Fundamentals of Carpentry

Invest in Yourself or Someone Else

Carpentry Fundamentals is a hands-on course that covers framing materials and methods for floors, walls, ceilings and roofs. Individuals will learn to correctly frame walls with openings, intersecting partitions, how to identify load bearing vs non-load bearing walls, layout walls, ceilings and rafters. Hands-on application will include the use of common power tools necessary for framing.

Cost \$480 (*We accept Visa, MasterCard & Discover*)
