## ***DISTINGUISHED BUDGET PRESENTATION AWARD***

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to Clay County Board of County Commissioners, Florida for its annual budget for the fiscal year beginning October 1, 2016. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device. This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

## Budget Message

As required by Florida Statute 129.04, it is the duty of the County Manager to act as Clerk and present to the Board of County Commissioners the fiscal year 2017-2018 Final Budget. As presented, it reflects the County's plan of implementing and funding the recommended service levels contained. This budget was constructed based on the guidance and priorities provided by the Board of County Commissioners throughout the year, input from all departments, responses from the community, the Constitutional Officers' budget requests, and the County Manager's perception of priorities and needs Countywide.

The final budget maintains the current millage rate, while improving service levels, funding of disaster recovery measures and planning for future financial sustainability. The Clay County FY 2017-2018 Final Budget consists of 43 funds and totals \$306,232,149 (inclusive of Lake Asbury MSBD - \$635,195). The general fund is the largest fund totaling \$76,417,870, which is 25% of the overall County budget of \$305,596,954 (non-inclusive of Lake Asbury MSBD). This is a decrease of 2.3% from the prior year FY 2016-2017 Budget. The General Fund supports the majority of services provided to Clay County residents, including parks and recreations, libraries, EMS, 75% of fire control, animal services, administration, fleet and fuel, facility management, courts, tax collection, property appraisal and elections.

Thirty-three special revenue funds make up 42% of the budget (\$127,611,954), which is an increase of 8.59% from the adopted prior year special revenue total of \$117,519,990. Special revenue funds consist of restricted appropriations such as the Transportation Trust, Tourist Development, all municipal service taxing units (MSTU's), municipal service benefit units (MSBU's) Court, Law Library and the 911 Wireless.

The County maintains one Debt Service Fund, which totals \$9,801,577 in FY 2017-2018, approximately 3% of the overall County's budget and a decrease of 44% from adopted prior years Debt Service fund's budget. The Debt Service Fund was for the Bond Series implemented in 2009, this fund will be liquidated with the final payment being made at the end of 2018. Clay County will then no longer have any debt service obligations.

Seven capital improvement funds, totaling \$42,659,701, make up approximately 14% of the overall budget. These funds cover ongoing major construction and renovation projects per the approved capital improvement plan and impact fees. These funds are 28.87% less than prior year's adopted CIP budget due to the final expense for much need capitalized equipment purchases and with the completion of major infrastructure projects.

Two enterprise funds totaling \$49,105,852 exist, which makes up 16% of the overall budget. This is an increase of 6.82% from prior year's adopted budget. Multiple large infrastructure items were carried forward to procure in future fiscal years. More detail of the enterprise funds long-range plans are contained within this document.

Over this fiscal year, our team has seen many accomplishments, embarked on exciting journeys and had many a proud moment. The successful completion of Clay County's branding initiative which produced a new County logo, seal, tag line "Small Towns. Big Passions." as well as the six County passion pillars.

The creation of Clay Day in Tallahassee was the first of what is now anticipated to be an annual event, in hopes that Clay Day will assist the County is making our name known with legislatures, with the goal of increasing funding in many much needed areas throughout the County, especially for Clay County's aging infrastructure. The County Commissioners held multiple workshops addressing many areas of concerns for the citizens of Clay, with the end goal to make improvements affecting the citizen's quality of life, health and safety. Future workshops are planned and will further assist in the County's forward planning and future plan development.

The implementation of not only phase one, but phase two of the County's salary survey is included in this budget; as well as phase one and two implementation for the public works union. In addition, funding anticipated for the finalization of the public safety negotiations is also contained within the 2017-2018 Final Budget.

## 1. Overview

Implementation of innovating concepts and procedures occurred by increasing automation of processes to increase staff efficiency and ensured data quality and integrity, such as:

- The creation of a dedicated social media position with inclusion of video public service announcements
- Launched Neogov onboarding and off boarding module to better facilitate human resource duties
- Launched Target Solutions for the tracking of in-service and providing more training opportunities for personnel
- Implementation of paperless requisition system

Let us not forget the huge financial burden this County was faced with in covering the cost of two major disasters during prior FY 2016-2017; the fiscal year came in with Hurricane Matthew and ended with Hurricane Irma. While the County is still awaiting reimbursement from Federal and the State for Hurricane Matthew and continuing the debris removal from Hurricane Irma, the County has financially supported both disasters and has been able to maintain efficient fund balance levels.

The comradery from this County's citizens and staff achieved tremendous disaster recovery efforts; from the rescuing and transferring of the many animals sheltered in our flooded Animal Services facility, sheltering hundreds of the County's citizens, to the continuing efforts being made to finalize debris removal and assisting the rebuilding many homeowners face throughout the County.

### **Budget Highlights:**

Covered within the 2017-2018 Final Budget are the following:

- Cost to County for State mandated retirement estimated increase of \$134,000 fund wide
- Cost to County for increase in employee insurance coverages
- Increase due to negotiated salaries for County's two unions (public safety and public works)
- Full funding of all budget requests from the Clay County Health Department and Constitutional Officers
- Secured State funding to construct County Road 220 Bridge
- Completion of Moody Park renovations
- Same funding maintained for all non-profit grant recipients as well as an additional \$10,000 to help support a State Veteran's group which provides services to local veterans
- Budget coverage of the majority of equipment requests from County departments, as well as \$1,343,000 of the Sheriff's office tactical equipment and vehicles, in the County's CIP Funds
- Disaster Recovery reserve of \$500,000, with the goal to continue to increase funding in order to provide for any possible financial impacts the County may encounter due to unforeseen disasters or recovery measures
- The recouping of funds for administrative fees to the General Fund totaling over \$1 million and for worker's compensation of \$1.4 million

### **Long-Term Plans and Goals:**

- Continue to sponsor an annual Clay Day in Tallahassee
- Further implementation of innovative technology
- Maintain a 10, 5 and 2 year CIP plan to be proactive in maintaining Clay County's aging infrastructure needs
- Continue to build a budget to prepare for future disasters
- Continue mainstreaming duties of staff to more efficiently meet the needs of the County

### **Future Challenges:**

- Improving communications – internally (employees) and externally (citizenry)
- Funding of growth
- Growth management

## 1. Overview

- Strategic Planning
- Managing change and innovation
- Recovery assistance for citizens

The FY 2017-2018 budgeted taxable value for Clay County has increased 6.65%, estimated to produce over \$4 million in additional revenues. Between the tax years of 2007 and 2012 the County experienced over a 25% reduction in taxable property values, this caused for downsizing of County staff, learning to do more with less, and continue to make reductions for five years. Property values are very close to the higher levels they once were, however due to the upcoming State mandated increase of property tax exemptions, to maintain financial stability for upcoming fiscal years, we must continue to be financially conscious of any decision we make and the financial impact it may have on the County's financial future.

In conclusion, the 2017-2018 Final Budget has been built upon maintaining the same millage rates as prior years. However, residents will see an increase in their property taxes due to the increase in their property values. The County Manager's priority remains to be prudent and make responsible financial decisions while continuing to provide quality level of services to all of Clay County residents and to all those that visit, stay or play in Clay County.

## Clay County Government

### District 1

Commissioner Mike Cella (Republican) is serving his first term as a County Commissioner representing District 1. He has successfully owned and operated Jumperz Fun Center, in Orange Park, serving thousands of Clay County citizens since 2011. Prior to opening his business, Mike enjoyed a 30-year career in radio and TV broadcasting, concluding his career at WOKV Radio in Jacksonville where he hosted the Morning Show and served as the Assistant Program Director. Among the highlights of his broadcasting career, he announced the TV play-by-play for the UCONN Huskies Basketball Team at the Championship Game of the N.I.T. Tournament from Madison Square Garden.

In 2004, Mike was elected as the first supervisor on the Fleming Island Plantation (FIP) Community Development Board, serving the past 12 years. Ten of those years, he served as chairman. During his tenure, FIP has experienced vast growth, adding eight neighborhoods and a second swimming pool amenity center. He has also served as the first president and co-founder of the FIP Neighborhood Advisory Council before residents were allowed to serve on the CDD Board.

Mike is very active in his community, serving on the Fleming Island Lions Club, the Rotary E-Club of North Florida, and the Clay County Chamber of Commerce. He is past president and co-founder of the BIZNET Marketing Referral Group of Orange Park, actively involved with the Republican Party, serving as Committeeman for Precinct 410 of the Clay County Republican Executive Committee, a member the Clay County Republican Men's Club and the South Clay Republican Club.

Commissioner Cella's 2016/2017 committee assignments include Chairman of Finance & Audit Committee and Chairman of Tourism Development Council.

Mike lives in Fleming Island with his wife Vicky, who is a Nurse Manager at St. Vincent's Hospital in Riverside. Their daughter, Lauren, also resides in Fleming Island. Son, Brian and his wife, Jaime, reside in Connecticut with Mike and Vicky's grandchildren, Sadie and Collin.

### District 2

Commissioner Wayne Bolla (Republican) is serving his first term as a Commissioner serving District 2. He currently serves as Chairman of the County Commission. He grew up in a Navy family attending 10 different schools by the time he had left the ninth grade. He graduated from St. Viator High School in Chicago and went on to earn a BS in Mechanical/Industrial Engineering from Marquette University and an MBA with a concentration in finance from Loyola University in Chicago.

Wayne started his working career designing and marketing large fire suppression systems at Cardox Corp. in Chicago. After graduate school, he joined the Illinois Central Railroad in Chicago where he managed an internal consulting group tasked with modernizing the railroad's physical plant and operations. He eventually took his consulting group, The Planning Section, Inc., public, completing projects for several major railroads, transit authorities, and steel mills.

In 1986 he joined CSX in Jacksonville, Florida and retired after more than 30 years of railroading in 2004. While at CSX he held managerial positions in the Mechanical, Engineering, Operations, Marketing, and Real Estate departments. He successfully ran for a seat on the Clay County School Board in 2004. Wayne has been active in Republican politics and is presently the Precinct 118 Committeeman of the Clay County Republican Executive Committee. He is also a past President of the Clay County Republican Men's Club.

## 1. Overview

Wayne left Clay County for a while in 2008 to pursue a lifelong dream on a four year voyage across the Atlantic Ocean and around the Mediterranean aboard his 44 foot steel cutter, *Pipedream*, which he built in his back yard. He and his son, Chris crossed the Atlantic together, Wayne's wife, Mary, and his daughter, Katie, traveled throughout Mediterranean Europe with him as their schedules allowed. He returned to Clay County in March of 2012 where he resides with his wife Mary.

Wayne met his wife, Mary, while she was the Director of Admissions at Valparaiso University in Indiana. They married in 1985 and moved to Clay County in 1989. Mary and Wayne have two grown children Katie and Chris. Katie is a graduate of UCF and Chris received his degree from UNF.

## A Brief History of Clay County

Clay County, Florida, rich in natural beauty and history, is a water wonderland, where lakes and rivers are in abundance. With its entire eastern boundary defined by the north-flowing St. Johns River it is no wonder that the scenery is captivating. Once a part of Duval County (Jacksonville), Clay County was carved out in December 1858 and is named for Kentuckian Henry Clay, Secretary of State under John Quincy Adams. The County consists of four incorporated municipalities: Green Cove Springs, Keystone Heights, Orange Park, and Penney Farms, as well as many unincorporated communities.

Both regional and national wars greatly impacted life in Clay County throughout the 1800s. When fighting erupted with the Seminoles in December 1835, Garrey's Ferry (the site of present-day Middleburg) was chosen as a supply depot for the U.S. Army on Florida's east coast. In 1836, Ft. Heileman was established and Garrey's Ferry was one of the few Florida frontier towns not abandoned during the 2nd Seminole War. In mid-1864, during the Civil War, Union forces established a fort at Magnolia Springs on the St. Johns River where they could send troops to apply pressure to Confederate forces located within the County.

After the Civil War, tourism became a vital part of Clay County life. Northerners were drawn to the natural springs that promised healing and the warm climate that offered respite from frigid northern winters. The tourists were delighted by the exotic wildlife and vegetation found along the banks of the creeks and rivers. Dozens of hotels were built to accommodate the visitors who came by steamboat and families along the St. Johns River opened their plantation homes to northern visitors. Among the visitors to Clay County were such famous people as Ulysses S. Grant, President Grover Cleveland (who had spring water shipped to the White House), Buffalo Bill, and Sitting Bull. The height of tourism in Clay County spanned three decades, from the 1870s to the early 1900s, but went into decline when Henry Flagler's railroad reached Miami and south Florida became easily accessible.

There have been several nationally-known Clay County native born residents including: Nixon Smiley, a renowned journalist, naturalist, and the author of 15 books; General Roy S. Geiger, USMC, a famous WWII General; Augusta Savage, an African-American and internationally-known sculptor who was part of the "Harlem Renaissance" in Paris during the 1920s and 1930s; and Charles Merrill, the founder of Merrill Lynch.

The military's influence on Clay County has continued, particularly since WWII. In 1939, 28,000 acres on Kingsley Lake in central Clay County were purchased by the Florida National Guard as a new training site. In heavy use during WWII, Camp Blanding was not deemed a viable permanent post after the war and is now a training site for the Florida National Guard with over 70,000 acres and the largest museum in Clay County. During WWII, Lee Field, in Green Cove Springs, was a flight-training center. At the end of the war, the Navy converted Lee Field into a headquarters for the Mothball Fleet.

Residents and visitors of Clay County still enjoy the beauty that the environment offers. Recreation spans from boating on one of its bodies of water to enjoying the variation of wildlife and horticulture along one of its nature trails to playing sports in one of its parks. Great efforts are being made to preserve history, protect greenways, and provide areas for

## 1. Overview

organized youth sports. Two most noticeable plans for recreational and natural enjoyment are Camp Chowenwaw and Moccasin Slough.

