HOLOCAUST STUDIES GENERAL OVERVIEWS

The Holocaust: An Introduction. Exploring the Evidence. By Thomas Dalton. Six million Jews, we are told, died. Although much has been written about this, much remains a mystery. For example, we would like to know: Where did the six million figure come from? Why do we have so little physical evidence from major death camps? Why has there been so much suppression and censorship on this topic? In a sense, the Holocaust is the greatest murder mystery in history which can point us to deeper truths about our contemporary society. Let's explore the evidence, and see where it leads.

#204: 128 pp. pb., 5"×8", b/w ill., bibl., index, £8/\$10 (2016)

Breaking the Spell. The Holocaust, Myth & Reality. By Nicholas Kollerstrom. In 1941, British Intelligence analysts cracked the German "Enigma" code. Hence, in 1942 and 1943, radio communications between German concentration camps and Berlin were decrypted. The data reveals that the Germans were desperate to reduce the death rate in their labor camps, which was caused by catastrophic typhus epidemics. Dr. Kollerstrom, a science historian, has taken these intercepts and a wide array of mostly unchallenged corroborating evidence to show that "witness statements" supporting the human gas-chamber narrative clearly clash with the available scientific data. Kollerstrom concludes that the history of the Nazi "Holocaust" has been written by the victors with ulterior motives. With a foreword by Prof. Dr. James Fetzner. 5th edition.

#13: 284 pp. pb., 6"×9", b/w ill., bibl., index, £20/\$25 (2019)

Debating the Holocaust. A New Look at Both Sides. By Thomas Dalton. Mainstream historians insist that there cannot be, may not be a debate about the Holocaust. But ignoring it does not make this controversy go away. Traditional scholars admit that there was neither a budget, a plan, nor an order for the Holocaust; that the key camps have all but vanished, and so have any human remains; that material and unequivocal documentary evidence is absent; and that there are serious problems with survivor testimonies. Dalton juxtaposes the traditional Holocaust narrative with revisionist challenges and then analyzes the mainstream's responses to them. He reveals the weaknesses of both sides, while declaring revisionism the winner of the current state of the debate. 3rd edition.

#243: 332 pp. pb., 6"×9", b/w ill., bibl., index, £20/\$25 (2017)

Lectures on the Holocaust. Controversial Issues Cross Examined. By Gernot Rudolf. A compendium of past and present controversies about the mainstream Holocaust narrative. A comprehensive, up-to-date overview of the critical research into the Holocaust: physical traces, forensic examinations, demographics, document analysis, critique of witness testimony. Rudolf introduces the most-important arguments for his findings, and his audience reacts with supportive, skeptical and also hostile questions. Of the thousands of books on this topic, this one gives the most-comprehensive and up-to-date overview of the critical research into the Holocaust. With its dialog style, it is pleasant to read, and with its logical organization and index, it can even be used as an encyclopedic compendium.

The Hoax of the Twentieth Century. The Case against the Presumed Extermination of European Jewry. By

Arthur R. Butz. The first writer to analyze the entire Holocaust complex in a precise scientific manner. This book exhibits the overwhelming force of arguments accumulated by the mid-1970s. It continues to be a major historical reference work, frequently cited by prominent personalities. This edition has numerous supplements with new information gathered over the last 35 years. Fourth edition.

#128: 545 pp. pb., 6"×9", b/w ill., bibl., index, £27/\$35 (2015)

Dissecting the Holocaust. The Growing Critique of 'Truth' and 'Memory.' Edited by Germar Rudolf. This

book applies state-of-the-art scientific technique and classic methods of detection to investigate the alleged murder of millions of Jews by Germans during World War II. In 22 contributions—each of some 30 pages—the 17 authors dissect generally accepted paradigms of the "Holocaust." It reads as excitingly as a crime novel: so many lies, forgeries and deceptions by politicians, historians and scientists are proven. This is the intellectual adventure of the 21st century. Be part of it!

#38: 2nd, rev. ed., 620 pp. pb., 6"×9", b/w ill., bibl., index, £19.95/\$25.50 (2003)

The Dissolution of Eastern European Jewry. By Walter N. Sanning. Six Million Jews died in the Holocaust. Sanning thoroughly explored European population developments and shifts mainly caused by emigration as well as deportations and evacuations conducted by both Nazis and the Soviets, among other things. The book is based mainly on Jewish, Zionist and mainstream sources. It concludes that a sizeable share of the Jews found missing after the Second World War, which were so far counted as "Holocaust victims," had either emigrated (mainly to Israel or the U.S.) or had been deported by Stalin to Siberian labor camps. 2nd edition, foreword by A.R. Butz, epilogue by Germar Rudolf containing important updates.

#122: 224 pp. pb., 6"×9", b/w ill., bibl., index, £17/\$24 (2015)

Air-Photo Evidence: World War Two Photos of Alleged Mass Murder Sites Analyzed. By G.

Rudolf (ed.). During World War Two both German and Allied reconnaissance aircraft took countless air photos of places of tactical and strategic interest in Europe. Some of these photos provide evidence for the investigation of the Holocaust. Air photos of locations like Auschwitz, Majdanek, Treblinka, Babi Yar etc. permit an insight into what did or did not happen there. The author has unearthed

many pertinent photos and has thoroughly analyzed them. This book is full of air-photo reproductions and schematic drawings explaining them. According to the author, these images refute many of the atrocity claims made by witnesses in connection with events in the German sphere of influence. 3rd revised and expanded edition. With a contribution by Carlo Mattogno.

#257: 5th ed., 178 pp. pb., 8.5"×11", b/w ill., bibl., index, £18/\$20 (2018)

The Leuchter Reports: Critical Edition. By Fred Leuchter, Robert Faurisson and Germar Rudolf. Between 1988 and 1991, U.S. expert on execution technologies Fred Leuchter wrote four detailed reports addressing whether the Third Reich operated homicidal gas chambers. The first report on Auschwitz and Majdanek became world famous. Based on chemical analyses and various technical arguments, Leuchter concluded that the locations investigated "could not have then been, or now be, utilized or seriously considered to function as execution gas chambers." 4th edition.

