion; work and energy methods; impulse and momentum. Applications and the dynamics of machinery. Lecture and problem session. Prereq: 32MET140, 32MET260. Coreq: 32MATH381. BoK: NS, QR. Credit Level: U. Credit Hrs: 5.00

32MET344**Applied Stress Analysis**

Advanced topics in mechanics of materials, with emphasis on analysis and design of thick-walled pressure vessels. Applications of ASME Pressure Vessel Codes and other recognized national and international design standards. Foundations of finite element analysis. Prereq: 32MATH381, 32MET270. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32MET346**Applied Mechanics I**

Statics and dynamics. Two- and three-dimensional vector force systems. Principles of static equilibrium. Kinematics and kinetics of translation, rotation and plane motion. FOR NON-MET MAJORS ONLY. Prereq: 32MATH245, 32PHYS181. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32MET347**Applied Mechanics II**

Continuation of Applied Mechanics I. Prereq: 32MET346. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32MET350**Motion Control**

Course focuses on the study of control system modeling and analysis. Use differential equations and transfer functions to model system, use theory and equipment to analyze system performance, and use software to simulate and design system. Software usage: MATLAB and simulink. Prereq: 32MET340, 32MFTN260, 32MATH381. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

32MET355**Concurrent Engineering**

Design for manufacturing and assembly. Methods for the design and manufacturing groups in an organization to work together to produce a faster, less expensive and higher quality product. Example designs will show how multi-disciplinary teams can create and produce improved products using meetings, and other communication techniques computer data bases, and internet and intranet sessions. A final paper or project will demonstrate an application chosen by the student. Technical Elective approved for all MET options (M,D,E). BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET365**Introduction to Nanotechnology**

The main goal of this introductory course is to gain a state-of-the-art understanding of nanotechnology in the context of the issues surrounding it and the history preceeding it. In this aspect, a working knowledge of the basics in some areas of nanotechnology will be introduced with emphasis on nanomaterials, and nanobiomedical applications. The course will include an introduction, brief history of nanotechnology, fabrication of nanoparticles; buckyballs and carbon nanotubes; characterization techniques using (SEM), (TEM), (SPM) and (AFM), concept of nanofluids and smart structures. Perception of nanobiomedical (nanoinplants, nanocarriers in drug delivery, nanobiosensors, DNA-based nanostructures, cellular and tissue

Mechanical Engineering Technologies**32MET365****Introduction to Nanotechnology**

engineering). BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET370**Mechanical Design**

Advanced topics in design of machine components and subsystems, with heavy emphasis on team project work. Design techniques for impact, static and dynamic loading, introduction of new design concepts such as linkage synthesis, cam dynamics, etc. Lec. and lab. Prereq: 32MET270, 32MET340. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

32MET372**Geometric Dimensioning and Tolerancing ANSI and/or ISO**

Successful student will have working knowledge of GD&T principles from ANSI ASME Y14.5 and surface texture specific principles from ASME Y14.36. GD&T is language for specs & interpretation of dimensional design intent, based on math concept & traditional machine shop practice. Students needs decide inclusion of ANSI & SIO differences. Lec, demos, discussion, problem solving. Tech. Option D, M. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32MET374**Design Modeling**

Design technologies for conceptual and configuration design of mechanical products and systems: Component Assemblies, parametric solid modeling. CAD/CAM integration. Generating tool paths. Data integration between graphic & non-graphic information. Lec and lab. Tech. Option D. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32MET375**Integrated CAD/CAM**

Design technologies for conceptual and configuration design of mechanical products and systems: Component Assemblies, parametric solid modeling, CAD/CAM integration. Generating tool paths. Data integration between graphic and non-graphic information. Lec and lab. Tech. Option D, M. Prereq: 32MET172. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32MET380**Fundamentals of Packaging Technology**

Overview of packaging technology: history development, functions, and materials. Container types, rigid/flexible, paper/plastic. Packaging methods, decorating/coding, gluing/closing, handling, distributing. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32MET385**Bioengineering Technology I**

This is an introductory course in bioengineering technology with emphasis on topics that covers the basic types of tissues and their biomechanical properties. Students will apply their knowledge by evaluating the biomechanical properties of selected soft tissues. Tech. Options D,M. Coreq: 32MATH381. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32MET390**Topics in Professional Responsibility**

Junior seminar in current topics of controversy of special importance in the broader aspects of technical responsibility. Topics selected from energy, pollution, safety and liability, ergonomics, automation, and other timely areas of interest. Ethical, social and economic responsibilities of technical professionals are emphasized. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

32MET392**Fundamentals of Intellectual Properties**

Identifying, protecting, using and exploiting intellectual property. A survey of types of intellectual property, including intellectual property that may be protected by patents, copyrights, trademarks and trade secrets. Identifying intellectual property. Value of intellectual property. Evaluation of intellectual and trade secrets are. How patents, copyrights and trademarks may be obtained. Using intellectual property for one's own benefit. Making intellectual property profitable by licensing

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Mechanical Engineering Technologies**32MET392****Fundamentals of Intellectual Properties**

it for use by others. Primary emphasis is on patents and patentable subject matter. Ethical issues relating to intellectual property. Tech. Option D, E, M. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32MET395**Advanced Topics by International Visitor**

An international visitor will be selected to conduct a technical elective on a topic of his/her expertise after submitting the syllabus to the MET Faculty in a selection process. The material level will be junior/senior with the only prerequisite requirements being all sophomore courses. The visitor and topic will be known by March for the summer. BoK: DC. Credit Level: U. Credit Hrs: 3.00

32MET415**Thermal Environmental Systems**

Application of thermodynamic principles in environmental control; heating and cooling load calculations. Psychometrics. Design of heating and cooling systems: steam, water, and air. Air duct design and fan selection. Project work in design analysis of heating and cooling loads in current building practice. Lec. and lab. Prereq: 32MET210. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

32MET420**Power Plant Technology**

Study of power plant components: steam generators; turbines; feedwater heaters; cooling towers. Analysis of combustion products and pollutants, air and water pollution control. Design and computer simulation of power generations systems. Prereq: 32MET330. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET421**Energy Systems**

Study and comparisons of alternative large-scale energy sources: fossil fuels, shale, synthetic fuels; biomass, wood, solar, wind, ocean, hydro, fission, fusion. Availability of resources, status of technology, costs, environmental effects. Tech. Option E. Prereq: 32ECON286, 32MET215, 32PHYS182. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32MET425**Combustion Engines**

Extended study of internal combustion engine power cycles. Analysis of Otto, Diesel, Brayton, and Stirling cycles, including turbocharging, preheating and other cycle enhancements. Alternate fuels. Influences of pollution control devices. Exploration of advanced engine technology. Tech. Option E. Prereq: 32MET215. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32MET426**Fundamentals of Nuclear Energy**

Basic principles of atomic and nuclear structure. Naturally radioactive and stable nuclides, radioactive decay; shielding principles, structural and biological effects. Introduction to fission and fusion power processes. Tech. Options E. Prereq: 32MATH381, 32MET215, 32MET340, 32PHYS182. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32MET435**Turbomachinery**

Practical design analysis of rotating machinery which operates with incompressible and/or compressible fluids: impulse and reaction turbines, centrifugal pumps and compressors, axial flow compressors, pumps and turbines. Tech. Option D, E. Prereq: 32MET330, 32MET340. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32MET440**Mechanical Vibrations**

Free and forced, damped and undamped vibrations, equations of motion; LaGrange equations, natural frequencies and resonance. Vibrating Systems. Tech. Option D. Prereq: 32MET270, 32MET340. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

Mechanical Engineering Technologies**32MET444****Experimental Stress Analysis**

Experimental methods for determining stresses in complex parts; qualitative and quantitative techniques. Modeling and simulation; instrumentation and procedures; analysis of experimental results. Lec. and lab. Tech. Option D. Prereq: 32MET270. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32MET445**Safety Engineering**

Course to provide an overview of Safety Engineering principles, including a review of applicable laws which can impact the design of products and equipment. Product liability and tools that can be used in the design process. Technical elective approved for all options (M, D, E). BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET470**Product Development**

Systematic methods and steps that have to be undertaken during the development of a product. The morphology of design; QFD (Quality Function Deployment) used to establish the customer needs; DFM (Design for Manufacturing), DFA (Design for Assembly), GT (Group Technology) methods for developing and selecting the best alternative designs, design for environmental considerations. Design teams will develop a new product using the above mentioned techniques. Lec. and lab. Prereq: 32MET370. BoK: QR, SE. Credit Level: U. Credit Hrs: 4.00

32MET472**Applied Finite Element Methods**

This project-oriented course includes Fundamentals of Finite Element Analysis. Displacement and energy methods. Analyzing engineering problems and components using commercial FEA software. Lec and lab. Tech. Option D. Prereq: 32MATH381, 32MET302, 32MET270. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32MET475**Advanced Mechanical Design Technology**

Applications of modern computer-based concepts and techniques in the mechanical design process: three-dimensional graphics, Group Technology, finite element analysis, graphics applications programming. Lec. and lab. Tech Option D. Prereq: 32MATH381, 32MET270, 32MET370. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET480**PACKAGING MACHINERY**

Basic processes utilizing packaging machinery. Equipment and systems for specialized operations, material handling, distribution, storage and retrieval. Analysis of major types of packaging machinery from a practical and operational perspective. Contract specifications and selection. Prereq: 32MET380. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32MET485**Bioengineering Technology II**

This is the second part of the bioengineering technology courses with emphasis on structural correlation of tissues and their mathematical modeling. Students will learn to apply modeling techniques used for analyzing selected soft tissues. Tech. Option D,M. Prereq: 32MET385. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32MET486**Biomaterials**

This course introduces and covers materials that have good compatibility with the human body. Discussion of surface degradation, fatigue life, stress fracture, impact and other failure conditions will be also part of the course. Tech. Option D,M. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32MET490**SENIOR DESIGN SPECIFICATIONS**

An original effort by the students to investigate and solve an acceptable engineering problem. Students will prepare a proposal which will contain a project plan, including definitive technical and management

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Mechanical Engineering Technologies**32MET490****SENIOR DESIGN SPECIFICATIONS**

objectives, technical specifications, time schedule and proposed budget. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET491**SENIOR SEMINAR**

Definition of complex engineering problems; analysis of the design/fabricate/test process; technical management of complex mechanical projects; time scheduling; cost estimating, budgeting, and cost control. Students will prepare an acceptable proposal for the Senior. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET492**Senior Design Project I**

Together with Senior Seminar and Senior Design Project II, the baccalaureate thesis. Students will execute an independent design-and-build project of substantial technological sophistication, based upon a project plan completed in Senior Seminar. Work in Senior Design Project I will normally include completion of a literature survey, working and assembly drawings, bill of materials, software flowcharts and regular reporting to a faculty project. Prereq: 32MET491. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32MET493**Senior Design Project II**

A continuation of Sr Design Project I (32MET492): completion of the baccalaureate thesis, including proof-of-design, working demonstration and documentation. Students will prepare a professional quality written and bound report and will deliver an oral presentation and defense of the design thesis project. Approval of faculty advisor and department head to enroll. NOTE: Sr. Seminar, Sr. Design Project I & II are considered one continuous course. All grades will be issued upon completion of the sequence. Prereq: 32MET492. Coreq: 32ENGL493. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MET495**Fundamentals Engineering Prep**

This course will help students prepare and review for the FE exam. The subjects in this course will serve as ONLY a review. This course contains brief reviews of: engineering math, probability & stat, chemistry, computers, ethics, economics, engineering mechanics, material properties, fluid electricity, thermodynamics. Specific engineering disciplines will not be covered. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32MET498**Special Topics in Mechanical Engineering Technology**

Periodic introduction of important topics in the fields of mechanical design, energy systems and manufacturing. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

32MET499**Independent Study**

Open to students only upon successful written petition. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

32MET511**Heat Transfer II**

Extension of convective heat transfer to forced convection systems, particularly those with complex geometries. Application of the transient temperature technique to determine the heat transfer and fluid flow properties of complex systems in the flow regime of practical interest in air moving equipment (ventilation, heating, and cooling). 50% lab work. Tech Option E. Prereq: 32MET315. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32MET512**Heat Transfer III**

Further techniques to determine the pertinent properties required to characterize convective heat transfer in complex geometries. In addition, fundamentals of radiative heat transfer. 50% lab work. Tech Option E. Prereq: 32MET511. BoK: NS, QR. Credit Level: U. Credit Hrs:

Mechanical Engineering Technologies**32MET512****Heat Transfer III**

3.00

Manufacturing Engineering Technology**32MFTN010****Machine Tool Fundamentals I**

Fundamentals of milling, lathe operations, cutter sharpening practice to provide reference material that may be of the broadest usefulness. Prereq: 32WLTN010, 32MATH021. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MFTN011**Machine Tool Fundamentals II**

Drilling machines, planers, shapers, and all types of precision grinding machines. Basic operations performed, cutting tools used, set-ups, attachments used, proper care of equipment and safety precautions. Touches on N/C applications to machine tools. Prereq: 32MFTN010. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MFTN021**Art Applications in Joining**

The object of the course is to make students familiar with basic joining operations on a hands-on level. The laboratory assignments cover SMAW-welding, GMAW/MIG-welding, GTAW/TIG-welding, RSW/spot-welding, oxy-fuel welding and brazing. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MFTN022**Art Apps in Machining**

The object of the course is to give students the ability to choose and apply realistic machining principles. The course discusses material characteristics related to machinability, tool materials and machining parameter calculations, covering methods, such as turning, drilling, broaching, grinding, honing and lapping. The course additionally gives an overview of machining economy, automation and nontraditional machining methods. Material Fee. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MFTN023**Art Apps in Cast & Form**

The objective of the course is to give students the ability to select and apply appropriate manufacturing methods for work having modest accuracy requirements. The course reinforces materials science associated with solidifying and heat treatment. Various state of the art casting, forging, forming, stamping, piercing and bending, methods are analyzed both from a manufacturing and design perspective. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MFTN030**Introduction to Lean Manufacturing-FTP**

This course is for the professional. The course is designed to give the student the understanding of the five principles of Lean: value, value stream, flow, pull and perfection. The techniques for achieving Lean are presented: Waste, visual management, standards, Just-in-Time, developing defect free process, human involvement, Lean planning and the lean culture. Contemporary and lean manufacturing are contrasted. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MFTN040**Introduction to Lean Manufacturing-FTP**

This course is for the professional. The course is designed to give the student the understanding of the five principles of Lean: value, value stream, flow, pull and perfection. The techniques for achieving Lean are presented: Waste, visual management, standards, Just-in-Time, developing defect free process, human involvement, Lean planning and the lean culture. Contemporary and lean manufacturing are contrasted. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Manufacturing Engineering Technology**32MFTN045****Industrial Plastics Technology**

Survey of properties, characteristics, and applications of synthetic thermoplastic and thermo-setting materials, composite materials; durability, design guidelines, testing practices. Prereq.: Basic knowledge of introductory chemistry, engineering materials, and design principles. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MFTN050**Inspection**

General field of inspection analyzed: line inspection, final assembly, gauges, use and reading of micrometers, vernier calipers, indicators, etc. Threads, surface finish and shop terms discussed. Prereq: 32MATH021. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MFTN054**Coordinate Measurement Machine (CMM) Operations**

Introduction to CMM methods, operations, and applications including: blueprint interpretation, inspection techniques, geometric dimensioning and tolerancing, repeatability and reproducibility analysis, and reverse engineering methods. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MFTN055**LATHE AND DRILL FUNDAMENTALS**

Lecture and laboratory instructions on basic fundamentals of lathe operations which include safety, operation, set-up, tool selection, and standard shop procedures associated with the engine lathe. This course is coordinated with Lathe and Drill Operations (32MFTN056), which should be taken concurrently. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MFTN056**LATHE AND DRILL OPERATIONS**

Laboratory instructions on lathe and drilling operations applying the knowledge gained in Lathe and Drill Fundamentals. The lathe and associated tools will be used to produce personal machinist tools as lathe operational skills are developed. Lathe and Drill Fundamentals (32MFTN055) must be taken concurrently unless waived by the department. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MFTN057**Milling and Grinding Fundamentals**

Lecture and laboratory instructions on the basic fundamentals of milling and grinding operations which include safety, operation, set-up, tool selection, and standard shop procedures associated with the milling machine and surface grinder. This course is coordinated with Mill and Grind Operations (32MFTN058) which must be taken concurrently. Coreq: 32MFTN058. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MFTN058**Milling and Grinding Operations**

Laboratory instructions applying the knowledge gained in Mill and Grind Fundamentals. The milling machine, surface grinder, and associated tools will be used to produce personal machinist tools as operations skills are developed. Mill and Grind Fundamentals (32MFTN057) must be taken concurrently unless waived by the department. Coreq: 32MFTN057. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MFTN059**Advanced Machine Tool Operations**

Advanced skills development laboratory using the lathe, milling machine, surface grinder and the associated tools. Both the Lathe and Drill Operations as well as Mill and Grind Operations are prerequisites to take this class. The student will choose the project to make in this lab. Prereq: 32MFTN058, 32MFTN055. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MFTN060**Machine Tool Operations I**

To achieve an understanding of the functions and operations of machine tools used in conventional machining. To develop familiarity with basic inspection methods and gages used in conventional machining. Prereq: 32MATH034, 32MET070, 32MFTN050,

Manufacturing Engineering Technology**32MFTN060****Machine Tool Operations I**

32MFTN010. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32MFTN061**Machine Tool Operations II**

Fundamentals of operations and care of machine tools and use of gages. Thread chasing, knurling, milling, and drilling to produce parts that meet blueprint tolerances. Prereq: 32MFTN060. Coreq: 32MFTN065. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32MFTN062**Manufacturing Projects**

Manufacturing problem solving and creative thinking skills development lab. This lab is directly related to working with tools and materials used in manufacturing to develop various projects. BoK: NA. Credit Level: U. Credit Hrs: 1.00-4.00

32MFTN065**CNC LATHE PROGRAMMING**

Introduction and overview of CNC two axis programming as related to the engine lathe. Standard practices using G and M codes will be used to write programs that will be run on CNC lathes or CNC simulators. Coreq: 32MFTN061. BoK: NA. Credit Level: U. Credit Hrs: 3.00-4.00

32MFTN066**CNC MILL PROGRAMMING**

Introduction and overview of CNC three axis programming as related to the milling machine. Standard practices using G and M codes will be used to write programs that will be run on CNC milling machines or CNC simulators. Prereq: 32MFTN065. Coreq: 32MET061. BoK: NA. Credit Level: U. Credit Hrs: 3.00-4.00

32MFTN067**CAM Profile**

Introduction and overview of computers, operating systems, and CAD drawing techniques as they relate to Computer Aided Machining. Simple profiles will be constructed using CAM software to produce the shapes needed for generating tool passes in the study of Computer Aided Machining. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MFTN068**CAM Surface**

Introduction and overview of CAD solid modeling techniques as they relate to Computer Aided Machining. Simple solid models will be constructed using CAM software to produce the surfaces needed for generating tool passes in the study of Computer Aided Machining. Prereq: 32MFTN067. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MFTN071**Tool Design I**

Instruction and practice in the design of tools, jigs and fixtures for maximum efficiency and economy of production. Prereq: 32MATH022, 32MET171. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MFTN072**Tool Design II**

Continuation of Tool Design I. Prereq: 32MFTN071. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MFTN080**Six Sigma-FTP**

This course is for the professional. Six Sigma is a professional survival must! The course will cover topics such as: The Rolled Throughout Yield, Review of Shewhart Control Charts, Review of Process Capability, Overview of Quality Functional Deployment, Overview of Failure Mode & Effect Analysis, Overview of Design of Experiments and the Idea of the Dynamic Mean. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MFTN099**Independent Study in Manufacturing Certificates**

Opportunity for students to pursue topics of individual interest relevant to manufacturing certificate program goals. Open to students only upon

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Manufacturing Engineering Technology**32MFTN099****Independent Study in Manufacturing Certificates**

successful written petition. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

32MFTN131**Principles of Joining**

The objective of the course is to give student the ability to choose and apply feasible joining processes. The course covers basic material science including grid and grain structures, hardness, stress-strain curves and phase diagrams, together with joining processes such as - SMA-welding, MIG-welding, TIG-welding, gas welding soldering, spot-welding riveting and gluing. Coreq: 32MATH178, 32MFTN141. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32MFTN132**Principles of Machining**

The objective of the course is to give the student the ability to choose and apply feasible machining principles. The course discusses material characteristics related to machinability, tool materials and machining parameter calculations, covering methods, such as turning, milling, drilling, broaching, grinding, honing and lapping. The course additionally gives an overview of machining economy, automation and nontraditional machining methods. Coreq: 32MFTN142, 32MATH178. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32MFTN133**Principles of Casting and Forming**

The objective of the course is to give the student the ability to select and apply appropriate manufacturing methods for parts having modest accuracy requirements. The course reinforces material science associated with solidifying and heat treatment. Various state of the art casting, forging, forming, stamping, piercing and bending, methods are analyzed both from a manufacturing and from a design perspective. Coreq: 32MATH178. BoK: NA. Credit Level: U. Credit Hrs: 2.00

32MFTN141**Principles of Joining Laboratory**

The object of the course is to make the students familiar with basic joining operations on a hands on level. The laboratory assignments cover SMW-welding, MIG-welding, TIG-welding, spot-welding oxy-fuel welding and brazing. Coreq: 32MATH178, 32MFTN131. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32MFTN142**Principles of Machining Laboratory**

The objective of the course is to make students familiar with elementary machining on a hands on level. The project assignments include turning, milling, tapping, grinding, alignment, and basic metrology. Coreq: 32MFTN132, 32MATH178. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32MFTN143**CAM-Applications Laboratory**

The objective of the course is to make the student familiar with the hands on use of computer aided manufacturing tools in the machining of various three dimensional shapes. The projects give an introduction to commercial state of the art CAM-packages, and gives an ability to revise programs based on ISO standardized G and M codes. Additionally, the course demonstrates the application of CAM in the manufacture of elementary castings. Prereq: 32MET171, 32MFTN142, 32MET171, 32MET172. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32MFTN210**CNC Technology**

The objective of the course is to make the students familiar with the use of full scale state of the art CNC-machines. The course covers canned cycles, tool offsets, machine specific coordinate systems, multi-axis machining, machine tool designs, tool wear control, CAM programming, machine tool drives and post-processing. The course includes programming and machining. BoK: NS. Credit Level: U. Credit Hrs: 3.00

Manufacturing Engineering Technology**32MFTN214****Sequencing and Fixturing**

The objective of the course is to give the student the ability to plan and design a manufacturing sequence for accurate and complex parts. The course discusses geometric tolerancing, machining forces, deformations, vibrations, fixturing, metrology and nontraditional manufacturing methods such as chemical machining, electro-chemical machining, laser machining, water jet machining, and electric discharge machining. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32MFTN216**Manufacturing System Design**

The objective of the course is to give the student the ability to design a manufacturing system or cell, producing specific parts or products. The course is conducted in the form of a manufacturing unit design project, covering sequencing, tool and machine tool selection, work organization layout planning, basic ergonomics, cellular inventory management, continuous improvement, and cost analysis. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32MFTN235**Statistical Quality Control**

Practical industrial applications of statistical techniques in quality control: control charts, accepted sampling, cost and legal implications of quality decisions; process control from product inspection data; analysis of inspection measurements; predictive models and simulation. Tech Option D, E. M. Prereq: 32MATH371, 32MFTN131, 32MFTN132, 32MFTN133. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32MFTN250**Material Science**

Atomic structure and bonding: Structure of the atom, atomic bonding, crystal structures and crystal geometry: space lattice and unit cells, crystal systems, miller indices, crystallographic planes and directions, volume, planar, and linear density, allotropy. Imperfections: solidification of metals, solid solutions, crystalline imperfections. Mechanical properties of metals: stress and strain in metals, plastic deformation, recovery and recrystallization of plastically deformed metals, fracture, fatigue, and creep. Phase diagrams: Gibbs phase rule, non-equilibrium solidification of alloys, binary eutectic alloys. Dispersion strengthening by solidification. Dispersion strengthening by phase transformation: strengthening by exceeding solubility limits, age hardening, eutectoid reaction, controlling, eutectoid reaction, martensitic reaction and tempering. Engineering materials: Ferrous alloys, heat treatment, quench and temper heat treatments, effects of alloying elements, hardenability, stainless steels, cast irons. Nonferrous alloys: Aluminum alloys, magnesium alloys, nickel and titanium alloys. Prereq: 32CHEM174, 32MET241. BoK: NS. Credit Level: U. Credit Hrs: 4.00

32MFTN260**Logic Devices**

Course objective: to give the students the ability to automate industrial processes by using PLC's. Course focuses on binary pneumatic, hydraulic and electric (solenoids and elementary AC and DC motors). Feedback is registered through binary sensors and limit switches. Concepts covered: specifications, flow charts, user interfaces, allocation lists, wiring diagrams and system structured programming, giving hands-on practice in designing, programming and documenting PLC-based systems. Lec and Lab. Prereq: 32ELTN278, 32ELTN288. BoK: NS. Credit Level: U. Credit Hrs: 4.00

32MFTN280**CNC Systems**

Planning, development, and implementation of robotic workcells: layout and CNC programming of integrated manufacturing systems containing computer-controlled machine tools, robots, gauging, fixturing, and other automation components. Introduction to human factors in automation. Lec. and lab. Prereq: 32MFTN250. BoK: NS. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Manufacturing Engineering Technology**32MFTN335****Six Sigma**

Six Sigma is a professional survival must! The course will cover topics such as: The Rolled Throughout Yield, Review of Shewhart Control Charts, Review of Process Capability, Overview of Quality Functional Deployment, Overview of Failure Mode & Effect Analysis, Overview of Design of Experiments and the Idea of The Dynamic Mean. Technical Elective approved for all options (M, D, E). BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MFTN340**Introduction to Lean Manufacturing**

The course is designed to give the student the understanding of the five principles of Lean: value, value stream, flow, pull and perfection. The techniques for achieving Lean are presented: Waste, visual management, standards, Just-in-Time, developing defect free process, human involvement Lean planning and the lean culture. Contemporary and lean manufacturing are contrasted. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MFTN342**Materials Science II**

Heat treatment of ferrous and non-ferrous metals, effects on microstructure and properties, process controls. Powder metallurgy and ceramics; formulation, processing and properties. Semiconductor materials. Lec. and lab. Tech. Option M. Prereq: 32MFTN250. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32MFTN345**Engineering Plastics**

Introduction to the nature, properties and chemistry of synthetic thermoplastic and thermosetting materials; composite materials; durability, design guidelines, testing practices. Applications in consumer goods, industrial products, transportation. Tech. Option D,M,T. Prereq: 32CHEM174, 32MET270, 32MFTN131. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32MFTN347**Plastics Processing**

Manufacturing processes used in the production of thermoplastic, thermoset and composite consumer goods and industrial products: production equipment, tooling, finishing, processing conditions. Tech. Option T,E,M. Prereq: 32MFTN131, 32MFTN132, 32MFTN133, 32MFTN345. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32MFTN349**Forming Theory & Practice**

This course is designed to give the student an overall knowledge of metal forming, shearing, punching and forming tooling as it is used in industry. Lecture and test materials will discuss the application of this information and how it is used by the product engineer, manufacturing engineer and shop personnel. Information on product liability will be included. The course will be broken into lecture and problem solving classes. Tech. Option M. Prereq: 32MFTN133, 32MET172. Coreq: 32MFTN250. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32MFTN350**Metrology**

Theory of dimensional measurement, uncertainty, sampling plans, statistical data analysis; national standards and shop calibration of measuring instruments; automated inspection methods and practices in unattended manufacturing, introduction to machine vision, optical tactile sensors, applications in feedback control of machine tools. Lec & Lab. Tech Option M. Prereq: 32MATH371, 32MATH381, 32MET340, 32ELTN381. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32MFTN430**Product and Production Planning**

Correlation of design and manufacturing requirements; planning of manufacturing operations for parts and assemblies; production time and cost estimating; introduction to computer techniques in: group technology, material requirements planning, capacity requirements planning. Lec. and lab. Tech Option D,M. Prereq: 32ECON286,

Manufacturing Engineering Technology**32MFTN430****Product and Production Planning**

32MFTN131. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32MFTN431**CIM Systems Management**

Management of integrated computer-aided-technology systems: geometric and analytical CAD models, CADD drawing files, database integration and management, CAM/CNC part programming files, networking and interfacing. Applications in networks of advanced microcomputers and workstations, group technology, file transfers. Tech Option D,M. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32MFTN440**Principles of Non-Destructive Testing**

Non-Destructive testing has its roots in the military, nuclear and aerospace worlds, beginning in the Second World War and has spread into the Construction industry and plant maintenance operations where premature failure can result in significant financial losses. In the current world of ISO 9000 and "Six Sigma" quality certification, it has become an important tool in insuring that a company's products will perform their designed tasks without failure. This course will familiarize the student with the theories and application of the nine major nondestructive testing methods and enable the student to choose the appropriate nondestructive testing methods to evaluate components and structures to perform their intended use without premature failure. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32MFTN460**Manufacturing Automation**

The course gives the ability to build advanced automated systems by using industrial robots, CNC machines, manipulators, PLCs and other microprocessor controlled systems. Hands-on competency is reached on systems realized by tailored binary I/O-based protocols. More complex systems are covered on a specification level. The course covers communication hierarchies (master-slave, client-server, sequential synchronization), communication protocols (standard high level protocols and tailored low level protocols, I/O protection (relays and opto couplers), communication hardware (serial communication, parallel communication and networks), the syntax and semantics of various industrial control languages (CNC languages, PLC languages, industrial robots and personal computers), reliability analysis (FTA) and safety issues. Lec and Lab. Prereq: 32MFTN132, 32MFTN143, 32MFTN260, 32MET370. BoK: NS. Credit Level: U. Credit Hrs: 4.00

32MFTN465**Control Theory**

Dynamic systems with feedback control; servomechanisms; performance and stability of mechanical systems. Digital control systems, stepper motors; encoders; D/A computer interfacing networked control devices; programmable controllers; CNC control devices. Sensory feedback. Applications in automated machine tools and robotics. Block diagramming, control programming via relay logic and scientific computer language. Nyquist & Bode diagrams; Laplace techniques. Tech. Option D. Prereq: 32MET302, 32MET350. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32MFTN483**Materials Handling Systems**

Methods of automatically transferring workpieces, assemblies, tooling, scrap and other articles in manufacturing plants and warehouses. ASR systems, conveyors, robotic transfer devices, buffers, fixturing, sensors, controls. Tech Option M. Prereq: 32MET270, 32MFTN131, 32MFTN132, 32MFTN133. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32MFTN497**International Manufacturing Studies Series**

Special elective course taught by international faculty. Tech Option D,E,M. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Manufacturing Engineering Technology**32MFTN498****Special Topics in Manufacturing**

Periodic introduction of important topics in the fields of mechanical design, energy systems and manufacturing. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

32MFTN499**Independent Study in Manufacturing**

Open to students only upon successful written petition. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

32MFTN555**TLH Student Exchange**

Limited to foreign exchange students. Permission of department required. Perm of Instructor. BoK: DC. Credit Level: U. Credit Hrs: 1.00-15.00

32MFTN580**Advanced Manufacturing Systems**

Analysis and assessment of applications of advanced technology in manufacturing systems for industrial and consumer products. Tech Option M. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

32MFTN596**Problems in Manufacturing Management**

Analysis of modern manufacturing operations from economic and financial perspectives: costing, capital budgeting, investment recovery. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

Management**32MGMT201****Human Resource Management**

Background development of Human Resources Management, change and challenges, organizational considerations, job requirements, human resources planning and recruitment, analyzing qualifications of job candidates, making selection decisions, training employees, career development, evaluating and improving performance. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32MGMT215**Directed Study - Management**

This course is designed for students who require individualized instruction in management. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MGMT251**Labor Relations and Collective Bargaining**

An overview of the labor relations and collective bargaining process. The development of unions and collective bargaining in the United States. Current trends in industrial relations and public policy. A case study approach. Prereq: 32ECON286. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MGMT255**Principles of Supervision I**

The supervisor and diversity, the supervisor's job, skills of supervision, organizing and delegating, planning and control, making sound and creative decisions, improving communication and handling conflict, the supervisor as a leader and motivator. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32MGMT256**Principles of Supervision II**

Understanding groups and teamwork, safety and health in the work place, improving productivity, supervising "problem" employees, appraising performance, selecting and training employees, management of time, ethics and organizational politics. Prereq: 17MGMT255. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32MGMT261**Introduction to Management**

An overview of the basic concepts of management, beginning with the planning function and concluding with the control function. Emphasis is

Management**32MGMT261****Introduction to Management**

given to defining the management process, reviewing management history, the changing environment of management, planning and decision making. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32MGMT262**Principles of Management II**

Motivating job performance, group dynamics, power, leadership and behavior modification, organization development, managing information, operations management, and international management. Prereq: 32MGMT261. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32MGMT271**Small Business Management**

An applied introduction to starting or buying a business. Topics include: franchising, locating, financing, marketing, and developing a marketing plan. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32MGMT272**Introduction to the New Business Venture**

An overview of all aspects of starting and operating a successful business venture to provide a fundamental understanding of the processes to complete the marketing, financial, and organizational plans which are the foundation of a meaningful business plan. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32MGMT273**Creating a Business Plan**

The development, communication, and implementation of a strategic plan for a new or existing business. Prereq: 32MGMT272. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32MGMT274**Basic Entrepreneur**

This course will focus on the basic issues that will be central to personal goal setting and decision making for the budding entrepreneur or small business owner. Prereq: 32ECON141. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32MGMT290**Directed Studies in Free Enterprise I**

Directed Studies in Free Enterprises. A didactic opportunity for students to participate in experiential internships or Students in Free Enterprise projects. Requires a minimum of thirty contact hours of participation. Perm of Instructor. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32MGMT291**Directed Studies in Free Enterprise II**

Directed Studies in Free Enterprises. A didactic opportunity for students to participate in experiential internships or Students in Free Enterprise projects. Requires a minimum of thirty contact hours of participation. Perm of Instructor. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32MGMT292**Directed Studies in Free Enterprise III**

Directed Studies in Free Enterprises. A didactic opportunity for students to participate in experiential internships or Students in Free Enterprise projects. Requires a minimum of thirty contact hours of participation. Perm of Instructor. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32MGMT293**Directed Studies in Free Enterprise IV**

Directed Studies in Free Enterprises. A didactic opportunity for students to participate in experiential internships or Students in Free Enterprise projects. Requires a minimum of thirty contact hours of participation. Perm of Instructor. BoK: SE. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Management**32MGMT294****Directed Studies in Free Enterprise V**

Directed Studies in Free Enterprises. A didactic opportunity for students to participate in experiential internships or Students in Free Enterprise projects. Requires a minimum of thirty contact hours of participation. Perm of Instructor. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32MGMT295**Directed Studies in Free Enterprise VI**

Directed Studies in Free Enterprises. A didactic opportunity for students to participate in experiential internships or Students in Free Enterprise projects. Requires a minimum of thirty contact hours of participation. Perm of Instructor. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32MGMT371**Management Theory**

An in-depth analysis of management theories. The course addresses motivation, job performance, group dynamics, power leadership, behavior modification, organization development, managing information, operations management. The course focuses on managerial communication in the organization. Prereq: 32MGMT261. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32MGMT375**Small Business Management**

An applied introduction to starting or buying a business. Course addresses the business plan, the operations team, financing, marketing plan. Focus is on the business niche, the business plan and strategic planning and marketing. Prereq: 32MGMT261. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32MGMT383**Labor Relations and Collective Bargaining**

An overview of the labor relations and collective bargaining process. Topics covered will include: the legal aspects of collective bargaining, management strategies and structure for collective bargaining, union strategies and structures for representing workers, the negotiation process and strikes, contract terms and employment outcomes, participatory processes. A case study approach will be used. Prereq: 32MGMT261. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32MGMT385**Human Resource Management and Supervision**

The course covers history of human development, management, staff planning, selection, recruitment, evaluation, labor relations, collective bargaining, industrial relations, discipline, compensation, incentives, handling conflicts, time management, ethics, and organizational politics. Prereq: 32MGMT261, 32FHM142, 32FHM152, 32FHM162. BoK: SE. Credit Level: U. Credit Hrs: 3.00

Marketing**32MKTG215****Directed Study - Marketing**

This course is designed for students who require individualized instruction in Marketing. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MKTG275**Marketing**

Basic concepts of marketing and the application of these concepts in making decisions and managing marketing activities. Concentration on development of a marketing strategy: target markets, product, price, distribution and promotion. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MKTG283**Principles of Retailing**

The nature of retailing, ethical and legal issues, evolution of retail institutions, buying behavior of consumers, organizational structure of small and large retail firms, staffing and personnel issues, designing store facilities, ensuring store security, site selection, product mix,

Marketing**32MKTG283****Principles of Retailing**

buying procurement and inventory control. Prereq: 32MKTG275. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MKTG284**Principles of Personal Selling**

Principles and practices of professional personal selling. Emphasis on relationship selling and the development of a professional sales presentation. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MKTG371**Advertising**

Concepts and techniques of advertising and promotions from a marketing management perspective. Topics are addressed to advance promotion of product. Advertising and public relations issues are emphasized. Contemporary techniques of direct marketing, catalog and web based advertising are stressed. Prereq: 32MKTG275. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MKTG372**Retailing**

This course will cover the various aspects of retailing. The course will address ethical and legal issues, consumer behavior, organizational structure, personnel, security, site selection, product mix. Topics addressed from management perspectives. Principles addressed are applicable to project management and planning for decision makers who will market products to consumers and to the trade. Prereq: 32MKTG275. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MKTG373**Personal Selling**

Persuasive oral communication from a business perspective. Emphasis on student application of personal selling principles. Prereq: 32MKTG275. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Multidisciplinary**32MLTI150****Culinary Dual Admission**

Placeholder class for students participating in the UC/Cincinnati State Culinary Program. BoK: NA. Credit Level: U. Credit Hrs: 0.00

32MLTI171**Learning Across Disciplines I**

This course is designed to give new students the opportunity to obtain skills that are important for their success in the college, irrespective of their field of study. It will include very specific skills such as reading and interpreting graphs, to more general skills such as critical thinking and writing. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32MLTI172**Learning Across Disciplines II**

Continuation of 32MLTI171. Prereq: 32MLTI171. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Professional Development**32PD101****Adult Transitions**

An introduction to the University and policy and procedures necessary for a successful transition to the academic environment for adult students. This course should also provide an opportunity to serve as a support system for adults returning to the classroom after a period of functioning in roles other than that of a student. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32PD132**Professional Development I**

Serves as a career orientation vehicle. The basics of career planning are taught in addition to the methodology and tooling of career entrance, change and advancement. BoK: NA. Credit Level: U. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Professional Development

32PD432

Professional Development II

A career planning class covering the methodology and skills of career entrance, change and advancement. Topics include self-assessment, tools of the job search, interviewing techniques and Web interface as part of overall research methodology. BoK: NA. Credit Level: U. Credit Hrs: 1.00

Philosophy

32PHIL182

Contemporary Moral Issues

Philosophical and ethical issues underlying major controversies of the day: rights, freedom and punishment; sex, euthanasia, abortion, and others. Transfer Module. BoK: HU, SE. Credit Level: U. Credit Hrs: 3.00

32PHIL301

Logic - Induction

A consideration inductive (probable) inference. Topics include: language, definitions, fallacies, analogical and causal reasoning, science and hypothesis, probability. BoK: HU., QR. Credit Level: U. Credit Hrs: 3.00

32PHIL302

Logic - Deduction

A consideration of deductive (certain) inference. Topics include: categorical propositions and syllogisms, symbolic logic, methods of deduction, quantification theory. BoK: HU., QR. Credit Level: U. Credit Hrs: 3.00

32PHIL325

Ethics in the Applied Sciences

Survey of basic ethical insights from various cultures; relation of basic ethical insights to codes of professional conduct in various applied sciences; use of cases in problem-based learning, active student participation. Prereq: 32ENGL103. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

32PHIL350

Philosophies in Global Context

What our international neighbors believe becomes increasingly important as we move into the "global village." Each geographical/cultural area of the world has a distinctive philosophical or wisdom tradition. By studying selected traditions, we will get to know our global neighbors better. Prereq: 32ENGL101, 32ENGL102, 32ENGL103. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

32PHIL365

Religions in a Secular, Scientific Age

Purposes are: 1-to build religious literacy; 2-to compare and contrast beliefs, practices, etc. of religions; and 3-to reflect philosophically on religions in secular and scientific context. Prereq: 32ENGL101, 32ENGL102. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

32PHIL371

Ethics and Social Issues in the Workplace

This course explores the various philosophical and social theories, issues, and documentation produced in workplace setting, considering questions of ethics and values likely to arise in the course of professional careers. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

Physics

32PHYS020

Preparatory Physics I

An introduction to the principles of Physics with an emphasis on problem solving. Topics include systems of measurement and conversion, vectors, Newtonian mechanics. NOTE: This course will not meet any OCAS degree requirements for Physics. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32PHYS021

Preparatory Physics II

Continuation of an introduction to the principles of Physics with an

Physics

32PHYS021

Preparatory Physics II

emphasis on problem solving. Topics include Newtonian mechanics, work, energy and power. NOTE: This course will not meet any OCAS degree requirements for Physics. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32PHYS181

Physics For Technology I

Vectors, kinematics, statics, Newton's Laws, gravity, work, energy, momentum, collisions. Prereq: 32MATH178. BoK: QR, NS. Credit Level: U. Credit Hrs: 3.00

32PHYS182

Physics For Technology II

Rotation, elasticity, vibration, waves, fluids, heat and thermodynamics. Prereq: 32PHYS181, 32PHYS186. Coreq: 32PHYS187. BoK: QR, NS. Credit Level: U. Credit Hrs: 3.00

32PHYS183

Physics For Technology III

Electricity and magnetism, optics. Prereq: 32PHYS182, 32PHYS187. Coreq: 32PHYS188. BoK: QR, NS. Credit Level: U. Credit Hrs: 3.00

32PHYS186

Physics For Technology I Laboratory

Laboratory course to accompany Physics for Technology I (32PHYS181). Coreq: 32PHYS181. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32PHYS187

Physics For Technology II Laboratory

Laboratory course to accompany Physics for Technology II (32PHYS182). Prereq: 32PHYS181, 32PHYS186. Coreq: 32PHYS182. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32PHYS188

Physics For Technology III Laboratory

Laboratory course to accompany Physics for Technology III (32PHYS183). Prereq: 32PHYS182, 32PHYS186. Coreq: 32PHYS183. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32PHYS291

Physics For Engineering And Science Students I

A calculus based course. Measurement, motion (1D,2D,3D), Newton's Laws, equilibrium, gravity, particle dynamics, work and energy, impulse and momentum. Prereq: 32MATH245. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32PHYS292

Physics For Engineering And Science Students II

A calculus based course. Rotational kinematics and dynamics, special relativity, oscillations, fluids, waves, thermal energy and thermodynamics. Prereq: 32PHYS291, 32MATH245. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32PHYS293

Physics For Engineering And Science Students III

A calculus based course. Electric charge, field and potential, Gauss' Law, circuit elements, basic circuits, circuit analysis, magnetic field, AC circuit, Maxwell's Equations, optics (reflection, refraction), diffraction, optical instruments. Prereq: 32MATH381, 32PHYS292. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32PHYS296

Physics For Engineering And Science Students I Lab

Laboratory course to accompany 32PHYS291. Coreq: 32PHYS291. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32PHYS297

Physics For Engineering And Science Students II Lab

Laboratory course to accompany 32PHYS292. Prereq: 32PHYS296. Coreq: 32PHYS292. BoK: NA. Credit Level: U. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Physics**32PHYS298****Physics For Engineering And Science Students III Lab**

Laboratory course to accompany 32PHYS293. Prereq: 32PHYS293.

Coreq: 32PHYS297. BoK: NA. Credit Level: U. Credit Hrs: 1.00

32PHYS299**Independent Study Physics**

Independent study of Physics under faculty supervision. Requires previous written permission of the professor conducting the course for each student before registration. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

32PHYS396**Thermal Physics for Applied Science**

This course covers the basics of thermal physics and thermodynamics from a statistical viewpoint. The subject is simple and elegant but the results are powerful and used throughout all science and technology. A review of simple thermodynamics ideas and concepts (ideal gas laws and Laws of Thermodynamics) will be followed by a study of the molecular underpinnings of those laws from a statistical and quantum mechanical viewpoint. Students will learn the basic phenomena behind their studies of heat flow and transfer, entropy enthalpy, etcetera.

Prereq: 32MATH381. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32PHYS396H**Thermal Physics for Applied Science**

This course covers the basics of thermal physics and thermodynamics from a statistical viewpoint. The subject is simple and elegant but the results are powerful and used throughout all science and technology. A review of simple thermodynamics ideas and concepts (ideal gas laws and Laws of Thermodynamics) will be followed by a study of the molecular underpinnings of those laws from a statistical and quantum mechanical viewpoint. Students will learn the basic phenomena behind their studies of heat flow and transfer, entropy enthalpy, etcetera.

Prereq: 32MATH381. BoK: NS. Credit Level: U. Credit Hrs: 3.00

32PHYS476H**Thermal Physics For Non-Physicists I**

Honors Course. Basic ideas in thermodynamics. Emphasis is on basic ideas and principles with mathematical rigor kept to a minimum. Brief introduction to simple quantum mechanics and quantum states. Then, using the idea of a quantum state thermal Physics is explored including such topics as the laws of thermodynamics, temperature, entropy, internal energy, osmotic pressure, chemical reactions, semiconductors, and superconductors. BoK: QR., NS. Credit Level: U. Credit Hrs: 3.00

32PHYS477H**Thermal Physics For Non-Physicists II**

Honors Course. Continuation of 32PHYS476H. Prereq: 32PHYS476H. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

32PHYS499**Independent Study in Physics**

Please complete and submit an Independent Application form available from the college office. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

Political Science**32POL201****American Government and Politics I**

After study of the constitutional and cultural basis of the American governmental system, emphasis will be on the public's involvement in the political system -- political parties, interest groups, public opinion, voting, campaigns, elections. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

32POL202**American Government and Politics II**

A study of the Presidency, Congress, the judiciary, the bureaucracy and their policy-making roles. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

Political Science**32POL203****American Government and Politics III**

A study of the U.S. government dealing with other nations and dealing, internally, with state government, as well as state governments' relations with their own citizens. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

32POL251**Survey of Constitutional Law**

A survey of the principles of the American Constitution and Supreme Court decision making, including judicial review, separation of powers, civil rights and civil liberties. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

32POL323**Contemporary Global Issues**

An examination of major problems confronting the world. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

32POL324**Technology, Space And Global Cities**

The ongoing globalization of markets and culture has transformed the modern cityscape. The objective of this course is to examine the integration of politics, usage, and innovative technologies on the urban landscape through a series of global case studies. BoK: HP., DC. Credit Level: U. Credit Hrs: 3.00

32POL325**Politics and Food**

This course examines the ways in which food companies use political processes to obtain government and professional support. It examines the American diet, marketing strategies of the food industry, and its use (and misuse) of the political system. Prereq: 32ENGL103. BoK: SS, SE. Credit Level: U. Credit Hrs: 3.00

32POL330H**The Killing Fields: Genocide and the Modern Age**

The course will examine the documents that have circulated around the construction of and the response to genocide. Always a technological and rhetorical event, genocide depends increasingly upon the use of the mass media to identify and spearhead violent actions, and the technologies of killing to continue to develop so that mass destruction is ever more available to smaller and smaller groups. Students will examine the historical and political ideologies that service and mobilize programs of identification, isolation, expropriation, deportation and elimination that accompany these events as well as the testimonies of those who have survived or fallen victim to them. Students will increase their critical writing and thinking skills. BoK: HU., SS. Credit Level: U. Credit Hrs: 3.00

32POL397H**Global Urban Politics and Space Usage**

The objective of this course is to examine the integration of politics, space usages, and innovation technologies on the urban landscape. Global urban problems, such as organization and space utilization, may be approached using three perspectives that will be studied in this course: 1) understanding the politics of urban space usage, 2) the politics and economics of technology innovation in the urban setting, and 3) the interactions of culture, technology, and politics in the organization of the cityscape. The course facilitates students' reconceptualization of the urban landscapes, politics, and economics. BoK: HU., SS. Credit Level: U. Credit Hrs: 3.00

32POL398H**International Politics And The Technological Frontier**

This course investigates the establishment of national and international technology policies using a series of case studies. The fundamental question underlying this class is examining what are the basic political, social, and economic rationales for the promotion of specific technologies in particular communities. BoK: SS., HP. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Psychology**32PSYC141****Principles of Psychology I**

The beginning course in psychology which covers history, research, biological topics, sensation and perception, memory, intelligence, cognition and language. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

32PSYC142**Principles of Psychology II**

A beginning course in psychology which covers Life Span Development, Learning and Conditioning, Personality Theories and Testing, Abnormal Psychology and Therapies. Prerequisite: Psych 141 Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

32PSYC171**General Psychology**

An introduction to psychology. Topics include learning, motivation, perception, and personality. Practical application of principles of psychology supplement text. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

32PSYC181**General Psychology Laboratory**

Laboratory instructions for General Psychology (32PSYC171) BoK: NA. Credit Level: U. Credit Hrs: 1.00

32PSYC271**Learning & Problem Solving**

The first half of the course will focus upon how human and other animals learn. The behavior analytic perspective will be emphasized, however cognitive approaches and other current learning theories will be addressed. The second half of the course will cover basic problem strategies. Students will be presented with several varied problem solving approaches as well as how to avoid common problem solving errors. BoK: SS. Credit Level: U. Credit Hrs: 3.00

32PSYC371**Psychology of Work Teams**

An experiential approach to participative decision making including quality circles, socio-technical committees, and other applications of Theory Z. Prereq: 32PSYC171. BoK: SS. Credit Level: U. Credit Hrs: 3.00

32PSYC373**Managerial Psychology**

Study of concepts and practices applicable to managing human behavior in the business and industrial setting, using case studies and game simulations. Prereq: 32PSYC171. BoK: SS. Credit Level: U. Credit Hrs: 3.00

32PSYC374**Behavioral Technology**

This course is designed to present the student with the technical concepts and the technical procedures used in applying behavior analytic principles. Student will learn how to more effectively manage their own behavior and also will learn how behavior analysis is applied in various settings including: schools, sports, business and industry institutions, homes, the community, etc. Students will also learn about and discuss the ethics surrounding the use of behavioral technology. BoK: SS. Credit Level: U. Credit Hrs: 3.00

32PSYC375**Social Psychology**

This course will present theories and research pertaining to Social Psychology. Students will explore explanations of human social behavior in an attempt to broaden their understanding of why people behave in particular ways in social situations. Students will be encouraged to relate personal experience to their growing awareness and understanding as the course progresses. BoK: SS. Credit Level: U. Credit Hrs: 3.00

Psychology**32PSYC376****Psychology of Sport**

The role of psychological aspects of human behavior as it affects performance in sports. Topics include violence and deviant behavior in sport, sport aggression, extrinsic and intrinsic motivation in sport. Prereq: 32PSYC171. BoK: SS. Credit Level: U. Credit Hrs: 3.00

Reading**32READ086****Math Success Seminar/Effective Reading Paired with Elementary Algebra**

A course to improve reading and learning strategies for better comprehension of math courses. Students learn self-direction in mastering math concepts and principles of effective communication in the language of mathematics by integrating reading, writing, speaking, and listening. This course is designed to be taken in conjunction with basic math courses. The content of the math courses is used to assist student in the attainment of the necessary learning strategies. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32READ088**Accelerating Toward Learning and Academic Success (ATLAS)**

This course is required of all students who are on suspension warning and suspension appeal and is strongly recommended to any student with below 2.0 GPA. Intensive, individualized instruction will address anxiety, attitude, and motivation as they affect college student behaviors. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Sports Management**32SMGT171****Introduction to Sport Administration**

The definition and evolution of sport management. This course will explore various careers in professional, collegiate, high school and other areas of sport management. The student will define professional goals based on personal strengths and weaknesses in light of skills and competencies of sport leaders. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32SMGT373**Sport Finance**

This course seeks to develop a comprehensive understanding of the impact of finance on sport management. Topics include financial planning and administration for professional athletes, inter-collegiate administrations, and the public/private sport industry. The student will become familiar with financial statement analysis, budgeting, operating expenses, risk/return models, revenue sources and their eventual impact on sport management. Prereq: 32FIN371. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32SMGT374**Sport Marketing**

The marketing planning process relative to the sport industry. This course will focus on development of a marketing strategy with consideration to the unique aspects of sport marketing. Topics include selection of a target market and sport consumer behavior as well as decisions on product, distribution, price and promotion. Prereq: 32MKTG275. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32SMGT387**Sport Management**

The basic concepts of management applied to a variety of sport settings. This course will emphasize strategic planning, creating an organizational structure, staffing, leadership and motivation, as well as controlling the sport organization. Prereq: 32MGMT371. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32SMGT441**Senior Project I**

This course provides the student with the opportunity to bring together in a comprehensive manner all of the subjects covered in the program and the additional experiences gained from the co-op. Perm of

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Sports Management**32SMGT441****Senior Project I**

Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32SMGT442**Senior Project II**

This course provides the student with the opportunity to bring together in a comprehensive manner all of the subjects covered in the program and the additional experiences gained from the co-op. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32SMGT471**Sport Facility & Event Management**

An overview of planning and design of an athletic facility. This course will focus on the management of venues and events, venue and event operations and maintenance, as well as venue and event programming and scheduling. Prereq: 32SMGT387. BoK: SE. Credit Level: U. Credit Hrs: 3.00

32SMGT473**Athletic Fundraising**

This course is designed to create a complete understanding of the development industry. The student will be made aware of the roles, functions, economic needs/goals, and responsibilities of those who manage fund raising activities for both private and public facilities, including specific marketing techniques, communication responsibilities, and relationship building programs. The student will also review the ethical and legal natures connected to both collegiate and public fundraising. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32SMGT475**Sport and the Media**

This course will prepare the student in the area of sport media and media relations. Sport and the media develops an understanding of advertising, public relations, public relations, sport information, promotions, and writing for sport publications. The student will be made aware of the interactive nature between television, radio, sport marketing and management firms, sport stat researchers, sport video production and the internet. All aspects if the media will be explored including specialized sport media techniques and strategies. Prereq: 32SMGT374. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32SMGT483**Sport Governance**

This course is designed to provide knowlege of the organizational structure, authority and functions of governing bodies in professional and amateur sport, with emphasis on the role of the National Collegiate Athletic Association in collegiate athletics, and awareness of the influence of state and federal government on sport governing bodies. Prereq: 32SMGT387. BoK: SS, SE. Credit Level: U. Credit Hrs: 3.00

32SMGT485**Sport Public Relations**

The importance of positive relations with both external and internal publics in the field of sports. This course will focus on the various tools available to effectively communicate with relevant stakeholders, from group to mass communication. Sport Public Relations will feature a case study approach. Prereq: 32SMGT374. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32SMGT487**Ethical Issues in Sport**

An analysis of moral and ethical issues in organized sport. Emphasis is placed on concepts of morality, professional ethics, and personal management values. Ethical dilemmas and conflicts will be discussed, as well as coaching, funding and management practices. Upon completion of the student should be able to apply ethical theories to typical problems in the world of sport. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Sports Management**32SMGT489****Current Topics in Sport**

This course is designed for senior Sport Management majors. The course studies current issues, problems and trends in sport from a socio- cultural, management, ethical, marketing, communication, financial, legal, goverance or economic perspective. Prereq: 32SMGT387. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Sociology**32SOC121****Introduction to Sociology I**

A general survey of the basic concepts and theoretical perspectives underlying social organization. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

32SOC122**Introduction to Sociology II**

An examination of social institutions and the processes of sociocultural changes in contemporary society. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

32SOC370**The Sociology of Sport**

This course will focus on the development of sport as an organized social phenomenon, the functions of sport in society, the interrelationships with other major institutions, the roles and connection of sport, the culture of sport and sport as a reflection of culture, sport as a change agent influencing structure and culture, alternative ways of seeing sports, and contemporary issues in sport. Prereq: 32SOC121. BoK: SS. Credit Level: U. Credit Hrs: 3.00

Social Science**32SOSC341****Civility and Manners in a Global Age**

Students focus on the proper equiette skills necessary to conduct business in the national and international workplace. BoK: SE., DC. Credit Level: U. Credit Hrs: 3.00

32SOSC342**The World of Tea**

This course examine the role tea plays in various cultures. The history, technology, biochemistry, and traditions provide a lens through which to examine its role in society from 2700 B.C. to the 21st century. Prereq: 32ENGL103. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

32SOSC371**Ethics And Social Issues In The Workplace**

This course explores the various philosophical and social theories, issues, and documentation produced in the workplace setting, considering questions of ethics and values likely to arise in the course of professional careers. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

32SOSC471**Technology and Society**

Political, social, and ethical consequences of technology in the twentieth century. BoK: SS. Credit Level: U. Credit Hrs: 3.00

32SOSC498**Special Topics in Social Sciences**

Periodic instruction of important topics in the social sciences. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

32SOSC499**Independent Study in Social Sciences**

Individualized program in reading and research development jointly by the student and instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

Statistics

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Statistics**32STAT171****Introduction to Management Statistics**

Collection, presentation, and descriptive measurement of data.

Introduction to probability. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32STAT181**Statistics for Culinary Science**

Topics include graphical and numeric descriptive measures for univariate and bivariate data and control charts. Food industry and business applications are emphasized. Includes a laboratory with experiments and data analysis using computer software. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32STAT201**Business Statistics I**

Calculations of descriptive statistics. Graphic presentations. Introduction to probability. Discrete probability distributions. Prereq: 32MATH174. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32STAT202**Business Statistics II**

Continuous probability distributions. Sampling distributions. Interval estimation and hypothesis testing. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32STAT203**Business Statistics III**

Hypotheses testing continued. Chi-square tests. Analysis of variance. Correlation analysis. Simple linear and multiple regression. Index numbers and forecasting. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32STAT215**Directed Study - Statistics**

This course is designed for students who require individualized instruction in statistics. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32STAT231**Applied Statistics for Business I**

Topics include graphical and numeric descriptive statistics, introduction to probability, discrete and continuous probability distributions. Business applications are emphasized. Coverage of topics supplemented by use of laboratory exercises that include hands-on activities and data analysis using computer software. Prereq: 32MATH174, 32IT142. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32STAT232**Applied Statistics for Business II**

Topics include sampling techniques, sampling distributions, interval estimation and hypothesis testing, chi-square tests, analysis of variance, simple and multiple linear regression. Business applications are emphasized. Coverage of topics supplemented by use of laboratory exercises that include hands-on activities and data analysis using computer software. Prereq: 32STAT231. BoK: QR. Credit Level: U. Credit Hrs: 4.00

32STAT241**Business Statistics -- Accelerated I**

Descriptive statistics, probability and probability distributions. Sampling and interval estimation. Emphasis on business applications. BoK: QR. Credit Level: U. Credit Hrs: 3.00

32STAT242**Business Statistics II -- Accelerated**

Hypothesis testing, regression and correlation analysis, analysis of variance, the chi-square distribution, time series analysis, and index numbers. Emphasis on business applications. BoK: QR. Credit Level: U. Credit Hrs: 3.00

Welding Technology**32WLTN020****Welding, GMAW**

MIG welding. Principles, types of materials, electrodes and welds,

Welding Technology**32WLTN020****Welding, GMAW**

machines used, current and voltage required, test used. BoK: NA.

Credit Level: U. Credit Hrs: 3.00

32WLTN021**Welding, GMAW**

MIG Welding. Principles, types of materials, electrodes and welds, machines used, current and voltage required, test used. BoK: NA.

Credit Level: U. Credit Hrs: 3.00

32WLTN022**Welding, GMAW**

MIG Welding. Principles, types of materials, electrodes and welds, machines used, current and voltage required, test used. BoK: NA.

Credit Level: U. Credit Hrs: 3.00

32WLTN023**Welding, GMAW**

MIG Welding. Principles, types of materials, electrodes and welds, machines used, current and voltage required, test used. BoK: NA.

Credit Level: U. Credit Hrs: 3.00

32WLTN030**Welding, SMAW (Electric Arc)**

Stick welding. Principles, types of welds and electrodes, machines used, current and voltage required, tests used. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32WLTN031**Welding, SMAW**

WELDING SMAW BoK: NA. Credit Level: U. Credit Hrs: 3.00

32WLTN032**Welding, SMAW**

WELDING SMAW BoK: NA. Credit Level: U. Credit Hrs: 3.00

32WLTN033**Welding, SMAW**

WELDING SMAW BoK: NA. Credit Level: U. Credit Hrs: 3.00

32WLTN040**Welding, Oxy-Fuel**

Through 32WLTN043, Gas Welding. Principles of gas welding and cutting, types of rods, metals and fluxes used. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32WLTN041**Welding, Oxy-Fuel**

WELDING OXY-FUEL BoK: NA. Credit Level: U. Credit Hrs: 3.00

32WLTN042**Welding, Oxy-Fuel**

WELDING OXY-FUEL BoK: NA. Credit Level: U. Credit Hrs: 3.00

32WLTN043**Welding, Oxy-Fuel**

WELDING OXY FUEL BoK: NA. Credit Level: U. Credit Hrs: 3.00

32WLTN050**Welding, GTAW**

TIG Welding. Principles, types of materials, electrodes and welds, machines used, current and voltage required, test used. BoK: NA.

Credit Level: U. Credit Hrs: 3.00

32WLTN051**Welding, GTAW**

TIG Welding. Principles, types of materials, electrodes and welds, machines used, current and voltage required, test used. BoK: NA.

Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Welding Technology**32WLTN052****Welding, GTAW**

TIG Welding. Principles, types of materials, electrodes and welds. machines used, current and voltage required test used. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32WLTN053**Welding, GTAW**

TIG welding. Principles, types of materials, electrodes and welds, machines used, current and voltage required, test used. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32WLTN060**Welder Qualification Program**

Trains welders to successfully complete a weld procedure certification test. This test can be either a company specific weld procedure or AWS QC 7. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32WLTN061**Welding Skills**

Principles, materials, equipment and techniques of SMAW (electric arc), oxy-fuel and GTAW/GMAW (inert arc) welding, Hands-on stick, gas, and TIG and MIG welding. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32WLTN062**Industrial Materials**

Lecture and lab on some basic materials used in industry including metals, both ferrous, non-ferrous, and non-metals. Topics include the production, identification, mechanical properties, formability, and suitability for use of the materials studied BoK: NA. Credit Level: U. Credit Hrs: 3.00

32WLTN065**Weld Quality Control Administration**

Welding performance of state building codes and applicable technical codes and standards. BoK: NA. Credit Level: U. Credit Hrs: 4.00

32WLTN071**Aircraft Engine Assembly I**

Jet engine concepts, descriptions and use of tools, interpretation of assembly, lifting and inspection procedures related to jet engine assembly. Hands-on assembly of gear box components. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32WLTN072**Aircraft Engine Assembly II**

Continuation of Aircraft Engine Assembly Methods I: torquing procedures, installation of piping, inspection and installation of turbine blades. Prereq: 32WLTN071. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32WLTN073**Aircraft Engine Assembly III**

Continuation of Aircraft Engine Assembly Methods II: assembly inspection, rotor stacking and balancing. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32WLTN081**Design and Fabrication of Plastic Molds**

Specifies the manufacturing methods for molds -- from blow molds to injection molds. The emphasis is on injection molds where the student will learn how to design and specify the materials for an injection mold. In the lab section of the course, the student will design a medium complexity injection mold. BoK: NA. Credit Level: U. Credit Hrs: 5.00

32WLTN084**Plastic Processing Machinery**

Concentrates on the most popular methods of plastics processing and the equipment and machinery associated with them (i.e., the molds, the dies, injection molding machines, etc). The students will learn the processing variables and the complexity involved in transforming plastic resin into finished product. BoK: NA. Credit Level: U. Credit Hrs: 1.00-5.00

Welding Technology**32WLTN088****Plastic Assembly Processes**

Covers the joining and assembly techniques for plastic products (i.e., mechanical fasteners, solvents, adhesives, ultra-sonic welding, and designed integration of plastic component part mechanical connectors). The course will expose the student to automation and automatic assembly. BoK: NA. Credit Level: U. Credit Hrs: 3.00

32WLTN430**Joining Theory Prac**

JOINING THEORY PRAC Prereq: 32MFTN131. Coreq: 32MFTN250. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

MCMICKEN COLLEGE OF ARTS AND SCIENCES

COURSE DESCRIPTIONS

(15) McMicken College of Arts and Sciences

2008 - 2009

McMicken College of Arts and Sciences 1

Accounting

15ACCT311

Advanced Financial Accounting I

(Formerly Intermediate Accounting). Work sheets; financial statements; corporate structure accounting. Valuation principles, investments, intangible assets, liabilities, capital stock, reserves. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15ACCT470

Consolidated Financial Statements

(Formerly 30ACCT471, Advanced Accounting). Consolidation statements and business combinations. Handling of mergers, consolidations and other forms of business combinations. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15ACCT481

Auditing Concepts I

(Formerly 30ACCT483, Auditing I). Principles, standards, and procedures involved in the conduct of an audit. Internal control, statistical sampling, objectives and report presentation. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15ACCT571

Federal Tax I

Principles of federal income taxation, economic implications; including laws, rulings and regulations. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15ACCT577

Accounting For Funded Organizations

Accounting principles and techniques as they relate to the funded entity, applications of accounting procedures, educational, religious, social organizations and hospitals. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15ACCT579

Accounting Information Systems

Principles of analyzing and designing accounting information systems; manual, mechanized, and computerized systems. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15ACCT588

Applied Accounting Theory

(Formerly 30ACCT589, Accounting Theory). Reading and research in current accounting literature. Discussion of controversial topics. BoK: QR. Credit Level: U. Credit Hrs: 3.00

Air Force ROTC

15AF101

Aerospace Studies 100: The Air Force Today

AS 100 is a survey course designed to introduce students to the United States Air Force and Air Force Reserve Officer Training Corps. Feature topics include: mission and organization of the Air Force, officership and professionalism, military customs and courtesies, Air Force officer opportunities, group leadership problems, and an introduction to communication skills. 15-112-120. Basic Leadership Laboratory is mandatory for Air Force ROTC cadets, and it complements this course. BoK: HP. Credit Level: U. Credit Hrs: 1.00

15AF102

Aerospace Studies 100: The Air Force Today

AS 100 is a survey course designed to introduce students to the United States Air Force and Air Force Reserve Officer Training Corps. Feature topics include: mission and organization of the Air Force, officership and professionalism, military customs and courtesies, Air Force officer opportunities, group leadership problems, and an introduction to communication skills. 15-112-120. Basic Leadership Laboratory is mandatory for Air Force ROTC cadets, and it complements this course by providing cadets with fellowship experiences. This is the second offering in a three-part course sequence. BoK: HP. Credit Level: U. Credit Hrs: 1.00

Air Force ROTC

15AF103

Aerospace Studies 100: The Air Force Today

AS 100 is a survey course designed to introduce students to the United States Air Force and Air Force Reserve Officer Training Corps. Feature topics include: mission and organization of the Air Force, officership and professionalism, military customs and courtesies, Air Force officer opportunities, group leadership problems, and an introduction to communication skills. 15-112-120. Basic Leadership Laboratory is mandatory for Air Force ROTC cadets, and it complements this course by providing cadets with followership experience. This is the third offering in a three-part course sequence. BoK: HP. Credit Level: U. Credit Hrs: 1.00

15AF120

Basic Leadership Lab

The AS 100 and AS 200 Leadership Laboratory courses (LLABs) include a study of Air Force customs and courtesies, drill and ceremonies, and military commands. The LLAB also includes studying the environment of an Air Force officer and learning about areas of opportunity available to commissioned officers. This course also requires two (2) mandatory hours of Physical Training (PT) per week. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15AF201

Aerospace Studies 200: The Air Force Way

AS 200 is a survey course designed to facilitate the transition from Air Force ROTC cadet to Air Force ROTC candidate. Featured topics include: Air Force heritage, Air Force leaders, quality Air Force, and introduction to ethics and values, introduction to leadership, group leadership problems, and continuing application of communication skills. 15-112-120. Basic Leadership Laboratory is mandatory for Air Force ROTC cadets, and it complements this course by providing cadets with their first opportunity for applied leadership experiences discussed in class. BoK: HP. Credit Level: U. Credit Hrs: 1.00

15AF202

Aerospace Studies 200: The Air Force Way

AS 200 is a survey course designed to facilitate the transition from Air Force ROTC cadet to Air Force ROTC candidate. Featured topics include: Air Force heritage, Air Force leaders, quality Air Force, and introduction to ethics and values, introduction to leadership, group leadership problems, and continuing application of communication skills. 15-115-120. Basic Leadership Laboratory is mandatory for Air Force ROTC cadets, and it complements this course by providing cadets with their first opportunity for applied leadership experiences discussed in class. This is the second offering in a three-part course sequence. BoK: HP. Credit Level: U. Credit Hrs: 1.00

15AF203

Aerospace Studies 200: The Air Force Way

AS 200 is a survey course designed to facilitate the transition from Air Force ROTC cadet to Air Force ROTC candidate. Featured topics include: Air Force heritage, Air Force leaders, quality Air Force, and introduction to ethics and values, introduction to leadership, group leadership problems, and continuing application of communication skills. 15-112-120. Basic Leadership Laboratory is mandatory for Air Force ROTC cadets, and it complements this course by providing cadets with their first opportunity for applied leadership experiences discussed in class. This is the third offering in a three-part course sequence. BoK: HP. Credit Level: U. Credit Hrs: 1.00

15AF301

Aerospace Studies 300: Air Force Leadership and Management

AS 300 is a study of leadership and quality management fundamentals, professional knowledge, Air Force doctrine, leadership ethics, and communication skills required of an Air Force junior officer. Case studies are used to examine Air Force leadership and management

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Air Force ROTC**15AF301****Aerospace Studies 300: Air Force Leadership and Management**

situations as a means of demonstrating and exercising practical application of the concepts being studied. 15-115-320 Advanced Leadership Lab is mandatory and complements this course by providing advanced BoK: HP., SE. Credit Level: U. Credit Hrs: 3.00

15AF302**Aerospace Studies 300: Air Force Leadership and Management**

AS 300 is a study of leadership and quality management fundamentals, professional knowledge, Air Force doctrine, leadership ethics, and communication skills required of an Air Force junior officer. Case studies are used to examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts being studied. 15-115-320 Advanced Leadership Lab is mandatory and complements this course by providing advanced leadership experiences in officer-type activities, giving students the opportunity to apply leadership and management principles of this course. This is the second offering in a three-part course sequence. BoK: HP., SE. Credit Level: U. Credit Hrs: 3.00

15AF303**Aerospace Studies 300: Air Force Leadership and Management**

AS 300 is a study of leadership and quality management fundamentals, professional knowledge, Air Force doctrine, leadership ethics, and communication skills required of an Air Force junior officer. Case studies are used to examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts being studied. 15-115-320 Advanced Leadership Lab is mandatory and complements this course by providing advanced leadership experiences in officer-type activities, giving students the opportunity to apply leadership and management principles of this course. This is the third offering in a three-part course sequence. BoK: HP., SE. Credit Level: U. Credit Hrs: 3.00

15AF320**Advanced Leadership Lab**

The AS 300 and AS 400 LLabs consist of activities classified as advanced leadership experiences. They involve the planning and controlling of military activities of the cadet corps and the preparation and presentation of briefings and other oral and written communications. LLABs also include interviews, guidance, and information which will increase the understanding, motivation, and performance of other cadets. This course also requires two (2) mandatory hours of Physical Training (PT) per week. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15AF401**Aerospace Studies 400: Preparation for Active Duty**

AS 400 examines the national security process, regional studies, advanced leadership ethics, and Air Force doctrine. Special topics of interest focus on the military as a profession, officership, military justice, civilian control of the military, preparation for active duty, and current issues affecting military professionalism. Within this structure, continued emphasis is given to refining communication skills. 15-112-320 Advanced Leadership Lab is mandatory and complements this course by providing advanced leadership experiences, giving the students the opportunity to apply the leadership and management principles of this course. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00

15AF402**Aerospace Studies 400: Preparation for Active Duty**

AS 400 examines the national security process, regional studies, advanced leadership ethics, and Air Force doctrine. Special topics of interest focus on the military as a profession, officership, military justice, civilian control of the military, preparation for active duty and current issues affecting military professionalism. Within this structure, continued emphasis is given to refining communication skills. 15-112-320 Advanced Leadership Lab is mandatory and complements this course by providing advanced leadership experiences, giving the students the opportunity to apply the leadership and management principles of this course. This is the second offering in a three-part

Air Force ROTC**15AF402****Aerospace Studies 400: Preparation for Active Duty**

course sequence. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00

15AF403**Aerospace Studies 400: Preparation for Active Duty**

AS 400 examines the national security process, regional studies, advanced leadership ethics, and Air Force doctrine. Special topics of interest focus on the military as a profession, officership, military justice, civilian control of the military, preparation for active duty, and current issues affecting military professionalism. Within this structure, continued emphasis is given to refining communication skills. 15-112-320 Advanced Leadership Lab is mandatory and complements this course by providing advanced leadership experiences, giving the students the opportunity to apply the leadership and management principles of this course. This is the third offering in a three-part course sequence. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00

African-American Studies**15AFAM101****Introduction to African and African American Studies**

Introduction to the history, core concepts, guiding questions, and current issues in the field of African and African American Studies. Transfer Module. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

15AFAM106**Freshman Seminar: The African Diaspora and the United States**

In this course students will learn about the African Diaspora and its relevance in the United States today. We will explore literature, history and sociology on this topic. Members and affiliates of the African and African American Studies Department will appear as guest lecturers. The course will include a field trip to the Freedom Center. BoK: DC., HU. Credit Level: U. Credit Hrs: 3.00

15AFAM107**Freshman Seminar: The African Diaspora and Socio-cultural Experience**

The unique socio-cultural experience of the African Diaspora is conveyed through its music, art and folk wisdom. This course will explore the global interpretations of these experiences. One example is the commodification of hip-hop throughout Africa and the Diaspora. Activities will include reading, discussion, outreach and field trips. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

15AFAM108**Freshman Seminar: The African Diaspora in the Twenty-first Century**

This course will examine the African Diaspora in global context through a historical lens. We will look at the phenomena of Soweto in South Africa, favelas in Brazil, enclaves of Black Brits, and urban ghettos of Black America. We will examine how people of African descent have been historically marginalized in Africa, Europe and North and South America. BoK: DC., HP. Credit Level: U. Credit Hrs: 3.00

15AFAM109**Freshman Seminar: The African Diaspora in Literature**

In this course students will study literature of the African Diaspora, including poetry and prose about Africa, the Caribbean, and the US. As the last in a series of freshman seminars devoted to the African Diaspora and the US, this seminar will include readings, discussion, a field trip and community outreach. BoK: DC., HU. Credit Level: U. Credit Hrs: 3.00

15AFAM120**Beginning Yoruba**

Instruction in the basic elements of Yoruba, a major West African language (Nigeria). Taught in distance learning. Does not satisfy foreign language requirement. BoK: DC., HP. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

African-American Studies**15AFAM204****Introduction to Black Gender Studies**

Introduction to gender and gender oppression as major organizing principles in African-American social institutions, culture, and politics. BoK: DC. Credit Level: U. Credit Hrs: 3.00

15AFAM206**African Diaspora Cultures I: African Cultures**

An analysis of traditional and/or contemporary cultures and aspects of cultural production in the African continent. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15AFAM207**The African Diaspora Cultures II: African American Cultures**

An analysis of traditional and/or contemporary cultures and aspects of cultural production of people of African descent in the United States. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15AFAM208**African Diaspora Cultures III: Afro-Latin and Caribbean Cultures**

An analysis of traditional and/or contemporary cultures and aspects of cultural production of people of African descent in Latin American and Caribbean societies. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15AFAM227**Introduction to Modern Africa**

An interdisciplinary course offering a general understanding of contemporary Africa, especially Africa south of the Sahara Desert. This course covers some critical issues and problems facing Africa today. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15AFAM234**Sociology of the Black Community**

Introduction to issues affecting African-American communities including institutional discrimination and contrasting views of Black culture. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15AFAM235**Sociology of the Black Community**

Survey of Black cultural institutions including family, religion, music, and dance. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15AFAM236**Sociology of the Black Community**

Survey of race, poverty, and the urban underclass. Special attention to Cincinnati Black communities. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15AFAM245**African-American Drama**

Survey of Black drama and the role of Blacks in the theater from post-Civil War through the Depression years. Transfer Module. BoK: FA, LT. Credit Level: U. Credit Hrs: 3.00

15AFAM246**African-American Drama**

Survey of Black drama and the role of Blacks in theater and film from the late 1930s up to the present. Transfer Module. BoK: FA, LT. Credit Level: U. Credit Hrs: 3.00

15AFAM247**Black Drama Studio**

Students will apply the principles of Black drama encountered in prior course work, by participating in the performance and/or production of a dramatic presentation. Perm of Instructor. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15AFAM291**The Black Adolescent Male**

A survey of the psycho-cultural influences occurring during adolescence that affect the Black male in American society. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

African-American Studies**15AFAM301****African History: Antiquity to 18th Century**

A study of ancient African history and civilization: southern origins of Egyptian civilization, and the early empires of the Western Sudan-Ghana, Mali, Songhay, and Zimbabwe empires in Southern Africa. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15AFAM302**African History: 18th Century to 1945**

The genesis of modern African history. History of African social and political institutions before the European conquest. The European settlements in Africa; the Atlantic slave trade and Euro-Christian and Islamic influence before partition of Africa. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15AFAM303**African History: 1935 to Present**

The partition and colonization of Africa by European countries. African response to European conquest. Colonial administration of Africa up to the end of World War II. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15AFAM304**Black Men in U.S. Society**

An examination of how systems of race, class, and gender shape the experiences of African-American men. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15AFAM305**Black Women in U.S. Society**

An examination of how systems of race, class, and gender shape the experiences of African-American women. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15AFAM307**Blacks in Science and Technology**

An historical exploration of the contributions of African and African Americans to science and technology. Topics include social factors affecting the ways in which these contributions have been viewed by the West, and the special challenges that people of African descent face in controlling the scientific and technological products of their imaginations. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15AFAM308**Women in African History**

Explores the social, economic and political roles that women have played in African History. BoK: DC., HP. Credit Level: U. Credit Hrs: 3.00

15AFAM309**Black Families in Diasporic Context**

Overview of historical and contemporary issues of African American family life as well as experiences throughout the African Diaspora. Formerly 15AFAM310. BoK: DC., HP. Credit Level: U. Credit Hrs: 3.00

15AFAM310**African American Literature**

African American Literature from the mid-eighteenth century to the turn of the twentieth century. Formerly 15AFAM210. BoK: LT., DC. Credit Level: U. Credit Hrs: 3.00

15AFAM311**African American Literature**

Survey African American Literature from beginning of the twentieth century to Richard Wright emphasizing the new Negro Renaissance and the Depression years. Formerly 15AFAM211. BoK: LT., DC. Credit Level: U. Credit Hrs: 3.00

15AFAM312**African American Literature**

Survey of modern African American Literature with consideration to its growth and development from Richard Wright through Black Womanist Literature. Formerly 15AFAM212. BoK: LT., DC. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

African-American Studies

15AFAM316

African American Poetry I

A study of early African-American poets from Phillis Wheatley to Sterling Brown with emphasis on the thematic and stylistic development. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15AFAM317

African American Poetry II

The exploration of African-American poetry since the 1950s with attention to the various traditions in modern African-American literature, i.e., Civil Rights Era, New Black Arts Movement, Black womanist tradition. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15AFAM321

Black Entrepreneurship

An exploration of the business culture in which African American entrepreneurs operate. Topics include the role of socialization in affecting the way the prospective entrepreneur, the consumer, and lending institutions view the concept of Black entrepreneurship. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15AFAM322

African American History to 1860

Examination of African Americans from 1619 to the Civil War, including major West African civilizations, the slave trade and slavery. BoK: HP., DC. Credit Level: U. Credit Hrs: 3.00

15AFAM323

African American History: 1860-1930

Examination of African Americans from the Civil War to the end of the nineteenth century. Emphasis on Civil War and Reconstruction. BoK: HP., DC. Credit Level: U. Credit Hrs: 3.00

15AFAM324

African American History: 1930-Pres

Examination of African Americans in the twentieth century. Topics include protest, nationalism, and black power. BoK: HP., DC. Credit Level: U. Credit Hrs: 3.00

15AFAM326

African-Americans and Education

An exploration of African American experience in American educational institutions. Topics include African-Americans and K-12 public education, Blacks in higher education, racial desegregation and Black achievement, and the growth specialized schools. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15AFAM345

African Religion

Introduces students to the complexity and dynamics of religions conceptualization and practice in Sub-Saharan Africa. On-line course. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

15AFAM360

Literature of the African Diaspora I

Examines the journey narrative in literature by writers of African descent with emphasis on critical and comparative approaches. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15AFAM361

Literature of the African Diaspora II

Explores intertextual and comparative relationships in texts by women writers of African descent. Special emphasis will be placed on the Caribbean and the United States. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15AFAM362

Literature of the African Diaspora III

Examines global literary and aesthetic movements by writers and critics of the African Diaspora. Specialized topics include: the Harlem Renaissance, the Negritude Movement, Pan-African thought, etc. BoK: LT. Credit Level: U. Credit Hrs: 3.00

African-American Studies

15AFAM363

African Literature I: Introduction

Contemporary African literature from Nigeria, Ghana, Kenya, Zimbabwe, and Senegal, reflecting both traditional and post-colonial subjects and form. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15AFAM364

African Literature II: Topics

A study of topics, themes, genres, or regions in contemporary African Literature reflecting both traditional and post-colonial subjects and form. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15AFAM365

African Literature III: Drama

This course focuses on plays written in South Africa, Kenya, Nigeria, and Ghana. They deal with the consequences of colonialism and racism and problems of political, cultural, personal and linguistic identity. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15AFAM366

Cultures of Africa

Pre-colonial African thought, social and economic values, and how they have been influenced by external forces. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

15AFAM367

Caribbean Literature

Surveys contemporary Caribbean literatures, examines key themes addressed within literary texts written by authors from the archipelago. BoK: DC., LT. Credit Level: U. Credit Hrs: 3.00

15AFAM370

W.E.B. DuBois & the African American Experience

This course will acquaint students with DuBois' major works and his life as a scholar and political activist in America during the first fifty years of his life. BoK: DC., HP. Credit Level: U. Credit Hrs: 3.00

15AFAM371

20th Century Black Internationalism: Globalization and American Experience

Acquaints students with the lives of black leaders like W.E.B DuBois, Claudia Jones, Paul Robeson, Willis Nathaniel Higgins & William Patterson, who internationalized the black struggle for freedom, democracy and human rights in America. BoK: DC., HP. Credit Level: U. Credit Hrs: 3.00

15AFAM380

The Black Church in America

The role of the Black church in the African American historical, religious, cultural, and political experience. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15AFAM386

Black Politics

The political behavior of Black people, the Black community involvement in voter registration and the impact of the Black vote on the American society. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15AFAM395

Race and Politics in America: 1936 to the present

This course offers an overview of African American voting behavior and enfranchisement, the historic breakthroughs by African Americans in appointed positions and elective office, and the relevance of conservative and liberal ideologies for the black community. BoK: DC., HP. Credit Level: U. Credit Hrs: 3.00

15AFAM397H

African Americans and State-Sponsored Injustice/ Inequality

Addresses the relationship African Americans have had with the state in the post-civil rights era. BoK: DC., HP. Credit Level: U. Credit Hrs: 3.00

15AFAM401

Research and Writing in African American Studies

A workshop on writing research papers and other forms of writing in the field of African American Studies. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

African-American Studies**15AFAM401****Research and Writing in African American Studies**

3.00

15AFAM404**Contemporary Black Film, 1960 to the Present**

Explores the range of genre and topics projected by Blacks in contemporary film. Particular emphasis will be placed upon the impact of African film and the proliferation of films acted in, authored, directed, and produced by African-Americans. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15AFAM414**Politics in Post-Colonial Africa**

Examines political development in Africa since independence: single-party rule, military governments, and the concept of African socialism. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15AFAM430**African-American Adolescence**

An overview of U.S. Black males and U.S. Black females through the experience of adolescence. Topics covered include Black adolescent development, Black youth school achievement, patterns and unemployment, Black youth and the drug industry, teen pregnancy and parenting, and violence and Black youth. Special attention is given to grassroots and other community responses to issues facing Black adolescents. Prereq: 15AFAM234, 15AFAM235, 15AFAM236. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15AFAM431**Black Urban Poverty**

An introduction to poverty as a major social issue facing urban African-American communities. Uses institutional discrimination to develop a comprehensive analysis of Black urban poverty as shaped by race, class, and gender. Topics include: Surveying how Black poverty has been analyzed in scholarship and public policy, Assessing specific public programs such as urban renewal, school desegregation and busing, and Public housing. BoK: SS. Credit Level: U. Credit Hrs: 4.00

15AFAM432**Black Health Care**

BLACK HEALTH CARE BoK: HP. Credit Level: U. Credit Hrs: 3.00

15AFAM433**The Economic Transformation of Africa**

Examines the various economic paths that Africa has experienced since the pre-colonial period to the continent's current struggles to survive in an increasingly global economy. BoK: QR., DC. Credit Level: U. Credit Hrs: 3.00

15AFAM442**Religion in African American Literature**

An exploration of religious themes in African American literature, with emphasis on the twentieth century. Formerly 15AFAM342. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

15AFAM443**Race in African American Literature**

African American writers and their treatment of race in selected fiction, poetry, and exposition. Formerly 15AFAM343. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

15AFAM450**West African History and Civilizations**

Examines process of state formation, the trans-Saharan Trade, the trans-Atlantic slave trade and other historical development in West Africa prior to the Europeans. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15AFAM451**Colonization, Nationalism and Post-Colonial West African States**

Examine European colonization, the various colonial policies, the struggle for independence and developments since independence. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00

African-American Studies**15AFAM452****Liberation Struggles**

This course focuses on the movements of people of African descent in search of freedom from colonialism, racial oppression, slavery and apartheid. Topics include the African American Civil Rights Movement, the South African of the anti-apartheid movement, and anti-colonial movements of Africa and the Caribbean. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00

15AFAM453**Afro-Caribbean and Afro-Latin American History**

A study of the history and people of African descent in the Caribbean, Central and South America from slavery to the present. Topic include slavery and resistance, post-emancipation labor systems, the rise of Pan African and modern Black hemispheric politics. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15AFAM460**Africana Demography**

Explores the demographic dynamics in the African Diaspora, including issues of population growth, contraction and movement. Perm of Instructor. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

15AFAM462**History of South Africa**

A study of the history of southern Africa; the Mfecane white settlement and the politics of Apartheid. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15AFAM470**The City in African American Literature**

Examines the Black urban experience in 20th century fiction and explores how post-Harlem Renaissance writers conceive of the modern city. Includes service learning component. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15AFAM479**Racism**

Personal, institutional and cultural consciousness related to sexual attraction, justice and social change. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15AFAM505**Research in African American Studies**

An introduction to questions, issues and themes concerning research in African American Studies, in particular, those concerning the design, implementation, and evaluation of research projects. Students work on research projects under supervision of faculty advisor. Perm of Instructor. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15AFAM506**Topics in Contemporary Black Film**

Examines post 1960 independent and Hollywood films from a topical approach. Students will discuss how the themes are interrelated and how their representations have contributed in the construction of everyday life in the United States. Prereq: 15AFAM404. BoK: DC, HU. Credit Level: U. Credit Hrs: 3.00

15AFAM508**Seminar in African World History**

Intensive study of a selected topic in the history of people of African descent in the African continent, the Caribbean, Latin America, and/or Europe. Perm of Instructor. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

15AFAM509**Seminar in African American History**

Explores the process of conducting research in African American History. Students work collaboratively and individually toward the production of a seminar paper. Perm of Instructor. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

15AFAM515**African American Social and Political Thought**

This course will examine the intellectual history of African-American

H=University Honors course.

from the epoch of slavery to the present. We will explore African-American political, social, economics, and artistic thought with particular attention to developing conceptions of the meaning of freedom, Black identity and issues of race, class, and gender. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00

15AFAM520**Internship in African American Studies**

Internship experience that allows students to investigate the applicability of African American Studies in the work world. Prereq: 15AFAM597. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15AFAM521**Internship in African American Studies**

Internship experience that allows students to investigate the applicability of African American Studies in the work world. Prereq: 15AFAM597. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15AFAM522**Teaching Practicum in African American Studies**

Upon invitation and under supervision of faculty, junior and senior area majors serve as teaching assistants for lower division African American Studies courses. Perm of Instructor. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15AFAM530**Seminar in Black Creative Expression**

Intensive study of selected topics germane to the creative vision of African Americans as represented in the various artistic domains. Perm of Instructor. BoK: DC, HU. Credit Level: U. Credit Hrs: 3.00

15AFAM532**Black Popular Culture**

Black Popular Culture BoK: HU. Credit Level: U, G. Credit Hrs: 3.00

15AFAM535**Seminar in Black Social Organization**

Analysis of social, political, and economic development of Black communities. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

15AFAM537**Individual Study**

Students work in a chosen area of studies. Work consists of (a) internship problems, (b) individual research paper or project, or (c) Black readings. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15AFAM538**Individual Study**

See 15-093-537. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15AFAM539**Individual Study**

See 15-093-537. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15AFAM540**Pan-Africanism: Politics of Unity**

Examination of the nature of historical roots of Pan-Africanism in the Diaspora, and its emergence on the continent. Also examines the nature, structure, and functioning of the OAU in the context of international politics. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00

15AFAM550**Comparative Racial Oppression in the United States and South Africa**

This course focuses on the movements of people of African descent for freedom from colonialism, racial oppression and racism, slavery and apartheid. Using a comparative approach, it traces evolving programs and conceptions of the freedom struggle across generations and regions. Topics include the African American Civil Rights Movement, the South African anti-apartheid movement, the anticolonial movements of Africa and the Caribbean. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00

African-American Studies**15AFAM550****Comparative Racial Oppression in the United States and South Africa**

This course focuses on the movements of people of African descent for freedom from colonialism, racial oppression and racism, slavery and apartheid. Using a comparative approach, it traces evolving programs and conceptions of the freedom struggle across generations and regions. Topics include the African American Civil Rights Movement, the South African anti-apartheid movement, the anticolonial movements of Africa and the Caribbean. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00

15AFAM559**Black Feminism**

An analysis of historical and/or contemporary feminist thought and activism of women of African descent. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00-4.00

15AFAM562**Topics in African American Literature**

An analysis of selected topics in the fiction, poetry, drama, and other forms of literature of African Americans. BoK: LT. Credit Level: U, G. Credit Hrs: 4.00

15AFAM563**Topics in Black Gender Studies**

An analysis of selected topics in how gender affects the history, social organization and cultural production of men and women of African descent in the African continent, the Caribbean, Latin America, and/or Europe. Perm of Instructor. BoK: SS. Credit Level: U, G. Credit Hrs: 4.00

15AFAM564**African American Art 1945 to present**

Designed to familiarize students with art by Black Americans. Issues include aesthetic, abstract and configurative representations. BoK: DC., FA. Credit Level: U, G. Credit Hrs: 3.00

15AFAM565**Topics in Black Community Organization**

An analysis of selected topics in the social instructions and social organization of people of African descent in the African continent, the Caribbean, Latin America, and/or Europe. Perm of Instructor. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00-4.00

15AFAM566**Topics in African World History**

An analysis of selected topics in the history of people of African descent in the African continent, the Caribbean, Latin America, and/or Europe. Perm of Instructor. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00-4.00

15AFAM567**Topics in Black Cultural Studies**

An analysis of selected topics in and the traditional and contemporary cultures and cultural production of people of African descent in the African continent, North America, the Caribbean, Latin America, and/or Europe. Perm of Instructor. BoK: LT. Credit Level: U, G. Credit Hrs: 3.00-4.00

15AFAM575**Black Male Contemporary Issues**

An understanding of the many contemporary issues which confront Black males in America. Sociological and psychological aspects of Black male behavior and attitudes. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15AFAM576**Seminar in Black Gender Studies**

An examination of how ideas about sexuality and power affect relationships among African-American men and women and between U.S. Blacks and other groups. BoK: SE., SS. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

African-American Studies**15AFAM580****The Law and Black People**

This course is an in-depth analysis of the sociological, psychological, and economical aspects of the justice system and laws as they relate to Black people with special emphasis on the immediate community. A seminar with term papers and with speakers in law-related positions in the Cincinnati community. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15AFAM581**The Law and Black People**

This course is an in-depth analysis of the sociological, psychological, and economical aspects of the justice system and laws as they relate to Black people with special emphasis on the immediate community. A seminar with term papers and with speakers in law-related positions in the Cincinnati community. The second offering in a three-part course sequence. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15AFAM582**The Law and Black People**

This course is an in-depth analysis of the sociological, psychological, and economical aspects of the justice system and laws as they relate to Black people with special emphasis on the immediate community. A seminar with term papers and with speakers in law-related positions in the Cincinnati community. The third offering in a three-part course sequence. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15AFAM587**African American Women's History**

Traces the experiences of African American women against the backdrop of racism, sexism and classism in American Society. BoK: DC., HP. Credit Level: U. Credit Hrs: 3.00

15AFAM589**Early Black Women Writers: Wheatley to Hurston**

A survey of early Black women's literature with emphasis on the contributions of major writers to the development of Black women's literary tradition. BoK: LT. Credit Level: U, G. Credit Hrs: 3.00

15AFAM590**Contemporary Black Women Writers: Hurston to Present**

A study of modern literature by Black women writers with special emphasis on the writers' contributions to Black women's literary tradition. BoK: LT. Credit Level: U, G. Credit Hrs: 3.00

15AFAM591**IND ST BLK GENDER**

IND ST BLK GENDER BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-4.00

15AFAM592**Internship in Black Gender Studies**

Students plan and participate in internship in Black gender studies in community organizations. Requirements include 30 hours of unpaid community service and summary report. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-4.00

15AFAM593**Current Issues in Black America**

Topics of special significance to Blacks in contemporary society, i.e., unemployment, housing, private and public education, sexism among Blacks, etc. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15AFAM595**Senior Honors Project I**

Under supervision of full-time faculty, advanced individual study on senior honors thesis or project. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15AFAM596**Senior Honors Project II**

Under supervision of full-time faculty, advanced individual study on senior honor thesis or project. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

African-American Studies**15AFAM597****Seminar in African American Studies**

A capstone seminar for African American Studies majors. The major requirement consists of preparing a seminar paper or senior project. Prereq: 15AFAM508, 15AFAM509. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15AFAM600**Independent Study**

Master's and doctoral candidates can also take 500 level courses. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-9.00

15AFAM601**Independent Study**

See 15-093-600. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-9.00

MASTHESIS RESEARCH Credit Level: G. Credit Hrs: 3.00-9.00

15AFAM902**Directed Reading**

b Credit Level: G. Credit Hrs: 3.00-15.00

Anthropology**15ANTH100****Introduction to Anthropology**

This course introduces students to the field of anthropology and its four subfields, linguistics, social/cultural anthropology, physical anthropology, and archaeology. The course provides students with a foundation in anthropological knowledge that helps them to understand human cultural and biological variation and its intersection with important issues such as globalization, cultural conflict, ethnicity, racism, and identity. BoK: DC., SS. Credit Level: U. Credit Hrs: 3.00

15ANTH101**Cultural Anthropology**

An introduction to the study of culture and its aspects, emphasizing the evolution of cultural systems. Transfer Module. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

15ANTH102**Cultural Anthropology**

An introduction to the study of culture and its aspects, emphasizing the evolution of cultural systems. The second offering in a three-part course sequence. Prereq: 15ANTH101. Transfer Module. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

15ANTH103**Cultural Anthropology**

An introduction to the study of culture and its aspects, emphasizing the evolution of cultural systems. The third offering in a three-part course sequence. Transfer Module. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

15ANTH104**Biological Anthropology**

Introduction to evolutionary theory, genetics, speciation, and the ecological strategies of non-human primates. BoK: NS., SS. Credit Level: U. Credit Hrs: 3.00

15ANTH105**Biological Anthropology**

Introduction to life history and mating strategies of non-human primates, the evolution of primates, and the fossil record of early human ancestors. Prereq: 15ANTH104. BoK: NS, SS. Credit Level: U. Credit Hrs: 3.00

15ANTH106**Biological Anthropology**

Examines the evolution of modern humans, biological variation in human populations, mate choice, parenting strategies and the biological basis of human behavior. Fulfills 3 credit hours of the Natural Science

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Anthropology**15ANTH106****Biological Anthropology**

requirements. Prereq: 15ANTH104, 15ANTH105. BoK: NS, SS. Credit Level: U. Credit Hrs: 3.00

15ANTH107**Introduction to Archaeology**

Examines goals of archaeological research; formation processes; remote sensing; survey, excavation, and dating techniques; artifact classification; data analysis, interpretation. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15ANTH108**World Prehistory**

Survey of selected prehistoric cultural sequences in the Old World until the time of the Romans and in the New World before European contact. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00

15ANTH109**Introduction to Linguistic Anthropology**

Introduction to the study of linguistic systems from an anthropological perspective, addressing key topics in the field related to language structure, language use, and language change. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15ANTH150**Cultural Modification Of The Body**

An anthropological investigation of the modification of the human body, including tattooing, piercing and other skin and bone modifications. Discusses the cultural ideology behind modifications, the osteological/musculo-skeletal ramifications of some of modifications, and the evolution of these modifications in western societies. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15ANTH151**People and Wetlands**

Examines several case studies from around the that address the complexity of human interactions with wetlands and their many cultural values. In many of these cases, wetlands are viewed as places of pestilences that should be avoided, as are the people who are associated with them, and thus the degree to which people interact with or inhabit wetland landscapes often contributes to the emergence of inequalities and structuring of power relationships between groups. This course engages students both with contemporary issues re: wetland preservation and with current ethnographic and archaeological research on people who live in wetland settings. BoK: SE. Credit Level: U. Credit Hrs: 3.00

15ANTH190**Fantastic Archaeology and Archaeological Mysteries: Science vs Pseudoscience**

Fantastic claims about the human past are widely available on television, in books and newspapers, and on the internet. Acceptance of such claims as fact is increasing, despite the fact that they are often based on pseudoscientific claims or unverifiable evidence. This freshman seminar examines how scientific knowledge is accumulated, particularly knowledge about the past, and examines the methodological differences between science and pseudoscience in archaeology. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15ANTH191**Archaeology of Slavery, Colonialism, and Freedom**

One of the greatest contributions of archaeology is its ability to give voice to populations whose perspectives are poorly documented in historical records, such as slaves, through the material record of their past. Through an examination of recent archaeological studies of the slave trade, the conditions of slavery, the Underground Railroad, and life after emancipation in the eastern United States and the Caribbean, students will gain a greater understanding of the nature of American slavery, its colonial roots, and its aftermath. We will also compare American slavery with ancient examples of slaveholding societies. This is a Freshman Seminar. BoK: SS. Credit Level: U. Credit Hrs: 3.00

Anthropology**15ANTH195****Individual Study Research Honors**

Honors topic and credit to be arranged with instructor. BoK: SS. Credit Level: U. Credit Hrs: 1.00-15.00

15ANTH196**Individual Study Research Honors**

Honors topic and credit to be arranged with instructor. BoK: SS. Credit Level: U. Credit Hrs: 1.00-15.00

15ANTH197**Individual Study Research Honors**

Honors topic and credit to be arranged with instructor. BoK: SS. Credit Level: U. Credit Hrs: 1.00-15.00

15ANTH204**Great Discoveries in Archaeology**

Surveys important prehistoric discoveries worldwide and examines them from the perspective of archaeological science and anthropological theory. Critiques popular culture presentations of the past. BoK: DC., HP. Credit Level: U. Credit Hrs: 3.00

15ANTH230**Languages of the World**

Studies how language and languages work, with examples from major and representative minor language families in ethnological, geographic, historical and typological perspectives. Transfer Module. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

15ANTH231**Languages of the World**

Studies how language and languages work, with examples from major and representative minor language families in ethnological, geographic, historical and typological perspectives. Prereq: 15ANTH230. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

15ANTH232**Language and Culture**

Variation in language associated with other cultural variables, including social organization and world view. Linguistic relativity, multi-glossia, linguistics and prehistoric cultures. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15ANTH250**Religion in Culture**

Cross-cultural comparative study of systems of ritual and belief, particularly as related to other aspects of culture. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15ANTH275**Film and Anthropology**

Documentary film production and the communication of anthropology to global audiences. Topics include the theory of anthropological filmmaking, analysis of the dynamics of anthropological film genres, and the methods of cinema used to convey the results of anthropological studies and knowledge. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

15ANTH278**Old World Prehistory**

A developmental approach to the prehistory of the Old World from human origins in Africa to the initial experiments in civilization. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00

15ANTH279**Medical Anthropology**

A cross-cultural introduction to the epidemiology, causation, and treatment of disease in different ecologies and cultures. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15ANTH280**Forensic Anthropology**

Forensic Anthropology focuses on the recovery, analysis and identification of human remains in a forensic setting. Students will be introduced to the history; basic principles: determination of age, sex, ancestry, and stature for skeletal remains; trauma analysis; field

Anthropology**15ANTH280****Forensic Anthropology**

recovery techniques; time since death estimation and other pertinent topics. Prereq: 15ANTH104, 15ANTH105, 15ANTH106. BoK: QR, NS. Credit Level: U. Credit Hrs: 3.00

15ANTH290**Ecological Anthropology**

Examines the ways in which societies interact with their environments. Topics include subsistence adaptations, population growth and regulation, ethnoecology, cooperative resource management, and globalization. Special consideration is given to the relevance of these topics for conservation and sustainable development. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

15ANTH301**Cultural Resource Management**

The protection and management of cultural heritage, including archaeological, historical and landscape data and objects, records, non-cultural materials, reports, and digital data. Course covers an overview of laws and regulations related to cultural resource management, including archaeological collections, historical preservation, and museums. The course includes a practicum. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

15ANTH303**Southwest Prehistory**

An introduction to the prehistoric cultural patterns and trends in the archaeological record of the American Southwest. Topics include the development of political, settlement, and economic systems. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00

15ANTH305**Maya Prehistory**

An introduction to the prehistoric cultural patterns and trends in the archaeological record of ancient Maya and their immediate neighbors. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00

15ANTH308**New World Prehistory**

Survey of selected cultural sequences in North, Middle, and South America prior to European contact, including both civilized and non-civilized cultures. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00

15ANTH309**Ohio Valley Prehistory**

Sequence of cultures and development of archaeological research in eastern North America with emphasis on the Ohio Valley. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00

15ANTH319**Introduction to Afro-Brazilian Anthropology**

The course explores the history and ethnography of the African diaspora in Brazil from the colonial period to the present. Topics will include development and current forms of Afro-Brazilian culture, the intersections of race, racism and identity, present-day social and economic problems facing Afro-Brazilians, and the emergence of grassroots movements and political activism. BoK: DC., SS. Credit Level: U. Credit Hrs: 3.00

15ANTH320**Balkan Peoples**

People and cultures of SE Europe (Greece, Serbia, Bosnia, Rumania, etc.). Peasant life amid the larger societies. Ethnogenesis and interrelations of groups and the Balkan language area. Sources of ethnic conflict. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15ANTH322**Peoples of Siberia, Central Asia, and Turkey**

Representative peoples, culture, and nature of adaptations to the arctic and subarctic ecological base. Cultural base of modern Turkey and Turkish secularization. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

Anthropology**15ANTH325****Identities and Material Culture**

This course will explore the ways in which the material world is implicated in the production and assertion of identity, and how the use of material culture to express identity can be interpreted in both modern and ancient contexts. The course takes an integrated anthropological approach. Case studies will be drawn from ethnographic and archaeological sources. BoK: HP., DC. Credit Level: U. Credit Hrs: 3.00

15ANTH326**Peoples of Japan**

Reviews anthropological work on the nature of sociocultural systems of Japan. Attention to modernization and the maintenance of cultural integrity. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15ANTH327**Anthropology Junior Readings**

Topic and credit to be arranged with instructor. BoK: SS. Credit Level: U. Credit Hrs: 1.00-15.00

15ANTH328**Anthropology Junior Readings**

Topic and credit to be arranged with instructor. BoK: SS. Credit Level: U. Credit Hrs: 1.00-15.00

15ANTH329**Anthropology Junior Readings**

Topic and credit to be arranged with instructor. BoK: SS. Credit Level: U. Credit Hrs: 1.00-15.00

15ANTH330**Honors Special Topics**

Topics in anthropology for Honors students. Prereq: Permission of instructor. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15ANTH333**Peoples of the Caribbean**

The peoples and cultures of the Caribbean and circum-caribbean region. Overview of European colonialism and slavery and their impact on indigenous populations and on the social, religious, and ethnic identities of contemporary Caribbean peoples. BoK: HP., DC. Credit Level: U. Credit Hrs: 3.00

15ANTH334**Indians of Mexico and Guatemala**

Aboriginal Indian and contemporary peasant cultures of Mexico and Guatemala. Prereq: 15ANTH102. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

15ANTH335**Indians of North America**

A description of modern Native American cultures of the United States and Canada, including history, social organization, and current issues. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15ANTH341**The Anthropology of Food**

An exploration of the different approaches that archaeologists, ethnologists, biological anthropologists and linguists take to the study of food and its role in human societies. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15ANTH346**Country and City**

The anthropological literature on movements between rural and urban spaces; cultural and symbolic transitions, hybridity, and identity transformations. BoK: DC., SS. Credit Level: U. Credit Hrs: 3.00

15ANTH354**Identities: Ethnic, Gender, Class, (Trans)National**

Anthropological perspectives on identities, how they are formed, and how they change. Emphasis will be on ethnic identities and their interaction with other types of identities, such as gender, class, national, and transnational identities. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Anthropology**15ANTH354****Identities: Ethnic, Gender, Class, (Trans)National**

Anthropological perspectives on identities, how they are formed, and how they change. Emphasis will be on ethnic identities and their interaction with other types of identities, such as gender, class, national, and transnational identities. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15ANTH355**Peoples of Lowland Tropical America**

From Amazon to Mexico: the ecological and cultural diversity of peoples adapted to the lowland tropics; based on ethnographies and other materials. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15ANTH360**Origins of Agriculture**

The processes by which people domesticated plants and intensified plant use are examined. Although a world-wide perspective will be taken, New World examples will be emphasized. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00

15ANTH362**Origins of Civilization**

The origins of complex community organization in both New and Old Worlds are examined. The effects of trade, warfare, large scale irrigation systems, and the influence of population growth will be assessed. Examples of these developmental trends will draw principally from Middle America and the Near East. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00

15ANTH370**Historical Archaeology**

Archaeology of the recent past, when written documentation is available, including colonial and post-colonial development. Includes an introduction to Ethnohistory as well as historic structures and sites. Prereq: 15ANTH107. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

15ANTH379**Medical Anthropology II**

This course builds on the Introduction to Medical Anthropology (279) with an emphasis upon clinically applied anthropology. Prereq: 15ANTH279. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

15ANTH385**Stars, Time, and Culture**

The use of astronomy and calendars in tribal and pre-industrial state societies and theories on the origins of primitive astronomical knowledge. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15ANTH413**Economic Anthropology**

Covers contemporary and classic readings that focus on theories of households and women, especially in times of globalization with new forms of labor organization, migration and revised gender roles; looks at these factors at the household level and their relation to the larger world and includes research project on the effects of that larger world on households and individuals. Prereq: 15ANTH101. BoK: DC, SE. Credit Level: U. Credit Hrs: 3.00

15ANTH418**Applied Anthropology**

Pro-seminar on the practice and theory of applied anthropology (mainly, cultural anthropology), in both domestic and international, or cross-cultural, contexts. Prereq: 15ANTH101, 15ANTH102, 15ANTH103. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

15ANTH422**The Archaeological Record and Its Interpretation**

Approaches for understanding the origins and the inferential potential of the archaeological record are presented. Case studies are drawn from prehistoric occupational horizons worldwide. Prereq: 15ANTH107, 15ANTH108. BoK: HP, SS. Credit Level: U. Credit Hrs: 3.00

Anthropology**15ANTH423****Principles of Archaeological Analysis**

An exploration of the theories and methods that archaeologists use to obtain chronological, behavioral, and organizational information from different kinds of archaeological assemblages and data bases. Prereq: 15ANTH107. BoK: SS, QR. Credit Level: U. Credit Hrs: 3.00

15ANTH437**Anthropology Senior Readings**

Topic and credit to be arranged with instructor. BoK: SS. Credit Level: U. Credit Hrs: 1.00-15.00

15ANTH438**Anthropology Senior Readings**

Topic and credit to be arranged with instructor. BoK: SS. Credit Level: U. Credit Hrs: 1.00-15.00

15ANTH439**Anthropology Senior Readings**

Topic and credit to be arranged with instructor. BoK: SS. Credit Level: U. Credit Hrs: 1.00-15.00

15ANTH440**Royal Courts of the Ancient New World**

This course examines the institution of the royal courts in the ancient New World as a nexus for negotiation of power and assertion of cultural identity. Case studies concentrate on the Maya; Aztec and Inca cultures to provide important comparative contexts. We also explore the integration of textual and material evidence in investigating ancient cultures. Prereq: 15ANTH305, 15ANTH308. BoK: HP, SS. Credit Level: U. Credit Hrs: 3.00

15ANTH471**Field Course in Archaeology: Southwest**

Archaeological field methods involving participation in actual site survey and/or excavation in the American Southwest. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00-6.00

15ANTH472**Field Course in Archaeology: Mesoamerica**

Archaeological field methods involving participation in actual site survey and/or excavation in Mesoamerica. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00-6.00

15ANTH473**Field Course in Archaeology: Midwest**

Archaeological field methods involving participation in actual site survey and/or excavation in the American Midwest. BoK: HP., SS. Credit Level: U. Credit Hrs: 6.00-12.00

15ANTH489**Human Adaptation**

Adaptation of humans to the environment, emphasizing climate, altitude, disease, nutrition and behavior. BoK: NS., SS. Credit Level: U. Credit Hrs: 3.00

15ANTH499**Senior Seminar**

An advanced integrative course required of all anthropology majors. Deals with core topics, new developments, ongoing debates, and current issues in anthropology as presented in a diverse set of media: books, articles, video, and the internet. Seminar format. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15ANTH500**Sex and Gender in Language**

Cross-cultural studies of men's and women's dialects. Noun classifiers and grammatical gender related to other features of language and of culture. Prereq: Course in Linguistics and Cultural Anthropology or Sociology. BoK: SS., DC. Credit Level: U, G. Credit Hrs: 4.00

15ANTH504**Ethnographic Methods**

Introduction to ethnographic research. Survey of qualitative research methods, experience in skills such as interviewing, observation and

Anthropology**15ANTH504****Ethnographic Methods**

record-keeping. BoK: SS., DC. Credit Level: U, G. Credit Hrs: 4.00

15ANTH510**Biocultural Anthropology**

Looks at the different perspectives of human behavioral ecology, dual inheritance theory, and evolutionary psychology, highlighting the strengths and weaknesses of each for understanding the ways in which cultural traits allow humans to adapt to novel evolutionary challenges. Prereq: 15ANTH104, 15ANTH105, 15ANTH106. BoK: SS, DC. Credit Level: U, G. Credit Hrs: 4.00

15ANTH512**Public Archaeology Internship**

Practical experience in the conduct of preservation and/or contract archaeology, including the preparation of National Register nominations and field work and/or laboratory analysis and report preparation. BoK: SS., DC. Credit Level: U, G. Credit Hrs: 3.00-8.00

15ANTH515**Water Management**

A comparative treatment of water management systems in the archaeological and ethnographic record. BoK: HP., SS. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ANTH520**Anthropology and Archaeology**

Explores the historical roots and contemporary relationship between sociocultural anthropology and archaeology. Employing case studies by British and American ethnographers and archaeologists, the course examines how each sub-discipline has influenced the other. Prereq: Recommended Anth107 or 108. Prereq: 15ANTH107. BoK: SS, DC. Credit Level: U, G. Credit Hrs: 4.00

15ANTH550**Anthropology of Race**

Interdisciplinary course on biological, archeological, linguistic and cultural research and perspectives on contemporary human variation: race. Covers the history of concepts and their use in the public domain, as well as the scientific evidence and debate. BoK: DC., SE. Credit Level: U, G. Credit Hrs: 4.00

15ANTH555**Spatial Archaeology**

The manipulation and use of physical space and settlement by past societies. The construction, maintenance, and distribution of vernacular architecture, both domestic and public, will be studied. Focus on archaeologically retrieved data. BoK: SS., DC. Credit Level: U, G. Credit Hrs: 4.00

15ANTH581**Individual Work Anthropology**

Individual examination of an anthropological topic or problem under faculty direction and guidance. BoK: SS. Credit Level: U, G. Credit Hrs: 1.00-15.00

15ANTH582**Individual Work Anthropology**

Individual examination of an anthropological topic or problem under faculty direction and guidance. This is the second part of three-course sequence. BoK: SS. Credit Level: U, G. Credit Hrs: 1.00-15.00

15ANTH583**Individual Work Anthropology**

Individual examination of an anthropological topic or problem under faculty direction and guidance. The third part of a three-course sequence. BoK: SS. Credit Level: U, G. Credit Hrs: 1.00-15.00

15ANTH590**Human Osteology**

Laboratory course on identification and recovery of human skeletal remains. Prereq: 15ANTH104. BoK: NS, SS. Credit Level: U, G. Credit Hrs: 4.00

Anthropology**15ANTH590****Human Osteology**

Laboratory course on identification and recovery of human skeletal remains. Prereq: 15ANTH104. BoK: NS, SS. Credit Level: U, G. Credit Hrs: 4.00

15ANTH591**Human Skeletal and Dental Analysis**

Introduction to methods of skeletal and dental analysis including measurement and description, non-metrical assessment, morphological variation, age-related changes, and the assessment of individual and population health. Builds upon basic knowledge of human osteology. Prereq: 15ANTH590. BoK: QR, SS. Credit Level: U, G. Credit Hrs: 4.00

15ANTH592**Current Topics in Archaeology**

Review of current debates and findings in Archaeology. BoK: SS. Credit Level: U, G. Credit Hrs: 4.00

15ANTH593**Skeletal Biology and Archaeology**

Examines how physical anthropologists and archaeologists use skeletal materials to address questions about lifeway, populational relations, health, social organizations and symbolic thought. BoK: HP., SS. Credit Level: U, G. Credit Hrs: 4.00

15ANTH594**Human Origins**

Evidence and theories on the origin and evolution of humankind. BoK: NS., SS. Credit Level: U, G. Credit Hrs: 4.00

15ANTH595**Evolution of Homo Sapiens**

Evidence and theories on the origin and evolution of prehistoric and modern Homo sapiens. - BoK: NS., SS. Credit Level: U, G. Credit Hrs: 4.00

15ANTH620**Cultural Anthropology Field Practicum**

Covers cultural anthropology methods such as mapping, kinship, field diary, questionnaires and interviews, photo/video, participant observation and a research and/or service project while living with a family in a community. May include local language classes for credit. Sites vary. Perm of Instructor. BoK: SS, DC. Credit Level: U, G. Credit Hrs: 3.00-8.00

15ANTH630**Language and Linguistics**

Nature of form and process in languages of the world from the perspective of linguistics as a social science. BoK: SS., DC. Credit Level: U, G. Credit Hrs: 4.00

15ANTH631**Language Types**

Proseminar on strategies of non-historical language classification and typological change. Survey of major language families. Review of pertinent literature and recent research. Prereq.: Advanced standing in Linguistics or permission of instructor. BoK: SS., DC. Credit Level: U, G. Credit Hrs: 4.00

15ANTH632**Ethnolinguistics**

Relationships of linguistic variation to other cultural variables including social organization and world view. The linguistic relativity hypothesis, linguistic inference and prehistoric culture. BoK: SS., DC. Credit Level: U, G. Credit Hrs: 4.00

15ANTH643**Special Topics in Anthropology**

Special topics in anthropology. May be repeated if topics vary. BoK: SS. Credit Level: U, G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Anthropology**15ANTH647****History and Theory of Anthropology**

Growth of anthropology; examination of major theoretical positions in cultural anthropology. BoK: SS., DC. Credit Level: U, G. Credit Hrs: 4.00

15ANTH648**Contemporary Anthropological Theory**

A treatment of anthropological theory since 1960, with emphasis on cultural anthropology. Prereq: 15ANTH647. BoK: SS, DC. Credit Level: U, G. Credit Hrs: 4.00

15ANTH696**Archaeological Theory**

Historical survey of, and recent trends in, archaeological theory, with emphasis on the scientific aspects of archaeological research. Prereq: 15ANTH107. BoK: HP, SS. Credit Level: U, G. Credit Hrs: 4.00

15ANTH690**Seminar in Ecological Anthropology**

Examines the ways in which societies interact with their environments. Topics include subsistence adaptations, population growth and regulation, ethnoecology, cooperative resource management, and globalization. Special consideration will be given to the relevance of these topics for conservation and sustainable development. Credit Level: G. Credit Hrs: 4.00

15ANTH700**Fundamentals of Anthropology**

A critical examination of the history, methods, and theory of four-field anthropology. Credit Level: G. Credit Hrs: 4.00

15ANTH701**Advanced Cultural Resource Management**

Advanced methods in the protection and management of cultural heritage, including archaeological, historical and landscape data and objects, records, non-cultural materials, reports, and digital data. This course covers an overview of laws and regulations related to cultural resource management, including archaeological collections, historical preservation, and museums. The course includes a practicum. Credit Level: G. Credit Hrs: 4.00

