AppleTV

Connecting Your AppleTV to the UC network in a Residence Hall Room

To connect an AppleTV (ATV) to the UC network in a residence hall room requires plugging an ethernet cable into the Ethernet port on the ATV and plugging the other end of the cable into a datajack located on the wall in the room. The AppleTV device **MUST** be plugged into a datajack; the ATV device is not supported on the UC wireless network.

Note: AppleTV is currently not supported on UC wireless networks.

Airplay is not supported in Residence Halls.
