- ▶ Measurement thru Metrics

California Telehealth Network / TeleMed2U Partnership

- TeleMed2U is proud to be selected as a CTN partner.
- We are committed to meeting the needs of the CTN Network member sites.
- We anticipate a multi-phase approach to effectively operationalize services :
 - Tiered integration
 - Phase-in expansion within sites
 - Planned adoption of CTN integrated services (Exceptionist/Global Med)
 - Phase-in value-added services
 - Develop measurements through metrics
 - Continuous improvement through feedback & modifications

California Telehealth Network / TeleMed2U Rollout

- We like to begin by providing traditional services like dermatology & psychiatry.
- Then expand from there to add specialties and develop care programs such as HIV, Hepatitis, Breast Health or Cancer Awareness.
- ***Open & candid communication is imperative for growth, success & comfort!***

So Much to Gain through Telehealth

Serving You is Our Privilege

- TeleMed2U could not be more pleased than to have been selected as a CTN partner to bring specialty services to you.
- We appreciate the complexities you face every day. We are committed to working with you to find the best solutions to enhance your specialty care and help improve your productivity and satisfaction.
- We look forward to showing you how quickly and easily you can incorporate TeleMed2U specialists into your patient care.
- We consider it a privilege to serve you.

Thank You