15ANTH703**Southwest Archaeology**

A discussion of patterns and trends in the archaeological record of the American Southwest. Topics include political, settlement, and economic systems. Credit Level: G. Credit Hrs: 4.00

15ANTH705**Maya Archaeology**

Discussion of patterns and trends in the archaeological record of lowland and highland Maya. Credit Level: G. Credit Hrs: 4.00

15ANTH708**New World Archaeology**

Survey of selected cultural sequences in North, Middle and South America prior to European contact, including both civilized and non-civilized cultures. Credit Level: G. Credit Hrs: 4.00

15ANTH709**Ohio Valley Archaeology**

Sequence of cultures prior to European contact and development of archaeological research in eastern North America with emphasis on the Ohio Valley. Credit Level: G. Credit Hrs: 4.00

15ANTH710**Individual Work in Anthropology**

Topic to be arranged with professor. Credit Level: G. Credit Hrs: 1.00-15.00

15ANTH711**Individual Work in Anthropology**

Topic to be arranged with professor. Prereq.: Perm. of instr. Credit Level: G. Credit Hrs: 1.00-15.00

Anthropology**15ANTH712****Individual Work in Anthropology**

Topic to be arranged with professor. Prereq.: Perm. of instr. Credit Level: G. Credit Hrs: 1.00-15.00

15ANTH713**Seminar in Economic Anthropology**

Seminar on the impact of world political and economic systems on household, using anthropological theories to understand forms of labor, migration and revised gender roles. Credit Level: G. Credit Hrs: 4.00

15ANTH715**Master's Thesis Research**

Topic to be arranged with professor. Prereq.: Perm. of instr. Credit Level: G. Credit Hrs: 1.00-15.00

15ANTH716**Master's Thesis Research**

Topic to be arranged with professor. Prereq.: Perm. of instr. Credit Level: G. Credit Hrs: 1.00-15.00

15ANTH717**Master's Thesis Research**

Topic to be arranged with professor. Prereq.: Perm. of instr. Credit Level: G. Credit Hrs: 1.00-15.00

15ANTH718**Advanced Applied Anthropology**

Pro-seminar on the practice and theory of applied anthropology (mainly, cultural anthropology), in both domestic and international, or cross-cultural, contexts. Credit Level: G. Credit Hrs: 4.00

15ANTH719**Afro-Brazilian Ethnography**

The course explores the history and ethnography of the African diaspora in Brazil from the colonial period to the present. Topics will include development and current forms of Afro-Brazilian culture, the intersections of race, racism and identity, present-day social and economic problems facing Afro-Brazilians, and the emergence of grassroots movements and political activism. Credit Level: G. Credit Hrs: 4.00

15ANTH720**Balkan Ethnography**

Peoples and cultures of SE Europe (Greece, Serbia, Bosnia, Rumania, etc.). Peasant life amid the larger societies. Ethnogeneses and interrelations of groups and the Balkan language area. Sources of ethnic conflict. Credit Level: G. Credit Hrs: 4.00

15ANTH722**Advanced Topics in Archaeological Interpretation**

Attention focuses on how consideration of cultural and natural formation processes affects the interpretation of archaeological variability. Credit Level: G. Credit Hrs: 4.00

15ANTH723**Assemblage Analysis**

Advanced theories and methods in archaeological analysis. Credit Level: G. Credit Hrs: 4.00

15ANTH725**Archaeology of Identity**

This course will explore the ways in which the material world is implicated in the production and assertion of identity, and how the use of material culture to express identity can be interpreted in both modern and ancient contexts. The course takes an integrated anthropological approach. Case studies will be drawn from ethnographic and archaeological sources. Credit Level: G. Credit Hrs: 4.00

15ANTH726**Ethnography of Japan**

Reviews anthropological work on the nature of sociocultural systems of Japan. Attention to modernization and the maintenance of cultural integrity. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Anthropology**15ANTH727****Ethnography of Siberia, Central Asia, and Turkey**

Representative peoples, culture, and nature of adaptations to the arctic and subarctic ecological base. Cultural base of modern Turkey and Turkish secularization. Credit Level: G. Credit Hrs: 4.00

15ANTH729**Advanced Topics in Linguistic Anthropology**

Advanced topics in the study of linguistic systems from an anthropological perspective, with focus on language structure, language use, and language change. Credit Level: G. Credit Hrs: 4.00

15ANTH733**Caribbean Ethnography**

The peoples and cultures of the caribbean and circum-caribbean region. Overview of European colonialism and slavery and their impact on indigenous populations and on the social, religious and ethnic identities of contemporary caribbean peoples. Credit Level: G. Credit Hrs: 4.00

15ANTH734**Mesoamerican Ethnography**

Aboriginal Indian and contemporary cultures of Mexico and Guatemala. Credit Level: G. Credit Hrs: 4.00

15ANTH735**North America Indian Ethnography**

Ethnography and ethnology of Native North American societies. Credit Level: G. Credit Hrs: 4.00

15ANTH740**Ancient New World Nobility**

Examines the institution of the royal courts in the ancient New World as a nexus for negotiation of power and assertion of cultural identity. Case studies concentrate on the Maya, Aztec and Inca cultures to provide important comparative contexts. We also explore the integration of textual and material evidence in investigating ancient cultures. Credit Level: G. Credit Hrs: 4.00

15ANTH741**Seminar: Food Research in Anthropology**

An exploration of the different approaches that archaeologists, ethnologists, biological anthropologists and linguists take to the study of food and its role in human societies. Credit Level: G. Credit Hrs: 4.00

15ANTH746**Country and City Seminar**

The anthropological literature on movements between rural and urban spaces. It will treat cultural and symbolic transitions, hybridity, and identity transformations. Credit Level: G. Credit Hrs: 3.00-4.00

15ANTH750**Anthropology of Religion**

Cross-cultural comparative study of systems of ritual and belief, particularly as related to other aspects of culture. Credit Level: G. Credit Hrs: 4.00

15ANTH751**Advanced Introduction to Biological Anthropology**

Advanced introduction to evolutionary theory and primate ecology. Credit Level: G. Credit Hrs: 4.00

15ANTH752**Advanced Introduction to Biological Anthropology**

Advanced introduction to primate mating strategies, life history theory, social behavior, and the fossil record. Credit Level: G. Credit Hrs: 4.00

15ANTH753**Advanced Introduction to Biological Anthropology**

Advanced introduction to human evolution, behavioral ecology and biological variation in contemporary populations. Credit Level: G. Credit Hrs: 4.00

Anthropology**15ANTH755****Ethnography of the Tropical Lowlands of the Americas**

Advanced ethnographic seminar covering peoples from Amazon to Mexico: the ecological and cultural diversity of peoples adapted to the lowland tropics; based on ethnographies and other materials. Credit Level: G. Credit Hrs: 4.00

15ANTH760**Agricultural Analysis**

In-depth study of plant domestication and plant use. Both New World and Old World examples will be treated. Credit Level: G. Credit Hrs: 4.00

15ANTH762**Analysis of Civilization**

Detailed examination of the origins of community organization in the New and Old Worlds. The detailed effects of trade, warfare, large scale irrigation systems, and the influence of population growth will be assessed. Credit Level: G. Credit Hrs: 4.00

15ANTH770**Advanced Historical Archaeology**

Archaeology of the recent past, when written documentation is available, including colonial and post-colonial development. Includes an introduction to Ethnohistory as well as historic structures and sites. Credit Level: G. Credit Hrs: 4.00

15ANTH771**Advanced Field Course in Archaeology: Southwest**

Archaeological field methods involving participation in actual site survey and/or excavation in the American Southwest. Credit Level: G. Credit Hrs: 4.00-8.00

15ANTH772**Advanced Field Course in Archaeology: Mesoamerica**

Archaeological field methods involving participation in actual site survey and/or excavation in Mesoamerica. Prereq.: Perm. of instr. Credit Level: G. Credit Hrs: 4.00-8.00

15ANTH773**Advanced Field Course in Archaeology: Midwest**

Archaeological field methods involving participation in actual site survey and/or excavation in the American Midwest. Credit Level: G. Credit Hrs: 4.00-12.00

15ANTH775**Seminar in Anthropological Film**

Documentary film production and the communication of anthropology to global audiences. Topics include advanced theory of anthropological filmmaking, analysis of the dynamics of anthropological film genres, and the methods of cinema used to convey the results of anthropological studies and knowledge. Credit Level: G. Credit Hrs: 4.00

Examines themes of love and sexuality as depicted in texts from pre-Islamic poetry and the Qur'an to Arabian Nights and Modern Arabic Literature, including: courtly and mystical love poetry, erotic awareness and structures, the female body and literary discourse, sexual politics, and patriarchal sexuality. DC LT BoK: LT., DC. Credit Level: U. Credit Hrs: 3.00

15ARAB401**Advanced Literary Arabic 1**

The series 401, 402, 403 emphasize reading, translating, and analyzing classical, medieval and modern Arabic literary and cultural texts of different genres and themes, communicating through written assignments and oral presentations, and acquiring an understanding of Arabic structure, syntax, and style. This class is conducted in Arabic. Prereq: 15ARAB303. BoK: DC, LT. Credit Level: U. Credit Hrs: 3.00

15ARAB402**Advanced Literary Arabic 2**

Continuation of 15-ARAB-401. Conducted in Arabic Prereq: 15ARAB401. BoK: DC, LT. Credit Level: U. Credit Hrs: 3.00

15ARAB403**Advanced Literary Arabic 3**

Continuation of 15-ARAB-402. Conducted in Arabic. Prereq: 15ARAB402. BoK: DC, LT. Credit Level: U. Credit Hrs: 3.00

15ARAB411**Literary Arabic Grammar I**

Accelerated introduction to the structure of Modern Standard and Classical Arabic: phonology, morphology, and syntax, with emphasis on translation exercises and the development of reading

Arabic Languages and Culture**15ARAB411****Literary Arabic Grammar I**

comprehension skills. Perm of Instructor. BoK: DC, HU. Credit Level: U. Credit Hrs: 3.00

15ARAB412**Literary Arabic Grammar II**

Analysis of more complex structures of Arabic to enable students to comprehend authentic Modern Standard and classical Arabic texts. Prereq: 15ARAB411. BoK: DC, HU. Credit Level: U. Credit Hrs: 3.00

15ARAB481**Arabic Capstone**

A seminar for graduating seniors to discuss and analyze common readings, to reflect on methodological issues, and to exchange ideas with other students sharing related issues. The course will require completion of an independent research project. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15ARAB511**History of the Arabic Language**

Survey of the development of the Arabic language from its origins to the present, with emphasis on the externally motivated changes that led to its evolution from a tribal dialect into an international literary language. Perm of Instructor. BoK: DC, HU. Credit Level: U, G. Credit Hrs: 3.00

15ARAB591**Independent Study In Arabic**

Previous written approval of instructor and undergraduate adviser required. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15ARAB592**Independent Study In Arabic**

Previous written approval of instructor and undergraduate adviser required. The second offering in a three-part course sequence. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15ARAB593**Independent Study In Arabic**

Previous written approval of instructor and undergraduate adviser required. The third offering in a three-part course sequence. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15ARAB594**Group Study in Arabic Studies**

An instructor-supervised collective study of a topic in Arabic language, literature or culture. (repeatable up to 15 hours) Perm of Instructor. BoK: LT, DC. Credit Level: U, G. Credit Hrs: 1.00-5.00

15ARAB581**Basic Literary Arabic 1 for Graduate Students**

This course is open to graduate students taking Arabic 101, which develops reading, speaking, listening, writing, and cultural skills in Modern Literary Arabic. No previous knowledge of Arabic is required. Students attend one of the sections of Arabic 101. Credit Level: G. Credit Hrs: 3.00

15ARAB582**Basic Literary Arabic 2 for Graduate Students**

The course is open to graduate students taking Arabic 102, which continues Arabic 101 in the development of elementary level proficiency. Students attend one of the sections of Arabic 102. Prereq: 15ARAB581. Credit Level: G. Credit Hrs: 3.00

15ARAB583**Basic Literary Arabic 3 for Graduate Students**

This course is open to graduate students taking Arabic 103, which continues Arabic 102 in the development of elementary level of proficiency. Students attend one of the sections of Arabic 103. Prereq: 15ARAB582. Credit Level: G. Credit Hrs: 3.00

Arabic Languages and Culture**15ARAB584****2nd Year Literary Arabic 1 for Graduate Students**

This course is open to graduate students taking Arabic 201, which develops reading, speaking, listening, writing, and cultural skills in Modern Literary Arabic. Students attend a section of Arabic 201. Prereq: 15ARAB103, 15ARAB583. Credit Level: G. Credit Hrs: 3.00

15ARAB585**2nd Year Literary Arabic 2 for Graduate Students**

This course is open to graduate students taking Arabic 202, which continues Arabic 201 in the development of intermediate level proficiency. Students attend a section of Arabic 202. Prereq: 15ARAB251. Credit Level: G. Credit Hrs: 3.00

15ARAB586**2nd Year Literary Arabic 3 for Graduate Students**

This course is open to graduate students taking Arabic 203, which continues Arabic 202 in the development of intermediate level proficiency. Students attend a section of Arabic 203. Prereq: 15ARAB252. Credit Level: G. Credit Hrs: 3.00

Asian Languages**15ASIA101****Elementary Japanese**

Fundamental patterns of modern Japanese with emphasis on spoken language. Mastery of Hiragana and Katakana and up to 200 Japanese characters is also expected. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15ASIA102**Elementary Japanese**

Fundamental patterns of modern Japanese with emphasis on spoken language. Mastery of Hiragana and Katakana and up to 200 Japanese characters is also expected. The second offering in a three-part course sequence. Prereq: 15ASIA101. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15ASIA104**Elementary Chinese**

Basic patterns of modern Chinese with emphasis on spoken language. Mastery of about 300 Chinese characters is expected. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15ASIA105**Elementary Chinese**

Basic patterns of modern Chinese with emphasis on spoken language. Mastery of about 300 Chinese characters is expected. The second offering of a three-part course sequence. Prereq: 15ASIA104. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15ASIA106**Elementary Chinese**

Basic patterns of modern Chinese with emphasis on spoken language. Mastery of about 300 Chinese characters is expected. The third offering of a three-part course sequence. Prereq: 15ASIA105. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15ASIA161**Intensive Japanese for International Co-op students.**

This is the first in a series of language/ culture courses, which prepare students participating in the International co-op Program for a five-months co-op assignment in Japan. The course focuses on communicative language use while establishing fundamental understanding of the Japanese language. It also provides students with cultural information and an understanding of the Japanese people and the Japanese work environment. Perm of Instructor. BoK: HU, DC. Credit Level: U. Credit Hrs: 6.00

15ASIA201**Intermediate Japanese**

Aims at basic proficiency in spoken language; additional 200-300 Japanese characters are also introduced. Prereq: 15ASIA103. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

Asian Languages**15ASIA202****Intermediate Japanese**

Aims at basic proficiency in spoken language; additional 200-300 Japanese characters are also introduced. The second offering of a three-part course sequence. Prereq: 15ASIA201. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15ASIA203**Intermediate Japanese**

Aims at basic proficiency in spoken language; additional 200-300 Japanese characters are also introduced. The third offering of a three-part course sequence. Prereq: 15ASIA202. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15ASIA204**Intermediate Chinese**

Aims at basic proficiency in spoken Chinese (Mandarin); additional 300 Chinese characters are also introduced. Prereq: 15ASIA106. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15ASIA205**Intermediate Chinese**

Aims at basic proficiency in spoken Chinese (Mandarin); additional 300 Chinese characters are also introduced. The second offering of a three-part course sequence. Prereq: 15ASIA204. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15ASIA206**Intermediate Chinese**

Aims at basic proficiency in spoken Chinese (Mandarin); additional 300 Chinese characters are also introduced. The third offering of a three-part course sequence. Prereq: 15ASIA205. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15ASIA210**Philosophy of Asian Religions**

Read sacred texts of Hinduism, Buddhism, Islam. Explore philosophical questions. What is role of faith, reason, experience? How interpret religious texts? Religious views of human nature, incl. nature of "evil"? How reconcile views of believer and non- or un-believer? Quizzes, essay, final exam, required attendance. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

15ASIA214**Intermediate Chinese I**

First quarter of intensive intermediate Chinese (Mandarin), builds upon the 100-level introductory courses in Chinese. BoK: DC., HU. Credit Level: U. Credit Hrs: 5.00

15ASIA215**Intermediate Chinese II**

Second quarter of intensive intermediate Chinese (Mandarin). BoK: DC., HU. Credit Level: U. Credit Hrs: 5.00

15ASIA216**Intermediate Chinese III**

Third quarter of intensive intermediate level Chinese (Mandarin). BoK: DC., HU. Credit Level: U. Credit Hrs: 5.00

15ASIA224**Intermediate Intensive Chinese**

This is an Intensive Course for Chinese Language. It facilitates the listening, speaking, writing, and reading required for effectively learning the language. Students will become familiar with the ways (in theory and via interaction with local people) to communicate, make a point, exchange ideas, and develop problem solving strategies, specifically within the social and cultural aspects of cultural differences. Open to students who have completed one year of college-level Mandarin Chinese. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00-5.00

15ASIA225**Contemporary Chinese Culture**

This is a course in contemporary Chinese culture designed to complement the Intensive Course for Chinese language that takes

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Asian Languages**15ASIA225****Contemporary Chinese Culture**

place in China. This program is open to students in good academic standing, and who have successfully completed one year of college-level Mandarin Chinese or equivalent coursework. Assignments will include reading and reacting to pertinent texts on Chinese culture, and comparing daily observations of Chinese culture to readings and class discussions. Students will maintain a daily journal, prepare class presentations and writing assignments. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00-5.00

15ASIA301**Japanese Composition and Conversation**

Class conducted in Japanese. Using readings from various subject areas. Proficiency in reading and speaking Japanese will be stressed. Prereq: 15ASIA203. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15ASIA302**Japanese Composition and Conversation**

Class conducted in Japanese. Using readings from various subject areas. Proficiency in reading and speaking Japanese will be stressed. The second offering of a three-part course sequence. Prereq.: 15-021-201,2,3 or equiv. Prereq: 15ASIA301. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15ASIA303**Japanese Composition and Conversation**

Class conducted in Japanese. Using readings from various subject areas. Proficiency in reading and speaking Japanese will be stressed. The third offering of a three-part course sequence. Prereq.: 15-021-201,2,3 or equiv. Prereq: 15ASIA302. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15ASIA361**Language and Cultural Immersion (Nagoya, Japan)**

This course includes a four-week intensive Language and Culture Program at the Nagoya University of Foreign Studies in Japan. While attending the school, students will stay with a host family. After completing the intensive course, the students will relocate to Tokya and stay with another host family for a week. Hands-on cultural programs will be available for all the students, and advanced students will have an opportunity to take cultural classes. Students must contact the Japanese Program upon registration. BoK: NA. Credit Level: U. Credit Hrs: 5.00-10.00

15ASIA364**Japanese Language and Culture I for International Co-op Program**

This course follows the summer course and is designed for students who are visiting Japan to work and/or study in the future. The students will review the basic grammatical items and gradually develop their ability to comprehend authentic materials in listening and reading. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ASIA481**Individual Work in Asian Studies**

Open only to those in the programs leading to the BA or the Certificate in Asian Studies. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15ASIA482**Individual Work in Asian Studies**

Open only to those in the programs leading to a BA or the Certificate in Asian Studies. The second offering of a three-part course sequence. Prereq.: Perm. of instr. and Chairperson of Committee on Asian Studies. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15ASIA483**Individual Work in Asian Studies**

Open only to those in the programs leading to the BA or Certificate in Asian Studies. The third offering of a three-part course sequence. Prereq.: Perm. of instr. and Chairperson of Committee on Asian Studies. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

Asian Languages**15ASIA491****Senior Project in Asian Studies**

Open only to the Asian Studies major in the senior year. May focus on one discipline or may be interdisciplinary. Directed readings, research, or other learning experiences designed to provide cohesion to the individual's program of study. BoK: DC. Credit Level: U. Credit Hrs: 3.00

15ASIA492**Senior Project in Asian Studies**

Open only to the Asian Studies major in the senior year. May focus on one discipline or may be interdisciplinary. Directed readings, research, or other learning experiences designed to provide cohesion to the individual's program of study. The second offering of a three-part course sequence. Prereq.: Perm. of instr. and Chairperson of Committee on Asian Studies. BoK: DC. Credit Level: U. Credit Hrs: 3.00

15ASIA493**Senior Project in Asian Studies**

Open only to the Asian Studies major in the senior year. May focus on one discipline or may be interdisciplinary. Directed readings, research or other learning experiences designed to provide cohesion to the individual's program of study. The third offering of a three-part course sequence. Prereq.: Perm. of instr. and Chairperson of Committee on Asian Studies. BoK: DC. Credit Level: U. Credit Hrs: 3.00

15ASIA501**Elementary Conversation Japanese**

For graduate beginners, emphasis on spoken modern Japanese; mastery of Hiragana and Katakana and up to 200 Japanese characters is also expected. BoK: HU., DC. Credit Level: U, G. Credit Hrs: 3.00

15ASIA502**Elementary Conversation Japanese**

For graduate beginners, emphasis on spoken modern Japanese; mastery of Hiragana and Katakana and up to 200 Japanese characters is also expected. The second offering of a three-part course sequence. Prereq: 15ASIA501. BoK: HU, DC. Credit Level: U, G. Credit Hrs: 3.00

15ASIA503**Elementary Conversation Japanese**

For graduate beginners, emphasis on spoken modern Japanese; mastery of Hiragana and Katakana and up to 200 Japanese characters is also expected. The third offering of a three-part course sequence. Prereq: 15ASIA502. BoK: HU, DC. Credit Level: U, G. Credit Hrs: 3.00

15ASIA504**Elementary Conversation Chinese**

For graduate beginners, emphasis on spoken modern Chinese. Master of about 300 Chinese characters is expected. BoK: HU., DC. Credit Level: U, G. Credit Hrs: 3.00

15ASIA505**Elementary Conversation Chinese**

For graduate beginners, emphasis on spoken modern Chinese. Mastery of about 300 Chinese characters is expected. The second offering of a three-part course sequence. Prereq.: 15-021-504 or perm. of instr. Prereq: 15ASIA504. BoK: HU, DC. Credit Level: U, G. Credit Hrs: 3.00

15ASIA506**Elementary Conversation Chinese**

For graduate beginners, emphasis on spoken modern Chinese. Mastery of about 300 Chinese characters is expected. The third offering of a three-part course sequence. Prereq.: 15-021-504 or perm. of instr. Prereq: 15ASIA505. BoK: HU, DC. Credit Level: U, G. Credit Hrs: 3.00

15ASIA550**Introduction to Asian Studies**

Interdisciplinary survey of the issues and methods in Asian Studies. Examines the influence of Asia's historical and cultural traditions on contemporary politics, policies, and society. BoK: DC., HU. Credit Level: U, G. Credit Hrs: 3.00-4.00

H=University Honors course.

Biological Sciences**15BIOL101****Biology**

The sequences Biology 101, 102,103 taken concurrently with Biol. 111, 112, 113, fulfills the natural Science requirement in Arts_and Sciences as well as the beginning course required of major and preprofessional students. Topics covered in Biol. 101 include: geologic time scale; origin of life; atoms and molecules; cell structure, biochemistry, physiology and division; plant tissues and origins; plant nutrition; nitrogen cycle. Coreq.: Biol. 111. Coreq: 15BIOL111. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL101H**Honors Biology**

An honors course associated with first year biology. Three lectures and one recitation per week. Coreq: 15BIOL111H. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL102**Biology**

Continuation of a sequence designed for biology majors and preprofessional students. Topics covered include: nuclear and cell division, Mendelian and molecular genetics, the gene, DNA, population biology, and plant diversity. Pre-req. 15Biol101; Co-req. 15Biol112. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL102H**Honors Biology**

See 15-047-101H Prereq: 15BIOL101. Coreq: 15BIOL112. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL103**Biology**

Continuation of sequence designed for Biology majors and preprofessional students. Topics covered include: animal diversity; animal develop; nerves; muscle; circulation; respiration; homeostasis; ecology. Pre-req. 15BIOL102; Co-req. 15BIOL113. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL103H**Honors Biology**

See 15-047-101H Prereq: 15BIOL102. Coreq: 15BIOL113H. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL104**Life on Earth: Evolution, Diversity, and Ecology**

Organismal biology, including the evolution of life on earth, the classification of contemporary life, and the fundamentals of ecology. For non-science majors. Pre-req.: None. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL105**How Life Reproduces: Genetics**

Basic principles of genetics including how genetic information is stored, reproduced, inherited, expressed and mutated. The relevance of these basic genetic principles to current social issues such as human genetic diseases, genetic cloning, biotechnology, drug development and cancer is discussed. For non-science majors. Pre-req.: None. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 3.00

Biological Sciences**15BIOL106****How Life Works: From Cells to Organisms**

Cell structure from bacteria through multicellular organisms, how cells function and produce or use energy; organization of complex organisms, and how these organisms interact with their environment. For non-science majors. Pre-req.: None. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL111**Biology Laboratory**

Designed for students to see and experiment with plants and animals, materials and methods discussed in the lecture. An introduction to modern biological techniques. Topics are complementary to the lectures for that quarter. Coreq: 15BIOL101. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 2.00

15BIOL111H**Lab: Honors Biology & Recitation**

Description not available. Coreq: 15BIOL101H. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 2.00

15BIOL112**Biology Laboratory**

Designed for students to see and experiment with plants and animals, materials and methods discussed in the lecture. An introduction to modern biological techniques. Topics are complementary to the lectures for that quarter. This is the second offering of a three-course sequence. Coreq.: Biol. 102. Coreq: 15BIOL102. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 2.00

15BIOL112H**Honors Biology Laboratory**

An honors laboratory course associated with first year biology, with one lab per week. The third offering of a three-part course sequence. Coreq.: 15BIOL102H. Coreq: 15BIOL102H. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 2.00

15BIOL113**Biology Laboratory**

Designed for students to see and experiment with plants and animals, materials and methods discussed in the lecture. An introduction to modern biological techniques. Topics are complementary to the lectures for that quarter. This is the third offering of a three-course sequence. Coreq.: Biol. 103. Coreq: 15BIOL103. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 2.00

15BIOL113H**Honors Biology Laboratory**

See 15-047-111H Coreq: 15BIOL103H. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 2.00

15BIOL122**Plants and Society**

Discussion of economically important plants used by humans in the past and present with a focus on the biology of agricultural and medicinal plants. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL123**AIDS: Biomedical, Social and Ethical Issues**

An examination of the AIDS crisis in terms of biomedical, social, and ethical issues. Acknowledge of basic biology is not needed. There are no prerequisites. Satisfies the "Social and Ethical Issues" requirement of the General Education curriculum; does not fulfill biology major requirements. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

15BIOL124**Biotechnology in the 21st century: Biomedical, Social and Ethical Issues**

The methods and uses of Biotechnology with emphasis on the Biotechnical, Social and Ethical issues raised by such technology. BoK: SE. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Biological Sciences**15BIOL131****Genetics and Society**

Principles of genetics as applied to humans. Includes DNA technology and genetic engineering, sexual reproduction and genetic variation, ethical, legal, and social issues of human genetics, issues of quantity and quality of the human gene pool, and practical applications of these topics to individuals and society. For non-science majors. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL132**Plants and People**

Descriptions of current and historical uses people have made of plants; economic impact of plants; plant involvement in human disease and pests. For non-biology majors. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL133**Microbes And Society**

This course will provide students with an understanding of the significant impact that microorganisms have on human populations, as well as use microorganisms as a model system to provide students with a basic understanding of key concepts in biology. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL140**The Power of Plagues**

Enhances general awareness and understanding of infectious diseases. Covers several disease outbreaks or epidemics (plagues) that were/are important to Western civilizations. Students learn how scientists found out what caused specific epidemics and how they developed methods to control, cure or prevent them. The course also discusses plagues in the context of history and how they impacted on the practices, values, and traditions observed in today's culture. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL181**At the Zoo: Biodiversity**

Survey of animal kingdom using Zoo collection to understand group distinctions. Legal and demographic aspects of captive populations, and role of zoo in maintenance of endangered species. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL182**At the Zoo: Behavior**

Physical and behavioral adaptation by animals to their natural habitats using animals in the zoo collections as examples BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL183**At the Zoo: Ecology**

Description of world's ecosystems and habitats with emphasis on conservation issues. Use of zoo collection for demonstration. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL187**Horticulture I**

The first of a three-part series intended to to teach students basic horticulture science concepts and principles. The focus of Horticulture I is on the botanical concepts of plant structure, growth, and development. Students gain an an understanding of the plant kingdom and classification, basic morphology and physiological functions. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL188**Horticulture II**

The second of a three-part series intended to to teach students the basics of horticulture science concepts. The focus of Horticulture II is on plant growth and development as a response to environmental conditions and management techniques. During this course students will learn the relationships between horticulture and ecological processes. BoK: NS. Credit Level: U. Credit Hrs: 3.00

Biological Sciences**15BIOL189****Horticulture III**

The third of a three-part series intended to teach students the basics of horticulture science concepts and principles. The focus of Horticulture III is on biotic and abiotic plant stressors including diseases, insects, and competitions for nutrients. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL201**Anatomy and Physiology I**

A lecture and laboratory course on the structure and function of the human body. No credit for biology majors. BoK: NS. Credit Level: U. Credit Hrs: 4.00

15BIOL202**Anatomy and Physiology II**

A continuation of Anatomy and Physiology I. Prereq: 15BIOL201. BoK: NS. Credit Level: U. Credit Hrs: 4.00

15BIOL203**Anatomy and Physiology**

A continuation of Anatomy and Physiology II. Prereq: 15BIOL202. BoK: NS. Credit Level: U. Credit Hrs: 4.00

15BIOL271**Elementary Microbiology**

Fundamental aspects of microbiology and immunity; role of microorganisms in disease. No credit for biology majors. Prereq: Course in biological science. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL301**Cell Structure and Function**

Lectures and labs on the integration of strucure and function in cells. Topics include protein structure and function, cell membranes and transport systems, organelles, both function and biogenesis and the cytoskeleton. Also covered are aspects of regulation of cell function including signal transduction and regulation of the cell cycle. Prereq: 15BIOL103, 15CHEM103. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

15BIOL302**Genetics**

Lectures and Lab on the scope and significance of moderen genetics including molecular genetics, Mendelian genetics and population genetics. Prereq: 15CHEM103, 15BIOL103, 15BIOL102. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

15BIOL303**Ecology**

Lecture and lab on the basic principles of ecology with an evolutionary perspective, including adaptation of organisms to environments, population and community ecology, ecosystem structure and function, and conservation biology. Field trips. Prereq: 15BIOL103, 15CHEM103. BoK: NS. Credit Level: U. Credit Hrs: 4.00

15BIOL304**Cell Biology for Chemistry Majors(BioChemistry Concentration)**

An introduction to the principles which define organelles, cells and tissues. Topics include protein structures, membranes, molecular motors, sensory receptors, and immune recognition. For Chemistry majors following the BioChemistry concentration. Prereq: 15BIOL101, 15BIOL102, 15BIOL103, 15CHEM101, 15CHEM102. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL321**Introduction to Research and Careers**

Through this course students will develop an understanding of the process of research in biology. Research presentations will be made by faculty engaged in research and students will be introduced to the primary literature in conjunction with these presentations. Presentations will also introduce students to career possibilities in biology. BoK: NS. Credit Level: U. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Biological Sciences**15BIOL460****Botany**

Introductory botany. A survey of the major concepts in the plant sciences. Molecular, cellular, anatomical, morphological, individual-level, taxonomical, populational, and evolutionary topics will be examined. The major ways in which plants and humans interact will also be reviewed. Prereq: 15BIOL102, 15BIOL112. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 4.00

15BIOL498**Internship in Biology**

Field experience related to biology working with career professionals (paid or volunteer) under the guidance of the Department of Biological Sciences. Experience should provide education, training or instruction. BoK: NS. Credit Level: U. Credit Hrs: 1.00-6.00

15BIOL520**Invertebrate Zoology**

An introduction to the diversity of invertebrate animal life, including adaptive morphology, comparative physiology, behavior, ecology, and evolution of major phyla. Lec. and lab. Prereq: 15BIOL303. BoK: NS. Credit Level: U, G. Credit Hrs: 4.00

15BIOL535**Lab-Exercise Development in Anatomy and Physiology**

Development and implementation of laboratory exercises in anatomy and physiology. Cr. and hrs. to be arranged. BoK: NA. Credit Level: U. Credit Hrs: 1.00-5.00

15BIOL540**Neurobiology**

Lectures and discussion of the biophysics and physiology of cells in the nervous system, and the mechanisms by which neural circuits process information. Prereq: 15BIOL301. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL550**Animal Behavior**

A broadly comparative introduction to animal behavior with some emphasis on evolutionary and ecological interpretations of behavioral diversity. Prereq: 15BIOL303. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15BIOL551**General Microbiology**

An overview of the diversity, genetics, physiology, and ecology of microorganisms, with an emphasis on bacteria, archaea, and viruses. This is an organismal biology course and will focus on what sets these microorganisms apart from plants and animals. This course will provide the necessary background for upper-level courses in bacterial genetics, immunology, pathogenic microbiology, prokaryotic physiology, eukaryotic microbiology, environmental engineering, and microbial ecology. Pre-req: BIOL301, BIOL302, and Organic Chemistry. Prereq: 15BIOL301, 15BIOL302. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15BIOL552**General Microbiology Laboratory**

Laboratory to accompany BIOL551 (co-req) which explores the identification, characterization, and metabolic capabilities of microorganisms, using appropriate sterile technique, culturing and microscopy skills. Prereq: 15BIOL302, 15BIOL301, 15CHEM203. Coreq: 15BIOL551. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

15BIOL565**Medical Botany**

Physiological and biochemical aspects of plants and plant products. Will fulfill departmental Capstone requirement. Prereq: 15BIOL301. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15BIOL571**Animal Physiology**

This course explores comparative physiology at the organismal level. The emphasis is on basic principles of physiological processes. Prereq: 15BIOL301. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

Biological Sciences**15BIOL571****Animal Physiology**

This course explores comparative physiology at the organismal level. The emphasis is on basic principles of physiological processes. Prereq: 15BIOL301. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15BIOL572**Animal Physiology**

Study of physiological functions common to all animals, with emphasis on biochemical, cellular, organ systems, organismal, and comparative physiology. The second offering in a two-part course. Prereq: 15BIOL571. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15BIOL573**Developmental Biology**

Focuses on animal development and includes both descriptive embryology and the cellular and molecular basis for developmental changes. Weekly recitations will emphasize readings from the primary literature. Will fulfill departmental Capstone requirement. Prereq: 15BIOL301, 15BIOL302. BoK: NS. Credit Level: U, G. Credit Hrs: 4.00

15BIOL574**Sensory Physiology**

Basic properties of stimuli: sensory bases of vision, hearing, touch and smell; current concepts of transduction, neural pathways, transmitters and research techniques. Prereq: 15BIOL301, 15BIOL302, 15BIOL571, 15BIOL540. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15BIOL577**Evolutionary Biology**

Study of the historical evolution of organisms, including synthesis of topics in molecular evolution, genetics of populations, speciation, phylogenetics, natural selection, biogeography, coevolution, and history of biological diversity. Will fulfill departmental Capstone requirement. Prereq: 15BIOL302, 15BIOL303. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL580**Urban Ecology**

Ecology of water and energy supply for urban systems and disposal of residuals -- waste water, industrial waste, solid waste, hazardous waste, and polluted airsheds. Will fulfill departmental Capstone requirement. Prereq: 15BIOL303. BoK: NS, SE. Credit Level: U. Credit Hrs: 3.00

15BIOL590**Environmental Field Techniques**

This course uses field and laboratory methods to measure features of the biological and physical world. Students will learn about and use techniques to study plant and animal ecology, soils, and climate in both terrestrial and aquatic environments. Students will design and carry out their own research projects, applying the techniques learned in the class. Prereq: 15BIOL303. BoK: NS. Credit Level: U, G. Credit Hrs: 4.00

15BIOL597**Molecular Microbiology**

Focuses on molecular mechanisms that underlie important phenomena of bacteria, including biosynthesis of macromolecules, regulation of metabolic flux and gene expression, propagation of bacterial viruses, organization and dynamics of the genome, and antibiotic resistance. The course will emphasize the experimental and conceptual framework in which these mechanisms have been studied. Prereq: 15BIOL551. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL598**Introduction to Molecular Biology**

An in-depth discussion of the structure of the gene and the molecular basis of DNA replication and repair. Prereq: 15BIOL301, 15BIOL302. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Biological Sciences**15BIOL599****Eukaryotic Genetics**

Recombinant DNA technology and the analysis of DNA sequences stressing eukaryotic examples. The laboratory provides experience with the basic techniques of recombinant DNA technology. Will fulfill departmental requirement. Prereq: 15BIOL301, 15BIOL302. BoK: NS. Credit Level: U. Credit Hrs: 4.00

15BIOL600**Undergraduate Research**

Credits and hours to be arranged. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

15BIOL601**Undergraduate Research**

Credits and hours to be arranged. Will fulfill departmental Capstone requirement. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

15BIOL602**Undergraduate Research**

Credits and hours to be arranged. Will fulfill departmental Capstone requirement. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

15BIOL603**Undergraduate Research**

Credits and hours to be arranged. Will fulfill departmental Capstone requirement. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

15BIOL604**Special Problems**

Undergraduate individual study. Cr. and hrs. to be arranged. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

15BIOL605**Special Problems**

See 15-047-604. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

15BIOL606**Special Problems**

See 15-047-604. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

15BIOL610**Conservation Biology**

The application of ecological and evolutionary principles to the study and preservation of genetic, species and ecosystem diversity. Formerly known as Conservation Biology 15BIOL490. Prereq: 15BIOL303. BoK: NS, QR. Credit Level: U, G. Credit Hrs: 3.00

15BIOL616**Biological Problems Honors Research**

For Honors students only. Individual research projects. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15BIOL617**Biological Problems Honors Research**

For Honors students only. Individual research projects. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15BIOL618**Biological Problems Honors Research**

For Honors students only. Individual research projects. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15BIOL626**Ecological Modeling**

An advanced undergraduate/graduate level lecture class providing an overview of the many types and ways in which models are used in Ecology. Investigates and develops models at all levels of organization from global climate models to individual behavioral models. Cross-listed with EVST626. Prereq: 15BIOL303. BoK: NS, QR. Credit Level: U, G. Credit Hrs: 3.00

Biological Sciences**15BIOL631****Lab-Exercise Development in Cell Biology**

Development and implementation of laboratories in cell biology. Cr. and hrs. to be arranged. BoK: NA. Credit Level: U. Credit Hrs: 1.00-10.00

15BIOL632**Lab-Exercise Development in Genetics**

Development and implementation of laboratories in genetics. Cr. and hrs. to be arranged. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00-10.00

15BIOL633**Lab-Field Exercise Development in Ecology**

Development and implementation of laboratories and field exercises in ecology. Cr. and hrs. to be arranged. BoK: NA. Credit Level: U. Credit Hrs: 1.00-10.00

15BIOL639**VIROLOGY**

An introduction to the molecular biology of viruses. Topics include: genome structure, mechanisms of infection, proliferation, pathogenicity, host resistance and the role which viruses have played in the evolution of the human genome. Prereq: 15BIOL301, 15BIOL302. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15BIOL640**Introduction to Genomics**

Discussion on the language of life. Topics include the structure of genes, chromosomes, genomes, transcriptomes and proteomes. Will fulfill departmental Capstone requirement. Prereq: 15BIOL302. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15BIOL641**Introduction to Proteomics**

Discussion on the structure, function and the evolution of proteins. Topics include enzyme catalysis, sensory receptors, molecular motors, cytoskeleton, extracellular matrices, and immune recognition. Will fulfill departmental Capstone requirement. Prereq: 15BIOL302. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15BIOL642**Advanced Cell Biology**

The relationship between structure and function of cellular components, both intracellularly and in interactions with other cells. Topics include organization of cells, methods of study, membrane transport, cell-to cell -signalling, cell motility, and the extracellular matrix. Will fulfill departmental Capstone requirement. Prereq: 15BIOL301, 15BIOL302. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15BIOL647**Vertebrate Zoology**

Phylogeny of vertebrates. Evolution of structure and function. Lab includes anatomy, taxonomy and identification. Lecture and lab. Prereq: 15BIOL303. BoK: NS. Credit Level: U, G. Credit Hrs: 4.00

15BIOL650**Behavioral Ecology**

Study of the adaptive value of animal behavior; foraging; territoriality; communication; mating systems; sexual selection; social behavior. Prereq: 15BIOL302, 15BIOL303. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15BIOL651**Neuroethology**

Explores the neural basis of animal behavior. The format includes short lectures that will provide background, and in depth discussions of primarily literature focusing on vertebrate as well as invertebrate systems. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15BIOL652**Behavioral Genetics**

This class explores genetic approaches to the study of behavior. Prereq: 15BIOL302. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Biological Sciences**15BIOL656****Biology of Cancer**

A fundamental discussion of the biology of the cancerous state, including the underlying mechanisms of induction, as well as the physiology of neoplasms, at both the organ and molecular levels. Prereq: 15BIOL301, 15BIOL302, 15BIOL303. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15BIOL660**Arachnology**

Lecture and laboratory course dealing with the classification, anatomy, physiology, behavior, and ecology of arachnids. Some field trips. Prereq: 15BIOL520. BoK: NS. Credit Level: U, G. Credit Hrs: 4.00

15BIOL666**Ecotoxicology**

The impacts of pollution and other stresses on the structure and function of natural ecosystems. Will fulfill departmental Capstone requirement. Prereq: 15BIOL303. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15BIOL668**Flowering Plant Classification**

An introduction to the diversity of the families of flowering plants, with an emphasis on the acquisition of plant identification skills. Two Sat. or Sun. field trips Equivalent to lab course for undergrad. majors. Prereq: 15BIOL303. BoK: NS. Credit Level: U, G. Credit Hrs: 4.00

15BIOL669**Tropical Ecology**

A survey of the distinctive biological characteristics of tropical rain forests. The evolutionary forces thought to be responsible for creating and maintaining these extremely diverse communities will be explored. The impact of anthropogenic forces on these biomes, possible consequences for future generations, and improved management strategies designed to curtail their demise will also be examined. Prereq: 15BIOL302, 15BIOL303. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15BIOL670**Plant Physiology**

Lecture and lab work on transport, nutrition, biochemistry, and development in plants. Will fulfill departmental requirement. Prereq: 15BIOL301. BoK: NS. Credit Level: U, G. Credit Hrs: 4.00

15BIOL677**Population Genetics**

An introduction to the principle and practice of population genetics with emphasis on evolutionary processing and current methods of analysis. Prereq: 15BIOL302, 15BIOL767. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15BIOL679**Comparative Endocrinology**

Study of hormones and hormonal mechanisms affecting life processes. Prereq: 15BIOL571. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15BIOL683**Medical Parasitology**

Major protozoan, fungal, and helminth parasites that cause disease in humans and animals. Prereq: 15BIOL301, 15BIOL302. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15BIOL686**Capstone Experience in Biology**

General Education Capstone Experience. Options include undergraduate research, a capstone course, field trips, senior thesis, biology honors thesis, or teaching experiences. (part of requirement) Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15BIOL690**Plant Ecology**

Biological environmental relationships in plant communities. Lecture with two (2) field trips. Prereq: 15BIOL302, 15BIOL303. BoK: NS. Credit

Biological Sciences**15BIOL690****Plant Ecology**

Level: U, G. Credit Hrs: 4.00

15BIOL691**Limnology**

Freshwater ecology from a system perspective, integrating physical, chemical and biological processes in lakes and reservoirs and streams and rivers. Prereq: 15BIOL303. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15BIOL692**Limnology Laboratory**

Examination of physics, chemistry, and biological process and organisms in lakes, reservoirs, streams and rivers. Sat. field trips required. Spaces limited. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

15BIOL693**Physiology & Biomechanics Laboratory**

Laboratory experiments emphasizing the physiology and biomechanics of human exercise with quantitative analysis of cardiac function, muscle activity, metabolic rate, ventilation, gas exchange, movement, force and power production. Will fulfill departmental Capstone requirement. Prereq: 15BIOL302. BoK: QR, NS. Credit Level: U, G. Credit Hrs: 4.00

15BIOL694**Human and Comparative Anatomy**

A course for biology majors regarding regional gross anatomy of the human body and its relationship to organ functions. Laboratory will include mammalian dissection with comparison to human structures. Prereq: 15BIOL301, 15BIOL302, 15BIOL303. BoK: NS. Credit Level: U, G. Credit Hrs: 5.00

15BIOL695**Immunology**

Survey of the basic concepts and mechanisms involved in the immune response. Prereq: 15BIOL301, 15BIOL302. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15BIOL696**Plant-Animal Interaction**

3 ug. or gr. cr. Prereq: 15BIOL577. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15BIOL697**Immune Defense and Disease**

Overview of how human defense mechanisms deal with infections, disease, allergies and cancer, as well as mechanisms involved in transplant rejection. Prereq: 15BIOL695. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15BIOL707**Molecular Biology Lab**

Basic laboratory techniques in molecular biology and molecular genetics including recombinant DNA manipulations. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

15BIOL720**Readings in Invertebrate Zoology**

A companion course to 15BIOL520 for graduate students, covering topics in current literature. Coreq: 15BIOL520. Credit Level: G. Credit Hrs: 1.00

15BIOL765**Data Analysis Biol**

An introduction to statistics for examining biological data. Emphasizes understanding of quantitative methodologies and problem solving techniques. Credit Level: G. Credit Hrs: 4.00

15BIOL766**Readings in Ecological Toxicology**

Advanced readings and discussions in ecotoxicology. Credit Level: G. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Biological Sciences**15BIOL767****Evolution**

Study of the process of evolution, including synthesis of topics in: molecular evolution, population genetics, speciation and phylogenetics. Credit Level: G. Credit Hrs: 3.00

15BIOL773**Population/Community Ecology**

Theoretical and empirical developments in modern ecology, emphasizing the interaction of populations in their environments that structure biological communities. Credit Level: G. Credit Hrs: 4.00

15BIOL775**Advanced Data Analysis**

Advanced linear models including post-hoc testing, bootstrapping and resampling, multivariate methods. Emphasis is on analysis of existing data and biological problem solving. Prereq: 15BIOL765. Credit Level: G. Credit Hrs: 4.00

15BIOL783**Immunoparasitology**

Introduces current topics on immunity to parasitic infections. Emphasis will be AIDS-associated and re-emerging opportunistic infections in developing and developed countries. Prereq: 15BIOL695. Credit Level: G. Credit Hrs: 3.00

15BIOL791**Molecular Biology I**

Recombinant DNA technology and analysis of DNA sequences. Prokaryotic and eukaryotic systems will be discussed. Topics will be explored using texts and original literature. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

15BIOL800**Graduate Topics in Biology**

This is a literature-based course with discussions of current ideas and research in Biology. May be taken repeatedly. Credit Level: G. Credit Hrs: 1.00-3.00

15BIOL810**Advanced Limnology**

Expanded analysis of topics in freshwater ecology. Topic varies by year such as lake restoration, paleolimnology, big river or stream ecology, fish ecology, invading exotic species, or algal ecology. Prereq: 15BIOL691. Credit Level: G. Credit Hrs: 3.00

15BIOL827**Advanced Topics in Ecology**

Study of current literature in ecology. Topics will be chosen according to the instructor's area of expertise and may include evolutionary ecology, theoretical ecology, quantitative methods and the design and interpretation of experiments. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

15BIOL850**Readings in Behavioral Ecology**

Guided discussion of topics in current literature of behavioral ecology. Coreq: 15BIOL650. Credit Level: G. Credit Hrs: 1.00-3.00

15BIOL856**Biology of Cancer**

A fundamental discussion of the biology of the cancerous state, including the underlying mechanisms of induction, as well as the physiology of neoplasms at both the organ and molecular levels. A term paper involving a critical discussion on a topic related to cancer will be required. Prereq: 15BIOL695. Credit Level: G. Credit Hrs: 3.00

15BIOL860**Effective Tools for Teaching in the Biological Sciences**

This course is designed to improve the teaching effectiveness of those students in the life sciences who plan to seek academic careers. Coreq: 15MLT1842. Credit Level: G. Credit Hrs: 1.00

Biological Sciences**15BIOL876****Phylogenetic Systematics**

A study of methods used to infer evolutionary history. Includes both theoretical background and hands-on analysis of diverse types of data. Credit Level: G. Credit Hrs: 3.00

15BIOL888**Molecular Evolution**

Evolution at the molecular level, including topics such as: gene structure and mutation; evolutionary change in nucleotide sequences; rates and patterns of nucleotide substitution; evolution by gene duplication, exon shuffling, and transposition; formation of gene families and the acquisition of new function; and organization and evolution of genomes. Prereq: 15BIOL577. Credit Level: G. Credit Hrs: 3.00

15BIOL901**Biology Seminar**

Discussion of current topics in biology by experts in a wide variety of biological subdisciplines. May be taken repeatedly. Credit Level: G. Credit Hrs: 1.00

15BIOL902**Biology Seminar**

See 15-047-901. Credit Level: G. Credit Hrs: 1.00

15BIOL903**Biology Seminar**

Discussion of current topics in biology by experts in a wide variety of biological subdisciplines. May be taken repeatedly. Credit Level: G. Credit Hrs: 1.00

15BIOL904**Graduate Topics in Biology**

Individualized study on some aspect of biology not covered in formal courses. Independent readings, discussions and/or lab. work. May be taken repeatedly. Credit Level: G. Credit Hrs: 1.00-5.00

15BIOL905**Graduate Topics in Biology**

Individualized study on some aspect of biology not covered in formal courses. Independent readings, discussions and/or lab. work. May be taken repeatedly. Credit Level: G. Credit Hrs: 1.00-5.00

15BIOL906**Graduate Topics in Biology**

Individualized study on some aspect of biology not covered in formal courses. Independent readings, discussions and/or lab. work. May be taken repeatedly. Credit Level: G. Credit Hrs: 1.00-5.00

15BIOL951**Graduate Research in Biology**

Open to graduate students in Biology. Hours and credits arranged according to the student's graduate program. May be taken repeatedly. Credit Level: G. Credit Hrs: 1.00-12.00

15BIOL952**Graduate Research In Biology**

Open to graduate students in Biology. Hours and credits arranged according to the student's graduate program. May be taken repeatedly. Credit Level: G. Credit Hrs: 1.00-12.00

15BIOL953**Graduate Research in Biology**

Open to graduate students in Biology. Hours and credits arranged according to the student's graduate program. May be taken repeatedly. Credit Level: G. Credit Hrs: 1.00-12.00

15BIOL954**Graduate Research in Biology**

Open to graduate students in Biology. Hours and credits arranged according to the student's graduate program. May be taken repeatedly. Credit Level: G. Credit Hrs: 1.00-12.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Biological Sciences**15BIOL955****Research Progress in Biology**

Open to graduate students in Biology. Each student presents a seminar on his/her research. May be taken repeatedly. Credit Level: G. Credit Hrs: 1.00

15BIOL985**Current Topics in Biology**

Readings and discussions of current ideas and research in Biology. May be taken repeatedly. Credit Level: G. Credit Hrs: 1.00

15BIOL986**Current Topics in Biology**

Readings and discussions of current ideas and research in Biology. May be taken repeatedly. Credit Level: G. Credit Hrs: 1.00

Business Law**15BLAW171****Business Law I: The Legal Process**

State and federal court systems. Procedure reasoning followed in reaching decisions. Recent court decisions, current issues in the administration of justice. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Chemistry**15CHEM101****First-Year Chemistry**

A first college course for science and engineering students. 3 lectures and 1 recitation per week. Transfer Module. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

15CHEM102**First-Year Chemistry**

A first college course for science and engineering students. 3 lectures and 1 recitation per week. A second offering in a three-part course sequence. Prereq.: High school chemistry or General Chem. 104. Coreq.: Chem. 111, 12, 13 if additional work in chemistry is planned. Prereq: 15CHEM101. Transfer Module. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

15CHEM102H**First-Year Honors Chemistry**

An honors course associated with first-year chemistry. Three lectures and one recitation each week. Transfer Module. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

15CHEM103**First-Year Chemistry**

A first college course for science and engineering students. 3 lectures and 1 recitation per week. The third offering in a three-part course sequence. Prereq.: High school chemistry or General Chem. 104. Coreq.: Chem. 111,12,13 if additional work in chemistry is planned. Prereq: 15CHEM102. Transfer Module. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

15CHEM103H**First-Year Honors Chemistry**

An honors course associated with first-year chemistry. Three lectures and one recitation each week. The second offering of a two-part course sequence. Transfer Module. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

15CHEM104**General-Organic-Biochemistry I for Nursing and Allied Health**

General chemistry concepts, with an emphasis on inorganic chemistry, providing a transition from high school education. Two lectures and one recitation each week. The first offering of a three-part course sequence. Coreq: 15CHEM114. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15CHEM105**General-Organic-Biochemistry II for Nursing and Allied Health**

Organic chemistry topics relevant to health professional, providing the necessary background for topics in biochemistry. Two lectures and one recitation each week. The second offering of a three-part course

Chemistry**15CHEM105****General-Organic-Biochemistry II for Nursing and Allied Health**

sequence. Prereq: 15CHEM104. Coreq: 15CHEM115. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15CHEM106**General-Organic-Biochemistry III for Nursing and Allied Health**

Biochemistry topics relevant to health professionals. Two lectures and one recitation each week. The third offering of a three-part course sequence. Prereq: 15CHEM105. Coreq: 15CHEM116. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15CHEM107**Chemistry in Today's Society I**

An overview of chemistry and its relationship to modern society. Based on science standards this course serves as an introduction to the chemical concepts needed to understand many of the numerous scientific problems confronting society today with an emphasis on relating the standards to K-9 education. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15CHEM108**Chemistry in Today's Society II**

An overview of chemistry and its relationship to modern society. Based on science standards this course serves as an introduction to the chemical concepts needed to understand many of the numerous scientific problems confronting society today with an emphasis on relating the standards to K-9 education. Prereq: 15CHEM107. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15CHEM111**First-Year Chemistry Laboratory**

Experimental work including qualitative analysis, supplementary to Chem. 101,2,3. One laboratory period per week. Prereq: 15CHEM101. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15CHEM112**First-Year Chemistry Laboratory**

Experimental work including qualitative analysis, supplementary to Chem. 101,2,3. One Laboratory period per week. The second offering of a three- part course sequence. Coreq.: Chem. 101,2,3. Prereq: 15CHEM111. Coreq: 15CHEM102. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15CHEM112H**First-Year Honors Chemistry Laboratory**

An honors laboratory course associated with first-year chemistry, with one laboratory per week. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15CHEM113**First-Year Chemistry Laboratory**

Experimental work including qualitative analysis, supplementary to Chem. 101,2,3. One laboratory period per week. The third offering of a three- part course sequence. Coreq.: Chem. 101,2,3. Prereq: 15CHEM112. Coreq: 15CHEM103. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15CHEM113H**First-Year Honors Chemistry Laboratory**

An honors laboratory course associated with first- year chemistry, with one laboratory per week. The second offering of a two-part course sequence. Prereq.: Invitation of instr. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15CHEM114**General-Organic-Biochemistry Laboratory I for Nursing and Allied Health**

Experimental work supplementary to 15-CHEM-104, 105, & 106. One laboratory period each week. The first offering of a three-part course sequence. Coreq: 15CHEM104. BoK: NS. Credit Level: U. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Chemistry**15CHEM115****General-Organic-Biochemistry Laboratory II for Nursing and Allied Health**

Experimental work supplementary to 15-CHEM-104, 105, & 106. One laboratory period each week. The second offering of a three-part course sequence. Prereq: 15CHEM114. Coreq: 15CHEM105. BoK: NS. Credit Level: U. Credit Hrs: 1.00

15CHEM116**General-Organic-Biochemistry Laboratory III for Nursing and Allied Health**

Experimental work supplementary to 15-CHEM-104, 105, & 106. One laboratory period each week. The third offering of a three-part course sequence. Prereq: 15CHEM115. Coreq: 15CHEM106. BoK: NS. Credit Level: U. Credit Hrs: 1.00

15CHEM117**Chemistry in Today's Society Lab I**

A laboratory overview of chemistry and its relationship to modern society. Based on science standards this course serve as an introduction to the chemical concepts needed to understand many of the numerous scientific problems confronting society today with an emphasis on relating the emphasis on relating the standards to K-9 education. Coreq: 15CHEM107. BoK: NS. Credit Level: U. Credit Hrs: 1.00

15CHEM118**Chemistry in Today's Society Lab II**

A laboratory overview of chemistry and its relationship to modern society. Based on science standards this course serve as an introduction to the chemical concepts needed to understand many of the numerous scientific problems confronting society today with an emphasis on relating the the standards to K-9 education. Prereq: 15CHEM117. Coreq: 15CHEM108. BoK: NS. Credit Level: U. Credit Hrs: 1.00

15CHEM122**Introduction to Forensics**

A survey of forensic chemistry for students who are not science majors. The course is taught by presenting crime scenes and discussing the types of techniques needed for the investigation. Crime scenes will be taken from episodes of NOVA, from the US FDA, and from the local crime labs. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15CHEM131**General Chemistry I**

A general overview of the science of chemistry for non-majors and students lacking a high school chemistry course. Two lectures and one recitation per week. The first offering in a three-part course sequence. Coreq: 15CHEM141. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15CHEM132**General Chemistry II**

A general overview of the science of chemistry for non-majors and students lacking a high school chemistry course. Two lectures and one recitation per week. The second offering in a three-part course sequence. Prereq: 15CHEM131. Coreq: 15CHEM142. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15CHEM133**General Chemistry III**

A general overview of the science of chemistry for non-majors and students lacking a high school chemistry course. Two lectures and one recitation per week. The third offering of a three-part course sequence. Prereq: 15CHEM132. Coreq: 15CHEM143. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15CHEM141**General Chemistry Laboratory I**

Experimental work supplementary to 15-CHEM-131. One laboratory period per week. (Requirement of many programs.) The first offering of a three-part course sequence. Coreq: 15CHEM131. BoK: NS. Credit Level: U. Credit Hrs: 1.00

Chemistry**15CHEM142****General Chemistry Laboratory II**

Experimental work supplementary to 15-CHEM-132. One laboratory period per week. (Requirements of many programs.) The second offering of a three- part course sequence. Prereq: 15CHEM141. Coreq: 15CHEM132. BoK: NS. Credit Level: U. Credit Hrs: 1.00

15CHEM143**General Chemistry Laboratory III**

Experimental work supplementary to 15-CHEM-133. One laboratory period per week. (Requirements of many programs.) The third offering of a three-part course sequence. Prereq: 15CHEM142. Coreq: 15CHEM133. BoK: NS. Credit Level: U. Credit Hrs: 1.00

15CHEM201**Organic Chemistry Lecture and Recitation**

The fundamentals of bonding, structure, and stereochemistry of organic compounds; reaction mechanisms and synthetic utility of reactions involving unsaturated compounds, aromatic compounds, alkyl halides and alcohols, carbonyl compounds, and nitrogen-containing compounds; reaction intermediates. BoK: NS. Credit Level: U. Credit Hrs: 4.00

15CHEM202**Organic Chemistry Lecture and Recitation**

The fundamentals of bonding, structure, and stereochemistry of organic compounds; reaction mechanisms and synthetic utility of reactions involving unsaturated compounds, aromatic compounds, alkyl halides and alcohols, carbonyl compounds, and nitrogen-containing compounds; reaction intermediates. The second offering of a three-part course sequence. Prereq: 15CHEM201. BoK: NS. Credit Level: U. Credit Hrs: 4.00

15CHEM203**Organic Chemistry Lecture**

Organic Chemistry Lecture and Recitation. 4 ug.cr. The fundamentals of bonding, structure and stereochemistry of organic compounds; reaction mechanisms and synthetic utility of reactions involving unsaturated compounds, aromatic compounds, alkyl halides and alcohols, carbonyl compounds, and nitrogen-containing compounds; reaction intermediates. This is the third offering Prereq: 15CHEM202. BoK: NS. Credit Level: U. Credit Hrs: 4.00

15CHEM203H**Honors Organic Chemistry Lecture and Recitation**

Honors version of the third quarter of Organic Chemistry lecture and recitation. BoK: NS. Credit Level: U. Credit Hrs: 4.00

15CHEM204**Bio-organic Chemistry**

For non-majors in chemistry. The structure and function of organic compounds in living systems stressed. BoK: NS. Credit Level: U. Credit Hrs: 3.00-4.00

15CHEM205**Bio-organic Chemistry**

For non-majors in chemistry. The chemistry of proteins, nucleic acids, polysaccharides and lipids is stressed. Coreq: 15CHEM215. BoK: NS. Credit Level: U. Credit Hrs: 3.00-4.00

15CHEM206**Bio-organic Chemistry**

For non-majors in chemistry. Energy production and utilization in biochemical systems. Prereq: 15CHEM205. Coreq: 15CHEM216. BoK: NS. Credit Level: U. Credit Hrs: 3.00-4.00

15CHEM211**Organic Chemistry Laboratory**

An introduction to microscale laboratory techniques of organic chemistry, including isolation, purification, chromatography, extraction and distillation of organic compounds. BoK: NA. Credit Level: U. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Chemistry**15CHEM212****Organic Chemistry Laboratory and Recitation**

Application of the techniques taught in Chem. 211 to the synthesis and study of a variety of organic compounds. Prereq: 15CHEM211. Coreq: 15CHEM202. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15CHEM212H**Honors Organic Chemistry Laboratory**

Honors laboratory course that uses current faculty research projects to teach organic chemistry laboratory techniques. Each student has his/her own project. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15CHEM213**Organic Chemistry Laboratory**

Application of the techniques taught in Chem. 211 to the synthesis and study of a variety of organic compounds. Prereq: 15CHEM212, 15CHEM202. Coreq: 15CHEM203. BoK: NA. Credit Level: U. Credit Hrs: 2.00

15CHEM213H**Honors Organic Chemistry Laboratory**

Multi-step synthesis, characterization of products and by-products from chemical reactions using spectroscopy, reaction kinetics and modern laboratory techniques such as working under an inert atmosphere. BoK: NA. Credit Level: U. Credit Hrs: 2.00

15CHEM214**Bio-organic Laboratory**

Laboratory work to accompany Chem. 204. Prereq: 15CHEM204. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15CHEM215**Bio-organic Laboratory**

Laboratory work to accompany Chem. 205. Prereq: 15CHEM214. Coreq: 15CHEM205. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15CHEM216**Bio-organic Laboratory**

Laboratory work to accompany Chem. 206. Prereq: 15CHEM215. Coreq: 15CHEM206. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15CHEM278**Introduction to Nanoscience and Technology**

A survey of nanoscience and nanotechnology at an introductory level for engineering and science students in their 2nd or 3rd year of study: Nanoparticles, synthesis and applications, nanoelectronics, nanophotonics, nanobioscience, and societal and ethical implications. Prereq: 15MATH252. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15CHEM279**Experimental Nanoscale Science and Technology**

A laboratory experience for engineering and science students, covering the synthesis and characterization of nanostructures and the simple devices that can be made from them: carbon nanotube synthesis, nanotube sensor fabrication and characterization, quantum dot characterization and gold nanoparticle fabrication and characterization. Prereq: 15CHEM278. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15CHEM280**Sophomore Seminar Series for Majors**

Seminar series on careers in chemistry (with outside speakers), CV/resume preparation, undergraduate research, graduate school, research ethics, library use, and hot topics in chemistry. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15CHEM322H**Chemical Aspects of Forensic Science**

This course is designed for honors students interested in forensic science, regardless of their majors. They will concentrate on the chemistry involved in forensic investigations. The chemistry will include analyzing auto glass, auto paint, links used in forgery, blood types, drugs, poisons, and DNA. Students will perform many tests themselves. BoK: NS. Credit Level: U. Credit Hrs: 3.00

Chemistry**15CHEM331****Chemical Analysis for Engineering Applications**

Methods of chemical analysis, as applied in industrial processes. Prereq: 20CHE362. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15CHEM332**Chemical Analysis Laboratory -- Engineering Applications**

Laboratory studies to illustrate chemical analysis, principles and operations. Prereq: 15CHEM331. BoK: NA. Credit Level: U. Credit Hrs: 2.00

15CHEM333**Physical Chemistry for Engineering Sciences**

Selected topics in physical chemistry, including statistical thermodynamics, equilibrium and dynamic electrochemistry, surface chemistry and heterogeneous catalysis. Prereq: 20CHE362. BoK: NS. Credit Level: U. Credit Hrs: 4.00

15CHEM341**Chemical Equilibrium and Separations**

Basic principles of acid-base, solubility, complexation and separation equilibria will be discussed. Prereq: 15CHEM381. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15CHEM342**Electrochemistry and Spectroscopy**

Electrochemical and spectroscopic methods in analytical chemistry. Prereq: 15CHEM341, 15CHEM382. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15CHEM350**Organic Chemistry for Engineers I**

The fundamentals of bonding, structure, and stereochemistry of organic compounds: reaction mechanism and synthetic utility of reactions involving unsaturated compounds, aromatic compounds, alkyl halides and alcohols, carbonyl compounds, and nitrogen-containing compounds; reaction intermediates. BoK: NS. Credit Level: U. Credit Hrs: 4.00

15CHEM351**Organic Chemistry for Engineers II**

The second part of a two-course sequence. The fundamentals of bonding, structure, and stereochemistry of organic compounds: reaction mechanisms and synthetic utility of reactions involving unsaturated compounds, aromatic compounds, alkyl halides and alcohols, carbonyl compounds, and nitrogen-containing compounds; reaction intermediates. Prereq: 15CHEM350. BoK: NS. Credit Level: U. Credit Hrs: 4.00

15CHEM352**Organic Chemistry Laboratory for Engineers I**

An introduction to microscale laboratory techniques or organic chemistry, including isolation, purification, chromatography, extraction and distillation of organic compounds. Prereq: 15CHEM113. Coreq: 15CHEM350. BoK: NA. Credit Level: U. Credit Hrs: 2.00

15CHEM353**Organic Chemistry Laboratory for Engineers II**

The second part of a two-part laboratory sequence. An introduction to microscale laboratory techniques of organic chemistry, including isolation, purification, chromatography, extraction and distillation of organic compounds. Prereq: 15CHEM350, 15CHEM352. Coreq: 15CHEM351. BoK: NA. Credit Level: U. Credit Hrs: 2.00

15CHEM361**Physical-Analytical Measurements I**

Treatment of experimental data involving the use of computer techniques; elementary physicochemical laboratory instruments and techniques. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15CHEM362**Physical-Analytical Measurements II**

A course involving titration, electrochemical, and spectroscopic experiments. Prereq: 15CHEM381, 15CHEM342. BoK: NA. Credit

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Chemistry**15CHEM362****Physical-Analytical Measurements II**

Level: U. Credit Hrs: 2.00

15CHEM381**Physical Chemistry I**

Chemical Kinetics. Prereq: 15CHEM203, 15PHYS103, 15PHYS203, 15MATH227, 15MATH253. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

15CHEM382**Physical Chemistry II**

Equilibrium and nonequilibrium thermodynamics; solutions. Prereq: 15CHEM381. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

15CHEM383**Physical Chemistry III**

Quantum Chemistry. Prereq: 15CHEM381. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

15CHEM384**Survey of Physical Chemistry**

Survey of topics in physical chemistry, including thermodynamics and properties of solutions, for students working toward the BA degree in Chemistry. Not to be taken by students working toward a BS in Chemistry. Prereq: 15CHEM381. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15CHEM421**Introduction to Biochemistry**

An introductory course for chemistry undergraduates describing the physical properties biological molecules. The function & role of these and functions of biological molecules; the function and role of these molecules during important cellular processes and pathways such as metabolism, oxidative phosphorylation and others. BoK: NS. Credit Level: U. Credit Hrs: 4.00

15CHEM441**Inorganic Chemistry I**

Atomic and molecular structure, acid-base theories, oxidation-reduction phenomena, coordination compounds, symmetry, organometallic chemistry. Prereq: 15CHEM381. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15CHEM442**Inorganic Chemistry II**

Atomic and molecular structure, acid-base theories, oxidation-reduction phenomena, coordination compounds, symmetry, organometallic chemistry. The second offering of a two-part course sequence. Prereq: 15CHEM441. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15CHEM444**Inorganic Synthesis**

Preparation and characterization of inorganic and organometallic compounds. Prereq: 15CHEM441, 15CHEM442. BoK: NA. Credit Level: U. Credit Hrs: 2.00

15CHEM480**Senior Capstone Series for Majors**

Seminar series for senior chemistry majors, including final capstone presentations. Prereq: 15CHEM499, 15CHEM562, 15CHEM612. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15CHEM498**ACADEMIC INTERNSHIP IN CHEMISTRY**

Supervised professional experience in an industrial or government laboratory on a project with significant chemistry content. Repeatable two times for a maximum total of nine credits. Permission of instructor and Director of Undergraduate Studies is required. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15CHEM499**Undergraduate Research in Chemistry**

Under direction of Chemistry faculty. Areas include analytical,

Chemistry**15CHEM499****Undergraduate Research in Chemistry**

biochemistry, inorganic, organic, physical (designated by section number, i.e., Analytical 001; Biochemistry 002; etc., for internal bookkeeping purposes). No class standing requirements. Hrs. to be arranged. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

15CHEM521**History of Chemistry**

A historical survey of the development of modern chemistry from the 18th century to the present. Prereq: 15CHEM383. BoK: HP, NS. Credit Level: U, G. Credit Hrs: 3.00

15CHEM544**Organic Structural Analysis**

An introduction to spectroscopic methods, applied to organic compounds, with emphasis on nmr, ir, uv, and mass spectroscopy. Prereq: 15CHEM203. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15CHEM545**Intermediate Organic Chemistry**

Advanced topics in the theory, reaction mechanism and stereochemistry of organic compounds. Prereq: 15CHEM203. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15CHEM546**Intermediate Organic Chemistry II**

Modern synthetic organic chemistry, with emphasis on designing rational synthetic strategies for complex molecules. Prereq: 15CHEM203. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15CHEM562**Instrumental Measurements II**

The application of modern chemical instrumentation to analysis and measurement. Prereq: 15CHEM362. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

15CHEM563**Instrumental Measurements III**

The application of modern chemical instrumentation to analysis and measurement. The second offering in a two-part course sequence. Prereq: 15CHEM562. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

15CHEM590**Biophysical Chemistry**

A survey and introductory course covering physical methods typically used in the study of biochemical molecules. Prereq: 15CHEM601, 15CHEM382. BoK: NS. Credit Level: U, G. Credit Hrs: 4.00

15CHEM601**Biochemistry**

Structure and function relationships of biologically important macromolecules and supramolecular assemblies, intermediary metabolism including pathways, regulation and methods of study, and molecular biology are topics that will be covered. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15CHEM602**Biochemistry**

See 15-035-601. Prereq: 15CHEM601. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15CHEM603**Biochemistry**

See 15-035-601. Prereq: 15CHEM602. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15CHEM604**Biochemical Methods**

Contemporary techniques for studying the structures and interactions of biological macromolecules. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Chemistry**15CHEM611****Biochemistry Laboratory**

Laboratory techniques for modern biochemical research. BoK: NA.

Credit Level: U, G. Credit Hrs: 3.00

15CHEM612**Biochemistry Laboratory**

Laboratory techniques for modern biochemical research. The second offering in a two-part course sequence. BoK: NA. Credit Level: U, G.

Credit Hrs: 3.00

15CHEM621**Polymer Configurations and Rubberlike Elasticity**

Statistical properties of chain molecules, including chain distribution functions; experimental and theoretical studies of rubberlike elasticity; stain-induced crystallization and ultimate properties of polymer networks. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15CHEM622**Preparation and Reactions of Polymers**

Condensation polymerizations; chain polymerizations (radical and ionic); emulsion, suspension, and interfacial polymerizations; chemical reactions of polymers. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15CHEM623**Polymer Properties Laboratory II**

Modern laboratory techniques used in the characterization of polymeric materials. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15CHEM624**Solution Properties of High Molecular Weight Polymers**

Thermodynamic and hydrodynamic properties of polymer molecules in solution. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15CHEM651**Biochemistry**

Structure and function relationships of biologically important macromolecules and supramolecular assemblies, intermediary metabolism including pathways, regulation and methods of study, and molecular biology are topics that will be covered. Prereq: 15CHEM203. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15CHEM652**Biochemistry**

Structure and function relationship of biologically important macromolecules and supra- molecular assemblies, intermediary metabolism including pathways, regulation and methods of study, and molecular biology are topics that will be covered. The second offering in a three-part course sequence. Prereq: 15CHEM651. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15CHEM653**Biochemistry**

Structure and function relationships of biologically important macromolecules and supra- molecular assemblies, intermediary metabolism including pathways, regulation and methods of study, and molecular biology are topics that will be included. The third offering of a three-part course sequence. Prereq: 15CHEM652. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15CHEM721**Advanced Physical Chemistry I**

Quantum chemistry. Credit Level: G. Credit Hrs: 3.00

15CHEM722**Advanced Physical Chemistry II**

Thermodynamics and statistical mechanics. Credit Level: G. Credit Hrs: 3.00

15CHEM723**Advanced Physical Chemistry III**

Chemical kinetics and reaction dynamics. Credit Level: G. Credit Hrs: 3.00

Chemistry**15CHEM724****Molecular Spectroscopy and Group Theory**

3 gr. cr. Prereq: 15CHEM721. Credit Level: G. Credit Hrs: 3.00

15CHEM741**Chemical Separations**

Discussion of analytical separations, especially solvent extractions, and gas and liquid chromatographic methods. Credit Level: G. Credit Hrs: 3.00

15CHEM742**Analytical Spectroscopy**

Discussion of spectroscopy as related to analytical chemistry covering such topics as ultraviolet-visible spectroscopy, fluorimetry and phosphorimetry, plasma emission and atomic spectroscopy. Credit Level: G. Credit Hrs: 3.00

15CHEM743**Electroanalytical Chemistry**

Basic principles of electroanalytical techniques; potentiometry, voltammetry, polarography, coulometry, spectroelectrochemistry. Credit Level: G. Credit Hrs: 3.00

15CHEM744**Fundamentals of Modern Mass Spectrometry**

The basics of modern mass spectrometry. Topics include theory of ion formation & dissociation, sample introduction, ionization sources, mass analyzers, detection & data processing, quantitative mass spectrometry, hybrid instrument design including coupling to chromatographic systems, tandem mass spectrometry, and gas-phase ion-molecule chemistry. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

15CHEM751**Advanced Inorganic Chemistry I**

Review of atomic wave functions, periodic table, ionization potential, electron affinity, Lewis octets, resonance. Symmetry and group theory; definition of symmetry operations, groups, identify point groups for molecules. Matrix notation, representations, reduction to irreducible reps. Review of molecular orbital theory and hybridization, using group theory. Review of VSEPR "theory." Application of group theory to IR, Raman and NMR spectra for various Credit Level: G. Credit Hrs: 3.00

15CHEM752**Advanced Inorganic Chemistry II**

Continuation of classical transition metal chemistry. Crystal field theory, complex structures, splitting diagrams, magnetism, spectroscopy, Orgel diagrams, Tanabe-Sugano diagrams, spin-orbit coupling. Reactions, kinetics and mechanisms. Transition state stabilization. Credit Level: G. Credit Hrs: 3.00

15CHEM753**Selected Topics in Inorganic Chemistry**

Special topics in inorganic chemistry. Some topics which may be presented at the choice of the instructor: structural methods, radiochemistry, bioinorganic, representative elements, applied industrial inorganic, metal-based drugs and imaging agents, advanced organometallic. Credit Level: G. Credit Hrs: 3.00

15CHEM754**Physical Methods in Inorganic Chemistry**

Covers the theory and practice of various spectroscopic, magnetic and other methods employed for the investigation of inorganic compounds and reactions. Prereq: 15CHEM751. Credit Level: G. Credit Hrs: 3.00

15CHEM761**Organic Spectroscopy**

Organic spectroscopy including HMR, IR, and Mass Spectrometry. Credit Level: G. Credit Hrs: 3.00

15CHEM762**Advanced Synthetic Organic Chemistry**

(Day/Eve.) Modern synthetic organic chemistry, with emphasis on designing rational synthetic strategies for complex molecules. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Chemistry**15CHEM762****Advanced Synthetic Organic Chemistry**

(Day/Eve.) Modern synthetic organic chemistry, with emphasis on designing rational synthetic strategies for complex molecules. Credit Level: G. Credit Hrs: 3.00

15CHEM763**Physical Organic Chemistry**

Fundamental principles and theories of physical organic chemistry. Credit Level: G. Credit Hrs: 3.00

15CHEM764**Advanced Organic Chemistry: Special Topics**

First year graduate course dealing with a variety of subjects of central importance in Organic Chemistry Prereq: 15CHEM761. Credit Level: G. Credit Hrs: 3.00

15CHEM771**Introduction to Research**

Only for students in the PhD program for a maximum of 7 credits. Credit Level: G. Credit Hrs: 1.00-7.00

15CHEM800**Scientific Writing**

Emphasizes the need for written scientific language that is clear, direct, accurate, simple, concise and vigorous. Students will learn to recognize poor writing, and how to correct and improve it. Study samples will come from the literature, and the students' own efforts in assorted formats (journal articles, abstracts, overheads/Powerpoint slides, posters). Credit Level: G. Credit Hrs: 1.00-3.00

15CHEM801**Advanced Computational Chemistry I**

Discusses the chemistry, biophysics, and statistics behind computational methods used to predict the structure and function of proteins and RNA molecules from sequence information. Applications of bioinformatic packages to biophysics problems and development of analysis tools will be emphasized. Credit Level: G. Credit Hrs: 3.00

15CHEM802**Advanced Computational Chemistry II**

Focuses on the application of computer simulations to the study of biological systems. discusses concepts in classical mechanics, thermodynamics and statistical mechanics and their application to Monte Carlo and molecular dynamics methods. The use of molecular modeling programs will be illustrated using specific biomolecular systems. Credit Level: G. Credit Hrs: 3.00

15CHEM803**Special Topics in Computational Chemistry**

Introduction to the uses of computational theory in chemistry. Will cover the fundamentals of computational chemistry and focus on correlating chemical calculations with experimental results. Credit Level: G. Credit Hrs: 3.00

15CHEM831**Chemical Sensors I**

Fundamentals of chemical and biochemical sensing including electrochemical and optical sensing, mechanisms of transduction and sensing devices. Prereq: 15CHEM743. Credit Level: G. Credit Hrs: 3.00

15CHEM832**Chemical Sensors II**

Fundamentals of chemical and biochemical sensing including electrochemical and optical sensing, mechanisms of transduction and sensing devices. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

15CHEM833**Chemical Sensors III**

Current topics in the development of materials for chemical sensors and devices. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

Chemistry**15CHEM859****Structural Biochemistry**

Theory and use of NMR, X-ray crystallography and Mass Spectrometry for the structural characterization of biomolecules. Credit Level: G. Credit Hrs: 1.00-3.00

15CHEM864**Bioorganic Chemistry**

Latest methods in bioorganic chemistry are presented and discussed. Credit Level: G. Credit Hrs: 3.00

15CHEM865**The Organic Chemistry of Drug Discovery and Development**

Emphasizes the application of organic chemistry principles to the design and development of drugs. The discovery and optimization of lead compounds and their progression to clinical candidates is discussed using basic principles and case histories. Prereq: 15CHEM203. Credit Level: G. Credit Hrs: 3.00

15CHEM872**Special Topics: Inorganic Chemistry**

Advanced treatment of special topics. Content varies yearly at the discretion of the instructor. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

15CHEM875**Special Topics In Inorganic Chemistry**

Current problems in inorganic chemistry. Content varies each term. May be taken multiple times for credit. Credit Level: G. Credit Hrs: 3.00

15CHEM880**Surface Characterization**

Analysis of techniques currently available for the detailed characterization of well-defined surfaces. Credit Level: G. Credit Hrs: 3.00

15CHEM884**Electronics and Instrumentation for Chemists**

Introduction to analog and digital circuitry and laboratory automation. Credit Level: G. Credit Hrs: 4.00

15CHEM888**Asymmetric Synthesis**

Organic chemistry course focusing on asymmetric synthesis. New methodology presentations of current literature and brief description of kinetics and analytical techniques. Credit Level: G. Credit Hrs: 3.00

15CHEM890**Advanced Electroanalytical Chemistry**

Advanced topics in electroanalytical techniques. Mathematical simulations, recent advances and other specialized subjects. Prereq: 15CHEM743. Credit Level: G. Credit Hrs: 3.00

15CHEM895**Photochemistry**

An overview of excited chemistry: Methods for the generation of excited states, excited state dynamics (energy transfer, quenching, intersystem crossing), excited state transformations and their synthetic applications. Credit Level: G. Credit Hrs: 1.00-3.00

15CHEM971**Research**

Credit according to amount of work elected. Credit Level: G. Credit Hrs: 1.00-18.00

15CHEM981**Special Study Topics**

Modern developments in physical organic chemistry. Credit Level: G. Credit Hrs: 1.00-15.00

15CHEM983**Life After Graduate School**

Discusses the types of careers available to PhD chemists, the skills needed to be successful on the job, and the skills needed to find a job after graduate school. Perm of Instructor. Credit Level: G. Credit Hrs:

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Chemistry**15CHEM983****Life After Graduate School**

1.00

15CHEM995**Seminar**

Required of all full-time graduate students in chemistry. Credit Level: G. Credit Hrs: 2.00

15CHEM999**Laboratory Teaching Practice**

Theory and practice of chemistry laboratory instruction. Required of all first-year graduate assistants involved in teaching. Credit Level: G. Credit Hrs: 1.00

Chinese Languages and Cultures**15CHIN101****Basic Chinese I**

1st quarter in the 3-quarter sequence that fulfills the A&S language requirement. Intro. to Chinese language and culture. BoK: HU., DC. Credit Level: U. Credit Hrs: 5.00

15CHIN102**Basic Chinese II**

Introduction to Chinese Language and culture. Second quarter in the three-quarter sequence that fulfills the A&S language requirement. Prereq: 15CHIN101. BoK: HU, DC. Credit Level: U. Credit Hrs: 5.00

15CHIN103**Basic Chinese III**

Introduction to Chinese language and culture. Third quarter in the three quarter sequence that fulfills the A&S language requirement. Prereq: 15CHIN102. BoK: HU, DC. Credit Level: U. Credit Hrs: 5.00

15CHIN111**Extended Basic Chinese 1**

Basic Chinese language and culture. First qtr. in the extended 6-quarter sequence to fulfill the A&S language requirement. BoK: DC., HU. Credit Level: U. Credit Hrs: 3.00

15CHIN112**Extended Basic Chinese 2**

Basic Chinese language and culture. Second quarter in the extended 6-quarter sequence to fulfill the A&S language requirement. Prereq: 15ASIA104. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15CHIN113**Extended Basic Chinese 3**

Basic Chinese language and culture. Third quarter in the extended 6-quarter sequence to fulfill the A&S requirement. Prereq: 15ASIA105. BoK: DC, HU. Credit Level: U. Credit Hrs: 3.00

15CHIN114**Extended Basic Chinese 4**

Basic Chinese language and culture. Fourth quarter in the extended 6-quarter sequence to fulfill the A&S language requirement. Prereq: 15ASIA106. BoK: DC, HU. Credit Level: U. Credit Hrs: 3.00

15CHIN115**Extended Basic Chinese 5**

Basic Chinese language and culture. Fifth quarter in the extended 6-quarter sequence to fulfill the A&S language requirement. BoK: DC., HU. Credit Level: U. Credit Hrs: 3.00

15CHIN116**Extended Basic Chinese 6**

Basic Chinese language and culture. Sixth quarter in the extended 6-quarter sequence to fulfill the A&S language requirement. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15CHIN201**Second Year Chinese I**

Intermediate Chinese language and culture. First quarter in an intensive three-quarter second year sequence. Prereq: 15CHIN113.

Chinese Languages and Cultures**15CHIN201****Second Year Chinese I**

BoK: HU, DC. Credit Level: U. Credit Hrs: 5.00

15CHIN202**Second Year Chinese II**

Intermediate Chinese language and culture. Second quarter in an intensive three-quarter second year sequence. Prereq: 15CHIN201. BoK: HU, DC. Credit Level: U. Credit Hrs: 5.00

15CHIN203**Second Year Chinese III**

Intermediate Chinese language and culture. Third quarter in the intensive three quarter second year sequence. Prereq: 15CHIN202. BoK: HU, DC. Credit Level: U. Credit Hrs: 5.00

Classical Civilization**15CLAS101****Introduction to Ancient History**

The political, social, economic, and cultural history of the ancient Near East and early Greece from about 3000 BCE to the middle of the fifth century BCE. Introduces students to the problems and techniques of historical analysis. The first in a three-part sequence. Transfer Module. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15CLAS102**Introduction to Ancient History**

Classical Greece and the Hellenistic World to the coming of the Romans from the mid-fourth century BCE to the mid-second century BCE. The course will explore the emergence of new political forms in the Greek world and its expansion into the Near East. The second in a three-part series. Transfer Module. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15CLAS103**Introduction to Ancient History**

Rome to the age of Constantine. This course will focus on the transformation of Rome from a republic to an empire as well as the problems that this transformation entailed. The third in a three-part course sequence. Transfer Module. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15CLAS105**History of Ancient Egypt**

This introductory survey covers the history of ancient Egypt from the predynastic period through the Old, Middle and New Kingdoms, and ends by examining the roles of Egypt in the empires of Alexander the Great (Hellenistic Greece) and of Rome. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS110**Introduction to Classical Civilization**

Early Greek civilization, interpreted through its history, literature, and archaeology. The first in a three-part course sequence. Transfer Module. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS110H**Introduction to Classical Civilization**

Honors section. Transfer Module. BoK: HU. Credit Level: U. Credit Hrs: 4.00

15CLAS111**Introduction to Classical Civilization II**

Classical Greek civilization, interpreted through its history, literature and archaeology. The second in a three-part course sequence. Transfer Module. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS111H**Introduction to Classical Civilization**

Honors section. Transfer Module. BoK: HU. Credit Level: U. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Classical Civilization**15CLAS112****Introduction to Classical Civilization III**

Roman civilization, interpreted through its history, literature and archaeology. The third in a three-part course sequence. Transfer Module. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS112H**Introduction to Classical Civilization**

Honors section. Transfer Module. BoK: HU. Credit Level: U. Credit Hrs: 4.00

15CLAS151**Greek Civilization**

Ancient Greek civilization from the Archaic period up to the Peloponnesian War in the late 5th century BC. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15CLAS152**Greek Civilization**

Continuation of 15CLAS151. Ancient Greek civilization from the Peloponnesian War in the late 5th century BC through the Hellenistic and Roman periods to the Byzantine era. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15CLAS153**Roman Civilization**

Ancient Rome civilization from the founding of Rome through the late Republic in the 1st century BC. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15CLAS154**Roman Civilization**

Continuation of 15CLAS153. Ancient Roman civilization from the early Roman empire through the reign of Justinian. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15CLAS170**Etiquette Ancient and Modern**

Perspectives from Classical Antiquity and the modern world on etiquette. Similarities and differences between Greek and Roman and modern views help question the principles upon which etiquette is built. BoK: SE., HP. Credit Level: U. Credit Hrs: 3.00

15CLAS188**Mortals, Myth and Magic in the Ancient World**

Magical practices and beliefs of four different cultures - Egypt, Greece, Rome, and the Celts - are investigated by studying both archaeological remains and textual evidence such as Pyramid Texts, magical papyri, curse tablets, and tales of magic and sorcery. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS201**Art and Archaeology of Ancient Mesopotamia and Egypt**

Introduction to the material remains of these ancient cultures. Monumental cultures of ancient Sumeria and Egypt, from the earliest prehistoric periods through the end of the Old Kingdom. Architecture, sculpture and paintings are analyzed, as are smaller works such as pottery, jewelry and utensils, with a view toward understanding what these material remains reveal about the people who produced them. BoK: FA., HP. Credit Level: U. Credit Hrs: 3.00

15CLAS202**Art and Archaeology of Ancient Greece**

Introduction to the material culture of ancient Greece and Crete, from the Bronze Age through the Classical and Hellenistic periods. Architecture, sculpture and paintings are analyzed, as are smaller works of pottery, jewelry and utensils, with a view toward understanding what these materials remains reveal about the people who produced them. BoK: FA., HP. Credit Level: U. Credit Hrs: 3.00

15CLAS203**Art and Archaeology of Ancient Rome**

Introduction to the material cultures of Rome and her colonies, from the early Etruscan settlements in Italy through the far reaches of the Roman

Classical Civilization**15CLAS203****Art and Archaeology of Ancient Rome**

empire in Britain, Asia and Africa. Architecture, sculpture and paintings are analyzed, as are smaller works of pottery, jewelry and utensils, with a view toward understanding what these material remains reveal about the people who produced them. BoK: FA., HP. Credit Level: U. Credit Hrs: 3.00

15CLAS221**The Art and Archaeology of the Ancient World**

A survey of the culture of ancient Egypt through a study of its art and architecture. Students will learn about monuments such as the great pyramids and how they reflect the beliefs of the ancient Egyptian people. Transfer Module. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS222**The Art and Archaeology of the Ancient World**

A survey of the culture of ancient Greece circa 2000BC-31BC through the study of history, art, and architecture. Explore religious, civic, and private life of the culture that invented democracy. Transfer Module. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS223**The Art and Archaeology of the Ancient World**

A survey of the culture of ancient Rome circa 800BC-AD400 through a study of its history, art, and architecture. Explores the development of the Roman empire and activities of daily life. Transfer Module. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS238**Greek and Latin Elements in Medical Terminology**

Basic vocabulary of some 1000 words, together with materials for formation of compounds, enabling students to build working vocabulary of several thousand words. Designed for those intending to specialize in medicine, nursing, dentistry, microbiology and medical technology. (Does not count toward major in Classical Civilization.) BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS333**Egyptian and Mesopotamian Mythology**

Ancient myth and religion are presented through readings in ancient texts, depictions in ancient art, and the study of religious sites and temples. Where applicable, modern theories about the significance of myth are analyzed. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS335**Celtic and Norse Mythology**

Ancient myth and religion are presented through readings in ancient texts, depictions in ancient art, and the study of religious sites and temples. Where applicable, modern theories about the significance of myth are analyzed. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS345**Mythology**

Classical Greek myths as products of Greek culture. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS346**Greek and Roman Myth and Religion**

A general account of Greek and Roman mythology and religion. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS350**Palaces of the Bronze Age Aegean**

Examines the emergence, development and decline of complex societies on Crete and mainland Greece (2000 - 1200 BC) through material and textual evidence. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS355**Prostitutes, Slaves and Scoundrels in Ancient Athens**

Social attitudes, interests and obsessions of the ancient Athenians come to life in often convoluted legal disputes. The more intriguing and racy courtroom speeches that survive from ancient Athens reveal laws,

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Classical Civilization**15CLAS355****Prostitutes, Slaves and Scoundrels in Ancient Athens**

ethics, lifestyles, pretensions and politics of the ancient Athenians. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15CLAS356**Gender and Sexuality in Ancient Greece**

Examines the roles of women and men in a society where these roles were very different. Topics include family, work, and daily lives of men and women, as well as sexuality and homosexuality; marriage and adultery; misogynist and other portrayals of women. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS357**The Athenian Acropolis**

An exploration of the most important religious site of ancient Athens from the Neolithic period to the modern period. Will focus on Greek religious practice, art and architecture, and the Acropolis's historical significance in antiquity and today. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS360**Tales of Heroes: Homeric Epic**

Detailed study of Homeric epic poetry in translation. Readings comprise Epic of Gilgamesh (as background); Iliad; Odyssey; some secondary literature. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS365**Seven Wonders of the Ancient World**

A survey of the most important sites and monuments of ancient Greece, Mesopotamia, Israel, Turkey and Egypt. Critical thinking and oral communication skills will be applied in assessing the archaeological and textual evidence for the Seven Wonders of the Ancient World. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS366**Opera and Classical Antiquity**

Readings of classical texts serve as a starting point for the analysis of opera by diverse composers and from different periods. The topics include: 1) Greek and Roman epic (e.g. Virgil's "Aeneid" - Opera: "Les Troyennes", "Ascanio in Alba", etc.) 2) Greek tragedy; 3) Roman history. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS368**Pompeii**

The eruption of Mt. Vesuvius in 79AD completely buried the Roman city of Pompeii. We will rediscover Pompeii's temples, theaters, baths, streets, and her many houses, humble and haughty, to understand the operation of this ancient city. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS370**Life in the Roman City**

We will read from historians, orators, satirists, and poets to explore reactions of ancient Romans to city life. Topics include: the development of Rome and Roman colonies; urban planning and policing; public services and street life; entertainment and spectacle; and death and burial. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15CLAS373**Tour of Rome: The Art and Archaeology of the Ancient City**

We will explore the art and archaeology of Rome with a focus on its monuments, buildings, and neighborhoods. Our investigation of these will shed light on the various historic, social, and cultural developments that shaped the city with an aim to recreate ancient daily life in Rome. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS375**Survey of the Topography of Rome From Its Origins Through the Baroque**

A survey of the history of Rome from its foundation until the flowering of the baroque as seen through its monuments, buildings, and public art. Rome, the Eternal City, through 2500 years of continuous inhabitation. BoK: FA., HP. Credit Level: U. Credit Hrs: 3.00

Classical Civilization**15CLAS381****Women and Men, Sex and Gender in Antiquity**

An overview of the textual and material evidence pertaining to women's lives in four ancient cultures. Students synthesize and evaluate this information, weighing the limitations of different types of evidence and considering any possible gender biases of previous scholars. Perm of Instructor. BoK: HU, SE. Credit Level: U. Credit Hrs: 3.00

15CLAS400**Roman Archaeology I**

In-depth examination of the first Romans and the Roman Republic (circa 800-100BC) and its scholarship. Meets with CLAS700. Prereq: 15CLAS223. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS401**Roman Archaeology II**

In-depth examination of the art and archaeology of the late Roman Republic to the early Roman Empire (circa 100BC-AD100) and its scholarship. Meets with CLAS701. Prereq: 15CLAS223. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS402**Roman Archaeology III**

In-depth examination of the art and archaeology of the High and later Roman Empire (AD100-400) and its scholarship. Meets with CLAS702. Prereq: 15CLAS223. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS403**Advanced Greek Archaeology**

In-depth examination of the art and archaeology of Iron Age and Archaic Greece (1000-500BC) and its scholarship. Meets with CLAS703. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS404**Advanced Greek Archaeology**

In-depth examination of the art and archaeology of Classical Greece (500-323BC) and its scholarship. Meets with CLAS703. Prereq: 15CLAS222. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS405**Advanced Greek Archaeology**

In-depth examination of the art and archaeology of the ancient Greek Hellenistic World (323-31BC) and its scholarship. Meets with CLAS705. Prereq: 15CLAS222. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS406**Aegean Prehistory**

The art and archaeology of Prehistoric Greece. Perm of Instructor. BoK: HU, SS. Credit Level: U. Credit Hrs: 3.00

15CLAS407**Greek Archaeology IV**

Survey of Greek material culture. This course follows 15CLAS405 in years when the Greek archaeology survey is taught as a 4-course sequence. Prereq: 15CLAS222. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS411**Archaeology of Israel**

Focuses on the material remains of Israel, from prehistory to the Roman period. Prereq: 15ANTH201, 15CLAS221, 15CLAS222, 15CLAS223. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15CLAS471**Special Topics**

A special topic is chosen by student with approval of adviser as the subject of study in the capstone experience. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

15CLAS475**Introduction to Classical Studies**

Survey of the various areas of classical studies and their methodologies. BoK: HU. Credit Level: U. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Classical Civilization**15CLAS475****Introduction to Classical Studies**

Survey of the various areas of classical studies and their methodologies. BoK: HU. Credit Level: U. Credit Hrs: 1.00

15CLAS481**History of Rome: Early Rome to the Middle Republic**

Early Roman history from the origins of Rome, the monarchy and the early Republic through the Middle Republic. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15CLAS482**History of Rome: Late Republic to Its Fall**

History of the Roman Republic from the time of the Gracchi to that of Julius Caesar. Emphasis is placed on the causes of the fall of the Republic. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15CLAS483**History of Rome: Early Empire**

Political, social and economic history of the Roman Empire from Augustus to the Antonines. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15CLAS484**Early Greece**

The history of Greece in the Dark Age and the Archaic period. The emergence of the city-state, colonization, and the constitutional development of Sparta and Athens to the end of the sixth century B.C. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15CLAS485**Greece: Pericles**

The Age of Pericles and the 4th century B.C. The social and political history of Greece in the 5th and 4th centuries B.C. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15CLAS486**Greece: Hellenistic**

Alexander the Great and the Hellenistic World. The social and political history of the Greek world in the 4th to the 2nd centuries B.C. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15CLAS488**Greek and Roman Warfare**

A study of Greek and Roman tactical methods and army structure. This course was formerly known as 15HIST442. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15CLAS490**Bread and Butter Course on Food Production and Consumption in the Ancient World**

Survey of food production and consumption in the ancient world, with a special focus on the social organization of the agriculture (leases, estates) and the development of entitlements (taxes, doles) BoK: HP. Credit Level: U. Credit Hrs: 3.00

15CLAS499**Independent Study in Classics**

Please complete and submit an Independent Application form available from the college office. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

15CLAS741**The Minoans**

Description not available. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00-4.00

15CLAS742**The Minoans**

Description not available. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00-4.00

15CLAS743**The Mycenaeans**

The first of a two-part course sequence. A graduate survey class dealing with the archaeology society, economy, history and art of the Greek mainland from the Paleolithic period to the end of the Bronze

Classical Civilization**15CLAS743****The Mycenaeans**

Age and the beginning of the Dark Ages. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00-4.00

15CLAS700**Roman Archaeology I**

The art and archaeology of the Early Roman Republic. Credit Level: G. Credit Hrs: 4.00

15CLAS701**Roman Archaeology II**

Problems in Roman archaeology from the Julio-Claudian through Trojan period. Credit Level: G. Credit Hrs: 4.00

15CLAS702**Roman Archaeology III**

The art and archaeology of the later Roman Empire. Credit Level: G. Credit Hrs: 4.00

15CLAS703**Greek Archaeology I**

The art and archaeology of Iron Age and Archaic Greece. Credit Level: G. Credit Hrs: 4.00

15CLAS704**Greek Archaeology II**

The art and archaeology of Classical Greece. Prereq: 15CLAS703. Credit Level: G. Credit Hrs: 4.00

15CLAS705**Greek Archaeology III**

The art and archaeology of the Hellenistic World. Prereq: 15CLAS704. Credit Level: G. Credit Hrs: 4.00

15CLAS706**Aegean Prehistory**

The art and archaeology of Prehistoric Greece. Perm of Instructor. Credit Level: G. Credit Hrs: 4.00

15CLAS707**Greek Archaeology IV**

Survey of Greek material culture. This course follows 15CLAS705 in years when the Greek archaeology survey is taught as a 4-course sequence. Credit Level: G. Credit Hrs: 4.00

15CLAS710**Mediterranean World of the Early Iron Age: 1100- 600 BC**

Emphasis is placed on Greek and Italic social development and their interaction with other cultures such as the Phoenician. An examination of both archaeological and literary evidence follows the development of social institutions that culminate in the emergence of the state. Credit Level: G. Credit Hrs: 4.00

15CLAS711**Archaeology of Israel**

Focuses on the material remains of Israel, from prehistory to the Roman period. Credit Level: G. Credit Hrs: 4.00

15CLAS725**Information Technology in Archaeological Research**

Prepares students to effectively use computers in archaeological research, including database design and integration with spatial data through GIS. Credit Level: G. Credit Hrs: 4.00

15CLAS731**Bronze Age Cyprus**

The archaeology of Cyprus from the c. 3000 to the beginning of the 10th century BC, dealing the geography, natural resources, land use, state formation and culture; An overview of the eastern Aegean with emphasis on excavations at Episkopi-Bamboula. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Classical Civilization**15CLAS744****The Myceneans**

The second of a two-part course sequence. A graduate survey class dealing with archaeology, society, economy, history and art of the Greek mainland from the Paleolithic period to the end of the Bronze Age and the beginning of the Dark Ages. Credit Level: G. Credit Hrs: 4.00

15CLAS781**Roman History: Early Rome**

Early Roman history from the origins of Rome, the monarchy and the early Republic through the Middle Republic. Credit Level: G. Credit Hrs: 4.00

15CLAS782**Roman History: Late Republic**

History of the Roman Republic from the time of the Gracchi to that of Julius Caesar. Emphasis is placed on the causes of the fall of the Republic. Credit Level: G. Credit Hrs: 4.00

15CLAS783**Roman History: Empire**

Political, social and economic history of the Roman Empire from Augustus to Antonines. Credit Level: G. Credit Hrs: 4.00

15CLAS784**Archaic Greece**

The history of Greece in the Dark Age and the Archaic period. The emergence of the city-state, colonization, and the constitutional development of Sparta and Athens to the end of the sixth century B.C. Credit Level: G. Credit Hrs: 4.00

15CLAS785**Greece: Pericles**

The Age of Pericles and the 4th century B.C. The social and political history of Greece in the 5th and 4th centuries B.C. Credit Level: G. Credit Hrs: 4.00

15CLAS786**Greece: Hellenistic**

Alexander the Great and the Hellenistic World. The social and political history of the Greek world from the 4th to the 2nd centuries. B.C. B.C. Credit Level: G. Credit Hrs: 4.00

15CLAS788**Greek and Roman Warfare**

A study of Greek and Roman tactical methods and army structure. This course was formerly known as 15HIST442. Credit Level: G. Credit Hrs: 4.00

15CLAS790**Bread and Butter Course on Food Production and Consumption in the Ancient World**

Survey of food production and consumption in the ancient world, with a special focus on the social organization of agriculture (leases, estates) and the development of entitlements (taxes, doles). Credit Level: G. Credit Hrs: 4.00

15CLAS841**Art History and Ancient Art**

This seminar will examine art historical approaches to the material culture of ancient Greece and Rome. We will consider both the history of art historical interpretation and the application of recent theoretical approaches to ancient art. Credit Level: G. Credit Hrs: 4.00

15CLAS852**Cincinnati Art Museum Internship**

Deals with problems in exhibition design, conservation, and cataloguing, and includes research on works of ancient art in the collection of the Cincinnati Art Museum. Credit Level: G. Credit Hrs: 4.00-12.00

Classical Civilization**15CLAS868****Greek and Roman Warfare**

A detailed look at weaponry, tactics, and logistics, and the interaction of societies and armies. Credit Level: G. Credit Hrs: 4.00

15CLAS871**Master's Thesis Research**

Offered ea. qtr. Credit Level: G. Credit Hrs: 1.00-15.00

15CLAS872**Roman Architecture**

Description not available. Credit Level: G. Credit Hrs: 4.00

15CLAS873**Roman Painting**

Description not available. Credit Level: G. Credit Hrs: 4.00

15CLAS874**Prehistoric Macedonia**

Survey of the prehistory of Macedonia from the beginning of the Neolithic to the Archaic period. Discussion of major sites by period. Presentation of archaeological and historical evidence. Credit Level: G. Credit Hrs: 4.00

15CLAS875**Introduction to Graduate Studies**

1 gr. cr. Credit Level: G. Credit Hrs: 1.00

15CLAS877**Pompeii and Herculaneum**

This course examines the methods, motives and results of the excavations of Pompeii and Herculaneum over their 250 year history. Special attention to urban development. Credit Level: G. Credit Hrs: 4.00

15CLAS878**Roman Sculpture**

The history of Roman historical reliefs and coinage from the beginning of the Republic through the reign of Augustus. Second quarter continues the study through the Julio-Claudian to the Constantine era. (Two quarter sequence.) Credit Level: G. Credit Hrs: 4.00

15CLAS879**Roman Sculpture**

Second quarter sequence. See 15-007-878. Credit Level: G. Credit Hrs: 4.00

15CLAS882**Greek Sanctuaries I**

Description not available. Credit Level: G. Credit Hrs: 4.00

15CLAS883**Greek Sanctuaries II**

Description not available. Credit Level: G. Credit Hrs: 4.00

15CLAS901**Ptolemaic Empire**

A study of the papyrological, epigraphic, numismatic and archaeological evidence for the Ptolemaic empire. Formerly 15HIST901. Credit Level: G. Credit Hrs: 4.00

15CLAS902**Seleucid Empire**

A study of the papyrological, epigraphic, numismatic and archaeological evidence for the Seleucid empire. Formerly 15HIST902. Credit Level: G. Credit Hrs: 4.00

15CLAS903**Roman Religion**

The historical development of priesthood cult practices with particular emphasis placed on the religious practices of Roman public life. Formerly 15HIST903. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Classical Civilization**15CLAS905****State Origins**

A comparative study in the origins and evolution of state institutions of ancient Greece and Rome. Formerly 15HIST905. Credit Level: G. Credit Hrs: 4.00

15CLAS915**Homeric Archaeology**

Relevance of Homeric texts to understanding the Aegean Bronze Age. Integration of textual and archaeological approaches through application to specific case studies. Credit Level: G. Credit Hrs: 4.00

15CLAS919**Aegean Bronze Age Iconography in Context**

A seminar on visual representation in the prehistoric Aegean placing special emphasis on late Bronze Age media (frescoes, seals, stone and clay vases, figurines) discussed in relation to their archaeological context. Credit Level: G. Credit Hrs: 4.00

15CLAS920**Crete and Cyprus in the Late Medieval and Early Modern Period**

Society & economy of Crete & Cyprus c.1200-c.1600 with particular reference to settlement patterns and land use. Consideration given to integration of archaeological & historical material to reconstruct history of the landscape. Credit Level: G. Credit Hrs: 4.00

15CLAS921**The Religious Context of Early Christianity**

Surveys religions in the Roman world, including Christianity. Discusses approaches to religion, especially the "Religious History School." Compares public and private religion. Explores the boundaries of religions, where they meet, parted, and stopped being religions. Evaluates the contribution of other religions to early Christianity. Credit Level: G. Credit Hrs: 4.00

15CLAS922**Roman North Africa**

Detailed survey of Roman North Africa from the Republic through late antiquity. Credit Level: G. Credit Hrs: 4.00

15CLAS923**Archaeology of Colonization**

Approaches to the study of colonization through examination of material culture. Case studies from the Greek world with special attention to Illyria, the Black Sea, and southern France. Perm of Instructor. Credit Level: G. Credit Hrs: 4.00

15CLAS925**Gender and Theory in Archaeology**

Theories and methods by which archaeologists can trace gender distinctions in past societies from material remains. Credit Level: G. Credit Hrs: 4.00

15CLAS927**Archaeology of Hadrian's Empire**

Combines the study of ancient historical sources with a full examination of the archaeological evidence to illumine the reign of Hadrian and his influence across the Mediterranean world. Credit Level: G. Credit Hrs: 4.00

15CLAS928**Pausanias' Greece**

Explores Pausanias; Perigesis as a resource for understanding concepts of the past, place and identity in the ancient world. Perm of Instructor. Credit Level: G. Credit Hrs: 4.00

15CLAS929**Landscape Archaeology in Kea, Greece**

Integration of textual evidence and results of archaeological research to reconstruct the long-term history of the Greek island of Kea. Focus on 7th through 1st centuries B.C. Perm of Instructor. Credit Level: G. Credit Hrs: 4.00

Classical Civilization**15CLAS930****Pots and Potters**

Analysis and discussion of the latest tools, theoretical approaches, and methodological perspectives available to archaeologists for the study of ceramics. Credit Level: G. Credit Hrs: 4.00

15CLAS931**Applied Techniques in Archaeological Field Research**

Application of techniques developed in the physical and biological sciences to archaeological field research. Perm of Instructor. Credit Level: G. Credit Hrs: 4.00

15CLAS932**Neolithic and Early Cycladic Archaeology**

A detailed analysis of earliest settlement in the Aegean islands of Greece as revealed by archaeological investigations in the past century. Includes consideration of relevant theory and method. Credit Level: G. Credit Hrs: 4.00

15CLAS933**Archaeology of Troy**

A survey of recent archaeological discoveries at the site of Troy in northwestern Turkey. The seminar will deal also with problems in the interpretation of gaps in habitation, cult activity, and domestic architecture. Perm of Instructor. Credit Level: G. Credit Hrs: 4.00

15CLAS935**Social Complexity**

A survey of the archaeological and related literature (1940s-present) on the processes that lead to and sustain complex socio-political organizations. Examples from Old and New World. Credit Level: G. Credit Hrs: 4.00

15CLAS937**Sexuality in Greece and Rome**

This seminar examines the cultural construction of sexuality in ancient Greece and Rome. The emphasis is on hermeneutics: problems of interpretation, cultural poetics, past and present biases. We will examine both literary and visual sources. Class meets with 15Grk937. Credit Level: G. Credit Hrs: 4.00

15CLAS940**Evolution of Ancient Athens**

History of the economic, social and urban development of the city of Athens and its interrelationship with Greek urban development. Credit Level: G. Credit Hrs: 4.00

15CLAS942**Seminar: Classical Architecture**

Description not available. Credit Level: G. Credit Hrs: 4.00

15CLAS943**Houses and Households in Ancient Greece**

Examination of archaeological and literary evidence for ancient Greek domestic life. Will include discussion of architecture, material culture, iconography, women's roles in the home, and the "family." Credit Level: G. Credit Hrs: 4.00

15CLAS944**Archaeological Theory**

Seminar in classical and pre-classical archaeology. Review and critique of modern archaeological theory as relevant to Mediterranean archaeology. Credit Level: G. Credit Hrs: 4.00

15CLAS945**Archaeological Field Methods**

Principles of archaeological fieldwork in the Mediterranean, both excavations and survey. Credit Level: G. Credit Hrs: 4.00

15CLAS946**Regional Studies and Prehistory**

This seminar examines the development of techniques of surface archaeological survey and other methods of regional reconnaissance, as they come to be practiced in Greece. Participants in the seminar

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Classical Civilization**15CLAS946****Regional Studies and Prehistory**

evaluate the success of these research programs as they pertain to the study of Greek history. What have they contributed to our understanding of the Paleolithic, Neolithic, and Bronze Age of Greece? Perm of Instructor. Credit Level: G. Credit Hrs: 4.00

15CLAS947**Roman Warfare**

A seminar dealing with various topics on the development of Roman warfare such as tactics, strategy, social and economic effects, and institutional development. Credit Level: G. Credit Hrs: 4.00

15CLAS950**Greek Sculpture I**

Description not available. Credit Level: G. Credit Hrs: 4.00

15CLAS951**Greek Sculpture II**

Description not available. Credit Level: G. Credit Hrs: 4.00

15CLAS952**Problems in Greek Dark Age Archaeology**

Designed for graduate students interested in studying the Early Iron Age and Early Archaic periods in Greece and Rome. Questions involve change and continuity from the Late Bronze Age; problems in the reconstruction of social history; pre-polis evolution. Credit Level: G. Credit Hrs: 4.00

15CLAS954**Seminar: Bronze Age, Cyprus**

Description not available. Credit Level: G. Credit Hrs: 4.00

15CLAS955**Seminar: Mycenaeans Abroad**

Description not available. Credit Level: G. Credit Hrs: 4.00

15CLAS956**Coming of the Greeks**

Research seminar examining the Greek Early Bronze Age including archaeological and linguistic evidence for cultural continuity. Credit Level: G. Credit Hrs: 4.00

15CLAS957**The Symposium and Symposium Literature**

Archaic and Classical poetry and its metasymphotic elements; archaeological material and visual evidence in Archaic and Classical Greece with a focus on the socio-cultural function of communal drinking. Credit Level: G. Credit Hrs: 4.00

15CLAS958**Seminar: The Aegean**

Description not available. Credit Level: G. Credit Hrs: 4.00

15CLAS959**Phoenicians, Italians and Greeks**

An examination of the interaction between Phoenicians, Greeks and Italian peoples in the Western Mediterranean during the first half of the first millennium B.C. We will explore cultural exchanges in the areas of religion, social institutions and artistic and craft traditions. Credit Level: G. Credit Hrs: 4.00

15CLAS960**Greek Architecture**

Intensive study of 5th-4th century temple construction techniques from the archaeological and epigraphical evidence. Credit Level: G. Credit Hrs: 4.00

15CLAS961**Art and Myth**

Description not available. Credit Level: G. Credit Hrs: 4.00

Classical Civilization**15CLAS962****South Italy: Greek Colonists and Their Neighbors**

An examination of the evidence for interactions between Greeks and indigenous populations in Italy during the 5th to 3rd centuries BCE. A particular focus will be on figure decorated pottery, its iconography and markets. Credit Level: G. Credit Hrs: 4.00

15CLAS963**Mediterranean Landscape Archaeology**

Purpose of this seminar is to examine critically the assumptions of Landscape Archaeologists, as well as the history of this subdiscipline. Case studies will focus particularly on the archaeology of historical periods, particularly of Roman times. Credit Level: G. Credit Hrs: 4.00

15CLAS964**Pompeian Archaeology**

An intensive study of the art and archaeology of Pompeii and other sites around the Bay of Naples, with a concentration on cultural and urban development. Credit Level: G. Credit Hrs: 4.00

15CLAS968**Greek and Roman Warfare**

A detailed look at weaponry, tactics, and logistics, and the interaction of societies and armies. Credit Level: G. Credit Hrs: 4.00

15CLAS970**Seminar: The Greek House**

Description not available. Credit Level: G. Credit Hrs: 4.00

15CLAS971**Doctoral Dissertation Research**

Offered ea. qtr. Credit Level: G. Credit Hrs: 1.00-15.00

15CLAS972**Readings in Ancient History**

Directed readings on various topics in ancient history with either an exam or paper. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-15.00

15CLAS984**Roman Constitution**

A study of the history of Roman Public Law dealing with the historical development of magistracy, Senate, and assemblies. Formerly 15HIST984. Credit Level: G. Credit Hrs: 4.00

15CLAS986**Early Roman Empire**

Concentration on the Julio-Claudian period with special emphasis on the reign of Augustus and the formation of the new political and social structures that accompanied the inception of the empire. Formerly 15HIST986. Credit Level: G. Credit Hrs: 4.00

15CLAS988**Late Roman Empire**

Intellectual and institutional history from the time of Commodus to Theodosius; emphasis is given to source criticism and methodological problems. Formerly 15HIST988. Credit Level: G. Credit Hrs: 4.00

15CLAS990**Ancient Numismatics**

History of coinage in the Greco-Roman world. Credit Level: G. Credit Hrs: 4.00

15CLAS991**Topics in Roman History**

Seminar dealing with Republican and Imperial Roman history such as political development and changing economic and social structure. Formerly 15HIST990. Credit Level: G. Credit Hrs: 4.00

15CLAS992**Hellenistic World**

Discussion and examination of the epigraphic, papyrological, and numismatic evidence for the Hellenistic Near East. Formerly 15HIST992. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Classical Civilization**15CLAS993****Hellenistic Syria**

An intensive study of the literary, epigraphic, papyrological and numismatic evidence for Syria in the Hellenistic period. Formerly 15HIST993, Credit Level: G. Credit Hrs: 4.00

15CLAS994**Hellenistic Palestine**

Examines the available evidence - literary, epigraphic, papyrological, archaeological - for Hellenistic Palestine. Formerly 15HIST994. Credit Level: G. Credit Hrs: 4.00

15CLAS995**Hellenistic Bactria and India**

Examines the literary, numismatic and archaeological evidence for the history of Bactria and India in the Hellenistic period. Credit Level: G. Credit Hrs: 4.00

15CLAS999**Directed Readings in Archaeology**

Offered ea. qtr. Variable credit. Credit Level: G. Credit Hrs: 1.00-15.00

Communication**15COMM171****Effective Public Speaking**

Principles of and practice in composition and presentation of speeches. BoK: HU., SS. Credit Level: U. Credit Hrs: 3.00

15COMM176**Introduction to Interpersonal Communication**

Introduction to theory and practice in interpersonal communication. Focus on the impact of culture on communication style and the development of communication skills. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15COMM176H**Introduction to Interpersonal Communication Honors**

Introduction to the theory and practice of Interpersonal Communication. Focus on the development of communication skills and survey of current interpersonal research. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15COMM188**Careers in Communication**

Communication professionals discuss career goals, planning, and internships. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15COMM201**Professional Speaking**

Analysis, composition, and delivery of speeches, in business and professional settings. Prereq: 15COMM171. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15COMM202**Persuasive Speaking**

Analysis, composition, and delivery of persuasive speeches. Principles of attention and motivation. Prereq: 15COMM171. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15COMM221**Communication in Problem Solving Groups**

Study and analysis of group research, process variables, decision making methods, and experience in developing group problem solving skills and leadership. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15COMM237**Topics in Media Literacy**

Survey of issues related to public understanding of politics and the media. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15COMM242**Introduction to Public Relations**

The study of principles and ethical practice of public relations in business and not-for-profit organizations. BoK: NA. Credit Level: U.

