## ANTHC EPICENTER TRAINING OPPORTUNITY

**March 6, 2025**  
**10 a.m. to 12 p.m.**  
**AKST**

**Cost: Free**

### R for Beginners

This 2-hour training will introduce foundational R skills including installing packages, analyzing and visualizing data, and exporting output. No prior knowledge of R is necessary.

#### LEARNING OBJECTIVES:

1. Understand R syntax and structure
2. Manipulate datasets and conduct simple analyses
3. Create and export tables and figures

#### Training Facilitators

##### **Megan Ackerman, MS | Biostatistician**

Megan is a Biostatistician at the Alaska Native EpiCenter. Megan holds a BS in Mathematics and an MS in Demography, and she provides data analysis, data dissemination, and technical assistance.

##### **Toni Clark | Public Health Specialist**

Toni is a Public Health Specialist working on the Syndromic Surveillance Project at the Alaska Native EpiCenter. Toni has an MPS in Data Analytics and a BA in Economics.
