

Matlab for Students at Farmingdale

All students at Farmingdale are entitled to an annual Academic license to Matlab. In order to get setup with Matlab, you'll want to follow the instructions below:

1. Go to the address: <http://www.farmingdale.edu/matlab>
2. On this page, you'll be presented with the Farmingdale Mathworks Portal. If you want a copy of MatLab, look for the section labeled "Get MATLAB and Simulink" and click on the "Sign in to get started" link

3. You'll be presented with a login page. Assuming you don't have a login, you're going to need to go down to the portion of the page that reads: "Don't have a MathWorks Account? Create Account". Click on "Create Account"

Don't have a MathWorks Account? [Create Account](#)

[Problems Logging In?](#)

[FAQ](#)

4. You'll then be taken to a "Create MathWorks Account" page. Enter:
 - your farmingdale.edu email address
 - how you'll use the software (usually either "teaching" or "Student use")
 - that you're over 13 years of age

Then click "Create"

Create

5. You'll get a message telling you to confirm your registration at your email. Login to your email and click on the "Verify your email" link that will be in the email you received from Mathworks.
6. You'll then be prompted with a page that asks you to enter your name, to setup your password, and to describe your role and/or department. Enter these and it'll take you to the next step.
7. On this page, you'll be allotted a license and be given a button to download the software. Click "Download Installer"

8. You'll be taken to the download page. Click the download button for Matlab.

9. From this page, you'll be asked to choose your installer. Click on the version you'd like to use:

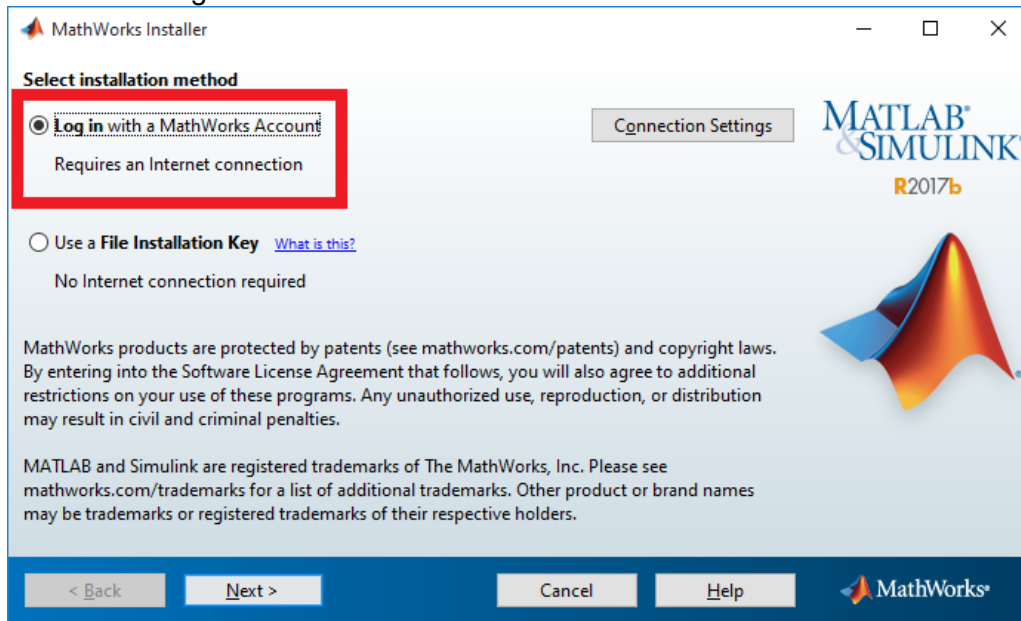

1. Choose Installer

- Windows (64-bit)
- Linux (64-bit)
- macOS (64-bit)