Communication**15COMM242****Introduction to Public Relations**

Credit Hrs: 3.00

15COMM243**Public Relations Writing**

Theory and practice of public relations in various writing situations; writing and editing of several types of documents, specific audience concerns, and research issues. Attention is given to both informative and advocacy documents. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15COMM245**Interviewing**

Probing, selection, and persuasive interviews. Role-playing interviews on videotape. Prereq.: 176. Prereq: 15COMM176. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15COMM281**Business Communications**

Theory and practice in group and conference leadership, persuasive techniques, occasional speaking. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15COMM300**Public Relations Research**

An introduction to qualitative and quantitative social science research methods with an emphasis on their application to solving public relations and supporting public relations objectives. Students will develop research projects individually and in groups. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15COMM302**Theories of Argument**

Theory and structure of argument, propositions of fact, value, and policy; evidence, reasoning, refutation, and rebuttal. Prereq: 15COMM171. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15COMM303**Public Debate**

Case construction; principles, methods, and types of debate. Includes in-class debates. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15COMM306**Introduction to Rhetorical Theory**

A survey of the theoretical foundations of rhetorical studies. Emphasis is on the philosophical assumptions of the study of public discourse. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15COMM307**Introduction to Communication Theory**

A survey of the theoretical foundations of the scientific study of human communication. Emphasis is on the philosophical assumptions of studying human communication from a scientific perspective. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15COMM308**Communication in Organizations**

Introduction to the role of communication in shaping organizations. Primary emphasis is on internal organizational processes. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15COMM326**Introduction to Mass Communication**

Introduction to the development, characteristics and functions of mass media in society. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15COMM344**Public Relations Case Studies**

Students read and discuss PR case studies to gain applied knowledge of theories and principles applicable across various PR situations. Prereq: 15COMM242. BoK: DC, SE. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Communication**15COMM348****Nonverbal Communication**

Study and analysis of non-linguistic and paralinguistic communication, introduction to nonverbal communication research and the experimental method. Prereq: 15COMM176. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15COMM349**Intercultural Communication**

Introduction to theories and principles of intercultural communication: attention to how cultures are constructed from a communication perspective and the role of perception, verbal and nonverbal behaviors, and conflict in intercultural communication. Prereq: 176. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15COMM349H**Cincinnati, Poverty and Intercultural Communication**

To provide honors students with an introduction to current intercultural communication theory through experiential involvement with local marginalized communities (those living in poverty). BoK: DC. Credit Level: U. Credit Hrs: 3.00

15COMM350**Public Relations**

(Formerly 30JOUR274.) A general introduction to the theory and practice of public relations, including analysis, planning, implementation and evaluation. Participants will review public relations as a career and as a communications process. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15COMM351**Managing the Public Relations Campaign**

Introduction to the planning, implementation and evaluation of the public relations campaign. Review of case studies from a variety of contexts, utilizing an array of media. Prereq: 30JOUR301. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15COMM352**Public Relations for Non-Profit Organizations**

Survey of the practice of public relations in a non-profit environment. Integration of public relations with the practice of fund raising and audience development. Prereq: 30JOUR301. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15COMM371**Communication Criticism**

Study of standards of basic criticism of speeches and methods for the application of these standards for analysis and evaluation. Prereq: 15COMM202. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15COMM391**Interning in Communication**

A position related to communication providing professional experience under faculty guidance. Prereq: 15COMM188. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

15COMM392**Project in Communication**

Students, under faculty guidance, will develop and pursue a historical, critical, empirical, or experimental project in communication. Prereq: 15COMM306, 15COMM307. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

15COMM395H**Appalachian Culture and Intercultural Communication**

Students will explore local, regional and national issues germane to Appalachian culture and explore intercultural Communication theories relevant to the culture. Participation with an alternative spring break is a required element of this course. (Travel cost will be incurred). BoK: HU., SS. Credit Level: U. Credit Hrs: 3.00

15COMM401**Rhetorical Theory**

Study and critique of classical, British and contemporary rhetorical

Communication**15COMM401****Rhetorical Theory**

theories. Prereq: 15COMM306. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15COMM402**Family Communication**

Study of family relationships and the role of communication in their development. BoK: DC. Credit Level: U. Credit Hrs: 3.00

15COMM403**Gender Communication**

Study of the gender variable as it influences communication between men and women, including topics of self-concept and identity, sex roles and stereotypes, interpersonal perception and attraction, leadership and differences in male/female verbal and nonverbal codes. Prereq: 15COMM176. BoK: DC. Credit Level: U. Credit Hrs: 3.00

15COMM404**Health Communication**

Communication theory, concepts, and research within the health care context. Examines the changing relationship of health care consumers and medical practitioners in our society and communication issues in illness, stress, coping, social support, media health campaigns, cultural factors, and the use of technology in health care within the U.S. BoK: SE. Credit Level: U. Credit Hrs: 3.00

15COMM405**Communication and Health Politics**

This course examines the role of rhetoric and culture in the realm of health care, including public health, medical care, and research. We will examine the ways in which multiple interest groups shape public discourse in advocating their position, and the influence of health. BoK: SE. Credit Level: U. Credit Hrs: 3.00

15COMM406**Organizational Diversity: Race and Gender in the Workplace**

In this course, gender and race in organizations will be examined from a macro (organizational) and micro (individual) perspective. BoK: DC. Credit Level: U. Credit Hrs: 3.00

15COMM407**Communication Theory**

Examination of the process of theory construction in communication studies. Examines philosophical issues, genres of theory, and current theoretical trends. Prereq: 15COMM307. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15COMM408**Leadership Communication**

An analysis of leadership as a process and from the standpoint of discourse and communication. Topics include communication styles, power and influence, and leadership in terms. Prereq: 15COMM308. BoK: SE. Credit Level: U. Credit Hrs: 3.00

15COMM409**Organizational Identity, Image, and Issue Management**

Integrated theories of organizational communication, public relations, and issue management, strategic communication aimed at managing organizational identity and image with internal and external audiences. Students are expected to think critically about the ethical and political implications of organizational discourse for democratic practices. BoK: SE., SS. Credit Level: U. Credit Hrs: 3.00

15COMM411**Non-Traditional Rhetorical Theories**

Non-traditional and non-Western rhetorical theories including African-American, Native American, Chinese, Islamic and Feminist rhetorics; distinctive characteristics of selected rhetorical theories and how they differ from traditional or Western theories. BoK: DC., HU. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Communication**15COMM416****Children and Media**

An examination of the impact of media on children and their families, how children use different media, in what context and what effect different media messages and platforms have on children. Topics include: research methods used in the industry and in academia to provide evidence of media influence; what kind of impact different types of programming may have on children; what kind of public exists for children's media; how formative and evaluative research can impact the effectiveness of programming. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

15COMM418**Gender and New Media**

The relationship between gender and new media. What constitutes gender and new media; the ways in which gender and new media help "produce" each other; the ways in which gender roles and inequities based on them are perpetuated in the promotion of new media; the context- culture, historical, ideological, and economic--- in which new media and gender produce each other. BoK: SE., HU. Credit Level: U. Credit Hrs: 3.00

15COMM426**Media and Public Opinion**

In-depth and fundamental understanding of public opinion and the mass media, both for individuals and societies. The nature of public opinion historical development, "rationality", and levels of analysis), (groups, industry, the press, and technology), social and psychological contexts (cognitive, social-psychological, social-reality based perspectives), cross-level processes (agenda-setting, issue framing, conflict and consensus, opinion origins and consequences, journalistic narrative) and public opinion and policy (public discourse, rationality claims, public judgments and influence of polling on democratic institutions and processes). BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

15COMM427**Mediated Communication**

Examines the nature of mass media regulation and public policy and explores the nature of media regulation and how it has an impact on individuals, media organizations and the public. BoK: SE., HU. Credit Level: U. Credit Hrs: 3.00

15COMM428**Women in Politics**

An examination and analysis of the campaign communication strategies used by and for women who have sought or who are seeking elective office in the United State. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15COMM429**Communication and Technology**

Investigates the relationship between human communication and technology from critical, historical, feminist and other humanistic perspectives. BoK: SE., HU. Credit Level: U. Credit Hrs: 3.00

15COMM437**Topics in Communication**

Selected topics in communication for undergraduate majors. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15COMM439**Research in Communication**

An introduction to research methods in communication studies. Students work toward designing an original project. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15COMM440**Senior Honors Project**

Independent research project for students in Honors Program. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15COMM442**Public Relations Campaigns**

Students work in groups to design a PR campaign for local clients. Strategic thinking and planning will be emphasized. Prereq:

Communication**15COMM442****Public Relations Campaigns**

15COMM242, 15COMM243. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15COMM443**Theories of Interpersonal Communication**

Examination of interpersonal communication theories and research. Prereq: 15COMM176. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15COMM446**Theories of Mediated Communication**

An extended understanding of the influence of mass communication and the individual, with particular emphasis on media effects. Covers such questions as who is affected, what effects occur and how much, what different media content is involved, what situations make effects more or less likely and the role of audience member's activity. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

15COMM447**Mediated Communication and Society**

Provides grounding in mediated communication theory and is designed to explain the role of contemporary media for individuals and society at large in a changing environment. BoK: SE., HU. Credit Level: U. Credit Hrs: 3.00

15COMM448**Media and Culture**

Examines the relationship between media and culture, with particular focus on key topics of the day using perspectives that integrate history, politics, class, race, ethnicity, and gender. BoK: SE., HU. Credit Level: U. Credit Hrs: 3.00

15COMM449**Advanced Intercultural Communication**

Application of intercultural theories and principles and in-depth analysis of specific cultures. Experiential work in economically marginalized communities. Formerly 15COMM549. Prereq: 15COMM349. BoK: DC, SE. Credit Level: U. Credit Hrs: 3.00

15COMM450**Interpersonal Influence**

Survey of recent research on Interpersonal persuasion and compliance gaining. Prereq: 15COMM176. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15COMM463**The Rhetorical Presidency**

An examination and analysis of the rhetorical genres of the contemporary American presidency. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15COMM464**Studies in Protest and Reform Rhetoric**

Case studies of rhetorical protest and reform activities in U.S. and/or abroad. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15COMM465**The Rhetoric of Presidential Debates**

Case studies of contemporary persuasive campaigns by individuals and/or organizations. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15COMM466**Rhetorical Dimensions of Terrorism**

Provides students with an understanding of the communication dimensions of terrorism. Topics include definitions and historical overview of terrorism, social-psychological and cultural understandings of terrorists and terrorist acts, terrorism as a communication process, rhetorical responses to terrorism, and media coverage of terrorism. Prereq: 15COMM401. BoK: DC, SE. Credit Level: U. Credit Hrs: 3.00

15COMM467**Environmental Communication**

Investigation of environmental communication, focusing on efforts by individuals, institutions, corporations, movement leaders, scientific

Communication**15COMM467****Environmental Communication**

experts and politicians to describe and influence human interactions with the environment. Prereq: 15COMM306. BoK: HU, SE. Credit Level: U. Credit Hrs: 3.00

15COMM468**Rhetoric of Science**

Key theories and concepts of science have also been at the heart of public debate. This class will examine the rhetoric used around these issues in multiple contexts to identify and evaluate the persuasive strategies being utilized. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15COMM470**Interpersonal Conflict**

Examination of the conflict process; theories and models of conflict resolution. Prereq: 15COMM176. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15COMM478**Mass Media Ethics**

To develop critical reasoning in the analysis of current moral questions as they relate to mass communication. Ethical theories will be studied and applied to issues and problems uniting theory and practice. BoK: SE. Credit Level: U. Credit Hrs: 3.00

15COMM508**Organizational Cultures**

The culture metaphor is used to view the way organizations are communicatively constructed. Problems of culture change, subcultures, language, leadership. Prereq: 15COMM308. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00

15COMM543**Advanced Interpersonal Communication**

Examination of interpersonal communication theories and research. Prereq: 15COMM176. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15COMM549**Advanced Intercultural Communication**

Application of intercultural theories and principles and in-depth analysis of specific cultures. Prereq: 15COMM349. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

15COMM557**Communication and the Presidential Campaign**

An examination and analysis of the campaign communication strategies and techniques used by modern presidential candidates. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15COMM579**Seminar in Media Literacy**

Advanced study of issues related to media coverage of environmental and health controversies. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15COMM605**Rhetoric of Social Movements**

Study of the evolution of social movements and the role rhetoric plays in social movements. Prereq: 15COMM401. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00

15COMM638**Seminar in Analysis of Media**

Qualitative content analysis of comedy, drama, children's programs, advertising, and news. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15COMM639**Communication and Technology**

Consideration of theoretical approaches to technological innovation, especially in the cable and telephone industries. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15COMM643**Interpersonal Communication Theory**

This graduate level course is designed to overview the major theories,

Communication**15COMM643****Interpersonal Communication Theory**

concepts, and methodological approaches that are used in interpersonal communication theory and research in the communication discipline. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15COMM657**Health Communication: Meaning, Culture, and Power**

The course examines the role of language and persuasion in the politics of health care, including public health, medical care and research. The course examines the ways in which multiple interest groups shape public discourse about health. Students gain knowledge of the relationships between language, social knowledge, power, and politics. Credit Level: G. Credit Hrs: 4.00

15COMM702**Seminar in Mass Communication**

Provides an indepth understanding of how mass communication influences individuals through media effects, research, theories and concepts. Students apply this knowledge through an original research project. Credit Level: G. Credit Hrs: 4.00

15COMM703**Seminar in Mass Communication: Social Systems Approaches**

An examination of current theories and research regarding the role of mass media and other forms of communication in varied types of social systems. Credit Level: G. Credit Hrs: 3.00

15COMM705**Persuasion Theory**

An examination and analysis of the major social-scientific theories and relevant research on persuasive communication. The women's suffrage movement serves as a case-study throughout the course. Credit Level: G. Credit Hrs: 4.00

15COMM725**Advanced Interpersonal Communication Research**

Designed to undertake an advanced level of study of interpersonal communication theories, concepts, and research. The course explores under-studied or "dark side" issues in interpersonal communication and ways relationships may overcome issues in the processes of relational maintenance. Credit Level: G. Credit Hrs: 4.00

15COMM741**Empirical Research Methods**

This graduate level course is designed to teach the principles, issues, and methodological approaches used in conducting empirical quantitative research from the scientific method perspective. Credit Level: G. Credit Hrs: 4.00

15COMM742**Rhetorical Communication Research**

Introduces students to research methods for rhetorical scholarship; addresses critical methods and perspectives in rhetoric and public address as well as current research concepts and approaches. Credit Level: G. Credit Hrs: 4.00

15COMM743**Applied Research Methods**

Survey of applied research methods in communication; quantitative and qualitative methods are explored. Credit Level: G. Credit Hrs: 3.00

15COMM801**Advanced Rhetorical Theory**

An in-depth look at contemporary rhetorical theory of the "nuclear communication" literature; addresses symbolic dimensions of nuclear weapons and theoretical constructs that accompany a critical perspective on nuclear arms and the communication that surround them. Credit Level: G. Credit Hrs: 4.00

15COMM807**Advanced Communication Theory**

Examines the role of theory at an advanced level within the field of communication. Students gain a wide understanding of how meta-

Communication**15COMM807****Advanced Communication Theory**

theoretical assumptions influence the study and practice of communication, and the process of building, applying, testing, and critiquing theories within and across different research traditions. Credit Level: G. Credit Hrs: 4.00

15COMM808**Seminar in Organizational Communication**

An advanced approach to analyzing concepts of organizational communication through applying Giddens Structuration Theory. Issues such as technology appropriation, corporate climate, leadership, downsizing, organizational identity and change are critiqued from a structuration perspective. Credit Level: G. Credit Hrs: 4.00

15COMM809**Interpretive Approaches to Organizational Communication**

Seminar in critical and interpretive approaches to organizational communication. Credit Level: G. Credit Hrs: 3.00

15COMM857**Topics in Communication**

Various topics in communication are covered, and change by quarter. Credit Level: G. Credit Hrs: 3.00

15COMM861**Directed Problems in Communication**

Projects are to be developed by student in consultation with faculty prior to registration. Credit Level: G. Credit Hrs: 1.00-6.00

15COMM891**Practicum in Communication**

Projects are to be developed by student in consultation with faculty prior to registration. Credit Level: G. Credit Hrs: 1.00-12.00

15COMM893**Teaching Communication**

Introduction to communication discipline and research areas of department faculty. Credit Level: G. Credit Hrs: 1.00-3.00

15COMM941**Master's Thesis in Communication**

Non-transferable to other options. Credit Level: G. Credit Hrs: 3.00-12.00

15COMM981**Seminar in Current Research**

Reserved for individualized programs of investigation by graduate students developing publishable papers. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-3.00

Economics**15ECON101****Introduction to Microeconomics**

Economic principles basic to behavior of individuals, firms, markets; pricing for resource allocation and decision-making. Includes topics such as opportunity cost and comparative advantage, supply and demand and their applications, elasticity, costs and production, competition, monopoly, public goods and externalities. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15ECON101H**Introduction to Economics Honors**

3 ug. cr. MICROECONOMICS (Honors) Honors students only. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15ECON102**Introduction to Macroeconomics**

Economic analysis of national income, money and banking, fiscal and monetary policy. Economics in a political decision making context. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

Economics**15ECON102H****Introduction to Economics (Honors)**

3 ug cr MACROECONOMICS (Honors). Honors students only. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15ECON103**Contemporary Economic Issues**

Economic issues in a political environment; international trade, labor, income distribution, welfare, growth, alternative economic systems. Transfer Module. BoK: SS, SE. Credit Level: U. Credit Hrs: 3.00

15ECON103H**Introduction to Economics (Honors)**

Departmental approval required. The third offering in a three-part course sequence. Transfer Module. BoK: SS, SE. Credit Level: U. Credit Hrs: 3.00

15ECON105**Introduction to the Global Economy**

Introduces international trade and finance. Topics include comparative advantage trade theories, protectionism, exchange rates and issues to globalization. Prereq: 15ECON101, 15ECON102. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

15ECON171**Entertainment Economics**

Explores the modern entertainment industry, with particular emphasis on professional sports, the motion picture industry, and television. The course sheds light on the billions of dollars spent by these industries and the public's demand/willingness to pay for the entertainment they provide. A freshman seminar. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15ECON271**Microeconomics**

Theory of demand, production and cost as applied to the operation of business firms. (Not open to Econ. majors.) Prereq: 15ECON101. BoK: SS, QR. Credit Level: U. Credit Hrs: 4.00

15ECON298**Directed Study - Economics**

This course is designed for students who require individualized instruction in Economics. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ECON301**Economic Thought and Literacy**

Historical development and main tenets of schools of economic thought; analytical economic approaches to issues; appraising economic literature. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00

15ECON320**Statistics for Economists**

4 ug cr Introduction to statistics and its applications in economics. Topics include descriptive statistics, the concepts and application of probability theory, random variables, distributions, statistical inference, and an introduction to regression. No previous knowledge of statistics will be assumed but the use of formulae and the ability to perform basic algebraic manipulations will be necessary. Prereq Math 225, 226, 227, or equivalent BoK: NA. Credit Level: U. Credit Hrs: 4.00

15ECON321**Introduction to Applied Econometrics**

4 ug cr Introduction to econometrics with an emphasis on interpretation and applications. Econometrics is concerned with the connection between economic concepts, theories and hypotheses on the one hand, and 'real world' economic data on the other. Typical econometric tasks include, for example, the quantification of economic relationships (such as demand curves), and testing of hypotheses derived from theory. Covers the fundamental econometric technique of regression analysis and a variety of model specification issues. A central goal is to provide students with the necessary skills and knowledge to use and to correctly interpret the output from econometrics software. Prereq Econ 320 Prereq: 15ECON320. BoK: NA. Credit Level: U. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Economics**15ECON321****Introduction to Applied Econometrics**

4 ug cr Introduction to econometrics with an emphasis on interpretation and applications. Econometrics is concerned with the connection between economic concepts, theories and hypotheses on the one hand, and 'real world' economic data on the other. Typical econometric tasks include, for example, the quantification of economic relationships (such as demand curves), and testing of hypotheses derived from theory. Covers the fundamental econometric technique of regression analysis and a variety of model specification issues. A central goal is to provide students with the necessary skills and knowledge to use and to correctly interpret the output from econometrics software. Prereq Econ 320 Prereq: 15ECON320. BoK: NA. Credit Level: U. Credit Hrs: 4.00

15ECON341**Microeconomic Theory**

Exposition of the general principles and analytical tools of microeconomic theory. Topics include theory of consumer choice, intertemporal choice, and choice under uncertainty. Prereq: 15ECON101. BoK: SS, QR. Credit Level: U. Credit Hrs: 4.00

15ECON342**Microeconomic Theory**

Exposition of the general principles and analytical tools of microeconomic theory. Topics include the analysis of competitive and monopoly markets, oligopoly, pricing, externalities and public goods, and welfare. Prereq Econ 341 Prereq: 15ECON341. BoK: SS, QR. Credit Level: U. Credit Hrs: 4.00

15ECON343**Microeconomic Theory**

Exposition of the general principles and analytical tools of micro theory. Topics include the economics of information, market failure, general equilibrium analysis, externalities, property rights, and government. Prereq Econ 341 and 342 or permission of instructor Prereq: 15ECON342. BoK: SS, QR. Credit Level: U. Credit Hrs: 4.00

15ECON371**Money, Banking and the Economy**

Demand for and supply of money, and roles of commercial banks, other financial intermediaries, and Federal Reserve System in determining the supply of money and its impact on the economy. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15ECON372**Macroeconomics**

Measures of aggregate economic performance, determination of aggregate output, employment, the price level and income, inflation, business fluctuations, impacts of monetary policy, effects of government taxation, spending and the national debt. Prereq Econ 101 and 102 Prereq: 15ECON101, 15ECON102. BoK: SS, QR. Credit Level: U. Credit Hrs: 4.00

15ECON422**Teaching Assistant Practicum for Undergraduate Students**

Supervised experience as teaching assistant for undergraduate courses. Can take for three quarters. Economics GPA of 3.0 or better and at least 21 credit hours in advanced economic courses. Student T.A.s for Econ. 101 or 271 must have a grade of B or better in Econ. 341 and 342. Student T.A.s for Econ. 102 must have a grade of B or better in Econ.s 371 and 372. Maximum of 6 credits. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ECON431**Honors Seminar**

Analytical study of a current economic issue. Writing of the senior thesis. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15ECON432**Honors Seminar**

Continuation of 431. Prereq Econ 431 BoK: SS. Credit Level: U. Credit Hrs: 3.00

Economics**15ECON482****Public Economics: Expenditures**

Analysis of topics in public choice, social goods, welfare economics, theory of the state, distribution, expenditure evaluation. Prereq Econ 342 or equivalent BoK: SS., QR. Credit Level: U. Credit Hrs: 3.00

15ECON483**Public Economics: Taxation**

Evaluation of alternative tax bases, tax incidence, efficiency effects, burden of the debt, fiscal federalism. Prereq Econ 342 or equivalent BoK: SS., QR. Credit Level: U. Credit Hrs: 3.00

15ECON498**Internship Practicum for Undergraduate Student**

Supervised professional experience in projects involving significant economic analysis. Maximum of a total of nine credits in Econ 422 and Econ 498 combined. Prior approval of the Director of Undergraduate Studies is required. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-9.00

15ECON504**Economy of Cincinnati**

A survey of techniques analyzing the industrial, commercial, and financial activities of the Cincinnati Metropolitan Area. Perm. of instr.; Center for Econ. Educ. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

15ECON506**Urban Economic Problems**

Forces affecting metropolitan growth, resulting spatial patterns, and economic problems of congestion, environment, labor markets, and public finance in metropolitan areas. Prereq Econ 101, 102 and 341 BoK: SS., SE. Credit Level: U, G. Credit Hrs: 3.00

15ECON508**Economic Theory of Population**

Study of mutual relationships between changes in population and changes in economic efficiency and well-being. Prereq Econ 341 BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15ECON509**Development of Economic Ideas**

A survey of the main schools of economic thought. This course provides a background on the history of doctrine for economics majors and other interested persons. Prereq Econ 101, 102 BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15ECON510**Strategic Thinking: Business Applications to Game Theory**

Theory: Static games, Nash Equilibrium, repeated games, folk theorem, Bayesian games. Applications: output and pricing decisions by large firms, efficiency wages, insurance policies, marketing new products, credit rationing, cartel enforcements, the Coase Theorem. Prereq Econ 101 BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15ECON511**Mathematical Analysis for Economists**

Survey of mathematical applications to economic theory and analysis. Designed for students with limited mathematical background. Prereq: 15ECON341. BoK: SS, QR. Credit Level: U, G. Credit Hrs: 3.00

15ECON512**Mathematical Analysis for Economists**

Continuation of 511. Prereq Econ 511 Prereq: 15ECON400. BoK: SS, QR. Credit Level: U, G. Credit Hrs: 3.00

15ECON513**Mathematical Analysis for Economists**

Continuation of 512. Prereq Econ 512 Prereq: 15ECON512. BoK: SS, QR. Credit Level: U, G. Credit Hrs: 3.00

15ECON521**Economic Data Analysis II**

A continuation of Econ 520. Topics include: regression diagnostics, analyzing time series and cross section data, statistical model selection

H=University Honors course.

Economics**15ECON521****Economic Data Analysis II**

and assessment. Students will design and conduct an applied economics research project using statistical and econometric techniques. BoK: SS., QR. Credit Level: U, G. Credit Hrs: 3.00

15ECON529**Economics Teaching Materials**

Teachers will examine the economic content and how to use various instructional methods in teaching them in grades K-12. This course does not satisfy requirements for a graduate degree in Economics. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-8.00

15ECON531**Implementing Economic Curriculum**

Experienced-based economics curriculum units appropriate for elementary and secondary classrooms. This course does not satisfy requirements for a graduate degree in Economics. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-8.00

15ECON533**Basic Economic Concepts for Teachers**

Focus on basic economic concepts and specific strategies for teaching of economics, analysis of economic concepts appropriate for K-12 curriculum, methods of instruction and materials, review of research in economic education; application of basic concepts to current issues. This course does not satisfy requirements for graduate degree in Economics. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-9.00

15ECON534**Microeconomic Principles for Teachers**

Continuation of 15-080-533. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-9.00

15ECON535**Macroeconomics for Teachers**

Continuation of 15-080-534. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-9.00

15ECON536**Money and Banking for Teachers**

Study of the structure and functions of the Federal Reserve, banks, and non-bank institutions, monetary policy and economic stabilization. This course does not satisfy requirements for graduate degree in Economics. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

15ECON537**Economics of Health**

Role and economic significance of health in the U.S., health expenditures as investments in human capital, determination of price and output in health services market, problem of possible monopolization and unfair trade practices in health field, role of government in provision of health care. BoK: SS., SE. Credit Level: U, G. Credit Hrs: 3.00

15ECON538**Study of American Industry for Teachers**

A study of American industries including production and distribution processes. Attention will be given to economic, social, and political factors influencing the operation of the industry. This course does not satisfy requirements for graduate degree in Economics. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-8.00

15ECON539**Topics in Economic Education**

Analysis of economic topics such as labor, competition, productivity, decision-making, and government regulation. Teachers will develop economic analysis skills. This course does not satisfy requirements for graduate degree in economics. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-8.00

15ECON541**Economies of China and Vietnam: Transition**

A detailed analysis of the economic reforms that occurred in China and

Economics**15ECON541****Economies of China and Vietnam: Transition**

Vietnam which led to the adoption of market systems. Theories of economic transition are used for the basis of the analysis, focusing on the institutions necessary to operate a market system which are absent in a planned economy. The structure of and current problems in these economies is also be discussed. Prereq: 15ECON101, 15ECON102. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15ECON542**Contemporary Japanese Economy and Business**

A review of Japan's economic performance from the end of WWII to the present using the major theories of economics fluctuations. Special attention is paid to the institutions particular to the Japanese economy and their influence on economic decisions. BoK: SS., DC. Credit Level: U, G. Credit Hrs: 3.00

15ECON543**East Asian Economies: Development and Crisis**

A study of growth of the four Asian Tigers (Singapore, S. Korea, Taiwan, and Hong Kong) and other East Asian countries (Thailand, Malaysia, etc.). Also analyzes the Asian financial crisis (which adversely affected these economies) and trade associations (ASEAN, etc.) making the area a force in the global economy. Prereq: 15ECON101, 15ECON102. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15ECON551**International Economics**

Trade and capital movements, balance of payment problems, operation of exchange systems, determination of exchange rates. Prereq: 15ECON372. BoK: SS, QR. Credit Level: U, G. Credit Hrs: 3.00

15ECON552**International Economics**

Gains from trade and the theory of comparative advantage. Welfare effects of growth and income transfers. Income distribution effects in the specific factor and Heckscher-Ohlin model. Trade when markets are imperfectly competitive. Trade policies: welfare effects of tariffs and non - tariff barriers. Tariff arguments and the political economy of tariffs. Prereq Econ 341 BoK: SS., QR. Credit Level: U, G. Credit Hrs: 3.00

15ECON557**Economics of Work and Family**

Theoretical and empirical methods for the analysis of issues related to work and family with special reference to economics of household production, joint labor supply, economics of marriage and divorce, economics of fertility, economics of family child care, household occupational differentiation, household structure and labor market outcomes. Many applications including leave policies, divorce laws, tax policies, etc. Prereq: 15ECON341. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15ECON558**Labor Market Analysis**

Theoretical and empirical methods for the analysis of labor markets with special reference to areas such as labor supply, labor demand, wage determination, and compensating wage differentials. Many applications including effects of taxation, income maintenance programs, technological change, minimum wages, etc. Prereq Econ 341 Prereq: 15ECON341, 15ECON342. BoK: SS, QR. Credit Level: U, G. Credit Hrs: 3.00

15ECON559**Labor Market Issues**

Analytical, empirical and institutional approach in analyzing issues in selected areas such as human capital theory, internal labor markets, economics of discrimination, economics of trade unions, economics of sports, and economics of immigration. Covering applications such as effects of affirmative action, on the job training, and bilateral monopoly. Prereq Econ 341 Prereq: 15ECON341, 15ECON342. BoK: SS, QR. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Economics**15ECON565****Industrial Organization**

3 ug cr Market Structures. Monopoly, Oligopoly, Business Strategy, Monopoly Power, Collusion and Cartel, Mergers, Vertical Restraints, Advertising, R&D, Network Externalities. Prereq Econ 342 BoK: SS., QR. Credit Level: U, G. Credit Hrs: 3.00

15ECON567**Politics and Economics**

The government in a market economy. Reasons for market failures. Forms of government intervention. Welfare criteria for policy choices. Economic policy formation in a democracy. BoK: SS., QR. Credit Level: U, G. Credit Hrs: 3.00

15ECON569**Anti-Trust Policy and Trade Regulation**

The history, laws, and economics of the anti-monopoly and trade regulation policies of the government. Prereq Econ 342 BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15ECON570**Regional Economics**

Uses microeconomic analysis to investigate how local/regional areas evolve and how public policies may affect patterns of growth and change, identify inefficiencies in location choices and analyze alternative public policies promoting efficient regional resource allocation choices. Prereq: 15ECON341. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ECON571**Stabilization Policy**

A study of economic functions including measurement, history, and theory. Major theories of economic fluctuations are surveyed along with a historical review of global fluctuations and their causes. Statistical measurement of cycles and a survey of forecasting techniques are also included. BoK: SS., QR. Credit Level: U, G. Credit Hrs: 3.00

15ECON575**Economic Development**

Considers the economic challenges facing the world's developing nations. Focuses on possible economic policies to encourage economic development. BoK: SS., SE. Credit Level: U, G. Credit Hrs: 3.00

15ECON578**Law and Economics**

An examination of the areas of mutual concerns in law and economics including property, contracts, torts, and antitrust policy. Prereq Econ 341 BoK: SS., SE. Credit Level: U, G. Credit Hrs: 3.00

15ECON580**Economic Contract Law**

An examination of the economic basis for contracts and of the economics of remedies for breach of contract. Prereq: 15ECON101. BoK: SS, SE. Credit Level: U, G. Credit Hrs: 3.00

15ECON581**The Economics of Tort Law**

An examination of the economics of tort law including an analysis of negligence and its defenses and an analysis of product liability. Prereq: 15ECON101. BoK: SS, SE. Credit Level: U, G. Credit Hrs: 3.00

15ECON585**Stock Markets and Investments I**

Operation of the stock market and behavior of traders. Rules and regulations governing behavior in the market. BoK: SS., QR. Credit Level: U, G. Credit Hrs: 3.00

15ECON592**Economics and the Environment**

Analysis of how consumption and production choices impact upon the environment and the conditions under which market outcomes can be made consonant with environmental quality. Analysis of economic instruments and market incentives to promote environmental quality with applications to all environmental media. Issues of sustainability.

Economics**15ECON592****Economics and the Environment**

Prereq Econ 101 BoK: SS., SE. Credit Level: U, G. Credit Hrs: 3.00

15ECON593**Economics of Natural Resources and Sustainability**

Problem of natural resource overuse and sustainability of living standards. Human behaviors causing problem. Effectiveness of protection measures. Prereq Econ 101, 102 BoK: SS., SE. Credit Level: U, G. Credit Hrs: 3.00

15ECON594**Economics of Transportation**

Highway, rail, air, water transportation; rate making, service, security issuance; combination, regulation, policy, and economic effects. Prereq: 15ECON101. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15ECON598**Guided Independent Research**

Guided independent research with a faculty member resulting in a scholarly paper. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15ECON599**Economics Capstone**

Application of economic analysis to current economic topics. Prereq Econ 342, 372 BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ECON650**Microeconomic Theory**

Study of the interactions of households and firms in perfectly and imperfectly competitive markets, under certainty and uncertainty, with symmetric and asymmetric information, in a static world and over time as encountered in the real world. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15ECON651**Microeconomic Theory**

Continuation of 15-080-650. Prereq: 15ECON650. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15ECON655**Macroeconomic Theory**

Aggregate income and employment theory. Classical and Keynesian models; theories of inflation, growth and problem of external equilibrium. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15ECON666**Game Theory for Economists**

Theory and applications of Game Theory in economic decision making. Covers static games, dynamic games, and games with incomplete information. Prereq: 15ECON650. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15ECON667**Theory of Incentives**

Theory and applications of principal-agent relationships in the presence of asymmetric information. Optimal contract design in 'adverse selection' and 'moral hazard' situations. Prereq: 15ECON651. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15ECON671**Economic Data Analysis I**

Using a variety of computer programs this course will teach the student (1) how to locate secondary sources of economic data; (2) methods that have been used to compile economic data; (3) how to transform, summarize and display economic data and (4) simple statistical techniques to analyze economic data. Prereq Econ 521 or equivalent BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15ECON672**Economic Data Analysis II**

An introduction to applied econometric methods for data analysis. The course covers methods of statistical inference and hypothesis testing with a regression-analysis framework. Application from economics.MA

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Economics**15ECON672****Economic Data Analysis II**

standing only. Prereq: 15ECON671. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15ECON673**Economic Data Analysis III**

Continuation of 672. Topics include regression diagnostics, analyzing time-series and cross-sectional data, statistical model selection and assessment. Students will conduct applied economic research projects using statistical and econometric techniques. MA standing only. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15ECON674**Survey Methods in Economics**

(cross listed with Political Science 751) Methodological aspects of survey design and analysis. MA standing only. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15ECON675**Regional Data Analysis**

A survey of theoretical and empirical techniques for analyzing the industrial, commercial and financial activities of the Cincinnati Metropolitan area. MA standing only. Prereq: 15ECON674. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15ECON676**Applied Benefit-Cost Analysis**

A high-level introduction to the major issues and techniques in evaluation of programs and projects with the tools of applied microeconomics. Topics include measurement of benefits and costs, discounting, project ranking criteria, and uncertainty analysis. MA standing only. Prereq: 15ECON650, 15ECON651. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15ECON677**Applied Economic Forecasting**

This course covers the standard forecasting techniques used by professional economists in business and government. Topics include properties of time-series data, trend-line fitting, ARIMA models, and autoregressions. MA standing only. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15ECON678**Applied Qualitative and Limited Dependent Variable Models**

Models of choice in which the dependent variable is discrete rather than continuous. The models are applied to describe the choice behavior of firms and consumers. Prereq: 15ECON321, 15ECON671. BoK: SS. Credit Level: G, U. Credit Hrs: 3.00

15ECON679**Applied Economics Practicum**

Under the guidance of the instructor, teams of students will apply their quantitative skills toward the analysis of current economic issues, and present reports on their findings. MA standing only. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15ECON689**Special Problems in Economics**

By prior arrangement with the department. For students desiring individual work. Offered ea. qtr. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-8.00

15ECON670**SAS for Economists**

Introduces students to the elements of the SAS programming language particularly relevant for economics. Students will learn how to create SAS datasets and create and manipulate data, and run SAS procedures and conduct analysis using the SAS programming language. Credit Level: G. Credit Hrs: 3.00

15ECON680**Spatial Econometrics**

Covers the use of exploratory spatial data analysis techniques as well

Economics**15ECON680****Spatial Econometrics**

as the use of spatial regression models and appropriately define estimators for spatial data. Credit Level: G. Credit Hrs: 3.00

15ECON705**MA Thesis Research**

MA Thesis Research Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-15.00

15ECON711**Economics for Managers**

Opportunity cost, price, demand theory, firm and market behavior, pricing practices and policies, and factor markets. Credit Level: G. Credit Hrs: 4.00

15ECON931**Advanced Individual Work in Economics**

One or more gr. cr. Departmental approval required. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-15.00

15ECON971**Research**

Description not available. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-15.00

15ECON981**Doctoral Dissertation Research**

PhD Candidates only. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-15.00

English - British Literature**15ENGB250****Shakespeare's Plays**

A survey of Shakespeare's major plays for the non-major. Prereq: 15ENGL102. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGB256**Modern Drama**

An exploration of the diverse forces which shape modern drama in Europe and America, such as realism, expressionism, and theatre of the absurd. Prereq: 15ENGL102. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGB259**Myth and Literature**

An examination of myth as it provides the fundamental building blocks for literature. Both the ancient myths and their modern incarnations will be studied. Prereq: 15ENGL102. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGB306**Introduction to Shakespeare**

This course gives students the skills for the further study and enjoyment of Shakespeare. Through an intensive study of five plays, the course will highlight the variety of genres, characters, styles, and problems that characterize Shakespeare's work. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGB307**Shakespeare**

The comedies, histories, and early tragedies to 1600. Prereq: 15ENGL300. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 1.00-3.00

15ENGB308**Shakespeare**

The major tragedies, "problem" comedies, and romances. Prereq: 15ENGL300. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

English - British Literature**15ENGB314****History of the Novel**

Birth of the novel in satire, sentiment, and realism; Defoe, Fielding, Austen, and others. Prereq: 15ENGL300. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGB315**History of the Novel**

Growth of the novel in social criticism and psychological depth; Bronte, Dickens, Eliot, Hardy, and others. Prereq: 15ENGL300. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGB316**History of the Novel**

New directions for the novel in the 20th century; Conrad, Joyce, Lawrence, Woolf, and others. Prereq: 15ENGL300. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGB317**Nineteenth Century Gothic**

Novels at the edge of the mainstream, exposing unspeakable truths about parent and child, man and woman: Frankenstein, Dracula, Wilkie Collins, Oscar Wilde. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGB331**Milton**

The minor poems, major prose, and Samson Agonistes. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGB334**Survey of English Literature**

A survey of British literature from Beowulf to 1600. This course is primarily for majors in English. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGB335**Survey of English Literature**

A survey of British literature from 1600 to 1800. This course is primarily for majors in English. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGB336**Survey of English Literature**

A survey of British literature from 1800 to the present. This course is primarily for majors in English. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGB348**Renaissance Drama**

Readings in the major non-Shakespearean dramas of Tudor England. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGB349**Renaissance Drama**

Readings in the major non-Shakespearean drama of Stuart England. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGB352**The Age of Donne**

Poetry and prose of the first half of the 17th century. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGB356**Age of Sensibility**

An examination of selected literary works in their historical contexts, the second half of the English 18th century, reading Dr. Johnson and a selection of works by Sterne and Gray, Collins, Goldsmith, Smart, Cowper, Crabbe and several of the enchanted poets of the Age of Sensibility. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGB361**Romantic Literature**

Readings in the first generation of English Romantic poets: Blake,

English - British Literature**15ENGB361****Romantic Literature**

Wordsworth, and Coleridge and their circles. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGB362**Romantic Literature**

The second generation: Byron, Shelley, and Keats. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGB365**The Age of Dickens**

Readings in the literature of the mid-Victorian period. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGB366**The Age of Hardy**

Readings in the literature of the late Victorian period. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGB367**Modern British Poetry**

From Yeats to the present. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGB369**Modern British Drama**

The great traditional and experimental dramas of the 20th century. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGB370**Modern Irish Literature**

A selection of Irish writers (in English) from the period 1800 to the present. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGB374**Contemporary British Fiction**

British fiction since World War II, from the works of Greene, Golding, Drabble, among others. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGB375**Contemporary British Poetry**

Reactions and counter-reactions to Modernism from WW II to the present: Dylan Thomas, Philip Larkin, Thom Gunn, Ted Hughes, Seamus Heaney, and others. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGB401**Seminar: British Literature**

An examination in depth of a major author, historical period, genre, mode, topic, or theme in the literature written in England, Scotland, or Wales. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGB402**Seminar: British Literature**

An examination in depth of a major author, historical period, genre, mode, topic, or theme in the literature written in England, Scotland, or Wales. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGB403**Seminar: British Literature**

An examination in depth of a major author, historical period, genre, mode, topic, or theme in the literature written in England, Scotland, or Wales. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGB423**Jane Austen**

A study of major issues in Austen scholarship. The recent focus has been on the ironies and complex perspectives of *Pride and Prejudice*, *Emma*, *Mansfield Park* and *Persuasion*. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

English - British Literature**15ENGB439****The City in English Literature**

Representations of the city in English literature of the 18th, 19th, and 20th centuries. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGB475**Victorian Poetry**

This course will be on poets Tennyson, Browning, and Arnold. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGB518**Chaucer I**

Studies in the major works. Prereq: 15ENGL300. BoK: LT. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGB519**Chaucer II**

Studies in the major works. Prereq: 15ENGL300. BoK: LT. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGB560**English Drama**

A mixed graduate and undergraduate course which may focus on drama written in English from any era or nation from medieval to contemporary or post-colonial works by such dramatists as Wole Soyinka or Athol Fugard. It could include Australian, Canadian, Irish, Scottish, Indian, African, Caribbean or American dramatists. Prereq: 15ENGL300. BoK: LT. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGB651**Old English Prose**

The introductory course in our Old English sequence: those elements of the language needed to read the language and understand it. We will learn something about the sound of Old English, reading short pieces of edited prose to become accustomed to the look and feel of the language. Finally, we will spend a good bit of time reading from the Anglo-Saxon Chronicle, from Alfred and Aelfric, and from other writers of Old English prose. By the end of the quarter, students will be ready to read the poetry in the winter quarter course. There will be some modern critical readings, a midterm and final exam for all, and a medium-length paper for those students enrolled for four graduate credits. Prereq: 15ENGL300. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGB652**Old English Poetry**

The second course in Old English: more emphasis on the literature and less on the language. The important shorter poems will be read with excerpts from longer poems such as "Judith." The quarter ends with a reading of the first few hundred lines of Beowulf. In this course there is more time for a study of Old English metrics, literary criticism and a closer look at Anglo-Saxon culture. Prereq: 15ENGB651. BoK: LT. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGB653**Beowulf**

The third offering of the Old English sequence: a close retelling of the epic poem. The critical approach to the seminar will have dual foci. First, the single Beowulf manuscript will be examined in terms of its original production and later transmission. The second focus will be on important critical writings about Beowulf examined chronologically, from 19th century criticism through those of today. This will take place in the context of reading and translating most of the poem. Prereq: 15ENGB652. BoK: LT. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGB735**Approaches to British Medieval Literature**

Reciprocal gender formation in medieval literature investigating the culture and literary presentational processes that seek to define men and women interdependently. Credit Level: G. Credit Hrs: 4.00

English - British Literature**15ENGB737****Approaches to 16th Century Literature**

An examination of central aesthetic, cultural, and critical issues through close study of a few works and the critical discussions they have inspired, typically including Wyatt's poetry, More's Utopia, Sidney's sonnets, Spenser's Faerie Queene, a Shakespeare comedy. Designed for graduate students ready to apply theoretically informed criticism to texts. Credit Level: G. Credit Hrs: 4.00

15ENGB742**REN DRAMA TO 1640**

Readings from Renaissance drama to 1640. Credit Level: G. Credit Hrs: 4.00

15ENGB748**Shakespeare Survey I**

Intensive, advanced surveys of William Shakespeare's works. Designed for M.A. students. Credit Level: G. Credit Hrs: 4.00

15ENGB751**Approaches to 17th Century Literature**

An examination of a small selection of texts and recent critical discussions surrounding them, typically including Donne's poetry, Jonson's Alchemist, Milton's Paradise Lost, Behn's Oroonoko, poetry of Katherine Phillips and Margaret Cavendish. Designed for graduate students ready to apply theoretically-informed criticism to texts. Credit Level: G. Credit Hrs: 4.00

15ENGB755**Approaches to 18th Century Literature I**

A survey of critical approaches to the key texts of the "long" 18th century (1660-1789). Focus is on British literature. Credit Level: G. Credit Hrs: 4.00

15ENGB765**Approaches to Romantic Literature**

An introductory survey of the major writers of the period (Blake, Wordsworth, Coleridge, Byron, Shelley and Keats) taking a cultural studies approach. No prior experience with Romanticism is necessary. Credit Level: G. Credit Hrs: 4.00

15ENGB766**Romanticism**

An introduction to the British Romantic movement, focusing on the major writers of the time but also examining so-called minor writers, cultural developments and the evolution of our concept of Romanticism over time. Credit Level: G. Credit Hrs: 4.00

15ENGB771**Approaches to Victorian Literature**

Survey of Victorian fiction and contemporary criticism in the field. Credit Level: G. Credit Hrs: 4.00

15ENGB772**Approaches to Victorian Literature II**

See 15-002-771. Credit Level: G. Credit Hrs: 4.00

15ENGB790**Modern & Contemporary British Fiction**

A study of British fiction written after the Great War. Texts may be chosen from several sub-genres and be examined from a variety of theoretical perspectives. Credit Level: G. Credit Hrs: 4.00

15ENGB880**Problems in Victorian Literature**

An examination of Victorian literature exploring some issues that are focal in contemporary scholarship. Credit Level: G. Credit Hrs: 4.00

15ENGB882**Joseph Conrad**

An examination of the literary career of Joseph Conrad, considering his work within the context of the late 19th and early 20th centuries as well as from the standpoint of relevant literary criticism. The course is intended primarily for doctoral-level students, secondarily for master's-

H=University Honors course.

level students who already have a strong background in modern literature. Credit Level: G. Credit Hrs: 4.00

English - Comparative Literature**15ENGC204****Readings in Literature**

An introductory literature course focusing on the interpretive problems within a selected literary topic. Prereq: 15ENGL102. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGC205**Readings In Literature**

An introductory literature course focusing on the interpretive problems within a selected literary topic. Prereq: 15ENGL102. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGC206**Readings In Literature**

An introductory literature course focusing on the interpretive problems within a selected literary topic. Prereq: 15ENGL102. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGC215**Human Values in Literature**

Introduces non-majors to the literary discussion of such ethical concerns as justice, war and peace, the cost of individual happiness, and acknowledging difference. Prereq: 15ENGL102. BoK: LT, SE. Credit Level: U. Credit Hrs: 3.00

15ENGC240**Topics in Drama**

A study of issues raised by and about drama, focusing on texts from many possible nations and time periods. Prereq: 15ENGL102. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGC265**Literature and Technology**

A study of the implications of technology in a colonialist context in modern literature. Prereq: 15ENGL102. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGC266**Topics in Cultural Studies**

This course introduces students to the critical analysis of some aspect of popular or mass culture. Possible topics include consumerism, television, popular literature, life on-line, museums, the news, celebrity, and youth subcultures, etc. Please see instructor for specific details. Prereq: 15ENGL102. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15ENGC304**Development of the Drama**

Dramatic literature of ancient Greece and the English Renaissance. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGC305**Development of the Drama**

European dramatic literature from the 17th through the 19th centuries. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGC306**Development of the Drama**

Dramatic literature of the 20th century. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGC321**Humanities and Human Rights**

Course examines the importance of human rights for the humanities, specifically analyzing the intersections of literature, film, and documentaries in representing rights and rights violations within 20th-21st century contexts. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

English - Comparative Literature**15ENGC325****Introduction to Critical Theory**

This survey of contemporary theory introduces students to major schools and movements that have shaped the study of literature and culture, such as New Criticism, Structuralism, Post-Structuralism, Deconstruction, Feminist Theory, Psychoanalysis, Marxism, New Historicism, Cultural Studies, Postcolonial Theory, Race Studies, and Queer Theory. Prereq: 15ENGL300. BoK: LT, DC. Credit Level: U. Credit Hrs: 3.00

15ENGC326**Approaches to Cultural Studies**

Examines theoretical approaches to a specific aspect of popular or mass culture, or a specific problem posed by the study of culture. Each section may focus on a different aspect of culture (e.g. globalization, online youth cultures, museum culture, reality television, celebrity culture, news & entertainment, popular literature). Prereq: 15ENGL300. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15ENGC327**Topics in Literary Theory**

This course examines specialized topics or themes relating to literary theory. Sections may focus on major theoretical schools or movements, key questions or debates taken up by literary theorists, or approaches to studying works of a particular genre or by a particular author. Please see instructor for specific details. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGC334**Folk Humor**

Humor from the point of view of orally collected folk materials: the joke, the jest, the comic folk tale, and comic word play. Prereq: 15ENGL300. BoK: HU, SS. Credit Level: U. Credit Hrs: 3.00

15ENGC338**Introduction to Medieval Literature I**

A survey of epic, lyric, and dramatic works from the Continent and Britain. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGC342**Third World Literature**

Writing by significant figures on the world literary stage, including prize-winning and influential authors from Africa, the Middle East, Asia, the Americas, Australia, etc. Prereq: 15ENGL300. BoK: LT, DC. Credit Level: U. Credit Hrs: 3.00

15ENGC357**The Western Tradition in Literature**

Intellectual, literary, and cultural backgrounds to literature. Classical and Biblical. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGC358**The Western Tradition in Literature**

Renaissance and Enlightenment. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGC359**The Western Tradition in Literature**

Industrial and modern. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGC363**African Literature I: Introduction**

Contemporary African literature from Nigeria, Ghana, Kenya, Zimbabwe, and Senegal, reflecting both traditional and post-colonial subjects and form. Prereq: 15ENGL300. BoK: LT, DC. Credit Level: U. Credit Hrs: 3.00

15ENGC364**African Literature II: Topic**

A study of topics, themes, genres, or regions in contemporary African literature reflecting both traditional and post-colonial subjects and form. Prereq: 15ENGL300. BoK: LT, DC. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

English - Comparative Literature**15ENGC365****African Literature III: Drama**

This course focuses on plays written in South Africa, Kenya, Nigeria, and Ghana. They deal with the consequences of colonialism and racism and problems of political cultural, personal and linguistic identity. Prereq: 15ENGL300. BoK: LT, DC. Credit Level: U. Credit Hrs: 3.00

15ENGC366**Caribbean Literatures**

Survey of Caribbean literatures organized by genres (such as slave narratives, autobiography, fiction, or drama), historical periods, or central themes (such as colonialism or the environment). Prereq: 15ENGL300. BoK: LT, DC. Credit Level: U. Credit Hrs: 3.00

15ENGC370**Modern Poetry**

The work of major 20th century poets from various cultures. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGC371**Modern Fiction I: Late Nineteenth Century**

The novels of such Continental, British, and American novelists as Flaubert, Dostoevsky, Melville, Tolstoy and James. Prereq: 15ENGL300. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGC372**Modern Fiction II: Early Twentieth Century**

The novels of such Continental, British, and American writers as Mann, Kafka, Faulkner, and Joyce. Prereq: 15ENGL300. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGC373**Modern Fiction III: Mid-Twentieth Century**

Continental, British, and American novelists such as Solzhenitsyn, Camus, Borges, Robbe-Grillet, Fowles, and Hemingway. Prereq: 15ENGL300. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGC383**Celtic Myth and Epic**

An exploration of Celtic literature in translation with a particular focus on myth and epic. Prereq: 15ENGL300. BoK: LT, DC. Credit Level: U. Credit Hrs: 3.00

15ENGC384**Celtic Romance and Lyric**

An exploration of Celtic literature in translation with a particular focus on romance and lyric. Prereq: 15ENGL300. BoK: LT, DC. Credit Level: U. Credit Hrs: 3.00

15ENGC386**Modern Celtic Literatures, 1900-2000**

Irish, Welsh, and Scottish Gaelic are still living languages. This course reads some of the best recent Celtic authors in translation, including poetry of Sorley Maclean and Saunders Lewis, and fiction by Kate Roberts and Liam O'Flaherty. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGC390**Senior Honors Project**

Students with a 3.3 GPA and 27 major hours completed are invited to take this course as a trailer or annex to another major-level course they have completed. The starting place is typically a paper produced for that course, whose professor becomes project director and first reader. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGC401**Seminar: Comparative Literature**

An examination in depth of authors, periods, genres, modes, topics, or themes in literature from a comparative perspective. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

English - Comparative Literature**15ENGC402****Seminar: Comparative Literature**

An examination in depth of authors, periods, genres, modes, topics, or themes in literature from a comparative perspective. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGC403**Seminar: Comparative Literature**

An examination in depth of authors, periods, genres, modes, topics, or themes in literature from a comparative perspective. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGC421**The Female Bildungsroman**

Novels of maturation or education written in English by women between the late 18th century and the early 20th century. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGC474**Body Politics 2: Misogyny, Homophobia and Disease**

This course will discuss the fear of, and fascination with, same-sex desire governing some well-known heterosexual male-authored texts and social practices of the modern era. There will be particular focus on their links to misogyny and to male fears of bodily disintegration. Critical and theoretical works by Judith Butler, Paula Treichler, Eve Sedgwick, Martha Vicinus, David Miller and others who have contributed to the emergence of Gay and Lesbian Studies. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGC479**Orature to Literature**

This class examines some of the different ways in which oral traditions within various cultures such as African or Native American relate to and merge with the written traditions and conventions that we more commonly use to define literature. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGC500**Uncanny Legends**

The nature and scholarship surrounding the study of folk legends of all sorts but emphasizing the contemporary or urban legend. Prereq: 15ENGL300. BoK: HU, SS. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGC504**Introduction to Folklore**

A survey of the forms and content of folklore with emphasis on oral, traditional narrative. Proverbs to folk drama. Prereq: 15ENGL300. BoK: HU, SS. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGC505**Introduction to Folklore**

Myth and epic. Prereq: 15ENGL300. BoK: HU, SS. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGC506**Introduction to Folklore**

Folk tale, legend, and ballad. Prereq: 15ENGL300. BoK: HU, SS. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGC549**Dante's Divine Comedy**

A survey of Dante's masterpiece presenting a selection of Canti from Inferno, Purgatorio, and Paradise. The course will be organized in three parts. Prereq: 15ENGL300. BoK: LT. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGC581**Exile and Displacement in Postmodern Literature**

A study of the theme of exile in international literature during the modernist and postmodern periods. Prereq: 15ENGL300. BoK: LT. Credit Level: U, G. Credit Hrs: 3.00-4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

English - Comparative Literature**15ENGC664****Modern Irish I**

A three-part sequence designed to introduce students to Irish or Gaelic, the official language of Ireland. Students should develop a reading knowledge of standard Irish with attention paid to pronunciation abilities. Perm of Instructor. BoK: HU, DC. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGC665**Modern Irish II**

A three-part sequence designed to introduce studies to Irish or Gaelic, the official language of Ireland. Students should develop a reading knowledge of standard Irish with attention paid to pronunciation abilities. The second offering of a three-part course sequence. Prereq: 15ENGC664. BoK: HU, DC. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGC666**Modern Irish III**

A three-part sequence designed to introduce studies to Irish or Gaelic, the official language of Ireland. Students should develop a reading knowledge of standard Irish with attention paid to pronunciation abilities. The third offering in a three-part course sequence. Prereq: 15ENGC665. BoK: HU, DC. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGC700**Issues in Modern and Contemporary Literary Study**

Introduces a range of issues and theoretical approaches focal to the contemporary study of literature. Credit Level: G. Credit Hrs: 4.00

15ENGC701**Introduction to Graduate Study**

This course is an informative introduction to graduate study in English at the University of Cincinnati, as well as the profession as a whole. In this course, students find out about the various programs and resources available through the Department of English and get suggestions and advice about planning their overall program of study. Students also learn about many of the wider concerns of the profession, such as strategies for applying for a job or a research grant or for placing an article in a journal. Credit Level: G. Credit Hrs: 2.00

15ENGC704**Approaches to European Literature**

Continental Authors in translation. Credit Level: G. Credit Hrs: 4.00

15ENGC706**Approaches to Literary Theory**

This class will survey several contemporary trends in literary theory. Credit Level: G. Credit Hrs: 4.00

15ENGC715**Critical Writing in English Studies**

Develops a rhetoric of critical writing that is general, heuristic, and portable. Time is split between discussion of critical readings (Foucault, Burke, Tompkins) and workshoping student writing. Credit Level: G. Credit Hrs: 4.00

15ENGC730**Teaching College Writing**

A composition readings course designed to introduce students to "teaching college writing" from historical, cultural, and socio/political perspectives. In addition to reading some of the important studies in composition scholarship, students work with issues embedded in the phase "multiple literacies" and focus on the significance and negotiation of critical literacy. Credit Level: G. Credit Hrs: 4.00

15ENGC731**Teaching Practicum I**

A course preparing graduate assistants to teach undergraduate courses in writing. Required of all first-year Graduate Teaching Assistants and Student Lecturers. Credit Level: G. Credit Hrs: 2.00

English - Comparative Literature**15ENGC732****Teaching Practicum II**

A weekly seminar to discuss pedagogical and curricular issues as they emerge in the teaching of Freshman English. Required of all first-year Graduate Teaching Assistants and Student Lecturers. Credit Level: G. Credit Hrs: 2.00

15ENGC733**Scholarship of Teaching and Learning**

The study and practice of better teaching begins with exploring the differences between teaching and learning. Teachers will learn to focus on assessing student outcomes and to use their classrooms as a resource for enhancing the scholarly understanding of teaching. Credit Level: G. Credit Hrs: 4.00

15ENGC735**Methods of Teaching Literature**

This class studies an anthology of contemporary pieces about literary theory (some from the burgeoning field of theory-in-a-classroom, and some not), and an anthology of works that might be typically taught in lower-level English courses. We then spend the quarter exploring the theoretical implications--and the classroom implications--of the activities we and our students perform in reading and writing about literature. Credit Level: G. Credit Hrs: 4.00

15ENGC736**Methods of Teaching Creative Writing**

This seminar examines and experiments with various approaches to teaching creative writing workshops: first, by reading and responding to works by a wide range of writer-teachers; second, by developing and presenting writing exercises; third, by conducting actual workshops with advanced undergraduate poets. Credit Level: G. Credit Hrs: 4.00

15ENGC738**Topics in Composition**

Intensive 60-hr seminar for H.S. teachers on theory and practice of teaching composition, focusing on writing processes, peer response, assignment development, reading-writing connections, critical reflection & assessment. Credit Level: G. Credit Hrs: 4.00-6.00

15ENGC740**Approaches to Literacy**

Studies a variety of issues in the social, stylistic, rhetorical, and artistic consequences of the acquisition of reading and writing skills. May focus on particular populations or periods, or critical perspectives. Credit Level: G. Credit Hrs: 4.00

15ENGC744**Approaches to Contemporary Poetry**

Survey of recent trends and significant figures in contemporary poetry. Credit Level: G. Credit Hrs: 4.00

15ENGC747**Theorizing Authorship**

Explores how theory help to create and respond to the death of authorial authority; where meaning is to be found, including in the text itself or the reader. Credit Level: G. Credit Hrs: 4.00

15ENGC751**Experimental Drama**

Experimental drama since modernism, starting with Artaud, Brecht, and Beckett. Explores between experiment and the avant-garde, and looks at performance artists and collaborative work. Pays particular attention to women playwrights, some provocative European writers, and Latin and South American playwrights. Explores the question "How has dramatic experiment edged into the American mainstream?" Credit Level: G. Credit Hrs: 4.00

15ENGC755**Theories of Fiction**

Explores how we know that a work is fictional, and how fiction's rules are created and followed; the author's relationships and their fictions; alternative explanations of fictions from a variety of historical, social, and theoretical frameworks. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

English - Comparative Literature**15ENGC755****Theories of Fiction**

Explores how we know that a work is fictional, and how fiction's rules are created and followed; the author's relationships and their fictions; alternative explanations of fictions from a variety of historical, social, and theoretical frameworks. Credit Level: G. Credit Hrs: 4.00

15ENGC756**Theorizing the Short Story**

The short story is one of the most recent and popular genres to develop. This seminar surveys some of the ways artists and scholars have placed it in a theoretical context. Credit Level: G. Credit Hrs: 4.00

15ENGC760**Approaches to Cultural Studies**

Introduction to the interdisciplinary study of culture. The course uses both literary and non-literary texts to understand literature and mass communications in their broadest contexts. Theory starts with Lukacs and includes Raymond Williams, Adorno, Althusser. Credit Level: G. Credit Hrs: 4.00

15ENGC766**Approaches to Diasporic Studies**

Introduction to the interdisciplinary field of diasporic studies, focusing on the impact of diasporic literatures and other forms of cultural production. We will connect literature, film, television and webzines to questions of labor, gender, sexuality, race, transnational activism, and global capitalism. Credit Level: G. Credit Hrs: 4.00

15ENGC776**Approaches to Biblical Literature**

Contemporary topics in the study of the Bible from a literary and theoretical point of view. Credit Level: G. Credit Hrs: 4.00

15ENGC780**Approaches to Modernism**

A survey of poetic, fictional, autobiographical and critical texts central to issues in literary Modernism from 1900-1945. The course may focus specifically on either American or British Modernism, or may offer a cross-cultural selection of texts from American and British authors both. Credit Level: G. Credit Hrs: 4.00

15ENGC781**Modern Poetry**

An exploration of the origins and development of modern poetry in its international context. The course includes the work of the French Symbolist poets. Students also examine some major movements of 20th century poetry, including surrealism, imagism and the poetics of Negritude. Texts are read in translation, with originals available. Modern Poetry is an introductory graduate course; no previous knowledge of the poets' work or the original languages is required. Credit Level: G. Credit Hrs: 4.00

15ENGC786**Modern Celtic Literature, 1900-2000**

Irish, Welsh, and Scottish Gaelic are still living languages. This course reads some of the best recent Celtic authors in translation, including poetry of Sorley Maclean and Saunders Lewis, and fiction by Kate Roberts and Liam O'Flaherty. Credit Level: G. Credit Hrs: 4.00

15ENGC800**Contexts for 20th Century Literary Study**

A survey of intellectual issues that underlie modernism and postmodernism, including ideas of the self, history, and culture. Credit Level: G. Credit Hrs: 4.00

15ENGC806**Problems in Literary Theory**

An examination in depth of either the concerns of a particular critic's approach or a specific problem which cuts across different literary theories--such as the nature of authorship, the subjectivity of the reader, determinacy of meaning. Students should have previously taken at least a survey of literary theory. Credit Level: G. Credit Hrs: 4.00

English - Comparative Literature**15ENGC813****Psychoanalytic Theory and Criticism**

Beginning with a study of several of Freud's major papers, an historical and critical investigation of contemporary psychoanalytic theory, namely, of both French psychoanalysis (Lacan and Kristeva) and British and American rational approaches. Credit Level: G. Credit Hrs: 4.00

15ENGC820**International Modernism**

Investigates how "modernity" is constituted and received in the prose and poetry of the early 20th century, in English, American, and Continental literary traditions. Credit Level: G. Credit Hrs: 4.00

15ENGC840**Problems in Comparative Literature**

Consideration of varying topics dealing with 20th century literatures in more than one linguistic community. The specific topic is to be chosen by the instructor and will change from seminar to seminar. Credit Level: G. Credit Hrs: 4.00

15ENGC855**Problems in Modern Criticism**

A careful examination of one or two of the issues around which criticism of the last 40 years has revolved. The contexts and evolution of the debates will be highlighted. Students should have previously taken at least a survey of literary theory. Credit Level: G. Credit Hrs: 4.00

15ENGC866**Problems in Diasporic Studies**

Explores specific problems in the field of diasporic studies, such as intersections of transnational media and diasporic culture, or the impact of gender, race, sexuality, or class on diasporic literatures. Credit Level: G. Credit Hrs: 4.00

English**15ENGL101****English Composition I**

A composition course emphasizing critical reading, writing, and analysis of texts. Students are introduced to research methods. Students must attain a C- or better before moving to the next course in the first year composition sequence, 15ENGL102. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL101H**Honors English Composition I**

A composition course emphasizing critical reading, writing, and analysis of texts. Designed for students accepted into the Honors program, this version of ENGL101 has a special emphasis on experiential learning. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL102**English Composition II**

A composition course emphasizing critical reading, writing, and analysis of texts with particular attention to research methods and writing. Students must attain a C- or better to pass the course. Completes the second course in the first-year composition sequence. Prereq: 15ENGL101. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL102H**Honors English Composition II**

A composition course emphasizing critical reading, writing, and analysis of texts with particular attention to research methods and writing. Designed for students accepted into the Honors Program, this version of ENGL102 has a special focus on experiential learning. Prereq: 15ENGL101H. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL112**Advanced English Composition I**

A limited enrollment course in composition, emphasizing critical reading, writing, analysis, and research. Admission based on the English Placement Test. Transfer Module. BoK: NA. Credit Level: U.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

English**15ENGL112****Advanced English Composition I**

Credit Hrs: 3.00

15ENGL117**Beauty: Dissecting and Debating an Enigma**

Designed for males and females, this course will examine the ways in which physical beauty is depicted in representative literature and films. Students will use the works to analyze varying attitudes about its nature and significance and will explore and debate whether perceptions of beauty are subjective and culturally determined or objective and influenced by biology and evolution. This is a freshman seminar course. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15ENGL118**Complex Choices/Complex Lives: Moral Conflicts in Popular Literature and Film**

Students in this course will analyze popular novels/films in which characters are faced with ambiguous moral choices. As means of clarifying their own ethical standards, students will examine the reasoning and value systems underlying characters' decisions and will discuss and debate which they consider more principled. This is a freshman seminar course. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15ENGL201**Topics in Literature**

Selected readings chosen to highlight specific literary problems of theme, technique, literary and social heritage. Individual topics are described in listings available from the English office each term. Prereq: 15ENGL102. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL202**Topics in Literature**

Selected readings chosen to highlight specific literary problems of theme, technique, literary and social heritage. Individual topics are described in listings available from the English office each term. Prereq: 15ENGL102. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL203**Topics in Literature**

Selected readings chosen to highlight specific literary problems of theme, technique, literary and social heritage. Individual topics are described in listings available from the English office each term. Prereq: 15ENGL102. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL207**American Writers**

Selected works in American literature from the colonial period to 1865. Prereq: 15ENGL102. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL208**American Writers**

Selected works in American literature from 1865 to 1915. Prereq: 15ENGL102. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL209**American Writers**

Selected works in American literature from 1915 to the present. Prereq: 15ENGL102. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL210**Writing the Informal Essay**

Writers in the 19th and 20th centuries have demonstrated that the informal essay can be aesthetically pleasing and as individualized as a poem or short story. In this course students can learn through reading and writing assignments how to shape the essay for personal expression. Prereq: 15ENGL102. BoK: NA. Credit Level: U. Credit Hrs: 3.00

English**15ENGL211****Creative Writing: Fiction**

Writing of short story; examination and discussion in class of student's work; assigned readings for history, theory of the short story, and critical analysis. Limited to 20 students. Prereq: 15ENGL102. BoK: FA. Credit Level: U. Credit Hrs: 3.00

15ENGL212**Creative Writing: Fiction**

Writing a short story; examination and discussion in class of student's work; assigned readings for history, theory of the short story, and critical analysis. Limited to 20 students. The second offering in a three-part course sequence. Prereq: 15ENGL102. BoK: FA. Credit Level: U. Credit Hrs: 3.00

15ENGL213**Creative Writing: Fiction**

Writing of short story; examination and discussion in class of student's work; assigned readings for history, theory of the short story, and critical analysis. Limited to 20 students. The third offering in a three-part course sequence. Prereq: 15ENGL102. BoK: FA. Credit Level: U. Credit Hrs: 3.00

15ENGL217**Creative Writing: Poetry**

Writing of poetry; examination and discussion in class of each student's work. Limited to 20 students. Prereq: 15ENGL102. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL218**Creative Writing: Poetry**

Writing of poetry; examination and discussion in class of each student's work. Limited to 20 students. The second offering in a three-part course sequence. Prereq: 15ENGL102. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL219**Creative Writing: Poetry**

Writing of poetry; examination and discussion in class of each student's work. Limited to 20 students. The third offering in a three-part course sequence. Prereq: 15ENGL102. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL221**World Literature**

A comparative study of ancient and modern classics of the western world as well as Third World literature. Each term will focus on a particular literary genre: tragedy, comedy, epic, and romance. Prereq: 15ENGL102. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL222**World Literature**

A comparative study of ancient and modern classics of the western world as well as Third World literature. Each term will focus on a particular literary genre: tragedy, comedy, epic and romance. The second offering in a three-part course sequence. Prereq: 15ENGL102. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL223**World Literature**

A comparative study of ancient and modern classics of the western world as well as Third World literature. Each term will focus on a particular literary genre: tragedy, comedy, epic, and romance. The third offering in a three-part course sequence. Prereq: 15ENGL102. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL227**Creative Writing: Drama**

A study of the limits and potentialities of the dramatic medium. Students will exercise their talents within this framework. Prereq: 15ENGL102. BoK: HU. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

English**15ENGL236****Contemporary World Literature: The Short Story**

European and Asian short masterpieces expressing the anxieties and hopes of modern man; exploration of new literary techniques. Prereq: 15ENGL102. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL237**Contemporary World Literature: Poetry**

Sample the best poetry being written today as poets from America, Europe, and the Third World grapple with personal and political issues, and work to evolve new art forms for new audiences. Prereq: 15ENGL102. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL244**Introduction to Language Science**

Human language: what it is and how it works. The way we learn language, produce and understand it; language change and dialects; models of language. Prereq: 15ENGL102. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15ENGL246**Themes in American Literature: Gender Roles**

American authors' treatments of the theme of male-female gender stereotyping. Prereq: 15ENGL102. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL251**Outrageous Writings by Women**

Women writers are attracted to certain literary forms scorned by conventional academic critics -- Brown, Rubyfruit Jungle; Wittig, Les Guerilliers; Didion, Play It As It Lays; LeGuin, The Dispossessed; poetry by Judy Grahn; journals by May Sarton, Anais Nin. Prereq: 15ENGL102. Transfer Module. BoK: LT, DC. Credit Level: U. Credit Hrs: 3.00

15ENGL256**Mothers and Daughters in Literature**

Women base a large part of their self image upon how they view their mothers. Symbols of motherhood powerfully affect culture. Concepts mothers have of their daughters will be explored. Prereq: 15ENGL102. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL257**Our Lives: Twentieth-Century Women's Autobiographies**

Through five novels and a collection of diaries, this course will study the lives and achievements of well-known 20th century women from their teen years through old age. Prereq: 15ENGL102. Transfer Module. BoK: LT, DC. Credit Level: U. Credit Hrs: 3.00

15ENGL261**Fantasies of Children's Literature**

Classic and contemporary works of children's fantasy. Focus is sources of appeal, recurrent issues. Prereq: 15ENGL102. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL267**Topics in Film**

An introduction for non-majors to the study of film as a mode of visual and verbal story-telling. Topics include significant genres (westerns, horror films, film noir), issues (representations of race and gender, film adaptations), or artists (Capra, Ford). Prereq: 15ENGL102. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL274**Censorship in Literature and the Arts**

Censored literature and other works of art examined in light of arguments for and against censorship. Prereq: 15ENGL102. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL275**Ethnic Literatures of the United States**

An introduction to the literature of selected ethnic groups (Black, Native American, Appalachian, Chinese, Jewish, Latino, etc.). Students will

English**15ENGL275****Ethnic Literatures of the United States**

study ethnic cultures and literary forms. Prereq: 15ENGL102. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL289**Intermediate Composition**

Using specific themes drawn from broad disciplinary fields, this course builds upon and enhances the writing and reading skills developed in English Composition. The General Education course emphasizes critical reading and writing, more advanced research and argumentative skills, and rhetorical understanding of discourse as it is used in different disciplines and discourse communities. Students must have earned 45 credit hours to register for the course. Prereq: 15ENGL102. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL289H**Intermediate Composition**

Using specific themes drawn from broad disciplinary fields, this course builds upon and enhances writing and reading skills developed in English Composition. The General Education course emphasizes critical reading and writing, more advanced research and argumentative skills, and rhetorical understanding of discourse as it is used in different disciplines and discourse communities. Designed for students accepted into the Honors Program, this version of English 289 has a special focus on experiential learning. Students must have earned 45 credit hours to register for the course. Prereq: 15ENGL102H. BoK: SE. Credit Level: U. Credit Hrs: 3.00

15ENGL300**Introduction to English Studies**

Introduces students to the diverse discipline of English, with course texts ranging from literary works to film, workplace writing, and public discourse. Special focus on understanding and applying critical terms and on integrating research into interpretive/analytical writing. This course is primarily for majors in English. Prereq: 15ENGL102. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL301**Survey of American Literature**

A survey of American literature from Puritan and Colonial times to 1865. This course is primarily for majors in English. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL302**Survey of American Literature**

A survey of American literature from 1865 to 1915. This course is primarily for majors in English. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL303**Survey of American Literature**

A survey of American literature from 1915 to the present. This course is primarily for majors in English. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL305**Writing for English Majors**

A workshop focused on the analytic writing expected of English majors. Examines what is a researchable question. Emphasis on formulating a position and providing effective, persuasive support, and revising for clarity coherence, and correctness. This course is primarily for majors in English. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL310**American Fiction: 1860-1910**

The early realists and naturalists; selections from Twain, James, Crane, and others. Prereq: 15ENGL300. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

Representative fictions since 1950: realistic, absurdist, experimental. Writers include O'Connor, Ellison, Heller, Barth, Pynchon, Vonnegut and others. Prereq: 15ENGL300. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL335**Films of John Huston**

Selected films by director John Huston, such as The Maltese Falcon, The Treasure of the Sierra Madre, Moby Dick, and The Dead. Course may also examine the novels on which the films are based. Prereq: 15ENGL300. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15ENGL336**Classic Film Comedies**

Focuses on the history and development of film comedy from the days of the Keystone Cops to contemporary comedies such as Dr. Strangelove (1964), Start the Revolution Without Me (1970), and Blazing Saddles (1974). Prereq: 15ENGL300. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15ENGL337**American Literature and Film**

Problems and opportunities presented by the conversion of prose fiction into film, usually centered around a specific theme. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL338**Film And Neo Noir**

A VARIETY OF CRITICAL APPROACHES AND METHODOLOGIES - MARXIST, FEMINIST, NEO-HISTORICAL AND OTHERS - BROUGHT TO BEAR ON REPRESENTATIVE EXAMPLES OF A HOLLYWOOD GENRE, THE CRIME MOVIE. FILMS VIEWED INCLUDE DOUBLE INDEMNITY, TOUCH OF EVIL, CHINATOWN, BODY HEAT, BLUE VELVET, THE GRIFTERS, Mulholland Drive, and others. Definitions, characteristics, cultural theme and implications are thoroughly discussed. Prereq: 15ENGL300. BoK: SE, LT. Credit Level: U. Credit Hrs: 3.00

English**15ENGL340****Introduction to the Study of Language**

The basic concepts for linguistics, especially as they apply to the study of literature. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15ENGL341**American Ethnic Literature I**

Introduction to the ethnic literature of the United States. Prereq: 15ENGL300. BoK: LT, DC. Credit Level: U. Credit Hrs: 3.00

15ENGL342**Topics in American Ethnic Literature**

Ethnic women writers of the United States. Contemporary African-American, Native-American, Chinese-American, and Chicana women writers' use of myth and orature, and the issues of gender, class, and identity that unite or divide them. Prereq: 15ENGL300. BoK: LT, DC. Credit Level: U. Credit Hrs: 3.00

15ENGL343**Issues of Race in African American Literature**

An examination of those African American writers whose creative vision focuses on issues of race. A look at those writers and their treatment of race in selected fiction, poetry, and exposition. Prereq: 15ENGL300. BoK: LT, DC. Credit Level: U. Credit Hrs: 3.00

15ENGL344**Interracialism in America**

Uses literature, legal documents, essays, and film to examine the peculiar phenomenon known as race in America, focusing specifically on how race impacts relationships. Prereq: 15ENGL300. BoK: DC, LT. Credit Level: U. Credit Hrs: 3.00

15ENGL346**English Grammar**

This course will work inductively to establish the actual rules of the language as it is practiced and thus to develop methods for analyzing and understanding English syntax. Prereq: 15ENGL300. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15ENGL350**The Bible and Literature I**

Focus on a narrative from the Hebrew Bible and its reception/interpretation history. We will begin with a careful study of the text in question (Genesis 2-4, for instance, or Exodus) before shifting, first, to readings of that text in the works of major theologians, such as Augustine or Calvin, and then to literary appropriations of this biblical material from the Medieval period to today. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL351**The Bible and Literature II**

In this course we will focus on poetry from the Hebrew Bible and its reception/interpretation history. We will begin with a careful study of the text in question (Job, for instance, or Isaiah), before shifting, first to readings of that text in the works of major theologians, such as Augustine or Calvin, and then to literary appropriations of this biblical material from the Medieval period to today. Prereq: 15ENGL300. BoK: LT, SE. Credit Level: U. Credit Hrs: 3.00

15ENGL352**The Bible and Literature III**

In this course we will focus on material from the New Testament and its reception/interpretation history. We will begin with a careful study of the text in question (the Gospel of Mark, for instance, or Revelation), before shifting, first, to readings of that text in the work of major theologians, such as Augustine or Calvin, and then to literary appropriations of this biblical material from the Medieval period to today. Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL356**Feminist Critical Readings**

In-depth readings of classic feminist works. This course will focus on developing students' critical reading skills as well as on works by classical feminist thinkers. BoK: SE., DC. Credit Level: U. Credit Hrs:

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

English**15ENGL356****Feminist Critical Readings**

3.00

15ENGL357**Gender, Sexuality and Culture**

Focuses on the political, cultural, familial production of sexualities and on the complex relatives between gender and sexuality, including the way in which gender and sex regulate identity and how that regulation might be contested. BoK: SE., HU. Credit Level: U. Credit Hrs: 3.00

15ENGL358**Second Wave Feminisms**

Analyzes and historicizes the multiple and interconnecting strands of feminist theory and praxis that constituted the second wave of feminism and their continuing impact on contemporary feminist identification, debates and movements. BoK: SE., DC. Credit Level: U. Credit Hrs: 3.00

15ENGL359**Introduction to Rhetoric and Writing**

Introduction to the study of rhetoric, including classical and modern theories. Emphasis on the use of rhetorical principles in the written, visual, and digital texts of popular culture, mass media, and education. Goal is to develop students' critical understanding and use of rhetorical strategies in text production and reception. Prereq: 15ENGL102. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL360**Discourse Communities**

An introduction to the language conventions in such areas as journalism, law, business, the arts, the sciences, and the social sciences. We will examine not only the surface elements of these conventions but also the underlying values that they may embody and perpetuate. Prereq: 15ENGL102. BoK: HU, SE. Credit Level: U. Credit Hrs: 3.00

15ENGL368**Topics in Rhetoric and Professional Writing**

Explores theoretical and practical issues in rhetoric and professional writing, such as ethics, environmental writing, project management, and intercultural communication. Prereq: 15ENGL102. BoK: HU, SE. Credit Level: U. Credit Hrs: 3.00

15ENGL370**Desktop and Online Publishing**

This course introduces students to fundamental principles and techniques of designing and producing print and online documents. Prereq: 15ENGL102. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL376**Writing with Style**

Students consider the relation of style to audience, purpose, and genre and experiment with different writing styles to refine and diversify their own writing. Prereq: 15ENGL102. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15ENGL377**Visual Rhetoric**

Analyzes ways in which visual information and design are used to influence viewers' opinions, beliefs, attitudes, and behaviors (the art of rhetoric) with an added component of creating visually rhetorical texts. Prereq: 15ENGL102. BoK: HU, SE. Credit Level: U. Credit Hrs: 3.00

15ENGL378**Films of Alfred Hitchcock**

An in depth look at the life and career of one of the greatest film directors of all time. Prereq: 15ENGL300. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15ENGL382**Gay and Lesbian Literature**

An exploration of important themes (eg., childhood and growing up, coming out and finding community, families, oppression and resistance,

English**15ENGL382****Gay and Lesbian Literature**

bisexuality, relationships and friendships, AIDS and aging) in lesbian and gay literature using literary materials as the primary focus (novels, poetry, plays). Prereq: 15ENGL300. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL385**Forms of Poetry**

Introduces students to poetic theory, terminology, and practices to help them develop their skills as readers and writers of poetry. This is a reading/discussion-based course (not a workshop) that includes imitations as well as papers and exams. Required for English majors/cert. students in the CW-poetry track; other English majors welcome. Prereq: 15ENGL217, 15ENGL218. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL386**Forms of Fiction**

Introduces students to the structural possibilities of fiction by examining texts about narrative and a variety of narrative forms. This is a reading/discussion-based course (not a workshop) that includes imitations as well as analytical papers and exams. Required for English majors/cert. students in the CW-Fiction track; other English majors welcome. Prereq: 15ENGL211, 15ENGL212. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15ENGL388**American Women Writers to 1900**

Poems, plays, novels, short stories, and essays written by American women authors to 1900. Prereq: 15ENGL300. BoK: LT, DC. Credit Level: U. Credit Hrs: 3.00

15ENGL389**American Women Writers -- 1900 to present**

Poems, plays, novels, short stories, and essays written by American women authors from 1900 to the present. Prereq: 15ENGL300. BoK: LT, DC. Credit Level: U. Credit Hrs: 3.00

15ENGL397H**Charleston to Hilton Head: Exploring the Low Country in Fiction and Personal Experience**

This course offers an opportunity for students in all disciplines to experience the ecology and culture of the region from Hilton Head to Charleston, South Carolina, in person and in selected readings by popular author Pat Conroy. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL398H**Faces of the Future: Challenges and Costs of Battered Youth**

Designed for male and female students in all majors. This course employs fiction, films, essays, speakers, and experiential learning to examine the crisis of battered youth and organizational attempts at intervention. Included in the course is a required weekend service trip to an Eastern Kentucky non-profit residential facility for abused young people ages ten to eighteen. BoK: SE., DC. Credit Level: U. Credit Hrs: 3.00

15ENGL399H**Law, Literature, and Society**

Examines the law, its origins, its representations in literature and popular culture, and its influence on how we perceive ourselves and society. Students will explore texts including literature, court documents, news articles, and television shows. Will (re)create laws, propose arguments on current hot topics, and present and decide cases to practice critical thinking, argumentation, and compromise. BoK: LT., SE. Credit Level: U. Credit Hrs: 3.00

15ENGL401**Seminar: American Literature**

An examination in depth of a major author, historical period, genre, mode, topic, or theme in literature written in America. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

English**15ENGL402****Seminar: American Literature**

An examination in depth of a major author, historical period, genre, mode topic, or theme in literature written in America. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL403**Seminar: American Literature**

An examination in depth of a major author, historical period, genre, mode, topic, or theme in literature written in America Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL405**Mark Twain**

Students read and discuss A Connecticut Yankee, Letters from the Earth, Pudd'n'head Wilson, The Adventruers of Huckleberry Finn, and selected pieces by Samuel Clemens, in an attempt to understand both his artistic accomplishment and to contextualize his work within the artistic, philosophical, political, and literary movements of the 19th century in the United States. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL406**Thoreau and His Tradition**

A study of the pastoral and philosophical backgrounds to Thoreau's work as well as his influence on later writers. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL409**The City in African-American Literature**

Examines the Black Urban Experience in 20th century fiction and explores how post-Harlem Renaissance writers conceive of the modern city. Includes service learning component. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL411**Advanced Creative Writing: Fiction**

Theory and practice of contemporary fiction with seminar study of relevant contemporary materials and criticism of student work in class and conference. Limited to 20 students. Prereq: 15ENGL211, 15ENGL212. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL412**Advanced Creative Writing: Fiction**

Theory and practice of contemporary fiction with seminar study of relevant contemporary materials and criticism of student work in class and conference. Limited to 20 students. Second offering in a two-part course sequence. Prereq: 15ENGL211, 15ENGL212. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL413**Advanced Creative Writing Fiction**

Theory and practice of contemporary fiction with seminar study of relevant contemporary materials and criticism of student work in class and conference. The third offering in a three-part sequence. Prereq: 15ENGL211, 15ENGL212. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL417**Advanced Creative Writing: Poetry**

A course in the theory and practice of contemporary poetry with seminar study of relevant contemporary materials and criticism of student work in class and conference. Limited to 20 students. Prereq: 15ENGL217, 15ENGL218. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL418**Advanced Creative Writing: Poetry**

A course in the theory and practice of contemporary poetry with seminar study of relevant contemporary materials and criticism of student work in class and conference. Limited to 20 students. The second offering in a two-part course sequence. Prereq: 15ENGL217, 15ENGL218. BoK: NA. Credit Level: U. Credit Hrs: 3.00

English**15ENGL419****Advanced Creative Writing: Poetry**

Theory and practice of contemporary poetry with seminar study of relevant contemporary materials and criticism of student work in class and conference. The third offering in a three-part sequence. Prereq: 15ENGL217, 15ENGL218. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL431**Playwriting I**

The fundamental elements of the playwriting process: plot, character, dialogue, setting, theme. Standard script form, marketing, production rewriting. Previous writing experience or drama study highly desirable. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL432**Play Writing II**

An intermediate class to further the craft of play writing, including: the development of an outline for a full length play script. Students will also examine critical essays on the subject of play writing and will become familiar with various contemporary playwrights. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL459**Hemingway**

The works of Ernest Hemingway in their social, literary, and aesthetic contexts. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL460**Seminar: Twentieth-Century American Literature**

An advanced seminar focusing on some aspect of twentieth-century American literature. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL465**William Faulkner**

Students read the major fictions of this great American author, including The Sound and the Fury, As I Lay Dying, Sanctuary, Light in August, Absalom, Absalom!, The Hamlet, and Go Down, Moses. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL466**Seminar: The Fitzgeralds**

A seminar on the lives and writings of american authors Zelda and F. Scott Fitzgerald. Prereq: 15ENGL300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ENGL489**Advanced Composition**

A writing workshop designed to develop flexible use of traditional and modern forms of discourse; critical, research, and stylistic skills. Satisfies state requirement for Composition for certification for teachers of English in secondary schools. Prereq: 15ENGL102. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15ENGL491**Writing for Business**

Practice in solving actual communication cases in common business situations requiring written communications. Prereq: 15ENGL102. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15ENGL492**Technical Writing**

An introduction to the theory and practice of writing in technical and scientific disciplines. It is not intended as a review of basic composition skills or as a basic course in English as a second language. Prereq: 15ENGL102. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15ENGL499**Internship in Writing and Editing**

On-the-job experience supervised by an academic advisor. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

English**15ENGL500****Internship in Writing and Editing**

On-the-job experience supervised by an academic adviser. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

15ENGL501**Internship in Writing and Editing**

On-the-job experience supervised by an academic adviser. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

15ENGL580**Writing Cincinnati**

A writing course about the history, people, and architecture of Cincinnati. Includes field research on some in-depth aspects of the city. Prereq: 15ENGL102. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00-4.00

This course is intended for students who have successfully completed a course in beginning playwriting or for students who have completed a playscript. Emphasis will be on the completion of a stageworthy work and on readying a work for submission to a theater for possible production. Prereq: 15ENGL300. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGL591**Individual Work**

A course in guided readings which must be negotiated in writing with individual faculty members and approved by the director of undergraduate studies. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

15ENGL592**Individual Work**

A course in guided readings which must be negotiated in writing with individual faculty members and approved by the director of undergraduate studies. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

15ENGL593**Individual Work**

A course in guided readings which must be negotiated in writing with individual faculty members and approved by the director of undergraduate studies. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

English**15ENGL611****Senior Writing Seminar: Fiction**

Students write and critique stories at an advanced level, looking at the various elements of fiction as they interact in the work. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGL612**Senior Writing Seminar: Fiction**

Students write and critique stories at an advanced level, looking at the various elements of fiction as they interact in the work. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGL613**Senior Writing Seminar: Fiction**

This will be a fiction workshop with peer critique of student work with brief lectures on elements of fiction. Students read many short story masterpieces and analyze their structures from the writer-rather-than-the theoretical perspective. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGL615**Seminar in Linguistics**

Given that all members of homo sapiens have language and that no other species has language, and given that all languages are, at the most basic units of structure, virtually identical, we can raise the question of how and when our remote ancestors evolved language. To what extent can humans be said to possess a separate language faculty? Is there a "language instinct," to use Steven Pinker's term? Are humans born genetically programmed to structure language in a certain way? Or are the observed regularities due to more general brain structures? Or are these regularities created by regularities in communication situations across individuals? Why did humans, and apparently only humans, evolve language in the first place? What linguistic faculties, if any, did the more remote ancestors of homo sapiens possess? Prereq: 15ENGL300. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGL616**Seminar: History of the English Language**

This seminar will begin with a short introduction to Old English and follow the language through the 20th century, using the methods of historical linguistics. Prereq: 15ENGL340. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGL617**Senior Writing Seminar: Poetry**

Writing of poetry or fiction with practical training in publication. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGL618**Senior Writing Seminar: Poetry**

Emphasis will be placed on reading and criticizing student poetry. Students also read and discuss books by visiting poets. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGL619**Senior Writing Seminar: Poetry**

Writing of poetry with emphasis placed on reading and criticizing student poetry. Students also read and discuss books by visiting poets. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGL621**Writing Seminar: Professional and Technical Writing**

This seminar introduces student to principles of verbal and visual design as they apply to instructional materials, both in print and on-line. It teaches how to analyze audiences, design reader-based documents, deal with organizational constraints, and test results. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGL622**Writing Seminar: Professional and Technical Writing**

This course introduces students to the theory and practice of writing promotional copy for print and broadcast media. Reading focus is on theories of social psychology as they apply to attitude formation and on

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

English**15ENGL622****Writing Seminar: Professional and Technical Writing**

demographic and psychographic variables among audiences. Students write copy for radio, television, and display ads, for news releases, and for direct-mail promotion. This course ends with a major project written collaboratively for a real public or private client who is committed to publication of the project materials. Past clients for such projects include the Kidney Foundation, the UC School of Education, Anderson Publishing Company, the UC Medical Center, ORSANKO, and the Taft Museum, among others. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGL623**Writing Seminar: Professional and Technical Writing**

Advanced work in professional and technical writing. The third offering in a three-part course sequence. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGL630**Verse-Writing Workshop**

Workshop with the Elliston Poet-in-Residence. Enrollment in this workshop is only by permission of the instructor. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGL642**English Syntax**

The leading edge of language research begins with questions like these: how can we constantly create and understand new sentences--ones we have never heard before? How do languages allow us to construct meaning in sentences? What does it mean to say you know English? These questions have been asked and answered first in the area of syntax - the part of language that involves producing and interpreting sentences. Students look at the most recent of Noam Chomsky's models of syntax, the minimalist approach, as it applies to English sentences. This approach, and the text we will use to discover it, is simpler than earlier ones. Students should learn a great deal about the process of language, and quite a lot about the way English works. Perm of Instructor. BoK: HU, NS. Credit Level: U, G. Credit Hrs: 3.00-4.00

15ENGL703**Research and Bibliography for Professional Writing Editing and Publishing**

For MA students in the Professional Writing and Editing and Publishing tracks. Introduces students to research theories and methods as well as their underlying assumptions. Credit Level: G. Credit Hrs: 4.00

15ENGL705**MA in English Capstone Course**

Readings are taken from a list of texts that survey literary genres from a variety of historical periods. The writing assignments ask students to show their breadth of knowledge through their ability to discuss relationships among the range of assigned texts. Required of all MA students. Credit Level: G. Credit Hrs: 4.00

15ENGL711**Graduate Fiction Workshop**

These fiction-writing workshops usually focus on short stories by class members, occasionally on novels in progress, with the aim of producing publishable work. Students who have been admitted to the graduate program in fiction writing may take the course; others must receive permission from the instructor. Credit Level: G. Credit Hrs: 4.00

15ENGL712**Graduate Fiction Workshop**

These fiction-writing workshops usually focus on short stories by class members, occasionally on novels in progress, with the aim of producing publishable work. Students who have been admitted to the graduate program in fiction writing may take the course; others must receive permission from the instructor. Credit Level: G. Credit Hrs: 4.00

English**15ENGL713****Graduate Fiction Workshop**

These fiction-writing workshops usually focus on short stories by class members, occasionally on novels in progress, with the aim of producing publishable work. Students who have been admitted to the graduate program in fiction writing may take the course; others must receive permission from the instructor. Credit Level: G. Credit Hrs: 4.00

15ENGL716**Literary Translation**

A course in the theory and practice of literary translation, including workshops on individual translation projects in poetry and prose, discussion of theories and techniques of translation, and comparison of English translations of foreign works. Students should have basic proficiency in a foreign language; no previous experience with translation expected. Credit Level: G. Credit Hrs: 4.00

15ENGL717**Graduate Poetry Workshop**

A poetry workshop, often supplemented by extensive reading in contemporary poetry, that emphasizes generating and revising poems, experimenting with poetic forms and techniques, and developing a voice. Students who have been admitted to the graduate program in poetry writing may take the course; others must receive permission from the instructor. Credit Level: G. Credit Hrs: 4.00

15ENGL718**Graduate Poetry Workshop**

A poetry workshop, often supplemented by extensive reading in contemporary poetry, that emphasizes generating and revising poems, experimenting with poetic forms and techniques, and developing a voice. Students who have been admitted to the graduate program in poetry writing may take the course; others must receive permission from the instructor. Credit Level: G. Credit Hrs: 4.00

15ENGL719**Graduate Poetry Workshop**

A poetry workshop, often supplemented by extensive reading which emphasizes the generation and revision of poetry. Students who have been admitted to the graduate program in poetry writing may take the course; others must receive permission from the instructor. Credit Level: G. Credit Hrs: 4.00

15ENGL723**The Literary Essay**

Literary essays by (mostly) American writers of the last hundred years who have combined being fiction writers and essayists: Trilling, Mary McCarthy, Toni Morrison, Vladimir Nabokov, Ralph Ellison, Susan Sontag. The purpose is to distinguish (and see intersections) between the literary essay, essays on craft, and academic criticism. With a workshop component. Credit Level: G. Credit Hrs: 4.00

15ENGL728**Online Documentation**

Introduces students to the principles and practices of designing online documentation. Credit Level: G. Credit Hrs: 4.00

15ENGL730**Internship: Professional Writing**

Formal recognition for professional work completed as an intern. Students doing an internship at any time during the coming year must meet with their adviser during fall quarter. Credit Level: G. Credit Hrs: 1.00-12.00

15ENGL735**Professional Writing Theory**

A seminar exploring the theoretical foundations of professional writing (particularly technical and scientific communication) as a discipline, as a process and as a product. Credit Level: G. Credit Hrs: 4.00

15ENGL740**Rhetoric of Written Discourse**

Intensive introduction to classical rhetorical theory and its later developments, particularly as a background for contemporary theories

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

English**15ENGL740****Rhetoric of Written Discourse**

of research in written discourse. Credit Level: G. Credit Hrs: 4.00

15ENGL741**Rhetorics of Emotion**

Starts with the premise that emotions are embodied and performed; they are things we do, rather than things we have. They therefore can be said to have a rhetoric, mediated by language, body, and culture. Goal is to develop a theoretical framework that allows us to position emotion as a category of analysis. Credit Level: G. Credit Hrs: 4.00

15ENGL743**Science and Medical Writing**

Introduces students to conventions of science and medical writing, and engages them in critical analysis of these fields of discourse. Requirements include several kinds of writing assignments targeted toward print and electronic media. Credit Level: G. Credit Hrs: 4.00

15ENGL744**Principles and Practices in Desktop Publishing**

Computer applications and important design principles used in common desktop publishing genres, such as brochures and newsletters. Credit Level: G. Credit Hrs: 4.00

15ENGL745**Principles and Practices in Web Design**

Computer applications and important principles for web page design. Credit Level: G. Credit Hrs: 4.00

15ENGL750**Race Gender and Culture**

Focuses on a short list of texts of the global literature of colonialism, slavery, diaspora and immigration, and reads them through the critical lenses of cultural studies; specifically, post-colonial theory, Afro-American ethnic theory and feminism, and psychoanalysis. Credit Level: G. Credit Hrs: 4.00

15ENGL752**Approaches to American Romanticism**

Primarily an introduction to some of the major writers, the critical issues, and the main themes involved in American writing between 1810-1860. Among the authors who might be included are Poe, Hawthorne, Cooper, Melville, Emerson, Thoreau and Irving. Some lesser writers who were also influential and might therefore be studied are William Gilmore Simms, John Pendleton Kennedy and Robert Montgomery Bird. Genres could include or encompass prose non-fiction, fiction, and poetry. Credit Level: G. Credit Hrs: 4.00

15ENGL754**Approaches to American Realism**

An examination of writings from the period after the Civil War to 1920, focusing on the literary historical terms realism and naturalism, though there are some readings that do not easily fit those designations. Credit Level: G. Credit Hrs: 4.00

15ENGL756**Approaches to 20th Century American Poetry**

Selected poems of five or more 20th century American poets, along with selected criticism, with emphasis on the innovative techniques and approaches of the poets. Credit Level: G. Credit Hrs: 4.00

15ENGL760**American Women Writers: The Novel I**

Focuses on the domestic and/or sentimental novel by 19th century american women writers: its beginnings in the turn of the century seduction novel, its mid-century popularity, its use by African American women to criticize both slavery and post-bellum racism, its relationship to the sensation novel and to the Kunstlerroman. Credit Level: G. Credit Hrs: 4.00

English**15ENGL777****Versification**

This seminar examines versification and prosody from both a descriptive and historical perspective. We shall consider the various descriptive approaches to versification and prosody including the "classical" system of the 19th century, generative metrics, and more recent efforts to describe both metrical and non-metrical verse patterns; theories of prosody from the Renaissance to the present day. Credit Level: G. Credit Hrs: 4.00

15ENGL778**Narratology**

An introduction to the study of narrative from a variety of critical and theoretical viewpoints. Theory is read alongside landmark works in the history of fictional technique. Credit Level: G. Credit Hrs: 4.00

15ENGL779**The Novel and Society in Modern Day America**

The course examines classics--such as Absalom Absalom!, Uncle Tom's Children, Noon Wire, Slaughterhouse Five--that tell stories of crisis in modern U.S. history. Credit Level: G. Credit Hrs: 4.00

15ENGL781**Approaches to American Ethnic Literature**

Theory and contemporary issues in the literature of African-American, Native American, Asian- American and Chicano authors. Credit Level: G. Credit Hrs: 4.00

15ENGL783**Ethnic Women Writers**

The themes, cultural forms, language, and historical context (especially the immigration laws) that shaped the work of African American, Asian American, Hispanic, Native American, and European immigrant women writers. How their works express themselves as individuals, and how they help maintain a sense of group identity. Credit Level: G. Credit Hrs: 4.00

15ENGL791**Contemporary American Fiction**

A study of substantial novels, all written in the last 20 years, that represent various modes of realism and experimentalism. Credit Level: G. Credit Hrs: 4.00

15ENGL795**Professional Writing and Editing Capstone Course**

Capstone course for the MA track in Professional Writing and Editing. Students apply important readings in the field to a real world writing and editing project. Each student's body of work in the course will be judged by a faculty committee. Students must earn a pass on this work in order to be eligible for the MA degree Credit Level: G. Credit Hrs: 4.00

15ENGL854**Problems in American Realism and Naturalism**

An examination of a significant contemporary area of inquiry in the period of late 19th and 20th century fiction. It may focus on social, theoretical or textual matters in dispute. Credit Level: G. Credit Hrs: 4.00

15ENGL860**American Women Writers: The Novel II**

Draws connections between the sentimental novel of the 19th century and contemporary novels by American women. Credit Level: G. Credit Hrs: 4.00

15ENGL865**Feminist Poetics**

The new poetry by feminists from the 1970's through the 1990's addressing questions of genre, identity and identity politics, sexuality, race, literary and political traditions. Poems and prose by such writers as Adrienne Rich and Audre Lorde. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

English**15ENGL866****Modern American Film and Literature**

An examination of formal, thematic, and historical connections among texts in these media in the period from 1910-1950. Credit Level: G. Credit Hrs: 4.00

15ENGL867**Problems in Film Studies**

Explores a significant category of film studies, such as national cinema, movie genres, significant directors or movements, intersections between film and social forces, or a theoretical debate about the making, function, or viewing of movies. Credit Level: G. Credit Hrs: 4.00

15ENGL892**Black Writers, Modernism & Postmodernism**

An analysis of representative writing of the Harlem Renaissance by Richard Wright, Ralph Ellison, James Baldwin and Gwendolyn Brooks. Credit Level: G. Credit Hrs: 4.00

15ENGL895**The Production and Reception of Contemporary American Fiction**

A study of several contemporary American novelists within the context of the publishing industry. Credit Level: G. Credit Hrs: 4.00

15ENGL990**M.A. Thesis**

Formal recognition of work conducted to research and prepare the thesis. Credit Level: G. Credit Hrs: 1.00-15.00

15ENGL995**Teaching**

Formal recognition of the teaching done by graduate Teaching Assistants. Perm of Department. Credit Level: G. Credit Hrs: 4.00

15ENGL996**Professional Practice**

Formal recognition of work done by graduate students conducting projects under the terms of graduate Administrative/Research Assistantships. Perm of Department. Credit Level: G. Credit Hrs: 4.00

15ENGL997**Independent Readings**

A course of supervised reading arranged on an individual basis. (Proposals required during preregistration for the subsequent quarter.) Perm of Department. Credit Level: G. Credit Hrs: 1.00-5.00

15ENGL998**Independent Study**

A course of supervised reading arranged on an individual basis leading to a substantial paper. (Proposals required during preregistration for the subsequent quarter. Perm of Department. Credit Level: G. Credit Hrs: 1.00-5.00

15ENGL999**Research**

Formal recognition of work conducted to prepare critical paper, thesis, or dissertation. Perm of Department. Credit Level: G. Credit Hrs: 1.00-15.00

Entrepreneurship and Small Business Management**15ESBM131****The Basic Entrepreneur**

Examines the motivational and psychological make-up of a successful entrepreneur. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ESBM132**Introduction to the New Business Venture**

A review of all the opportunities in buying a business, Franchises, dealers, distributorships, licensing, multi-level and direct sales, coin-operated, direct mail/publishing, retail sales and 900 numbers. BoK: NA. Credit Level: U. Credit Hrs: 3.00

European Studies**15EUST101****Introduction to European Studies**

An introduction to the European Studies certificate, with a goal of preparing students to develop a coherent program of courses in European studies suited to meet their needs and fit their interests. Includes European politics, culture, geography, and history. Emphasis on exploring the ways in which each of these disciplines approaches the topic of 'Europe' as a diverse and complex entity. BoK: DC., HU. Credit Level: U. Credit Hrs: 3.00

15EUST201**Introduction to European Studies**

An introduction to the European Studies certificate, with a goal of preparing students for the coherent program of courses in European studies. Course includes European politics, culture, geography, and history. Emphasis on exploring the ways in which each of these disciplines approaches the topic of "Europe" as a diverse and complex entity. BoK: DC., HU. Credit Level: U. Credit Hrs: 3.00

15EUST390**Capstone Seminar European Studies**

Capstone seminar introducing students to the study of Europe in various disciplines. Required in the Junior-Senior year for students obtaining the European Studies Certificate. Prereq: 15EUST101. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15EUST710**European Studies Workshop & Seminar I**

First quarter of a sequence of the European Studies Workshop and Seminar for graduate students. Topic to be determined by instructor. Credit Level: G. Credit Hrs: 3.00-6.00

15EUST711**European Studies Workshop & Seminar II**

Second quarter of a sequence of the European Studies Workshop and seminar for graduate students. Topic to be determined by instructor. Credit Level: G. Credit Hrs: 3.00-6.00

15EUST712**European Studies Workshop & Seminar III**

Third quarter of a sequence of the European Studies Workshop and Seminar for graduate students. Topic to be determined by instructor. Credit Level: G. Credit Hrs: 3.00-6.00

Environmental Studies**15EVST101****Environmental Science I**

Interdisciplinary introduction to basic ecological concepts; laws of thermodynamics, biogeochemical cycles; human impact upon biomes; economics and politics of pollution; risk assessment; the world population crisis. BoK: NS., SE. Credit Level: U. Credit Hrs: 3.00

15EVST102**Environmental Science II**

Interdisciplinary examination of water resources, use, and conservation; drinking water purification; wastewater treatment; air pollution sources and control; solid and hazardous waste; environmental law; global environmental problems. BoK: NS., SE. Credit Level: U. Credit Hrs: 3.00

15EVST103**Environmental Science III**

Interdisciplinary examination of endangered species, wildlife and wilderness; the energy crisis; perpetual, renewable, non-renewable energy resources; conservation, nuclear energy; pesticides; land-use planning; parks, refuges, wetlands; sustainable development; environmental ethics. BoK: NS., SE. Credit Level: U. Credit Hrs: 3.00

15EVST125**Freshman Seminar: Environment**

A freshman seminar focusing on current environmental issues and environmental problem-solving. The focal topic of the seminar will vary from year to year. Limited to freshmen. BoK: NS., QR. Credit Level: U.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Environmental Studies**15EVST125****Freshman Seminar: Environment**

Credit Hrs: 3.00

15EVST395H**Human Dimensions of Global Climate Change**

The goal of this course is an interdisciplinary examination of the human dimensions of climate change, the influences on climate and particularly the impacts on human societies (Developed to Indigenous Peoples). We will explore emerging technologies to conduct the course, focusing on the virtual world Second Life and Wiki/Blog spaces. BoK: NS., SE. Credit Level: U. Credit Hrs: 3.00

15EVST397H**Environmental Challenges in Modern India**

The emergence of modern India as an economic superpower, the world's largest democracy, and the second largest Muslim nation defies conventional understanding by Western norms. In the context of tremendous ongoing growth and even stronger positioning for future growth-the challenges of environmental degradation within India are severe. The objective of this course is to focus on environmental concerns while discussing the politics, identity, economy, education, youth culture, and future of modern India through critical review of selected readings. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

15EVST398H**Ecology of Infectious Diseases**

Examines the ecological and evolutionary influences on the emergence and re-emergence of a variety of human infectious diseases across the globe. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

15EVST399H**Sustainable Development: History, Concept and Practice.**

Traces sustainable development ideas from the 1950s to the present. Introduces ecological economics and its challenge to traditional thinking about growth and development. Examines different experiences with sustainable development strategies by organizations, low-income countries, selected high-income countries and states within the US. BoK: SE., SS. Credit Level: U. Credit Hrs: 3.00

15EVST400**Non-majors Environmental Internship**

Internship for non-Environmental Studies majors providing professional experience in an environmental position under guidance and supervision of Environmental Studies. Perm of Instructor. BoK: SE. Credit Level: U. Credit Hrs: 3.00

15EVST401**Seminar on Environment**

Seminar on current topics in environmental science and policy: research, approaches and problems. Topics vary. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

15EVST425**Readings in Environmental Studies**

Guided study of contemporary and/or historical readings on the environment. Perm of Instructor. BoK: SE. Credit Level: U. Credit Hrs: 1.00-6.00

15EVST475**Special Topics in Environment**

In-depth interdisciplinary study of current research and approaches to a selected environmental topic. BoK: NA. Credit Level: U. Credit Hrs: 1.00-5.00

15EVST500**Environmental Studies Internship**

Professional experience in an environmental position under program guidance. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00-12.00

Environmental Studies**15EVST501****Environmental Capstone**

First quarter of a two quarter, team-taught capstone sequence designed to examine a contemporary environmental issue from an interdisciplinary perspective, requiring the application and integration of principles from the various fields that contribute to modern environmental problem-solving. The focal topic of the capstone is variable. For senior EVST majors. BoK: NS., QR. Credit Level: U. Credit Hrs: 4.00

15EVST502**Environmental Capstone**

Second quarter of a two quarter, team-taught capstone sequence designed to examine a contemporary environmental issue from an interdisciplinary perspective, requiring the application and integration of principles from the various fields that contribute to modern environmental problem-solving. The focal topic of the capstone is variable. For senior EVST majors. BoK: NS., QR. Credit Level: U. Credit Hrs: 4.00

15EVST525**Undergraduate Research in Environmental Studies**

Supervised research experience in the environmental sciences. Variable credit set in consultation with research advisor, offered each quarter. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

15EVST526**Undergraduate Research in Environmental Policy**

Supervised research experience in environmental policy and related areas. Variable credit set in consultation with research advisor, offered each quarter. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

15EVST600**Environmental Law and Policy**

Examines the role of law and policy in the regulation, protection and management of natural resources and the environment. Provides an overview of the principal environmental laws at the federal and state level, regulatory policies and key judicial decisions in this area. BoK: SS., SE. Credit Level: U, G. Credit Hrs: 3.00

15EVST601**International Environmental Law & Policy**

This course introduces the major principles, treaties and institutions that influence and shape international environmental law and policy, and provides students with a solid understanding of the background principles, the key institutions, the disparate parties, and the current debates that shape international environmental law and policy. BoK: SE., SS. Credit Level: U, G. Credit Hrs: 3.00

15EVST602**Global Biodiversity: Law & Policy**

Seminar examining domestic and international policies and laws relating to biodiversity conservation and management. Addresses relevant laws and regulations (e.g., US Endangered Species Act), international conventions and treaties (e.g., Convention on Biological Diversity), and the key institutions (e.g., International Whaling Commission) involved in biodiversity protection. BoK: SE., SS. Credit Level: U, G. Credit Hrs: 3.00

15EVST610**Environmental Risk Analysis**

Introductory course in risk analysis and assessment with applications to environmental and health issues. Develops knowledge of modern analytical tools and approaches used in addressing and managing environmental risks. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 3.00

15EVST620**Conservation & Economic Development: Developing Countries**

As nations of Africa, Asia and Latin America have gained independence they have attempted to combine economic development with environment protection in an effort to halt environmental degradation.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Environmental Studies**15EVST620****Conservation & Economic Development: Developing Countries**

These efforts have ranged from community-based initiatives to National Environmental Action Plans. Course examines the lessons of these experiences and introduces the actors involved in international development and conservation. BoK: SE., SS. Credit Level: U, G. Credit Hrs: 3.00

15EVST626**Ecological Modeling**

An advanced undergraduate/graduate lecture class providing an overview of the many types and ways in which models are used in ecology. Investigate and develop models at all levels of organization from global climate models to individual behavioral models. Cross-listed with BIOL 626. Prereq: 15BIOL303. BoK: NS, QR. Credit Level: U, G. Credit Hrs: 3.00

Family Studies**15FAMS205****Intro to Family Studies**

Multi-disciplinary approach to the study of the family, introducing students to the many ways of analyzing and interpreting "family." Required course for FAMS students. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

15FAMS405**FAMS Internship**

Supervised professional experience in community agencies and organizations serving or studying families or family-related activities. Must be arranged with FAMS faculty prior to registration. BoK: NA. Credit Level: U. Credit Hrs: 3.00-6.00

15FAMS505**FAMS Capstone**

Family Studies capstone is designed to enable FAMS seniors to integrate their multi-disciplinary coursework in the study of the family through portfolios and research activities. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Finance**15FIN281****Personal Finance**

Planning and management of personal financial problems; personal finance plans, budgets. Credit and savings institutions in family financing; insurance, real estate, securities investments, estate planning. BoK: NA. Credit Level: U. Credit Hrs: 3.00

French**15FREN101****Basic French I**

Basic French language and culture. First quarter in the 3 quarter sequence that fulfills the A&S language requirement. BoK: HU., DC. Credit Level: U. Credit Hrs: 5.00

15FREN102**Basic French II**

Basic French language and culture. Second quarter in the 3-quarter sequence that fulfills the A&S language requirement. Prereq: 15FREN101. BoK: HU, DC. Credit Level: U. Credit Hrs: 5.00

15FREN102H**Basic French II Honors**

Honors section of Basic French 2. Prereq: 15FREN101. BoK: HU, DC. Credit Level: U. Credit Hrs: 5.00

15FREN103**Basic French III**

Basic French language and culture. Third quarter in the 3-quarter sequence that fulfills the A&S language requirement. Prereq: 15FREN102. BoK: HU, DC. Credit Level: U. Credit Hrs: 5.00

French**15FREN103H****Basic French III Honors**

Honors section of Basic French 3. Basic French language and culture. Third quarter in the three- quarter sequence that fulfills the A&S language requirement. Prereq: 15FREN102. BoK: DC, HU. Credit Level: U. Credit Hrs: 5.00

A graduate survey of contemporary francophone literature of the Antilles emphasizing women authors and creole identity. Given in French. Open to seniors. Credit Level: G. Credit Hrs: 4.00

15FREN760**Short Fict by Women**

SHORTFICT BY WOMEN Credit Level: G. Credit Hrs: 4.00

15FREN763**The History of French Literature**

An introduction to research skills and electronic resources through an analysis of the organizing concepts in French literature. Credit Level: G. Credit Hrs: 4.00

15FREN768**French Literary History**

A survey of the major literary movements, genres, and themes in French literature from the Middle Ages to modern times, covering poetry, drama, and narrative. Credit Level: G. Credit Hrs: 4.00

15FREN769**Introduction to Modern French Culture**

Survey of cultural studies from a feminist perspective - major museums, Impressionism and Cubism, consumer culture, women's magazines. Course packet. Given in French. Credit Level: G. Credit Hrs: 4.00

15FREN770**Introduction to French Civilization**

The theory of French civilization in its relation to the history of literature, research methods and teaching. Readings from historical works and literacy selections on Masters reading list. In French. Credit Level: G. Credit Hrs: 4.00

15FREN771**French Civilization I**

From Antiquity through the Renaissance. Conducted in French. Satisfies French Civilization requirement of candidates for MA degree in French Language and Civilization when followed by 772-3. Credit Level: G. Credit Hrs: 4.00

15FREN772**French Civilization II**

From the 17th century through the Revolution of 1848. Credit Level: G. Credit Hrs: 4.00

French**15FREN773****French Civilization III**

From the Second Empire to the present. Credit Level: G. Credit Hrs: 4.00

15FREN774**French Civilization Trnd.**

FRENCH CIV TRND Credit Level: G. Credit Hrs: 4.00

15FREN779**Professional Development and Pedagogy**

Learning how to conduct a job search and trends in pedagogy. Multi-media. Practical writing assignments and interview skills. Open to seniors and to teachers in Spanish, German, English. Credit Level: G. Credit Hrs: 4.00

15FREN780**Master's Thesis Research**

Credit according to the amount of work elected. Credit Level: G. Credit Hrs: 1.00-15.00

15FREN781**Lit Francophone**

LIT FRANCOPHONE Credit Level: G. Credit Hrs: 4.00

15FREN783**Special Topics in French Literature**

A special seminar devoted to a particular issue germane to French literature. Topics will vary. May be repeated for a total of 12.0 credits. Credit Level: G. Credit Hrs: 4.00

15FREN784**Speical Topics in Francophone Literature**

A special seminar devoted to a particular issue germane to French Francophone literature. Topics will vary. Credit Level: G. Credit Hrs: 4.00

15FREN785**French Culture: Films**

Contemporary French and Francophone cultures explored through the study of classics such as Hiroshima Mon Amour, La Bataille d'Alger, Au Revoir les Enfants, Hyenes, Conted'tiver. Credit Level: G. Credit Hrs: 3.00-4.00

15FREN786**African Feminisms**

An investigation of the various forms of Feminism in Francophone African Literature. Taught in French Credit Level: G. Credit Hrs: 4.00

15FREN787**Litterature du Maghreb: Seminaire**

This seminar is focused on the analysis of novels, short stories and essays by six major North- African writers: Albert Memmi, Frantz Fanon, Assia Djebar, Driss Chraïbi, Tahar Ben Jelloun and Abdelkebir Khatibi. Special areas of concentration will include the (mis)use and innovations these internationally-acclaimed creative writers have introduced into the representation of colonialism and the post-colonial era; the relationship between the various narrators and their real or implied readers. We will also explore the treatment of recurring themes and issues such as the complexity of the relationships between the North African and the European protagonists, the complexity of the relationships between the North African and the European protagonists, the educated and less-educated, the successful and those merely surviving. Credit Level: G. Credit Hrs: 4.00

15FREN789**Caribbean Literature**

An investigation of the varieties of contemporary Caribbean Literature. Written in both French and Spanish. Course taught in English Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

French**15FREN790****Racine et la Critique**

An in-depth study of Racine's plays. We will especially locate and examine recurrent patterns, issues and metaphors, using Mauron's, Goldmann's and Barthes's approaches. We will analyze whether and how we can speak of Racine's subjective voice. Credit Level: G. Credit Hrs: 4.00

15FREN791**Lettres Volées**

An investigation of the motif of the Stolen Letter and its implications in French literature. Perm of Instructor. Credit Level: G. Credit Hrs: 4.00

15FREN799**Discours Amoureux**

An investigation of the discourse on love and its implications in French literature. Perm of Instructor. Credit Level: G. Credit Hrs: 4.00

15FREN800**Translation Workshop**

A workshop devoted to translating one text or the work of one author from French to English. Perm of Instructor. Credit Level: G. Credit Hrs: 4.00

15FREN805**Reading Old French**

Intensive practice in Old French. Credit Level: G. Credit Hrs: 4.00

15FREN806**Topics: Satire in Medieval France**

A survey of diverse forms of satire -- contes, fables, farces, satires with emphasis on the Roman de la rose and Villon's Testament. Modern French versions of all texts. Given in French. Credit Level: G. Credit Hrs: 4.00

15FREN807**Topics in Medieval Literature**

Topics in medieval literature. Credit Level: G. Credit Hrs: 4.00

15FREN809**Med Romance**

Med. romance. Credit Level: G. Credit Hrs: 4.00

15FREN826**Les Moralistes**

LES MORALISTES Credit Level: G. Credit Hrs: 4.00

15FREN830**18th Century Novel I**

18TH-CENT NOVEL I Credit Level: G. Credit Hrs: 4.00

15FREN835**The Philosophes of Eighteenth-Century France**

This course treats literary works by the French philosophes. Readings will include selections from Voltaire, Montesquieu, Diderot and Rousseau, and will be in French. Credit Level: G. Credit Hrs: 4.00