#233: 5th ed., 254 pp. pb., 6"×9", b/w ill., bibl., index, £15/\$20 (2017)

The Giant with Feet of Clay: Raul Hilberg and His Standard Work on the "Holocaust." By Jürgen Graf.

Raul Hilberg's major work *The Destruction of European Jewry* is an orthodox standard work on the Holocaust. But what evidence does Hilberg provide to back his thesis that there was a German plan to exterminate Jews, carried out mainly in gas chambers? Jürgen Graf applies the methods of critical analysis to Hilberg's evidence and examines the results in light of modern historiography. The results of Graf's critical analysis are devastating for Hilberg. 2nd, corrected edition.

#48: 146 pp. pb., 6"×9", b/w ill., bibl., index, £10/\$14 (2015)

Inside the Gas Chambers: The Extermination of Mainstream Holocaust Historiography. By Carlo Mattogno.

Neither increased media propaganda nor political pressure nor judicial persecution can stifle revisionism. Hence, in early 2011, the Holocaust Orthodoxy published a 400 pp. book (in German) claiming to refute "revisionist propaganda," trying again to prove "once and for all" that there were homicidal gas chambers at the camps of Dachau, Natzweiler, Sachsenhausen, Mauthausen, Ravensbrück, Neuengamme, Stutthof... you name them. Mattogno shows with his detailed analysis of this work of propaganda that mainstream Holocaust hagiography is beating around the bush rather than addressing revisionist research results. He exposes their myths, distortions and lies. 2nd edition.

#220: 280 pp. pb., 6"×9", b/w ill., bibl., £16/\$20 (2016)

The Second Babylonian Captivity. By Steffen Werner. "But if they were not murdered, where did the six million deported Jews end up?" This is a standard objection to the revisionist thesis that the Jews were not killed in extermination camps. It demands a well-founded response. While researching an entirely different topic, Steffen Werner accidentally stumbled upon the most-peculiar demographic data of Byelorussia. Years of research subsequently revealed more and more evidence which eventually allowed him to substantiate a breathtaking and sensational proposition: The Third Reich did indeed deport many of the Jews of Europe to Eastern Europe in order to settle them there "in the swamp." This book, first published in German in 1990, was the first well-founded work showing what really happened to the Jews deported to the East by the National Socialists, how they have fared since, and who, what and where they are "now" (1990). It provides context and purpose for hitherto-obscure and seemingly arbitrary historical events and quite obviates all need for paranormal events such as genocide, gas chambers, and all their attendant horrors. With a preface by Germar Rudolf with references to more-recent research results in this field of study confirming Werner's thesis.

#295: 190 pp. pb., 6"x9", b/w ill., bibl., index, £16/\$20 (2019)

SPECIFIC CAMPS & EVENTS

Treblinka: Extermination Camp or Transit Camp? By Carlo Mattogno and Jürgen Graf. It is alleged that at Treblinka in East Poland between 700,000 and 3,000,000 persons were murdered in 1942 and 1943. The weapons used were said to have been stationary and/or mobile gas chambers, fast-acting or slow-acting poison gas, unslaked lime, superheated steam, electricity, diesel exhaust fumes etc. Holocaust historians alleged that bodies were piled as high as multi-storied buildings and burned without a trace, using little or no fuel at all. Graf and Mattogno have now analyzed the origins, logic and technical feasibility of the official version of Treblinka. On the basis of numerous documents they reveal Treblinka's true identity as a mere transit camp.

#217: 372 pp. pb., 6"x9", b/w ill., bibl., index, £17/\$22 (2016, reprint)

Belzec in Propaganda, Testimonies, Archeological Research and History. By Carlo Mattogno. Witnesses report that between 600,000 and 3 million Jews were murdered in the Belzec camp, located in Poland. Various murder weapons are claimed to have been used: diesel gas; unslaked lime in trains; high voltage; vacuum chambers; etc. The corpses were incinerated on huge pyres without leaving a trace. For those who know the stories about Treblinka this sounds familiar. Thus the author has restricted this study to the aspects

which are new compared to Treblinka. In contrast to Treblinka, forensic drillings and excavations were performed at Belzec, the results of which are critically reviewed.

#214: 142 pp. pb., 6"x9", b/w ill., bibl., index, £12/\$15 (2016, reprint)

Sobibor: Holocaust Propaganda and Reality. By Jürgen Graf, Thomas Kues and Carlo Mattogno. Between 25,000 and 2 million Jews are said to have been killed in gas chambers in the Sobibór camp in Poland. The corpses were allegedly buried in mass graves and later incinerated on pyres. This book investigates these claims and shows that they are based on the selective use of contradictory eyewitness testimony. Archeological surveys of the camp in 2000-2001 are analyzed, with fatal results for the extermination-camp hypothesis. The book also documents the general National Socialist policy toward Jews, which never included a genocidal "final solution."

#218: 442 pp. pb., 6"x9", b/w ill., bibl., index, £20/\$25 (2016, reprint)

The "Extermination Camps" of "Aktion Reinhardt". By Jürgen Graf, Thomas Kues and Carlo Mattogno. In late 2011, several members of the exterminationist *Holocaust Controversies* blog published a study which claims to refute three of our authors' monographs on the camps Belzec, Sobibor and Treblinka (see previous three entries). This tome is their point-by-point response, which makes "mincemeat" out of the bloggers' attempt at refutation. It requires familiarity with the above-mentioned books and constitutes a comprehensive update and expansion of their themes. Two volumes.

#149 & 150: 2nd ed., 712+684 pp. pb., 6"x9", b/w ill., bibl.; altogether £60/\$90 (£30/\$45 each; 2015)

The Einsatzgruppen in the Occupied Eastern Territories: Genesis, Missions and Actions. By Carlo Mattogno. Before invading the Soviet Union, the Germans set up units to secure the area behind the front. Orthodox historians claim that these units called *Einsatzgruppen* were primarily engaged in mass-murdering Jews. This study sheds a critical light into this topic by reviewing all the pertinent sources as well as material traces. It reveals that original wartime documents do not fully support the orthodox genocidal narrative, and that most post-"liberation" sources such as testimonies and forensic reports are steeped in Soviet atrocity propaganda. In addition, material traces of the claimed massacres are rare due to an attitude of collusion by governments and Jewish lobby groups not to investigate what they consider "self-evident."

