**Suggestion or proposal:**

Best wishes to the journal for publication of quality articles in the field of bioequivalence & bioavailability research. I would like to mention that papers published in this journal only based on high quality of the papers related to bioequivalence & bioavailability recognized by qualified reviewers and editors. Target of the journal is to get international reputation with high SCI impact factors under category of pharmaceuticals and pharmacology. Fail to bring benefit to academic community, I have right to resign anytime. ....
