

Pecha Kucha

Learning Objective: To research a specific healthy communities topic and synthesize the materials into a clear, informative and engaging presentation.

Assignment: Students will work in teams of two to develop and present one clear, thorough and concise summary of the session's topic complete with pertinent data and full references (APA format). The required submission includes (1) a presentation of 20 slides, 20 seconds per slide (slide 1 is the introduction slide and slide 20 is the reference slide), and (2) a 2-page summary narrative. Select presentation slides with audio and the summary narrative will be posted to www.bephc.com

Submit the slides and 2-page summary document to collab as a *.ppt and *.doc or higher format.

Rubric:

Review of All Readings (20 maximum points)

Did the students read all of the assigned papers?

Writing (20 maximum points)

Is the writing well organized? Did the students present the work in a logical manner? Are the main points clear? Did the students stick to the 2-page maximum length?

Scientific Content (20 maximum points)

Did the authors include language found in the readings and make sure to define all technical terms? Did the authors back up their critique with valid points in the readings or others not assigned?

Presentation (20 maximum points)

Did presenters speak in a clear, concise manner? Did they avoid "ums" and maintain eye contact? Were the transitions between speakers seamless? Were the presenters relaxed and self-confident, did they seem well-prepared?

Question and Answer (20 maximum points)

Were authors able to effectively answer questions and expand on them?
