2. A small dialogue screen is displayed with the options to download the image, data, crosstab or PDF.
3. If the data and crosstab options are grayed out, try clicking on any cell in the table and clicking on the download button again. This action should enable these two options provided the visual is download enabled. For privacy reasons, not all visualizations on the UC Information permit download.
4. Click on the data option, this action will launch a separate web browser page that has a single tab similar to Excel with the summary data that is available for download.
5. Click on the 'download all rows as a text file' link.

6. A download dialogue box opens that provides the option to Open or Save (Save, Save as or Save and Open) or cancel the download action.
7. Using any of the save options results in an Excel spreadsheet.

The screenshot shows a web browser window displaying a data table. A download menu is open, with the 'Data' option highlighted. A red circle '1' is around the menu, and an arrow points to the 'Data' option. Another red circle '2' is around the 'Download all rows as a text file' link, with an arrow pointing to it. Below the table, a dialog box asks 'Do you want to open or save Table_data.csv from visualizedata.ucop.edu?'. The 'Save' button is highlighted with a red circle '3' and an arrow. Below the dialog box, an Excel spreadsheet is shown with a red circle '4' around the 'Millions of Dollars' column header.