#117: 830 pp. pb., 6"x9", b/w ill., bibl., index, £40/\$50 (2018)

Chelmno: A Camp in History & Propaganda. By Carlo Mattogno. The world's premier holocaust scholar focuses his microscope on the death camp located in Poland. It was here that huge masses of Jewish prisoners were rounded up and mercilessly gassed in so-called "gas vans" or shot (claims vary from 10,000 to 1.3 million victims). Or so say the court historians, most of whom have never set foot near the remains of the camp. This book challenges the conventional wisdom of what went on inside Chelmno. Eyewitness statements, forensics reports, coroners' reports, excavations, crematoria, building plans, U.S. reports, German documents, evacuation efforts, mobile gas vans for homicidal purposes—all are discussed. Here are the uncensored facts about Chelmno, not the propaganda.

#238: 2nd ed., 198 pp. pb., 6"×9", b/w ill., bibl., index, £16/\$20 (2017)

The Gas Vans: A Critical Investigation. (A perfect companion to the Chelmno book.) By Santiago Alvarez and Pierre Marais. It is alleged that the Nazis used mobile gas chambers to exterminate 700,000 people. Up until 2011, no thorough monograph had appeared on the topic. Santiago Alvarez has remedied the situation. Are witness statements reliable? Are documents genuine? Where are the murder weapons? Could they have operated as claimed? Where are the corpses? Alvarez has scrutinized all known wartime documents, photos and witness statements on this topic, and has examined the claims made by the mainstream.

#254: 398 pp. pb., 6"×9", b/w ill., bibl., index, £20/\$25 (2016, reprint)

Concentration Camp Majdanek. A Historical and Technical Study. By Carlo Mattogno and Jürgen Graf. Little research had been directed toward Concentration Camp Majdanek in central Poland, even though it is claimed that up to a million and more Jews were murdered there. The only information available is discredited Polish Communist propaganda. This glaring research gap has finally been filled. After exhaustive research of primary sources, Mattogno and Graf created a monumental study which expertly dissects and repudiates the myth of homicidal gas chambers at Majdanek. They also critically investigated the legend of mass executions of Jews in anti-tank trenches ("Operation Harvest Festival") and prove them groundless. The authors' investigations lead to unambiguous conclusions about the camp which are radically different from the official theses. Again they have produced a standard and methodical investigative work, which authentic historiography cannot ignore. Third edition.

#219: 358 pp. pb., 6"×9", b/w ill., bibl., index, £16/\$21 (2016, reprint)

Concentration Camp Stutthof and Its Function in National Socialist Jewish Policy. By Carlo Mattogno and Jürgen Graf. The Stutthof camp in Prussia has never before been scientifically investigated by traditional historians, who claim nonetheless that Stutthof served as a 'makeshift' extermination camp in 1944. Based mainly on archival resources, this study thoroughly debunks this view and shows that Stutthof was in fact a center for the organization of German forced labor toward the end of World War II. Fourth edition.

#129: 178 pp. pb., 6"×9", b/w ill., bibl., index, £13/\$15 (2016)

AUSCHWITZ STUDIES

Auschwitz: A Three-Quarter Century of Propaganda Origins, Development and Decline of the "Gas Chamber" Propaganda Lie. By Carlo Mattogno. An overview of the many rumors, myths and lies about Auschwitz spread during and right after the war, which mainstream historians today reject as untrue: murder by war gasses, gas bombs, electrocution chambers, gas showers, pneumatic hammer systems, electrocution conveyor belts, gas chambers made of canvas, gas chambers with trap-doors for instant discharging of corpses; oils, grease and soap made of murder victims; Four million victims; crematoria with a capacity of up to 400 million bodies... This book then explains by which ridiculous methods some claims about Auschwitz were accepted as true and turned into "history," although they are just as untrue.

#256: 124 pp. pb., 5"×8", b/w ill., bibl., index, £8/\$10 (2018)

Auschwitz – Forensically Examined. By Cyrus Cox. Modern forensic crime-scene investigations can find out a lot also about the Holocaust. There are many big tomes about this, such as Rudolf's *The Chemistry of Auschwitz*, or Mattogno's work on the crematoria of Auschwitz. But who reads those doorstops? Here is a booklet that condenses the most-important findings of Auschwitz forensics into a nutshell, quick and easy to read. It summarizes the forensic investigations conducted so far, making them accessible to everyone. The main arguments focus on two topics. The first centers around the poison allegedly used at Auschwitz for mass murder: Zyklon B. Did it leave any traces in masonry where it was used? Can it be detected to this day? The second topic deals with mass cremations. Did the crematoria of Auschwitz have the claimed huge capacity claimed for them? Do air photos taken during the war confirm witness statements on huge smoking pyres? Find the answers to these questions in this booklet. The third section reports on how the establishment has reacted to these research results.

#293: 124 pp. pb., 5"×8", bibl. index, £8/\$10 (2019)

Auschwitz: Technique and Operation of the Gas Chambers: An Introduction and Update.

By Gernar Rudolf. Pressac's 1989 oversize book of the same title was a trail blazer. Its many document reproductions are still valuable, but after decades of additional research, Pressac's annotations are outdated. This book summarizes the most pertinent research results on Auschwitz gained during the past 30 years. With many references to Pressac's epic tome, it serves as an update and correction to it, whether you own an original hard copy of it, read it online, borrow it from a library, purchase a reprint, or are just interested in such a summary in general. 144 pages, b&w illustrations, bibliography.

#283: 144 pp. pb., 6"×9", b/w ill., bibl., £12/\$15 (2018)

The Real Case of Auschwitz: Robert van Pelt's Evidence from the Irving Trial Critically Reviewed. By Carlo Mattogno. Prof. Robert van Pelt is considered one of the best mainstream experts on Auschwitz and has been called upon several times in holocaust court cases. His work is cited by many to prove the holocaust happened as mainstream scholars insist. This book is a scholarly response to Prof. van Pelt—and Jean-Claude Pressac. It shows that their studies are heavily flawed. This is a book of prime political and scholarly importance to those looking for the truth about Auschwitz.

