Becoming a Revolutionary

The Deputies of the French National Assembly and the Emergence of a Revolutionary Culture (1789–1790)

Timothy Tackett

Here Timothy Tackett tests some of the diverse explanations of the origins of the French Revolution by examining the psychological itineraries of the individuals who launched it—the deputies of the Estates General and the National Assembly. In the face of the current “revisionist” orthodoxy, *Becoming a Revolutionary* argues that members of the Third Estate differed dramatically from the Nobility in wealth, status, and culture. Here they emerge as practical men, more attracted to law, history, and science than to abstract philosophy.

“This is a splendid work. . . . [It] represents a reinterpretation of the origins and process of the revolution and a revision of the Revisionists. [Tackett’s] research is flawless, and the new sources are deftly marshalled.”—Robert Forster, Johns Hopkins University

“This book challenges a major body of historiographical literature and overturns it.”—Donald Sutherland, University of Maryland

The Politics of Women’s Work

The Paris Garment Trades, 1750–1915

Judith G. Coffin

Few issues attracted more attention in the nineteenth century than the “problem” of women’s work, and few industries posed that problem more urgently than the booming garment industry in Paris. The seamstress represented the quintessential “working girl,” and the sewing machine the icon of “modern” femininity.

Judith Coffin presents a fascinating history of the Parisian garment industry. She explores how issues related to working women took shape and how gender became fundamental to the modern social division of labor and our understanding of it.

“A tour de force of historical interpretation. Judith Coffin skillfully applies the new cultural history of gender to the lives and fortunes of working people, and at the same time makes excellent use of economic and social analysis—exploring wages and prices, working conditions, markets, and class structure. Coffin’s material is extremely rich, and I found the whole of it fascinating.”

Poverty Is Not a Vice

Charity, Society, and the State in Imperial Russia

Adele Lindenmeyr

At the turn of the twentieth century, many Russians clung to the traditional belief that "poverty is not a vice" and that personal acts of generosity toward the poor, including beggars, earn spiritual salvation. Here Adele Lindenmeyr explores how this thinking—and opposition to it—shaped the development of private charity and public welfare in Russia from the eighteenth century to World War I.

Lindenmeyr offers new insights into major issues debated by historians today: the development of a viable civil society in an autocratic state, the efficacy of central and local government, and Russians' complex reaction to Western ideas.

"Adele Lindenmeyr's study is the first in any language to make a thorough examination of Russian charity. [Her] concentration on the problem of charity as a reflection of the growth of civil society in pre-revolutionary Russia deepens our understanding of this complex and important process."—Richard G. Robbins, Jr., University of New Mexico

Blood Ties and Fictive Ties

Adoption and Family Life in Early Modern France

Kristin Elizabeth Gager

In Paris during the sixteenth and seventeenth centuries, the practice of adopting children was strongly discouraged by cultural, religious, and legal authorities on the grounds that it disrupted family blood lines. In fact, historians have assumed that adoption had generally not been practiced in France or in the rest of Europe since late antiquity.

Challenging this view, Kristin Gager brings to light evidence showing how married couples and single men and women from the artisan neighborhoods in early modern Paris did manage to adopt children as their legal heirs. In so doing, she offers a new, richly detailed portrait of family life, civil law, and public assistance in Paris, and reveals how citizens forged a wide variety of family forms in defiance of social, cultural, and legal norms.

"A valuable and original contribution."