Camp Chowenwaw was a historical Girl Scout Camp which began as a gift of one of the parcels from the Prime Osborne family of Jacksonville. It provides habitat for many known species, such as fox squirrels, river otters, gopher tortoises, white-tailed deer, alligators and a variety of snakes. The Girl Scouts operated the camp along the St. Johns River for over 70 years before deciding to relocate approximately five miles upstream. The County took possession of the camp in March of 2006 with the aid of a Florida Communities Trust Grant. The rustic Big Cabin, which aside from the additions of a modern institutional kitchen and restrooms, was constructed by the Depression-era Civilian Conservation Corps in the 1930s. Preserving this and other historical structures set in this ecosystem is a goal of the County. The County wishes to offer the natural environment of Camp Chowenwaw to the public in a way that continues the legacy of stewardship partly reflected in the Girl Scouts ethic of “leaving a place cleaner than one finds it.” The camp is operated as a retreat centered on its natural environment.

Moccasin Slough is 255 acres of protected property that was acquired by Clay County in 2004 with the assistance of The Florida Communities Trust, The Land and Water Conservation Fund, the Trust for Public Land, and the North Florida Lands Trust. It is one of the last large, undeveloped tracts of land on the St. Johns River. It is located in the unincorporated area of Fleming Island north of Green Cove Springs and south of Jacksonville in an area that is one of the fastest growing in the First Coast urbanized area. This project is managed as a passive outdoor recreation area providing public access to the Black Creek Trail. Moccasin Slough’s combination of natural and cultural features will provide outstanding environmental education opportunities to residents and visitors. Proposed future improvements include rest rooms, marsh and river overlooks, interpretive signage along the proposed river walk and an environmental center. The park could become an important component in the Fleming Island Greenway.

Through many years of development, one can see the importance of Clay County’s waterways and natural beauty. The environment offers a versatility that draws residents and visitors of all ages and cultures. Plans and provisions to protect and maintain the natural resources found in Clay County are an important part of what makes it special to its residents and visitors today.

## **A Reader's Guide to the Budget Document**

The Reader's Guide describes the various sections within Clay County Budget Document. To better understand the information that is provided, please refer to the descriptions of each section below.

### **Overview**

The budget document begins with the Overview section. Here, you will find an overview of the County's organizational and financial structure, total budget summaries and budget overview. This section presents a budget snapshot, as well as information on the County's fund amounts, revenues and expenditures.

### **Budget Summary by Fund**

This section provides a summarized balance sheet on each County fund which describes the source of funding.

### **Budget by Fund & Program**

This section is broken down into five subsections titled General Fund, Municipal Service Taxing Units (MSTUs), Transportation Fund, Special Revenue Funds and Enterprise Funds. Each of the fund subsections contains information pertaining to County divisions supported by that fund. This information includes details such as divisional goals, objectives and accomplishments.

### **Budget by Service Area**

This section provides divisional details of major County programs organized by service area. The nine service areas are: General Government, Court Related, Public Safety, Physical Environment, Transportation, Economic Environment, Human Services, Culture & Recreation and Grants & Aid. Included in this section are areas pertaining to non-operational activities and certain capital projects funded by development and impact fees.

### **Capitalized Budgets**

Capital improvements and other capitalized equipment are a large component of planning and budgeting. Because of this, they are also presented separately in the Capital Improvement Projects & Other Capital Expenditures section of the budget document. This section of this budget document summarizes the budget for specific County projects, facilities, vehicles and equipment.

### **Clay County Maps**

This section provides various maps for recreational provisions, evacuation routes and emergency shelters maps.

### **Appendix**

In this section, you will find a Glossary to help define specialized terms, in addition to a list of Acronyms used in this document.

### **Index**

This section provides the page numbers where you can find details for mostly everything presented within the document.

## Budget Preparation & Methodology

In accordance with Chapter's 125, 129, 200 and 218 of the Florida State Statutes and the Department of Revenues Truth in Millage (TRIM) guidelines, a budget shall be prepared, approved, adopted and executed annually. The budget controls the levy of taxes and expenditures of such funds generated from these taxes for all County purposes. The Clay County budget will be balanced upon adoption by the Board of County Commissioners. The total estimated revenues, including inter-fund transfers and cash carry forward, will equal the total of appropriations and reserves in all funds.

All expenditures will be maintained by a detailed line item based upon a chart of accounts that provides for uniformity of reporting and is consistent with the Uniform Chart of Accounts established by the State of Florida and generally accepted accounting principles (GAAP).

The operating budget will be appropriated at the major account levels of personal services, operating expense, capital outlay, grants-in-aid, debt service, and non-operating expense (transfers and reserves).

Budgets for salaries and benefits are based on 100% estimated salaries at the beginning of the fiscal year for all current positions, including any scheduled annual increases, anticipated adjustments to the Florida Retirement costs and any increases for Insurances covered by the County. All full time vacant positions are budgeted with the highest cost to the County possible for insurance liability and the Human Resources Department provides salary information.

The operating budget will clearly reflect both direct and indirect costs of programs. Wherever practical indirect costs (Administrative Fees) will be recovered at rates determined in conjunction with the Cost Allocation Plan or as mandated by State Statutes.

The County plans and budgets for any facilities and infrastructure necessary to support public programs determined to be necessary for the highest standard of services to provide to the citizens within Clay County. The County purchases goods and services through a competitive bid process except when an alternative method of procurement is specifically authorized by law and is in the County's best interest.

During the 2009 fiscal year, the County issued \$71,025,000 of revenue bonds. The Surtax Revenue Bond Series 2009 bonds are secured by a lien upon and pledge of the discretionary sales surtax. Proceeds of the bonds were utilized for several large road improvements in the Lake Asbury area of the County. This is the only outstanding bond issue of the County at the 2018 fiscal year end.

Budgeted reserves are categorized and budgeted based on Florida Statute 129.01(2)(c) . Unless otherwise not available within a fund, 10% of the total fund's appropriation is budgeted for contingency. If funds further exist, a second reserve for cash flow is based on an amount up to or equal to 20% of the funds appropriations, which carries the cash needs for expenditures until the new year's major revenues start being receipted. Another reserve is utilized in the event there is an overall overage from the prior two listed reserve types for unassigned purposes and/or is also used for the purpose of covering future capital outlay needs. After January 2018, any reserves over the 10% contingency and the 20% cash flow reserve will be appropriated within the assigned fund.

Upon the prior year's financial records being audited, the County's Budget Office will prepare a report comparing actual and budgeted revenue and expenditures for all operating funds and their projections through year-end. Any significant variances and recommended actions will be reported to the County Manager. Any grants or special projects will be trued up and the current budget will be amended utilizing contingency funds by Resolution approved by the County Commissioners. Any non-grant related year-end surpluses, to the extent available and able to be appropriated, will be retained within each specific fund for re-appropriation in the next fiscal year, after meeting identified reserve requirements for that fund.

## 1. Overview

### Basis of Accounting

The accounts of the County are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operation of each fund is accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenue and expenditures. Governmental funds fall into four major types: General Fund, Special Revenue Funds, Debt Service Funds, and Capital Improvement Funds. All governmental funds are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized when they become both measurable and available as net current assets. Expenses are recognized when the related liability is incurred. Two other fund types are Enterprise Funds and Internal Service Funds. These two funds are accounted for using accrual basis of accounting. Under this method, revenues are recognized when they are earned and expenses recognized when they are incurred.

### Basis of Budgeting

Annual budgets are adopted on a basis consistent with GAAP for all funds. Actual spending cannot legally exceed the budgeted amount. All annual appropriations lapse at fiscal year end. Outstanding encumbrances are viewed as reservations of fund balance and do not constitute expenditures or liabilities.

The County Manager encourages staff to seek expenditure reductions, whenever possible, through efficiencies, technology, productivity improvements, reorganization, outsourcing, or contracting of services, and through the reduction or elimination of programs and practices which will enable the County to be innovative with their funds.

During the Budget Process all budget requests are reviewed with detailed justification. The budget emphasizes the link between fiscal, planning and operations of the County. The budget includes the following for each County program:

- Description of program and revenue streams;
- Historical summary of the costs to maintain the program;
- Summary of the previous year's accomplishments;
- Goals and objectives for the upcoming budget year;
- Key objectives and quantifiable performance measurements or indicators.

### Budget Control Procedures

The annual approved budget serves as the legal authorization for expenditures and the proposed means of financing them. The County's annual budget shall be balanced; that is, the total of the estimated receipts, including balances brought forward shall equal the total of the appropriations and reserves (FS 129.01 (2)(b)). The County's annual budget shall be adopted by the Board of County Commissioners at a fund level. For management control purposes, the operating budget is integrated into the County's accounting system and appropriations are controlled at the line-item level within each division. County department heads are responsible for the daily management of their budgets and will submit requests for any required budget adjustments to the Budget Office prior to any cost overruns that occur at the line-item level.

Florida Statute Section 129.06 provides that the Board of County Commissioners may establish procedures by which the designated Budget Officer may authorize certain intra-department budget amendments or transfers provided the total appropriation of the department is not changed. The County Budget Director along with the County Manager has the authority to approve all internal or intra-department transfers (i.e., from one line item to another line item) as long as such transfer does not change the total approved budget amount for the department. Per the Clay County Charter, any divisional transfers must be approved by the Board prior to being spent.

Appropriations for expenditures in any fund may be decreased and other appropriations in the same fund may correspondingly be increased by transfer of contingency funds by Board motion, recorded in minutes, provided that the total of the fund appropriations is not changed. Appropriations from the reserve for contingencies may increase the

appropriations for any particular expense in the same fund, or create an appropriation in that fund for any lawful purpose, however, in no circumstance, can expenditures be directly charged to the contingency reserve.

Receipt of unanticipated funds that are for a direct purpose, including grants, donations, and gifts, must be approved by Resolution of the Board to be appropriated and expended for such purpose. Upon approval of any grants, donations or gifts that are to be expended for a direct purpose, the Resolution should go before the Board at the same time to mainstream the process on the usage and tracking of grants funds.

Any amendment to the adopted budget not previously mentioned must be authorized by Resolution or Ordinance of the Clay County Board of County Commissioners and adopted following a public hearing. The public hearing must be advertised at least two days, but not more than five days, before the date of the hearing. The advertisement must appear in a newspaper of paid general circulation and must identify the name of the taxing authority, the date, place and time of the hearing, and the purpose of the hearing. The advertisement must also identify each budgetary fund to be amended, the source of the funds, the use of the funds, and the total amount of each budget. The Budget Office will review all requests for appropriation changes to ensure that all necessary documents have been adequately prepared including those necessary for submission to the Board of County Commissioners.

## **What is a Program Performance Budget?**

A program performance budget enables decision makers and the public to isolate a particular service provided by the County and to measure whether the service is being provided efficiently and effectively. The program structure facilitates decision making by focusing on each service provided.

With program performance budgeting, decision makers are provided with performance measures that can be used as a gauge to determine the efficiency and effectiveness of the service provided. The measures also indicate whether the service provided meets the customer's demand as to the amount provided and the quality of the service. Emphasis is not only placed on the volume of services provided (outputs), but also the quality of that service and whether the customer is satisfied with the delivered service or product.

## **What are Service Areas, Departments and Programs/Divisions?**

A service area is an organizational unit which represents a group of closely related functions provided to the customers of the service. In the case of Clay County, the service areas are comprised of various departments which provide similar services to the community. The departments are then broken down into programs/divisions which summarize the key statistics, expenditures and personnel needed to perform a given service.

## **What is a Division Goal?**

Each program manager is required to establish a division goal that relates the overall purpose for which the program/division exists. This is similar to a mission statement for the program. For example, a division goal for a planning and zoning department might be:

To provide for planned and orderly community growth and for the enhancement of the quality of life for area residents through effective management and coordination of planning and development programs consistent with the Growth Management Plan, community needs and resources, and local codes and ordinances.

## **What are Goals & Objectives?**

Goals and objectives were developed by the program managers in conjunction with the County Manager to indicate how the program will achieve goals and objectives. Most objectives are aimed at effectively providing goods or services, or reliably safeguarding and accounting for assets. Often an important criterion for selecting an objective is that the results be measurable. The objectives of providing a service usually can be characterized by price to the customer, quality, timeliness, or delivery.

## **What are Performance Measures?**

A key responsibility of government is to develop and manage effective and efficient citizen services and to communicate the results of those efforts to its citizens. Performance measures assist in this evaluation and communication process. Performance measures are quantifiable indicators of how effectively or efficiently a service is being provided. Effectively means the degree that results or accomplishments address service goals or objectives. Efficiently means that results are produced using the least amount of resources or cost.

Service goals or objectives should relate to the overall reason or purpose that a service exists. An overall reason or purpose is often broadly stated in the form of a mission statement or, for Clay County, as a program goal within a service area. The State of Florida specifies seven government service area classifications:

1. General Government
2. Public Safety
3. Physical Environment
4. Transportation
5. Economic Environment
6. Health & Human Services
7. Culture & Recreation

## 1. Overview

The interpretation of performance measures is most often enhanced by comparison of measures over time or to service standards or benchmarks where they exist. Measures of quality also are often helpful indicators including service awards or customer satisfaction scores. Even so, it is often difficult to interpret performance measures.

Government services vary substantially in their level of complexity, thus, few uniform performance measures exist. However, four types of measures are commonly used: input, output, efficiency, and effectiveness. Input measures address the amount of resources (dollars, employee-hours, etc.) used in providing a particular service. Output measures describe activities undertaken in providing a service (i.e., the number of emergency service responses). Efficiency measures relate inputs to units of output (i.e., cost or input per unit of service or output). Effectiveness measures usually reveal the extent to which outputs have been achieved (i.e., the percentage or extent output goals are met or the average time to complete an output).

Clay County uses all four types of performance measures for its departments and programs. As constitutional officers are separate legal entities, the inclusion of performance measures for them, although encouraged by the County, is up to their discretion. On each program/division budget page in this budget document can be found a performance measures table. This table compares three years of performance measures designated as “Input,” “Output,” “Efficiency” and “Effective.”

Although performance measures are reviewed and evaluated, currently they are not rigorously used in the County’s budgeting process to allocate resources. Regardless, they are considered a vital part of the budget document for communicating results to citizens.