#151: 2nd ed., 758 pp. pb., 6"×9", b/w ill., bibl., index, £30/\$40 (2015)

Auschwitz: Plain Facts—A Response to Jean-Claude Pressac. Edited by Gernar Rudolf. In the late 1980s/early 1990s, French mainstream scholar Jean-Claude Pressac tried to refute revisionist findings with their own technical methods. The mass media promptly proclaimed victory over the revisionists. In *Auschwitz: Plain Facts*, Pressac's works are subjected to a devastating critique by leading revisionist scholars. They show that Pressac could not refute the revisionists, because he made claims he could not prove or which contradict the facts. Many documents he quoted do not state what he claimed. But most importantly: his books neither contain references to technical or scientific literature, nor are there any technical consideration in them. With contributions by Gernar Rudolf, Serge Thion, Robert Faurisson, and Carlo Mattogno. 2nd edition.

#186: 226 pp. pb., 6"×9", b/w ill., bibl., index, glossary, £14/\$20 (2016)

The Chemistry of Auschwitz. Technology and Toxicology of Zyklon B and the Gas Chambers – A Crime Scene Investigation. By Gernar Rudolf. This study documents forensic research on Auschwitz, where material traces and their interpretation reign supreme. Most of the claimed crime scenes – the claimed homicidal gas

ambers – are still accessible to forensic examination to some degree. This book addresses questions such as: What did these gas chambers look like? How did they operate? In addition, the infamous Zyklon B can also be examined. What exactly was it? How does it kill? Does it leave traces of masonry that can be found still today? The author also discusses in depth similar forensic research conducted by other authors.

442 pp. pb., 6"×9", bibl. index (2017); #228: black & white, £20/\$25; #227: color throughout: £40/\$55

Auschwitz Lies: Legends, Lies and Prejudices on the Holocaust. By Carlo Mattogno and Gernar Rudolf. The fallacious research and alleged "refutation" of Revisionist scholars by French biochemist G. Wellers (attacking Leuchter's famous report), Polish chemist Dr. J. Markiewicz and U.S. chemist Dr. Richard Green (taking on Rudolf's chemical research), Dr. John Zimmerman (tackling Mattogno on cremation issues), Michael Shermer and Alex Grobman (trying to prove it all), as well as researchers Keren, McCarthy and Mazal (how turned cracks into architectural features), are exposed for what they are: blatant and easily exposed political lies created to ostracize dissident historians. 4th edition.

#252: 420 pp. pb., 6"×9", b/w ill., index, £19/\$25 (2017)

Auschwitz: The Central Construction Office. By Carlo Mattogno. Based upon mostly unpublished German wartime documents, this study describes the history, organization, tasks and procedures of the Central Construction Office of the Waffen-SS and Auschwitz Police. Despite a huge public interest in the camp, next to nothing was really known about this office, which was responsible for the planning and construction of the Auschwitz camp complex, including the crematories which are said to have contained the "gas chambers." 2nd edition.

#166: 188 pp. pb., 6"×9", b/w ill., bibl., index, glossary, £13/\$18 (2015)

Auschwitz: The First Gassing—Rumor and Reality. By Carlo Mattogno. The first gassing in Auschwitz is claimed to have occurred on Sept. 3, 1941, in a basement room. The accounts reporting it are the archetypes for all later gassing accounts. This study analyzes all available sources about this alleged event. It shows that these sources contradict each other on location, date, preparations, victims etc, rendering it impossible to extract a consistent story. Original wartime documents inflict a final blow to this legend and prove without a shadow of a doubt that this legendary event never happened. 3rd edition.

#167: 190 pp. pb., 6"×9", b/w ill., bibl., index, £14/\$20 (2016)

Auschwitz: Crematorium I and the Alleged Homicidal Gassings. By Carlo Mattogno. The morgue of Crematorium I in Auschwitz is said to be the first homicidal gas chamber there. This study investigates all statements by witnesses and analyzes hundreds of wartime documents to accurately write a history of that building. Where witnesses speak of gassings, they are either very vague or, if specific, contradict one another and are refuted by documented and material facts. The author also exposes the fraudulent attempts of mainstream historians to convert the witnesses' black propaganda into "truth" by means of selective quotes, omissions, and distortions. Mattogno proves that this building's morgue was never a homicidal gas chamber, nor could it have worked as such.

#206: 152 pp. pb., 6"×9", b/w ill., bibl., index, £11/\$15 (2016)

Debunking the Bunkers of Auschwitz: Black Propaganda versus History. By Carlo Mattogno. The so-called "Bunkers" at Auschwitz-Birkenau allegedly were the first homicidal gas chambers at Auschwitz dedicated for this purpose in early 1942. In this examination of a critical component of the Auschwitz extermination legend, the author has combed tens of thousands of German wartime documents – to conclude that these "Bunkers" never existed. He shows how camp rumors of these alleged gas chambers evolved into black propaganda created by resistance groups. This was then transformed into "reality" by historians uncritically embracing everything stated by alleged eyewitnesses. Aerial photography and archeological diggings bolsters the case that the "bunkers" were propaganda bunk. Second revised edition.

#12: 292 pp. pb., 6"×9", b/w ill., bibl., index, £17/\$24 (2016)

Auschwitz: Open-Air Incinerations. By Carlo Mattogno. In spring and summer of 1944, 400,000 Hungarian Jews were deported to Auschwitz and allegedly murdered there in gas chambers. The Auschwitz crematoria are said to have been unable to cope with so many corpses. Therefore, every single day thousands of corpses are claimed to have been incinerated on huge pyres lit in deep trenches. The sky over Auschwitz was covered in thick smoke. This is what some witnesses want us to believe. This book examines the many testimonies regarding these incinerations and establishes whether these claims were even possible. Using air photos, physical evidence and wartime documents, the author shows that these claims are fiction. A new Appendix contains 3 papers on groundwater levels and cattle mass burnings. 2nd edition.

