# UNIVERSITY OF

## ENGINEERING FUNDAMENTALS (ENGR)

Subject-area course lists indicate courses currently active for offering at the University of Louisville. Not all courses are scheduled in any given academic term. For class offerings in a specific semester, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/ setupSearchClassSchedule.cfm).

500-level courses generally are included in both the undergraduate- and graduate-level course listings; however, specific course/section offerings may vary between semesters. Students are responsible for ensuring that they enroll in courses that are applicable to their particular academic programs.

#### **Course Fees**

Some courses may carry fees beyond the standard tuition costs to cover additional support or materials. Program-, subject- and course-specific fee information can be found on the Office of the Bursar website (http:// louisville.edu/bursar/tuitionfee/).

#### ENGR 101. Engineering Analysis I - QR Term Typically Offered: Fall, Spring, Summer

#### 4 Units

4 Units

2 Units

**Prerequisite(s):** ENGR 190 or equivalent or appropriate math placement score.

**Description:** Introduction to vector methods and development and use of differentiation and integration to solve engineering problems, including those involving motion, related rates, optimization, moments and centers of mass.

Note: Credit will not be granted for both ENGR 101 and MATH 205.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/ setupSearchClassSchedule.cfm)

#### ENGR 102. Engineering Analysis II Term Typically Offered: Fall, Spring, Summer

Prerequisite(s): ENGR 101.

**Description:** Development and use of: integrating techniques,

transcendental functions, vectors in three dimensions, polar coordinates, and power series to solve engineering problems, including work, hydrostatic force, statics, heating, cooling, and catenaries. **Note:** Credit will not be granted for both ENGR 102 and MATH 206.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/ setupSearchClassSchedule.cfm)

#### ENGR 110. Engineering Methods, Tools, and Practice I Term Typically Offered: Fall, Spring

**Prerequisite(s):** Must be a Speed School of Engineering Student. **Description:** ENGR 110 is designed to provide first-year engineering students with an introduction to critical thinking, essential methods, tools and skills for success in engineering. Activities and assignments will focus on developing skills and knowledge in: engineering professionalism (ethics, culture, and risk), basic programming, graphical communication, problem solving, design analysis, and teamwork (including diversity and inclusion).

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/ setupSearchClassSchedule.cfm)

#### ENGR 111. Engineering Methods, Tools and Practice II 2 Units Term Typically Offered: Spring, Summer

Prerequisite(s): ENGR 110.

Fee: An additional \$9.00 is charged for this course.

**Description:** ENGR 111 requires students to apply and demonstrate the skills developed in ENGR 110 by successfully completing a team design project. Oral and written presentations are required. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/

setupSearchClassSchedule.cfm)

#### ENGR 150. Engineering Graphics Fundamentals

Term Typically Offered: Fall, Spring, Summer Prerequisite(s): Must be a Speed School of Engineeering Student. Description: An introduction to the concepts of engineering graphics including 2-dimensional and 3-dimensional drawings and related industry standards. Freehand sketching and computer generated 2D and parametric solid model (3D) drawing is included. For class offerings for a specific term, refer to the Schedule

of Classes (http://htmlaccess.louisville.edu/classSchedule/ setupSearchClassSchedule.cfm)

#### ENGR 151. Engineering Graphics Technology Term Typically Offered: Fall, Summer Prerequisite(s): ENGR 110.

**Description:** This course builds on manual drawing skills learned in ENGR 110, and introduces students to the concepts of engineering graphics using two-dimensional and three-dimensional computer aided drawing programs, dimensioning of drawings and applicable industry standards are also included.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/ setupSearchClassSchedule.cfm)

### ENGR 170. Special Topics in First Year Engineering Mathematics 4 Units Grading Basis: Pass/Fail

Term Typically Offered: Fall, Spring, Summer

**Description:** Investigation of math topics related to fundamentals of engineering analysis that are not covered in regular Engineering Analysis courses. Specific topics will be announced in the Schedule of Courses. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/ setupSearchClassSchedule.cfm)

#### ENGR 190. Introductory Calculus - QR Term Typically Offered: Fall, Spring

#### 4 Units

2 Units

1 Unit

**Prerequisite(s):** Appropriate math placement score or completion of appropriate coursework.

**Description:** Review of algebra, trigonometry, analytic geometry, and introduction of elementary calculus in preparation for Engineering Analysis I.Credit will not be granted for both ENGR 190 and MATH 190. **Note:** This course may not be used for credit toward the JB Speed School of Engineering BS and MENG degrees.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/ setupSearchClassSchedule.cfm)