## Program Structure

Clay County is structured into eight primary organizational units, or service areas, which are composed of related activities for delivery of similar services to the community. These activities are then often further divided into functional units, or divisions/programs. The divisions/programs summarize the key statistics, involving revenue, expenditures and personnel needed to provide services to the citizens.

The service areas and related description of services are set forth below:

### 1. General Government

This area includes services provided by the legislative and administrative branches of the local government for the benefit of the public and the governmental body as a whole. This service area includes legislative, executive, legal, finance, administration, comprehensive planning and other government activities.

General Government provides leadership and policy direction for Clay County. Policy decisions and legislative actions taken by the Board of County Commissioners (BCC) affecting the safety, welfare and quality of life of the residents of Clay County are administered and executed by the County Manager. The County Attorney plays a role in the interpretation and drafting of ordinances and represents the BCC in any legal matter. The Commission Auditor conducts financial and compliance; economy and efficiency; and performance and post audits of all components and programs of County government directly under the Board of County Commissioners.

This service area includes programs/divisions that provide major internal services and support functions to the County's operating departments. The emphasis in this group is to provide quality support services and advice to operating departments. This includes Finance Office, Budget Office, Management Information Systems (MIS), Purchasing, Risk Management/Safety, Human Resources & Benefits, Building & Custodial Services, and Planning & Zoning.

Constitutional officers, including the Clerk of Courts, Property Appraiser, Tax Collector and Supervisor of Elections are also included in the service area. For summary reporting purposes, this section includes the debt service payments of the County with details of debt service included under the Non-Operational section of the budget document.

### 2. Court Related

This category of services provide support for the operations of the court system within the County. They include activities for the Circuit Court, Family Mediation, Juvenile Program, Teen Court, Drug Court, County Court, State Attorney, Court Facilities, Clerk of Courts - Technology, Local Judge Requirement, Filing Fee Costs and the Law Library.

### 3. Public Safety

This is a major category of services that provide for the safety and security of persons and property within the community. These services include Law Enforcement, Fire and Rescue Operations, Emergency Management, Building & Permits Services and Code Enforcement.

### 4. Physical Environment

Services related to the physical environment are provided for the purpose of achieving a satisfactory living environment by controlling and utilizing elements of the environment. These services include Environmental Services functions such as landfill, recycling and collection as well as other County departments that provide services related to the physical environment of the County such as Soil & Water Conservation and Extension Services/Agriculture.

### 5. Transportation

The Transportation Service Area provides for the safe and adequate flow of vehicles, travelers, and pedestrians and is comprised of the Engineering & Public Works Department. These divisions meet the roadway and transportation needs of the County by providing and maintaining road and street plant facilities and ancillary facilities such as bridges, viaducts, sidewalks, traffic control devices, street-lights, rights-of-way, shoulders, and other facilities incidental to the proper movement of traffic, travelers and pedestrians along roads and streets.

## 1. Overview

### 6. Economic Environment

Economic Environment Services focuses on the development and improvement of the economic condition of the community and its citizens. The major divisions within this service area, Tourism & Film Development, the Economic Development Council, the State Housing Initiative Partnership (SHIP) and Veterans Services, provide an array of services. They provide economic development, value added business recruitment, housing assistance to medium and low income residents and claims and benefits assistance to veterans. These divisions work with other levels of government and/or public/private partnerships to provide valuable resources to the community.

### 7. Human Services

Human Services provides for the care, treatment, and control of human illness, injury or handicap; and for the welfare of the community as a whole and its individuals through County divisions, community resources, and services made available through federal and state government. Services include programs for mental health, physical health, public assistance, developmentally disabled and interrelated programs. The Animal Services and the Mosquito Control Divisions are included in this service area. Primary reliance for service delivery is placed on relationships with independent agencies such as Clay Behavioral Health Services, Clay County Health Department and Council on Aging.

### 8. Culture & Recreation

Culture & Recreation includes services that provide and maintain cultural and recreational facilities and activities for the benefit of citizens and visitors and that enhance the quality of life in Clay County. This service area is primarily comprised of the Parks & Recreation and Library Services Divisions and their associated programs while also working with independent agencies and federal or state programs for funding and provisioning of services.

### 9. Grants in Aid

Grants in Aid includes services provided by private or not-for-profit organizations that are of benefit to the community and are supported by the County government as well as support to municipalities within the County.

The budget also includes a Countywide synopsis in the Overview section, a Summaries By Fund section with a Countywide summary of individual fund details, a Non-Operational subsection which details debt service and interfund transfers, a Capital Improvement Projects (CIP) & Other Capital Expenditures section to recap the total appropriations for the budget year for capital expenditures and projects within each service area and each fund, and an Appendix section for additional reference information.

## **Financial Policies**

### **Debt**

A formal debt policy is an important factor to insure the most efficient methods of financing are utilized by the County resulting in the lowest total cost of borrowing. The authority shall not be empowered or authorized in any manner to create a *debt* as against the state, the County of Clay or any of the incorporated cities therein. At the end of 2018, the County will no longer have any outstanding debt/bond payments. Based on having an outstanding balance of \$9,474,542 and an estimated 209,652 population, Clay County's debt per capita is \$45.19.

### **Method of Financing**

The County will use a "pay as you go" policy unless internal funding is not sufficient to meet capital needs or a significant portion of the benefit of a project will be realized by future citizens. According to Fitch's press release, released February 2017, Clay County's long-term rating was upgraded from AA rating to AA+ rating.

### **Bonds**

*Bonds* shall mean the obligations issued by the county under the provisions of this article to pay the cost of a project or combination of one or more projects and payable from the revenues derived from the operation of the project, if any, the seventh cent gas tax allocated to Clay County and the ninth cent gas tax imposed by the county and any other special funds authorized to be pledged as additional security therefor under this article.

Cost of a project shall mean the cost of acquiring or constructing such project, and the cost of improvements, and shall include the cost of all labor and materials, the cost of all lands, property, rights, easements and franchises acquired, which are deemed necessary for such acquisition or construction, the cost of all machinery and equipment, financing charges, interest prior to and during construction and for one year after the completion of construction, *bond* discount, if any, engineering and legal fees and expenses, cost of plans, specifications, surveys, estimates of construction costs and of revenues, other expenses necessary or incident to determining the feasibility or practicability of such acquisition or construction, administrative expenses, and such other expenses as may be necessary or incident to the financing herein authorized and to such acquisition or construction and the placing of the project in operation.

The county is hereby authorized and empowered:

To acquire by purchase or to construct, or partly acquire and partly construct, and to improve, repair, reconstruct, own, operate and maintain any project; provided, however, that no such project may be constructed, owned, operated or maintained by the county on property located within the corporate limits of any municipality without the consent of the governing body of such municipality.

To issue *bonds* to pay the cost of a project payable from the revenues derived from the operation of a project, if any; and the gas taxes, or either or any portion thereof; or any other special funds pledged therefor as provided herein, excepting only ad valorem taxes upon real property.

To fix and collect rates, fees, tolls, rentals or other charges for the services and facilities furnished by such project to the extent applicable.

To acquire in the name of the county, either by purchase or the exercise of the right of eminent domain, such lands and rights and interest therein, including lands under water and riparian rights, and to acquire such personal property as it may deem necessary in connection with the construction, reconstruction, improvement, extension, enlargement, operation or maintenance of any project.

## 1. Overview

To make and enter into all contracts and agreements necessary or incidental to the performance of its duties and the execution of its powers under this article, and to employ such consulting engineers, attorneys, accountants, construction and financial experts, superintendents, managers and other employees and agents as may, in the judgment of the board, be deemed necessary, and to fix their compensation.

To receive and accept from any federal or state agency grants for or in aid of the planning, construction, reconstruction or financing of any project, and to receive and accept aid or contributions from any source of either money, property, labor or other things of value, to be held, used and applied only for the purposes for which such grants and contributions may be made. Neither credit nor taxing power pledged.

*Bonds* issued under the provisions of this article shall not be deemed to constitute a debt of the county or a pledge of the faith and credit of the county, but such *bonds* shall be payable from the project revenues, if any, and the gas taxes, or either or any portion thereof, and any other special funds pledged for the payment of such *bonds* as provided herein. All such *bonds* shall contain a statement on their face to the effect that the county is not obligated to pay the same or the interest thereon except from the funds provided for in this article, and that the faith and credit of the county and the ad valorem taxing power of the county on real or personal property are not pledged to the payment of the principal of or interest on such *bonds*.

The issuance of *bonds* under the provisions of this article shall not directly or indirectly or contingently obligate the county to levy or to pledge any form of ad valorem taxation upon real or personal property therefor. No holder of any such *bonds* shall ever have the right to compel any exercise of the ad valorem taxing power on the part of the county to pay any such *bonds* or the interest thereon or to enforce payment of such *bonds* or the interest thereon against any property of the county, nor shall such *bonds* constitute a charge, lien or encumbrance, legal or equitable, upon any property of such county, except such funds pledged for the payment of such *bonds*.

### **Purchase of projects**

The board is hereby authorized to acquire by purchase, whenever it shall deem such purchase expedient, any project as herein above defined, or any such project wholly or partly constructed, and any franchise, easements, permits and contracts for the construction of any such project, upon such terms and at such prices as may be reasonable and can be agreed upon between the board and the owner thereof, title to be taken in the name of the county. The board may issue *bonds*, as hereinafter provided, to pay the cost of the acquisition of such project.

### **Bond specifications**

The board shall have the power and it is hereby authorized to provide by resolution, at one time or from time to time, for the issuance of *bonds* for the purpose of paying all or a part of the cost, as herein above defined, of any one or more projects, or any combination thereof as a single project. The principal and interest of such *bonds* may be payable solely from the proceeds of the project revenues, if any, the gas taxes or either or a portion of such gas taxes and any other special funds authorized to be pledged as additional security therefor under this article for such payment, or a combination of any or all of such sources, in the board's discretion. The *bonds* of each issue shall be dated, shall bear interest at such rate or rates not exceeding amounts allowable by general law in effect at the time of the issuance of such *bonds*, shall mature at such time or times not exceeding forty (40) years from their date or dates, as may be determined by the board, and may be made redeemable before maturity, at the option of the board, at such price or prices and under such terms and conditions as may be fixed by the board prior to the issuance of the *bonds*. The board shall determine the form of the *bonds* and the interest coupons to be attached thereto, the manner of executing the *bonds* and coupons, and shall fix the denomination or denominations of the *bonds* and the place or places of payments of the principal and interest which may be at any bank or trust company within or without the State of Florida. In case any officer whose signature or a facsimile of whose signature shall appear on any *bonds* or coupons, shall cease to be such officer before the delivery of such *bonds*, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. All *bonds* issued under the provisions of this article shall have and are hereby declared to be and to have all the qualities and incidents of negotiable instruments under the laws of the state.

## 1. Overview

Provision may be made for the registration of any of the *bonds* in the name or the owner as to principal alone and also as to both principal and interest, and for the reconversion of any of the *bonds* registered as to both principal and interest into coupon *bonds*. Such *bonds* may be issued without regard to any limitation on indebtedness prescribed by any law and shall not be included in the amount of *bonds* which the county may be authorized to issue under any statute. The board may sell such *bonds* in such manner consistent with general law and for such price as it may determine to be for the best interest of the county. Prior to the preparation of definitive *bonds* the board may, under like restrictions, issue interim receipts, interim certificates or temporary *bonds*, with or without coupons, exchangeable for definitive *bonds* when such *bonds* have been executed and are available for delivery. The board may also provide for the replacement of any *bonds* which shall become mutilated, or be destroyed or lost. Such *bonds* may be issued without any other proceedings, or the happening of any other conditions or things than those proceedings, conditions or things which are specifically required by this article.

In the discretion of the board, each or any issue of such *bonds* may be secured by a trust agreement by and between the county and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the state. Such trust agreement may pledge or assign the revenues to be received, but shall not convey or mortgage any project or any part thereof. Either the ordinance or resolution providing for the issuance of *bonds* or such trust agreement may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the county and the board of county commissioners in relation to the acquisition, construction, improvement, maintenance, operation, repair and insurance of the project or projects, and the custody, safeguarding and application of all moneys. It shall be lawful for any bank or trust company incorporated under the laws of this state to act as such trustee and to furnish such indemnifying *bonds* or to pledge such securities as may be required by the county. Such ordinance or resolution or such trust agreement may set forth the rights and remedies of the bondholders and of the trustee, if any, and may restrict the individual right of action by bondholders as is customary in trust agreements or trust indentures securing *bonds* or debentures of corporations. In addition to the foregoing, such ordinance or resolution may contain such other provisions as the county may deem reasonable and proper for the security of bondholders. Except as herein otherwise provided, the county may provide, by ordinance or resolution or by such trust agreement, for the payment of the proceeds of the sale of the *bonds* and the revenues, if any, of the project or projects to such officer, board or depository as it may determine for the custody thereof, and for the method of disbursement thereof, with such safeguards and restrictions as it may determine. All expenses incurred in carrying out such trust agreement may be treated as a part of the cost of operation of the project affected by such trust agreement.

The proceeds of such *bonds* shall be used solely for the payment of the cost of a project, and shall be disbursed in such manner and under such restrictions, if any, as the board may provide. If the proceeds of such *bonds*, by error of estimates or otherwise, shall be less than the cost of the project, additional *bonds* may in like manner be issued to provide the amount of such deficit, and, unless otherwise provided in the resolution, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the *bonds* first issued for the same project.

In the event that the county heretofore acquired or constructed a project as hereinabove defined, and, to pay the cost of such acquisition or construction thereof, shall have issued *bonds* payable from the funds provided for herein, and in the further event that the county shall desire to construct additions, extensions, improvements or betterments to such project or to acquire by purchase or to construct an additional project and to combine such additional project with the project theretofore purchased or constructed, and to refund such outstanding *bonds*, the county may provide for the issuance of a single issue of *bonds* under the provisions of this article for the combined purposes:

Of refunding such *bonds* then outstanding; and of constructing such additions, extensions, improvements or betterments or of acquiring by purchase or of constructing such additional project, and the principal of and interest on such *bonds* shall be payable from the funds pledged therefor as provided herein.

