Math in Moscow Scholarships Awarded

The AMS has made awards to five mathematics students to attend the Math in Moscow program in the spring of 2013. Following are the names of the undergraduate students and their institutions: MATTHEW CHAO, Rutgers University; THAO DO, Stony Brook University; DAVE LINGENBRINK, Harvey Mudd College; CAMERON MARCOTT, University of Minnesota, College of Continuing Education; JOHN ZANAZZI, Northern Arizona University.
Math in Moscow is a program of the Independent University of Moscow that offers foreign students (undergraduate or graduate students specializing in mathematics and/or computer science) the opportunity to spend a semester in Moscow studying mathematics. All instruction is given in English. The fifteen-week program is similar to the Research Experiences for Undergraduates programs that are held each summer across the United States.

The AMS awards several scholarships for U.S. students to attend the Math in Moscow program. The scholarships are made possible through a grant from the National Science Foundation. For more information about Math in Moscow, consult `http://www.mccme.ru/mathinmoscow` and the article "Bringing Eastern European Mathematical Traditions to North American students", *Notices*, November 2003, pages 1250–4.