15FREN844**Parnassian Poetry**

Study and research on the poetry of Gautier, de Lisle and Heredia. Requirements include a weekly commentary, an oral presentation and a final paper. Given in French. Credit Level: G. Credit Hrs: 4.00

15FREN846**Seminar: Sand**

4 gr. cr. Credit Level: G. Credit Hrs: 4.00

15FREN849**Orientalism and Exchange in 19th Century French Literature**

This course will look at images of the Orient in 19th century French literature from aesthetic, political and commercial perspectives. Readings (in French) will include works by Loti, Bataille and Goux. Credit Level: G. Credit Hrs: 4.00

French**15FREN853****Seminar: Baudelaire**

The course is offered in French for PhD and MA graduate students. It requires a close textual analysis of the poems in Les Fleurs du Mal, a weekly critique, and a final research paper. Credit Level: G. Credit Hrs: 4.00

15FREN855**Seminar: Flaubert**

Study and research of major novels of Flaubert. Requirements to include weekly commentaries, an oral presentation and a final paper. Given in French for M.A. and Ph.D. students. Credit Level: G. Credit Hrs: 4.00

15FREN857**Topics in 20th Century French Literature**

This seminar selects from a variety of schools or issues with 20th century French literature, such as "Surrealism" or "Critical Currents." Conducted in French Credit Level: G. Credit Hrs: 4.00

15FREN863**Baudelaire**

Seminar on Baudelaire's Les Fleurs du Mal with emphasis on Textual Analysis using the approaches of psychology and philosophy. Weekly critiques an oral presentation, and a final paper. Given in French Credit Level: G. Credit Hrs: 4.00

15FREN870**Qu'est-ce que la Francophonie?**

The complex and multifaceted aspects of Francophonie. Through various readings of texts by African, Caribbean and Canadian francophone writers, an examination of the historical, institutional, literary and philosophical impact of Francophonie. Credit Level: G. Credit Hrs: 4.00

15FREN871**Canadian Francophone Literature**

A seminar in the francophone literature of Canada with attention to both historical and contemporary issues. Perm of Instructor. Credit Level: G. Credit Hrs: 4.00

15FREN872**Africa Today**

An introduction to the current state of Contemporary Africa including political, geographical, economic and cultural perspectives with special attention to arts and letters. Credit Level: G. Credit Hrs: 4.00

15FREN873**African Cultural Studies**

A focussed study of a variety of aspects of African cultural life including music, dance, theatre, film poetry and narrative. Credit Level: G. Credit Hrs: 4.00

15FREN893**Gender in French Literature**

Explains how certain literary texts challenge gender, literary and social notions of the time. This is a repeatable course that will focus on different periods during different quarters. Credit Level: G. Credit Hrs: 4.00-16.00

15FREN894**Gender Francophonie**

Explains how certain literary texts challenge gender, literary and social notions of the time. This is a repeatable course that will focus on different periods during different quarters. Credit Level: G. Credit Hrs: 4.00-16.00

15FREN895**Poetics and Politics in French Literature**

A seminar in the interaction, interference and influence of poetics and politics in French literature. Credit Level: G. Credit Hrs: 4.00-8.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

Cr. according to the amount of work elected. Credit Level: G. Credit Hrs: 1.00-15.00

15FREN980**Doctoral Dissertation Research**

Cr. according to the amount of work elected. Credit Level: G. Credit Hrs: 1.00-18.00

Freshman Seminar**15FSEM101****Freshman Seminar: Introduction to Neuroscience: How The Brain Works**

Seminar/laboratory demonstration course introducing freshman to contemporary neuroscience. Team-taught by faculty of the Neuroscience Graduate Program. Topics include neuron structure and physiology, major brain systems, and an introduction survey of clinical, developmental, molecular, sensory, and behavioral neuroscience. Opportunities for continuing undergraduate research will be emphasized. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15FSEM102**Religion and the Modern World**

A team-taught course which will develop knowledge of world religions and the academic study of religion, focusing on how religion relates to an understanding of world events today. Topics may include the US elections, teaching evolution, the Middle East, feminism, fundamentalism, anti-war activism, and the pro-life movement. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

15FSEM103**Horror Films: Scholarship and Spectatorship**

Viewing of, and scholarship on, popular horror films to address questions such as: What pleasure do we take in seeing terror and carnage on screen? How do male and female viewers identify with victims and killers in these films? What is the social meaning of horror films? How might they express in altered forms, wider cultural anxieties and traumatic histories? BoK: HU. Credit Level: U. Credit Hrs: 3.00

15FSEM104**German Culture**

This course meets three hours a week with German 172(15-GRMN-172 001), which is open to students at all levels. A fourth hour is open only to first year students and is part of the first year experience. The course thus combines lectures and seminar-style discussions. This course offers an introduction to German and Austrian culture from the dawn of modernity to WWII. Readings from history, literature, and art. The fourth hour will be devoted to detailed discussions of specific literary

Freshman Seminar**15FSEM104****German Culture**

and historical works, with an emphasis on how to approach different genres. BoK: DC., HP. Credit Level: U. Credit Hrs: 1.00-4.00

15FSEM105**Introduction to Film Studies**

This course meets three hours a week with German 189 (15-GRMN-189 001), which is open to students at all levels. A fourth hour is open only to first year students and is part of the first year experience. The course thus combines lectures and seminar-style discussions. This course offers an introduction to methods and issues of film studies. It introduces student to the techniques of film analysis, covering the social, cultural, economic, technological and aesthetic issues associated with motion pictures. It also introduces students to film history, focusing on important films and major film movements from 1895 to the present. The fourth hour will be devoted to detailed discussions of specific films and works of film theory. BoK: HU. Credit Level: U. Credit Hrs: 1.00-4.00

15FSEM106**Moving On: The High School in Film, Fiction, and the Search for Young Adult Identity**

This seminar will focus on the transition from adolescence to young adulthood and on the role the American education's social structure plays in that shift. Content will be composed primarily of literature and films that depict peer's families', teachers and the media's roles in identity formation. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15FSEM107**The Aggression Riddle**

Interdisciplinary seminar exploring the issues surrounding male/female aggression; the extent to which culture and biology shape aggressive behaviors; the differing ways in which the sciences and humanities depict aggressive behavior. Includes readings from science and social science as well as analysis of characters and themes in selected films and fiction. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15FSEM108**Thinking Through Photography**

How do photographs convey meaning? How do photographic images help to shape our sense of ourselves and others, the past and the world we live in? How does photography relate to writing? These questions are explored through consideration of photographers' work and through readings that range from the historical to the literary, the theoretical to the autobiographical. Students respond to this material as writers, researchers and producers or compilers of photographic images, ultimately creating photo-essays that engage ideas and issues raised over the quarter. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15FSEM109**Seeing Art Through Writing**

Examines how writers have theorized the act of seeing visual art, including but not limited to painting, sculpture, photography, video, and installation; how viewing art allows us to see that which is ordinarily not seen as art -- that is, the everyday world around us -- in different, thought-provoking ways; how critical and theoretical writings on art change the way we see artworks. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15FSEM110**Children's Literature and Film**

Traces the history of children's literature and film alongside the history of concepts of childhood from the Grimms' first collection of fairy tales in early 19th century to recent novels by J.K. Rowling and Lemony Snicket. Concentrates on classics of children's literature and discusses them alongside modern adaptations of these stories to illustrate how concepts of children's literature and concepts of childhood have interacted over the centuries. The central questions that the course addresses include: how does literature attempt to mold children into adults? How have conceptions of childhood changed over time and how have they differed among cultures? What is the status of children's

Freshman Seminar**15FSEM110****Children's Literature and Film**

literature and of ideas of childhood today? BoK: HU. Credit Level: U. Credit Hrs: 3.00

15FSEM111**Reading Cincinnati: From Slavery Times to the New Millennium**

The Ohio River Basin registers historically as one of the most important locales for the Underground Railroad. As such, it provided the venue for the liberation of many slaves. Though the Queen City's recent history has been marked at least in part by racial misunderstanding an historical view, gleaned from literature, museums and sites of interest, no doubt offers a more comprehensive perspective. This seminar aims to offer a profound reading of Cincinnati and its neighboring towns with Harriet Beecher Stowe's "Uncle Tom's Cabin," Toni Morrison's "Beloved," and Ann Hagedorn's "Beyond the River." BoK: LT. Credit Level: U. Credit Hrs: 3.00

15FSEM112**Etiquette: Everyday application and historical perspective.**

This course will provide students with a comprehensive introduction to etiquette and the principles that are the foundation of successful societal interaction. Students will practice the application of basic etiquette skills (e.g. interacting with those around us, dining etiquette etc.) while simultaneously exploring perspectives regarding behavior. The goal is to furnish the student with the skills necessary to not only embark on a successful collegiate career but also represent themselves and the university well into the future. (meets the A&S Historical Perspective requirement) Will require no additional resources. Will apply to A&S behavioral/social science requirement. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15FSEM113**Beauty: Dissecting and Debating an Enigma**

Designed for males and females, this course will examine the ways in which physical beauty is depicted in representative literature and films. Students will use the works to analyze varying attitudes about its nature and significance and will explore and debate whether perceptions of beauty are subjective and culturally determined or objective and influenced by biology and evolution. This is a freshman seminar course. BoK: HU., SS. Credit Level: U. Credit Hrs: 3.00

15FSEM114**Complex Choices/Complex Lives: Moral Conflicts in Popular Literature and Film**

Students in this course will analyze popular novels/films in which characters are faced with ambiguous moral choices. As means of clarifying their own ethical standards, students will examine the reasoning and value systems underlying characters' decisions and will discuss and debate which they consider more principled. This is a freshman seminar course. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15FSEM115**Ethical Values in Consumer Culture**

Since 1961, when Daniel J. Boorstin warned of "a crime of deception being committed in America" on its citizenry through the proliferation of "pseudo events, celebrities, and images," an increasing number of scholars and cultural critics have warned that life in the US is becoming increasingly "unreal," as everything from news and politics to food and religion becomes a market-driven form of entertainment. Everything from our immediate surroundings to our sense of who we are to our understanding of public life and world events is shaped by advertisements and other market-driven, corporate-controlled and highly mediated forms of infotainment. According to many commentators, this has had a devastating impact on our freedom, our psyches, and the values by which we live our lives and operate in the world. This course will ask students to respond to the course material in both a critical and personal capacity, relating the issues it raises to life experiences and the environment around them. BoK: SS. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Freshman Seminar**15FSEM116****The Mass Media and Presidential Politics**

Examines the constantly changing intersections between mass media and politics. Historical campaigns and elections will serve as parallels to understanding the events in the current election. BoK: SS., HP. Credit Level: U. Credit Hrs: 3.00

15FSEM150**Freshman Seminar: Exploring Time**

An exploration in seminar form of the perception, properties and philosophy of time, based on readings and wide-ranging class discussion. Subjects considered will include the ancestral (cyclic), biblical(linear), geologic(sequential or absolute and "deep"), historic(regular and predictable), technical(exact), relativistic (mutable in space), energetic(entropic), eternal (timeless), and theoretical(non-existent) aspects of time. BoK: HP., NS. Credit Level: U. Credit Hrs: 3.00

Geography**15GEOG101****Climatology: Introduction to Environmental Geography I**

For majors and non-majors; fulfills the Natural Science requirement when taken with Geog. 111, 112, 113, or with an elementary course in another science. Weather and climate: Elements of meteorology including temperature, precipitation, pressure cells, and air masses. Global climatic patterns, controls, and mechanisms of climate change examined. Transfer Module. BoK: NS, SE. Credit Level: U. Credit Hrs: 3.00

15GEOG102**Geomorphology: Introduction to Environmental Geography II**

Landforms: Processes of formation and their significance, studied through maps and diagrams. Transfer Module. BoK: NS, SE. Credit Level: U. Credit Hrs: 3.00

15GEOG103**Biogeography: Introduction to Environmental Geography III**

The environment: soil forming processes and plant geography, man's impact on the biosphere. Transfer Module. BoK: NS, SE. Credit Level: U. Credit Hrs: 3.00

15GEOG104**Introduction to Human Geography**

Uses population distribution to demonstrate how geography as a social science defines and answers questions. Transfer Module. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

15GEOG104H**Human Geography Honors**

Honors version of 15-041-104. Transfer Module. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

15GEOG105**Introduction to Human Geography**

Introduction to geographic models used to describe, explain, and interpret political and cultural diversity. Transfer Module. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

15GEOG105H**Honors Human Geography**

Honors version of 15-GEOG 105 Transfer Module. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

15GEOG106**Introduction to Human Geography**

Introduction to different geographic models used to describe, explain, and interpret economic and urban diversity. Not open to students who have had 30-041-105. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG106H**Honors Human Geography**

Honors version of 15-041-106. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

Geography**15GEOG107****Geography of Climate Change**

This course provides a succinct, one term summary of the distribution, magnitude, causes, effects and solutions with a combination of lectures and on-line laboratories. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

15GEOG111**Introduction to Environmental Geography Laboratory**

Fulfills the Natural Science requirement when taken with Geog. 101, 102, 103. Practical analysis of weather and climate using meteorological data and charts; to supplement the lecture course Geog. 101. One lab, one recitation per week. Coreq: 15GEOG101. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 2.00

15GEOG111H**Introduction to Environmental Geography Honors Laboratory**

Honors version of 15GEOG111. Fulfills the Natural Science requirement when taken with GEOG 101,102,103. Practical analysis of weather and climate using meteorological data and charts; to supplement the lecture course GEOG 101. One lab, one recitation per week. Coreq: 15GEOG101H. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 2.00

15GEOG112**Introduction to Environmental Geography Laboratory**

Fulfills the Natural Science requirement when taken with GEOG 101, 102, 103. Practical analysis of landforms, using maps, aerial photos, digital data and working models to supplement lecture course 102. One lab, one recitation per wk. The second offering in a three-part course sequence. Coreq: 15GEOG102. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 2.00

15GEOG112H**Introduction to Environmental Geography Honors Laboratory**

Honors version of 15GEOG112. Fulfills the Natural Science requirement when taken with GEOG 101, 102, 103. Practical analysis of landforms, using maps, aerial photos, digital data and working models to supplement lecture course 102. One lab, one recitation per wk. The second offering in a three-part course sequence. Coreq: 15GEOG102. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 2.00

15GEOG113**Introduction to Environmental Geography Laboratory**

Practical analysis of environmental problems, including field work and laboratory analyses, to supplement the lecture course Geog. 103. The third offering in a three-part course sequence. Coreq: 15GEOG103. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 2.00

15GEOG113H**Introduction to Environmental Geography Honors Laboratory**

Honors version of 15GEOG113. Practical analysis of environmental problems, including field work and laboratory analyses, to supplement the lecture course Geog. 103. The third offering in a three-part course sequence. Coreq: 15GEOG103. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 2.00

15GEOG120**Power of Place: World Geography as a Natural Science**

The Power of Place, a geography telecourse, examines the many geographic forces currently at work in shaping the complex features of the world's environments. The course introduces the student to geography by exploring the eleven regions of the world from the perspective of an international team of educational broadcasters and geographers. The course will incorporate case studies to help characterize individual regions. BoK: NS. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Geography**15GEOG121****World Regional Geography I**

Geographic perspectives on the problems of the developing world. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15GEOG122**World Regional Geography II**

Geographic perspectives on the problems of the developed world. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15GEOG123**AMERICAS: NAFTA NATIONS**

An analysis of the major regions comprising North America, the NAFTA nations; the physical geography, population trends, economic and cultural aspects of the U.S., Canada, and Mexico. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG123H**World Regional Honors**

Honors section of 15-041-123. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG124**World Regional Geography: Europe**

The physical environment and cultural structure of the continent. Rise of the contemporary political economy of Europe. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG124H**Honors World Regional Geography: Europe**

Honors version of 15-041-124. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG125**World Regional Geography: Africa**

Overview of landscapes and societies of the second largest continent. Political and historical geography of the 20th century to understand regional patterns. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG125H**Honors World Regional Geography: Africa**

Honors version of 15-041-125. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG126**World Regional Geography: Asia**

Western and Asian definitions and perceptions used to describe and analyze problems of economic and social development in Asia. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG126H**Honors World Regional Geography: Asia**

Honors version of 15-041-126. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG130**Great Earth Debates**

Major contemporary philosophical and political debates concerning earth and man with emphasis on physical geography and environmental sciences. Specific topics and debates (e.g. global warming vs. climate change) varies according to current human and environmental issues and world events. BoK: NS., SE. Credit Level: U. Credit Hrs: 3.00

15GEOG150**Prin Human Geog**

Why people live where they do, in global context. Geographical perspectives on ecological, demographics and social questions. Population problems and solutions. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG151**Prin Human Geog**

Spatial perspectives on patterns of cultural, economic, political and urban diversity. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

Geography**15GEOG171****Freshman Seminar: The Skeptical Environment**

A close and critical review of Lomborg's The Skeptical Environmentalist, a book that challenges much of the veracity behind "bad" environmental news. First the issues of logical fallacies and complete explanations will be followed by an analysis of the author's methods of data selection and evaluation and by popular and professional reviews of the book. Debate over who is a scientist and who has the right and responsibility to speak for science will be included. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15GEOG172**Supersized: Geographical Implications of Corporate Fast Food**

Uses Eric Schlosser's Fast Food Nation: The Dark Side Of The All-American Meal as a springboard to launch into a multi-disciplinary introduction to the study of globalization, corporate industrialization, suburbanization, migration, and politics. Restricted to Freshman. BoK: SE. Credit Level: U. Credit Hrs: 3.00

15GEOG173**Freshman Seminar: Legacies and Landscapes of the Yucatan**

This freshman seminar/field trip is structured to take students through "space and time" from 300 AD to contemporary times. The primary theme is changes in the landscape or the "sequence occupation" of the region. Students will meet once a week in preparation for the winter break field trip to the Yucatan. The trip will explore Mayan archaeological sites from Uxmal (300 AD), Ek Balam, to Chichen Itza (1100 AD). The Colonial era will be highlighted with tours through Merida (1545), Ixamal, a salt plant operational since the 1700s, and a hacienda. Contemporary changes of the region are viewed with visits to an ejido, a henequen plant, a US manufacturing plant and experiences with the pros and cons of tourism - a government planned resort on the Caribbean (Cancun). The physical-environmental geography of the region will be introduced with an opportunity to swim in a Karst cave, visit a large flamingo sanctuary, and hike through a community-initiated nature preserve in Quintana Roo. Students also have free time for self-exploration, an important component of the educational experience. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15GEOG174**Freshman Seminar: A Year Without "Made in China"**

Seminar will explore the impact of globalization on the United States at the personal and national levels by analyzing China-USA trade patterns and relations. Will use Sara Bongiorni's 2007 book A Year Without "Made in China". BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

15GEOG175**Freshman Seminar: Mapping Climate Change and its Solutions with GIS, Aircraft and Satellites**

Students will map the causes and solutions to global climate change with GIS software, aircraft and satellites. This course focuses on finding the best locations and methods to reduce global warming in a user-friendly, hands-on manner. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

15GEOG201**Geography of the United States and Canada**

Topical and regional analysis of North America stressing current resource use, location patterns, population trends, development, and cultural regions. Offered alt. yrs. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15GEOG203**Greater Cincinnati and the Tri-State**

The changing face of the city, traced over two hundred years. What to preserve, what to demolish, where to rebuild, where to grow? BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG203H**Greater Cincinnati and the Tri-State**

This course follows the changing face of the city, traced over two hundred years. It asks the questions: what to preserve? what to

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Geography**15GEOG203H****Greater Cincinnati and the Tri-State**

demolish, where to rebuild, where to grow? BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG211**Geography of Latin America**

Regional analysis of Central and South America; Andean and Amazonian environmental barriers; tourism in the Caribbean. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG216**Geography of Europe**

Introduction to the geography of economic, political, cultural, and physical processes that shape Europe. Urban and regional change and roots of contemporary issues are emphasized. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG226**Geography of Africa**

Land and livelihood south of the Sahara. Problems of development in traditional societies and economies. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG231**Geography of the Middle East**

Regional conflicts over resources, religion, and international boundaries, from the Maghreb to Iran. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG236**Geography of Eastern and Southern Asia**

Impact of modernization process on regional balances, environment, and role of Asia in the world economic system. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG237**Geography of China**

A systematic analysis of the elements of landscape resources, and socioeconomic characteristics of the geography of China. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG241**Geography of Australia and Southwest Pacific**

What happens when mad dogs and Englishmen go out in the noonday sun. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG261**People and the Environment I**

Alternative approaches to an interdisciplinary study of the environment, including a consideration of world-population dynamics and human adaptation to the environment. BoK: NS., SE. Credit Level: U. Credit Hrs: 3.00

15GEOG262**People and the Environment II**

Alternative approaches to an interdisciplinary study of the environment, including a consideration of world hunger and the relationship of food production to the environment. BoK: NS., SE. Credit Level: U. Credit Hrs: 3.00

15GEOG263**People and the Environment III**

Alternative approaches to an interdisciplinary study of the environment, including a consideration of the role of energy in human history and in a contemporary social context, as well as of the issues of pollution and technology. BoK: NS., SE. Credit Level: U. Credit Hrs: 3.00

15GEOG271**Geography of Latin America**

Regional analysis of Central and South America; Andean and Amazonian environmental barriers; tourism in the Caribbean. Offered alt. yrs. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

Geography**15GEOG301****Elements of Climatology**

Meteorology: physical principles, instrumentation and modeling. Global climatic patterns: quantification, impact of natural events and human activities on climate change. BoK: NS., SE. Credit Level: U. Credit Hrs: 3.00

15GEOG302**Climate and Landforms**

Influence of climate on landform genesis. Global patterns of energy and water related to weathering processes and rates, mass movement and denudation. Polygenetic landscapes. BoK: NS., SE. Credit Level: U. Credit Hrs: 3.00

15GEOG303**Environmental Geography**

The physical environment: the nature, distribution and circulation of energy and elements in the biosphere; quantitative analyses of the dynamic plant/animal-environment relationships; environmental degradation and assessment. BoK: NS., SE. Credit Level: U. Credit Hrs: 3.00

15GEOG311**Resource Conservation**

Are the earth's resources on the verge of exhaustion? Discussion of the sustainability of human society and the biosphere. Innovative avoidance of resource crises. BoK: NS., SE. Credit Level: U. Credit Hrs: 3.00

15GEOG322**Cities and Globalization I**

Evolution of cities and urban networks, and urban aspects of contemporary globalization. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG322H**Cities and Globalization I**

Evolution of cities and urban networks, and urban aspects of contemporary globalization. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG323**Urban Geography**

Exploration of theoretical concepts that underlie the designs, functions, and economics of cities. Essential background for urban planning and neighborhood change. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15GEOG323H**Urban Geography**

Exploration of theoretical concepts that underlie the designs, functions, and economics of cities. Essential background for urban planning and neighborhood change. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15GEOG326**Sustainable Cities**

A sustainable city can be theorized as containing positive interactions and outcomes between the interrelated social, economic, and physical environments. This course will examine these complex and unpredictable interactions and present an opportunity to understand the intensification of poverty, inequality, and environmental degradation witnessed in our cities today. BoK: SE., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG332**Historical Geography of the United States**

The where, when, and why of early settlements, and migration. Why preserve historical buildings and districts. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15GEOG333**Political Geography**

Explores the role of geography in the formation of political parties, social movements, political identities, and other forms of political alliance. The importance of space and place in political processes operating at a variety of geographical scales--from the local to the

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Geography**15GEOG333****Political Geography**

global—is examined. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

15GEOG333H**Political Geography**

Explores the role of geography in the formation of political parties, social movements, political identities, and other forms of political alliance. The importance of space and place in political processes operating at a variety of geographical scales—from the local to the global—is examined. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

15GEOG335**Geography of Religion**

Distribution, diffusion, and territorial conflicts of the major world religions. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15GEOG341**Economic Geography: The Geography of Consumption**

Analysis of historical and contemporary national and international spatial variations in political economies, urban economics, economic development and production. Includes: material on production-consumption linkages, service industries, capital circulation, international trade, and social and cultural influences on consumer behavior. BoK: SE., SS. Credit Level: U. Credit Hrs: 3.00

15GEOG342**Economic Geography: Geography of Production**

Focuses on the geography of manufacturing and agriculture, with emphasis on models of production, location rationale, and contemporary changes in the developed and less developed world. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15GEOG343**Industrial Location**

The location decision process. How manufacturers can make better location decisions and areas can enhance industrial development. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15GEOG351**Recreation Geography**

Games people play around the world. How to locate and manage parks, resorts, wilderness areas, and sporting facilities. Where sports professionals are recruited. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15GEOG353**Political Geography: Geopolitics**

Examines on the international and cross-national perspectives of political geography. It deals with the political, economic, cultural, historical, and social aspects of international relations from a geographical perspective and examines societies in transition in the post Cold War and the post 9-11 worlds. BoK: DC., SS. Credit Level: U. Credit Hrs: 3.00

15GEOG353H**Political Geography: Geopolitics**

Examines the international and cross-national perspectives of political geography. It deals with the political, economic, cultural, historical, and social aspects of international relations from a geographical perspective and examines societies in transition in the post-Cold War and the post- 9-11 worlds. BoK: DC., SS. Credit Level: U. Credit Hrs: 3.00

15GEOG376**Environmental Remote Sensing and Geographic Information Systems**

Lecture will emphasize practical applications of remote sensing and GIS to the environment. Labs use state-of-the-art software and near- real-time and historic geospatial data sets. Priority given to Environmental Studies majors. BoK: NS. Credit Level: U. Credit Hrs: 3.00

Geography**15GEOG380****Computer Applications in Geography**

Overview of computers and geographic applications, DOS and UNIX operating systems, word processing, statistical analysis, computer mapping, basic computer programming, hands-on experience in system integration and operation. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15GEOG390**Map Reading and Interpretation**

Theory and practice of map reading and interpretation of maps of different types and scales. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15GEOG398H**Feeding China**

Honors Special Topics Course. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

15GEOG499**Independent Study in Geography**

Please complete and submit an Independent Application Form available from the College Office. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

15GEOG500**Geography Capstone I**

First course in capstone sequence. Required of all seniors. Review of basic issues involved in geographic research, including problem identification, hypothesis testing, data collection and processing, use of quantitative techniques and graphics. BoK: NA. Credit Level: U. Credit Hrs: 2.00

15GEOG501**Problems in Geography**

Individual research projects requiring prior faculty approval. Cr. and hrs. to be arranged. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15GEOG502**Problems in Geography**

Individual research projects requiring prior faculty approval. Cr. and hrs. to be arranged. The second offering in a three-part course sequence. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15GEOG503**Problems in Geography**

Individual research projects requiring prior faculty approval. Cr. and hrs. to be arranged. The third offering in a three-part course sequence. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15GEOG504**Individual Work in Physical Geography**

Directed applied research projects, requiring prior faculty approval, dealing with geographic topics related to Earth Science such as meteorology, earth resources, and human impact on climate and resources. Credit and time to be arranged. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

15GEOG505**Individual Work in Physical Geography**

Directed applied research projects, requiring prior faculty approval, dealing with geographic topics related to Earth Science such as meteorology, earth resources, and human impact on climate and resources. Credit and time to be arranged. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

15GEOG506**Individual Work in Physical Geography**

Directed applied research projects, requiring prior faculty approval, dealing with geographic topics related to Earth Science such as meteorology, earth resources, and human impact on climate and resources. Credit and time to be arranged. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Geography**15GEOG507****Geography Capstone: Fieldtrip**

Field trip to selected foreign areas requiring readings before departure and completion of a research paper using data collected while in the field. Prereq: 15GEOG500. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15GEOG508**Geography Capstone: Senior Thesis**

Supervised preparation of a research project incorporating use of models and techniques learned in fulfilling the theory and techniques, and systematic requirements of the major. Prereq: 15GEOG500. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15GEOG509**Geography Capstone: Readings in the History of Exploration**

Selected readings in the history of exploration. Prereq: 15GEOG500. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15GEOG510**Internship in Geography**

Applied geography employment experience. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

15GEOG511**Internship in Geography**

Applied geography employment experience. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

15GEOG512**Internship in Geography**

Applied geography employment experience. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

15GEOG513**Internship in Geography**

Applied geography employment experience. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

15GEOG514**Geographic Explorations-Readings**

Selected readings on significant geographic discoveries from Everest to Antarctica. BoK: DC., HP. Credit Level: U. Credit Hrs: 3.00

15GEOG521**Urban Development**

Examines the spatial evolution of the American urban system from the late 1700s to the present. Emphasis is placed on the changing spatial organization of economic activities and how developments in economic structure, transportation, and communications have affected urban areas. BoK: DC., SS. Credit Level: U, G. Credit Hrs: 3.00

15GEOG521H**Urban Development**

Examines the spatial evolution of the American urban system from the late 1700s to the present. Emphasis is placed on the changing spatial organization of economic activities and how developments in economic structure, transportation, and communications have affected urban areas. BoK: DC., SS. Credit Level: U. Credit Hrs: 3.00

15GEOG522**Urban Problems**

Examination of contemporary urban problems from a geographical perspective. Issues include gentrification and displacement, urban sprawl, metropolitan fragmentation, urban environmental concerns. BoK: SS., SE. Credit Level: U, G. Credit Hrs: 3.00

15GEOG522H**Urban Problems**

Examination of contemporary urban problems from a geographical perspective. Issues include gentrification and displacement, urban sprawl, metropolitan fragmentation, urban environmental concerns. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

Geography**15GEOG523****Niehoff Urban Studio**

The "Niehoff Urban Studio" is a new university- wide interdisciplinary research course dedicated to addressing urban issues that challenge the quality of life in Cincinnati. Faculty teams representing various UC colleges will lead graduate students and advanced undergraduates in coursework resulting in applied research and design proposals. The content of the Studio is derived from the identification of pressing urban issues, academic program goals, and the interests of participating community partners. Perm of Instructor. BoK: SE, SS. Credit Level: U, G. Credit Hrs: 4.00

15GEOG524**Niehoff Urban Studio**

The "Niehoff Urban Studio" is a new university- wide interdisciplinary research course dedicated to addressing urban issues that challenge the quality of life in Cincinnati. Faculty teams representing various UC colleges will lead graduate students and advanced undergraduates in coursework resulting in applied research and design proposals. The content of the Studio is derived from the identification of pressing urban issues, academic program goals, and the interests of participating community partners. Perm of Instructor. BoK: SE, SS. Credit Level: U, G. Credit Hrs: 4.00

15GEOG525**Niehoff Urban Studio**

The "Niehoff Urban Studio" is a new university- wide interdisciplinary research course dedicated to addressing urban issues that challenge the quality of life in Cincinnati. Faculty teams representing various UC colleges will lead graduate students and advanced undergraduates in coursework resulting in applied research and design proposals. The content of the Studio is derived from the identification of pressing urban issues, academic program goals, and the interests of participating community partners. Perm of Instructor. BoK: SE, SS. Credit Level: U, G. Credit Hrs: 4.00

15GEOG526**Urban Sustainability**

The current urban system institutionalized by urban restructuring at the turn of the twenty- first century has significantly contributed to intensification of poverty, inequality, poor levels of community participation, and environmental degradation. This class examines the theoretical underpinnings and policy formation of, and responses to, the issues surrounding sustainable communities. BoK: SE., DC. Credit Level: U, G. Credit Hrs: 3.00-4.00

15GEOG541**Contemporary Issues in Economic Geography**

Examination of issues in contemporary economic geography; exploration of the spatial distribution of economic activity; survey of historical and theoretical perspectives, current areas of inquiry and research approaches in the subdiscipline. Prereq: 15GEOG341. BoK: SE, SS. Credit Level: U, G. Credit Hrs: 3.00

15GEOG544**Geography of Transportation**

Relationship between transportation and spatial organization; selected analytical models dealing with traffic demand, network configuration, and allocation of transport facilities; application to selected problems. BoK: QR., SS. Credit Level: U, G. Credit Hrs: 3.00

15GEOG550**Geography International Field Trips**

Guided field trips to foreign locations (Yucatan, Cuba, Belize, etc.) with lectures and field experience. BoK: DC., SS. Credit Level: U, G. Credit Hrs: 2.00-5.00

15GEOG551**Environmental and Geoarchaeological Field Methods - Belize**

A two-week field methods course focusing on the application of environmental and geoarchaeological techniques in the study of past human-environment interactions. The course is taught in the Programme for Belize conservation area. Perm of Instructor. BoK: NS,

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Geography**15GEOG551****Environmental and Geoarchaeological Field Methods - Belize**

HP. Credit Level: U, G. Credit Hrs: 3.00-6.00

15GEOG569**Seminar: Landscape Ecology**

This course consists of a series of lectures, labs, readings, and group discussions on the effects of landscape patterns on ecological processes. Special attention will be given to GIS and remote sensing techniques involved in quantifying landscape pattern. Lab exercises will focus on the use of landscape pattern metric software such as Patch Analyst 2.0 and Fragstats. BoK: NA. Credit Level: G, U. Credit Hrs: 3.00-4.00

15GEOG570**Soils**

Examination of the factors determining spatial variability in pedogenesis and development. Soil classification. Soils as a factor in human land use. Mandatory field trips. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOG571**Approaches to Past Landscapes**

Introduction to the methods of environmental and geo-archaeology using case studies from around the world with an emphasis on soil analysis. Local field trip. BoK: NS., SS. Credit Level: U, G. Credit Hrs: 3.00

15GEOG573**The Urban Habitat**

The city as a physical environment; urban environment problems and management. BoK: SS., SE. Credit Level: U, G. Credit Hrs: 3.00

15GEOG574**Principles of Computer Cartography**

Lecture emphasizes cartographic principles which are implemented in computer lab to produce maps using standard software packages. Map reading, projections, data entry, and graphic design. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15GEOG576**Principles of Remote Sensing**

Basic physical principles of electromagnetic radiation; remote sensing systems; interpretation of aerial photographs, thermal and radar imagery; digital analysis of multispectral satellite data; remote sensing applications. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15GEOG577**Analytical Computer Cartography**

Analysis of spatial data and production of computer-generated thematic maps using cartographic/GIS software packages. Includes data transformations, image processing, and accessing on-line cartographic data sources through WWW. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15GEOG578**History and Philosophy of Geography**

Growth of geographic thought stressing contemporary problems. The theories and aims of the discipline. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15GEOG579**Field Work and Research Methods**

How to formulate hypotheses, gather geographical data (through field samplings, laboratory analyses and testings), and analyze data with multivariate statistical methods. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15GEOG580**Introduction to Geographic Information Systems**

Essential elements of a GIS; hardware requirements; GIS software; data acquisition; data structures; spatial databases; methods of data analysis and spatial modeling; applications of GIS to a variety of environmental and urban economic problems. GIS packages such as ArcView and Idrisi are used in the course. BoK: NA. Credit Level: U, G.

Geography**15GEOG580****Introduction to Geographic Information Systems**

Credit Hrs: 4.00

15GEOG581**GIS, Environmental Applications**

The examination of selected problems relating to the application of geographic information systems to environmental and land use problems (e.g., habitat modeling, resource management). Attention will be given to complex environmental modeling at local to regional scales using robust GIS. Prereq: 15GEOG580. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15GEOG582**GIS, Urban-Economic Applications**

The examination of selected problems relating to the successful application of geographic information system technology to urban-economic areas (e.g., marketing, urban transportation, industrial location). Explicit attention will be given to the issues encountered in the creation of new GIS applications and databases. Prereq: 15GEOG580. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15GEOG583**Intermediate Remote Sensing**

Digital image processing of remotely sensed data: radiometric and geometric correction, image enhancement, image classification and digital change detection. Integration of remote sensing and geographic information systems. Prereq: 15GEOG576. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15GEOG585**Geographic Methods: Quantitative Techniques**

Introduction to statistical inference with emphasis on areal statistics and applications to geographic problems. Prereq: 15MATH147, 15MATH148, 15MATH149. BoK: SS, QR. Credit Level: U, G. Credit Hrs: 4.00

15GEOG586**Advanced Spatial Statistics**

Introduction to statistical inference with emphasis on areal statistics and applications to geographic problems. The second offering in a two-part course sequence. Prereq: 15GEOG585, 15GEOG580. BoK: SS, QR. Credit Level: U, G. Credit Hrs: 4.00

15GEOG588**Medical Geography**

Geographic perspectives on disease, death, and health care systems. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15GEOG589**Urban Geography: Inner City**

City Gentrification. Economic, social, and political processes that lead to, and result from, the influx of people and investment into inner city neighborhoods are examined from a variety of theoretical perspectives. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15GEOG590**Introduction to GPS (Global Positioning Systems)**

The technology and applications of Global Positioning Systems (GPS). How to use GPS units, input location-specific data, create field maps, and transfer data from GPS units to a geographic information system. BoK: NS. Credit Level: U, G. Credit Hrs: 4.00

15GEOG591**Internet Mapping and Web GIS**

This course is designed to introduce the basic structure and capabilities of Internet mapping, Server-based GIS, and Web GIS. Students will apply the skills of Internet Mapping through lab exercises to "real-world" Internet Mapping GIS application problems. Students are also expected to build web-based GIS applications. Prereq: 15GEOG581, 15GEOG582. BoK: QR, SS. Credit Level: U, G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Geography**15GEOG601****Field Projects**

Off-campus research field studies requiring prior faculty approval. Cr. and hrs. to be arranged. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15GEOG602**Field Projects**

Off-campus research field studies requiring prior approval. Cr. and hrs. to be arranged. The second offering in a three-part course sequence. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15GEOG603**Field Projects**

Off-campus research field studies requiring prior approval. Cr. and hrs. to be arranged. The third offering in a three-part course sequence. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15GEOG683**Advanced Remote Sensing**

Current problems, issues, and research in satellite remote sensing of the environment. Includes issues of scale resolution and accuracy of satellite and ancillary data. Prereq: 15GEOG583. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15GEOG693**Advanced GIS**

A research seminar in geographic information systems. Topics include GIS design methodologies, GIS macro language programming, and others which may vary from term to term. Students are expected to develop and carry out a small research project which will result in a professional paper and a computer presentation. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15GEOG701**Geographic Research**

Advanced research projects, pursued individually in the library or laboratories, requiring prior faculty approval. Cr. and hrs. to be arranged. Credit Level: G. Credit Hrs: 1.00-15.00

15GEOG702**Geographic Research**

Advanced research projects, pursued individually in the library or laboratories, requiring prior faculty approval. Cr. and hrs. to be arranged. The second offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00-15.00

15GEOG703**Geographic Research**

Advanced research projects, pursued individually in the library or laboratories; requiring prior faculty approval. Cr. and hrs. to be arranged. The third offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00-15.00

15GEOG704**Staff Seminar**

Forum for discussing research papers by visiting speakers, faculty, and graduate students. Credit Level: G. Credit Hrs: 1.00

15GEOG705**Staff Seminar**

Forum for discussing research papers by visiting speakers, faculty, and graduate students. The second offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00

15GEOG706**Staff Seminar**

Forum for discussing research papers by visiting speakers, faculty, and graduate students. The third offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00

15GEOG711**Seminar: Latin America**

A geographic approach to the study of Latin America. Credit Level: G. Credit Hrs: 4.00

Geography**15GEOG711****Seminar: Latin America**

A geographic approach to the study of Latin America. Credit Level: G. Credit Hrs: 4.00

15GEOG715**Introduction to Graduate Geography**

A common first term for all incoming graduate students; orientation to the geographic research problems, data, and techniques. Credit Level: G. Credit Hrs: 4.00

15GEOG716**Geographic Theory and Literature**

Major current ideas in research areas of student choosing, as reflected in the professional literature of the last decade. Credit Level: G. Credit Hrs: 4.00

15GEOG720**Seminar: Europe**

A geographic approach to the study of Europe. Credit Level: G. Credit Hrs: 4.00

15GEOG726**Seminar: Africa**

A geographic approach to the study of Africa. Credit Level: G. Credit Hrs: 4.00

15GEOG730**Seminar: Regional Geography**

Delimiting regions, disparities in regional growth and development, selected country case studies. Credit Level: G. Credit Hrs: 4.00

15GEOG731**Geographical Perspectives on the Physical Environment**

Development of theory and methods in physical geography. Credit Level: G. Credit Hrs: 4.00

15GEOG735**Seminar: Middle East**

A geographic approach to the study of the Middle East. Credit Level: G. Credit Hrs: 4.00

15GEOG736**Seminar: Asia**

A geographic approach to the study of Asia. Credit Level: G. Credit Hrs: 4.00

15GEOG740**Professional Practice I: New Course Preparation**

Design and creation of new courses including syllabus, text selection, examinations, exercises, and use of Blackboard as a course management system. Review of University policies and procedures regarding student code of conduct, disability services, and grading. Credit Level: G. Credit Hrs: 1.00

15GEOG741**Professional Practice II: Paper and Article Preparation**

Covers the mechanics of preparing papers for presentation at professional meetings and/or submitting finished papers for review by academic journals. Credit Level: G. Credit Hrs: 1.00

15GEOG742**Professional Practice III: Grant Preparation**

The process of identifying appropriate grant sources, budget preparation, narrative writing, and effective grant administration. Credit Level: G. Credit Hrs: 1.00

15GEOG758**Gender, Geography, and Science**

Gender perspectives and feminist analyses in the social and natural sciences. The future of scientific thought in light of these new perspectives, with emphasis on physical geography, human geography, and environmental science. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Geography**15GEOG769****Seminar: Landscape Ecology**

This course consists of a series of lectures, labs, readings, and group discussions on the effects of landscape patterns on ecological processes. Special attention will be given to GIS and remote sensing techniques involved in quantifying landscape pattern. Lab exercises will focus on the use of landscape pattern metric software such as Patch Analyst 2.0 and Fragstats. Credit Level: G. Credit Hrs: 4.00

15GEOG770**Seminar in Environmental Locational Geography**

Environmental legislation, and the Environmental Impact Statement (EIS) process. Credit Level: G. Credit Hrs: 4.00

15GEOG771**Seminar in Urban Geography**

Current research in urban morphogenesis and settlement geography; spatial perspectives on urban activity patterns; townscape analysis. Credit Level: G. Credit Hrs: 4.00

15GEOG772**Seminar in Political Geography**

Global, national, regional and local processes affecting electoral politics, economic development politics, and social movement mobilization are examined. The intersection of different-scaled processes at the urban level is emphasized. Credit Level: G. Credit Hrs: 4.00

15GEOG773**Seminar in Cultural Geography Theory**

Geographical theory and methods for the study of the interconnectedness of people and environment, including cultural ecology, environmental perception and natural hazards research. Credit Level: G. Credit Hrs: 3.00-9.00

15GEOG774**Seminar: Physical Geography**

Current research in surficial and atmospheric processes including climate, denudation, tectonic effects, and hydrology. Emphasis on human impact on process rates and location in the Holocene. Credit Level: G. Credit Hrs: 4.00

15GEOG775**Seminar: Economic Geography**

Examines local and global political and social contexts that shape economic processes. Topics from historical economic geography concern labor production, uneven development and capital accumulation. Current impacts on the sub discipline including comparative economic systems. Consumption, regulation and cultural economy are also addressed. Credit Level: G. Credit Hrs: 4.00

15GEOG778**Seminar in Geographic Development**

Economic development and modernization of traditional societies. Agricultural reform, water resources development, industrialization policies, and manufacturing location. Credit Level: G. Credit Hrs: 4.00

15GEOG780**Seminar: Geographical Social Theory**

Contemporary developments in social theory related to urban, economic, political, and cultural geography. Credit Level: G. Credit Hrs: 4.00

15GEOG781**Research Seminar: Population Geography**

Examination of demographic components of regional change. Credit Level: G. Credit Hrs: 4.00

15GEOG782**Seminar: Urban Population Change**

Seminar: Urban population change. Intra-urban residential location and related issues are analyzed from a variety of theoretical perspectives. Credit Level: G. Credit Hrs: 4.00

Geography**15GEOG784****Seminar in Location Theory**

Introduction to classic ideas in urban-economic-transportation geography and as reflected in the professional literature of the last decade; movement, networks, nodes, hierarchies, surfaces; spatial decision making, agricultural, industrial, retail. Credit Level: G. Credit Hrs: 4.00

15GEOG785**Seminar in Location Analysis**

Discussion of location models (the P-median, P-center, covering); model formulation and solution strategies. Credit Level: G. Credit Hrs: 4.00

15GEOG786**Seminar: Economic Geography**

Survey of 20th century economic geography including classic location models and the "new" economic geography Credit Level: G. Credit Hrs: 4.00

15GEOG788**Seminar in Manufacturing Geography**

Classical and contemporary approaches to the issues of industrial location and industrial restructuring. Credit Level: G. Credit Hrs: 4.00

15GEOG792**Geographic Methods: Research Models**

Application of mathematical methods to relationships indicated by geographic theory. Construction and use of multivariate spatial models. Credit Level: G. Credit Hrs: 4.00

15GEOG793**Seminar on Geographic Information Science**

Latest developments on the theory, methodology and application of geographic information science, including spatial modeling, spatial database, exploratory data analysis, geographic visualization, spatial-temporal simulation, crime analysis, location based service, system integration, etc. Prereq: 15GEOG581, 15GEOG582. Credit Level: G. Credit Hrs: 4.00

15GEOG797**Graduate Research Advanced Seminar**

Fundamentals of research design; preparation of thesis, dissertation, or grant proposals. Credit Level: G. Credit Hrs: 4.00

15GEOG815**Interdisciplinary Seminar: Frontiers of Urban Research**

See 15-041-814. Credit Level: G. Credit Hrs: 3.00

15GEOG871**Thesis Research**

Preparation of the MA thesis, contingent upon faculty approval of a thesis proposal. Credits vary with the research accomplished. Credit Level: G. Credit Hrs: 1.00-15.00

15GEOG971**Dissertation Research**

Preparation of the PhD dissertation, following completion of Comprehensive Examinations and faculty approval of a dissertation proposal. Credits may vary with the research accomplished. Credit Level: G. Credit Hrs: 1.00-15.00

Geology**15GEOL101****Physical Geology I: Solid Earth**

A survey of solid Earth geology, emphasizing the central role of geologic time and plate tectonics. The structure and composition of Earth's core, mantle, and crust, and the formation and occurrence of minerals and rocks are described. Links among heat flow, plate movement, magmatism, metamorphism and mountain building are emphasized. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

Geology**15GEOL102****Physical Geology II : Earth's Surface**

A survey of the processes that take place on Earth's surface that shape our landscapes. Major interconnected geosystems are described, including the oceans, atmosphere, and hydrosphere (including groundwater, glaciers, and rivers). Understanding links among surface processes, landscape development, tectonics, and climate is a major theme of the course. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

15GEOL103**Historical Geology: Evolution of the Earth**

A survey of the formation and evolution of the Earth. Emphasis is placed on understanding the fact of Earth's ancient age and understanding how the absolute ages of minerals and rocks can be determined. Major events in the evolution of the continents and oceans are described. The fossil record and the evolution of life on Earth are also described. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15GEOL104**Environment Geology I**

Selected cities are studied in detail to illustrate the effects of geology on the human environment. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15GEOL105**Environment Geology II**

A survey based on illustrated lectures and text reading of selected national parks whose main features include geologic phenomena, e.g., Mammoth Cave, Yellowstone, and Hawaii. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15GEOL106**Environment Geology III**

The geological record is used to illustrate how we learn about the global system. With these insights we can assess the future impact of human activities on the globe and formulate possible strategies of society action. Global warming is one example, but the exact topic in any year may change to reflect current global environmental concerns. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15GEOL107**Field Geology of Cincinnati**

This course will introduce students to field geology, the geologic environment of Cincinnati and basic earth science concepts. The course will involve a field project that will familiarize students with basic techniques used in the collection and analysis of geologic data. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15GEOL108**Geologic Environment of Cincinnati**

Fossils, rocks and sediments of Cincinnati and their relationships to the city as a place to live. BoK: SE., NS. Credit Level: U. Credit Hrs: 3.00

15GEOL109**Geologic Environmental Hazards**

Hazards from geological materials and geological processes relevant to the tri-state area are described and assessed. Local hazards are examined on field trips, including landslide prevention and remediation sites. BoK: SE., NS. Credit Level: U. Credit Hrs: 3.00

15GEOL111**Geology Laboratory**

Laboratory and field work with maps, rocks, minerals and fossils. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15GEOL112**Geology Laboratory**

Laboratory and field work with maps, rocks, minerals and fossils. This is the second offering of a three-course sequence. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15GEOL113**Geology Laboratory**

Laboratory and field work with maps, rocks, minerals and fossils. This is

Geology**15GEOL113****Geology Laboratory**

the third offering of a three-course sequence. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15GEOL134**The Earth Revealed: Introduction to Geology**

Comprehensive telecourse study of the earth's physical processes and properties with emphasis on understanding the scientific theories behind geological principles. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15GEOL136**Earth in Upheaval**

The study of catastrophic events in recent and past earth history; causal mechanisms; consequences upon the matrix of life. Planetary evolution and the future of man: scientific and mythical evidence for a cosmic connection. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15GEOL153**The Biodiversity Crisis**

Seminar for freshmen only. It will consider: a) whether we are experiencing a mass extinction in the present day; b) the mechanisms that cause present-day extinction; c) the habitats and ecosystems most threatened by extinction. BoK: NS., HP. Credit Level: U. Credit Hrs: 3.00

15GEOL161**Oceanography-Planet Earth**

The evolution of planet earth, its oceans and atmosphere; marine organisms and their environments; the ocean as a record of past and future climate. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15GEOL162**Evolution of Life: Planet Earth**

Examination of patterns and processes in the history and life on Earth, and the way in which scientists make these determinations. Transfer Module. BoK: HP, NS. Credit Level: U. Credit Hrs: 3.00

15GEOL163**Planet Earth: Reefs**

Introduction to geology and biology of coral reefs and their ecology and distribution through space and time, and human impact on this unique and endangered marine environment. Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15GEOL171**Earth History, Life History: Earth's Record of Deep Time. A Freshman Seminar.**

Field-based study of principles of sedimentary rocks and fossils centered on the landscape and bedrock geology of southwestern Ohio, northern and central Kentucky, and southern Indiana. Includes five all-day field trips. First-hand observations further develop concepts of Earth history. A Freshman Seminar. BoK: HP., NS. Credit Level: U. Credit Hrs: 3.00

15GEOL172**Hard Rocks, Tall Mountains: How the Earth Works. A Freshman Seminar.**

Lab-based study of minerals, igneous and metamorphic rocks with an emphasis on how crystalline rocks form in the context of plate tectonics. Analysis of the fact of the ancient age of minerals and rocks. Includes field trips to local geoscience labs to see analytical instruments. A Freshman Seminar. BoK: QR., NS. Credit Level: U. Credit Hrs: 3.00

15GEOL173**A Trip to an Active Plate Margin: Experiencing Applied Geology in the Field. A Freshman Seminar.**

Field-based study of environmental and applied geology and landscapes of an active plate margin. Topics to be covered include seismic, flood, volcanic, and landslide hazards, water resources and groundwater pollution. Students will do field projects based on first-hand observations. Prereq: 15GEOL172. BoK: NS, SE. Credit Level: U. Credit Hrs: 2.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Geology**15GEOL173****A Trip to an Active Plate Margin: Experiencing Applied Geology in the Field. A Freshman Seminar.**

Field-based study of environmental and applied geology and landscapes of an active plate margin. Topics to be covered include seismic, flood, volcanic, and landslide hazards, water resources and groundwater pollution. Students will do field projects based on first-hand observations. Prereq: 15GEOL172. BoK: NS, SE. Credit Level: U. Credit Hrs: 2.00

15GEOL174**Natural Hazards, Human Engineers: Environmental Earth Science. A Freshman Seminar.**

Study of interaction of humans with geologic environment including atmosphere, biosphere, lithosphere and hydrosphere. Introduction to climate change. Includes field trips to local site of landslides, hillside creep, floods and landfills. Students will present a selected case study. A Freshman Seminar. BoK: NS., SE. Credit Level: U. Credit Hrs: 3.00

15GEOL175**Advanced Trip Through Time: A Culminating Experience of Earth History in the Field**

Field-based advanced study of geological materials and processes used to reconstruct Earth history. First-hand observation of rocks, fossils, structures, landforms, the geologic record of orogeny and deep geological time. Field trip will serve as a synthesis of concepts in Earth history. A Freshman Seminar. BoK: HP., NS. Credit Level: U. Credit Hrs: 2.00

15GEOL201**Igneous and Metamorphic Petrology**

Course will explore the origin and evolution of igneous and metamorphic rocks in the context of plate tectonics. Topics will include the mineralogy, petrology, geochemistry, and tectonics settings of igneous and metamorphic rocks. Students will develop skills in mineral and rock identification, optical mineralogy, reading geologic maps, and will solve quantitative problems using a spreadsheet. BoK: NS. Credit Level: U. Credit Hrs: 4.00

15GEOL202**Mineralogy**

Principles of mineral chemistry, crystal structure mineral stability and occurrence in Earth environments, coupled with practical experience in the identification of 100 important rock-forming minerals using their diagnostic physical properties. Prereq: 15CHEM101. BoK: NS. Credit Level: U. Credit Hrs: 4.00

15GEOL203**Geomorphic Processes**

Survey of the mechanics of the subaerial processes shaping Earth's surface with an emphasis on fluvial, weathering, mass-wasting, and soil-forming processes. Review of extant geomorphic processes and the formation of observed landforms. The course starts with a quantitative assessment of the significance of rare catastrophic events in shaping landscapes. Laboratories use online data resources and GIS (very basic GIS training is provided at the beginning of the course). BoK: NS., QR. Credit Level: U. Credit Hrs: 4.00

15GEOL204**Introduction to Structural Geology**

Stress, strain and rock behavior are discussed. Joints, faults, folds, and cleavage are described and analyzed. Structural laboratory exercises train the students in usage of the Brunton compass and the application of various techniques in solving structural geology problems in field/lab. BoK: NS. Credit Level: U. Credit Hrs: 4.00

15GEOL205**Paleontology and Sedimentary**

Intro to the sedimentary and fossil record; survey of fossil-forming organisms, concepts of evolution fossil preservation, and paleoecology, as well as principles of sedimentary geology are discussed. Application of fossils, trace fossils, and sedimentology, interpreting ancient environments, environmental change, geologic time will be emphasized.

Geology**15GEOL205****Paleontology and Sedimentary**

BoK: NS. Credit Level: U. Credit Hrs: 4.00

15GEOL206**Earth System History**

Concepts of stratigraphy, geochronology, tectonics and mountain-building applied to interpretation of the evolution of the Earth and its life; survey of the events of geologic history of North America and the Earth with an emphasis on the dynamic interactions of the lithosphere, hydrosphere, atmosphere, and biosphere. BoK: NS., HP. Credit Level: U. Credit Hrs: 4.00

15GEOL207**Earth Surface Processes**

Field-based studies to identify, describe, analyze weathering, transport and deposition of surface materials; geochemistry of soils and ground water; studies of Cincinnati-area glacial and Holocene deposits and landforms. Introduction to geochronology and the stratigraphic record of the Quaternary, including climate change. Course is intended as a project-based capstone to the core series. BoK: NS. Credit Level: U. Credit Hrs: 5.00

15GEOL208**Earth History Field Trip**

Week-long field excursion to examine and interpret aspects of earth and life history. Will examine evidence for ancient environments, sea-level, and climate changes, orogenesis (mountain building), paleoecology and evolution. Notebook required. Trip will be held in various locations. BoK: NS. Credit Level: U. Credit Hrs: 2.00

15GEOL213**Earth science I for CECH students**

Major topics in earth science, including minerals, rocks, plate tectonics, volcanoes, earthquakes, weathering, mass wasting, geological time, earth's history, weather and the solar system. Formerly 15GEOL513 BoK: NS. Credit Level: U. Credit Hrs: 3.00

15GEOL214**Earth Science Lab I for CECH students**

Exercises on major topics in Earth Science including minerals and rocks, volcanoes and earthquakes, the solar system, weather, Earth's history and maps. Formerly 15GEOL514 Coreq: 15GEOL213. BoK: NS. Credit Level: U. Credit Hrs: 2.00

15GEOL215**Earth Science II for CECH students**

Detailed information on topics in earth science, including rocks, plate tectonics, mountain building and geological hazards. Formerly 15GEOL515 Prereq: 15GEOL213. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15GEOL216**Earth Science Lab II for CECH students**

Exercises on topics in Earth Science, including rocks, plate tectonics, mountain building, and geologic hazards. Formerly 15GEOL516 Coreq: 15GEOL215. BoK: NS. Credit Level: U. Credit Hrs: 2.00

15GEOL351**Age of Dinosaurs**

An exploration of the life, ancient habitats, and extinction of dinosaurs and their kin, as revealed by recent discoveries and research in geology and paleontology. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15GEOL353**Gems and Precious Stones**

An introductory survey of the physical and visual properties, occurrences and origins of natural and synthetic gem stones and certain decorative rocks; gem identification and economics. BoK: NS. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Geology**15GEOL361****Environmental Volcanology**

Volcanic hazards, volcanic gases, effect of volcanoes on the weather, biological activity around submarine volcanoes, mass extinctions and volcanoes, volcanic risks and rewards, prediction of eruptions. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15GEOL362**Geology of the Tri-State**

Geology of the Cincinnati area for teachers, engineers, and architects. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15GEOL374**Geology for Engineers and Architects**

Physical geology pertinent to engineering and design. BoK: NS. Credit Level: U. Credit Hrs: 4.00

15GEOL399**Global Climate Change - Future Greenhouse or Ice Age?**

This course will examine operation of global climate system, records of past and present climate change, and prospects for future change as a function of natural anthropogenic influences on climate. BoK: SE. Credit Level: U. Credit Hrs: 3.00

15GEOL399H**Global Climate Change - Future Greenhouse or Ice Age?**

A study of the global climate system, including the records of past and present climate change and the prospects for future change as a function of natural and anthropogenic influences on climate. BoK: SE. Credit Level: U. Credit Hrs: 3.00

15GEOL487**Individual Work in Geology**

Credit depends on amount of work done. May be entered any quarter. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

15GEOL488**Individual Work in Geology**

See 15-040-487. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

15GEOL489**Individual Work in Geology**

See 15-040-487. BoK: NA. Credit Level: U. Credit Hrs: 1.00-15.00

15GEOL499**Independent Study in Geology**

Please complete and submit an Independent Application Form available from the College Office. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

15GEOL500**Geology Field Camp**

Outdoor mapping, measuring, description of earth materials and processes; unraveling earth history. Can serve as a Geology Major's capstone experience. Hosted by another college/university. BoK: NS. Credit Level: U, G. Credit Hrs: 1.00-15.00

15GEOL501**Petrology and Geochemistry of Igneous Rocks**

This course deals with classification and thin section study of igneous rocks. Geochemistry of source region of magmas, their transport mechanisms and differentiation is analyzed using the MELTS software. Prereq: 15GEOL101, 15GEOL111, 15GEOL201. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15GEOL502**Elementary Petrology: Sedimentary Petrology**

Hand specimen and thin section study of sedimentary rocks. Petrogenesis of sedimentary rocks. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL503**Tectonic Environments and Crystalline Rocks**

Description of crystalline rocks in the context of plate tectonics and

Geology**15GEOL503****Tectonic Environments and Crystalline Rocks**

analysis of thermal and tectonic processes recorded by them. Emphasis on integrating mineralogic, petrologic, structural, geochronologic data to understand formation, uplift and exhumation of mountain belts. Prereq: 15GEOL101, 15GEOL111, 15GEOL201. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15GEOL504**Geomorphic Processes**

Examination of the mechanics of geomorphic processes shaping the earth's surface. Prereq: 15GEOL101. BoK: NS. Credit Level: U, G. Credit Hrs: 4.00

15GEOL508**Volcanoes and Planetary Interiors**

How to study volcanoes to learn about the interior of planetary bodies. Application to Earth, Moon and Mars. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15GEOL512**Guide to Graduate Research**

Seminar on scientific method and on current research. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15GEOL521**Paleontology**

Fundamental concepts; paleobiology and the geologic occurrence and significance of fossil organisms. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL522**Paleontology**

Fundamental concepts; paleobiology and the geologic occurrence and significance of fossil organisms. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL523**Vertebrate Paleontology and Evolution**

Overview of fossil record and evolutionary history of Subphylum Vertebrata from jawless fish to mammals. Uses vertebrate examples to illustrate concepts of systematics, paleoecology, taphonomy, and evolution. Emphasizes key ecological- evolutionary challenges and functional morphology. Prereq: 15GEOL205, 15GEOL206. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL524**Museum Curatorial Internship**

At the Cincinnati Museum of Natural History students learn procedures for proper collections, care, and the duties of a curator, including organization of a collection, preparation and identification of specimens and utilizing electronic databases for cataloguing. Grading is on pass/fail basis. BoK: NA. Credit Level: G, U. Credit Hrs: 2.00

15GEOL525**Global Biodiversity Through Time**

This course presents an overview of research on the history of global biodiversity, including quantitative evaluation of diversity through time, and possible links between diversity and physical transitions to the earth, especially during major diversity increases and mass extinctions. BoK: HP., NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL526**Advanced Geology and Biology of Coral Reefs**

This course provides an overview of geologic and biologic processes in living coral reef ecosystems, environmental problems occurring in reefs, and a survey of the evolutionary history of reefs through geologic time. BoK: NS. Credit Level: G, U. Credit Hrs: 4.00

15GEOL527**Petrology Seminar**

In this course, students will apply their skills in mineralogy and petrology to the solution of topical research problems using a variety of practical analytical approaches. Individual hands-on laboratory work, including

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Geology**15GEOL527****Petrology Seminar**

petrographic study of igneous and metamorphic rocks, manipulation of major element, trace element, and isotope data, and computer-assisted modeling, will be emphasized. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL531**Stratigraphy and Sedimentation**

Physical and biological processes, environmental interpretation, facies analysis, stratigraphic analysis, basin analysis, and tectonics. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL532**Stratigraphy and Sedimentation**

Physical and biological processes, environmental interpretation, facies analysis, stratigraphic analysis, and tectonics. The second offering of a two-course sequence. Prereq: 15GEOL531. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL544**Geology of Ore Deposits**

GEOLOGY OF ORE DEPO BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15GEOL551**Groundwater Geology**

Introduction to fundamental properties and characteristics of major aquifer/aquiclude systems and fluids contained therein, techniques of classifying these systems, and applied environmental geology problems in groundwater resources. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL552**Groundwater Geology Modeling**

Case studies of groundwater occurrence and flow in glacial materials, desert basins, and other geologic terrains. Other topics of concern to engineering geologists. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15GEOL553**Well-Head Protection**

Use of groundwater flow modeling and geochemical modeling in the development of strategies for delineation of well-head protection areas. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL554**Geochemistry of Natural Waters**

Principles of geochemistry applied to surface and ground water. Emphasis on computer models of speciation. Applications to problems of groundwater contamination. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15GEOL555**Organic Compounds of Natural Waters**

Organic chemistry applied to natural environments. Emphasizes hydrocarbons and chlorinated compounds in surface and ground waters. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15GEOL572**Quaternary Geochronology**

The main principles, techniques and applicability of dating methods used in Quaternary Geology, Archaeology, Pedology and Biogeography. Lectures are followed by lab and field experience in newly developing dating techniques Prereq: 15GEOL201, 15GEOL206. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15GEOL573**Glacial Field Methods**

Two-week field trip in late summer or early fall to study glacial features and deposits in a wide range of settings outside the Cincinnati area. Class meetings and report in autumn quarter. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

Geology**15GEOL574****Glacial Geology**

Glacial geologic processes, their products, results, and effects; focus on southwestern Ohio. Extensive field trips. BoK: NS. Credit Level: U, G. Credit Hrs: 2.00-5.00

15GEOL575**Glacial Field Methods**

Two-week field trip in late summer or early fall to study glacial features and deposits in a wide range of settings outside the Ohio Area. Class meetings and report in Autumn Quarter. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL576**Advanced Geology Field Trip**

A two-week field excursion during September. Conferences and report in Autumn Quarter. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL582**Organic Compounds in Natural Waters**

Organic chemistry applied to natural environments. Includes natural hydrocarbons and chlorinated compounds in surface and ground waters. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL589**Fluid Dynamics of Geological Processes**

An analysis of the fluid dynamics occurring in geological processes such as magmas, magma chambers, and volcanism. Prereq: 15CHEM103, 15PHYS103, 15MATH227. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL590**Geology of the Himalaya: Field and Research Methods**

Geologic processes that are currently shaping the Himalaya will be examined to provide a foundation for studying active and ancient mountain belts. Attention given to field training and investigating structural geology, petrology, stratigraphy and geomorphology while undertaking our traverse. Prereq: 15GEOL102, 15GEOL103, 15GEOL112, 15GEOL113. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15GEOL601**Environmental Geology of Aquifer Systems**

The goals of this course are: to introduce students to the fundamental properties and characteristics of major aquifer/aquiclude systems and the fluids (gases) contained therein; to learn the techniques of studying and classifying aquifer/aquiclude systems; and to solve applied environmental geology problems in groundwater resources and subsurface contamination. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL603**Geochemistry of Natural Waters**

Principles of geochemistry applied to surface and groundwater. Emphasis on equilibrium models of speciation, with some attention to kinetic models. Applications to problems of groundwater contamination. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL604**Carbonate Depositional Environments**

Survey of sediments, depositional processes, and biota of modern and ancient carbonate environments including tidal flats, lagoons, reefs, and basins. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL611**Stable Isotope Systematics**

Isotopic theory and application to geologic problems including geothermometry, paleoclimate, and stratigraphy, secular variation in stable isotopes through time, and geochemical mass fluxes. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL628**Solution Geochemistry**

Principles of solution chemistry as applied to sedimentary, hydrothermal and solid state processes. The second offering in a two-part course

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Geology**15GEOL628****Solution Geochemistry**

sequence. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL631**Clay Mineralogy**

Structural mineralogy, X-ray identification, and geologic characteristics of the major groups of clay minerals. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL632**Clay Mineralogy**

Seminar on current topics in clay mineralogy. Prereq: 15GEOL631. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL648**Thermodynamics in Geological Processes**

Principles of equilibrium and non-equilibrium thermodynamics and their applications to mineral-fluid equilibria at low and high temperatures and pressures. Specific geological examples and their solutions using thermodynamics are covered to develop a working knowledge of thermodynamics. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL683**Metamorphism and Deformation**

Analysis of the tectono-thermal evolution of crystal rocks exposed in the internal parts of mountain chains. Topics include development of microstructures and rock fabrics, connections between tectonics and the evolution of mineral assemblages, geochronology, and regional geology of mountain belts. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15GEOL685**Seminar -- Petrology**

Critical reading of current research papers, hands-on use of microcomputer software, and discussion of current research of participants, topics to be covered include fluid-rock interactions, diffusion, kinetics, thermobarometry, and mechanisms of mineral growth and reaction. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15GEOL686**Seminar: Petrology**

Seminar on current topics in igneous and metamorphic petrology. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15GEOL687**Seminar: Petrology**

Seminar on current topics in igneous and metamorphic petrology. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15GEOL693**Modern Concepts in Oceanography**

Water masses, surface and thermohaline circulation, oceanic-atmospheric interactions, productivity and marine life, deep-sea sediments and geological implications. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL694**Paleoceanography**

Lecture and seminar approach. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL695**Ancient Marine Environments**

Characterization of parameters of modern and ancient marine environments, physical, chemical, and sedimentological, and tools for their interpretation from the geological record; field based studies examine aspects of one or more ancient environments. Prereq: 15GEOL205, 15GEOL206. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL696**Paleoautecology**

Relationships between fossil organisms and their physical and biotic environments at the level of species and populations; taphonomic

Geology**15GEOL696****Paleoautecology**

(preservational) potential of species and populations. Prereq: 15GEOL695. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15GEOL697**Community and Evolutionary Paleoeecology**

Review of the theoretical underpinning and methodology important in the study of communities in the fossil record. The importance of paleoecology to macro evolutionary patterns and processes is also explored. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15GEOL698**Quantitative Methods in Paleobiology**

A "hands-on" course on the use of numerical methods as they apply in paleobiological analyses including multivariate techniques, models of diversification, and bootstrapping. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15GEOL699**Geology Colloquium**

Required of all graduate students majoring in geology. Restricted to Geology students only. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00

15GEOL705**Geology of the Mid-Continent**

Department Fall field trip. Credit Level: G. Credit Hrs: 1.00

15GEOL712**Paleoceanography -- Paleoclimatology**

Description not available. Credit Level: G. Credit Hrs: 3.00

15GEOL713**Paleoclimatology Seminar**

Continental and Marine Quaternary Chronostratigraphy; problems of dating techniques; correlation of Quaternary events, marine record, and possible correlation to continental events. Credit Level: G. Credit Hrs: 3.00

15GEOL714**Paleoclimatology Seminar**

Geologic Climatic Record and Forcing Mechanism; integrated view of global climatic patterns throughout geologic time and understanding of forcing mechanisms. Credit Level: G. Credit Hrs: 3.00

15GEOL751**Glacial Processes Seminar**

Examination of field and theoretical bases for various glacial processes. An understanding of the physical and chemical processes associated with glaciers has increased considerably in the past few years. Glacial flow is the best understood of these but the mechanics of erosion and deposition are still unresolved. Course provides theoretical basis for interpretation of field relationships. Prereq: 15GEOL575. Credit Level: G. Credit Hrs: 3.00

15GEOL763**Advanced Metamorphic Petrology**

Advanced study of the origin and evolution of metamorphic rocks with emphasis on metamorphic processes and detailed petrography. Field trip. May be taken concurrently with Geol. 503. Credit Level: G. Credit Hrs: 3.00

15GEOL776**Seminar in Sedimentology of Stratigraphic Systems: Seismic and Sequence Stratigraphy**

Concepts of sequence stratigraphy based on analysis of exploration seismic records. Credit Level: G. Credit Hrs: 3.00

15GEOL780**Methods of Geological Instruction**

Offered ea. qtr. Credit Level: G. Credit Hrs: 1.00-12.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Geology**15GEOL821****Paleontology Seminar**

A graduate seminar dealing with many facets of paleontology; principles, organisms, methods. Credit Level: G. Credit Hrs: 3.00

15GEOL822**Paleontology Seminar**

A graduate seminar dealing with many facets of paleontology; principles, organisms, methods. The second offering in a three-part course sequence. Credit Level: G. Credit Hrs: 3.00

15GEOL823**Paleontology Seminar**

A graduate seminar dealing with many facets of paleontology; principles, organisms, methods. The third offering in a three-part course sequence. Credit Level: G. Credit Hrs: 3.00

15GEOL861**Basaltic Volcanism**

Petrology and geochemistry of basaltic rocks at mid-ocean ridges, ocean islands, and continents. Credit Level: G. Credit Hrs: 3.00

15GEOL862**Silicic Volcanic Systems**

Geology and geochemistry of rhyolitic volcanoes. Mechanics and fluid dynamics of magmatic systems, transport of magma and explosive eruption of felsic magma. Prereq.: Geol. 501. Credit Level: G. Credit Hrs: 3.00

15GEOL863**Subduction Zone Volcanism**

Geology and geophysics of subduction zone volcanoes. Major, minor, trace element and isotope systematics of subduction zone volcanic rocks. Modeling of magmatic processes. Credit Level: G. Credit Hrs: 3.00

15GEOL881**Research -- Special Problems in Geology**

Offered ea. qtr. Credit Level: G. Credit Hrs: 1.00-15.00

15GEOL893**Master's Thesis Research**

Offered ea. qtr. Credit Level: G. Credit Hrs: 1.00-15.00

15GEOL971**Doctoral Dissertation Research**

Offered ea. qtr. Credit Level: G. Credit Hrs: 1.00-15.00

Greek**15GRK101****Elementary Greek**

Introduction to Attic grammar and the reading of simple prose. The first in a three-part course sequence. BoK: HU., DC. Credit Level: U. Credit Hrs: 5.00

15GRK102**Elementary Greek**

Introduction to Attic grammar and the reading of simple prose. The second in a three-part course sequence. Prereq: 15GRK101. BoK: HU, DC. Credit Level: U. Credit Hrs: 5.00

15GRK103**Elementary Greek**

Introduction to Attic grammar and the reading of simple prose. The third in a three-part course sequence. Prereq: 15GRK102. BoK: HU, DC. Credit Level: U. Credit Hrs: 5.00

15GRK301**Attic Prose**

Intensive review of basic Attic grammar combined with readings from selected dialogues of Plato. BoK: HU. Credit Level: U. Credit Hrs: 3.00

Greek**15GRK302****Greek Epic, Homer: Iliad**

Contact department. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15GRK303**Greek History: Herodotus**

Contact department. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15GRK305**Homer: Odyssey**

Contact department. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15GRK306**Xenophon**

Contact department. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15GRK401**Greek Plato**

Contact department. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15GRK402**Advanced Greek Epic, Homer: Iliad**

Contact department. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15GRK403**Advanced Greek History: Herodotus**

Contact department. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15GRK405**Homer: Odyssey**

Contact department. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15GRK406**Advanced Tragedy: Xenophon**

Contact department. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15GRK471**Special Topics, Greek**

A special topic is chosen by a student with the approval of an advisor as the subject of study in the capstone experience. BoK: HU. Credit Level: U. Credit Hrs: 1.00-15.00

15GRK540**Linear B**

Linear B is the most ancient form of Greek, written on Late Bronze Age clay tablets found at Pylos, Knossos, Mycenae, Thebes, Tiryns, etc. It is very important as a background for the study of Homeric Greek and for Greek linguistics. BoK: HP. Credit Level: G, U. Credit Hrs: 4.00

15GRK571**Elegiac Lyric**

Readings in the principal Greek lyric and elegiac poets, including Archilochus, Alcman, Solon, Sappho, Alcaeus, Theognis, and Simonides. All readings in the original Greek. BoK: LT. Credit Level: U, G. Credit Hrs: 3.00-4.00

15GRK573**Greek Thucydides**

Close study of Thucydides' History of the Peloponnesian War. All readings in the original Greek. BoK: LT. Credit Level: U, G. Credit Hrs: 3.00-4.00

15GRK577**History of Greek Prose**

Readings in the early witness to the development of Greek literary prose, up to and including the Attic orators. All readings in the original Greek. BoK: LT. Credit Level: U, G. Credit Hrs: 3.00-4.00

15GRK581**Sophocles**

Close study of two plays of the tragic poet Sophocles. All readings in the Greek original. BoK: LT. Credit Level: U, G. Credit Hrs: 3.00-4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Greek**15GRK583****Euripides**

Close study of two plays of the comic poet Euripides. All readings in the Greek original. BoK: LT. Credit Level: U, G. Credit Hrs: 3.00-4.00

15GRK584**Aristophanes**

Close study of two plays of the comic poet Aristophanes. All readings in the Greek original. BoK: LT. Credit Level: U, G. Credit Hrs: 3.00-4.00

15GRK585**Greek Epic Poetry**

Readings in epic hexameter literature, selected from the Homeric poems, Homeric Hymns, Hesiod, and later epics. All readings in the Greek original. BoK: LT. Credit Level: U, G. Credit Hrs: 3.00-4.00

15GRK586**Hellenistic Poetry**

Select readings in Hellenistic poetry, including Callimachus, Theocritus, and Appollonius, with attention to the innovations of the era in genre, style, and theme. BoK: LT. Credit Level: U, G. Credit Hrs: 3.00-4.00

15GRK587**Philosophical Prose**

Readings in early Greek philosophical prose, such as Plato and/or other Socratic writers. All readings in the Greek original. Perm of Instructor. BoK: LT. Credit Level: U, G. Credit Hrs: 3.00-4.00

15GRK601**Special Readings in Greek**

Contact department. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00-4.00

15GRK602**Special Readings in Greek**

Contact department. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00-4.00

15GRK603**Special Readings in Greek**

Contact department. BoK: HU. Credit Level: G, U. Credit Hrs: 3.00-4.00

15GRK701**Latin-Greek Grammar**

Contact department. Credit Level: G. Credit Hrs: 4.00

15GRK850**Greek Dialects**

Readings in Greek dialects emphasizing literary dialects with a view toward Linear B. Credit Level: G. Credit Hrs: 4.00

15GRK870**Greek Historical Sources**

A study of the major sources and problems in Greek history with emphasis on the epigraphic and papyrological evidence. Credit Level: G. Credit Hrs: 4.00

15GRK871**Master's Thesis Research**

Offered ea. qtr. Credit Level: G. Credit Hrs: 1.00-15.00

15GRK892**Topics in Greek Literature**

Contact department. Credit Level: G. Credit Hrs: 4.00

15GRK895**Ecphrasis**

Analysis of Greek ecphrasis (texts that ask the audience to visualize a work of art) from Homer to Philostratus. Credit Level: G. Credit Hrs: 4.00

15GRK921**Greek Literary Papyri**

Introduction to the Greek literary papyri, with detailed examination of selected topics, requiring good facility in ancient Greek and its literature. Credit Level: G. Credit Hrs: 4.00

Greek**15GRK921****Greek Literary Papyri**

Introduction to the Greek literary papyri, with detailed examination of selected topics, requiring good facility in ancient Greek and its literature. Credit Level: G. Credit Hrs: 4.00

15GRK922**Seminar: Hesiod**

Study of the text and scholarship of Hesiod's poetry. Credit Level: G. Credit Hrs: 4.00

15GRK923**Theocritus**

A study of the poetry of Theocritus with particular regard to the formation of the pastoral genre and the connections between Theocritus' pastoral poems and other Idylls. Credit Level: G. Credit Hrs: 4.00

15GRK925**Greek Lyric Poetry**

Graduate Seminar: The new papyrus discoveries and new literary approaches to the Lyric Age of Greece. Credit Level: G. Credit Hrs: 4.00

15GRK927**Libraries in Greece and Rome**

Detailed examination of current topics in the study of ancient libraries and readers. Requires good facility in Greek and Latin. Credit Level: G. Credit Hrs: 4.00

15GRK930**Greek New Comedy**

Study of Menander plays and comic technique, with comparison to other Hellenistic performance forms. Credit Level: G. Credit Hrs: 4.00

15GRK931**Documentary Papyri From Alexandria**

Reading of contracts and letters surviving on papyri found in Alexandria and elsewhere in Egypt. Subjects in these documents range from debt to divorce among Alexandrian Jews and Christians. Credit Level: G. Credit Hrs: 4.00

15GRK933**Ancient Literary Criticism**

Readings and discussion of selections from Plato, Aristotle's, Poetics, Dionysius of Halicarnassus, "Longinus," and other works of literary criticism. Credit Level: G. Credit Hrs: 4.00

15GRK937**Sexuality in Greece and Rome**

This seminar examines the cultural construction of sexuality in ancient Greece and Rome. The emphasis is on hermeneutics: problems of interpretation, cultural poetics, their biases and ours. We will examine both literary and visual sources. Class meets with 15Clas937. Credit Level: G. Credit Hrs: 4.00

15GRK939**Seminar: Homeric Poems**

Scholarly research on the Homeric poems Credit Level: G. Credit Hrs: 4.00

15GRK941**Greek Epigraphy**

Introduction to ancient Greek texts preserved on stone. Students learn how to read the physical objects and their representations, how to record and publish the texts, and how to write documentary history. Focus is on site in the "classical" Greek world of 4th & 3rd century BC. Credit Level: G. Credit Hrs: 4.00

15GRK949**The Pre-Socratics**

Study of the fragments, queries, and doctrines of selected Pre-Socratic thinkers, in the context of their own times, the ancient traditions which preserved our evidence, and modern research. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Greek**15GRK949****The Pre-Socratics**

Study of the fragments, queries, and doctrines of selected Pre-Socratic thinkers, in the context of their own times, the ancient traditions which preserved our evidence, and modern research. Credit Level: G. Credit Hrs: 4.00

15GRK950**Seminar: Plato**

Analysis of several Platonic dialogues with an emphasis on the intersection between philosophic and literary problems. Credit Level: G. Credit Hrs: 4.00

15GRK953**Seminar: Prometheus**

The controversy over Aeschylus' Prometheus will be used to explore the tragic genre as a whole; reading will involve the Prometheus as well as the Persians and one other non-Aeschylean play. Credit Level: G. Credit Hrs: 4.00

15GRK955**Aeschylus Seminar**

The seminar will involve the study of Aeschylus' drama Agamemnon. Topics to be discussed may include textual problems, the use of the chorus and lyric, management of actors' roles, dramatic structure, imagery, and stage presentation. Credit Level: G. Credit Hrs: 4.00

15GRK957**The Symposium and Symposium Literature**

Archaic and Classical poetry and its metasymphotic elements; archaeological material and visual evidence in Archaic and Classical Greece with a focus on the socio-cultural function of communal drinking. Credit Level: G. Credit Hrs: 4.00

15GRK971**Doctoral Dissertation Research**

Offered ea. qtr. Credit Level: G. Credit Hrs: 1.00-15.00

15GRK975**Greek Prose Composition**

Study of Attic prose style and practice in writing prose in various styles. Credit Level: G. Credit Hrs: 4.00

15GRK979**Seminar: Herodotus**

Emphasis will be on issues of historiography in Herodotus. Credit Level: G. Credit Hrs: 4.00

15GRK980**Apollonius**

Reading and advanced study of Apollonius' Argonautica. Credit Level: G. Credit Hrs: 4.00

15GRK985**Seminar: Greek Literature**

Contact department. Credit Level: G. Credit Hrs: 4.00

15GRK999**Directed Readings in Greek**

Offered ea. qtr. Credit Level: G. Credit Hrs: 1.00-15.00

German**15GRMN101****Basic German I****(former Accelerated****Elementary German I)**

Basic German language and culture. First quarter in the three-quarter sequence to fulfill A&S requirement. BoK: DC., HU. Credit Level: U. Credit Hrs: 5.00

15GRMN102**Basic German II****(former Accelerated****Elementary German II)**

Basic German language and culture. Second quarter in the 3-quarter

German**15GRMN102****Basic German II****(former Accelerated****Elementary German II)**

sequence that fulfills the A&S language requirement. Prereq: 15GRMN101. BoK: DC, HU. Credit Level: U. Credit Hrs: 5.00

15GRMN103**Basic German III****(former accelerated****Elementary German III)**

Basic German language and culture. Third quarter in the 3-quarter sequence that fulfills the A&S language requirement. Prereq: 15GRMN102. BoK: DC, HU. Credit Level: U. Credit Hrs: 5.00

15GRMN111**Extended Basic German 1****(former Elementary****German I)**

Basic German language and culture. First quarter in the extended 6-quarter sequence to fulfill the A&S language requirement. BoK: DC., HU. Credit Level: U. Credit Hrs: 3.00

15GRMN111H**Extended Basic German Honors**

Honors section of the 1st quarter in the extended basic German sequence. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15GRMN112**Extended Basic German 2****(formerly Elementary****German II)**

Basic German language and culture. Second quarter in the 6-quarter extended sequence that fulfills the A&S language requirement. Prereq: 15GRMN111. BoK: DC, HU. Credit Level: U. Credit Hrs: 3.00

15GRMN112H**Extended Basic German 2 Honors**

Honors section of the 2nd quarter in the extended basic German sequence. Prereq: 15GRMN111. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15GRMN113**Extended Basic German 3****(former Elementary****German III)**

Basic German language and culture. Third quarter in the extended 6-quarter sequence that fulfills the A&S language requirement. Prereq: 15GRMN112. BoK: DC, HU. Credit Level: U. Credit Hrs: 3.00

15GRMN113H**Extended Basic German 3 Honors**

Honors section of the 3rd quarter in the extended basic German sequence. Prereq: 15GRMN112. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15GRMN114**Extended Basic German 4****(former Intermediate****German I)**

Basic German language and culture. Fourth quarter in the extended 6-quarter sequence that fulfills the A&S language requirement. Prereq: 15GRMN113. BoK: DC, HU. Credit Level: U. Credit Hrs: 3.00

15GRMN114H**Extended Basic German 4 Honors**

Honors section of the 4th quarter in the extended basic German sequence. Prereq: 15GRMN113H. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15GRMN115**Extended Basic German 5****(former Intermediate****German II)**

Basic German language and culture. Fifth quarter in the extended 6-quarter sequence that fulfills the A&S language requirements. Prereq: 15GRMN114. BoK: DC, HU. Credit Level: U. Credit Hrs: 3.00

15GRMN115H**Extended Basic German 5 Honors**

Honors section of the 5th quarter in the extended basic German sequence. Prereq: 15GRMN114H. BoK: DC, HU. Credit Level: U. Credit

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

German**15GRMN115H****Extended Basic German 5 Honors**

Hrs: 3.00

15GRMN116**Extended Basic German 6**

Basic German language and culture. Sixth quarter of the extended 6-quarter sequence that fulfills the A&S language requirement. Prereq: 15GRMN115. BoK: DC, HU. Credit Level: U. Credit Hrs: 3.00

15GRMN116H**Extended Basic German 6 Honors**

Honors section of the 6th quarter in the extended basic German sequence. Prereq: 15GRMN115H. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15GRMN117**Beginning German I**

First quarter in a 2 quarter sequence equivalent to 111, 112, and 113. BoK: DC., HU. Credit Level: U. Credit Hrs: 5.00

15GRMN118**Beginning German II**

Second Quarter in a 2-quarter sequence equivalent to 111, 112, 113. Prereq: 15GRMN117. BoK: DC, HU. Credit Level: U. Credit Hrs: 4.00

15GRMN119**Beginning German for E-Media Students**

Primarily online course with one on-campus meeting per week. Intensive introduction to German language and culture for E-Media students enrolled in the "Munich Summer curriculum" program. BoK: DC., HU. Credit Level: U. Credit Hrs: 3.00

15GRMN131**German American Experience**

This course is an introduction to German-American history, literature, and culture with particular reference to the Ohio Valley and the Greater Cincinnati area. Taught in English. Required for the German American Studies Certificate. BoK: HU., SS. Credit Level: U. Credit Hrs: 3.00

15GRMN132**Cincinnati and the German-American Experience**

An introduction to Cincinnati's German heritage, which examines German immigration, settlement, and life in the Greater Cincinnati area, from the 18th century to the present. In English BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15GRMN161**Intensive German for International co-op program.**

Providing students with the fundamental knowledge of German to begin preparation for a five-month's co-op assignment in Germany. Emphasis is given to professional social issues, which provide an understanding of what students will experience living in Germany. BoK: HU., DC. Credit Level: U. Credit Hrs: 1.00-6.00

15GRMN171**Survey of German Culture I**

In English. The origin of German institutions, social structures, philosophical and religious thought through the Baroque. Transfer Module. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15GRMN171H**Honors German Culture**

An examination of the individual and collective contribution of Germany and the Germansto civilization. Transfer Module. BoK: HU, DC. Credit Level: U. Credit Hrs: 4.00

15GRMN172**Survey of German Culture II**

In English. German contributions to Western civilization from the Age of Enlightenment to 1918. Transfer Module. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

German**15GRMN172H****Survey of German Culture II Honors**

An examination of the individual and collective contributions of German and the Germans to civilization, from the courtly culture of Absolutism to Bismarck and the Second Reich. An Honors course, parallel to German 172. The second offering in a three-part course sequence. Prereq.: Honors; perm. of instr. Transfer Module. BoK: HU, DC. Credit Level: U. Credit Hrs: 4.00

15GRMN173**Survey of German Culture III**

In English. A cultural view of Germany from World War I to the present. Transfer Module. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15GRMN173H**Survey of German Culture III Honors**

An examination of the individual and collective contributions of Germany and the Germans to civilization, from 1900 to the present. An Honors course, parallel to German 173. The third offering in a three-part course sequence. Prereq.: Honors; perm. of instr. Transfer Module. BoK: HU, DC. Credit Level: U. Credit Hrs: 4.00

15GRMN174**Survey German Culture: Berlin**

Annual study tour to Berlin, Germany, in September to acquaint students with the history, culture & language. Length of trip - 10 days. BoK: HU. Credit Level: U. Credit Hrs: 1.00-6.00

15GRMN174H**Survey German Culture: Berlin**

A survey of the history of German culture from medieval times to the present as reflected in the art, architecture, and society of Berlin. The course consists of a ten-day fieldtrip to Berlin. Honors BoK: HU. Credit Level: U. Credit Hrs: 1.00-6.00

15GRMN185**Introduction to Film Studies**

Methods & issues of film studies: the techniques of film analysis, covering the social, cultural, economic, technological & aesthetic issues associated with motion pictures. Also introduces film history, focusing on important films and major film movements 1895 to present. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15GRMN201**Second Year German I**

Intermediate German language and culture. First quarter in a three-quarter sequence; continuation of the Basic German 5-hour course. BoK: DC., HU. Credit Level: U. Credit Hrs: 5.00

15GRMN202**Second Year German 2**

Intermediate German language and culture. Second quarter in a three-quarter sequence. Perm of Instructor. BoK: DC, HU. Credit Level: U. Credit Hrs: 5.00

15GRMN203**Second Year German 3**

Intermediate German language and culture. Third quarter in a three-quarter intensive sequence. Perm of Instructor. BoK: DC, HU. Credit Level: U. Credit Hrs: 5.00

15GRMN204**Munich Program: Intensive German Language and Culture**

A five week intensive language and culture course in Munich, Germany, for students who have completed at least one year of Basic German (or the equivalent). This course is the equivalent of an entire year of language study. In addition to expanding vocabulary, mastering advanced grammar techniques, and improving communication skills, students become well acquainted with Bavarian and German culture. Numerous excursions in Munich and beyond are an integral part of the course. Perm of Instructor. BoK: HU. Credit Level: U. Credit Hrs: 1.00-15.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

German**15GRMN261****"The Cinema belongs to the City": Architecture, Film and Berlin.**

The course explores the cinematic and literary images of Berlin's architecture and the interaction of the city's inhabitants with their built environment. The course will analyze film aesthetics and narratives in regard to architecture. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15GRMN262**Nobel Laureates in German Literature**

Works by Paul Heyse, Gerhart Hauptmann, Thomas Mann, Hermann Hesse, Nelly Sachs, Heinrich Böll, Günter Grass, Franz Kafka, and Friedrich Dürrenmatt. Participants also have the opportunity to view the film versions of several of these works. No knowledge of German is required. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15GRMN263**Germany Since the Fall of the Wall**

Examines the cultural production of post-Wende Germany as the basis for understanding the new, united Germany. Discussions will focus on literature, film, and other forms of cultural production. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

15GRMN264**Berlin in the 1920's: Metropolis, Modernity, and Mass Culture**

This course will draw on films (Lang, Ruttmann, Pabst, Jutzi) architectural manifestos (Bauhaus), literature (Brecht, Döblin, Toller), sociology/ philosophy (Benjamin, Simmel), and investigates aspects of criminality in an attempt to understand Berlin in the 1920s. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15GRMN267**German Love and Conflict in the Middle Ages**

Selections from the German Middle Ages that speak to the ever-compelling topic of love and its ensuing conflicts. BoK: LT., DC. Credit Level: U. Credit Hrs: 3.00

15GRMN268**Multicultural Germany**

German literature as a striking reflection of the legacies of postwar and post-unification history, vibrant shifts in its ethnic populations, and artistic interest in understanding a changing society. All readings are in English. BoK: DC., LT. Credit Level: U. Credit Hrs: 3.00

15GRMN277**The Faust Myth in Germany**

Literature-in-translation course focusing on the 'Faust Book' (1587) and on Goethe's drama 'Faust' (1805). BoK: HU. Credit Level: U. Credit Hrs: 3.00

15GRMN280**German Fairy Tales: The Grimms and Beyond**

Examines representative tales such as "Snow White," "Sleeping Beauty," and "Hansel & Gretel", the oral tales collected and published by Jakob and Wilhelm Grimm, concentrating on the collecting methods & intentions of the Grimms and comparing some of the versions of specific tales since first publication BoK: LT. Credit Level: U. Credit Hrs: 3.00

15GRMN301**Introduction to German Studies**

Course covers a range of topics in German literature, culture, and film. It combines cultural analysis with advanced language instruction. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15GRMN302**Introduction to German Studies**

Continuation of 15GRMN301. Prereq: 15GRMN301. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15GRMN303**Introduction to German Studies**

This course is designed to introduce students to current events in German culture and society through study of the role of various media (incl. print media, radio, TV, online sources and film). Special attention

German**15GRMN303****Introduction to German Studies**

will be paid to differences in culture and media between the United States and Germany. The course serves two purposes: the students exposure to authentic German texts and media programs in order to (1) advance the students' active language skills and to (2) foster their cultural awareness. Successful completion of German 302 or comparable language proficiency is required. The course will be taught in German. Prereq: 15GRMN302. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15GRMN314**Jewish Women's Salons and Their Impact On Culture, Identity and Modernity**

This course will examine the significant role played by Jewish Women's Salons, as a radical liminal space where new trends were set in art, literature, music, theater, philosophy and politics, and as a frontier where a new, secular Jewish identity was negotiated. Through a close investigation of personal data, biographical material, familial arrangements, historical documents, and artistic representations of the salonieres, students will learn first hand about the changes in the Jewish-Gentile relationship, citizenship and gender from its usual site during during emancipation and up to the twentieth century. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15GRMN324**German for Business**

This course teaches students of German the fundamental communicative language and culture skills needed in today's business world. BoK: DC. Credit Level: U. Credit Hrs: 3.00

15GRMN325**German for Business II**

A continuation of German for Business 324, but may be taken separately. Offers students the opportunity to improve their reading comprehension and to share their opinions in open discussion. BoK: DC. Credit Level: U. Credit Hrs: 3.00

15GRMN361**Language and Cultural Immersion in Germany**

A three week intensive study and travel course in Munich, Germany, designed for undergraduate students who have completed the A&S language requirement. BoK: HU., DC. Credit Level: U. Credit Hrs: 6.00

15GRMN364**German Language and Culture I for International Co-op Program**

This course will continue building "survival language" skills. It will also provide an introduction to cross-cultural differences within the working world abroad; improve understanding of behaviors and social norms; prepare students to discuss educational and professional experience/goals, increase technical vocabulary and the ability to make professional presentations at work; improve phone and written communication skills, and provide an introduction to Germany's post war history and politics. Perm of Instructor. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15GRMN365**German Language and Culture II for International Co-op Program**

Continues building language skills and provides an understanding of Germany's political system and government structure; transportation system; arranging housing; cross-cultural differences concerning retail establishments, advertising and marketing. Perm of Instructor. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00-9.00

15GRMN387H**Focus Berlin**

Focus on Berlin, an honors seminar, will engage students in sixty critical years of historical and cultural change in Berlin. Experimental learning includes attendance at a conference and a trip to Berlin. BoK: HU. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

German**15GRMN396****Germanic Mythology**

An introduction to Germanic and Norse mythology from the Middle Ages to the most recent re-workings in literature and film. A major component of the course will focus on the use and abuse of Germanic mythology in the 20th century. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15GRMN401**Seminar in German Studies**

Advanced topics in German literature, film, and culture; advanced German language instructions. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15GRMN402**Seminar in German Studies**

Continuation of GRMN401. Prereq: 15GRMN401. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15GRMN403**Seminar in German Studies**

Continuation of GRMN402. Prereq: 15GRMN402. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15GRMN481**Honors Senior Thesis**

Contact department. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15GRMN482**Honors Senior Thesis**

Contact department. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15GRMN483**Honors Senior Thesis**

Contact department. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15GRMN491**Senior Capstone**

Development and completion of senior capstone project. BoK: DC., HU. Credit Level: U. Credit Hrs: 3.00

15GRMN492**Senior Capstone**

Development and completion of senior capstone project. BoK: DC., HU. Credit Level: U. Credit Hrs: 3.00

15GRMN493**Senior Capstone**

Development and completion of senior capstone project. BoK: DC., HU. Credit Level: U. Credit Hrs: 3.00

15GRMN498**German Internship**

A learning opportunity external to the campus providing experience related to the major. Placement will be coordinated between the college and department, and department faculty will oversee internship activities. BoK: DC. Credit Level: U. Credit Hrs: 3.00

15GRMN499**Individual Projects**

Upon arrangement with Dept. Head. Hrs. to be arranged. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

15GRMN501**Survey of German Literature_I**

Readings and discussions of representative works by Wieland, Lenz, Lessing, and Goethe. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00-4.00

15GRMN502**Survey of German Literature II**

Continuation of 15GRMN501. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00-4.00

German**15GRMN503****Survey of German Literature III**

Continuation of 15GRMN502. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00-4.00

History of German immigration, settlement and influences on American society. BoK: DC., HU. Credit Level: U, G. Credit Hrs: 3.00

15GRMN570**Beginning German I for Graduate Students**

Instruction in Beginning German for graduate students; linked to the undergraduate course German 111. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15GRMN571**Beginning German II for Graduate Students**

Instruction in Beginning German for graduate students; linked to the undergraduate course German 112. Prereq: 15GRMN570. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15GRMN561**Extended Basic German I for Graduate Students**

Graduate course number for students attending courses in the undergraduate Extended Basic German sequence. Linked to 15GRMN111. Credit Level: G. Credit Hrs: 3.00

15GRMN562**Extended Basic German II for Graduate Students**

Graduate number for students attending courses in the undergraduate Extended Basic German sequence. Linked to 15GRMN112. Prereq: 15GRMN561. Credit Level: G. Credit Hrs: 3.00

15GRMN563**Extended Basic German III for Graduate Students**

Graduate number for students attending courses in the undergraduate Extended Basic German sequence. Linked to 15GRMN113. Prereq: 15GRMN562. Credit Level: G. Credit Hrs: 3.00

15GRMN564**Basic German I for Graduate Students**

Graduate number for students attending courses in the undergraduate Basic German sequence. Linked to German 101. Credit Level: G. Credit Hrs: 5.00

15GRMN565**Basic German II for Graduate Students**

Graduate number for students attending courses in the undergraduate Basic German sequence. Linked to 15GRMN102. Prereq: 15GRMN564. Credit Level: G. Credit Hrs: 5.00

15GRMN566**Basic German III for Graduate Students**

Graduate number for students attending courses in the undergraduate Basic German sequence. Linked to 15GRMN103. Prereq: 15GRMN564. Credit Level: G. Credit Hrs: 5.00

15GRMN567**Extended Basic German IV for Graduate Students**

Graduate number for students attending courses in the undergraduate Extended Basic German sequence. Linked to 15GRMN114. Prereq: 15GRMN563. Credit Level: G. Credit Hrs: 3.00

15GRMN568**Extended Basic German V for Graduate Students**

Graduate number for students attending courses in the undergraduate Extended Basic German sequence. Linked to 15grmn115. Prereq: 15GRMN567. Credit Level: G. Credit Hrs: 3.00

15GRMN569**Extended Basic German VI for Graduate Students**

Graduate number for students attending courses in the undergraduate Extended Basic German sequence. Linked to 15GRMN116. Prereq: 15GRMN568. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

German**15GRMN701****Middle High German**

An introduction to MHG grammar and syntax. Keyed to selected literary texts. Credit Level: G. Credit Hrs: 4.00

15GRMN702**Film and Modernity: Weimar and Nazi Cinema**

Focuses on German cinema during the Weimar Republic and the Third Reich. It examines continuities and breaks between these two periods and emphasizes the ways in which filmmakers sought to come to grips with modernity via this most modern of media. Films include: The Cabinet of Dr. Caligari, Metropolis, People on Sunday, Triumph of the Will, Jud Süss, Muenchhausen and others. The most important scholarship on German film from the 1920s to the 1940s will also be discussed. Credit Level: G. Credit Hrs: 4.00

15GRMN704**Advanced Middle High German Readings**

Building upon course #701 (Introduction to Middle High German), this course will increase students' familiarity with the literature of the period ca. 1170-1450 by close study of selected major authors, works or groups of works. It will hone students' linguistic and analytical skills and will lead to a deeper understanding of the historical, cultural and intellectual background, from whence this literature sprang. Credit Level: G. Credit Hrs: 4.00

15GRMN710**Writing the Berlin Republic: German Literature after the Fall of the Wall**

Contemporary German literature that addresses the fall of the Berlin Wall and its aftermath; East and West German perspectives. Credit Level: G. Credit Hrs: 4.00

15GRMN714**Nature's Authority: Literary Approaches From Goethe to Sebald**

Examination of literary approaches to "nature's authority" in the works of Goethe & Sebald, and in the works of other writers & thinkers of the 19th and 20th centuries. Credit Level: G. Credit Hrs: 4.00

15GRMN715**Early Modern German Literary Culture: Texts and Contexts**

Issues of religion, society, politics, rhetoric, poetics, and representational art in the literary imagination of the early modern era (1500-1700). Perm of Department. Credit Level: G. Credit Hrs: 4.00

15GRMN716**Franz Kafka**

Examines the works of Franz Kafka (novels, short stories, diaries) as well as later adaptations of these texts in film and literature; explores a broad range of scholarship on Kafka and discusses very different ways in which he has been interpreted. Credit Level: G. Credit Hrs: 4.00

15GRMN717**Imagining Crime: The Case of Weimar Germany**

An investigation of ways in which Weimar Germany imagined itself in terms of the figure of the criminal. Credit Level: G. Credit Hrs: 4.00

15GRMN718**Topics Medieval**

Examination of issues pertinent to medieval literature. Credit Level: G. Credit Hrs: 4.00

15GRMN719**Literary Nationalism**

The fostering of "Germanness" and national identity in literary and cultural texts of the late 18th and the 19th centuries. Writers include Herder, Goethe, Schiller, von Arnim, Brentano, Fichte, Heine, and (Richard) Wagner. Credit Level: G. Credit Hrs: 4.00

15GRMN720**Cities: Space, Narrative, Representation**

Explores the city as one of modernism's most important sites and examines what transformations it undergoes in the age of globalization. Readings include major novels from the German and European tradition

German**15GRMN720****Cities: Space, Narrative, Representation**

as well as theoretical texts. Credit Level: G. Credit Hrs: 4.00

15GRMN725**The Classics in Contemporary German Theatre**

Addresses the reception, interpretation and performance of classical dramas on the contemporary German stage. After a general introduction to the plays under consideration, the course focuses on the history of reception of these pieces on the stage and in film. Examples are Lessing's Emilia Galotti, Schiller's Kabale und Liebe, Goethe's Faust I, and Kleist's Der Zerbrochene Krug. Credit Level: G. Credit Hrs: 4.00

15GRMN726**Turn-of-the-Century Literature and Culture**

Explores literature and culture of the turn of the century (1890-1910). Special emphasis on evolving notions of femininity and masculinity; psycho-analysis; and social concerns. Credit Level: G. Credit Hrs: 4.00

15GRMN727**"Do What You Please" - E. Jelinek & post-dramatic Theatre**

Elfriede Jelinek is considered the leading dramatist of the 1990's. The seminar focuses on selected recent plays by Jelinek, most of which can no longer be considered dramas in the conventional sense. The course explores how Jelinek expresses social criticism in her plays and asks if her political agenda contradicts the tendency of post-dramatic theater to deny the representability of the world. Credit Level: G. Credit Hrs: 4.00

15GRMN730**German Early Modern Literary Culture (1500-1730)**

Introduces graduate students to German-language literary culture during the early modern period (1500-1700). Credit Level: G. Credit Hrs: 4.00

15GRMN732**The Works of W G Sebald**

Examines the literary and stylistic writings of W. G. Sebald and discusses their place in and view of the European cultural tradition. Credit Level: G. Credit Hrs: 4.00

15GRMN733**Seminar I - Max Kade Distinguished****Visiting Professor**

Graduate seminar taught by the Max Kade Distinguished Visiting Professor. See departmental registration tips for details. Credit Level: G. Credit Hrs: 4.00

15GRMN734**Seminar II- Max Kade Distinguished****Visiting Professor**

Graduate seminar taught by the Max Kade Distinguished Visiting Professor. See departmental registration tips for details. Credit Level: G. Credit Hrs: 4.00

15GRMN739**Topics in 20th-Century Literature**

An interpretive evaluation of works by selected authors from the 20th-century. Credit Level: G. Credit Hrs: 4.00

15GRMN740**Topics in German Literature and Culture**

Contact department. Credit Level: G. Credit Hrs: 4.00

15GRMN744**German Mythology**

This course examines Germanic and Norse mythology. We will begin with the earliest recorded stories, continue through the 19th-century revival of mythology, and conclude with an examination of 20th-century mythological texts. In addition to understanding these texts as aesthetic objects, a major component of the course will focus on the ways in which mythology has been placed in the service of various ideologies. Credit Level: G. Credit Hrs: 4.00

German**15GRMN745****German Medievalism**

Explores modern literature with a medieval background or subject matter, and modern reworkings of medieval literature Credit Level: G. Credit Hrs: 4.00

15GRMN746**The Historical Novel**

The Historical Novel has made a come-back in contemporary German literature. Combining fact and fiction, the genre aspires to a higher degree of realism than other novel forms while at the same time taking literary license with historical events. This seminar offers an introduction to the Historical Novel and asks why and in what form it returns in recent literature. Participants will read Historical Novels from the early 19th to the early 21st century. Readings also include theoretical works on the subject. Credit Level: G. Credit Hrs: 4.00

15GRMN747**German Poetry (1800-2000)**

Focuses on German poetry of the 20th century with a necessary prelude on Goethe and 19th century developments. The survey will consider both thematic and formal aspects, even as the texts are discussed in terms of literary Kultur- geschichte. Credit Level: G. Credit Hrs: 4.00

15GRMN759**German Literature's Bestiary**

Examines the relationship between humans and animals as reflected in German literature from the 18th to the 20th century. Credit Level: G. Credit Hrs: 4.00

15GRMN771**Master's Thesis Research**

Offered ea. qtr. Credit Level: G. Credit Hrs: 1.00-9.00

15GRMN794**GTA Orientation in German**

Orients graduate teaching assistants to the German Studies Department's teaching policies, procedures, methods and materials. Meets for two or three weeks before fall classes begin. Credit Level: G. Credit Hrs: 4.00

15GRMN803**Contemporary German Literature I**

At some point between the late 1980s and the mid- 1990s, post-war German literature came to an end. A new generation of writers took the place of a relatively small group of canonical authors in both East and West Germany. In short sequence, the search for the "Wunderroman," the celebration of "Frauleinwunderliteratur," the advent of pop-literature, and the appearance of Germans as victims in literary texts occupied readers and critics. Credit Level: G. Credit Hrs: 4.00

15GRMN804**Contemporary German Literature II**

Over the course of two quarters, this research seminar will examine the paradigm shift from post- war literature to post-wall literature and investigate its conditions and assumptions. In addition to reading a representative range of primary texts, we will also immerse ourselves in some of the literary debates of the 1990s and beyond, including but not limited to the "Christa- Wolf-Debatte" and the question whether one can speak of GDR-literature after the fall of the wall. Credit Level: G. Credit Hrs: 4.00

15GRMN805**Literary Nationalism I**

The fostering of "Germanness" and national identity in literary and cultural texts of the late 18th and the 19th centuries. Writers include Herder, Goethe, Schiller, von Arnim, Brentano, Fichte, Heine, and (Richard) Wagner. Credit Level: G. Credit Hrs: 4.00

15GRMN806**Literary Nationalism II**

The fostering of "Germanness" and national identity in literary and

German**15GRMN806****Literary Nationalism II**

cultural texts of the late 18th and the 19th centuries. Writers include Herder, Goethe, Schiller, von Arnim, Brentano, Fichte, Heine, and (Richard) Wagner. Credit Level: G. Credit Hrs: 4.00

15GRMN807**Research Seminar: Film and History**

Survey of German film history from earliest cinema to the present, with emphasis on how film confronts (and avoids confronting) German history. Readings in major schools of film theory. Students practice research skills required of academics Credit Level: G. Credit Hrs: 4.00

15GRMN808**German Romanticism and its Legacy I**

The first quarter of this research seminar examines a number of literary and theoretical texts in order to distinguish some of the main themes typically associated with the different "schools" of Romanticism, such as the dedication to a decidedly "Romantic" form of Bildung in the works of the Jena group and an emphasis on themes such as Heimat, violence, the supernatural, nationalism and nature mysticism in those later groups. Credit Level: G. Credit Hrs: 4.00

15GRMN828**The City in Literature: Narrative Representation and Representative Space**

Cities are places where people live but they are also imagined in literature and film. This course explores the city as one of modernism's most important sites and examines what transformations it undergoes in the age of globalization. A major focus on Berlin. Credit Level: G. Credit Hrs: 4.00

15GRMN831**German-Jewish Literature**

Examination of the various positions that Jewish culture has occupied within modern German culture. Topics include: the holocaust, the question of a German-Jewish "symbiosis" and the complex relationship between gender and Jewish identity. Fiction, essays, films and recent scholarship. Credit Level: G. Credit Hrs: 4.00

15GRMN832**Approaches to G. Grass's "Die Blechtrommel."**

A close examination of what is often considered to be the most important novel in post-war Germany. Various methodologies will be applied, not only to gain an understanding of the novel's contents, but also to test the validity of interpretive approaches, to include intermedial (art & literature) techniques. Credit Level: G. Credit Hrs: 4.00

15GRMN833**G. Grass Short Prose**

As a follow-up to the prior quarter's focus on Grass's novel "The Tin Drum," this course evaluates Grass's short prose works (from "Katz und Maus" to "Im Krebsgang"), many of which are keyed to the motifs and issues introduced in "The Tin Drum." Each student will write an extended research paper and present his / her findings for peer critique. Credit Level: G. Credit Hrs: 4.00

15GRMN834**German Romanticism and Its Legacy I**

After several decades of relative neglect, the literature and culture of the early 19th century are attracting increased attention, and a consensus is developing that encompassing definitions are in most cases inadequate. In the first quarter of this seminar, we will examine a number of literary and theoretical texts in order to identify some of the main themes typically associated with the different 'schools' of Romanticism. Credit Level: G. Credit Hrs: 4.00

15GRMN835**German Romanticism and its Legacy II**

During the second quarter we will concentrate on texts from the twentieth century in which a 'romantic' legacy lives on. Credit Level: G. Credit Hrs: 4.00

History**15HIST514****North America in the Atlantic World 1689-1763**

Mississippi valley to the Atlantic coast, from 1689 to 1763. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST515**Antisemitism**

Introduces students to the definitions, themes, and manifestation of Antisemitism from the Ancient World to the present. Cross-listing with JUDC510 BoK: HP., SE. Credit Level: U, G. Credit Hrs: 3.00

15HIST516**History of American National Security Policy**

A history of American foreign policy in the nineteenth century to the failure of the Treaty of Versailles including the conduct of American diplomacy and the development of appropriate supporting military and naval policies. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST517**History of American National Security Policy**

b BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST518**History of American National Security Policy**

Investigation in depth of critical historical issues in American foreign policy. Individual research and group participation in class discussion required. Perm. of instr. required. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST519**Coming of the American Civil War, 1848-1860**

Ways of life among Americans of the Antebellum eras, slavery and anti-slavery, reasons for sectional conflict leading to secession and war. Prereq: 15HIST111. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST520**American Civil War, 1861-1865**

Comparison of the Union and Confederate governments; military, diplomatic, economic, and social factors leading to collapse of Confederacy; Black people in the War. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST521**U.S. Reconstruction**

Reunion of North and South after Civil War, failure of Southern Reconstruction, and Black people after slavery. How the limits of reunion shaped America to the present. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST522**The Age of Jefferson**

Explores some of the major features of "Jeffersonianism" and its contributions, the relationship between various considerations in understanding the successes and failures of Jeffersonian's ideas as influences that persisted or disappeared in American life. BoK: DC., HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST523**The New Nation: 1789-1819**

Federalists and Jeffersonians: origin of political parties; War of 1812. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST524**Age of Jackson**

Explores several important issues during the early American republic, from 1812 to about 1850, including rapid economic growth, expansion westward, democratization of politics, the reorganization of the workplace, religious revivalism, reform and slavery. BoK: HP., SE. Credit Level: U, G. Credit Hrs: 3.00

15HIST525**Space, Place and Things: The Material Culture of American History**

This course will focus on material culture of America's past, the objects and built environments that can serve as evidence of social trends, just

History**15HIST525****Space, Place and Things: The Material Culture of American History**

as diaries and letters do. These things will be examined as artifacts that were both products of the American past and, in their day, the means by which daily life and labor was made possible. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST526**Issues in Historic Preservation**

This capstone course considers issues confronted by preservation professionals and advocates. Through a series of case studies, students engage problems of historic interpretation, political meaning, and economic viability within the ethnic of historic preservation. Faculty from the several schools and departments that support the Certificate Program in historic preservation select case studies to reflect the diversity of challenges facing preservationists, with particular focus on contemporary, urban cases. Prereq: 23ARCH528. BoK: HP, SE. Credit Level: U, G. Credit Hrs: 3.00

15HIST527**History of Architecture in the Cincinnati Area**

Illuminates the history of metropolitan Cincinnati through the study of architectural developments, architects and engineers and their clients, landmarks, and districts. The extensive use if both old and recent images throws vivid light on the manmade environment. environment. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST528**Human Rights and US Foreign Relations**

Investigates the major ideologies, movements, and laws from the American Revolution through the Spanish-American Wars that both helped to define American foreign relations during this era and later gave rise to the modern human rights regimes of the 20th and 21st centuries. Topics include the growth of international and universal rights claims, protective personhood, anti-slavery movements, and the international humanitarian law of war. BoK: HP., SE. Credit Level: U, G. Credit Hrs: 3.00

15HIST529**Human Rights and U.S. Foreign Relations II**

Investigates the roles that American people and institutions played in developing a modern regime of human rights as a way to respond to the international effects of mass warfare, genocide, persecution, and poverty since World War I. Topics include comparisons to human rights approaches of other countries and cultures. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST530**Exporting Humanitarian Aid**

Investigates the relief, rehabilitation, and development initiatives implemented by nongovernmental organizations, the U.S. government, and intergovernmental organizations in the "long" 20th century in response to humanitarian crises. While often related to parallel developments in the field of human rights, the phenomena covered in this course are more concerned with such "on-the-ground" issues as the mobilization of material resources, "public-private" governing strategies, and the "soft" power of foreign aid. BoK: HP., SE. Credit Level: U, G. Credit Hrs: 3.00

15HIST531**Women in India and China to 1800**

An examination of women's experiences in two countries which contain over half of the world's population and have richly complex civilizations that extend for over four millennia. al, religious, and literary sources. We will also explore women's roles as divinities and devotees in various traditions of Hinduism, Buddhism, and Taoism, BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST532**Women in China and India Since 1800**

See 15-075-531. Since 1900. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

WWII MILITARY HIST BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST544**The American South to 1865**

This course will explore the major developments in the history of the American South from its colonial origins through the Civil War. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST545**The American South Since 1865**

This course will explore the major developments in the history of the American South from the end of the Civil War to the present. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST546**Museums and Collecting**

What are museums for? Who do they serve? Where does their authority to make claims about the world come from? Explores

History**15HIST546****Museums and Collecting**

collecting and objects as a means for creating and organizing knowledge from the fifteenth century to the present, first in Europe and then in the United States. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST547**Art/Race and Nation: Citizenship and Identity in the United States**

Will examine the construction of American identity and citizenship through a study of sculpture, painting, photography and emblematic imagery in social, cultural, political, and scientific contexts, from the early Republic to the 1990s. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST548**Race and Science in the United States**

Examines the way scientific concepts and practices have defined racial difference in the US. Spanning the 19th and 20th centuries, the course seeks to better understand the multiple, shifting meanings and uses of race and the participation of the biological, medical and social sciences in constructing them. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST549**American Labor History I**

Two-quarter course exploring the economic, social, political, and cultural significance of labor in American history, through a particular focus on the emergence and course of labor movements. The first quarter ends with the institutional legitimization of labor organizations in the twentieth century and the second continues to the present. BoK: HP., SE. Credit Level: U, G. Credit Hrs: 3.00

15HIST550**American Labor History II**

Two-quarter course exploring the economic, social, political, and cultural significance of labor in American history, through a particular focus on the emergence and course of labor movements. Continuation of 15HIST549. BoK: HP., SE. Credit Level: U, G. Credit Hrs: 3.00

15HIST551**The Reformation**

The Calvinist Reformation, the Religious Wars, religious orthodoxy and political absolutism, witchcraft, and the Scientific Revolution. The first of a two-quarter course. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST552**The Reformation**

The Calvinist Reformation, the Religious Wars, religious orthodoxy and political absolutism, witchcraft, and the Scientific Revolution. The second of a two-quarter course. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST553**United States, 1875-1900**

An analysis of the so-called Gilded Age, with an emphasis on its economics, politics, and the changing nature of society and its institutions in a period of massive economic change. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST554**United States, 1900-1920**

Economic, political and social developments, with particular emphasis upon the rise of progressivism, the emergence of interventionist foreign policy, the significance of American entrance into World War I, and the emergence of new movements of wage workers. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST555**U.S. in the Twentieth Century: 1912-1940**

From the Progressive Era through the New Deal, including World War I and the Great Depression. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

History**15HIST556****The Great Depression in America 1929-1941**

The Great Depression touched all aspects of American life, from questions of class, race, and gender to the transformation of political power. Covering the years 1929 through 1941, this course will employ not only traditional historical sources, but will examine the period through its music, theatre, literature, and film. BoK: HP., SE. Credit Level: U, G. Credit Hrs: 3.00

15HIST557**U.S. in the Twentieth Century: 1960-Present**

From John Kennedy to the present; including the Civil Rights Revolution, the Vietnam War, and the economic dislocations of Post-Industrial America. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST558**Nationalism, Liberalism and the (Re) Making of Europe, 1815-1919**

Examines how the ideologies of nationalism and liberalism interacted to reshape the intellectual framework and ultimately the map of Europe through the long nineteenth century. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST559**Fascism in Europe**

Examines different fascist and national socialist regimes in the period 1918-1945; their historical roots, their bases of support, their methods of gaining power and their ideologies in theory and practice. Concludes with an examination of extreme right-wing parties and movements in Europe today. BoK: HP., SE. Credit Level: U, G. Credit Hrs: 3.00

15HIST560**Communism in Europe**

Examines different communist and anarchist parties and regimes in Europe in the twentieth century; their historical roots, their bases of support, their methods of gaining power and influence and their ideologies in theory and practice. Concludes with an examination of extreme left-wing parties and movements in Europe today. BoK: HP., SE. Credit Level: U, G. Credit Hrs: 3.00

15HIST561**Women in European Society, 1600-1850**

Discussion of economic, political, social, and intellectual development in European women's history. Emphasis on women's role in the early modern economy, her place in the household, her limited educational opportunities, and early feminist appraisal of women's lives. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST562**Women in European Society, 1850-present**

Concentrates on the effect of the Industrial Revolution on women's lives, the growth of an organized women's movement, and women's public activities and employment during the 20th century. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST563**Film and India: Empire and Nationalism**

Explores how the past is recorded, reconstructed, and projected in films, newsreels, and documentaries about the British Empire in India, the evolution of Indian nationalism, and the efforts to create independent India. BoK: DC., HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST565**Tudor England, 1488-1603**

An in-depth survey of the reigns of the Tudors from Henry VII through Elizabeth I. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST566**Stuart England, 1603-1714**

An in-depth survey of the reigns of the Stuarts from James I through Queen Anne. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

History**15HIST567****History of the Arab-Israeli Conflict**

This course traces the origins of the Arab-Israeli conflict from the end of the 19th century when the Palestinian province of the Ottoman Empire became the object of Jewish settlement. Review of the 1956, 1967, and 1973 conflicts. Will assess the prospects for a regional peace settlement. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST568**Nationalist Conflict in the Former Russian and Ottoman Empires: 19th Century to the Present**

The course examines the process of state formation and the development of nationalist ideologies in the former Russian and Ottoman Empires. A comparative historical approach is used to explore the rise of nationalism in such diverse areas as Eastern Europe, the Balkans, Transcaucasia, Central Asia and the Near East -- all areas where nation-building occurred later than in Western Europe and the problems of artificial borders and polyglot societies have remained intractable until present. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST570**The Making of the Modern Middle East**

War and peacetime developments in the Middle East from the mid-19th century to the present, primarily focusing on political, social, economic, and cultural sources. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST571**Media and Middle East History**

How North Americans and Europeans learn about the Middle East, and how Middle East peoples present themselves to each other and to the outside world, through telegraph, photography, newspapers, magazines, radio, television, and the internet. Freedom of inquiry and censorship as themes in Middle East history. BoK: DC., HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST572**Film and Middle East History**

Cinema about and from the Middle East and North Africa. Development of "Orient" as theme in modern Western cinema; creation of film industry in Middle East. Sources include film studies, newsreels, documentaries, and feature films from early 20th century to today. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST574**India to 1526**

3 ug. cr. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST575**Indian Empires: 1526-1905**

3 ug. cr. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST576**20th Century South Asia**

3 ug. cr. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST577**U.S. Immigration to 1880**

A discussion of the nature of migration and the role of immigrants and their descendants in United States history from colonial times to the present. Treats period to c. 1880. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST578**U.S. Immigration 1880-Present**

A continuation of Hist. 577. From c. 1880-present. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST579**Topics in African World Studies**

Introduces students to the history of the African presence in Europe 1440-1800. It begins with the Portuguese voyages down the West African coast, continuing with and to the end of the Atlantic slave trade.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

History**15HIST579****Topics in African World Studies**

Roles and places of Africans in European society will be examined.

