Profile / Kurzcharakteristik

Photonics & Lasers in Medicine is devoted to publishing original research contributions from all fields of technical and scientific research and clinical applications of lasers and photonics in medicine. It brings together contributions from academic research as well as clinical diagnostics and therapy. It is the joint official journal of the German Society for Laser Medicine e.V. (DGLM) and the Swiss Laser Surgery Association (SALC). Each issue provides a report on a specific current topic and an overview of the latest related research and developments. Additionally, *Photonics & Lasers in Medicine* has a magazine section with short communications, discussions on key topics, reports on meetings and seminars, and the latest news from international laser research centers, companies and related societies.

Publication Frequency / Erscheinungsweise

4 per year

Readership / Leserschaft

Physicians, physicists, scientists in public and private research, as well as practitioners and clinicians in hospitals, clinics and medical offices, working on the application of lasers and biophotonics in medicine
