**\*Mozilla Firefox is released conditionally and offers two versions:**

- i. Rapid Release Cycle, targeted mainly to consumers <https://wiki.mozilla.org/RapidRelease> with new major releases every 6 weeks.
- ii. Extended Support Release Cycle, targeted mainly for enterprise users, with new releases every year. For latest FF ESR version please refer to Mozilla site <http://www.mozilla.org/en-US/firefox/organizations/all.html>.
- iii. SAP recommends FF ESR for enterprise usage.

**iv. Restrictions for Mozilla Firefox:**

- **SAP Interactive Forms by Adobe**  
As of Firefox Release Version 5, SAP Interactive Forms by Adobe are not supported.
- **Bidirectional text**  
Bidirectional text ("right-to-left") is not supported.
- **Accessibility (508)**  
Accessibility is not supported.
- **Active Component Framework**  
(e.g. Office Integration, ActiveX/Applets, etc..)
- **Windows 8 Support**  
Windows 8 has desktop and Metro (or Modern UI) flavors. Firefox supports only Windows 8 for desktop.

## UC Flex Browser Support

| Browser Platform: Google Chrome  |   |
|----------------------------------|---|
| Release Cycle *                  |   |
| Windows 7 / 8 / 10 / OS X 10.11  |   |
| ESS – WebDynpro<br>ABAP          |  |
| ESS – (HTMLB<br>Web Controls)    |  |
| Maintain HR –<br>(HTML GUI)      |  |
| MSS - Adobe<br>Interactive Forms |  |
| BW Reporting –<br>BI (BEX WEB)   |  |

**\*Restrictions for Chrome:**

**Google Chrome does not support the following technologies:**

- SAP Interactive Forms by Adobe
- Business Intelligence (BI)
- HTMLB for Java
- Active Control Framework (ACF)

**Google Chrome does not support the following features:**

- Accessibility
- Right-to-Left Rendering
- Hotkey support

**Known issues:**

- When you use certain browser extensions (such as Babylon Translator), pushbuttons may not work in browser applications.  
**Solution:** Deactivate the relevant extensions in the Chrome settings.
- Plug-ins (for example, using Microsoft Silverlight or Adobe Reader) may cause problems.
- Deleting favorites from the Portal does not always work.
- Scroll Bars not displayed properly in some scenarios
- In the Universal Work List (UWL) the refresh Button is not displayed properly
- In some tables, the filter value popup are not removed completely after closing in the BEX Web Analyzer