The resolution providing for the issuance of the *bonds* may also contain such limitations upon the issuance of additional *bonds* as the board may deem proper, and such additional *bonds* shall be issued under such restrictions and limitations

## 1. Overview

as may be prescribed by such resolution. All moneys received from any *bonds* issued and sold under the provisions of this article shall be applied solely for the purposes for which the *bonds* shall be authorized or to the sinking fund created for the payment of such *bonds*.

Pledge of seventh cent gas tax and ninth cent gas tax.

The county may pledge the proceeds of the seventh cent gas tax and/or the ninth cent gas tax, as defined herein, or portions thereof as security for the payment of the principal of and interest on any *bonds* issued hereunder, or for reserves for such debt service.

In the event of the pledge of such seventh cent gas tax and/or ninth cent gas tax, as provided herein, such pledge shall be and constitute a valid and legally binding contract between the county and the holders of such *bonds* as the case may be, and the county shall be obligated to continue to receive and apply said gas taxes, or either or a portion thereof, in accordance with the proceedings which authorized the issuance of the *bonds* for which said gas taxes are so pledged as security as long as any of said *bonds* are outstanding and unpaid. The county shall likewise be obligated to collect and apply all revenues, if any, derived from said project in accordance with proceedings authorizing the issuance of said *bonds*.

### **Trust funds.**

All moneys received pursuant to the authority of this article, whether as proceeds from the sale of *bonds* or as gas taxes, shall be deemed to be trust funds, to be held and applied solely as provided in this article. The board shall, in the resolution authorizing the issuance of such *bonds*, provide for the payment of the proceeds of the sale of the *bonds* and the revenues to be received to any officer who, or to any agency, bank or trust company which, shall act as trustee of such funds, and hold and apply the same to the purposes hereof, subject to such regulations as this article and such resolution may provide.

### **Remedies of bondholders.**

Any holder of *bonds* issued under the provisions of this article or any of the coupons attached thereto, except to the extent the rights herein given may be restricted by resolution passed before the issuance of the *bonds* may by suit, action, mandamus or other proceedings, protect and enforce any and all rights under the laws of the state or granted hereunder or under such resolution, and may enforce and compel the performance of all duties required by this article, or by such resolution, to be performed by the county or the board, or by any officer thereof.

### **Additional security.**

The county may additionally pledge for the payment of the principal of and interest on any *bonds* issued hereunder any funds of the county legally available for such purpose but derived from sources other than ad valorem taxation upon real and personal property.

## **Investment Policy**

### **I. Scope**

The investment policy shall apply to funds under the control of the Board of County Commissioners of Clay County, Florida (the Board) in excess of those required to meet current expenses. This investment policy shall not apply to pension funds, including those funds in Florida Statutes chapters 175 and 185. Nor shall this investment policy apply to funds related to the issuance of debt where there are other existing policies or indentures in effect for such funds, however, absent such other controlling documents this policy shall apply to such funds. The County Manager will consolidate, where practicable and allowable, for the purposes of investment, cash balances and investments from all funds covered by this policy to maximize investment earnings and reduce risks. Unless otherwise provided for in this policy, the term County Manager shall include his or her designee. The investment of funds shall comply with all controlling state statutes, ordinances and covenants covering the Board's investments.

### **II. General Objectives**

The primary objectives, in priority order, of investment activities shall be safety, liquidity, yield and transparency:

1. Safety & Legality: Safety of principal is the foremost objective of the investment program. Investments shall be undertaken in a manner that seeks the preservation of capital in the overall portfolio. The objective will be to limit credit risk and interest rate risk to a level commensurate with the risks associated with prudent investment practices and performance benchmarks, if applicable.

A. Credit Risk: The Board will limit credit risk, the risk of loss due to the failure of the security issuer or backer, by diversifying the investment portfolio so that potential losses on individual securities will be minimized and by limiting investments to specified credit ratings.

B. Interest Rate Risk: The Board will minimize the risk that the market value of securities in the portfolio will fall due to changes in general interest rates by limiting investment to those intended to maintain a constant share price or par value.

2. Liquidity: The investment portfolio shall remain entirely liquid by investing in the securities prescribed by this Policy in Section V.

3. Yield: The investment portfolio shall be designed with the objective of attaining a market rate of return, as measured by specified benchmarks, throughout budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs. Return on investment is of secondary importance compared to the safety, liquidity and transparency objectives described above. The core investments are limited to relatively low risk securities in anticipation of earning a fair return relative to the risk being assumed. Securities shall not be sold prior to maturity.

4. Transparency: The Board shall operate its portfolio in a transparent manner, making its periodic reports both available for public inspection and designed in a manner which communicates clearly and fully information about the portfolio.

### **III. Standards of Care**

1. Prudence: The standard of prudence to be used by investment officials shall be the Prudent Person Rule and shall be applied in the context of managing an overall portfolio. Board personnel, acting in accordance with this investment policy and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported to the Board's governing board in a timely fashion and the liquidity and the sale of securities are carried out in accordance with the terms of this policy. The Prudent Person Rule states that: "Investments should be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs,

not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived from the investment."

2. Ethics and Conflicts of Interest: The County Manager and other authorized personnel shall refrain from personal business activity that could conflict with the proper execution and management of the investment program, or that could impair their ability to make impartial decisions. These investment officials shall disclose annually, in a written statement to the Board, any material interests in financial institutions with which they conduct business on behalf of the Board. They shall further disclose any personal financial/investment positions that could be related to the performance of the investment portfolio. They shall refrain from undertaking personal investment transactions with the same individual(s) with whom business is conducted on behalf of the Board.

3. Delegation of Authority: Authority to manage the investment program is granted to the County Manager and other authorized personnel. The Board may seek professional advice and therefore may contract with a federally registered investment advisory firm that specializes in public funds fixed income management. No person may engage in an investment transaction except as provided under the terms of this policy. The County Manager shall be responsible for all transactions undertaken and shall establish a system of controls to regulate the activities of subordinate officials.

### IV. Broker Dealers, Safekeeping and Custody

1. Authorized Financial Dealers and Institutions: The Board shall list financial institutions consisting of banks and other depository institutions authorized to provide depository and investment services. In addition, a list will be maintained of approved security broker/dealers consisting of "primary" dealers or regional dealers that qualify under Securities and Exchange Commission (SEC) Rule 15C3-1 (uniform net capital rule). Both lists shall be reviewed by the County Manager at least annually. All and any 12b-1 fees shall be fully disclosed to the Board on any money market funds purchased.

2. Perfection of Interest: Securities shall be held with a third party; and all securities purchased by, and all collateral obtained by, the unit of local government should be properly designated as an asset of the unit of local government. No withdrawal of securities, in whole or in part, shall be made from safekeeping or custody, except by an authorized staff member of the unit of local government.

### V. Suitable and Authorized Investments

This investment policy is authorized by the Board. Investments not listed in the investment policy are prohibited.

The investment portfolio shall be structured in such manner as to provide sufficient liquidity to pay obligations as they come due. To that end, the investment policy should direct that, to the extent possible, an attempt will be made to match investment maturities with known cash needs and anticipated cash-flow requirements.

Prior to conducting transactions, as authorized by this policy, the County Manager shall select one or more optimal types of investment, and competitively bid the security in question when feasible and appropriate. Except as otherwise required by law, the bid deemed to best meet the investment objectives shall be selected.

Consistent with the Florida Statutes the following investments will be permitted by this policy:

1. Authorized Issuers: Each investment must comply with the provisions of each section. This section addresses who can issue authorized investments, what minimum credit ratings these investments must have, what maturity or other limitations apply concerning interest rate risk, and how much of any security may be held. Subject to additional restrictions in this Part V, securities may be held that are issued by:

A. Local Government Investment Pools: Shares in local government investment pools organized under Chapter 163, Part I, F.S. At the time of purchase, local government investment pool must carry a AAAM rating from

Standard & Poor's. At the time of purchase, shares in the local government investment pool must be fully redeemable on the next business day.

B. The State Board of Administration Pool (SBA): Shares in the SBA pool organized under Chapter 218, Part IV, F.S. At the time of purchase, the SBA must carry a AAAM rating from Standard & Poor's. At the time of purchase, shares in the fund must be fully redeemable on the next business day.

C. Money Market Mutual Funds: Shares of any money market fund that is registered as an investment company under the federal "Investment Company Act of 1940," as amended. At the time of purchase, money market fund must carry a AAA rating from Standard & Poor's. At the time of purchase, shares in the money market fund must be fully redeemable on the next business day.

D. Deposits in Qualified State Depositories (QPD): Bank deposits for the Board must comply with Chapter 280.16 Florida Statutes. Such deposits in QPD must be collateralized according to the statutory requirements.

## VI. Diversification Limits

Chapter 218.415 (8) Florida Statutes states that the investment policy shall provide for appropriate diversification of the investment portfolio.

1. Local Government Investment Pools: Up to 80% of the portfolio may be invested in Local Government Investment Pools, no more than 40% of the portfolio may be invested in any single pool.
2. The State Board of Administration Pool (SBA): No more than 80% of the portfolio may be invested in the SBA.
3. Money Market Mutual Funds: Up to 80% of the portfolio may be invested in money market funds, no more than 20% of the portfolio may be invested in any single fund.
4. Deposits in Qualified State Depositories (QPD): Up to 80% of the portfolio may be deposited in qualified state depositories, no more than 40% of the portfolio may be invested in any single depository.

## VII. Internal Controls

The County Manager shall establish a system of internal controls which shall be in writing and made a part of the governmental entity's operational procedures. The investment policy shall provide for review of such controls by independent auditors as part of any financial audit periodically required of the unit of local government. The internal controls should be designed to prevent losses of funds which might arise from fraud, employee error, misrepresentation by third parties, or imprudent actions by employees of the Board.

## VIII. Reporting

1. Methods: The County Manager shall prepare, or have prepared by an outside investment advisor or other third party, an investment report and provide such to the Board at least quarterly, including a management summary that provides an analysis of the status of the current investment portfolio and transactions made over the last quarter. This management summary will be prepared in a manner that will allow the Board to ascertain whether investment activities during the reporting period have conformed to the investment policy. This investment report shall include a list of securities in the portfolio by class or type, book value, income earned, and market value as of the report date. Such reports shall be available to the public.
2. Performance Standards: The investment portfolio will be managed in accordance with the parameters specified within this policy. The portfolio should obtain a market average rate of return during a market/economic environment of stable interest rates. The performance benchmark for the Board shall be the S&P LGIP Index.

## 1. Overview

3. Marking to Market: The market value of the portfolio shall be calculated at least quarterly and a statement of the market value of the portfolio shall be issued at least quarterly.

### **IX. Policy Considerations & Implementation**

1. Exemption: Any investment currently held that does not meet the guidelines of this policy shall be exempted from the requirements of this policy. At maturity or liquidation, such monies shall be reinvested only as provided by this policy.

2. Amendments: This policy shall be reviewed on an annual basis. Any changes must be approved by the governing body of the Board.

3. Continuing Education: Chapter 218.415 (14) Florida Statutes states that the investment policy shall provide for the local government's officials responsible for making investment decisions. The County Manager shall be responsible for assuring compliance with this law.

### Fund Structure

Governmental accounting systems are required to be organized and operated on a fund basis. A fund is a fiscal and accounting entity with a self-balancing set of accounts recording cash or other financial resources together with all related fund liabilities and residual equity. Funds are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. Fund accounting is designed to demonstrate legal compliance and aid associated financial management by segregating transactions related to certain government functions.

The financial accounts of the County are organized on the basis of funds and account groups as required in order to report on the County's financial position and results of operations. Under governmental accounting there are essentially six (6) major fund types:

**1. General Fund** is used to account for all financial resources except those that are restricted to a specific use and therefore required to be accounted for in separate funds. The General Fund is the largest and most diverse of the County's operating funds.

**2. Special Revenue Funds** are used to account for revenues that are legally restricted or restricted by policy for specified purposes. For example, Local Option Gas Taxes (in the County Transportation Trust Fund) can only be used for transportation expenditures as defined in Section 336.025 of Florida Statutes. The name of the Special Revenue fund usually indicates the restricted purpose (i.e., the Transportation Trust Fund, the Florida Boating Improvement Fund, etc).

**3. Debt Service Funds** are used to account for the payment of principal, interest and any other related costs of government debt. Specific revenue sources are generally pledged by a debt or bond covenant to provide the revenue to pay the debt service costs. However, debt service for Enterprise funds are not to be included in Debt Service funds because the debt is to be repaid strictly from the Enterprise fund revenues or user fees.

**4. Capital Improvement Funds** are used to account for the acquisition and construction of major capital facilities or projects other than those financed by Enterprise funds. These projects generally span more than one year and have funding contributed by more than one County fund. During the construction phase, these funds accumulate and report construction in progress costs. At the completion of the project, the total cost to construct is recorded as a County fixed asset and the fund is closed and ceases to exist.

**5. Enterprise Funds** are used to account for services that are financed and operated in a manner similar to a private business enterprise where the intent is that all costs related to the service, including asset depreciation, be recovered through customer charges or other user fees. It is intended to be self-supporting without financial assistance from other government funds such as the General Fund. These funds must also generate sufficient funds to maintain and replace its facilities and other assets as well as provide for the expansion of services when needed. They are also commonly called "Proprietary" funds.

**6. Internal Service Funds** are used to account for services provided by one fund to other departments or agencies in other funds within the same government, usually on a cost reimbursement basis. This fund accumulates total costs related to a given activity so that the costs can be fully allocated through charges to user departments. They have the effect of "double-counting" total budget expenditures, since charges are reflected as expenditures in program budgets in other funds and reflected again in the total operating expenditure budget of the Internal Service fund.

## Understanding County Cash Carry Forward-Fund Balances

### **Definition**

Cash carry forward-fund balance represents the excess (or “deficit”) of total fund assets less total fund liabilities. This balance represents uncommitted cash or other liquid/cash convertible assets (cash and cash convertible assets less all fund liabilities or claims that are owed and must be paid by the County). These uncommitted or unspent funds generally can be included as available revenue in the next year’s fund budget. A negative balance is sometimes referred to as a “deficit.”

