2017 CATALOG

www.classicflame.com

YEAR-ROUND ENJOYMENT

ClassicFlame electric fireplaces allow you to enjoy the glow and ambiance of a realistic fire all-year round, for 4 seasons of enjoyment. That's a feature unmatched in wood-burning, gas or gel fireplaces.

NO FIREWOOD NEEDED

That means no more chopping and storing wood, worrying about having enough supply to last through winter, or spending hard earned money to purchase more.

So leave the logging to lumberjacks and cozy up next to a ClassicFlame™ electric fireplace this season.

ZONE HEATING \$AVES

Zone heating is easy with ClassicFlame. Warm only the room you're in and cut energy bills by about 10% by turning down the thermostat 10-15°.

Gas and wood burning fireplaces actually work opposite of zone heating, creating a draft effect when lit that pulls heat *out of the home*.

Source: Energy Information Administration and Alliance to Save Energy

EFFICIENCY

The LED bulbs used to create our realistic flame effects have a normal lifespan up to 100,000 hours and consume far less energy than regular incandescent bulbs.

LED bulbs contain no mercury, thereby helping to reduce greenhouse gas emissions. Producing approximately 90% less heat than an incandescent bulb, the LED bulb stays cool to the touch.

SAFER THAN EVER

No exposed flames, dangerous pilot lights or flammable gas; and the front glass panel stays cool to the touch.

And now with Safer Plug Fire Prevention Technology™ built into every ClassicFlame fireplace, our products have the safest plugs available. Safer Plug monitors the temperature in the plug to prevent unsafe conditions.

Visit www.SaferPlug.com to find out more

AIR QUALITY

No soot or ash is produced by any of our fireplaces; just warm, fresh air.

Allergy and asthma sufferers can warm the air they breathe without worrying about producing hazardous pollutants and irritants.

EASE OF USE

Our electric fireplaces require no venting or gas lines and feature easy to use controls. Just plug into any standard 120V, 3-prong outlet and enjoy out-of-the-box heat with simple assembly.

CREATE YOUR OWN COLLECTION

Customize your entertainment center based on both storage and entertainment needs.

Choose from a large selection of furniture pieces in our ClassicFlame & Bell'O signature furniture collections in order to create the perfect unit for your home.

Options are extensive with beverage cabinets, wine cooler cabinets, and curio-style cabinets. Choose the pieces you want and arrange them together to create your custom masterpiece.

HEAT WITH CONFIDENCE

with advanced, patent pending safety features to protect your family from fires.

Safer Plug Safer Plug

Safer Plug[™] continuously monitors the temperature of the plug during use and automatically shuts off the fireplace if unsafe conditions arise.

Once temperatures have cooled, Safer Plug allows you to resume normal product usage.

Safer Plug is built into ALL ClassicFlame fireplaces.

Safer Sensor[™]

Safer Sensor™ patent pending fire prevention technology continuously monitors the proximity of objects around the heater and automatically shuts the heater off if an object blocks the sensor.

The result is a safer product for your home, kids and pets.

Safer Sensor is built into select ClassicFlame fireplaces.
