

Collaboration in Science

Last year, **biomedical researchers in Japan** collaborated most with these ten other countries when publishing scientific manuscripts

At AJE, we know that getting published helps you forge new collaborations and contribute to the global research conversation.

We have services designed to help.

HOW RESEARCH BREAKS THROUGH

Data are from affiliations listed in PubMed for articles published in 2016. For more information, see arc.aje.com/research-collaboration-2016. © AJE