As defined by the *Governmental Accounting, Auditing and Financial Reporting* of the Government Finance Officers Association, fund balance is "The difference between assets and liabilities reported in a governmental fund."

### **Purpose**

Adequate cash carry forward-fund balances are critical to county finances and budgeting. These balances are not only a source of county funds or total revenue, but also address county cash needs and can eliminate the need for costly short-term borrowing. They also provide a source of funds for unforeseen expenditures or shortfalls in county revenues. Finally, adequate balances help strengthen credit or bond ratings that may result in lower interest rates to the county and less restrictions on county debt issues.

### **Statutory Requirements**

1. Florida Statute 129.01(2)(b) states that the budget shall be balanced; that is, the total of the estimated receipts, including balances brought forward, shall equal the total of the appropriations and reserves. It shall conform to the uniform classification of accounts prescribed by the appropriate state agency. The receipts division of the budget shall include 95 percent of all receipts reasonably to be anticipated from all sources, including taxes to be levied and 100 percent of the amount of the balances of both cash and liquid securities estimated to be brought forward at the beginning of the fiscal year.
2. Florida Statute 129.01(2)(c)(1) recognizes but restricts reserves for contingencies to a maximum of 10% of the total fund budget. A reserve for contingencies is a budgeted amount that has been set aside to be appropriated as necessary to meet unexpected needs. Use of any fund reserve is required to be approved by the Board of County Commissioners. To the extent that unexpected needs do not arise, then the unexpended fund reserve would become part of the fund balance for the next fiscal year.

### **Effective Government Balances**

A prudent cash carry forward-fund balance amount for the General Fund is generally recognized to be between 5 to 15% of total fund revenue. In contrast, Special Revenue, Debt Service, and Capital Improvement Funds are all specific purpose funds. When that specific purpose is fulfilled, no fund balance needs to remain. Enterprise Funds require a prudent balance according to their “business-like” nature. For example, an important component of the balance for Enterprise Funds is the provision for future replacement of the Enterprise Fund’s capital assets.

### Revenue Overview

All County revenues are deposited into specific county funds. While some revenues may be spent on any County wide service, most revenues are restricted to a specific program or service area. These restrictions dictate the fund into which certain revenue is to be placed. In turn, the fund generally determines for which County programs or services the revenues may be legally utilized.

County services and programs are funded through revenue that is derived from many different sources. These sources can be divided into the following basic categories: taxes, permits, fees and special assessments, intergovernmental revenue, charges for services, fines and forfeits, miscellaneous revenues and other sources (typically fund transfers and debt proceeds), and cash carry forward or fund balance.

The following comparison shows each revenue category for Fiscal Year 2017-2018.

The County strives to diversify revenue sources as much as possible. Diversifying revenue is part of a sound fiscal policy that includes increasing the ability of programs to cover their own costs and reducing reliance on any one revenue source, particularly property taxes.

The following discussion will highlight the County's revenue sources for the major county revenue categories as well as the underlying budget assumptions for revenue estimates. The revenue categories that follow also show (in parentheses) the relative percentage of total county revenue each revenue category provides.

#### Taxes (37.94%)

The County has several sources of tax revenue. The primary and most well known source is the ad valorem tax, also known as property tax. The other tax revenue sources include service taxes on utilities and communications, the tourist development tax, fuel taxes and the infrastructure surtax.

For Fiscal Year 2017-2018, the County is proposing to maintain the same millage rate as prior year which is forecasted to generate approximately \$4.89 million more in Ad Valorem revenues as compared to the prior year. Fiscal Year 2017-2018 property tax revenue is estimated to generate \$77,980,261 or 25.52% of the total County budget, which is an increase from the prior fiscal year budgeted amount of \$73,094,062. Property taxes (Ad Valorem Taxes) are major revenue sources for the following County funds: General Fund, Fine & Forfeiture Fund, Unincorporated Municipal Services MSTU Fund, Sheriff MSTU Fund, Fire MSTU Fund and the Challenger Roadway MSTU Fund.

Taxes other than ad valorem are estimated to provide \$37,975,632 which is 12.43% of all budgeted funds for Fiscal Year 2017-2018. This is an increase from the prior year budgeted amount of \$33,639,728. Details of the Fiscal Year 2017-2018 estimated revenues from the major taxes in this category are as follows:

- Infrastructure surtax is collected by the State with a statutorily defined portion remitted to the County. This revenue is used to fund capital improvement projects throughout the County. Each year, revenue estimates are provided by the State and this revenue source is expected to provide \$19,886,915, which is 49.67% of the Capital Improvement Fund budget for Fiscal Year 2017-2018. This is an increase from \$18,240,663 for Fiscal Year 2016-2017 budget. This is due to the additional gas tax revenues for estimated for after January 1. Estimates for these Service Taxes are provided by the State.
- Service taxes include the Utilities and Communications Service Taxes and are estimated at \$9,625,485 or 12.60% of the General Fund Budget for Fiscal Year 2017-2018, which is a decrease from \$9,631,237 budgeted in the prior fiscal year. Estimates for these Service Taxes are provided by the State.
- Local Option Fuel Tax is a 6-cent tax added onto the price of a gallon of gasoline which is collected by the State with a statutorily defined portion remitted to the County. This revenue provides partial funding for the operations of the Engineering & Public Works Department. Revenue estimates are provided by the State and this revenue source is expected to provide \$4,238,283 or 34.95% of the Transportation Fund Budget for Fiscal Year 2017-2018 which is a decrease from prior fiscal year.
- Ninth cent fuel tax is a 1-cent local option tax added onto the price of a gallon of gasoline which is collected by the State with a statutorily defined portion remitted to the County. Revenue estimates are provided by the State

and this revenue source is expected to provide \$880,307 or 7.26% of the Transportation Trust Fund for Fiscal Year 2017-2018. This is a decrease from the \$915,292 budgeted the prior fiscal year.

- Tourist Development Tax is a 3-percent levy added to hotel rooms, campgrounds, and other temporary lodging and is largely borne by visitors to the County. Per Florida Statute 125.0104, these funds are restricted for the promotion of tourism and economic development.

The following comparison shows the history of these taxes over the past five years.

### Permits, Fees & Special Assessments (5.99%)

Permits, Fees & Special Assessments totals \$18,309,273 for Fiscal Year 2017-2018 of which \$8,751,281 is related to revenue from assessments in the Enterprise Fund for Universal Collection and \$5,952,046 budgeted for assessments in Solid Waste which is an increase from prior fiscal year. Building permit fees are estimated at \$1,150,000 for Fiscal Year 2017-2018 which is the same as Fiscal Year 2016-2017. These funds are restricted for use with the enforcement of the Florida Building Code, and are reflected in the Building Fund.

Other licenses and permit revenues of \$7,000 are reflected in the Unincorporated Municipal Services MSTU Fund. These revenues are ordinarily based upon recent historical trends as well as judgment from the Economic & Development Services Department based upon the recent level of building activity in the County. Florida Boating & Improvements revenue for Fiscal Year 2017-2018 are estimated at \$80,000. \$125,446 in revenue is for the Hidden Waters MSBU, Oak Forest Rd MSBU, Blue Jay MSBU, and Black Creek Hills MSBU.

### Intergovernmental Revenue (8.89%)

Intergovernmental revenue will account for approximately 8.89% of the County's budget in Fiscal Year 2017-2018 and totals \$27,175,139 for all funds. Intergovernmental revenue is comprised of grants and shared revenue collected by the State of Florida and shared with counties and/or municipalities.

The County receives grants for a wide variety of services such as libraries, law enforcement, public safety, park development, affordable housing, economic and community development and other service areas. Some grants require the County to match grant funds with a specified percentage of County funds. Other grant programs are reimbursement grants which require the County to expend funds prior to receiving reimbursement for all or part of its expenditure.

Shared revenue is a type of intergovernmental revenue that is literally shared by city, county and state governments. One entity collects the revenue and then remits an appropriate portion back to the other jurisdictions involved. Primary examples of shared revenue are the half cent sales tax, gas tax and state revenue sharing. They are collected by the State which then distributes them to the County.

The Half Cent Sales Tax accounts for the largest single source in this revenue category and is budgeted in the General Fund at \$10,946,134 for Fiscal Year 2017-2018 which is an increase from the \$10,755,290 budgeted the prior fiscal year. Also included in the General Fund is \$5,202,615 of State Revenue Sharing in Fiscal Year 2017-2018 which is an increase from \$5,002,148 budgeted the prior fiscal year. Overall Intergovernmental Revenue in the General Fund of \$21,283,562 is 27.85% of fund revenue for Fiscal Year 2017-2018. This is an increase from the \$18,744,606 budgeted prior fiscal year.

Special Revenue Funds account for \$5,891,577 of Intergovernmental Revenue with the largest component being \$3,381,962 in the Transportation Trust Fund. In addition, the budget for intergovernmental revenues includes specific approved grants that will be received in the budget year, as identified by County departments. The budget for intergovernmental revenues is derived from State estimates which generally vary in direct proportion to the local economy. As the economy has slowly recovered, revenue estimates in this category have risen.

The following comparison shows a five year history of these revenues.

### Charges For Services (4.19%)

It is the intent of government that some programs pay for themselves, in whole or in part, through direct charges for the services provided. Sometimes a fee is collected to cover the cost of a regulatory function such as court costs and sometimes the fee is imposed in exchange for a necessary service such as garbage collection or a desired service such as a speciality license plate.

Charges for services for Fiscal Year 2017-2018 are estimated at \$12,801,758 or 4.19% overall for all fund budgets. This is an increase in dollars from the \$10,548,819 in Fiscal Year 2016-2017. The primary portion is for solid waste

services which are estimated at \$3,457,314 or 27.01% of revenue in the Environmental Services Fund for Fiscal Year 2017-2018. This is the same as the \$3,457,314 for Fiscal Year 2016-2017. The remainder is comprised of \$7,005,339 in the General Fund of which the major portion is \$4,000,000 for estimated Ambulance Fees; and \$3,005,339 in various Special Revenue Funds for program services, court fees, and recording fees.

The budget for charges for services primarily is derived from the estimated number of customers or users multiplied by the established County fee schedule. Historical trends are utilized to judge the accuracy of the budget estimates.

### Fines & Forfeits (0.11%)

A small portion of County revenue is raised through regulatory fines and penalties which are charged to promote adherence to regulations. For instance, Library Services charges a fine for overdue books and Animal Services charges fines for non-compliance with laws and ordinances related to animal safety. The total estimated fines and forfeits for Fiscal Year 2017-2018 for all fund budgets is \$330,500 or 0.11% overall. This is an increase from the \$312,500 for Fiscal Year 2016-2017.

### Other Financing Sources (1.32%)

The County has three other sources of revenue which do not qualify in the categories already mentioned. These sources include remittance from Constitutional Officers, interfund transfers and debt financing.

Interfund transfers arise due to the nature of government finance systems which are characterized by the use of Fund Accounting. Funds are used to segregate revenue and expenditures designated for specific purposes. Frequently, it is necessary to transfer payments between these funds. Interfund transfers, budgeted at \$2,421,304 which is 0.79% of the total budget for Fiscal Year 2017-2018 are self-balancing and represent revenues to one fund and expenses to another. Interfund transfers are generally specifically identified and approved by the Board of County Commissioners (BCC) in the budget process. A detailed Interfund Transfer matrix has been provided in the Non-Operational area of the Operating Budget by Service Area section of this budget document. Debt proceeds are specifically determined from the County's Capital Improvement Plan (CIP) and debt financing planning process that also includes the BCC's approval and direction.

**Cash Carry Forward (37.84%)**

Cash Carry Forward or fund balances carried over from one fiscal year to the next are a large part of county revenue and are estimated at \$115,639,646 or 37.84% of the total budget for all funds for Fiscal Year 2017-2018. This is a decrease compared to \$130,348,926 or 41.67% of the total budget for all funds in prior fiscal year. The majority of the Carry Forward for Fiscal Year 2017-2018 is in the Capital Improvement Fund with \$18,567,979 restricted to Capital Improvement Projects.

Fund balances remaining at the end of a fiscal year may occur for several reasons:

- County departments may not spend every dollar that was approved in their budgets, this is particularly true for large capital projects that span multiple years.
- The County may collect more revenue than was anticipated. Actual revenues may differ from the estimated revenues used to determine the budget.
- Per F.S. 129.01 budgeted receipts must include 95 percent of all receipts reasonably anticipated from all sources, therefore budgeted revenue be reduced by 5% to provide a cushion for budgeted revenue estimates and unanticipated revenue shortfalls. This means that actual revenues are likely to differ from the anticipated revenues budgeted by at least 5% or more which typically creates a cash forward balance for the next year.

Ending Fund Balance is cash reserves, some of which are restricted. Reserve funds can serve two purposes.

1. They ensure that cash is available to handle unforeseen emergencies such as natural disasters.
2. They serve as a savings account for future projects. For instance, the Enterprise funds are required to set aside money today for liabilities it will have to pay in the future for infrastructure maintenance and improvements.
3. They are needed to cover expenses in the first few months of the next fiscal year until tax revenues begin to come in.

Cash Forward or beginning fund balance is estimated by the Budget Office based upon a projected level of revenue and expenditures by fund following review of approximately 11 months of actual experience and prior year receipts and expenses for the end of the year. County departments also generally project their current year expenditures as part of the budget process. The Budget Director reviews them as each fiscal year comes to an end.

### Summary

The County continues to respond to increasing demands upon its resources and must do so within the confines of the revenue that is available to fund each particular county program or service. This will become even more important in future years as fund balances continue to be depleted and State mandates continue to be imposed on local government. These revenue trends highlight the continued importance of diversifying revenue sources, maintaining adequate reserves, and carefully reviewing and prioritizing the capital projects, programs and services the County will provide.