#213: 202 pp. pb., 6"×9", b/w ill., bibl., index, £15/\$20 (2016)

Special Treatment in Auschwitz: Origin and Meaning of a Term. By Carlo Mattogno. When appearing in German wartime documents, terms like "special treatment," "special action," and others have been interpreted as code words for mass murder. But that is rarely, if ever, true. This study focuses on documents about Auschwitz, showing that, while "special" had many different meanings, not a single one meant "execution." Hence the practice of deciphering an alleged "code language" by assigning homicidal meaning to harmless documents – a key component of mainstream historiography – is untenable. Second edition.

#198: 166 pp. pb., 6"×9", b/w ill., bibl., index, £12/\$16 (2016)

Healthcare in Auschwitz: Medical Care and Special Treatment of Registered Inmates. By Carlo Mattogno. In extension of the above study on *Special Treatment in Auschwitz*, this study proves the extent to which the German authorities at Auschwitz tried to provide appropriate health care for the inmates. This is frequently described as special measures to improve the inmates' health and thus ability to work in Germany's armaments industry. This, after all, was the only thing the Auschwitz authorities were really interested in due to orders from the highest levels of the German government. A second part of this book deals with the fate of registered inmates who were subject to "selections" and "special treatment" due to being sick or otherwise incapacitated. A third part looks into the personality and activities of Dr. Eduard Wirths, the Auschwitz garrison physician.

#225: 398 pp. pb., 6"×9", b/w ill., bibl., index, £20/\$25 (2016)

The Cremation Furnaces of Auschwitz. By Carlo Mattogno & Franco Deana. An exhaustive technical study of the history and technology of cremation in general and of the cremation furnaces of Auschwitz in particular. On a sound and thoroughly documented base of technical literature, extant wartime documents and material traces, Mattogno and Deana can establish the true nature and capacity of the Auschwitz cremation furnaces. They show that these devices were cheaper versions than what was usually produced, and that their capacity to cremate corpses was lower than normal, too. Hence this study reveals that the Auschwitz cremation furnaces were not monstrous super ovens but rather inferior make-shift devices. 3 volumes.

#158: 1198 pp. pb., 6"×9", b/w ill., bibl., index, glossary, £80/\$120 (2015)

Curated Lies: The Auschwitz Museum's Misrepresentations, Distortions and Deceptions. By Carlo Mattogno. Revisionist research results have put the Polish Auschwitz Museum under enormous pressure to answer this challenge. They've answered. This book analyzes their answer and reveals the appallingly mendacious attitude of the Auschwitz Museum authorities when presenting documents from their archives. With a contribution by Eric Hunt on the Auschwitz Museum's misrepresentations of its most valued asset, the "gas chamber" in the Main Camp.

#197: 248 pp. pb., 6"×9", b/w ill., bibl., index, £14/\$20 (2016)

Auschwitz: A Judge Looks at the Evidence. By Wilhelm Stäglich. Stäglich, until the mid-1970s a German judge, has so far been the only legal expert to critically analyze the foundations of what we today think we know about Auschwitz. His research results, as presented in this book, leave the reader at times breathless when confronted with the incredibly scandalous way in which the Allied victors and later the German judicial authorities bent and broke the law in order to come to politically foregone conclusions. This third edition contains a foreword by the editor pointing the curious reader to more-recent research results, as well as an epilogue describing the persecution suffered by Stäglich for his peaceful dissent.

#123: 422 pp. pb., 6"×9", b/w ill., bibl., £24/\$30 (2015)

WITNESS CRITIQUE

Holocaust High Priest: Elie Wiesel, Night, the Memory Cult, and the Rise of Revisionism. By Warren B. Rutledge. The first unauthorized biography of Wiesel exposes both his personal deceptions and the whole myth of "the six million." It shows how Zionist control has allowed Wiesel and his fellow extremists to force leaders of many nations, the U.N. and even popes to genuflect before Wiesel as symbolic acts of subordination to World Jewry, while at the same time forcing schoolchildren to submit to Holocaust brainwashing.

An Auschwitz Doctor's Eyewitness Account: The Tall Tales of Dr. Mengele's Assistant Analyzed. By Miklos Nyiszli & Carlo Mattogno. Nyiszli, a Hungarian Jew who studied medicine in Germany before the war, ended up at Auschwitz in 1944 as Dr. Mengele's assistant. After the war he wrote an account of what he claimed to have experienced. He also volunteered to testify at the Nuremberg postwar tribunal, but was rejected by the prosecution. His story was simply too wild. To this day some traditional his-

torians take his accounts seriously, while others accept that it is a grotesque collection of lies and exaggerations. This study analyzes Nyiszli's novel and his pretrial interrogation, and it skillfully separates truth from fabulous fabrication.

Commandant of Auschwitz: Rudolf Höss, His Torture and His Forced Confessions. By Carlo Mattogno & Rudolf Höss. From 1940 to 1943, Rudolf Höss was the commandant of the infamous Auschwitz Camp. After the war, he was captured by the British. In the following 13 months until his execution, he made 85 depositions of various kinds in which he confessed his involvement in the "Holocaust." This study first reveals how the British tortured him to extract various "confessions." Next, all of Höss's depositions are analyzed by checking his claims for internal consistency and comparing them with established historical facts. The results are eye-opening.

Auschwitz: Eyewitness Reports and Perpetrator Confessions of the Holocaust. By Jürgen Graf. The traditional narrative of what transpired at the Auschwitz Camp during WWII rests almost exclusively on witness testimony from former inmates as well as erstwhile camp officials. This study critically scrutinizes the 30 most-important of these witness statements by checking them for internal coherence, and by comparing them with one another as well as with other evidence such as wartime documents, air photos, forensic research results, and material traces. The result is devastating for the traditional narrative. This book is dynamite underneath the main pillars of the traditional Holocaust narrative.

