제목: Course Scheduling Updates - Fall 2016

Dear Exchange Students,

You may have noticed while working on your application materials that you cannot search and select courses in the manner that I have said in the instructions. The University is changing systems and I did not receive updates before I sent you this information.

The [Undergraduate Bulletin](#) is where you can find the most detailed information on courses, but this does not have schedule details. Once you know the classes you wish to take, you will use [LionPATH](#) to search for the class offerings.

Please follow the example below, complete with screenshots. If you are still having difficulties, please let me know. I apologize for not having this information available when you started your application. Please note that this is a major switch in university systems and I expect there to be other unknowns and changes that will arise – please be patient and contact me when you encounter something you are unsure of. This will be the only way I can work with the appropriate staff to answer questions and pull together more information to share with everyone.

All the best,
Amber

Example, search for History 2:

The screenshot displays the LionPATH web application interface for searching classes. At the top, the navigation bar includes 'Favorites', 'Main Menu', 'Self Service', and 'Class Search'. The main heading is 'Search for Classes'. Below this, the 'Enter Search Criteria' section shows 'Institution' set to 'The Pennsylvania State Univ' and 'Term' set to '2168 - Fall 2016'. A message states: 'Select at least 2 search criteria. Select Search to view your search results.' The 'Class Search' section contains several dropdown menus: 'Campus' (UP - University Park), 'Location' (empty), 'Subject' (HIST - History), 'Course Number' (is exactly), 'Course Career' (empty), and 'Session' (empty). A text input field next to 'Course Number' contains the number '2'. There is a checkbox for 'Show Open Classes Only' which is checked. At the bottom, there is a section for 'Additional Search Criteria' and two buttons: 'CLEAR' and 'SEARCH'. The 'SEARCH' button is highlighted with a red circle.

This will give you a list of the offerings:

Below this is a 'Search for Classes' section. The search results are for 'HIST 2 - The Western Heritage II' at 'The Pennsylvania State Univ | Fall 2016'. The search criteria are: Course Subject: **History**, Course Number is exactly: **2**, Show Open Classes Only: **Yes**, Campus: **University Park**. There are buttons for 'NEW SEARCH' and 'MODIFY SEARCH'. Below the search criteria, there are icons for 'Open' (green circle), 'Closed' (blue square), and 'Wait List' (yellow triangle). The results section shows '5 class section(s) found'. The first table is for 'HIST 2 - The Western Heritage II'. The first row is circled in red. The second table shows five more sections.

Description

A survey of the Western heritage from the dawn of modern Europe in the seventeenth century to the present.

HIST 002 The Western Heritage II (3) (GH;IL)(BA) This course meets the Bachelor of Arts degree requirements. History 002 is an introduction to the history of Europe from the reformation to the present. The course focuses on four broad shifts in European history: the emergence of the powerful states of the ancient regime from the century of religious violence following the reformations; the critique of and attack on major assumptions of ancient regimes before, during, and after the French revolution; the social and economic transformation of Europe in the eighteenth and nineteenth centuries; and the formation of mass societies during the nineteenth and twentieth centuries. Although individual versions of the course may vary in emphasis, these changes are recognized as vital to Europe's significance in the modern world. A major teaching goal of the course is the use of historical evidence, in the form of documents, to build interpretations of the past. A book of documents and an additional course packet supply this evidence and serve as the focus of the weekly discussion classes. There are weekly reading quizzes to ensure preparation and to provide questions for the start of discussion. A textbook and lectures supply the overviews and broad themes of the course. The course requirements typically consist of exams, quizzes, and class attendance. (Note that these are the typical, general requirements. Individual instructors may make adjustments that will maintain the intellectual integrity and pedagogic intent of the course.) The course is a basic