BoK: DC., HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST580**African American History to 1861**

Explores major themes in African American History up to 1861.

Beginning on the African continent, this course follows African captives across the Atlantic and examines their experience in bondage. Topics covered include development of African American culture and identity and resistance to slavery. BoK: SE., HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST581**African American History 1861-1941**

Surveys the major themes in African American History from the Civil War to WWII. We will examine how freedom expanded and contracted for African Americans as well as how equality has been largely elusive. Topics explored include reconstruction, institution building, Harlem Renaissance, racial violence, and great migration. BoK: DC., HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST582**African American History 1941-Present**

Intensive survey of major themes and ideology in African American history from WWII to the present. We will examine political, economic, and spiritual strategies African Americans used to combat racism and discrimination. We will study the contracted freedom struggles in their many forms, including the civil rights movement, the Black Power movement, and the Black Feminist movement. BoK: DC., HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST583**African American History and Film**

We will examine and critique the ways African Americans and their history has been portrayed on film. We will use actual history and primary sources to critique how that history has been reimagined and reinvented by Hollywood for popular consumption. We will also examine how African Americans have been stereotyped and represented across time. BoK: DC., HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST584**U.S. and the World: Civil War to WWII**

Examines the recent trend in U.S. historiography to "internationalize" wider swaths of American history than typically attempted in much previous scholarship. From the U.S. Civil War to WWII, topics considered include emancipation, U.S. imperialism, war, diplomacy, statecraft, race, gender, science, consumerism, labor, citizenship, and migration. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST585**U.S. and the World: WWII to Present**

Examines the recent trend in U.S. historiography to "internationalize" wider swath of American history than typically addressed in much previous scholarship. From WWII to present, topics considered include U.S. global hegemony, war, diplomacy, protest, propaganda, gender, citizenship, and migration. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST587**African American Women's History**

Chart black women's unique experience in America from slavery to the present. Examine how black women have confronted the multiple jeopardies of race, gender and class at various points in this history. Will deconstruct the various stereotypes that have shaped how society has perceived African American women across time. Topics include black women and work, black feminism, black women's activism, and black women's representations in modern media BoK: SE., DC. Credit Level: U, G. Credit Hrs: 3.00

History**15HIST588****Survey of Caribbean History**

An overview of Caribbean History 1492 to the present explores how distinctive cultural and colonial heritages (Spanish, British, French, Dutch, Danish, United States) shaped historical development. Topics include first contacts, piracy, sugar and slavery, de-colonization, the U.S. as a Caribbean power, revolutions (Cuba, Grenada). BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST591**Individual Work**

To be arranged. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15HIST592**Individual Work**

To be arranged. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15HIST593**Individual Work**

To be arranged. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15HIST594**Italian Renaissance**

3 ug. cr. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST595**Renaissance in Europe, 1500-1600**

Course follows Italian Renaissance. Development of court culture; examination of courtly behavior; extensive reading in the literature of the European Renaissance. Prereq: 15HIST594. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST596**Comparative Working Class History**

Explores the comparative roles of labor movements in the United States, France, Germany, and other western societies. Focus is on the differing impacts of workers' organizations on the economic, social, and political lives of the wider societies from the eighteenth century through the First World War. BoK: HP., SE. Credit Level: U, G. Credit Hrs: 3.00

15HIST597**Terrorism and Counter-Terrorism in Europe, 1789- 1945**

This course will examine terrorism from a theoretical perspective and examine a range of terrorist groups and counter-terrorist methods from the French Revolution to the Allied occupation of Germany in 1945. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST598**Terrorism and Counter-Terrorism in the Modern Era, 1945-the Present**

This course examines how terrorism has emerged, evolved and expanded from a global perspective as well as providing a theoretical analysis. It will also examine specific case studies from 1945 to the present day. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST599**Introduction to Mediterranean History**

Familiarizes students with the role of the Mediterranean Sea as a connector and divisor of an array of civilizations that started and flourished along its coast from pre-classical to early modern times. Also explores problems defined in recent years related to this area. BoK: DC., HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST600**Topics in Latin American History**

This course will concentrate on ten topics in Latin American history from the colonial period through the 19th century. Students will read intensively on each topic and engage in lengthy analysis and discussion. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST601**Modern Mexico**

Examines the history of Mexico from independence to the present,

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

History**15HIST601****Modern Mexico**

emphasizing Mexico's path to national consolidation, struggles for political and economic justice, both by diverse sectors of the population and as a country within the world economy. BoK: DC., HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST602**Drugs and the Supernatural in the Americas**

This course will examine the roots of today's war on drugs from the 16th century to the present. Long standing links between drugs and understandings of the supernatural will be examined. BoK: SE., HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST604**EUROPE 1790-1914**

EUROPE 1790-1914 BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST605**EUROPE 1914-PRESENT**

EUROPE 1914-PRESENT BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST607**The Revolutionary Tradition in France, 1789-1871**

For a century following the Revolution of 1789, France continually experimented with how to create a society based on republican principles and human rights. This course explores this French revolutionary tradition as it impacted both politics and social life. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST608**The Transformation of France, 1871-Present**

From 1871 to the present, France has faced the destruction of two world wars, the advent of a modern consumer society, the end of the French empire, and an inflow of immigrants from Africa and Asia. This course explores these important social and political changes and their repercussions on French national identity today. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST610**Public History Practicum**

Offers a practical orientation to and exploration of various fields encompassed under the rubric "public history." Guest lecturers and the instructor will discuss the possibilities and problems, strategies and skills associated with the wide range of historical practices dedicated to presenting the past to the public. BoK: HP., SE. Credit Level: U, G. Credit Hrs: 3.00

15HIST611**Cities in America, 1625-1900**

Examines the growth of American Cities and the development of an urban culture through the nineteenth century. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST612**History of Cincinnati**

Discusses Cincinnati's place among nation's cities internal form and structure, "neighborhoods", economy, institutions, and politics. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST614**Environmental History of North America to 1900**

A historical study of the changing relationships between human beings and the natural world, including; the effects of the natural world on culture and society; the effects of human activity on the environment; and the changing attitudes of different Americans toward nature. BoK: HP., SE. Credit Level: U, G. Credit Hrs: 3.00

15HIST615**Twentieth-Century American Environmental History and Policy**

A historical analysis of the changing American environment and the development of American environmentalism in the twentieth century. BoK: HP., SE. Credit Level: U, G. Credit Hrs: 3.00

History**15HIST615****Twentieth-Century American Environmental History and Policy**

A historical analysis of the changing American environment and the development of American environmentalism in the twentieth century. BoK: HP., SE. Credit Level: U, G. Credit Hrs: 3.00

15HIST616**Twentieth Century American Cities**

This course will focus on the changing structure of American urban society throughout the twentieth century. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST630**HIST RESCH&COMPUTE**

HIST RESCH&COMPUTE BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST641**Eastern Europe**

3 ug. cr. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST642**Eastern Europe**

3 ug. cr. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST645**Eighteenth-Century Britain**

An examination of themes and topics in British society, culture, politics, and economics from the parliamentary creation of 'Great Britain' in 1707 to its newly negotiated relationship with Ireland and continental Europe during the French Revolutionary and Napoleonic wars. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST646**19TH CENT BRITAIN**

19TH CENT BRITAIN BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST647**Twentieth-Century Britain**

Themes and topics in British society, culture, and policies during the twentieth century. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST648**Masculinities in Britain and America since 1850**

Explores what it was meant 'to be a man' in 19th and 20th century Britain and USA. Examines changes and continuities in configurations of masculinity as they have been manifested in the spheres of the home, the workplace, politics, militarism and sexuality, and represented in media of popular culture. The relational aspect of gender, with masculinity discussed consistently in relation to femininity. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST650**WOMEN WRITERS OF THE RENAISSANCE**

Lecture/discussion course involving close reading and discussion of the humanist works of female writers working in Renaissance Europe, primarily Italian but others as well BoK: DC., HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST659**European Diplomatic History: 1919-Present**

3 ug. cr. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00

15HIST661**China from Prehistory to the Ninth Century**

This course covers the survey of Chinese history from the paleolithic period to early modern China. The focus is on how China evolved institutions, political philosophies, and an economy that gave rise to an imperial system dominated by a theoretical all-powerful emperor assisted by a centralized bureaucracy based on a competitive civil service examination system. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

History**15HIST662****China from the 9th to the 19th Century**

This course continues the survey of Chinese history from medieval China to the threshold of Modern China. The interpretive issues are how China achieved early "modernity" when compared to medieval Europe, and how it "stagnated". BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST663**Chinese History: Age of Revolution, 1874 to present**

Chinese efforts to modernize their state and society. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST664**Rise of Modern Japan: 1830-Present**

A survey of Japan from the mid-eighteenth century to the present, with emphasis on how the Japanese society, culture, and economy underwent rapid transformation. Translation of Japanese works will be assigned as texts for discussion. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST670**An Introduction to Roman Private Law**

A course in Roman Private Law. It is designed to introduce students to a complex and sophisticated legal system that is in many ways fundamentally different from our own, but which affords a valuable historical and philosophical perspective for students of modern law. Two lectures, one discussion section per wk. BoK: HP. Credit Level: U, G. Credit Hrs: 3.00-4.00

15HIST675**Russia**

The rise of Moscow as a new center of power. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST676**Russia**

Russia in the 18th century. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST677**Russia Under the Old Regime: 1800-1894**

Russia under the Old Regime from 1800-1894. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST678**Russia between Reform and Revolution, 1855-1917**

This course provides an overview of Russia during the last decades of tsarist rule and focuses both on key issues relating to Russia's general social, economic, cultural, and political development as well as on the stories of prominent figures of the period such as Tolstoy, Dostoevsky, Lenin, and Russia's last tsar, Nicholas II. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST679**Soviet Union Under Stalin and His Successors: 1924-Present**

Russia 1917 to present BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST680**History of Sexuality in American**

A social history of sexuality in the United States from the eighteenth century to the present. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST683**Gender and Latin American History to 1900**

Explores relationships between men, women and in the family from precontact Latin America through the nineteenth century. Topics include gender in Pre-Columbian indigenous societies, in Spain, during the conquest. Other themes include gender and sexuality, illegitimacy, the family, and male and female occupations (priesthood, military, female religious, economic pursuits). BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

History**15HIST684****Gender and Latin American History After 1900**

Explores relationships between men, women and in the family during the twentieth century in Latin America. Topics include the gendered nature of popular culture, work, politics, suffrage, feminism, revolution and terrorism. BoK: HP., DC. Credit Level: U, G. Credit Hrs: 3.00

15HIST700**Language Intensive Reading**

Taken concurrently with a course numbered 500 or above and listed in the Department of History's Guide to History Courses as available for "language intensive credit." Two credit hours will be awarded to the student who, in his or her work in the concurrent course, conducts at least 50% of the reading in a language other than English. Credit Level: G. Credit Hrs: 2.00

15HIST703**U.S. Women's History**

To 1890. Work, sexuality, and family life; class, racial, and ethnic diversity; participation in politics, social reform and feminist movements. Additional reading and writing assignments for graduate students. Credit Level: G. Credit Hrs: 3.00

15HIST704**U.S. Women's History**

From 1890 to present. Additional reading and writing assignments for graduate students. Credit Level: G. Credit Hrs: 3.00

15HIST707**Latin American Film and History to 1900**

Introduces students to Latin American History and culture through film, readings, class discussion and lectures. Goal is to explore significant influences which have molded Latin American History from the conquest to the twentieth century. Credit Level: G. Credit Hrs: 3.00

15HIST708**Latin American Film and History After 1900**

Introduces students to the current history of Latin America through an exploration of contemporary revolutions. The term "revolution" is contoured widely to encompass not only revolutions from the left, such as Cuba, but those from the right (Argentina.) Also included are movements that bring revolutions in mores, attitudes or gender roles. Credit Level: G. Credit Hrs: 3.00

15HIST710**Fall Graduate Workshop in European Studies**

Introduces students to the methodologies and interdisciplinary approaches to the field of European Studies through a series of bi-weekly workshops (2 hours). Five faculty from three departments will present their work and lead discussion on a common theme. Credit Level: G. Credit Hrs: 6.00

15HIST711**Graduate Seminar in European Studies I**

This seminar will focus on common themes related to European Studies. Students will begin to develop a research topic to be written in Spring Quarter. This is the first part of a two-quarter sequence. Credit Level: G. Credit Hrs: 6.00

15HIST712**Graduate Seminar in European Studies II**

This seminar will focus on a common theme related to European Studies. Students will write a research paper on a topic of their choice and present it at a European Studies conference involving students and faculty. This is the second part of a two quarter sequence. Credit Level: G. Credit Hrs: 6.00

15HIST715**History of Cincinnati**

In this mixed lecture and discussion class students will study Cincinnati's history using important articles and monographs. Particular attention will be paid to industrial development, racial segregation, and suburbanization. Credit Level: G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

History**15HIST716****Fall Graduate Workshop in European Studies**

Introduces students to the methodologies and interdisciplinary approaches to the field of European Studies through a series of bi-weekly workshops (2 hours). Five faculty from three departments will present their work and lead discussion on a common theme. Credit Level: G. Credit Hrs: 6.00

15HIST717**Graduate Seminar in European Studies I**

This seminar will focus on common themes related to European Studies. Students will begin to develop a research topic to be written in Spring Quarter. This is the first part of a two-quarter sequence. Credit Level: G. Credit Hrs: 6.00

15HIST718**Graduate Seminar in European Studies II**

This seminar will focus on a common theme related to European Studies. Students will write a research paper on a topic of their choice and present it at a European Studies conference involving students and faculty. This is the second part of a two quarter sequence. Credit Level: G. Credit Hrs: 6.00

15HIST720**Literature of Middle Eastern and North African History**

Surveys influential and recent scholarly literature on Middle Eastern and North African history. Students are introduced to the practice of reading scholarly works critically and assessing them. Credit Level: G. Credit Hrs: 6.00

15HIST721**Literature of American History 1607-1820**

Surveys influential and recent scholarly literature on American history from 1607 to 1820. Students are introduced to the practice of reading scholarly works critically and assessing them. Credit Level: G. Credit Hrs: 6.00

15HIST722**Literature of American History 1820-1920**

Surveys influential and recent scholarly literature on American history from 1820 to 1920. Students are introduced to the practice of reading scholarly works critically and assessing them. Credit Level: G. Credit Hrs: 6.00

15HIST723**Literature of American History 1920-Present**

This seminar surveys influential and recent scholarly literature on American history since 1920. The students are introduced to the practice of reading scholarly works critically and assessing them. Credit Level: G. Credit Hrs: 6.00

15HIST727**Colloquium in American History**

Surveys influential and recent scholarly literature on a specific topic in American history. Topics change from year to year. Students are introduced to the practice of reading scholarly works critically and assessing them. Credit Level: G. Credit Hrs: 6.00

15HIST728**Colloquium on World History**

Surveys of influential and recent scholarly literature on a specific topic in world history. Topics change from year to year. Students are introduced to the practice of reading scholarly works critically and assessing them. Credit Level: G. Credit Hrs: 6.00

15HIST729**Colloquium on European History**

Surveys recent and influential scholarly works on a specific topic in European history. Topics change from year to year. Students are introduced to the practice of reading scholarly works critically and assessing them. Credit Level: G. Credit Hrs: 6.00

History**15HIST730****Medieval West**

MEDIEVAL WEST Credit Level: G. Credit Hrs: 3.00

15HIST731**The Medieval West**

As an advanced survey, the course will cover significant aspects of the period 500-1500 in Western Europe including trends in religious, political, intellectual, social and economic life. Credit Level: G. Credit Hrs: 3.00

15HIST732**MEDIEVAL WEST**

MEDIEVAL WEST Credit Level: G. Credit Hrs: 3.00

15HIST735**Hitler -- Nazi Party**

Hitler and the founding of the Nazi Party to 1933. Credit Level: G. Credit Hrs: 3.00

15HIST736**Hitler -- Nazi Party**

Hitler and the Nazi Party from 1933-1945. Credit Level: G. Credit Hrs: 3.00

15HIST737**Colloquium on American History**

Surveys influential and recent scholarly literature on a specific topic in American history. Topics change from year to year. Students are introduced to the practice of reading scholarly works critically and assessing them. Credit Level: G. Credit Hrs: 6.00

15HIST738**Colloquium on World History**

Surveys influential and recent scholarly literature on a specific topic in world history. Topics change from year to year. Students are introduced to the practice of reading scholarly works critically and assessing them. Credit Level: G. Credit Hrs: 6.00

15HIST739**Colloquium on European History**

Surveys influential and recent scholarly literature on a specific topic in European history. Topics change from year to year. Students are introduced to the practice of reading scholarly works critically and assessing them. Credit Level: G. Credit Hrs: 6.00

15HIST740**Literature of European History 1000-1300**

Surveys influential and recent scholarly literature of European history from 1000 to 1300. Students are introduced to the practice of reading scholarly works critically and assessing them. Credit Level: G. Credit Hrs: 6.00

15HIST741**Literature of European History 1300-1500**

Surveys influential and recent scholarly literature on European history from 1300 to 1500. Students are introduced to the practice of reading scholarly works critically and assessing them. Credit Level: G. Credit Hrs: 6.00

15HIST742**Literature of European History 1500-1700**

Surveys influential and recent scholarly literature of European history from 1500 to 1700. Students are introduced to the practice of reading scholarly works critically and assessing them. Credit Level: G. Credit Hrs: 6.00

15HIST743**Literature of European History 1700-1870**

Surveys influential and recent scholarly literature of European history from 1700 to 1870. Students are introduced to the practice of reading scholarly works critically and assessing them. Credit Level: G. Credit Hrs: 6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

History**15HIST744****Literature of European History 1870 - Present**

Surveys influential and recent scholarly literature of European History since 1870. Students are introduced to the practice of reading scholarly works critically and assessing them. Credit Level: G. Credit Hrs: 6.00

15HIST746**Gender, Empire and War in Modern Europe**

Introduces students to major developments in gender roles which have taken place in Europe since mid-19th century. Focuses on how gender roles in Europe were profoundly linked to Europe's overseas empires and to the two world wars. Credit Level: G. Credit Hrs: 6.00

15HIST747**Literature of Ottoman History 1650-1918**

Surveys influential and recent scholarly literature of the history of the Ottoman Empire from 1650 to 1928. Students are introduced to the practice of reading scholarly works critically and assessing them. Credit Level: G. Credit Hrs: 6.00

15HIST748**Literature of Latin American History**

Surveys influential and recent scholarly literature on the history of Latin America. Students are introduced to the practice of reading scholarly works critically and assessing them. Credit Level: G. Credit Hrs: 6.00

15HIST749**Literature of Modern Indian History**

Surveys influential and recent scholarly literature on the history of modern India. Students are introduced to the practice of reading scholarly works critically and assessing them. Credit Level: G. Credit Hrs: 6.00

15HIST751**History of Germany: Rise of Modern Germany**

Legacy from the Middle Ages; impact of the Reformation; rise of Prussia and the problem of German particularism. Credit Level: G. Credit Hrs: 3.00

15HIST752**History of Germany: The Nineteenth Century**

Impact of the French Revolution; growth of nationalism, the German Confederation, Austro-Prussian struggle for supremacy; the Bismarckian Empire. Credit Level: G. Credit Hrs: 3.00

15HIST753**History of Germany: 1900-1945**

History of Germany from 1900-1945. Credit Level: G. Credit Hrs: 3.00

15HIST754**History of Germany since 1945**

Post-World War II Germany: the two Germanies and reunification. Credit Level: G. Credit Hrs: 3.00

15HIST755**Atrocities and Memory in the Middle East World War I**

Study of the evidence, the theoretical and comparative studies of atrocities and memory, evolution of human rights discourses, memory of history, and role of memory construction in forming national identities. Extensive primary and secondary source readings, discussions and essays. Credit Level: G. Credit Hrs: 6.00

15HIST756**History of the British Empire, 1763-1947**

Explores the social, cultural, political and economic history of the British Empire in America, Africa, and Asia through travel writings, memoirs, novels, parliamentary reports, newspapers and diplomatic records. Credit Level: G. Credit Hrs: 6.00

15HIST757**Topics in Latin American History I**

This course examines major historiographical themes in modern Latin American History. Credit Level: G. Credit Hrs: 6.00

History**15HIST758****Topics in Latin American History II**

This course examines major historiographical themes in modern Latin American History. Credit Level: G. Credit Hrs: 6.00

15HIST760**Historical Methodologies**

Introduces students to the theoretical and practical challenges intrinsic to historical research. Credit Level: G. Credit Hrs: 6.00

15HIST761**Colloquium on Comparative Historiography**

This required course will focus on feature of comparative historiography as a foundational element within the doctoral program in History, while also being available for MA students. Credit Level: G. Credit Hrs: 5.00

15HIST762**Comparative Colloquium**

Surveys influential and recent scholarly literature on a specific topic in a comparative perspective that involves two or more geographical areas or time periods. The topics will vary from year to year. Students are introduced to the practice of reading historical works critically and in comparative perspective. Credit Level: G. Credit Hrs: 6.00

15HIST764**Introduction to Public History: Presenting the American Past**

Examines the role of memory and commemoration, of past and present, in American society and the practice of history; the significance of place and material culture in presenting the past; the problem of how to represent past events, actors and ideas visually and textually; and the relationships between content, medium and audience in US History. Credit Level: G. Credit Hrs: 6.00

15HIST765**Public History Internship**

Practical professional experience, under the guidance of specialists, at an institution whose purposes and activities are related to an area of public history (i.e., historic preservation, museums, archives). Terms and hours will be arranged with individual students, institutions and faculty supervisors. Credit Level: G. Credit Hrs: 3.00-6.00

15HIST766**Public History Internship**

Allows history students to gain experience through reality-based learning. Credit Level: G. Credit Hrs: 1.00-6.00

15HIST771**Roman History: Early Rome**

Origin of the Roman state; evolution of public and social institutions; foreign policy and expansion through the period of the Middle Republic. Credit Level: G. Credit Hrs: 4.00

15HIST772**Roman History: Late Republic**

Internal and foreign affairs of the Roman state from the time of the Gracchi to that of Julius Caesar and the end of the Republic. Credit Level: G. Credit Hrs: 4.00

15HIST773**Roman History: Empire**

Political, social, economic history of the Roman Empire from Augustus to the Antonines. Credit Level: G. Credit Hrs: 4.00

15HIST774**Archaic Greece**

The collapse of Bronze Age civilization; the Dark Age; social differentiation and origin of the polis; colonization; the constitutional development of Sparta and Athens to the end of the sixth century. Credit Level: G. Credit Hrs: 4.00

15HIST775**Greece: Pericles**

Greece: The age of Pericles and the fourth century. The social and political history of Greece in the fifth and fourth centuries B.C. Prereq: 15HIST101, 15HIST102, 15HIST103. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

History**15HIST775****Greece: Pericles**

Greece: The age of Pericles and the fourth century. The social and political history of Greece in the fifth and fourth centuries B.C. Prereq: 15HIST101, 15HIST102, 15HIST103. Credit Level: G. Credit Hrs: 4.00

15HIST776**Greece: Hellenistic**

Greece: Alexander the Great and the Hellenistic Period. The social and political history of the Greek world in the fourth to the second centuries B.C. Credit Level: G. Credit Hrs: 4.00

15HIST777**Old World and New World Frontiers**

Readings course with focus on key questions relating to the history of frontier societies and cross-cultural contact in Europe, Asia, and the Americas between the late medieval and modern periods. Credit Level: G. Credit Hrs: 5.00

15HIST778**Literature of Modern Chinese History**

Surveys influential and recent scholarly works on modern Chinese History. Students are introduced to the practice of reading scholarly works critically and assessing them. Credit Level: G. Credit Hrs: 6.00

15HIST780**Land and Peasantry in Modern Europe**

Examines the changing and conflicting attitudes towards the land and the peasantry in Twentieth Century Europe from a political, economic and social-cultural perspective through literature and government legislation. Credit Level: G. Credit Hrs: 6.00

15HIST785**Film and History of World War II**

Propaganda; images of Blacks, women, and Jews; newsreels. Credit Level: G. Credit Hrs: 3.00

15HIST786**Hollywood and History**

An in-depth introduction to the ways in which Hollywood has treated historical themes and how this has shaped popular ideas about history. Students learn the critical skills necessary for studying films as primary sources. Credit Level: G. Credit Hrs: 3.00

15HIST787**History of Christianity**

This course will concentrate on pivotal events or turning points in the history of Christianity which have had a profound influence--both positive and negative-- on the formation of our civilization. Credit Level: G. Credit Hrs: 3.00

15HIST788**History of Christianity**

This course will concentrate on pivotal events or turning points in the history of Christianity which have had a profound influence -- both positive and negative--on the formation of our civilization. Credit Level: G. Credit Hrs: 3.00

15HIST789**History and Narrative: The Work of Paul Ricoeur**

Seminar comprising a close reading of Paul Ricoeur's three volume work, Time and Narrative. We will then use this work to explore some of the philosophical premises of writing history as a story which has meaning. Credit Level: G. Credit Hrs: 5.00

15HIST800**Cincinnati Seminar on the City**

Aims to bring together a diverse group of people (by age, gender, religion, occupation, ethnicity, and race) in informed discussions of the problems and promise of city life with special reference to the United States and Cincinnati. Prereq.: Masters and doctoral. Credit Level: G. Credit Hrs: 1.00

History**15HIST801****Cincinnati Seminar on the City**

Aims to bring together a diverse group of people (by age, gender, religion, occupation, ethnicity, and race) in informed discussions of the problems and promise of city life with special reference to the United States and Cincinnati. The second offering in a three-part course sequence. Prereq.: Masters and doctoral. Credit Level: G. Credit Hrs: 1.00

15HIST802**Cincinnati Seminar on the City**

Aims to bring together a diverse group of people (by age, gender, religion, occupation, ethnicity, and race) in informed discussions of the problems and promise of city life with special reference to the United States and Cincinnati. The third offering in a three-part course sequence. Prereq.: Masters and doctoral. Credit Level: G. Credit Hrs: 1.00

15HIST815**Interdisciplinary Seminar: Frontiers of Urban Research**

Current research trends and techniques in the shared urban aspects of geography, history, political science, and sociology. For advanced graduate students wanting early reactions to theses or dissertations. Admission only with faculty approval. The second offering in a three-part course sequence. Credit Level: G. Credit Hrs: 5.00

15HIST816**Interdisciplinary Seminar: Frontiers of Urban Research**

Current research trends and techniques in the shared urban aspects of geography, history, political science, and sociology. For advanced graduate students wanting early reactions to theses or dissertations. Admission only with faculty approval. The third offering in a three-part course sequence. Credit Level: G. Credit Hrs: 5.00

15HIST851**Masters Independent Readings**

Hrs. to be arranged. Credit Level: G. Credit Hrs: 1.00-8.00

15HIST872**Research**

Research for work on Master's thesis. Credit Level: G. Credit Hrs: 1.00-15.00

15HIST873**Seminar in Theory and Practice of Teaching**

Restricted to graduate assistants. Hrs. to be arranged. Credit Level: G. Credit Hrs: 4.00

15HIST881**Directed Readings**

Variable cr. Credit Level: G. Credit Hrs: 1.00-8.00

15HIST882**Directed Readings**

Variable cr. Credit Level: G. Credit Hrs: 1.00-8.00

15HIST883**Directed Readings**

Variable cr. Credit Level: G. Credit Hrs: 1.00-8.00

15HIST885**Independent Study**

Hrs. to be arranged. Credit Level: G. Credit Hrs: 1.00-8.00

15HIST886**Independent Study**

Hrs. to be arranged. Credit Level: G. Credit Hrs: 1.00-8.00

15HIST887**Independent Study**

Hrs. to be arranged. Credit Level: G. Credit Hrs: 1.00-8.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

History**15HIST888****Preparation for Qualifying Examinations**

This course will allow doctoral students to have one quarter to synthesize the knowledge acquired through a wide variety of formats-lecture courses, colloquia, seminars, directed readings, and independent work in preparation for examinations which cover broad fields and not individual courses. Credit Level: G. Credit Hrs: 1.00-12.00

15HIST900**Preparing Future Faculty Seminar**

Practical and theoretical training for doctoral students who will be teaching at the post-secondary level. Credit Level: G. Credit Hrs: 4.00

15HIST922**Research Seminar in American History**

Introduces students to historical research. Students will conduct their own research toward completion of an article-length scholarly paper. Credit Level: G. Credit Hrs: 6.00

15HIST923**Research Seminar in American History**

Introduces students to historical research. Students will conduct their own research toward completion of an article-length scholarly paper. Credit Level: G. Credit Hrs: 6.00

15HIST924**Seminar in U S History**

Seminar in U.S. Historical issues. Credit Level: G. Credit Hrs: 6.00

15HIST935**Research Seminar in World History**

Introduces students to historical research. Students will conduct their own research toward completion of an article-length scholarly paper. Credit Level: G. Credit Hrs: 6.00

15HIST936**Research Seminar in World History**

Interdisciplinary**15INTR505****Interdisciplinary Capstone**

Course will provide a capstone experience for senior BIS/INTERDISCIPLINARY students. Students will develop individual capstone proposals in consultation with their BIS program advisors. BoK: NA. Credit Level: U. Credit Hrs: 3.00-6.00

15INTR561**Interdisciplinary Capstone Seminar I**

An interdisciplinary course built around a timely theme. Student is asked to write several short papers on topics related to the course theme and/or to their completion of the baccalaureate degree. The theme is explored through reading and group discussions. This course must be followed by INTR562. e BoK: NA. Credit Level: U. Credit Hrs: 3.00

15INTR562**Interdisciplinary Capstone Seminar II**

A continuation of 30INTR561. The primary objective is to complete and present a senior paper and/or project related to both the theme covered in INTR561 and to the student's major area of study. Prereq: 15INTR561. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15INTR774**Introduction to Literary Theory I**

Interdisciplinary course on literary theory. Taught in English. Emphasis on Aristotle's Poetics and the major essays by literary critics and aestheticians up to the twentieth century (Plato, Horace, Longinus, Sydney, Dryden, the Romantics, T.W. Eliot). The course focuses on both theoretical issues (such as imitation, the relationship between content and form, the sublime, the definition of genres) and practical exercises in criticism. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15INTR775**Literary Theory II**

A study formalism, structuralism, and post-structuralism. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15INTR776**Literary Theory III**

Interdisciplinary course on literary theory. Taught in English. Emphasis on literary psychoanalytical criticism, Marxist criticism, reader-response theories and gender studies. Practical exercises on various texts. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

Irish Languages**15IRSH111****Modern Irish I**

Modern Irish language and culture. First quarter in a 6-quarter sequence. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15IRSH112**Modern Irish II**

Modern Irish language and culture. Second quarter in a 6-quarter sequence. Prereq: 15IRSH111. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15IRSH113**Modern Irish III**

Modern Irish language and culture. Third quarter in a 6-quarter sequence. Prereq: 15IRSH112. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15IRSH114**Intermediate Modern Irish 1**

Follow-up course to first year Irish with readings in Irish literature and folklore. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15IRSH115**Intermediate Modern Irish 2**

Intermediate Irish language and culture 5th qtr. in the 6-quarter sequence. Prereq: 15IRSH114, 15ENG667. BoK: HU, DC. Credit

Irish Languages**15IRSH115****Intermediate Modern Irish 2**

Journalism**15JOUR215****News Writing and Reporting**

Introduction to contemporary journalism, concentrating on standards and techniques of reporting. May not be audited. Limited to 20 students. Prereq: 15ENGL102, 15JOUR214. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15JOUR216**Introduction to Photojournalism**

A foundation class in the history and aesthetic values of photojournalism with an emphasis on content and composition. Examines the legal and ethical issues involved in photojournalism. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15JOUR300**Precision Journalism**

Introduces advanced journalism students to technology-based news reporting techniques and instructs them in applying the principles of scientific method to the gathering and preparing of news stories. Emphasizes the use of computers, data bases and the internet to develop meaningful, complex stories. Students work in an internet-connected lab setting and practice how to find data sets, interpret and organize materials from multiple sources to write longer stories intended for publication. The course encourages critical thinking and the methodology of analyzing data as a journalistic tool and has a strong writing component. Prereq: 15JOUR215. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15JOUR301**Columns and Reviews**

A writing - intensive journalism course emphasizing columns and reviews in magazines and newspapers. Prereq: 15JOUR215. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15JOUR302**Feature Writing**

A journalism course focusing on the writing of magazine feature stories. Prereq: 15JOUR215. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15JOUR303**Copy Editing**

Techniques of copy editing with practical work on local publications. Prereq: 15JOUR215. BoK: NA. Credit Level: U. Credit Hrs: 2.00-3.00

15JOUR304**Journalism, Law and Ethics**

Ethical problems in reporting and editing with case study of communication law. Prereq: 15JOUR215. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15JOUR305**Journalism Ethics**

Reviews the development of major ethical systems and the history of American journalism before concentrating on the ethical standards affirmed by mainstream American reporters, photographers and editors, newspapers, news magazines, radio and TV news and internet sites that focus on news as opposed to commentary. Applies these standards to look at evolving community and professional perceptions of bias v objectivity, privacy v public interest, accuracy v demands of the 24/7 news cycle, truth v error and deception. Prereq: 15JOUR215. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15JOUR306**Photojournalism**

Introduction to the photographic techniques, tools and content issues in visual communication. Explores the methods for communication using photography as a language. Numerous photographic projects. Students are required to have a digital camera. Prereq: 15JOUR215, 15JOUR216. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15JOUR400**Digital Imaging**

Using the computer for digital alteration to edit, create composite, and alter photographic images. Prereq: 15JOUR306. BoK: NA. Credit Level:

Journalism**15JOUR400****Digital Imaging**

U. Credit Hrs: 3.00

15JOUR418**Advanced Photojournalism**

Advanced reportage with emphasis on the photographic essay. Finished projects incorporate the use of computer and/or scanned images for portfolio production. Prereq: 15JOUR306. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15JOUR421**Advanced Reporting: Topic**

A journalism course that focuses on researching and writing in-depth news stories for newspaper and magazine publication. Prereq: 15JOUR215. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15JOUR422**Advanced Reporting: Topic**

A journalism course that focuses on researching and writing in-depth news stories for newspaper and magazine publication. Prereq: 15JOUR215. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15JOUR423**Advanced Reporting: Topic**

A journalism course that focuses on researching and writing in-depth news stories for newspaper and magazine publication. See department for specific details. Prereq: 15JOUR215. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15JOUR426**Magazine Writing**

Writing and marketing of major length articles. Prereq: 15JOUR215. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15JOUR427**Advanced Magazine Writing**

Emphasizes core skills (structure, technique, magazine journalistic style, etc.) and the student writer's mature development of craft, voice and style. Prereq: 15JOUR215, 15JOUR426. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15JOUR428**Editing and Design**

Covers the fundamentals of editing and designs for print and web applications. Addresses print and web design principles, elements and layout forms, and pagination techniques for the use of typography and digital images, as well as basic HTML coding for creating, mapping, navigating and editing web pages. Prereq: 15JOUR215, 15JOUR303. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15JOUR499**Journalism Internship**

On-the-job experience supervised by an academic advisor. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15JOUR500**Journalism Internship**

On-the-job experience supervised by an academic adviser. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

15JOUR501**Journalism Internship**

On-the-job experience supervised by an academic adviser. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

15JOUR502**Magazine Publishing**

Simulates real-world professional scenarios by challenging students to work in teams to create concepts for new magazines. Covers the magazine publishing industry: audience, editorial, circulation, and business plans. . Prereq: 15JOUR426. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

H=University Honors course.

Journalism**15JOUR503****Photojournalism Workshop**

An introduction to photojournalism principles and applications including a historical study of documentary photography. Prereq: 15JOUR418. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15JOUR504**Photojournalism Workshop**

Reports advanced visual production work in print and new media photographic reportage. This documentary photojournalism class uses a wide range of media. Prereq: 15JOUR418. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15JOUR505**Photojournalism Workshop**

Advanced visual production work with particular emphasis on the picture story of photographic essay. Demands research, visual content focus, photography field research, writing, design, and production. Prereq: 15JOUR418. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15JOUR525**Narrative Nonfiction**

Students move beyond feature and magazine writing to work on longer narrative nonfiction. Class discussion, assisted by examples of recent nonfiction, focuses on the specific strategies involved in conducting saturation reporting and as well as the techniques involved in writing narrative nonfiction, including extended dialogue and scene-by-scene construction. Prereq: 15JOUR215, 15JOUR426. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15JOUR591**Individual Work**

A course in guided readings which must be negotiated in writing with individual faculty members and approved by the director of undergraduate studies. Perm of Department. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

15JOUR592**Individual Work**

A course in guided readings which must be negotiated in writing with individual faculty members and approved by the director of undergraduate studies. Perm of Department. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

15JOUR593**Individual Work**

A course in guided readings which must be negotiated in writing with individual faculty members and approved by the director of undergraduate studies. Perm of Department. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

15JOUR622**Editing Practices and Principles**

A workshop designed to teach the theory and practice of editing, including such important concepts as textuality, levels of edit, and top-down editing. Students become familiar with a variety of stylebooks, including the Associated Press, Chicago, MLA, APA, and the CBE. Students work with both print and electronic texts. Prereq: 15JOUR426. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15JOUR624**Journalism Seminar**

Journalistic writing with practical training in publication. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15JOUR625**Journalism Seminar**

Journalistic writing with practical training in publication. The second offering in a three-part course sequence. Prereq.: Perm. of instr. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15JOUR626**Journalism Seminar**

Journalistic writing with practical training in publication. The third

Journalism**15JOUR626****Journalism Seminar**

offering in a three-part course sequence. Prereq.: Perm. of instr. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

Judaic Studies**15JUDC101****Basic Hebrew I**

Introduction to Hebrew language and culture. First quarter in the 3-quarter sequence that fulfills the A&S language requirement. BoK: HU., DC. Credit Level: U. Credit Hrs: 5.00

Jewish civilization as interpreted through Jewish historical, religious, literary and cultural developments 1750 to the present. Transfer Module. BoK: HP, DC. Credit Level: U. Credit Hrs: 3.00

15JUDC129H**Honors Jewish Civilization III**

Jewish Civilization as interpreted through historical religious literary and cultural developments 1750 to present. One hour extra tutorial in addition to the regular course BoK: HP. Credit Level: U. Credit Hrs: 4.00

Judaic Studies**15JUDC135****Introduction to Judaism**

Introduction to basic concepts, beliefs and practices of Judaism as expressed through its classic literature. Fulfills A&S humanities requirement. Transfer Module. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15JUDC145**The Emergence of Secular Jewish Identity and Culture**

This course examines the emergence and development of the secular sensibility in Jewish life. Topics include: origins of the phenomenon; historical conditions conducive to the phenomenon; major personalities; and current secular trends in Judaism. BoK: HP., SS. Credit Level: U. Credit Hrs: 3.00

15JUDC190**Monuments to War and Tragedy; Engraving the Mind and Remembrance**

Deals with the ways in which we choose to remember tragic events and loss. Students learn the process of engraving the mind and take a closer look at the monuments built to memorialize events. BoK: DC., LT. Credit Level: U. Credit Hrs: 3.00

15JUDC211**Second Year Hebrew 1**

Intermediate Hebrew language, literature, and conversation. First quarter in 3-quarter sequence. Prereq: 15JUDC103. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15JUDC212**Second Year Hebrew 2**

Intermediate Hebrew language, literature and conversation. Second quarter in a 3 quarter sequence Prereq: 15JUDC211. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15JUDC213**Second Year Hebrew 3**

Intermediate Hebrew language, Literature and conversation. Third quarter in a 3 quarter sequence. Prereq: 15JUDC212. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15JUDC228**An Introduction to Biblical Study.**

(Formerly 30PHIL280) A survey of the manuscripts and texts of the Bible, the historical and literary contexts of the Bible in the ancient Middle East, and an overview of some of the interpretive methods that one can bring to bear on Bible study and scholarship. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15JUDC229**Sacred Texts: Hebrew Scriptures**

(Formerly 30PHIL241, Old Testament.) Hebrew ideas clarified from the Greek: God, man, spirit, creation, life. Significance of the Prophets and other writings. Leading personalities, ethics, and ideals. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15JUDC231**Biblical Poetry**

This course will study the poetry of the Bible and its chronological development together with its relationship to common ancient Near Eastern poetic forms. Along the way, attention will be called to the relationship of the poetry to parallel prose narratives. Specifically, students will read portions of Judges, Exodus, Samuel, Job, Psalms, Isaiah, and several of the "Minor Prophets." BoK: HU. Credit Level: U. Credit Hrs: 3.00

15JUDC232**The Other Bible**

Study of those extra-biblical books of Jewish and Christian origin that exercised enormous influence on the canonically perceived literature. Specifically, Enoch, several of the Dead Sea Scrolls, and such important Christian literature as the Gospel of Peter and the Gospel of Thomas will be read. BoK: HU. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Judaic Studies**15JUDC233****Ancient Stories of Creation**

An overview and comparison of different accounts of the creation of the universe and the origins of humankind. The course will focus on writings from the Near East, including but going beyond the standard biblical accounts, discussions of modern religious and cultural perspectives on angles. Prereq: 30RELG101. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15JUDC235**Chanukah Through the Ages**

The Jewish festival of Chanukah provides an illuminating lens to explore the character and development of secular Jewish culture. Based on the story of a cultural struggle between Judaism and Hellenism, Chanukah raises fascinating questions about secularism and religion. Was the adoption of Greek ways (Hellenization) tantamount to idolatry or a cultural matter without religious implications? Was the miracle of Chanukah a secular, military victory of the Maccabees against the Syrian Greeks and to what extent did the Maccabees (later known as the Hasmoneans) establish a secular sovereign Jewish state? Why did the rabbis ignore the secular side of the Chanukah story? Why was Chanukah popular among the secular Zionists? BoK: HP., DC. Credit Level: U. Credit Hrs: 3.00

15JUDC245**Modernity and the Jewish Intellectual Tradition**

Follows major development of modern Jewish intellectual currents through the work of some of the most influential Jewish thinkers of the era. Explores how these different thinkers attempted to reconcile a tradition of 3,000 years with the scientific, ethical and cultural dimensions of modern and secular Western civilization. Looks at the origins of modern secular Jewish identity in the seventeenth century in the writings of Spinoza. It then examines some of the leading representatives of the Haskalah, the Jewish Enlightenment, and it covers the period of German Jewish idealism in the nineteenth century. The course looks at the emergence of the existential interpretation of Judaism in the twentieth century, as well as the emergence of Jewish nationalism as an intellectual and cultural movement. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15JUDC252**Introduction to Jewish Literature**

Survey of Jewish literature from the Bible to the present. Features texts from major centers of Jewish culture. Authors range from the Bible, Judah HaLevi, Maimonides, and Bialik, Nobel prize winners Agnon and Singer, and more contemporary authors from Kafka to Allegra Goodman. All readings in translation. Required for majors. BoK: DC., LT. Credit Level: U. Credit Hrs: 3.00

15JUDC255**Jewish Autobiographies: The Mind of the Secular Jew**

This course examines the phenomenon of secular Jewish identity through the prism of autobiography and memoir, paying close attention to the historical context in which autobiographic works were produced and analyzing how individual authors have shaped their lives' events into a narrative pattern. The course will consider how culture, religions, politics, gender, and minority status shape experience, and explore the ways in which an author does or does not position him/herself as part of a larger community of Jews. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15JUDC261**Biblical Hebrew I**

Biblical Hebrew's basic vocabulary and grammar, using biblical excerpts, textbook, and support resources that facilitate independent Bible reading. First quarter: alphabet, vocalization, syllables, definite article, prepositions, noun patterns and endings, pronouns, and vocabulary. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15JUDC262**Biblical Hebrew II**

Biblical Hebrew's basic vocabulary and grammar, using biblical

Judaic Studies**15JUDC262****Biblical Hebrew II**

excerpts, textbook and support resources that facilitate independent Bible reading. Second quarter: Pronominal suffixes, the "strong" verb, basic syntax, numerals 'waw'-consecutive, "waw"-conjunctive, 'he'-directive, verb sequences, and vocabulary. Prereq: 15JUDC261. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15JUDC263**Biblical Hebrew III**

Biblical Hebrew's basic vocabulary and grammar, using biblical excerpts, textbook, and support resources that facilitate independent Bible reading. Third quarter: "weak" verbs, pausal forms, advanced syntax issues, vocabulary, and introduction to the Masorah. Prereq: 15JUDC262. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15JUDC300**The Jewish Bible**

An exploration of the Hebrew Scriptures refracted through the lens of Jewish Biblical interpretation from the second temple, medieval and modern periods BoK: HP., LT. Credit Level: U. Credit Hrs: 3.00

15JUDC301**Biblical Narratives**

An examination of Biblical narratives from creation to canonization by using interdisciplinary approaches to the Bible. BoK: LT., DC. Credit Level: U. Credit Hrs: 3.00

15JUDC303**Biblical Interpretation in the Greco-Roman Period (323BCE-620CE)**

Investigates different communities' influence on our understanding of the Bible and how the Bible influenced the understanding of those communities, with special attention given to exegetical method. Among the texts, interpreters, and technologies of antiquity considered are: "inner biblical interpretation; canonization; translation (the Septuagint, Targum); paraphrase (Philo, Josephus, Pseudo-Philo, Pirke d'rabbi Eliezer); typology and allegory (New Testament, Dead Sea Scrolls; Philo, Origen); "gapping" (Apocryphal OT and NT, Midrash); pagan views of the Bible (Julian). BoK: LT. Credit Level: U. Credit Hrs: 3.00

15JUDC311**Topics in Ancient Judaism**

Thematic introduction to some aspect of Judaic Studies in the biblical or rabbinic periods. Contact the Judaic Studies Department for current topic. BoK: DC., HU. Credit Level: U. Credit Hrs: 3.00

15JUDC312**Medieval Judaism**

Thematic introduction to some aspect of Judaic Studies in the Middle Ages. Contact the Judaic Studies Department for current topic BoK: DC., HU. Credit Level: U. Credit Hrs: 3.00

15JUDC313**Topics in Modern Judaism**

Thematic introduction to some aspect of Judaic Studies in the modern period. Contact the Judaic Studies Department for current topic. BoK: DC., HU. Credit Level: U. Credit Hrs: 3.00

15JUDC314**Jewish Women's Salons and Their Impact on Culture, Identity and Modernity**

Examines the significant role played by the salons of Jewish women in the development of art, literature, music, theater, philosophy, and politics in Europe and America from the late 18th century through the mid 20th century. Salons in Berlin, Vienna, Paris, Milan, New York, and elsewhere proved to be innovative and radical vehicles that helped mediate the secularization of modern Jewish life and the democratization of the public sphere. They provided a context in which nobility, artist, and thinkers exchanged ideas across barriers of class, gender, nationality, socio-economic status, and religion, and fostered the careers of many important figures. BoK: DC., LT. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Judaic Studies**15JUDC315****The Menorah: From Sinai to Cincinnati**

Traces the history, art and religious significance of the Menorah, the seven-branched lampstand of the Biblical Temple, from its origins to recent controversies in Cincinnati. BoK: FA., HP. Credit Level: U. Credit Hrs: 3.00

15JUDC317**Jewish God Concepts**

A study of differing ways Jews have conceptualized the idea of God through history. Readings in English from the Bible, rabbinic literature, medieval Jewish philosophy (Saadia, Maimonides, Spinoza) mysticism (Luria), and 20th century philosophy and theology (Buber, Heschel, Kaplan and Soloveitchik). BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15JUDC321**Demons in the Bible and Related Texts**

A discussion of demons and the demonic as they appear in the Bible and in texts from related regions and time periods. The course will promote critical thinking about demonic figures' treatment and roles in sacred texts. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15JUDC324**Intro Conversation Hebrew**

Intro to Conversational Hebrew. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15JUDC325**Jerusalem**

A history of the city from social, religious, political and ethnic perspectives over the last four thousand years. Fulfills A&S requirements for International Studies BA. BoK: HP., DC. Credit Level: U. Credit Hrs: 3.00

15JUDC326**Jewish Nationalism**

The place of Israel in the Jewish tradition and the origins of Jewish nationalism. The rise of Zionism: the different strands of Zionist thought and the movement's various ideological opponents. The emergence of the Jewish community in the Land of Israel and the beginning of the creation of the Jewish National Home. BoK: HP., DC. Credit Level: U. Credit Hrs: 3.00

15JUDC327**Modern Israel**

Analysis of social, cultural, religious, economic and political developments in the State of Israel from its inception in 1948 to the present. Fulfills A&S International Studies BA requirement. BoK: DC., HU. Credit Level: U. Credit Hrs: 3.00

15JUDC328**Women in the Bible**

An analysis of specific Biblical texts concerning women in the context of their Near Eastern environment, and of the influence of Biblical material on contemporary attitudes to women. BoK: HP., DC. Credit Level: U. Credit Hrs: 3.00

15JUDC329**The Evolution of the Angel**

An introduction to angels as they are treated in the religious texts and traditions of Judaism, Christianity, Islam, and Zoroastrianism. The course will primarily deal with texts and ideas from the first millennium BCE through the medieval period, though there will also be discussions of modern religious and cultural perspectives on angels. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15JUDC330**Jews and Islam**

Comparative study of Islam and Judaism. Survey of Jewish status and their social, cultural, and religious developments within Islamic societies from the 7th to the 17th centuries. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

Judaic Studies**15JUDC331****Advanced Hebrew**

Readings and conversation in contemporary Hebrew. Newspaper sources, short stories and poetry will be discussed and analyzed. Grammar points reviewed. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15JUDC332**Advanced Hebrew**

Readings and conversation in contemporary Hebrew. Newspaper sources, short stories and poetry will be discussed and analyzed. Grammar points reviewed. The second offering in a three-part course sequence. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15JUDC333**Advanced Hebrew**

Readings and conversation in contemporary Hebrew. Newspaper sources, short stories and poetry will be discussed and analyzed. Grammar points reviewed. The third offering in a three-part course sequence. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15JUDC337**Israeli Literature in Translation**

Survey of the prose and poetry of major Israeli writers, including Oz, Yehoshua, Amichai, Rachel, and others. Fulfills A&S literature requirement. BoK: LT., DC. Credit Level: U. Credit Hrs: 3.00

15JUDC341**The Sephardic Diaspora: 1492 - 2000**

The experience of the Sephardic Jews from the expulsion from Spain to the present. Will cover the history, literature and culture of communities from the Ottoman Empire to the Americas. Prereq: 15JUDC481, 15JUDC129. BoK: DC, HP. Credit Level: U. Credit Hrs: 3.00

15JUDC343**Medieval Mediterranean Jews 4th-15th centuries**

Introduces students to the development of Jewish settlement and society in North Mediterranean lands of Byzantium, Italy, and Spain. This course is a counterpart to the course Jews and Arabs. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15JUDC348**The New Testament in its Jewish Matrix**

An introduction to the New Testament within the contexts of Jewish life history, literature and archaeology of the Greco-Roman period. BoK: HP., LT. Credit Level: U. Credit Hrs: 3.00

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Judaic Studies**15JUDC360****AMER JEWISH FICTION**

AMER JEWISH FICTION This course analyzes the shifting grounds of Jewish American Literature and the quandary of the Jewish American writers, who manifestly draw from their Jewish ethnic experience, and at the same time, find themselves deeply engrossed in the diverse experience of their mainstream American counterparts. BoK: LT., DC. Credit Level: U. Credit Hrs: 3.00

15JUDC362**American Jewish History 1654 to present**

A survey of American Jewish history from the earliest settlements in the seventeenth century to the modern age. Particular attention will be paid to challenges and opportunities that the unique American environment presented to Jewish continuity. Topics include the role of immigration, religious reform, Antisemitism, and political involvement. BoK: DC., HP. Credit Level: U. Credit Hrs: 3.00

15JUDC365**Practicum in Judaic Studies**

Internships in communal organizations; teaching assistants in Judaic Studies; language labs for Elementary and Intermediate Hebrew. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

15JUDC366**Practicum in Judaic Studies**

Internships in communal organizations; teaching assistants in Judaic Studies; language labs for Elementary and Intermediate Hebrew. The second offering in a three-part course sequence. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

15JUDC367**Practicum in Judaic Studies**

Internships in communal organizations; teaching assistants in Judaic Studies; language labs for Elementary and Intermediate Hebrew. The third offering in a three-part course sequence. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

15JUDC368**Language Lab 201**

Students work on their conversational skills: Emphasis is placed on verbal communication. Students will work in groups and on one-to-one basis with the instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15JUDC369**Language Lab 202**

Students continue to work on their conversational skills: Emphasis is placed on verbal communication. Students will work in groups and on a one-to-one basis with the instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15JUDC370**Language Lab 203**

Students will continue to work on their conversational skills: Emphasis is placed on verbal communication. Students will work in groups and on a one-to-one basis with the instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15JUDC371**Jews in American Film**

Exploration of the representation of Jews in American film and their role in developing the Hollywood film industry; how Jewish life was "translated" into pictures and how visual images relate to affective experience and shape our understanding of history. BoK: DC., HU. Credit Level: U. Credit Hrs: 3.00

15JUDC372**Israeli Cinema**

Examines the major transitions and changes that have shaped modern Israeli society through the medium of film. Focuses on the transformation of Israel from a mobilized community into a modern, self-doubting and pluralistic society that openly questions its past. BoK: DC., HU. Credit Level: U. Credit Hrs: 3.00

Judaic Studies**15JUDC373****Film and Holocaust**

Viewing and analysis of films portraying Jews during the Holocaust, from Nazi propaganda to postwar documentaries and artistic reconstruction. Formerly 15JUDC550. BoK: LT., DC. Credit Level: U. Credit Hrs: 3.00

15JUDC374**Jewish Humor/Women's Humor**

Investigates how humor reveals the cultural identity of a people, a nation, or an ethnic group, and explores the particular ways in which men and women confront social, racial and psychological problems through humor. BoK: LT., DC. Credit Level: U. Credit Hrs: 3.00

15JUDC379**Judaism and Christianity in Conflict**

Examination of Jewish Christian relations from the inception of Christianity to 6th Century C.E. The interplay between Judaism and Christianity will be considered against the background of the pagan Roman empire. 3 ug. cr. Fulfills A&S humanities requirement. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15JUDC380**Dead Sea Scrolls**

Surveys all Dead Sea Scrolls in translation and attempts to place them in the broader context of early Jewish and Christian thought. BoK: HP., DC. Credit Level: U. Credit Hrs: 3.00

15JUDC382**Studies in the Holocaust**

Examination of Nazi destruction of European Jewry; analysis of Jewish Holocaust literature and theological issues precipitated by events. BoK: DC. Credit Level: U. Credit Hrs: 3.00

15JUDC383**Literature of the Holocaust**

This course ponders the dilemmas of the post-Holocaust world by focusing on the literary response to the Holocaust by victims and survivors. Varieties of styles of literature will be read. Fulfills A&S literature requirement. BoK: LT., DC. Credit Level: U. Credit Hrs: 3.00

15JUDC384**Religion and the Holocaust**

Analysis of religious reactions of survivors to the Holocaust against backdrop of Jewish response to catastrophe throughout history. Examination of both Jewish and Christian theological writings on the Holocaust's implications for religion. Fulfills A&S humanities requirement. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15JUDC385**Religion and Genocide**

This course explores the relationship between religion and the uniquely 20th-Century phenomenon of genocide. Among the issues to be discussed are: responses of the world religious community to genocide; Christian anti-Semitism and the Holocaust; totalitarianism and the Messianic ideal; genocide and modern theology. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15JUDC386**Jewish Heretics**

Examination of Jewish heresy and sectarian movements throughout history, emphasizing "orthodox" response to these movements. Fulfills A&S humanities requirement. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15JUDC387**Freud & Judaism**

Investigates Freud's concepts of social change, culture, and civilization with its discontents, against the backdrop of classical Jewish thought and Freud's questionable Jewish identity. BoK: DC., SS. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Judaic Studies

15JUDC390

Art and Judaism

An introduction to Jewish art and to Jewish attitudes toward art from Biblical Times to the present. Also explores the development of Christian attitudes toward the art of the Jews. BoK: FA., HP. Credit Level: U. Credit Hrs: 3.00

15LATN972

Greek Tragedy in Rome

Explores the reception of Greek tragedy in Ancient Rome. The emphasis will be not only on the Roman plays inspired by Greek models (e.g. Seneca), but also on the references to Greek tragedy in Roman philosophy, oratory, and art (vase painting, sarcophagi). Credit Level: G. Credit Hrs: 4.00

15LATN973

Pliny the Younger and the Construction of Culture

This seminar will be a group exploration into the details of how the Younger Pliny constructs his ideal of the Roman cultural elite, with special attention to what Pliny tells us about the social uses of literature and to Roman ideas of the public and the private. Credit Level: G. Credit Hrs: 4.00

15LATN974

Statius

The goal of this seminar is to introduce students to the major issues in contemporary studies in Post-Augustan Latin Literature by reading extensive passages from Statius' Silvae and the Thebaid. Credit Level: G. Credit Hrs: 4.00

15LATN975

Early Latin

A study of pre-classical Latin literature: Elder Cato to C. Gracchus; Livius Andronicus-Lucilius. Credit Level: G. Credit Hrs: 4.00

15LATN977

Latin Prose Composition

Graduate level class concentrating on developing the student's latin style and command of grammar and syntax. Credit Level: G. Credit Hrs: 4.00

15LATN979

Seminar in the Julio-Claudians

The political, economic and social history of the period between Augustus and the death of Nero. Particular attention is paid to the internal dynamics of the imperial family and the question of succession, provincial administration and the imperial bureaucracy. Credit Level: G. Credit Hrs: 4.00

15LATN980

Seminar: Virgil

SEMINAR:VIRGIL Credit Level: G. Credit Hrs: 4.00

15LATN981

Ovid's Metamorphoses

Reading and advanced study of Ovid's Metamorphoses. Credit Level: G. Credit Hrs: 4.00

15LATN983

Virgil: Aeneid

n Credit Level: G. Credit Hrs: 4.00

15LATN984

Seminar Latin Literature

SEMINAR LATIN LIT Credit Level: G. Credit Hrs: 4.00

15LATN986

Roman Popular Culture

A study of the Late Republic and Early Empire culture of Roman lower socioeconomic classes. Credit Level: G. Credit Hrs: 4.00

15LATN987

Latin Palaeography

A survey of the field of palaeography and the principles of textual criticism. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

Latin**15LATN999****Directed Readings in Latin**

Offered ea. qtr. Credit Level: G. Credit Hrs: 1.00-15.00

Labor and Employment Relations**15LER300****Introduction to Human Resources**

An overview of the role of Human Resources in American organizations today. Equal Employment opportunity, organizational design, job development, planning and recruitment, selection and career development are examined. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15LER312**The Gendered Work Place**

Examines the status, historical, and legislative context and concerns of women in contemporary American workplace. Women will be discussed as an inclusive, diverse group of multiple races, ethnicities, and socio-economic classes. Prereq: 15LER300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15LER401**Employee Compensation**

Theory and practice of compensation in private and public employment. Examines job analysis and descriptions; setting pay levels; knowledge base pay; discrimination; pay for performance; gain-sharing and profit sharing. Prereq: 15MATH149, 15LER300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15LER402**International Human Resources**

Examines globalization of the economy and human resources; functional areas of human resources in a multinational company; including compensation, staffing, and training; comparative country analysis of major trading partners; human resources in foreign-owned firms in the US; special topics. Prereq: 15LER300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15LER403**Training and Development**

Advanced study of human resources, functions of employee training and development. Topics include training and development, training needs analysis, training program design, facilitation and implementation and cost analysis. Prereq: 15LER300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15LER404**Health and Safety**

An examination of the major health and safety issues that challenge contemporary organization. Topics highlighted are OSHA, worker safety, workplace violence, alcoholism, aids, drugs and stress management. Prereq: 15LER300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15LER405**Staffing Organizations**

Analysis, evaluation, design and implementation of procedures and practices for recruitment, selection, employment, and separation of employees in organizations. Prereq: 15LER300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15LER451**Employment Law**

An analysis of employee related statutes and case holdings on the business environment. The focus is on federal and state laws affecting employment decisions and how human resource managers must align organizational policies and practices accordingly. Prereq: 15LER300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15LER478**Special Topics in Human Resources**

Provides opportunity for students to explore HR topics of interest on an individual basis or in structured courses developed as common interest arise. Prereq: 15LER300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Labor and Employment Relations**15LER478****Special Topics in Human Resources**

Provides opportunity for students to explore HR topics of interest on an individual basis or in structured courses developed as common interest arise. Prereq: 15LER300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15LER499**Independent Study and Human Resources**

Independent Study. To be arranged. Prereq: 15LER300. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15LER517**Preparation for HRCI Professional Certification Exams**

Study of human resource management to prepare practitioners for the Human Resources Certificate Institute national exams as Professional in Human Resources and Senior Professional in Human Resources. Not for MALER students. (Formerly ECON 517) BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15LER522**Labor Relations**

Labor relations in a unionized setting; history, legal background, unions and employers, organizing, collective bargaining, conflict, impasse resolution, grievance procedures, public/private sector comparisons, and future prospects. (FORMERLY ECON 522) BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15LER523**Collective Bargaining**

Union-management collective bargaining and the theory and practice of the art of negotiations. Bargaining power, goals, timing, strategies and techniques of the parties. Major class simulation and practice. Negotiation outcomes and impasse procedures. (FORMERLY ECON 523) Prereq: 15ECON522. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15LER524**Collective Bargaining II**

Interest-based collective bargaining; environmental setting; the collaborative bargaining model; bargaining simulation. (FORMERLY ECON 524) BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15LER525**Ethical Issues in Employment Relations**

Economic, legal and philosophical approaches to the solution of ethical issues in unionized and non-unionized work places. (FORMERLY ECON 525) BoK: SS., SE. Credit Level: U, G. Credit Hrs: 3.00

15LER557**Personnel and Employment Relations**

Examination of the theory and practice of human resource management and employment relations in organizations. (FORMERLY ECON 557) BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15LER577**Collective Bargaining: Administration**

Problems, administration of negotiated agreements, internal machinery for settling grievances. Problems, interpretation of agreement. Function, scope of arbitration. (FORMERLY ECON 577) BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15LER610**Labor Unions in a Global Economy**

Study of contemporary American unionism in a global environment; international comparisons; challenges of globalization. (FORMERLY ECON 610) BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15LER612**Employee Relations**

Achieving positive employee-employee relations; procedures and systems for preventing and resolving workplace conflict in both non-union and unionized settings. (FORMERLY ECON 612) Prereq: 15ECON522. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Labor and Employment Relations**15LER614****Public Sector Labor Relations**

Development of, and legal basis for, labor-management relations at various levels of government. Procedures, problems, and consequences of collective bargaining in public employment. (FORMERLY ECON 614) BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15LER620**Professional Devel in HR I**

Attendance at meetings of Cincinnati area labor relations and human resources organizations and occasional conferences. Grade awarded after successful completion of three quarters of the colloquium and completion of HRCI certification exam or the HRCI Assessment. The first offering of a three-part course sequence. (Formerly ECON 620) BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

15LER621**Professional Devel in HR II**

Attendance at meetings of Cincinnati area labor relations and human resources organizations and occasional conferences. Preparation for the Human Resource Certification exam. Grade awarded after successful completion of three quarters of the colloquium and completion of the HRCI certification exam or the HRCI Assessment. The second offering in a three-part course sequence. Prereq 15ECON620. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

15LER622**Professional Devel in HR III**

Preparation for the Human Resource Certification exam. Grade will be awarded after successful completion of three quarters of the colloquium and completion of the HRCI certification exam or the HRCI Assessment. The third offering in a three-part course sequence. Prereq: 15LER620, 15LER621. Prereq: 15ECON620, 15ECON621. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

15LER730**Statistics in Human Resources**

This course is designed to introduce students to advanced inferential statistics and provide opportunities to analyze and interpret data employing techniques commonly used by applied researchers and those practicing in the field of human resources. Prereq: 15STAT201, 22QA241. Credit Level: G. Credit Hrs: 3.00

15LER808**Organizational Literacy For Human Resources**

Different organizational forms; the role of organizational functions other than human resources; key concerns of each functional area; important concepts in each function; and how human resources can help other functions achieve their missions. Credit Level: G. Credit Hrs: 3.00

15LER810**Human Resources And Organizational Development And Change**

The strategic role of human resources in organizational development and change; types of change e.g. macro (mergers and acquisitions, downsizing, new technology, cultural) and micro (high-performance workgroups and teamwork); effect on organizations, workgroups, individual employees; resistance to change; and change strategies. Credit Level: G. Credit Hrs: 3.00

15LER812**Human Resources Consulting**

Devolution in responsibility for operational aspects of human resources to line managers; increased use of third-party consultants; the consultative roles of human resource professionals; consulting stages, including entry, contracting, data analysis, and feedback; consulting skills required at each stage. Credit Level: G. Credit Hrs: 3.00

15LER814**Human Resource Management (HRM)**

The course covers the following subjects and themes: strategic HRM, global issues, job analysis, job design, performance appraisal, human resource (HR) planning, recruitment, selection and placement, HR

Labor and Employment Relations**15LER814****Human Resource Management (HRM)**

development and training, and HR information systems.(FORM EC 814) Credit Level: G. Credit Hrs: 4.00

15LER816**Employee Compensation**

Theory and practice of compensation in private and public employment. Job analysis and descriptions; setting pay levels; knowledge-base pay; discrimination; pay for performance; gain-sharing and profit sharing. Credit Level: G. Credit Hrs: 3.00

15LER818**Employment Law I**

(Eve. only) Legal framework for employer-employee relations. Legislation and court decisions governing discrimination in hiring, advancement and termination, sexual harassment, affirmative action, and other aspects of human resource management. (FORMERLY ECON 818) Credit Level: G. Credit Hrs: 3.00

15LER819**Employment Law II**

(Eve. only) Continuation of 818, with emphasis on the developing law of wrongful discharge and breach of employment contracts.(FORMERLY ECON 819) Prereq: 15ECON818. Credit Level: G. Credit Hrs: 3.00

15LER822**Labor Relations Process and Law**

Parties, processes, and legal framework in union- management relations; union organizing and collective bargaining; legal guidelines for conduct, strategies, and tactics of the parties. (FORMERLY ECON 822) Credit Level: G. Credit Hrs: 4.00

15LER824**Collective Bargaining and Labor Relations**

The course covers the following topics and themes: theoretical and institutional approaches to collective bargaining, the distributive model, utility parameters, and commitment tactics. The integrative model and integrative bargaining tactics.(FORMERLY ECON 824) Credit Level: G. Credit Hrs: 4.00

15LER825**The Collective Bargaining Process**

The course covers the following topics: preparation for bargaining; bargaining procedures; stages of the collective bargaining process; management and union security; contract administration; the theory, strategies and tactics of intraorganizational bargaining. course includes a major simulation and some recent arbitration cases. Credit Level: G. Credit Hrs: 4.00

15LER828**Economics of Human Resources**

Fundamentals of human resource economics, labor supply, labor demand, and human capital theory. Applications to special topics. Formerly ECON 828 Prereq: 15ECON101. Credit Level: G. Credit Hrs: 3.00

15LER829**Individual Behavior in the Workplace**

Methods, theories and research findings in organizational behavior and psychology regarding topics such as diversity, employee involvement leadership, organizational change and motivation. Credit Level: G. Credit Hrs: 3.00

15LER830**Research Methods**

A survey of research procedures useful in economics, including statement of testable hypotheses, data gathering, and tools of statistical analysis. A research exercise is required.(FORMERLY ECON 830) Prereq: 15LER730. Credit Level: G. Credit Hrs: 3.00

15LER853**Negotiations, the Rational Approach**

Explores various tactics, strategies and models for negotiating rationally

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Labor and Employment Relations**15LER853****Negotiations, the Rational Approach**

and effectively. Negotiating rationally means arriving at better decisions and at better agreements which optimize the interests of the parties. Students participate in simulation exercises and debriefings. Credit Level: G. Credit Hrs: 3.00

15LER873**Human Resource Information Systems and Applications**

Structure and uses of HRIS; systems and development process; needs analysis; system design, acquisition, implementation, evaluation and analysis; applications to HR functional areas using relevant software.(FORMERLY ECON 873) Credit Level: G. Credit Hrs: 3.00

15LER874**Staffing**

Analysis, evaluation, design and implementation of procedures and practices for recruitment, selection, employment, and separation of employees in organizations.(FORMERLY ECON 874) Credit Level: G. Credit Hrs: 3.00

15LER876**Employee Development and Training**

Role of employee development and training in organizations. Analysis, evaluation, design, and implementation of development and training activities and systems.(FORMERLY ECON 876) Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

15LER878**Employee Benefits**

Analysis and evaluation of employee benefits in organizational compensation systems. Design and implementation of benefits plans.(FORMERLY ECON 878) Credit Level: G. Credit Hrs: 3.00

15LER880**Health and Work**

Rationales, legal constraints, design, implementation, and evaluation of workplace policies and programs concerning employee health and safety.(FORMERLY ECON 880) Credit Level: G. Credit Hrs: 3.00

15LER882**Negotiations**

Objectives: to provide an understanding of the negotiation process through readings, negotiation exercises and debriefings; to review practical and analytical skills that can be applied to a variety of negotiation settings; to offer guidance for reaching satisfactory agreements.(FORMERLY EC 882) Credit Level: G. Credit Hrs: 3.00

15LER884**The Diverse Workforce**

Workforce 2000; managing cultural diversity; the older worker; women in the labor force; work force skills and literacy; the disabled worker; temporary and part-time workers; workforce policy. (FORMERLY ECON 884) Credit Level: G. Credit Hrs: 3.00

15LER886**Human Resources Metrics**

Link between HRM and organizational financial performance; measurement of HRM variables including turnover, contracts, and attitudes; policy evaluation; accounting and the HRM function.(FORMERLY ECON 886) Credit Level: G. Credit Hrs: 3.00

15LER888**Human Resource Planning**

Forecasting employee demand and supply; techniques to meet needs, including internal labor markets, career planning and development; evaluation of utilization of human resources; public human resource programs.(FORMERLY ECON 888) Credit Level: G. Credit Hrs: 3.00

15LER890**Strategic Leadership for Human Resources**

Models of strategic planning; description and evaluation of planning process, including definition of mission and vision, environmental scanning, planning techniques, and decision analysis; evaluation of

Labor and Employment Relations**15LER890****Strategic Leadership for Human Resources**

outcomes.(FORMERLY EC 890) Credit Level: G. Credit Hrs: 3.00

15LER892**Strategic Human Resource Management**

Strategic versus traditional approaches to HRM: external and organizational context; strategic approach to functional areas of HRM and in different types of organizations.(FORMERLY ECON 892) Credit Level: G. Credit Hrs: 3.00

15LER894**International Human Resource Management**

Globalization of the economy and HRM; functional areas of HRM in a multinational company, including compensation, staffing, and training; comparative country analysis of major trading partners; HRM in foreign-owned firms in the US; special topics. (FORMERLY ECON 894) Credit Level: G. Credit Hrs: 3.00

15LER895**COMPARATIVE HUMAN RESOURCE MANAGEMENT**

Human resources context, practices and issues in foreign countries compared with US. Includes legal, economic, political and cultural environment; predominant approaches to staffing, compensation, employee and labor relations, training and strategic HR; current trends and issues. ACADEMIC STUDY TOUR TO COUNTRY OR AREA STUDIED Credit Level: G. Credit Hrs: 3.00-6.00

15LER896**Seminar in Labor and Employment Relations**

Research and field work relevant to understanding various aspects of labor relations and the management of human resources. A study of selected topics of the relationship of theory to practice.(FORMERLY ECON 896) Credit Level: G. Credit Hrs: 4.00

15LER897**Seminar in Labor and Employment Relations**

Research and field work relevant to understanding various aspects of labor relations and the management of human resources. A study of selected topics of the relationship of theory to practice. Credit Level: G. Credit Hrs: 4.00

15LER898**Teaching in Labor and Employment Relations**

Independent teaching or teaching assistance in labor and employment relations classes. To be arranged with LER faculty members. (FORMERLY ECON 898) Credit Level: G. Credit Hrs: 1.00-9.00

15LER899**Research in Labor and Employment Relations**

Independent study or research assistance on labor and employment relations topics. To be arranged with LER faculty members. Credit Level: G. Credit Hrs: 1.00-9.00

15LER900**LER Capstone**

This course is intended for Masters students in the Labor and Employment Relations program who are completing their final experience requirement. Permission of instructor is required. Credit Level: G. Credit Hrs: 2.00

Mathematics**15MATH146****Statistics for the Health Sciences**

Statistical models and inference applied to problems in the health sciences, with emphasis on the role that statistics plays in medical research. Primarily for students in the College of Nursing and Health. Score of 420+ on the Math Placement Test. BoK: QR. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Mathematics**15MATH147****Elementary Probability and Statistics**

UNDERSTANDING DATA: Distributions and graphs, summarizing data, normal distribution, scatterplots, categorical data, designing samples and experiments, probability. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH148**Elementary Probability and Statistics**

PROBABILITY & INFERENCE: Sampling distributions, probability, sample proportions and means, binomial distribution, confidence intervals, inference for means, comparing two means. Prereq.: 15-Math-147 with at least C-. Prereq: 15MATH147. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH149**Elementary Probability and Statistics**

TOPICS IN INFERENCE: Inference for proportions, two-sample inference, two-way tables and Chi Square, one-way analysis of variance (ANOVA), inference for regression. Prereq.: 15-Math-148 with at least C-. Prereq: 15MATH148. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH151**Mathematics for Early Childhood Teachers I**

Problem-solving principles and strategies, number systems, operations estimations, fractions, decimals, and percents. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH152**Mathematics for Early Childhood Teachers II**

Algebraic expressions, graphing points and lines, geometry of shape (congruence, similarity), and measurement. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH153**Mathematics for Early Childhood Teachers III**

Topics from statistics and probability. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH154**Mathematics for Early Childhood Teachers IV**

Geometric transformations in the plane, including rigid motions and dilations/contractions, reflection and rotational symmetries, tilings, tessellations, grid design and distortions. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH155**Topics in Mathematics**

Management Science: Euler circuits, Hamiltonian circuits, traveling salesman problems, minimum-cost spanning trees, critical path analysis, scheduling tasks, bin packing, mixture problems, linear programming. Score of 420+ on Math Placement Test. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH156**Topics in Mathematics**

Collecting and describing data, probability, and statistical inference. Score of 420+ on Math Placement Test. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH157**Topics in Mathematics**

Voting systems, fair division, and apportionment. Score of 420+ on Math Placement Test. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH173**College Algebra I**

Equations, inequalities, Cartesian coordinate system, graphs of polynomial functions. Score of 431 - 500 on Math Placement Test. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 3.00

Mathematics**15MATH174****College Algebra II**

Rational functions, conic sections, exponential and logarithmic function, systems of equations and inequalities. Prereq.: 15-Math-173 with at least C- or score of 500+ on MPT. Prereq: 15MATH173. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH181**Trigonometry**

Rational functions, conic sections, trigonometry. Prereq.: 15-Math-174 with at least C- or score of 530+ on MPT. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MATH200**Cooperative Learning in Calculus 0**

Students will participate in guided group work which complements the Calculus 0 curriculum. Coreq: 15MATH250. BoK: QR. Credit Level: U. Credit Hrs: 1.00

15MATH201**Cooperative Learning in Calculus I**

Students participate in guided group work to complement the Calculus I curriculum. Coreq: 15MATH251. BoK: QR. Credit Level: U. Credit Hrs: 1.00

15MATH202**Cooperative Learning in Calculus II**

Student will participate in guided, group work which complements the Calculus II curriculum. Coreq: 15MATH252. BoK: QR. Credit Level: U. Credit Hrs: 1.00

15MATH203**Cooperative Learning in Calculus III**

Students will participate in guided, group work which complements the Calculus III curriculum. Coreq: 15MATH253. BoK: QR. Credit Level: U. Credit Hrs: 1.00

15MATH224**Foundations of Applied Calculus**

A review of algebraic skills needed for calculus, including exponents, radicals, linear equations and inequalities, linear systems, and exponential and logarithm functions. Prereq.: Score of 470+ on Math Placement Test. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH225**Finite Math**

Systems of equations, linear programming, matrix algebra, and probability. Score of 530+ on Math Placement Test. Prereq.: 15-Math-174 with at least C- or score of 530+ on MPT. Prereq: 15MATH174. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH225H**Honors Finite Mathematics**

Honors version of 15 Math 225. Prereq. 15-Math-174 with at least C- or score of 530+ on MPT. Prereq: 15MATH174. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH226**Applied Calculus I**

Functions, graphs, limits, continuity, differentiation, curve sketching, optimization. Properties of exponential and logarithmic functions. Prereq.: 15-Math-174 or 15-Math-224 with at least C- or score of 570+ on MPT. Prereq: 15MATH224, 15MATH174. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH226H**Honors Applied Calculus I**

Honors version of 15 Math 226. Prereq.: 15-Math-174 or 15-Math-224 with at least C- or score of 570+ on MPT. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH227**Applied Calculus II**

Applications of exponential and logarithmic functions, anti-differentiation, the definite integral, area, functions of the variables,

H=University Honors course.

Mathematics**15MATH227****Applied Calculus II**

partial derivatives, maxima and minima, Lagrange multipliers. Prereq.: 15-Math-226 with at least C-. Prereq: 15MATH226. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH227H**Honors Applied Calculus II**

Honors version of 15 Math 227. Prereq.: 15-Math-226 with at least C-. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH250**Calculus 0**

For students who need more preparation before going on to 15 Math 251 Calculus I. Prereq.: score of 550+ on MPT. BoK: QR. Credit Level: U. Credit Hrs: 5.00

15MATH251**Calculus I**

Functions, limits and continuity, derivatives, applications of the derivative, the integral. Prereq.: score of 670+ on the Math Placement Test or 15-Math-250 or 15-Math-181 with at least C-. Prereq: 15MATH250. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 5.00

15MATH251H**Honors Calculus I**

Honors version of Math 251 (Calculus I). Prereq.: University Honors scholars with score of 860+ on MPT OR others with 1100+ on MPT and permission of department. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 5.00

15MATH252**Calculus II**

Riemann sums, Riemann integral, techniques of integration, volume, applications of integration, vectors. Prereq.: 15-Math-251 with at least C-. Co-req.: 15-Math-256. Prereq: 15MATH251. Coreq: 15MATH256. BoK: QR. Credit Level: U. Credit Hrs: 4.00

15MATH252H**Honors Calculus II**

Honors version of 15 Math 252 Calculus II. Prereq: 15MATH251. Coreq: 15MATH256. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 4.00

15MATH253**Calculus III**

Sequences, series, lines and planes in space, vector-valued functions. Prereq.: 15-Math-252 with at least C-. Co-req.: 15-Math-257. Prereq: 15MATH252. Coreq: 15MATH257. BoK: QR. Credit Level: U. Credit Hrs: 4.00

15MATH253H**Honors Calculus III**

Honors version of 15 Math 253 (Calculus III) Prereq: 15MATH252. Coreq: 15MATH257. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 4.00

15MATH256**Calculus II Laboratory**

Computer lab to accompany Calculus II (15 Math 252) Coreq: 15MATH252. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15MATH256H**Honors Calculus II Laboratory**

Honors version of 15 Math 256 (Calc II Lab) Coreq: 15MATH252H. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15MATH257**Calculus III Laboratory**

Computer lab to accompany Calculus III (15 Math 253) Coreq: 15MATH253. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 1.00

Mathematics**15MATH257H****Honors Calculus III Laboratory**

Honors version of 15 Math 257 (Calc III Lab) Coreq: 15MATH253H. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15MATH264**Calculus and Analytic Geometry IV**

Course covers partial derivatives, multiple integrals, calculus of vector fields. Prereq.: 15-Math-253 with at least C-. Prereq: 15MATH253. BoK: QR. Credit Level: U. Credit Hrs: 5.00

15MATH264H**Honors Calculus & Analytic Geometry IV**

Honors version of 15 Math 264. Partial derivatives, multiple integrals, and calculus of vector fields. Prereq: 15MATH253. BoK: QR. Credit Level: U. Credit Hrs: 5.00

15MATH273**Differential Equations**

First order differential equations (linear, separable, exact), second order linear equations, Wronskians, method of undetermined coefficients, variation of parameters, series solutions, regular singular points, higher order equations, Laplace transform. Prereq.: 15-Math-253 with at least C-. Prereq: 15MATH253. BoK: QR. Credit Level: U. Credit Hrs: 5.00

15MATH276**Matrix Methods**

Course covers matrices, systems of linear equations, Gaussian elimination, determinants, theory of solutions, computation of inverses, eigenvectors and eigenvectors, coordinate transformations, systems of differential equations, applications to mechanical systems and electrical circuits. Prereq.: 15-Math-253 with at least C-. Prereq: 15MATH253. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH307**Mathematics for Middle-School Teachers I**

Inquiry-based, integrated approach to middle school content areas of arithmetic (number systems, proportional reasoning, fractions, place value), geometry (shapes, measurement, transformations), algebra (with connections to arithmetic and geometry, as well as real-world problem solving), functions and graphs, and discrete mathematics. Emphasis on developing mathematical understanding needed to teach these concepts effectively. This is the first course in the sequence. Prereq.: 15-Math-227 with at least C-. Prereq: 15MATH227. BoK: QR. Credit Level: U. Credit Hrs: 4.00

15MATH308**Mathematics for Middle-School Teachers II**

Inquiry-based, integrated approach to middle-school content areas of arithmetic (number systems, proportional reasoning, fractions, place value), geometry (shapes, measurement, transformations), algebra (with connections to arithmetic and geometry, as well as real-world problem-solving), functions and graphs, and discrete mathematics. Emphasis on developing mathematical understanding needed to teach these concepts effectively. This is the second course in the sequence. Prereq.: 15-Math-307 with at least C-. Prereq: 15MATH307. BoK: QR. Credit Level: U. Credit Hrs: 4.00

15MATH309**Mathematics for Middle-School Teachers III**

Inquiry-based, integrated approach to middle-school content areas of arithmetic (number systems, proportional reasoning, fractions, place value), geometry (shapes, measurement, transformations), algebra (with connections to arithmetic and geometry, as well as real-world problem solving), functions and graphs and discrete mathematics. Emphasis on developing mathematical understanding needed to teach these concepts effectively. This is the third course in the sequence. Prereq.: 15-Math-308 with at least C-. Prereq: 15MATH308. BoK: QR. Credit Level: U. Credit Hrs: 4.00

15MATH351**Linear Algebra I**

Linear equations, matrices, vector spaces, bases and dimension.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Mathematics**15MATH351****Linear Algebra I**

Prereq.: 15-Math-253 with at least C-. Prereq: 15MATH253. BoK: QR.
Credit Level: U. Credit Hrs: 3.00

15MATH352**Linear Algebra II**

Orthogonality, linear transformations, determinants, eigenvalues and eigenvectors, diagonalization. Prereq.: 15-Math-351 with at least C-.
Prereq: 15MATH351. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH355**Introduction to Differential Equations**

First and second order differential equations (with emphasis on the linear case), higher order linear equations, and systems of linear equations. Prereq.: 15-Math-264 and 15-Math-352 with at least C-.
BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH357**Introduction to Abstract Mathematics**

Logic and proofs; set theory; relations; functions; cardinality. Prereq.: 15-Math-352 with at least C-. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH361**Probability and Statistics I**

Sample statistics. Probability, sample spaces, counting rules, conditional probability. Discrete and continuous random variables, their distributions and expected values. Binomial, Poisson, hypergeometric, normal, gamma distributions. Covariance, correlation. Sampling distributions of means and sums. Prereq.: 15-Math-253 with at least C-.
Prereq: 15MATH253. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH362**Probability and Statistics II**

Point estimation, confidence intervals for means, proportions, variances, and differences of means and proportions. Hypothesis testing. Simple linear regression, multiple linear regression. Model building. SAS software package may be used. Prereq.: 15-Math-361 with at least C-. Prereq: 15MATH361. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH363**Probability and Statistics III**

Analysis of variance and experimental design. Categorical data analysis, chi-square tests, reliability and quality control. SAS software package may be used. Prereq.: 15-Math-362 with at least C-. Prereq: 15MATH362. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH366**Engineering Statistics**

Descriptive statistics, probability, binomial, Poisson, and normal distributions. Confidence intervals, and hypothesis testing, regression analysis. Prereq.: 15-Math-253 with at least C-. Prereq: 15MATH253. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH377**Applied Boundary Value Problems**

Heat equation, wave equation, Laplace's equation, separation of variables, Fourier series, eigenfunction expansions, Fourier transform. Prereq.: 15-Math-264 AND 15-Math-273 with at least C-. Prereq: 15MATH264, 15MATH273. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH401**Introduction to Abstract Algebra I**

Division, prime numbers, modular arithmetic, Chinese Remainder Theorem, rings, homomorphisms. Prereq.: 15-Math-357 with at least C-.
Prereq: 15MATH357. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH402**Introduction to Abstract Algebra II**

Arithmetic in the rings of polynomials, irreducibility, congruence, in $F[x]$, the structure of the quotient ring, geometric constructions. Prereq.: 15-Math-401 with at least C-. Prereq: 15MATH401. BoK: QR. Credit Level: U. Credit Hrs: 3.00

Mathematics**15MATH404****History of Mathematics**

A survey of the history of mathematics from ancient times through the invention of the calculus. Egyptian and Babylonian computational systems, Pythagoreanism, Euclid, the work of Archimedes, Hindu-Arabic numeration, algebra of the Renaissance, Galileo's mathematization of nature, geometry of Descartes and Fermat, calculus of Newton and Leibniz. Prereq.: 15-Math-406 with at least C-. Prereq: 15MATH406. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH406**Introduction to Geometries I**

Introduction to Euclidean plane geometry. Attention is given to logical structure and the nature of axioms and their relationship to basic principles of plane geometry. Emphasis on triangle geometry, parallelism, and geometric constructions. Prereq.: 15-Math-357 with at least C-. Prereq: 15MATH357. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH407**Introduction to Geometries II**

A course in transformational geometry based on symmetries of the plane. Isometries of the plane; conjugacy and geometric equivalence; isometries in 3-D; geometry and vector algebra. Prereq.: 15-Math-406 with at least C-. Prereq: 15MATH406. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH408**Introduction to Analysis I**

Continuity and differentiability. Prereq.: 15-Math-357 with at least C-. Prereq: 15MATH357. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH409**Introduction to Analysis II**

Riemann Integration and Infinite Series Prereq.: 15-Math-408 with at least C-. Prereq: 15MATH408. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH410**Discrete Mathematics and Applications**

Logic, proofs, induction, relations, graphs, and trees. Prereq: 15MATH361. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15MATH498**Undergraduate Internship in Mathematics**

Practical work-related experience in a supervised internship where job responsibilities involve statistical or mathematical reasoning or computation. For math majors (or math as second major.) Permission of Undergraduate Program Director required. Prereq: 15MATH352, 15MATH357. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

15MATH501**Senior Capstone Experience in Mathematics**

Students enroll in this course during the quarter in which they complete their senior capstone project/coursework. The capstone experience must be approved by the Undergraduate Program Director. BoK: QR. Credit Level: U. Credit Hrs: 1.00

15MATH504**Advanced Calculus**

Ordered sets, the real field, the complex field, Euclidean space, finite, countable and uncountable sets, metric spaces, compact sets, convergent sequences, Cauchy sequences, upper and lower limits, Bolzano-Weierstrass theorem, series, the number e , convergence tests for series, absolute convergence, addition and multiplication of series, rearrangements. Prereq: 15MATH357. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH505**Advanced Calculus**

Limits and continuity of functions, continuity and compactness, connectedness and continuity, discontinuities, monotone functions, derivatives, the Mean Value theorem, l'Hopital's rule, higher order derivatives, Taylor's theorem, Riemann-Stieltjes integral, integration and

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Mathematics**15MATH505****Advanced Calculus**

differentiation of vector-valued functions, rectifiable curves. Prereq: 15MATH504. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH506**Advanced Calculus**

Uniform convergence for sequences and series of functions, equi-continuous families of functions, the Stone-Weierstrass theorem, functions of several variables. Prereq: 15MATH505. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH511**Abstract Algebra**

Abstract vector spaces; determinants; eigenvalues and eigenvectors; algebra of linear transformations; canonical forms, including triangular, Jordan, and rational forms. Prereq: 15MATH357. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH512**Abstract Algebra**

Definition and basic properties of groups, sub-groups, permutation groups, direct products, isomorphisms, homomorphisms, normal subgroups, and factor groups. Prereq: 15MATH357. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH513**Abstract Algebra**

Selected topics in number theory. Binary relations and binary operations. Definitions and basic properties of rings and fields, integral domain, quotient fields, quotient rings and ideals, factorization of polynomials over fields, unique factorization domains, Euclidean domains, Gaussian integers, extension fields, algebraic extensions, geometric constructions, finite fields. Prereq: 15MATH512. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH514**Numerical Analysis**

Floating point arithmetic, roundoff error, error propagation, solving nonlinear equations by bisection, secant, regula-falsi, and Newton methods, error analysis, polynomial interpolation, Runge phenomenon, cubic spline interpolation, orthogonal polynomials, and least squares approximation. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH515**Numerical Analysis**

Gauss elimination, pivoting strategies, iterative methods for linear systems (Jacobi, Gauss-Seidel), eigenvalue-eigenvector computations by power, inverse power, and Rayleigh Quotient methods, Householder transformations, Hessenberg matrices and the Q-R method, singular value decomposition. Prereq.: Math 514. Prereq: 15MATH514. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH516**Numerical Analysis**

Numerical differentiation, Newton-Cotes and Gaussian quadrature, Romberg integration, FFT, adaptive quadrature, numerical methods for initial value problems including Runge-Kutta and predictor-corrector methods, finite difference methods for two-point boundary value problems, decent methods for optimization problems. Prereq.: Math 515. Prereq: 15MATH515. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH517**Applied Mathematics Practicum**

Techniques in applied mathematics, ordinary and partial differential equations, numerical methods, perturbation techniques, modeling. Under the guidance of the instructor, teams of students solve problems from industry, government, etc and present reports on their findings. Prereq: 15MATH254, 15MATH273. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

Mathematics**15MATH521****Mathematical Statistics**

Random variables, probability distribution functions, mathematical expectation, Chebyshev's inequality, marginal and conditional distributions, independence, binomial, Poisson, Gamma, and normal distribution. Prereq.: Math 264 and 361. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH522**Mathematical Statistics**

Sampling distributions: transformation of variables, order statistics, moment generating functions, distribution of sample mean and sample variance, stochastic convergence, central limit theorem, maximum likelihood estimation, Bayesian - estimation, confidence intervals. Prereq: 15MATH521. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH523**Mathematical Statistics**

Hypothesis testing, uniformly most powerful and likelihood ratio tests, sufficient statistics, Rao -Blackwell Theorem, exponential densities, Rao - Cramer inequality, sequential and chi-square tests. Prereq: 15MATH522. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH526**Nonlinear Optimization**

Methods of unconstrained optimization, the steepest descent method, Newton's Method, conjugate direction methods, quasi-Newton and variable metric methods, theory and methods of constrained penalty methods. Prereq: 15MATH264. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH531**Applied Statistical Inference**

Quick review of probability distributions. Inferences about population means and variance. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH532**Applied Regression Analysis**

Correlation, multiple regression, one-way ANOVA, and multiple comparisons. Projects using SAS packages. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH533**Analysis of Variance**

ANOVA for standard experimental designs and unbalanced designs, repeated measures, and analysis of covariance. Prereq: 15MATH532. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH534**SAS Programming**

Various aspects of the SAS statistical package from a programming language perspective. Emphasis on SAS data steps, including the infile, input, merge, set, do-loop, if-then commands, writing macros, matrix computations using PROC IML and PROC INSIGHT. Concentration is on programming issues rather than statistical procedures. Prereq: 15MATH363, 15MATH532. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH541**Computational Financial Mathematics I**

Symbolic and numerical solutions of ODEs, Brownian motion, stochastic calculus, Black Scholes formula, computer lab using Mathematica. Prereq: 15MATH361, 15MATH254. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH542**Computational Financial Mathematics II**

Computer lab using Mathematica. Stock market statistics, Bayesian and non-Bayesian estimates, implied volatility, numerical PDEs, optimal control of PDEs. Prereq: 15MATH541. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Mathematics**15MATH543****Computational Financial Mathematics III**

Computer lab using Mathematica. American options, optimal stopping, Dupire PDE, portfolio rules, portfolio optimization. Prereq: 15MATH542. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH551**Number Theory**

Number-theoretic functions, congruences, diophantine equations, primitive roots and indices, quadratic residues, quadratic reciprocity. Prereq: 15MATH402. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH553**Partial Differential Equations and Fourier Analysis**

Heat equation, separation of variables, Laplace equation, Fourier series, vibrating strings, and membranes. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH554**Partial Differential Equations and Fourier Analysis**

Sturm-Liouville problems. PDE with at least three independent variables. Green's functions, non-homogeneous problem, Fourier transform, and characterization. Prereq: 15MATH553, 15MATH254. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH555**Applied Linear Algebra**

Gaussian elimination, triangular factorization, band matrices, linear independence, computation of column space and nullspace of a matrix, orthogonality and geometry of R^n projections onto subspaces, least squares approximation, and the pseudo-inverse. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH556**Applied Linear Algebra**

Stability of linear differential and difference equations, the Spectral Theorem for symmetric matrices, positive definite matrices, the generalized eigenvalue problem, the Rayleigh quotient, and minimax principles. Prereq: 15MATH555. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH568**Applied Complex Analysis**

Introduction to the geometric aspects of elementary complex analysis. Topics covered include: complex numbers; mapping properties of elementary functions; conformal mapping and Möbius transformations; and applications to fluid flow. Prereq: 15MATH264, 15MATH273. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15MATH573**Applied Bayesian Analysis**

Basic principles behind Bayesian inference and the concepts of prior and posterior distributions. Bayesian approach to statistical inference (estimation and test of hypotheses.) Differences and similarities between Bayesian and classical (frequentist) approaches featuring selected topics and examples requiring approximate or computer based numerical calculations of Bayesian answers. Prereq: 15MATH522. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH574**Nonparametric Statistics**

One- and two-sample location problems, Wilcoxon statistics, rank tests, one- and two-way layout, tests for independence, linear rank statistics, Kolmogorov test. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH575**Robust Statistics**

Methods of data analysis that are used when a sample is not assumed to have come from a normal distribution. Classical methods of inference and estimation; theoretical, applied, and computational aspects of robustness; Monte Carlo adaptive estimation, jackknifing, and bootstrapping. Prereq: 15MATH362. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

Mathematics**15MATH576****Topics in Applied Statistics**

Selected topics in applied statistics, depending on the area of specialty of the instructor. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH577**Applied Probability and Stochastic Processes I**

Basic elements of probability theory and stochastic processes, Markov chains, and the Poisson process. Prereq: 15MATH264. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH578**Applied Probability and Stochastic Processes II**

Additional topics from the theory of stochastic processes, plus applications. Prereq: 15MATH577. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH580**Mathematics using Mathematica**

Projects using Mathematica. (No prior knowledge of programming or Mathematica is required. There will be some different options for those with specialized goals.) BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH584**Combinatorics**

Theory and practice of enumeration; the Pigeonhole principle; permutations and combinations; binomial coefficients; inclusion-exclusion principle; recurrence relations; generating functions. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15MATH591**Individual Work in Mathematics**

To be arranged. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-8.00

15MATH592**Individual Work in Mathematics**

To be arranged. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15MATH593**Individual Work in Mathematics**

To be arranged. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-8.00

15MATH598**Special Topics in Mathematics**

Topics vary. Prereq: 15MATH597. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15MATH599**Special Topics in Mathematics**

Topics vary. Prereq: 15MATH598. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15MATH601**Complex Analysis**

The complex number system, elementary analytic functions and power series, conformal mapping and linear fractional transformations, Cauchy's Integral Theorem & Formula, local properties of analytic functions, Schwarz's Lemma, calculus of the residues, Schwarz reflection principle, normal families, Riemann Mapping Theorem, harmonic functions, Dirichlet problem, Meromorphic function Prereq: 15MATH506. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15MATH604**General Topology**

Topics to be covered include: topologies and bases; subspaces; continuous functions; compactness; connectedness; separation axioms; Hausdorff property; Urysohn's lemma; Tietze extension theorem; product spaces; quotient spaces; and compact-open topology. Prereq: 15MATH506. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15MATH605**General Topology**

Homotopy; the Seifert - van Kampen theorem; lifting theorem; classification of covering spaces; smooth manifolds; tangent spaces;

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Mathematics**15MATH605****General Topology**

regular values; smooth approximation theorem; surfaces; homology; the singular model; and the Eilenberg- Steenrod axioms. Prereq: 15MATH604. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15MATH606**General Topology**

Cellular and simplicial homology; Betti numbers, Euler characteristic; Mayer-Vietoris sequence; homology cross-product; Lefschetz fixed-point theorem; Ext, Tor, universal coefficient theorems; Kunnethe theorems; cohomology; products (cross, cup, cap); Poincare duality; and topics chosen by the instructor. Prereq: 15MATH605. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15MATH607**Real Analysis**

Elementary set theory, Axiom of Choice, elementary topology. Lebesgue Measure and integration on the real line. Abstract measure and integration theory, product measures and Fubini's theorem, absolute continuity and the Radon-Nikodym theorem, signed measures and decomposition theorems, integration on locally compact spaces, the Riesz Representation Theorem. Topological vectors. Prereq: 15MATH506. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15MATH608**Real Analysis**

(see 15 Math 607) plus normed spaces and Hilbert spaces, elementary theory of continuous linear operators. Prereq: 15MATH607. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15MATH609**Real Analysis**

Lebesgue measure, Lebesgue integration, differentiation, absolute continuity, LP spaces, abstract measure spaces, integration, product measures. The third offering in a three-part course sequence. Prereq.: Math 506. Prereq: 15MATH608. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15MATH610**Algebraic Structures**

Group Theory: Sylow's theorems; Fundamental Theorem of abelian groups; Jordan-Holder theorems, solvable groups. Modules: Free modules and Zorus' Lemma. Modules over PID. Categories: Products; co-products; and free objects. Prereq: 15MATH513. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15MATH613**Linear Models and Multivariate Analysis**

Review of matrix algebra, multivariate normal distribution; linear models including multiple regression, analysis of variance, analysis of covariance and repeated measurements. Selected topics from experimental design and multivariate analysis. Prereq: 15MATH351, 15MATH362. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15MATH614**Linear Models and Multivariate Analysis**

Multivariate normal distribution. General linear models. Analysis of experiments. The second offering in a three-part course sequence. Prereq.: Math. 352 or equiv.; 362 or 523 or 708. Prereq: 15MATH613. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15MATH615**Linear Models and Multivariate Analysis**

Multivariate normal distribution. General linear models. Analysis of experiments. The third part in a three-part course sequence. Prereq.: Math 352 or equiv.; 362 or 523 or 708. Prereq: 15MATH614. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15MATH616**Ordinary Differential Equations**

Linear systems. Fundamental theory of existence, uniqueness and continuity of solutions in initial conditions. Stability of equilibria. Liapunov functions. Poincare-Bendixson theorem. Perturbation theory.

Mathematics**15MATH616****Ordinary Differential Equations**

BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15MATH617**Ordinary Differential Equations**

Linear systems. Fundamental theory of existence, uniqueness and continuity of solutions in initial conditions. Stability of equilibria. Liapunov functions. Poincare-Bendixson theorem. Perturbation theory. The second part of a three- part course sequence. Prereq.: Math 506; knowledge of linear algebra. Prereq: 15MATH616. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15MATH627**Partial Differential Equations**

The wave equation. Second order equations, elliptic and parabolic equations. Laplace's equation; heat equation. Separation of variables and Fourier series. Nonhomogenous problems. Sturm-Liouville theory and general Fourier expansions. Approximation methods. Prereq: 15MATH506. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15MATH628**Partial Differential Equations**

The wave equation. Second order equations, elliptic and parabolic equations. Laplace's equation; heat equation. Separation of variables and Fourier series. Nonhomogenous problems. Sturm- Liouville theory and general Fourier expansions. Approximation methods. The second offering in a three-part course sequence. Prereq.: Math. 506. Prereq: 15MATH627. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15MATH629**Partial Differential Equations**

The wave equation. Second order equations, elliptic and parabolic equations. Laplace's equation; heat equation. Separation of variables and Fourier series. Nonhomogenous problems. Sturm-Liouville theory and general Fourier expansions. Approximation methods. The third offering in a three-part course sequence. Prereq.: Math. 506. Prereq: 15MATH628. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15MATH631**Advanced Theory of Statistics I**

Review of probability theory; distribution theory, sufficient statistics, maximum likelihood estimators, large sample theory, confidence intervals and testing. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15MATH632**Advanced Theory of Statistics II**

Elements of decision theory, unbiased estimation, Bayesian analysis, minimax estimators, invariant estimator, Bayes and minimax tests, likelihood ratio tests. Prereq: 15MATH631. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15MATH633**Advanced Theory of Statistics III**

Uniformly most powerful tests, general linear hypotheses, multiple decision problems, sequential analysis, density estimation, empirical processes. Prereq: 15MATH632. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15MATH634**Probability Theory I**

Probability measures, random variables, expectation laws of large numbers, applications. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15MATH710**Advanced Numerical Analysis**

Subjects of current interest in numerical analysis and its applications. Prereq: 15MATH516. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15MATH701**Analytical Methods**

Linear and nonlinear ordinary differential equations; solutions by series and transforms; Bessel's equation; numerical methods; boundary value problems; applications to vibrations, heat transfer, etc. Credit Level: G.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Mathematics**15MATH701****Analytical Methods**

Credit Hrs: 3.00

15MATH702**Analytical Methods**

Calculus in higher dimensions: gradient, curl, divergence, Jacobian, curvilinear coordinates, etc.; separation of variables for solving partial differential equations; calculus of variations. Prereq: 15MATH701.

Credit Level: G. Credit Hrs: 3.00

15MATH720**STATISTICAL CONSULTING**

Working on projects in teams of two, students will interact with researchers to learn statistical techniques and develop consulting and presentation skills. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

15MATH750**Technology for Calculus**

Introduction to the use of technology for teaching analysis (pre-calculus and calculus). Graphing calculators, symbolic algebra programs. Design and delivery of lessons that use technology. Project-oriented with cooperative learning component. For students in the M.A.T. program or by permission of the instructor. Credit Level: G. Credit Hrs: 2.00

15MATH753**Linear Algebra for Geometry**

Studies vectors and linear transformations; algebra of matrices. Focus is on dimensions 2 and 3, Isometries and symmetry groups. For students in the MAT program or by permission of instructor. Credit Level: G. Credit Hrs: 4.00

15MATH754**Technology for Geometry**

Technology for teaching geometry, including: dynamic geometry programs; computer graphics; and technical word processing. Design of lessons that use technology. Project-oriented with cooperative learning component. For students in the MAT program or by permission of instructor. Credit Level: G. Credit Hrs: 2.00

15MATH755**Geometry I**

Axiomatic treatment of neutral and Euclidean geometry. For students in the MAT program or by permission of instructor. Credit Level: G. Credit Hrs: 4.00

15MATH756**Geometry II**

Transformational geometry (isometries, similarities, and other affine transformations.) For students in the MAT program or by permission of instructor. Prereq: 15MATH755. Credit Level: G. Credit Hrs: 4.00

15MATH761**Algebra and Number Theory I**

Congruence, divisibility, primes, number-theoretic functions, number bases, and applications. For students in the M.A.T. program or by permission of the instructor. Credit Level: G. Credit Hrs: 4.00

15MATH762**Algebra and Number Theory II**

The theory of rings and fields, with emphasis on the algebra of polynomials. For students in the M.A.T. program or by permission of the instructor. Credit Level: G. Credit Hrs: 4.00

15MATH763**Probability and Statistical Inference**

Probability axioms and finite probability spaces. Combinatorics. Binomial and Normal distributions. Design of statistical studies and methods of statistical inference. For students in the M.A.T. program or by permission of the instructor. Credit Level: G. Credit Hrs: 4.00

15MATH764**Technology for Statistics**

Spreadsheets and statistical packages for handling and exploring data,

Mathematics**15MATH764****Technology for Statistics**

doing simulations, and demonstrating concepts of statistics. Project-oriented with cooperative learning component. For students in the M.A.T. program or by permission of the instructor. Credit Level: G. Credit Hrs: 2.00

15MATH798**M A T Project I**

Preparation of and presentation of the Master of Arts in Teaching project. Credit Level: G. Credit Hrs: 2.00

15MATH799**M A T Project II**

Preparation for and presentation of the Master of Arts in Teaching project. Credit Level: G. Credit Hrs: 2.00

15MATH801**Matrices**

Matrices and linear transformations in two and three dimensions. Credit Level: G. Credit Hrs: 3.00

15MATH802**Mathematical Models**

Development and analysis of mathematical models of discrete and continuous phenomena. For students in the M.A.T. program or by permission of the instructor. Credit Level: G. Credit Hrs: 4.00

15MATH804**Graduate Colloquium**

GRADUATE COLLOQUIUM Credit Level: G. Credit Hrs: 3.00

15MATH805**Graduate Colloquium**

GRADUATE COLLOQUIUM Credit Level: G. Credit Hrs: 3.00

15MATH806**Graduate Colloquium**

GRADUATE COLLOQUIUM Credit Level: G. Credit Hrs: 3.00

15MATH808**Historical Topics in Mathematics**

Historical perspectives on subjects in secondary school mathematics. Credit Level: G. Credit Hrs: 3.00

15MATH810**Proseminar in the Teaching of College Mathematics**

Techniques and practice in the teaching of undergraduate level mathematics courses. Credit Level: G. Credit Hrs: 3.00

15MATH831**Practicum in Applied Statistics**

This course enables students to enhance their graduate degree program with some practical experience working on real data analytic problems in applied statistics. Students must obtain an internship or co-operative employment in order to get credit for this class. Prereq: 15MATH533. Credit Level: G. Credit Hrs: 1.00-3.00

15MATH832**Practicum in Applied Statistics**

This course enables students to enhance their graduate degree program with some practical experience working on real data analytic problems in applied statistics. Students must obtain an internship or co-operative employment in order to get credit for this class. Prereq: 15MATH533. Credit Level: G. Credit Hrs: 1.00-3.00

15MATH833**Practicum in Applied Statistics**

This course enables students to enhance their graduate degree program with some practical experience working on real data analytic problems in applied statistics. Students must obtain an internship or co-operative employment in order to get credit for this class. Prereq: 15MATH533. Credit Level: G. Credit Hrs: 1.00-3.00

H=University Honors course.