MAINSTREAM FAILURES

A series of studies exposing mainstream books on the Holocaust as the failures they are:

Bungled: "Denying the Holocaust." How Deborah Lipstadt Botched Her Attempt to Demonstrate the Growing Assault on Truth and Memory. By Gernar Rudolf. With her book *Denying the Holocaust*, Deborah Lipstadt tried to show the flawed methods and extremist motives of "Holocaust deniers." Backed up with hundreds of references to thoroughly researched studies, the present book demonstrates that Dr. Lipstadt clearly has neither understood what the principles and methods of science and scholarship are, nor has she any clue about the historical topics she is writing about. She misquotes, mistranslates, misrepresents, misinterprets, and makes

a plethora of wild claims without backing them up with anything. F for FAIL. 2nd edition.

Bungled: "Debunking Holocaust Denial Theories" How James and Lance Morcan Botched Their Attempt to Affirm the Historicity of the Nazi Genocide. By Carlo Mattogno. The novelists and movie-makers James and Lance Morcan have produced a book "to end [Holocaust] denial once and for all." To do this, "one by one, the various arguments Holocaust deniers use to try to discredit wartime records are carefully scrutinized and then systematically disproven." But it's a grand feint. This study proves that the Morcans do not address revisionist arguments at all. In fact, they completely ignored the vast amount of recent revisionist studies. Instead, they engaged in shadowboxing, creating some imaginary, bogus "revisionist" scarecrow – a mélange of distorted or completely invented alleged "denier" arguments – which they then tore to pieces. In addition, their knowledge even of their own side's source material is dismal, and the way they backed up their misleading or false claims is pitifully inadequate. F for FAIL.

Bungled: "Denying History" How Michael Shermer and Alex Grobman Botched Their Attempt to Refute Those Who Say the Holocaust Never Happened. By Carlo Mattogno. *Skeptical Magazine* editor Michael Shermer and Alex Grobman from the Simon Wiesenthal Center wrote a book which they claim is "a thorough and thoughtful answer to all the claims of the Holocaust deniers." In fact, however, Shermer and Grobman completely ignored the vast amount of recent scholarly revisionist studies. They primarily piled up an enormous heap of falsifications, contortions, omissions, and fallacious interpretations of the evidence. They ignored the known unreliability of their cherry-picked selection of evidence, utilized unverified and incestuous sources, and obscured the evidence that dooms their project to failure.

HOLOCAUST MISCELLANY

The First Holocaust. The Surprising Origin of the Six-Million Figure. By Don Heddeshheimer. This compact but substantive study documents propaganda spread prior to, during and after the FIRST World War that claimed East European Jewry was on the brink of annihilation. The magic number of suffering and dying Jews was 6 million back then as well. The book details how these Jewish fundraising operations in America raised vast sums in the name of feeding suffering Polish and Russian Jews but actually funneled much of the money to Zionist and Communist groups,

including Communist revolutionaries in Russia. 5th, revised edition.

Jewish Emigration from the Third Reich By Ingrid Weckert. Historical writings to date give at times the impression that Jews who wished to leave Third Reich Germany had to sneak over the borders in defiance of the German authorities, and leave all their possessions and wealth behind. The truth is that the emigration was welcomed by the German authorities, and benefitted from encouragement and assistance that increased over time. Until the outbreak of the war, emigration was not some kind of wild flight, but rather a lawfully conducted and regulated matter. Weckert's booklet elucidates the emigration process in law and policy, thereby correcting the traditionally received picture of Jewish emigration from Germany significantly. 2nd expanded edition.

Exactitude: Festschrift for Robert Faurisson on Occasion of his 75th Birthday By R.H. Countess, C. Lindtner, G. Rudolf (eds.). On January 25, 1929, a man was born who probably deserves the title of the most courageous intellectual of the 20th century and the beginning of the 21st century: Robert Faurisson. With bravery and steadfastness, he challenged the dark forces of historical and political fraud with his unrelenting exposure of their lies and hoaxes surrounding the orthodox Holocaust narrative. This book describes and celebrates the man, who passed away on October 21, 2018, and his work dedicated to accuracy and marked by insubmission.

WARS & ATROCITIES

Who Started World War II

Truth for a War-Torn World. By Udo Walendy. For seven decades, mainstream historians have insisted that Germany was the main, if not the sole culprit for unleashing World War II in Europe. In the present book this myth is refuted. There is available to the public today a great number of documents on the foreign policies of the Great Powers before September 1939 as well as a wealth of literature in the form of memoirs of the persons directly involved in the decisions that led to the outbreak of World War II. Together, they made possible Walendy's present mosaic-like reconstruction of the events before the outbreak of the war in 1939. This book has been published only after an intensive study of sources, taking the greatest care to minimize speculation and inference. The present edition

has been translated completely anew from the German original and has been slightly revised.

Stalin's War of Extermination: 1941-1945. Planning, Realization and Documentation. By Joachim Hoffmann.

Based on the author's lifelong study of German and Russian military records, Stalin's War of Extermination not only reveals—as never before—the Red Army's grisly record of atrocities against soldiers and civilians, but establishes beyond cavil that torture, murder, and rape of the captive and the helpless was official Soviet policy, as ordered by Comrade J.V. Stalin. An indispensable book for all students of World War II as it actually happened, as well as a revisionist classic that has shaken anti-German propagandists to the marrow.

PERSECUTION OF DISSIDENTS

Hunting Germar Rudolf: Essays on a Modern -Day Witch Hunt! By Germar Rudolf. German-born revisionist activist, author and publisher Germar Rudolf

describes which events made him convert from a Holocaust believer to a Holocaust skeptic, quickly rising to a leading personality within the revisionist movement. This in turn unleashed a tsunami of persecution against him: loss of his job, denied PhD exam, destruction of his family, driven into exile, slandered by the mass media, literally hunted, caught, put on a show trial where filing motions to introduce evidence is illegal under the threat of further prosecution, and finally locked up in prison for years for nothing else than his peaceful yet controversial scholarly writings. In several essays, Rudolf takes the reader on a journey through an absurd world of government and societal persecution which most of us could never even fathom actually exists....

