

OMICS INTERNATIONAL

OMICS International through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community. OMICS International hosts over **700** leading-edge peer reviewed Open Access Journals and organizes over **1000** International Conferences annually all over the world. OMICS International journals have over **10 million** readers and the fame and success of the same can be attributed to the strong editorial board which contains over **50000** eminent personalities that ensure a rapid, quality and quick review process. OMICS International signed an agreement with more than **1000** International Societies to make healthcare information Open Access.

OMICS Journals are welcoming Submissions

OMICS International welcomes submissions that are original and technically so as to serve both the developing world and developed countries in the best possible way.

OMICS Journals are poised in excellence by publishing high quality research. OMICS International follows an Editorial Manager® System peer review process and boasts of a strong and active editorial board.

Editors and reviewers are experts in their field and provide anonymous, unbiased and detailed reviews of all submissions. The journal gives the options of multiple language translations for all the articles and all archived articles are available in HTML, XML, PDF and audio formats. Also, all the published articles are archived in repositories and indexing services like DOAJ, CAS, Google Scholar, Scientific Commons, Index Copernicus, EBSCO, HINARI and GALE.

Editorial Board

Anita C Wright

Associate Professor

University of Florida

USA

Tel: 352-392-1991

Biography

- Dr. Anita Wright is an associate professor at University of Florida in the Food Science and Human Nutrition Department with a courtesy appointment in the Microbiology and Cell Science Department. She received her B.S. from Florida State University, M.S. from University of North Carolina, Charlotte and Ph.D. in Molecular Microbiology and Immunology from the University of Maryland. Her postdoctoral studies were conducted at the University of Maryland Centre of Marine Biotechnology.

Air & Water Borne Diseases

Open Access

ISSN: 2167-7719

- Anita Wright research interests include pathogens related to the seafood industry, particularly *Vibrio* species associated with shellfish genetics of bacterial polysaccharide capsules development of molecular probes and typing systems for detection and characterization of bacteria and protozoa in seafood and the environment.

Publications

Genetic Distinctions among Clinical and Environmental Strains of *Vibrio vulnificus*

Maria Chatzidaki-Livanis, Michael A. Hubbard, Katrina Gordon, Valerie J. Harwood and Anita C. Wright

Identification of a Group 1-Like Capsular Polysaccharide Operon for *Vibrio vulnificus* Disease Due to Cystic Fibrosis.

Anita C. Wright, Jan L. Powell, James B. Kaper and J. Glenn Morris Jr.

Methods for isolation and confirmation of *Vibrio vulnificus* from oysters and environmental sources: a review

Valerie J. Harwood, Jagruti P. Gandhi, Anita C. Wright

Genetic Variation in the *Vibrio vulnificus* Group 1 Capsular Polysaccharide Operon

Maria Chatzidaki-Livanis, Melissa K. Jones, and Anita C. Wright

Expression of *Vibrio vulnificus* Capsular Polysaccharide Inhibits Biofilm Formation

Lavin A. Joseph and Anita C. Wright

Evaluation of Postharvest-Processed Oysters by Using PCR-Based Most-Probable-Number Enumeration of *Vibrio vulnificus* Bacteria

Anita C. Wright, Victor Garrido, Georgia Debuex, Melissa Farrell-Evans, Archana A. Mudbidri and W. Steven Otwell

Biological approaches for controlling shellfish-associated pathogens

Max Teplitski , Anita C Wright, Graciela Lorca

Genetic Characterization of *Vibrio vulnificus* Strains from Tilapia Aquaculture in Bangladesh

Zahid H. Mahmud₁, Anita C. Wright, Shankar C. Mandal₁, Jianli Dai , Melissa K. Jones, Mahmud Hasan, Mohammad H. Rashid, Mohammad S. Islam, Judith A. Johnson, Paul A. Gulig, J. Glenn Morris Jr, and Afsar Ali,

Pathogens in raw foods: what the salad bar can learn from the raw bar

Anita C Wright , Michelle D Danyluk, W Steve Otwell

SOLiD sequencing of four *Vibrio vulnificus* genomes enables comparative genomic analysis and identification of candidate clade-specific virulence genes

Paul A Gulig, Valérie de Crécy-Lagard, Anita C Wright, Brandon Walts, Marina Telonis-Scott¹ and Lauren M McIntyre

Journal of Air & Water Borne Diseases Related Journals

- Journal of Bacteriology & Parasitology
- Journal of Medical Microbiology & Diagnosis
- Journal of Microbial & Biochemical Technology
- Journal of Plant Pathology & Microbiology
- Journal of Vaccines & Vaccination

Journal of Air & Water Borne Diseases Related Conferences

- Allergy Conference
- 4th Bacteriology and Infectious Diseases Conference
- 2nd Infectious Diseases Congress

OMICS International Open Access Membership

OMICS International Open Access Membership enables academic and research institutions, funders and corporations to actively encourage open access in scholarly communication and the dissemination of research published by their authors.