**Public Safety (31.19%)**

This is a major category of services that provide for the safety and security of persons and property within the community. These services include law enforcement, emergency medical services, emergency and disaster relief services, fire control operations, building and permit services, code enforcement and other public safety programs/services. At \$95,311,760, which is 31.19% of the overall budget for Fiscal Year 2017-2018, this represents the largest expenditure service area for the budget year.

Budgeted expenditures within this service area are broken out as follows: Ambulance & Rescue Services are \$14,930,912 for Fiscal Year 2017-2018, which increased from prior year's budgeted \$12,570,497. Due to changes in how the State applies the cost to the County, Juvenile Detention stayed the same as \$490,000 for Fiscal Year 2017-2018. Emergency & Disaster Relief are \$1,998,027 for Fiscal Year 2017-2018, which increased from \$1,954,543 for Fiscal Year 2016-2017 due to expenditures relating to Hurricane Matthew and Irma. ### Interfund Transfers (0.79%)

Interfund transfers arise due to the nature of accounting for government which is characterized by the use of "Fund Accounting." Funds are used to segregate revenues and expenditures designated for specific purposes. Frequently, it is necessary to transfer payments between these funds. Interfund transfers, budgeted at \$2,421,304 or 0.79% of the total budget are self-balancing and represent revenues to one fund and expenses to another. They have decreased from \$11,387,083 in Fiscal Year 2016-2017. Interfund transfers are generally specifically identified and approved by the Board of County Commissioners in the budget process. A detailed Interfund Transfer matrix has been provided in the Non-Operational area of the Operating Budget by Service Area section of this budget document.

The following comparison shows the total Transfers over a five year period.

**Reserves (26.89%)**

Reserve funds can serve three purposes. First, they ensure that cash is available to handle unforeseen emergencies such as natural disasters. Second, reserve funds are for ongoing major capital projects. Third, and most important, reserves provide the cash necessary for expenditures at the beginning of the new fiscal year until the cash from taxes is available. In addition, Enterprise funds are required to set aside money in reserves for future liabilities related to infrastructure, maintenance and improvements.

Total reserves for Fiscal Year 2017-2018 are estimated at \$82,179,628 or 26.89% of the total budget for all funds, which increased from the prior year's budget of \$79,570,821. Specific fund balances are analyzed further in this budget document under Understanding County Fund Balances in the Overview section.

The following comparison shows the total Reserves over a five year period.

| The General Fund is a primary operating fund of the County and accounts for all financial resources except those required to be accounted for as special purpose funds. Revenue sources include ad valorem taxes, franchise fees, intergovernmental revenue, charges for services, fines and forfeitures, and miscellaneous revenue. This fund provides the resources necessary to sustain most of the day-to-day activities, including administrative and operating costs. |                    |                    |                    |                                  |                             |

| Historically, the Fine & Forfeiture Fund was used to account for full costs for the operations of the Sheriff's Office and Other Juvenile Costs-Detention. Effective with FY07/08, the County restructured and introduced several Municipal Service Taxing Districts to better align the assessment of ad valorem taxes with the geographical districts that benefit from the services provided by the County. Effective FY07/08, this fund now accounts for 50% of Patrol Services of the Sheriff's Office and 100% of Detention, Judicial and Buildings-Jail/Law Enforcement Services of the Sheriff's Office and Other Juvenile Costs-Detention. These services are funded by ad valorem revenues (property taxes), fines, grants and miscellaneous revenues. |                    |                    |                    |                                  |                             |

| The Law Library Fund accounts for activities of the legal library located in the Courthouse. Clay County has adopted an ordinance imposing a \$65 court cost on persons guilty of any felony, misdemeanor or criminal traffic offense. Per FS 939.185 (1)(a)3, 25% of these funds generated are used to support this fund. Any funds not utilized at fiscal year end can revert to the original fund (#134). |                    |                    |                    |                                  |                             |

| The State Court - Local Requirements Fund provides funding for State Court programs. Clay County has adopted an ordinance imposing a \$65 court cost on persons guilty of any felony, misdemeanor or criminal traffic offense. In accordance with Florida Statute 939.185(1)(a), 29.004 and 29.008(2)(a)2, 25% of these funds collected shall be utilized to fund innovations to the State Court System, as determined by the Chief Judge of the Circuit Court. |                    |                    |                    |                                  |                             |

| The Sidewalk Fund was created to accept developer donations as an alternative to sidewalk construction. Funds will be required to be spent by the County not on the immediate property, but rather within a geographic area in the contributing property's vicinity. |                    |                    |                    |                                  |                             |

**PROGRAM/DIVISION: BOARD OF COUNTY COMMISSIONERS**  
**DIVISION NUMBER: 0100**

**DIVISION DESCRIPTION:**

The Board of County Commissioners is a five-member governing Board elected by single-member districts for terms of four years. The Commission establishes policies and appoints a County Manager to implement the policies and manage the operations of the County. The Board annually adopts the millage rate and approves the budget which determines the expenditures and revenue necessary to operate all County government as well as the funding of capital programs, such as road paving, drainage projects, and construction of facilities designed to provide better governmental services to the citizens of the County. County services range from indigent health care to public branch libraries, from recreation to road, bridge and drainage maintenance, from building permit issuance and inspections to fire and rescue. The powers and duties of the County Commission are established by Florida Statutes, Chapter 125.

**DIVISION GOAL:**

The goals and objectives of the Clay County Board of County Commissioners directly relates to its mission to provide for the quality of life, safety and health of the County's citizens. The Commission is committed to a vision of a better tomorrow and the best possible today to make Clay County a place we can all be proud of. It is the Commission's goal to conservatively provide for the future growth and development of Clay County while addressing the needs and concerns of current residents through the development of fiscally responsible resolutions and ordinances.

## 3. Budget by Fund &amp; Program

**PROGRAM/DIVISION:** COUNTY MANAGER'S OFFICE  
**DIVISION NUMBER:** 0101

**DIVISION DESCRIPTION:**

The County Manager is the executive officer of county government and as such provides leadership, direction and management to all departments that are responsible to the Board of County Commissioners (except the Commission Auditor and County Attorney's Office). As established in Florida Statute 125 and in accordance with County Ordinance, the County Manager implements and administers the policies and programs established by the Board of County Commissioners. In addition to state law and local ordinances, the County Manager is bound by the code of ethics of the International City & County Management Association (ICMA).

**DIVISION GOAL:**

The County Manager's Office mission is to manage and direct all activities of the county government as outlined by the County Charter, Code of Ordinances, and as directed by the Board of County Commissioners. The County Manager's Office strives to provide the residents of Clay County with services that are efficient, effective and meet their needs through customer service-based delivery.

**PROGRAM/DIVISION:** MANAGEMENT INFORMATION SYSTEMS (MIS)  
**DIVISION NUMBER:** 0107

**DIVISION DESCRIPTION:**

The Management and Information Systems (MIS) Division is a centralized and consolidated program primarily concerned with the use of electronic computers and computer software to convert, store, protect, process, transmit and retrieve information. MIS is also responsible for the telecommunication network and devices for all constitutional officers except the Sheriff's office. MIS is tasked with maintaining the County's website and social media presence. In addition, MIS is responsible for creation and maintenance of the spatial data for the County. This information is then used to produce maps and analyze information to help the various departments make more effective decisions and includes maintaining the countywide addressing database for E911.

**DIVISION GOAL:**

Provide a reliable, modern, and integrated information and communications infrastructure that will support quality services and the communication and technology needs of both internal and external users, as well as, support the County's goals and objectives through innovative technology implementations and prudent technology investments while providing professional and courteous support services to the employees and citizens of Clay County. In addition, to support the County's goals and objectives by providing a single source for geographically related information that both the County departments and citizens can utilize.

## 3. Budget by Fund &amp; Program

**PROGRAM/DIVISION:** COMMISSION AUDITOR  
**DIVISION NUMBER:** 0200

**DIVISION DESCRIPTION:**

The Clay County Home Rule Charter sets forth the responsibilities of the Commission Auditor as follows. The Commission Auditor shall be responsible for the maintenance of the internal controls employed to monitor and document financial, performance, efficiency and compliance matters related to all components and programs of County government directly under the Board of County Commissioners, and for interfacing with all external auditors engaged by the Board of County Commissioners.

**DIVISION GOAL:**

Conduct financial and compliance, economy and efficiency, and performance and post audits of all components and programs of county government directly under the Board of County Commissioners.

**2016/2017 ACCOMPLISHMENTS:**

- Monitored internal financial and performance controls for BCC operating departments. Continuously monitored and assessed the effectiveness of standing board policies.
- Coordinated with and supported the efforts of the Board's outside auditors in completing the Annual County Financial Statement Audit.
- Provided non-audit financial, managerial and performance consulting services to the County Manager and operating directors.
- Continually provided financial, budgetary and economic analysis to the BCC and County Manager.
- Served as support staff to the Board's committee(s) as directed.

**2017/2018 GOALS & OBJECTIVES:**

- Monitor operating departments for conformity with Board of County Commissioners' policies.
- Monitor operating departments for compliance with applicable statutory and regulatory requirements.
- Periodically assess operating department's performance to ensure that program goals are accomplished efficiently, economically and timely.
- Serve as principal staff to the Board's committee(s) as directed.

### 3. Budget by Fund & Program

- Interface with all external auditors employed by the Board of County Commissioners.
- Provide financial analysis, advice and counsel to the Board of County Commissioners.
- Provide technical support to the County Manager and County Attorney as needed.

#### **PERFORMANCE MEASURES:**

This program's goals and objectives are codified in the Clay County Home Rule Charter. The Commission Auditor functions primarily to support the Board's oversight role. By design, the Commission Auditor has no management authority and cannot compel any operational action, except that he may require any member of the operating staff to comply with his requests for information, reports, data, etc. Because no process-oriented action may be directly caused to occur, there are no program outputs which may be objectively measured.

The primary inputs for this program are staff time (approximately 2,000 +/- staff hours) available per fiscal year; however, many more hours are spent assessing impacts of evolving board policies on internal control and training (80 hours every two years, but no fewer than 20 hours in any single year required by state law) for a single staff professional. Operating costs are nominal, with virtually all expense concentrated in compensation and State-required training.

Performance measurement for this program is subjective. Program results cannot be objectively related to program inputs in any significantly meaningful way. For example, if a program goal for a given year were "to conduct six performance audits," and only three were conducted, is that performance measure objectively good or bad? What if continuous monitoring and assessment of internal controls eliminated the need to perform the remaining three audits? That is objectively a "good" thing, however in this case the office would not have achieved its performance goal, so it might also be viewed erroneously as "bad." To continue the example: What if the same continuous monitoring and assessment of internal controls revealed control failures or other problems necessitating ten audits instead of the originally planned six audits? If the office conducts four more audits than planned because of control failures, is that "good" program performance or "bad?" To evaluate the performance of this program on such a basis yields questionable and unusable evaluative data. As a result, performance evaluation of this program is subjective and is achieved through the continuous direct supervision of the office by the Board of County Commissioners. Program performance is controlled through the collective charter authority of the Board to terminate the employment of the Commission Auditor, with or without cause at any time, with a simple majority public vote of that body.

## 3. Budget by Fund &amp; Program

**PROGRAM/DIVISION:** FINANCE OFFICE  
**DIVISION NUMBER:** 0201

**DIVISION DESCRIPTION:**

The Finance Office is a service division of the Board of County Commissioners, its departments and the public. It is responsible for financial reports, accounting records, vendor and payroll disbursements, banking, debt service administration and fixed asset accounting related to the Board of County Commissioners.

**DIVISION GOAL:**

To provide professional accounting and financial services to the Board of County Commissioners including, but not limited to, fulfilling all financial obligations, safeguarding all assets, maintaining proper internal controls and complying with Board policies.

## 3. Budget by Fund &amp; Program

**PROGRAM/DIVISION: PURCHASING**  
**DIVISION NUMBER: 0204**

**DIVISION DESCRIPTION:**

The Purchasing Division serves as a central purchasing office to ensure compliance with State purchasing laws and County policies (Purchasing, Travel and Uniform Policies). The program assists with determining the legality and public purpose of all purchases by evaluating and processing requisitions and managing all aspects of the competitive bidding process. The Purchasing Division is responsible for enforcing compliance with purchasing policies, as well as providing periodic training. Further functions include maintaining a list of authorized County purchasing agents, establishing new vendors, and providing contract administration assistance for consulting and other procurement related contracts, as well as vendor compliance related to State and Federal grants. In addition, the Purchasing Division is responsible for processing, indexing, certifying, retrieving, and maintaining permanent files of all contracts, resolutions, and ordinances; recording and preparing the minutes for the Board of County Commissioners meetings, workshops, and special meetings; maintaining closed court cases public records and draft public inspection documents. Research of the minutes and all indexes for pertinent information is provided to various County divisions, as well as the public. In addition the Division manages professional contracts such as Grant Writing and/or Lobbying Services.

**DIVISION GOAL:**

Provide centralized purchasing and related contract services to County departments in a cost effective and efficient manner that maximizes the purchasing value of public funds in procurement, supports the fair and equitable treatment of all persons involved in public purchasing by the County, and facilitates safeguards for maintaining a procurement system of quality and integrity. Provide contract administration services that provide assistance with contract negotiations and oversight of contractual obligations related to services provided to the County. Provide a means of numbering, indexing, and retaining all official County documents as required.

## 3. Budget by Fund &amp; Program

**PROGRAM/DIVISION: PROPERTY APPRAISER**  
**DIVISION NUMBER: 0401**

**DIVISION DESCRIPTION:**

The Property Appraiser's Office is the County agency charged with determining the value of all property in the County and maintaining certain records connected with the determination of value for ad valorem tax purposes. The Property Appraiser's Office administers all exemptions from ad valorem tax such as homestead, disability, widows, charitable, and religious. The Property Appraiser's Office annually submits an assessment roll on or before July 1, to the State of Florida Department of Revenue for review and approval. Once approved, the Property Appraiser's Office then certifies the assessment roll to the Tax Collector for the production of the annual property tax bills.

**DIVISION GOAL:**

It is the commitment of the Property Appraiser's Office to execute the duties and responsibilities of the office in a fair and equitable manner, to provide accurate information in a courteous and professional manner, and to assist all those who request or display a need for assistance, without exception.

