How to Complete ICS Training Online

To achieve NIMS compliance, personnel need to complete Incident Command System (ICS) training at the levels identified for the organization. Incident Command System training was developed by FEMA for persons involved with emergency planning, response, or recovery efforts

About the Courses
Unless instructed otherwise, core courses are IS-100.b, IS-200.b and IS-700.a.

COURSE	DESCRIPTION
IS-100.b Introduction to Incident Command System Note: there are several discipline specific IS-100 courses available.	Introduction to the Incident Command System, introduces the Incident Command System (ICS) and provides the foundation for higher level ICS training. This course describes the history, features and principles, and organizational structure of the Incident Command System. It also explains the relationship between ICS and the National Incident Management System (NIMS).
IS-200.b ICS for Single Resources and Initial Action Incidents Note: there are two discipline specific IS-200 courses available.	ICS for Single Resources and Initial Action Incidents is designed to teach personnel how to operate efficiently during an incident or event within the Incident Command System (ICS). ICS-200 provides training on and resources for personnel who are likely to assume a supervisory position within the ICS.
IS-700.a National Incident Management System: An Introduction	This course explains the purpose, principles, key components and benefits of NIMS. The online course also contains "Planning Activity" screens giving you an opportunity to complete sample planning tasks during this course.
IS-701.a NIMS Multiagency Coordination System (MACS)	This course introduces Multiagency Coordination (MAC) Systems as described in the National Incident Management System (NIMS), and shows how these systems can be used to improve incident response.
IS-702.a National Incident Management System (NIMS) Public Information Systems	The goal of this course is to facilitate NIMS compliance by providing you with the basic information and tools that you need to apply NIMS public information systems and protocols during incident management.
IS-703.a NIMS Resource Management Course	This course introduces resource management as described in the National Incident Management System (NIMS), and shows how systems for managing resources can be used to improve incident response.
IS-704 NIMS Communications and Information Management	This course introduces you to the Communications and Information Management component of the National Incident Management System (NIMS).
IS-706 NIMS Intrastate Mutual Aid - An Introduction	This course provides an introduction to NIMS intrastate mutual aid and assistance.
IS-800.B National Response Framework, An Introduction	The course introduces participants to the concepts and principles of the National Response Framework.

How to Complete Online Training
1. Go to FEMA Independent Study website: http://www.training.fema.gov/emiweb/IS/crslist.asp
2. Select the IS course you wish to take.
3. Download and Print the Final Exam Questions PDF
4. Answer the questions on the Final Exam Questions PDF
5. Go to "Take the Final Exam"
6. Select "Click here to take final exam"
7. Enter your paper-based answers into the web-based form and enter the "Required Student Information."
8. After submitting, you will receive an e-mail from FEMA stating that you passed the course.
9. Forward the message to emergency.management@emich.edu