Seminar in Applied Math Credit Level: G. Credit Hrs: 4.00

15MATH913**Seminar in Applied Math**

Seminar in Applied Math Credit Level: G. Credit Hrs: 4.00

15MATH914**Seminar in Partial Differential Equations**

Seminar in Partial Differential Equations Credit Level: G. Credit Hrs: 4.00

15MATH915**Seminar in Partial Differential Equations**

Seminar in Partial Differential Equations Credit Level: G. Credit Hrs: 4.00

Mathematics**15MATH916****Seminar in Partial Differential Equations**

Seminar in Partial Differential Equations Credit Level: G. Credit Hrs: 4.00

15MATH917**Seminar in Differential Equations**

Seminar in Differential Equations Credit Level: G. Credit Hrs: 4.00

15MATH918**Seminar in Differential Equations**

Seminar in Differential Equations Credit Level: G. Credit Hrs: 4.00

15MATH919**Seminar in Differential Equations**

Seminar in Differential Equations Credit Level: G. Credit Hrs: 4.00

15MATH921**Seminar in Statistics**

Seminar in Statistics Credit Level: G. Credit Hrs: 4.00

15MATH922**Seminar in Statistics**

Seminar in Statistics Credit Level: G. Credit Hrs: 4.00

15MATH923**Seminar in Statistics**

Seminar in Statistics Credit Level: G. Credit Hrs: 4.00

15MATH924**Seminar in Probability**

Seminar in Probability Credit Level: G. Credit Hrs: 4.00

15MATH925**Seminar in Probability**

Seminar in Probability Credit Level: G. Credit Hrs: 4.00

15MATH926**Seminar in Probability**

Seminar in Probability Credit Level: G. Credit Hrs: 4.00

15MATH927**Seminar in Complex Analysis**

Seminar in Complex Analysis Credit Level: G. Credit Hrs: 4.00

15MATH928**Seminar in Complex Analysis**

Seminar in Complex Analysis Credit Level: G. Credit Hrs: 4.00

15MATH929**Seminar in Complex Analysis**

Seminar in Complex Analysis Credit Level: G. Credit Hrs: 4.00

15MATH931**Seminar in Geometric Analysis**

PhD level seminar in geometric analysis. Credit Level: G. Credit Hrs: 4.00

15MATH932**Seminar in Geometric Analysis**

PhD level seminar in geometric analysis. Credit Level: G. Credit Hrs: 4.00

15MATH933**Seminar in Geometric Analysis**

PhD level seminar in geometric analysis. Credit Level: G. Credit Hrs: 4.00

15MATH937**Seminar in Cryptography**

PhD level seminar in the mathematical theory of cryptography. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

Mathematics**15MATH938****Seminar in Cryptography**

PhD level seminar in the mathematical theory of cryptography. Credit Level: G. Credit Hrs: 4.00

15MATH939**Seminar in Cryptography**

PhD level seminar in the mathematical theory of cryptography. Credit Level: G. Credit Hrs: 4.00

15MATH941**Seminar in Financial Mathematics**

PhD level seminar in financial mathematics. Credit Level: G. Credit Hrs: 4.00

15MATH942**Seminar in Financial Mathematics**

PhD level seminar in financial mathematics. Credit Level: G. Credit Hrs: 4.00

15MATH943**Seminar in Financial Mathematics**

PhD level seminar in financial mathematics. Credit Level: G. Credit Hrs: 4.00

15MATH951**Seminar in Mathematical Biology**

PhD level seminar in Mathematical Biology. Credit Level: G. Credit Hrs: 4.00

15MATH952**Seminar in Mathematical Biology**

PhD level seminar in Mathematical Biology. Credit Level: G. Credit Hrs: 4.00

15MATH953**Seminar in Mathematical Biology**

PhD level seminar in Mathematical Biology. Credit Level: G. Credit Hrs: 4.00

15MATH971**Master's Thesis Research**

Cr. to be arranged. Credit Level: G. Credit Hrs: 1.00-15.00

15MATH972**Doctoral Dissertation Research**

Cr. to be arranged. Credit Level: G. Credit Hrs: 1.00-15.00

15MATH973**Research**

Cr. to be arranged. Credit Level: G. Credit Hrs: 1.00-15.00

Middle Eastern Studies**15MES245****Introduction to the Middle East**

This class is an introduction to issues and methods in Middle Eastern Studies. Assignments include a variety of primary and secondary sources in ME Studies to gain a broad sense of analytical approaches & exposure to empirical material not encountered in a single-discipline course. BoK: DC. Credit Level: U. Credit Hrs: 3.00

Management**15MGMT101****Business: Ethics and Decisions**

(Formerly 30BA101). The socio-political, economic, and the ethical issues of the next decade. Media course. BoK: SE. Credit Level: U. Credit Hrs: 3.00

15MGMT171**Introduction to Business**

(Formerly 30BA171). Preparation for business curriculum. Students assess abilities, personal goals. Review of major business fields; marketing, human resources finance, production. BoK: NA. Credit

Management**15MGMT171****Introduction to Business**

Level: U. Credit Hrs: 3.00

15MGMT181**Office Management**

Forms, machinery and equipment as office aids. Scientific analysis of office problems and methods. Organization, control and coordination of office work; personnel; cost analyses; budgets. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MGMT271**Principles of Administration**

Functions of business enterprises; areas, type of management activities, investigation of decision making; organizational structures, control systems, assignment of activities. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MGMT291**Human Relations in Management**

Analysis of reactions, interactions; activities of individuals, groups including supervision, leadership, motivation and influences on goal-oriented behavior. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MGMT295**Managing Diversity in the Workforce**

Managing diversity is a recurring topic in business magazines, corporate speeches, and managerial seminars across the country. Cultural diversity is one of the most significant changes in the American workplace in the past two decades. The recognition of a diverse corporate workforce, one profoundly different from the traditional business employee population, creates new situations and unique challenges for everyone. This course will include lectures, videos, required readings and visiting lecturers. BoK: DC. Credit Level: U. Credit Hrs: 3.00

15MGMT372**Production Operations Management I**

Survey of production and support operations for product manufacturing and service organizations with emphasis on basic management and economic concepts, product output and physical facilities. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MGMT471**Readings in Organizational Behavior**

Approaches to administrative thought, focusing on organizational behavior and related theories. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MGMT472**Production Operations Management II**

Survey of production and support operations for product manufacturing and service organizations with emphasis on human inputs, capacity planning, introduction to production/inventory control, and product quality management. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MGMT475**Personnel Function**

Those theories and basic concepts of management, leadership, organization, and labor relations necessary as background to addressing personnel problems. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MGMT476**Cases in Personnel Management**

Employment, training, wage and salary, employee relations, fringe benefit problems analyzed utilizing case studies and other activities. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MGMT499**Independent Study in Management**

Please complete and submit an Independent Application form available from the college office. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Management**15MGMT572****Dynamics of Interpersonal Behavior**

Analysis, group simulations, interpersonal processes and dynamics (role performances and development); organizational aspects of group behavior; leadership and change. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MGMT573**Management in an Emergent Society**

Issues in the business firm's relationship with an emerging and changing society; conflicts of interest; prejudice and discrimination; management ethics. BoK: DC. Credit Level: U. Credit Hrs: 3.00

Marketing**15MKTG171****Salesmanship**

Buying habits and motives; sales presentations; analyzing territories; graphic sales presentations; locating and qualifying prospects. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MKTG245**Principles of Advertising**

History, theory, and roles of advertising; social, economic, and legal aspects. Practice of management, research, strategy, and planning of advertising; emphasis on retail, international advertising. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MKTG246**Principles of Advertising**

Design, execution of copy structure, layout. Mechanical, print, and broadcast production; sales promotion; trademarks; packaging; media selection scheduling, direct marketing. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MKTG251**Principles of Marketing**

(Formerly 30MKTG351). Environment, ethics, social responsibility; buying behavior, target markets, services, branding and packaging; product and pricing concepts. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MKTG252**Principles of Marketing**

(Formerly 30MKTG352). Continuation of 30MKTG251. International, market research; channels, wholesaling, retailing, distribution; promotion, advertising and selling; market planning and control. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MKTG470**Consumer Behavior**

Behavioral aspects of the consumer decision-making process. Consumer behavior theory, marketing strategy and social implications. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MKTG471**Principles of Retailing**

Retailing introduction emphasizing pricing, buying, layout, inventory; different retail stores growth and development. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MKTG473**Sales Management**

Job analysis and specification; recruiting, selecting, training, compensating, supervising salespeople; problems, methods, organization and administration of sales departments; territories, quotas. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MKTG475**Retail Management**

(Formerly Retail Decision Making). Organization; managerial framework; location, operations, systems, sales, promotion, customer services, merchandising policies and controls. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Marketing**15MKTG571****Marketing in a Global Context**

(Formerly International Marketing). Foreign trade; internationalism and multinational corporations; theories, practice, cultural, social, political and economic environment of foreign markets. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MKTG573**Marketing Research I**

Fundamentals of market research; planning the investigation; sources of data; cost determining; editing and testing the sample. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MKTG574**Marketing Research II**

Gathering data; tabulation; conclusions; interpretation and presentations of results; planning and completing projects. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MKTG585**Cases in Marketing Strategy**

(Formerly Marketing Strategy). Problems of mass production, marketing methods, price fixing, legislation, economic and social forces. Analysis and decision making by marketing executives. BoK: NA. Credit Level: U. Credit Hrs: 3.00

Multidisciplinary**15MLTI100****Learning Community Cohort**

Description not available. BoK: NA. Credit Level: U. Credit Hrs: 1.00-19.00

15MLTI111**Learning Community Link**

This course serves to indicate a student's involvement in a Learning Community cohort in a particular quarter. It can be taken multiple times to indicate the different quarters during which a student is part of a Learning Community. BoK: NA. Credit Level: U. Credit Hrs: 0.00

15MLTI112**Learning Community Integration**

Indicates a student's involvement in a learning community in a particular quarter. Credit granted for experiences undertaken in integrating learning among the separate courses involved. BoK: NA. Credit Level: U. Credit Hrs: 1.00-12.00

15MLTI121**Service Learning Link**

This course serves to indicate a student's involvement in a regular academic course that contained a service-learning component. It can be taken multiple times to indicate the different quarters during which a student is involved in service learning activities. BoK: NA. Credit Level: U. Credit Hrs: 0.00

15MLTI123**College Success Skills**

A survey of skills and resources designed to enhance academic success. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MLTI125**Discovering Arts and Sciences**

Exploration of the relationship between fields of study in the liberal arts, their applications in a societal context, and work and career opportunities. Resources include faculty, alumni, representatives of the public and private sectors, and current literature on careers. Primarily designed for undeclared majors as part of the First Year Experience. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MLTI175**Discovering UC**

Introduction to UC's majors and programs of study along with the complete process for selecting a major. Students participate in interactive faculty presentations from all baccalaureate colleges,

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Multidisciplinary**15MLTI175****Discovering UC**

personal assessment, academic exploration exercises, and one-on-one meetings with instructors. Helpful for undecided, questioning, or transitioning students in the major selection process. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MLTI200**Research Tools I**

Instruction in resources of the University Libraries for students in the Learning Communities of the College of Arts & Sciences. Pass credit only. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15MLTI201**McNair Experience I**

The purpose of this course is to provide McNair Scholars with an action plan for applying to and paying for graduate school, preparation for the Graduate Record Exam and exposure to diverse research areas. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15MLTI202**McNair Experience II**

The purpose of this course is to provide McNair Scholars with an action plan for applying to and paying for graduate school, preparation for the Graduate Record Exam and exposure to diverse research areas. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15MLTI203**McNair Experience III**

The purpose of this course is to provide McNair Scholars with an action plan for applying to and paying for graduate school, preparation for the Graduate Record Exam and exposure to diverse research areas. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15MLTI222**Learning Community Link**

This course serves to indicate a student's involvement in a Learning Community cohort in a particular quarter. It can be taken multiple times to indicate the different quarters during which a student is part of a Learning Community. The 200 level will be used with sophomore level students. BoK: NA. Credit Level: U. Credit Hrs: 0.00

15MLTI280**McMicken Service Learning Seminar**

The connection of in-class learning principles to out of class learning experience through community interaction and service. Students enrolled in this class, which will be taken in conjunction with upper-division courses in various disciplines, have up to one academic year to fulfill the service requirement and will be granted credit upon completion of that requirement. BoK: SE. Credit Level: U. Credit Hrs: 1.00-3.00

15MLTI300**Study Abroad**

Students pursuing study abroad with the assistance of UC International Programs will enroll for this course to maintain their status as university students. Actual credit will be awarded upon return to the campus. BoK: NA. Credit Level: U. Credit Hrs: 1.00-50.00

15MLTI301**GOP INTERNSHIP**

GOP INTERNSHIP BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MLTI311**McNair Experience III**

Part three of the orientation to the McNair Experience BoK: NA. Credit Level: U. Credit Hrs: 1.00

15MLTI312**McNair Experience IV**

Part three of the orientation to the McNair Experience BoK: NA. Credit Level: U. Credit Hrs: 1.00

Multidisciplinary**15MLTI333****Learning Community Link**

This course serves to indicate a student's involvement in a Learning Community cohort in a particular quarter. It can be taken multiple times to indicate the different quarters during which a student is part of a Learning Community. BoK: NA. Credit Level: U. Credit Hrs: 0.00

15MLTI350**Mock Trial Internship**

Internship experience for Pre-Law students. Teams will be formed to be trained by attorneys in trial procedure and will argue cases in competition before state and federal judges. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

15MLTI351**Mock Trial Internship**

Internship experience for Pre-Law students. Teams will be formed to be trained by attorneys in trial procedure and will argue cases in competition before state and federal judges. Prereq: 15MLTI350. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

15MLTI444**Learning Community Link**

This course serves to indicate a student's involvement in a Learning Community cohort in a particular quarter. It can be taken multiple times to indicate the different quarters during which a student is a part of a Learning Community. BoK: NA. Credit Level: U. Credit Hrs: 0.00

15MLTI498**Pre-Law Internship**

Internship experience for Pre-law students. Students will have the opportunity to work and learn in law-related settings such as law firms and prosecutors' offices. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

15MLTI500**International Exchange Program**

For UC students who are participating in UC programs abroad under the exchange program of UC International Programs. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-28.00

15MLTI501**Guided Study -- Interdisciplinary**

Individual work offered each quarter with variable cr. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

15MLTI502**Guided Study -- Interdisciplinary**

Individual work offered each quarter with variable cr. The second offering in a three-part course sequence. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

15MLTI503**Guided Study -- Interdisciplinary**

Individual work offered each quarter with variable cr. The third offering in a three-part course sequence. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-6.00

15MLTI681**Consortium**

CONSORTIUM BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-24.00

15MLTI682**The Ralph Regula School**

This is a placeholder course for students registering for classes through the Ralph Regula School of Computational Science. Credit will be awarded as advanced standing. UC's Ralph Regula advisor permission required. BoK: NA. Credit Level: U. Credit Hrs: 1.00-18.00

15MLTI841**Future Faculty Scholars Seminar**

Colloquium restricted to Preparing Future Faculty students. Provides an opportunity for enrollees to become more effective instructors, exposing them to a variety of topics - and insights - on what constitutes effective

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Multidisciplinary**15MLTI841****Future Faculty Scholars Seminar**

teaching. A variety of faculty help to accomplish this purpose by exposing students to - and by modeling - effective teaching strategies. Participants are asked to contribute as well, since many will already have had good teaching experience. Credit Level: G. Credit Hrs: 2.00

15MLTI842**Future Faculty Scholars Seminar**

Continuation of 15MLTI841 Credit Level: G. Credit Hrs: 2.00

15MLTI971**Interdisciplinary Research**

INTERDISCIPLIN RES Credit Level: G. Credit Hrs: 1.00-15.00

Military Science**15MS111****Basic Rappelling**

Introduction to basic rappelling and mountaineering skills. Small group leadership principles, designed to give students a functional base of practical management and leadership skills taught through a physically and mentally challenging course. The course develops a sense of confidence in students' abilities to overcome challenging obstacles. BoK: NA. Credit Level: U. Credit Hrs: 2.00

15MS112**Marksmanship and Leadership**

Introduction to safe use of a rifle and marksmanship training. Basic fundamentals of small group leadership is stressed. Practical experience at leading and decision making is provided to students. Each student faces personal challenges and learns to overcome them through initiative, sound judgment and accurate problem analysis. By doing this, students begin to develop a functional base of practical management and leadership skills which can be applied to future, challenging situations. BoK: NA. Credit Level: U. Credit Hrs: 2.00

15MS113**Military Field Crafts**

Introduction to basic outdoor survival skills, to include map reading, orienteering, land navigation and CPR certification. Students are face with personal challenges that must be overcome through development of personal leadership and decision making skills. Students continue to build upon their functional base of practical management and leadership skills. BoK: NA. Credit Level: U. Credit Hrs: 2.00

15MS211**Leadership Foundations I**

The focus is on developing knowledge of the leadership values and attributes through understanding Army rank, structure and duties as well as broadening knowledge of land navigation and squad tactics. Case studies will provide a tangible context for learning the Soldier's Creed and Warrior Ethos as they apply in the contemporary operating environment. BoK: HP., SE. Credit Level: U. Credit Hrs: 2.00

15MS212**Leadership Foundations II**

The second course in a series that explores the dimensions of creative and innovative tactical leadership strategies and styles of examining team dynamics and two historical leadership theories that form the basis of the Army leadership framework. Aspects of personal motivation and team building are practiced during planning, executing and assessing team exercises and participating in leadership labs BoK: HP., SE. Credit Level: U. Credit Hrs: 2.00

15MS213**Leadership Foundations III**

This is the third course in the series that examines the challenges of leading tactical teams in the complex contemporary operating environment (COE). This course highlights dimensions of terrain analysis, patrolling and operation orders. Continued study of the theoretical basis of the Army leadership framework explores the dynamics of adaptive leadership in the context of military operations.

Military Science**15MS213****Leadership Foundations III**

MS 213 provides a smooth transition to MS 311. BoK: HP., SE. Credit Level: U. Credit Hrs: 2.00

15MS311**Individual Leadership and Military Skills I**

Intermediate tasks of military land navigation and small unit tactics, military maps and use of the magnetic compass, land navigation and terrain analysis. Small unit tactics with emphasis on offensive, defensive and patrolling missions. The training and assessment of the 16 leadership dimensions. Other military skills training. Perm. of instructor required. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MS312**Individual Leadership and Military Skills II**

Organization and tactical employment of the squad and platoon, principles of tactical organization for military operations, preparation of operations order. The training and assessment of the 16 leadership dimensions. Other military skills training. Perm. of instr. required. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MS313**Individual Leadership and Military Skills III**

A study of platoon tactics and operations, garrison operations and marksmanship. Advanced camp orientation and leadership training and assessment. Other military skills training. Perm. of instr. required. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15MS411**Developmental Leadership I**

Study the application of the military staff concept to include staff functions and staff procedures for problem solving and decision making. Topics include information/decision papers and briefings, military correspondence, organization training assessment, planning and execution, after-action reports and leadership theory. Pre-requisite courses: 15MS311, 15MS312 and 15MS313. Prereq: 15MS311, 15MS312, 15MS313. BoK: SE. Credit Level: U. Credit Hrs: 3.00-8.00

15MS412**Developmental Leadership II**

Study the application of military law and international law, as it pertains to the military, the laws of land warfare and the code of conduct. Focus is on the challenges the military profession faces in the new strategic environment. Pre-requisite courses 15MS311, 15MS312 and 15MS313 Prereq: 15MS311, 15MS312, 15MS313. BoK: SE. Credit Level: U. Credit Hrs: 3.00

15MS413**Developmental Leadership III**

Study the application of military ethics and professionalism as it pertains to the military leader in problem solving and decision making. Decision Briefs, Culture of Terrorism, Contemporary Operating Environment (COE), Force Protection, Army Modularity and Battlefield Staff ride. Pre-requisite courses: 15MS311, 15MS312 and 15MS313 Prereq: 15MS311, 15MS312, 15MS313. BoK: SE. Credit Level: U. Credit Hrs: 3.00

15MS491**Individual Work in Military Science**

Independent work in the field of Military Science by contract with faculty member. Must have the permission of the professor to register for the class. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

Neuroscience**15NS110****Neuroscience: Freshman Seminar**

Introduces freshman neuroscience majors to the scope of neuroscience research being pursued at UC and to career options for neuroscientists. BoK: NA. Credit Level: U. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Neuroscience**15NS111****Neuroscience: Seminar**

Exposes freshman neuroscience majors to state-of-the-art neuroscience talks hosted by various departments across the UC campus, develops scientific writing and presentation skills, and discusses issues that arise in undergraduate research projects. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15NS201**Introduction to Neuroscience: Neurobiology**

Provides a fundamental background in cell and circuit level neurobiology. It is intended for Neuroscience majors. Prereq: 15BIOL101, 15BIOL102, 15BIOL103. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15NS202**Introduction to Neuroscience: Neuropsychology**

Provides an overview of the study of brain-behavior relationship, focusing mainly on systems, cognitive and clinical aspects of neuroscience. It is intended for Neuroscience majors. BoK: NS., SS. Credit Level: U. Credit Hrs: 3.00

15NS203**Introduction to Neuroscience: Concepts and Methods**

Introduces students to conceptual and methodological issues in contemporary neuroscience, including broader social and ethical concerns, in light of basic principles of scientific reasoning and understanding. BoK: SE. Credit Level: U. Credit Hrs: 3.00

15NS211**Neuroscience: Seminar**

Exposes sophomore neuroscience majors to state-of-the-art neuroscience talks hosted by various departments across the UC campus, develops scientific writing and presentation skills and discusses issues that arise in undergraduate research projects. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15NS311**Neuroscience: Seminar**

Exposes junior level neuroscience majors to state-of-the-art neuroscience talks hosted by various departments across the UC campus, develops scientific writing and presentation skills, and discusses issues that arise in undergraduate research projects. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15NS411**Neuroscience: Seminar**

Exposes senior status neuroscience majors to state-of-the-art neuroscience talks hosted by various departments across the UC campus, develops scientific writing and presentation skills, and discusses issues that arise in undergraduate research projects. BoK: NA. Credit Level: U. Credit Hrs: 1.00

Organizational Leadership**15ORGL261****Financial Accounting for Organizational Leaders**

An interdisciplinary analysis of the reporting and interpretation of contemporary financial data. Prereq: 15ENGL103. BoK: QR. Credit Level: U. Credit Hrs: 4.00

15ORGL295**Diversity In the Workplace**

Diversity is a recurring topic in magazines, corporate speeches, and managerial seminars across the country. Cultural diversity has become one of the most significant changes in the American workplace. The recognition of a diverse workforce, one profoundly different from the traditional organizational employee population, creates new situations and unique challenges for everyone. This course will include lectures, videos, required readings and visiting lecturers. BoK: DC. Credit Level: U. Credit Hrs: 3.00

Organizational Leadership**15ORGL300****Organizational Behavior for Effective Leaders**

This course explores the attitudes and behaviors of individuals and groups in organizations. The discipline of organizational behavior systematically studies these attitudes and behaviors and provides insight about how to effectively manage and change them. Students will learn how organizations can be structured more effectively and how environmental events affect organizations. Prereq: 15ENGL101, 15ENGL102, 15ENGL103. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15ORGL400**Foundations of Leadership**

A general introduction to and analysis of historical and current theories of leadership. The course is designed for undergraduate students and gives attention to research findings about leadership, the practice of leaders, and skill development. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15ORGL450**Teaching Assistant Practicum for Undergraduate Studies**

Supervised experience as teaching assistant for undergraduate organizational leadership courses. Can take three quarters. Organizational Leadership GPA of 3.0 or better and at least 21 credit hours in the major required. Must have at least a grade of B or better in the course served as a TA and perm. of instructor. Offered each quarter. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ORGL451**Research Methods for Leaders**

Introduces students to inferential statistics and provides opportunities to engage in data analysis techniques commonly used by organizational leaders. Prereq: 15MATH149, 15ORGL400. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15ORGL500**Leadership for Organizational Effectiveness**

This course focuses on leadership, profit maximization and organizational sustainability. Formerly LEADERSHIP FOR PROFIT MAXIMIZATION Prereq: 15ECON101, 15ORGL400. BoK: SS, QR. Credit Level: U. Credit Hrs: 3.00

15ORGL501**Leadership for Organizational Effectiveness II**

This course is the second in a sequence of two that focuses on leadership, profit maximization and organizational sustainability. Formerly LEADERSHIP FOR PROFIT MAXIMIZATION Prereq: 15ECON101, 15ORGL400, 15ORGL500. BoK: SS, QR. Credit Level: U. Credit Hrs: 3.00

15ORGL502**Lessons in Leadership**

Designed to cover current leadership issues facing private and public, for profit and not-for-profit organizations. A wide variety of corporate, government and other organizational leaders will serve as guest speakers and discuss current leadership issues. Students have the opportunity to examine multiple theories and ideas of leadership in order to develop insights for their own personal leadership development. Prereq: 15ORGL501. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

15ORGL505**Special Problems in Organizational Leadership**

For students who desire individual work, by prior arrangement with the Center for Organizational Leadership. Offered each qtr. BoK: NA. Credit Level: U. Credit Hrs: 1.00-9.00

15ORGL550**Capstone**

Taken in the senior year, students operate in an approved leadership role (for example, in a student organization, as community volunteer, at work, etc.) Students synthesize and report their experiences as they relate to the theoretical foundations of leadership being studied. BoK: NA. Credit Level: U. Credit Hrs: 3.00-6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Public Administration**15PBAD235****American Health Policy**

A survey of the history of health care delivery in the US, including the relationship of the public and private sectors in health care policy. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PBAD535**American Health Policy**

A survey of the history of health care delivery in the US, including the relationship of the public and private sectors in health care policy. BoK: NA. Credit Level: G, U. Credit Hrs: 4.00

15PBAD721**Public Personnel Administration**

Theory and practice of personnel administration in American national, state, and local governments. Credit Level: G. Credit Hrs: 4.00

15PBAD722**Collective Bargaining in the Public Sector**

Theory, practice, and problems of labor-management relations in the public services. Credit Level: G. Credit Hrs: 4.00

15PBAD723**Principles in Quality Management**

Application of management principles and techniques to the public sector. Credit Level: G. Credit Hrs: 4.00

15PBAD724**Methods of Policy Analysis & Administration**

Develops understanding of core methods for Public Administration. Credit Level: G. Credit Hrs: 4.00

15PBAD725**Administrative Law**

Procedural requirements resting on administrative agencies: notice and hearing; rulemaking; adjudication. Case approach. Credit Level: G. Credit Hrs: 4.00

15PBAD726**Pro-seminar in Organization Theory and Behavior**

Analysis of various theories of organization and their application to public administration. Credit Level: G. Credit Hrs: 4.00

15PBAD727**Proseminar: Administrative Ethics**

Analysis of ethical issues faced by public administrators. Credit Level: G. Credit Hrs: 4.00

15PBAD728**Organizational Integration & Administration**

This course surveys the basic principles of integrating and developing public sector organizations. Credit Level: G. Credit Hrs: 4.00

15PBAD730**Public Budgeting**

Theories and concepts of public budgeting within the political context of U.S. government structures. Credit Level: G. Credit Hrs: 4.00

15PBAD731**Public Financial Management**

Fundamentals and techniques of sound financial management for the public sector. Prereq: 15PBAD730. Coreq: 15PBAD732. Credit Level: G. Credit Hrs: 4.00

15PBAD732**Computer Applications in Public Administration**

Introduces basic computer skills for public administration. Prereq: 15POL652. Coreq: 15PBAD731. Credit Level: G. Credit Hrs: 4.00

15PBAD733**Fund Accounting for Public Administration**

Introduces the basic principles of governmental accounting, financial statement preparation and analysis, the concept and principles of fund accounting, auditing and the attest function, the relationship of administration to the accounting department, how to use accounting data as a non-financial manager, encumbrance accounting and the

Public Administration**15PBAD733****Fund Accounting for Public Administration**

integration of the budgeting process. Prereq: 15PBAD732. Credit Level: G. Credit Hrs: 4.00

15PBAD735**Public Sector Decision Making**

Theories and techniques of rational decision making with emphasis on public sector applications. Credit Level: G. Credit Hrs: 4.00

15PBAD736**Issues in Public Administration**

Examination of selected issues in public administration. Credit Level: G. Credit Hrs: 4.00

15PBAD750**Introduction to Economic Development Administration**

This course analyzes the basic principles affecting economic development in the public sector. Credit Level: G. Credit Hrs: 4.00

15PBAD827**Public Administration Theory**

The intellectual development of American public administration; major concepts and problems in the field. Credit Level: G. Credit Hrs: 4.00

15PBAD839**Internship in Public Administration**

Seminar integrating theory, research experience in public affairs, administration. 15-085-890 MPA Working Paper. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

15PBAD890**MPA Working Paper Seminar**

This is a basic research methods course where students prepare a preliminary research proposal. The seminar will provide students an opportunity to revise the proposal and focus on the research project within the structure of a class. Credit Level: G. Credit Hrs: 4.00

15PBAD891**Independent Workshop--Public Administration**

To be arranged. Credit Level: G. Credit Hrs: 1.00-4.00

Professional Development**15PD250****Career Development for Arts and Sciences**

Under the guidance of the Career Development Center, this course will provide an orientation to the world of work and instruction in career planning and decision making. BoK: NA. Credit Level: U. Credit Hrs: 1.00

Philosophy**15PHIL101****Moral and Political Ideas**

MORAL-POLIDEAS(M&I) Transfer Module. BoK: HU, SE. Credit Level: U. Credit Hrs: 3.00

15PHIL101H**Moral Political Ideas - Honors**

Selected ethical, political, and social theories in ancient and Medieval philosophy. Transfer Module. BoK: HU, SE. Credit Level: U. Credit Hrs: 3.00

15PHIL102**Moral and Political Ideas**

Selected ethical, political, and social theories from the Renaissance to the 19th century. Transfer Module. BoK: HU, SE. Credit Level: U. Credit Hrs: 3.00

15PHIL102H**Moral and Political Ideas - Honors**

MORAL POL IDEAS Transfer Module. BoK: HU, SE. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Philosophy**15PHIL103****Moral and Political Ideas**

Selected ethical, political and social theories in 20th century thought. Transfer Module. BoK: HU, SE. Credit Level: U. Credit Hrs: 3.00

15PHIL103H**Moral and Political Ideas - Honors**

MORAL POL IDEAS Transfer Module. BoK: HU, SE. Credit Level: U. Credit Hrs: 3.00

15PHIL104**Introduction to Philosophy: Belief and Knowledge**

Introductory readings, surveying classical problems in the theory of knowledge. A General Education course. Transfer Module. BoK: HU, SE. Credit Level: U. Credit Hrs: 3.00

15PHIL105**Introduction to Philosophy: Mind and Will**

Introductory readings surveying classical problems in metaphysics. A General Education course. Transfer Module. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL106**Introduction to Philosophy: Ethics**

Introductory readings surveying classical problems in ethics and values. A General Education Course. Transfer Module. BoK: HU, SE. Credit Level: U. Credit Hrs: 3.00

15PHIL107**Introduction to Philosophy: Through Movies**

A survey of philosophical topics through modern media, particularly film. Topics will include ethics, language, epistemology, science, philosophy of mind, and religion. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL108**Philosophy: Mind and Will**

An alternative non-General Education course corresponding to 15-065-105. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL111**Contemporary Moral Issues**

Philosophical and ethical issues underlying major controversies of the day: rights, freedom and punishment; sex, euthanasia, abortion; business ethics. Offered alt. yrs. Transfer Module. BoK: HU, SE. Credit Level: U. Credit Hrs: 3.00

15PHIL112**Early Philosophy of Nature**

Survey of ancient world views, our place in nature, and how we acquire knowledge. Transfer Module. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL113**Philosophy of the Scientific Revolution**

Development of the modern worldview. The impact of Copernicus, Galileo, Newton and others on our understanding of nature and society. Transfer Module. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL114**Humanity and Technology**

The impact of scientific knowledge and changing technology of our understanding of nature, culture, and the individual. Transfer Module. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL115**Introduction to Philosophies Around the World**

A General Education Approved course, emphasizing critical thinking in written assignments. It surveys the wisdom traditions of non-western cultures and the philosophical (wisdom) tradition of Western culture. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15PHIL121**Critical Thinking**

Introduction to the techniques of clear and careful reasoning. Transfer Module. BoK: HU. Credit Level: U. Credit Hrs: 3.00

Philosophy**15PHIL123****Introduction to Logic**

Deductive reasoning. Sec. I-II. Symbolizing arguments in formal logic. Proof techniques, validity, consistency. A General Education course. Transfer Module. BoK: HU, QR. Credit Level: U. Credit Hrs: 3.00

15PHIL187**Introductory Topics Seminar for Pre-Majors**

Seminar for pre-majors and honors students with topics designed to introduce students to philosophy. The course stresses philosophical analysis and writing. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PHIL188**Introductory Topics Seminars for Pre-majors and Honors Students**

An examination of current topics in philosophy. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PHIL189**Introductory Topics Seminars for Pre-majors and Honors Students**

An examination of current topics in philosophy. The second offering in a two-part course sequence. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PHIL207**Minds and Machines**

Can machines think? Is artificial intelligence possible? People have long wondered whether machines could be made to think. In this course we will study the central issues in current philosophical consideration of minds and machines. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL215**Logic of Decision**

An introduction to some of the technical concepts useful in decision making, such as probability and utility, and some of the philosophical puzzles associated with the subject. Students should be competent in high school level algebra. BoK: QR., HU. Credit Level: U. Credit Hrs: 3.00

15PHIL219**Women and Philosophy**

A survey of what male philosophers have thought about women and what women have written in response. Four fundamental philosophical concepts and their development in relation to women are investigated: humanity, rationality, morality, and citizenship. How women philosophers are transforming these traditional concepts are also explored. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL220**African Philosophy**

A survey course on the question of "What is African philosophy?" The metaphysics and ethics of African philosophical traditions like animism and Islam. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PHIL221**Native American Philosophy**

Metaphysical and ethical issues as approved in Native American philosophical traditions. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PHIL225**Directed Study I**

Independent work for students in the area of Philosophy. Perm of Instructor. BoK: HU. Credit Level: U. Credit Hrs: 1.00-3.00

15PHIL226**Directed Study II**

Independent work for students in the area of Philosophy. Perm of Instructor. BoK: HU. Credit Level: U. Credit Hrs: 1.00-3.00

15PHIL227**Directed Study III**

Independent work for students in the area of Philosophy. Perm of Instructor. BoK: HU. Credit Level: U. Credit Hrs: 1.00-3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Philosophy**15PHIL229****Philosophy and Atheism**

Atheism, the belief that there are no gods at all, is the "default" position of any modern naturalistic philosopher, i.e. one that sees philosophy and science as contiguous. This course is a critical defense of this position when compared with its rivals, theism and agnosticism. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL230**Philosophy and Religion**

Arguments for the existence of God and introduction to metaphysics of religious belief. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL231**Science, Magic and the Occult**

An investigation of the contribution of ancient magic and occult philosophies to religion and the rise of modern science. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL235**Pre-Scientific Thought**

Earliest beginnings of scientific thought. Pre-Socratic Greeks. Thales through Plato. Offered every third yr. Transfer Module. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL243**Philosophy and Technology**

An introduction to the philosophical and ethical issues raised by modern technology. A General Education course. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL244**Computers and Controversy**

Ethical and philosophical issues raised by computer technology. A General Education course. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL245**Introduction to Environmental Ethics**

The philosophical bases for reasonable arguments establishing that at least some aspects of nature should be preserved in the raw and wild state. A General Education course. Transfer Module. BoK: HU, SE. Credit Level: U. Credit Hrs: 3.00

15PHIL246**Environmental Ethics H**

An honors section of 15-065-245. The philosophical bases for reasonable arguments establishing that at least some aspects of nature should be preserved in the raw and wild state. Transfer Module. BoK: HU, SE. Credit Level: U. Credit Hrs: 3.00

15PHIL247**Ethics of Scientific Research**

Introduces future scientists to ethical considerations that commonly arise while doing scientific research. Issues such as funding, publishing, and intellectual property will be incorporated with consequentialist and deontological ethical theories to help students understand and evaluate situations often faced by scientists. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL248**Philosophy of Education: The Ideal University**

An introduction to the main conception of the ideal university and academic freedom. A General Education course. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL250**Aesthetics for Fine Arts Majors**

Philosophical issues related to the fine arts, such as the nature of art and artistic expression. For majors in Fine Arts and related fields. Perm of Instructor. BoK: HU. Credit Level: U. Credit Hrs: 3.00

Philosophy**15PHIL252****Issues on Social and Political Philosophy**

Selected issues: rights, capital punishment, civil liberties, abortion. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL261**Philosophy of Physical Sciences**

Introduction to philosophy of science. Examination of roots of modern physical science as found in thought of such scientists as Copernicus, Galileo, Kepler, Bogle and Newton. (College level science not presupposed.) BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL262**Philosophy of Biological Sciences**

Introduction to philosophy of science. Examination of roots of modern biological science as found in the thought of such biologists as Galen, Harvey, Lamarck, Darwin and Mendel. (College level science not presupposed.) BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL263**Philosophy of Social Sciences**

Introduction to the philosophy of science. Representative topics: social sciences and value judgments, behaviorism and determinism, psychoanalysis and freedom, etc. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL271**Marx and Marxism**

An interdisciplinary course on the concepts of human nature in the theoretical views of Marx and 20th-century Marxism. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL277**Philosophy and The Arts**

(See 197.) An introduction to aesthetics, concentrating on problems such as: definition of art, art for art's sake, Marxist views of art as a social form, literary criticism, and the psychoanalytic interpretation of literature. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL280**Love Anger Fear and Other Emotions: Philosophical Perspective**

Philosophical perspectives on the theory of emotion, addressing questions such as physiological changes, cognitions, action tendencies, and the definition of individual emotions such as love, anger, and fear. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL287**Descartes' Meditations and Self-reliance**

The goal is to bring out the positive value of self-reliance and autonomy in our thinking. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL289**Special Topics in Philosophy**

This course is designed to give the faculty the opportunity to cover topical issues in the field. Perm of Department. BoK: HU. Credit Level: U. Credit Hrs: 1.00-3.00

15PHIL303**Philosophy of Psychology**

Introduces the philosophy of psychology/cognitive science. Topics covered include: folk psychology, mental state attribution and human rationality, behaviorism, functionalism and representationalism, and the role of language in cognition. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL304**Metaphysics**

A survey of systematic metaphysical positions. Study of Bradleyan Absolute Idealism, etc. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL305**Epistemology**

An introduction to analytic epistemology. Analysis of knowledge, belief and knowledge, evidence, objects of belief and knowledge, scientific (theoretical) knowledge, empirical knowledge and skepticism. BoK: HU.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Philosophy

15PHIL305

Epistemology

Credit Level: U. Credit Hrs: 3.00

15PHIL306

Metaethics

A survey of the Anglo-American tradition in ethical theory from G.E. Moore to present. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL307

Philosophy of Mind

The Mind-Body problem, psychological explanation, philosophical behaviorism. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL308

Philosophy of Science

Issues in the philosophy of science. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL309

Philosophy of Language

Investigation of truth, reference, and meaning through philosophical works in the twentieth century. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL310

Rationalism

Great rationalists: Descartes, Leibniz, Spinoza. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL311

Empiricism

Great empiricists: Hume, Locke, Berkeley. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL312

Ancient Philosophy

A study of the pre-Socratics, Plato, and Aristotle. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL314

Chinese Philosophy

Course will examine central texts and exposition of the main ideas of Confucianism and Taoism. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PHIL315

Kant's Metaphysics

Immanuel Kant (1724-1804) was one of the most influential philosophers of all time. This course will be an examination of Kant's great work, The Critique of Pure Reason, in which Kant asks, "What must the world be like in order that the mind can know it?" BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL317

Introduction to Pragmatism

An introduction to pragmatism by means of analysis of some of the writings of Pierce, James, Dewey, Mead, Addams, or Lewis. Recent developments in the pragmatist tradition may also be discussed in writings of Quine, Rorty, or Putnam. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL320

Marx

Philosophical foundations and development of selected topics in 19th and 20th century Marxism, e.g., Hegel, Feuerbach, Marx, Engles, Luxemburg, Lenin, Trotsky, Lucas, Gramsci. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL321

Wittgenstein

An in-depth examination of Wittgenstein's early and late philosophies, especially his influence in epistemology and the philosophy of language. BoK: HU. Credit Level: U. Credit Hrs: 3.00

Philosophy

15PHIL322

Ethics

A survey of recent and traditional work in ethical theory. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL323

Soc/Pol Philos

(Formerly 30PHIL272, Ethics & Politics II; or Democratic Theory.) Liberal and conservative thought traced from Plato, Aristotle, to modern times. Readings in Locke, Rousseau, Mill, Burke, Tocqueville, Oakeshott, Dewey, etc. Offered every third yr. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL324

Ethics and Animals: Human Obligations Toward Other Species

An introduction to the moral problems raised by our killing, eating and experimenting on non-human animals. Course emphasis will be on learning how to address an emotionally explosive normative issue in a rational and coherent way, drawing on the main traditions in moral philosophy from ancient to modern. Transfer Module. BoK: HU, SE. Credit Level: U. Credit Hrs: 3.00

15PHIL325

Environmental Ethics

A survey of three components of environmental ethics: condition of the global environment, relation of philosophical, scientific and economic approaches, and the role our conception of nature plays out in discussion of environmental problems. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL327H

Privacy, Security and Risk In The Information Society, Honors

A philosophical examination of the emerging social ethical, political and economic issues raised by the computerization of our society. The seminar will concentrate on time related issues of privacy security, and risk as they affect the nature of commerce and community in an information society. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PHIL329H

Faith & Reason,H

An inquiry into the role of reason in religious belief, especially as contrasted with non-rational faith. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL330

Philosophy and Religion

Examines how religious beliefs differ from common sense, empirical science, and mathematics? What are the main beliefs of Christianity, Judaism and Islam? What are the arguments for and against God's existence? How can God's omniscience be reconciled with free will, and his goodness and omnipotence with evil? What is mysticism? BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL333

Feminist Political Philosophy

An introduction to feminist theory. Discussion of central moral, social, and political claims. Consideration of implications of feminism for men, women, and children in our society. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL334

Early Modern Women Philosophers

This course offers a broad overview of the work of women philosophers of 17th and 18th Centuries; and will be divided into 3 sections: metaphysics and epistemology, moral philosophy, and philosophical feminism. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL341

Symbolic Logic I

First-order logic: syntax, natural deduction proof theory, and model theory up to the completeness proof. BoK: HU., QR. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Philosophy**15PHIL342****Symbolic Logic II**

First-order logic: syntax, natural deduction proof theory, and model theory up to the completeness proof. The second offering in a two-part course sequence. Prereq: 15PHIL341. BoK: HU, QR. Credit Level: U. Credit Hrs: 3.00

15PHIL345**Issues of the Information Age**

The impact of computing and information technology on the moral and legal principles that give order to our society, and on notions of society, community, and self. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL352**Problems of Consciousness**

This course will introduce students to recent philosophical and scientific work on the nature of subjective conscious experience. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL353**Philosophy and Race**

A focused survey of current theoretical literature on the meanings, functions and constructions of race and racial identity, especially in the U.S. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15PHIL362**Existentialism**

Existentialism will begin with a consideration of some of the writings of Kierkegaard and Nietzsche. Examines such 20th-century writers as Sartre and Camus. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL363**Nietzsche**

Does life have meaning? Our elucidation of the question will take as its starting point the pessimism of Schopenhauer with an evaluation of its strength and weakness. The relevance of the past and future. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL364**Existentialism II**

A clarification of the philosophical ideas of Sartre's existentialism such as being-in-itself, being-for-itself, and consciousness. Sartre's most popular ideas such as freedom, death, and bad faith. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL365**The Darwinian Revolution**

An examination of the Darwinian Revolution, and the issues it raised. Readings from Darwin and his contemporaries, as well as more recent secondary sources. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL366**NeoDarwinism**

The development of Darwinism in the 20th Century, emphasizing the contributions of modern genetics. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL367**Philosophy and Cognitive Ethology**

Explores the philosophical foundations of cognitive ethology. Do nonhuman animals have rich cognitive mental lives? Was Descartes right when he said nonhuman animals are "automatons?" Students will read a cross section of scientific and philosophical literature which engages these questions. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL370H**Philosophy, Environment and Wilderness Honors**

This is a course on the historical, theoretical, and practical issues concerning wilderness values. The conceptions of wilderness have a history, both a world history and an American history. How have ideas about what wilderness is changed and under what conditions? Are there rational bases for so-called wilderness values? How are they best understood and assessed? Study of the Greater Yellowstone Ecosystem will be a test case for the application of wilderness values

Philosophy**15PHIL370H****Philosophy, Environment and Wilderness Honors**

and their social and political support. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL371H**Reading & Literacy: Theory & Ideology H**

An examination of the current work on literacy, focusing on curriculum and on the social and political issues of literacy. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL372H**Why We Suffer: the Philosophy & Science of Pain, H**

Topics: history of ideas about pain; recent pain science; types of pain; biological role(s) of pain experience; the differences in pain experience among different social/cultural groups; the notion of suffering; the meaning of pain in light of theistic views--the problem of evil. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL373**Introduction to the Philosophy of Law: Justice**

Justice, plea-bargaining, entrapment, affirmative action, gender issues and the law, criminal defenses. A General Education course. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL374**Introduction to Philosophy of Law: Freedom**

An examination and moral evaluation of freedom of speech, freedom of action and the proper limits of government power over the individual. A General Education course. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL375H**Philosophy of Law: Justice Honors**

Justice, plea-bargaining, entrapment, affirmative action, gender issues and the law, criminal defenses. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL376**Philosophy of Law: Freedom, Honors**

An honors section of 15-065-374. An examination and moral evaluation of freedom of speech, freedom of action and the proper limits of government power over the individual. A General Education course. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL378**Locke's Essay**

Through the medium of Locke's Essay Concerning Human Understanding (1690), we will discuss central philosophical topics, such as the origin of concepts, the difference between primary and secondary qualities, our knowledge of the essences of things, the nature of linguistic communication and personal identity across time, and freedom of the will. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL381**Science, Philosophy and Society**

Examines scientific rationality, the role of science in society and the impact of society on society. It will focus on issues such as the nature of scientific method and of scientific truth, free inquiry and social and ethical constraints on research in a democratic society. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL386**Metaphysical Foundations of Technology**

Issues in the development and application of technology and their relationship to traditional philosophical concerns with human identity, the meaning of life, the nature of knowledge, and the relation between the individual and society. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL388H**The Darwinian Revolution**

This historically oriented course focuses on the development of Darwin's theory of evolution by natural selection, the emergence of

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Philosophy**15PHIL388H****The Darwinian Revolution**

evolutionary theory in the 19th Century, the intellectual and social context crucial to that theory, and the immediate scientific responses to Darwin's theory in the last half of the century. The course will be wide-ranging, covering not only Darwin's *On the Origin of Species* (1859), but also original writings from Darwin's contemporaries. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL389H**The Possibility of Human Altruism H**

An exploration of biological and psychological answers to the question, "Is it possible for humans to be altruists?" The course is offered in seminar style. Students will be asked to actively participate in discussion and to write several short critical essays. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL390H**The Evolution of Cognition, H**

In this course we aim to explore theories of the evolution of cognitive capacities in humans and in non-human animals, and their significance for philosophical theories of the nature of mind and cognition. Of special interest will be the evolution of capacities that underly language use, and of perception. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL391H**Loyalty, Patriotism and War**

What is loyalty and patriotism? Do they impose a moral obligation to go to war? How do the moral claims of family, friends, and nation "those nearer and dearer to you" balance against humanity at large? This course addresses these questions by readings from relevant philosophers and short essays. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL392H**The Linguistic Basis for Conceptual Thought**

Examines the debate between those who think that conceptual thought is independent of language and those who think that language acquisition is the key to the child's ability to think conceptually. We will read texts by both cognitive psychologists and contemporary philosophers. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL393H**Ethics and Individualism**

The clash of western values and religious fundamentalists is at the center of the political world stage today. But what are the western values at stake? Examines works by Immanuel Kant, John Stuart Mill, and Friedrich Nietzsche, which lay out three important approaches to Ethics - Deontology, Utilitarianism, and Ethical Egoism. Focuses on these ethical systems, but we will also consider how, despite the vast differences between their systems, each philosopher champions free-thinking individuals. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL394H**Art and Emotion**

A study of the way in which emotions enter into the creation and the experience of works of painting, literature, music and other art forms. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL395H**The Infinite**

Examines the concept of the infinite from Greek philosophy and mathematics, through the Middle Ages and Western religion, to modern logic and mathematics. Topics include Zeno's paradoxes; Aristotle's extension: Medieval matter and continuity; Leibniz and Newton's on the calculus: numbers (the naturals, integers, and reals) in modern mathematics; modern set theory's transfinite sets; and the continuum hypothesis. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL396H**Conversations About Life**

Built into college life are the late night conversations about love, sex, religion, politics, -- life's important things. This seminar is designed to

Philosophy**15PHIL396H****Conversations About Life**

encourage this tendency in an informal but structured setting. Serious topics will be selected by the students and then "hashed out" with the professor contributing to give direction and suggestions. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL397H**Eye, Mind and Art**

Psychologists and cognitive scientists now know a lot about how the brain processes visual information. In this course we will examine the different kinds of visual experience involved in our appreciation of the various visual arts -- photography, painting, sculpture, architecture, film, etc. -- drawing on work by philosophers, critics, art historians, and cognitive scientists. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL398H**Scientific Philosophy of Color**

Explores contemporary philosophical theories of the nature of color and color vision, and whether philosophical puzzles about color can be resolved by a mature color science. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL399H**Genetics and Bioethics**

The fifty years since the "discovery" of the structure of DNA has seen a revolution in molecular biology. The impact goes beyond science, including agriculture, medicine, and law. The course focuses on a book by one of the founders, James Watson, which discusses the scientific, social, and ethical issues raised. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL407**Philosophy of Mind II**

A detailed examination of central issues in philosophy of mind. Topics may include: behaviorism, identity theories, functionalism, anomalous monism, representation, intentionality, psychosemantics, mental causation, consciousness, qualia, and reductionism. Follows 15PHIL307. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL410**History of Modern Aesthetics**

History of modern aesthetics from 1750 to the present. First quarter centers on British Empiricism (Hume, Hutcheson), Kant and Hegel. Second quarter devoted to legacy of Idealism and Romanticism, Schopenhauer, Nietzsche, Croce, and other influential figures. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL411**History of Modern Aesthetics**

19th c. aesthetics. The German Tradition: Schiller, Schlegel, Schelling, Hegel, Schopenhauer, Nietzsche. Themes include Romanticism and Classicism, art as the expression of feeling, art as the revelation of truth, art as concrete universal. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL421**Aesthetics**

An introduction to aesthetics: nature of art, art as imitation, art as form, art as expression of emotion, contemporary theories of art, etc. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL422**Aesthetics**

An introduction to aesthetics. Topics include style and expression in the arts, representation and symbolism, interpretation and criticism. Examples from painting, literature, music, photography, architecture, etc. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL423**Aesthetics: Philosophy and Architecture**

An introduction to aesthetics of the visual arts. Philosophical topics on the arts of painting, photography, architecture and sculpture, as well as the nature of art history and art criticism. BoK: HU. Credit Level: U.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Philosophy

15PHIL423

Aesthetics: Philosophy and Architecture

Credit Hrs: 3.00

15PHIL475

Philosophy of Medicine

An introduction to ethical and philosophical issues raised by the practice of medicine. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL501

Individual Work

Individual work. Cr. to be arranged. Each qtr. Individual work should be arranged between the student and the faculty member. Student should contact the faculty member who might be willing to sponsor the project the student has in mind. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15PHIL502

Individual Work

Cr.to be arranged. Each qtr. individual work should be arranged between the student and the faculty member who might be willing to sponsor the project the student has in mind. The second offering in a three-part course sequence. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15PHIL503

Individual Work

Cr. to be arranged.Each qtr. Individual work should be arranged between the student and the faculty member. Student should contact the faculty member who might be willing to sponsor the project the student has in mind. The third offering in a three-part course sequence. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15PHIL512H

Honors Seminar: Business Ethics, H

Development of the theoretical and practical knowledge and skills to analyze and attempt to resolve real-life ethical dilemmas that are a ubiquitous and inevitable feature of business decisions. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL515

Empiricism: Locke

Advanced introduction to metaphysics and epistemology of John Locke. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00

15PHIL516

Empiricism: Berkeley

Will examine closely the philosophy of George Berkeley. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00-5.00

15PHIL517

Empiricism: Hume

An advanced introduction to Hume's theory of human nature and epistemology. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00

15PHIL520

Contemporary Ethics

Philosophical work in ethics over the past century Topics will be drawn from metaethics, ethical theory, normative and/or applied ethics. Prereq: 15PHIL101, 15PHIL102, 15PHIL103, 15PHIL106. BoK: HU, SE. Credit Level: U. Credit Hrs: 3.00

15PHIL521

Genomics, Race, and Ethics

For the past 400 years, scientists, health professionals, ethicists and philosophers have been divided over the validity and the utility of the concept of race. Contrary to some expectations, the completion of the Human Genome Project only deepened this controversy. Examines taxonomic, biochemical, social and ethical issues involved in the study of population structure at the age of the DNA revolution. BoK: HU. Credit Level: U. Credit Hrs: 3.00

Philosophy

15PHIL525

Critical Theory

Course explores the philosophy of Michel Foucault in relation to the tradition of critical theory. The course examines the nature of reason and its relation to liberation and oppression. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00-5.00

15PHIL531

Topics in Philosophy of Mind

Selected topics, with emphasis on contemporary accounts of conscious experience. Readings include recent and forthcoming books by Chalmers, Dretske, Kim, Levine, Lycan, Perry, Putnam, or Van Gulick. Perm of Instructor. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL532

Recent Philosophy of Mind

An advanced course in philosophy of mind, focusing on particular topics or figures in recent philosophy of mind and philosophical psychology. Topics may include consciousness, intentionality, functionalism, identity theory, reductionism, psychological laws, mental causation, and other debates. Prereq: 15PHIL307. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL540

Philosophy and Evolutionary Biology

Issues raised for philosophy of science by evolutionary biology. Topics include the significance of adaptation and development, genetics and reductionism, and ecological theory. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL543

History of Logic

Ancient, Medieval, Renaissance, and 19th-century logic. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL544

Topics in Philosophical Methodology

An examination of historical and contemporary approaches to philosophical method and practice. Topics may include pragmatism, conceptual analysis, the linguistic turn, phenomenology, scientific naturalism, and experimental philosophy. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL545

Descartes

An in-depth account of the philosophical and scientific views of Descartes in historical context. Recommended for advanced undergraduates only. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00-5.00

15PHIL546

Seminar: Plato

An advanced examination of the main philosophical contributions of Plato. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00-5.00

15PHIL547

Aristotle

An advanced examination of the main philosophical contributions of Aristotle. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00

15PHIL548

Medieval Philosophy

A study of the work of medieval thinkers such as Aquinas, Anselm, Duns Scotus, and William of Ockham. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00

15PHIL549

Topics in Logic

This course covers the valuational and model theoretic semantics for the standard systems of sentential many-valued logic, and extensions of first-order logic to modal and epistemic logic. Emphasis is on the evaluation of alternative account of the logical entailment. BoK: HU. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Philosophy

15PHIL550

Philosophy of Music

This course will examine the question of meaning in music. Can 'pure' instrumental music have meaning and, if so, how? A number of theories of musical meaning will be examined. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL554

Perceptual Representation

Examines contemporary philosophical literature on the structure and content of perceptual representations. Focus is on the question of what perceptions represent (objects, states of affairs, scenarios?) and what it means to say that a perception represents one of those things. This issue has a bearing not only on larger issues in the philosophy of mind but also on issues in epistemology and the philosophy of language. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL555

Philosophy of Language

Issues in meaning, reference, and truth as seen in the work of Frege, Russell, and other twentieth century thinkers. BoK: HU. Credit Level: U. G. Credit Hrs: 3.00-5.00

15PHIL556

Philosophical Logic

Selected problems in logic with implications for traditional philosophical problems. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00-5.00

15PHIL557

Topics in Semantics

A survey of theories of meaning in natural language. Emphasis will be on the semantics of conditionals. Prereq: 15PHIL341. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL558

Theories of Interpretation

This course will examine the philosophical literature pertaining to the methods by which we determine what people believe and desire and what their words mean. Topics include: Radical interpretation (Davidson, Quine), the theory- theory (Ramsey, Stich and Nichols) and the simulation theory (Stueber, Gordon and Goldman). BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL560

Concept of Emotion

This course will examine philosophical theories of emotion, including the role of cognition and motivation in emotion, the rationality of emotion, the role of physiological change in emotion, etc. For advanced students only. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL561

Aesthetics and the Philosophy of Mind

An advanced course in philosophical aesthetics, focusing on the connections between art and emotion (the expression of emotion, the evocation of emotion, etc.) Perm of Instructor. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL562

Kierkegaard and Nietzsche

An advanced examination of the main philosophical contributions of Kierkegaard and Nietzsche. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL563

Social and Ethical Issues in Biomedicine

Philosophy of medicine cum bioethics has become a genuine academic discipline and recent biotechnological innovations have given a momentum to research and debates in this field. This course will first analyze the central philosophical concepts on which this discipline rests. It will then dwell on the social challenge of the genetic age and the philosophical theories deployed to solve the ethical problems related to genetic intervention. BoK: HU. Credit Level: U. Credit Hrs: 3.00

Philosophy

15PHIL565

20th-Century Existentialism

French existentialism of the post-war era. BoK: HU., SE. Credit Level: U, G. Credit Hrs: 3.00-5.00

15PHIL566

Ethics

Topics on recent Anglo-American analytic moral philosophy. BoK: HU., SE. Credit Level: U, G. Credit Hrs: 3.00

15PHIL567

Political Philosophy

Study of recent social and political philosophy, especially that of John Rawls. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL568

Cartesianism

This course will study the affect Cartesian philosophy and physics on 17th Century logic and semantic theory. In conjunction with secondary reading, the primary text will be Arnauld and Nicole "Art of Thinking" (the "Port-Royal Logic"), and relevant texts by Descartes, Arnauld, and Malebranche. We will see how Cartesian dualism necessitated both a rejection of the standard Aristotelian causal theory of reference and its replacement by a semantics of ideas based on esse objectivum and intentionality. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL569

Psych. Explanation

PSYCH EXPLANATION BoK: HU. Credit Level: U, G. Credit Hrs: 3.00-5.00

15PHIL570

Contemporary Metaphysics

Issues in metaphysics: freedom of the will, the nature of space and time, personal identity, causality. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00-5.00

15PHIL571

Contemporary Epistemology

Issues in the theory of knowledge in the 20th Century. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00-5.00

15PHIL572

20th C. Philosophy of Science Scientific Confirmation

This is an advanced course, examining accounts of confirmation within scientific disciplines, including recent work on Bayesianism. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL573

Contemporary Philosophy of Mind

An examination of recent work in philosophy of mind and cognitive science. Recent work in philosophy of mind as it pertains to artificial intelligence, psychology, and neuroscience. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL574

Philosophical Psychology

Study of philosophical assumptions in modern psychological theories of cognition and emotion. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00

15PHIL575

Continental Epistemology

Post structuralism and deconstruction as responses to Cartesian epistemology which privileges the thinking subject and treats the contents of consciousness as foundational. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL576

Leibniz

An investigation of Leibniz logic and metaphysics. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL577

Feminist Philosophy

Explanation of current topics and questions in feminist philosophy

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Philosophy**15PHIL577****Feminist Philosophy**

including epistemology, ethics, and social philosophy. BoK: DC., SE.
Credit Level: U, G. Credit Hrs: 3.00-5.00

15PHIL578**Philosophy of Technology**

Relates theoretical and practical problems about the nature and function of technology to traditional philosophical concerns with the nature of knowledge, the legitimization of power, the meaning of life, and the justness of society. The impact of specific technologies on work and war and government, life and death is also studied. BoK: HU.
Credit Level: U. Credit Hrs: 3.00

15PHIL579**Philosophy and Neuroscience**

An interdisciplinary study of neuroscience and its philosophy. Topics might include relationship between levels of explanation and investigation in the neurosciences; neuroscientific methods--applications and limits; localization of cognitive functions to neural regions; mechanism, emergence or reduction in neuroscientific practice. Readings are drawn from both philosophical and neuroscientific sources. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL580**Literary Theory**

Recent movements in literary theory (1940-present and theories of critical interpretation which they embody. BoK: HU. Credit Level: U, G.
Credit Hrs: 3.00-5.00

15PHIL581**Approaches to Fiction**

An analysis of some philosophic questions concerning the reading of fiction (Why do we feel emotions for Anna Karenina, when she does not exist?) and the educational function of fiction. BoK: HU. Credit Level: U.
Credit Hrs: 3.00

15PHIL582**Ethical Theory**

Advanced course in ethical theory including such topics as relativism, subjectivism, values, and the sources of normativity. BoK: HU., SE.
Credit Level: U. Credit Hrs: 3.00

15PHIL583**Reasons for Action**

A review of classic and contemporary works on practical reason, focusing on reasons for action. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL585**Scientific Theories**

This course focuses on the nature and structure of scientific theories, an issue central to the philosophy of science. The transition from the positivist syntactic to the post-positivist semantic conception of theories is explored paying special attention to interpretation of the relationship between theory and real world. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL586**Plato's Later Dialogues**

The theory of Forms in The Phaedo, The Republic, The Parmenides, and The Sophist. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL587**Philosophy of Science: Experiment**

Critically explores the "experimental turn" in philosophy of science. Questions concerning the structure and epistemology of experimentation in science will be explored. Specific issues include the relationship between theory and experiment, conceptual foundations of experimental design, and the heuristic role of specific reasoning strategies employed in experimentation. Prereq: 15PHIL104, 15PHIL105, 15PHIL106. BoK: HU. Credit Level: U. Credit Hrs: 3.00

Philosophy**15PHIL588****History and Philosophy of Biology**

An advanced course in the historical and conceptual foundations of biology. Problems including the structure of evolutionary theory, reduction of Mendelian to molecular genetics, role of chance in evolution, species concepts, foundations of evo-devo, and laws in biology are approached by way of historical and contemporary cases from biology. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL589**History and Philosophy of Science**

Survey of issues relating to the aims and methods of history of science/philosophy. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL590**Early 20th Century Philosophy**

An examination of some of the views of representative early 20th century Anglo-American philosophers such as F.H. Bradley, B._Russell, G. E. Moore, William James or others. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL591**20th C. Philosophy of Science: Scientific Explanation**

An advanced course in philosophy of science, focusing on development in the theory of explanation, including statistical explanation. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL592**Philosophy of Science Since World War II**

A critical survey of developments in philosophy of science since World War II, including positivism, postpositivism and postmodernism. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL593**Philosophy of the Social Sciences**

Critical survey of prominent philosophical traditions in the social sciences, focusing on the relations between the natural and social sciences and the similarities and differences between Anglo-American and Continental philosophies. BoK: HU., SE. Credit Level: U. Credit Hrs: 3.00

15PHIL594**Philosophical Foundations of the Sociology of Knowledge.**

Explores a range of philosophical issues generated by the program of the sociology of knowledge for replacing philosophical with scientific analyses of science and its historical development. Sociological naturalism replaces normative theories of the rationality of science with descriptive accounts of the formation of scientific beliefs and the behavior of scientists. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15PHIL598**Kant**

An intensive study of the metaphysical writings of Immanuel Kant. BoK: HU. Credit Level: U, G. Credit Hrs: 3.00

15PHIL599**Special Topics: Political Philosophy, Marx**

An advanced examination of the contributions of Marx to political philosophy. BoK: HU., SE. Credit Level: U, G. Credit Hrs: 3.00

15PHIL621**Mathematical Logic I**

Propositional and first order logic. Proof systems, such as Hilbert-style proofs, natural deduction systems, or resolution proofs. Compactness, completeness, and model-theoretic techniques. Mathematical case, writing proofs of metatheorems about logic. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00-5.00

15PHIL622**Mathematical Logic II**

Propositional and first order logic. Proof systems, such as Hilbert-style proofs, natural deduction systems, or resolution proofs. Compactness, completeness, and model-theoretic techniques. Mathematical case, writing proofs of metatheorems about logic. The second offering in a

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Philosophy**15PHIL622****Mathematical Logic II**

three-part course sequence. Prereq: 15PHIL621. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00-5.00

15PHIL623**Mathematical Logic III**

Propositional and first order logic. Proof systems, such as Hilbert-style proofs, natural deduction systems, or resolution proofs. Compactness, completeness, and model-theoretic techniques. Mathematical case, writing proofs of metatheorems about logic. The third offering in a three-part course sequence. Prereq: 15PHIL622. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00-5.00

15PHIL701**Individual Work**

To be arranged each quarter between graduate student and faculty member. Credit Level: G. Credit Hrs: 1.00-15.00

15PHIL702**Individual Work**

To be arranged each quarter between graduate student and faculty member. The second offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00-15.00

15PHIL703**Individual Work**

To be arranged each quarter between graduate student and faculty member. The third offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00-15.00

15PHIL704**Graduate Pro-seminar**

Mentoring on classroom teaching and professional activities concerned with teaching. Philosophy GAs only. Credit Level: G. Credit Hrs: 1.00-5.00

15PHIL705**Pain: Conceptual and Empirical Issues**

An inquiry into conceptions or theories of the nature and role of pain in human and animal psychology, with topics that might include the following: history of the notion of pain, the neurophysiological systems implicated in pain experiences, multiplicity and diversity of pain types and syndromes, the biological role of pain, pain and emotion, and the implications of recent pain sciences for some philosophical issues. Credit Level: G. Credit Hrs: 5.00

15PHIL708**Introduction to Philosophy of Science and Scientific Reasoning**

Designed specifically for graduate students in the MST degree program. Students are introduced to central episodes and issues in the history and philosophy of science, with a focus on concepts and examples chosen for high school science instructors to use in their lectures and discussions. Credit Level: G. Credit Hrs: 2.00

15PHIL715**Empiricism: Locke**

Advanced introduction to metaphysics and epistemology of John Locke. Credit Level: G. Credit Hrs: 5.00

15PHIL716**Empiricism: Berkeley**

Will examine closely the philosophy of George Berkeley. Credit Level: G. Credit Hrs: 5.00

15PHIL717**Empiricism: Hume**

An advanced introduction to Hume's theory of human nature and epistemology. Credit Level: G. Credit Hrs: 5.00

15PHIL720**Contemporary Ethics**

Philosophical work in ethics over the past century. Topics will be drawn from metaethics, ethical theory, normative and/or applied ethics. Credit

Philosophy**15PHIL720****Contemporary Ethics**

Level: G. Credit Hrs: 5.00

15PHIL721**Genomics, Race, and Ethics**

For the past 400 years, scientists, health professionals, ethicists and philosophers have been divided over the validity and the utility of the concept of race. Contrary to some expectations, the completion of the Human Genome Project only deepened this controversy. Examines taxonomic, biomedical, social and ethical issues involved in the study of population structure at the age of the DNA Revolution. Credit Level: G. Credit Hrs: 5.00

15PHIL725**Critical Theory**

CRITICAL THEORY Credit Level: G. Credit Hrs: 5.00

15PHIL730**Happiness in Greek Philosophy**

An advanced introduction to various Greek theories of eudaimonia (translated usually by "happiness") starting with Aristotle and moving through the Stoics, Epicureans and other Hellenistic figures working in the wake of Aristotle. The main text will be Julia Annas' *The Mortality of Happiness*, a comprehensive treatment of the whole period. Credit Level: G. Credit Hrs: 5.00

15PHIL731**Topics in Philosophy of Mind**

Selected topics, with emphasis on contemporary accounts of conscious experience. Readings include recent and forthcoming books by Chalmers, Dretske, Kim, Levine, Lycan, Perry, Putnam, or Van Gulick. Credit Level: G. Credit Hrs: 5.00

15PHIL732**Recent Philosophy of Mind**

An advanced course in philosophy of mind, focusing on particular topics or figures in recent philosophy of mind and philosophical psychology. Topics may include consciousness, intentionality, functionalism, identity theory, reductionism, psychological laws, mental causation, and other debates. Credit Level: G. Credit Hrs: 5.00

15PHIL739**Philosophy of Biology: Classics in Evolution and Ecology**

In this course, cross-listed with Biology, we will examine closely a classic, foundational text in evolution or ecology. Some secondary sources may be considered. Attendees of the course will be asked to lead discussion on occasion. At least one short, critical paper is required. Credit Level: G. Credit Hrs: 5.00

15PHIL740**Philosophy and Evolutionary Biology**

Issues raised for philosophy of science by evolutionary biology. Topics include the significance of adaptation and development, genetics and reductionism, and ecological theory. Credit Level: G. Credit Hrs: 5.00

15PHIL741**Readings in Logic**

First-order logic: syntax, natural deduction proof theory, and model theory up to the completeness of proof. Credit Level: G. Credit Hrs: 5.00

15PHIL742**Readings in Logic**

Continuation of 741. Prereq: 15PHIL741. Credit Level: G. Credit Hrs: 5.00

15PHIL743**History of Logic**

Ancient, Medieval, Renaissance, and 19th-century logic. Credit Level: G. Credit Hrs: 5.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Philosophy**15PHIL744****Topics in Philosophical Methodology**

An examination of historical and contemporary approaches to philosophical method and practice. Topics may include pragmatism, conceptual analysis, the linguistic turn, phenomenology, scientific naturalism, and experimental philosophy. Credit Level: G. Credit Hrs: 5.00

15PHIL745**Descartes**

An in-depth account of the philosophical and scientific views of Descartes in historical context. Credit Level: G. Credit Hrs: 5.00

15PHIL746**Seminar: Plato**

An advanced examination of the main philosophical contributions of Plato. Credit Level: G. Credit Hrs: 5.00

15PHIL747**Aristotle**

An advanced examination of the main philosophical contributions of Aristotle. Prereq.: 104, 105, 106 or equiv. Credit Level: G. Credit Hrs: 5.00

15PHIL748**Medieval Philosophy**

A study of the work of medieval thinkers such as Aquinas, Anselm, Duns Scotus, and William of Ockham. Credit Level: G. Credit Hrs: 5.00

15PHIL749**Topics in Logic**

This course covers the valuational and model theoretic semantics for the standard systems of sentential many-valued logic, and extensions of first-order logic to modal and epistemic logic. Emphasis is on the evaluation of alternative account of the logical entailment. Credit Level: G. Credit Hrs: 5.00

15PHIL750**Philosophy of Music**

This course will examine the question of meaning in music. Can 'pure' instrumental music have meaning and, if so, how? A number of theories of musical meaning will be examined. Credit Level: G. Credit Hrs: 5.00

15PHIL754**Perceptual Representation**

Examines contemporary philosophical literature on the structure and content of perceptual representations. Focus is on the question of what perceptions represent (objects, states of affairs, scenarios?) and what it means to say that a perception represents one of those things. This issue has a bearing not only on larger issues in the philosophy of mind but also on issues in epistemology and the philosophy of language. Credit Level: G. Credit Hrs: 5.00

15PHIL755**Philosophy of Language**

Issues in meaning, reference, and truth as seen in the work of Frege, Russell, and other twentieth century thinkers. Credit Level: G. Credit Hrs: 5.00

15PHIL756**Philosophical Logic**

Selected problems in logic with implications for traditional philosophical problems. Prereq.: 241- Symbolic Logic. Credit Level: G. Credit Hrs: 5.00

15PHIL757**Topics in Semantics**

A survey of theories of meaning in natural language. The emphasis will be on the semantics of conditionals. Prereq: 15PHIL741. Credit Level: G. Credit Hrs: 5.00

Philosophy**15PHIL758****Theories of Interpretation**

This course will examine the philosophical literature pertaining to the methods by which we determine what people believe and desire and what their words mean. Topics include: Radical interpretation (Davidson, Quine), the theory-theory (Ramsey, Stich and Nichols) and the simulation theory (Stueber, Gordon and Goldman). Credit Level: G. Credit Hrs: 5.00

15PHIL760**Concept of Emotion**

This course will examine philosophical theories of emotion, including the role of cognition and motivation in emotion, the rationality of emotion, the role of physiological change in emotion, etc. Credit Level: G. Credit Hrs: 5.00

15PHIL761**Aesthetics and the Philosophy of Mind**

An advanced course in philosophical aesthetics, focusing on the connection between art and emotion (the expression of emotion, the evocation of emotion, etc.) Perm of Instructor. Credit Level: G. Credit Hrs: 5.00

15PHIL762**Kierkegaard and Nietzsche**

An advanced examination of the main philosophical contributions of Kierkegaard and Nietzsche. Credit Level: G. Credit Hrs: 5.00

15PHIL763**Social and Ethical Issues in Biomedicine**

Philosophy of medicine cum bioethics has become a genuine academic discipline and recent biotechnological innovations have given a momentum to research and debates in this field. This course will first analyze the central philosophical concepts on which this discipline rests. It will then dwell on the social challenge of the genetic age and the philosophical theories deployed to solve the ethical problems related to genetic intervention. Credit Level: G. Credit Hrs: 5.00

15PHIL765**20th Century Existentialism**

French existentialism of the post-war era. Credit Level: G. Credit Hrs: 5.00

15PHIL766**Ethics**

Topics on recent Anglo-American analytic moral philosophy. Credit Level: G. Credit Hrs: 5.00

15PHIL767**Political Philosophy**

Study of recent social and political philosophy, especially that of John Rawls. Credit Level: G. Credit Hrs: 5.00

15PHIL768**Cartesianism**

Studies the affect Cartesian philosophy and physics in 17th Century logic and semantic theory. In conjunction with secondary reading, the primary text will be Arnauld and Nicole "Art of Thinking", the "Port Royal Logic", and relevant texts by Descartes, Arnauld, and Malebranche. We will see how Cartesian dualism necessitated both a rejection of the standard Aristotelian causal theory of reference and its replacement by a semantics of ideas based on esse objectivum and intentionality.. Credit Level: G. Credit Hrs: 5.00

15PHIL770**Contemporary Metaphysics**

Issues in metaphysics: freedom of the will, the nature of space and time, personal identity, causality. Credit Level: G. Credit Hrs: 5.00

15PHIL771**Contemporary Epistemology**

Issues in the theory of knowledge in the 20th century. Credit Level: G. Credit Hrs: 5.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Philosophy**15PHIL772****20th Century Philosophy Science: Scientific Confirmation**

This is an advanced course examining accounts of confirmation within scientific disciplines, including recent work on Bayesianism. Credit Level: G. Credit Hrs: 5.00

15PHIL773**Contemporary Philosophy of Mind**

An examination of recent work in philosophy of mind and cognitive science. Current issues in the philosophy of mind. Credit Level: G. Credit Hrs: 5.00

15PHIL774**Philosophical Psychology**

Study of philosophical assumptions in modern psychological theories of cognition and emotion. Credit Level: G. Credit Hrs: 5.00

15PHIL775**Continental Epistemology**

Post-structuralism and deconstruction as responses to Cartesian epistemology which privileges the thinking subject and treats the contents of consciousness as foundational. Credit Level: G. Credit Hrs: 5.00

15PHIL776**Leibniz**

An investigation of Leibniz logic and metaphysics. Credit Level: G. Credit Hrs: 5.00

15PHIL777**Feminist Philosophy**

Explanation of current topics and questions in feminist philosophy including epistemology, ethics, and social philosophy. Credit Level: G. Credit Hrs: 5.00

15PHIL778**Philosophy of Technology**

Relates theoretical and practical problems about the nature and function of technology to traditional philosophical concerns with the nature of knowledge, the legitimation of power, the meaning of life, and the justness of society. The impact of specific technologies on work and war, cities and government, life and death is also studied. Credit Level: G. Credit Hrs: 5.00

15PHIL779**Philosophy and Neuroscience**

An interdisciplinary study of neuroscience and its philosophy. Topics might include relationship between levels of explanation and investigation in the neurosciences; neuroscientific methods--applications and limits; localization of cognitive functions to neural regions; mechanism, emergence or reduction in neuroscientific practice. Readings are drawn from both philosophical and neuroscientific sources. Credit Level: G. Credit Hrs: 5.00

15PHIL780**Literary Theory**

Recent movements in literary theory (1940-present) and theories of critical interpretation which they embody. Credit Level: G. Credit Hrs: 5.00

15PHIL781**Approaches to Fiction**

An analysis of some philosophic questions concerning the reading of fiction (Why do we feel emotions for Anna Karenina, when she does not exist?) and the educational function of fiction. Credit Level: G. Credit Hrs: 5.00

15PHIL782**Ethical Theory**

Advanced course in ethical theory, including such topics as relativism, subjectivism, values, and the sources of normativity. Credit Level: G. Credit Hrs: 5.00

Philosophy**15PHIL783****Reasons for Action**

A review of classic and contemporary works on practical reason, focusing on reasons for action. Credit Level: G. Credit Hrs: 5.00

15PHIL785**Scientific Theories**

Focuses on the nature and structure of scientific theories, an issue central to the philosophy of science. The transition from the positivist syntactic to the post-positivist semantic conception of theories is explored paying special attention to the interpretation of the relationship between theory and real world. Credit Level: G. Credit Hrs: 5.00

15PHIL786**Plato's Later Dialogues**

The theory of Forms in The Phaedo, The Republic, The Parmenides, and The Sophist. Credit Level: G. Credit Hrs: 5.00

15PHIL787**Philosophy of Science: Experiment**

Critically explores the "experimental turn" in philosophy of science. Questions concerning the structure and epistemology of experimentation in science will be explored. Specific issues include the relationship between theory and experiment, conceptual foundations of experimental design, and the heuristic role of specific reasoning strategies employed in experimentation. Credit Level: G. Credit Hrs: 5.00

15PHIL788**History and Philosophy of Biology**

An advanced course in the historical and conceptual foundations of biology. Problems including the structure of evolutionary theory, reduction of Mendelian to molecular genetics, role of chance in evolution, species concepts, foundations of evo-devo, and laws in biology are approached by way of historical and contemporary cases from biology. Credit Level: G. Credit Hrs: 5.00

15PHIL789**History and Philosophy of Science**

An advanced graduate section of 15-065-589. Survey of issues relating to the aims and methods of history of science/philosophy. Credit Level: G. Credit Hrs: 5.00

15PHIL790**Early 20th Century Philosophy**

An examination of some of the views of representative early 20th century Anglo-American philosophers, such as F.J. Bradley, B. Russell, G.E. Moore, William James or others. Credit Level: G. Credit Hrs: 5.00

15PHIL791**20th Century Philosophy of Science: Scientific Explanation**

An advanced course in philosophy of science, focusing on development in the theory of explanation, including statistical explanation. This is an advanced graduate section of 15-065-591. Credit Level: G. Credit Hrs: 5.00

15PHIL792**Philosophy of Science Since World War II**

A critical survey of developments in philosophy of science since World War II, including positivism, postpositivism, and postmodernism. Credit Level: G. Credit Hrs: 5.00

15PHIL793**Philosophy of the Social Sciences**

Critical survey of prominent philosophical traditions in the social sciences, focusing on the relation between the natural and the social sciences and the similarities and differences between Anglo-American and Continental philosophies. Will cover Durlach, Winch, Weber, Schutz, Garfinkel, Marx, and Huberman, among others. Credit Level: G. Credit Hrs: 5.00

15PHIL794**Philosophical Foundations of the Sociology of Knowledge**

Explores a range of philosophical issues generated by the program of the sociology of knowledge for replacing philosophical with scientific

Philosophy

15PHIL794

Philosophical Foundations of the Sociology of Knowledge

analyses of science and its historical development. Sociological naturalism replaces normative theories of the rationality of science with descriptive accounts of the formation of scientific beliefs and the behavior of scientists. Credit Level: G. Credit Hrs: 5.00

15PHIL798

Kant

An intensive study of the metaphysical writings of Immanuel Kant. Credit Level: G. Credit Hrs: 5.00

15PHIL799

Special Topics: Political Philosophy, Marx

An advanced examination of the contributions of Marx to political philosophy. Credit Level: G. Credit Hrs: 5.00

15PHIL812

Philosophy & Law: Conceptions of Self Freedom and Moral Responsibility

Taught by the College of Law, this course examines the early modern philosophical concepts of self and freedom. These provide the basis for an understanding of moral responsibility, and related issues such as guilt, innocence, and punishment. Perm of Instructor. Credit Level: G. Credit Hrs: 4.50

15PHIL815

Seminar: Philosophy of the Neurosciences and Psychology

The impact on the philosophy of mind and science of recent research and discoveries in the neuro-science of perception, learning and memory. Credit Level: G. Credit Hrs: 5.00

15PHIL825

SEMINAR: POLITICAL PHILOSOPHY

Graduate seminar on central topics and recent work in political philosophy. Seminar will include discussions of influential philosophical work on justice, the state, oppression, and distribution. Students will write a philosophical research paper on a topic of their choice. Credit Level: G. Credit Hrs: 5.00

15PHIL826

Seminar: Aristotle's Ethics & Politics

Focuses on Aristotle's "philosophy of human affairs" as it is found in the Nicomachean Ethics and in the Politics. Richard Kraut's recent study is a secondary source, as well as a range of scholarship on issues that emerge from a contemporary analysis and assessment of Aristotle's contributions to moral and political philosophy. Credit Level: G. Credit Hrs: 5.00

15PHIL830

Seminar: Cognitive Science/Mind

This course will survey the interdisciplinary debate of recent research in social and cognitive psychology reports of systematic irrationality in human subjects. This research has been met with strong opposition, especially from the philosophical camp. Credit Level: G. Credit Hrs: 5.00

15PHIL841

Seminar: Business Ethics

Primarily designed for MBA students and offered with the cooperation of the College of Business Administration; emphasis is on ethical problems which arise in day-to-day business situations. Credit Level: G. Credit Hrs: 1.00-5.00

15PHIL848

Pierce

Pierce's pragmatism: "practical consequences," "the real," signs (icons, indices, symbols), categoriology, realism-nominalism. Credit Level: G. Credit Hrs: 5.00

15PHIL849

Aristotle's Metaphysical Biology

Study of the primarily biological treatises of Aristotle and associated passages from the Metaphysics. Credit Level: G. Credit Hrs: 5.00

Philosophy

15PHIL850

Truth & Reference

TRUTH & REFERENCE Credit Level: G. Credit Hrs: 5.00

15PHIL851

Seminar: Philosophy of Language

An advanced examination of the philosophy of language. Credit Level: G. Credit Hrs: 5.00

15PHIL852

Seminar: Philosophical Logic

An in-depth study of a current topic in philosophical logic. Credit Level: G. Credit Hrs: 5.00

15PHIL855

Seminar: Contemporary Analytic Philosophy

Covers contemporary topics or figures in the analytic philosophy tradition. Examples of authors who may be covered are Russell, Moore, Wittgenstein, Carnap, Quine, Davidson, Goodman, Hare, Kripke, Putnam, and Lewis. Credit Level: G. Credit Hrs: 5.00

15PHIL859

Seminar: Metaphysics

An in-depth examination of a topic in contemporary metaphysics. Credit Level: G. Credit Hrs: 5.00

15PHIL860

Seminar: Hume

Examination of Hume's moral, social and political philosophy. Credit Level: G. Credit Hrs: 5.00

15PHIL861

Seminar: Descartes

This is an advanced seminar, which will focus on the work of Rene Descartes. It is restricted to advanced graduate students. Credit Level: G. Credit Hrs: 5.00

15PHIL862

Seminar: Ancient Skepticism

An advanced critical introduction to ancient Greek skepticism. Credit Level: G. Credit Hrs: 5.00

15PHIL864

Scientific Change

An advanced examination of philosophy of perception. Credit Level: G. Credit Hrs: 5.00

15PHIL869

Issues Philosophical Psychology

Philosophical psychology of contemporary issues. Representative topics include cognitive development, representations and processes, consciousness, dissociation phenomena, pain, qualia and reduction. Topics vary. Credit Level: G. Credit Hrs: 5.00

15PHIL870

Seminar: Philosophy of Science

An advanced course exploring topics in philosophy of science. Credit Level: G. Credit Hrs: 5.00

15PHIL871

Seminar: Kant's Ethics

A seminar on Kantian Ethical Theory, including the groundwork of the Metaphysic of Morals. Credit Level: G. Credit Hrs: 5.00

15PHIL872

Seminar: Inductivism and Critical Rationalism

Theory and evidence: can evidence increase the credibility of hypotheses? (Inductivism: yes; Critical Rationalism: no) Can evidence only falsify hypothesis? (Inductivism: no; Critical Rationalism: yes) Credit Level: G. Credit Hrs: 5.00

15PHIL875

Seminar: Epistemology

An examination of recent work in the theory of knowledge, emphasizing approaches to skepticism, naturalized & social epistemology. Credit

Philosophy**15PHIL875****Seminar: Epistemology**

Level: G. Credit Hrs: 5.00

15PHIL890**Seminar: Mental Representation**

This course will examine recent work in philosophy and psychology on the nature of conceptual representation. Credit Level: G. Credit Hrs: 5.00

15PHIL892**Conceptual Foundations of Population Genetics**

Explores the conceptual foundations of evolutionary theory. Special attention is paid to the reasoning strategies involved in constructing and evaluating theoretical population genetics models. Specific issues include: model structure, individuation, confirmation, and interpretation. More general issues include the present status of the evolutionary synthesis in its historical context. Credit Level: G. Credit Hrs: 5.00

15PHIL897**Seminar: 20th Century Philosophy of Science**

An advanced examination of 20th-century philosophy of science. Credit Level: G. Credit Hrs: 5.00

15PHIL961**Graduate Readings**

Cr. to be arranged. Credit Level: G. Credit Hrs: 1.00-15.00

15PHIL962**Graduate Readings**

Cr. to be arranged. Credit Level: G. Credit Hrs: 1.00-15.00

15PHIL963**Graduate Readings**

Cr. to be arranged. Credit Level: G. Credit Hrs: 1.00-15.00

15PHIL971**Dissertation Research**

Cr. to be arranged. Offered ea. qtr. Credit Level: G. Credit Hrs: 1.00-15.00

15PHIL972**Dissertation Research**

Cr. to be arranged. Credit Level: G. Credit Hrs: 1.00-15.00

15PHIL973**Dissertation Research**

Cr. to be arranged. Credit Level: G. Credit Hrs: 1.00-15.00

Physics**15PHYS101****College Physics**

A survey of physics without calculus. Three lecture hours and one-hour recitation per week. Proficiency in algebra and trigonometry required. Coreq.: Phys. 111. This course does not satisfy the engineering or pre-engineering requirement. Transfer Module. BoK: NS, QR. Credit Level: U. Credit Hrs: 1.00-5.00

15PHYS102**College Physics**

A survey of physics without calculus. Three lecture hours and one-hour recitation per week. Proficiency in algebra and trigonometry required. The second offering in a three-part course sequence. Coreq.: Phys. 112. This course does not satisfy the engineering or pre-engineering requirement. Prereq: 15PHYS101. Transfer Module. BoK: NS, QR. Credit Level: U. Credit Hrs: 1.00-5.00

15PHYS103**College Physics**

A survey of physics without calculus. Three lecture hours and one-hour recitation per week. Proficiency in algebra and trigonometry required. The third offering in a three-part course sequence. Coreq.: Phys. 113.

Physics**15PHYS103****College Physics**

This course does not satisfy the engineering or pre-engineering requirement. Prereq: 15PHYS102. Transfer Module. BoK: NS, QR. Credit Level: U. Credit Hrs: 1.00-5.00

15PHYS104**How Things Work: Roller Coasters to Rocket Ships**

A practical introduction into the Physics and Science of everyday life. This course considers objects from our everyday environment and their principles of operation, histories, and relationships to one another. The emphasis of Physics 104 is on Newton's Laws, and how they are involved in roller coasters, submarines, and rocket ships! Formerly Introductory Physics I. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15PHYS105**How Things Work:GPS Satellites to Global Warming**

A practical introduction into the physics and science of everyday life. This course considers objects from the every day environment and their principles of operation, histories, and relationships to one another. The emphasis is on thermodynamics, relativity and electricity and magnetism, and how they are involved in global warming, automobiles, air-conditioning and power systems. Formerly Introductory Physics II. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15PHYS106**How Things Work: Digital Cameras to Lasers**

A practical introduction into the physics and science of every day life. This course considers objects from the every day environment and their principles of operation, histories and relationship to one another. Emphasis is on waves, optics and quantum mechanics, and how they are involved in digital cameras, lasers, musical instruments, medical imaging and nuclear power. Formerly Introductory Physics III. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15PHYS110**In the Beginning**

Examines in detail the first three minutes of the existence of the universe. The objective is to impart to students a reasonably clear idea of the probable sequence of physical events in the very early universe. Through the power of physical reasoning, one can build a logical, consistent, and compelling picture of the early universe using experimental observations made now, billions of years later. BoK: QR., NS. Credit Level: U. Credit Hrs: 3.00

15PHYS111**College Physics Lab**

A 2-1/2 hour laboratory each week to accompany college physics. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15PHYS112**College Physics Lab**

A 2-1/2 hour laboratory each week to accompany college physics. The second offering in a three- part course sequence. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15PHYS113**College Physics Lab**

A 2-1/2 hour laboratory each week to accompany college physics. The third offering in a three- part course sequence. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15PHYS120**Astronomy: The Solar System**

The sky and its motions. Tides, eclipses, light, and telescopes. The history of Astronomy. Comparative planetology, comets, and other interplanetary debris. Formation and evolution of our solar system. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15PHYS121**Astronomy: Stars and Galaxies**

The sun and solar activity. The structure and evolution of stars. Variable stars, star charts, and coordinate systems. Stellar death, supernova, black holes. The Milky Way, other galaxies, active galaxies, and

Physics**15PHYS121****Astronomy: Stars and Galaxies**

cosmology. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15PHYS122**Astronomy: Life in the Universe**

The scientific investigation of life in the universe. The chemical and biological evolution of life on earth. The search for life within our solar system. Planetary systems and habitable regions around other stars. The search for extraterrestrial signals of intelligent design. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15PHYS123**Astronomy: Earth and Moon**

The study of earth vicinity solar system phenomena including eclipses, meteors, comets, and asteroids. These phenomena are explained studying the orbit and perturbations of the earth-moon system. The cycle of lunar and solar eclipses, and the influence of astronomy on calendars and time keeping. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15PHYS125**Astronomy Lab**

Meets one morning or evening per week. Selected experiments in astronomy: use of telescopes, astrophotography, solar observations, computers in astronomy. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 2.00

15PHYS126**Astronomy Lab**

Meets one morning or evening per week. Selected experiments in astronomy: use of telescopes, astrophotography, solar observations, computers in astronomy. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 2.00

15PHYS127**Astronomy Lab**

Meets one morning or evening per week. Selected experiments in astronomy: use of telescopes, astrophotography, solar observations, computers in astronomy. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 2.00

15PHYS132**Meteorology: The Physics of Weather and the Environment**

Introduction to the atmosphere, pressure, temperature, precipitation, fluid flow, solar radiation, optical phenomena (rainbows, mirages, sunsets), storms, forecasting and climate. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15PHYS133**Physics of Sound and Music**

A description of acoustical phenomena: the reception of sound (the ear), the environment of music (from acoustics), and the production of musical sounds (musical instruments). Transfer Module. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15PHYS135**Our Elegant Universe**

Topics of Modern Physics, such as a grand unified theory of everything, string theory, extra dimensions of space, the big bang with historical context, non-mathematical conceptual presentation. BoK: QR, NS. Credit Level: U. Credit Hrs: 3.00

15PHYS201**General Physics I**

A survey of physics, using calculus, recommended for science and mathematics students. Coreq.: Phys. 211 Prereq. or Coreq.: Math 261. Transfer Module. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

15PHYS201H**Honors General Physics I**

Limited to Honors students. Material covered includes: 1 and 2-D motion, Newton's Laws, energy and momentum conservation, angular motion and momentum, and simple harmonic motion. Coreq: 15MATH251. BoK: QR, NS. Credit Level: U. Credit Hrs: 4.00

Physics**15PHYS201H****Honors General Physics I**

Limited to Honors students. Material covered includes: 1 and 2-D motion, Newton's Laws, energy and momentum conservation, angular motion and momentum, and simple harmonic motion. Coreq: 15MATH251. BoK: QR, NS. Credit Level: U. Credit Hrs: 4.00

15PHYS202**General Physics II**

A survey of physics, using calculus, recommended for science and mathematics students. The second offering in a three-part course sequence. Coreq.: Phys. 212. Prereq. or Coreq.: Math 262. Transfer Module. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

15PHYS202H**Honors General Physics II**

Limited to Honors Students. Material covered includes electricity and magnetism. Coreq: 15MATH252. BoK: QR, NS. Credit Level: U. Credit Hrs: 4.00

15PHYS203**General Physics III**

A survey of physics, using calculus, recommended for science and mathematics students. The third offering in a three-part course sequence. Coreq.: Phys. 213. Prereq. or Coreq.: Math 263. Transfer Module. BoK: NS, QR. Credit Level: U. Credit Hrs: 4.00

15PHYS203H**Honors General Physics III**

Limited to Honors students. Material covered includes: waves, thermodynamics and modern physics. Coreq: 15MATH253. BoK: QR, NS. Credit Level: U. Credit Hrs: 4.00

15PHYS204**General Physics for Physics Majors I**

First quarter in Freshman sequence for Physics Majors. Material covered includes: 1 and 2-D motion, Newton's Laws, energy and momentum conservation, angular motion and momentum, and simple harmonic motion. Coreq: 15MATH251, 15PHYS214. BoK: QR, NS. Credit Level: U. Credit Hrs: 4.00

15PHYS205**General Physics for Physics Majors II**

Second quarter in freshman sequence for physics majors. Material covered includes: electricity and magnetism. Prereq: 15PHYS204. Coreq: 15MATH252, 15PHYS215. BoK: QR, NS. Credit Level: U. Credit Hrs: 4.00

15PHYS206**General Physics for Physics Majors III**

Third quarter in freshman sequence for physics majors. Material covered includes: waves, thermodynamics, and modern physics. Prereq: 15PHYS205. Coreq: 15MATH253, 15PHYS213. BoK: QR, NS. Credit Level: U. Credit Hrs: 4.00

15PHYS211**General Physics Laboratory I**

A three-hour laboratory each week accompanying General Physics. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15PHYS211H**General Physics for Physics Majors Laboratory**

Limited to Honors students. A 3-hour laboratory each week to accompany Honors General Physics I. Coreq: 15PHYS201H. Transfer Module. BoK: NS, QR. Credit Level: U. Credit Hrs: 1.00

15PHYS212**General Physics Laboratory II**

A three-hour laboratory each week accompanying General Physics. Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15PHYS212H**General Physics for Physics Majors Laboratory**

Limited to Honors students. A 3-hour laboratory each week to accompany Honors General Physics II. Coreq: 15PHYS202H. Transfer

Physics**15PHYS212H****General Physics for Physics Majors Laboratory**

Module. BoK: NS, QR. Credit Level: U. Credit Hrs: 1.00

15PHYS213**General Physics Laboratory III**

A three-hour laboratory each week accompanying General Physics.

Transfer Module. BoK: NA. Credit Level: U. Credit Hrs: 1.00

15PHYS213H**General Physics for Physics Majors Laboratory**

Limited to Honors students. A 3-hour laboratory each week to accompany Honors General Physics III. Transfer Module. BoK: NS, QR. Credit Level: U. Credit Hrs: 1.00

15PHYS214**General Physics for Physics Majors Laboratory**

A 3-hour laboratory each week to accompany General Physics I for Physics Majors Coreq: 15PHYS204. BoK: NS, QR. Credit Level: U. Credit Hrs: 1.00

15PHYS215**General Physics for Physics Majors Laboratory**

A 3-hour laboratory each week to accompany General Physics-II for Physic Majors. Coreq: 15PHYS205. BoK: NS, QR. Credit Level: U. Credit Hrs: 1.00

15PHYS216**General Physics for Physics Majors Laboratory**

A 3 hour laboratory each week accompanying General Physics II for Physics Majors. BoK: NS., QR. Credit Level: U. Credit Hrs: 1.00

15PHYS241**Introduction to Modern Physics**

A survey of modern physics, including relativity, atomic and nuclear structure, the properties of elementary particles, and solid state physics. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

15PHYS242**Introduction to Modern Physics**

A survey of modern physics, including relativity, atomic and nuclear structure, the properties of elementary particles, and solid state physics. The second offering in a two-part course sequence. Prereq.: Phys. 241. Prereq: 15PHYS241. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

15PHYS276**Modern Physics for Engineers**

Quantum theory and applications to atomic, nuclear and solid state physics. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

15PHYS278**Introduction to Nanoscience and Technology**

An introduction to nanoscience and nanotechnology for undergraduate engineering and science students: nanoparticles, nanoelectronics, nanophotonics, nanobioscience, and societal and ethical implications. BoK: NS., SE. Credit Level: U. Credit Hrs: 3.00

15PHYS279**Experimental Nanoscale Science and Technology**

Introduces students to experimental nanoscale science and technology, including carbon nanotube synthesis, nanotube sensor fabrication and characterization, quantum dot characterization, and gold nanoparticle fabrication and characterization. The experimental techniques learned in this course can be applied to industrial problems and also used as a foundation for performing research in the area of nanoscale science and technology. Prereq: 15PHYS278. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

15PHYS301**Mechanics**

A study of advanced undergraduate mechanics. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

Physics**15PHYS302****Mechanics**

A study of advanced undergraduate mechanics. Prereq.: Phys. 301;_Coreq.: Math 342 or equiv. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

15PHYS304**Electricity and Magnetism**

A study of advanced undergraduate electricity and magnetism. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

15PHYS305**Electricity and Magnetism**

A study of advanced undergraduate electricity and magnetism. Prereq.: Phys. 304; Coreq.: Math 342 or equiv. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

15PHYS331**Thermodynamics and Statistical Physics**

Thermodynamics and kinetic theory, with an introduction to statistical mechanics. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

15PHYS332**Thermodynamics and Statistical Physics**

Thermodynamics and kinetic theory, with an introduction to statistical mechanics. Prereq.: Phys. 331. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

15PHYS341**Advanced Topics in Astronomy**

Explores selected topics in astronomy with an in-depth examination of modern astronomical phenomena such as solar system astronomy and exploration, the birth and death of stars, black holes, and cosmology. Topics may vary from year to year. Can be retaken up to 3 times for 9 crs. Coreq: 15PHYS203, 15PHYS206, 15PHYS353. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00-9.00

15PHYS351**Intermediate Physics I**

A study of intermediate undergraduate mechanics, which includes both analytical methods and laboratory experiments. Prereq: 15PHYS203, 15PHYS213. BoK: NS, QR. Credit Level: U. Credit Hrs: 5.00

15PHYS352**INTERMEDIATE PHYSICS II**

A study of intermediate undergraduate electricity and magnetism, which includes both analytic methods and laboratory experiments. Prereq: 15PHYS351. BoK: NS, QR. Credit Level: U. Credit Hrs: 5.00

15PHYS353**INTERMEDIATE PHYSICS III**

A study of intermediate undergraduate modern physics and quantum physics, which includes both analytical methods and laboratory experiments. Prereq: 15PHYS352. BoK: NS, QR. Credit Level: U. Credit Hrs: 5.00

15PHYS361**Experiments in Modern Physics I**

Students choose from a variety of experiments in modern physics. Typically a student will do two or three experiments in a quarter. The choice of experiments can be tailored to match the student's interests. Prereq: 15PHYS353, 15PHYS276. BoK: QR, NS. Credit Level: U. Credit Hrs: 3.00

15PHYS362**Experiments in Modern Physics II**

Students choose from a variety of experiments in modern physics. Typically a student will do two or three experiments in a quarter. The choice of experiments can be tailored to match the student's interests. Prereq: 15PHYS353, 15PHYS276. BoK: QR, NS. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Physics**15PHYS403****Special Relativity**

A comprehensive introduction to Special Relativity Topics include: Lorentz transformation, paradoxes of relativity, experimental evidence for relativity, relativistic dynamics and electromagnetics. Prereq: 15PHYS301, 15PHYS302, 15PHYS304, 15PHYS305. BoK: NS, QR. Credit Level: U. Credit Hrs: 3.00

15PHYS410**Computational Physics**

An introduction to computational physics. Topics include: root finding, numerical integration, numerical solution of ordinary and partial differential equations, the study of eigen value problems, Monte Carlo methods, data visualization and topics of current interest. Prereq: 15MATH273. Coreq: 15PHYS353. BoK: QR, NS. Credit Level: U. Credit Hrs: 3.00

15PHYS499**Capstone Project**

A one quarter course normally taken in the spring of the senior year. Required for physics majors. The student is required to complete an independent research or teaching project under faculty supervision and prepare a written report on the project and its results. Proposals are required and due early in the preceding winter quarter. BoK: NS., QR. Credit Level: U. Credit Hrs: 3.00

15PHYS501**Special Problems**

Special readings or experiments under direction of individual staff members. Permission of Department Head required. Cr. arranged. Open also to Honors students. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15PHYS502**Special Problems**

Special readings or experiments under direction of individual staff members. Permission of department head required. Cr. arranged. Open also to Honors students. The second offering in a three-part course sequence. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15PHYS503**Special Problems**

Special readings or experiments under direction of individual staff members. Permission of department head required. Cr. arranged. Open also to Honors students. The third offering in a three-part course sequence. BoK: QR., NS. Credit Level: U, G. Credit Hrs: 1.00-15.00

15PHYS507**Introductory Quantum Mechanics**

Elements of quantum mechanics with applications to atomic physics, nuclear physics, and solid state physics. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 3.00

15PHYS508**Introductory Quantum Mechanics**

Elements of quantum mechanics with applications to atomic physics, nuclear physics, and solid state physics. The second offering in a two-part course sequence. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 3.00

15PHYS509**Introduction to Quantum Mechanics**

Elements of quantum mechanics with applications to atomic physics, nuclear physics, and solid state physics. The third offering in a three-part sequence. BoK: NS., QR. Credit Level: U, G. Credit Hrs: 3.00

15PHYS511**Advanced Laboratory I**

Modern and seminal classical physics experiments. Prereq: 15PHYS353. BoK: QR, NS. Credit Level: U, G. Credit Hrs: 3.00

15PHYS512**Advanced Laboratory II**

Modern and seminal classical physics experiments. The second offering

Physics**15PHYS512****Advanced Laboratory II**

in a two-part course sequence. Prereq: 15PHYS511. BoK: QR, NS. Credit Level: U, G. Credit Hrs: 3.00

15PHYS521**Introduction to Astrophysics I**

Introduction to modern astrophysics, including stellar structure, the interstellar medium, galactic structure, extragalactic astronomy and cosmology. Prereq: 15PHYS353. BoK: QR, NS. Credit Level: U, G. Credit Hrs: 3.00

15PHYS522**Introduction to Astrophysics II**

Continuation of 15-PHYS-521, Introduction to Astrophysics I Prereq: 15PHYS353. BoK: QR, NS. Credit Level: U, G. Credit Hrs: 3.00

15PHYS541**Special Topics in Contemporary Physics I**

Topics, which vary from year to year, include astrophysics, space physics, general relativity plasma physics, medical physics, advanced optics, and string theory. BoK: QR., NS. Credit Level: U, G. Credit Hrs: 3.00

15PHYS542**Special Topics in Contemporary Physics II**

Topics, which vary from year to year, include astrophysics, space physics, general relativity, plasma physics, medical physics, advanced optics, and string theory. BoK: QR., NS. Credit Level: U, G. Credit Hrs: 3.00

15PHYS611**Medical Imaging Without Ionizing Radiation**

The physics and instrumentation of diagnostic ultrasound, magnetic resonance imaging (MRI), functional MR and MR spectroscopy. Prereq: 15MATH533. BoK: QR, NS. Credit Level: U, G. Credit Hrs: 3.00

15PHYS612**Advanced Topics in MRI**

Quantum mechanical aspects of NMR and methods by which gradient magnetic fields are used to encode NMR signals to produce a magnetic resonance image. Prereq: 15MATH533. Credit Level: G. Credit Hrs: 3.00

15PHYS622**Introduction to Quantum Computing**

An introduction to the rapidly growing field of quantum computing. Taught by several faculty members and aimed at advanced undergraduates or beginning graduate students in Physics, Computer Science, Mathematics and Electrical Engineering. Cross-listed with ECES-622. Prereq: 15PHYS276. BoK: QR, NS. Credit Level: U, G. Credit Hrs: 3.00

15PHYS623**Special Topics in Quantum Computing**

Introduces advanced topics in quantum computing such as quantum algorithms, noise, error-correction, and information theory. Taught by several faculty members and aimed at advanced undergraduates or beginning graduate students. Cross-listed with ECES 753. Prereq: 20ECES622. BoK: QR, NS. Credit Level: U, G. Credit Hrs: 3.00

15PHYS001**Graduate Colloquium**

Required of all graduate students. Cr. to be arranged. Credit Level: G. Credit Hrs: 1.00-3.00

15PHYS002**Graduate Colloquium**

Required of all graduate students. Cr. to be arranged. Second offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00-3.00

15PHYS003**Graduate Colloquium**

Required of all graduate students. Cr. to be arranged. Third offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00-3.00

H=University Honors course.

Physics**15PHYS003****Graduate Colloquium**

Required of all graduate students. Cr. to be arranged. Third offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00-3.00

15PHYS004**Advanced Seminar**

Research activities in the dept. First-year graduate students must register each qtr. Cr. arranged. Credit Level: G. Credit Hrs: 1.00-3.00

15PHYS005**Advanced Seminar**

Research activities in the dept. First-year graduate students must register each quarter. Cr. arranged. Second offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00-3.00

15PHYS006**Advanced Seminar**

Research activities in the dept. First-year graduate students must register each quarter. Cr. arranged. The third offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00-3.00

15PHYS007**Advanced Seminar (Graduate)**

Sec. 1, Aeronomy. Sec. 2, High Energy. Sec. 3, Solid State. Cr. arranged. Credit Level: G. Credit Hrs: 1.00-15.00

15PHYS008**Advanced Seminar (Graduate)**

Sec. 1, Aeronomy. Sec. 2, High Energy. Sec.3, solid state. Cr. arranged. Credit Level: G. Credit Hrs: 1.00-15.00

15PHYS009**Advanced Seminar (Graduate)**

Sec. 1, Aeronomy. Sect. 2, High Energy. Sec. 3, solid state. Cr. Arranged. Credit Level: G. Credit Hrs: 1.00-15.00

15PHYS707**Electrodynamics**

Classical theory of electrodynamics and relativity. Credit Level: G. Credit Hrs: 4.00

15PHYS708**Electrodynamics**

Classical theory of electrodynamics and relativity. The second offering in a three-part course sequence. Credit Level: G. Credit Hrs: 4.00

15PHYS710**Quantum Mechanics**

Wave and matrix mechanics, perturbation theory, scattering, and angular momentum. Credit Level: G. Credit Hrs: 4.00

15PHYS711**Quantum Mechanics**

Wave and matrix mechanics, perturbation theory, scattering and angular momentum. The second offering in a three-part course sequence. Prereq.: Phys. 710. Credit Level: G. Credit Hrs: 4.00

15PHYS712**Quantum Mechanics**

Wave and matrix mechanics, perturbation theory, scattering and angular momentum. The third offering in a three-part course sequence. Prereq.: Phys. 711. Credit Level: G. Credit Hrs: 4.00

15PHYS713**Statistical Mechanics**

Kinetic theory and statistical mechanics. Credit Level: G. Credit Hrs: 4.00

15PHYS714**Statistical Mechanics**

Kinetic theory and statistical mechanics. Credit Level: G. Credit Hrs: 4.00

Physics**15PHYS721****Mathematical Physics**

Mathematical methods; linear algebra, complex variables, orthogonal functions, differential equations. Credit Level: G. Credit Hrs: 4.00

15PHYS741**Dynamics**

Lagrangian and Hamiltonian mechanics, small oscillations. Credit Level: G. Credit Hrs: 4.00

15PHYS751**Physics by Inquiry I**

A course for science teachers that covers important introductory concepts in physics with depth and with an emphasis on development of reasoning skills necessary for scientific inquiry. Credit Level: G. Credit Hrs: 2.00-6.00

15PHYS752**Physics by Inquiry II**

A course for science teachers that covers important introductory concepts in physics with depth and with an emphasis on development of reasoning skills necessary for scientific inquiry. The second offering in a three-way course sequence. Credit Level: G. Credit Hrs: 2.00-6.00

15PHYS753**Physics by Inquiry III**

A course for science teachers that covers important introductory concepts in physics with depth and with an emphasis on development of reasoning skills necessary for scientific inquiry. Credit Level: G. Credit Hrs: 2.00-6.00

15PHYS754**Graduate Seminar in Physics Education**

A graduate seminar covering the teaching of physics and research in physics education. Credit Level: G. Credit Hrs: 1.00-4.00

15PHYS801**Biocheminformatics**

This course will discuss the chemistry, biophysics and statistics behind computational methods used to predict the structure and function of proteins and RNA molecules from sequence information. Applications of bioinformatic packages to biophysics problems and development of analysis tools will be emphasized. The thermodynamics and kinetics of folding transitions in biomolecules will be also discussed and illustrated using simplified chain representations. Credit Level: G. Credit Hrs: 3.00

15PHYS802**Molecular Modeling of Biological Systems**

Focuses on the application of computer simulations to the study of biological systems. This course will discuss concepts in classical mechanics, thermodynamics and statistical mechanics and their application to Monte Carlo and molecular dynamics methods. The use of molecular tools will be emphasized. The thermodynamics and kinetics of folding transitions in biomolecules will be also discussed and illustrated using simplified chain representations. Credit Level: G. Credit Hrs: 3.00

15PHYS821**Astrophysics I**

Review of modern astrophysics, including stellar structure, the interstellar medium, galactic structure, extragalactic astronomy and cosmology. Credit Level: G. Credit Hrs: 4.00

15PHYS822**Astrophysics II**

Continuation of 15-PHYS-821, Astrophysics I Credit Level: G. Credit Hrs: 4.00

15PHYS841**Particle Physics**

n Prereq: 15PHYS712. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

15PHYS846**Solid State Physics**

4 gr. cr. Prereq: 15PHYS845. Credit Level: G. Credit Hrs: 4.00

15PHYS871**Advanced Problems**

Readings or laboratory work in special topics under the direction of individual faculty members. Cr. to be arranged. Offered each quarter. Credit Level: G. Credit Hrs: 1.00-15.00

15PHYS872**Research for the Master's Degree**

Offered ea. qtr. Credit Level: G. Credit Hrs: 1.00-15.00

15PHYS910**Advanced Quantum Mechanics**

The quantum theory of particles and fields. Credit Level: G. Credit Hrs: 4.00

15PHYS911**Advanced Quantum Mechanics**

The quantum theory of particles and fields. Prereq.: Phys. 910. Credit Level: G. Credit Hrs: 4.00

15PHYS913**Field Theory**

Quantum field theory, interactions, renormalization. Prereq: 15PHYS912. Credit Level: G. Credit Hrs: 4.00

15PHYS914**Field Theory**

Quantum field theory, interactions, renormalization. The second offering in a three-part course sequence. Prereq.: Phys. 913. Prereq: 15PHYS913. Credit Level: G. Credit Hrs: 4.00

15PHYS915**Field Theory**

Quantum field theory, interactions, renormalization. The third offering in a three-part course sequence. Prereq.: Phys. 914. Prereq: 15PHYS914. Credit Level: G. Credit Hrs: 4.00

15PHYS919**Special Topics in Theoretical Physics**

Topics recently covered include the renormalization group, superconductivity, magnetism in solids, gauge theories. Credit Level: G. Credit Hrs: 4.00

15PHYS920**Special Topics in Theoretical Physics**

Topics recently covered include the renormalization group, superconductivity, magnetism in solids, gauge theories. Hrs. to be arranged. The second offering in a three-part course sequence. Credit Level: G. Credit Hrs: 4.00

15PHYS921**Special Topics in Theoretical Physics**

Topics recently covered include the renormalization group, superconductivity, magnetism in solids, gauge theories. Hrs. to be arranged. The third offering in a three-part course sequence. Prereq: 15PHYS920. Credit Level: G. Credit Hrs: 4.00

15PHYS925**Advanced Topics in Solid State Physics**

Physics of plasmas, laser light scattering physics, plasmas in solids. Credit Level: G. Credit Hrs: 4.00

Physics**15PHYS926****Advanced Topics in Solid State Physics**

Physics of plasmas, laser light scattering physics, plasmas in solids. Hrs. to be arranged. The second offering in a three-part course sequence. Credit Level: G. Credit Hrs: 4.00

15PHYS927**Advanced Topics in Solid State Physics**

Physics of plasmas, laser light scattering physics, plasmas in solids. Hrs. to be arranged. The third offering in a three-part course sequence. Credit Level: G. Credit Hrs: 4.00

15PHYS937**Advanced Topics in Astrophysics I**

Advanced study of modern astrophysics, including stellar structure, the interstellar medium, galactic structure, extragalactic astronomy, and cosmology. Prereq: 15PHYS821, 15PHYS822. Credit Level: G. Credit Hrs: 4.00

15PHYS971**Research for the Doctorate**

Cr. to be arranged. Offered ea. qtr. Credit Level: G. Credit Hrs: 1.00-15.00

15PHYS973**Readings and Research**

Description not available. Credit Level: G. Credit Hrs: 1.00-15.00

Political Science**15POL110****American Politics**

American political system, ideology, constitutional development; public opinion and voting behavior, pressure groups and political parties, civil rights and civil liberties. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

Selected topics in the history of American Political Theory. Credit Level: G. Credit Hrs: 4.00

15POL750**Proseminar: Research Design.**

Principles of design, measurement, and methods of data collection.

