

Things to Consider When Selecting a Wireless Carrier

- The carrier must provide service to meet the business usage requirements agreed upon by the employee and supervisor if the employee intends to apply for a stipend.
- The carrier must provide the security requirements specified in the Wireless Communication Stipend Policy (2.1.7) if the employee intends to apply for a stipend.
- If the employee travels internationally, the carrier should provide packages for international coverage.
- Other features to consider:
 - Coverage areas
 - Contractual agreements
 - Early termination fees
 - Capability for multiple numbers on the same device
 - Capability to move your existing 556- or 558- business number to the device
 - Wi-Fi access
 - Troubleshooting services