## UNIVERSITY OF

ENGR 201. Engineering Analysis III Term Typically Offered: Fall, Spring, Summer Prerequisite(s): ENGR 102. Description: Development and use of: partial derivatives, Lagrange multipliers, Fourier series, vector-valued functions, and multiple integrals to solve engineering problems, including those involving thermodynamics, motion, fluid flow, curl, flux, and divergence. Note: Credit will not be granted for both ENGR 201 and MATH 301	4 Units	ENGR 330. Linear Algebra for Engineering Term Typically Offered: Fall, Spring, Summer Prerequisite(s): ENGR 201.2 UnitsDescription: Elimination and LU-factorization, dimension, rank, and nullspace, linear transformations and similarity, orthogonally and least squares, eigentheory and diagonalizability, linear differential equations and systems of linear differential equations.Note: Credit will not be granted for both ENGR 330 and MATH 325.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/ setupSearchClassSchedule.cfm)		For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/ setupSearchClassSchedule.cfm)
<ul> <li>ENGR 205. Differential Equations for Engineering</li> <li>Term Typically Offered: Fall, Spring, Summer</li> <li>Prerequisite(s): ENGR 201.</li> <li>Description: First- and higher-order differential equations (DE), sys</li> <li>of DE, partial DE, difference equations, numerical methods, Laplace</li> <li>transforms, engineering applications involving mechanical vibratic</li> <li>electrical circuits, impact forces, and mixing problems.</li> </ul>	2 Units stems e ons,	ENGR 393. Independent Study in Engineering Fundamentals1-6 UnitsPrerequisite(s): Consent of a faculty sponsor.Description: Independent study in any engineeringing fundamentalsrelated area under the guidance of a faculty member.For class offerings for a specific term, refer to the Scheduleof Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
Note: Credit will not be granted for both ENGR 205 and MATH 405 For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/ setupSearchClassSchedule.cfm)		ENGR 400. Special Topics in Engineering Fundamentals 1-6 Units Term Typically Offered: Occasionally Offered Description: Investigation of topics in any engineering fundamentals related areas that are not covered in regular courses. Topics will be
ENGR 209. ELLC Summer Research Project1 UnitGrading Basis: Pass/FailTerm Typically Offered: Summer OnlyPrerequisite(s): Permission of the department; student must have participated in the Engineering Living-Learning Community during the most recent academic year.Description: Selected students will participate in a ten week research experience with a specific faculty member within their engineering department. Departments include: Bioengineering, chemical Engineering, Civil Engineering, Computer Engineering and Computer Science, Electrical and Computer Engineering, Industrial Engineering, and Mechanical Engineering. Students will meet as a group three times in the summer semester and will be required to spend a total of ten hours per week working with their faculty mentor. Oral and written presentations at the end of the summer semester are required. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/	1 Unit	announced in the Schedule of Courses. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/ setupSearchClassSchedule.cfm)
	the rch g lectrical l mer ek at the	ENGR 405. Practicum in Engineering Fundamentals Education 1-3 Units Term Typically Offered: Fall, Spring, Summer Prerequisite(s): ENGR 205 and Consent of Instructor. Description: A guided learning experience in inquiry-based instructional techniques and best practices in STEM education that includes field experience as an undergraduate teaching assistant. Permission to enroll required. May be repeated for a maximum of 3 hours. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/ setupSearchClassSchedule.cfm)
		ENGR 589. Research Methods for Engineering and Engineering Education 3 Units Description: This course will have students: learn how to engage in
setupSearchClassSchedule.cfm) ENGR 307. Numerical Methods for Engineering Term Typically Offered: Fall, Spring, Summer Prerequisite(s): ENGR 201 and ENGR 205. Description: Errors and error propagation, solving one and several equations, polynominal interpolation and divided differences, least squares approximation, numerical differentiation and integration, eigenvalues, eigenvectors, solving ordinary and systems of differe equations.	<b>2 Units</b> t ntial	ethical conduct as researchers; acknowledge, reference, and document resources in organized ways; review and evaluate research in a critical and professional manner; synthesize existing literature to craft arguments; complete training for human subjects research (CITI Training); and write research questions that align with methods. It will also provide an overview of research methods: qualitative, quantitative, and mixed research methods. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/

setupSearchClassSchedule.cfm)

Note: Credit will not be granted for both ENGR 307 and MATH 407.