Resistance Is Obligatory! By Germar Rudolf. In 2005 Rudolf, a peaceful dissident and publisher of revisionist literature, was kidnapped by the U.S. government and deported to Germany. There the local lackey regime staged a show trial against him for his historical writings. Rudolf was not permitted to defend his historical opinions, as the German penal law prohibits this. Yet he defended himself anyway: 7 days long Rudolf held a speech in the courtroom, during which he proved systematically that only the revisionists are scholarly in their attitude, whereas the Holocaust orthodoxy is merely pseudo-scientific. He then explained in detail why it is everyone's obligation to resist, without violence, a government which throws peaceful dissidents into dungeons. When Rudolf tried to publish his public defence speech as a book from his prison cell, the public prosecutor ini-

tiated a new criminal investigation against him. After his probation time ended in 2011, he dared publish this speech anyway...

The Second Zündel Trial. Excerpt from the Court Transcript of the Canadian "False News" Trial of Ernst Zündel, 1988. By Barbara Kulaszka (ed.).

Accused of spreading "false news" about the Holocaust, Ernst Zündel staged a magnificent defense in an attempt to prove to a jury that revisionist concepts of "the Holocaust" are essentially correct. Far from being "Holocaust denial", these concepts are actually "reality affirmations" by explaining what really happened, supported by a wide array of evidence. Although many of the key players have since passed away, among them Ernst Zündel himself, this historic trial keeps having an impact as though it had happened just yesterday. It inspired major research efforts as they are nowadays expounded in the individual volumes of the series *Holocaust Handbooks*. While the First Zündel Trial of 1985 was extensively covered by the Canadian news media, the second trial, although much less covered by the mass media, had a much greater impact internationally, mainly due to the *Leuchter Report* as the first independent forensic research performed on the Auschwitz and Majdanek camps. One reason for the *Leuchter Report's* initial success was that it was endorsed on the witness stand by the British bestselling historian David Irving. The present book features the essential contents of this landmark trial with all the gripping, at-times-dramatic details. When Amazon.com decided to ban this 1992 book, we decided to put it back in print, so that censorship may backfire on the censors...

JUDAICA

Hitler on the Jews. By Thomas Dalton. That Adolf Hitler spoke out against the Jews is beyond obvious. But of the thousands of books and articles written on Hitler, virtually none quotes Hitler's exact words on the Jews. The reason for this is clear: Those in positions of influence have incentives to present a simplistic picture of Hitler as a blood-thirsty tyrant. However, Hitler's take on the Jews is far more complex and sophisticated. In this book, for the first time, you can make up your own mind by reading nearly every idea that Hitler put forth about the Jews, in considerable detail and in full context. This is the first book ever to compile his remarks on the Jews. As you will discover, Hitler's analysis of the Jews, though hostile, is erudite, detailed, and – surprise, surprise – largely aligns with events of recent decades. There are many lessons here for the modern-day world to learn.

Goebbels on the Jews. By Thomas Dalton. From the age of 26, Joseph Goebbels kept a near-daily diary. In it, he recorded significant events of the day along with his thoughts and opinions on a variety of topics, most notably the Jewish policy of the Third Reich. As such, these diary entries have a profound effect on our understanding of the Holocaust. Nowhere in the diary does Goebbels discuss any Hitler order to kill the Jews, nor is there any reference to extermination camps, gas chambers, or any methods of systematic mass-murder. Goebbels acknowledges that Jews did indeed die by the thousands; but this falls far short of the claimed figure of 6 million. This book contains, for the first time, every significant diary entry relating to the Jews or Jewish policy, in both English and German original, along with contextual remarks. Also included are partial or full citations of 10 major essays by Goebbels on the Jews, which bring important clarity to our understanding of his views.

The Jewish Hand in the World Wars. By Thomas Dalton. For many centuries, Jews have had a negative reputation. The reasons range from their anti-Christian theology and social exclusivity to arrogance, conceit, greed and maliciousness. Their perceived belligerence and animosity have been considered legendary. But less well known is their involvement in war—hence the reason for this book. When we examine the causal factors for war, and when we look at its primary beneficiaries, we repeatedly find a prominent Jewish presence. Throughout history, Jews have played an exceptionally active role in promoting and inciting war. This book examines in detail the Jewish hand in the two world wars. Along the way, he dissects Jewish motives and Jewish strategies for maximizing gain amidst warfare, reaching back centuries. He concludes with a brief analysis of more recent wars, and with a look to the future.

Tell the Truth & Shame the Devil. By Gerard Menuhin. A prominent Jew from a famous family says the "Holocaust" is a wartime propaganda myth which has turned into an extortion racket. Far from bearing the sole guilt for starting WWII as alleged at Nuremberg (for which many of the surviving German leaders were hanged) Germany is mostly innocent in this respect and made numerous attempts to avoid and later to end the confrontation. During the 1930s Germany was confronted by a powerful Jewish-dominated world plutocracy out to destroy it... Yes, a prominent Jew says all this. Accept it or reject it, but read it and judge for yourself! 3rd edition.

Lies & Gravy: Landmarks in Human Decay – Two Plays. By Gerard Menuhin. A long time ago, in a galaxy far, far away, the hallucination of global supremacy was born. Few paid it any attention. After centuries of interference, when the end is in sight, we're more inclined to take it seriously. But now, we have only a few years of comparative freedom left before serfdom submerges us all. So it's time to summarize our fall and to name the guilty, or, as some have it, to spot the loony. Sometimes the message is so dire that the only way to get it across is with humor – to act out our predicament and its causes. No amount of expert testimony can match the power of spectacle. Here, at times through the grotesque violence typical of Grand Guignol, at times through the milder but no-less-horrifying conspiracies of men incited by a congenital disorder to fulfill their drive for world domination, are a few of the most-telling stages in their crusade against humanity, and their consequences, as imagined by the author.

Why Civilizations Self-Destruct. By Elmer Pendell. In modern Western societies, those who lack initiative and seek security become state employees, and hence are an ever-increasing burden on the diminishing number of productive people. They tend to vote for parties of high taxation in order to provide themselves with employment and inflation-proof pensions. The Mob votes for its bread and games. Inevitably this situation will lead to a collapse of the structure of society. As the ancient Greeks observed, democracy degenerates into tyranny.