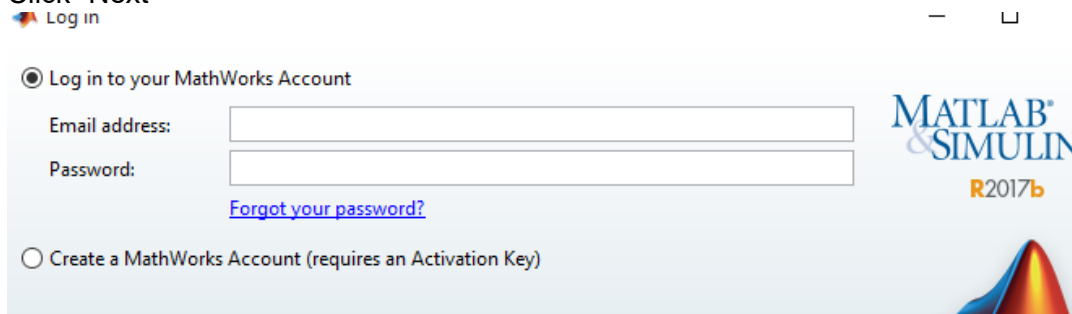

2. Download product files

Run the installer and log in as

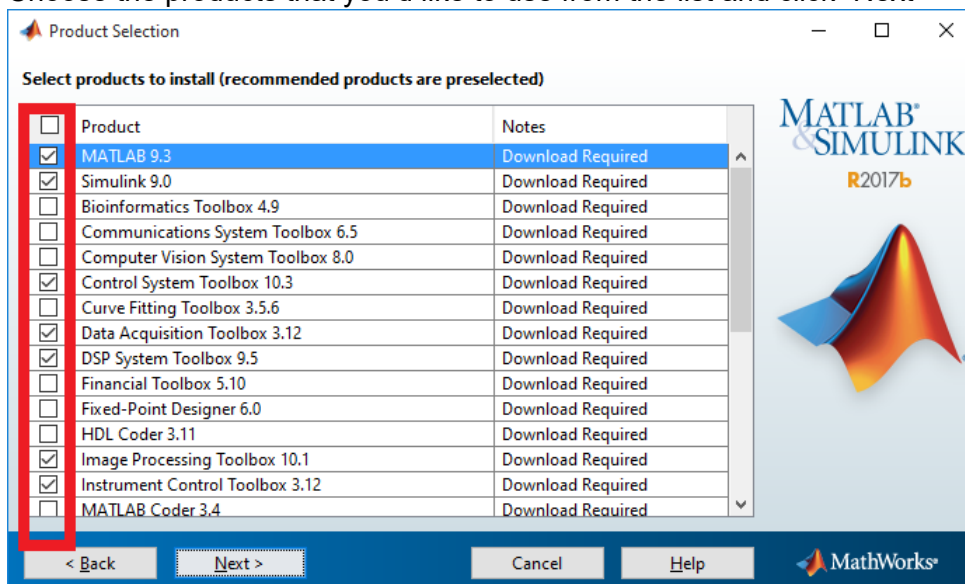

10. From here, launch the installer and after it's launched, you'll be presented with the following screen. Choose to "Log in with a MathWorks Account" and click "Next"

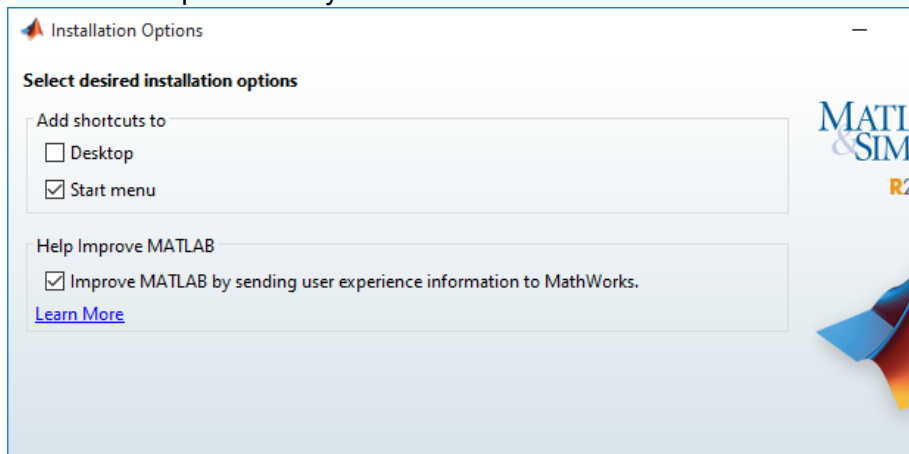

11. You'll be presented with a license agreement. You'll need to agree to this to proceed and click "Next".
12. Enter your email address in the correct field and the password you specified for Mathworks in step 6. Click "Next"

13. You'll be presented with a screen showing your license based on your login. Click "Next"
14. Choose the install location for the software and click "Next"
15. Choose the products that you'd like to use from the list and click "Next"

16. Choose the options that you want and click “Next”

17. On the confirmation page, click “Install”.

From there, the install will complete and you'll be ready to use the software.
