Revision Date 3/5/2019

Upcoming Course Opportunities

	Spring	Fall	
	April 25-26, 2019	October 24-25, 2019	

Target Audience

This interactive course will offer a comprehensive foundation for professionals specializing in infection prevention in all settings of health care including: Acute Care, Critical Access Hospitals, Ambulatory Care, Ambulatory Surgery Centers, Home Care, Long Term Care and Public Health.

Participants will:

- Examine the elements of effective infection prevention programs and the resources that support development and implementation.
- Gain understanding of how evidence-based recommendations are used to implement best practices to prevent infections.
- Sharpen networking skills with colleagues to share experience and to gain access to additional resources
- Increase awareness of Centers for Medicare and Medicaid conditions of participation to qualify for 3rd party reimbursement.
- Improve understanding of the impact of infection prevention strategies to support the mission and goals of your health care system.

Continuing Education Credits

This program has been designed to meet continuing nursing education credits. A certificate of attendance for 14 contact hours will be given to each participant at the course conclusion.

Course Instructors

Certified (CIC) Instructors from a variety of clinical settings will provide the instruction. Course facilitator Stephanie Tismer, RN, BS, CIC sgtismer71@gmail.com