Prereq: 15POL652. Credit Level: G. Credit Hrs: 4.00

15POL751**Proseminar: Survey Research**

Methodological aspects of survey design and analysis. Credit Level: G. Credit Hrs: 4.00

15POL752**Multivariate Statistical Analysis**

Selected topics on the application of multivariate statistics to political research, including the general linear model, analysis of variance and co-variance, multiple regression, causal modeling, factor analysis, canonical correlation, discriminant analysis, and others. Prereq:

15POL652. Credit Level: G. Credit Hrs: 4.00

15POL753**Multivariate Statistical Analysis II**

Selected topics on the application of multivariate statistics to political research, including the general linear model, analysis of variance and co-variance, multiple regression, causal modeling, factor analysis, canonical correlation, discriminant analysis, and others. Prereq:

Political Science**15POL753****Multivariate Statistical Analysis II**

15POL752. Credit Level: G. Credit Hrs: 4.00

15POL754**Policy Sciences Methods**

Research designs will be presented along with perspectives on causality, the structure of inquiry, modes of observation, and evaluation tools such as cost-benefit analysis. Prereq: 15POL652. Credit Level: G. Credit Hrs: 4.00

15POL756**Models of Political Choice and Conflict**

Survey of formal methods of political analysis: game theory, social choice and deductive modeling. Analysis of collective choice, voting rules, paradoxes, impossibility theorems, evaluation of equilibria, strategic manipulation, agenda-control, vote trading and other political phenomena. Credit Level: G. Credit Hrs: 4.00

15POL760**Pro-seminar: Comparative Politics**

Survey of the literature of comparative politics; methodology of comparative research. Credit Level: G. Credit Hrs: 4.00

15POL764**Pro-seminar: East Asia**

Readings in selected topics in East Asian politics; emphasis on modern period and current issues. Credit Level: G. Credit Hrs: 4.00

15POL765**Proseminar: Politics of South Asia**

Readings and selected issues in South Asian politics. Emphasis on modern period and current issues. Credit Level: G. Credit Hrs: 4.00

15POL769**Pro-seminar: Political Development**

Theories and approaches to the comparative study of politics. Emphasis on developing political systems. Credit Level: G. Credit Hrs: 4.00

15POL771**Pro-seminar: Middle East Political Systems**

Readings and the political literature of the Middle East. Credit Level: G. Credit Hrs: 4.00

15POL777**Pro-seminar: Europe**

An examination of developments in European politics since World War II and a survey of the theoretical approaches used to analyze them. Credit Level: G. Credit Hrs: 4.00

15POL779**International Security Policy**

Description not available. Credit Level: G. Credit Hrs: 4.00

15POL780**Pro-seminar: International Relations**

Covers the major theories and approaches to the study of International Politics. Credit Level: G. Credit Hrs: 4.00

15POL781**Pro-seminar: International Law**

Reading in the literature of international organizations and specialized agencies. Credit Level: G. Credit Hrs: 4.00

15POL782**International Law and Human Rights**

The course is designed to acquaint the graduate student with both the concepts and methods used in undertaking research in international law and human rights. In part, this is accomplished through an immersion of the student in methodological and conceptual issues drawn from the philosophy of a science generally. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Political Science**15POL783****Pro-seminar: Int. Pol. Ec.**

Description not available. Credit Level: G. Credit Hrs: 4.00

15POL784**Proseminar: International Security Policy**

Proseminar on ethnic conflict and Civil Wars. Explores topics including international security, terrorism, genocide, and child soldiers in the Middle East, Africa, South Asia, and Europe. Credit Level: G. Credit Hrs: 4.00

15POL785**Core Reading In International Relations**

For students preparing for the Doctoral Comprehensive Examination in International Relations. The readings are based on lists compiled and distributed by the I.R. faculty. Students should consult with their committee chair. Credit Level: G. Credit Hrs: 4.00

15POL810**Research Seminar: American Politics**

Description not available. Prereq: 15POL710. Credit Level: G. Credit Hrs: 4.00

15POL811**Research Seminar in American Politics**

Students develop research projects based on prior work in 15POL710 or 711 Prereq: 15POL710, 15POL711. Credit Level: G. Credit Hrs: 4.00

15POL812**Seminar: American National Government**

Description not available. Credit Level: G. Credit Hrs: 4.00

15POL813**Seminar in American Political Behavior**

Description not available. Prereq: 20CEE680. Credit Level: G. Credit Hrs: 4.00

15POL819**Advanced Individual Work: American Politics**

Prereq.: Perm. of instr. Credit Level: G. Credit Hrs: 1.00-15.00

15POL825**Practicum in Public Aim**

Description not available. Credit Level: G. Credit Hrs: 3.00

15POL826**Organization and Society**

Critical theoretical examination of concepts of bureaucracy, political theory, and economics in the context of public organizations. Prereq: 15POL726. Credit Level: G. Credit Hrs: 4.00

15POL840**Research Seminar: Political Theory**

Prereq.: 15-085-740. Prereq: 15POL740. Credit Level: G. Credit Hrs: 4.00

15POL849**Individual Work in Political Theory**

To be arranged. Credit Level: G. Credit Hrs: 1.00-15.00

15POL851**Practicum in Survey Research**

Application of survey methods: Sampling, questionnaire design, data collection and analysis. Credit Level: G. Credit Hrs: 4.00

15POL859**Individual Work in Methodology**

Perm. of instr. Credit Level: G. Credit Hrs: 1.00-15.00

15POL860**Seminar: Comparative Politics**

Research on selected topics. Credit Level: G. Credit Hrs: 4.00

Political Science**15POL879****Individual Work: Comparative Politics**

Prereq.: Perm. of instr. Credit Level: G. Credit Hrs: 1.00-15.00

15POL880**Research Seminar in International Relations**

The course will introduce the students to the main methodological approaches and theories associated with research in International Relations. Prereq: 15POL780. Credit Level: G. Credit Hrs: 4.00

15POL885**Literature Review of International Relations**

For students writing the literature review component of the dissertation. The student produces such a review as a written paper at the completion of the course. Credit Level: G. Credit Hrs: 4.00

15POL889**Individual Work: International Relations**

Prereq.: Perm. of instr. Credit Level: G. Credit Hrs: 1.00-15.00

15POL891**Independent Workshop--Public Administration**

To be arranged. Credit Level: G. Credit Hrs: 1.00-4.00

15POL895**Masters Thesis Research**

Students may register for 895 repeatedly. Credit Level: G. Credit Hrs: 1.00-15.00

15POL995**PhD Thesis Research**

Up to a total of 45 credits. Credit Level: G. Credit Hrs: 1.00-15.00

Portuguese**15PORT101****Basic Portuguese 1**

Introduction to Portuguese language to culture. First quarter in the basic 3 quarter sequence that fulfills the A&S language requirement. BoK: HU., DC. Credit Level: U. Credit Hrs: 5.00

Independent study in Portuguese language for Master's and Doctoral students Prereq: 15PORT592. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

Psychology

15PSYC101

Introduction to Psychology

Overview of psychology in these areas: history, research, biology (brain), perception and sensation, memory, intelligence, cognition and language. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC101H

Introduction to Psychology Honors

Psych 101 for honors students. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC102

Introduction to Psychology

Overview of psychology in these areas: life-span development, learning & cognition, personality, abnormal, therapies. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC102H

Introduction to Psychology (Honors)

Psyc 102 for honors students. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC103

Introduction to Psychology

Overview of psychology in these areas: social, gender, health, stress, applied, industrial, motivation & emotion, states of consciousness. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC103H

Introduction to Psychology (Honors)

Psych 103 for honors students. Transfer Module. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC150

Psychohistory: Words & Ideas

Freshman Seminar: Psychohistory, deals with both substantive theory and methodology, the application of psychology to study of the past, of history, taking into account unconscious, as well as conscious, motivations. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PSYC151

Religion, Spirituality, Health & Well-Being

Freshman Seminar: Explores the meanings between the terms religion and spirituality, as well as current interdisciplinary research linking both physical & psychological health to religion and/or spirituality. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PSYC201

Lifespan Development

Introduction to developmental issues across the lifespan. Prereq: 15PSYC101, 15PSYC102. Coreq: 15PSYC103. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC205

Child Development

Examines biological, cognitive, cultural, environmental and social influences on development in childhood. Current theories, methodologies, and research findings and applications will be discussed. BoK: SS. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Psychology**15PSYC206****Adolescent Development**

Examines biological, cognitive, cultural, environmental and social influences on development in adolescents. Current theories, methodologies, and research findings and applications will be discussed. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC207**Adult Development**

Examines biological, cognitive, cultural, environmental and social influences on development in adulthood. Current theories, methodologies, and research findings and applications will be discussed. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC208**Aging**

Comprehensive overview of the psychological, social & physical aspects of aging, including related research; psychological & physical disorders of late adulthood & their treatment. Strategies for successful & healthy aging are discussed. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC210**Human Sexuality**

PSYCHOLOGICAL, BIOLOGICAL AND SOCIAL RESEARCH ON ADULT HUMAN SEXUAL FUNCTIONING AND RELATIONSHIPS. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

15PSYC213**Positive Psychology**

Positive Psychology is an investigation of positive emotions & adaptive behaviors and the development of personal strengths and pro-social behaviors. implications for self-growth, relationships & institutions will be discussed. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PSYC215**Social Psychology**

The study of social interaction; theoretical perspective in social psychology, group dynamics, conformity and deviance, leadership, intergroup conflict, gender roles, and social factors in health. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC241**Health Psychology**

Review of psychological influences on how people stay healthy, why people may be predisposed to illness due to psychological factors, and why psychological techniques may facilitate treatment. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC247**Psychology of Adjustment**

DYNAMICS OF EMOTION, FRUSTRATION, AND ANXIETY INCLUDING THE SCIENTIFIC STUDY OF PERSONAL AND INTERPERSONAL ADJUSTMENT TO CONFLICT. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PSYC251**Abnormal Psychology**

Examines behavior disorders, personality disturbances; basic concepts, classification, diagnosis, etiology, treatment. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC271**Special Topics in Psychology**

Content varies according to current interests of faculty and students. Students may register for only 3 cr. per Qtr. Repeated ea. Qtr. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

15PSYC274**Introduction to Statistical Methods**

Required of psychology majors. Statistical methods most commonly used in psychology. Descriptive statistics, introduction to probability and sampling distributions. BoK: QR. Credit Level: U. Credit Hrs: 3.00

Psychology**15PSYC275****Intermediate Psychological Statistics**

Required of Psych. Majors. Correlational methods, analysis of variance and non-parametric statistics. Prereq: 15PSYC274. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15PSYC276**Advanced Psychological Statistics**

Stat for students who have completed 274-275 sequence. More common statistical techniques will be reviewed with an emphasis on conducting stat tests with computer-based statistical packages (SPSS). This course will be especially helpful for students preparing to take 381 or preparing for independent research. Prereq: 15PSYC275. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15PSYC290**Guided Readings**

Independent study in areas of student's choosing. Variable cr. ea. qtr. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

15PSYC305**Cognition From Birth Through Adolescence: An Introduction**

Examines how thinking & intelligence develop from infancy to early adulthood. Topics surveyed include perception, memory, language, mathematics, reasoning, concepts & categorization, & social cognition; applications relevant to education & communication disorders. Offered alternate years. Prereq: 15PSYC101, 15PSYC102, 15PSYC103. BoK: DC, SS. Credit Level: U. Credit Hrs: 3.00

15PSYC310**Topics in Advanced Human Sexuality**

Students who have successfully completed Psyc 210 wish to develop research skills by investigating an approved topic beyond the information provided by standard Human Sex texts. A 20-minute power-pt. presentation & 5-8 page paper detailing the results of their research are required. Prereq: 15PSYC210. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC312**Psychology of Women**

An analysis of the physiological, psychological and cultural aspects of sexuality and sex roles. BoK: DC. Credit Level: U. Credit Hrs: 3.00

15PSYC324**UNDERSTANDING SEX OFFENSES AND THE OFFENDER**

A comprehensive overview of psychological, sociological and legal issues related to sexual offenses. The sex offender and different typologies of the sex offender are addressed. BoK: SS., HU. Credit Level: U. Credit Hrs: 3.00

15PSYC331**Development: Children And Adolescents**

Theory, research, and development focusing on youth. Prereq: 15PSYC101, 15PSYC102. Coreq: 15PSYC103, 15PSYC201. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC332**Development: Adulthood and Aging**

Theory, research and development in adulthood and beyond. Prereq: 15PSYC101, 15PSYC201. Coreq: 15PSYC102, 15PSYC103. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC333**Child Health Psychology**

Review of theory and research in pediatric (child health) psychology. Prereq: 15PSYC331. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC334**Diversity and Health**

Health issues as they relate to diverse populations, including but not limited to racial, ethnic, and sexist minorities, individuals from low socio-economic backgrounds and the elderly. Prereq: 15PSYC101, 15PSYC102. Coreq: 15PSYC103. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Psychology

15PSYC335

Theories of Clinical Intervention

Theory and research on models of clinical intervention/psychotherapy. Prereq: 15PSYC251. BoK: SS, SE. Credit Level: U. Credit Hrs: 3.00

15PSYC341

Psychology of Personality

A THEORETICAL APPROACH TO PERSONALITY, PSYCHODYNAMICS, ASPECTS OF DEVELOPMENT, AND METHODS OF STUDYING PERSONALITY. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PSYC350

Introduction to Sport Psychology

An introduction to the psychological study of people and their behavior in sport environments. Emphasis is on the mental skills associated with high level performance in sports. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PSYC354

Psychology of Stress Management

A detailed analysis of the nature of stress including definitions, beliefs, current research and coping strategies. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC358

Psychology of Interpersonal Relations

Theory and research on interpersonal relationships (e.g. styles of relating); discussion of different types of relationships and of relationship problems. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC360

Psychology of Food and Eating

Topics will include factors that influence food selection and ingestion, sensory control of food intake, eating disorders, cognition, and food attitudes. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PSYC362

Brains on Drugs

Focus on the effects of illicit and prescribed drugs on human behavior, including alcohol, caffeine, nicotine, cocaine, and steroids. Topics include drug classification, drug education, the prevention and treatment of drug abuse, and physiological effects. BoK: SE. Credit Level: U. Credit Hrs: 3.00

15PSYC363

Psychology and the Law

The focus of this course is how psychological processes are used, misused, or ignored in the legal world. We will examine memory research as it relates to eyewitness testimony, and psychopathology's relationship to issues surrounding competency to stand trial and insanity pleas, among other topics. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PSYC365

Psychology of Conflict and Conflict Resolution

Examines intrapersonal, interpersonal, and intergroup conflict. Factors that contribute to conflict in each of the latter areas are examined as are strategies for resolving conflict. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PSYC370

Introduction to Psychobiology

Introduction to biological bases of feelings, thoughts, and actions. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15PSYC377

Uses of Psychology in Everyday Life

Emphasizes the personal application of psychological principles to everyday affairs. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PSYC379

RESEARCH METHODS IN COGNITIVE PSYCHOLOGY

Descriptive and Laboratory projects related to topics in cognitive psychology including object recognition, speech and language

Psychology

15PSYC379

RESEARCH METHODS IN COGNITIVE PSYCHOLOGY

processing, memory and reasoning. Prereq: 15PSYC381. BoK: QR, SS. Credit Level: U. Credit Hrs: 3.00

15PSYC380

Research Methods in Psychology

RES METHODS IN PSY BoK: QR. Credit Level: U. Credit Hrs: 3.00

15PSYC381

Experimental Methods in Psychology

Required of psychology majors. Lectures, demonstrations and laboratory exercises in general experimental psychology. Lec., lab. Prereq: 15PSYC274, 15PSYC275, 15PSYC380. BoK: QR. Credit Level: U. Credit Hrs: 3.00-6.00

15PSYC382

Research Methods in Social Psychology

An overview of research methodology in Social Psychology. Prereq: 15PSYC381. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15PSYC383

Perception and Action

An introductory course that focuses on the interplay between theory and research and on the ways in which perception is related to behavior; in evolution, control, and development. BoK: NS. Credit Level: U. Credit Hrs: 3.00

15PSYC384

Research Methods in Personality and Clinical Psychology

An overview of theory and research in the study of personality and clinical psychology. Prereq: 15PSYC381. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15PSYC385

Research Methods in Children's Learning

An overview of theory and research in the study of the learning process. Applies theories of learning to young children's knowledge development. Research will involve collaboration with the Children's Science Museum assessing children's learning through hands-on exploration. Prereq: 15PSYC381. BoK: QR, SS. Credit Level: U. Credit Hrs: 3.00

15PSYC386

Research Methods: Children's Health and Mental Health

Research methods capstone course focusing on children's health and mental health issues. Prereq: 15PSYC274, 15PSYC381. Coreq: 15PSYC275. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC387

Advanced Methods and Data Analysis

Capstone course that emphasizes advanced methods and data analysis in a wide variety of content domains. Prereq: 15PSYC274, 15PSYC275. Coreq: 15PSYC381. BoK: QR, SS. Credit Level: U. Credit Hrs: 3.00

15PSYC388

Applied Psychological Research

A two-quarter sequence on the methodology, design, and implementation of research to be used in solving social problems. Prereq: 15PSYC381. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15PSYC390

Fieldwork Practicum

A supervised experience in community agencies and placements. Arrangements with individual faculty member must be made prior to registration. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

15PSYC392

Fieldwork Practicum: Prepersonnel/Labor Relations

Supervised practical experience in an appropriate business or industrial setting. Arrangements with individual faculty member must be made prior to registration. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Psychology**15PSYC394****Fieldwork Practicum: SCIP**

Supervised practical experience in an appropriate community agency. Variable cr. ea. qtr. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

15PSYC395**Groups at Work: Theory and Practice in Social Skills**

Theories of small work groups that help increase the interpersonal effectiveness of individuals and the group. Practice in skills and behaviors to expand personal competency in groups. Students may receive credit for this course or Communications 143 and 145, but not both. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PSYC401**Seminar In Health**

This course will focus on current research and clinical topics in health psychology. Faculty will teach the course based on their areas of expertise. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC418**Human Performance**

The course will review models of performance and their application to human factors problems. Topics include attention, working memory, skill and the effects of personality and operational stressors. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PSYC428**The Psychology of Self and Human Relations**

The course focuses on the individual psyche and moves through the various stages and processes of human interaction. That is, from the personal to the interpersonal and intergroup arenas of human development, social interaction, and social functioning. The course will focus on teaching personal and social skills for living and critical reasoning for understanding the self and its relationship to the multi-cultural world. Senior psychology majors only. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PSYC434**Applications of Psychology in Professional Life**

Topics include methods of job hunting, career opportunities in psychology, conflict resolution, stress management, dealing with co-workers, management skill building & ethics; provides students a chance to discuss & practice interpersonal & communication skills for success in careers. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC437**Senior Thesis Seminar**

Seminar designed to guide senior psychology students through preliminary steps for completing senior thesis project with designated mentor. Prereq: 15PSYC381. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

15PSYC438**Senior Thesis**

Supervised empirical or other type independent research. Senior thesis or some other appropriate research is required of students wishing to graduate with honors in psychology. Arrangements with individual faculty member must be made prior to registration. Prereq: 15PSYC381. BoK: NA. Credit Level: U. Credit Hrs: 3.00-6.00

15PSYC451**Research Methods In Community Research**

The course will provide an opportunity for students to design & conduct individual projects that emphasize methods appropriate for completing research in community settings. Students will gain experience in using statistical software (e.g. SPSS) and writing reports. Prereq: 15PSYC274. BoK: DC, SS. Credit Level: U. Credit Hrs: 3.00

15PSYC452**Research in Stress and Health**

Explores the impact of stress on health outcomes. Prereq: 15PSYC241. BoK: NS, SS. Credit Level: U. Credit Hrs: 3.00

Psychology**15PSYC475****Seminar for Honors Students in Psychology**

Discussion of controversial issues in psychology including position papers and debate. Prereq: 15PSYC381. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15PSYC490**Psychological Research**

Supervised experience assisting in or conducting empirical research. Variable cr. ea. qtr. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

15PSYC501**Psychophysiology and Psychosomatic Illness**

Psychophysiological & psychosomatic disorders are physical conditions that are affected by psychological factors. This course will examine present theories of the origin and treatment of these illnesses. Prereq: 15PSYC241. BoK: NS, SS. Credit Level: U, G. Credit Hrs: 3.00

15PSYC502**Social Psychology**

The study of social interaction; interpersonal attraction, altruism and helping behavior, human aggression, social attitudes and attitude change, perceiving other persons, and self-concept. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15PSYC510**Psycholinguistics: The Psychology of Language**

Psychological study of the structure, acquisition, and uses of language. Topics covered include the biological basis of language, the linguistic structure of language, children's acquisition of language, language comprehension, discourse processing, conversation, ape language, speech perception, language disorders in children. Prereq: 15PSYC381. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15PSYC513**Psychology of Sexual Orientation**

An analysis of the psychological, cultural and physiological aspects of sexual orientation. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00

15PSYC517**Physiological Psychology**

Physiological correlates of behavior: neurophysiology, neuroanatomy, motivation, emotion, learning, memory, brain-behavior relationships. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15PSYC518**Physiological Psychology**

Physiological correlates of behavior: neurophysiology, neuroanatomy, motivation, emotion, learning, memory, brain-behavior relationships. The second offering in a two-part course sequence. Prereq.: Introductory biology course recommended. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15PSYC519**THE REMEMBERING BRAIN**

Explores what goes on in the human brain from multiple perspectives as we learn and remember. Focus on brain mechanisms that regulate memory, amnesia & memory loss, learning strategies, sub-conscious memory & other topics. Interest neurosciences, psych, educ, comm, dis, biomedical engineer. Perm of Instructor. BoK: NS, SS. Credit Level: U. Credit Hrs: 3.00

15PSYC522**Psychopharmacology**

Focuses on how certain classes of drugs affect the brain and endocrine system to alter mood and behavior. Particular attention is given to how drugs accomplish this by affecting receptor, cellular & genetic processes which then alter communication patterns throughout the brain. BoK: NS. Credit Level: U, G. Credit Hrs: 3.00

15PSYC526**Death and Dying**

The study of how individuals view dying and death at different points in the life span. Examines the process of dying, cultural attitudes toward

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Psychology

15PSYC526

Death and Dying

death, coping with different types of loss, death education and counseling, and ethical issues. Prereq: 30PSYC101, 30PSYC175. BoK: SS, SE. Credit Level: U. Credit Hrs: 3.00

15PSYC535

Introduction to Cognitive Psychology

An introduction to research, theory, and applied aspects of reasoning, remembering, understanding and attention. Prereq: 15PSYC381. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15PSYC537

Broken Brains: Biological Bases of Mental Disorders

Study of the brain and nervous system as they relate to psychopathology and other disorders. Prereq: 15PSYC370. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15PSYC540

The Psychology of Ideology

Ideology as understood primarily by social and developmental psychologists. Topics include authoritarianism, prejudice, and group processes. Prereq: 15PSYC274, 15PSYC275. BoK: SE, SS. Credit Level: U, G. Credit Hrs: 3.00

15PSYC543

Motivation

Dynamic, behavioral, and cognitive approaches to human and animal motivation, research methods and results. Prereq: 15PSYC381. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15PSYC552

History and Systems

Overview of the development of scientific psychology from its foundations in Western intellectual culture. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15PSYC571

Advanced Special Topics in Psychology

Content varies each quarter according to the interests of faculty and students. Students may register for only 3 cr. per qtr. Course is repeated each qtr. Arrangements with individual faculty member must be made prior to registration. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15PSYC575

Psychological Measurement and Testing

Measurement theory and application; reliability; validity. Use of tests of intelligence, aptitude, achievement and personality. Prereq: 15PSYC381. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15PSYC580

The Development of Prejudice

The historic and cultural bases of prejudice and discrimination will be explored. Students will participate in small group discussions of topic material as well as explore potential manifestations of prejudice and/or discrimination within our campus community. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15PSYC590

Teaching Assistant Practicum

Supervised experience as a teaching assistant. Variable ug. cr. ea. qtr. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

15PSYC595

Psychology of Men

The study of how men are acculturated and stereotyped by society. Explored are the dilemmas men face in our changing society. Particular emphasis is on the disparity between society's view of men and our (men and women) experience of men individually and collectively. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00

Psychology

15PSYC601

Industrial Psychology

Individual and social problems in selection, training, motivation, efficiency, appraisal, morale, communication, and leadership. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00-3.00

15PSYC622

Contemporary Issues: Child Health & Mental Health

Contemporary issues such as child psychopathology, influence of the media on children, and children's reaction to trauma. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15PSYC628

PSYCHOLOGY OF WORLD EVENTS: INTERNATIONAL CONFLICT AND GLOBALIZATION

Psychological factors involved in modern inter- national & ethnic conflicts & in economic and cultural globalization. Special attention to the interpretation of personal statements, eyewitness accounts, autobiographical materials & interviews. BoK: SS., DC. Credit Level: U, G. Credit Hrs: 3.00

15PSYC631

Program Evaluation and Policy Analysis

Examines how programs and policies function in health, urban studies, business, and government. Topics include research design; sampling, questionnaire design; structured and in-depth interviewing; ethnographic field work; design, managerial, and political issues in evaluation and policy analysis; etc. Prereq: 15PSYC381. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15PSYC648

Social Psychology of Urban Life

Psychological aspects of life in cities. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15PSYC649

Social Psychology of Urban Life

Psychological aspects of life in cities: the world perspective. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15PSYC652

Psychology of Management

In this seminar, students will discuss psycho- social issues related to being a leader in our global economy. The course bridges issues for psychology and business, including assuming a leadership role, networking, women as leaders, workplace stress, family & business, understanding mergers and acquisition and the work environment. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15PSYC659

Social Structure and Personality

Interrelations between society and personality; social influences upon self-concept; dramaturgical theory. Prereq: 15PSYC101. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15PSYC661

Advanced Individual Work in Psychology

Variable ug. cr. ea. qtr. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

15PSYC680

The Psychology of Religion and Spirituality

Examination of: (1) definitions of religion, faith, spirituality, post-modern psychology of religion and current issues within and continuities between psychology and religion; (2) history of psychospiritual/religious thought from ancient through modern philosophy; (3) biological, behavioral, laboratory and comparative theories of religion; (4) research methods in psychology of religion; (5) major psychological theories and systems in the psychology of religion/spirituality; (6) implications for theory development and research. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Psychology**15PSYC681****Africana Psychology: Historical and Contemporary Thought and Praxis**

Course examines: (A) the roots of a "Black psychology" in 1) the philosophy and context of ancient Egyptian/Kemet beliefs and those of other classical African civilizations; 2) 20th century philosophical and sociopolitical African diaspora thought and praxis (e.g., Nkrumah, Senghor, Oruka, Fanon, W.E.B. DuBois, Locke) as well as in current African/Black philosophy (e.g., Outlaw, Davis, Hooks, Asante, West); and (B) Contemporary Black Psychology: the major theories, issues, and research in Black/African American psychology (e.g., Clarke, White, Nobles, Hilliard, Akbar) as well as the future direction of an "Africana Psychology." BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15PSYC710**Individual Work in Social Psychology**

May be taken repeatedly. Offered ea. qtr. Ug. or gr. cr. to be arranged. See Director, Graduate Program in Social Psychology. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15PSYC714**Descriptive Statistics and Probability**

Numerical and graphical methods for describing and presenting sets of data and relationships between variables. Introduction to probability theory. Introduction to statistical inference. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15PSYC715**Inferential Statistics**

Survey of statistical techniques for making inferences about means, variances, proportions, and distributions. Introduction to the Analysis of Variance. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15PSYC716**Modeling Experimental and Observational Data**

Multiple regression and analysis of variance. Specifying, estimating and evaluating statistical models. Prereq: 15PSYC715. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15PSYC729**Human Factors Seminar**

History, principles, and guidelines of human factors as they impact the design of hardware and software as used by people and business. Sr. undergrad. or gr. standing. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15PSYC741**Interdisciplinary Studies in Developmental Disorders I**

Multifaceted approach to understanding of mental retardation. Psychological, medical, social, educational areas. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00

15PSYC760**Applying Psychological Principles to African Americans**

Seminar on theory, research & practice in the application of psychological principles to African Americans. Presentations by students, faculty & practitioners. Students will be required to share ongoing projects & asked to give and receive feedback on considering ethnicity in research. Perm of Instructor. BoK: DC, SS. Credit Level: U, G. Credit Hrs: 1.00-3.00

15PSYC721**Core: Social and Personality**

Social bases of behavior and theories of personality. Credit Level: G. Credit Hrs: 3.00

15PSYC722**Core: Development**

Psychological theories of lifespan development. Credit Level: G. Credit Hrs: 3.00

Psychology**15PSYC723****Core: Personality**

Theories of personality. Credit Level: G. Credit Hrs: 3.00

15PSYC731**Core of Psychology: Biological Bases**

This is one of six content courses designed to cover each of the following content areas such that the content is completed within the six allotted quarters of study: History and Philosophy of Psychology; Biological Bases of Behavior; Cognition and Learning; Social Psychology; Perception; Personality; Developmental Psychology; Applications of Psychology. Each of the core modules will be taught each year. Credit Level: G. Credit Hrs: 3.00

15PSYC732**Core of Psychology: Social**

This is one of six content courses designed to cover each of the following content areas such that the content is completed within the six allotted quarters of study: History and Philosophy of Psychology; Biological Bases of Behavior; Cognition and Learning; Social Psychology; Perception; Personality; Developmental Psychology; Applications of Psychology. Each of the core modules will be taught each year. Credit Level: G. Credit Hrs: 3.00

15PSYC733**Core of Psychology: History and Philosophy**

This is one of six content courses designed to cover each of the following content areas such that the content is completed within the six allotted quarters of study: History and Philosophy of Psychology; Biological Bases of Behavior; Cognition and Learning; Social Psychology; Perception; Personality; Developmental Psychology; Applications of Psychology. Each of the core modules will be taught each year. Credit Level: G. Credit Hrs: 3.00

15PSYC734**Core of Psychology: Perception**

This is one of six content courses designed to cover each of the following content areas such that the content is completed within the six allotted quarters of study: History and Philosophy of Psychology; Biological Bases of Behavior; Cognition and Learning; Social Psychology; Perception; Personality; Developmental Psychology; Applications of Psychology. Each of the core modules will be taught each year. Credit Level: G. Credit Hrs: 3.00

15PSYC735**Core of Psychology: Cognition and Learning**

This is one of six content courses designed to cover each of the following content areas such that the content is completed within the six allotted quarters of study: History and Philosophy of Psychology; Biological Bases of Behavior; Cognition and Learning; Social Psychology; Perception; Personality; Developmental Psychology; Applications of Psychology. Each of the core modules will be taught each year. Credit Level: G. Credit Hrs: 3.00

15PSYC736**Core of Psychology: Personality and Development**

This is one of six content courses designed to cover each of the following content areas such that the content is completed within the six allotted quarters of study: History and Philosophy of Psychology; Biological Bases of Behavior; Cognition and Learning; Social Psychology; Perception; Personality; Developmental Psychology; Applications of Psychology. Each of the core modules will be taught each year. Credit Level: G. Credit Hrs: 3.00

15PSYC737**Professional Development: Ethics**

This seminar will be required of first year students, and is designed to acquaint students with basic concepts in professional ethics governing research, teaching and applications of psychology. Credit Level: G. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Psychology

15PSYC738

Professional Development: Proposal Writing

THIS SEMINAR WILL BE REQUIRED OF FIRST YEAR STUDENTS, AND IS DESIGNED TO PROVIDE STUDENTS WITH BASIC SKILLS ASSOCIATED WITH WRITING RESEARCH PROPOSALS. Credit Level: G. Credit Hrs: 1.00

15PSYC739

Professional Development: Presentation Skills

THIS SEMINAR WILL BE REQUIRED OF FIRST YEAR STUDENTS, AND IS DESIGNED TO PROVIDE STUDENTS WITH BASIC SKILLS needed to prepare and make professional presentations in the course of their teaching, research or applied work. Credit Level: G. Credit Hrs: 1.00

15PSYC744

Advanced Social Psychology

Systematic review of major theories and empirical findings in social psychology. Credit Level: G. Credit Hrs: 4.00

15PSYC745

Experimental Research Seminar

Informal presentations, discussion of research by graduate students and faculty in experimental Psychology. Required of first, second, and third year experimental graduate students. Credit Level: G. Credit Hrs: 1.00

15PSYC780

Generalized Linear Models

Introduction to and applications of the generalized linear model and the generalized linear mixed model in psychological research. Prereq: 15PSYC716. Credit Level: G. Credit Hrs: 3.00

15PSYC781

Factor Analysis And Structural Equation Models

Introduction to and applications of factor analysis and structural equation modeling in psychological research. Prereq: 15PSYC716. Credit Level: G. Credit Hrs: 3.00

15PSYC799

Research on the Master's Thesis

Students may register for 799 repeatedly but not for more than 18 credits in total. (cf. Psych. 899 and 999). Offered each quarter. Credit Level: G. Credit Hrs: 1.00-15.00

15PSYC806

Descriptive Psychopathology

A survey of recent theories and research in psychopathology, the nature of abnormality, symptoms, and current research work with pathological groups. Prereq: Students who have not been admitted into the Ph.D. program in Clin. Psych. must obtain consent of the instr., the Dir. of Clin. Training, and the Dir. of Grad. Studies prior to enrolling for this course. Credit Level: G. Credit Hrs: 3.00

15PSYC810

Psychopathology of Childhood

Clinical overview of disturbances of development and personality, including therapeutic and research issues. Prereq.: Students who have not been admitted into the Ph.D. program. in Clin. Psych. must obtain the consent of the instr., the Dir. of Clin. Training and the Dir. of Grad. Studies prior to enrolling for this course. Credit Level: G. Credit Hrs: 3.00

15PSYC815

Adult Intellectual Assessment

Theory and application of adult intellectual assessment. Credit Level: G. Credit Hrs: 3.00

15PSYC818

Performance and Information-Processing

The course will explore the use of information- processing models in human factors. Models will be evaluated in the contexts of laboratory studies. Real-world skills and individual and group differences. Prereq: 15PSYC729. Credit Level: G. Credit Hrs: 3.00

Psychology

15PSYC821

Psychology of Perception

Intensive treatment of psychophysics and organization, stability, development of perceptual processes. Current theories of perception and their experimental bases. Credit Level: G. Credit Hrs: 3.00-4.00

15PSYC822

Psychology of Perception

Intensive treatment of psychophysics and organization, stability, development of perceptual processes. Current theories of perception and their experimental bases. The second offering in a three-part course sequence. Credit Level: G. Credit Hrs: 4.00

15PSYC823

Psychology of Perception

Intensive treatment of psychophysics and organization, stability, development of perceptual processes. Current theories of perception and their experimental bases. The third offering in a three-part course sequence. Credit Level: G. Credit Hrs: 4.00

15PSYC824

Stress & Cognition

The course will begin by reviewing cognitive theories of stress processes. It will then review their application to studies of stress and performance individual differences, and clinical anxiety and depression. Credit Level: G. Credit Hrs: 3.00

15PSYC826

Experimental Design

Applications of and theoretical issues in experimental design; programming general linear models for ANOVAS. The second offering in a two- part course sequence. Prereq.: One year of graduate statistics. Credit Level: G. Credit Hrs: 4.00

15PSYC830

Seminar: Ethical and Professional Issues in Professional Psychology

A review and discussion of the key ethical and professional issues of interest to professional psychologists. Credit Level: G. Credit Hrs: 3.00

15PSYC838

DIVERSITY IN CLINICAL PSYCHOLOGY

Diversity Issues in research and clinical practice with particular emphasis on ethnicity, gender and sexual orientation. Credit Level: G. Credit Hrs: 3.00

15PSYC840

Theory of Development

Students will read, discuss and write about theoretical approaches to development. Credit Level: G. Credit Hrs: 3.00

15PSYC842

Family Theory and Family Therapy

The family is viewed as a social system with a culture. Within this context, several major approaches to family therapy will be examined. Credit Level: G. Credit Hrs: 3.00

15PSYC853

Psychological Measurement

Types of measurement, reliability, validity, test development, scaling, clinical assessment, professional standards, and ethics. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

15PSYC854

Introduction to Psychotherapy

Lab. experience in interview methods, administration; interpretation of intelligence, personality tests, report writing, case histories. Credit Level: G. Credit Hrs: 3.00

15PSYC856

Assessment

Lab. experience in interview methods, administration; interpretation of intelligence, personality tests, report writing, case histories. The third offering in a three-part course sequence. Credit Level: G. Credit Hrs: 3.00-4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Psychology**15PSYC856****Assessment**

Lab. experience in interview methods, administration; interpretation of intelligence, personality tests, report writing, case histories. The third offering in a three-part course sequence. Credit Level: G. Credit Hrs: 3.00-4.00

15PSYC858**Psychotherapy II**

See 15-055-857. Theories and applications of psychotherapeutic procedures with groups. Credit Level: G. Credit Hrs: 4.00

15PSYC860**Measurement of Psychopathology**

Measurement of psychopathology with emphasis on the MMPI. Credit Level: G. Credit Hrs: 3.00

15PSYC865**Pediatric Neuropsychology Assessment -- Practicum I**

Training and experience in the administration of neuropsychological tests in a pediatric setting; lectures and readings on various topics in pediatric neuropsychology, including the neuropsychology of learning disabilities and cerebral plasticity. Credit Level: G. Credit Hrs: 1.00-3.00

15PSYC867**Pediatric Neuropsychology Assessment -- Practicum III**

Training and experience in the administration of neuropsychological tests in a pediatric setting; lectures and readings on various topics in pediatric neuropsychology, including the neuropsychology of learning disabilities and cerebral plasticity. The third offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00-3.00

15PSYC870**Clinical Case Conference**

This is an educational event in which departmental alumni, faculty and mental health professionals provide an overview of public and private practice in the community. The audience is graduate students in the psychology department who learn about clinical and research aspects of current mental health care. Credit Level: G. Credit Hrs: 1.00

15PSYC871**Individual Work in Psychology**

Supervised research, reading, or practical experience. Variable cr. ea. qtr. Credit Level: G. Credit Hrs: 1.00-15.00

15PSYC872**Clinical Psychology Internship Preparation Seminar**

Seminar in preparation for Clinical Psychology Internship applications. Credit Level: G. Credit Hrs: 1.00

15PSYC873**Seminar in Child Clinical Psychology**

Read and discuss developmental and clinical research relevant to child clinical psychology. Credit Level: G. Credit Hrs: 1.00

15PSYC874**Child Clinical Case Conference**

This is a seminar in which students will present their child and adolescent clinical cases for discussion in addition to discussing readings in family therapy. Credit Level: G. Credit Hrs: 1.00

15PSYC877**Theories of Personality**

Psychodynamic theories. Credit Level: G. Credit Hrs: 3.00

15PSYC880**Practicum in Crisis Intervention**

Practice in assessment and treatment of short-term clients, conducted through the University Walk-In Clinic. Cr. TBA. Credit Level: G. Credit Hrs: 1.00-15.00

15PSYC881**Intervention in Clinical Psychology**

Course will examine theory and research relevant to the formulation, development, and implementation of psychological interventions. Credit

Psychology**15PSYC881****Intervention in Clinical Psychology**

Level: G. Credit Hrs: 3.00

15PSYC888**Clinical Practica**

Involves assessment, diagnosis, and treatment of emotional disorders under supervision at an associated mental health agency. Cr. TBA. Credit Level: G. Credit Hrs: 1.00-15.00

15PSYC891**Developmental Disorders: Psychopathology and Interventions**

This 3-hours course will focus on a review of developmental disabilities in children and adolescents. Current research in assessment, cognitive development, and child and family interventions will be reviewed. Credit Level: G. Credit Hrs: 3.00

15PSYC892**Internalizing Disorders: Psychopathology and Interventions**

This 3-hours course will focus on a review of internalizing disorders in children & adolescents. Current research in assessment, psychopathology, and child and family therapy will be reviewed. Credit Level: G. Credit Hrs: 3.00

15PSYC893**Externalizing Disorders: Psychopathology and Interventions**

This 3-hours course will focus on a review of externalizing disorders in children & adolescents. Current research in assessment, psychopathology, and child and family therapy will be reviewed. Credit Level: G. Credit Hrs: 3.00

15PSYC898**Research Methods in Psychology**

Empiricism in psychology, modes of analysis, comparison of experimental, quasi-experimental and correlational designs, methods for data collection, overview of secondary analysis and meta-analysis. Credit Level: G. Credit Hrs: 3.00

15PSYC899**Non-Thesis Research by a Graduate Student**

May be elected repeatedly. Credit Level: G. Credit Hrs: 1.00-15.00

15PSYC915**Seminar in Health Psychology**

Examination and discussion of the research literature in health psychology. Papers in focal areas are chosen each quarter and critiqued. Recent developments are emphasized. Credit Level: G. Credit Hrs: 1.00

15PSYC920**Neuropsychology Case Conference**

Clinical neuropsychology case conceptualization and interpretation. Credit Level: G. Credit Hrs: 1.00

15PSYC922**Clinical Neuropsychology I**

Discussion of the theoretical and empirical literature on brain-behavior relationships and examination of the clinical features of the major neurobehavioral syndromes, including visuoperceptive, aphasic, amnesic, and apraxic disturbances. Credit Level: G. Credit Hrs: 3.00

15PSYC923**Clinical Neuropsychology II**

Emphasis is on the etiology and assessment of focal and nonfocal cerebral impairment related to trauma, neoplasm, cerebrovascular disease, degenerative dementias, and toxico-metabolic disorders. Credit Level: G. Credit Hrs: 3.00

15PSYC925**Seminar in Neuropsychology**

Examine and discuss research literature and clinical and professional issues of relevance to clinical neuroscience and neuropsychology. Credit Level: G. Credit Hrs: 1.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Psychology

15PSYC926

Seminar in Neuropsychology

Examine and discuss research literature and clinical and professional issues of relevance to clinical neuroscience and neuropsychology.

Prereq: 15PSYC925. Credit Level: G. Credit Hrs: 1.00

15PSYC927

Seminar in Neuropsychology

Examine and discuss research literature and clinical and professional issues of relevance to clinical neuroscience and neuropsychology.

Prereq: 15PSYC926. Credit Level: G. Credit Hrs: 1.00

15PSYC928

Seminar in Cognitive Neuropsychology

Reading and discussion of theoretical perspectives and methodological issues concerning integrative relationships between normal cognitive processing and neuropsychological dysfunction. Credit Level: G. Credit Hrs: 3.00

15PSYC929

Seminar in Cognitive Neuroscience

A survey of current data and theory in domains of cognitive neuroscience such as central auditory processing, memory, and language from neural network/connectionist modeling, cognitive psychology and neuropsychology and neuroimaging perspectives. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

15PSYC935

Topics in Cognitive Psychology

Covers basic topics in cognitive psychology. Prereq: 15PSYC809. Credit Level: G. Credit Hrs: 3.00

15PSYC936

Practicum in Clinical Neuropsychology

Supervised clinical training in neuro-psychological assessment and intervention procedures for various patient groups with known or suspected brain disease. Credit Level: G. Credit Hrs: 1.00-6.00

15PSYC937

Practicum in Clinical Neuropsychology

Supervised clinical training in neuro- psychological assessment and intervention procedures for various patient groups with known or suspected brain disease. The second offering in a three-part course sequence. Prereq.: Admission to Clin. or Neuropsych. PhD program. Credit Level: G. Credit Hrs: 1.00-6.00

15PSYC938

Practicum in Clinical Neuropsychology

Supervised clinical training in neuro- psychological assessment and intervention procedures for various patient groups with known or suspected brain disease. The third offering in a three-part course sequence. Prereq.: Admission to Clin. or Neuropsych. PhD program. Credit Level: G. Credit Hrs: 1.00-6.00

15PSYC944

Topics in Perception and Action

Review and discussion of theoretical and empirical topics in areas such as ecological psychology, motor control and learning, postural control, and the perceptual guidance of coordinated action. Credit Level: G. Credit Hrs: 3.00

15PSYC945

Topics in Perception and Action

Continued review and discussion of theoretical and empirical topics in areas such as ecological psychology, motor control and learning, postural control, and the perceptual guidance of coordinated action. The second of a three-course sequence. Credit Level: G. Credit Hrs: 3.00

15PSYC974

Seminar: Current Research in Human Learning

Reading and critical discussion of recent major contributions to human learning. Offered ea. qtr., may be elected repeatedly. Credit Level: G. Credit Hrs: 1.00-3.00

Psychology

15PSYC999

PhD Dissertation Research

Students may register for 999 repeatedly up to a total of 45 credits.

Credit Level: G. Credit Hrs: 1.00-18.00

Religious Studies

15RELG101

Introduction to the Study of Religion

This course is an introduction to the various methodologies used in the academic study of religion. The course surveys the phenomenological, psychological, anthropological, sociological, historical-critical, literary, and hermeneutical perspectives. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15RELG201

History and Thought: Christianity

This course examines the earliest period of Christianity's history, from its origins in Palestinian Judaism to the Fourth Ecumenical Council. BoK: HP. Credit Level: U. Credit Hrs: 3.00

15RELG246

Sacred Texts: Asian Traditions

Drawing on a diverse selection of readings, we explore the nature and use of texts in Asia, religious, cultural, and historical themes, and the fascination Asian texts have held in the West. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15RELG260

History and Thought: Islam

The course will cover the emergence of Islam in seventh-century Arabia with the Prophet Muhammad and the Qur'an; the spread of Islam and the major periods of Islamic history; Islamic Law and Theology; the basic beliefs and practices of Islam which are shared by all Muslims; several major movements within Islam; Islamic reactions to the West including modernist movements and Islamist movements, and the situation of Muslims living in the West, especially the United States. BoK: HP., DC. Credit Level: U. Credit Hrs: 3.00

15RELG262

History and Thought: Buddhism

This course will emphasize the main teachings of the historical Buddha including the Four Noble Truths and The Eight-Fold Path. Such important concepts as karma, enlightenment, and emptiness will be explored. BoK: HP., DC. Credit Level: U. Credit Hrs: 3.00

15RELG317

Religion, Medicine and Healing

This course will examine the intimate connection between religion and medicine through an investigation of the nature of health and healing. What does it mean to be whole and healthy and how do these traditions address and understand illness. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15RELG319

Suffering and Death

This course will focus on several human responses to death and dying: denial, acceptance, and rebellion. From the perspective of both the humanities and social sciences, the course will investigate such questions as: life after death, funeral behavior, grief and bereavement, suicide, terminal care. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15RELG336

Religious Roots of International Conflict

This course explores the role which religion has historically played in conflict between nations. Following a historical overview of the concept of "holy war" in centuries past, we will then focus on several specific examples of religiously-inspired conflict in the 20th century. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15RELG349

Sacred Space, Sacred Time

Sacred Space deals with architecture, placement and symbolism found in places and buildings for worship in five major religions: Judaism,

H=University Honors course.

Exploration of historical and modern societal attitudes towards death and dying, cultural practices of funeral ritual, body disposition and grieving, and legal and ethical issues surrounding end of life. Prereq: 15SOC141. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15SOC345**Urban Society**

An introductory course in urban sociology which examines cities from historical, theoretical, and empirical perspectives. Prereq: 15SOC141. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15SOC361**Homelessness**

An examination of the causes and consequences of homelessness in the United States with an emphasis on the City of Cincinnati. Students will participate in an unpaid service experience with a community service agency serving the homeless. Prereq: 15SOC141. BoK: SS. Credit Level: U. Credit Hrs: 3.00

Sociology**15SOC365****Sociology of Sports**

Analysis of sports as a major leisure institution that reflects the structure of the larger society; issues in professional and collegiate sports are examined. Prereq: 15SOC141. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15SOC370**Sociology of Social Problems**

An examination of the processes whereby social problems and their solutions are constructed in the public arena; specifically, an examination of social groups that promote social problems, the methods used for influencing the public, and the opportunities and constraints associated with finding solutions to social problems. Prereq: 15SOC141. BoK: SS, SE. Credit Level: U. Credit Hrs: 3.00

15SOC371**Social Change**

An examination of social change historically and cross-nationally, focusing on such issues as the roles of technology, culture, demographic conditions and power. Prereq: 15SOC141. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15SOC373**Race in Modern Society**

A sociological analysis of race and ethnicity. Special attention given to racial and ethnic prejudice, discrimination, and social inequality. Prereq: 15SOC141. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

15SOC380**Men and Masculinity**

An examination of men's position/role in society, changing definitions of masculinity, media portrayals, and issues of social identity. Prereq: 15SOC141. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

15SOC386**El Salvador Study Tour**

An examination of inequality and social change in El Salvador. Assigned readings discussed in meetings during the quarter followed by one week in El Salvador Perm of Instructor. BoK: DC. Credit Level: U. Credit Hrs: 3.00

15SOC389**Youth and Society**

An analysis of the status of youth and adolescents in society. Particular emphasis is placed on the ambiguity of the role of adolescents/youth in modern society and the special problems which result. (Formerly 15SOC406) Prereq: 15SOC141. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15SOC401**Sociology of Education**

Sociological concepts and theories are applied to issues in education. Topics will include the rise of the modern U.S. school system, the interface between schools and the stratification system, and outcomes of schooling. Prereq: 15SOC141. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15SOC407**Environmental Sociology**

An introduction to the study of how nature shapes human life and how humans shape nature. Topics include ecological restoration, social movements, global warming, natural disasters, urban environments, inequality and environmental policy. Makes connections between local, national, and global processes. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15SOC415**The Media and Sociology**

An examination of the use of sociology and social science information by the media. Emphasis will be on the critical examination of how data, issues and research are presented. Implications for the public's understanding of social issues will be explored, particularly as it relates to information provided by different media outlets. Prereq: 15SOC141.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Sociology**15SOC415****The Media and Sociology**

BoK: SS. Credit Level: U. Credit Hrs: 3.00

15SOC418**Current Family Issues**

A detailed analysis of contemporary family life in the United States. Discuss definitions of what constitutes a family, analyze the impact of race, class and gender on family life, and examine research on family formation and dissolution, relationships. Prereq: 15SOC141. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00-4.00

15SOC420**Sociology of Law**

Analysis of law as a social institution and the process of legal development and change. Special emphasis will be given to the relationship between law and social organization, and the relation of sociocultural changes to substantive and procedural aspects of law. Credit Level: U. Credit Hrs: 3.00

15SOC444**Social Movements**

Analysis of contemporary social movements within a collective behavior framework. 443 is recommended, but not required. Prereq: 15SOC141. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15SOC448**Applied Sociology**

Designed to acquaint students with both the applied and clinical elements of sociological practice. Emphasis is on the use of sociological theory, concepts, methods, and findings in non-academic settings. The course involves an unpaid "field experience" learning component. Prereq: 15SOC141. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15SOC450**Criminology**

An examination of the extent and nature of criminal behavior, theories of criminal behavior, the types of problems with research in the area, and societal efforts to deal with criminal behavior. Prereq: 15SOC141. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15SOC452**Capstone I: Urban Inequality**

An advanced examination of racial and ethnic inequality in urban housing and labor markets. The first course in a two-course sequence. Prereq: SOC318, SOC321. Coreq: SOC319, SOC322 Prereq: 15SOC318, 15SOC321. Coreq: 15SOC319, 15SOC322. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15SOC453**Capstone II: Urban Inequality**

An advanced examination, including individual empirical research projects, of racial and ethnic inequality in urban housing and labor markets. The second course in a two-course sequence. Prereq: SOC319, SOC 322, SOC452 Prereq: 15SOC319, 15SOC322, 15SOC452. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15SOC462**Capstone I: Gender, Work, and Family**

An advanced examination of change affecting family life, the organization of the workplace, and the relationship between these two societal institutions. The first course in a two-course sequence. Prereq: SOC318, SOC321. Coreq: SOC319, SOC322 Prereq: 15SOC318, 15SOC321. Coreq: 15SOC319, 15SOC322. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15SOC463**Capstone II: Gender, Work, and Family**

An advanced examination, including individual empirical research

Sociology**15SOC463****Capstone II: Gender, Work, and Family**

projects of change affecting family life, the organization of the workplace, and the relationship between these two societal institutions. The second course in a two-course sequence. Prereq: SOC318-319, SOC321-322, SOC462. Prereq: 15SOC319, 15SOC322, 15SOC462. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15SOC472**Capstone I: War & Society**

An advanced examination of the many ways war, civil or otherwise, affects the development of society--both historically and contemporarily. The first course in a two-course sequence. Prereq: SOC318, SOC321. Coreq: SOC 319, SOC 322 Prereq: 15SOC318, 15SOC321. Coreq: 15SOC319, 15SOC322. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15SOC473**Capstone II: War & Society**

An advanced examination, including individual empirical research projects, of the causes of contemporary wars and their effects on life chances. The second course in a two-course sequence. Prereq: SOC319, SOC322, SOC472 Prereq: 15SOC319, 15SOC322, 15SOC472. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15SOC475**War and Society**

This course examines the relationship of contemporary war to society, both generally and in its effects on individuals. Prereq: 15SOC141. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15SOC484**Social Inequality**

The causes and consequences of social inequality, especially class inequality in modern societies. Prereq: 15SOC141. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

15SOC490**Sociology of Health and Illness**

Examines classical and critical theories of health, illness and empirical research. Preventative approaches to health care are contrasted with disease oriented approaches on the basis of social economic and demographic factors, health care providers, patients and health care systems. Prereq: 15SOC141. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15SOC501**Social Psychology**

The study of social interaction; theoretical perspectives in social psychology, group dynamics, conformity and deviance, leadership, intergroup conflict, gender roles, social factors in health. Prereq: 15SOC141. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15SOC502**Social Psychology**

The study of social interaction; interpersonal attraction, altruism and helping behavior, human aggression, social attitudes and attitude change, perceiving other persons, self-concept. Prereq: 15SOC141. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15SOC522**Professional Women**

Analysis of current and past status of women in management, professions and of various factors influencing movement of women into managerial, professional positions. Prereq: 15SOC141. BoK: SS, DC. Credit Level: U, G. Credit Hrs: 3.00

15SOC565**Internship in Sociology**

Supervised research or service learning in a community organization. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

15SOC566**Internship in Sociology**

Supervised research or service learning in a community organization. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Sociology**15SOC567****Internship in Sociology**

Supervised research or service learning in a community organization. Perm of Instructor. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-3.00

15SOC570**Political Sociology**

Sociological analysis of political organization and political behavior. Prereq: 15SOC141. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15SOC581**Individual Work in Sociology**

Guided individual research or study on a topic pre-arranged with a professor. Must have professor's permission to sign up. Available for undergraduate or graduate credit. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15SOC582**Individual Work in Sociology**

Guided individual research or study on a topic pre-arranged with a professor. Must have professor's permission to sign up. Available for undergraduate or graduate credit. The second offering in a three-part course sequence. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15SOC583**Individual Work in Sociology**

Guided individual research or study on a topic pre-arranged with a professor. Must have professor's permission to sign up. Available for undergraduate or graduate credit. The third offering in a three-part course sequence. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-15.00

15SOC586**El Salvador Study Tour**

An examination of inequality and social change in El Salvador. Assigned readings discussed in meetings during the quarter followed by one week in El Salvador. Perm of Instructor. BoK: DC. Credit Level: U, G. Credit Hrs: 3.00-4.00

15SOC591**Taft Undergraduate Research 1**

Faculty-mentored independent study dedicated to completion of an independent research product as specified by the Dept. of Sociology's guidelines for the Taft Undergraduate Senior Research Fellowship. Available only to Dept. of Sociology Taft Undergraduate Senior Research Fellows. First of a two-quarter sequence. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15SOC592**Taft Undergraduate Research 2**

Faculty-mentored independent study dedicated to the completion of an independent research product as specified by the Dept. of Sociology's guidelines for the Taft Undergraduate Senior Research Fellowship. Available only to Dept. of Sociology Taft Undergraduate Senior Research Fellows. The second quarter of a two-quarter sequence. Prereq: 15SOC591. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15SOC607**Complex Organizations**

Theory, research studies, and applications in complex organizations. A fundamental survey course for advanced undergraduate and graduate students. Prereq: 15SOC141. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15SOC608**Complex Organizations II**

Theory and research on internal dynamics of organizations in relation to structure. Topics include opportunity structure; power, and authority; effects of tokenism; and the employment of professionals in organizations. Prereq: 15SOC141. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15SOC641**Introduction to Population Studies**

Examines the basic concepts and principles of demography, the study

Sociology**15SOC641****Introduction to Population Studies**

of populations. Concepts and principles are applied to the United States' and the world's populations, with an emphasis on understanding population issues. (Formerly titled "Demography".) Prereq: 15SOC319, 15SOC322. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15SOC642**Demographic Techniques**

Examines the logic and calculations of basic demographic techniques, e.g., life tables, survival rates, and stable populations. Emphasis is on an intuitive understanding of the procedures and where they may be usefully applied. (Formerly titled "Demography" with a prerequisite of SOC641.) Prereq: 15SOC141. BoK: SS. Credit Level: U, G. Credit Hrs: 3.00

15SOC705**Intermediate Social Statistics**

Types and uses of statistical techniques in sociological research. Credit Level: G. Credit Hrs: 4.00

15SOC706**Intermediate Social Statistics**

Types and uses of statistical techniques in sociological research. Prereq: 15SOC705. Credit Level: G. Credit Hrs: 4.00

15SOC711**Theory Construction**

Principles of philosophy of science, research design, data collection and analysis. Credit Level: G. Credit Hrs: 4.00

15SOC712**Design and Techniques**

Principles of philosophy of science, research design, data collection and analysis. The second offering in a two-part course sequence. Credit Level: G. Credit Hrs: 4.00

15SOC713**Measurement**

Theories, issues in measurement in research. See 15-SOC-711. Credit Level: G. Credit Hrs: 4.00

15SOC714**Graduate Research II**

Seminar devoted to preparation of Master's thesis. Credit Level: G. Credit Hrs: 1.00-4.00

15SOC715**Graduate Research II**

Seminar devoted to preparation of Master's thesis. The second offering in a three-part course sequence. Prereq: 15SOC714. Credit Level: G. Credit Hrs: 1.00-4.00

15SOC716**Graduate Research II**

Seminar devoted to preparation of Master's thesis. The third offering in a three-part course sequence. Prereq: 15SOC715. Credit Level: G. Credit Hrs: 1.00-4.00

15SOC726**Youth and Society**

An analysis of the status of youth and adolescents in society; particular emphasis is placed on the ambiguity of the role of adolescents/youth in modern society. Credit Level: G. Credit Hrs: 4.00

15SOC731**Individual Work in Sociology**

Guided individual research or study on a topic pre-arranged with a professor. Must have professor's permission to sign up. Master's or PhD students. Credit Level: G. Credit Hrs: 1.00-15.00

15SOC732**Individual Work in Sociology**

Guided individual research or study on a topic pre-arranged with a professor. Must have professor's permission to sign up. Master's or

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Sociology**15SOC732****Individual Work in Sociology**

PhD students. The second offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00-15.00

15SOC733**Individual Work in Sociology**

Guided individual research or study on a topic pre-arranged with a professor. Must have professor's permission to sign up. Master's or PhD students. The third offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00-15.00

15SOC748**Seminar in Social Stratification**

The study of systems of inequality in society. Major theories and current research about social class and social stratification. Credit Level: G. Credit Hrs: 4.00

15SOC749**Seminar in Social Stratification II**

Analysis of dimensions of stratification and social inequality, status attainment, and social mobility. Prereq: 15SOC748. Credit Level: G. Credit Hrs: 4.00

15SOC755**Political Culture & Ideology**

An examination of how culture reinforces or challenges political arrangements. Special focus on core ideas such as ideology, hegemony, and symbolic power. Credit Level: G. Credit Hrs: 4.00

15SOC760**Work and Occupations Seminar**

Research and theory in work and the American occupational structure; new empirical and theoretical developments in the field are studied. Credit Level: G. Credit Hrs: 4.00

15SOC771**Family Theory and Research**

Current research and theory in family studies are explored in seminar format. Credit Level: G. Credit Hrs: 4.00

15SOC784**Social Movements**

Analysis of contemporary social movements within a collective behavior framework. Credit Level: G. Credit Hrs: 4.00

15SOC788**Seminar: Urban Structure and Change**

This seminar covers theories of and empirical research on the structure and growth of American cities. Credit Level: G. Credit Hrs: 4.00

15SOC790**Seminar: Sociology of Health and Illness**

Sociological aspects of health and illness are examined using classical and critical theories, empirical research, examination of demographic factors in health, illness; health care providers; patients; social forces affecting the health care system. Credit Level: G. Credit Hrs: 4.00

15SOC794**Seminar in Urban Inequality**

Explores racial and ethnic inequality in urban housing and labor markets in a seminar format. Credit Level: G. Credit Hrs: 4.00

15SOC806**Teaching Sociology**

Seminar on strategies for teaching sociology; conceptualizing and organizing course content; presentation strategies; examinations and evaluation. Credit Level: G. Credit Hrs: 4.00

15SOC807**Teaching Practicum Seminar**

Problems and methods in the teaching of sociology. Required of teaching fellows and assistants in the dept. Credit Level: G. Credit Hrs: 1.00-4.00

Sociology**15SOC808****Teaching Practicum Seminar**

Problems and methods in the teaching of sociology. Required of teaching fellows and assistants in the dept. The second offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00-4.00

15SOC809**Teaching Practicum Seminar**

Problems and methods in the teaching of sociology. Required of teaching fellows and assistants in the dept. The third offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00-4.00

15SOC810**Seminar in Gender**

Research and theory in significance of gender in social behavior research and stratification research. Credit Level: G. Credit Hrs: 4.00

15SOC811**Seminar on Race**

Research and theory dealing with race/ethnicity as a status category; examination of conceptual measurement issues; variable effects on social outcomes and implications for social policy. Credit Level: G. Credit Hrs: 4.00

15SOC812**Seminar in Complex Organizations**

Research on issues relevant to understanding of complex organizations; includes student research focusing on an organizational issue. Credit Level: G. Credit Hrs: 4.00

15SOC817**Sociology of Science**

A survey of the major theories and empirical studies in the sociology of science. Topics include relationships between knowledge and power, social movements and science, reward systems in science, genetic and environmental issues, technology and social change, and science policy. Credit Level: G. Credit Hrs: 4.00

15SOC821**Seminar in Human Fertility**

Theory and research on the social influences shaping childbearing behavior. Prereq: 15SOC642. Credit Level: G. Credit Hrs: 4.00

15SOC822**Seminar in Migration**

Systematic reviews of theories, research strategies, and findings on the social influences shaping human migration. Prereq: 15SOC642. Credit Level: G. Credit Hrs: 4.00

15SOC825**Family Policy**

This course examines contemporary perspectives on the changing American family, paying explicit attention to the relationship between public policy and trends in family life and family well being. Credit Level: G. Credit Hrs: 4.00

15SOC831**Advanced Individual Work in Sociology**

Guided individual research or study on a topic pre-arranged with a professor. Must have professor's permission to sign up. Master's or PhD students. Credit Level: G. Credit Hrs: 1.00-15.00

15SOC832**Advanced Individual Work in Sociology**

Selected problems. Cr. Arranged. The second offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00-15.00

15SOC833**Advanced Individual Work in Sociology**

Selected problems. Cr. arranged. The third offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00-15.00

15SOC835**Seminar: Relationships within Families**

Examines theoretical and research issues in understanding family

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Sociology**15SOC835****Seminar: Relationships within Families**

relationships over time, including decision making, effects of the addition of children, divorce, death. Prereq: 15SOC771. Credit Level: G. Credit Hrs: 4.00

15SOC840**Qualitative Research Methods**

Qualitative methods of social research for MA and PhD students; research strategies will be reviewed, students will use the methodology for their own research. Credit Level: G. Credit Hrs: 4.00

15SOC843**Workplace Studies: Ethnomethodological Approaches**

Covers recent qualitative ethnomethodological research on the social organization of work and technology in workplace settings. Credit Level: G. Credit Hrs: 4.00

15SOC845**Seminar in Social Change**

Research seminar focusing on large-scale societal change and its attendant characteristics including urbanization, population changes, and environmental costs. Credit Level: G. Credit Hrs: 4.00

15SOC865**Sociology of Sports**

An analysis of the relationship between sports, culture, and societal institutions. Credit Level: G. Credit Hrs: 4.00

15SOC875**Sociological Theory**

A comparative survey of basic concepts and theories in sociology; the codification of analytic schemes; a critical analysis of trends in theory construction. Credit Level: G. Credit Hrs: 4.00

15SOC876**Sociological Theory**

A comparative survey of basic concepts and theories in sociology; the codification of analytic schemes; a critical analysis of trends in theory construction. The second offering in a two-part course sequence. Credit Level: G. Credit Hrs: 4.00

15SOC884**Research Practicum Seminar**

Problems and methods in sociological research. Required of students working toward the PhD degree. Credit Level: G. Credit Hrs: 1.00-4.00

15SOC885**Research Practicum Seminar**

Problems and methods in sociological research. Required of students working toward the PhD degree. The second offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00-4.00

15SOC886**Research Practicum Seminar**

Problems and methods in sociological research. Required of students working toward the PhD degree. The third offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00-4.00

15SOC910**Seminar: Structural Relations Models**

The use of structural modeling for analysis of social phenomena; multivariate regression techniques. Credit Level: G. Credit Hrs: 4.00

15SOC934**Symbolic Interaction Theory**

Interrelations between society and individual behavior from an interactionist perspective. Prereq: 15SOC744. Credit Level: G. Credit Hrs: 4.00

15SOC937**Doctoral Dissertation Research**

Supervised dissertation research pre-arranged with permission of professor. PhD students. Credit Level: G. Credit Hrs: 1.00-15.00

Sociology**15SOC938****Doctoral Dissertation Research**

Cr. arranged. The second offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00-15.00

15SOC939**Doctoral Dissertation Research**

Cr. arranged. The third offering in a three-part course sequence. Credit Level: G. Credit Hrs: 1.00-15.00

Spanish**15SPAN100****Conversational Spanish for Special Purposes**

A basic conversational Spanish course for specialized fields that require speaking skills with a focused vocabulary. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15SPAN101**Basic Spanish I**

Basic Spanish language and culture. First quarter in the 3-quarter sequence that fulfills the A&S language requirement. BoK: DC., HU. Credit Level: U. Credit Hrs: 5.00

15SPAN102**Basic Spanish II**

Basic Spanish language and culture. Second quarter in the 3-quarter sequence that fulfills the A&S language requirement. Prereq: 15SPAN101. BoK: DC, HU. Credit Level: U. Credit Hrs: 5.00

15SPAN102H**Basic Spanish II Honors**

Honors section of Basic Spanish Prereq: 15SPAN101. BoK: HU, DC. Credit Level: U. Credit Hrs: 5.00

15SPAN103**Basic Spanish III**

Basic Spanish language and culture. Third quarter in the 3-quarter sequence that fulfills the A&S language requirement. Prereq: 15SPAN102. BoK: DC, HU. Credit Level: U. Credit Hrs: 5.00

15SPAN103H**Basic Spanish III Honors**

Honors section of Basic Spanish Prereq: 15SPAN102. BoK: DC, HU. Credit Level: U. Credit Hrs: 5.00

15SPAN111**Extended Basic Spanish 1**

Basic Spanish language and culture. First quarter in the extended 6-quarter sequence that fulfills the A&S language requirement. BoK: DC., HU. Credit Level: U. Credit Hrs: 3.00

15SPAN112**Extended Basic Spanish 2**

Basic Spanish language and culture. Second quarter in the extended 6-quarter sequence that fulfills the A&S language requirement. Prereq: 15SPAN111. BoK: DC, HU. Credit Level: U. Credit Hrs: 3.00

15SPAN113**Extended Basic Spanish 3**

Basic Spanish language and culture. Third quarter in the extended 6-quarter sequence and fulfills the A&S language requirement. Prereq: 15SPAN112. BoK: DC, HU. Credit Level: U. Credit Hrs: 3.00

15SPAN114**Extended Basic Spanish 4**

Basic Spanish language and culture. Fourth quarter in the extended 6-quarter sequence that fulfills the A&S language requirement. Prereq: 15SPAN113. BoK: DC, HU. Credit Level: U. Credit Hrs: 3.00

15SPAN115**Extended Basic Spanish 5**

Basic Spanish language and culture. Fifth quarter in the extended 6-quarter sequence that fulfills the A&S language requirement. Prereq: 15SPAN114. BoK: DC, HU. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Spanish**15SPAN116****Extended Basic Spanish 6**

Basic Spanish language and culture. Sixth quarter in the extended 6-quarter sequence that fulfills the A&S language requirement. Prereq: 15SPAN115. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15SPAN161**Intensive Spanish for International Co-op Program**

Intensive immersion course in Spanish for students with little or no experience in Spanish. Focus on functioning in Spanish in the target culture for students preparing for international co-op assignments. Other students may be admitted with permission of the instructor and the ICP director. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15SPAN180**World Cultures - Hispanic**

General education course on issues of the Spanish speaking world. Taught in English. Satisfies content area requirement in American Diversity/ World Cultures. Does not count toward major or minor in Spanish. The first part in a two-part series. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15SPAN181**Mexican Culture**

General education course on Mexican Culture. Taught in English. Satisfies content area requirement in American Diversity/World Cultures. Does not count toward major or minor Spanish. The second part in a two-part series. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15SPAN182**U S Latino Culture**

An introduction to the rapidly changing and growing arts and literature of the several Hispanic cultures of the U.S. including the Cuban, Caribbean and Mexican diaspora. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15SPAN250**Valentine House Conversational Spanish**

Conversational Spanish for Valentine House residents. BoK: DC. Credit Level: U. Credit Hrs: 1.00

15SPAN251**Composition and Conversation**

Course taught in Spanish. Grammar review. Writing and speaking practice. The sequence is a prereq. to courses at 300 level. Prereq: 15SPAN106. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15SPAN252**Composition and Conversation**

Course taught in Spanish. Grammar review. Writing and speaking practice. The sequence is a prereq. to courses at 300 level. The second offering in a three-part course sequence. Prereq.: Spanish 104-5-6 or Intermediate Spanish or appropriate Spanish Placement Test score. Prereq: 15SPAN251. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15SPAN253**Composition and Conversation**

Course taught in Spanish. Grammar review. Writing and speaking practice. The sequence is a prereq. to courses at 300 level. The third offering in a three-part course sequence. Prereq.: Spanish 104-5-6 or Intermediate Spanish or appropriate Spanish Placement Test score. Prereq: 15SPAN252. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15SPAN260**Mexican Civilization through Its Art**

A combination of Mexican history and art through the analysis of paintings by two of its most famous artists: Diego Rivera and Frida Kahlo. Taught in English. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15SPAN261**Seeing It Our/Their Way and Readings in Chicano-U**

Latino Literature. General education course on Chicano-U.S. Latino

Spanish**15SPAN261****Seeing It Our/Their Way and Readings in Chicano-U**

literature and the bicultural, bilingual culture for which it speaks. Emphasis on literature and cultural studies. BoK: LT., DC. Credit Level: U. Credit Hrs: 3.00

15SPAN300**Grammar and composition**

Intermediate/advanced course in Spanish grammar and composition. Prereq: 15SPAN253. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15SPAN301**Speaking in Spanish about Hispanic Culture**

Emphasizes grammar & conversation, as well as Spanish syntax and for the development of students' speaking proficiency. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15SPAN302**Reading Spanish Texts**

Introduction to literary analysis and reading of texts in Spanish. Provides students with the necessary tools to read a text closely and the skills to develop a critical understanding of major trends and styles in literary production and movements. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15SPAN303**Spanish Linguistics**

An introduction to the structures of the international Spanish language, its grammar, morphology and phonology BoK: DC. Credit Level: U. Credit Hrs: 3.00

15SPAN305**Business Spanish**

Composition, conversation, business correspondence, written translation from and into Spanish. Prereq: 15SPAN253. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

15SPAN306**Business Spanish**

Composition, conversation, business correspondence, written translation from and into Spanish. The second offering in a three-part course sequence. Prereq.: Sp.253 or perm. of instr. Prereq: 15SPAN305. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

15SPAN307**Business Spanish**

Composition, conversation, business correspondence, written translation from and into Spanish. The final offering in a three-part course sequence. Prereq: Sp. 253 or perm. of instr. Prereq: 15SPAN306. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

15SPAN308**Introducción a la Economía**

Esta materia es el primer trimestre del curso. "Principios de Economía" y es completamente equivalente a las secciones dictadas en inglés. This course is cross-listed with 15ECON101 which is the English equivalent. Prereq: 15SPAN253. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15SPAN310**Introducción a las Tres Culturas**

This course compares the three more important distinct cultures, (Spanish, Indian, and Latin American) that intersect in Latin America to create the contemporary culture. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15SPAN311**Latin America Today**

An introduction to the contemporary culture of Latin America. Taught in Spanish Prereq: 15SPAN253. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Spanish**15SPAN312****Spain Today**

A virtual visit to today's Spain using internet resources in an electronic classroom. Topics: Politics, Society, Economy, Culture, and Foreign Policy. Taught in Spanish. Prereq: 15SPAN253. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15SPAN313**Hispanic Culture in the U S**

An introduction to the culture of Hispanics living in the United States. Taught in Spanish. Prereq: 15SPAN300. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15SPAN314**Spanish Film**

Introduces cinematic works of Spanish film artist using an interdisciplinary and cross-cultural approach emphasizing socio-economic and political issues such as popular culture in nation formation, construction of gender, sexuality and immigration. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15SPAN315**Latin American Film**

Introduces some of the cinematic works of Latin American film artists using an interdisciplinary and cross-cultural approach emphasizing socio-economic and political issues, such as popular culture in nation formation, construction of gender & sexuality & immigration. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15SPAN316**Latino Film in the U S**

An introduction to the Latino films written and produced in the United States from the last two decades of the 20th Century to the present. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15SPAN320**Spanish Civilization I**

Survey of the civilization of Spain, especially literary culture, from Latin antiquity through the early modern period. Taught in Spanish. BoK: HP., DC. Credit Level: U. Credit Hrs: 3.00

History, myth, legends -- all of them intertwined in a cultural and civilization context will be studied. The course will travel through three fundamental periods: Pre-Columbian, Discovery/Conquest, and Colonial. Reading materials will include historical approaches, as well as Indian texts (Popol Vuh), Spanish chronicles (Diaz del Castillo), and Baroque literature (Sor Juana Ines de la Cruz). Credit Level: G. Credit Hrs: 4.00

15SPAN743**Latin America Civilization and Culture II**

This course deals with the cultural elements that created Latin America, blending the Indian, Black, and white cultures in a diverse mixed continent. History, myth, legends -- all of them intertwined in a cultural and civilization context will be studied. The course will travel through three fundamental periods: Pre-Columbian, Discover/Conquest, and Colonial. Reading materials will include historical approaches, as well as Indian texts (Popol Vuh), Spanish chronicles (Diaz del Castillo), and Baroque literature (Sor Juana Ines de la Cruz). Credit Level: G. Credit Hrs: 4.00

15SPAN744**US Latino Literature**

An introduction to the literature of Latino writers in the U.S. Credit Level: G. Credit Hrs: 4.00

15SPAN745**Mexican Literature**

An introduction to Mexican literature from pre-Colombian to modern times with special emphasis on the 20th century. Credit Level: G. Credit Hrs: 4.00

15SPAN746**Chicano Literature**

An historical and theoretical overview of Chicano literature and its place in American literature Credit Level: G. Credit Hrs: 4.00

15SPAN748**Contemporary Spanish Literature**

Description not available. Credit Level: G. Credit Hrs: 4.00

15SPAN749**Latin American Modernism**

Latin American literary movement that revolutionized the entire Spanish literature at the end of the 19th century and beginning of the 20th century. This is a panoramic course, an overview of several poets and writers. Credit Level: G. Credit Hrs: 4.00

15SPAN750**Modernity & Postmodernity**

The reformulation and continuation of modernity in contemporary Spanish literature. Credit Level: G. Credit Hrs: 4.00

Spanish**15SPAN752****Medieval Literature and Reader-Response Criticism (formerly Med**

Study of principal works of the medieval period in light of major theories in the area of reader-response criticism. Lit I). Credit Level: G. Credit Hrs: 4.00

15SPAN753**Medieval Literature and Feminist Criticism (formerly Med**

An application of feminist critical approaches to major works of prose and poetry of medieval period. Lit. II). Credit Level: G. Credit Hrs: 4.00

15SPAN754**Medieval Readings**

Survey of major works of Medieval Spanish Literature Credit Level: G. Credit Hrs: 4.00

15SPAN755**Spanish Historical Past Through Narration**

Representative texts from the 1930's onwards that will address key historical moments in Spanish history of the 20th century. Credit Level: G. Credit Hrs: 4.00

15SPAN756**The Search for Meaning: Spanish Contemporary Theater**

The main tendencies in Spanish theater production of the 20th century, its connections with different European movements, and its commentary on the social settings in which they take place. Credit Level: G. Credit Hrs: 4.00

15SPAN757**Wit and Humor in Early Modern Spanish Literature**

The kinds, uses of, and implications of, wit, humor, and the burlesque in early modern Spain. Credit Level: G. Credit Hrs: 4.00

15SPAN760**Latin American Short Story**

An introduction to the short narrative fiction of Latin America. Credit Level: G. Credit Hrs: 4.00

15SPAN761**Latin American Cinema I**

First in a 2-part sequence introducing Latin American Cinema. Credit Level: G. Credit Hrs: 4.00

15SPAN762**Latin American Cinema II**

Second in a 2 part sequence introducing Latin American cinema. Credit Level: G. Credit Hrs: 4.00

15SPAN763**Latin American Essay**

Seminar in Latin American Essay. Credit Level: G. Credit Hrs: 4.00

15SPAN764**Post Modernism in Latin American Narrative**

Modernism and post modernism theories. Credit Level: G. Credit Hrs: 4.00

15SPAN765**Latin American 19th Century Novel**

Description not available. Credit Level: G. Credit Hrs: 4.00

15SPAN766**19th Century Latin American Literature**

4 gr. cr. Credit Level: G. Credit Hrs: 4.00

15SPAN767**20th Century Hispanic Caribbean Literature**

Overview of variety of articulations of cultural specificity in 20th century Hispanic Caribbean Literature. Study of the relationship between literary discourse and the formulation of models of identity, be it as the source thereof, its illustration or even its disruptive contradiction. Credit Level: G. Credit Hrs: 4.00

Spanish

15SPAN768

One Hundred Years of Solitude

An in-depth reading and analysis of Gabriel Garcia Marquez's novel from cultural historical and textual/narratological approaches. Given in Spanish. Credit Level: G. Credit Hrs: 4.00

15SPAN777

Poesia Contemporánea Española

The course provides a survey of poetry in Spain in the last two decades of the twentieth century, with special attention to poetry written by women and to new poetic movements. Credit Level: G. Credit Hrs: 4.00

15SPAN783

Special Topics in Spanish Literature

A special seminar devoted to a particular issue germane to Spanish literature. Topics may vary. May be repeated for a total of 12 credits. Credit Level: G. Credit Hrs: 4.00

15SPAN784

Special Topics in Latin American Literature

A special seminar devoted to a particular issue germane to Latin American Literature. Topics will vary. May be repeated for a total of 12.0 credits. Credit Level: G. Credit Hrs: 4.00

15SPAN790

Latin American Theater

Description not available. Credit Level: G. Credit Hrs: 4.00

15SPAN792

Contemporary Spanish Theatre (1950-1995)

Consideration of discursive and ideological trends in representative plays of the period. Credit Level: G. Credit Hrs: 4.00

15SPAN794

20th Century Spanish Poetry

4 gr. cr. Credit Level: G. Credit Hrs: 4.00

15SPAN795

18th Century Spanish Literature

A survey of 18th century literature. Credit Level: G. Credit Hrs: 4.00

15SPAN797

19th Century Spanish Novel

n Credit Level: G. Credit Hrs: 4.00

15SPAN800

Translation Workshop

A translation workshop devoted to translating one text or the work of one author from Spanish into English Perm of Instructor. Credit Level: G. Credit Hrs: 4.00

15SPAN801

Contemporary Latin American Women Novelists

Textual strategies and the development of feminine discourse in the works of selected contemporary Latin American women writers. Readings include works by Maria Luisa Bombal, Griselda Gambaro, Rosario Castellanos, Elena Poniatowska, Isabel Allende and selected others. Credit Level: G. Credit Hrs: 4.00

15SPAN802

Latin American Women Playwrights

Readings of representative performance texts written by Latin American Women during the last twenty years. Credit Level: G. Credit Hrs: 4.00

15SPAN803

Chicana Literature

The rising importance of groups of Latin American descent in the United States is matched by an equally important boom in the literary/artistic accomplishments of these groups. This course will look at their work in poetry, prose, and theater. Credit Level: G. Credit Hrs: 4.00

15SPAN804

Central American Literature

This course will cover the literature of Central America with emphasis

Spanish

15SPAN804

Central American Literature

on the major works, genres, and periods. The students will gain full understanding of the historical conditions of cultural production, the relationship between political situations and literary works, as well as the theoretical implications of the works studied. Credit Level: G. Credit Hrs: 4.00

15SPAN812

Spanish Romanticism

A study of the major Spanish romantics with principal attention to poetry and theater. Credit Level: G. Credit Hrs: 4.00

15SPAN813

Bakhtin and Latin American Novel

Bakhtin theories of novel and its application to Latin American novel and recent L.A. criticism. Credit Level: G. Credit Hrs: 4.00

15SPAN814

Deconstruction in Latin American Narrative

An approach to deconstructive theories as they apply to LA novels and short stories: LA narrative is deconstruction themselves and their significance in the development of LA literature. Credit Level: G. Credit Hrs: 4.00

15SPAN815

Lacan and Latin American Narrative

An analysis in depth of selected masterpieces in Latin American narrative using psychoanalytic Lacanian as a theoretical frame. Credit Level: G. Credit Hrs: 4.00

15SPAN816

Irony, Parody and Playfulness in Latin American Literature and Cinema

Analysis of the concepts of parody, irony and play as a theoretical point of departure to study contemporary Hispanic literature and film. Credit Level: G. Credit Hrs: 4.00

15SPAN820

Quevedo

Description not available. Credit Level: G. Credit Hrs: 4.00

15SPAN821

Quevedo or the Anxiety of Influence I

First part of a two term course thought to give an account of Quevedo's interaction with both the literary field and the field of power in XVIIth century Spain. Credit Level: G. Credit Hrs: 4.00

15SPAN822

Quevedo or the Anxiety of Influence

Second part of a two term course thought to give an account of Quevedo's interaction with both the literary field and the field of power in XVIIth century Spain. Credit Level: G. Credit Hrs: 4.00

15SPAN823

Borges

Seminar on Jorge Luis Borges' poetry from his first period as an "Ultraist" poet to his last books. This course is complemented with a parallel analysis of his essays on the themes of poetry in general. Credit Level: G. Credit Hrs: 4.00

15SPAN824

Gongora's Soledades

Studies the most difficult poetry ever written in Spanish, "Soledades" by Luis de Gongora (1561-1627). Gongora's poetry presents a triple challenge to the reader with its syntax, neologisms and highly conceptualized metaphors and images. Credit Level: G. Credit Hrs: 4.00

15SPAN825

The Works of Federico Garcia Lorca

Reading and discussion of Garcia Lorca's main works, both poetry & theatre. Reading of bibliography relevant to the subject Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Spanish**15SPAN830****Humor in Medieval Spanish Literature**

Explores the medieval concepts of humor, parody and satire and how these differ from contemporary notions about the comic. 3-4 major works will be studied in depth as examples of these concepts. Credit Level: G. Credit Hrs: 4.00

15SPAN850**The Fantastic in Latin American Narrative**

A study of the fantastic element and its importance in the development of Spanish American narrative. Theoretical framework from Propp, Todorov, Bakhtin, Jackson, and Bessiere. Readings by Lugones, Dario, Quiroga, Bioy Caseres, Borges and Cortazar. Credit Level: G. Credit Hrs: 4.00

15SPAN854**Latin American Short Story I**

b Credit Level: G. Credit Hrs: 4.00

15SPAN855**Latin American Short Story II**

A continuation of LA Short Story I. It includes the most contemporary writers, Julio Cortazar, Juan Rulfo, Gabriel Garcia Marquez, Isabel Allende. Credit Level: G. Credit Hrs: 4.00

15SPAN856**Seminar: Topics in Latin American Literature**

Geared for the graduate student, the course will involve the development of sophisticated research papers on theoretical problems concerning contemporary Latin American literature. Prereq: 15SPAN713. Credit Level: G. Credit Hrs: 4.00

15SPAN857**Topics in Spanish Literature**

In-depth study of an author, literary period or theme in Spanish literature. Topics will change in relationship to students' needs and faculty research interests. Credit Level: G. Credit Hrs: 4.00

15SPAN858**Satire**

Study of the theory of satire with analysis of a variety of texts. Credit Level: G. Credit Hrs: 4.00

15SPAN859**Problems in 20th Century Spanish Poetry**

An approach to 20th century Spanish poetry from a variety of viewpoints and perspectives; the dynamics of poetic movements. Credit Level: G. Credit Hrs: 4.00

15SPAN860**Research Seminar: Hispanic Poetry & Politics**

An interdisciplinary seminar examining the inter- action of poetry and politics in Spain and Latin America. Repeatable 2 times up to 12 hrs. Credit Level: G. Credit Hrs: 4.00

15SPAN888**Seminar in Cortazar**

A study of the Argentinean writer Julio Cortazar. Perm of Instructor. Credit Level: G. Credit Hrs: 4.00

15SPAN890**Urban Space in Latin American Narrative**

A study of the representational urban space in Latin American Narrative from both cultural and textual approaches. Readings by Borges, Oretti, Sabato, Cortazar and others. Credit Level: G. Credit Hrs: 4.00

15SPAN891**Gender Issues in Early Modern Spain**

Shows how certain literary texts (novels and autobiographies) challenge gender, literary and social notions of the time, including cross-dressing and cross-gendering. This is a repeatable course that will focus on different periods during different quarters. Credit Level: G. Credit Hrs: 4.00

Spanish**15SPAN892****Gender and Desire in Latin American Literature and Cinema**

An analysis of Latin American Literature and cinema from the standpoint of current gender discourse theories and the diverse dynamics of desire and "jouissance." The approach will be both textual and cultural, including narrative texts and films from the last decades. Credit Level: G. Credit Hrs: 4.00-16.00

15SPAN893**Frontiers in Spanish Literature**

A seminar investigating frontiers, boundaries and margins in Spanish Literature. Credit Level: G. Credit Hrs: 4.00

15SPAN894**Frontiers in Latin American Literature**

A seminar investigating frontiers, boundaries and margins in Latin American literature. Credit Level: G. Credit Hrs: 4.00

15SPAN895**Poetics and Politics in Latin American Literature**

A seminar in the interaction, interference, and influence of poetics and politics in Latin American literature: period and genre will vary. Credit Level: G. Credit Hrs: 4.00-8.00

15SPAN896**Poetics and Politics in Spanish Literature**

A seminar in the interaction, interference and influence of poetics and politics in Spanish Literature: period and genre will vary. Credit Level: G. Credit Hrs: 4.00-8.00

15SPAN897**Reading Spanish for Graduate Students**

A sequence of three courses designed to prepare graduate students to read technical/professional materials in Spanish with reference to a dictionary. Credit Level: G. Credit Hrs: 4.00

15SPAN898**Reading Spanish for Graduate Students**

A sequence of three courses designed to prepare graduate students to read technical/professional materials in Spanish with reference to a dictionary. Prereq: 15SPAN897. Credit Level: G. Credit Hrs: 4.00

15SPAN899**Reading Spanish for Graduate Students**

A sequence of three courses designed to prepare graduate students to read technical/professional materials in Spanish with reference to a dictionary. Prereq: 15SPAN898. Credit Level: G. Credit Hrs: 4.00

15SPAN900**Graduate Teaching Internship in Spanish**

The Graduate Teaching Internship offers doctoral students an opportunity to teach Spanish majors in upper level courses under the careful direction of a faculty mentor. Credit Level: G. Credit Hrs: 4.00

15SPAN901**Graduate Teaching Internship in Spanish**

The Graduate Teaching Internship offers doctoral students an opportunity to teach Spanish majors in upper level courses under the careful supervision of a faculty mentor. Credit Level: G. Credit Hrs: 4.00

15SPAN902**Graduate Teaching Internship in Spanish**

The Graduate Teaching Internship offers doctoral students an opportunity to teach Spanish majors in upper level courses under the careful supervision of a faculty mentor. Credit Level: G. Credit Hrs: 4.00

15SPAN906**Independent Study**

Offered ea. qtr. Written approval of instr. and graduate adviser. Credit Level: G. Credit Hrs: 1.00-4.00

15SPAN907**Independent Study**

Offered each quarter. Written approval of instr. and graduate adviser. The second offering in a three-part course sequence. Credit Level: G.

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Spanish

15SPAN907

Independent Study

Credit Hrs: 1.00-4.00

15SPAN908

Independent Study

Offered each quarter. Written approval of instr. and graduate adviser.

The third offering in a three-part course sequence. Credit Level: G.

Credit Hrs: 1.00-4.00

15SPAN910

Seminar: Galdos

4 gr. cr. Credit Level: G. Credit Hrs: 4.00

15SPAN912

Feminist Theory and Spanish Literature

Application of feminist theory to Spanish literature Credit Level: G.

Credit Hrs: 4.00

15SPAN913

Spanish Women Dramatists of the 20th Century (1900-1970)

Major works by Maria Martinez Sierra, Pilar Millan Aseray, Julia Maura, and others. Credit Level: G. Credit Hrs: 4.00

15SPAN914

Contemporary Spanish Woman Dramatists

CONT SP WOM DRAMAT Credit Level: G. Credit Hrs: 4.00

15SPAN919

Professional Development

Topics studies include doctoral exams and the dissertation; scholarly publishing; job searching. For advanced graduate students. Credit Level: G. Credit Hrs: 4.00

15SPAN920

Virgin Mary in Medieval Literature

This course traces the importance of the Virgin Mary as a character in medieval texts, especially collections of Marian miracles such as the Contigas de Santa Maria of Alfonso X and the Milagros de Nuestra Senora of Berceo. Additional readings will focus on medieval theological debates concerning the Virgin and the social implications of her role as a figure of popular devotion. Credit Level: G. Credit Hrs: 4.00

15SPAN921

Themes in Contemporary Latin American Literature

An analysis of current literary theory and critical issues relating to contemporary Latin American literature. Credit Level: G. Credit Hrs: 4.00

15SPAN926

Individual Study Spain

IND STDY SPAIN Credit Level: G. Credit Hrs: 4.00

15SPAN927

Individual Study Spain

IND STDY SPAIN Credit Level: G. Credit Hrs: 4.00

15SPAN928

Individual Study Spain

IND STDY SPAIN Credit Level: G. Credit Hrs: 4.00

15SPAN930

Vallejo Buero and Sastre

A study of two contemporary Spanish playwrights. Credit Level: G. Credit Hrs: 4.00

15SPAN931

Seminar: Cortazar

An in depth study of Julio Cortazar major works - short stories, novels and essays. Credit Level: G. Credit Hrs: 4.00

Spanish

15SPAN932

Surrealist Movement in America Latina

This course will deal with the theoretic and practical principles of the Surrealist movement and its developing in Latin American poets analyzed included: Neruda, Paz, Molina, Moro, Rojas, Mutis, etc. Credit Level: G. Credit Hrs: 4.00

15SPAN933

Urban Spaces in Latin American Literature and Film

A class-contextual and theoretical examination of urban spaces in Latin American literature and films. Credit Level: G. Credit Hrs: 4.00

15SPAN935

Latin American Poetry

Description not available. Credit Level: G. Credit Hrs: 4.00

15SPAN936

Play and Playfulness

A study of the play element in 20th century Latin American narrative. In-depth analysis of the theories of game and play in literature as a point of departure. Credit Level: G. Credit Hrs: 4.00

15SPAN979

Cervantes' Don Quixote I

An intensive investigation of Cervantes' masterpiece Don Quixote. This is the first of a two quarter sequence. (Second quarter is existing 15span980). Credit Level: G. Credit Hrs: 4.00

15SPAN980

Seminar: Don Quixote

n Credit Level: G. Credit Hrs: 4.00

15SPAN981

Graduate Research

Cr. according to the amount of work elected. Offered ea. qtr. Credit Level: G. Credit Hrs: 1.00-18.00

15SPAN987

Master's Thesis Research

Cr. according to the amount of work elected. Credit Level: G. Credit Hrs: 1.00-15.00

15SPAN989

Dissertation Seminar

Students will pursue research for their chosen dissertation topics and then write prospectuses to be approved by their dissertation committee. Credit Level: G. Credit Hrs: 4.00

15SPAN990

Doctoral Dissertation Research

Cr. according to the amount of work elected. Credit Level: G. Credit Hrs: 1.00-18.00

Statistics

15STAT146

Statistics for the Health Sciences

Statistical models and inference applied to problems in the health sciences, with emphasis on the role that statistics plays in medical research. Primarily for students in the College of Nursing and Health. Score of 420+ on the Math Placement Test. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15STAT147

Elementary Probability and Statistics

UNDERSTANDING DATA: Distributions and graphs, summarizing data, normal distribution, scatterplots, categorical data, designing samples and experiments, probability. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15STAT147H

Honors Elementary Probability and Statistics I

Honors version of 15 Math 147. Understanding data: Distributions and graphs, summarizing data, normal distribution, scatterplots, catagorical data, designing samples and experiments, probability. BoK: QR. Credit

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Statistics**15STAT147H****Honors Elementary Probability and Statistics I**

Level: U. Credit Hrs: 3.00

15STAT148**Elementary Probability and Statistics**

PROBABILITY & INFERENCE: Sampling distributions, probability, sample proportions and means, binomial distribution, confidence intervals, inference for means, comparing two means. Prereq.: 15-Math-147 with at least C-. Prereq: 15MATH147. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15STAT148H**Honors Elementary Probability and Statistics II**

Honors version of 15 Math 148. Understanding inference: Sampling distributions, probability, sample portions and means, binomial distribution, confidence intervals, inference for means, comparing two means, inference for population spread. Prereq.: 15-Math-147 with at least C-. Prereq: 15MATH147. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15STAT149**Elementary Probability and Statistics**

TOPICS IN INFERENCE: Inference for proportions, two-sample inference, two-way tables and Chi Square, one-way analysis of variance (ANOVA), inference for regression. Prereq.: 15-Math-148 with at least C-. Prereq: 15MATH148. Transfer Module. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15STAT149H**Honors Elementary Probability and Statistics III**

Honors version of 15MATH149. Topics in inference: Inference for proportions, two-sample inference, two-way tables and Chi Square, one-way analysis of variance (ANOVA), inference for regression. Prereq.: 15-Math-148 with at least C-. Prereq: 15MATH148. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15STAT361**Probability and Statistics I**

Sample statistics. Probability, sample spaces, counting rules, conditional probability. Discrete and continuous random variables, their distributions and expected values. Binomial, Poisson, hypergeometric, normal, gamma distributions. Covariance, correlation. Sampling distributions of means and sums. Prereq.: 15-Math-253 with at least C-. Prereq: 15MATH253. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15STAT362**Probability and Statistics II**

Point estimation, confidence intervals for means, proportions, variances, and differences of means and proportions. Hypothesis testing. Simple linear regression, multiple linear regression. Model building. SAS software package may be used. Prereq.: 15-Math-361 with at least C-. Prereq: 15MATH361. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15STAT363**Probability and Statistics III**

Analysis of variance and experimental design. Categorical data analysis, chi-square tests, reliability and quality control. SAS software package may be used. Prereq.: 15-Math-362 with at least C-. Prereq: 15MATH362. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15STAT366**Engineering Statistics**

Descriptive statistics, probability, binomial, Poisson, and normal distributions. Confidence intervals, and hypothesis testing, regression analysis. Prereq.: 15-Math-253 with at least C-. Prereq: 15MATH253. BoK: QR. Credit Level: U. Credit Hrs: 3.00

15STAT521**Mathematical Statistics**

Random variables, probability distribution functions, mathematical expectation, Chebyshev's inequality, marginal and conditional

Statistics**15STAT521****Mathematical Statistics**

distributions, independence, binomial, Poisson, Gamma, and normal distribution. Prereq.: Math 264 and 361. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15STAT522**Mathematical Statistics**

Sampling distributions: transformation of variables, order statistics, moment generating functions, distribution of sample mean and sample variance, stochastic convergence, central limit theorem, maximum likelihood estimation, Bayesian - estimation, confidence intervals. Prereq: 15MATH521. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15STAT523**Mathematical Statistics**

Hypothesis testing, uniformly most powerful and likelihood ratio tests, sufficient statistics, Rao -Blackwell Theorem, exponential densities, Rao - Cramer inequality, sequential and chi-square tests. Prereq: 15MATH522. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15STAT531**Applied Statistical Inference**

Quick review of probability distributions. Inferences about population means and variance. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15STAT532**Applied Regression Analysis**

Correlation, multiple regression, one-way ANOVA, and multiple comparisons. Projects using SAS packages. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15STAT533**Analysis of Variance**

ANOVA for standard experimental designs and unbalanced designs, repeated measures, and analysis of covariance. Prereq: 15MATH532. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15STAT534**SAS Programming**

Various aspects of the SAS statistical package from a programming language perspective. Emphasis on SAS data steps, including the infile, input, merge, set, do-loop, if-then commands, writing macros, matrix computations using PROC IML and PROC INSIGHT. Concentration is on programming issues rather than statistical procedures. Prereq: 15MATH363, 15MATH532. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15STAT535**Applied Statistics Using S-Plus**

To obtain and enhance statistical analysis and programming skills using S-Plus. Various modern techniques in linear statistical modeling, writing statistical functions, and creating graphs. Prereq: 15MATH361, 15MATH362, 15MATH363, 15MATH531, 15MATH532. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15STAT571**Time Series**

Estimation and use of autocorrelation function (ACF) and partial autocorrelation function (PACF), linear stationary models, including autoregressive (AR), moving average (MA), and ARIMA models; model identification, estimation, and forecasting; spectrum and periodogram of stationary processes. Techniques illustrating computer software on real time series data. Prereq: 15MATH362, 15MATH522. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15STAT572**Reliability-Survival Analysis**

Applied life data analysis, including reliability analysis (engineering) and survival analysis (medical and actuarial.) Survival and hazard functions, life table, product limits estimates, exponential, Weibull and other parametric models. Censored data, co-variate models, maximum likelihood methods. Examples given and analyzed using PROC LIFETEST, LIFEREG, PHGLM, etc in SAS. BoK: QR. Credit Level: U, G. Credit

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Statistics**15STAT572****Reliability-Survival Analysis**

Hrs: 3.00

15STAT573**Applied Bayesian Analysis**

Basic principles behind Bayesian inference and the concepts of prior and posterior distributions. Bayesian approach to statistical inference (estimation and test of hypotheses.) Differences and similarities between Bayesian and classical (frequentist) approaches featuring selected topics and examples requiring approximate or computer based numerical calculations of Bayesian answers. Prereq: 15MATH522. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15STAT574**Nonparametric Statistics**

One- and two-sample location problems, Wilcoxon statistics, rank tests, one- and two-way layout, tests for independence, linear rank statistics, Kolmogorov test. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15STAT575**Robust Statistics**

Methods of data analysis that are used when a sample is not assumed to have come from a normal distribution. Classical methods of inference and estimation; theoretical, applied, and computational aspects of robustness; Monte Carlo adaptive estimation, jackknifing, and bootstrapping. Prereq: 15MATH362. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15STAT576**Topics in Applied Statistics**

Selected topics in applied statistics, depending on the area of specialty of the instructor. BoK: QR. Credit Level: U, G. Credit Hrs: 3.00

15STAT613**Linear Models and Multivariate Analysis**

Review of matrix algebra, multivariate normal distribution; linear models including multiple regression, analysis of variance, analysis of covariance and repeated measurements. Selected topics from experimental design and multivariate analysis. Prereq: 15MATH351, 15MATH362. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15STAT614**Linear Models and Multivariate Analysis**

Multivariate normal distribution. General linear models. Analysis of experiments. The second offering in a three-part course sequence. Prereq.: Math. 352 or equiv.; 362 or 523 or 708. Prereq: 15MATH613. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15STAT615**Linear Models and Multivariate Analysis**

Multivariate normal distribution. General linear models. Analysis of experiments. The third part in a three-part course sequence. Prereq.: Math 352 or equiv.; 362 or 523 or 708. Prereq: 15MATH614. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15STAT631**Advanced Theory of Statistics I**

Review of probability theory; distribution theory, sufficient statistics, maximum likelihood estimators, large sample theory, confidence intervals and testing. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15STAT632**Advanced Theory of Statistics II**

Elements of decision theory, unbiased estimation, Bayesian analysis, minimax estimators, invariant estimator, Bayes and minimax tests, likelihood ratio tests. Prereq: 15MATH631. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

15STAT633**Advanced Theory of Statistics III**

Uniformly most powerful tests, general linear hypotheses, multiple decision problems, sequential analysis, density estimation, empirical processes. Prereq: 15MATH632. BoK: NA. Credit Level: U, G. Credit

Statistics**15STAT633****Advanced Theory of Statistics III**

Hrs: 4.00

15STAT720**Statistical Consulting**

Working on projects in teams of two, students will interact with researchers to learn statistical techniques and develop consulting and presentation skills. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

15STAT721**Statistical Consulting**

Working on projects in teams of two, students will interact with researchers to learn statistical techniques and develop consulting and presentation skills. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

15STAT722**Statistical Consulting**

Working on projects in teams of two, students will interact with researchers to learn statistical techniques and develop consulting and presentation skills. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

15STAT723**Statistical Consulting**

Working on projects in teams of two, students will interact with researchers to learn statistical techniques and develop consulting and presentation skills. Prereq: 15MATH521, 15MATH531. Credit Level: G. Credit Hrs: 3.00

15STAT831**Practicum in Applied Statistics**

This course enables students to enhance their graduate degree program with some practical experience working on real data analytic problems in applied statistics. Students must obtain an internship or co-operative employment in order to get credit for this class. Prereq: 15MATH533. Credit Level: G. Credit Hrs: 1.00-3.00

15STAT832**Practicum in Applied Statistics**

This course enables students to enhance their graduate degree program with some practical experience working on real data analytic problems in applied statistics. Students must obtain an internship or co-operative employment in order to get credit for this class. Prereq: 15MATH533. Credit Level: G. Credit Hrs: 1.00-3.00

15STAT833**Practicum in Applied Statistics**

This course enables students to enhance their graduate degree program with some practical experience working on real data analytic problems in applied statistics. Students must obtain an internship or co-operative employment in order to get credit for this class. Prereq: 15MATH533. Credit Level: G. Credit Hrs: 1.00-3.00

15STAT834**Practicum in Applied Statistics**

This course enables students to enhance their graduate degree program with some practical experience working on real data analytic problems in applied statistics. Students must obtain an internship or co-operative employment in order to get credit for this class. Prereq: 15MATH533. Credit Level: G. Credit Hrs: 1.00-3.00

15STAT921**Seminar in Statistics**

Seminar in Statistics Credit Level: G. Credit Hrs: 4.00

15STAT922**Seminar in Statistics**

Seminar in Statistics Credit Level: G. Credit Hrs: 4.00

15STAT923**Seminar in Statistics**

Seminar in Statistics Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Swahili**15SWAH101****Basic Swahili 1**

Introduce students to basic & advanced linguistic concepts through writing, reading, speaking, and cultural exposition. The history of the Swahili peoples of East and Central Africa will be studied also. BoK: HU., DC. Credit Level: U. Credit Hrs: 5.00

15SWAH102**Basic Swahili 2**

Introduce students to basic & advanced linguistic concepts through writing, reading, speaking, and cultural exposition. The history of the Swahili peoples of East and Central Africa will be studied also. BoK: HU., DC. Credit Level: U. Credit Hrs: 5.00

15SWAH103**Basic Swahili 3**

Introduce students to basic & advanced linguistic concepts through writing, reading, speaking, and cultural exposition. The history of the Swahili peoples of East and Central Africa will be studied also. BoK: HU., DC. Credit Level: U. Credit Hrs: 5.00

15SWAH111**Extended Basic Swahili 1**

An introduction to Swahili language and culture. First quarter in the extended 6-sequence that fulfills the A&S language requirement. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15SWAH112**Extended Basic Swahili 2**

An introduction to Swahili language and culture. Second quarter in the extended 6-quarter sequence that fulfills the A&S language requirement. Prereq: 15AFAM111. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15SWAH113**Extended Basic Swahili 3**

An introduction to Swahili language and culture. Third quarter in the extended 6-quarter sequence that fulfills the A&S language requirement. Prereq: 15AFAM112. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15SWAH114**Extended Basic Swahili 4**

An introduction to Swahili language and culture. Fourth quarter in the extended 6-quarter sequence that fulfills the A&S language requirement. Prereq: 15AFAM113. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15SWAH115**Extended Basic Swahili 5**

An introduction to Swahili language and culture. Fifth quarter in the extended 6-quarter sequence that fulfills the A&S language requirement. Prereq: 15AFAM114. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15SWAH116**Extended Basic Swahili 6**

An introduction to Swahili language and culture. Sixth quarter in the extended 6-quarter sequence that fulfills the A&S language requirement. Prereq: 15AFAM115. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

School of World Languages and Cultures**15SWLC100****Freshman Seminar: Exploring Languages and Intercultural Competence**

Exploration of Issues pertaining to the study of world languages and cultures, as well as resources on concepts, and reasons for studying foreign language and culture. Team-taught with faculty and speakers from a variety of departments and organizations. BoK: DC. Credit Level: U. Credit Hrs: 3.00

School of World Languages and Cultures**15SWLC750****Orientation to Second Language Teaching at UC**

Introduction to teaching methodologies, policies and practices in foreign language programs at UC. This course meets for 2 1/2 weeks before the beginning of Fall quarter and is required for all incoming GTAs in SWLC-affiliated departments. (Replaces 15-GRMN-794 and 15-RLL-750) Credit Level: G. Credit Hrs: 2.00

15SWLC751**Language Teaching Methods**

Introduction to the research and theory of teaching language. Credit Level: G. Credit Hrs: 4.00

15SWLC752**Second Language Acquisition Theory**

Introduction to second language acquisition theory. Credit Level: G. Credit Hrs: 4.00

15SWLC753**Computer Assisted Language Learning**

Introduction to computer assisted language learning. Credit Level: G. Credit Hrs: 4.00

15SWLC801**Introduction to Literary Theory**

An introduction to literary theory and critical approaches to literature beginning with the Greeks. Credit Level: G. Credit Hrs: 4.00

15SWLC802**Topics in Literary Theory I**

An investigation of a variety of literary theories and critical approaches to literatures such as gender-based or psychoanalytic approaches. Credit Level: G. Credit Hrs: 4.00

15SWLC803**Topics in Literary Theory II**

Topic varies: an investigation of a variety of literary theories and critical approaches to literature such as culture-based or historiographic approaches. Credit Level: G. Credit Hrs: 4.00

Teaching Science**15TSCI661****Earth's Surface Environment**

This course will investigate the interrelationships among plants, animals, and their physical environment, and the role that a changing physical world played in the evolution of specific plant and animal adaptations. Perm of Instructor. BoK: NA. Credit Level: G, U. Credit Hrs: 4.00

15TSCI662**Our Physical World**

This course will examine the physics and chemistry of the world around us with an emphasis on understanding forces, energy, motions and equilibrium. Perm of Instructor. BoK: NA. Credit Level: G, U. Credit Hrs: 4.00

15TSCI663**A Journey Through Space**

This course will begin with a brief description of cosmology, galaxies, and stellar life cycles, and investigates the Earth's formation, differentiation, and evolution. Perm of Instructor. BoK: NA. Credit Level: G, U. Credit Hrs: 4.00

15TSCI664**The Chemistry of Life**

This course will explore biochemistry, and molecular and cellular biology, with the aim of understanding how the chemistry of a cell affects its structure and function. Perm of Instructor. BoK: NA. Credit Level: G, U. Credit Hrs: 4.00

15TSCI665**Philosophy of Science**

This course will cover five topics in the Philosophy of Science: scientific explanation, hypothesis testing, theory relations across scientific levels,

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

Teaching Science**15TSCI665****Philosophy of Science**

science in value and policy decisions, and the sociology of scientific knowledge. Perm of Instructor. BoK: NA. Credit Level: G, U. Credit Hrs: 3.00

15TSCI671**Internship I**

This course will allow students to work on an independent research project, and by doing so, develop hands-on experience in scientific work, technology, and thinking. Perm of Instructor. BoK: NA. Credit Level: G, U. Credit Hrs: 6.00

15TSCI672**Internship II**

This course will allow students to work on an independent research project, and by doing so, develop hands-on experience in scientific work, technology, and thinking. Perm of Instructor. BoK: NA. Credit Level: G, U. Credit Hrs: 6.00

Women's Studies**15WMST150****"Having It All:" Using the Law to Resolve the Work/Family Conflict**

Explores both legal and gender issues in examining how our society structures the relationship of paid work to work in the family. Offers exposure to prelaw and women's studies, while also providing a practical framework to guide career/family choices. BoK: SE. Credit Level: U. Credit Hrs: 3.00

15WMST160**Revolutionary Women: Wollstonecraft and France's Last Queen**

Mary Wollstonecraft and Marie Antoinette led very different and controversial lives in a Europe under radical change. The British feminist historian and Habsburg Queen of France sought freedom and wrote their own roles with significant social and political impacts on a larger world. BoK: HU. Credit Level: U. Credit Hrs: 3.00

15WMST201**Barriers to Equality**

An examination of age, gender, sexual orientation and race as major influences on the structure of interaction and on access to social opportunity. A comparative approach will be used where the U.S. and other societies are explored. Prereq: 30SOC175, 30SOC176. BoK: SS. Credit Level: U. Credit Hrs: 3.00

15WMST204**Introduction to Black Gender Studies**

Introduction to gender and gender oppression as major organizing principles in African-American social institutions, culture, and politics. BoK: DC. Credit Level: U. Credit Hrs: 3.00

15WMST241**Introduction to Women's Studies I: Feminist Perspectives**

Interdisciplinary survey introduction to women's studies and women-related issues in society from a feminist perspective. Emphasis will be placed on the diversity of women's experience. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

15WMST245**Introductory Women, Gender and Race Studies**

Variable topics in the area of women of color studies offered at the introductory level. Prereq: 15WMST241. BoK: DC, SE. Credit Level: U. Credit Hrs: 3.00

15WMST250**Introduction to Black Women's Studies**

The purpose of this course is to familiarize the student with an intersectional analysis of race, class, gender, sexual orientation, while focusing on some of the experiences of Black women in the United States from the Civil War Era to the present. BoK: DC. Credit Level: U. Credit Hrs: 3.00

Women's Studies**15WMST255****Introductory Women, Gender, and Legal Studies**

Variable topics in area of feminist legal studies offered at the introductory level. Prereq: 15WMST241. BoK: SE, SS. Credit Level: U. Credit Hrs: 3.00

15WMST265**Introductory Women, Gender, and Sexuality Studies**

Variable topics in the area of sexuality studies at the introductory level. Prereq: 15WMST241. BoK: DC, SE. Credit Level: U. Credit Hrs: 3.00

15WMST275**Introductory Women, Gender, and Cultural Studies**

Variable topics offered at the introductory level in the area of feminist cultural studies, which critically examines gendered texts and images, including those from popular culture. Prereq: 15WMST241. BoK: DC, HU. Credit Level: U. Credit Hrs: 3.00

15WMST276**Feminism and Popular Culture**

Analyzes popular culture as both a source of anti-feminism and a site of feminist resistance for social change BoK: SE., DC. Credit Level: U. Credit Hrs: 3.00

15WMST280**Women in Native American Literature**

Designed to give students an understanding of the Native American Culture and the role of women within the society, both traditionally and contemporarily BoK: LT. Credit Level: U. Credit Hrs: 3.00

15WMST285**Introductory Women, Gender, and Science Studies**

Variable topics in the area of feminist science studies at the introductory level. Prereq: 15WMST241. BoK: SE. Credit Level: U. Credit Hrs: 3.00

15WMST289**Our Lives: Twentieth-Century Women's Autobiographies**

Through five novels and a collection of diaries, this course studies the lives and achievements of well-known 20th century women from their teen years through old age. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15WMST295**Introductory Women, Gender and Political Studies**

Variable topics in the area of feminist political studies offered at the introductory level. Prereq: 15WMST241. BoK: SE, SS. Credit Level: U. Credit Hrs: 3.00

15WMST298**Outrageous Writings by Women**

Women writers are attracted to certain literary forms scorned by conventional academic critics -- Brown, Rubyfruit Jungle; Wittig, Les Guerillier; Didion, Play It As It Lays; LeGuin, The Dispossessed; poetry by Judy Grahn; journals by May Sarton, Anais Nin. Offered alt. yrs. Transfer Module. BoK: LT, DC. Credit Level: U. Credit Hrs: 3.00

15WMST301**Current Issues in Women's Studies**

Selected readings chosen to highlight topical issues or emerging scholarship in Women's Studies. Individual topics are described in listings available from the Center for Women's Studies each term. Prereq.: 15-WMST-241. BoK: DC., SE. Credit Level: U. Credit Hrs: 3.00 -12.00

15WMST302**Women and Activism**

An investigation of how women, past and present, influence and engage in social justice activism. Includes service/experiential learning assignments in the community. Prereq: 15WMST241. BoK: DC, SE. Credit Level: U. Credit Hrs: 3.00

15WMST304**Gender, Race, Class & Sexuality**

This course will employ social science readings and selected literature and film to provide greater understanding of the ways in which innate gender differences and gender stereotypes influence male-female

communication and relationships. BoK: HU., DC. Credit Level: U. Credit Hrs: 3.00

15WMST305**Black Women in U.S.Society**

An examination of how systems of race, class, and gender shape the experiences of African-American women. BoK: DC. Credit Level: U. Credit Hrs: 3.00

15WMST310**Feminism and the Future**

This course explores the possibilities for women's futures in diverse cultures. Prereq: 30ENGL103. BoK: SS, DC. Credit Level: U. Credit Hrs: 3.00

15WMST311**Masculinities Studies**

Explores multiple social constructions of masculinity produced through varying cultural social, political, and economic processes. Prereq: 15WMST241. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

15WMST312**Psychology of Women**

Examination of various theories of the psychology of women, focusing on women's sense of self in relationship to their culture, other women, and themselves. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15WMST313**Feminism, Gender, and Psychology**

Examines feminist approaches to analyzing women and gender from social psychological perspectives. Prereq: 15WMST241. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

15WMST314**Women and Social Action**

A telecourse designed to address the impact of gender stereotypes and how they intersect with other social systems such as age, class, ethnicity, race, and religion. Prereq: 30SOC175. BoK: SS, SE. Credit Level: U. Credit Hrs: 3.00

15WMST315**Women and Aging**

Examines the economics and politics of aging women, as well as their art, writing, and spirituality. BoK: SS., DC. Credit Level: U. Credit Hrs: 3.00

15WMST316**Feminism and Spirituality**

Examines the development of feminist spiritual alternatives to patriarchal religions. Prereq: 15WMST241. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

15WMST317**Women and Religion**

Concerns of women that are conditioned by interpretations found to have roots in religious sources are studied through literary form, historical context, and cultural factors. BoK: SE. Credit Level: U. Credit Hrs: 3.00

15WMST318**Women in American History: 1607-1820**

Historical analysis of the roles of native, African and European women in early American society. It will examine women's experiences in the 17th and 18th Centuries and the impact of the American Revolution on women's lives. Transfer Module. BoK: HP, DC. Credit Level: U. Credit Hrs: 3.00

15WMST319**Women in American History: 1820-1920**

Historical analysis of the role of the Nineteenth Century Woman and gain of the vote for women. Transfer Module. BoK: HP, DC. Credit Level: U. Credit Hrs: 3.00

Women's Studies**15WMST321****Witchcraft and Women**

A serious examination of the concept of magic and the role of witchcraft in history from antiquity to the present; an examination of primary and secondary sources on the phenomenon and mechanism of magical thought, and its impact upon persons and societies. Prereq: 15WMST241. BoK: HP, DC. Credit Level: U. Credit Hrs: 3.00

15WMST322**Women and Men, Sex and Gender in Antiquity**

An overview of the textual and material evidence pertaining to women's lives in four ancient cultures. Students synthesize and evaluate this information, weighing the limitations of different types of evidence and considering any possible gender biases of previous scholars. Perm of Instructor. BoK: HU, DC. Credit Level: U. Credit Hrs: 3.00

15WMST324**Science Fiction and Gender**

A new strain of science fiction has emerged which is more concerned with the social and mythical aspects of heroism, and more thoroughly radical in its extrapolations. Focus will be on well-written works which raise questions of the identity of women and men. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15WMST325**Themes in American Literature: Gender Roles**

American authors' treatments of the theme of male-female gender stereotyping. Prereq: 15ENGL103. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15WMST326**Women's Voices in American Literature**

A study of women writers' commentary on the American Experience from the colonial period to the present. Prereq: 17ENGL103. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15WMST327**Coming of Age in Fiction by Women**

Course will examine the process of growing up female as it is portrayed in fiction by women. Offered alt. yrs. BoK: LT., DC. Credit Level: U. Credit Hrs: 3.00

15WMST328**Contemporary Short Story**

Twentieth century thought and expression in the short story. Prereq: 17ENGL103. Transfer Module. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15WMST330**Black Women Writers**

A study of the fiction of selected Black women writers from Zora Neale Hurston to Toni Morrison. Special emphasis on developing concepts of Black womanhood. Transfer Module. BoK: LT, DC. Credit Level: U. Credit Hrs: 3.00

15WMST342**Gender in Film**

This course will provide an overview of fundamental neurobiological differences between the sexes and their portrayals in representative film and literature. It will explore concerns about the objectivity and application of brain difference research and should serve as a basis for more in-depth study of gender issues in science and humanities. BoK: DC. Credit Level: U. Credit Hrs: 3.00

15WMST345**Intermediate Women, Gender and Race Studies**

Variable topics in the area of women of color studies offered at the intermediate level. Prereq: 15WMST241. BoK: DC, SE. Credit Level: U. Credit Hrs: 3.00

15WMST350**Women and the Law**

An historical and comparative study of the effect of law on women, the development of women's legal rights in the U.S. and the changes in law

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Women's Studies**15WMST350****Women and the Law**

which resulted from the women's movement. BoK: SE. Credit Level: U. Credit Hrs: 3.00

15WMST355**Intermediate Women, Gender, and Legal Studies**

Variable topics in area of feminist legal studies offered at the intermediate level. Prereq: 15WMST241. BoK: SE, SS. Credit Level: U. Credit Hrs: 3.00

15WMST357**Women and Business in Feminist Perspective**

Analyzes women's changing roles and continued under-representation in as well as contributions to contemporary business and corporate structures and practices from feminist perspectives. BoK: SE., DC. Credit Level: U. Credit Hrs: 3.00

15WMST360**Lesbian, Gay, Bisexual and Transgender Studies**

Examines issues facing LGBT gay & lesbian communities as well as theories that help us analyze them. BoK: DC. Credit Level: U. Credit Hrs: 3.00

15WMST361**Lesbian and Gay Literature**

An exploration of important themes (e.g., childhood and growing up, coming out and finding community, families, oppression and resistance, bisexuality, relationships and friendships, AIDS and aging) in lesbian and gay literature using literary materials as the primary focus (novels, poetry, plays). Prereq: 17ENGL103. BoK: LT. Credit Level: U. Credit Hrs: 3.00

15WMST365**Intermediate Women, Gender, and Sexuality Studies**

Variable topics in the area of sexuality studies at the intermediate level. Prereq: 15WMST241. BoK: DC, SE. Credit Level: U. Credit Hrs: 3.00

15WMST370**Women in Science**

Exploration of how women work in the sciences, how they are perceived by the sciences, and how they are changing the sciences. BoK: SE., DC. Credit Level: U. Credit Hrs: 3.00

15WMST371**Women's Health in Feminist Perspective**

Examines women's bodies and health through feminist perspectives and the development of feminist health movements domestically and internationally. BoK: SE., DC. Credit Level: U. Credit Hrs: 3.00

15WMST375**Intermediate Women, Gender, and Cultural Studies**

Variable topics in the area of feminist cultural studies offered at an intermediate level. Prereq: 15WMST241. BoK: DC, HU. Credit Level: U. Credit Hrs: 3.00

15WMST376**Feminisms and Art**

Explores feminist artistic production and critique for social change examines differing feminist artistic movements Prereq: 15WMST241. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

15WMST380**Feminist Critical Readings**

In-depth readings of classic feminist works. This course is designed to stand between "Intro to Women's Studies" and "Feminist Theory" and will focus on developing students' critical reading skills as well as on works by classic feminist thinkers. Prereq: 15WMST241. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

15WMST385**Intermediate Women, Gender, and Science Studies**

Variable topics in the area of feminist science studies at the intermediate level. Prereq: 15WMST241. BoK: SE. Credit Level: U. Credit Hrs: 3.00

Women's Studies**15WMST385****Intermediate Women, Gender, and Science Studies**

Variable topics in the area of feminist science studies at the intermediate level. Prereq: 15WMST241. BoK: SE. Credit Level: U. Credit Hrs: 3.00

15WMST395**Intermediate Women, Gender, and Political Studies**

Variable topics in the area of feminist political studies offered at the intermediate level. Prereq: 15WMST241. BoK: SE, SS. Credit Level: U. Credit Hrs: 3.00

15WMST401**Special Topics in Women's Studies**

Special topics in the study of women and gender. Topics will vary. Prereq: 15WMST241, 15WMST380. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15WMST405**Independent Study in Women's Studies**

For independent study of special topics in Women's Studies under faculty supervision. Permission of instructor required Prereq: 15WMST241, 15WMST380. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

15WMST406**Independent Study in Women's Studies**

For independent study of special topics in Women's Studies under faculty supervision. Permission of instructor required Prereq: 15WMST241, 15WMST380. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

15WMST407**Independent Study in Women's Studies**

For independent study of special topics in Women's Studies under faculty supervision. Permission of instructor required Prereq: 15WMST241, 15WMST380. BoK: NA. Credit Level: U. Credit Hrs: 1.00-3.00

15WMST441**Child Sexual Violence in Contemporary Literature and Film**

Examines contemporary treatments, through literature, film, and other media, of childhood sexual violence. It will cover social, cultural, and psychological issues related to sexual violence against children through feminist perspectives. BoK: SE., DC. Credit Level: U. Credit Hrs: 3.00

15WMST443**Global Sexualities**

Examines differing social constructions of sexual identities in cross-cultural perspective to investigate their implications for theorizing sexuality and sexual power relations and developing transnational struggles against discrimination based on sexual orientation. Prereq: 15WMST360. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

15WMST445**Advanced Women, Gender and Race Studies**

Variable topics in the area of women of color studies offered at the advanced level. Prereq: 15WMST241. BoK: DC, SE. Credit Level: U. Credit Hrs: 3.00

15WMST446**African Women: Literature, Culture, History**

The fiction of African women reveals hybrid oral and literate aesthetics and differences in the political and economic history and culture situations of women in their respective countries, traditional, modern, and neo-colonial histories, raising pertinent issues of polygamy, feminism, womanism, political power, childbearing and rearing, guerilla warfare, and AIDS. BoK: DC., LT. Credit Level: U. Credit Hrs: 3.00

15WMST447**Ethnic Women: Literature, Culture, History**

Ethnic women, usually facing the double oppression of racism and misogyny, create literature and theory expressing not only this common experience but also, revealing the contrasts among their different ethnic

H=University Honors course.

Women's Studies**15WMST447****Ethnic Women: Literature, Culture, History**

communities in the U.S. through the lens of sex and gender and experimental narrative. BoK: DC., LT. Credit Level: U. Credit Hrs: 3.00

15WMST448**Native American Women: Literature, Culture, History**

Complementary stories of Native women from different cultures and areas of US create experimental narratives grounded in their culture's oral traditions in conversation with current feminist, womanist, postcolonial and postmodern theoretical approaches in culture. BoK: DC., LT. Credit Level: U. Credit Hrs: 3.00

15WMST449**"Third World" Women: Literature, Culture, History**

Women writers from Egypt, Aboriginal Australia, sub-Saharan Africa, and the borderlands of the U.S. Interrogate tradition, colonialism, neo-colonialism, feminism, Islam, and Christianity. We will study the hybrid nature of these works and read them through contemporary theoretical approaches that insist on engaging the disputed term "third world". BoK: DC., LT. Credit Level: U. Credit Hrs: 3.00

15WMST450**Comparative Black Feminisms**

Examines roles and positionalities of black women within the African diaspora (Continental, British, Caribbean, North American). Takes comparative and historical approach to study of political issues such as reproductive equity and health, state policy on women, religion, sexuality and migration. Prereq: 15WMST241, 15WMST380. BoK: DC, SE. Credit Level: U. Credit Hrs: 3.00

15WMST455**Advanced Women, Gender, and Legal Studies**

Variable topics in area of feminist legal studies offered at the advanced level. Prereq: 15WMST241, 15WMST350. BoK: SE, SS. Credit Level: U. Credit Hrs: 3.00

15WMST456**Women's Human Rights**

Examines the development of women's human rights struggles, norms, conventions, and laws in comparative and international perspective. Prereq: 15WMST350. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

15WMST460**Seminar in Lesbian, Gay, Bisexual and Transgender Studies**

An advanced course in LGBT studies that analyzes an array of theories and perspectives. Prereq: 15WMST360. BoK: DC. Credit Level: U. Credit Hrs: 3.00

15WMST461**Feminist Theory: Global**

The second in a three-quarter sequence, this seminar examines feminist theories in national, transnational, and global perspective. Prereq: 15WMST241. BoK: DC, SE. Credit Level: U. Credit Hrs: 3.00

15WMST462**Lesbian/Queer Theory**

Explores contemporary sexuality theories from lesbian and queer perspectives which destabilize assumptions about relationships among chromosomal sex, gender, and sexual desire and develop new thinking about sexual identities and social critiques and movements arising from them. Prereq: 15WMST360. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

15WMST463**Lesbian Literature and Psychology**

Study of the definition of lesbianism as expressed by psychologists and writers; study of the complex relationship between images of mainstream psychological theory and lesbian fiction. Prereq: 15WMST360. BoK: DC, LT. Credit Level: U. Credit Hrs: 3.00

15WMST465**Advanced Women, Gender, and Sexuality Studies**

Variable topics in the area of sexuality studies at the advanced level.

