Key

-	Counts as used laytime or as demurrage.
*	Does not count as used laytime or as demurrage.
0	Does not count as used laytime.
*1	Will prevent the start of laytime, but if laytime is running will count as used laytime or demurrage.
1/2	Demurrage for any delay incurred counts at half-rate.
*1/2	Awaiting tides does not count as laytime/demurrage, but delay due to tides not reasonably predictable counts at half-rate.
1/2*	Half rate in ExxonMobil Voy2005 and Voy2012 for restricted visibility, otherwise counts in full. Not in Voy2000.
+	Does not count as used laytime and demurrage unless concurrent with loading or discharge.
/	Not specifically referred to in charter party.
TBA	To be written into the charter party.
(1hr)	All time to count if allowance for documents is exceeded.
25%*	Additional 25% pumping allowance only if charterers request washing in excess of Marpol minimum requirements.
#	Applies only to Shellvoy6