Regicide: The Official Assassination of John F. Kennedy. By Peter Stahl aka Gregory Douglas. 39 years after the assassination of President John F. Kennedy, the truth finally came out: In 1996, Robert Crowley, former head of Clandestine Operations of the CIA, gave documents of his own top secret operations to his friend Peter Stahl. After Crowley died in late 2000, Stahl published these shocking revelations of the secret plot called "OPERATION ZIPPER". It was implemented with the help, approval, and/or knowledge of the FBI, the Joint Chiefs of Staff, and Vice President Lyndon B. Johnson, under the aegis of the CIA. Backed-up with documents reproduced in the book, Stahl proves which individuals plotted to kill John F. Kennedy, why they thought that this assassination was justified, how it was done, who else was involved, and how the cover-up of this major clandestine operation was mounted.

Deliveries of Coke, Wood and Zyklon B to Auschwitz: Neither Proof Nor Trace for the Holocaust. By Carlo Mattogno. Researchers from the Auschwitz Museum tried to prove the reality of mass extermination by pointing to documents about deliveries of wood and coke as well as Zyklon B to the Auschwitz Camp. If put into the actual historical and technical context, however, these documents prove the exact opposite of what these orthodox researchers claim. Ca. 250 pages, b/w ill., bibl., index (scheduled for late 2020; we had some major quality issues which showed up during peer review in early 2017, and Carlo was not very happy about having to rewrite parts of the book, hence the project was postponed...).

Garrison and Headquarters Orders of the Auschwitz Camp. By C. Mattogno. A large number of all the orders ever issued by the various commanders of the infamous Auschwitz camp have been preserved. They reveal the true nature of the camp with all its daily events. There is not a trace in these orders pointing at anything sinister going on in this camp. Quite to the contrary, many orders are in clear and insurmountable contradiction to claims that prisoners were mass murdered. This is a selection of the most pertinent of these orders together with comments putting them into their proper historical context. Ca. 200 pages, b/w ill., bibl., index (scheduled for late 2019; after assembling the documents in early 2018, the author took on more urgent tasks, hence shelved that project; he promised only recently to go back and wrap it up now...).

The Making of the Auschwitz Myth: Auschwitz in British Intercepts, Polish Underground Reports and Postwar Testimonies (1941-1947). By Carlo Mattogno. Using messages sent by the Polish underground to London, SS radio messages sent to and from Auschwitz that were intercepted and decrypted by the British, and a plethora of witness statements made during the war and in the immediate postwar period, the author shows how exactly the myth of mass murder in Auschwitz gas chambers was created, and how it was turned subsequently into "history" by intellectually corrupt scholars who cherry-picked claims that fit into their agenda and ignored or actively covered up literally thousands of lies of "witnesses" to make their narrative look credible. Ca. 300 pp., b/w ill., bibl., index (scheduled for 2020; the author keeps changing the text, so we had to postpone the project after translating an outdated version, aaargh! He is still changing it...).

The First Zündel Trial. The Court Transcript of the Canadian "False News" Trial of Ernst Zündel, 1985. The Queen vs. Zündel. In the early 1980s, Ernst Zündel, a German immigrant living in Toronto, was indicted for allegedly spreading "false news" by challenging the accuracy of the orthodox Holocaust narrative. When the case went to court in 1985, so-called Holocaust experts and "eye-witnesses" of the alleged Auschwitz gas chambers were cross-examined for the first time in history by a competent legal team. The results were absolutely devastating for the Holocaust orthodoxy. For decades, these mind-boggling trial transcripts were hidden from public view. Now, for the first time, they have been published in print in this new book – unabridged and unedited. (scheduled for late 2019)

How you can order from us — tips and tricks

- On the next page is an order form with all the information you need. You can fill it in, cut it out and mail it to us.
- In case you do not want to cut up this catalog, simply make a photocopy and send that instead, or scan it and email it to us (shop@codoh.com).
- You can also mail us a simple letter telling us what you'd like to order.
- Or simpler still: drop us an email with your order to shop@codoh.com.
- In case you deem it too complicated to calculate the postage fee, simply leave this open, and we'll do it for you. We can send you an invoice prior to shipping anything out, so you can check it and voice any concerns before accepting or rejecting the deal.
- If you order on invoice, this usually comes with a surcharge of 5%, in particular for new customers. You can avoid this fee by paying up front. In case you are unsure about the total payable amount, simply write us what you'd like to order by letter or mail, and we'll send you an invoice for you to accept and pay before we ship anything.
- Please visit our online shop at www.shop.codoh.com, where almost all books have alternative purchase options, that is: other internet shops where you can buy the books as well. Some of them may give discounts, some may have better shipping conditions, and you may already be a customer with some of them. Many of our books can even be obtained from any book store around the corner. Just ask their sales assistant to get them for you. We are interested in you comparing prices and conditions so that you get *the best deal possible*. And don't be shy about it. As a publishing company, we do not have a full-fledged customer service department, so it might actually be a good idea for you to get the books from another outlet focusing on selling books rather than publishing them, which is our focus.
- For security reasons we can accept credit card payments only through our online shop. Your data is sent with high encryption directly from your browser to our bank's processing software without any person ever seeing them. Hence our online credit card option is one of the safest in the world. That also means that we cannot accept credit card data in any other form (by letter, email, phone etc.).
- We are constantly subjected to an enormous pressure of societal and political persecution. The conditions under which we have to operate may change swiftly and unexpectedly. For the most up-to-date version of our offers as well as our terms and conditions, please visit our website at www.shop.codoh.com.
- Some of our books are banned in certain countries that have strict censorship laws (such as France, Germany, Austria, and others). However, ordering and owning single copies of banned books is not a crime. It is only the seller and distributor who can get into conflict with the law. So the risk is ours. If, however, you plan on ordering several copies of a book that is banned in your country, this may be construed by the authorities as an intent to distribute, which can cause trouble. In that case we recommend that you do this without creating any evidence: don't order using any electronic media (email/fax/phone) but rather by writing us a letter (handwritten; don't keep copies); pay in advance without giving an indication what the payment is for; insist that we ship your merchandise without including an invoice (we offer that option on our printed and online order forms, if you pay up front). In case something goes wrong, don't say anything to the police without the presence of a lawyer (and talk to him only in strict privacy). Because it is true: *everything you say can and will be used against you*.