Women's Studies**15WMST465****Advanced Women, Gender, and Sexuality Studies**

Prereq: 15WMST241, 15WMST360. BoK: DC, SE. Credit Level: U. Credit Hrs: 3.00

15WMST466**Gender, Sexuality and Culture**

Focuses on the political, cultural, familial production of sexualities and on the complex relations between gender and sexuality, including the way in which gender and sex regulate identity and how that regulation might be contested. Prereq: 15WMST241, 15WMST360. BoK: HU, SE. Credit Level: U. Credit Hrs: 3.00

15WMST475**Advanced Women, Gender, and Cultural Studies**

Variable topics in the area of feminist cultural studies offered at the advanced level. Prereq: 15WMST241, 15WMST380. BoK: SE, HU. Credit Level: U. Credit Hrs: 3.00

15WMST476**Second Wave Feminisms**

Analyzes and historicizes the multiple and interconnecting strands of feminist theory and praxis that constituted the second wave of feminism and their continuing impact on contemporary feminist identification, debates and movements. Prereq: 15WMST241. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

15WMST480**Feminist Theory**

An investigation of central texts in feminist thought. Prereq: 15WMST241, 15WMST380. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15WMST480H**Feminist Theory Honors**

An investigation of central texts in feminist thought. Prereq: 15WMST241, 15WMST380. BoK: NA. Credit Level: U. Credit Hrs: 3.00

15WMST485**Advanced Women, Gender, and Science Studies**

Variable topics in the area of feminist science studies at the advanced level. Prereq: 15WMST241, 15WMST370. BoK: SE. Credit Level: U. Credit Hrs: 3.00

15WMST490**Internship in Women's Studies**

Supervised experiences in community organizations active on issues of gender and social justice. Permission of instructor needed. BoK: SE. Credit Level: U. Credit Hrs: 1.00-9.00

15WMST495**Advanced Women, Gender, and Political Studies**

Variable topics in the area of feminist political studies offered at the advanced level. Prereq: 15WMST241, 15WMST480. BoK: SE, SS. Credit Level: U. Credit Hrs: 3.00

15WMST496**Gender and Development**

Critiques through a gender-sensitive lens the main strands of political and economic thought that have informed international socio-economic development policy and challenges the meanings of and institutional formations and practices associated with development through feminist perspectives. Prereq: 15WMST241. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

15WMST497**Women, Gender, and Social Movements**

Explores feminist perspectives on and women's participation in select social movements at local, national, and/or transnational levels. Comparatively theorizes women's activism and strategies for social change. Prereq: 15WMST241. BoK: SE, DC. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Women's Studies**15WMST531****Individual Work in Women's Studies**

Individual work in Women's Studies. For completing independent capstone research paper, including undergraduate major paper, under faculty supervision. Permission of instructor BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-4.00

15WMST532**Individual Work in Women's Studies**

Individual work in Women's Studies. For completing independent capstone research paper, including undergraduate major paper, under faculty supervision. Permission of instructor required. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-4.00

15WMST533**Individual Work in Women's Studies**

Individual work in Women's Studies. For completing independent capstone research paper, including undergraduate major paper, under faculty supervision. Permission of instructor required. BoK: NA. Credit Level: U, G. Credit Hrs: 1.00-4.00

15WMST580**Feminist Methodologies**

An examination of the contours and practices of feminist research, focusing on epistemological and methodological questions in feminism. A focus on various feminist cultural, political, and science studies methods thru feminist research exercises in preparation for independent research projects. Prereq: 15WMST480. BoK: NA. Credit Level: U, G. Credit Hrs: 3.00-4.00

15WMST588**Latina Feminisms**

Explores the development of women's movement in Latin America and Latina feminist movements across the Americas. Prereq: 15WMST241. BoK: DC, SE. Credit Level: U, G. Credit Hrs: 3.00-4.00

15WMST589**Feminisms in North America**

A comparative examination of feminist theories and movements in Canada, Mexico, and the US as well as examples of cross-border organizing on select issues to investigate women's human rights and citizenships, and identities in a continental context. Prereq: 15WMST241. BoK: DC, SE. Credit Level: U, G. Credit Hrs: 3.00-4.00

15WMST590**Women's Studies Study Abroad**

Designed for eligible advanced undergraduate and graduate students who have completed requisite Women's Studies courses (and, where applicable, foreign language proficiency courses or tests) and been accepted to study Women's Studies abroad in Women's Studies partner institutions currently in Canada or Mexico or other countries where partnerships may be formed in the future. As exchange students, students accepted to study abroad register for the number of credits for this course that are equivalent to the credit amounts of the courses they take abroad for a given term. Interested students must see the Department of Women's Studies for application, requirements, and advisement well in advance (at least six months prior to study abroad) to pursue this option. See Department of Women's Studies for requirements and application. Perm of Department. BoK: DC, SE. Credit Level: U, G. Credit Hrs: 3.00-18.00

15WMST641**Child Sexual Violence in Contemporary Literature and Film Graduate**

Graduate course examines contemporary treatments, through literature, film, and other media of childhood sexual violence. It will cover social, cultural, and psychological issues related to sexual violence against children through feminist perspectives. BoK: DC, SE. Credit Level: G, U. Credit Hrs: 4.00

15WMST643**Global Sexualities Graduate**

Examines differing social constructions of sexual identities in cross-

Women's Studies**15WMST643****Global Sexualities Graduate**

cultural perspective to investigate their implications of theorizing sexuality and sexual power relations and developing transnational struggles against discrimination based on sexual orientation. BoK: DC, SE. Credit Level: G, U. Credit Hrs: 4.00

15WMST645**Graduate Women, Gender and Race Studies**

Variable topics in the area of women of color studies offered at the graduate level. BoK: DC, SE. Credit Level: U, G. Credit Hrs: 3.00-4.00

15WMST650**Comparative Black Feminisms**

Examines roles and positionalities of black women within the African diaspora (Continental, British, Caribbean, North American). Takes comparative and historical approach to study of political issues such as reproductive equity and health, state policy on women, religion, sexuality and migration. BoK: DC, SE. Credit Level: U, G. Credit Hrs: 3.00-4.00

15WMST656**Women's Human Rights Graduate**

Graduate course examines the development of women's human rights struggles, norms, conventions and laws in comparative and international perspective. BoK: DC, SE. Credit Level: G, U. Credit Hrs: 4.00

15WMST660**Seminar in Lesbian, Gay, Bisexual and Transgender Studies**

An advanced course in LGBT studies that analyzes an array of theories and perspectives. BoK: DC, SE. Credit Level: U, G. Credit Hrs: 3.00-4.00

15WMST662**Lesbian/Queer Theory Graduate**

Graduate course explores contemporary sexuality theories from lesbian and queer perspectives which destabilize assumptions about relationships among chromosomal sex, gender, and sexual desire and develop new thinking about sexual identities and social critiques and movements arising from them. BoK: DC, SE. Credit Level: G, U. Credit Hrs: 4.00

15WMST665**Graduate Women, Gender, and Sexuality Studies**

Variable topics in the area of sexuality studies at the graduate level. BoK: DC, SE. Credit Level: U, G. Credit Hrs: 3.00-4.00

15WMST675**Graduate Women, Gender, and Cultural Studies**

Variable topics in the area of feminist cultural studies offered at the graduate level. BoK: SE, HU. Credit Level: U, G. Credit Hrs: 3.00-4.00

15WMST676**Second Wave Feminisms Graduate**

Graduate course that analyzes and historicizes the multiple and interconnecting strands of feminist theory and praxis that constituted the second wave of feminism and their continuing impact on contemporary feminist identification, debates, and movements. BoK: DC, SE. Credit Level: G, U. Credit Hrs: 4.00

15WMST685**Graduate Women, Gender, and Science Studies**

Variable topics in the area of feminist science studies at the graduate level. BoK: SE. Credit Level: U, G. Credit Hrs: 3.00-4.00

15WMST695**Graduate Women, Gender, and Political Studies**

Variable topics in the area of feminist political studies offered at the graduate level. BoK: SE, SS. Credit Level: U, G. Credit Hrs: 3.00-4.00

15WMST696**Gender and Development Graduate**

Graduate course critiques through a gender-sensitive lens the main strands of political and economic thought that have informed

international socio-economic development policy and challenges the meanings of and institutional formations and practices associated with development through feminist perspectives. BoK: DC., SE. Credit Level: G, U. Credit Hrs: 4.00

15WMST697**Women, Gender and Social Movements Graduate**

Graduate course explores feminist perspectives on women's participation in select social movements at local, national, and/or transnational levels. Comparatively theorizes women's activism and strategies for social change. BoK: DC., SE. Credit Level: G, U. Credit Hrs: 4.00

15WMST646**African Women: Literature, Culture, History**

The fiction of African women reveals hybrid oral and literate aesthetics and differences in the political and economic history and culture of situations of women in their respective countries; traditional, modern, and neo-colonial histories, raising pertinent issues of polygamy, feminism, womanism, political power, childbearing and rearing guerilla warfare, and AIDS. Credit Level: G. Credit Hrs: 4.00

15WMST647**Ethnic Women: Literature, Culture, History**

Ethnic women, usually facing the double oppression of racism and misogyny, create literature and theory expressing not only this common experience but also, revealing the contrasts among their different ethnic communities in the U.S. through the lens of sex and gender and experimental narrative. Credit Level: G. Credit Hrs: 4.00

15WMST648**Native American Women: Literature, Culture, History**

Complementary studies of native women from different cultures and areas of US create environmental narratives grounded in their cultures' oral traditions in conversation with current feminist womanist postcolonial and post modern theoretical approaches to culture. Credit Level: G. Credit Hrs: 4.00

15WMST649**"Third World" Women: Literature, Culture, History**

Women writers from Egypt, Aboriginal Australia, Sub-Saharan African, and the borderlands of US interrogate tradition, colonialism, neo-colonialism, feminism, Islam and Christianity will be studied The hybrid nature of these works and read them through contemporary theoretical approaches that insist on engaging the disputed term "Third World". Credit Level: G. Credit Hrs: 4.00

15WMST663**Lesbian Literature and Psychology**

Study of the definition of lesbianism as expressed by psychologists and writers; study of the complex relationship between images of mainstream psychological theory and lesbian fiction. Credit Level: G. Credit Hrs: 4.00

15WMST666**Gender, Sexuality, and Culture**

This course focuses on the political, cultural, familial production of sexualities and on the complex relations between gender and sexuality, including the ways in which gender and sex regulate identity and how that regulation might be contested. Credit Level: G. Credit Hrs: 4.00

15WMST700**Introduction to Graduate Women's Studies**

A graduate-level introduction to the history and field of women's studies. Credit Level: G. Credit Hrs: 4.00

15WMST701**Pro-Seminar: Introduction to Graduate Study in Women's Studies**

First-year M.A. students in Women's Studies will be introduced to the structural and theoretical foundations of graduate work in Women's Studies. Credit Level: G. Credit Hrs: 1.00

Women's Studies**15WMST701****Pro-Seminar: Introduction to Graduate Study in Women's Studies**

First-year M.A. students in Women's Studies will be introduced to the structural and theoretical foundations of graduate work in Women's Studies. Credit Level: G. Credit Hrs: 1.00

15WMST702**Proseminar: Feminist Issues**

For participation in special professional development colloquia on select feminist issues offered during the Winter term for Women's Studies graduate students. Credit Level: G. Credit Hrs: 1.00

15WMST703**Pro-Seminar: Introduction to Research Projects in Women's Studies**

First-year M.A. students in Women's Studies begin background study in preparation for their individual research projects. Credit Level: G. Credit Hrs: 1.00

15WMST710**Women's Studies Teaching Practicum**

WS TEACHING PRACTM Credit Level: G. Credit Hrs: 1.00-4.00

15WMST721**Seminar on Race, Gender and Class**

A survey and critical examination of the intersections of race, gender and social class as systems of inequality. Prereq.: Perm. of instr. Credit Level: G. Credit Hrs: 4.00

15WMST722**Seminar on Race, Gender and Nationalism**

A critical examination of the intersections of race, gender and nationalism as systems of inequality. Credit Level: G. Credit Hrs: 4.00

15WMST723**Seminar on Race, Gender and Sexuality**

A critical examination of the intersections of race, gender and sexuality as systems of inequality. Prereq.: Perm. of instr. Credit Level: G. Credit Hrs: 4.00

15WMST725**Foundations of Feminist Theory**

This seminar examines the foundations of feminist theory. Graduate Status Required. Credit Level: G. Credit Hrs: 4.00

15WMST735**Feminist Theory: Race, Class, Nation**

As part of the graduate feminist theory sequence, analyzes feminist theories of intersectional identity constructions based on the interstructuring of gender, race, class, and nation identifications and examines the production of the very categories of gender, race, class and nation and how they are co-implicated in sustaining power relations. Credit Level: G. Credit Hrs: 4.00

15WMST742**Colloquium on Feminist Scholarship, Social Sciences**

Highlights of feminist scholarship which counters the traditional view of women in the social sciences, looks at the biases in traditional social science research, and challenges these assumptions and methods with new feminist constructions. Credit Level: G. Credit Hrs: 4.00

15WMST745**Feminist Theory: Contemporary Issues**

This seminar explores contemporary issues in feminist theory. Graduate Status Required. Credit Level: G. Credit Hrs: 4.00

15WMST751**Special Topics**

Special topics in the study of women and gender in society. The specific topic will vary. Credit Level: G. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Women's Studies**15WMST752****Special Topics**

Special Topics - Social Sciences Special topics in the study of gender in society. Topics will vary. Credit Level: G. Credit Hrs: 4.00

15WMST754**Gender, Migration and Citizenship**

This course draws on feminist theory to explore the ways in which gender shapes migration and citizenship. Credit Level: G. Credit Hrs: 4.00

15WMST755**Feminist Theory: Global**

The second in a three-quarter sequence, this seminar examines feminist theories in national, transnational, and global perspective. Credit Level: G. Credit Hrs: 4.00

15WMST758**Gender, Geography, and Science**

Gender perspectives and feminist analyses in the social and natural sciences. The future of scientific thought in light of these new perspectives, with emphasis on physical geography, human geography, and environmental science. Credit Level: G. Credit Hrs: 4.00

15WMST771**Women, Gender and Globalization**

Examines the gendered nature and effects of global and regional economic, political, and cultural restructuring assoc. with globalization. Credit Level: G. Credit Hrs: 4.00

15WMST772**World Politics & Global Feminisms**

Examines the positions of women and the power of gender in world politics. Will explore feminist international relations theory, gender analyses of global issues and interstate relations, feminist critiques of international institutions, and women's transnational organizing to make feminist sense of international politics. Credit Level: G. Credit Hrs: 4.00

15WMST780**Feminist Jurisprudence**

Students begin by studying various schools of feminist legal thought, including liberal, radical cultural, postmodern, and critical race feminisms, as well as LGBTQ studies. After grounding in theory, the focus shifts to applied feminist scholarship and practice. Joins 24SPCL712 Perm of Department. Credit Level: G. Credit Hrs: 4.50

15WMST781**International Human Rights: Women's Human Rights**

A study of the status of women's human and legal rights globally. Focus is on the current status of the rights of women in a variety of countries and cultures, as they relate to issues of health, personal and political rights. The role of domestic laws, international human rights instruments, and traditional cultural values as they define the rights of women. Perm of Instructor. Credit Level: G. Credit Hrs: 4.50

15WMST782**Education Law**

EXAMINES LEGAL ISSUES ENCOUNTERED AT ALL LEVELS OF EDUCATION. FOCUS IS ON SUCH PROBLEMS AS ACADEMIC FREEDOM, CURRICULUM CONTROL, CENSORSHIP, MANDATORY EDUCATION, CHURCH-STATE ISSUES, FACULTY AND STUDENTS RIGHTS, TORT AND CIVIL RIGHTS, LIABILITY OF EDUCATIONAL INSTITUTIONS AND EDUCATIONAL OPPORTUNITY, INCLUDING RIGHTS OF THE HANDICAPPED. Perm of Instructor. Credit Level: G. Credit Hrs: 4.50

15WMST783**Employment Discrimination**

Surveys major legislative and executive provision and prohibiting various types of discrimination in employment in the context of hiring, promotion, discharge, benefits, conditions and the like as well as procedures applicable to employment discrimination cases. Joins 24IRTS705 Perm of Department. Credit Level: G. Credit Hrs: 4.50

Women's Studies**15WMST784****Gender and the Law**

Following an overview of the history of discrimination against women in the United States, this course examines the development of sex discrimination law in the context of employment, education, domestic relations, criminal and constitutional law. The course will also consider the work of feminist legal theorist and the advisability of various theoretical approaches. Joins 24IRTS720 Perm of Department. Credit Level: G. Credit Hrs: 4.50

15WMST785**Sexual Orientation and the Law**

EXPLORES THE RELATIONSHIP BETWEEN SEXUAL ORIENTATION AND THE LAW, ENCOMPASSING RECENT DECISIONS BY THE US SUPREME COURT, THE HAWAII TRIAL COURT'S DECISION IN THE GAY MARRIAGE CASE, AND LEGISLATIVE RESPONSES, SUCH AS THE DEFENSE OF MARRIAGE ACT. CONSTITUTIONAL PRIVACY, THE RIGHT TO PUBLIC ACCESS, AND FIRST AMENDMENT ISSUES AS THEY RELATE TO SEXUAL IDENTITY/ ORIENTATION ARE EXAMINED. Perm of Instructor. Credit Level: G. Credit Hrs: 3.00

15WMST786**Title IX Seminar**

Explores the continued vitality of laws proscribing sex discrimination in education, focusing primarily on Title IX of the Education Amendments of 1972, and issues such as Title IX's impact in athletics, its protection against sexual harrassment, and single-sex education. Joins IRTS 725. Perm of Department. Credit Level: G. Credit Hrs: 4.50

15WMST787**Law, Literature and Feminism**

Explores differences and similarities between the languages of the law and the languages of literature between legal thinking and literary thinking between the ways in which literary works construct worlds and the way the law constructs the worlds. Joins 24PRSP713 Perm of Department. Credit Level: G. Credit Hrs: 4.50

15WMST788**Critical Race Theory**

A new scholarly movement developed in legal academe in the mid-1980's, Critical Race Theory challenged both the substance and style of conventional legal scholarship. Race critics rejected formal equality, individual rights, and color-blind approaches to solving legal problems, employing new methodologies for legal scholarship. Joins 24IRTS777. Perm of Department. Credit Level: G. Credit Hrs: 4.50

15WMST789**Family Law**

Primary focus is on the relationship between law and the family in the context, maintenance and restructuring of domestic relations. Special attention is given to the nature of marriage, separation, divorce, dissolution, support, alimony and child custody. Joins IRTS706. Perm of Department. Credit Level: G. Credit Hrs: 4.50

15WMST790**Graduate Internship in Women's Studies**

Critical analysis of relationships between feminist theory and practice, combined with supervised experiences in community organizations active on issues of gender and social justice. Credit Level: G. Credit Hrs: 1.00-12.00

15WMST801**Feminist Research I**

Individual research under faculty supervision. Credit Level: G. Credit Hrs: 4.00

15WMST808**Independent Research**

Allows students to conduct research under direction of faculty. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-4.00

H=University Honors course.

Preparation for oral examination. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-4.00

COLLEGE OF BUSINESS
COURSE DESCRIPTIONS

(22) College of Business

2008 - 2009

College of Business 1

Accounting

22ACCT281

Introduction to Financial Accounting

Develops foundational knowledge and skills needed to understand, develop and analyze financial reports. Topics include income statements, cash flows, balance sheets and financial performance. Formerly 22 ACCT 261. BoK: QR. Credit Level: U. Credit Hrs: 5.00

22ACCT281H

Introduction to Financial Accounting

Develops foundational knowledge and skills needed to understand, develop and analyze financial reports. Topics include income statements, cash flows, balance sheets and financial performance. Formerly 22 ACCT 261H. BoK: QR. Credit Level: U. Credit Hrs: 5.00

22ACCT282

Introduction to Managerial Accounting

Develops foundational knowledge and skills needed to apply accounting data in planning and controlling business operations. Topics include costs, cost drivers and allocation, contribution margin and managerial budgeting. Formerly 22 ACCT 262 Prereq: 22ACCT281. BoK: QR. Credit Level: U. Credit Hrs: 5.00

22ACCT282H

Introduction to Managerial Accounting

Develops foundational knowledge and skills needed to apply accounting data in planning and controlling business operations. Topics include costs, cost drivers and allocation, contribution margin and managerial budgeting. Formerly 22 ACCT 262H. Prereq: 22ACCT281H. BoK: QR. Credit Level: U. Credit Hrs: 5.00

22ACCT331

Intermediate Accounting I

Application of generally accepted accounting principles to financial statement preparation with emphasis asset accounts. Prereq: 22ACCT282. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22ACCT332

Intermediate Accounting II

Application of generally accepted accounting principles to financial statement preparation with emphasis on liability accounts. Prereq: 22ACCT331. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22ACCT333

Intermediate Accounting III

Application of generally accepted accounting principles to financial statement preparation with emphasis on Owner's Equity accounts. Prereq: 22ACCT332. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22ACCT373

Cost Accounting

Financial accounting for manufacturing and inventories with emphasis on cost of goods sold expense and management decisions involving manufacturing. Prereq: 22ACCT331. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22ACCT401

Financial Accounting and Internal Control I

This course focuses on the financial accounting record keeping processes and related internal control considerations. Controls, policies and conventional procedures commonly applied to initially record transactions and maintain the records of original entry and maintain and adjust the general ledger are treated. Preparation of the Income Statement and Balance Sheet are also covered. Prereq: 22ACCT261, 22ACCT262. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22ACCT402

Financial Accounting and Internal Control II

This course focuses on internal controls, commercial policies, and accounting techniques conventionally applied for inventories, fixed

Accounting

22ACCT402

Financial Accounting and Internal Control II

assets, current liabilities, and long-term debt. The course emphasizes coverage of paperless accounting processes, common hard-copy business forms, commercial financial management business practices and the commercial and accounting measures frequently taken to sonsummate, record and control transactions affecting inventories, fixed assets and current and long-term debt accounts. Prereq: 22ACCT401. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22ACCT403

Financial Accounting and Internal Control III

This course focuses on internal controls, commercial policies, and accounting techniques conventionally applied for investments, leases, income taxes, pensions, and stockholders' equity. The course emphasizes coverage of paperless accounting processes, common hard-copy business forms, commercial financial management business practices and the commercial and accounting measures frequently taken to consummate, record and control transactions. The course also covers accounting and internal control considerations pertaining to the Statement of Cash Flows. Prereq: 22ACCT402. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22ACCT404

Management Accounting & Control I

This is the first of a two course sequence that focuses on how managers use information to monitor and control day-to-day operations and plan for the future. Both courses emphasize how current management and cost accounting techniques are used by controllers and managers to help their firms make sound business decisions. Although each of the two courses covers different topics, both use the same texts and follow a similar course format. The overall emphasis is on learning to use both financial and non-financial accounting information in the decision making process. In addition, given that managers often operate in a team environment, students take part in several hands-on group exercises. Throughout both courses, studnets also have the opportunity to learn how spreadsheet software can be used to efficiently solve complex problems. Prereq: 22ACCT261, 22ACCT262. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22ACCT405

Management Accounting & Control II

This is the second of a two course sequence that focuses on how managers use information to monitor and control day-to-day operations and plan for the future. Before taking this course you should have had OPC I. The texts and course format are similar to OPC I. Prereq: 22ACCT404. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22ACCT406

Internal Auditing & Internal Control Monitoring

The course covers concepts, procedures and techniques that may be applied by management to comply with its legal responsibilities for risk assessment and internal controls as stipulated by current Federal Laws. The subject matter covered includes: the independent audit function, the corporate audit committee, the internal audit function, corporate ethics, threat identification, inherent risk assessment, control risk assessment, tolerable risk specifications, internal control compliance auditing, internal audit reporting, and public reporting of managements' assessments of internal controls. Prereq: 22ACCT403. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22ACCT407

Integrated Controllershship

This capstone case-study course focuses on the controller's function within diverse management teams. Cases treated in the course are selected by the instructor to emphasize how the ontroller can identify and analyze information needed by management teams to solve

Accounting**22ACCT407****Integrated Controllership**

problems, make strategic decisions, and improve firm performance. Students are provided an opportunity to apply many of the techniques and concepts learned in the Operational Planning and Control 1 & 2 and Corporate Finance prerequisite courses to a variety of decision making settings, while learning how to contribute to, and be a valued member of, an integrated management team. Concepts from other business- related disciplines such as operations management, business economics, will also be needed to successfully complete the case studies used. In addition to the quantitative aspects of a case, students will be expected to analyze the behavioral implications. Prereq: 22ACCT404, 22ACCT405. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22ACCT408**Corporate Taxation**

This course covers the major tax issues and concerns faced by US corporations. Topics covered include: Federal State and Local Income taxes, State and Local property taxes, franchise taxes, sales and use taxes, import taxes and foreign tax issues. Treatments of State and Local taxes emphasize tax laws in the local Tri-State area. The course employs short case studies and small- group problem solving exercises. Most of the short cases and problem solving exercises will require the students to research Federal, State and Local Government level Tax WEB sites. Prereq: 22ACCT401. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22ACCT471**Consolidated Financial Statements**

Combination of parent and subsidiary financial accounting statements for US capital markets. Prereq: 22ACCT333. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22ACCT472**Introduction to Taxation**

Analysis of the implications of taxation for decision making, covering corporate, partnership and individual taxation with a focus on the role of accountants and tax preparers in providing sophisticated tax advice. Prereq: 22ACCT282. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22ACCT474**Accounting Information Systems**

Internal control analysis to identify operations and information system cycle goals, error and fraud threats to assess risk, estimate exposure and evaluate procedural, organizational and especially information technology solutions. Prereq: 22ACCT331. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22ACCT483**Auditing I**

Attestation as to fairness of financial statements for owners, creditors and especially publicly traded corporation investors. Prereq: 22ACCT331. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22ACCT521**Fraud Examination**

Prevention, detection and prosecution of fraud with emphasis on asset misappropriation by employees and managers. Prereq: 22ACCT282. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

22ACCT522**Strategic Partners in Accounting**

This course will help you internalize the core competencies that lead to professional success including: professional presence, personal substance, presentation skills, relationship building, time management and leadership. Prereq: 22ACCT324. BoK: NA. Credit Level: U, G. Credit Hrs: 2.00

22ACCT576**Accounting for Non-Profit Organizations**

Fund accounting requirements and procedures for governmental units, charitable and other non- profit organizations Prereq: 22ACCT331. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

Accounting**22ACCT583****Auditing II**

Audit techniques as they apply to specific balance sheet and related income statement accounts. Management services. Prereq: 22ACCT483. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22ACCT589**Accounting Theory**

Reading and research in current accounting literature. Individual student reports. Prereq: 22ACCT324. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22ACCT598**Professional Ethics and Accounting Environment**

Ethical obligations promised to the public by the accounting profession and development of reasoning skills for ethical decision making. Prereq: 22ACCT282. BoK: NA. Credit Level: U, G. Credit Hrs: 4.00

22ACCT599**Independent Study**

Independent study under the direction of a faculty member BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

22ACCT711**Financial Accounting**

Prepares the MBA/MS student to read, interpret, and analyze financial statements. Understand financial statement analysis for benchmarking and performance evaluation. Understand how the market reacts to financial reports. Credit Level: G. Credit Hrs: 4.00

22ACCT713**Accounting For Managers**

use of accounting data in planning and controlling business operations. The study of activity-based costing, product pricing and cost allocations in decision-making. Prereq: 22ACCT711. Credit Level: G. Credit Hrs: 2.00

22ACCT781**Individual Study**

Individual study under the direction of a faculty member. Credit Level: G. Credit Hrs: 1.00-4.00

22ACCT782**Special Topics in Accounting**

In-depth study of special topics in Accounting. Credit Level: G. Credit Hrs: 1.00-4.00

22ACCT821**Managerial Accounting**

Dedicated to an exploration of the discipline of managerial accounting, specifically planning and controlling, non-business decision making, and inventory valuation and income determination. Computer spreadsheets will be used extensively. Prereq: 22ACCT713. Credit Level: G. Credit Hrs: 4.00

22ACCT830**Partnership Taxation**

Income tax consequences of the formation, operation, and termination of a partnership; partnership distributions; sale of a partnership interest; and withdrawal from a partnership. Prereq: 22ACCT872. Credit Level: G. Credit Hrs: 4.00

22ACCT831**Corporate Tax I**

Study of federal tax consequences of the formation and operation of a corporation. Includes distribution of cash and property, an introduction to taxation of Subchapter S corporations and tax problems related to the accumulation of income by the corporation. Prereq: 22ACCT472. Credit Level: G. Credit Hrs: 4.00

22ACCT832**Corporate Tax II**

Study of income tax problems related to stock redemptions, partial liquidations, complete liquidations, collapsible corporations, spin-offs, split-ups, and corporate reorganizations. Prereq: 22ACCT831. Credit

Accounting**22ACCT832****Corporate Tax II**

Level: G. Credit Hrs: 4.00

22ACCT833**Estate and Gift Tax**

Intensive study of federal taxation of estates and transfer of property rights by gift. Determination of the gross estate, taxable estate, taxable gift, and gift tax. Prereq: 22ACCT872. Credit Level: G. Credit Hrs: 4.00

22ACCT838**Deferred Compensation and Other Employee Benefits**

Income tax implications for employer and employees arising from qualified and unqualified pension and profit-sharing plans, accident and health plans, medical reimbursement plans, and other employee benefits are analyzed. Prereq: 22ACCT831, 22ACCT872. Credit Level: G. Credit Hrs: 4.00

22ACCT840**Research in Taxation**

An in-depth income tax research project, approved and supervised by a member of the graduate faculty, is required. Credit Level: G. Credit Hrs: 4.00

22ACCT841**Taxation of Subchapter S Corporations**

An in-depth study of the Internal Revenue laws affecting the organization, capitalization, taxation, and termination of corporations under Subchapter S. Prereq: 22ACCT831. Credit Level: G. Credit Hrs: 4.00

22ACCT842**IRS Practice and Procedure**

An extensive study of the organization of the Internal Revenue Service with emphasis on the practices and procedures available to and used by the Service in its daily dealings with the taxpaying public. Prereq: 22ACCT872. Credit Level: G. Credit Hrs: 4.00

22ACCT843**Advanced Individual Income Taxation**

Examines advanced topics in the area of individual federal income taxation including but not limited to: property transactions, minimum tax, investment interest expense limitations, charitable contributions, property settlements, and tax shelters. Prereq: 22ACCT472. Credit Level: G. Credit Hrs: 4.00

22ACCT844**State and Local Taxation**

Examines structure of state and local laws involving property, sales and use, franchise, and corporate income taxes on the firm operating in either a single or multi-jurisdictional environment. Prereq: 22ACCT831, 22ACCT872. Credit Level: G. Credit Hrs: 4.00

22ACCT845**Tax Accounting Methods and Procedures**

Examines Subchapter E of the Internal Revenue Code. Includes LIFO inventory valuations, accounting periods, installment sales, cash, accrual, hybrid basis accounting, and changes in accounting methods. Prereq: 22ACCT831, 22ACCT872. Credit Level: G. Credit Hrs: 4.00

22ACCT846**Corporate Tax III**

Examines regulations, rulings, and court cases involving all forms of allowable corporate reorganizations under the Internal Revenue Code. Prereq: 22ACCT831, 22ACCT832. Credit Level: G. Credit Hrs: 4.00

22ACCT871**Accounting Theory**

Income, assets, and equities measurement and reporting with emphasis on differences in theory and practice. Prereq: 22ACCT323. Credit Level: G. Credit Hrs: 3.00

Accounting**22ACCT872****Federal Tax Planning and Research**

Methodology and procedures in tax planning and research; study of corporate and shareholder taxation. Prereq: 22ACCT472. Credit Level: G. Credit Hrs: 4.00

22ACCT873**Auditing**

Principles, standards and procedures involved in the conduct of an audit. Internal control, statistical sampling, objectives, and report presentation. Prereq: 22ACCT323. Credit Level: G. Credit Hrs: 4.00

22ACCT874**Advanced Auditing**

Topics covered include advanced financial audit methodologies, professionalism in public accounting arena, audits of computerized systems and advanced quantitative auditing techniques. Prereq: 22ACCT873. Credit Level: G. Credit Hrs: 4.00

22ACCT875**Consolidated Financial Statements**

Accounting for business combinations and the preparation of consolidated financial statements. Prereq: 22ACCT332. Credit Level: G. Credit Hrs: 4.00

22ACCT876**Accounting for Non-Profit Organizations**

Accounting problems for not-for-profit institutions including the fundamentals of fund accounting for governmental units. Prereq: 22ACCT321. Credit Level: G. Credit Hrs: 3.00

22ACCT877**Auditing Transaction Cycles**

This course covers audit field work procedures for examining the acquisition and payment cycle, the inventory and warehousing cycle, the capital acquisition cycle and cash balances. Procedures for closing the audit are also treated. Prereq: 22ACCT873, 22ACCT874. Credit Level: G. Credit Hrs: 4.00

22ACCT879**Accounting Information Systems**

Analysis of accounting information needs of organizations, alternatives for satisfying these needs, and problems in implementation. Prereq: 22ACCT321. Credit Level: G. Credit Hrs: 3.00

22ACCT882**Strategic Cost Management**

Current topics in the area of management accounting including quantitative and behavioral considerations. Prereq: 22ACCT821. Credit Level: G. Credit Hrs: 4.00

22ACCT887**International Accounting**

Theory and practice-analysis of principles and procedures underlying information systems of international business. Terminology, foreign exchange, government regulations and other problem areas are considered. Prereq: 22ACCT321. Credit Level: G. Credit Hrs: 4.00

22ACCT891**Independent Study**

Independent Study in Accounting Credit Level: G. Credit Hrs: 1.00-6.00

22ACCT899**Independent Study in Taxation**

Special topics for students with interests in topics not covered by regular course offerings. With permission of instructor and department chair. Credit Level: G. Credit Hrs: 1.00-6.00

22ACCT901**Accounting Research Workshop**

Evaluating and critiquing current state of the art accounting research. Working papers presented by visiting speakers and faculty in the weekly research workshops. Credit Level: G. Credit Hrs: 1.00-6.00

H=University Honors course.

Accounting**22ACCT911****Research Seminar in Accounting**

Literature survey and replication of state of the art accounting research.

Credit Level: G. Credit Hrs: 3.00

22ACCT971**Research in Accounting**

Variable credit. Credit Level: G. Credit Hrs: 1.00-15.00

22ACCT991**PhD Dissertation Research**

Variable credit. Credit Level: G. Credit Hrs: 1.00-15.00

Business Administration**22BA101****Learning Strategies**

Presents an overview of strategies for student academic success including: time management, note taking, study skills, and adjustment to university life. BoK: NA. Credit Level: U. Credit Hrs: 1.00

22BA140**Pathways to Business**

Examines career goals and pathways enabled by the College of Business. Topics include the resources, opportunities and choices available to pre-business students. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22BA141**Business Pathways FYE 1**

Develops understandings and skills that support an integrated college experience. Part 1 topics provide an extended orientation, exploring and working with university resources. BoK: NA. Credit Level: U. Credit Hrs: 1.00

22BA141H**Business Pathways - FYE 1 Honors**

Develops understandings and skills that support an integrated college experience. Part 1 topics provide an extended orientation, exploring and working with university resources. BoK: NA. Credit Level: U. Credit Hrs: 1.00

22BA142**Business Pathways FYE 2**

Develops understandings and skills that support an integrated college experience. Part 2 topics focus on College of Business support resources and academic options. BoK: NA. Credit Level: U. Credit Hrs: 1.00

22BA142H**Business Pathways - FYE 2 Honors**

Develops understandings and skills that support an integrated college experience. Part 2 topics focus on College of Business support resources and academic options. BoK: NA. Credit Level: U. Credit Hrs: 1.00

22BA143**Business Pathways FYE 3**

Develops understandings and skills that support an integrated college experience. Part 3 is dedicated to exploring business disciplines and professional goal setting. BoK: NA. Credit Level: U. Credit Hrs: 1.00

22BA143H**Business Pathways - FYE 3 Honors**

Develops understandings and skills that support an integrated college experience. Part 3 is dedicated to exploring business disciplines and professional goal setting. BoK: NA. Credit Level: U. Credit Hrs: 1.00

22BA151**Management Skills Practicum I**

Introduction to the domain of business and microcomputer applications. Using a Total Quality Management framework, explores opportunities and challenges facing business. Introduces students to the College of Business, its programs and resources. BoK: NA. Credit Level: U. Credit

Business Administration**22BA151****Management Skills Practicum I**

Hrs: 2.00

22BA151H**Management Skills Practicum I**

Introduction to the domain of business - the wider environment, career choices and related college and university resources. Through lecture, projects and small breakout groups, this course explores opportunities and challenges facing business, while helping freshmen develop a solid foundation for their academic and business careers. BoK: NA. Credit Level: U. Credit Hrs: 2.00

22BA152**Management Skills Practicum II**

Designed to assist students in developing career objectives, a plan for their own business education, and a plan for improving their personal performance levels. Students also develop a framework for analyzing ethical issues in business settings, and for managing a diverse workforce. Prereq: 22BA151. BoK: SE. Credit Level: U. Credit Hrs: 2.00

22BA152H**Management Skills Practicum II Honors**

Designed to assist students in developing career objectives, a plan for their own business education, and a plan for improving their personal performance levels. Students also develop a framework for analyzing ethical issues in business settings, and for managing a diverse workforce. Prereq: 22BA151H. BoK: NA. Credit Level: U. Credit Hrs: 2.00

22BA181**Personal Money Management**

Helps students learn to manage their financial situation when they enter a university. Topics include cash flow and debt management, time value of money, financing education, saving money and basic taxes. BoK: NA. Credit Level: U. Credit Hrs: 1.00

22BA201**Business Scholars Transition**

This course seeks to help students who have transferred or transitioned into Business Scholars leverage program opportunities. Business Scholars purposefully retains program flexibility and experiential options. Utilizing that flexibility requires substantial understanding of existing opportunities, of one's own strengths, weaknesses and goals, and of effective personal planning. This course focuses on these issues. BoK: NA. Credit Level: U. Credit Hrs: 0.00-1.00

22BA497**Technology Consulting**

Supervised leadership and support experience that involves working with the College of Business Information Technology and/or Distance Learning efforts. No more than six credits from the combination of 22BA497, 22BA498, and 22BA499 may be applied toward the BBA degree. Advanced non-business or free elective credit only. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

22BA498**Teaching Assistant**

Supervised leadership and support experience as a College of Business teaching assistant. No more than six credits from the combinations of 22BA497, 22BA498, and 22BA499 may be applied toward the BBA degree. Advanced non-business or free elective credit only. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22BA499**Peer Advising**

Supervised leadership and support as a peer advisor. No more than six credits from the combination of 22BA497, 22BA498, and 22BA499 may be applied toward the BBA degree. Advanced non-business or free elective credit only. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Business Administration**22BA580****Business Strategy**

The capstone course of undergraduate curriculum. Provides a framework for integrating knowledge from all functional areas. Perspective is that of general management of the enterprise. Prereq: 22FIN380, 22INTB380, 22MGMT380, 22QA380, 22OM380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22BA595**Research in Business Administration**

Research on advanced topic in business administration designed and coordinated by members of the class. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

22BA711**Communication For Managers**

Focuses on communication in organizations, particularly writing, interpersonal communication, small-group communication, and presentational speaking. Issues considered include coherence, clarity, style, tone, empathy, and other basic elements in communication success. Credit Level: G. Credit Hrs: 2.00

22BA712**MBA Capstone Experience**

The capstone course for MBA students that requires integration of the MBA program coursework in the definition and analysis of, and solution development for, a significant business challenge. To be taken during the final quarter of the MBA program. Prereq: 22MGMT712. Credit Level: G. Credit Hrs: 2.00

22BA713**Communications for Managers II**

This course will offer further opportunities to refine and improve key business communication skills, particularly making presentations in a business context and creating concise, error-free business documents. These two congruent skills sets are almost universally identified as values critical to success in management. The common element across all focus areas of an MBA-oriented career is that -- technical and functional expertise notwithstanding -- communication proficiency is critical to obtaining influence in a competitive environment. Prereq: 22BA711. Credit Level: G. Credit Hrs: 2.00

22BA725**Global Entrepreneurship**

This course addresses the following topics: Trends in international business; the global business environment; formulating and implementing a global strategy; and emerging and contemporary issues in global business as they relate to entrepreneurial activity. Credit Level: G. Credit Hrs: 4.00

22BA751**Elective Credit A**

Additional course related study under the direction of a faculty member. Credit Level: G. Credit Hrs: 1.00-4.00

22BA777**Graduate Career Management**

Career development and job search strategies, self assessment, resume and marketing tool development, enhancement of case and behavioral interviewing skills, with a focus on internships and full-time employment after graduation. Credit Level: G. Credit Hrs: 1.00

22BA781**Individual Study**

Individual Study under the direction of a faculty member. Credit Level: G. Credit Hrs: 1.00-4.00

22BA782**Special Topics in Business Administration**

In-depth study of special topics in Business Administration. Credit Level: G. Credit Hrs: 1.00-4.00

Business Administration**22BA791****Global Business Topics**

An intensive study abroad seminar dealing with international management issues. Credit Level: G. Credit Hrs: 1.00-8.00

22BA800**Readings In Business Administration**

Project and research work undertaken by a student with the approval and supervision of a faculty member. Credit Level: G. Credit Hrs: 1.00-3.00

22BA802**Managerial Communications**

Introduces students to the basic concepts of effective oral and written communication and develops strong interpersonal skills. Integration of concepts in presentations in respective areas of business and use of interactive material and exercises will be extensive. Credit Level: G. Credit Hrs: 3.00

22BA870**Competitive Analysis**

This course deals with competition: how to assess it and how to react/anticipate it. As such, the focus is on the environment of, and the strategic options available to, a business unit. Credit Level: G. Credit Hrs: 3.00

22BA890**Strategic Management**

The course focuses on the management of the total enterprise. Emphasis is placed on a student's ability to make decisions in the face of unstructured problems and the integration of knowledge from all functional areas of business. Prereq: 22BA870. Credit Level: G. Credit Hrs: 3.00

22BA895**Special Topics in Business Administration**

In-depth study of selected topics in business administration. Credit Level: G. Credit Hrs: 3.00

22BA990**Introduction to Research and Teaching for Doctoral Students**

Introduces the role of research, writing and teaching in the profession and provides doctoral students with a foundation for success in the academic profession. Credit Level: G. Credit Hrs: 3.00

22BA992**Doctoral Seminar**

1-15 gr cr. Variable cr. Credit Level: G. Credit Hrs: 1.00-15.00

Business Law**22BLAW280****Legal Environment of Business**

Examines the legal and ethical dimensions of managerial decisions. Topics include human resource, consumer protection, antitrust and contract law. Formerly 22 BLAW 271. BoK: SE. Credit Level: U. Credit Hrs: 4.00

22BLAW435**Legal Aspects of Entrepreneurship**

This course will acquaint the student with the various forms of business organizations and ownership so s/he will be able to select the best form for the implementation of business decisions. Prereq: 22BLAW280. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22BLAW445**Global Legal Environment**

Provides the business person with a working knowledge of the ground rules for international trade to help compete successfully. This course is a survey of the significant areas of concern to managers making the decision to compete globally. Prereq: 22BLAW280, 22INTB380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Business Law**22BLAW455****The Law of Competitive Behavior**

Course examines impact of law at various stages of product development and marketing. Students become acquainted with law protecting product concept, constitutional considerations in advertising and completion, criminal consequences, and ethical concerns in marketing. Prereq: 22BLAW271. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22BLAW599**Independent Study**

Individual study under the direction of a faculty member BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

22BLAW711**Business Law for Managers**

Develops an appreciation for the legal and regulatory environment in which the firm operates. Factors within law and regulation that can influence managerial decision making are explored. The role of antitrust, unfair competition, EEO, labor law, and environmental regulations are examined. Credit Level: G. Credit Hrs: 2.00

22BLAW781**Individual Study**

Individual study under the direction of a faculty member Credit Level: G. Credit Hrs: 1.00-4.00

22BLAW850**Legal and Regulatory Environment**

This course is designed to acquaint students with the legal, regulatory, and ethical issues which are frequently encountered by business managers and their organizations. Credit Level: G. Credit Hrs: 3.00

22BLAW851**Corporate Law I**

Examines the areas of commercial law which affect the decisions of accounting professional and financial managers, including the principles of the Uniform Commercial Code. Credit Level: G. Credit Hrs: 4.00

22BLAW852**Corporate Law II**

Familiarize students with the legal structures of business enterprise and the legal issues, particularly as they relate to legal liability of the accountant. Credit Level: G. Credit Hrs: 4.00

22BLAW891**Independent Study**

Individual study under the direction of a faculty member. Credit Level: G. Credit Hrs: 1.00-6.00

Entrepreneurship/Family Business**22ENTR401****Introduction to Innovation**

This introductory course on innovation and entrepreneurship addresses two major topics. 1. The seven knowledge areas of innovation: intellect, domain knowledge, thinking, problem solving, creativity, innovation and execution. 2. The innovation process model is applied to entrepreneurial ideation, conceptualization and opportunity recognition. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22ENTR410**Management of Closely Held Businesses**

Introduces students to the unique management issues facing family/private owned businesses. Prereq: 22MGMT380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22ENTR460**Financial Management in Private Firms**

Introduces students to the unique accounting, financial and information issues of private firms. Topics include sources of capital, financial analysis, business valuation, financial management and firm and owner tax and estate implications. Prereq: 22ACCT282, 22BLAW280, 22IS280, 22QA282, 22MKTG280. BoK: NA. Credit Level: U. Credit Hrs:

Entrepreneurship/Family Business**22ENTR460****Financial Management in Private Firms**

4.00

22ENTR501**Corporate Entrepreneurship**

The focus of the undergraduate course is to encourage students to study the theories, principles, concepts, practices and applications of corporate entrepreneurship in order to prepare them to engage effectively in intrapreneurial actions. Case method and lecture will be used. Prereq: 22ACCT282, 22BLAW280, 22IS280, 22QA282, 22MKTG280. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22ENTR570**Entrepreneurship**

Evaluation and initial operation of high potential ventures. Case method. Prereq: 22ACCT282, 22BLAW280, 22IS280, 22QA282, 22MKTG280. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22ENTR593**Special Topics in Family Business/Entrepreneurship**

In depth study of selected topics. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22ENTR598**Capstone in Family Business/Entrepreneurship**

Provides direct assistance to small businesses and provides the student an opportunity to aid in the solution of real-world problems. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22ENTR599**Guided Study in Family Business/Entrepreneurship**

Individual study under direction of a faculty member. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22ENTR705**Entrepreneurship New Venture Creation**

Evaluation and initial operations of high potential ventures. Case method. Credit Level: G. Credit Hrs: 4.00

22ENTR715**Entrepreneurship and E-Business**

This course focuses on e-business design to initiate, support and build entrepreneurial activities. Credit Level: G. Credit Hrs: 4.00

22ENTR725**Global Entrepreneurship**

This course addresses the following topics: trends in international business, the global business environment, formulating and implementing a global strategy, and emerging and contemporary issues in global business as they relate to entrepreneurial activity. Credit Level: G. Credit Hrs: 4.00

22ENTR781**Independent Study in Entrepreneurship**

Student independently pursues small, entrepreneurial and/or family business topics of specific individual interest. Student must obtain a faculty supervisor and approval prior to registration. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-4.00

22ENTR782**Management of Closely Held and Family Business**

This course emphasis is strategic, aimed at development of a systematic approach for assessing and improving the health of a family/private firm from the perspective of the owner, partner, or CEO. Credit Level: G. Credit Hrs: 4.00

Finance**22FIN281****Personal Finance**

Principles and procedures in planning and management of personal financial problems. Development of personal finance plans and budgets. The role and use of financial intermediaries, such as credit and savings institutions, in family financing; insurance, real estate and

Finance**22FIN281****Personal Finance**

securities investments; estate planning. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22FIN361**Foundations of Finance: Risk and Value**

Provides the student with an understanding of the theoretical underpinnings of finance. The course covers a set of topics focusing on preparing students for financial decision-making. Prereq: 22FIN352. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22FIN380**Business Finance**

This is the core finance course required of business majors. Business Finance acquaints students with the fundamental principles of finance. Two key concepts developed in the course will be the time value of money and the tradeoff between risk and return. You will develop the analytical tools necessary to interpret corporate financial statements in order to value many financial investments. A major emphasis in the class will be on learning how to think systematically about financial valuation and how to apply these insights to a variety of business (e.g. capital budgeting decisions) and personal (e.g. retirement planning, automobile/mortgage loans) financial problems. Prereq: 15MATH227, 22QA281, 22QA282. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22FIN401**Corporate Finance**

In this course students will develop the analytical tools necessary for analyzing corporate financing decisions. Central to these decisions is the firm's cost of capital. You will learn how to compute the cost of capital and how to apply it to numerous questions like what is the value of the firm, should the firm raise capital, what is the optimal mix of debt and equity, what should the firm's payout (dividend) policy be, and should the firm lease or buy its assets? Financial modeling (in EXCEL) will be a major emphasis in the course. Prereq: 22FIN380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22FIN402**Raising Capital**

This course covers financial markets, instruments and institutions with the primary focus being on the capital raising and financing activities of firms at different stages in their life cycles. One of the critical activities a company must do well to succeed is the raising of capital. The when, where and how of raising capital is the focus of the course. The perspective will typically be that of a firm wishing to raise capital, though we will also examine financing transactions from the viewpoint of the participating financial intermediary. We analyze financing choices for younger firms, for which there exists little or no security price information and then examine capital raising issues relevant to larger, listed firms. Topics to be covered in this course include the role of financial intermediaries - such as commercial and investment banks - in the capital raising process, the decision to go public, mechanism and pricing of initial public offerings, role of investment banks in IPOs, high-tech firm financing, venture capital, bank debt, private placements, public debt markets, commercial paper and junk bond markets. Prereq: 22FIN401. BoK: NA. Credit Level: U. Credit Hrs: 2.00

22FIN403**Mergers and Acquisitions**

This course uses an analytical framework and real-world applications to introduce the key principles and techniques of successful mergers, acquisitions, divestitures and leverage buyouts. It addresses crucial questions including: Why do mergers that looked great on paper fail in reality? How does one value companies acquiring or being acquired? What is the best negotiation strategy? What does it take to make the "synergy" come to life? How can a merger be funded in such a way as to retain the merged entity's flexibility? When do leveraged buy-outs make sense and how can they be financed? One goal for students is to develop a critical appreciation of key finance criteria in a proposed acquisition, so as to grasp the main strengths and risks of the company's strategic and financial alternatives. Prereq: 22FIN401,

Finance**22FIN403****Mergers and Acquisitions**

22FIN431. BoK: NA. Credit Level: U. Credit Hrs: 2.00

22FIN404**Real Options**

This is a course in capital budgeting under uncertainty and flexibility. The objective is for each student to develop more advanced capital budgeting skills that will enable you to attack real-world corporate investment decisions in a sophisticated manner. Traditional NPV analysis assumes that corporate investment decisions are "now or never" and that they are irreversible. However, most corporate projects have a great deal of flexibility in their timing, scale, etc. After taking this course, students will be able to identify the optionality in corporate investments; choose the proper model for analysis; handle risk appropriately; and clearly and persuasively present a contingent claims analysis of a corporate investment proposal. Prereq: 22FIN401, 22FIN421. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22FIN405**Cases in Corporate Finance**

The goal of this course is to have students apply the financial theory developed in the core finance courses to analyze and make recommendation concerning corporate financial decisions in the context of case studies of actual businesses. This course covers a wide range of finance topics: financial analysis, estimating funds requirements, working capital management, capital structure policies, financing decisions, estimation of the cost of capital, investment decisions and valuation. In addition, we will be integrating oral communication through class participation, written communication and the application of the PC through written cases, the regulatory and legal environment, international finance issues, and the stressing of ethical issues of businesses. Prereq: 22FIN401, 22FIN431. BoK: NA. Credit Level: U. Credit Hrs: 2.00

22FIN406**Treasury**

This course is for an overview of corporate treasury functions. The goal of the course is to have students know how to do the following types of financial analysis concerning corporate treasury functions: maintain optimal cash positioning; employ working capital strategies and tools; utilize various types of payment systems; monitor and control corporate exposure to financial and operational risks; manage cross-border funds movement; coordinate financial functions and sharing of financial information; delineate appropriate ethical behaviors; recognize corporate governance issues; execute fiduciary responsibilities and build relationships with financial services providers. Prereq: 22FIN401. BoK: NA. Credit Level: U. Credit Hrs: 2.00

22FIN407**International Finance**

International finance, and international business finance in particular, is all about making decisions in the context of international financial environment. This course focuses on developing some of the tools that are necessary for students to be able to frame and solve the basic problems in international financial decision-making. We will confine our study to the topics of international financial environment, exchange rate behavior and its management, and investment/financing decisions of multi-national corporations (MNCs). By the end of the course you should be comfortable with the assumptions and techniques required for making financial decisions by the MNCs. Prereq: 22FIN380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22FIN408**New Venture Finance**

This course is required for all Entrepreneurship majors. The objective is to provide students with a working knowledge of the accounting and finance tools required by entrepreneurs to understand, evaluate, fund and manage new ventures. The class will examine approaches to financing new and growing ventures that will increase the likelihood of success, while avoiding the pitfalls of those which have failed. Prereq:

Finance**22FIN408****New Venture Finance**

22FIN380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22FIN411**Investments**

This course provides a detailed overview of investment management. The goal of the course is to provide students an understanding of the key differences in the various investment vehicles as well as a set of general techniques for characterizing and valuing the risks inherent in these various instruments. The course will consider the analysis of both equity and debt instruments, leaving the price of derivative securities (such as options, futures and securitized instruments to FIN 421 (Derivative Securities and Markets). In addition to providing a theoretical treatment of valuation techniques, FIN 411 also provides the practical skills of financial modeling using spreadsheets, enabling the student to conduct applied analysis useful in their future professional careers. The course will also examine the value of active investment management given empirical evidence on the efficiency of various markets and develop methods for evaluating the performance of investment managers. The course will also discuss tax implications and strategies. Prereq: 22FIN380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22FIN413**Portfolio Management**

This overview of portfolio management presents several views and approaches to investment decision making in today's markets. Portfolio management is the professional management of various securities to meet specified investment goals for the benefit of investors. To accomplish these objectives, we need to learn about pricing models, active and passive management, investment styles and market efficiency. Prereq: 22FIN401, 22FIN411, 22FIN421. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22FIN414**Fixed Income**

The principal objective of this course is to provide a detailed analysis of fixed income securities. By the end of the course students will have a good working knowledge of the analysis of debt investments, including basic characteristics of bonds in alternative sectors, valuation tools, and factors that influence bond yields. Prereq: 22FIN401, 22FIN411, 22FIN421. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22FIN421**Derivatives Markets and Securities**

The principal objective of this course is to provide a detailed examination of option, futures, forwards and swaps. By the end of the course students will have a good knowledge of how these contracts work, how they are traded, how they are used, and how they are priced. A major emphasis in the class will be on learning how to use the binomial model to think systematically about derivative instruments. Prereq: 22FIN380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22FIN431**Financial Information and Valuation**

The course is about the analysis of financial information particularly firms' financial statements for making decisions to invest in businesses. The primary focus is on equity (share) valuation with some attention given to credit analysis and the valuation of debt. The methods of fundamental analysis will be examined in detail & applied in cases and projects involving listed companies. Topics include models of shareholder value, a comparison of accrual accounting and discounted cash flow approaches to valuation, the analysis of profitability, growth and valuation generation in a firm, diagnosing accounting quality, forecasting earnings and cash flow, proforma analysis for strategy and planning, and the determination of price/earnings (P/E) and market-to-book (P/B) ratios. Prereq: 22ACCT281, 22FIN380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

Finance**22FIN452****Securities Trading**

This course examines the theory and practice of securities trading at exchanges around the world. The goal of the course is to have students understand how trading and the design of markets affects liquidity, informativeness, transparency, volatility and fairness. During the course, students will analyze alternative trading strategies, the cost of trading, innovations in exchanges, and regulatory policy. The course also provides hands-on trading experience using realistic trading simulations. Prereq: 22FIN401. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22FIN453**Financial Institutions**

This course provides a survey of financial institutions. The goal of the course is to characterize the different functions, services and regulatory environments of the various institutions in the financial services industry. The primary focus is on understanding the range of services offered and the typical challenges financial services firms face and how they create value. Prereq: 22FIN401. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22FIN454**Risk Management**

After a brief introduction to the nature of financial institutions, this course focuses on the identification, measurement and management of the risks faced by banks and other financial institutions. The risks identified include interest rate risk, market risk, foreign exchange risk, sovereign risk and liquidity risk. Once the risks are identified, the initial focus is on how to measure them and then on the techniques used to manage them. Prereq: 22FIN401, 22FIN421. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22FIN461**Advanced Corporate Finance**

Develops the analytical framework for making investment, financing, and dividend decisions in the non-financial firm. Prereq: 22FIN361. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22FIN462**Investment Analysis**

Focuses on applying the tools and strategies of investment management in contemporary markets. Prereq: 22FIN361. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22FIN463**Financial Management of Financial Institutions**

Focuses on the financial management of financial institutions operating in a changing environment. Particular stress is given to managing risk. Prereq: 22FIN361. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22FIN465**Treasury Management**

Analysis and efficient management of operating cash flows. Prereq: 22FIN361. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22FIN471**Financial Markets and Institutions**

Applications of derivatives to the analysis and management of portfolio risk and return. Prereq: 22FIN352. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22FIN472**Cases in Finance**

Applications of derivatives to the analysis and management of portfolio risk and return. Prereq: 22FIN361. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22FIN591**Problems in Financial Decision Making**

This capstone finance course provides the student with the opportunity to apply knowledge and skills from earlier finance courses. Prereq: 22FIN461. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

Finance**22FIN593****Special Topics in Finance**

Special offerings under this course number will be publicized on bulletin boards and by classroom announcement. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22FIN596**Guided Study in Finance**

Individual study under the direction of a faculty member. Prereq: 22FIN380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22FIN701**Investment Professional Ethics**

A survey of essential concepts in micro-economics that influence the financial performance of firms and financial markets. Credit Level: G. Credit Hrs: 2.00

22FIN711**Finance for Managers**

Examines the financial management of the firm including the following topics: risk and return, discounted cash flow techniques, valuation models, cost of capital, analysis of capital expenditures, optimal capital structure, working capital management, and corporate restructuring. Credit Level: G. Credit Hrs: 4.00

22FIN713**Financial Analysis Tools**

The objective of this course is to provide managers facility with the fundamental methods used in financial analysis. These methods will be used extensively in FIN 714 (Financial Management) and throughout the MBA program when financial analysis is required. The set of methods include: time value of money, stock and bond pricing, net present value, risk measurements, risk and return, the capital asset pricing model, and basic capital budgeting. Credit Level: G. Credit Hrs: 2.00

22FIN714**Financial Management**

Using the finance tools developed in FIN 713, this course examines managerial financial decision making, including the following topics: capital budgeting, raising capital, financing policy, capital structure choice, payout policy, the pricing and use of financial options, real options, and selected topics such as mergers and acquisitions, risk management, and bankruptcy. Prereq: 22FIN713. Credit Level: G. Credit Hrs: 4.00

22FIN715**The Global Economic Context of Business**

This course provides future managers with a working knowledge of the major global macroeconomic forces and institutions that affect business. The primary focus of this course is on how managers can optimally respond to these forces. The course focuses on the causes and consequences of changes in the following macroeconomics variables: aggregate demand, employment, labor productivity, interest rates, exchange rates, business cycles, and international flows of goods, services, and capital. Current global economic events will be prominently featured during the course. Credit Level: G. Credit Hrs: 2.00

22FIN725**Financial Economics**

A survey of essential concepts in micro-economics that influence the financial performance of firms and financial markets. Credit Level: G. Credit Hrs: 4.00

22FIN731**Financial Econometrics I**

An in-depth analysis of the empirical foundations of finance. Topics covered include measurement of ex-post returns, estimation of risk and return parameters, probability distributions of asset market returns, empirical asset pricing models, and market efficiency. Credit Level: G. Credit Hrs: 4.00

Finance**22FIN732****Financial Econometrics II**

Continuation of Financial Econometrics I. Focuses on application to financial market data. Prereq: 22FIN731. Credit Level: G. Credit Hrs: 2.00

22FIN735**Financial Information and Valuation**

The evaluation and uses of public financial accounting information and the implications of this information for security analysis and valuation. Credit Level: G. Credit Hrs: 4.00

22FIN736**Equity Securities Analysis and Valuation**

Applications of valuation theory and financial accounting information for the analysis and valuation of equity securities. Prereq: 22FIN711, 22FIN735. Credit Level: G. Credit Hrs: 4.00

22FIN737**Fixed Income Securities Analysis and Valuation**

Applications of valuation theory and financial accounting information for the analysis and valuation of fixed income securities. Prereq: 22FIN713. Credit Level: G. Credit Hrs: 4.00

22FIN741**Investments**

An in-depth analysis of equity, fixed income securities, derivatives, and portfolio formation Prereq: 22FIN711. Credit Level: G. Credit Hrs: 4.00

22FIN742**Options and Futures**

An in-depth analysis of options, futures, swaps and other derivative securities and their role and uses in investments. Prereq: 22FIN711. Credit Level: G. Credit Hrs: 4.00

22FIN745**Portfolio Management I**

An in-depth coverage of portfolio theory and performance evaluation. Prereq: 22FIN735, 22FIN711. Credit Level: G. Credit Hrs: 4.00

22FIN746**Portfolio Management II**

Application of portfolio theory to the construction and management of investment portfolios. Prereq: 22FIN745. Credit Level: G. Credit Hrs: 2.00

22FIN747**Real Estate and Alternative Investments**

A survey of essential topics in real estate and alternative investments and their role in portfolio diversification and portfolio performance. Prereq: 22FIN745. Coreq: 22FIN735, 22FIN711. Credit Level: G. Credit Hrs: 2.00

22FIN751**Money and Capital Markets**

An in-depth analysis of institutions, money markets, bond markets, and equity markets that comprise the financial system. Prereq: 22FIN711. Credit Level: G. Credit Hrs: 4.00

22FIN752**Derivative Markets and Risk Management**

Applications of derivatives to the analysis and management of portfolio risk and return. Prereq: 22FIN711, 22FIN735. Credit Level: G. Credit Hrs: 2.00

22FIN755**International Finance**

An in-depth analysis of the global aspects of financial markets and corporate finance. Prereq: 22FIN711. Credit Level: G. Credit Hrs: 4.00

22FIN756**International Financial Markets and Institutions**

A survey of essential concepts in international macro finance that influence risk and return in global capital markets. Prereq: 22FIN711, 22FIN735. Credit Level: G. Credit Hrs: 2.00

Honors Plus**22HNPL599H****Honors PLUS - Independent Study**

Independent study course for students participating in the Carl H. Lindner Honors-PLUS program. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

International Business**22INTB214H****Cultural Competency: Understanding the Cultural Gap**

Course will focus on understanding culture and development of skills necessary to work in a global business environment. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22INTB380**Global Business Environment**

Introductory course in international business. Provides an overview of financial, economic, marketing, management, accounting and operations issues related to doing business in a global environment. Also covers trade policy and international institutions involved in global business. Prereq: 22ACCT282, 15ECON101, 15ECON102. BoK: DC. Credit Level: U. Credit Hrs: 4.00

22INTB380H**Global Business Environment - Honors**

Introductory course in international business. Provides an overview of financial, economic, marketing, management, accounting and operations issues related to doing business in a global environment. Also covers trade policy and international institutions involved in global business. Prereq: 22ACCT282, 15ECON101, 15ECON102. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22INTB398**Understanding European Business - Belgium**

Students will develop an understanding of EU business culture and practices through a combination of lectures, discussion, company visits and experiential activities. Prereq: 22INTB380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22INTB450**International Management**

Development of a global perspective and strategy for the multinational corporation. Impact of foreign environments. Prereq: 22MGMT380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22INTB501**Study Abroad A**

International course at a foreign institution. BoK: NA. Credit Level: U. Credit Hrs: 1.00-4.00

22INTB502**Study Abroad - Linz, Austria: Intensive German**

Intensive German Language course delivered at Johannes Kepler University, in Linz, Austria as part of study abroad program Prereq: 22INTB390. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22INTB503**Study Abroad - Linz, Austria: Language & Culture**

German Language and Austrian culture course delivered at Johannes Kepler University in Linz, Austria as part of study abroad program. Prereq: 22INTB390. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22INTB504**Study Abroad - Linz, Austria I**

Study Abroad, Linz, Austria: Students will enroll in Business courses at Johannes Kepler University, Linz, Austria Prereq: 22INTB390. BoK: NA. Credit Level: U. Credit Hrs: 3.00-6.00

22INTB505**Study Abroad Linz, Austria II**

Study Abroad, Linz, Austria: Students will enroll in Business courses at Johannes Kepler University, Linz, Austria. Prereq: 22INTB390. BoK: NA. Credit Level: U. Credit Hrs: 3.00-6.00

International Business**22INTB506****Study Abroad - Linz, Austria III**

Study Abroad, Linz, Austria: Students will enroll in Business courses at Johannes Kepler University, Linz, Austria. Prereq: 22INTB390. BoK: NA. Credit Level: U. Credit Hrs: 3.00-6.00

22INTB507**Study Abroad - Linz, Austria**

Study Abroad, Linz, Austria: Students will enroll in Business courses at Johannes Kepler University, Linz, Austria. Prereq: 22INTB390. BoK: NA. Credit Level: U. Credit Hrs: 3.00-6.00

22INTB511**Study Abroad: China**

Students will visit the People's Republic of China and explore economic, political, social and cultural conditions as they apply to doing business in China. Students will attend class sessions that will include lectures by local Chinese experts and foreign business executives. They will visit companies in China and they will visit key cultural sites. Prereq: 22INTB390. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22INTB512**Study Abroad Chile: Doing Business in Chile**

Students will attend classes at the Universidad del Desarrollo, in Santiago, Chile. The course focuses on building understanding of the Chilean business environment, trade relations with the US and development of an enlarged trade agreement between North and South America. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22INTB513**Study Abroad: Mexico**

Students will attend class sessions in Mexico focused on doing business in Mexico. They will visit local companies and visit historic and cultural sites. Prereq: 22INTB380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22INTB515**Service Learning Study Abroad: Central America**

Students will work on a service learning project in Central America. The project will involve some business consulting to local business. Prereq: 22INTB380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22INTB516**Study Abroad Ireland**

Students will enroll in business classes at the University College, Cork, Ireland. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22INTB517**Study Abroad Thailand: Doing Business in Thailand**

Students will attend classes in Thailand. The course focuses on building understanding of the Thai business environment and trade relations with the US. Prereq: 22INTB390. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22INTB518**Study Abroad France and Spain**

Students will visit Toulouse, France and Barcelona, Spain and explore economic, political, social and cultural conditions as they apply to doing business in France, Spain and the European Union. Students will attend class sessions that will include lectures by local European experts and foreign business executives. They will visit companies in France and Spain and will visit key cultural sites. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22INTB525**International Accounting and Financial Management**

Identify and explain accounting and financial controls necessary to be an effective global manager. Prereq: 22INTB380, 22ACCT282, 22FIN352. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22INTB530**Management of Cultural Differences**

Students will do extensive reading and review of the literature on managing multi-cultural environments. Students will present analyses of

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities.

LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

International Business**22INTB530****Management of Cultural Differences**

cross-cultural management issues; assessments of business practices in other cultures; and development of cross cultural training principles.

Prereq: 22MGMT380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22INTB535**Virtual Teams**

This course will focus on cross-cultural communications, teamwork and virtual teams. UC students will work virtually with European students at one of our partner schools in Europe. (No travel is involved.) You will work in team (including UC and European students) using video conference technology, email and Internet/Web camera to do research on teams, teamwork, virtual teams and cross-cultural communication. The course involves assigned readings on teams and teamwork as well as research in particular topical areas. Prereq: 22MGMT380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22INTB571**International Marketing**

Marketing in the global marketplace. Effects of culture on marketing decision making. Prereq: 22MKTG280. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22INTB587**International Accounting**

Discusses the unique aspects of accounting for multinational corporations, accounting principles, and financial reporting practices of different countries and the development of international accounting and its standards. Prereq: 22INTB380, 22ACCT282. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22INTB593**Special Topics in International Business**

In depth study of selected topics in international business. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22INTB594**Current Issues in International Business**

The purpose of this course is to investigate current issues and controversies in global business. The rising power of China, instability in the Middle East, and north-south economic disparity are just a few of the critical issues in global business today. Through a combination of book chapters, cases and articles in the business press, we will investigate the problems associated with globalization, outsourcing, immigration, political and economic instability, resource scarcity, and cultural differences. This is a project-based seminar/learning community since this is an emerging field. Prereq: 22INTB380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22INTB599**Guided Study in International Business**

Individual study under the direction of a faculty member. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00-4.00

22INTB801**International Study Abroad - Location A**

An intensive course in International Management. Credit Level: G. Credit Hrs: 1.00-8.00

22INTB802**International Business: Study Abroad Linz-Prague**

Students will study the expanding European Union and doing business in Central and Eastern Europe. Course will focus on emergence of market economies, cross-cultural management, and the global impact of EU expansion. Credit Level: G. Credit Hrs: 4.00

22INTB803**Study Abroad Chile: Doing Business in Chile**

Students will attend classes in Santiago, Chile. The course focuses on building understanding of the Chilean business environment, trade relations with the US, and development of an enlarged trade agreement between North and South America. Credit Level: G. Credit Hrs: 4.00

International Business**22INTB804****Study Abroad China: Doing Business in China**

Students will attend classes with partner universities at multiple sites in China. Course content focuses on the development of China's market economy, entry into the WTO, and trade relations with the west Credit Level: G. Credit Hrs: 4.00

22INTB805**Study Abroad France: Doing Business in the European Union**

Students will attend classes with partner universities in France and Spain. The course focuses on European culture, business practices and the European Union. Credit Level: G. Credit Hrs: 4.00

22INTB806**Study Abroad Germany: Doing Business in Germany and the European Union**

Students will attend classes with partner universities in Germany. The course focuses on German reunification, European culture, business practices and the European Union. Credit Level: G. Credit Hrs: 4.00

22INTB807**Study Abroad Thailand: Doing Business in Thailand and Southeast Asia**

Students will attend classes in Thailand. The course focuses on developing economies of SE Asia, the influence of Buddhist culture on business, and Thai trade. Credit Level: G. Credit Hrs: 4.00

22INTB891**Independent Study**

Independent study in International Business Credit Level: G. Credit Hrs: 1.00-6.00

Information Systems**22IS212****Foundations of Information Systems**

This course introduces students to the basic building blocks of an information system - hardware, software, and data. In addition, students are taught the fundamentals of structured programming. BoK: NS. Credit Level: U. Credit Hrs: 4.00

22IS280**Computer Problem Solving for Business**

Provides foundational understandings and skills for applying information technology to managerial decision making and problem solving. Topics include information systems such as decision support, enterprise, transaction processing and knowledge management systems. Formerly 22 IS 270. BoK: NA. Credit Level: U. Credit Hrs: 5.00

22IS280H**Computer Problem Solving for Business**

Provide foundational understandings and skills for applying information technology to managerial decision making and problem solving. Topics include information systems such as decision support, enterprise, transaction processing and knowledge management systems. Formerly 22 IS 270. BoK: NA. Credit Level: U. Credit Hrs: 5.00

22IS290**Business Application Development**

This is an introductory course on Web application development, using Microsoft's newest development platform, Visual Studio.Net 2008. This course also covers ASP.Net and VB.Net. Students are expected to develop a simple Web application that incorporates these technologies. The course includes a mandatory lab component where students can practice with the concepts and approaches discussed in the classroom. The objectives of the course are to: introduce students to the basic components of an information system, give students hands-on experience with the development of a simple, dynamic (i.e. data driven) Web-based application, using one of the most popular development platforms in industry (.Net). BoK: NS. Credit Level: U. Credit Hrs: 4.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Information Systems**22IS320****Business Process Modeling**

One of the most important activities for an information systems professional is analyzing, modeling and documenting business processes. Process models can greatly benefit organizations by helping them to identify opportunities to use information technology to streamline operations and optimize organizational performance. The objectives of this course are to expose students to the importance of business process modeling, the skills required of effective business analysts, the systems development life cycle, specific process modeling techniques such as Data Flow Diagrams and Use Cases, the role of Business Process Management (BPM) at the organizational level, and one or more specific BPM tools (e.g. BlueSpring or Pro Vision). BoK: NA. Credit Level: U. Credit Hrs: 4.00

22IS330**Database Design**

Data is increasingly recognized as a vital organizational resource. With the growing use of advanced data management technologies and applications, database systems have been recognized as strategic resources to achieve competitive advantage. The objective of this course is to provide students with a comprehensive introduction to the following managerial and technical issues in database design: concepts of data management and database systems, database design life cycle, conceptual data modeling using entity-relationship models, logical database design using relational data model, normalization of relations, and relational algebra and structure query language (SQL). Coreq: 22IS290. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22IS340**IT Architecture and Networks**

This course is designed to give IS students a strong foundation in systems architecture and the principles of data communications. Specifically, this course will give the student an understanding of the following aspects of data communications: technology - the technology underlying computer systems, data communications, networks and communications software; architecture - the way in which computer components, computer and network hardware, software and network services are interconnected; and applications - how data communications can be used to support organizations' business strategies. Coreq: 22IS290. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22IS410**Advanced Application Development**

The objective of this course is to provide students with exposure to application development using Sun's Java language and Java 2 Enterprise Edition development platform. The goals are to give students a firm foundation in the logic of programming, and to expose students to a popular object-oriented language (Java) that is widely used for systems development, particularly for Web-based systems. Coreq: 22IS290. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22IS420**Advanced Systems Design**

This course is a follow on to IS 320 (Business Process Modeling). The specific objectives of this course are to teach students more advanced techniques in information systems design, including to analyze and document the requirements for an information system using an object-oriented approach and UML (Unified Modeling Language); to construct and document sequence and class diagrams; the basic principles of Service-Oriented Architecture (SOA); the technological underpinnings of Web services; and to use Business Process Execution Language to model applications using the SOA paradigm. Prereq: 22IS320, 22IS330. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22IS431**Digital Business Strategy**

This course examines the environment, objectives, technology, and issues relating to the use of the Internet and associated information technologies in business. The course covers a broad range of topics on the subject, including: the role of technology in influencing corporate strategies and industry boundaries, digital business intelligence,

Information Systems**22IS431****Digital Business Strategy**

effective multi-channel strategies, and enterprise software. The objective of the course is to prepare the student to be an effective innovator and change agent capable of using digital technologies to 1) contribute to the enterprise's sales growth and profitability, and 2) enable the enterprise to meet its mission. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22IS435**Data Warehousing and Mining**

A data warehouse is a specially prepared repository of data designed to support decision making. Data are extracted from source systems, transformed, and loaded into data stores. Data mining is an important use of a data warehouse. This course is designed to provide a thorough understanding of data warehousing and mining, how to build and maintain data warehouses, and how to use data warehousing and mining for business advantage. Prereq: 22IS330. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22IS450**Information Systems Security**

This course provides a technical overview of information systems security. The objective is to expose students to the technologies used to implement secure information systems at the network, data, and application levels. Topics covered include: cryptography, authentication, authorization, database security, software security, security protocols, and operating systems security. Students will also be exposed to the principles of planning and performing security assessments, risk analysis and penetration testing. Prereq: 22IS330, 22IS340. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22IS460**Business Intelligence**

Data is a critical resource - the ability to extract meaningful business intelligence from vast amounts of transactional data that most corporations routinely collect is an important key to success in today's competitive landscape. This course will introduce students to two business intelligence technologies: data warehousing and data mining. Specifically, students will learn (a) the differences between data warehouses and OLTP databases; (b) Dimensional Modeling using Star schema; (c) the architecture and infrastructure of data warehousing; and (d) information delivery techniques, including Online Analytic Processing (OLAP) and data mining. Coreq: 22IS330. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22IS550**Database Design and Integration**

Covers the systems design and implementation of a software system using a programming language and the management of these activities. Topics include: project standards, software quality assurance, structured design; program specifications; selection of a programming language environment; coding; testing; configuration management; user tracking; systems delivery; maintenance; post-implementation review; reverse engineering; and re-engineering. Group project. Prereq: 22IS330, 22IS340, 22IS430. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22IS590**IS Project Management**

The goal of this course is to enable students to learn and apply the processes, tools, techniques, and problem-solving approaches needed to successfully manage information system (IS) projects. Working in teams, students will evaluate a real-life business problem and offer an end-to-end IS solution. Students will manage IS projects through the application of theoretical frameworks, appropriate tools and techniques, and business process and change management concepts as they are presented and discussed in the reading materials and the classroom. They include but are not limited to, project management strategies, life cycle, methodology (e.g. RAD), tools (e.g. MS Project), techniques (e.g. GANT, WBS) and performance metrics. Students will analyze real-life mini-business cases throughout the course which will be used to

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Information Systems**22IS590****IS Project Management**

develop and refine their problem-solving approaches. The course culminates with a presentation of a working prototype for addressing a real-life business problem. Prereq: 22IS320, 22IS330. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22IS593**Special Topics in Information Systems**

Special offerings under this course number will be publicized on bulletin boards and by classroom announcement. BoK: NA. Credit Level: U. Credit Hrs: 1.00-4.00

22IS596**Guided Study in Information Systems**

Individual study under the direction of a faculty member. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

22IS711**Information and Technology Management**

This course, taught primarily by the case method, examines the environment, objectives, and issues relating to the management of the information systems function in current business entities. Its goal is to prepare managers and future managers to deal with information systems related issues. The focus is on the fundamental management issues associated with identifying, designing, implementing, supporting, and effectively using information systems; the tradeoffs associated with dealing with these issues, and approaches for resolving them. Credit Level: G. Credit Hrs: 4.00

22IS715**Java in the Enterprise**

This course will serve as an introduction to web application development, using Sun's Java 2 Enterprise Edition development platform. In this regard, we will discuss technologies such as basic HTML, style sheets, Dynamic HTML, JSP, JavaBeans, JDBC, Servlets, and Java 2 programming language. It is the goal of this course to provide students with the necessary skills in designing and developing application systems with a focus on Web based application systems. Credit Level: G. Credit Hrs: 4.00

22IS721**Systems Analysis and Modeling**

There is no activity more fundamental to the field of information systems than the analysis, design, and development of systems. This course teaches students how to analyze and document the requirements for a system. It is based primarily on the object oriented approach - students learn how to construct use case diagrams, sequence diagrams, and class diagrams, and document them using UML (Unified Modeling Language). Students prepare a requirements analysis document for a hypothetical case study, using a CASE tool (Rational Rose). The course also covers one prominent structural modeling technique - data flow diagramming. Prereq: 22IS732. Credit Level: G. Credit Hrs: 4.00

22IS724**IS/IT Architecture**

This course introduces students to the basic building blocks of an information system - hardware, software, data and communication channels - and the role each of these plays in an information system. This course is designed as a technical introduction to information systems. The major topics covered include 1) the role and representation of data, 2) hardware architecture, 3) software architecture and 4) data communications. Credit Level: G. Credit Hrs: 4.00

22IS725**Web Systems and Services**

This is an introductory course on the development of web systems and services, using Microsoft's newest development platform, Visual Studio.Net 2008, and covering ASP.Net (using VB.Net). Students will learn to develop dynamic web-based systems, both stand-alone and component-based. They will learn the principles of Service-Oriented Architecture (SOA) and web services, and enabling

Information Systems**22IS725****Web Systems and Services**

technologies/standards such as XML, SOAP and WSDL. Students will be expected to develop a simple web application that incorporates these technologies. The course includes a mandatory lab component. Prereq: 22IS721. Credit Level: G. Credit Hrs: 4.00

22IS728**PROCESS INTEGRATION WITH ERP**

This course is designed to teach students about business process integration and to configure a company from the group up using SAP R/3. Students will learn about many of the configuration options when implementing SAP. They will use SAP to create the organizational structure, master data and business rules to support the hypothetical company's operations. They will then use test transactions to insure that the processes function as anticipated. Credit Level: G. Credit Hrs: 4.00

22IS732**Data Modeling and Database Design**

The focus of this course is on data modeling and design of database systems. Entity-relationship modeling is used as the vehicle to learn conceptual modeling. Students learn techniques and procedures to map the conceptual model to its logical counterpart. The concept of normalization is stressed in the logical data model. Some exposure to relational algebra is also included. The course includes a mandatory lab component where students implement these concepts using software engineering tools (e.g. ORACLE Designer) and database management software (e.g., ACCESS, ORACLE). Credit Level: G. Credit Hrs: 4.00

22IS736**Network Design and Management**

Businesses today are moving from centralized systems to distributed systems in order to remain competitive in the global economy. This has resulted in a need for a data communications infrastructure that can support distributed systems. Specifically, this course will introduce students to the design, implementation and management of networks and inter-networks. It will examine architectures of computer networks that support distributed applications. In addition, students will be introduced to server software that can be used to implement distributed systems. Prereq: 22IS724. Credit Level: G. Credit Hrs: 4.00

22IS740**Business Intelligence**

The course introduces an emerging data management technology: data warehousing. Data warehouses have been created to integrate data from online production systems so that it can be easily accessed. The specific objectives of this class include: Understand how data warehouses differ from OLTP databases; and from client/server and distributed databases; learn dimensioning modeling using Star schema to build data warehouses; introduce the architecture and infrastructure of data warehousing; learn current applications and trends in data warehousing; and common information delivery techniques for data warehouses. - Prereq: 22IS732. Credit Level: G. Credit Hrs: 4.00

22IS750**Advanced Data Management**

The focus of this course is on database implementation and administration. The topics covered include physical database design, transaction and concurrency control, security, integrity, backup and recovery, database tuning, migration and reengineering, client/server and distributed databases and web/database connectivity. Prereq: 22IS732. Credit Level: G. Credit Hrs: 4.00

22IS751**IT Auditing**

IT Auditing is an examination of the controls within an entity's information technology infrastructure. Its goal is to ensure that the organization's information systems are adequately protected and monitored, meet legal standards, safeguard assets, maintain data integrity, and are operating effectively and efficiently to achieve the organization's goals or objectives. This course will acquaint students with the frameworks, tools and techniques that can be used for such an

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Information Systems**22IS751****IT Auditing**

assessment. Credit Level: G. Credit Hrs: 4.00

22IS755**Information Systems Project Management**

The goal of this course is to enable people to use the processes, tools, techniques, and areas of knowledge needed to successfully manage information system projects. Examples of both successful and failed IS projects will be used to gain a better understanding of the management of IS projects. We will also explore the use of automated tools including various project estimating models, life cycle methodologies (pre-defined tasks and work-breakdown structures), and MS Project. How to manage outsourced IS projects and vendor relationships will also be addressed. Prereq: 22IS721. Credit Level: G. Credit Hrs: 4.00

22IS758**IT Services Management**

This course will discuss critical challenges in the management of the IT function as a service oriented department. Popular frameworks and concepts such as ITIL, CoBIT and SOA will be discussed, along with current issues in IT governance. Credit Level: G. Credit Hrs: 4.00

22IS760**CIO Forum**

This course is an IT management forum in which Chief Information Officers (CIO's) from industry speak and share their views, perspectives, and thoughts on strategic issues and contemporary topics in enterprise IT management. It is a chance for the students to learn from what is actually happening "in the trenches." Students will perform research on specified topics so as to better inform both the in-class debates and executive's decision making on critical strategic issues. In doing so, students can bridge the gap between theory and practice in enterprise IT management. Credit Level: G. Credit Hrs: 4.00

22IS781**Individual Study**

Individual study under the direction of a faculty member. Credit Level: G. Credit Hrs: 1.00-4.00

22IS782**Special Topics in IS**

In-depth study of special topics in Information Systems Credit Level: G. Credit Hrs: 1.00-4.00

22IS790**Industry Practicum I**

All MS-IS students must fulfill an experience- based learning component by doing (1) a supervised industry project; or (2) at least two quarters of supervised co-op work. The project will be supervised by an IS faculty member. The student must prepare an industry practicum proposal which includes the problem statement and a definition of the scope of the project. The final deliverable should be a solution to the defined problem in the form of an actual implementation or design, depending on the scope of the problem addressed. At the end of the project, the student must submit and present a project report. Students doing a co-op must similarly prepare and present a written report on the project they worked on during the co-op. Perm of Instructor. Credit Level: G. Credit Hrs: 2.00

22IS792**Industry Practicum II**

All MS-IS students must fulfill an experience- based learning component by doing (1) a supervised industry project; or (2) at least two quarters of co-op work. The project will be supervised by an IS faculty member. The student must prepare an industry practicum proposal which includes the problem statement and a definition of the scope of the project. The final deliverable should be a solution to the defined problem in the form of an actual implementation or design, depending on the scope of the problem addressed. At the end of the project, the student must submit and present a project report. Students doing a co-op must similarly prepare and present a written report on the project

Information Systems**22IS792****Industry Practicum II**

they worked on during the co-op. Perm of Instructor. Credit Level: G. Credit Hrs: 2.00

22IS794**Industry Practicum III**

All MS-IS students must fulfill an experience- based learning component by doing (1) a supervised industry project; or (2) at least two quarters of supervised co-op work. The project will be supervised by an IS faculty member. The student must prepare an industry practicum proposal which includes the problem statement and a definition of the scope of the project. The final deliverable should be a solution to the defined problem in the form of an actual implementation or design, depending on the scope of the problem addressed. At the end of the project, the student must submit and present a project report. Students doing a co-op must similarly prepare and present a written report on the project they worked on during the co-op. Perm of Instructor. Credit Level: G. Credit Hrs: 2.00

22IS795**Seminar in Information Systems**

This course will cover a current topic in Information Systems. Credit Level: G. Credit Hrs: 2.00-4.00

22IS971**Research in Information Systems**

Var. credit. Credit Level: G. Credit Hrs: 1.00-15.00

22IS981**MBA Thesis Research**

Var. credit. Credit Level: G. Credit Hrs: 1.00-15.00

22IS991**PhD Dissertation Research**

Var. credit. Credit Level: G. Credit Hrs: 1.00-15.00

Management**22MGMT171****Managerial Communication**

This course will challenge students to develop professional communication skills. More specifically, the course emphasizes effective presentations and writing in business contexts. Students will practice related techniques through varied individual and group applications that leverage language, visuals and technology. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22MGMT380**Management**

Students will learn and apply principles of organizational behavior in work settings. Problems & issues facing managers will be examined using behavioral theories and concepts. BoK: DC. Credit Level: U. Credit Hrs: 4.00

22MGMT380H**Management - Honors**

Students will learn and apply principles of organizational behavior in work settings. Problems and issues facing managers will be examined using behavioral theories and concepts. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22MGMT393H**Personal Development and Leadership**

This course is designed to help students explore leadership characteristics and learn related skills. Each class session examines a leadership issue from personal and interpersonal levels. This format rests on the fundamental premise: effective leadership demands that leaders develop deeper understanding of themselves and those they lead. Numerous leadership topics are covered, building a comprehensive model of human attitudes, behaviors and interactions that accentuates the complexities and challenges of leadership. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Management**22MGMT393H****Personal Development and Leadership**

This course is designed to help students explore leadership characteristics and learn related skills. Each class session examines a leadership issue from personal and interpersonal levels. This format rests on the fundamental premise: effective leadership demands that leaders develop deeper understanding of themselves and those they lead. Numerous leadership topics are covered, building a comprehensive model of human attitudes, behaviors and interactions that accentuates the complexities and challenges of leadership. BoK: SS., SE. Credit Level: U. Credit Hrs: 3.00

22MGMT401**Leadership and Personal Development**

Course designed to assist students to both explore concepts of leadership as well as to assess and develop their own skills. Prereq: 22MGMT380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22MGMT410**Managerial Effectiveness**

This course covers the second half of the field of organizational behavior and focuses on group and social processes in organizations. Topics such as teams, decision making, ethics, leadership, power, and conflict are explored in a method that interweaves theory, research, and experiential learning. Prereq: 22MGMT405. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22MGMT411**Interpersonal Processes and Teams**

Course designed to provide students with greater understanding of teams and interpersonal processes in the work setting. Prereq: 22MGMT380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22MGMT485**Human Resource Management**

This course provides an introduction to basic human resource management functions that drive and support the changing world of work. Topics include recruitment, selection, compensation, training, performance management and strategic HRM. Prereq: 22MGMT380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22MGMT593**Special Topics in Management**

Specialized course taught on an experimental basis. Topic and syllabus available in Management Office when offered. Prereq: 22MGMT380. BoK: NA. Credit Level: U. Credit Hrs: 1.00-4.00

22MGMT596**Managing in a Competitive Environment: A Capstone Experience**

Prepares students through an integrative capstone experience using a field case study or business simulation. Prereq: 22FIN352, 22QA375, 22MKTG377, 22OM385, 22INTB390. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22MGMT599**Independent Study**

Prereq.: Perm. of instr. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

22MGMT710**Teams: Interpersonal Processes: An Experiential Approach**

Provides students with a greater understanding of teams: interpersonal processes that affect the workplace. Credit Level: G. Credit Hrs: 2.00

22MGMT712**Corporate Strategy**

Focuses on both the analytical and structural framework for competitive analysis, as well as the formulation of policy and strategic decisions for the business corporation. This course focuses on the management of the total enterprise. All the basic functional areas are addressed in an integrative manner in terms of the relevance to the entire enterprise. The course emphasizes the ability to make decisions in the face of unstructured problems. Credit Level: G. Credit Hrs: 4.00

Management**22MGMT714****Leadership & Organizations**

Course introduces central concepts, processes, frameworks and practices to assist the student in understanding what it means to both manage others and 'be managers'. Credit Level: G. Credit Hrs: 4.00

22MGMT715**Corporate Responsibility and Business Ethics**

Explores the ethical dimensions and implications of business organizations and practices. Credit Level: G. Credit Hrs: 2.00

22MGMT717**International Business: Managing Across Cultures**

This course increases students' ability to recognize cultural and national differences that impact management; deepens appreciation and understanding of these differences and, enhances work effectively with people from different cultures. Credit Level: G. Credit Hrs: 2.00

22MGMT731**Strategic Alliances: Gaining Competitive Advantage Through Collaborative Enterprise**

Examines the role of strategic alliances and the creation of value including elements of coordination, cooperation and conflict. Prereq: 22MGMT712. Credit Level: G. Credit Hrs: 1.00-4.00

22MGMT732**Strategic Human Resource Management**

Focus is on strategic issues and policy choices related to human resource management, as opposed to personnel management techniques. Prereq: 22MGMT712. Credit Level: G. Credit Hrs: 1.00-4.00

22MGMT733**Organizational Culture**

Explores the concept of organizational culture and its relationship to performance. Prereq: 22MGMT711, 22MGMT712. Credit Level: G. Credit Hrs: 1.00-4.00

22MGMT734**Seminar in Global Management**

Examines threats and opportunities in the global market place. Prereq: 22MGMT712. Credit Level: G. Credit Hrs: 1.00-4.00

22MGMT735**Management and Innovation**

A seminar examining the process and management of innovation, from both theoretical and practical, and short- and long-term perspectives. Relevant for individuals in companies or industries that explicitly conduct R&D, develop new products or services, or experience rapid changes in environment or business practices. Credit Level: G. Credit Hrs: 4.00

22MGMT773**Human Resource Management**

Central personnel concepts, functions, processes, and issues in work organizations. Some case analysis. . Credit Level: G. Credit Hrs: 4.00

22MGMT778**Seminar in International Management**

Examines how the management process is affected by international interdependence and helps develop global perspective for organizational decision makers. Credit Level: G. Credit Hrs: 4.00

22MGMT781**Individual Study**

Individual study under the direction of a faculty member. Credit Level: G. Credit Hrs: 1.00-4.00

22MGMT782**Special Topics in Management**

In-depth study of special topics in management. Prereq: 22MGMT805. Credit Level: G. Credit Hrs: 1.00-4.00

22MGMT784**Management of Organizational Change**

This course examines several key challenges associated with

H=University Honors course.

Management**22MGMT784****Management of Organizational Change**

organizational change processes, and develops the necessary skills associated with effectively planning and implementing change in organizations. Credit Level: G. Credit Hrs: 4.00

22MGMT785**Leadership**

Addresses theories of leadership focusing on acquiring the ability to lead, power, and the effective exercise of leadership in a managerial position. Credit Level: G. Credit Hrs: 4.00

22MGMT789**International Competitiveness**

This course builds upon the analytical foundations developed in the MBA course, Competitive Analysis (22BA870). It draws upon the academic disciplines of organizational theory, international business and strategic management. Credit Level: G. Credit Hrs: 4.00

22MGMT826**Organizational Research Design and Methodology**

Focuses on the process of empirical research in organizations: strategies, processes, designs and techniques for conducting research. Open to PhD students only. Credit Level: G. Credit Hrs: 3.00

22MGMT895**Special Topics in Management**

This course engages students with in-depth study of specific contemporary topics in the field of management. Different topic offered each time. Credit Level: G. Credit Hrs: 3.00

22MGMT899**Research in Management**

Development of independent research topic with individual faculty. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-15.00

22MGMT911**PhD Seminar in Organizational Behavior**

Advanced topics course in organizational behavior, focusing on the individual and small-group perspectives. Addresses factors influencing functional and dysfunctional behavior in organizations. Grounding in the basics is assumed. Recent research contributions are emphasized. Credit Level: G. Credit Hrs: 4.00

22MGMT922**PhD Seminar in Organization Theory**

Survey of the major theoretical topics and perspectives in Organization Theory, including issues of organizational effectiveness and organizational life cycles. Evaluates the contributions to organization theory of such perspectives as structural contingency theory, resource dependence, and population ecology. Credit Level: G. Credit Hrs: 4.00

22MGMT933**PhD Seminar in Strategic Management**

Basic grounding in the field of strategic management, from the academic perspective. Covers history and paradigmatic development. Highlights contributions to strategic management of such related perspectives as industrial organization economics and administrative behavior. Credit Level: G. Credit Hrs: 4.00

22MGMT942**Information Technology Seminar**

A doctoral-level seminar designed to expose doctoral candidates to various strategies and techniques for using information technology in their academic careers. Credit Level: G. Credit Hrs: 1.00

22MGMT943**Research Techniques Seminar**

A doctoral level seminar designed to expose doctoral candidates to the requirements, strategies, and techniques necessary to successfully publish research in scholarly journals Credit Level: G. Credit Hrs: 1.00

Management**22MGMT945****Special Topics for Doctoral Students**

Topics of special interest to doctoral students of management. Credit Level: G. Credit Hrs: 1.00-3.00

22MGMT971**Research in Management, PhD**

Research credits for pre-candidacy doctoral students. Credit Level: G. Credit Hrs: 1.00-15.00

22MGMT981**MBA Thesis Research**

Variable Cr. Credit Level: G. Credit Hrs: 1.00-6.00

22MGMT991**PhD Dissertation Research**

Variable cr. Credit Level: G. Credit Hrs: 1.00-15.00

Marketing**22MKTG280****Principles of Marketing Management**

Provides an overview of the managerial areas within the marketing function. Topics include pricing, distribution, promotion and product planning. Formerly 22 MKTG 377. Prereq: 15ECON101. BoK: NA. Credit Level: U. Credit Hrs: 5.00

22MKTG280H**Principles of Marketing Management**

Provides an overview of the managerial areas within the marketing function. Topics include pricing, distribution, promotion and product planning. Formerly 22 MKTG 377H. Prereq: 15ECON101. BoK: NA. Credit Level: U. Credit Hrs: 5.00

22MKTG480**Marketing Research**

Methods of gathering, analyzing and reporting of information used to solve marketing management problems. Prereq: 22MKTG280, 22QA282. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22MKTG485**Buyer Behavior**

Provides a basic understanding of the psychological, sociological, anthropological and economic processes affecting consumer choices and examines the implications of these factors for marketing. Prereq: 22MKTG280. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22MKTG490**Decision Making in Marketing**

Topics include consumer and managerial decision making processes, individual and group decision making, techniques marketers use to shape decisions, and the ethical content in many marketing decisions. Prereq: 22MKTG280. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22MKTG500**Direct Marketing**

Direct Marketing is a form of marketing that seeks a measurable customer response (purchase, inquiry, donation) from any location. Pivoting on precise targeting and database segmentation, this most highly accountable form of marketing includes telemarketing, catalog merchandising, and direct response advertising. Prereq: 22MKTG280. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22MKTG510**Services Marketing**

Understanding the distinctive characteristics of services, the implication of these distinctions for marketing, the role of service quality as a determinant of customer satisfaction, and the measurement of these phenomena. Prereq: 22MKTG280. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22MKTG520**Sports Marketing**

Understand the sports consumer and marketing mix decisions as they

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Marketing**22MKTG520****Sports Marketing**

relate to sports and sports properties. Develop evaluation and control measures to determine the effectiveness of the strategic plan. Examine additional areas of interest in sports marketing including sponsorship, the role of technology and fan development. Prereq: 22MKTG280. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22MKTG572**Business-to-Business Marketing**

Discusses the marketing of goods and services to businesses, governments, institutions and nonprofit organizations for use in producing consumer goods and services. Focus is given to the special character of the business market and the interfacing between the buyer's and the seller's organization. Prereq: 22MKTG280. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22MKTG573**E-Marketing**

Examines the Internet and related technologies as they are used for the marketing, selling and the distribution of goods and services. Develop an understanding of the opportunities and limitations of the Internet (and other information technologies) for marketing and how these technologies influence marketing strategy. Prereq: 22MKTG280. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22MKTG574**Product Management**

The product and brand management decisions that must be made to build and manage brand equity. The tactical elements involved in managing and developing a brand. Prereq: 22MKTG280. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22MKTG575**Retailing**

This course introduces students to retailing from a theoretical and managerial perspective. Major topics covered include consumer behavior, research, store location, service retailing, retail institutions, franchising, operations management, human resources management, merchandising management and retailing in a dynamic environment. Prereq: 22MKTG280. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22MKTG576**Sales Management**

Covers the administration and analysis of policies, personnel, territories and costs. Prereq: 22MKTG280. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22MKTG577**Advertising**

Essentials of advertising and advertising strategy. Trains students to think about advertising problems from the perspective of the managers responsible for solving the problems. Topics include setting objectives, copy and message strategy, media selection, budget decision and audience targeting. Prereq: 22MKTG280. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22MKTG580**Professional Selling**

Presents the role of professional selling within the context of the marketing and promotional mix of the firm. Guides students in their understanding of the principles of professional selling. Prereq: 22MKTG280. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22MKTG585**Marketing Strategy**

Frameworks and tools to solve strategic-level marketing problems. Emphasis on qualitative and quantitative analysis, integrative marketing, decision-making, and strategy formulation. Prereq: 22MKTG280. BoK: NA. Credit Level: U. Credit Hrs: 4.00

Marketing**22MKTG593****Special Topics in Marketing**

Provides in-depth study of selected topics in marketing. Special offerings under this course number will be publicized on bulletin boards and by classroom announcement. Topics could include Marketing Ethics, Pricing, Social Influence Strategies, and Services Marketing. Prereq: 22MKTG410. BoK: NA. Credit Level: U. Credit Hrs: 1.00-8.00

22MKTG594**Current Topics in Marketing**

Provides in-depth study of current topics in Marketing. Special offerings under this course number will be publicized on bulletin boards and by classroom announcement. Topics could include marketing regulation, new media or other issues of current relevance. Prereq: 22MKTG280. BoK: NA. Credit Level: U. Credit Hrs: 1.00-8.00

22MKTG595**Product Design Studio**

Students work in multi-disciplinary teams to complete new product design field projects. Represented disciplines may include Design, Business, Engineering and others. Assignments vary depending on the client needs. Perm of Department. BoK: NA. Credit Level: U. Credit Hrs: 1.00-8.00

22MKTG597**Field Project in Marketing**

Student teams working on real marketing problems supplied by various client organizations. Perm of Instructor. BoK: NA. Credit Level: U. Credit Hrs: 1.00-8.00

22MKTG599**Independent Study**

Student independently pursues marketing topics of specific individual interest. Student must obtain a faculty supervisor and approval prior to registration. BoK: NA. Credit Level: U. Credit Hrs: 1.00-8.00

22MKTG710**Marketing Planning**

Students will examine the marketing planning process, develop an awareness of major marketing problems that organization face, and cultivate proficiency through development of a marketing plan. Perm of Instructor. Credit Level: G. Credit Hrs: 4.00

22MKTG711**Marketing for Managers**

Provides students with a thorough appreciation for the benefits and pitfalls of executing a customer orientation. Market segmentation is introduced as a process for opportunity analysis and prioritization in organizations. Critical factors in the management of mature products and the introduction of new products and services are considered. Major emphasis is given to those practices and procedures that yield long-term relationships with one's customers. Credit Level: G. Credit Hrs: 4.00

22MKTG712**Marketing Research for Managers**

Explores the role of marketing research in marketing management. Students do hands-on tasks to perfect their understanding of methods for collecting, analyzing, and summarizing data pertinent to solving marketing problems. Effective oral and written communication of research results is stressed. Prereq: 22MKTG710, 22MKTG711. Credit Level: G. Credit Hrs: 4.00

22MKTG715**Consumer and Institutional Purchasing Behavior**

Emphasizes behavioral science concepts in an application-oriented environment as they relate to the process of consumption. Prereq: 22MKTG710, 22MKTG711. Credit Level: G. Credit Hrs: 4.00

22MKTG720**Product Development and Management**

Discusses product mix, development and strategy; product-market integration, acquisitions and mergers. Prereq: 22MKTG710,

H=University Honors course.

Marketing**22MKTG720****Product Development and Management**

22MKTG711. Credit Level: G. Credit Hrs: 4.00

22MKTG722**Business-to-Business Marketing for Managers**

Covers analysis, planning, and strategy for marketing to business customers. Prereq: 22MKTG710, 22MKTG711, 22MKTG800. Credit Level: G. Credit Hrs: 4.00

22MKTG723**Pricing**

Demand estimation, pricing models, and pricing strategy. Prereq: 22MKTG711. Credit Level: G. Credit Hrs: 4.00

22MKTG724**Services Marketing**

Marketing problems and strategies specific to services organizations. Prereq: 22MKTG711. Credit Level: G. Credit Hrs: 4.00

22MKTG725**Advertising and Promotions**

Provides an overview of the components of an integrated marketing communications plan. Topics include setting objectives, message strategy, media strategy, and measuring effectiveness. Prereq: 22MKTG710, 22MKTG711. Credit Level: G. Credit Hrs: 4.00

22MKTG726**Applied Social Influence Strategies**

Principles of social influence and their applications in marketing. Prereq: 22MKTG711, 22MKTG710. Credit Level: G. Credit Hrs: 2.00

22MKTG727**E-Marketing for Managers**

Introduces the Internet, the World Wide Web and related technologies as they are used for the marketing, selling, and distribution of goods and services. Students develop an understanding of opportunities and limitations and how to use these technologies to improve marketing practice. The course makes use of lectures, readings, cases, guest speakers, and student projects. Prereq: 22MKTG800, 22MKTG710, 22MKTG711. Credit Level: G. Credit Hrs: 4.00

22MKTG728**Marketing Ethics**

Acquire and refine analytical and managerial decision-making skills through the application of ethical principles. Develop an understanding of the subjective biases to which individual human judgments and group decisions are prone. Prereq: 22MKTG711, 22MKTG710. Credit Level: G. Credit Hrs: 2.00

22MKTG731**International Marketing for Managers**

Provides the fundamentals of sales management and integrates related topics such as database marketing, customer retention, relationship marketing and the impact of the Internet. Prereq: 22MKTG711, 22MKTG710. Credit Level: G. Credit Hrs: 1.00-4.00

22MKTG732**Management of the Sales Function**

Discusses marketing opportunities abroad and development of appropriate marketing structure and process. Prereq: 22MKTG711, 22MKTG710. Credit Level: G. Credit Hrs: 1.00-4.00

22MKTG735**Marketing Strategy for Managers**

Familiarizes student with concepts of market analysis and planning of direct practical relevance to the decision-making process. Prereq: 22MKTG710, 22MKTG711. Credit Level: G. Credit Hrs: 4.00

22MKTG740**Contemporary Issues in Marketing**

Deals with different topics each quarter. May be taken more than once; see department for current topics. Prereq: 22MKTG710, 22MKTG711. Credit Level: G. Credit Hrs: 4.00

Marketing**22MKTG781****Individual Study**

Student independently pursues marketing topics of specific individual interest. Student must obtain a faculty supervisor and approval prior to registration. Prereq: 22MKTG710, 22MKTG711. Credit Level: G. Credit Hrs: 1.00-4.00

22MKTG782**Special Topics in Marketing**

Provides in-depth study of selected topics in marketing. Special offerings under this course number will be publicized on bulletin boards and by classroom announcement. Topics could include Marketing Ethics, Pricing, Social Influence Strategies, Direct Marketing and Services Marketing. Prereq: 22MKTG710, 22MKTG711. Credit Level: G. Credit Hrs: 1.00-4.00

22MKTG791**Master of Science In Marketing Capstone I**

Capstone Field Project for MS Marketing degree. Prereq: 22MKTG710, 22MKTG711. Credit Level: G. Credit Hrs: 4.00

22MKTG792**Master of Science in marketing Capstone II**

Capstone Field Project for MS Marketing degree. Prereq: 22MKTG791. Credit Level: G. Credit Hrs: 4.00

22MKTG795**Product Design Studio**

Students work in multi-disciplinary teams to complete new product design field projects. Represented disciplines may include Business, Design, Engineering and others. Assignments vary depending on client needs. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-8.00

22MKTG797**Field Project in Marketing**

Student teams working on real marketing problems supplied by various client organizations. Perm of Instructor. Credit Level: G. Credit Hrs: 1.00-8.00

22MKTG800**Marketing Management**

Examines the marketing task, critically analyzing the marketing process, developing an awareness of the major marketing problems faced by organizations and cultivating proficiency in developing marketing strategies and tactics. MBA requirement. Prereq: 22MKTG710, 22MKTG711. Credit Level: G. Credit Hrs: 3.00

22MKTG841**Contemporary Issues & Tools Session I**

Provides advanced coverage of current issues, developing fields of marketing practice, and special tools in marketing. Topics vary. Prereq: 22MKTG800, 22MKTG710, 22MKTG711. Credit Level: G. Credit Hrs: 1.00-6.00

22MKTG842**Contemporary Issues & Tools Session II**

Provides advanced coverage of current issues, developing fields of marketing practice, and special decision tools in marketing. Topics vary. Prereq: 22MKTG800, 22MKTG710, 22MKTG711. Credit Level: G. Credit Hrs: 1.00-6.00

22MKTG843**Contemporary Issues & Tools Session III**

Provides advanced coverage of current issues, developing fields of marketing practice, and special decision tools in marketing. Topics vary. Prereq: 22MKTG711, 22MKTG710, 22MKTG800. Credit Level: G. Credit Hrs: 1.00-6.00

22MKTG844**Contemporary Issues & Tools Session IV**

Provides advanced coverage of current issues, developing fields of marketing practice, and special decision tools in marketing. Topics vary. Prereq: 22MKTG800, 22MKTG710, 22MKTG711. Credit Level: G. Credit Hrs: 1.00-6.00

H=University Honors course.

Marketing**22MKTG879****Marketing Models**

Offers a treatment of marketing problems emphasizing a quantitative approach. Credit Level: G. Credit Hrs: 3.00

22MKTG887**Advanced Measurement and Analysis Methods**

Covers applications of psychometric measurement theory to business research situations. Topics include validity, reliability, factor analysis and structural equations modeling. Designed to teach students how to conduct academic research. Credit Level: G. Credit Hrs: 3.00

22MKTG889**Pro Seminar in Marketing**

Presentations of individual faculty research at the PhD level. Credit Level: G. Credit Hrs: 3.00

22MKTG891**Independent Study in Marketing**

Student independently pursues marketing topics of specific individual interest. Student must obtain a faculty supervisor and approval prior to registration. Credit Level: G. Credit Hrs: 1.00-6.00

22MKTG892**Linear Models**

Provides an overview of linear models, regression and correlation, and ANOVA as applied to marketing. Credit Level: G. Credit Hrs: 3.00

22MKTG893**Multivariate Statistics**

Offers a comprehensive treatment of multivariate statistics, including regression, discriminant, factor, canonical, and cluster analysis. Prereq: 22MKTG892. Credit Level: G. Credit Hrs: 3.00

22MKTG895**Special Topics in Marketing**

Provides in-depth study of selected topics in marketing. Special offerings under this course number will be publicized on bulletin boards and by classroom announcement. Topics could include Marketing Ethics, Pricing, Social Influence Strategies, Direct Marketing and Services Marketing. Credit Level: G. Credit Hrs: 1.00-6.00

22MKTG898**Behavioral Seminar in Marketing**

Offers an analysis of theories and current research in the field. Credit Level: G. Credit Hrs: 3.00

22MKTG971**Research in Marketing**

Development of independent research topic with individual faculty. Credit Level: G. Credit Hrs: 1.00-15.00

22MKTG981**MS/MBA Thesis Research**

Variable cr. Credit Level: G. Credit Hrs: 1.00-6.00

22MKTG991**PhD Dissertation Research**

Variable cr. Credit Level: G. Credit Hrs: 1.00-15.00

Operations Management**22OM380****Operations Management**

Survey of the operations function in industrial, service and public organizations. Includes forecasting, line balancing, aggregate scheduling, layout, inventory planning, work measurement, quality control, quality improvement, MRP. Prereq: 22QA281, 22QA282. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22OM475**Quality Management**

The role of total quality in modern business. The course focuses on both technical and statistical methodology and managerial practices to achieve high quality and organizational performance. Prereq:

Operations Management**22OM475****Quality Management**

22OM380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22OM476**Operations Planning and Scheduling**

Introduces the student to planning and control as practiced in state-of-the-arts firms. The principles of inventory and capacity are covered. Prereq: 22OM380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22OM480**Project Management and New Product Development**

Explores the issues of Project organization, budgeting, control, leadership, risk management, new product development and conflict resolution throughout the life cycles of a project. Students will consider resource allocation and scheduling using PERT/CPM and Project Mgt. software and are introduced to PMI's PMBOK. Prereq: 22OM380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22OM481**Supply Chain Management**

Supply chain management deals with the flow of goods and information through a production or distribution network to ensure that the right products are delivered to the right place in the right quantity at the right time to meet customer expectations. The course covers both strategic and operational aspects of managing a supply chain. Possible topics include network design, logistics, inventory management, coordination and contracting. Prereq: 22OM380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22OM488**Service Sector Operations**

An introduction to managing service businesses, primarily from an operational perspective. Topics include capacity and demand management, the use of queuing concepts, facility location and layout, designing processes and systems for good customer experience, aligning the front and back office, managing customer service operations, and methods for designing innovative new services. Prereq: 22OM380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22OM490**Forecasting and Risk Management**

A survey of analytical techniques used to assist in managing under uncertainty. Topics include time series and other forecasting techniques, as well as Monte Carlo simulation to assess the risk associated with managerial decisions. Prereq: 22QA380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22OM585**Operations Policy and Strategy**

Case treatment of operations strategy and policy at the executive level. As the capstone, integrative course, emphasis is placed on synthesis, as well as analysis, and oral and written communication. Prereq: 22OM475, 22OM476. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22OM593**Hot Topics in Operations Management**

Contemporary OM topics will be discussed in this irregularly scheduled seminar-style course. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22OM594**Readings In Operations Management**

Advanced studies in selected issues. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22OM595**Research In Operations Management**

Structured research in OM. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22OM596**Guided Study in Operations Management**

Individual study under the direction of a faculty member. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Operations Management**22OM711****Management of Operations**

Introduces basic operations principles through case studies and explores major operations problems. Areas of concentration are decisions and activities involving process design, the use and control of resources, scheduling and quality management. Prereq: 22QA711, 22QA712, 22QA713. Credit Level: G. Credit Hrs: 4.00

22OM744**International Operations Strategy**

This integrative course emphasizes case analysis and state of the art discussion of operations management challenges. The course particularly focuses on new methods, principles, techniques and technologies that leverage the operations function for competitive advantage. Prereq: 22OM711. Credit Level: G. Credit Hrs: 4.00

22OM761**Project Management**

Explores the fundamental and advanced concepts in project management including project initiation, justification, design, planning, budgeting and control. It pays detailed attention to conflicts and conflict resolution, and scheduling and control using PERT/CPM and project management software. Prereq: 22OM711. Credit Level: G. Credit Hrs: 4.00

22OM762**Managing Service Operations**

Examines the problems facing managers in various service industries and provides strategic, managerial, and operational tools and techniques for improving how service firms operate. The course employs a combination of conceptual, analytical, case study, and field study approaches to investigate contemporary service operations issues. Prereq: 22OM711. Credit Level: G. Credit Hrs: 4.00

22OM771**Managing for Quality and High Performance**

Provides students with knowledge of several advanced topics in total quality management (TQM), as well as experience in applying TQM tools and principles in organizations. Prereq: 22OM711. Credit Level: G. Credit Hrs: 4.00

22OM772**Six Sigma & Process Improvement**

This course focuses on fundamental concepts and methods of statistical thinking and process improvement in manufacturing and service organizations. Prereq: 22OM711, 22QA712. Credit Level: G. Credit Hrs: 2.00

22OM781**Individual Study**

Individual study under the direction of a faculty member. Credit Level: G. Credit Hrs: 1.00-4.00

22OM782**Special Topics in Operations Management**

In-depth study of special topics in Operations Management. Credit Level: G. Credit Hrs: 1.00-4.00

22OM783**Supply Chain Strategy and Analysis**

Presents an overview of issues relating to the design and operation of supply chains. Information is presented as a mix of technical models and applied case studies. Topics in inventory, transportation, and supply chain collaboration are covered. Prereq: 22OM711. Credit Level: G. Credit Hrs: 4.00

22OM784**Supply Chain Models**

Focuses on technical models and techniques used to design and evaluate the performance of supply chains. Models include logistical network design and multiechelon inventory theory. Prereq: 22OM711, 22QA712. Credit Level: G. Credit Hrs: 2.00

Operations Management**22OM785****Enterprise Resource Planning**

This course focuses on the methodologies and practices of ERP as a complete enterprise wide business solution. An ERP system consists of software support modules such as: marketing and sales; field service; product design and development; production and inventory control; procurement; distribution; industrial facilities management; process design and development; manufacturing; quality; human resources; finance and accounting; and information services. In this course we will focus on the Production Planning (PP) and Materials Management (MM) modules of an ERP system, with peripheral attention to other business functions. Prereq: 22OM711. Credit Level: G. Credit Hrs: 4.00

22OM786**Forecasting and Time Series Analysis**

Univariate Box-Jenkins time series modeling for stationary and nonstationary processes. Forecasting seasonal and nonseasonal time series. Special forecasting techniques such as transfer function modeling, and intervention analysis. Prereq: 22QA721. Credit Level: G. Credit Hrs: 4.00

22OM895**Special Topics in Operations Management**

Varying subjects of topical interest in operations. Credit Level: G. Credit Hrs: 1.00-4.00

22OM899**Research in Operations Management**

Perm. of instr. Credit Level: G. Credit Hrs: 1.00-15.00

22OM971**Research in Operations Management**

For PhD students only. Credit Level: G. Credit Hrs: 1.00-15.00

22OM981**MBA Thesis Research**

Var. credit. Credit Level: G. Credit Hrs: 1.00-15.00

22OM991**PhD Dissertation Research**

Var. cr. Credit Level: G. Credit Hrs: 1.00-15.00

Professional Development**22PD502****Professional Development II: Business Career Planning and Placement**

Self-assessment, resume writing, career exploration, and interviewing. BoK: NA. Credit Level: U. Credit Hrs: 1.00

Product Information and Supply Management**22PRSM410****Product Information and Supply Management I**

Exposes the complex exchange systems that comprise the network of organizations and activities which add value to products. Students will develop a global system perspective as designers, leaders and custodians of the network. Prereq: 22FIN352, 22QA375, 22MKTG377, 22OM385, 15ECON271. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22PRSM593**Special Topics in Product Information and Supply Management**

Provides in-depth study of selected topics. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22PRSM598**Product Information and Supply Management II**

Provides a case-based managerial course with a focus on integrating the marketing efforts of vertical players whose assumed common objective is to maximize cost-efficiencies and deliver net value to their customers, using collaborative designs. Field projects are used to apply skills and acquire experiential learning. Prereq: 22PRSM410. BoK: NA. Credit Level: U. Credit Hrs: 3.00

H=University Honors course.

BoK (Breadth of Knowledge) Coding. DC: Diversity & Culture. EC: English composition. FA: Fine Arts. HP: Historical Perspectives. HU: Humanities. LT: Literature. NS: Natural Sciences. QR: Quantitative Reasoning. SE: Social & Ethical Issues. SS: Social Sciences.

Product Information and Supply Management**22PRSM599****Guided Study in Product Information and Supply Management**

Individual study under direction of a faculty member. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

Quantitative Analysis**22QA251****Mathematical Statistics I**

Foundations of probability, discrete and continuous random variables, special probability distributions. Prereq: 15MATH253, 32IT141. BoK: QR. Credit Level: U. Credit Hrs: 3.00

22QA252**Mathematical Statistics II**

Second course in sequence with Mathematical Stat I. Prereq: 22QA251. BoK: QR. Credit Level: U. Credit Hrs: 3.00

22QA281**Business Statistics I**

Develops fundamental knowledge and skills for applying statistics in business decision making. Part I topics include descriptive statistics, probability and sampling distribution. Formerly 22 QA 241. BoK: QR. Credit Level: U. Credit Hrs: 4.00

22QA281H**Business Statistics I**

Develops fundamental knowledge and skills for applying statistics to business decision making. Part I topics include descriptive statistics, probability and sampling distribution. Formerly 22 QA 241H BoK: QR. Credit Level: U. Credit Hrs: 4.00

22QA282**Business Statistics II**

Develops fundamental knowledge and skills for applying statistics in business decision making. Part II topics include hypothesis testing, simple and multiple regression and experimental design. Formerly 22 QA 242. Prereq: 22QA281. BoK: QR. Credit Level: U. Credit Hrs: 4.00

22QA282H**Business Statistics II**

Develops fundamental knowledge and skills for applying statistics in business decision making. Part II topics include hypothesis testing, simple and multiple regression and experimental design. Formerly 22 QA 242H. Prereq: 22QA281H. BoK: QR. Credit Level: U. Credit Hrs: 4.00

22QA345**Mathematical Statistics III**

Third course in sequence with Mathematical Stat I, II. Prereq: 22QA252. BoK: NA. Credit Level: U. Credit Hrs: 3.00

22QA380**Business Analytics**

Analytical approaches to decision making. Topics include optimization, simulation models and other analytical techniques, such as PERT/CPM, decision analysis and waiting line models. Prereq: 22QA281, 22QA282. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22QA380H**Business Analytics - Honors**

Analytical approach to decision making. Topics include optimization, simulation models and other analytical techniques, such as PERT/CPM, decision analysis and waiting line models. Prereq: 22QA282H, 22QA281H. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22QA490**Forecasting and Risk Analysis**

This course covers the basic concepts and approaches to forecasting and risk analysis in business, including regression, exponential smoothing, ARIMA models and Monte Carlo simulation. Prereq: 22QA380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

Quantitative Analysis**22QA550****Optimization Modeling**

Model formulation, graphical analysis, computer solution and application for linear, nonlinear, continuous, integer, deterministic, and probabilistic mathematical optimization models. Required projects in modeling and solving applications. Prereq: 22QA380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22QA571**Simulation Modeling**

Building simulation models of complex dynamic, stochastic, discrete-event systems using high level simulation software. Topics include modeling, input, and output analysis and managing simulation projects. Prereq: 22QA242. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22QA585**Applications Development Using VBA**

This course covers the use of visual basic for application for the development of applications of management science models for planning and decision support in a spreadsheet environment. Prereq: 22QA380. BoK: NA. Credit Level: U. Credit Hrs: 4.00

22QA596**Guided Study In Quantitative Analysis**

Project and research work undertaken by a student with the approval and supervision of a faculty member. BoK: NA. Credit Level: U. Credit Hrs: 1.00-6.00

22QA701**Business Statistics**

Introduction to statistical and probabilistic analysis with focus on practical decisions and risk using quantitative models & Microsoft Excel. Topics include descriptive and graphical statistical methods, sampling and sampling distributions, estimation and hypothesis testing. This course assumes prior knowledge of Excel. This course is the first in a required series of core quantitative analysis courses in the full-time MBA curriculum. The subsequent courses are QA 702 and QA 703. Credit Level: G. Credit Hrs: 2.00

22QA702**Decision Models for Managers**