**2016/2017 ACCOMPLISHMENTS:**

- Participated in local and State committees that provide regional guidance that strengthens both the local and regional Emergency Services Programs.
- Continued the application and management of Federal, State and local grants aimed at augmenting revenue for the enhancement of services to the citizens and visitors we serve.
- Continued working with the County's Management Information Systems (MIS) Division to make improvements in the Public Safety Department's use of technology focusing on program measurement and systems performance.
- Maintained Emergency Medical certification management for all employees during the certification cycle.
- Substantially completed the processes and accompanying policies that allow the Public Safety Department's documentation systems to be virtually paperless while improving accuracy and efficiency in finance and operational response.
- Utilized a web based training system to enhance the Public Safety Department's continuing education/recertification efforts and meet ongoing Insurance Service Office (ISO) compliance requirements, as well as, monitor performance measures.

### 3. Budget by Fund & Program

- Modernized the response of the Operations Division to include major changes in resource assignment allocations and communication procedures.
- Completed the procurement of and placed into service, a full time staffed Ladder Company in Oakleaf Station 26.

#### 2017/2018 GOALS & OBJECTIVES:

- Continue to improve the competency and capability of employees to function in more senior organizational roles and duties, through training and mentoring, in order to meet the growing demands of the Clay County Public Safety Department.
- Continue to enhance the quality assurance/quality improvement approach of the Division's documentation efforts to insure an evidence based medicine approach while improving revenue returns.
- Coordinate committees that perform major Division direction including, but not limited to, health and safety, quality assurance and equipment purchases. These committees result in efficient services and cost effective planning that promotes Divisional effectiveness.
- Maintain a successful bargaining agreement with the collective bargaining unit that encompasses all ranks to include the battalion chiefs.
- Continue to develop increased efficiency of the payroll, communications, equipment inventory, reporting and employee recall systems.
- Continue to modernize the response of the Operations Division to include major changes in resource assignment allocations and communication procedures.
- Hire 24 additional firefighter/EMT's to increase the minimum staffing.
- Place into service a 'peak time' pre-hospital emergency medical vehicle to assist with increased volume of calls for service throughout the County.
- Complete the procurement of and place into service a multi-functional training facility for the Public Safety Department.
- Continue to utilize a web based training system to enhance the Public Safety Department's continuing education/recertification efforts and meet ongoing ISO compliance requirements, as well as, monitor performance measures.

**PROGRAM/DIVISION: LIBRARIES**  
**DIVISION NUMBERS: 3301, 3302, 3303, 3304, 3306, 3310**

#### DIVISION DESCRIPTION:

The Clay County Library System five libraries provide full service library operations with regional size facilities in the Orange Park and Fleming Island communities and small libraries serving Green Cove Springs, Keystone Heights and Middleburg-Clay Hill.

#### DIVISION GOAL:

The Clay County Library System's goal is to provide comprehensive library services to patrons of varying interest and ages. To make that happen, the Library offers e-books and e-resources; current, popular and high interest materials in multiple formats; and reliable informational, academic, business and family research resources. The Library is committed to assisting students, preschool to grade twelve, in meeting their educational objectives, closing the Digital Divide and supporting lifelong learning for all individuals. It provides year-round quality programming for children of all ages, emphasizing the growth of literacy skills and the love of reading; an important part, children's participation in the library system's dynamic Summer Reading Program. In addition, the Library continues to expand its role as a community center where individuals and families gather for personal and career enhancement classes, educational programs, cultural events and exhibits.

### 3. Budget by Fund & Program

**PROGRAM/DIVISION: EXTENSION SERVICES/AGRICULTURE**  
**DIVISION NUMBER: 3401**

#### DIVISION DESCRIPTION:

Clay County Extension Service develops and delivers research-based educational programs, workshops, newsletters and publications in the areas of agriculture/small farms, family and consumer sciences, horticulture, natural resources and 4-H/youth development. The nationwide informal educational network utilizes links in expertise and other resources on federal (USDA), state (UF/IFAS) and local (BCC) levels. Local advisory committees provide guidance and recommendations for programming based on local community needs.

Programs in Agriculture/Small Farms/Natural Resources focus on agricultural profitability and the sustainable use of environmental resources for commercial operations as well as those smaller farms with more limited available resources. Family and Consumer Sciences programming involves food, nutrition and health, food safety (including training of Master Food and Nutrition Volunteers) and family finance. 4-H clubs develop youth leadership, character and good citizenship. Projects and programs focus on a wide array of youth interests. Home and Commercial Horticulture programs include training of Master Gardeners and development of Best Management Practices (BMPs) for the benefit of the environment for all County residents.

#### DIVISION GOAL:

The mission of University of Florida's Clay County Extension Service is to provide research-based information and educational programs to the people of Clay County to improve the quality of life of County residents. This information and these programs are in the areas of family life, youth development, natural resources, horticulture and agriculture.

#### 2016/2017 ACCOMPLISHMENTS:

- 93% of residents who used Extension services reported that they were satisfied with the service they were provided, and 87% reported that Extension solved their problem or answered their question.
- A strategic plan, using citizen input, was developed for Extension services that aligns with the County's vision, mission, and values. The goal of this plan is to increase public engagement.
- 486 Board of County Commissioner employees participated leadership training delivered by Extension Services; 85% of respondents indicated they were able to use the knowledge they gained through the training courses, and 68% reported being better able to perform their job as a result of the training.

## 3. Budget by Fund &amp; Program

- Extension Services received a grant from the USDA that supports a full-time community-based nutrition educator for low-income families and seniors.
- Return on Investment: For every dollar the County invests in Extension Services there is direct return of \$2.14 to the County from UF, USDA, grants and contributions.

**2017/2018 GOALS & OBJECTIVES:**

- Expand County employee training program and develop a certificate in leadership and management for program completers.
- Recruit and train volunteers to extend and support Extension education programs and services.
- Increase BCC department/division utilization of Extension services and expertise.
- Transition to a new website and electronic newsletter.

### 3. Budget by Fund & Program

**PROGRAM/DIVISION: FLEET & FUEL MANAGEMENT**  
**DIVISION NUMBER: 3712**

#### DIVISION DESCRIPTION:

The Fleet & Fuel Management Division provides efficient and effective county fleet services by providing customer agencies with safe, reliable, economical, environmentally sound transportation and related services that are responsive to the needs of the individual customer groups, as well as conserving vehicle value and equipment investments. The Division also operates and maintains the countywide vehicle refueling system. Fleet & Fuel Management's primary objective is to control the overall cost of operating and maintaining the County's fleet of vehicles and equipment through development and implementation of a comprehensive vehicle use and replacement program using objective criteria such as age, usage levels and maintenance costs.

#### DIVISION GOAL:

The mission of the Fleet & Fuel Management Division is to provide efficient and effective county fleet and fuel services by providing customer agencies with safe, reliable, economical, environmentally sound transportation and related services that are responsive to the needs of the individual customer groups, as well as conserving vehicle value and equipment investments.

### 3. Budget by Fund & Program

**PROGRAM/DIVISION: ENVIRONMENTAL CLEAN-UP**

**DIVISION NUMBER: 3801**

**DIVISION DESCRIPTION:**

This is a temporary program for the continued contamination assessment and restoration of the Knowles Pit and Sleepy Hollow sites. The contamination assessments are required by FDEP Consent Orders issued for each site in 2006. The completion of the contamination assessments and final restoration are the last phase of this program which involved the excavation, sorting and disposal of improperly buried solid wastes at each site. Since inception of the program, the assessments have been completed at the Masters Pit, Nolan Pit and High Ridge Estates sites with FDEP's issuance of Site Rehabilitation Completion Orders (SRCO).

The only remaining routine contamination assessment work is conducted at the Sleepy Hollow site where FDEP has requested additional sampling to ensure there is little to no residual contamination. The Sleepy Hollow assessment work includes annual sampling of eight wells. None of the other sites have any routine assessment requirements.

The specific tasks for each of the sites are detailed in the Additional Information section below. Finishing the contamination assessments will be the implementation of institutional controls - restrictive covenants - at the Masters Pit, Nolan Pit, Knowles Pit, and Sleepy Hollow sites. These documents were submitted to FDEP and the State Office of General Council for review in 2016. The final restoration of the sites will include the abandonment and removal of the groundwater monitoring wells upon completion of the contamination assessments and written approval from FDEP.

**2016/2017 ACCOMPLISHMENTS:**

- Restrictive covenant documents were prepared and submitted to the State Office of General Council for the Knowles Pit, Sleepy Hollow, Masters Pit and Nolan Pit sites.
- The second annual sampling event was conducted at the Sleepy Hollow Site.

**2017/2018 GOALS & OBJECTIVES:**

- Implement the restrictive covenants at the Knowles Pit, Sleepy Hollow, Masters Pit and Nolan Pit sites.
- Conduct the third annual sampling event at the Sleepy Hollow Site.
- Receive a Site Rehabilitation Completion Order for Knowles Pit.

## 3. Budget by Fund &amp; Program

**ADDITIONAL INFORMATION:**

The specific tasks to be conducted at each of the sites in association with this program are detailed below.

Knowles Pit:

- FDEP requested that the County implement a restrictive covenant on the property. The restrictive covenant was prepared and submitted to the State Office of General Council (OGC) for review and comment. After OGC completes their review, the restrictive covenant will be executed by the County. At least one more sampling event is expected, which will include:
  - Surface water sampling
  - Groundwater sampling
  - Submittal of a Contamination Assessment Report Addendum
- Abandon the on-site monitoring wells.
- Prepare a well abandonment report for submittal to FDEP.

Sleepy Hollow:

- Submitted updated Contamination Assessment Analysis and Proposed Sampling Plan in January 2013.
  - FDEP approved annual sampling at the site in correspondence dated March 6, 2014.
- Annual Sampling includes groundwater sampling from eight (8) onsite wells. The annual sampling is expected to last five (5) years; however, if concentrations decrease quicker than expected a cessation of sampling will be requested.
- The second annual sampling event was conducted in September of 2016 and the report submitted to FDEP on October 26, 2016.
- The third annual sampling event will be conducted in the third quarter 2017.
- FDEP has requested that the County implement a restrictive covenant on the property. The restrictive covenant was prepared and submitted to the State Office of General Council (OGC) for review and comment. After OGC completes their review, the restrictive covenant will be executed by the County.
- Abandon the on-site monitoring wells.
- Prepare a well abandonment report for submittal to FDEP.

Masters Pit:

- SRCO issued from FDEP, all assessment work completed.
- The County prepared a restrictive covenant and submitted it to the State Office of General Council (OGC) for review and comment. After OGC completes their review, the restrictive covenant will be executed by the County.

Nolan Pit:

- SRCO issued from FDEP, all assessment work completed.
- The County prepared a restrictive covenant and submitted it to the State Office of General Council (OGC) for review and comment. After OGC completes their review, the restrictive covenant will be executed by the County.

High Ridge Estates:

- SRCO issued from FDEP, all work completed.

## ***BUDGET BY MUNICIPAL SERVICE TAXING UNITS (MSTUs)***

## 3. Budget by Fund &amp; Program

**PROGRAM/DIVISION: PLANNING & ZONING**  
**DIVISION NUMBER: 1804**

**DIVISION DESCRIPTION:**

The Planning & Zoning Division monitors and manages the Comprehensive Plan and the Land Development Regulations, providing assistance to the public in both of these areas. The Division manages the county flood management program, operates the Currency Management System, manages the impact fee system, and initiates and reviews amendments to the Comprehensive Plan and Land Development Regulations, including the Zoning Code. Reviews of multiple zoning permits are performed, including but not limited to, Home Occupation Permits, Sign Permits, Roadside Solicitation Permits and Heirs Exemptions. The Division performs transportation planning activities and represents the County on the Technical Coordinating Committee and Bicycle/Pedestrian Committee of the Transportation Planning Organization for the Jacksonville Urbanized Area. The Division reviews development proposals as a member of the County's Development Review Committee, develops staff reports for comprehensive plan amendments and rezoning applications, and monitors the Developments of Regional Impact within the County. Finally, the Division provides administrative and professional support to the Planning Commission and the Board of Adjustment.

**DIVISION GOAL:**

To provide for planned and orderly growth while improving the quality of life for County residents.

## 3. Budget by Fund &amp; Program

**PROGRAM/DIVISION: ENGINEERING**  
**DIVISION NUMBER: 1805**

**DIVISION DESCRIPTION:**

The Engineering Division serves as the primary point of contact for development submittals and reviews, and approves technical aspects of new subdivisions and new commercial site developments from plat to final plans approval. The Division inspects the construction of new sites, ultimately recommending acceptance of the streets and drainage to the Board of County Commissioners. The Division also manages the design and construction of all capital improvement projects funded by the County using a combination of consultants and in-house personnel. In addition to these primary responsibilities, the Division also provides the following services: processing and recommendations concerning road closures of County owned rights-of-way (ROW) that are requested by the public; permitting and supervision of all utility work done within the County ROW; permitting and supervision of all construction that is requested by the public within the ROW; implementation of the Federal Department of Environmental Protection MS4 permit program compliance; implementation of the Total Maximum Daily Load program compliance; and coordination of grant applications and fulfillment operations with various agencies, as needed.

**DIVISION GOAL:**

The mission of the Clay County Engineering Division is to design, build, and maintain the safest, most efficient roadway network and drainage systems possible for the citizens of Clay County. We will continue to ensure the safety of motorists while supporting the continued growth demands of the County. The Division also pledges to be fiscally responsible and accountable to the public for projects completed and funds expended.

- Started construction on Challenger Center Roadway and Indigo Avenue.
- Continued partnership with St. Johns Riverkeeper for public awareness assistance.
- Provided review and inspection services for 23 commercial and 10 residential developments.
- Submit four (4) Highway Safety Improvement Projects (HSIP) and one (1) County Incentive Grant Program (CIGP) to the Florida Department of Transportation for project funding.

### 3. Budget by Fund & Program

#### 2017/2018 GOALS & OBJECTIVES:

- Streamline resident's questions between Streets & Drainage and Engineering Divisions to ensure that duplication of actions do not transpire.
- Continue construction of Sandridge Box Culvert Replacement.
- Continue design of County Road 220 Widening.
- Complete construction on Challenger Center Roadway and Indigo Ave.
- Continue partnership with St. Johns Riverkeeper for public awareness assistance.
- Seek Grant funding for off system bridge replacement, Hazard Mitigation, HSIP, CIGP, Disaster Recovery and Community Developments.
- Work with other departments to establish site development procedures.
- Update Clay County Land Development Regulations to meet current procedures and standards.

#### 2016/2017 ACCOMPLISHMENTS:

- Participated in local and State committees that provide regional guidance that strengthen both the local and regional Emergency Services Programs.
- Continued the application and management of Federal, State and local grants aimed at augmenting revenue for the enhancement of services to the citizens and visitors we serve.
- Continued working with the County's Management Information Systems (MIS) Division to make improvements in the Public Safety Department's use of technology focusing on program measurement and systems performance.
- Maintained Emergency Medical certification management for all employees during the certification cycle.
- Substantially completed the processes and accompanying policies that allow the Public Safety Department's documentation systems to be virtually paperless while improving accuracy and efficiency in finance and operational response.
- Utilized a web-based training system to enhance the Public Safety Department's continuing education/recertification efforts and meet ongoing Insurance Service Office (ISO) compliance requirements, as well as monitor performance measures.

## 3. Budget by Fund &amp; Program

- Modernized the response of the Operations Division to include major changes in resource assignment allocations and communication procedures.
- Completed the procurement of and placed into service, a full time staffed Ladder Company in Oakleaf Station 26.

**2017/2018 GOALS & OBJECTIVES:**

- Continue to improve the competency and capability of employees to function in more senior organizational roles and duties, through training and mentoring, in order to meet the growing demands of the Clay County Public Safety Department.
- Continue to enhance the quality assurance/quality improvement approach of the Division's documentation efforts to insure an evidence-based medicine approach while improving revenue returns.
- Coordinate committees that perform major Division direction including, but not limited to, health and safety, quality assurance and equipment purchases. These committees result in efficient services and cost effective planning that promotes Divisional effectiveness.
- Maintain a successful bargaining agreement with the collective bargaining unit that encompasses all ranks to include the battalion chiefs.
- Continue to develop increased efficiency of the payroll, communications, equipment inventory, reporting and employee recall systems.
- Continue to modernize the response of the Operations Division to include major changes in resource assignment allocations and communication procedures.
- Hire 24 additional firefighter/EMTs to increase the minimum staffing.
- Place into service a 'peak time' pre-hospital emergency medical vehicle to assist with increased volume of calls for service throughout the County.
- Complete the procurement of and place into service a multi-functional training facility for the Public Safety Department.
- Continue to utilize a web based training system to enhance the Public Safety Department's continuing education/recertification efforts and meet ongoing ISO compliance requirements, as well as monitor performance measures.

## 3. Budget by Fund &amp; Program

**PROGRAM/DIVISION: MOSQUITO CONTROL**  
**DIVISION NUMBER: 3709**

**DIVISION DESCRIPTION:**

The Mosquito Control Division works to minimize health risks and to reduce pestiferous insects including yellow flies, dog flies, and horse flies (bees, wasps and ticks are specifically excluded). The Division, as directed by the State of Florida and the Department of Agriculture, works to reduce mosquito populations within Clay County utilizing trapping and identification, natural control method, such as minnows or fish, and by chemical controls as authorized or approved by the state/federal governing agencies. In addition, the Division offers guidance to homeowners to enable them to identify potential arthropod and insect breeding areas within their properties and inspects and identifies other suspected breeding areas throughout the County.

**DIVISION GOAL:**

The mission of the Mosquito Control Division is to protect human health and safety, and to foster quality of life for the people of Clay County by reducing the number of pestiferous and disease carrying mosquitoes.

**2016/2017 ACCOMPLISHMENTS:**

- Effectively made two (2) complete sweeps of the entire county to apply larvicide in standing water containing larvae, thus reducing the mosquito population
- After Hurricane Matthew, the Division, with support from Streets and Drainage staff, sprayed the entire County reducing the potential increase in the mosquito population.
- Worked hand in hand with the Department of Health and other entities to ensure the safety of the citizens during and after the first positive ZIKA virus case in Clay County. The virus was overseas traveling, not the local mosquito population.
- Revised spraying protocols as to the timing and for targeted spray areas to be more effective in spraying practices.
- The Division Manager increased her knowledge by attending DODD courses; this also provided the necessary CEU's to maintain State of Florida Public Health Pest Control License.
- Outsourced the spraying for mosquitos for the last quarter of the year due to several retirements in the Division.

## 3. Budget by Fund &amp; Program

**2017/2018 GOALS & OBJECTIVES:**

- Increase the larvicide application throughout the County to reduce the emergent mosquito population.
- Continue to work closely with the State Lab to identify better chemicals and practices that are available to continue to help reduce the mosquito populations in Clay County.

## 3. Budget by Fund &amp; Program

**PROGRAM/DIVISION: TRAFFIC OPERATIONS**  
**DIVISION NUMBER: 3711**

**DIVISION DESCRIPTION:**

The Traffic Operations Division consists of two sections, (1) Signals and (2) Signs and Pavement Markings, to provide services for the convenient, efficient and safe travel for motorists, pedestrians and bicyclists.

The Signals Section performs maintenance services on all fully operational traffic signals, overhead flashing beacons, ground mounted beacons, school zone beacons, speed studies and traffic counts, and maintains statistics of traffic accidents and State-contracted street lighting. The Signs and Pavement Markings Section manufactures, installs and performs maintenance services on approximately 25,000 signs; and paints crosswalks, stop bars, word messages and pavement markings.

The administrative staff provides support and coordinates projects with managers; ensures timely and efficient processing of correspondence, project documents, records and logs; tracks the various maintenance operation work, materials and resources carried out in the Division; and maintains a record of requests and services.

**DIVISION GOAL:**

The mission of the Traffic Operations Division is to efficiently plan, schedule, develop and supply the highest levels of service by effective and efficient response management for maintenance of traffic signals, traffic signs, pavement markings, street lighting, speed studies, traffic counts and school zones for the safe flow of pedestrian and vehicular traffic on the County's roadways.

### 3. Budget by Fund & Program

**PROGRAM/DIVISION: TOURISM & FILM DEVELOPMENT**  
**DIVISION NUMBER: 1910**

#### DIVISION DESCRIPTION:

The Tourism & Film Development Division is responsible for planning, organizing and directing tourism activities and functions in the County. The division is responsible for developing marketing and public relations strategies and creating promotional/advertising materials (Internet, social media, articles, print advertising, brochures and visitor's guides) to brand an image of the County to leisure visitors and potential groups (i.e.: military reunions, small corporate and/or association meetings, etc.). Additionally, the Division administers budgetary allocations under established County ordinance and state law for the appropriate expenditures of the Tourist Development Trust Fund; serves as a direct liaison to the Tourist Development Council (TDC), representatives of the film industry and special event and sports tournament organizers; and implements and provides guidance to community special event organizers to help improve tourism participation.

#### DIVISION GOAL:

The Tourism & Film Development Division's mission is to strengthen the County's economy by developing awareness of the County's unique natural, recreational, historical and cultural assets to leisure travelers. With guidance from the Clay County Tourist Development Council, the Board of Commissioners and County Manager, the division strives to promote quality special events, sports tournaments and visitor experiences while encouraging preservation of the County's quality of life.

#### 2016/2017 ACCOMPLISHMENTS:

- Tourist Development Tax collections were \$605,000 for FY15-16, a 2.5% increase although hotel room inventory decreased by 500 units.
- Created an industry product database that serves as an inventory of all of Clay County's tourism product. This inventory includes, but is not limited to the following businesses: accommodations, meeting facilities, dining & nightlife, attractions, retail shopping, golf courses, events, spa services, etc.
- Connected CMT (Country Music Television) documentary team to the Clay County Archives and local developer to gain history and access to a variety of significant sites related to Lynyrd Skynyrd. Documentary is expected to premiere on CMT in 2018.

## 3. Budget by Fund &amp; Program

- With the guidance of the TDC, restructured the event grant standards, application and metrics to encourage event growth.
- Began a referral process with the Parks & Recreation Division so that they refer to Tourism any inquiries that could not be serviced by Parks & Recreation facilities in an effort to keep the business in Clay County.
- Launched Clay County's first visitor profile research project.
- Hosted an industry strategic planning session to build future marketing and sales activities.
- Established a Clay County photo library to be used to brand the County in social media, publications, documents (internal and external), reports, presentations, etc. Worked with Management Information Systems (MIS) Division to give access to designated images to various departments.

**2017/2018 GOALS & OBJECTIVES:**

- Engage at least one representative from each of the recognized hospitality/tourism sectors (accommodations, attractions/things to do, dining & nightlife, retail shopping, golf courses, events, meeting space/venues, etc.) in content development, communication updates, calendar of events updates and other strategic destination marketing and communications efforts.
- Increase annual TDT collections by minimum of 2% over FY 2016-2017.
- Work with Florida's First Coast of Golf (FFCG) to increase the tourist rounds of golf played and golf travel room nights in Clay County, while increasing golf course participation by 50% and 25 mentions in FFCG content.
- Join and be an active participant in the Florida Outdoor Writers Association to gain a minimum of 10 trusted media contacts that produce 10 mentions/stories about Clay County destination assets.
- Distribute 10 group leads to area hoteliers.
- Keep an inventory of destination product assets and share that with County leadership and industry professionals.
- Respond to five (5) film/TV leads from the State of Florida Film Office and service a minimum of 2 film crews.

### 3. Budget by Fund & Program

**PROGRAM/DIVISION: BUILDING**  
**DIVISION NUMBER: 1803**

#### DIVISION DESCRIPTION:

The Building Division safeguards health, safety and welfare through permitting, licensing and inspections. The Division reviews construction drawings to ensure compliance with all applicable Florida Building Codes, answers consumer complaints and inspects existing buildings to ensure minimum standards are met. Inspectors obtain and keep applicable licenses with the State of Florida and stay current with continual changes and updates to the Florida Building Codes through continued training in their different disciplines. The Division also receives, investigates and resolves complaints on licensed and unlicensed contractors in an expedient and cost effective manner.

#### DIVISION GOAL:

The Clay County Building Division's mission is to serve customers with professionalism and efficiency through licensing, permitting and inspections to ensure the health, safety and welfare of the community. Licensing protects citizens and contractors. Permitting protects citizens against unlicensed contractors and prevents misplacement of structures on properties. Inspections are performed in stages to ensure compliance with the Florida Building Codes. All deficiencies are noted and re-inspected to ensure work is done to meet the code before a certificate of occupancy is issued. The Building Division is proud of providing fast and efficient service to customers throughout the community.

### 3. Budget by Fund & Program

**PROGRAM/DIVISION:** FIRE INSPECTIONS  
**DIVISION NUMBER:** 1709

#### DIVISION DESCRIPTION:

The Clay County Fire Inspections Division implements fire loss management by conducting fire and life safety inspections in new and existing buildings for compliance with State mandated fire codes. The Division also reviews construction documents and permits for adherence with current fire codes.

#### DIVISION GOAL:

Through effective plan review and inspection, reduce the causes and limit potential effects of accidental fires and emergencies thereby enhancing life safety outcomes for residents and visitors of Clay County.

### 3. Budget by Fund & Program

## ***BUDGET BY ENTERPRISE FUNDS***

## 3. Budget by Fund &amp; Program

**PROGRAM/DIVISION: ENVIRONMENTAL SERVICES**  
**DIVISION NUMBER: 3802**

**DIVISION DESCRIPTION:**

The Environmental Services Division provides solid waste disposal and recycling services to accommodate the residential and commercial needs of Clay County. Residential solid waste and recyclables collection services are provided by a contracted franchised hauler and five (5) County operated drop-off centers. Commercial services are provided by up to 15 non-exclusive franchised haulers. Disposal and recyclables transfer operations are performed at the Rosemary Hill Solid Waste Management Facility with waste disposal in an out-of-county sanitary landfill. Recyclables are shipped to various processors.

**DIVISION GOAL:**

Provide economical solid waste and recyclables services and facilities in support of public health, sanitation, environmental protection and operational efficiency; all within available funding.

**2016/2017 ACCOMPLISHMENTS:**

- Provided post-closure monitoring and maintenance of ten (10) closed disposal facilities in compliance with Florida Department of Environmental Protection permits and successfully reduced monitoring requirements at some of the closed landfills.
- Managed transfer station operations and yard trash processing contract.
- Managed countywide residential waste and recyclables collection franchise services for more than 64,000 residential dwellings and managed 14 commercial collection franchises.
- Reduced costs to customers through reduction in special assessments and tipping fees.
- Managed Keep Clay Beautiful Program which included two (2) major cleanup events with several hundred volunteer participants, as well as adding five (5) new groups to the Adopt-A-Mile program.

**2017/2018 GOALS & OBJECTIVES:**

- Provide long term transfer station/disposal operations and facilities to ensure proper disposal of all solid waste received, without an increase in Class I, C&DD and Yard Trash tipping fees, or residential assessments.

### 3. Budget by Fund & Program

- Provide post-closure monitoring and maintenance of the County's ten (10) closed landfills, performed to a high standard to ensure 100% compliance with state FDEP permit conditions.
- Provide household hazardous waste and special waste drop-off center(s) with at least two (2) outreach collection events; all in 100% compliance with FDEP rules and regulations.
- Provide residential and commercial collection of solid waste and recyclables through an exclusive residential franchised hauler and multiple non-exclusive commercial franchised haulers.
- Improve residential and commercial collection of solid waste and recyclables processing methods to achieve improved productivity and quantities of recovered materials.
- Provide Keep Clay Beautiful Program to promote public awareness through Adopt-A-Mile Program and cleanup.
- Increase participation in the County's recycling program.
